The Texas Education Agency (TEA) requires candidates to undergo a criminal background check prior to field-based experience, prior to clinical training, and prior to being hired as a first-year teacher. Candidates may go through the fingerprinting process before applying for admission. If the results are unsatisfactory, the candidate may petition the TEA for reconsideration of the results. More information on this important rule is on the Education program website at: https://glasscock.rice.edu/degrees-certificates/degrees/master-arts-teaching/master-arts-teaching-new-teachers

Transfer Credit

For Rice University's policy regarding transfer credit, see Transfer Credit (p. 64). Some departments and programs have additional restrictions on transfer credit. Students are encouraged to meet with their academic program's advisor when considering transfer credit possibilities.

Additional Information

For additional information, please see the Education program website: https://glasscock.rice.edu/departments/education-department
Opportunities for the MAT Degree, for New Teachers
Requirements for Visiting Post-Baccalaureate (VPB) Certification
A non-degree (Visiting Post-Baccalaureate) plan leading to secondary teacher certification or principal certification is available for those who have earned a BA and/or MA degree, but do not choose to pursue a Rice University graduate degree. Candidates complete all requirements for state of Texas secondary teacher certification or principal certification, including professional education courses. Interested students should contact the Education Program.

Additional Information
For additional information, please see the Education program website: https://glasscock.rice.edu/departments/education-department/

ashu@rice.edu

The Electrical and Computer Engineering (ECE) department provides high-quality degree programs that emphasize fundamental principles, respond to the changing demands and opportunities of new technology, challenge the exceptional abilities of Rice students, and prepare students for roles of leadership in their chosen careers.

The department's research areas include: Computer Engineering; Data Science; Neuroengineering; Photonics, Electronics, and Nano-devices; and Systems.

- **Computer Engineering** topics include: computer architecture, high-performance application specific systems, mobile and embedded systems, integrated circuits and antennas for medical imaging and bio-sensing, and parallel I/O for large-scale network storage systems.
- **Data Science** topics include: data acquisition, data analytics, data storage, and computing infrastructure.
- **Neuroengineering** topics include: neural signal processing, brain-computer interfaces at the device, circuit, and systems levels.
- **Photonics, Electronics, and Nano-devices** topics include: nanophotonics/nanospectroscopy, molecular electronics, biophotonics, ultrafast optics and optoelectronics, materials for energy, semiconductor optics and devices, multispectral imaging and terahertz imaging, and condensed matter physics/materials science.
- **Systems** topics include: communications systems, dynamical systems and computation, networks, signal and image processing, wireless networking, pattern recognition, scalable personal healthcare, and computational neuroscience and neuroengineering.

The Electrical and Computer Engineering department offers two undergraduate degree programs. The Bachelor of Science in Electrical Engineering (BSEE) degree program is comprehensive and covers fundamental and emerging hardware and software topics. Courses, research, and design projects grouped in four areas of specialization prepare students for technical leadership in engineering, computing, and science careers. The ECE department also offers a Bachelor of Arts (BA) in Electrical Engineering degree program.

The Electrical and Computer Engineering department offers two graduate degree programs. The Master of Electrical Engineering (MEE) degree is a course-based program designed to increase a student's mastery of advanced subjects; no thesis is required. The MEE prepares a student to succeed and advance rapidly in today's competitive technical marketplace.

The Doctor of Philosophy (PhD) degree program prepares students for a research career in academia or industry. The PhD degree program consists of formal courses and original research conducted under the guidance of a faculty advisor, leading to a thesis. Students in the PhD program complete a Master of Science (MS) degree as part of their program; the Electrical and Computer Engineering department does not admit students for a terminal MS degree.

**Bachelor's Programs**
- Bachelor of Arts (BA) Degree with a Major in Electrical Engineering (p. 391)
- Bachelor of Science in Electrical Engineering (BSEE) Degree (p. 395)

**Master's Programs**
- Master of Electrical Engineering (MEE) Degree (p. 401)
- Master of Science (MS) Degree in the field of Electrical and Computer Engineering*

**Doctoral Program**
- Doctor of Philosophy (PhD) Degree in the field of Electrical and Computer Engineering (p. 400)

* Although students are not normally admitted to a Master of Science (MS) degree program, graduate students may earn the MS as they work towards the PhD.

**Description and Code Legend**

*Note: Internally, the university uses the following descriptions, codes, and abbreviations for this academic program. The following is a quick reference:

**Course Catalog/Schedule**
- Course offerings/subject code: ELEC

**Department Description and Code**
- Electrical and Computer Engineering: ELEC

**Undergraduate Degree Descriptions and Codes**
- Bachelor of Arts degree: BA
- Bachelor of Science in Electrical Engineering degree: BSEE

**Undergraduate Major Description and Code**
- Major in Electrical Engineering (both BA and BSEE degrees): ELEG

**Undergraduate Major Areas of Specialization Descriptions and Attribute Codes**
- Area of Specialization in Computer Engineering (both BA and BSEE degrees): EECE
- Area of Specialization in Data Science/Systems (both BA and BSEE degrees): EEDS
- Area of Specialization in Neuroengineering (both BA and BSEE degrees): EENE
- Area of Specialization in Photonics, Electronics, and Nano-devices (both BA and BSEE degrees): EEPH

*Please Note: Areas of Specialization are department/program-specific and are not formally recognized academic credentials. Unlike Major Concentrations, Areas of Specialization do not appear on the student’s official academic transcript, etc.

**Graduate Degree Descriptions and Codes**
- Master of Electrical Engineering degree: MEE
- Master of Science degree: MS
- Doctor of Philosophy degree: PhD

**Graduate Degree Program Descriptions and Codes**
- Degree Program in Electrical Engineering (MEE degree): ELEG
- Degree Program in Electrical and Computer Engineering (both MS and PhD degrees): ELEC

**CIP Code and Description**
- ELEC Major/Program: CIP Code/Title: 14.1001 - Electrical and Electronics Engineering
Bachelor of Arts (BA) Degree with a Major in Electrical Engineering

Program Learning Outcomes for the Bachelor of Arts Degree (BA) with a Major in Electrical Engineering

Upon completing the BA degree with a major in Electrical Engineering, students will be able to demonstrate:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. An ability to communicate effectively with a range of audiences.
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
6. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Requirements for the BA Degree with a Major in Electrical Engineering

For general university requirements, see Graduation Requirements (p. 26). Students pursuing the BA degree with a major in Electrical Engineering must complete:

- A minimum of 21-23 courses (63 credit hours) to satisfy major requirements.
- A minimum of 123 credit hours to satisfy degree requirements.
- A minimum of 60 credit hours outside of major requirements.
- A minimum of 8 courses (24 credit hours) taken at the 300-level or above.
- The requirements for one area of specialization (see below for areas of specialization). When students declare the major (p. 11) in Electrical Engineering, students must additionally identify and declare one of four areas of specialization, either in:
  - Computer Engineering (p. 11): provides a broad background in computer systems engineering, including computer architecture, digital hardware engineering, software engineering, and computer systems performance analysis, or
  - Data Science (p. 393)/Systems: integrates the foundations, tools and techniques involving data acquisition, data analytics, data storage and computing infrastructure in order to enable meaningful extraction of actionable information from diverse and potentially massive data sources. Applications include wireless communication systems, digital signal processing, image processing, and networking, or
  - Neuroengineering (p. 393): exploits engineering techniques to understand, repair, manipulate, or treat the diseases of human neural systems and networks, or
  - Photonics, Electronics, and Nano-devices (p. 393): encompasses studies of electronic materials, including nanomaterials, semiconductor and optoelectronic devices, lasers and their applications.

Because of the common core requirements, it is possible for students to change their area of specialization at any time, even after initially declaring the major. To do so, please contact the Office of the Registrar (registrar@rice.edu).

The BA degree provides a basic technical foundation in electrical and computer engineering through a subset of the core and specialization courses offered by the department. The program leading to the BA degree is not accredited by the EAC of ABET and is often pursued by students as a component of a double major or dual degree program. A course can satisfy only one program requirement within the major. Students who place out of required courses without transcript credit must substitute other approved courses in the same area.

Planning sheets and degree plan forms may be found on the Electrical and Computer Engineering website (http://www.ece.rice.edu/).

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major's academic advisor, or where applicable, the department's Director of Undergraduate Studies. (Course substitutions must be formally applied and entered into Degree Works by the major's Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/).) Students and their academic advisors should identify and clearly document the courses to be taken.

Area of Specialization

Select 1 from the following Areas of Specialization (see Areas of Specialization below):

Computer Engineering
Data Science/Systems
Neuroengineering
Photonics, Electronics, and Nano-devices

Elective Requirements: BA Unrestricted Electives *

Students must complete additional courses to meet the BA degree’s minimum requirement of at least 123 semester hours.

Total Credit Hours Required for the Major in Electrical Engineering 63
University Graduation Requirements (p. 26) * 60
Total Credit Hours 123

Footnotes and Additional Information

* Includes coursework completed as distribution credit, FWIS, LPAP, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The "hours outside of the major" requirement may include all of the above university requirements.

1 Design Laboratory is typically taken in the junior year. The required Design Laboratory does not count as a specialization course. It is important to consult a departmental advisor when choosing the Design Laboratory course or if interested in taking a second one. Any Design Laboratory course taken above the one required course will count as a General Elective, not as a specialization course.

Areas of Specialization

Students must complete the requirements as listed for one of the following areas of specialization as offered by the Electrical Engineering major. A total of 4 courses (minimum of 12 credit hours) must be taken from at least two areas of specialization, including a minimum of 2 courses from one area of specialization, 1 course from an area of specialization outside of the student’s chosen specialization, and 1 course from any area of specialization. In addition, ELEC graduate coursework at the 500-level may be used to satisfy specialization requirements with permission. Consult departmental advisors and the Electrical and Computer Engineering (http://www.ece.rice.edu/) website for the latest information.

Area of Specialization: Computer Engineering

To fulfill the remaining Electrical Engineering major requirements, students pursuing the Computer Engineering area of specialization must complete:

- a minimum of 2 courses (6 credit hours) from the Computer Engineering area of specialization
- 1 course (3 credit hours) from any area of specialization outside of Computer Engineering (from Data Science/Systems, Neuroengineering, or Photonics, Electronics, or Nano-devices)
- 1 course (3 credit hours) from any area of specialization (including Computer Engineering)

### Opportunities for the BA Degree with a Major in Electrical Engineering

#### Academic Honors

The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (p. 48) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 48). Some departments have department-specific Honors awards or designations.

#### Fifth-Year Master’s Degree Option for Rice Undergraduate Students

Rice students have an option to pursue the Master of Electrical Engineering (MEE) degree by adding an additional fifth year to their four undergraduate years of science and engineering studies.

Advanced Rice undergraduate students in good academic standing may apply to the MEE degree program during their junior or senior year. Upon acceptance, depending on course load, financial aid status, and other variables, they may then start taking some required courses of the master’s degree program. A plan of study will need to be approved by the student’s undergraduate advisor and the MEE program director.

As part of this option and opportunity, Rice undergraduate students:

- must complete the requirements for a bachelor’s degree and the master’s degree independently of each other (i.e. no course may be counted toward the fulfillment of both degrees).
- should be aware there could be financial aid implications if the conversion of undergraduate coursework to that of graduate level
reduces their earned undergraduate credit for any semester below that of full-time status (12 credit hours).

- more information on this Undergraduate - Graduate Concurrent Enrollment opportunity, including specific information on the registration process can be found here (p. 17).

Independent Research

The ECE Department encourages our undergraduates to pursue research projects with the faculty. The ECE Department has several opportunities including the multi-year, team-oriented Vertically Integrated Projects (VIP) program through the ELEC 491 course and individual independent research with a faculty member through the ELEC 490 course. For information on taking an undergraduate summer research course tuition free, see: https://summer.rice.edu/academics/ugresearch (https://summer.rice.edu/academics/ugresearch/). Also, there are often summer research opportunities through the NSF funded Research Experience for Undergraduates (REU) program, through individual ECE faculty grants, or through the Smalley-Curl Institute REU Sites program. For more information, see the ECE Department web page at: https://www.ece.rice.edu/undergraduate-program/

Study Abroad

A semester of study abroad is a valuable experience to enhance an individual's perspective on engineering and technology. The ECE Department encourages students to explore this option particularly for the spring semester of the sophomore or junior year. The ECE Department and the University Study Abroad office coordinate to review programs and outcomes) for the BSEE Degree Program Learning Outcomes (Student Outcomes) for the BSEE Degree

Upon completing the BSEE degree, students will be able to demonstrate:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. An ability to communicate effectively with a range of audiences.
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Program Educational Objectives for the BSEE Degree

The Bachelor of Science in Electrical Engineering's (BSEE) degree program strives to provide a high quality degree that emphasizes fundamental principles, responds to the changing demands and opportunities of technology, challenges the exceptional abilities of Rice students, and prepares these students for roles of leadership in their chosen careers. In support of this goal, the Bachelor of Science in Electrical Engineering's (BSEE) degree Program Educational Objectives (PEOs) are to produce graduates who:

1. Practice electrical and computer engineering, and related fields, and/or obtain an advanced degree in electrical and computer engineering, and related fields.
2. Use mathematical modeling and problem solving skills in electrical and computer engineering and other technical applications.
3. Analyze, incorporate, and adapt to new technical and scientific developments.
4. Assume increasing professional responsibility and enhance communication and teamwork abilities.

Requirements for the BSEE Degree

For general university requirements, see Graduation Requirements (p. 26).

Students pursuing the BSEE degree must complete:

- A minimum of 29-31 courses (85-86 credit hours), depending on course selection, to satisfy major requirements.
- A minimum of 134 credit hours to satisfy degree requirements.
- A minimum of 13 courses (39 credit hours) taken at the 300-level or above.
- The requirements for one area of specialization (see below for areas of specialization). When students declare the major (p. 11) in Electrical Engineering (associated with the BSEE degree), students must additionally identify and declare one of four areas of specialization, either in:
  - Computer Engineering (p. ): provides a broad background in computer systems engineering, including computer architecture, digital hardware engineering, software engineering, and computer systems performance analysis, or
  - Data Science/Systems (p. ): integrates the foundations, tools and techniques involving data acquisition, data analytics, data storage and computing infrastructure in order to enable meaningful extraction of actionable information from diverse and potentially massive data sources. Applications include wireless communication systems, digital signal processing, image processing, and networking, or

Bachelor of Science in Electrical Engineering (BSEE) Degree

The program leading to the BSEE degree is accredited by the Engineering Accreditation Commission (EAC) of ABET, https://www.abet.org (https://www.abet.org/).
Bachelor of Science in Electrical Engineering (BSEE) Degree

- **Neuroengineering** (p. 398): exploits engineering techniques to understand, repair, manipulate, or treat the diseases of human neural systems and networks, or
- **Photonics, Electronics, and Nano-devices** (p. ): encompasses studies of electronic materials, including nanomaterials, semiconductor and optoelectronic devices, lasers and their applications.

Because of the common core requirements, it is possible for students to change their area of specialization at any time, even after initially declaring the major. To do so, please contact the Office of the Registrar (registrar@rice.edu).

The specialization electives provide the flexibility to create a focus that crosses traditional areas. Ultimately each student's program must contain a course sequence that provides depth in one area and courses from at least two areas to provide breadth. Because of the number of options, students should consult early with departmental advisors to plan a program that meets their needs. Planning sheets and degree plan forms can be found on the Electrical and Computer Engineering (http://www.ece.rice.edu/) website.

The BSEE degree is the usual degree taken by those students planning a career in engineering practice. The BSEE requires more hours and greater depth than the BA degree; however, it still provides considerable flexibility and can reduce the time required to become a licensed professional engineer. In the final year, BSEE students undertake a capstone design project.

Students considering a major offered by the Electrical and Computer Engineering department should take physics (PHYS 101, PHYS 102) and calculus (MATH 101 or MATH 105, MATH 102 or MATH 106) in their freshman year, along with CHEM 121 (or CHEM 111) and COMP 140. The first core courses in the department, ELEC 220, ELEC 241 (lecture) with ELEC 240 (lab), and ELEC 261 are usually taken during the sophomore year, along with more math and science. A course can satisfy only one program requirement. Students entering with advanced placement may have more scheduling options and may take some of these core courses in freshman year. Students who place out of required courses without transcript credit must substitute other approved courses in the same area. Students should consult with one of the department's undergraduate advisors in these situations.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major's academic advisor, or where applicable, the department's Director of Undergraduate Studies. (Course substitutions must be formally applied and entered into Degree Works by the major's Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/).) Students and their academic advisors should identify and clearly document the courses to be taken.

¹ Students must complete the ELEC 494 during both the fall and spring semesters of their senior year. Within the senior design sequence, professional issues and project management for electrical engineers provide instruction in professional engineering topics and the non-technical aspects of the design process, including ethics, design methodology, project planning, technical presentations, and documentation. Both semesters of the senior year are devoted to the team design project using the resources of the Oshman Engineering Design Kitchen (OEDK) through the ELEC 494 course. In the fall semester of the senior year, students finalize their project topics in coordination with the faculty and begin the design project. In the spring semester, students continue in the laboratory to complete their design project. Several presentations and design contests within the ECE department and the School of Engineering occur in the spring in which to showcase the projects.

Areas of Specialization

Students must complete the requirements as listed for one of the following areas of specialization as offered by the BSEE degree program. A total of 6 courses (minimum of 18 credit hours) must be taken from at least two areas of specialization, including a minimum of 3 courses from one area of specialization, 1 course from an area of specialization outside of the student’s chosen specialization, and 2 courses from any area of specialization. In addition, ELEC graduate coursework at the 500-level may be used to satisfy specialization area requirements with permission. Consult departmental advisors and the Electrical and Computer Engineering (https://www.ece.rice.edu/) website for the latest information.

Area of Specialization: Computer Engineering

To fulfill the remaining BSEE degree requirements, students pursuing the Computer Engineering area of specialization must complete:

- a minimum of 3 courses (9 credit hours) from the Computer Engineering area of specialization
- 1 course (3 credit hours) from any area of specialization outside Computer Engineering (from Data Science/Systems, Neuroengineering, or Photonics, Electronics, and Nano-devices)
- 2 courses (6 credit hours) from any area of specialization (including Computer Engineering)

Footnotes and Additional Information

* Includes coursework completed as distribution credit, FWIS, LPAR, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The “hours outside of the major” requirement may include all of the above university requirements.

¹ The design requirements (Design Laboratory and Senior Design) are typically taken during the junior and senior years.

² Design Laboratory is typically taken in the junior year. The required Design Laboratory does not count as a specialization course. It is important to consult a departmental advisor when choosing the Design Laboratory course or if interested in taking a second one. Any Design Laboratory course taken above the one required course will count as a General Elective, not as a specialization course.
Bachelor of Science in Electrical Engineering (BSEE) Degree

**ELEC 429 / COMP 429**  
INTRODUCTION TO COMPUTER NETWORKS

**ELEC 442**  
INTRODUCTION TO ANALOG INTEGRATED CIRCUITS

Select 1 course from any Area of Specialization outside Computer Engineering (from Data Science/Systems, Neuroengineering, or Photonics, Electronics, and Nano-devices)

Policies for the BSEE Degree

Advising
Rice University provides multiple avenues for undergraduate advising through the Office of Academic Advising, the Rice Residential College system, and academic departments. Although students may consult with their Divisional Advisors in their College during the freshman and sophomore years, they are welcome and encouraged to meet with a major advisor in the Electrical and Computer Engineering Department. In particular, ECE students are required to meet with a major advisor in ECE at least during their junior and senior years to discuss their ECE Specialization Area course selection and Design Courses. The ECE Undergraduate Committee currently has seven faculty members who serve as major advisors. More information on sample degree plans and on the process for declaring ECE as a major is available on the ECE website at: https://www.ece.rice.edu/undergraduate-study/academics/bsee-degree-requirements (https://www.ece.rice.edu/undergraduate-study/academics/bsee-degree-requirements/).

Transfer Credit
For Rice University's policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines
Students pursuing the BSEE degree should be aware of the following departmental transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program's official transfer credit advisor) on an individual case-by-case basis.

Additional Information
For additional information, please see the Electrical and Computer Engineering website: https://www.ece.rice.edu/.

Opportunities for the BSEE Degree

Academic Honors
The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 48) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 48). Some departments have department-specific Honors awards or designations.

Fifth-Year Master's Degree Option for Rice Undergraduate Students
Rice students have an option to pursue the Master of Electrical Engineering (MEE) degree by adding an additional fifth year to their four undergraduate years of science and engineering studies.

Advanced Rice undergraduate students in good academic standing may apply to the MEE degree program during their junior or senior year. Upon acceptance, depending on course load, financial aid status, and other variables, they may then start taking some required courses of the master’s degree program. A plan of study will need to be approved by the student’s undergraduate advisor and the MEE program director.

As part of this option and opportunity, Rice undergraduate students:

- must complete the requirements for a bachelor's degree and the master's degree independently of each other (i.e. no course may be counted toward the fulfillment of both degrees).
- should be aware there could be financial aid implications if the conversion of undergraduate coursework to that of graduate level reduces their earned undergraduate credit for any semester below that of full-time status (12 credit hours).
- more information on this Undergraduate - Graduate Concurrent Enrollment opportunity, including specific information on the registration process can be found here (p. 17).
Independent Research

The ECE Department encourages our undergraduates to pursue research projects with the faculty. The ECE Department has several opportunities including the multi-year, team-oriented Vertically Integrated Projects (VIP) program through the ELEC 491 course and individual independent research with a faculty member through the ELEC 490 course. For information on taking an undergraduate summer research course tuition free, see: https://summer.rice.edu/academics/ugresearch (https://summer.rice.edu/academics/ugresearch/). Also, there are often summer research opportunities through the NSF funded Research Experience for Undergraduates (REU) program, through individual ECE faculty grants, or through the Smalley-Curl Institute REU Sites program. For more information, see the ECE Department web page at: https://www.ece.rice.edu/undergraduate-program (https://www.ece.rice.edu/undergraduate-program/)

Study Abroad

A semester of study abroad is a valuable experience to enhance an individual’s perspective on engineering and technology. The ECE Department encourages students to explore this option particularly for the spring semester of the sophomore or junior year. The ECE Department and the University Study Abroad office coordinate to review programs and courses appropriate for Rice engineering students. Additional information is on the ECE Department website at: https://www.ece.rice.edu/undergraduate-study/resources/study-abroad (https://www.ece.rice.edu/undergraduate-study/resources/study-abroad/)

Additional Information

For additional information, please see the Electrical and Computer Engineering website: https://www.ece.rice.edu/.

Doctor of Philosophy (PhD) Degree in the field of Electrical and Computer Engineering

Program Learning Outcomes for the MS and PhD Degrees in the field of Electrical and Computer Engineering

Upon completing the MS and PhD degrees in the field of Electrical and Computer Engineering, students will be able to:

1. Identify and define relevant research topics in Electrical and Computer Engineering and conduct independent research with results that advance the state of the art in the field.
2. Lead research and design groups by communicating innovative ideas effectively.
3. Solve real-world problems by integrating knowledge gained in courses and through independent study.

Requirements for the MS and PhD Degrees in the field of Electrical and Computer Engineering

PhD Degree Program

For general university requirements, please see Doctoral Degrees (p. 65). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55).

Students are admitted to the PhD program only in the fall semester. Electrical and Computer Engineering PhD students move through the program in stages, starting as a first-year student, advancing to MS candidate, PhD-qualified student, and PhD candidate; each advancement requires the approval of the Electrical and Computer Engineering Graduate Committee. The MS degree is a thesis master’s degree. For general university requirements, please see Thesis Master’s Degrees (p. 68). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55).

Students entering with previous graduate work may follow a hybrid program developed in consultation with the faculty and the Graduate Committee. The first academic year concentrates on foundation coursework and developing a research area. Each student must successfully complete a project, ELEC 599, in his or her chosen area of research in lieu of an oral or written qualifying exam. In addition to enabling the faculty to evaluate the student’s research potential, the project encourages timely completion of the MS degree. The student must complete a master’s thesis and successfully defend it in an oral examination. Students who have already acquired a master’s degree elsewhere must also complete the ELEC 599 project, after which acceptance of their previous master’s degree will be determined by the Graduate Committee. No course in which the student earned a grade lower than a B- (2.67 grade points) may count toward an MS or PhD.

A candidate for the PhD degree must demonstrate independent, original research in Electrical and Computer Engineering. After successful completion of all coursework, a student is eligible for PhD candidacy. The student then engages in full-time research, culminating in presentation of the PhD research proposal and then the completion and public defense of the PhD thesis. Details of the PhD program requirements, the phases of study, and a timetable may be found on the Electrical and Computer Engineering website (http://www.ece.rice.edu/).

Policies for the PhD Degree in the field of Electrical and Computer Engineering

Department of Electrical and Computer Engineering Graduate Program Handbook

The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, the department of Electrical and Computer Engineering publishes a graduate program handbook, which can be found here: https://gradhandbooks.rice.edu/2019_20/Electrical_Computer_Engineering_Graduate_Handbook.pdf
Additional Information
For additional information, please see the Electrical and Computer Engineering website: https://www.ece.rice.edu/

Opportunities for the PhD Degree in the field of Electrical and Computer Engineering
Additional Information
For additional information, please see the Electrical and Computer Engineering website: https://www.ece.rice.edu/

Master of Electrical Engineering (MEE) Degree

Program Learning Outcomes for the MEE Degree

Upon completing the MEE degree, students will be able to:

1. Apply the principles of mathematics and science necessary to solve advanced electrical engineering problems.
2. Practice at an advanced level in at least one of the major sub-fields of electrical engineering.

Requirements for the MEE Degree

The MEE degree is a non-thesis master's degree. For general university requirements, please see Non-Thesis Master's Degrees (p. 68). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55). Students pursuing the MEE degree must complete:

- A minimum of 10 courses (30 credit hours) to satisfy degree requirements.
- A minimum of 30 credit hours of graduate-level study (coursework at the 500-level or above).
- A minimum of 27 credit hours must be taken at Rice University.
- A minimum residency enrollment of one fall or spring semester of part-time graduate study at Rice University.
- A minimum of 3 courses (9 credit hours) from the core requirements.
- The requirements for one area of specialization (see below for areas of specialization). The MEE degree program offers five areas of specialization, or focus areas:
  - Computer Engineering (p. ), or
  - Data Science (p. ), or
  - Neuroengineering (p. 402), or
  - Photonics, Electronics, and Nano-devices (p. ), or
  - Systems (p. 403).
- A minimum of 4 courses (12 credit hours) from the elective requirements:
  - 2 courses (6 credit hours) from the General MEE requirement
  - 2 courses (6 credit hours) from the Free Elective requirement.
  - ELEC 698 each semester in residence at Rice University.
- A maximum of 1 course (3 credit hours) of graduate-level coursework as transfer credit. For additional departmental guidelines regarding transfer credit, see the Policies tab.
- A minimum overall GPA of 2.67 or higher in all Rice coursework.

- A minimum GPA of 3.00 or higher in all Rice coursework that satisfies requirements for the non-thesis master's degree with a minimum grade of C (2.00 grade points) in each course.

Students are admitted to the MEE degree program in the fall semester. MEE students are to consult with an academic advisor on the MEE Committee each semester in order to identify and clearly document their individual curricular requirements or degree plan to be followed. An MEE degree planning form and current requirements may be found on the ECE website (http://www.ece.rice.edu/).

The courses listed below satisfy the requirements for this degree program. In certain instances, courses not on this official list may be substituted upon approval of the program's academic advisor, or where applicable, the department or program's Director of Graduate Studies. Course substitutions must be formally applied and entered into Degree Works by the department or program's Official Certifier (https://registrar.rice.edu/facstaff/degroweks/officialcertifier/). Additionally, these must be approved by the Office of Graduate and Postdoctoral Studies. Students and their academic advisors should identify and clearly document the courses to be taken.

1. Free electives may be fulfilled by any 2 courses (6 credit hours) selected from the following:
   - Departmental (ELEC) course offerings taught by ECE faculty.
   - Research coursework, such as ELEC 590 or ELEC 591, when either are taken for at least 3 credit hours.
   - Any of the following courses: COMP 532, ELEC 512, ELEC 520, ELEC 552, ELEC 556, ENGI 510, ENGI 528, ENGI 529, ENGI 610, ENGI 615, or NSCI 511.
   - Any other course approved by the student's MEE academic advisor.

2. ELEC 698 is taken for a Satisfactory/Unsatisfactory grade and must be completed with a Satisfactory grade. As a S/U course it does not apply to the requirement of a minimum grade of C (2.00 grade points) in each required course.

**Areas of Specialization**

Students must complete a minimum of 3 courses (9 credit hours) from one Area of Specialization and may select up to 2 additional courses (6 credit hours) from any Area of Specialization (or from the Core Requirements) to fulfill Elective Requirements.

**Area of Specialization: Computer Engineering**

**Footnotes and Additional Information**

1. Free electives may be fulfilled by any 2 courses (6 credit hours) selected from the following:
   - Departmental (ELEC) course offerings taught by ECE faculty.
   - Research coursework, such as ELEC 590 or ELEC 591, when either are taken for at least 3 credit hours.
   - Any of the following courses: COMP 532, ELEC 512, ELEC 520, ELEC 552, ELEC 556, ENGI 510, ENGI 528, ENGI 529, ENGI 610, ENGI 615, or NSCI 511.
   - Any other course approved by the student's MEE academic advisor.

2. ELEC 698 is taken for a Satisfactory/Unsatisfactory grade and must be completed with a Satisfactory grade. As a S/U course it does not apply to the requirement of a minimum grade of C (2.00 grade points) in each required course.
Policies for the MEE Degree

Department of Electrical and Computer Engineering Graduate Program Handbook

The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, the department of Electrical and Computer Engineering publishes a graduate program handbook, which can be found here: https://gradhandbooks.rice.edu/2019_20/Electrical_Computer_Engineering_Graduate_Handbook.pdf

Transfer Credit

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 64). Some departments and programs have additional restrictions on transfer credit. Students are encouraged to meet with their academic program's advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines

Students pursuing the MEE degree in the field of Electrical and Computer Engineering should be aware of the following departmental transfer credit guidelines:

- No more than 1 course (3 credit hours) of transfer credit from U.S. or international universities of similar standing as Rice may apply towards the degree.
- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

Additional Information

For additional information, please see the Electrical and Computer Engineering website: https://www.ece.rice.edu/

Opportunities for the MEE Degree

Fifth-Year Master’s Degree Option for Rice Undergraduate Students

Rice students have an option to pursue the Master of Electrical Engineering (MEE) degree by adding an additional fifth year to their four undergraduate years of science and engineering studies. Advanced Rice undergraduate students in good academic standing may apply to the MEE degree program during their junior or senior year. Upon acceptance, depending on course load, financial aid status, and other variables, they may then start taking some required courses of the master's degree program. A plan of study will need to be approved by the student’s undergraduate advisor and the MEE program director.

As part of this option and opportunity, Rice undergraduate students:

- must complete the requirements for a bachelor’s degree and the master’s degree independently of each other (i.e. no course may be counted toward the fulfillment of both degrees).
- should be aware there could be financial aid implications if the conversion of undergraduate coursework to that of graduate level reduces their earned undergraduate credit for any semester below that of full-time status (12 credit hours).
- more information on this Undergraduate - Graduate Concurrent Enrollment opportunity, including specific information on the registration process can be found here (p. 17).
Energy and Water Sustainability

Contact Information
Energy and Water Sustainability
https://ceve.rice.edu/
713-348-4949
James B. Blackburn
Program Director
blackbur@rice.edu

The interdisciplinary program in Energy and Water Sustainability is offered by the Civil and Environmental Engineering Department in collaboration with several other Rice University departments.

Sustainable development is a societal goal that challenges traditional ways of thinking and requires alternative approaches and solutions to balance environmental, economic, and social interests. Carbon management strategies and renewable resources will be key elements of energy policy for the coming decades. Similarly, the long-term viability of existing water use and human settlement patterns must be reconsidered given the effect of climate change in freshwater availability, as well as increasing competing demands for this limited resource. More generally, the dedication of materials, energy, and ecological resources will become more important in economic decision-making, while more and more members of society will demand equity in decision-making processes.

Students studying Energy and Water Sustainability will gain knowledge of both the science and policy issues associated with the evaluation of sustainable energy and water strategies that will form a cornerstone of 21st century social systems. Students completing this program will be better prepared for a global society that is attempting to understand and address the challenge of meeting basic human needs today and in the future while maintaining a functional natural system and social order.

Minor in Energy and Water Sustainability

Program Learning Outcomes for the Minor in Energy and Water Sustainability

Upon completing the minor in Energy and Water Sustainability, students will be able to:

1. Apply basic economic concepts of energy and water sustainability including aspects of environmental economics and project-scale economic issues.
2. Understand basic environmental issues applicable to energy and water sustainability.
3. Conduct evaluations of social aspects from a sustainability perspective.
4. Evaluate projects and political systems from the standpoint of energy and water issues as well as more general sustainability issues.
5. Apply sustainability concepts at varying scales and viewpoints, including project level, corporate level, and municipal, state, national, and international levels.
6. Understand the role of climate change on future projects and societies.
Requirements for the Minor in Energy and Water Sustainability

Students pursuing the minor in Energy and Water Sustainability must complete:

- A minimum of 7 courses (19 credit hours) to satisfy minor requirements.
- A minimum of 6 courses (16 credit hours) taken at the 300-level or above.
- A Design Practicum.¹
- A maximum of 2 courses (6 credit hours) applied towards the minor's Elective Requirements can be used to fulfill a student's major requirements.

The courses listed below satisfy the requirements for this minor. In certain instances, courses not on this official list may be substituted upon approval of the minor's academic advisor or where applicable, the Program Director. (Course substitutions must be formally applied and entered into Degree Works by the minor's Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/)). Students and their academic advisors should identify and clearly document the courses to be taken.

Footnotes and Additional Information

¹ Students are required to complete 1 special topics course (CEVE 499), typically during the fall semester of their senior year. Students in engineering and architecture will fulfill this requirement by preparing a report that describes the incorporation of sustainability concepts into their design effort in consultation with their senior (capstone) design course instructor. Students not engaged in a suitable design project will either consult with an extant design group or pursue a project related to their own area of study in consultation with the EWSU advisors.

² No more than 2 electives courses can be drawn from any 1 of the 3 electives categories. At least 1 elective course must be taken from a different school than the school hosting the student's major. No more than 2 of the 3 electives can be used to also fulfill a student's major requirements. Additional courses can be approved as electives with the agreement of the program director.

Policies for the Minor in Energy and Water Sustainability

Program Restrictions and Exclusions

Students pursuing the minor in Energy and Water Sustainability should be aware of the following program restriction:

- As noted in Majors, Minors, and Certificates (p. 11), i.) students may declare their intent to pursue a minor only after they have first
declared a major, and ii.) students may not major and minor in the same subject.

Transfer Credit
For Rice University's policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

Program Transfer Credit Guidelines
Students pursuing the minor in Energy and Water Sustainability should be aware of the following program-specific transfer credit guidelines:

  • Requests for transfer credit will be considered by the program director (and/or the program's official transfer credit advisor) on an individual case-by-case basis.

Additional Information
For additional information, please see the Energy and Water Sustainability website: https://ceve.rice.edu/sustainability-minor (https://ceve.rice.edu/sustainability-minor/).

Opportunities for the Minor in Energy and Water Sustainability

Academic Honors
The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 48) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 48). Some departments have department-specific Honors awards or designations.

Additional Information
For additional information, please see the Energy and Water Sustainability website: https://ceve.rice.edu/sustainability-minor (https://ceve.rice.edu/sustainability-minor/).

Energy Economics

George Zodrow
Department Chair
zodrow@rice.edu
Kenneth Medlock
Director of MEEcon Program
medlock@rice.edu
Peter Reginald Hartley
Co-Director of MEEcon Program

The Master of Energy Economics (MEEcon) is a professional master's program emphasizing applying economic theory, economic and financial modeling and analysis, and quantitative and statistical methods to provide insightful analysis of issues and policies affecting the energy industry. The program provides rigorous training in various areas including microeconomics, econometrics, economic and financial modeling, risk management, economic forecasting, geopolitics, and political economy. Students will enhance their analytical and quantitative skills and acquire the necessary energy industry knowledge to understand challenges related to technology, business, investment and regulation, and economic forecasting.

The MEEcon degree is designed to educate future leaders and strategic thinkers in the energy sector. Students develop skills to provide insightful analysis of energy markets in order to inform future market orientation, capital asset decisions and firm strategic direction. Built upon programs in the Economics Department and the Baker Institute's Center for Energy Studies (CES), the MEEcon degree provides a new avenue for energy professionals to develop human capital relevant for business development and/or strategic planning roles.

Energy Economics does not currently offer an academic program at the undergraduate level.

Master's Program

Description and Code Legend
Note: Internally, the university uses the following descriptions, codes, and abbreviations for this academic program. The following is a quick reference:

Course Catalog/Schedule
  • Course offerings/subject code: ECON

Department Description and Code
  • Economics: ECON

Graduate Degree Description and Code
  • Master of Energy Economics degree: MEEcon

Graduate Degree Program Description and Code
  • Degree Program in Energy Economics: ENEC

CIP Code and Description
  • ENEC Major/Program: CIP Code/Title: 45.0603 - Econometrics and Quantitative Economics
Master of Energy Economics (MEEcon) Degree

Program Learning Outcomes for the MEEcon Degree

Upon completing the MEEcon degree, students will be able to:

1. Understand and apply basic economic, scientific, political, and statistical principles useful for analyzing and understanding energy markets.
2. Apply quantitative skills, including econometric models and statistical software, to better utilize data to critique, analyze, and report results of industry-related issues and inform strategic decisions.
3. Be better able to communicate insights arising from the economics perspective on issues affecting the energy sector.

Requirements for the MEEcon Degree

The MEEcon degree is a non-thesis master’s degree. For general university requirements, please see Non-Thesis Master’s Degrees (p. 68). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55). Students pursuing the MEEcon degree must complete:

- A minimum of 40 credit hours to satisfy degree requirements.
- A minimum of 40 credit hours of graduate-level study (coursework at the 500-level or above).
- A minimum of 24 credit hours must be taken at Rice University.
- A minimum residency enrollment of 2 semesters of full-time graduate study at Rice University.
- A practicum or internship.
- A minimum overall GPA of 2.67 or higher in all Rice coursework.
- A minimum GPA of 2.67 or higher in all Rice coursework that satisfies requirements for the non-thesis master’s degree.

The courses listed below satisfy the requirements for this degree program. In certain instances, courses not on this official list may be substituted upon approval of the program’s academic advisor, or where applicable, the department or program’s Director of Graduate Studies. Course substitutions must be formally applied and entered into Degree Works by the department or program’s Official Certifier (https://registrar.rice.edu/calendars/). Additionally, these must be approved by the Office of Graduate and Postdoctoral Studies. Students and their academic advisors should identify and clearly document the courses to be taken.

### Footnotes and Additional Information

1 A practicum or internship is required for completion of the MEEcon professional master’s degree. It can be taken in either the Spring or Summer Session. The practicum will provide students with practical experience relative to the degree. Students will work on projects developed by an industry advisory group. The research will be presented to participating industry advisors at the completion of the degree program. The projects will provide prospective employers with an opportunity to evaluate new talent effectively. As an alternative to the practicum, students may complete an internship with an approved special project with an employer. The internship is meant to last a minimum of 7 weeks and should be directly related to the student’s core area of study in the MEEcon degree program. Spring internships start on the first day of Spring classes.

2 See Proposed Plan-of-Study below. Students may complete either 2 electives in Session II, or complete 1 elective each in both Sessions II and III.

### Proposed Plan-of-Study

The MEEcon degree program is completed in 12 months and is organized in four sessions. Sessions I and II correspond to the Fall and Spring semesters, respectively, and follow the standard Rice Academic Calendar (https://registrar.rice.edu/calendars/). Sessions III and IV are two consecutive 7-week long sessions that take place during the subsequent summer semester. All courses (including required courses and electives) are graduate-level courses, numbered 500-level and above.

Footnotes and Additional Information

1. A practicum or internship is required for completion of the MEEcon professional master's degree. It can be taken in either Session II (Spring Semester) or Session IV (Summer II). The practicum will provide students with practical experience relative to the degree. Students will work on projects developed by an industry advisory group. The research will be presented to participating industry advisors at the completion of the degree program. The projects will provide prospective employers with an opportunity to evaluate new talent effectively. As an alternative to the practicum, students may complete an internship with an approved special project with an employer. The internship is meant to last a minimum of 7 weeks and should be directly related to the student's core area of study in the MEEcon degree program. Spring internships start on the first day of Spring classes.

2. Students may select ECON 699 during one session - either Session II (Spring Semester) or Session IV (Summer II). Because the course is worth 4 credit hours and is only taken once, the total credit hours needed to complete the MEEcon degree is 40 hours.

3. Students must complete a total of 3 courses as electives from departmental (ECON) course offerings selected from any course between ECON 605 and ECON 622 (except ECON 606 and ECON 610, which are required). Students may complete either 2 electives in Session II, or complete 1 elective each in both Sessions II and IV.

Policies for the MEEcon Degree

Department of Economics Graduate Program Handbook

The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, the Department of Economics publishes a graduate program handbook, which can be found here: https://gradhandbooks.rice.edu/2019_20/Economics_MEECON_Graduate_Handbook.pdf

Admission

Information on admission to the MEEcon program is available on the Economics website (https://economics.rice.edu/graduate-program/MEECON/applicants/). For general university requirements, see Graduate Degrees (p. 49) and Admission to Graduate Study (p. 55).

Transfer Credit

For Rice University's policy regarding transfer credit, see Transfer Credit (p. 64). Some departments and programs have additional restrictions on transfer credit. Students are encouraged to meet with their academic program's advisor when considering transfer credit possibilities.

Additional Information

For additional information, please see the Economics website: https://economics.rice.edu/

Opportunities for the MEEcon Degree

Byron Pope Award

The Byron Pope Award is given to the student who best exemplifies the benefits provided by participation in the Masters in Energy Economics Program.

MEEcon Award for Scholarly Excellence

This award is for superior demonstrated academic excellence in the Master of Energy Economics program courses. This award is supported by a gift from BP.

Defined simply, Engineering Design is the process of creating a new product or process to meet a defined need while taking into account constraints such as cost, practicality, and safety. The design process begins with creating an open-ended problem statement to address an unmet need. Through careful consideration of existing solutions and other research, students establish goals that the design should meet. Following a period of brainstorming, students select ideas that best meet the design goals. Building and testing technologies is challenging and forces students to apply their ‘book knowledge’ (e.g., equations) to develop a physical or computational solution. A proof-of-concept prototype usually needs extensive revision and testing before it can be manufactured at scale. Throughout the design process, project planning and communication are essential. Because solving engineering challenges is often open-ended, it is very important to give students many opportunities to experience the steps in the process.

The minor in Engineering Design capitalizes on strengths in engineering design at Rice- both innovative and successful engineering design courses and unsurpassed facilities that are available for undergraduate engineering students starting in their freshman year. Students may begin the minor in their freshman year and take courses throughout their...
duration of undergraduate studies. The skills they gain will complement their academic major and provide a deep understanding and skill set to embark successfully in engineering design careers.

Minor

- Minor in Engineering Design (p. 409)

Engineering Design does not currently offer an academic program at the graduate level.

Minor in Engineering Design

Program Learning Outcomes for the Minor in Engineering Design

Upon completing the minor in Engineering Design, students will be able to:

1. Execute steps of the engineering design process including problem identification, needs assessment, context review, defining design criteria, idea generation, solution selection, iterative prototyping, and testing.
2. Become familiar with other steps of the engineering design process including market assessment, design for manufacturing, field testing, and implementation.
3. Apply technical knowledge from their major within the School of Engineering to solve a design challenge.
4. Develop breadth in design by working on at least two different design projects.
5. Work in multiple teams, filling the role of a team member and a team leader.
6. Apply project planning tools to guide design projects.
7. Communicate effectively their design problems and solutions through written, oral, and visual communication tools to a wide variety of audiences.
8. Become proficient in low and high fidelity physical and digital-based prototyping.

Requirements for the Minor in Engineering Design

Students pursuing the minor in Engineering Design must complete:

- A minimum of 6 courses (18 credit hours) to satisfy minor requirements.

Students are encouraged to begin taking courses in the minor during their freshman year, and are encouraged to declare the minor no later than the beginning of their fifth semester.

The courses listed below satisfy the requirements for this minor. In certain instances, courses not on this official list may be substituted upon approval of the minor’s academic advisor, or where applicable, the Program Director. (Course substitutions must be formally applied and entered into Degree Works by the minor’s Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/)). Students and their academic advisors should identify and clearly document the courses to be taken.

**Additional Requirement**

Students must participate in at least two different design projects during their undergraduate experience.  

Total Credit Hours: 18

---

### Policies for the Minor in Engineering Design

#### Admission

Rice students who are pursuing a B.A. or B.S. degree in the School of Engineering are best prepared to pursue the minor in Engineering Design. Many courses that can be applied towards the minor requirements are open to all Rice students, including those not pursuing the minor in Engineering Design. For ENGI 200 and ENGI 300, students must explain their interest and reasons for taking the course in order to gain instructor permission. Preferential admission will be given to students who indicate they are seeking to complete the minor in Engineering Design.

#### Program Restrictions and Exclusions

Students pursuing the minor in Engineering Design should be aware of the following program restriction:

- As noted in Majors, Minors, and Certificates (p. 11), i.) students may declare their intent to pursue a minor only after they have first declared a major, and ii.) students may not major and minor in the same subject.

#### Transfer Credit

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: [https://oaa.rice.edu](https://oaa.rice.edu). Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

#### Program Transfer Credit Guidelines

Students pursuing the minor in Engineering Design should be aware of the following program-specific transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

#### Additional Information

For additional information, please see the Engineering Design website: [http://oedk.rice.edu/minor](http://oedk.rice.edu/minor)

---

1. With minor advisor approval, students may also complete departmental design courses or project-based courses, excluding capstone or final-year design coursework, to satisfy the Electives Requirement.

2. The design projects requirement is in place to ensure that students have some breadth in their practice of design. This can be satisfied by a project completed while taking the courses listed in the Electives Requirement and/or a capstone design course. Note that while a capstone design course may be required by the student’s major (e.g., BIOE 451 and BIOE 452, MECH 407 and MECH 408, ELEC 494, etc.) that capstone design course may NOT count as an elective in the Engineering Design minor. However, a project completed in these major-required courses may count as a second design project for this minor. For example, a student may work on one project in ENGI 120 and ENGI 200 and then a second project in the major-required capstone course, such as CHBE 404. ENGI 120 and ENGI 200 may be used to count toward minor requirements, whereas CHBE 404 would not count toward the minor requirements. However, the projects completed in ENGI 120, ENGI 200, and CHBE 404 could be used to fulfill the design projects requirement. Please see the minor advisor regarding the design projects requirement.
Opportunities for the Minor in Engineering Design

Academic Honors
The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 48) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 48). Some departments have department-specific Honors awards or designations.

Additional Information
For additional information, please see the Engineering Design website: http://oedk.rice.edu/minor (http://oedk.rice.edu/minor/)

Engineering Leadership

higgs@rice.edu

Kazimir I. Karwowski
Executive Director
kazimir.i.karwowski@rice.edu

The mission of the Rice Center for Engineering Leadership (RCEL) is to educate and develop and inspire Rice Engineers to become ethical leaders in technology who will excel in research, industry, enabling (non-engineering) career paths, or bold entrepreneurship. RCEL programming enhances traditional undergraduate education by developing skills that are not expressly covered by the traditional curricula from the School of Engineering. Ultimately, the goal of the Certificate in Engineering Leadership is to equip engineering students with the critical technical, communication, and leadership skills necessary to succeed and excel professionally.

The Certificate in Engineering Leadership is designed to familiarize undergraduate students with key leadership concepts and allow them to practice the skills necessary to function effectively in a variety of leadership roles in a global and national economy within a workplace, which is often increasingly diverse and multi-cultural. Through coursework, extracurricular activities, internship support, and community events, the Certificate in Engineering Leadership lays a foundation for leadership advancement within 3-5 years of graduation while also teaching students to envision their career impact beyond the 10-year horizon. RCEL programming covers a range of important competency domains, including such topics as creative problem solving, conflict resolution, developing self-awareness, setting goals, project management, oral/written communication, and teamwork.

Certificate
• Certificate in Engineering Leadership (p. 411)

Engineering Leadership does not currently offer an academic program at the graduate level.

  ¹ Classification of Instructional Programs (CIP) 2010 Codes and Descriptions from the National Center for Education Statistics: https://nces.ed.gov/ipeds/cipcode/

Certificate in Engineering Leadership
Program Learning Outcomes for the Certificate in Engineering Leadership
Upon completing the certificate in Engineering Leadership, students will be able to:

1. Communicate Effectively: Apply effective oral, written, and interpersonal communication strategies.
2. Make Timely Decisions: Apply analytical and creative problem solving to deliver timely solutions based on the information at hand.
3. Work on Teams: Understand and analyze team dynamics to empower those around them to be successful in accomplishing team goals.
4. Manage Projects: Demonstrate knowledge of the basic tools and techniques to deliver projects on-time, on budget and within scope.

6. Create a Vision: Develop a clear vision that sets future personal and team direction.

7. Apply Ethics and Analyze Values: Analyze personal and organizational values and apply ethics concepts to his/her decision-making.

Requirements for the Certificate in Engineering Leadership

Students pursuing the certificate in Engineering Leadership must complete:

- A minimum of 7 courses (11-12 credit hours, depending on course selection) to satisfy certificate requirements.
- A Leadership Development Plan.
- An Engineering Internship.
- An Engineering Launch Pad Requirement.
- A Senior Leadership Portfolio and Presentation.
- A minimum overall GPA of 2.00 in required coursework with a minimum grade of C (2.00 grade points) in each course.

No credit hours counted toward the student’s major or minor degree requirements can be applied toward the certificate. Only declared Engineering majors are eligible for the certificate and are required to formally declare their intention to pursue the certificate within their first two years at Rice.

This certificate is not a freestanding degree program; in addition to fulfilling the certificate requirements outlined below, candidates will be required to complete successfully the degree program to which they have been admitted in order to receive this certificate. Upon completion, the certificate is awarded at the same time as the conferral of the student’s Rice degree, along with a formal notation on their academic transcript.

The courses listed below satisfy the requirements for this certificate. In certain instances, courses not on this official list may be substituted upon approval of the certificate’s academic advisor, or where applicable, the Program Director. (Course substitutions must be formally applied and entered into Degree Works by the certificate’s Official Certifier. [https://registrar.rice.edu/facstaff/degeworks/officialcertifier/](https://registrar.rice.edu/facstaff/degeworks/officialcertifier/)) Students and their academic advisors should identify and clearly document the courses to be taken.

### Footnotes and Additional Information

1 The purpose of the Development Plan is to understand one’s personal leadership capabilities, synthesize the “lessons learned” from experiences, and use experience to manage the development of the capabilities needed to become an engineering leader.

2 The certificate in Engineering Leadership requires all students to participate in a qualifying summer internship, ideally after the sophomore year. To receive credit for the internship experience, students enroll in RCEL 241 Professional Excellence for Engineers.

3 The certificate program culminates in the creation of a comprehensive Leadership Portfolio, which documents the personal, academic, and professional growth of the student over the course of his or her time in the program. Each student must also deliver a final Senior Leadership Presentation that synthesizes and expands upon the information included in the Leadership Portfolio.

### Additional Recommended Courses

Policies for the Certificate in Engineering Leadership

Program Restrictions and Exclusions

Students pursuing the certificate in Engineering Leadership should be aware of the following program restriction:

• As noted in Majors, Minors, and Certificates (p. 11), students may declare their intent to pursue a university certificate only after they have first declared a major.
• No credit hours counted toward a student's major or minor degree requirements can be applied toward the certificate in Engineering Leadership.
• Only declared Engineering majors are eligible for the certificate and are required to declare formally their intention to pursue the certificate within their first two years at Rice.

Transfer Credit

For Rice University's policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

Program Transfer Credit Guidelines

Students pursuing the certificate in Engineering Leadership should be aware of the following program-specific transfer credit guidelines:

• Requests for transfer credit will be considered by the program director (and/or the program's official transfer credit advisor) on an individual case-by-case basis.

Additional Information

For additional information, please see the Engineering Leadership website: https://www.rcelconnect.org/

Opportunities for the Certificate in Engineering Leadership

Academic Honors

The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 48) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 48). Some departments have department-specific Honors awards or designations.

Rosemary Hennessy
Department Chair
rosemary.hennessy@rice.edu

Rice English integrates creative and critical practice through training in close reading, analytical writing, cultural history and theory, and craft/form. Our faculty research and pedagogy cover the breadth of the study of British and American literatures and cultures ranging from the medieval era to the present. The curriculum emphasizes literature and literary history, race and ethnicity studies, feminist and gender studies, queer theory and the history of sexuality, visual culture and comparative media studies, and the Anglophone literature of the postcolonial world. Faculty have particular strengths in the newer interdisciplinary areas of medical humanities, ecocriticism, post-humanism, and environmental humanities. Rice English is also home to a vibrant creative writing concentration offering a range of courses in fiction, poetry, and creative non-fiction.

Bachelor's Programs

• Bachelor of Arts (BA) Degree with a Major in English (p. 414)
• and a Major Concentration in Creative Writing (p. 419)

Master's Program

• Master of Arts (MA) Degree in the field of English*

Doctoral Program

• Doctor of Philosophy (PhD) Degree in the field of English (p. 422)

* Although students are not normally admitted to a Master of Arts (MA) degree program, graduate students may earn the MA as they work towards the PhD.

1 Classification of Instructional Programs (CIP) 2010 Codes and Descriptions from the National Center for Education Statistics: https://nces.ed.gov/ipeds/cipcode/

**Bachelor of Arts (BA) Degree with a Major in English**

**Program Learning Outcomes for the BA Degree with a Major in English**

Upon completing the BA degree with a major in English, students will be able to demonstrate:

1. Competence in literary analysis.
2. Understanding of literature in relation to its historical and socio-cultural contexts.
3. Disciplinary-specific methodological, critical, and theoretical training.
4. Critical writing skills in papers of varying length.
5. Disciplinary-specific research knowledge.

**Requirements for the BA Degree with a Major in English**

For general university requirements, see Graduation Requirements (p. 26). Students pursuing the BA degree with a major in English must complete:

- A minimum of 11 courses (33-36 credit hours, depending on course selection) to satisfy major requirements.
- A minimum of 120 credit hours to satisfy degree requirements.
- A minimum of 60 credit hours outside of major requirements.
- A minimum of 7 courses (21 credit hours) taken at the 300-level or above.
- The requirements for one area of specialization (see below for areas of specialization). When students declare the major (p. 11) in English, students must additionally identify and declare one of four areas of specialization, either in:
  - Culture and Social Change (p. ), or
  - Literature and Literary History (p. ), or
  - Science, Medicine, and the Environment (p. ), or
  - Visual and Comparative Media (p. ).
Because of the common core requirements, it is possible for students to change their area of specialization at any time, even after initially declaring the major. To do so, please contact the Office of the Registrar (registrar@rice.edu).

AP course credit is not permitted to count towards the major. The department recommends that all English majors take courses in British and American history and, if they plan to do graduate work, at least 6 credit hours of upper-level coursework in a foreign language.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor, or where applicable, the department’s Director of Undergraduate Studies. (Course substitutions must be formally applied and entered into Degree Works by the major’s Official Certifier (https://registrar.rice.edu/facstaff/dgeworks/officialcertifier/).) Students and their academic advisors should identify and clearly document the courses to be taken.

### Footnotes and Additional Information

* Includes coursework completed as distribution credit, FWIS, LPAP, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The “hours outside of the major” requirement may include all of the above university requirements.

1. Specific course offerings will vary from semester to semester.
2. The Senior Seminar and Research Workshop requirement consists of the year-long, 6 credit hour senior seminar (ENGL 410) and research workshop (ENGL 411).

### Course Lists to Satisfy Requirements

The following lists of courses can be used to satisfy the requirements of the major when available. Specific course offerings will vary from semester to semester. Courses not on the list may be taken upon approval of the department’s Director of Undergraduate Studies. Requirements fulfilled by special topics field courses can vary.

#### Pre-1900 and Pre-1800 Requirement

Students must complete a total of 3 courses (9 credit hours) at the 200-level or above in periods before 1900. Of the 3 courses, 2 courses (6 credit hours) must be from the approved Pre-1800 coursework, but only one may be a Shakespeare course. The third required course may be an additional course from the Pre-1800 coursework or an approved Pre-1900 course.

Areas of Specialization
Students must complete the requirements as listed for one of the following areas of specialization as offered by the English major. A total of 3 courses (9-12 credit hours, depending on course selection) must be taken in the area of specialization.

Please note: When applicable, students may count one course from Core Requirements (the Pre-1900 and Pre-1800 Requirement or the Critical Race, Postcolonial, and Gender Studies Requirement) toward their chosen area of specialization. Additional coursework would then be required in order to complete a minimum of 11 courses (33-36 credit hours, depending on course selection) to satisfy major requirements. Please see an advisor for more information.

Area of Specialization: Culture and Social Change
To fulfill the remaining English major requirements, students pursuing the Culture and Social Change area of specialization must complete:

- a minimum of 3 courses (9 credit hours) from the Culture and Social Change area of specialization

Policies for the BA Degree with a Major in English
Transfer Credit
For Rice University's policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines
Students pursuing the major in English should be aware of the following departmental transfer credit guidelines:

- Requests for transfer credit will be considered by the departmental Director of Undergraduate Studies (and/or the program's official transfer credit advisor) on an individual case-by-case basis.
- The English department does not award Rice equivalent transfer credit for coursework taken at community colleges, online universities, ‘for-profit’ universities, or two-year colleges.
Distribution Credit Information
The determination of distribution eligibility is done as part of the new course creation process (https://registrar.rice.edu/facstaff/courseprocess/). As part of an annual roll call (https://registrar.rice.edu/facstaff/distribution_credit/) coordinated each Spring by the Office of the Registrar, course distribution eligibility is reviewed and reaffirmed by the Dean’s Offices of each of the academic schools.

Faculty and leadership in the academic schools are responsible for ensuring that the courses identified as distribution-eligible meet the criteria as set in the General Announcements (p. 26). Students are responsible for ensuring that they meet graduation requirements (p. 26) by completing coursework designated as distribution at the time of course registration.

Distribution courses from English (ENGL) aim to develop students’ critical and aesthetic understanding of texts and the arts, lead students to examine ideas and values, and introduce students to the craft of writing as it poses conceptual and intellectual problems. They engage students with works of culture that have intellectual importance by virtue of the ideas that they express, their historical influence, mode of expression, and critical engagement with established cultural assumptions and traditions.

Additional Information
For additional information, please see the English website: https://english.rice.edu/.

Opportunities for the BA Degree with a Major in English

Academic Honors
The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 48) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 48). Some departments have department-specific Honors awards or designations.

Study Abroad Program for English Majors at the University of Exeter
English majors may opt to spend the spring semester of their junior year at the University of Exeter in the U.K. Students planning to do so should complete ENGL 200 and ENGL 300 by the fall semester of their junior year (the semester preceding study abroad). At Exeter, students will take 2 courses or modules (each worth 30 Exeter credits) from Rice’s approved list of Exeter Courses.

The approved courses taken abroad will be articulated on the Rice transcript as ENGL 325 (two instances of 3 credit hours each) with the remaining credit hours articulated as general TRAN credit. Final Exeter grades will also appear on the Rice transcript and be counted in the student’s overall Rice GPA. With pre-approval from the Department, ENGL 325 may additionally count toward major field requirements (Pre-1800, Pre-1900, or Critical Race, Postcolonial, and Gender Studies).

For more information, please consult the Director of Undergraduate Studies in English and the Rice Study Abroad office.

Bachelor of Arts (BA) Degree with a Major in English and a Major Concentration in Creative Writing

Program Learning Outcomes for the BA Degree with a Major in English and a Major Concentration in Creative Writing

Upon completing the BA degree with a major in English, students will be able to demonstrate:

1. Competence in literary analysis.
2. Understanding of literature in relation to its historical and socio-cultural contexts.
3. Disciplinary-specific methodological, critical, and theoretical training.
4. Critical writing skills in papers of varying length.
5. Disciplinary-specific research knowledge.

Additionally, upon completing the BA degree with a major in English and a major concentration in Creative Writing, students will be able to:

1. Demonstrate skills in producing original works of fictional prose, literary essays, poetry, plays, and/or screenplays in English.

Requirements for the BA Degree with a Major in English and a Major Concentration in Creative Writing

For general university requirements, see Graduation Requirements (p. 26). Students pursuing the BA degree with a major in English, and a major concentration in Creative Writing, must complete:

- A minimum of 11 courses (33-34 credit hours, depending on course selection) to satisfy major requirements.
- A minimum of 120 credit hours to satisfy degree requirements.
- A minimum of 60 credit hours outside of major requirements.
- A minimum of 7 courses (21 credit hours) taken at the 300-level or above.
- The requirements for the major concentration in Creative Writing.

AP course credit is not permitted to count towards the major. The department recommends that all English majors take courses in British and American history and, if they plan to do graduate work, at least 6 hours of upper-level courses in a foreign language.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor, or where applicable, the department’s Director of Undergraduate Studies. (Course substitutions must be formally applied and entered into Degree Works by the major’s Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/).
officialcertifier/.) Students and their academic advisors should identify and clearly document the courses to be taken.

### Footnotes and Additional Information

* Includes coursework completed as distribution credit, FWIS, LPAR upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The “hours outside of the major” requirement may include all of the above university requirements.

1 Specific course offerings will vary from semester to semester.

2 The Senior Seminar and Research Workshop requirement consists of the year-long, 6 credit hour senior seminar (ENGL 410) and research workshop (ENGL 411).

### Course Lists to Satisfy Requirements

The following lists of courses can be used to satisfy the requirements of the major when available. Specific course offerings will vary from semester to semester. Courses not on the list may be taken upon approval of the department's Director of Undergraduate Studies. Requirements fulfilled by special topics field courses can vary.
Critical Race, Postcolonial, and Gender Studies Requirement

Students must complete 1 course (3 credit hours) at the 200-level or above that focuses on African American, Chicano/a, Asian American, ethnic, global, postcolonial, diasporic or gender and sexuality studies.

Major Concentration: Creative Writing

Students must complete a minimum of 4 courses (12-13 credit hours, depending on course selection) from departmental (ENGL) course offerings with the creative writing designation. Of these 4 courses, students must complete at least 2 courses (6-7 credit hours, depending on course selection) at the 300-level or above, and at least 1 course (3-4 credit hours, depending on course selection) at the 400-level or above. The remaining required course can be selected from any of the approved Creative Writing coursework.

200-level Electives

Select up to 1 course from the following (or select additional coursework at the 300-level or 400-level as listed below):

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGL 201</td>
<td>INTRODUCTION TO CREATIVE WRITING</td>
<td></td>
</tr>
<tr>
<td>ENGL 203</td>
<td>TOPICS IN CREATIVE WRITING</td>
<td></td>
</tr>
<tr>
<td>ENGL 204</td>
<td>FORMS OF POETRY</td>
<td></td>
</tr>
<tr>
<td>ENGL 213</td>
<td>THE RICE REVIEW: INTRODUCTION TO LITERARY EDITING &amp; PUBLISHING</td>
<td>1</td>
</tr>
</tbody>
</table>

300-level (or above) Electives

Select a minimum of 2 courses from the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGL 301</td>
<td>INTRODUCTION TO FICTION WRITING</td>

<tr>
<td>ENGL 405</td>
<td>ADVANCED CREATIVE NONFICTION WRITING</td>
<td></td>
</tr>
</tbody>
</table>

Footnotes and Additional Information

1 In order to fulfill the 200-level Elective category for the major concentration in Creative Writing, ENGL 213 must be taken twice (for a total of 3 credit hours).

Policies for the BA Degree with a Major in English and a Major Concentration in Creative Writing

Transfer Credit

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising
maintains the university’s official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

**Departmental Transfer Credit Guidelines**

Students pursuing the major in English should be aware of the following departmental transfer credit guidelines:

- Requests for transfer credit will be considered by the departmental Director of Undergraduate Studies (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.
- The English department does not award Rice equivalent course transfer credit for coursework taken at community colleges, online universities, “for-profit” universities, or two-year colleges.

**Distribution Credit Information**

The determination of distribution eligibility is done as part of the new course creation process (https://registrar.rice.edu/facstaff/courseprocess/). As part of an annual roll call (https://registrar.rice.edu/facstaff/distribution_credit/) coordinated each Spring by the Office of the Registrar, course distribution eligibility is reviewed and reaffirmed by the Dean’s Offices of each of the academic schools.

Faculty and leadership in the academic schools are responsible for ensuring that the courses identified as distribution-eligible meet the criteria as set in the General Announcements (p. 26). Students are responsible for ensuring that they meet graduation requirements (p. 26) by completing coursework designated as distribution at the time of course registration.

Distribution courses from English (ENGL) aim to develop students’ critical and aesthetic understanding of texts and the arts, lead students to examine ideas and values, and introduce students to the craft of writing as it poses conceptual and intellectual problems. They engage students with works of culture that have intellectual importance by virtue of the ideas that they express, their historical influence, mode of expression, and critical engagement with established cultural assumptions and traditions.

**Additional Information**

For additional information, please see the English website: https://english.rice.edu/.

**Opportunities for the BA Degree with a Major in English and a Major Concentration in Creative Writing**

**Academic Honors**

The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (p. 48) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 48). Some departments have department-specific Honors awards or designations.

**Study Abroad Program for English Majors at the University of Exeter**

English majors may opt to spend the spring semester of their junior year at the University of Exeter in the U.K. Students planning to do so should complete ENGL 200 and ENGL 300 by the fall semester of their junior year (the semester preceding study abroad). At Exeter, students will take 2 courses or modules (each worth 30 Exeter credits) from Rice’s approved list of Exeter Courses.

The approved courses taken abroad will be articulated on the Rice transcript as ENGL 325 (two instances of 3 credit hours each) with the remaining credit hours articulated as general TRAN credit. Final Exeter grades will also appear on the Rice transcript and be counted in the student’s overall Rice GPA. With pre-approval from the Department, ENGL 325 may additionally count toward major field requirements (Pre-1800, Pre-1900, or Critical Race, Postcolonial, and Gender Studies).

For more information, please consult the Director of Undergraduate Studies in English and the Rice Study Abroad office.

**Additional Information**

For additional information, please see the English website: https://english.rice.edu/.

See https://humanities.rice.edu/student-life for tables of fellowships, prizes, and internships/practica that may be relevant to this major.

**Doctor of Philosophy (PhD) Degree in the field of English**

**Program Learning Outcomes for the MA and PhD Degrees in the field of English**

Upon completing the MA and PhD degrees in the field of English, students will be able to:

1. Apply advanced knowledge of literary, cultural, and critical studies, including: critical reading, thinking, and writing; professional methodologies; literary and cultural histories, and theoretical and interdisciplinary perspectives.
2. Demonstrate breadth and depth of knowledge in fields of specialization for research and teaching.
3. Demonstrate the ability to teach literature and culture at the university level.
4. Demonstrate professional level skills in public and oral presentation through participation in symposia, work-in-progress groups, conferences, and in-course presentations.
5. Demonstrate the capacity to create professional-level and ultimately publishable research that makes original contributions to scholarly debates.

**Requirements for the MA and PhD Degrees in the field of English**

**MA Degree Program**

The MA degree is a non-thesis master’s degree. For general university requirements, please see Non-Thesis Master’s Degrees (p. 68). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55). The English department does not have an MA program, but offers the MA degree to those PhD students who have achieved candidacy and are in the process of completing the doctorate, and to qualified PhD students who leave the program before completing the doctorate. To receive an MA students must:
• Satisfactorily complete at least 33 hours of graduate work in English at Rice University. Courses must be those that count towards the PhD in English. Students must satisfactorily complete ENGL 600 and ENGL 610 as well as distribution requirements for the PhD (see above).

• Satisfactorily complete two teaching assistantships (ENGL 601/ENGL 602) and two research assistantships. These do not count toward the 33-hour requirement.

#### Distribution Requirements

1. Elective Requirements

| Select 7 additional courses as Electives at the 500-level or above | 21 |

**Total Credit Hours Minimum of 33**

### Footnotes and Additional Information

1. The distribution requirements consist of two courses before 1800 and two courses after 1800. These four courses count toward the 13-course requirement.

### Requirements for the PhD Degree in the field of English

For general university requirements, please see Doctoral Degrees (p. 65). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55). As part of their training, graduate students participate in both the teaching and research activities of the department. Upon entering, students will be assigned to a Program Advisory Committee (PAC), consisting of two faculty members. In consultation with their PAC, students will design their own individualized program structured by the requirements listed below. For more detailed information, please see the department's Graduate Handbook found under the Policies tab.

### PhD Degree Program

To gain admission to PhD candidacy, students must satisfy the first six of the following requirements. To earn a PhD in English, candidates also must complete the last two requirements. Students must:

1. Satisfactorily complete a minimum of 13 graduate courses, of which at least 10 must be graduate seminars. With the approval of the PAC, students may enroll in ENGL 621, either as a traditional directed reading course or in conjunction with a 400-level English course to which a graduate component has been added. ENGL 621 counts toward the 13 required graduate courses but does not count as a graduate seminar. Students also are encouraged to take graduate courses in other departments related to their areas of interest. These will count toward the 13-course requirement but not usually for distribution.

2. Satisfactorily complete the following three required courses: ENGL 600, ENGL 610, and ENGL 605. These count toward the 13-course requirement.

3. Satisfactorily complete the distribution requirement, which consists of two courses before 1800 and two after 1800. These count toward the 13-course requirement.

4. Satisfactorily complete the teaching requirement by serving twice as a teaching assistant, completing ENGL 510, and teaching at least one lower-level course designed in conjunction with the instructor of ENGL 510. ENGL 510 counts toward the 13-course requirement.

5. Pass a qualifying exam that consists of two qualifying papers, and an oral exam. Refer to the department's Graduate Handbook found under the Policies tab.

6. Complete a thesis prospectus that defines the topic of the thesis, the particular argument that the doctoral document hopes to develop about the topic, and the relevance and importance of the thesis’ argument to debate in the student’s chosen field(s). The thesis prospectus and a satisfactory draft of a chapter must be approved for the student to advance to candidacy. Refer to the department’s Graduate Handbook found under the Policies tab.

7. Complete a thesis that demonstrates independent and original academic work of high quality.

Dagmar Beck
Program Director
dkbeck@rice.edu

Evan Siemann
Faculty Director
siemann@rice.edu

The professional master’s degree in Environmental Analysis teaches students rigorous methods that are needed by business and governmental organizations to deal with environmental issues. As an interdisciplinary program, the MS in Environmental Analysis degree aims to give students the ability to not only remediate and solve environmental problems, but also to predict possible environmental impacts to enable avoidance and mitigation of consequences. The Environmental Analysis curriculum not only emphasizes core quantitative topics such as statistics, remote sensing, data analysis, and modeling, but also expands students’ knowledge in environmental engineering and science, and broadens their understanding of management and business including communication and leadership training and the flexibility to tailor their interest area by taking electives in relevant fields.

The MS in Environmental Analysis (MSEA) degree is part of the professional science master’s (PSM) program at Rice housed in the Wiess School of Natural Sciences. These master’s degrees are designed for students seeking to gain further scientific core expertise coupled with enhanced management and communications skills. They instill a level of scholastic proficiency that exceeds that of the bachelor’s level, and create the cross-functional aptitudes needed in modern industry. Skills acquired in this program will allow students to move more easily into management careers in consulting or research and development, design, and marketing of new science-based products.

A coordinated MBA/MSEA degrees program is also offered in conjunction with the Jesse H. Jones Graduate School of Business.

Environmental Analysis does not currently offer an academic program at the undergraduate level.

Description and Code Legend

Note: Internally, the university uses the following descriptions, codes, and abbreviations for this academic program. The following is a quick reference:
Course Catalog/Schedule
• Course offerings/subject codes: Courses from various subjects may apply toward the graduate program.

Department Description and Code
• Biosciences: BIOS

Graduate Degree Description and Code
• Master of Science in Environmental Analysis: MSEA

Graduate Degree Program Description and Code
• Degree Program in Environmental Analysis: ENVA

CIP Code and Description
• ENVA Major/Program: CIP Code/Title: 03.0103 - Environmental Studies

Classification of Instructional Programs (CIP) 2010 Codes and Descriptions from the National Center for Education Statistics: https://nces.ed.gov/ipeds/cipcode/

Master of Science in Environmental Analysis (MSEA) Degree

Program Learning Outcomes for the MSEA Degree
Upon completing the MSEA Degree, students will be able to:

1. Apply technical and analytical skills and scientific evaluation methods to help solve problems affecting the environment.
2. Demonstrate written, oral, and visual communication strategies required to work effectively across science, business, and government.
3. Possess business and management skills and professional ethics to be effective in a business environment.

Requirements for the MSEA Degree
The MSEA degree is a non-thesis master’s degree. For general university requirements, please see Non-Thesis Master’s Degrees (p. 68). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55). Students pursuing the MSEA degree must complete:

• A minimum of 14 courses (minimum of 39 credit hours) to satisfy degree requirements.
• A minimum of 30 credit hours of graduate-level study (coursework at the 500-level or above).
• A minimum of 24 credit hours must be taken at Rice University.
• A minimum residency enrollment of one fall or spring semester of part-time graduate study at Rice University.
• A 3-6 month internship. Instead of a thesis, at the conclusion of their internship, students must present their internship project in both oral and written form as part of the Professional Master's Project (NSCI 512). Part-time students who already work in their area of study may request approval to fulfill the internship requirement by working on a specific, pre-approved project with their current employer.
• A minimum overall GPA of 2.67 or higher in all Rice coursework.

• A minimum GPA of 2.67 or higher in all Rice coursework that satisfies requirements for the non-thesis master's degree.

Note: Some of the listed courses are not offered every year, and some may also have prerequisites or require instructor permission.

The courses listed below satisfy the requirements for this degree program. In certain instances, courses not on this official list may be substituted upon approval of the program’s academic advisor, or where applicable, the department or program's Director of Graduate Studies. Course substitutions must be formally applied and entered into Degree Works by the department or program's Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/). Additionally, these must be approved by the Office of Graduate and Postdoctoral Studies. Students and their academic advisors should identify and clearly document the courses to be taken.

Footnotes and Additional Information
1 Practical experience is offered via a three to six month immersion. The internship will be under the guidance of a host company, government agency, or non-profit organization. At the conclusion of the internship, students must present a summary of their internship project in both oral and written form as part of the cohort course Professional Master’s Project (NSCI 512). Part-time students who already work in their area of study may fulfill the internship requirements by working on an approved project with their current employer.

2 The 21 credit hours of electives must include at least 3 credit hours from Management and Policy, 9 credit hours from one focus area, and one course each from the following subject codes: Civil and Environmental Engineering (CEVE), Ecology and Evolutionary Biology (EBIO), and Statistics (STAT).

3 Note: Some of the listed courses are not offered every year, and other coursework may be offered that satisfies the stated requirements upon approval. Depending on the student’s background or interest, course substitutions for any required or elective course may be approved by the program’s academic advisor. Students should consult with their academic advisors before enrolling.

Policy for the MSEA Degree
Professional Science Master’s Graduate Program Handbook
The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, the Professional Science Master’s Program publishes a graduate program handbook, which can be found here: https://gradhandbooks.rice.edu/2019_20/Professional_Science_Masters_Handbook.pdf

Admission
Admission to graduate study in Environmental Analysis is open to qualified students holding a bachelor’s degree in a related field that includes general biology, chemistry, calculus, differential equations, and linear algebra. Department faculty evaluate the previous academic record and credentials of each applicant individually.

Transfer Credit
For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 64). Some departments and programs have additional restrictions on transfer credit. Students are encouraged to meet with their academic program’s advisor when considering transfer credit possibilities.

Additional Information
For additional information, please see the Environmental Analysis website: https://profms.rice.edu/

Opportunities for the MSEA Degree
Fifth-Year Master’s Degree Option for Rice Undergraduate Students
Rice students have an option to pursue the Master of Science in Environmental Analysis (MSEA) degree by adding an additional fifth year to their four undergraduate years of science studies.
Advanced Rice undergraduate students in good academic standing may apply to the MSEA degree program during their junior or senior year. Upon acceptance, depending on course load, financial aid status, and other variables, they may then start taking some required courses of the master’s degree program. A plan of study will need to be approved by the student’s undergraduate advisor, the Professional Science Master’s (PSM) program director, and the MSEA program director.

As part of this option and opportunity, Rice undergraduate students:

- must complete the requirements for a bachelor’s degree and the master’s degree independently of each other (i.e., no course may be counted toward the fulfillment of both degrees).
- should be aware there could be financial aid implications if the conversion of undergraduate coursework to that of graduate level reduces their earned undergraduate credit for any semester below that of full-time status (12 credit hours).
- more information on this Undergraduate - Graduate Concurrent Enrollment opportunity, including specific information on the registration process can be found here (p. 17).

Additional Information
For additional information, please see the Environmental Analysis website: https://profms.rice.edu/

Master of Science in Environmental Analysis (MSEA) Degree / Master of Business Administration (MBA) Degree

Program Learning Outcomes for the MSEA Degree
Upon completing the MSEA Degree, students will be able to:

1. Apply technical and analytical skills and scientific evaluation methods to help solve problems affecting the environment.
2. Demonstrate written, oral, and visual communication strategies required to work effectively across science, business, and government.
3. Possess business and management skills and professional ethics to be effective in a business environment.

Program Learning Outcomes for the MBA Degree
Upon completing the MBA degree, students will be able to:

1. Demonstrate an understanding and application of the foundational frameworks and tools of all business disciplines, including accounting, finance, marketing, organizational behavior, and strategic management.
2. Develop, evaluate, and implement complex business strategies and operational solutions holistically, integrating management principles across the functional areas.
3. Function effectively in a team setting both as a leader and a contributor.

Requirements for the MSEA/MBA Coordinated Degrees Program
Students may earn a coordinated MBA degree and a Master of Science degree from the Wiess School of Natural Sciences Professional Science Master’s (PSM) program in the following fields:

- Bioscience and Health Policy (MSBHP)
- Environmental Analysis (MSEA)
- Space Studies (MSSpS)
- Subsurface Geoscience (MSSG)

For the coordinated MBA/Master of Science degree from the Professional Science Master’s (PSM) program, students must complete:

- A minimum of 75 credit hours in approved coursework, including:
  - A minimum of 30 credit hours of graduate-level study (coursework at the 500-level or above) to satisfy the Professional Science Master’s (PSM) degree requirements
  - A minimum of 30 credit hours in the corresponding science discipline
  - All PSM degree-specific requirements
  - A three to six month internship
  - A minimum of 45 credit hours of graduate-level study (coursework at the 500-level or above) to satisfy the MBA degree requirements
  - A minimum of 45 credit hours of business coursework
  - All MBA core requirements, the global field experience, custom core requirements, and coordinated elective requirements

Students plan their course schedules in consultation with the Wiess School of Natural Sciences PSM program director and with the Jones Graduate School of Business Registrar Department. Coordinated degrees candidates can fulfill requirements for both degrees within 3 academic years.

For general university requirements, see Graduate Degrees (p. 49). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55). Candidates in the MBA/Master of Science degree from the Professional Science Master’s (PSM) program must complete all requirements as listed for both degrees, and must apply and be accepted in both degree programs.

The courses listed below satisfy the requirements for this degree program. In certain instances, courses not on this official list may be substituted upon approval of the program's academic advisor, or where applicable, the department or program's Director of Graduate Studies. Course substitutions must be formally applied and entered into Degree Works by the department or program's Official Certifier (https://registrar.rice.edu/facstaff/degneworks/officialcertifier/). Additionally, these must be approved by the Office of Graduate and Postdoctoral Studies. Students and their academic advisors should identify and clearly document the courses to be taken.

### Coordinated MBA Degree Requirements

Students in the coordinated MBA/Master of Engineering degrees program or in the coordinated MBA/Master of Science degree from the Professional Science Master’s (PSM) degrees program must complete the Core Requirements, Global Field Experience, and Custom Core Requirements of the full-time MBA degree program (p. 214) and the Coordinated MBA Elective Requirements below.

</table>

Total Credit Hours: 45

### Footnotes and Additional Information

1. To fulfill the remaining requirements for the coordinated MBA degree program, students must complete an additional 12-15 credit hours from departmental (MGMP, MGMT, or MICO) course offerings at the 500-level or above to reach 45 total credit hours. (MGMT 703, MGMT 704, and MGMT 705 are not accepted as electives.) The second year of the program is dedicated entirely to MBA elective coursework. Although the Jones Graduate School of Business offers a variety of courses for students to take as electives, students may wish to take courses from other departments at Rice University. MBA electives are offered on the daytime schedule, the evening schedule, and the weekend schedule.

### Policies for the MSEA/MBA Coordinated Degrees Program

#### Additional Information

For additional information on these two degrees:

1. Please see the Environmental Analysis website: [https://profms.rice.edu/](https://profms.rice.edu/)
2. Please see the Jones Graduate School of Business website: [https://business.rice.edu/](https://business.rice.edu/)

### Opportunities for the MSEA/MBA Coordinated Degrees Program

#### Additional Information

For additional information on these two degrees:

Evan Siemann
Undergraduate Advisor, major concentration in Ecology and Evolutionary Biology
siemann@rice.edu

Environmental Science is an interdisciplinary field that explores the interconnection between humans and the natural environment. Modern environmental issues reflect the complex interactions of natural and social systems at global and local scales, and the resulting impacts on the Earth have led many to ask whether humankind has entered into a new epoch in the planet’s history, one in which humans are now a key driver in the change of Earth systems. The Environmental Science program fosters the critical, integrative thinking required to better understand the complexities of this human-nature relationship and the resultant scales of impact, and to assess and develop solutions that meet intergenerational human needs without compromising the natural systems upon which humans depend.
The Environmental Science program offers a major in Environmental Science for both the BA and BS degrees, along with two paths, a major concentration in Earth Science, or a major concentration in Ecology and Evolutionary Biology. The program includes a number of interdisciplinary courses for students interested in broadening their understanding of environmental issues. These courses often are team-taught by faculty from various areas of study.

Students desiring a major with an environmental emphasis have multiple options:

- **environmental science** (the aforementioned major, earned through the pursuit of the BA or BS degree)
- **environmental engineering** (an area of specialization within the Bachelor of Science in Chemical Engineering degree)
- **environmental engineering** (a major concentration within the BA degree with a major in Civil and Environmental Engineering)
- **environmental earth science** (an area of specialization within the BS degree with a major in Earth Science)

Students seeking information or advice on the Environmental Science major should contact:

- Dr. Caroline A. Masiello (masiello@rice.edu) for the major concentration in Earth Science, or
- Dr. Evan Siemann (siemann@rice.edu) for the major concentration in Ecology and Evolutionary Biology.

**Bachelor's Programs**

- Bachelor of Arts (BA) Degree with a Major in Environmental Science and a Major Concentration in Earth Science (p. 429)
- Bachelor of Science (BS) Degree with a Major in Environmental Science and a Major Concentration in Earth Science (p. 432)
- Bachelor of Science (BS) Degree with a Major in Environmental Science and a Major Concentration in Ecology and Evolutionary Biology (p. 435)
- Bachelor of Science (BS) Degree with a Major in Environmental Science and a Major Concentration in Ecology and Evolutionary Biology (p. 439)

Environmental Science does not currently offer an academic program at the graduate level.

**Environmental Science Major Advisors**

Caroline A. Masiello, Earth, Environmental and Planetary Sciences
Julia K. Morgan, Earth, Environmental and Planetary Sciences
Amy E. Dunham, Ecology and Evolutionary Biology
Evan Siemann, Ecology and Evolutionary Biology

**Descriptions and Codes Legend**

*Note: Internally the university uses the following descriptions, codes, and abbreviations for this academic program. The following is a quick reference:*

**Course Catalog/Schedule**

- Course offerings/subject code: Courses from various subjects may apply toward the degree

**Department Description and Code**

- Environmental Studies: ENST

**Undergraduate Degree Descriptions and Codes**

- Bachelor of Arts degree: BA
- Bachelor of Science degree: BS

**Undergraduate Major Description and Code**

- Major in Environmental Science (both the BA and BS Degrees): ENVS

**Undergraduate Major Concentration Descriptions and Codes**

- Major concentration in Earth Science (both the BA and BS Degrees): ESEA
- Major concentration in Ecology and Evolutionary Biology (both the BA and BS Degrees): ESEC

**CIP Code and Description**

- **ENVS** Major/Program: CIP Code/Title: 03.0104 - Environmental Science
- **ESEA** Major Concentration: CIP Code/Title: 40.0601 - Geology/Earth Science, General
- **ESEC** Major Concentration: CIP Code/Title: 26.1310 - Ecology and Evolutionary Biology

**Bachelor of Arts (BA) Degree with a Major in Environmental Science and a Major Concentration in Earth Science**

Program Learning Outcomes for the BA Degree with a Major in Environmental Science

Upon completing the BA degree with a major in Environmental Science, students will be able to:

1. Demonstrate foundational knowledge in the natural sciences that is fundamental to the environmental sciences or application of the environmental sciences to other fields.
2. Integrate knowledge of natural and applied sciences to understand complex natural systems and cycles.
3. Synthesize knowledge from natural sciences and engineering and understand how it applies to the study of the environment.
4. Understand environmental issues from a scientific perspective and be able to solve issues using a variety of interdisciplinary perspectives (e.g., social sciences, economics, humanities, and/or architecture).

**Requirements for the BA Degree with a Major in Environmental Science**

For general university requirements, see Graduation Requirements (p. 26). Students pursuing the BA degree with a major in Environmental Science must complete:

- A minimum of 22-24 courses (61-67 credit hours), depending on course selection, to satisfy major requirements.
- A minimum of 121-127 credit hours to satisfy degree requirements.
A minimum of 60 credit hours outside of major requirements.
A minimum of 4-6 courses (12-21 credit hours), depending on declared major concentration, taken at the 300-level or above.
A capstone senior seminar requirement.
The requirements of a major concentration. When students declare the major (p. 11) in Environmental Science, students must additionally identify and declare one of two major concentrations, either in:
- Earth Science (p. 431), or
- Ecology and Evolutionary Biology (p. 434).

Because of the common core requirements, it is possible for students to change their major concentration at any time, even after initially declaring the major. To do so, please contact the Office of the Registrar (%20registrar@rice.edu).

Environmental science is an interdisciplinary major that addresses environmental issues in the context of what we know about earth, ecology, and society. In addition to its science core, the major also seeks to provide students with some appreciation of social, cultural, and policy dimensions of environmental issues.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor, or where applicable, the department's Director of Undergraduate Studies. (Course substitutions must be formally applied and entered into Degree Works by the major's Official Certifier (https://registrar.rice.edu/facstaff/degeworks/officialcertifier/).) Students and their academic advisors should identify and clearly document the courses to be taken.

Total Credit Hours Required for the Major in Environmental Science
61-67

University Graduation Requirements (p. 26) * 60
Total Credit Hours
121-127

Footnotes and Additional Information
* Includes coursework completed as distribution credit, FWIS, LPAP, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The “hours outside of the major” requirement may include all of the above university requirements.

1 CHEM 151 may be substituted for CHEM 121 or CHEM 111; CHEM 153 may be substituted for CHEM 123 or CHEM 113; CHEM 152 may be substituted for CHEM 122 or CHEM 112, and CHEM 154 may be substituted for CHEM 124 or CHEM 114.

2 The Core Courses acquaint students with a range of environmental topics encountered by scientists, engineers, managers, and policy makers. Core Courses stress the components of the global environment and their interactions, culminating with a tropical seminar that integrates across the field.

3 Students may also petition to complete alternative courses to be applied toward the Advanced Electives requirement.

4 In addition to the courses in the Natural Sciences and Engineering Advanced Electives list, students may complete 1 course listed in the major concentration requirements outside of the student’s declared major concentration.

Major Concentration: Earth Science
Students must complete a total of 3 courses (minimum of 10-12 credit hours, depending on course selection) as listed below to satisfy the requirements for the major concentration in Earth Science.

Code Title Credit Hours

Total Credit Hours Required for the Major in Environmental Science 61-67

University Graduation Requirements (p. 26) * 60

Total Credit Hours 121-127

Footnotes and Additional Information

* Includes coursework completed as distribution credit, FWIS, LPAP, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The “hours outside of the major” requirement may include all of the above university requirements.

1 CHEM 151 may be substituted for CHEM 121 or CHEM 111; CHEM 153 may be substituted for CHEM 123 or CHEM 113; CHEM 152 may be substituted for CHEM 122 or CHEM 112, and CHEM 154 may be substituted for CHEM 124 or CHEM 114.

2 The Core Courses acquaint students with a range of environmental topics encountered by scientists, engineers, managers, and policy makers. Core Courses stress the components of the global environment and their interactions, culminating with a tropical seminar that integrates across the field.

3 Students may also petition to complete alternative courses to be applied toward the Advanced Electives requirement.

4 In addition to the courses in the Natural Sciences and Engineering Advanced Electives list, students may complete 1 course listed in the major concentration requirements outside of the student's declared major concentration.

Major Concentration: Ecology and Evolutionary Biology

Students must complete a total of 3 courses (minimum of 9 credit hours) as listed below to satisfy the requirements for the major concentration in Ecology and Evolutionary Biology.

Total Credit Hours  9

Footnotes and Additional Information
1 Please note that the course not completed in the Core Requirements list for the major concentration in Ecology and Evolutionary Biology may be completed and applied towards the major concentration’s Elective Requirements.

Policies for the BA Degree with a Major in Environmental Science and a Major Concentration in Ecology and Evolutionary Biology

Transfer Credit
For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Program Transfer Credit Guidelines
Students pursuing the major in Environmental Science should be aware of the following program transfer credit guidelines:

• Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

Additional Information
For additional information, please see the following websites:

• https://biosciences.rice.edu/
• https://earthscience.rice.edu/academics/undergraduate-program/

Opportunities for the BA Degree with a Major in Environmental Science and a Major Concentration in Ecology and Evolutionary Biology

Academic Honors
The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (p. 48) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work.

Bachelor of Science (BS) Degree with a Major in Environmental Science and a Major Concentration in Earth Science

Program Learning Outcomes for the BS Degree with a Major in Environmental Science

Upon completing the BS degree with a major in Environmental Science, students will be able to:

1. Demonstrate foundational knowledge in the natural sciences that is fundamental to the environmental sciences or application of the environmental sciences to other fields.
2. Integrate knowledge of natural and applied sciences to understand complex natural systems and cycles.
3. Synthesize knowledge from natural sciences and engineering and apply it to the study of the environment.
4. Understand environmental issues from a scientific perspective and be able to solve issues using a variety of interdisciplinary perspectives (e.g., social sciences, economics, humanities, and/or architecture).
5. Demonstrate knowledge and skills suitable for doing research and/or field studies in environmental science.
Requirements for the BS Degree with a Major in Environmental Science

For graduation requirements, see Graduation Requirements (p. 26). Students pursuing the BS degree with a major in Environmental Science must complete:

- A minimum of 25-29 courses (72-78 credit hours), depending on course selection, to satisfy major requirements.
- A minimum of 132-138 credit hours to satisfy degree requirements.
- A minimum of 60 credit hours outside of major requirements.
- A minimum of 5-7 courses (15-24 credit hours), depending on declared major concentration, taken at the 300-level or above.
- An advanced field or research experience requirement.
- A capstone senior seminar requirement.
- The requirements of a major concentration. When students declare the major in Environmental Science, students must additionally identify and declare one of two major concentrations, either in:
  - Earth Science (p. 438), or
  - Ecology and Evolutionary Biology (p. 441).

Because of the common core requirements, it is possible for students to change their major concentration at any time, even after initially declaring the major. To do so, please contact the Office of the Registrar (registrar@rice.edu).

Environmental Science is an interdisciplinary major that addresses environmental issues in the context of what we know about earth, ecology, and society. In addition to its science core, the major also seeks to provide students with some appreciation of social, cultural, and policy dimensions of environmental issues.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major's academic advisor, or where applicable, the department's Director of Undergraduate Studies. (Course substitutions must be formally applied and entered into Degree Works by the major's Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/).) Students and their academic advisors should identify and clearly document the courses to be taken.

**Major Concentration**

Select 1 from the following Major Concentrations (see below for Major Concentration requirements):

- Earth Science
- Ecology and Evolutionary Biology

**Advanced Electives**

Select 1 course from the following:

- ANTH 348 ANTHROPOLOGIES OF NATURE
- ANTH 381 MEDICAL ANTHROPOLOGY
- ENST 302 / SOCI 304 ENVIRONMENTAL ISSUES: RICE INTO THE FUTURE
- ENST 332 / ANTH 332 THE SOCIAL LIFE OF CLEAN ENERGY
- ENST 367 / SOCI 367 ENVIRONMENTAL SOCIOLOGY
- ENST 437 / ECON 437 ENERGY ECONOMICS
- ENST 480 / ECON 480 ENVIRONMENTAL AND ENERGY ECONOMICS
- POLI 332 URBAN POLITICS
- POLI 362 COMPARATIVE URBAN POLITICS AND POLICY
- SOCI 313 DEMOGRAPHY
- SOCI 423 SOCIOLOGY OF FOOD

**Humanities and Architecture**

Select 1 course from the following:

- ENGL 358 CONSUMPTION AND CONSUMERISM
- ENGL 459 STUDIES IN LITERATURE AND ECOLOGY
- ENST 202 / HUMA 202 CULTURE, ENERGY, AND THE ENVIRONMENT: AN INTRODUCTION TO ENERGY HUMANITIES
- ENST 313 / ARCH 313 SUSTAINABLE DESIGN
- ENST 322 / ARCH 322 CASE STUDIES IN SUSTAINABILITY: THE REGENERATIVE REPOSITIONING OF NEW OR EXISTING RICE CAMPUS BLDGS
- ENST 368 / ENGL 368 LITERATURE AND THE ENVIRONMENT
- HIST 425 20TH CENTURY AMERICAN CONSERVATION MOVEMENT

**Natural Sciences and Engineering**

Select 1 course from the following:

- CEVE 302 / ENGI 302 SUSTAINABLE DESIGN
- CEVE 308 INTRODUCTION TO AIR POLLUTION CONTROL
- CEVE 401 CHEMISTRY FOR ENVIRONMENTAL ENGINEERING AND SCIENCE LAB
- CEVE 404 ATMOSPHERIC PARTICULATE MATTER

- CEVE 411 ATOMIC PROCESSES
- CEVE 412 HYDROLOGY AND WATER RESOURCES ENGINEERING
- CEVE 420 ENVIRONMENTAL REMEDIATION RESTORATION
- CEVE 434 FATE AND TRANSPORT OF CONTAMINANTS IN THE ENVIRONMENT
- CEVE 484 / STAT 484 HUMAN HEALTH
- CHEM 211 ORGANIC CHEMISTRY I
- CHEM 213 and ORGANIC CHEMISTRY DISCUSSION
- ENST 281 / CEVE 281 ENGINEERING SOLUTIONS FOR SUSTAINABLE COMMUNITIES
- ENST 307 / CEVE 307 / ESCI 307 ENERGY AND THE ENVIRONMENT
- ENST 307 / CEVE 307 / ESCI 307 INTRODUCTION TO ENVIRONMENTAL LAW

**Advanced Field or Research Experience Requirement**

Independent Research (see the Opportunities tab for additional information).

Select 1 course from the following:

- EBIO 403 UNDERGRADUATE HONORS RESEARCH IN ECOLOGY AND EVOLUTIONARY BIOLOGY
- or EBIO 404 UNDERGRADUATE HONORS RESEARCH IN ECOLOGY AND EVOLUTIONARY BIOLOGY
- ESCI 390 GEOLOGY FIELD CAMP
- ESCI 391 EARTH SCIENCE FIELD EXPERIENCE
- ESCI 481 UNDERGRADUATE RESEARCH IN EARTH SCIENCE

**Capstone Senior Seminar Requirement**

ESCI 495 / EBIO 495 SEMINAR: TOPICS IN ENVIRONMENTAL SCIENCE

**Total Credit Hours Required for the Major in Environmental Science**

72-78

**University Graduation Requirements (p. 26)**

60

**Total Credit Hours**

132-138

**Footnotes and Additional Information**

* Includes coursework completed as distribution credit, FWIS, LPAP, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The "hours outside of the major" requirement may include all of the above university requirements.

1 CHEM 151 may be substituted for CHEM 121 or CHEM 111;
CHEM 153 may be substituted for CHEM 123 or CHEM 113;
CHEM 152 may be substituted for CHEM 122 or CHEM 112, and
CHEM 154 may be substituted for CHEM 124 or CHEM 114.

2 The Core Courses acquaint students with a range of environmental topics encountered by scientists, engineers, managers, and policy makers. Core Courses stress the components of the global environment and their interactions, culminating with a tropical seminar that integrates across the field.

3 Students may also petition to complete alternative courses to be applied toward the Advanced Electives requirement.
In addition to the courses in the Natural Sciences and Engineering Advanced Electives list, students may complete 1 course listed in the major concentration requirements outside of the student’s declared major concentration.

Students are encouraged, but not required, to undertake independent research on environmentally related topics.

**Major Concentration: Earth Science**

Students must complete a total of 3 courses (minimum of 10-12 credit hours, depending on course selection) as listed below to satisfy requirements for the major concentration in Earth Science.

10-12

**Footnotes and Additional Information**

1 Please note that the course not completed in the Core Requirements list for the major concentration in Earth Science may be completed and applied towards the major concentration’s Elective Requirement.

**Policies for the BS Degree with a Major in Environmental Science and a Major Concentration in Earth Science**

**Transfer Credit**

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

**Program Transfer Credit Guidelines**

Students pursuing the major in Environmental Science should be aware of the following program transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

**Additional Information**

For additional information, please see the following websites:

- https://biosciences.rice.edu/
- https://earthscience.rice.edu/academics/undergraduate-program/

**Opportunities for the BS Degree with a Major in Environmental Science and a Major Concentration in Earth Science**

**Academic Honors**

The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (p. 48) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 48). Some departments have department-specific Honors awards or designations.

**Independent Research**

Students are encouraged to undertake independent research on environmentally related topics as part of their degree programs, in cooperation with one or more faculty. Course options for independent research, repeatable for credit, include: EBIO 403, EBIO 404, and ESCI 481.

Students also can enroll in senior honors thesis programs within their major concentrations, or by arrangement with other departments, and/or through the Rice Undergraduate Scholars Program. Students completing a thesis will also be eligible for the Distinction in Research and Creative Work, a university honor. Details for each program can be found here:

- ESCI Senior Honors Thesis (https://earthscience.rice.edu/academics/undergraduate-program/honors-thesis)
- Rice Undergraduate Scholars Program (https://ouri.rice.edu/rice-undergraduate-scholars-program-rusp-1)

**Additional Information**

For additional information, please see the following websites:

- https://biosciences.rice.edu/
- https://earthscience.rice.edu/academics/undergraduate-program/

Upon completing the BS degree with a major in Environmental Science, students will be able to:

1. Demonstrate foundational knowledge in the natural sciences that is fundamental to the environmental sciences or application of the environmental sciences to other fields.
2. Integrate knowledge of natural and applied sciences to understand complex natural systems and cycles.
3. Synthesize knowledge from natural sciences and engineering and apply it to the study of the environment.
4. Understand environmental issues from a scientific perspective and be able to solve issues using a variety of interdisciplinary perspectives (e.g., social sciences, economics, humanities, and/or architecture).
5. Demonstrate knowledge and skills suitable for doing research and/or field studies in environmental science.

Requirements for the BS Degree with a Major in Environmental Science

For graduation requirements, see Graduation Requirements (p. 26). Students pursuing the BS degree with a major in Environmental Science must complete:

- A minimum of 25-29 courses (72-78 credit hours), depending on course selection, to satisfy major requirements.
- A minimum of 132-138 credit hours to satisfy degree requirements.
- A minimum of 60 credit hours outside of major requirements.
- A minimum of 5-7 courses (15-24 credit hours), depending on declared major concentration, taken at the 300-level or above.
- An advanced field or research experience requirement.
- A capstone senior seminar requirement.
- The requirements of a major concentration. When students declare the major (p. 11) in Environmental Science, students must additionally identify and declare one of two major concentrations, either in:
  - Earth Science (p. 438), or
  - Ecology and Evolutionary Biology (p. 441).

Because of the common core requirements, it is possible for students to change their major concentration at any time, even after initially declaring the major. To do so, please contact the Office of the Registrar (%20registrar@rice.edu).

Environmental Science is an interdisciplinary major that addresses environmental issues in the context of what we know about earth, ecology, and society. In addition to its science core, the major also seeks to provide students with some appreciation of social, cultural, and policy dimensions of environmental issues.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor, or where applicable, the department’s Director of Undergraduate Studies. (Course substitutions must be formally applied and entered into Degree Works by the major’s Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/).) Students and their academic advisors should identify and clearly document the courses to be taken.

**Total Credit Hours Required for the Major in Environmental Science**

72-78

**University Graduation Requirements (p. 26)**

60

**Total Credit Hours**

132-138

---

**Footnotes and Additional Information**

* Includes coursework completed as distribution credit, FWIS, LPAP, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The "hours outside of the major" requirement may include all of the above university requirements.

1 CHEM 151 may be substituted for CHEM 121 or CHEM 111; CHEM 153 may be substituted for CHEM 123 or CHEM 113; CHEM 152 may be substituted for CHEM 122 or CHEM 112, and CHEM 154 may be substituted for CHEM 124 or CHEM 114.

2 The Core Courses acquaint students with a range of environmental topics encountered by scientists, engineers, managers, and policy makers. Core Courses stress the components of the global environment and their interactions, culminating with a tropical seminar that integrates across the field.

3 Students may also petition to complete alternative courses to be applied toward the Advanced Electives requirement.

4 In addition to the courses in the Natural Sciences and Engineering Advanced Electives list, students may complete 1 course listed in the major concentration requirements outside of the student's declared major concentration.

5 Students are encouraged, but not required, to undertake independent research on environmentally related topics.

---

**Major Concentration: Ecology and Evolutionary Biology**

Students must complete a total of 3 courses (9 credit hours) as listed below to satisfy the requirements for the major concentration in Ecology and Evolutionary Biology.

**Policies for the BS Degree with a Major in Environmental Science and a Major Concentration in Ecology and Evolutionary Biology**

**Transfer Credit**

For Rice University's policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

**Program Transfer Credit Guidelines**

Students pursuing the major in Environmental Science should be aware of the following program transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

**Additional Information**

For additional information, please see the following websites:

- [https://biosciences.rice.edu/](https://biosciences.rice.edu/)
- [https://earthscience.rice.edu/academics/undergraduate-program/](https://earthscience.rice.edu/academics/undergraduate-program/)

---

**Opportunities for the BS Degree with a Major in Environmental Science and a Major Concentration in Ecology and Evolutionary Biology**

**Academic Honors**

The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 48) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 48). Some departments have department-specific Honors awards or designations.
Independent Research

Students are encouraged to undertake independent research on environmentally related topics as part of their degree programs, in cooperation with one or more faculty. Course options for independent research, repeatable for credit, include: EBIO 403, EBIO 404, and ESCI 481.

Students also can enroll in senior honors thesis programs within their major concentrations, or by arrangement with other departments, and/or through the Rice Undergraduate Scholars Program. Students completing a thesis will also be eligible for the Distinction in Research and Creative Work, a university honor. Details for each program can be found here:

- EBIO Honors Research

- ESCI Senior Honors Thesis
  [https://earthscience.rice.edu/academics/undergraduate-program/honors-thesis](https://earthscience.rice.edu/academics/undergraduate-program/honors-thesis)

- Rice Undergraduate Scholars Program
  [https://ouri.rice.edu/rice-undergraduate-scholars-program-rusp-1](https://ouri.rice.edu/rice-undergraduate-scholars-program-rusp-1)

Additional Information
For additional information, please see the following websites:

Richard R. Johnson
Program Co-Director
rrj@rice.edu

Environmental Studies is an interdisciplinary field that explores the interconnection between humans and the natural environment. Modern environmental issues reflect the complex interactions of natural and social systems at global and local scales, and the resulting impacts on the Earth have led many to ask whether humankind has entered into a new epoch in the planet’s history, one in which humans are now a key driver in the change of Earth systems.

The Environmental Studies program fosters the critical, integrative thinking required to better understand the complexities of this human-nature relationship and the resultant scales of impact, and to assess and develop solutions that meet intergenerational human needs without compromising the natural systems upon which humans depend.

The Environmental Studies program offers an undergraduate minor in Environmental Studies and several interdisciplinary courses for students interested in broadening their understanding of environmental issues. These courses often are team-taught by faculty from various areas of study.

The program in Environmental Studies, along with the Center for Energy and Environmental Research in the Human Sciences, are administered jointly by the School of Humanities and the School of Architecture, with staff support and first point of contact in the School of Humanities.

Minor

- Minor in Environmental Studies (p. 442)

Environmental Studies does not currently offer an academic program at the graduate level.

Course Catalog/Schedule

- Course offerings/subject code: ENST

Program Description and Code

- Environmental Studies: ENST

Undergraduate Minor Description and Code

- Minor in Environmental Studies: ENST

CIP Code and Description

1. ENST Minor: CIP Code/Title: 03.0103 - Environmental Studies

Classification of Instructional Programs (CIP) 2010 Codes and Descriptions from the National Center for Education Statistics: [https://nces.ed.gov/ipeds/cipcode/](https://nces.ed.gov/ipeds/cipcode/)

Minor in Environmental Studies
Program Learning Outcomes for the Minor in Environmental Studies

Upon completing the minor in Environmental Studies, students will be able to:

1. Understand the fundamental science that drives earth/natural systems, and that frames and makes comprehensible current environmental issues.
2. Evaluate the nexus of human activity with environmental processes to examine and understand sustainable (or unsustainable) practices.
3. Develop a cross-disciplinary perspective to better understand environmental issues and solutions through a focus within the natural sciences and/or engineering and a focus within the humanities, social sciences, and/or architecture.

Requirements for the Minor in Environmental Studies

Students pursuing the minor in Environmental Studies must complete:

- A minimum of 6 courses (18 credit hours) to satisfy minor requirements.
- A minimum of 3 courses (9 credit hours) taken at the 300-level or above.

The Environmental Studies minor was specifically created to provide undergraduates from a broad range of academic backgrounds with a cohesive program offering foundational literacy in the social, cultural, and scientific dimensions of environmental issues, and a cross-disciplinary holistic understanding of the challenges and solutions for creating a sustainable world. Students completing the minor will be able to synthesize frameworks, tools, and perspectives from multiple disciplines; master sustainability terminology; understand major environmental issues from multiple perspectives; develop and assess environmental solutions in an informed and logical manner; and convey knowledge and insights about environmental issues in multiple formats.

The courses listed below satisfy the requirements for this minor. In certain instances, courses not on this official list may be substituted upon approval of the minor’s academic advisor, or where applicable, the Program Director. (Course substitutions must be formally applied and entered into Degree Works by the minor’s Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/). Students and their academic advisors should identify and clearly document the courses to be taken.

Footnotes and Additional Information

1. Current/former EBIO majors are eligible to substitute EBIO 325 in place of EBIO 124 to meet the introductory course requirement from the natural sciences.

2. Given the wide range of courses at Rice related to Environmental Studies, students are encouraged to contact the Minor Director to suggest courses to include on the list of approved electives.

Policies for the Minor in Environmental Studies

Program Restrictions and Exclusions

Students pursuing the minor in Environmental Studies should be aware of the following program restriction:

- As noted in Majors, Minors, and Certificates (p. 11), i.) students may declare their intent to pursue a minor only after they have first declared a major, and ii.) students may not major and minor in the same subject.

Transfer Credit

For Rice University's policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

Program Transfer Credit Guidelines

Students pursuing the minor in Environmental Studies should be aware of the following program-specific transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program's official transfer credit advisor) on an individual case-by-case basis.

Distribution Credit Information

The determination of distribution eligibility is done as part of the new course creation process (https://registrar.rice.edu/facstaff/courseprocess/). As part of an annual roll call (https://registrar.rice.edu/facstaff/distribution_credit/) coordinated each Spring by the Office of the Registrar, course distribution eligibility is reviewed and reaffirmed by the Dean's Offices of each of the academic schools.

Faculty and leadership in the academic schools are responsible for ensuring that the courses identified as distribution-eligible meet the criteria as set in the General Announcements (p. 26). Students are responsible for ensuring that they meet graduation requirements (p. 26) by completing coursework designated as distribution at the time of course registration.

Distribution courses from Environmental Studies (ENST) are broadly scoped and thematically diverse and prompt students to explore the cultural, social, and political dimensions of human-environmental relations and environmental systems. They present students with an interdisciplinary spectrum of relevant methods and skills and help students to develop analytical, expressive, and critical knowledge of the relationship of environment, culture, and society across the world. They are introductions to the study of human-environmental relations and environmental systems.

Additional Information

For additional information, please see the Environmental Studies website: https://humanities.rice.edu/academics/programs/environmental-studies (https://humanities.rice.edu/academics/programs/environmental-studies/)

Department Chair
emden@rice.edu

European Studies is an interdisciplinary undergraduate major offered by the Classical and European Studies (CES) Department. The major includes courses and faculty from the departments of Art History, English, History, Philosophy, Religion, and Spanish, Portuguese, and Latin American Studies.

The focus of the major in European Studies is a critical understanding of European cultures and societies in a global context that combines the study of literature, philosophy, history, the visual arts, and media.

Bachelor's Program
- Bachelor of Arts (BA) Degree with a Major in European Studies (p. 445)

European Studies does not currently offer an academic program at the graduate level.

Bachelor of Arts (BA) Degree with a Major in European Studies
Program Learning Outcomes for the BA Degree with a Major in European Studies

Upon completing the BA degree with a major in European Studies, students will be able to:

1. Demonstrate a synthetic understanding of European history and identity over a wide period, from antiquity to the modern era.
2. Identify, contextualize, and analyze key aspects of European history and identity—e.g., texts, artifacts, institutions, ideas, events, personalities, and places.
3. Demonstrate successful command of research skills and methodologies appropriate to the major.
4. Communicate orally in clear, informed, and critical terms about European history and identity.
5. Produce papers in analytical and persuasive prose following the conventions of humanities scholarship.

Requirements for the BA Degree with a Major in European Studies

For general university requirements, see Graduation Requirements (p. 26).

Students pursuing the BA degree with a major in European Studies must complete:

- A minimum of 10 courses (30 credit hours) to satisfy major requirements.
- A minimum of 120 credit hours to satisfy degree requirements.
- A minimum of 60 credit hours outside of major requirements.
- A minimum of 6 courses (18 credit hours) taken at the 300-level or above.
- A maximum of 4 courses (12 credit hours) from study abroad or transfer credit. For additional departmental guidelines regarding transfer credit, see the Policies tab.
- A Capstone Requirement.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor, or where applicable, the department’s Director of Undergraduate Studies. (Course substitutions must be formally applied and entered into Degree Works by the major’s Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/).) Students and their academic advisors should identify and clearly document the courses to be taken.

**Footnotes and Additional Information**

* Includes coursework completed as distribution credit, FWIS, LPAP, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The ‘hours outside of the major’ requirements may include all of the above university requirements.

1 A minimum of 6 courses (18 credit hours), including the Core Requirements (EURO 101 and EURO 102) and the Capstone Requirement (EURO 401), must be taken at Rice.

**Course Lists to Satisfy Requirements**

**Elective Requirements**

Students must complete a total of 7 courses (21 credit hours), of which 5 courses (15 credit hours) must be at the 300-level or above. Students must take 3 elective courses (9 credit hours) from Elective Group A. Students must take 4 elective courses (12 credit hours) from Elective Group B. Within Elective Group B, a maximum of 2 courses (6 credit hours) can come from any one subject code.

**Footnotes and Additional Information**

1 A maximum of 2 courses (6 credit hours) can come from any one subject code in the Elective Group B course list.

**Additional Information**

**Honors Thesis**

Majors in European Studies may fulfill 2 of their elective courses (6 credit hours) by writing an honor thesis in their final year of study. This Honors Thesis course will be a 3 credit hour course that can be repeated in two semesters, Fall and Spring.

**European Languages**

The major in European Studies does not include a language requirement. Students are strongly encouraged to pursue the study of at least one European language (up to and) at an advanced level. Majors with an interest in a European language, however, may take up to two elective courses in that language at the 300-level or above that will count toward the major. These courses constitute two of the elective courses required for the major. These courses do not include FREN 301, FREN 302 or GERM 301, GERM 302.

**Policies for the BA Degree with a Major in European Studies**

**Transfer Credit**

For Rice University's policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

**Departmental Transfer Credit Guidelines**

Students pursuing the major in European Studies should be aware of the following departmental transfer credit guidelines:

- No more than 4 courses (12 credit hours) of transfer credit from U.S. or international universities of similar standing may apply towards the major.
- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

**Distribution Credit Information**

The determination of distribution eligibility is done as part of the new course creation process (https://registrar.rice.edu/facstaff/courseprocess/). As part of an annual roll call (https://registrar.rice.edu/facstaff/distribution_credit/) coordinated each Spring by the Office of the
Registrar, course distribution eligibility is reviewed and reaffirmed by the Dean's Offices of each of the academic schools.

Faculty and leadership in the academic schools are responsible for ensuring that the courses identified as distribution-eligible meet the criteria as set in the General Announcements (p. 26). Students are responsible for ensuring that they meet graduation requirements (p. 26) by completing coursework designated as distribution at the time of course registration.

Distribution courses from the Department of Classical and European Studies are broad in theme and scope and provide students with a substantial inquiry into literature, art, media, history, thought, and/or politics, including specific national traditions, linguistic contexts, and historical periods. Such courses involve a broad and often interdisciplinary spectrum of knowledge, providing students with the tools for thinking critically about the formation of European culture, its colonial past, and its national and linguistic traditions from antiquity to the present.

Additional Information
For additional information, please see the Classical and European Studies website: https://ces.rice.edu/

Opportunities for the BA Degree with a Major in European Studies

Academic Honors
The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (p. 48) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 48). Some departments have department-specific Honors awards or designations.

Additional Information
For additional information, please see the Classical and European Studies website: https://ces.rice.edu/

See https://humanities.rice.edu/student-life for tables of fellowships, prizes, and internships/practica that may be relevant to this major.

Financial Computation and Modeling

Contact Information
Financial Computation and Modeling

https://www.cofes.rice.org/
2051 Duncan Hall
713-348-5839

Katherine Bennett Ensor
Program Director
ensor@rice.edu

The interdisciplinary Financial Computation and Modeling (FCAM) program is offered through a collaboration of the departments of Statistics and Economics. The FCAM minor consists of six courses focusing on the strategies and computational technologies used in the financial industry. The minor is designed for those undergraduate students with strong computational skills and an interest in finance. Many students pursuing the FCAM minor enter careers in the financial industry, either immediately after completion of their undergraduate studies or after graduate studies. Students completing the FCAM minor will understand the complexities of financial markets and their role in and impact on world economies.

The basic tools component of the FCAM curriculum will equip students with the economic, probability, and statistical tools necessary to pursue the advanced analytical courses. In the advanced courses, students will be exposed to state-of-the-art models and methodologies based on long-standing assumptions about the behavior of financial markets. They also will be exposed to alternative views of market behavior and investment strategies. The goal is to educate students to question basic assumptions as well as utilize and understand technologies based on these important assumptions. In the financial industry, a large suite of solutions are implemented and continually enhanced. A goal of the FCAM program is to train leaders in this industry who not only will understand the financial technologies but also will understand the role, impact, and potential pitfalls of these technologies.

Minor

• Minor in Financial Computation and Modeling

Financial Computation and Modeling does not currently offer an academic program at the graduate level.

Minor in Financial Computation and Modeling

2019-2020 General Announcements
PDF Generated 11/12/2019
Program Learning Outcomes for the Minor in Financial Computation and Modeling

Upon completing the minor in Financial Computation and Modeling, students will be able to:

1. Demonstrate knowledge of statistical, mathematical, and computational techniques and methods and how to choose and apply appropriate methods to questions or problems in the field of finance.
2. Understand the basic concepts of Economic Theory and how they apply to financial markets as well as how financial markets impact global economies.
3. Demonstrate an understanding of basic financial databases and the ability to use technologies, like R and Excel, to model and solve financial problems.
4. Understand core quantitative modeling concepts and demonstrate key skills necessary for working in the field of finance and investing.
5. Demonstrate the ability to understand, interpret, and critically evaluate empirical financial studies and investment strategies.

Requirements for the Minor in Financial Computation and Modeling

Students pursuing the minor in Financial Computation and Modeling must complete:

- A minimum of 6 courses (19-20 credit hours, depending on course selection) to satisfy minor requirements.
- A minimum of 5 courses (16 credit hours) taken at the 300-level or above.

The courses listed below satisfy the requirements for this minor. In certain instances, courses not on this official list may be substituted upon approval of the minor’s academic advisor, or where applicable, the Program Director. (Course substitutions must be formally applied and entered into Degree Works by the minor’s Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/)). Students and their academic advisors should identify and clearly document the courses to be taken.

Footnotes and Additional Information

1. A maximum of 1 course (3 credit hours) can be taken from each group to satisfy Elective Requirements.

Policies for the Minor in Financial Computation and Modeling

Program Restrictions and Exclusions

Students pursuing the minor in Financial Computation and Modeling should be aware of the following program restriction:

- As noted in Majors, Minors, and Certificates (p. 11), i.) students may declare a minor only after they have first declared a major, and ii.) students may not major and minor in the same subject.

Transfer Credit

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: https://oaad.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Program Transfer Credit Guidelines

Students pursuing the minor in Financial Computation and Modeling should be aware of the following program-specific transfer credit guidelines:

- Request for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

Additional Information

For additional information, please see the Resources (Undergraduate) page on the Center for Computational Finance and Economic Systems website: https://www.cofes-rice.org/academic-programs/undergraduate/.
Opportunities for the Minor in Financial Computation and Modeling

Academic Honors
The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 48) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 48). Some departments have department-specific Honors awards or designations.

Finance Seminar
Students pursuing the FCAM minor have the opportunity to participate in STAT 499 Computational Finance Seminar for 1 credit hour. Students are also encouraged to take part in the annual Eubank Conference on Real World Markets and join the student computational finance club.

Additional Information
For additional information, please see the Resources (Undergraduate) page on the Center for Computational Finance and Economic Systems website: https://www.cofes-rice.org/academic-programs/undergraduate/.

Christian J. Emden
Department Chair
emden@rice.edu

French Studies is a major offered by the Classical and European Studies (CES) Department. The French Studies program offers courses in topics from medieval courtly love to French philosophy since the Enlightenment, from post-colonial Africa to social issues in contemporary France, and from women in the nineteenth-century literary imagination to the art of reading and interpretation with a focus not just on the literary and linguistic but also on gender and visual art, history and medicine, post-colonialism and critical theory.

The majority of courses are offered entirely in French but some courses are also offered in English (some of these in collaboration with the other majors offered by the Classical and European Studies department).

Bachelor’s Program

• Bachelor of Arts (BA) Degree with a Major in French Studies (p. 451)

French Studies does not currently offer an academic program at the graduate level.

Bachelor of Arts (BA) Degree with a Major in French Studies

Program Learning Outcomes for the BA Degree with a Major in French Studies
Upon completing the BA degree with a major in French Studies, students will be able to:

1. Communicate fluently in spoken and written French at an advanced level, as indicated by the ability to: understand spoken French, converse in French, critically read and translate French texts, and write in multiple genres in French.

2. Achieve the cultural literacy necessary for studying abroad or practicing internationally-based professions by demonstrating an understanding of the major social, cultural, and political stakes of the French and Francophone world, past and present.

3. Demonstrate an interdisciplinary understanding of French studies through critical investigations of French literature, art, film, and other cultural forms.
4. Understand French language and culture not as isolated geographic phenomena, but in the wider context of multicultural exchange and globalization.

5. Learn and apply various research skills, including critical thinking and reading skills, theory, and criticism, to French texts (broadly construed) in order to produce new critical insights verbally or in writing.

Requirements for the BA Degree with a Major in French Studies

For general university requirements, see Graduation Requirements (p. 26). Students pursuing the BA degree with a major in French Studies must complete:

- A minimum of 10 courses (30 credit hours) to satisfy major requirements.
- A minimum of 120 credit hours to satisfy degree requirements.
- A minimum of 60 credit hours outside of major requirements.
- A minimum of 8 courses (24 credit hours) taken at the 300-level or above.
- A maximum of 4 courses (12 credit hours) from study abroad or transfer credit. For additional departmental guidelines regarding transfer credit, see the Policies tab.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor, or where applicable, the department’s Director of Undergraduate Studies. (Course substitutions must be formally applied and entered into Degree Works by the major’s Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/).) Students and their academic advisors should identify and clearly document the courses to be taken.

The courses taken to satisfy the Core Requirements must be taken at the 300 or 400 level without restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credits.

To fulfill the remaining French Studies major requirements, students must complete a total of 7 additional courses (21 credit hours) from departmental (FREN) course offerings as follows: 2 courses (6 credit hours) at the 200-level or above; 3 courses (9 credit hours) at the 300-level or above; and 2 courses (6 credit hours) at the 400-level. Please note: any elective course at the 200-level or 300-level may be replaced by a course at a higher level.

Footnotes and Additional Information

* Includes coursework completed as distribution credit, FWIS, LPAP, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The “hours outside of the major” requirement may include all of the above university requirements.

1 The courses taken to satisfy the Core Requirements must be taken at Rice University. It is strongly suggested that these courses be taken as early as possible.

2 To fulfill the remaining French Studies major requirements, students must complete a total of 7 additional courses (21 credit hours) from departmental (FREN) course offerings as follows: 2 courses (6 credit hours) at the 200-level or above; 3 courses (9 credit hours) at the 300-level or above; and 2 courses (6 credit hours) at the 400-level.

Policies for the BA Degree with a Major in French Studies

Enrollment

As many as two French courses taught in English may count toward a major in French Studies. Students who have taken French courses at the 300 and 400 level (except those taught in English) cannot enroll simultaneously or afterward in 200-level French courses for credit.

Students with diplomas from French-speaking institutions must consult with the department before enrolling in courses, and all majors and prospective majors must have their programs of study approved by an undergraduate advisor.

Students who arrive at Rice with AP credit in French of ‘4’ or ‘5,’ or who have passed the International Baccalaureate with a ‘6’ or ‘7’ in French, can immediately enroll in all courses at the 300 or 400 level without taking a placement exam. All other students are required to take the placement exam administered by CLIC and will be assigned to courses in accordance with their level.

Transfer Credit

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines

Students pursuing the major in French Studies should be aware of the following departmental transfer credit guidelines:

- No more than 4 courses (12 credit hours) of transfer credit from U.S. or international universities of similar standing as Rice may apply towards the major.
• Requests for transfer credit will be considered by the program director (and/or the program's official transfer credit advisor) on an individual case-by-case basis.

Distribution Credit Information
The determination of distribution eligibility is done as part of the new course creation process (https://registrar.rice.edu/facstaff/courseprocess/). As part of an annual roll call (https://registrar.rice.edu/facstaff/distribution_credit/) coordinated each Spring by the Office of the Registrar, course distribution eligibility is reviewed and reaffirmed by the Dean's Offices of each of the academic schools.

Faculty and leadership in the academic schools are responsible for ensuring that the courses identified as distribution-eligible meet the criteria as set in the General Announcements (p. 26). Students are responsible for ensuring that they meet graduation requirements (p. 26) by completing coursework designated as distribution at the time of course registration.

Distribution courses from the Department of Classical and European Studies are broad in theme and scope and provide students with a substantial inquiry into literature, art, media, history, thought, and/or politics, including specific national traditions, linguistic contexts, and historical periods. Such courses involve a broad and often interdisciplinary spectrum of knowledge, providing students with the tools for thinking critically about the formation of European culture, its colonial past, and its national and linguistic traditions from antiquity to the present.

Additional Information
For additional information, please see the Classical and European Studies website: https://ces.rice.edu/.

Opportunities for the BA Degree with a Major in French Studies
Academic Honors
The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 48) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 48). Some departments have department-specific Honors awards or designations.

Honors Program
The Honors Program in French Studies is meant to recognize outstanding French majors and to offer an opportunity to complete a senior thesis in close collaboration with a French Studies faculty member. The program provides seniors with the opportunity to develop individual research projects culminating in the Honors thesis.

Study Abroad Opportunities
We strongly encourage students to spend time studying in a francophone country, and to that end the faculty and the Rice Study Abroad Office will help them select an appropriate program.

Additional Information
For additional information, please see the Classical and European Studies website: https://ces.rice.edu/.

Christian J. Emden
Department Chair
dmeden@rice.edu

German Studies is a major offered by the Classical and European Studies (CES) Department. The German Studies program is a research-centered and student-friendly program with a challenging curriculum taught by internationally renowned faculty. The program covers the entire tradition of German culture, history, and politics within a European and global context, from early modern times to the present. Particular strengths of the department are in eighteenth- to twentieth-century literature and culture, media and film studies, modern intellectual history and political thought, and philosophy.

The close connection between research and teaching lies at the heart of the major’s curriculum and enables students to develop original contributions at an early stage. Beyond a detailed and historically grounded understanding of German and European culture, students gain intellectual and social qualities that are highly valued in a global knowledge society: logical reasoning, critical thinking, linguistic skills, and cultural competence. German Studies majors have received Fulbright grants and have continued at some of the best graduate schools in the U.S. and Europe.

Bachelor’s Program
• Bachelor of Arts (BA) Degree with a Major in German Studies (p. 454)

German Studies does not currently offer an academic program at the graduate level.

Bachelor of Arts (BA) Degree with a Major in German Studies

Program Learning Outcomes for the BA Degree with a Major in German Studies

Upon completing the BA degree with a major in German Studies, students will be able to:

1. Display an understanding of the main lines of cultural, political, and social thought in German history from early modern times to the present in the European context based on original sources.
2. Analyze and evaluate key texts and documents of German cultural and political history such as literature, philosophy, art, film, and electronic media by way of close reading, critical interpretation and an awareness of the document’s rhetorical and media-specific features.
3. Identify and compare different authors and texts within the different traditions they form a part of as well as their impact and legacy within both the national and international context.
4. Conduct research in the field of German Studies on topics chosen independently and to represent and communicate their findings clearly and coherently both in writing and oral presentation.

Requirements for the BA Degree with a Major in German Studies

For general university requirements, see Graduation Requirements (p. 26).

- A minimum of 10 courses (30 credit hours) to satisfy major requirements.
- A minimum of 120 credit hours to satisfy degree requirements.
- A minimum of 60 credit hours outside of major requirements.
- A minimum of 8 courses (24 credit hours) taken at the 300-level or above.
- A maximum of 4 courses (12 credit hours) from study abroad or transfer credit. For additional departmental guidelines regarding transfer credit, see the Policies tab.

German Studies at Rice is a research-centered and undergraduate-focused program with internationally renowned faculty. Courses are offered in both German and English. The program covers German history, literature, and culture, from the seventeenth century to the present, with a strong emphasis on Germany’s role in a wider European and transatlantic context. Particular departmental strengths are in the areas of modern intellectual history, 18th- to 20th-century literature and philosophy, film and media studies, as well as political theory. The close connection between research and teaching lies at the core of the curriculum. For more information please see the Classical and European Studies website at https://ces.rice.edu/.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor, or where applicable, the department’s Director of Undergraduate Studies. (Course substitutions must be formally applied and entered into Degree Works by the major’s Official Certifier.) Students and their academic advisors should identify and clearly document the courses to be taken.

Footnotes and Additional Information

- Includes coursework completed as distribution credit, FWIS, LPAP, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The “hours outside of the major” requirement may include all of the above university requirements.
Both GERM 263 and GERM 264 may be replaced by an eight-week intensive summer language course at the University of Leipzig, Germany. The Leipzig Summer Program course counts toward the German Studies major at Rice with 6 credit hours. For more information, see the Opportunities tab.

GERM 301 and GERM 302 may be replaced by two four-week summer language courses at the University of Leipzig, Germany. For more information, see the Opportunities tab.

To fulfill the remaining German Studies major requirements, students must complete a total of 6 additional courses (18 credit hours) from departmental (GERM) course offerings as follows: 4 courses (12 credit hours) at the 300-level or above, and 2 courses (6 credit hours) at the 400-level. Please note: any elective course at the 300-level may be replaced by a course at a higher level.

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines

Students pursuing the major in German Studies should be aware of the following departmental transfer credit guidelines:

- No more than 4 courses (12 credit hours) of transfer credit from U.S. or international universities of similar standing as Rice may apply towards the major.
- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

Distribution Credit Information

The determination of distribution eligibility is done as part of the new course creation process (https://registrar.rice.edu/facstaff/courseprocess/). As part of an annual roll call (https://registrar.rice.edu/facstaff/distribution_credit/) coordinated each Spring by the Office of the Registrar, course distribution eligibility is reviewed and reaffirmed by the Dean’s Offices of each of the academic schools.

Faculty and leadership in the academic schools are responsible for ensuring that the courses identified as distribution-eligible meet the criteria as set in the General Announcements (p. 26). Students are responsible for ensuring that they meet graduation requirements (p. 26) by completing coursework designated as distribution at the time of course registration.

Distribution courses from the Department of Classical and European Studies are broad in theme and scope and provide students with a substantial inquiry into literature, art, media, history, thought, and/or politics, including specific national traditions, linguistic contexts, and historical periods. Such courses involve a broad and often interdisciplinary spectrum of knowledge, providing students with the tools for thinking critically about the formation of European culture, its colonial past, and its national and linguistic traditions from antiquity to the present.

Additional Information

Opportunities for the BA Degree with a Major in German Studies

Academic Honors

The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 48) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 48). Some departments have department-specific Honors awards or designations.

Honors Program

German Studies offers an honors program for majors excelling in their studies. Honors work consists of two semesters of independent research under faculty supervision on a topic proposed by the student leading to a substantial essay (GERM 493 in fall, GERM 494 in spring). Outstanding students are presented annually with the Max Freund Prize.
The Leipzig Summer Program
The Department of German Studies strongly encourages intermediate-level students of German to attend an eight-week, intensive language course at the University of Leipzig's renowned Herder Institute. The Leipzig course can be used to replace the sequence GERM 263 and GERM 264 or GERM 301 and GERM 302, and it will count toward the German Studies major at Rice with 6 credit hours. Through several generous endowments, the department offers the Leipzig Fellowships that can be used for travel, housing, and tuition expenses in Leipzig.

Details about the Leipzig Summer Program, including information about housing, can be found at https://ces.rice.edu/ and https://www.interdaf.uni-leipzig.de/. Students must apply directly to Leipzig-interDaF for course admission. For further information, contact the Program Advisor for German Studies, Astrid Oesmann, astrid.oesmann@rice.edu.

Additional Information
For additional information, please see the Classical and European Studies website: https://ces.rice.edu/.

See https://humanities.rice.edu/student-life for tables of fellowships, prizes, and internships/practica that may be relevant to this major.

Classification of Instructional Programs (CIP) 2010 Codes and Descriptions from the National Center for Education Statistics: https://nces.ed.gov/ipeds/cipcode/

Master of Arts in Global Affairs (MAGA) Degree
Program Learning Outcomes for the MAGA Degree
Upon completing the MAGA degree, students will be able to:

1. Demonstrate leadership, communication, and research skills to conduct independent studies enabling them to understand and formulate public policy recommendations in the international arena.
2. Apply quantitative skills to data analysis to make policy recommendations.
3. Describe real-life experience in international public policy development by participating in an internship.
4. Assess the social responsibilities of governments, non-governmental organizations, corporations, and individuals in the global twenty-first century.
5. Analyze and develop new and innovative solutions to emerging challenges in the global community.

Requirements for the MAGA Degree
The MAGA degree is a non-thesis master's degree. For general university requirements, please see Non-Thesis Master's Degrees (p. 68). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55). Students pursuing the MAGA degree must complete:

- A minimum of 36 credit hours to satisfy degree requirements.
- A minimum of 30 credit hours of graduate-level study (coursework at the 500-level or above).
- A minimum of 24 credit hours must be taken at Rice University.
- A minimum residency enrollment of one fall or spring semester of part-time graduate study at Rice University.
- The requirements for one area of specialization (see below for areas of specialization). The MAGA degree program offers three areas of specialization:
  - International Political Development (p. ), or
  - International Political Economy (p. ), or
  - International Security (p. ).
- The required Graduate Field Internship.
- The required Capstone project.
- A minimum overall GPA of 2.67 or higher in all Rice coursework.
- A minimum GPA of 2.67 or higher in all Rice coursework that satisfies requirements for the non-thesis master's degree.

Please Note: Courses offerings may vary. Some listed courses may not be offered every year, and others may be offered that satisfy the requirements with pre-approval. Students should consult their academic advisors before enrolling and check for any course prerequisites.

The courses listed below satisfy the requirements for this degree program. In certain instances, courses not on this official list may be substituted upon approval of the program's academic advisor, or where applicable, the department or program's Director of Graduate Studies. Course substitutions must be formally applied and entered into Degree Works by the department or program's Official Certifier (https://registrar.rice.edu/facstaff/degeworks/officialcertifier/). Additionally, these must be approved by the Office of Graduate and Postdoctoral Studies. Students and their academic advisors should identify and clearly document the courses to be taken.

Footnotes and Additional Information

1 Core Requirements must be completed during the first year of study.
2 The Area of Specialization requirement must be completed during the second year of study.
3 Students are required to complete a minimum eight-week extensive field experience in which they intern at one of a variety of internationally-based or internationally-focused governmental and nongovernmental organizations, international commissions, embassies, agencies, or corporations. The internship will provide students valuable real-world application of their degree with the goal of facilitating their employment in these organizations.
4 In the second year, students must select a topic of concentration and pursue in-depth research which delves into the real-world, policy aspects of the topic.

Areas of Specialization

Students must complete a minimum of 3 courses (9 credit hours) from one area of specialization. Students should choose coursework according to their individual academic interests and career goals. No more than 1 course (3 credit hours) at the undergraduate level (300- or 400-level) can be used toward the area of specialization. The area of specialization requirement must be completed during the second year of study.

Policies for the MAGA Degree

Admission

Applicants to the Master of Arts in Global Affairs degree program are required to submit:

- Statement of purpose
- Professional resume
- Three letters of recommendation
- Official transcripts from all colleges and universities attended, with official degree conferral date
- Applicants are recommended, but not required to submit scores from either the Graduate Record Examination (GRE) or the Graduate Management Admissions Test (GMAT).
- Approved TOEFL scores for applicants whose native language is not English and who did not receive a degree from a country in which English is the official language of communication.

Foreign Language Proficiency

Students who expect to complete their degree program with a particular regional focus in mind are expected to be proficient in one of the primary languages of that region. Proficiency is defined as the ability to read and speak the language. This requirement can be met in one of three ways:

- By passing a language proficiency exam administered by the Rice Language Center.
- By achieving a grade of B+ (3.33 grade points) or better in an intermediate language course at Rice. Taking this class does not count toward the 36 credit hours total for degree completion.
- By graduating from a high school or university where a language other than English was the primary language of instruction.

Transfer Credit

For Rice University's policy regarding transfer credit, see Transfer Credit (p. 64). Some departments and programs have additional restrictions on transfer credit. Students are encouraged to meet with their academic program's advisor when considering transfer credit possibilities.

Additional Information

For additional information, please see the Global Affairs website: https://mga.rice.edu/

Opportunities for the MAGA Degree

Fifth-Year Master's Degree Option for Rice Undergraduate Students

Rice students have an option to pursue the Master of Arts in Global Affairs (MAGA) degree by adding an additional fifth year to their four undergraduate years of studies.

Advanced Rice undergraduate students in good academic standing may apply to the MAGA degree program during their junior or senior year. Upon acceptance, depending on course load, financial aid status, and other variables, they may then start taking some required courses of the master's degree program. A plan of study will need to be approved by the student's undergraduate advisor and the MAGA program director.
As part of this option and opportunity, Rice undergraduate students:

- must complete the requirements for a bachelor’s degree and the master’s degree independently of each other (i.e. no course may be counted toward the fulfillment of both degrees).
- should be aware there could be financial aid implications if the conversion of undergraduate coursework to that of graduate level reduces their earned undergraduate credit for any semester below that of full-time status (12 credit hours).
- more information on this Undergraduate - Graduate Concurrent Enrollment opportunity, including specific information on the registration process can be found here (p. 17).

Rice 360°: Institute for Global Health collaborates with multiple departments to offer students a minor in Global Health Technologies (GLHT), a unique, multidisciplinary program to educate and train students to reach beyond traditional disciplinary and geographic boundaries to understand, address, and solve global health disparities. With complementary contributions from the humanities, social science, policy, bioscience, and engineering programs at Rice, the GLHT minor prepares students to integrate diverse perspectives as they develop solutions to the complex problems of global health, using the formal approach of the engineering design process.

The minor is open to Rice undergraduate students from all disciplines and requires completion of seven courses, including five core courses, and two electives. Students begin the minor by taking GLHT 201 which provides an overview of scientific, economic, and policy issues associated with advanced global health technologies, followed by an introductory design course, GLHT 360. The subsequent core course is selected by the student from a collection of approved courses. The final two courses include GLHT 451 (https://qa.rice.edu/search/?P=GLHT%20451/) and GLHT 452 (https://qa.rice.edu/search/?P=GLHT%20452/) which are taken in a two-semester sequence in which multidisciplinary teams of undergraduate students work together to design and implement solutions to existing global health challenges in the developing world. Elective courses include a range of subjects. Courses such as Immunology, Health Economics, Medical Chemistry, or Health Policy, provide students experience in engineering and social sciences as applied to international health challenges.

Throughout the program, GLHT students benefit from receiving guidance and mentorship from Rice faculty and graduate students as well as from the Texas Medical Center, partner organizations in developing countries, and clinicians to design low-cost, effective health technologies.

Minor
- Minor in Global Health Technologies (p. 459)

Global Health Technologies does not currently offer an academic program at the graduate level.

Minor in Global Health Technologies
Program Learning Outcomes for the Minor in Global Health Technologies

Upon completing the minor in Global Health Technologies, students will be able to:

1. Demonstrate the ability to prototype and build appropriate technologies that respond to global health design challenges or problems, and/or develop a community health plan or strategy to address these challenges. They will conduct independent research and design—from developing a research question and completing a literature review, to analyzing and interpreting data—to demonstrate the effectiveness of their proposed solution.

2. Demonstrate a broad understanding of the issue of human health, disease, and health care planning from Natural Science, Humanities, and Social Sciences perspectives.

3. Understand the basic elements of human health and disease from evolutionary, biological, and epidemiological perspectives.

4. Demonstrate critical thinking and analysis skills within the realm of global health and its related disciplines, including the ability to critically and responsibly synthesize materials and methods from a range of disciplines to address global health problems or questions.

5. Demonstrate a knowledge of how health and disease are, in part, social and cultural constructs; students will be able to explain how different populations of individuals within the same geographic locale or in very different geographic locales may understand health and disease differently. They will also demonstrate the ability to assess and explain how different kinds of health planning, delivery systems, institutions, and health products would be more or less effective for different populations.

6. Communicate effectively at the college level by demonstrating the ability to write research papers, literature reviews, and other scholarly papers and by being able to verbally present this information effectively and correctly.

Requirements for the Minor in Global Health Technologies

Students pursuing the minor Global Health Technologies must complete:

- A minimum of 7 courses (21 credit hours) to satisfy minor requirements.

The courses listed below satisfy the requirements for this minor. In certain instances, courses not on this official list may be substituted upon approval of the minor’s academic advisor, or where applicable, the Program Director. (Course substitutions must be formally applied and entered into Degree Works by the minor’s Official Certifier (https://registrar.rice.edu/facstaff/degeworks/officialcertifier/)). Students and their academic advisors should identify and clearly document the courses to be taken.

GLHT 451 GLOBAL HEALTH DESIGN CHALLENGES I 2
GLHT 452 GLOBAL HEALTH DESIGN CHALLENGES II 2

Total Credit Hours 21

Footnotes and Additional Information

1 All core courses will be offered each year:
   • GLHT 201, PSYC 370, SOCI 381, ANTH 381, GLHT 392 and GLHT 451 in the Fall.
   • GLHT 360 SOCI 345, GLHT 464, GLHT 314 and GLHT 452 in the Spring.
   The sequence indicated is the required sequence, as prerequisites do apply.
   If not selected as a Core course, some courses are also available as Electives (see below for course lists).

2 Prior to enrollment in the capstone courses GLHT 451 and GLHT 452, students must successfully complete all other GLHT minor core course requirements, although electives may be taken concurrently.

Course Lists to Satisfy Requirements

Elective Requirements

To fulfill the remaining Global Health Technologies minor requirements, students must complete a total of 2 additional electives courses (6 credit hours) as listed below.

### Policies for the Minor in Global Health Technologies

**Admission**

Courses with the GLHT subject code are open to all Rice students, including those not pursuing the GLHT minor, with the exception of GLHT 360 (https://ga.rice.edu/search/?P=GLHT%20360/) and the capstone course GLHT 451 (https://ga.rice.edu/search/?P=GLHT%20451)/GLHT 452 (https://ga.rice.edu/search/?P=GLHT%20452). While GLHT 451 (https://ga.rice.edu/search/?P=GLHT%20451)/GLHT 452 (https://ga.rice.edu/search/?P=GLHT%20452) senior capstone is restricted to students completing the GLHT minor, for GLHT 360 (https://ga.rice.edu/search/?P=GLHT%20360/), students are required to submit a 250-word statement explaining their interests in and reasons for taking the course to Rice360@rice.edu to gain special permission from the instructor to register for the course. Preferential admission to GLHT 360 (https://ga.rice.edu/search/?P=GLHT%20360/) will be given to students who formally declared or state their intention to pursue the GLHT minor. For information on the declaration of minor process for the GLHT minor, please visit this website (http://www.rice360.rice.edu/minor/#Declaration).

There is no requirement to initiate or declare the GLHT minor in the freshman year. It can be formally declared as late as the junior year (beginning of the fifth semester). It will be possible for students to receive credit for GLHT minor courses that also fulfill a requirement within their major.
Program Restrictions and Exclusions
Students pursuing the minor in Global Health Technologies should be aware of the following program restrictions:

- As noted in Majors, Minors, and Certificates (p. 11), i.) students may declare a minor only after they have first declared a major, and ii.) students may not major and minor in the same subject.

Transfer Credit
For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Program Transfer Credit Guidelines
Students pursuing the minor in Global Health Technologies should be aware of the following program-specific transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

Additional Information
For additional information, please see the Global Health website: https://www.rice360.rice.edu/glht-minor (https://www.rice360.rice.edu/glht-minor/)

Opportunities for the Minor in Global Health Technologies

Academic Honors
The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (p. 48) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 48). Some departments have department-specific Honors awards or designations.

Program Internships and Competition

Rice 360° Global Health Summer Internship Program
The Rice 360° Global Health Technologies Summer Internship Program gives Rice University undergraduate students - both science and non-science majors - first-hand exposure to health care in resource constrained settings. In partnership with clinics, schools, and organizations working in developing countries, the internships allow students to advance their solutions to a global health design challenge in a real-world setting.

The summer internships are held in a number of national and international locations, exposing students to health care challenges and solutions in the developed and developing world. In the past, our students have visited Malawi, Brazil, and the Rio Grande Valley in Texas among other locations. During the internship, students are responsible for the implementation of a GLHT project and a site specific project, both of which are assigned to them. In addition, participants select a project of their choice and work on identifying and documenting five novel ideas or technology ideas at the site.

Summer internships are fully funded experiences, covering the cost of your travel (airfare, visa, and traveler’s insurance), immunizations, housing and a stipend for day to day living expenses (eg. food and local transportation).

For more information visit: https://www.rice360.rice.edu/internships (https://www.rice360.rice.edu/internships/).

Global Health Technologies Design Competition
The Rice 360° Annual Undergraduate Global Health Technologies Design Competition is held each Spring at Rice University. It features over 20 student teams from national and international universities who present their low-cost global health technologies. Entries are judged on the quality of the problem definition, the effectiveness and potential impact of the design solution, and the likelihood that the solution can be successful in improving healthcare delivery in low-resource settings by faculty, clinicians, and private and public sector partners from around the country.

Information on the application process and competition guidelines can be found here: https://www.rice360.rice.edu/design-competition (https://www.rice360.rice.edu/design-competition/).

Additional Information
For additional information, please see the Global Health website: https://www.rice360.rice.edu/glht-minor (https://www.rice360.rice.edu/glht-minor/)

Gnosticism, Esotericism and Mysticism

The Department of Religion offers the Certificate in Gnosticism, Esotericism and Mysticism (GEM). The GEM certificate provides graduate students with a theoretical orientation, which they then can apply to their chosen concentrations (i.e., African-American religions; African religions; Bible and Beyond; Buddhism; Christianity; Hinduism; Islam; Judaism; American Religion; New Age and New Religious Movements, New Testament and Early Christianity; etc.).

Traditionally the study of religion has privileged the authoritative voices of the religious experts and the scriptural texts that uphold orthodox faith traditions. GEM is a new approach to the study of religion that does not privilege the public orthodox framings but takes seriously the heterodox and esoteric currents that have been actively repressed, censored, or marginalized in a variety of sociological, psychological, philosophical, and political ways. GEM takes into account the plurality of religious voices and expressions, including the neglected currents, in order to reconceive religion. This approach also engages the psychology and the phenomenology of religious experience, rather than relying exclusively on...
the authorial framings taught by the faith traditions and transmitted in their scriptural texts, interpretations and rituals.

Gnosticism, Esotericism and Mysticism does not currently offer an academic program at the undergraduate level.

Certificate in Gnosticism, Esotericism and Mysticism

Program Learning Outcomes for the Certificate in Gnosticism, Esotericism and Mysticism

Upon completing the certificate in Gnosticism, Esotericism and Mysticism, students will be able to:

1. Understand and interpret gnostic, esoteric, and mystic traditions by examining the plurality of religious voices and expressions, including currents that have been marginalized, neglected, repressed, and censored in a variety of sociological, psychological, philosophical, and political ways.

Requirements for the Certificate in Gnosticism, Esotericism and Mysticism

The certificate in Gnosticism, Esotericism, and Mysticism is a graduate certificate. For general university requirements, please see Graduate Certificates (p. 54). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55). Students pursuing the certificate in Gnosticism, Esotericism and Mysticism must complete:

• A minimum of 6 courses (14 credit hours) to satisfy certificate requirements.
• A minimum overall GPA of 2.67 or higher in all Rice coursework.
• A minimum GPA of 2.67 or higher in all Rice coursework that satisfies requirements for the graduate certificate with a minimum grade of B- (2.67 grade points) in each course.

This certificate is not a freestanding degree program; in addition to fulfilling the certificate requirements outlined below, candidates will be required to complete successfully the degree program to which they have been admitted in order to receive this certificate. Upon completion, the certificate is awarded at the same time as the conferral of the student’s Rice degree, along with a formal notation on their academic transcript.

The courses listed below satisfy the requirements for this certificate. In certain instances, courses not on this official list may be substituted upon approval of the certificate’s academic advisor, or where applicable, the Program Director. Course substitutions must be formally applied and entered into Degree Works by the certificate’s Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/). Additionally, these must be approved by the Office of Graduate and Postdoctoral Studies. Students and their academic advisors should identify and clearly document the courses to be taken.

The study of history informs students about the many worlds of the past from which our diverse community has come. It provides analytical tools with which to understand the present in terms of the past, and it helps create a knowledgeable citizenry that can confront the challenges of the future with confidence and historical insight. History is at the heart of the Humanities, which provide the core of a liberal arts education.

The department of History at Rice offers a diverse and exciting range of undergraduate electives that encourage engagement with the past as a way to understand the present and that foster appreciation of past societies for their own sake as important elements of the human experience. Our undergraduate major emphasizes critical skills in communication, writing, and especially research skills, and our department funds travel to archives and libraries as students prepare senior seminar papers and honors theses. The History major is flexible and offers an International Concentration that recognizes study abroad opportunities for the Certificate in Gnosticism, Esotericism and Mysticism.

Center for the Study of Women, Gender, and Sexuality, or the Center for Critical and Cultural Theory.

Through graduate reciprocal agreements with the Universidade Estadual de Campinas (UNICAMP) and the Instituto Mora, the department offers highly qualified graduate students the opportunity to earn a second PhD at a top-ranked university in Brazil or Mexico. Students in the dual degree program study in Brazil or Mexico, and write theses that are co-supervised by faculty at Rice, and either UNICAMP, or Mora.

Bachelor's Programs

• Bachelor of Arts (BA) Degree with a Major in History (p. 465)
  • and a Major Concentration in History: International Concentration (p. 470)

Master's Program

• Master of Arts (MA) Degree in the field of History*

Doctoral Programs

• Doctor of Philosophy (PhD) Degree in the field of History (p. 474)

Coordinated Programs

• Doctor of Philosophy (PhD) Degree in the field of History with Instituto Mora, in Mexico (Dual Degree) (p. 476)
• Doctor of Philosophy (PhD) Degree in the field of History with Universidade Estadual de Campinas (UNICAMP), in Brazil (Dual Degree) (p. 476)

* Although students are not normally admitted to a Master of Arts (MA) degree program, graduate students may earn the MA as they work towards the PhD.

Bachelor of Arts (BA) Degree with a Major in History
Program Learning Outcomes for the BA Degree with a Major in History

Upon completing the BA degree with a major in History, students will be able to:

1. Identify and connect the ways that people, ideas, and technologies have circulated across the range of geographic regions and historical periods.
2. Apply historical questions to concrete cases and demonstrate analytical skills through the use of historical evidence, rigorous logic, and persuasive argument.
3. Exhibit a solid understanding of historical methodologies and research skills, including the careful and creative use of primary and secondary sources that are read critically and weighed carefully as historical evidence.
4. Demonstrate an awareness of the scholarly literature on a given research topic and identify the position of their research within that literature.
5. Exhibit mastery in writing persuasive and analytical prose following the conventions of the discipline.

Requirements for the BA Degree with a Major in History

For general university requirements, see Graduation Requirements (p. 26). Students pursuing the BA degree with a major in History must complete:

- A minimum of 10 courses (30 credit hours) to satisfy major requirements.
- A minimum of 120 credit hours to satisfy degree requirements.
- A minimum of 60 credit hours outside of major requirements.
- A minimum of 6 courses (18 credit hours) taken at the 300-level or above.
- A maximum of 4 courses (12 credit hours) from study abroad or transfer credit. For additional departmental guidelines regarding transfer credit, see the Policies tab.
- A minimum of 2 courses (6 credit hours) from departmental course offerings of 400-level seminars.

Some foreign language proficiency is desirable and the department highly recommends that students contemplating graduate work in history study at least one foreign language in some depth.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor, or where applicable, the department’s Director of Undergraduate Studies. (Course substitutions must be formally applied and entered into Degree Works by the major’s Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/).) Students and their academic advisors should identify and clearly document the courses to be taken.

### Footnotes and Additional Information

* Includes coursework completed as distribution credit, FWIS, LPAP, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The “hours outside of the major” requirement may include all of the above university requirements.

1 Any departmental (HIST) course offerings between HIST 400 and HIST 499, with the exception of HIST 403 and HIST 404, will fulfill the Seminar Requirement.

2 AP credit for history (HIST 103, HIST 105, HIST 107), HIST 403, and HIST 404, do not fulfill History major requirements as Electives or as Seminar. Additionally, students may take HIST 390 only once to fulfill History major requirements.

### Core Requirements

Select at least 1 course (3 credit hours) from at least 4 of the 5 following fields. Of the 10 required courses to satisfy the History major requirements, a minimum of 6 courses total (18 credit hours) must be completed at the 300-level or above.

### Policies for the BA Degree with a Major in History

#### Transfer Credit

For Rice University's policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of transfer credit advisors on their website: [https://oaa.rice.edu](https://oaa.rice.edu). Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

#### Departmental Transfer Credit Guidelines

Students pursuing the major in History should be aware of the following departmental transfer credit guidelines:

- No more than 4 courses (12 credit hours) of transfer credit from U.S. or international universities of similar standing as Rice may apply towards the major.
- Requests for transfer credit will be considered by the departmental Director of Undergraduate Studies (and/or the program's official transfer credit advisor) on an individual case-by-case basis.

- Courses taken at another university must be equivalent in required reading, writing, research and testing, as well as classroom hours, of a Rice history course. Regarding subject matter, however, there does not have to be an equivalent course in the Rice history course offerings, unless the student requires distribution credit.
- Rice students planning to study at a foreign university must also obtain pre-approval from the Rice Study Abroad Office.
- AP, IB or A-level credit (and the corresponding Rice transfer credit) may not be used to satisfy any requirements for the history major (even though a student may be able to use the articulated credit hours toward general university requirements).
- The Department of History does not accept online courses for transfer credit.

#### Distribution Credit Information

The determination of distribution eligibility is done as part of the new course creation process ([https://registrar.rice.edu/facstaff/courseprocess/](https://registrar.rice.edu/facstaff/courseprocess/)). As part of an annual roll call ([https://registrar.rice.edu/facstaff/distribution_credit/](https://registrar.rice.edu/facstaff/distribution_credit/)) coordinated each Spring by the Office of the Registrar, course distribution eligibility is reviewed and reaffirmed by the Dean's Offices of each of the academic schools.

Faculty and leadership in the academic schools are responsible for ensuring that the courses identified as distribution-eligible meet the criteria as set in the General Announcements (p. 26). Students are responsible for ensuring that they meet [graduation requirements (p. 26)](https://registrar.rice.edu/facstaff/distribution_credit/) by completing coursework designated as distribution at the time of course registration.

Distribution courses from History (HIST) are generally 100- and 200-level introductory courses that do not presuppose work in History or the Humanities.

#### Additional Information

For additional information, please see the History website: [https://history.rice.edu/](https://history.rice.edu/).

### Opportunities for the BA Degree with a Major in History

#### Academic Honors

The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 48) and Distinction in Research and Creative Work (p. 48). Some departments have department-specific Honors awards or designations.

#### Departmental Honors Program in History

Qualified undergraduates may enroll for 6 semester credit hours of directed honors research and writing, completing an honors thesis in their senior year (these 6 credit hours are in addition to the 30 hours required for the major). Accepted students enroll in HIST 403 for 3 credits in the Fall of their senior year and in HIST 404 for 3 credits in the Spring of their senior year. Application to the program is required. For current procedures, see the department website ([http://history.rice.edu/](http://history.rice.edu/)). Financial assistance is available to conduct related research during the summer between the junior and senior year for all students accepted into the Honors Program.
Research Assistantships
The Department of History offers several paid Research Assistantships to give undergraduate students the opportunity to work closely with a faculty member and exercise their historical research skills.

Ira and Patricia Gruber Fund for Undergraduate Research
This fund supports, among other things, independent research projects carried out by history majors under the supervision of department faculty. Typical forms of support include reimbursements or advances for travel to an archive to do research or to a conference to present a paper.

Charles Garside, Jr. Prize in History
Awarded to a 'distinguished student of history to honor the memory of Charles Garside, Jr., a member of the Rice faculty from 1966-1987. The prize offers the winners time to broaden and deepen their education through travel and reflection.

Additional Information
For additional information, please see the History website: https://history.rice.edu/

See https://humanities.rice.edu/student-life (https://humanities.rice.edu/student-life/) for tables of fellowships, prizes, and internships/practica that may be relevant to this major.

Bachelor of Arts (BA) Degree with a Major in History and a Major Concentration in History: International Concentration

Program Learning Outcomes for the BA Degree with a Major in History and an International Major Concentration

Upon completing the BA degree with a major in History, students will be able to:

1. Identify and connect the ways that people, ideas, and technologies have circulated across the range of geographic regions and historical periods.

2. Apply historical questions to concrete cases and demonstrate analytical skills through the use of historical evidence, rigorous logic, and persuasive argument.

3. Exhibit a solid understanding of historical methodologies and research skills, including the careful and creative use of primary and secondary sources that are read critically and weighed carefully as historical evidence.

4. Demonstrate an awareness of the scholarly literature on a given research topic and identify the position of their research within that literature.

5. Exhibit mastery in writing persuasive and analytical prose following the conventions of the discipline.

Additionally, upon completing the BA degree with a major in History and a major concentration in History: International Concentration, students will be able to:

1. Experience a different language and culture in situ.

2. Demonstrate the ability to use a second language for research.

Requirements for the BA Degree with a Major in History
For general university requirements, see Graduation Requirements (p. 26). Students pursuing the BA degree with a major in History must complete:

- A minimum of 10 courses (30 credit hours) to satisfy major requirements.
- A minimum of 120 credit hours to satisfy degree requirements.
- A minimum of 60 credit hours outside of major requirements.
- A minimum of 6 courses (18 credit hours) taken at the 300-level or above.
- A maximum of 4 courses (12 credit hours) from study abroad or transfer credit. For additional departmental guidelines regarding transfer credit, see the Policies tab.
- A minimum of 2 courses (6 credit hours) from departmental course offerings of 400-level seminars.

In addition to the degree requirements, students following the major concentration in History: International Concentration will be required to:

- Complete a significant study abroad experience (such as those recommended by Rice’s Office of International Programs).

- Demonstrate research competence in a language other than English.

Students may demonstrate language competency in two ways. Students who pass a departmental language exam will be certified as having met the language requirement. Students who complete a history honors thesis or a 400-level seminar paper that draws on a significant number of non-English secondary or primary sources will also be certified as having met the stipulation.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor, or where applicable, the department’s Director of Undergraduate Studies. (Course substitutions must be formally applied and entered into Degree Works by the major’s Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/).) Students and their academic advisors should identify and clearly document the courses to be taken.

Seminar
Select 2 seminar courses from departmental (HIST) course offerings at the 400-level. ¹

Elective Requirements
Select 4 elective courses from departmental (HIST) course offerings. ²

Total Credit Hours Required for the Major in History 30
Additional Credit Hours to Complete BA Degree Requirements 30
University Graduation Requirements (p. 26) * 60
Total Credit Hours 120

Footnotes and Additional Information
* Includes coursework completed as distribution credit, FWIS, LPAP, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The "hours outside of the major" requirement may include all of the above university requirements.
¹ Any departmental (HIST) course offerings between HIST 400 and HIST 499, with the exception of HIST 403 and HIST 404, will fulfill the Seminar Requirement.
² AP credit for history, HIST 403, and HIST 404 do not fulfill History major requirements as Electives or as Seminar. Additionally, students may take HIST 390 only once to fulfill History major requirements.

Core Requirements
Select at least 1 course (3 credit hours) from at least 4 of the 5 following fields. Of the 10 required courses to satisfy the History major requirements, a minimum of 6 courses total (18 credit hours) must be completed at the 300-level or above.

### Policies for the BA Degree with a Major in History and an International Major Concentration

#### Transfer Credit

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

#### Departmental Transfer Credit Guidelines

Students pursuing the major in History should be aware of the following departmental transfer credit guidelines:

- No more than 4 courses (12 credit hours) of transfer credit from U.S. or international universities of similar standing as Rice may apply towards the major.
- Requests for transfer credit will be considered by the departmental Director of Undergraduate Studies (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.
- Courses taken at another university must be equivalent in required reading, writing, research and testing, as well as classroom hours, of a Rice history course. Regarding subject matter, however, there does not have to be an equivalent course in the Rice history course offerings, unless the student requires distribution credit.
- Rice students planning to study at a foreign university must also obtain pre-approval from the Rice Study Abroad Office.
- AP, IB or A-level credit (and the corresponding Rice transfer credit) may not be used to satisfy any requirements for the history major.
(even though a student may be able to use the articulated credit hours toward general university requirements).

- The Department of History does not accept online courses for transfer credit.

**Distribution Credit Information**

The determination of distribution eligibility is done as part of the new course creation process (https://registrar.rice.edu/facstaff/courseprocess/). As part of an annual roll call (https://registrar.rice.edu/facstaff/distribution_credit/) coordinated each Spring by the Office of the Registrar, course distribution eligibility is reviewed and reaffirmed by the Dean's Offices of each of the academic schools.

Faculty and leadership in the academic schools are responsible for ensuring that the courses identified as distribution-eligible meet the criteria as set in the General Announcements (p. 26). Students are responsible for ensuring that they meet graduation requirements (p. 26) by completing coursework designated as distribution at the time of course registration.

Distribution courses from History (HIST) are generally 100- and 200-level introductory courses that do not presuppose work in History or the Humanities.

**Additional Information**

For additional information, please see the History website: https://history.rice.edu/

**Opportunities for the BA Degree with a Major in History and an International Major Concentration**

**Academic Honors**

The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (p. 48) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 48). Some departments have department-specific Honors awards or designations.

**Departmental Honors Program in History**

Qualified undergraduates may enroll for 6 semester credit hours of directed honors research and writing, completing an honors thesis in their senior year (these 6 credit hours are in addition to the 30 hours required for the major). Accepted students enroll in HIST 403 for 3 credits in the Fall of their senior year and in HIST 404 for 3 credits in the Spring of their senior year. Application to the program is required. For current procedures, see the department website (http://history.rice.edu/). Financial assistance is available to conduct related research during the summer between the junior and senior year for all students accepted into the Honors Program.

**Research Assistantships**

The Department of History offers several paid Research Assistantships to give undergraduate students the opportunity to work closely with a faculty member and exercise their historical research skills.

**Ira and Patricia Gruber Fund for Undergraduate Research**

This fund supports, among other things, independent research projects carried out by history majors under the supervision of department faculty.

Typical forms of support include reimbursements or advances for travel to an archive to do research or to a conference to present a paper.

**Charles Garside, Jr. Prize in History**

Awarded to a 'distinguished student of history to honor the memory of Charles Garside, Jr.,' a member of the Rice faculty from 1966-1987. The prize offers the winners time to broaden and deepen their education through travel and reflection.

**Additional Information**

For additional information, please see the History website: https://history.rice.edu/

See https://humanities.rice.edu/student-life (https://humanities.rice.edu/student-life/) for tables of fellowships, prizes, and internships/practicum that may be relevant to this major.

**Doctor of Philosophy (PhD) Degree in the field of History**

**Program Learning Outcomes for the MA and PhD Degrees in the field of History**

Upon completing the MA and PhD degrees in the field of History, students will be able to:

1. Develop analytic skills in critical thinking and writing that are of value both inside and outside the academy.
2. Conduct original research that makes a contribution to the field.
3. Be equipped to enter the historical profession as academics who can teach, present work to peers, and communicate effectively with the public.
4. Acquire expertise in their major field of historical inquiry and learn the skills necessary to write historical monographs.

**Requirements for the MA and PhD Degrees in the field of History**

**MA Degree Program**

The MA degree is a non-thesis master’s degree. For general university requirements, please see Non-Thesis Master’s Degrees (p. 68). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55). The department gives priority to applicants for the PhD. Completion of the MA degree usually takes two years; no more than three years may elapse between graduate admission and the completion of the MA degree unless the department graduate committee approves an extension. Students pursuing the MA degree in the field of History must complete the degree in one of the following three ways:

1. completion of one year of coursework (18 credit hours) and a thesis written and defended in an oral examination during the second year, or
2. completion of two years of coursework (36 credit hours), normally including at least two seminar research papers, or
3. for students continuing to the PhD, completion of all requirements for PhD candidacy, including written and oral examinations.
For general university requirements, please see Doctoral Degrees
PhD Degree Program
Field of History
Requirements for the PhD Degree in the field of History

The Rice University graduate program in history is primarily a PhD program. Students who have a BA in history (or its equivalent) are eligible to apply to the PhD program. Although many successful candidates to the PhD program have an MA or other advanced degree, advanced study is not a requirement for admission. Graduate study is offered in these fields: U.S. history, including U.S. and the World topics; Atlantic world history; Latin American history; and the history of the Middle East. These areas are supplemented by an interconnected range of supporting courses and fields, including early modern and modern colonial history, African history, Asian history, European history, world history, gender history, transnational history, economic history, and the history of empires. Further information is available at the department website (http://history.rice.edu/). For general university requirements, see Graduate Degrees (p. 49).

Financial Support
The department awards graduate tuition waivers and fellowship stipends, within the limits of available funds, to qualified PhD candidates with demonstrated ability. All graduate students in the history department are expected to participate in the professional activities of the department as part of their training. These include, but are not limited to, assisting with the Journal of Southern History or serving as research assistants or teaching assistants for department members. As far as possible, these assignments are kept consistent with the areas of interests of the students.

Additional Information
For additional information, please see the History website: https://history.rice.edu/.

Opportunities for the PhD Degree in the field of History
Information regarding resources and opportunities for the Department of History graduate students, including conference and research travels support, as well as additional funding, can be found on the History website: https://history.rice.edu/graduate (https://history.rice.edu/graduate/).

Teaching Opportunities
Avenues for teaching experience at Rice for graduate students include:
The Program in Writing and Communication (PWC) (http://pwc.rice.edu) hires a number of graduate students each semester for instructor and teaching assistant positions (http://pwc.rice.edu/graduate-students-postdocs-2/) for the University’s First-Year Writing Intensive Seminars (FWIS).
The Center for Writing, Oral, and Visual Communication (CWOVC) (https://cwovc.rice.edu/home/) hires student consultants enthusiastic about working with Rice students to improve communication skills. The annual job notice is posted in late March and training is provided to successful applicants.

A competitive, sixth-year fellowship serving as the Boles Editing Fellow for the Journal of Southern History is also available.

Additional Information
For additional information, please see the History website: https://history.rice.edu/.

Policies for the PhD Degree in the field of History

Department of History Graduate Program Handbook
The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, the Department of History publishes a graduate program handbook, which can be found here: https://gradhandbooks.rice.edu/2019_20/History_Graduate_Handbook.pdf

Admission
The Rice University graduate program in history is primarily a PhD program. Students who have a BA in history (or its equivalent) are eligible to apply to the PhD program. Although many successful candidates to the PhD program have an MA or other advanced degree, advanced study is not a requirement for admission. Graduate study is offered in these fields: U.S. history, including U.S. and the World topics; Atlantic world history; Latin American history; and the history of the Middle East. These areas are supplemented by an interconnected range of supporting courses and fields, including early modern and modern colonial history, African history, Asian history, European history, world history, gender history, transnational history, economic history, and the history of empires. Further information is available at the department website (http://history.rice.edu/). For general university requirements, see Graduate Degrees (p. 49).

Financial Support
The department awards graduate tuition waivers and fellowship stipends, within the limits of available funds, to qualified PhD candidates with demonstrated ability. All graduate students in the history department are expected to participate in the professional activities of the department as part of their training. These include, but are not limited to, assisting with the Journal of Southern History or serving as research assistants or teaching assistants for department members. As far as possible, these assignments are kept consistent with the areas of interests of the students.

Additional Information
For additional information, please see the History website: https://history.rice.edu/.

Opportunities for the PhD Degree in the field of History
Information regarding resources and opportunities for the Department of History graduate students, including conference and research travels support, as well as additional funding, can be found on the History website: https://history.rice.edu/graduate (https://history.rice.edu/graduate/).

Teaching Opportunities
Avenues for teaching experience at Rice for graduate students include:
The Program in Writing and Communication (PWC) (http://pwc.rice.edu) hires a number of graduate students each semester for instructor and teaching assistant positions (http://pwc.rice.edu/graduate-students-postdocs-2/) for the University’s First-Year Writing Intensive Seminars (FWIS).
The Center for Writing, Oral, and Visual Communication (CWOVC) (https://cwovc.rice.edu/home/) hires student consultants enthusiastic about working with Rice students to improve communication skills. The annual job notice is posted in late March and training is provided to successful applicants.

A competitive, sixth-year fellowship serving as the Boles Editing Fellow for the Journal of Southern History is also available.

Additional Information
For additional information, please see the History website: https://history.rice.edu/.

See https://humanities.rice.edu/student-life (https://humanities.rice.edu/student-life/) for tables of fellowships, prizes, and internships/practica that may be relevant to this degree.
Dual Doctor of Philosophy (PhD) Degree in the field of History, with Instituto Mora, in Mexico

Program Learning Outcomes for the Dual PhD Degree in the field of History, with Instituto Mora, in Mexico

Upon completing the Dual PhD program in the field of History with Instituto Mora, students will be able to:

1. Write and present orally at the level expected for PhD students at Instituto Mora and Rice.
2. Be widely read in historical literature relevant to their research topic in English and Spanish.
3. Work in archives and libraries in the United States and Mexico.
4. Do original research in relevant primary sources in both languages.
5. Understand two distinct academic traditions and learn from both.

Requirements for the Dual PhD Degree in the field of History, with Instituto Mora, in Mexico

For general university requirements, please see Doctoral Degrees (p. 65). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55).

Rice will award the PhD Degree in the field of History to Instituto Mora students who have successfully completed the following requirements:

1. Passed their comprehensive examinations and been admitted to candidacy at Instituto Mora.
2. Completed 6 graduate level courses at Rice, of which one must be HIST 575, one must be a History Graduate Research seminar, and one must be a History Graduate Reading seminar.
3. Written a thesis in the language of their home institution and a summary in English that is equivalent in style, scholarship, and length to an academic journal article.
4. Successfully presented the thesis, and the summary, in English, to a faculty panel at Rice.
5. Successfully defended the thesis at Instituto Mora.

The Instituto Mora will award the Doctorado en Historia Moderna y Contemporánea to Rice students who have successfully completed the following requirements:

1. Passed their comprehensive examinations and been admitted to candidacy at Rice.
2. Completed 8 graduate-level courses at Mora, of which must include Teoría de la Historia; Seminarios de tesis I and II; 2 courses chosen from any of these categories: Teoría Antropológica, Teoría Social, Teoría del Derecho, or Teoría Económica, and 3 additional graduate seminars.
3. Written a thesis in the language of their home institution and a summary in Spanish that is equivalent in style, scholarship and length to an academic journal article.
4. Successfully defended the doctoral thesis at Rice.

Dual Doctor of Philosophy (PhD) Degree in the field of History, with Universidade Estadual de Campinas (UNICAMP), in Brazil

Program Learning Outcomes for the Dual PhD Degree in the field of History, with Universidade Estadual de Campinas (UNICAMP), in Brazil

Upon completing the Dual PhD program in the field of History with the Universidade Estadual de Campinas (UNICAMP), students will be able to:

1. Demonstrate oral and written fluency at the graduate level in the two target languages.
2. Demonstrate knowledge of the historiography on their research topic(s) in the two target languages.
3. Demonstrate the ability to work with archives and libraries abroad; and demonstrate the ability to do research in the primary sources in the two target languages.
4. Demonstrate the ability to work with two advisors showing an understanding of two distinct academic communities.
Requirements for the Dual PhD Degree in the field of History, with Universidade Estadual de Campinas (UNICAMP), in Brazil

For general university requirements, please see Doctoral Degrees (p. 65). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55).

Rice will award a PhD degree in the field of History to UNICAMP students who have successfully completed the following requirements:

1. Passed their comprehensive examinations and been admitted to candidacy at UNICAMP.
2. Completed 6 graduate-level courses at Rice, which one must be HIST 575, one must be a History research seminar, and one must be a History reading seminar. Students must be enrolled in at least 9 credit hours per semester while at Rice University.
3. Written a thesis in the language of their home institution and a summary in English that is equivalent in style, scholarship, and length to an academic journal article.
4. Successfully presented the thesis and the summary in English to a faculty panel at Rice.
5. Successfully defended the thesis at UNICAMP.

UNICAMP will award the Doutor em História to Rice students who have successfully completed the following requirements:

1. Passed their comprehensive examinations and been admitted to candidacy at Rice.
2. Completed 2 semesters of coursework at UNICAMP, including all required courses for UNICAMP PhD students in History.
3. Written a dissertation in the language of their home institution and a summary in Portuguese, that is equivalent in style, scholarship, and length to an academic journal article.
4. Successfully presented the thesis, and the summary, in Portuguese, to a faculty panel at UNICAMP.
5. Successfully defended the thesis at UNICAMP.

Michael D. Byrne
Professor and Program Director
byrne@rice.edu

The Rice University Department of Psychological Sciences offers the Master of Human-Computer Interaction and Human Factors degree, which examines the scientific consideration of people in the design of products, services, and systems.

Human Factors is responsible for ensuring that systems meet the needs and expectations of the user, and more importantly, conform to the capabilities and limitations of those users. Human Factors can increase the ability of users to use effectively complex systems and enhance the safety of those systems. Human Factors focuses much of its efforts to the study of complex human-machine interfaces such as automobile controls, aircraft cockpits, medical devices, and many others.

Human-Computer Interaction is the subarea within Human Factors particularly concerned with computer systems. Human-Computer Interaction and Human Factors is particularly concerned with issues of usability, that is, how the design of technological systems impacts how efficiently and effectively people can use those systems.

Human-Computer Interaction and Human Factors does not currently offer an academic program at the undergraduate level.

Master's Program

- Master of Human-Computer Interaction and Human Factors (MHCIHF) Degree (p. 478)
Chair, Department of Psychological Sciences

Description and Code Legend
Note: Internally, the university uses the following descriptions, codes, and abbreviations for this academic program. The following is a quick reference:

Course Catalog/Schedule
- Course offerings/subject code: PSYC

Program Description and Code
- Human-Computer Interaction and Human Factors: HCIF

Graduate Degree Description and Code
- Master of Human-Computer Interaction and Human Factors: MHCIHF

Graduate Degree Program Description and Code
- Degree Program in Human-Computer Interaction and Human Factors: HCIF

CIP Code and Description
- HCIF Major/Program: CIP Code/Title: 30.3101 - Human Computer Interaction

Master of Human-Computer Interaction and Human Factors (MHCIHF) Degree

Program Learning Outcomes for the MHCIHF Degree
Upon completing the MHCIHF degree, students will be able to:
1. Have a clear understanding of the fundamental concepts in human factors and engineering psychology.
2. Have a clear understanding of human cognitive functions and limitations, and how those impact the design of systems.
3. Specify the design of an engineering human computer system so that it supports human capabilities.
4. Analyze critically and evaluate one’s own findings and those of others.
5. Communicate effectively ideas, methodologies, analyses, and interpretations of the research topic.

Requirements for the MHCIHF Degree
The MHCIHF degree is a non-thesis master’s degree. For general university requirements, please see Non-Thesis Master’s Degrees (p. 68). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55). Students pursuing the MHCIHF degree must complete:

- A minimum of 11 courses (37 credit hours) to satisfy degree requirements.
- A minimum of 37 credit hours of graduate-level study (coursework at the 500-level or above).
- A minimum of 24 credit hours must be taken at Rice University.
- A minimum residency enrollment of one fall or spring semester of full-time graduate study at Rice University.
- An internship. All students in the Master’s program are required to intern in the summer between their two years of study.
- A capstone design course. (This is to be a project course, supervised jointly by all the HCI and HF faculty, and should be taken in the second semester of the second year.)
- A minimum overall GPA of 2.67 or higher in all Rice coursework.
- A minimum GPA of 3.00 or higher in all Rice coursework that satisfies requirements for the non-thesis master’s degree.

The courses listed below satisfy the requirements for this degree program. In certain instances, courses not on this official list may be substituted upon approval of the program’s academic advisor, or where applicable, the department or program’s Director of Graduate Studies. Course substitutions must be formally applied and entered into Degree Works by the department or program’s Official Certifier [https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/]. Additionally, these must be approved by the Office of Graduate and Postdoctoral Studies. Students and their academic advisors should identify and clearly document the courses to be taken.

**Capstone Requirement**

| PSYC 600            | HCI & HF PROFESSIONAL MASTER'S CAPSTONE PROJECT  | 6            |

Total Credit Hours: 37

**Footnotes and Additional Information**

1. All students in the Master's program are required to intern in the summer between their two years of study. That internship is reflected in the student's course of study as PSYC 595, and students should register for that summer course. Faculty in the HCI and HF area have relationships with multiple local and national companies and government labs that would be suitable. Students sponsored by their employer may return to that company for the summer internship, provided that the work was classified as human factors-related.

2. The capstone requirement, PSYC 600, is to be a project course, supervised jointly by all the HCI and HF faculty, and should be taken in the second semester of the second year.

**Proposed Plan-of-Study**

The following plan-of-study represents the lockstep five-semester sequence in which students pursuing the MHCIHF degree complete the required coursework.
and Human Factors program, publishes a graduate program handbook, which can be found here: https://gradhandbooks.rice.edu/2019_20/Psychology_MHCIHF_Graduate_Handbook.pdf

Admission

Admission to graduate study in Human-Computer Interaction and Human Factors is open to qualified students holding a BS or a BA degree in a quantitative field from an accredited institution. The MHCIHF degree governing committee will evaluate the previous academic record and credentials of each applicant individually, and will make all admissions decisions.

Financial Aid

No financial aid is available from Rice University or the Psychological Sciences Department for students in the MHCIHF degree program.

Transfer Credit

For Rice University's policy regarding transfer credit, see Transfer Credit (p. 64). Some departments and programs have additional restrictions on transfer credit. Students are encouraged to meet with their academic program's advisor when considering transfer credit possibilities.

Program Transfer Credit Guidelines

Students pursuing the MHCIHF degree should be aware of the following program transfer credit guidelines:

• No more than 2 courses (6 credit hours) of transfer credit from U.S. or international universities of similar standing at Rice may apply towards the degree. Transferred courses must be comparable in content and depth to the corresponding course at Rice, and must not have counted toward another degree.

• Requests for transfer credit will be considered by the program director (and/or the program's official transfer credit advisor) on an individual case-by-case basis.

Additional Information

For additional information, please see the Psychological Sciences website: https://psychology.rice.edu/

Farès el-Dahdah
Director
fdahdah@rice.edu

The Humanities Research Center (HRC) identifies, encourages, and funds research projects by faculty, visiting scholars, graduate, and undergraduate students in the School of Humanities and beyond. This involves fostering scholarly work, facilitating research between the School of Humanities and other areas of Rice University, and leading institutional change by partnering with other foundations, centers, research institutions, and universities. Independent initiatives are also taken by the HRC in order to incubate ideas and detect disciplinary changes that shape the future of the university.

The HRC has recently launched initiatives in Spatial Studies and Public Humanities with focus areas in Cultural Heritage, Medical Humanities, critical platform studies, and Post-Harvey Houston. The Minor in Medical Humanities examines medicine through humanistic disciplines such as history, ethics, religion, literature, cultural anthropology, media studies, and the visual and dramatic arts. The Minor in Museums and Cultural Heritage examines the history, politics, materiality, and aesthetics of museum curation practices, technologies of cultural preservation and dissemination, and the place of tangible and intangible collective heritage in human social life. Other ongoing programs include research project funding, visiting scholarships, seminars, courses, conferences, workshops, lecture series, practica, exhibitions, performances, and film series.

Minor

• Minor in Medical Humanities (p. 565)
• Minor in Museums and Cultural Heritage (p. 573)

The Humanities Research Center does not currently offer an academic program at the graduate level.

Andrew J. Schaefer
Program Director
andrew.schaefer@rice.edu

Eylem Tekin
Program Director
eylem.tekin@rice.edu

The Master of Industrial Engineering degree is a graduate degree program administered by the George R. Brown School of Engineering, with the participation of the Rice University Departments of Mechanical Engineering and Statistics, and the Rice Center for Operations Research.

The program is designed to explore modern industrial systems, which arise in fields such as manufacturing, services, supply chain management, energy, transportation and healthcare. Analyzing and optimizing their performance is very challenging; for example, the number of ways that Federal Express can route its vehicles vastly exceeds the number of atoms in the universe. These analyses are crucial; their financial impact typically exceeds the profit margins in many industries, such as transportation and retailing.

To meet these challenges, the Master of Industrial Engineering degree emphasizes improving the quality and reliability of complex systems. It provides students with a deep set of analytical and engineering skills to make data-driven decision needed in every major economic sector. Graduates will help industry, governments, and non-profits improve efficiency in changing and uncertain environments.

Industrial Engineering does not currently offer an academic program at the undergraduate level.

Master of Industrial Engineering (MIE) Degree

Program Learning Outcomes for the MIE Degree

Upon completing the MIE degree, students will be able to:

1. Build physical and mathematical models of complex systems that arise in real-world situations.
2. Understand the flow of material from manufacturing to warehouses to customers through physical or mathematical models.
3. Produce data-driven and implementable solutions that improve the efficiency of real-world systems.
4. Communicate the solutions and insights generated by the models to a non-technical audience.

Requirements for the MIE Degree

The MIE degree is a non-thesis master’s degree. For general university requirements, please see Non-Thesis Master’s Degrees (p. 68). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55). Students pursuing the MIE degree must complete:

- A minimum of 11 courses (31 credit hours) to satisfy degree requirements.
- A minimum of 31 credit hours of graduate-level study (coursework at the 500-level or above).
- A minimum of 9 courses (25 credit hours), including the capstone course (INDE 590), must be taken at Rice University.
- A minimum residency enrollment of one fall or spring semester of full-time graduate study at Rice University.
- A capstone course (INDE 590), which includes a field report related to one of the following four core requirements in the curriculum: INDE 509, INDE 546, MECH 543, or INDE 572.¹
- A minimum overall GPA of 2.67 or higher in all Rice coursework.
- A minimum GPA of 3.00 or higher in all Rice coursework that satisfies requirements for the non-thesis master’s degree.

The Master of Industrial Engineering (MIE) is a non-thesis master’s degree intended for students who have completed a 4-year bachelor’s program in engineering, or related field, and wish to join the workforce as practicing professionals, rather than pursuing a research-oriented or academic career. It offers preparation in advanced engineering topics in order to enhance an engineer’s technical qualifications and increases competitiveness in the job market. The MIE degree program is open to students who have shown academic excellence in their undergraduate studies.

The courses listed below satisfy the requirements for this degree program. In certain instances, courses not on this official list may be substituted upon approval of the program’s academic advisor, or where applicable, the department or program’s Director of Graduate Studies. Course substitutions must be formally applied and entered into Degree Works by the department or program’s Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/). Additionally, these must be approved by the Office of Graduate and Postdoctoral Studies. Students and their academic advisors should identify and clearly document the courses to be taken.

Total Credit Hours 31

Footnotes and Additional Information

¹ MIE students are required to complete a capstone course (INDE 590), which includes writing a field report related to one of the following four core requirements in the curriculum: INDE 509, INDE 546, MECH 543, or INDE 572. With the approval of the course instructor, the student must prepare a report relevant to the course material, and present it in class. Topics must be approved no later than the end of the seventh week of the semester. The final written report is due by the last class meeting.

² The George R. Brown School of Engineering offers courses in the following subject codes: BIOL, CAAM, CEVE, CHBE, COMP, ELEC, ENGI, GLHT, INDE, MECH, MSNE, SSPB, and STAT.
Proposed Plan-of-Study

The following plan-of-study represents a lockstep three-semester sequence in which students pursuing the MIE degree complete the required coursework.

Footnotes and Additional Information

1 The George R. Brown School of Engineering offers courses in the following subject codes: BIOE, CAAM, CEVE, CHBE, COMP, ELEC, ENGI, GLHT, INDE, MECH, MSNE, SSPB, and STAT.

Policies for the MIE Degree

Industrial Engineering Graduate Program Handbook

Admission

Admission to graduate study in Industrial Engineering is open to qualified students holding a BS or a BA degree in a quantitative field from an accredited institution. The MIE degree governing committee will evaluate the previous academic record and credentials of each applicant individually, and will make all admissions decisions.

Financial Aid

No financial aid is available from Rice University or the Industrial Engineering program for students in the MIE degree program.

Transfer Credit

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 64). Some departments and programs have additional restrictions on transfer credit. Students are encouraged to meet with their academic program’s advisor when considering transfer credit possibilities.

Program Transfer Credit Guidelines

Students pursuing the MIE degree should be aware of the following program-specific transfer credit guidelines:

- No more than 2 courses (6 credit hours) of transfer credit from another U.S. or international universities of similar standing at Rice may apply towards the degree. Transferred courses must be comparable in content and depth to the corresponding course at Rice, and must not have counted toward another degree.
- Requests for transfer credit will be considered by the Industrial Engineering Graduate Committee Chair, and the instructor of the equivalent Rice course.

Additional Information

For additional information, please see the Industrial Engineering website: https://engrprofmasters.rice.edu.

Opportunities for the MIE Degree

Fifth-Year Master’s Degree Option for Rice Undergraduate Students

Rice students have an option to pursue the Master of Industrial Engineering (MIE) degree by adding an additional fifth year to their four undergraduate years of science engineering studies.

Advanced Rice undergraduate students in good academic standing may apply to the MIE degree program during their junior or senior year. Upon acceptance, depending on course load, financial aid status, other variables, they may then start taking some required courses of the master’s degree program. A plan of study will need to be approved by the student’s undergraduate advisor and the MIE program director.

As part of this option and opportunity, Rice undergraduate students:

- must complete the requirements for a bachelor’s degree and the master’s degree independently of each other (i.e. no course may be counted toward the fulfillment of both degrees).
- should be aware there could be financial aid implications if the conversion of undergraduate coursework to that of graduate level reduces their earned undergraduate credit for any semester below that of full-time status (12 credit hours).
- more information on this Undergraduate - Graduate Concurrent Enrollment opportunity, including specific information on the registration process can be found here (p. 17).

Additional Information

For additional information, please see the Industrial Engineering website: https://engrprofmasters.rice.edu.

Master of Industrial Engineering (MIE) Degree / Master of Business Administration (MBA) Degree

Program Learning Outcomes for the MIE Degree

Upon completing the MIE degree, students will be able to:
1. Build physical and mathematical models of complex systems that arise in real-world situations.
2. Understand the flow of material from manufacturing to warehouses to customers through physical or mathematical models.
3. Produce data-driven and implementable solutions that improve the efficiency of real-world systems.
4. Communicate the solutions and insights generated by the models to a non-technical audience.

Program Learning Outcomes for the MBA Degree

Upon completing the MBA degree, students will be able to:

1. Demonstrate an understanding and application of the foundational frameworks and tools of all business disciplines, including accounting, finance, marketing, organizational behavior, and strategic management.
2. Develop, evaluate, and implement complex business strategies and operational solutions holistically, integrating management principles across the functional areas.
3. Function effectively in a team setting both as a leader and a contributor.

Requirements for the MIE/MBA Coordinated Degrees Program

Students may earn a coordinated MBA degree and a non-thesis Master of Engineering degree from the George R. Brown School of Engineering in the following fields:

- Chemical Engineering (MChE)
- Computational and Applied Mathematics (MCAAM)
- Computer Science (MCS)
- Industrial Engineering (MIE)
- Materials Science and Nanoengineering (MMSNE)
- Mechanical Engineering (MME)
- Statistics (MStat)

For the coordinated MBA/Master of Engineering degrees, students must complete:

- A minimum of 69 credit hours in approved coursework*, including:
  - A minimum of 30 credit hours of graduate-level study (coursework at the 500-level or above) to satisfy the Master of Engineering degree requirements
  - A minimum of 24 credit hours in the corresponding engineering discipline
  - A minimum of 6 credit hours in elective requirements*
  - A minimum of 45 credit hours of graduate-level study (coursework at the 500-level or above) to satisfy the MBA degree requirements
  - A minimum of 45 credit hours of business coursework
  - All MBA core requirements, the global field experience, custom core requirements, and coordinated elective requirements

*Note: A maximum of 6 credit hours of the Master of Engineering degree elective requirements may be selected from business course offerings (MGMP, MGMT, or MICO) and used to fulfill the requirements for both the MBA and the Master of Engineering degrees.

Students plan their course schedules in consultation with the George R. Brown School of Engineering department in which they are enrolled and with the Jones Graduate School of Business Registrar Department. Coordinated degrees candidates can fulfill requirements for both degrees within 2 academic years.

For general university requirements, see Graduate Degrees (p. 49). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55). Candidates in the MBA/Master of Engineering coordinated degrees program must complete all requirements as listed for both degrees, and must apply and be accepted in both degree programs.

The courses listed below satisfy the requirements for this degree program. In certain instances, courses not on this official list may be substituted upon approval of the program’s academic advisor, or where applicable, the department or program’s Director of Graduate Studies. Course substitutions must be formally applied and entered into Degree Works by the department or program’s Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/). Additionally, these must be approved by the Office of Graduate and Postdoctoral Studies. Students and their academic advisors should identify and clearly document the courses to be taken.

Students in the coordinated MBA/Master of Engineering degrees program or in the coordinated MBA/Master of Science degree from the Professional Science Master’s (PSM) degrees program must complete the Core Requirements, Global Field Experience, and Custom Core Requirements of the full-time MBA degree program (p. 214) and the Coordinated MBA Elective Requirements below.
Jewish Studies is an interdisciplinary field that crosses traditional boundaries between academic fields and departments. Courses in Jewish Studies allow students to study Judaism as it has evolved from an ancient set of shared religious practices into the pluralistic religion and culture that it is today. In both the humanities and social sciences, Jewish Studies broadly examines the texts, history, languages, philosophy, literature, and culture of the Jewish people from the ancient to the modern. The study of Jewish life and culture provides an opportunity to explore the continuities and diversity of Judaism as it has been lived and practiced for over three millennia all over the world.

Diversity of thought is a hallmark of Jewish culture dating back to the earliest Jewish texts, and we strive to follow this model in our courses. The diverse and interdisciplinary nature of the Program in Jewish Studies allows undergraduates the opportunity to enrich their major fields of study with a specific focus on Judaism and Jewish culture. The Program in Jewish Studies at Rice also forms an important bridge to the community, making use of the rich resources available in Houston, engaging with local institutions, and participating in timely public discussions.

Minor in Jewish Studies

Program Learning Outcomes for the Minor in Jewish Studies

Upon completing the minor in Jewish Studies, students will be able to:

1. Demonstrate knowledge of key Jewish religious traditions, texts, and figures throughout history, from the ancient to the contemporary, as well as the place of those traditions, texts, and figures within specific historical, geographical, or sociopolitical contexts.
2. Demonstrate knowledge of Jewish history and culture during different time periods and in different geographical locations.
3. Demonstrate the ability to understand and apply theories and methods from multiple disciplines—including religious studies, literature, history, film, and sociology—to address key issues or undertake research in the field of Jewish studies; synthesize theories and methods from multiple disciplines to address questions within the field of Jewish studies.
4. Demonstrate the ability to read and interpret primary and secondary texts critically, including ancient as well as modern literature, religious texts, film, and modern scholarship; demonstrate the ability to use these texts to develop and support evidence-based research questions and arguments in discussions, verbal presentations, and in research papers.
5. Demonstrate the ability to communicate effectively in writing and orally at the college level; this includes demonstrating the ability to communicate in a critical, scholarly manner by developing evidence-based research questions and arguments, using and citing evidence to support argumentation, and writing and speaking clearly and correctly.

Requirements for the Minor in Jewish Studies

Students pursuing the minor in Jewish Studies must complete:

- A minimum of 6 courses (18-21 credit hours, depending on course selection) to satisfy minor requirements.
- A minimum of 3 courses (9 credit hours) taken at the 300-level or above.
- A maximum of 3 courses (9 credit hours) from study abroad or transfer credit. For additional program guidelines regarding transfer credit, see the Policies tab.
- A maximum of 2 courses from Hebrew (HEBR) course offerings.
- A maximum of 2 courses from Religion (RELI) course offerings.

The courses listed below satisfy the requirements for this minor. In certain instances, courses not on this official list may be substituted upon approval of the minor’s academic advisor, or where applicable, the Program Director. (Course substitutions must be formally applied and entered into Degree Works by the minor’s Official Certifier (https://registrar.rice.edu/facstaff/degroworks/officialcertifier/). Students and their academic advisors should identify and clearly document the courses to be taken.

Course Lists to Satisfy Requirements

Elective Requirements

To fulfill the remaining Jewish Studies minor requirements, students must complete a total of 5 additional courses (15-17 credit hours, depending on course selection) from the following categories as listed below. At least 1 course (3 credit hours) must be completed from each of the three categories. If a course is listed in more than one category, students can elect a category for which the course counts, yet each course can apply to only one category. Two additional electives (6 credit hours) must be selected from any of the approved Jewish Studies coursework to total 5 elective courses (15 credit hours).

Policies for the Minor in Jewish Studies

The courses used to meet the Jewish Studies minor are open to all students at Rice from all backgrounds. Our classes meet student interests in Jewish experience and its importance for history, literature, art, politics, law, and philosophy.

Program Restrictions

Students pursuing the minor in Jewish Studies should be aware of the following program restriction:

- As noted in Majors, Minors, and Certificates (p. 11), i.) students may declare their intent to pursue a minor only after they have first declared a major, and ii.) students may not major and minor in the same subject.

Transfer Credit

For Rice University's policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

Program Transfer Credit Guidelines

Students pursuing the minor in Jewish Studies should be aware of the following program-specific transfer credit guidelines:

- No more than 3 courses (9 credit hours) of transfer credit from U.S. or international universities of similar standing as Rice may apply towards the minor.
- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

Distribution Credit Information

The determination of distribution eligibility is done as part of the new course creation process (https://registrar.rice.edu/facstaff/courseprocess/). As part of an annual roll call (https://registrar.rice.edu/facstaff/distribution_credit/) coordinated each Spring by the Office of the Registrar, course distribution eligibility is reviewed and reaffirmed by the Dean’s Offices of each of the academic schools.

Faculty and leadership in the academic schools are responsible for ensuring that the courses identified as distribution-eligible meet the criteria as set in the General Announcements (p. 26). Students are responsible for ensuring that they meet graduation requirements (p. 26) by completing coursework designated as distribution at the time of course registration.

Distribution courses from Jewish Studies (JWST) are broad in theme and scope and prompt students to consider the ways in which the study of Jewish history, culture, and religious practice inform the general study of the Humanities. Like the field of Jewish Studies itself, these courses are interdisciplinary in nature and offer students tools for making critical arguments about what Jewish history and culture can teach us about broader historical and cultural questions. Most of these courses are introductions to basic elements of the study of Judaism and Jewish culture.

Additional Information

For additional information, please see the Jewish Studies website: https://jewishstudies.rice.edu.

Opportunities for the Minor in Jewish Studies

Academic Honors

The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 48) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 48). Some departments have department-specific Honors awards or designations.

Additional Information

For additional information, please see the Jewish Studies website: https://jewishstudies.rice.edu/.

See https://humanities.rice.edu/student-life (https://humanities.rice.edu/student-life/) for tables of fellowships, prizes, and internships/practica that may be relevant to this minor.

Kinesiology

Contact Information

Kinesiology

Heidi Perkins
Department Chair
hperkins@rice.edu

Rice's Kinesiology department was one of the first in the nation to institute an academic program structure that allows students to concentrate their efforts in a specific sub-discipline. Within the Kinesiology major, there are two distinct major concentrations: Health Sciences and Sports Medicine.

Major in Kinesiology and a Major Concentration in Health Sciences

The goal of the health sciences program is to provide students with a fundamental background in health promotion and disease prevention. This background will enable them to understand the role that health promotion plays in society and the mechanisms that affect public and community health while also considering the complexities of maintaining an optimal level of personal health. The health science program is viewed as an excellent option for undergraduate students who are preparing to enter graduate school in public health, health promotion, and health education, as well as other health-related graduate or professional programs such as medicine or dentistry.

Major in Kinesiology and a Major Concentration in Sports Medicine
The sports medicine curriculum intends to provide a strong natural science foundation and interface this foundation with application to the human body. Prerequisite courses in chemistry and physics, elective courses in biology and biochemistry, as well as an array of required and elective courses offered within the department provide this foundation. The sports medicine program is the only academic specialization on campus that provides detailed exposure to human anatomy and human physiology. In addition, students receive coursework in foundations of Kinesiology, research methods, motor learning, statistics, exercise physiology, and sports medicine. Practical experience is afforded through several academic labs. Other elective courses include epidemiology, case studies in human performance, motor control, advanced exercise physiology and preventive medicine, sports nutrition, medical terminology, and muscle physiology and plasticity. During advising sessions, students are encouraged to select from these electives according to their respective career goals. Students in the sports medicine program are expected to develop a strong scientific knowledge.

Students who choose the sports medicine program typically continue their education at the graduate level or plan on attending medical school or other medically related professional schools, such as physical therapy. Graduates also may be directly employed in medical and corporate settings, which include both preventative and rehabilitative programs. Graduates who choose not to seek post-baccalaureate education generally are encouraged to obtain certification for exercise testing, physical fitness evaluation, or exercise prescription through the American College of Sports Medicine website.

Bachelor's Programs

- Bachelor of Arts (BA) Degree with a Major in Kinesiology
  - and a Major Concentration in Health Sciences (p. 490)
  - and a Major Concentration in Sports Medicine (p. 492)

Kinesiology does not currently offer an academic program at the graduate level.

Descriptions and Codes Legend

Note: Internally, the university uses the following descriptions, codes, and abbreviations for this academic program. The following is a quick reference:

Course Catalog/Schedule

- Course offerings/subject code for Emergency Medical Services/Practice: EMSP
- Course offerings/subject code for Health Sciences: HEAL
- Course offerings/subject code for Kinesiology: KINE

Department Description and Code

- Kinesiology: KINE
- KHSC Major Concentration: CIP Code/Title: 51.0001 - Health and Wellness, General
- KSPM Major Concentration: CIP Code/Title: 31.0505 - Kinesiology and Exercise Science
Bachelor of Arts (BA) Degree with a Major in Kinesiology and a Major Concentration in Health Sciences

Program Learning Outcomes for the BA Degree with a Major in Kinesiology and a Major Concentration in Health Sciences

Upon completing the BA degree with a major in Kinesiology and a major concentration in Health Sciences, students will be able to:

1. Prepare and deliver presentations effectively and be able to use information technology.
2. Work and collaborate in groups toward a common goal.
3. Read, select, and interpret important information from health sciences literature. They will be able to design and conduct public health research studies using appropriate methodologies.
4. Promote public health education within the framework of legal, ethical, moral, and professional standards.
5. Collaborate with other professionals, staff, and communities in the planning and implementation, and evaluation of health education programs. They will be able to administer and manage health education programs, serve as a health education resource person, and communicate and advocate for health and health education.

Requirements for the BA Degree with a Major in Kinesiology and a Major Concentration in Health Sciences

For general university requirements, see Graduation Requirements (p. 26). Students pursuing the BA degree with a major in Kinesiology and a major concentration in Health Sciences must complete:

- A minimum of 14 courses (42 credit hours) to satisfy major requirements.
- A minimum of 120 credit hours satisfy degree requirements.
- A minimum of 60 credit hours outside of major requirements.
- A minimum of 5 courses (15 credit hours) taken at the 300-level or above.
- The requirements of a major concentration. When students declare the major (p. 11) in Kinesiology, students must additionally identify and declare one of two major concentrations, either in:
  - Health Sciences (p. 490), or
  - Sports Medicine (p. 492).

It is possible for students to change their major concentration at any time, even after initially declaring the major. To do so, please contact the Office of the Registrar (%20registrar@rice.edu).

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor, or where applicable, the department’s Director of Undergraduate Studies. (Course substitutions must be formally applied and entered into Degree Works by the major’s

Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/) Students and their academic advisors should identify and clearly document the courses to be taken.

Footnotes and Additional Information

¹ Includes coursework completed as distribution credit, FWIS, LPAP, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The “hours outside of the major” requirement may include all of the above university requirements.

¹ Core Requirements include an introductory course designed to acquaint students with the fundamental concepts of personal health and models of health promotion, understanding and assessing community health needs, methods of understanding the disease process, a course that introduces statistics, a professional preparation course that introduces students to the profession, theories and models commonly used in health promotion research and practice, and an application course in which students plan a health promotion program.

Elective Requirements

To fulfill the elective requirements for the Major in Kinesiology and the Major Concentration in Health Sciences, students must complete a total of 8 elective courses (minimum of 24 credit hours) from the course list below. This list of electives is drawn from course offerings that are both within the Department of Kinesiology and, at present, more than 20 courses from other academic departments at Rice. In keeping with the
university’s interest in an interdisciplinary approach to undergraduate education, this allows students to choose health-related courses from within the schools of natural sciences, social sciences, and humanities.

Policies for the BA Degree with a Major in Kinesiology and a Major Concentration in Health Sciences

Transfer Credit
For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines
Students pursuing the major in Kinesiology should be aware of the following departmental transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

Additional Information
For additional information, please see the Kinesiology website: https://kinesiology.rice.edu/

Opportunities for the BA Degree with a Major in Kinesiology and a Major Concentration in Health Sciences

Academic Honors
The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (p. 48) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 48). Some departments have department-specific Honors awards or designations.

Unique Program: Rice-UTSPH Public Health Scholars
Rice undergraduate students interested in pursuing a Master of Public Health (MPH) degree at the University of Texas School of Public Health (UTSPH) may apply to the Rice-UT Public Health Scholars Program. This unique coordinated program enables accepted Rice students to earn credit towards their Rice undergraduate degree (BA or BS with any major), and to accelerate in the completion of their UTSPH Master of Public Health degree to within one year after completing their Rice undergraduate degree.

For more information on the Rice-UTSPH program, please see the program’s website: https://dou.rice.edu/student-resources/public-health-scholars-program/.

Additional Information
For additional information, please see the Kinesiology website: https://kinesiology.rice.edu/
Bachelor of Arts (BA) Degree with a Major in Kinesiology and a Major Concentration in Sports Medicine

Program Learning Outcomes for the BA Degree with a Major in Kinesiology and a Major Concentration in Sports Medicine

Upon completing the BA degree with a major in Kinesiology and a major concentration in Sports Medicine, students will be able to:

1. Prepare and deliver presentations effectively and be able to use information technology.
2. Work and collaborate in groups toward a common goal.
3. Read, select, and interpret important information from sports sciences literature. They will be able to design and conduct research studies using appropriate methodologies.
4. Identify and apply ethical standards to the design and execution of research studies.
5. Understand principles of human nutrition and its application to exercise and sport.
6. Understand the principles of sports psychology.
7. Be knowledgeable of anatomy relevant to sport, exercise, and sport injury. They will develop an understanding of principles of biomechanics applied to exercise and sporting activities. Students will be knowledgeable of prevention, diagnosis, and treatment of injuries and diseases related to exercise and sports.
8. Collect and analyze data in a motor learning, exercise physiology, or other sports medicine lab settings.

Requirements for the BA Degree with a Major in Kinesiology and a Major Concentration in Sports Medicine

For general university requirements, see Graduation Requirements (p. 26). Students pursuing the BA degree with a major in Kinesiology and a major concentration in Sports Medicine must complete:

- A minimum of 15 courses (44 credit hours) to satisfy major requirements.
- A minimum of 120 credit hours satisfy degree requirements.
- A minimum of 60 credit hours outside of major requirements.
- A minimum of 9 courses (26 credit hours) taken at the 300-level or above.
- The requirements of a major concentration. When students declare the major (p. 11) in Kinesiology, students must additionally identify and declare one of two major concentrations, either in:
  - Health Sciences (p. 490), or
  - Sports Medicine (p. 492).

It is possible for students to change their major concentration at any time, even after initially declaring the major. To do so, please contact the Office of the Registrar (%20registrar@rice.edu).

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major's academic advisor, or where applicable, the department's Director of Undergraduate Studies. (Course substitutions 2019-2020 General Announcements PDF Generated 11/12/2019)

must be formally applied and entered into Degree Works by the major's Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/). Students and their academic advisors should identify and clearly document the courses to be taken.

Additional Credit Hours to Complete BA Degree Requirements 16

University Graduation Requirements (p. 26) * 60

Total Credit Hours 120

Footnotes and Additional Information

* Includes coursework completed as distribution credit, FWIS, LPAP, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The "hours outside of the major" requirement may include all of the above university requirements.

1 The Core Requirements include detailed exposure to human anatomy and human physiology. In addition, students receive coursework in research methods, motor learning, statistics, exercise physiology, and sports psychology.

Elective Requirements

To fulfill the elective requirements for the Major in Kinesiology and a Major Concentration in Sports Medicine, students must complete a total of 5 elective courses (minimum of 15 credit hours) from the course list below. This list of electives is drawn from course offerings that are both within the Department of Kinesiology and other academic departments. Kinesiology elective courses include epidemiology, case studies in human performance, motor control, advanced exercise physiology and preventive medicine, sports nutrition, medical terminology and muscle physiology and plasticity. Electives from other departments include courses in...
chemistry, physics, biology and biochemistry, which may also be utilized as medical school prerequisites.

Languages and Intercultural Communication

Contact Information

Languages and Intercultural Communication
https://clic.rice.edu/
235 Rayzor Hall
The Center for Languages and Intercultural Communication (CLIC) focuses on developing Rice students’ communicative, interactional, and intercultural abilities and knowledge in non-native and heritage languages. Thus, CLIC seeks to provide a broad and critical educational experience that promotes multilingualism and helps students become culturally competent and interact successfully, appropriately, and respectfully with people from different countries and sociocultural backgrounds.

The Center for Languages and Intercultural Communication supports students pursuing language-related degrees in other departments, including Asian Studies (p. 143), Classical and European Studies (p. 326), History (p. 464), Linguistics (p. 524), and Spanish, Portuguese and Latin American Studies (p. 817).

Certificates
- Certificate in Language and Intercultural Communication - Arabic (p. 495)
- Certificate in Language and Intercultural Communication - Chinese (p. 497)
- Certificate in Language and Intercultural Communication - French (p. 498)
- Certificate in Language and Intercultural Communication - German (p. 500)

Certificate in Language and Intercultural Communication - Arabic

Program Learning Outcomes for the Certificate in Language and Intercultural Communication

Upon completing the certificate in Language and Intercultural Communication, students will be able to:

1. Speak in the target language with or to native speakers with enough fluency and minimal obstacles for both the student and the interlocutor, even in spontaneous situations.
2. Write in the target language in a clear, detailed, relatively complex, and context appropriate manner.
3. Understand key socio-cultural differences associated with the target language.

Requirements for the Certificate in Language and Intercultural Communication - Arabic

Students pursuing the Certificate in Language and Intercultural Communication must complete:

- A minimum of 4 courses (12 credit hours) to satisfy certificate requirements.
- An Experiential Learning opportunity (at least 6 of the required 12 credit hours) through an approved study abroad program.
- An Outcomes Assessment to evaluate language proficiency.
- A minimum overall GPA of 2.00 in required coursework with a minimum grade of C (2.00 grade points) in each course.

This certificate is not a freestanding degree program; in addition to fulfilling the certificate requirements outlined below, candidates will be required to complete successfully the degree program to which they have been admitted in order to receive this certificate. Upon completion, the certificate is awarded at the same time as the conferral of the student's Rice degree, along with a formal notation on their academic transcript.

The courses listed below satisfy the requirements for this certificate. In certain instances, courses not on this official list may be substituted upon approval of the certificate's academic advisor, or where applicable, the Program Director. (Course substitutions must be formally applied and entered into Degree Works by the certificate's Official Certifier [https://registrar.rice.edu/facstaff/degiereeworks/officialcertifier/].) Students and their academic advisors should identify and clearly document the courses to be taken.

### Footnotes and Additional Information

1. ARAB 222, AP/OTH Credit Arabic Language, will not fulfill this requirement.

2. Rice faculty-led study abroad programs are preferred for meeting the experiential learning component, but in cases when there are no Rice faculty-led programs offered, students should consult with the Certificate advisor for alternative options that include academic content and goals that are similar to the Rice faculty-led programs.
Policies for the Certificate in Language and Intercultural Communication - Arabic

Language Placement Testing

Students are required to take a Language Placement Test to ensure that they are placed in the appropriate course in their target language. Placement tests are administered online prior to and during both fall and spring registration.

Program Restrictions and Exclusions

Students pursuing the certificate in Language and Intercultural Communication should be aware of the following program restriction:

- As noted in Majors, Minors, and Certificates (p. 11), students may declare their intent to pursue a university certificate only after they have first declared a major.

Transfer Credit

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

Program Transfer Credit Guidelines

Students pursuing the certificate in Language and Intercultural Communication should be aware of the following program-specific transfer credit guidelines:

- The Center for Languages and Intercultural Communication (CLIC) will determine equivalency for foreign language classes taken at other colleges or universities and approve them for transfer credit.
- Students wanting Rice equivalent credit should obtain approval in writing from CLIC before taking language courses outside of Rice.
- Students who study abroad should have their transfer credits pre-approved by CLIC before they commit to a study-abroad program.
- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.
- When requesting Rice equivalent credit for foreign language acquisition courses, students should submit no less than the following to CLIC for approval:
  - the appropriate transfer credit request form from the Office of the Registrar.
  - a program description for courses taken abroad or catalog description for courses taken in the United States.
  - a course syllabus for the course they wish to take or have taken, or a web address of the program if one is available.
- CLIC does not award Rice equivalent course transfer credit for online courses or coursework taken at community colleges, online universities, 'for-profit' universities, or two-year colleges.
- Students should be aware that the approval process takes about one week and should plan accordingly.

Distribution Credit Information

The determination of distribution eligibility is done as part of the new course creation process (https://registrar.rice.edu/facstaff/courseprocess/). As part of an annual roll call (https://registrar.rice.edu/facstaff/distribution_credit/) coordinated each Spring by the Office of the Registrar, course distribution eligibility is reviewed and reaffirmed by the Dean’s Offices of each of the academic schools.

Faculty and leadership in the academic schools are responsible for ensuring that the courses identified as distribution-eligible meet the criteria as set in the General Announcements (p. 26). Students are responsible for ensuring that they meet graduation requirements (p. 26) by completing coursework designated as distribution at the time of course registration.

Distribution courses from the Center for Languages and Intercultural Communication (CLIC) are broad in theme and scope. Students in these courses will develop increased intercultural and interactional competence, which includes a critical understanding of the sociolinguistic and sociocultural aspects shared by the community of users of the target language. These courses encourage students to probe the modes of knowledge and inquiry characteristic of the humanities. A central component of these courses is the development of students’ critical thinking and analytical abilities. This is accomplished through the analysis of spoken and written interactions which allows students to understand linguistic forms, uses of vocabulary, varieties of intonation, social situations and their effects on language use, and language behavior in different situations. The ultimate goals are to question students’ own sociolinguistic and sociocultural norms and give them the tools to appropriately engage with the target language communities. These courses will also provide students with the essential knowledge and tools for thinking critically about history and culture, and for understanding the centrality of such capacity to informed participation in social, political, and professional life since it is precisely through understanding the language of history and culture that students can understand these.

Additional Information

For additional information, please see the Center for Languages and Intercultural Communication website: https://clic.rice.edu/.

Opportunities for the Certificate in Language and Intercultural Communication - Arabic

Academic Honors

The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 48) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 48). Some departments have department-specific Honors awards or designations.
Scholarships

The Center for Languages and Intercultural Communication invests in students participating in CLIC-sponsored study abroad programs by occasionally offering scholarships to offset the cost of tuition. When funding is available, the scholarships are offered in the spring semester for study abroad programs taking place the following summer.

Additional Information

For additional information, please see the Center for Languages and Intercultural Communication website: https://clic.rice.edu/

See https://humanities.rice.edu/student-life/ for tables of fellowships, prizes, and internships/practica that may be relevant to this program.

Certificate in Language and Intercultural Communication - Chinese

Program Learning Outcomes for the Certificate in Language and Intercultural Communication

Upon completing the certificate in Language and Intercultural Communication, students will be able to:

1. Speak in the target language with or to native speakers with enough fluency and minimal obstacles for both the student and the interlocutor, even in spontaneous situations.
2. Write in the target language in a clear, detailed, relatively complex, and context appropriate manner.
3. Understand key socio-cultural differences associated with the target language.

Requirements for the Certificate in Language and Intercultural Communication - Chinese

Students pursuing the Certificate in Language and Intercultural Communication must complete:

- A minimum of 4 courses (12 credit hours) to satisfy certificate requirements.
- An Experiential Learning opportunity (at least 6 of the required 12 credit hours) through an approved study abroad program.
- An Outcomes Assessment to evaluate language proficiency.
- A minimum overall GPA of 2.00 in required coursework with a minimum grade of C (2.00 grade points) in each course.

This certificate is not a freestanding degree program; in addition to fulfilling the certificate requirements outlined below, candidates will be required to complete successfully the degree program to which they have been admitted in order to receive this certificate. Upon completion, the certificate is awarded at the same time as the conferral of the student's Rice degree, along with a formal notation on their academic transcript.

The courses listed below satisfy the requirements for this certificate. In certain instances, courses not on this official list may be substituted upon approval of the certificate's academic advisor, or where applicable, by the Program Director. (Course substitutions must be formally applied and entered into Degree Works by the certificate's Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/).) Students and their academic advisors should identify and clearly document the courses to be taken.

Footnotes and Additional Information

1. CHIN 222, AP/OTH Credit Chinese Language, will not fulfill this requirement.
2. Rice faculty-led study abroad programs are preferred for meeting the experiential learning component, but in cases when there are no Rice faculty-led programs offered, students should consult with the Certificate advisor for alternative options that include academic content and goals that are similar to the Rice faculty-led programs.
3. In order to meet the Outcomes Assessment requirement for the Certificate, students will complete an examination consisting of oral and written assessments in the target language. After completing the Certificate requirements and as a result of the assessment, students are placed at their level of proficiency following the Common European Framework for Reference for Languages (CEFR). The CEFR level reached will be noted in an official letter from CLIC, as well as via a notation on the student's official Rice academic transcript.

Policies for the Certificate in Language and Intercultural Communication - Chinese

Language Placement Testing

Students are required to take a Language Placement Test to ensure that they are placed in the appropriate course in their target language. Placement tests are administered online prior to and during both fall and spring registration.
Program Restrictions and Exclusions
Students pursuing the certificate in Language and Intercultural Communication should be aware of the following program restriction:

- As noted in Majors, Minors, and Certificates (p. 11), students may declare their intent to pursue a university certificate only after they have first declared a major.

Transfer Credit
For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Program Transfer Credit Guidelines
Students pursuing the certificate in Language and Intercultural Communication should be aware of the following program-specific transfer credit guidelines:

- The Center for Languages and Intercultural Communication (CLIC) will determine equivalency for foreign language classes taken at other colleges or universities and approve them for transfer credit.
- Students wanting Rice equivalent credit should obtain approval in writing from CLIC before taking language courses outside of Rice.
- Students who study abroad should have their transfer credits pre-approved by CLIC before they commit to a study-abroad program.
- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.
- When requesting Rice equivalent credit for foreign language acquisition courses, students should submit no less than the following to CLIC for approval:
  - the appropriate transfer credit request form from the Office of the Registrar.
  - a program description for courses taken abroad or catalog description for courses taken in the United States.
  - a course syllabus for the course they wish to take or have taken, or a web address of the program if one is available.
- CLIC does not award Rice equivalent course transfer credit for online courses or coursework taken at community colleges, online universities, ‘for-profit’ universities, or two-year colleges.
- Students should be aware that the approval process takes about one week and should plan accordingly.

Distribution Credit Information
The determination of distribution eligibility is done as part of the new course creation process (https://registrar.rice.edu/facstaff/courseprocess/). As part of an annual roll call (https://registrar.rice.edu/facstaff/distribution_credit/) coordinated each Spring by the Office of the Registrar, course distribution eligibility is reviewed and reaffirmed by the Dean’s Offices of each of the academic schools.

Faculty and leadership in the academic schools are responsible for ensuring that the courses identified as distribution-eligible meet the criteria as set in the General Announcements (p. 26). Students are responsible for ensuring that they meet graduation requirements (p. 26) by completing coursework designated as distribution at the time of course registration.

Distribution courses from the Center for Languages and Intercultural Communication (CLIC) are broad in theme and scope. Students in these courses will develop increased intercultural and interactional competence, which includes a critical understanding of the sociolinguistic and sociocultural aspects shared by the community of users of the target language. These courses encourage students to probe the modes of knowledge and inquiry characteristic of the humanities. A central component of these courses is the development of students’ critical thinking and analytical abilities. This is accomplished through the analysis of spoken and written interactions which allows students to understand linguistic forms, uses of vocabulary, varieties of intonation, social situations and their effects on language use, and language behavior in different situations. The ultimate goals are to question students’ own sociolinguistic and sociocultural norms and give them the tools to appropriately engage with the target language communities. These courses will also provide students with the essential knowledge and tools for thinking critically about history and culture, and for understanding the centrality of such capacity to informed participation in social, political, and professional life since it is precisely through understanding the language of history and culture that students can understand these.

A central component of these courses is the development of students' critical thinking and analytical abilities. This is accomplished through the analysis of spoken and written interactions which allows students to understand linguistic forms, uses of vocabulary, varieties of intonation, social situations and their effects on language use, and language behavior in different situations. The ultimate goals are to question students' own sociolinguistic and sociocultural norms and give them the tools to appropriately engage with the target language communities. These courses will also provide students with the essential knowledge and tools for thinking critically about history and culture, and for understanding the centrality of such capacity to informed participation in social, political, and professional life since it is precisely through understanding the language of history and culture that students can understand these.

**Additional Information**

### Certificate in Language and Intercultural Communication - Italian

#### Program Learning Outcomes for the Certificate in Language and Intercultural Communication

Upon completing the certificate in Language and Intercultural Communication, students will be able to:

1. Speak in the target language with or to native speakers with enough fluency and minimal obstacles for both the student and the interlocutor, even in spontaneous situations.
2. Write in the target language in a clear, detailed, relatively complex, and context appropriate manner.
3. Understand key socio-cultural differences associated with the target language.

### Requirements for the Certificate in Language and Intercultural Communication - Italian

Students pursuing the Certificate in Language and Intercultural Communication must complete:

- A minimum of 4 courses (12 credit hours) to satisfy certificate requirements.
- An Experiential Learning opportunity (at least 6 of the required 12 credit hours) through an approved study abroad program.
- An Outcomes Assessment to evaluate language proficiency.
- A minimum overall GPA of 2.00 in required coursework with a minimum grade of C (2.00 grade points) in each course.

This certificate is not a freestanding degree program; in addition to fulfilling the certificate requirements outlined below, candidates will be required to complete successfully the degree program to which they have been admitted in order to receive this certificate. Upon completion, the certificate is awarded at the same time as the conferral of the student’s Rice degree, along with a formal notation on their academic transcript.

The courses listed below satisfy the requirements for this certificate. In certain instances, courses not on this official list may be substituted upon approval of the certificate's academic advisor, or where applicable, the Program Director. (Course substitutions must be formally applied and entered into Degree Works by the certificate's Official Certifier [https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/].) Students and their academic advisors should identify and clearly document the courses to be taken.

#### Certificate Requirements

**Required Courses in Target Language**

- Select 2 courses from Italian course offerings (ITAL) at the 200-level or above **1**
- Select 2 courses from Italian course offerings (ITAL) at the 300-level or above **2**

**Experiential Learning**

Complete at least 6 of the required 12 credit hours through an approved study abroad program **2**

**Outcomes Assessment**
Students pursuing the Certificate Program Restrictions and Exclusions for meeting the experiential learning component, but in cases when there are no Rice faculty-led programs offered, students should consult with the Certificate advisor for alternative options that include academic content and goals that are similar to the Rice faculty-led programs.

In order meet the Outcomes Assessment requirement for the Certificate, students will complete an examination consisting of oral and written assessments in the target language. After completing the Certificate requirements and as a result of the assessment, students are placed at their level of proficiency following the Common European Framework of Reference for Languages (CEFR). The CEFR level reached will be noted in an official letter from CLIC, as well as via a notation on the student's official Rice academic transcript.

Footnotes and Additional Information

1 ITAL 222, AP/OTH Credit Italian Language, will not fulfill this requirement.
2 Rice faculty-led study abroad programs are preferred for meeting the experiential learning component, but in cases when there are no Rice faculty-led programs offered, students should consult with the Certificate advisor for alternative options that include academic content and goals that are similar to the Rice faculty-led programs.
3 In order meet the Outcomes Assessment requirement for the Certificate, students will complete an examination consisting of oral and written assessments in the target language. After completing the Certificate requirements and as a result of the assessment, students are placed at their level of proficiency following the Common European Framework of Reference for Languages (CEFR). The CEFR level reached will be noted in an official letter from CLIC, as well as via a notation on the student's official Rice academic transcript.

Policies for the Certificate in Language and Intercultural Communication - Italian Language Placement Testing

Students are required to take a Language Placement Test to ensure that they are placed in the appropriate course in their target language. Placement tests are administered online prior to and during both fall and spring registration.

Program Restrictions and Exclusions

Students pursuing the certificate in Language and Intercultural Communication should be aware of the following program restriction:

- As noted in Majors, Minors, and Certificates (p. 11), students may declare their intent to pursue a university certificate only after they have first declared a major.

Transfer Credit

For Rice University's policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of transfer credit advisors on their website: https://oaac.rice.edu. Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

Program Transfer Credit Guidelines

Students pursuing the certificate in Language and Intercultural Communication should be aware of the following program-specific transfer credit guidelines:

- The Center for Languages and Intercultural Communication (CLIC) will determine equivalency for foreign language classes taken at other colleges or universities and approve them for transfer credit.
- Students wanting Rice equivalent credit should obtain approval in writing from CLIC before taking language courses outside of Rice.
- Students who study abroad should have their transfer credits pre-approved by CLIC before they commit to a study-abroad program.
- Requests for transfer credit will be considered by the program director (and/or the program's official transfer credit advisor) on an individual case-by-case basis.
- When requesting Rice equivalent credit for foreign language acquisition courses, students should submit no less than the following to CLIC for approval:
  - the appropriate transfer credit request form from the Office of the Registrar.
  - a program description for courses taken abroad or catalog description for courses taken in the United States.
  - a course syllabus for the course they wish to take or have taken, or a web address of the program if one is available.
- CLIC does not award Rice equivalent course transfer credit for online courses or coursework taken at community colleges, online universities, 'for-profit' universities, or two-year colleges.
- Students should be aware that the approval process takes about one week and should plan accordingly.

Distribution Credit Information

The determination of distribution eligibility is done as part of the new course creation process (https://registrar.rice.edu/facstaff/courseprocess/). As part of an annual roll call (https://registrar.rice.edu/facstaff/distribution_credit/) coordinated each Spring by the Office of the Registrar, course distribution eligibility is reviewed and reaffirmed by the Dean's Offices of each of the academic schools.

Faculty and leadership in the academic schools are responsible for ensuring that the courses identified as distribution-eligible meet the criteria as set in the General Announcements (p. 26). Students are responsible for ensuring that they meet graduation requirements (p. 26) by completing coursework designated as distribution at the time of course registration.

Distribution courses from the Center for Languages and Intercultural Communication (CLIC) are broad in theme and scope. Students in these courses will develop increased intercultural and interactional competence, which includes a critical understanding of the sociolinguistic and sociocultural aspects shared by the community of users of the target language. These courses encourage students to probe the modes of knowledge and inquiry characteristic of the humanities. A central component of these courses is the development of students’ critical thinking and analytical abilities. This is accomplished through the analysis of spoken and written interactions which allows students to understand linguistic forms, uses of vocabulary, varieties of intonation, social situations and their effects on language use, and language behavior in different situations. The ultimate goals are to question students’ own sociolinguistic and sociocultural norms and give them the tools to appropriately engage with the target language communities. These courses will also provide students with the essential knowledge and tools for thinking critically about history and culture, and for understanding the centrality of such capacity to informed participation in social, political, and professional life since it is precisely through understanding the language of history and culture that students can understand these.

Footnotes and Additional Information

1. Students studying Portuguese or Spanish who take two 200-level courses offered by CLIC must take at least one 300-level course taught by the Department of Spanish, Portuguese, and Latin American Studies (SPLA). If they fulfill any of the 200-level course requirements with a 300-level course, they must register for a minimum of two 300-level courses offered by SPLA.

2. Rice faculty-led study abroad programs are preferred for meeting the experiential learning component, but in cases when there are no Rice faculty-led programs offered, students should consult with the Certificate advisor for alternative options that include academic content and goals that are similar to the Rice faculty-led programs.

3. In order to meet the Outcomes Assessment requirement for the Certificate, students will complete an examination consisting of oral and written assessments in the target language. After completing the Certificate requirements and as a result of the assessment, students are placed at their level of proficiency following the Common European Framework of Reference for Languages (CEFR). The CEFR level reached will be noted in an official letter from CLIC, as well as via a notation on the student’s official Rice academic transcript.

The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: https://oa.a.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Program Transfer Credit Guidelines

Students pursuing the certificate in Language and Intercultural Communication should be aware of the following program-specific transfer credit guidelines:

- The Center for Languages and Intercultural Communication (CLIC) will determine equivalency for foreign language classes taken at other colleges or universities and approve them for transfer credit.
- Students wanting Rice equivalent credit should obtain approval in writing from CLIC before taking language courses outside of Rice.
- Students who study abroad should have their transfer credits pre-approved by CLIC before they commit to a study-abroad program.
• Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

• When requesting Rice equivalent credit for foreign language acquisition courses, students should submit no less than the following to CLIC for approval:
  - the appropriate transfer credit request form from the Office of the Registrar.
  - a program description for courses taken abroad or catalog description for courses taken in the United States.
  - a course syllabus for the course they wish to take or have taken, or a web address of the program if one is available.

• CLIC does not award Rice equivalent course transfer credit for online courses or coursework taken at community colleges, online universities, ‘for-profit’ universities, or two-year colleges.

• Students should be aware that the approval process takes about one week and should plan accordingly.

Distribution Credit Information

The determination of distribution eligibility is done as part of the new course creation process (https://registrar.rice.edu/facstaff/courseprocess/). As part of an annual roll call (https://registrar.rice.edu/facstaff/distribution_credit/) coordinated each Spring by the Office of the Registrar, course distribution eligibility is reviewed and reaffirmed by the Dean's Offices of each of the academic schools.

Faculty and leadership in the academic schools are responsible for ensuring that the courses identified as distribution-eligible meet the criteria as set in the General Announcements (p. 26). Students are responsible for ensuring that they meet graduation requirements (p. 26) by completing coursework designated as distribution at the time of course registration.

Distribution courses from the Center for Languages and Intercultural Communication (CLIC) are broad in theme and scope. Students in these courses will develop increased intercultural and interactional competence, which includes a critical understanding of the sociolinguistic and sociocultural aspects shared by the community of users of the target language. These courses encourage students to probe the modes of knowledge and inquiry characteristic of the humanities. A central component of these courses is the development of students’ critical thinking and analytical abilities. This is accomplished through the analysis of spoken and written interactions which allows students to understand linguistic forms, uses of vocabulary, varieties of intonation, social situations and their effects on language use, and language behavior in different situations. The ultimate goals are to question students’ own sociolinguistic and sociocultural norms and give them the tools to appropriately engage with the target language communities. These courses will also provide students with the essential knowledge and tools for thinking critically about history and culture, and for understanding the centrality of such capacity to informed participation in social, political, and professional life since it is precisely through understanding the language of history and culture that students can understand these.

Additional Information

For additional information, please see the Center for Languages and Intercultural Communication website: https://clic.rice.edu/.

Opportunities for the Certificate in Language and Intercultural Communication - Portuguese

Academic Honors

The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (p. 48) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 48). Some departments have department-specific Honors awards or designations.

Scholarships

The Center for Languages and Intercultural Communication invests in students participating in CLIC-sponsored study abroad programs by occasionally offering scholarships to offset the cost of tuition. When funding is available, the scholarships are offered in the spring semester for study abroad programs taking place the following summer.

Additional Information

For additional information, please see the Center for Languages and Intercultural Communication website: https://clic.rice.edu/

See https://humanities.rice.edu/student-life for tables of fellowships, prizes, and internships/practica that may be relevant to this program.

Certificate in Language and Intercultural Communication - Russian

Program Learning Outcomes for the Certificate in Language and Intercultural Communication

Upon completing the certificate in Language and Intercultural Communication, students will be able to:

1. Speak in the target language with or to native speakers with enough fluency and minimal obstacles for both the student and the interlocutor, even in spontaneous situations.
2. Write in the target language in a clear, detailed, relatively complex, and context appropriate manner.
3. Understand key socio-cultural differences associated with the target language.

Requirements for the Certificate in Language and Intercultural Communication - Russian

Students pursuing the Certificate in Language and Intercultural Communication must complete:

• A minimum of 4 courses (12 credit hours) to satisfy certificate requirements.
• An Experiential Learning opportunity (at least 6 of the required 12 credit hours) through an approved study abroad program.
• An Outcomes Assessment to evaluate language proficiency.
• A minimum overall GPA of 2.00 in required coursework with a minimum grade of C (2.00 grade points) in each course.

This certificate is not a freestanding degree program; in addition to fulfilling the certificate requirements outlined below, candidates will be required to complete successfully the degree program to which they have been admitted in order to receive this certificate. Upon completion, the certificate is awarded at the same time as the conferral of the student's Rice degree, along with a formal notation on their academic transcript.

The courses listed below satisfy the requirements for this certificate. In certain instances, courses not on this official list may be substituted upon approval of the certificate's academic advisor, or where applicable, the Program Director. (Course substitutions must be formally applied and entered into Degree Works by the certificate's Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/).) Students and their academic advisors should identify and clearly document the courses to be taken.

<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
</table>

Required Courses in Target Language

Select 2 courses from Russian course offerings (RUSS) at the 200-level or above 6
Select 2 courses from Russian course offerings (RUSS) at the 300-level or above 6

Experiential Learning

Complete at least 6 of the required 12 credit hours through an approved study abroad program 1

Outcomes Assessment

Complete an oral exam and a 500-word essay written in the target language 2

Total Credit Hours 12

Footnotes and Additional Information

1. Rice faculty-led study abroad programs are preferred for meeting the experiential learning component, but in cases when there are no Rice faculty-led programs offered, students should consult with the Certificate advisor for alternative options that include academic content and goals that are similar to the Rice faculty-led programs.

2. In order meet the Outcomes Assessment requirement for the Certificate, students will complete an examination consisting of oral and written assessments in the target language. After completing the Certificate requirements and as a result of the assessment, students are placed at their level of proficiency following the Common European Framework of Reference for Languages (CEFR). The CEFR level reached will be noted in an official letter from CLIC, as well as via a notation on the student's official Rice academic transcript.

Policies for the Certificate in Language and Intercultural Communication - Russian

Language Placement Testing

Students are required to take a Language Placement Test to ensure that they are placed in the appropriate course in their target language. Placement tests are administered online prior to and during both fall and spring registration.

Program Restrictions and Exclusions

Students pursuing the certificate in Language and Intercultural Communication should be aware of the following program restriction:

• As noted in Majors, Minors, and Certificates (p. 11), students may declare their intent to pursue a university certificate only after they have first declared a major.

Transfer Credit

For Rice University's policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

Program Transfer Credit Guidelines

Students pursuing the certificate in Language and Intercultural Communication should be aware of the following program-specific transfer credit guidelines:

• The Center for Languages and Intercultural Communication (CLIC) will determine equivalency for foreign language classes taken at other colleges or universities and approve them for transfer credit.
• Students wanting Rice equivalent credit should obtain approval in writing from CLIC before taking language courses outside of Rice.
• Students who study abroad should have their transfer credits pre-approved by CLIC before they commit to a study-abroad program.
• Requests for transfer credit will be considered by the program director (and/or the program's official transfer credit advisor) on an individual case-by-case basis.

• When requesting Rice equivalent credit for foreign language acquisition courses, students should submit no less than the following to CLIC for approval:
  • the appropriate transfer credit request form from the Office of the Registrar.
  • a program description for courses taken abroad or catalog description for courses taken in the United States.
  • a course syllabus for the course they wish to take or have taken, or a web address of the program if one is available.
• CLIC does not award Rice equivalent course transfer credit for online courses or coursework taken at community colleges, online universities, "for-profit" universities, or two-year colleges.
• Students should be aware that the approval process takes about one week and should plan accordingly.

Distribution Credit Information

The determination of distribution eligibility is done as part of the new course creation process (https://registrar.rice.edu/facstaff/...

Footnotes and Additional Information

1. Students studying Portuguese or Spanish who take two 200-level courses offered by CLIC must take at least one 300-level course taught by the Department of Spanish, Portuguese, and Latin American Studies (SPLA). If they fulfill any of the 200-level course requirements with a 300-level course, they must register for a minimum of two 300-level courses offered by SPLA.

2. SPAN 222, AP/OTH Credit Spanish Language, will not fulfill this requirement.

3. Rice faculty-led study abroad programs are preferred for meeting the experiential learning component, but in cases when there are no Rice faculty-led programs offered, students should consult with the Certificate advisor for alternative options that include academic content and goals that are similar to the Rice faculty-led programs.

4. In order to meet the Outcomes Assessment requirement for the Certificate, students will complete an examination consisting of oral and written assessments in the target language. After completing the Certificate requirements and as a result of the assessment, students are placed at their level of proficiency following the Common European Framework of Reference for Languages (CEFR). The CEFR level reached will be noted in an official letter from CLIC, as well as via a notation on the student’s official Rice academic transcript.

Program Restrictions and Exclusions

Students pursuing the certificate in Language and Intercultural Communication should be aware of the following program restriction:

- As noted in Majors, Minors, and Certificates (p. 11), students may declare their intent to pursue a university certificate only after they have first declared a major.

Transfer Credit

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

Program Transfer Credit Guidelines

Students pursuing the certificate in Language and Intercultural Communication should be aware of the following program-specific transfer credit guidelines:

- The Center for Languages and Intercultural Communication (CLIC) will determine equivalency for foreign language classes taken at other colleges or universities and approve them for transfer credit.
- Students wanting Rice equivalent credit should obtain approval in writing from CLIC before taking language courses outside of Rice.
- Students who study abroad should have their transfer credits pre-approved by CLIC before they commit to a study-abroad program.
- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.
- When requesting Rice equivalent credit for foreign language acquisition courses, students should submit no less than the following to CLIC for approval:
  - the appropriate transfer credit request form from the Office of the Registrar.
  - a program description for courses taken abroad or catalog description for courses taken in the United States.
  - a course syllabus for the course they wish to take or have taken, or a web address of the program if one is available.
- CLIC does not award Rice equivalent course transfer credit for online courses or coursework taken at community colleges, online universities, ‘for-profit’ universities, or two-year colleges.
- Students should be aware that the approval process takes about one week and should plan accordingly.

Course Catalog/Schedule
- Course offerings/subject code for Latin American Studies: LASR

Department Description and Code
- Spanish, Portuguese and Latin American Studies: SPLA

Undergraduate Degree Description and Code
- Bachelor of Arts degree: BA

Undergraduate Major Description and Code
- Major in Latin American Studies: LASR

CIP Code and Description
1. LASR Major/Program: CIP Code/Title: 05.0107 - Latin American Studies

Classification of Instructional Programs (CIP) 2010 Codes and Descriptions from the National Center for Education Statistics: https://nces.ed.gov/ipeds/cipcode/

Bachelor of Arts (BA) Degree with a Major in Latin American Studies

Program Learning Outcomes for the BA Degree with a Major in Latin American Studies

Upon completing the BA degree, students majoring in Latin American Studies will be able to:

1. Demonstrate the ability to speak and read fluently, and conduct research in a foreign language.
2. Interpret the historic, cultural, and political dynamics that comprise a specific region selected by the student for in-depth study.
3. Apply critical perspectives on legacies and ongoing forces that are local and global in scope from the field of Latin American Studies.
4. Define a research problem and analyze it from several different disciplinary fields, including appropriate theory, methodology, and concepts for the topic.

Requirements for the BA Degree with a Major in Latin American Studies

For general university requirements, see Graduation Requirements (p. 26). Students pursuing the BA degree with a major in Latin American Studies must complete:

- A minimum of 10 courses (30 credit hours) to satisfy major requirements.
- A minimum of 120 credit hours to satisfy degree requirements.
- A minimum of 60 credit hours outside of major requirements.
- A minimum of 6 courses (18 credit hours) taken at the 300-level or above.

- A maximum of 4 courses (12 credit hours) from study abroad or transfer credit. For additional departmental guidelines regarding transfer credit, see the Policies tab.
- At least 1 semester studying abroad.
- A language competency requirement.
- A capstone requirement.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major's academic advisor, or where applicable, the department's Director of Undergraduate Studies. (Course substitutions must be formally applied and entered into Degree Works by the major's Official Certifier [https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/].) Students and their academic advisors should identify and clearly document the courses to be taken.

Footnotes and Additional Information

1. This course both introduces and structures the major. This course is taught in English, with discussion sections available in Spanish or Portuguese pending student interest.
2. At least 2 courses (6 credit hours) must be in the humanities and at least 2 courses (6 credit hours) must be in the social sciences.
Students must spend at least one semester studying at a Rice-approved, semester-abroad program in which the primary language of instruction is Spanish, Portuguese, or under special circumstances French. Courses taken abroad may count toward completing the Latin American Studies major and toward meeting the distribution requirements. Study abroad courses cannot count for more than 4 courses (12 credit hours) toward the major. While the semester abroad is ideal, under very special circumstances, the advisor to the major can approve a 12-week summer program as the equivalent of a semester, provided the program allows students to complete at least 3 courses (9 credit hours).

Students must demonstrate language competence at three different stages:
- Prior to study abroad - students will be examined by Center for Languages and Intercultural Communication (CLIC) faculty trained in proficiency testing to ensure that the students have adequate language competence for studying abroad—adequate at this stage meaning at least Intermediate-High according to proficiency standards set by the American Council on the Teaching of Foreign Languages (ACTFL).
- After study abroad - students will be tested for proficiency at the Advanced-Low level, according to ACTFL Guidelines. Proficiency at the Advanced-Low level is desirable, but not required.
- Writing the capstone research paper - students must demonstrate to the satisfaction of the colloquium director their ability to do research in a foreign language.

The capstone is completed following the semester abroad. Students will enroll in LASR 491, which is taught by a faculty member from either Humanities or Social Sciences. As directed by this faculty member, students will write a research paper on a Latin American topic of their choice. During the course, students will be exposed to different research methodologies, theories appropriate to their field of study, and instruction on how best to incorporate research and sources that emerged from their study abroad. Interdisciplinary modes of research and writing will be a major feature of LASR 491. Students will be expected to highlight the interdisciplinary nature of their research in their completed paper. In addition, students enrolled in the capstone course will be expected to workshop their writing at different times during the semester. The completed research paper will be evaluated by the faculty member teaching LASR 491 and one other instructor appropriate to the topic. With the approval of the faculty member teaching LASR 491, this research paper may be written in English.

Course List to Satisfy Requirements

Elective Requirements
Students must complete a total of 8 courses (24 credit hours) from the following department approved electives, which will focus on a specific region, area, or country in Latin America. This area focus will shape each student’s proposed course of study. Each course of study and an area focus must be approved by the advisor to the major. At least 2 courses (6 credit hours) must be in the humanities and at least 2 courses (6 credit hours) must be in the social sciences.

**Policies for the BA Degree with a Major in Latin American Studies**

**Transfer Credit**
For Rice University's policy regarding transfer credit, see [Transfer Credit](p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of transfer credit advisors on their website: [https://oaa.rice.edu](https://oaa.rice.edu). Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

**Departmental Transfer Credit Guidelines**
Students pursuing the major in Latin American Studies should be aware of the following departmental transfer credit guidelines:

- No more than 4 courses (12 credit hours) of transfer credit from U.S. or international universities of similar standing as Rice may apply towards the major.

- Requests for transfer credit will be considered by the program director (and/or the program's official transfer credit advisor) on an individual case-by-case basis.

**Distribution Credit Information**
The determination of distribution eligibility is done as part of the new course creation process ([https://registrar.rice.edu/facstaff/courseprocess/](https://registrar.rice.edu/facstaff/courseprocess/)). As part of an annual roll call ([https://registrar.rice.edu/facstaff/distribution_credit/](https://registrar.rice.edu/facstaff/distribution_credit/)) coordinated each Spring by the Office of the Registrar, course distribution eligibility is reviewed and reaffirmed by the Dean's Offices of each of the academic schools.

Faculty and leadership in the academic schools are responsible for ensuring that the courses identified as distribution-eligible meet the criteria as set in the [General Announcements](p. 26). Students are responsible for ensuring that they meet graduation requirements (p. 26) by completing coursework designated as distribution at the time of course registration.

Distribution courses from Spanish, Portuguese and Latin American Studies deal in questions of broad humanistic interest, including topics in history, literature, linguistics, culture, and art and film. They utilize methodologies characteristic of the Humanities, prompting students to probe a variety of components in the literary, cultural, and social life of Spanish and Portuguese-speaking communities.

**Additional Information**
For additional information, please see the Spanish, Portuguese and Latin American Studies website: [https://spanishandportuguese.rice.edu/](https://spanishandportuguese.rice.edu/).

**Opportunities for the BA Degree with a Major in Latin American Studies**

**Academic Honors**
The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see [Latin Honors](p. 48) ([summa cum laude](p. 48), [magna cum laude](p. 48), and [cum laude](p. 48)) and Distinction in Research and Creative Work (p. 48). Some departments have department-specific Honors awards or designations.

**Additional Information**
For additional information, please see the Spanish, Portuguese and Latin American Studies website: [https://spanishandportuguese.rice.edu/](https://spanishandportuguese.rice.edu/).

See [https://humanities.rice.edu/student-life](https://humanities.rice.edu/student-life) for tables of fellowships, prizes, and internships/practica that may be relevant to this major.

**Liberal Studies**

Rebecca Sharp Sanchez
Administrative Program Director
rksharp@rice.edu
The Graduate Liberal Studies program at Rice University is designed for those who crave intellectual challenge at a world-class university. Two unique paths are available: the acclaimed Master of Liberal Studies (MLS) degree and the post-Masters Diploma in Liberal Studies (DLS).

Exploring liberal arts at a highly integrated level is not always possible in a career-focused undergraduate curriculum. MLS and DLS options are tailored toward working adults, retirees, and other non-traditional university students who wish to broaden their knowledge in fields they may not have studied in their earlier education. Courses are taught by distinguished Rice faculty and invited visiting faculty who maintain the high academic standards of Rice University.

Both paths are designed for those who love to learn new ideas, explore new worlds, and enjoy meeting others who are part of the same expedition. By examining timeless, timely human questions within the humanities, social sciences, and natural sciences, students satisfy their curiosity about the world through art, literature, science, politics, human nature, and history.

**Master of Liberal Studies (MLS)**

Since its inception in 2005, the Rice Master of Liberal Studies (MLS) program has attracted a wide spectrum of students. Medical doctors, attorneys, homemakers, recent college graduates, retirees, teachers, a range of business professionals, and others have been accepted into the program. Such diversity – in both age and profession – adds a level of broad-mindedness not typically found in the traditional classroom.

The MLS program seeks committed, energetic adult students with bachelor's degrees from an accredited college or university, who have significant life experiences and who are able to communicate effectively.

MLS students must take only one course in his or her first semester, MLSC 600. All courses will require research papers; some may require tests or oral presentations. A thesis is not part of the degree program. The program can be completed in approximately four years if one class is completed every session. Students are allowed to take up to seven years to complete the degree.

**Diploma in Liberal Studies (DLS)**

Rice’s Diploma in Liberal Studies (DLS) program complements and extends the educational goals of the Master of Liberal Studies (MLS) program. The DLS is a graduate-level diploma that is currently unique to Rice University.

Exploring liberal arts at a highly integrated level is not always possible in a career-focused undergraduate curriculum. As with MLS, the DLS program is tailored toward working adults, retirees, and other non-traditional university students who wish to broaden their knowledge in fields they may not have studied in their earlier education. Courses are taught by distinguished Rice faculty and invited visiting faculty who maintain the high academic standards of Rice University.

Designed primarily for those who have completed the MLS degree, the DLS allows these graduates to maximize and enhance their academic investment. However, the program also welcomes non-MLS students on a case-by-case basis that considers academic background and future goals. Well-prepared applicants who are accepted into the program can deepen their interdisciplinary knowledge while honing research and writing skills, laying the foundation to improve critical publications, community service, doctoral studies, or career work.

Liberal Studies does not currently offer an academic program at the undergraduate level.

**Diploma in Liberal Studies (DLS)**

**Program Learning Outcomes for the Diploma in Liberal Studies**

Upon completing the Diploma in Liberal Studies, students will be able to:

1. Identify significant interdisciplinary problems or issues and select one that the student can successfully address in a research project.
2. Apply current interdisciplinary research methodologies and techniques, appropriate to the student's selected disciplines, to a problem.
3. Demonstrate a critical and creative use of primary sources and content appropriate for the research topic.
4. Analyze critically and evaluate one's own findings and those of others.
5. Communicate effectively ideas, methodologies, analyses, and interpretations of the research topic.
6. Demonstrate an understanding of the current interdisciplinary work in at least two academic disciplines.

**Requirements for the Diploma in Liberal Studies**

For general university requirements, see Diploma Programs (p. 68). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55). Students pursuing the Diploma in Liberal Studies must complete:

- A minimum of 30 credit hours to satisfy diploma requirements.
- A minimum of 30 credit hours of graduate-level study (coursework at the 500-level or above).
- A minimum of 24 credit hours must be taken at Rice University.
- A minimum residency enrollment of one fall or spring semester of part-time graduate study at Rice University.
- A minimum overall GPA of 2.67 or higher in all Rice coursework.
- A minimum GPA of 3.33 or higher in all Rice coursework that satisfies requirements for the diploma program with a minimum grade of B-(2.67 grade points) in each course.¹

The courses listed below satisfy the requirements for this degree program. In certain instances, courses not on this official list may be substituted upon approval of the program's academic advisor, or where applicable, the department or program's Director of Graduate Studies. Course substitutions must be formally applied and entered into the registrar.rice.edu/facstaff/degreeworks/officialcertifier/ database by the department or program's Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/). Additionally, these must be approved by the Office of Graduate and Postdoctoral Studies. Students and their academic advisors should identify and clearly document the courses to be taken.

<tr>
<td>MLSC 798 DIPLOMA PROJECT I ³,⁴</td>
</tr>
<tr>
<td>MLSC 799 DIPLOMA PROJECT II ³,⁴</td>
</tr>
</tbody>
</table>

| Total Credit Hours | 30 |

**Footnotes and Additional Information**

¹ All students must take MLSC 750 in their first semester of study and successfully complete the course with a minimum grade of B (3.00 grade points), before taking any other DLS courses. Additionally, students may take only 1 course, MLSC 750 in their first semester of study. Afterwards, students may take up to 2 courses per semester.

² Students may choose to take up to 6 credit hours of MLSC 797 Advanced Independent Readings to fulfill the Elective Requirements.

³ With respect to the two main disciplines chosen by the student for interdisciplinary work in completing the diploma project, a student must complete a minimum of 3 courses (9 credit hours) in each discipline (6 courses and 18 credit hours) before taking the two diploma project courses (MLSC 798 and MLSC 799). This is a minimum. Additional courses in the two chosen disciplines are recommended. A student may petition to have post-baccalaureate courses taken before entering the DLS program considered as a partial satisfaction of this requirement. An undergraduate degree in one of the disciplines could similarly serve as the basis of a petition. If one of the two main disciplines chosen by the student for the interdisciplinary work of the diploma project is outside the humanities, then the humanities discipline is the primary, the non-humanities discipline the secondary discipline. In such a case, the student must complete a minimum of 3 courses (9 credit hours) in the primary discipline before taking the two diploma project courses (MLSC 798 and MLSC 799), and a minimum of 2 courses (6 credit hours) in the secondary discipline. More are recommended. A student can petition to have post-baccalaureate courses taken before entering the DLS program considered as a partial satisfaction of these requirements. An undergraduate degree in one of the disciplines could similarly serve as the basis of a petition.

⁴ Students must successfully complete all Core and Elective Requirements (content coursework) before taking the Research Requirements of MLSC 798 and MLSC 799. MLSC 798 and MLSC 799 are taken for a Satisfactory/Unsatisfactory grade and must be completed with a Satisfactory grade. As S/U courses, they do not apply to the requirement of a minimum grade of B- (2.67 grade points) in each required course.

**Other Information**

As noted in the Requirements above, students in the Diploma in Liberal Studies program will complete 8 courses (24 credit hours) of Core and Elective Requirements (content coursework) from the Liberal Studies catalog of classes, beginning with MLSC 750 Introduction to Diploma Research. Upon completion of these 24 credit hours, the student will then take 6 credit hours of research coursework (MLSC 798 and MLSC 799) under the direction of three readers, a first, second, and third reader. (The first reader is referred to also as ‘the advisor’.)

The diploma project will typically take the form of an interdisciplinary diploma thesis. Alternatively, the student may opt to write two interdisciplinary academic papers (starred papers) of publishable length and thesis quality.

The interdisciplinary journal of the Association of Graduate Liberal Studies Programs, Confluence, serves as an example of the academic research level required. Confluence is a peer-reviewed journal, publishing articles that reflect “the best scholarly and creative work produced by faculty, students and alumni of AGLSP member institutions,” all of which programs offer graduate degrees in liberal studies, in some cases doctoral programs.
In order to complete the DLS program, students must defend their diploma thesis (or two starred papers) in a public diploma project defense and satisfactorily answer questions from their research advisor and readers and others in attendance. The three readers will then decide, with the first reader/advisor serving as chair of the discussion, whether the student has met all diploma project requirements, including passing the defense, with all three signing the appropriate papers if the decision is positive.

**Policies for the Diploma in Liberal Studies**

**Department of Liberal Studies Graduate Handbook**

The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, Liberal Studies publishes a graduate program handbook, which can be found here: https://gradhandbooks.rice.edu/2019_20/Liberal_Studies_Graduate_Handbook.pdf

**Admission**

Admission to the Diploma in Liberal Studies program requires a 3.50 GPA in successfully-concluded post-graduate degree work from either:

1) the Rice MLS program or 2) a liberal arts or liberal studies graduate degree program at an AGLSP member institution. Other post-graduate degrees may be considered (e.g., MA, MD, JD), but only along with evidence of significant academic work in areas relevant to a student’s proposed interdisciplinary work in the Diploma program – for example, an interdisciplinary undergraduate major with relevance to the work proposed for the DLS program or an undergraduate double major in the two disciplines chosen for interdisciplinary work in the DLS. Applications will be accepted for Fall admission only and will be due on the March 15 prior. Completed applications will be forwarded to the Graduate Liberal Studies Faculty Steering Committee for review and admission decision. Admitted students will attend a new student orientation.

**Leave of Absence**

Continuous enrollment in the diploma program is required. Enrollment of at least 2 courses (6 credit hours) per academic year and enrollment in at least 2 semesters of the academic year is required unless granted an official leave of absence.

**Time to Degree**

Students are allowed to take up to 7 years to complete the diploma.

**Additional Information**

For additional information, please see the Liberal Studies website: https://glasscock.rice.edu/departments/graduate-liberal-studies/

**Opportunities for the Diploma in Liberal Studies**

**Association of Graduate Liberal Studies National Honor Society**

DLS graduates who earn a 3.75 GPA or higher and have demonstrated leadership in the classroom and in the greater community are eligible for nomination to the Association of Graduate Liberal Studies National Honor Society.

**Additional Information**

For additional information, please see the Liberal Studies website: https://glasscock.rice.edu/departments/graduate-liberal-studies/

---

**Master of Liberal Studies (MLS) Degree**

**Program Learning Outcomes for the MLS Degree**

Upon completing the MLS degree, students will be able to:

1. Appreciate major perspectives and methods of the liberal arts by demonstrating a broadened understanding of some basic concepts in the humanities, social sciences, and sciences.
2. Appreciate the connection of the liberal arts to their lives and the larger world.
3. Demonstrate a capacity for analytical thinking.
4. Demonstrate good writing skills.
5. Practice critical listening and good discussion and oral communication skills.
6. Demonstrate academic research methods.

**Requirements for the MLS Degree**

The MLS degree is a non-thesis master's degree. For general university requirements, see Non-Thesis Master's Degrees (p. 68). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55). Students pursuing the MLS degree must complete:

- A minimum of 11-12 courses (33-36 credit hours) to satisfy degree requirements.
- A minimum of 30 credit hours of graduate-level study (coursework at the 500-level or above).
- A minimum of 24 credit hours must be taken at Rice University.
- A minimum residency enrollment of one fall or spring semester of part-time graduate study at Rice University.
- A minimum overall GPA of 2.67 or higher in all Rice coursework.
- A minimum GPA of 3.00 or higher in all Rice coursework that satisfies requirements for the non-thesis master's degree.

The courses listed below satisfy the requirements for this degree program. In certain instances, courses not on this official list may be substituted upon approval of the program’s academic advisor, or where applicable, the department or program’s Director of Graduate Studies. Course substitutions must be formally applied and entered into Degree Works by the department or program’s Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/). Additionally, these must be approved by the Office of Graduate and Postdoctoral Studies. Students and their academic advisors should identify and clearly document the courses to be taken.

### Elective Requirements

Select 6 elective courses from MLSC course offerings at the 500-level or 600-level

### Capstone

Select 1 from the following:
- MLSC 700 CAPSTONE I
- MLSC 701 CAPSTONE II

Total Credit Hours: 33-36

### Footnotes and Additional Information

1. All students must take MLSC 600 in their first semester of study.
2. The core requirements are designed to acquaint first-year students with contrasting perspectives and methodological approaches that define academic inquiry in the three broad fields of humanities, social sciences, and natural science. Core courses must be completed before courses that satisfy the electives can be taken.
3. The six (6) electives beyond the core requirements may focus on just 1 field (humanities, social sciences, or natural science) or may be chosen more broadly.
4. The capstone coursework is designed to help students integrate their knowledge through writing an extended paper or completing a project to be presented to MLS faculty and students. Students may take 1 semester (MLSC 701) or 2 semesters (MLSC 700 and MLSC 701) to complete the capstone project.

### Course Lists to Satisfy Requirements

2019-2020 General Announcements
PDF Generated 11/12/2019
Transfer Credit

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 64). Some departments and programs have additional restrictions on transfer credit. Students are encouraged to meet with their academic program’s advisor when considering transfer credit possibilities.

Policies for the MLS Degree

Department of Liberal Studies Graduate Handbook

The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, Liberal Studies publishes a graduate program handbook, which can be found here: https://gradhandbooks.rice.edu/2019_20/Liberal_Studies_Graduate_Handbook.pdf

Admission

Admission to graduate study is open to qualified students holding a bachelor’s degree (or equivalent) from an accredited university or college. A minimum GPA of 3.00 from the applicant’s undergraduate work is expected. Additionally, a statement of purpose, resume, writing samples, letters of recommendation, and work experience will be evaluated as part of the admissions decision.

Transfer Credit

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 64). Some departments and programs have additional restrictions on transfer credit. Students are encouraged to meet with their academic program’s advisor when considering transfer credit possibilities.

Additional Information

For additional information, please see the Liberal Studies website: https://glasscock.rice.edu/departments/graduate-liberal-studies/

Opportunities for the MLS Degree

Association of Graduate Liberal Studies National Honor Society

MLS graduates who earn a 3.75 GPA or higher and have demonstrated leadership in the classroom and in the greater community are eligible for nomination to the Association of Graduate Liberal Studies National Honor Society.

Additional Information

For additional information, please see the Liberal Studies website: https://glasscock.rice.edu/departments/graduate-liberal-studies/

Lifetime Physical Activity Program

Historically, Rice University has recognized that becoming physically educated is integral to one’s overall education. Since the university was founded in 1912, the Lifetime Physical Activity Program has worked to create a multi-faceted learning experience that promotes the physical, social, and emotional benefits of physical activity. It is the mission of the Lifetime Physical Activity Program to teach both theoretical and practical components of a variety of exercise/performance activities such that they will bring enjoyment and demonstrate the importance of maintaining health and wellness throughout the course of a lifetime.

Specifically, the goals of the Lifetime Physical Activity Program are:

- To encourage a lifetime of fitness through the teaching of mechanical, physiological, and nutritional principles.
- To teach other pertinent knowledge such as historical and cultural foundations, rules, and strategy.
- To create an environment that fosters a sense of emotional satisfaction, physical accomplishment, and social interaction for its participants.
- To provide students with high-quality instruction specific to the course material so that they may learn skills that will improve the length and quality of their lives.
- To expose Rice University students to activities that are not necessarily mainstream in United States culture.

The Lifetime Physical Activity Program offers a variety of sport/exercise/performance activities. In the 40-plus sections that are offered each semester, many have a multi-sport focus (e.g., volleyball/basketball), allowing students to experience three or four activities during one year. A student may select an LPAP section that meets his/her scheduling needs and that offers activities that satisfy his/her interests. Some of the current activities offered include racquet sports (tennis, racquetball, badminton), fitness activities (aerobics, personal fitness, weight training), aquatic activities, dance (Latin, ballroom, modern, ballet, country western, Middle Eastern, classical Indian), martial arts, team sports (flag football, basketball, volleyball, soccer, softball), and other activities such as fencing, self-defense for women, golf, yoga, and nutrition.

Undergraduates must successfully complete one LPAP course (1 credit) in order to satisfy the graduation requirement. Students may use up to four LPAP courses (4 credits total) towards the total credits necessary for graduation. LPAP courses are not repeatable for credit.
Lifetime Physical Activity Program classes are strongly recommended for all first-year students, including transfers who have not taken equivalent courses elsewhere. Because LPAP courses are participation based and must be supervised by an instructor, students are required to adhere to a program-wide attendance policy.

For additional information regarding the Lifetime Physical Activity program, see the program's website: [https://recreation.rice.edu/lpap/](https://recreation.rice.edu/lpap/).

The courses that can satisfy the Lifetime Physical Activity Program's undergraduate graduation requirements can be found in Rice's Course Catalog. See the Courses tab for a link to the official course offerings.

The Lifetime Physical Activity Program does not currently offer courses at the graduate level.

Suzanne E. Kemmer
Director of Undergraduate Studies

*The Rice Linguistics Department is the home of an active community of scholars with a wide range of interests. Broadly defined, the department adopts a functional, usage-based approach to language and linguistic theory. A number of recurrent themes emerge in faculty research and the degree programs offered: in-depth investigation of languages, coupled with the search for cross-linguistic generalization; the effects of semantics, language-in-use, sociocultural factors, and other functional influences that motivate and constrain linguistic form; grounding of theories in solid empirical data of many sorts; an interest in the relation between language and mind; and interest in discourse and social/communicative interaction more generally. These interests lead to intensive research activity in empirically well-supported theoretical and descriptive linguistics:*

- cognitive/functional linguistics
- typology and language universals
- field studies in American Indian, Australian, Austronesian, African, and other languages
- sociolinguistics
- discourse studies
- phonetics and speech processing
- laboratory phonology
- language change and grammaticization

**Bachelor's Program**
- Bachelor of Arts (BA) Degree with a Major in Linguistics* (p. 525)

**Master's Program**
- Master of Arts (MA) Degree in the field of Linguistics*

**Doctoral Program**
- Doctor of Philosophy (PhD) Degree in the field of Linguistics* (p. 527)

* Although students are not normally admitted to a Master of Arts (MA) degree program, graduate students may earn the MA as they work towards the PhD.

Bachelor of Arts (BA) Degree with a Major in Linguistics

Program Learning Outcomes for the BA Degree with a Major in Linguistics

Upon completing the BA degree with a major in Linguistics, students will be able to:

1. Demonstrate the ability to perform independent research about languages and their speakers, including the ability to ethically complete field work, collect data, analyze data, utilize laboratory and computing technologies, draw meaningful conclusions from data, and convey research results effectively orally and in writing.
2. Identify and define the main approaches for researching language structure and use at all levels (sounds, words, grammar, meaning, social/cultural interaction), as well as be able to evaluate critically and apply the primary concepts, vocabularies, methods and theories in their own work.
3. Appreciate the diversity of language and the ways in which it changes over time. They will be able to analyze the diversity of sounds and grammar in the world’s languages. They will also understand the diversity of regionally-, socially-, and ethnically-defined varieties within a single language. Students will be able to explain why this diversity is relevant to everyday life and how it is crucial to fields both inside and outside of linguistics.
4. Understand language in its relation to cognition, identity formation, culture, and society, and the systematic relationships among them.
5. Understand the systematic relationships between language structure and language use, and how these in turn relate to cognition, culture, identity, and society.

Requirements for the BA Degree with a Major in Linguistics

For general university requirements, see Graduation Requirements (p. 26). Students pursuing the BA degree with a major in Linguistics must complete:

• A minimum of 12 courses (36 credit hours) to satisfy major requirements.
• A minimum of 120 credit hours to satisfy degree requirements.
• A minimum of 60 credit hours outside of major requirements.
• A minimum of 9 courses (27 credit hours) taken at the 300-level or above.

Because human language is a multifaceted object of study, linguistics is, by its nature an interdisciplinary field. The undergraduate major provides both an in-depth grounding in the field as well as a cross-disciplinary breadth. Students beginning the linguistics major should take LING 200, which is a prerequisite for many upper-level courses in the department. All majors are required to take at least 9 courses (27 credit hours) in linguistics at the 300-level or above, including 5 core courses as specified below.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor, or where applicable, the department’s Director of Undergraduate Studies. (Course substitutions must be formally applied and entered into Degree Works by the major’s Official Certifier [https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/].) Students and their academic advisors should identify and clearly document the courses to be taken.

Language Requirement

Select 2 courses in a foreign language: 6
- for European languages, 2 courses at the 200-level or above
- for non-European languages, 2 courses at the 100-level or above

Elective Requirements

Select 4 elective courses from departmental (LING) course offerings at the 300-level or above 12

Total Credit Hours Required for the Major in Linguistics 36
Additional Credit Hours to Complete BA Degree Requirements 24

University Graduation Requirements (p. 26) 60

Total Credit Hours 120

Footnotes and Additional Information

* Includes coursework completed as distribution credit, FWIS, LPAP, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The "hours outside of the major" requirement may include all of the above university requirements.

1 In addition to the required Prerequisite, Core Requirements, and Elective Requirements, competency in one language other than English is required. This requirement may be satisfied by taking 2 courses in a European Language at the 200-level or above (or equivalent) or by taking 2 courses in a Non-European Language at the 100-level or above.

European Languages:
- French (FREN)
- German (GERM)
- Greek (GREE)
- Italian (ITAL)
- Latin (LATI)
- Portuguese (PORT)
- Russian (RUSS)
- Spanish (SPAN)

Non-European Languages:
- Arabic (ARAB)
- Chinese (CHIN)
- Hebrew (HEBR)
- Hindi (HIND)
- Japanese (JAPA)
- Korean (KORE)
- Tibetan (TIBT)

2 The Linguistics major requires, in addition to 5 Core courses, at least 4 advanced Linguistics (LING) Elective Requirements at the 300-level or above. In addition to the LING 499 Research Seminar, one additional Research Seminar can be selected as an elective. No more than 1 independent study course (such as LING 480) may be counted toward the major requirements.

Restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines

Students pursuing the major in Linguistics should be aware of the following departmental transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

Additional Information

For additional information, please see the Linguistics website: https://linguistics.rice.edu/

Opportunities for the BA Degree with a Major in Linguistics

Academic Honors

The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (p. 48) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 48). Some departments have department-specific Honors awards or designations.

Departmental Guidelines for Distinction in Research and Creative Work

To earn the Distinction in Research and Creative Work, in Linguistics, students must have done one of the following:

- Written a senior honors thesis in the department that is based on original research and/or scholarship, and is judged to be exceptional; or
- Written a sole-authored scholarly paper that was (or will be) presented at a scholarly conference; or
- Made a significant individual contribution to linguistic research, including research that has been published or presented in a public venue, and highlights the contributions that linguistics can make to other academic, scientific, community, or societal spheres.

By the end of the 14th week of the Spring semester, students applying should submit electronically to Robert Englebretson (department chair) at reng@rice.edu a portfolio consisting of:

1. A two-page description of how their research effort meets the requirements of Distinction. This two-page document should also place the student’s original contribution in broader scholarly linguistics research.
2. If a paper or thesis has been written to qualify, students should also submit the paper.
3. An application form including the endorsement of a faculty member available from the department office.

The application should have the subject: Distinction in Research and Creative Work in Linguistics, should be submitted by the end of the 14th week of the Spring semester, and should be complete (all forms, copies, and documents should be submitted electronically).
Departmental Honors Program in Linguistics
The Linguistics Honors Program provides selected undergraduate majors with the opportunity to conduct supervised research. Majors planning to pursue graduate training in Linguistics or a related field are strongly encouraged to apply, as well as others who wish to add the experience of an intensive, individualized research project to their undergraduate education.

Application to the Honors Program should be made in person to the undergraduate major advisor before the end of the student’s junior year. In support of the application, the student should prepare a brief description of the proposed project signed by the faculty member who is to supervise the work (the project supervisor). Acceptance into the program is by agreement of the linguistics faculty. On acceptance, the student will enroll in LING 482, with the supervising faculty member named as instructor.

The Honors Program framework is designed to facilitate the development of a mentoring relationship between student and faculty member. Students are thus expected to meet regularly with their project supervisor regarding their progress; the supervisor is responsible for providing research guidance and general support.

With the appropriate completion of major requirements and the honors project or thesis, the student will graduate with departmental honors.

Additional Information
For additional information, please see the Linguistics website: https://linguistics.rice.edu/

Doctor of Philosophy (PhD) Degree in the field of Linguistics

Program Learning Outcomes for the PhD Degree in the field of Linguistics
At present, the Linguistics Department is not accepting new students into the graduate program.

Requirements for the MA and PhD Degrees in the field of Linguistics
At present, the Linguistics Department is not accepting new students into the graduate program.

MA Degree Program
The MA degree is a non-thesis masters degree. For general university requirements, please see Non-Thesis Master's Degree (p. 68). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55). Although students are not normally admitted to study for an MA, graduate students may earn the MA after obtaining approval of their candidacy for the PhD. After all the requirements necessary to advance to candidacy have been met, the student may apply for a candidacy master’s degree.

Requirements for the PhD Degree in the field of Linguistics

PhD Degree Program
For graduation requirements, see Graduate Degrees (p. 49). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55). The doctoral linguistics program at Rice emphasizes the study of language use and functional/cognitive approaches to linguistic theory. Rice faculty engage in a broad range of research specializations, all of which play an important role for in-depth graduate training. These interrelated areas include cognitive linguistics, language change, sociolinguistics, discourse analysis, language documentation and description, phonetics, laboratory phonology, and typology. Other faculty research interests include phonological theory, acoustic phonetics, speech sciences and technology, syntax, language revitalization, neurolinguistics, and forensic linguistics. The program only admits students planning to study for the PhD degree full-time. Undergraduate preparation ideally should include language study and coursework in linguistics or disciplines related to linguistics, such as anthropology, applied linguistics, speech and hearing sciences, psychology, sociology, or studies of particular languages, although an advanced degree is not required. Students will earn a master’s degree upon advancement to candidacy. Students admitted to the program are generally offered financial support in the form of tuition scholarships and/or stipends for living expenses.

During the first year of residence, each entering student works closely with the graduate advisor to choose a plan of study congruent with the demands of the program and the student’s interests. Emphasis throughout the program is on a close working relationship with faculty. Students should select areas of specialization that fit well with faculty research interests and activities.

Students will, in general, take five years to progress through the degree program. With no prior linguistics background, coursework in the first three years will include:

- one problem-solving course in linguistic analysis (LING 500) to be taken in the first year of study
- two courses in the area of phonetics/phonology (LING 501 and LING 511)
- two courses in the area of syntactic/semantic analysis (LING 504 and LING 515)
- the two-course sequence in field methods (LING 407 and LING 408) to be taken normally in the second year of study
- two seminars in the department usually to be taken in the second and/or third year of study
- five additional elective courses, including two courses in other subfields of linguistics

Prior preparation in linguistics will be assessed with regard to its equivalence to particular Rice courses. Graduate students are required to register for at least 12 credit hours per semester before advancing to candidacy. The department requires a minimum semester GPA of 3.00 to avoid probationary status. Students are expected to serve as teaching assistants for one course per year for four of the five years during the time they are receiving departmental support, and this service is included in the normal course load.

Before advancing to candidacy, students must prepare two in-depth research papers. Each paper must represent a different area in the
field of linguistics (as determined by the linguistics faculty); a separate committee of two members of the faculty reads and referees each paper. The committees are chosen by the student and approved by the student’s faculty mentor. The first publishable paper must be approved no later than the end of the fifth semester. Students who fail to meet this deadline will be dismissed from the program. The second publishable paper must be approved by the beginning of the eighth semester. In addition, one of the papers must be presented in the departmental colloquium, and it is expected that students submit their work for presentation at relevant professional meetings and publish their work in venues such as conference proceedings and/or journals when possible.

Finally, students must fulfill the departmental language requirement of competency in at least one language other than English. See the department web page and Linguistics Graduate Student Handbook for specific details.

In the course of the first three years in the program, the student should work toward establishing a close working relationship with various members of the faculty such that multiple faculty members are familiar with the student’s work. During the first year, the graduate advisor serves as the student’s advisor, but after the first year, the student selects a faculty mentor to provide more personalized advising in addition to the general advice of the graduate advisor. After the student’s second paper is accepted, a thesis advisor is selected and a doctoral committee is formed, by mutual agreement of the student and the anticipated committee members. During the fourth year, students present to their committee members a third research paper, called the thesis prospectus, consisting of a substantial thesis proposal and a comprehensive bibliography. It may be based on a grant proposal to an external funding agency, particularly in the case of proposed fieldwork. Upon completion of the prospectus, students will submit to an oral qualifying exam to be administered by the thesis committee. The exam will consist of two parts, a general exam demonstrating the student’s knowledge of the field and a thesis prospectus hearing. Upon completion of this qualifying examination, the student will advance to candidacy.

Following advancement to candidacy, the student works full time toward the completion of the thesis. The student is expected to consult regularly with the committee members during the data collection and writing process. Upon completion of a complete and acceptable draft of the thesis, the student will then, in consultation with all members of the thesis committee, schedule a public defense of the work. When the final version of the thesis is accepted by the doctoral committee and filed with the university, and all other requirements are certified as fulfilled, the degree is then granted.

For more in-depth information about the linguistics graduate program requirements, consult the official Linguistics Graduate Student Handbook and the departmental web page at linguistics.rice.edu (http://linguistics.rice.edu/).

### Managerial Studies

#### Contact Information

Managerial Studies  
[https://mana.rice.edu/](https://mana.rice.edu/)  
272 Baker Hall  
713-348-3362  
Mallesh Pai  
Program Director  
mallesh.pai@rice.edu

Managerial Studies is an interdepartmental, nonprofessional program designed to provide undergraduates with an understanding of the environment in which businesses and other organizations exist today and of some of the tools employed by management in the commitment of its financial and human resources.

All students pursuing the managerial studies major must also complete at least one of the established departmental or interdepartmental majors, other than an area major. The managerial studies major is not the equivalent of an undergraduate business major at other universities.

#### Bachelor’s Program

- Bachelor of Arts (BA) Degree with a Major in Managerial Studies (p. 529)

Managerial Studies does not currently offer an academic program at the graduate level.

#### Program Director

Mallesh Pai
Description and Code Legend

Note: Internally, the university uses the following descriptions, codes, and abbreviations for this academic program. The following is a quick reference:

Course Catalog/Schedule
- Course offerings/subject codes: MANA

Program Description and Code
- Managerial Studies: MANA

Undergraduate Degree Description and Code
- Bachelor of Arts degree: BA

Undergraduate Major Description and Code
- Major in Managerial Studies: MANA

CIP Code and Description
- MANA Major/Program: CIP Code/Title: 52.0201 - Business Administration and Management, General

Bachelor of Arts (BA) Degree with a Major in Managerial Studies

Program Learning Outcomes for the BA Degree with a Major in Managerial Studies
Upon completing the BA degree with a major in Managerial Studies, students will be able to:

1. Demonstrate knowledge of how private economic practices, responsibilities, rights, and rewards are related to public policy, regulating institutions, and politics (including local, state, and federal regulation, international policy, and the like) and will be able to evaluate critically the impact of policy, institutions, and politics on business practices.

2. Demonstrate an understanding of economic practices internal to conducting business, including financial reporting and accounting, while also demonstrating an understanding of economic practices external to business, including private investing in company stocks, bonds, and options.

3. Define and critically apply interdisciplinary methodologies and theories (including those from psychology and economics) to problems in Managerial Studies, as well as demonstrate the ability to evaluate different forms of evidence.

4. Demonstrate sufficient proficiency in algebra, statistics and other pertinent mathematics to develop and verify economic hypotheses as well as to evaluate computationally business problems or proposals.

5. Demonstrate an understanding of the underlying principles that govern the way the profession accounts for and communicates business transactions.

Requirements for the BA Degree with a Major in Managerial Studies

For general university requirements, see Graduation Requirements (p. 26). Students pursuing the BA degree with a major in Managerial Studies must complete:

- A minimum of 10 courses (30-32 credit hours, depending on course selection) to satisfy major requirements.
- A minimum of 120 credit hours to satisfy degree requirements.
- A minimum of 60 credit hours outside of major requirements.
- A minimum of 5 courses (15 credit hours) taken at the 300-level or above.
- The requirements for a second departmental or interdepartmental major.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor, or where applicable, the department’s Director of Undergraduate Studies. (Course substitutions must be formally applied and entered into Degree Works by the major’s Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/).) Students and their academic advisors should identify and clearly document the courses to be taken.

### Policies for the BA Degree with a Major in Managerial Studies

**Program Restrictions and Exclusions**

Students pursuing the major in Managerial Studies should be aware of the following program restriction:

- Students pursuing the major in Managerial Studies must complete the requirements of a second departmental or interdepartmental major.

### Transfer Credit

For Rice University's policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: [https://oaa.rice.edu](https://oaa.rice.edu). Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

### Program Transfer Credit Guidelines

Students pursuing the major in Managerial Studies should be aware of the following program-specific transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.
- For transfer credit requests for subjects outside of the program’s subject code (i.e. ECON courses required for the major in Managerial Studies), students seeking transfer credit should contact the appropriate department for approval, and not the Director of Managerial Studies.

### Additional Information

For additional information, please see the Managerial Studies website: [https://mana.rice.edu/](https://mana.rice.edu/)

### Opportunities for the BA Degree with a Major in Managerial Studies

**Academic Honors**

The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 48) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 48). Some departments have department-specific Honors awards or designations.

**Additional Information**

For additional information, please see the Managerial Studies website: [https://mana.rice.edu/](https://mana.rice.edu/)
Materials engineering is concerned with the processing, structure, properties, and performance of diverse materials which include metals and their alloys, semiconductors, ceramics, glass, polymers, composites, and nanomaterials. The materials engineer applies principles of math, physics and chemistry to design, produce, characterize, and utilize materials essential to modern society. Examples range in size and properties from the nanometer-thick atomic layers which form transistors on integrated circuit chips to the single-crystal superalloy blades used in turbine engines to the metallic alloys used in transcontinental pipelines and power lines. The Materials Science and NanoEngineering curriculum provides students with the requisite skills and educational background to contribute to the solution of many materials and nanoengineering problems, allows graduates to work in a fascinating field, and makes it possible to become a leader in one of the most challenging areas of technology.

The department's graduate degree programs include a non-thesis professional master's degree as well as research degrees which include a thesis. These programs, in their comprehensive educational and research activities, collaborate with other departments at Rice and other institutions and industry in Houston, including those in the Texas Medical Center. Collaborations are also extended to universities in the United States, Europe, Asia, North and South America. International collaborations include joint research activities as well as faculty and student visitor exchanges.

Graduate studies in the department may lead to specialization in one of several areas, including Advanced Manufacturing, Biomaterials, Carbon Nanomaterial Composites, Computational Materials Science, Material Modeling and Theories, Electron Microscopy and in situ Methods, Electronic Materials, Energy Conversion and Storage, Low Dimensional Materials, Mechanical Properties and Nanomechanics, Metallurgy and Metals Processing, Nanotechnology, Optical Materials, Photonics and Nanophotonics, Surfaces and Interfaces, Coatings and Thin Films, and Ultralight-Weight Ultrahigh-Strength Multifunctional Materials. For details about these faculty research areas, please go to the MSNE website (https://msne.rice.edu/).

A coordinated MBA/MMSNE degrees program is also offered in conjunction with the Jesse H. Jones Graduate School of Business.

### Bachelor's Programs

Bachelor of Arts (BA) Degree with a Major in Materials Science and NanoEngineering

Program Learning Outcomes for the BA Degree with a Major in Materials Science and Nanoengineering

Upon completing the BA degree with a major in Materials Science and Nanoengineering, students will demonstrate:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. An ability to communicate effectively with a range of audiences.
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
6. An ability to acquire an apply new knowledge as needed, using appropriate learning strategies.

Requirements for the BA Degree with a Major in Materials Science and NanoEngineering

For general university requirements, see Graduation Requirements (p. 26). Students pursuing the BA degree with a major in Materials Science and NanoEngineering must complete:

• A minimum of 20 or 22 courses, depending on course selection, (59 credit hours) to satisfy major requirements.
• A minimum of 120 credit hours to satisfy degree requirements.
• A minimum of 60 credit hours outside of major requirements.
• A minimum of 9 courses (28 credit hours) taken at the 300-level or above.

The BA program in Materials Science and NanoEngineering is highly flexible, involves less technical content than the BS, and allows students greater freedom to pursue areas of interest outside of engineering.
The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major's academic advisor, or where applicable, the department’s Director of Undergraduate Studies. (Course substitutions must be formally applied and entered into Degree Works by the major’s Official Certifier ([https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/](https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/)). Students and their academic advisors should identify and clearly document the courses to be taken.

Total Credit Hours Required for the Major in Materials Science and NanoEngineering: 59

Additional Credit Hours to Complete BA Degree Requirements: 1

University Graduation Requirements (p. 26): 60

Total Credit Hours: 120

### Footnotes and Additional Information

* Includes coursework completed as distribution credit, FWIS, LPAP, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The “hours outside of the major” requirement may include all of the above university requirements.

### Policies for the BA Degree with a Major in Materials Science and Nanoengineering

#### Transfer Credit

For Rice University’s policy regarding transfer credit, see [Transfer Credit](p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of transfer credit advisors on their website: [https://oaa.rice.edu](https://oaa.rice.edu). Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

#### Departmental Transfer Credit Guidelines

Students pursuing the major in Materials Science and Nanoengineering should be aware of the following departmental transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program's official transfer credit advisor) on an individual case-by-case basis.

### Additional Information

For additional information, please see the Materials Science and Nanoengineering website: [https://msne.rice.edu/](https://msne.rice.edu/)

### Opportunities for the BA Degree with a Major in Materials Science and Nanoengineering

#### Academic Honors

The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see [Latin Honors](p. 48) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work.
Fifth-Year Master’s Degree Option for Rice Undergraduate Students

Rice undergraduate students have an option to pursue the Master of Materials Science and NanoEngineering (MMSNE) degree by adding an additional fifth year to their four undergraduate years of science and engineering studies.

Advanced Rice undergraduate students in good academic standing may apply to the MMSNE degree program during their junior or senior year. Upon acceptance, depending on course load, financial aid status, and other variables, they may then start taking some required courses of the master’s degree program. A plan of study will need to be approved by the student’s undergraduate advisor and the MMSNE program director.

As part of this option and opportunity, Rice undergraduate students:

• must complete the requirements for a bachelor’s degree and the master’s degree independently of each other (i.e. no course may be counted toward the fulfillment of both degrees).
• should be aware there could be financial aid implications if the conversion of undergraduate coursework to that of graduate level reduces their earned undergraduate credit for any semester below that of full-time status (12 credit hours).
• more information on this Undergraduate - Graduate Concurrent Enrollment opportunity, including specific information on the registration process can be found here (p. 17).

Research Opportunities

Many MSNE majors participate in undergraduate research; some even start during their freshman year. To get involved, speak to a MSNE undergraduate advisor or directly to a MSNE faculty member.

Additional Information

For additional information, please see the Materials Science and Nanoengineering website: https://msne.rice.edu/

Bachelor of Science in Materials Science and NanoEngineering (BSMSNE) Degree

Program Learning Outcomes (Student Outcomes) for the BSMSNE Degree

Upon completing the BSMSNE degree, students will be able to demonstrate:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
3. An ability to communicate effectively with a range of audiences
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Program Educational Objectives for the BSMSNE Degree

The Bachelor of Science in Materials Science and NanoEngineering (BSMSNE) degree prepares graduates to succeed in professional careers by equipping them with the expertise sought by top graduate schools and corporations. Recognizing that graduates may embark on diverse educational and career paths, the Program Educational Objectives (PEOs) that graduates will achieve within a few years of obtaining their Bachelor of Science in Materials Science and NanoEngineering (BSMSNE) degree from Rice University are:

1. Graduates will demonstrate technical proficiency and professional achievement in their work which may include scientific inquiry as well as problem-solving, process optimization, and/or design in materials engineering and related fields.
2. Graduates will be accomplished at communicating and working collaboratively in diverse work environments.
3. Graduates seeking post-baccalaureate education will achieve appropriate levels of success in admission to and progression through those programs. Graduates entering professional careers will achieve appropriate career progression and success.

Requirements for the BSMSNE Degree

For general university requirements, see Graduation Requirements (p. 26). Students pursuing the BSMSNE degree must complete:

• A minimum of 33-35 courses (92-95 credit hours), depending on course selection, to satisfy major requirements.
• A minimum of 132-135 credit hours, depending on course selection, to satisfy degree requirements.
• A minimum of 16 courses (43 credit hours) taken at the 300-level or above.

Students seeking the BSMSNE must complete a minimum of 92 credit hours in general math and science, core, and specialization elective courses within the total minimum requirement of 132 credit hours.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor, or where applicable, the department’s Director of Undergraduate Studies. (Course substitutions must be formally applied and entered into Degree Works by the major’s Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/) ) Students and their academic advisors should identify and clearly document the courses to be taken.

## Elective Requirements

Select 1 elective course from the Engineering Cluster (see course list below)

Select 1 elective course from the Math and Science Cluster (see course list below)

Select 1 elective course from the Technical Cluster or select additional Engineering Cluster courses (see course lists below)

### Total Credit Hours Required for the Major in Materials Science and NanoEngineering

| Total Credit Hours Required for the Major in Materials Science and NanoEngineering | 92-95 |

### University Graduation Requirements

| Total Credit Hours | 132-135 |

### Footnotes and Additional Information

* Includes coursework completed as distribution credit, FWIS, LPAP, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The "hours outside of the major" requirement may include all of the above university requirements.

1. MECH 202 is a required Engineering prerequisite to other Core Requirements and must be taken first.

### Course Lists to Satisfy Requirements

#### Elective Requirements

To fulfill the remaining Materials Science and NanoEngineering major requirements for the BSMSNE degree, students must complete a total of 3 additional courses (a minimum of 9-12 credit hours, depending on course selection). 1 course (3-4 credit hours, depending on course selection) must come from the Engineering Cluster, 1 course (3-4 credit hours, depending on course selection) must come from the Math and Science Cluster. The remaining course (3-4 credit hours, depending on course selection) must come from the Technical Cluster or from additional Engineering Cluster coursework.

#### Engineering Cluster (no MSNE courses)

**Total Credit Hours:** 3

### Footnotes and Additional Information

1. The Technical Cluster requirement also includes the Engineering Cluster listed above.
Policies for the BSMSNE Degree

Transfer Credit
For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines
Students pursuing the BSMSNE degree should be aware of the following departmental transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program's official transfer credit advisor) on an individual case-by-case basis.

Additional Information
For additional information, please see the Materials Science and NanoEngineering website: https://msne.rice.edu/

Opportunities for the BSMSNE Degree
Academic Honors
The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 48) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 48). Some departments have department-specific Honors awards or designations.

Fifth-Year Master's Degree Option for Rice Undergraduate Students
Rice undergraduate students have an option to pursue the Master of Materials Science and NanoEngineering (MMSNE) degree by adding an additional fifth year to their four undergraduate years of science and engineering studies.

Advanced Rice undergraduate students in good academic standing may apply to the MMSNE degree program during their junior or senior year. Upon acceptance, depending on course load, financial aid status, and other variables, they may then start taking some required courses of the master's degree program. A plan of study will need to be approved by the student's undergraduate advisor and the MMSNE program director.

As part of this option and opportunity, Rice undergraduate students:

- must complete the requirements for a bachelor's degree and the master's degree independently of each other (i.e. no course may be counted toward the fulfillment of both degrees).
- should be aware there could be financial aid implications if the conversion of undergraduate coursework to that of graduate level reduces their earned undergraduate credit for any semester below that of full-time status (12 credit hours).
- more information on this Undergraduate - Graduate Concurrent Enrollment opportunity, including specific information on the registration process can be found here (p. 17).

Research Opportunities
Many MSNE majors participate in undergraduate research; some even start during their freshman year. To get involved, speak to a MSNE undergraduate advisor or directly to a MSNE faculty member.

Additional Information
For additional information, please see the Materials Science and NanoEngineering website: https://msne.rice.edu/

Doctor of Philosophy (PhD) Degree in the field of Materials Science and NanoEngineering

Program Learning Outcomes for the PhD Degree in the field of Materials Science and NanoEngineering

Upon completing the PhD degree in the field of Materials Science and NanoEngineering, students will be able to:

1. Demonstrate an advanced command of Materials Science and NanoEngineering field work.
2. Conduct independent research that demonstrates advanced mastery of a subfield within Materials Science or NanoEngineering.
3. Communicate scientific ideas effectively in writing and when speaking.

Requirements for the PhD Degree in the field of Materials Science and NanoEngineering

Full-time students seeking the PhD degree are expected to complete all the requirements for the degree within five calendar years following entrance into the program. Continuation in the program beyond this time limit will require special approval of the department.

For general university requirements, please see Doctoral Degrees (p. 65). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55). Students pursuing the PhD degree program in Materials Science and NanoEngineering must complete:

- A minimum of 90 credit hours advanced relevant study, of which at least 18 credit hours must be completed through coursework.

The programs leading to the MS and PhD degrees are open to students who have demonstrated outstanding performance in their undergraduate studies. The granting of a graduate research degree presupposes academic work of superior quality and a demonstrated ability to do original research.

Course requirements for the research degrees vary depending on the extent of individual undergraduate preparation as well as each student’s performance in graduate courses and on qualifying examinations. For both the MS and PhD degrees, students must present a thesis that comprises an original contribution to knowledge and defend it in a public oral examination.
Students are expected to earn letter grades of at least B- (2.67 grade points) in all courses taken, and maintain a minimum overall GPA of 3.00.

If a student’s GPA is below 3.00, the student will be placed on departmental probation, and if the student’s semester GPA is below 3.00 for two consecutive semesters, his/her performance will be reviewed by the Graduate Committee in consultation with the Department Chair, and the student may be dismissed from the program.

Each graduate student is expected to render research and/or instructional assistance to the department not to exceed 10 hours per week. Graduate student work assignments will be made by the advisor at the beginning of each semester.

All PhD students must attend at least 75% of the MSNE seminars per semester. For details, please see the degree requirements on the MSNE website (https://msne.rice.edu/).

| Code   | Title                                             | Credit Hours |
|        |                                                   | 72           |
|        | Total Credit Hours                                | 90           |

**Footnotes and Additional Information**

¹ Students may complete courses that satisfy the Electives requirement from other departmental course offerings upon approval from their advisors or one member of the Departmental Graduate Committee.

² Credit received for MSNE 500, MSNE 501, and MSNE 800 will not be counted toward coursework, but will count toward the total credit hours required for the degree.

³ Students must attend at least 10 of the 13 MSNE 500 seminars per semester for the duration of their study.

⁴ Students must attend at least 9 of the 13 MSNE 501 seminars per semester for the duration of their study.

⁵ Students must register for a minimum of 9 credit hours per semester and must be required to receive an ‘S’ grade. ‘U’ grades are discussed further in the MSNE Graduate Student Handbook in the section Grades.

**Additional Information**

Graduate students pursuing a thesis degree program will be subject to a preliminary evaluation of their candidacy for the highest degree program they intend to pursue. The evaluation will be conducted by the end of the second semester of enrollment in the graduate program in the MSNE department.

By the end of the sixth semester of enrollment in the graduate program in the MSNE department, the student must pass an oral qualifying examination.

Each candidate for the PhD degree must complete a thesis that constitutes an original contribution to scientific knowledge (analytical or experimental). It is expected that the research will be of sufficient importance and quality that positive results would lead to publication. On completion of the thesis, each candidate for the PhD degree must pass a final public oral examination. The examination will be conducted by a committee consisting of at least three members. Two, including the advisor, must be MSNE faculty members, and one must be a faculty member from another department.

Candidates for the PhD degree program in Materials Science and NanoEngineering are required to provide teaching assistance to the department as a teaching assistant or grader for at least 4 semesters, but no more than 6 semesters.

For additional details and information, please see the degree requirements on the MSNE website (https://msne.rice.edu/).

**Policies for the PhD Degree in the field of Materials Science and NanoEngineering**

Department of Materials Science and NanoEngineering Graduate Program Handbook

The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, the department of Materials Science and NanoEngineering publishes a graduate program handbook, which can be found here: https://gradhandbooks.rice.edu/2019_20/Material_Science_Nano_Engineering_Graduate_Handbook.pdf

**Additional Information**

For additional information, please see the Materials Science and Nanoengineering website: https://msne.rice.edu/

**Opportunities for the PhD Degree in the field of Materials Science and NanoEngineering**

For additional information, please see the Materials Science and Nanoengineering website: https://msne.rice.edu/
Program Learning Outcomes for the MMSNE Degree

Upon completing the MMSNE degree, students will be able to:

1. Acquire broad, advanced knowledge within either Materials Science or NanoEngineering, which is also in-depth in one major sub-discipline of the field.
2. Conduct research at an advanced level in at least one area of Materials Science and Nanoengineering.
3. Communicate scientific ideas effectively in writing and when speaking.

Requirements for the MMSNE Degree in Materials Science and NanoEngineering

The MMSNE degree is a non-thesis master’s degree. For general university requirements, please see Non-Thesis Master’s Degrees (p. 68). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55). Students pursuing the MMSNE degree must complete:

- A minimum of 10 courses (30 credit hours) to satisfy degree requirements.
- A minimum of 30 credit hours of graduate-level study (coursework at the 500-level or above).
- A minimum of 24 credit hours must be taken at Rice University.
- A minimum residency enrollment of one fall or spring semester of part-time graduate study at Rice University.
- The requirements for one area of specialization. The MMSNE degree program offers two areas of specialization:
  - Materials Science, or NanoEngineering.
  - A minimum overall GPA of 2.67 or higher in all Rice coursework.
  - A minimum GPA of 3.00 or higher in all Rice coursework that satisfies requirements for the non-thesis master’s degree with a minimum grade of B- (2.67 grade points) in each course.

The MMSNE degree program is open to students who have shown academic excellence in their undergraduate studies. This non-thesis degree option is designed for engineers who have attained a bachelor's degree and are looking to further their careers in industry. They combine engineering coursework with professional development and communications. A list of required and suggested courses are available on the MSNE website (https://msne.rice.edu/). Students should develop a specific plan of study based on their particular interests and discussions with their advisor.

The courses listed below satisfy the requirements for this degree program. In certain instances, courses not on this official list may be substituted upon approval of the program's academic advisor, or where applicable, the department or program's Director of Graduate Studies. Course substitutions must be formally applied and entered into Degree Works by the department or program's Official Certifier (https://registrar.rice.edu/facstaff/degreqworks/officialcertifier/). Additionally, these must be approved by the Office of Graduate and Postdoctoral Studies. Students and their academic advisors should identify and clearly document the courses to be taken.

2019-2020 General Announcements

PDF Generated 11/12/2019

**Policies for the MMSNE Degree**

**Department of Materials Science and NanoEngineering Graduate Program Handbook**

The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, the Department of Materials Science and NanoEngineering publishes a graduate program handbook, which can be found here: [https://gradhandbooks.rice.edu/2019_20/Material_Science_Nano_Engineering_Graduate_Handbook.pdf](https://gradhandbooks.rice.edu/2019_20/Material_Science_Nano_Engineering_Graduate_Handbook.pdf)

**Transfer Credit**

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 64). Some departments and programs have additional restrictions on transfer credit. Students are encouraged to meet with their academic program’s advisor when considering transfer credit possibilities.

**Academic Standards**

Students are expected to earn letter grades of at least B- (2.67 grade points) in all courses taken, and maintain a minimum overall GPA of 3.00 to graduate. If a student’s semester GPA is below 3.00, the student will be placed on departmental probation, and if the student’s semester GPA is below 3.00 for two consecutive semesters, hi/her performance will be reviewed by the Graduate Committee in consultation with the Department hair, and the student may be dismissed from the program.

**Additional Information**

For additional information, please see the Materials Science and NanoEngineering website: [https://msne.rice.edu/](https://msne.rice.edu/)

**Opportunities for the MMSNE Degree**

**Fifth-Year Master's Degree Option for Rice Undergraduate Students**

Rice undergraduate students have an option to pursue the Master of Materials Science and NanoEngineering (MMSNE) degree by adding an additional fifth year to their four undergraduate years of science and engineering studies.

Advanced Rice undergraduate students in good academic standing may apply to the MMSNE degree program during their junior or senior year. Upon acceptance, depending on course load, financial aid status, and other variables, they may then start taking some required courses of the master’s degree program. A plan of study will need to be approved by the student’s undergraduate advisor and the MMSNE program director.

As part of this option and opportunity, Rice undergraduate students:

- must complete the requirements for a bachelor’s degree and the master’s degree independently of each other (i.e. no course may be counted toward the fulfillment of both degrees).
- should be aware there could be financial aid implications if the conversion of undergraduate coursework to that of graduate level reduces their earned undergraduate credit for any semester below that of full-time status (12 credit hours).
- more information on this Undergraduate - Graduate Concurrent Enrollment opportunity, including specific information on the registration process can be found here (p. 17).

**Additional Information**

For additional information, please see the Materials Science and Nanoengineering website: [https://msne.rice.edu/](https://msne.rice.edu/)

**Master of Materials Science and NanoEngineering (MMSNE) Degree / Master of Business Administration (MBA) Degree**

**Program Learning Outcomes for the MMSNE Degree**

Upon completing the MMSNE degree, students will be able to:

1. Acquire broad, advanced knowledge within either Materials Science or NanoEngineering, which is also in-depth in one major sub-discipline of the field.
2. Conduct research at an advanced level in at least one area of Materials Science and Nanoengineering.
3. Communicate scientific ideas effectively in writing and when speaking.

**Program Learning Outcomes for the MBA Degree**

Upon completing the MBA degree, students will be able to:

1. Demonstrate an understanding and application of the foundational frameworks and tools of all business disciplines, including accounting, finance, marketing, organizational behavior, and strategic management.
2. Develop, evaluate, and implement complex business strategies and operational solutions holistically, integrating management principles across the functional areas.
3. Function effectively in a team setting both as a leader and a contributor.
Requirements for the MMSNE/MBA Coordinated Degrees Program

Students may earn a coordinated MBA degree and a non-thesis Master of Engineering degree from the George R. Brown School of Engineering in the following fields:

- Chemical Engineering (MChE)
- Computational and Applied Mathematics (MCAAM)
- Computer Science (MCS)
- Industrial Engineering (MIE)
- Materials Science and Nanoengineering (MMSNE)
- Mechanical Engineering (MME)
- Statistics (MStat)

For the coordinated MBA/Master of Engineering degrees, students must complete:

- A minimum of 69 credit hours in approved coursework*, including:
  - A minimum of 30 credit hours of graduate-level study (coursework at the 500-level or above) to satisfy the Master of Engineering degree requirements
  - A minimum of 24 credit hours in the corresponding engineering discipline
  - A minimum of 6 credit hours in elective requirements*
  - A minimum of 45 credit hours of graduate-level study (coursework at the 500-level or above) to satisfy the MBA degree requirements
  - A minimum of 45 credit hours of business coursework
  - All MBA core requirements, the global field experience, custom core requirements, and coordinated elective requirements

*Note: A maximum of 6 credit hours of the Master of Engineering degree elective requirements may be selected from business course offerings (MGMP, MGMT, or MICO) and used to fulfill the requirements for both the MBA and the Master of Engineering degrees.

Students plan their course schedules in consultation with the George R. Brown School of Engineering department in which they are enrolled and with the Jones Graduate School of Business Registrar Department. Coordinated degrees candidates can fulfill requirements for both degrees within 2 academic years.

For general university requirements, see Graduate Degrees (p. 49). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55). Candidates in the MBA/Master of Engineering coordinated degrees program must complete all requirements as listed for both degrees, and must apply and be accepted in both degree programs.

The courses listed below satisfy the requirements for this degree program. In certain instances, courses not on this official list may be substituted upon approval of the program's academic advisor, or where applicable, the department or program's Director of Graduate Studies. Course substitutions must be formally applied and entered into Degree Works by the department or program's Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/). Additionally, these must be approved by the Office of Graduate and Postdoctoral Studies. Students and their academic advisors should identify and clearly document the courses to be taken.

**Coordinated MMSNE Degree Requirements**

Students in the coordinated MBA/MMSNE degrees program must complete the Core Requirements, Technical Electives, Research Project, and Professional Development of the MMSNE degree program (p. 539) and Coordinated MMSNE Elective Requirements below.

**Coordinated MBA Degree Requirements**

Students in the coordinated MBA/Master of Engineering degrees program or in the coordinated MBA/Master of Science degree from the Professional Science Master's (PSM) degrees program must complete the Core Requirements, Global Field Experience, and Custom Core Requirements of the full-time MBA degree program (p. 214) and the Coordinated MBA Elective Requirements below.

**Footnotes and Additional Information**

1 To fulfill the remaining requirements for the coordinated MBA degree program, students must complete an additional 12-15 credit hours from departmental (MGMP, MGMT, or MICO) course offerings at the 500-level or above to reach 45 total credit hours. The second year of the program is dedicated entirely to MBA elective coursework. Although the Jones Graduate School of Business offers a variety of courses for students to take as electives, students may wish to take courses from other departments at Rice University. MBA electives are offered on the daytime schedule, the evening schedule, and the weekend schedule.

Master of Science (MS) Degree in the field of Materials Science and NanoEngineering

Program Learning Outcomes for the MS Degree in the field of Materials Science and NanoEngineering

Upon completing the MS degree in the field of Materials Science and NanoEngineering, students will be able to:

1. Demonstrate an advanced command of Materials Science and NanoEngineering field work.
2. Conduct independent research that demonstrates advanced mastery of a subfield within Materials Science or NanoEngineering.
3. Communicate scientific ideas effectively in writing and when speaking.

Requirements for the MS Degree in the field of Materials Science and NanoEngineering

The MS degree is a thesis master’s degree. For general university requirements, please see Thesi Master’s Degrees (p. 68). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55). Students pursuing the MS degree in the field of Materials Science and NanoEngineering must complete:

- A minimum of 30 credit hours of study, of which at least 18 credit hours must be completed through coursework.

Full-time students seeking the MS degree are expected to complete all the requirements for the degree within 2 calendar years into the program. Continuation in the program beyond this time limit will require special approval of the department.

The programs leading to the MS and PhD degrees are open to students who have demonstrated outstanding performance in their undergraduate studies. The granting of a graduate research degree presupposes academic work of superior quality and a demonstrated ability to do original research.

For general university requirements, see Graduate Degrees (p. 49). Course requirements for the research degrees vary depending on the extent of individual undergraduate preparation as well as each student’s performance in graduate courses and on qualifying examinations. For both the MS and PhD degrees, students must present a thesis that comprises an original contribution to knowledge and defend it in a public oral examination.

Students are expected to earn letter grades of at least B- (2.67 grade points) in all courses taken, and maintain a minimum overall GPA of 3.00 to graduate. If a student’s semester GPA is below 3.00, the student will be placed on departmental probation, and if the student’s semester GPA is below 3.00 for two consecutive semesters, his/her performance will be reviewed by the Graduate Committee in consultation with the Department Chair, and the student may be dismissed from the program.

Each graduate student is expected to render research and/or instructional assistance to the department not to exceed 10 hours per week. Graduate student work assignments will be made by the advisor at the beginning of each semester.

All PhD students must attend at least 75% of the MSNE seminars per semester, and MS students must attend at least 50% of the MSNE seminars per semester. For details, please see the degree requirements on the MSNE website (https://msne.rice.edu/).

Graduate students pursuing a thesis degree program will be subject to a preliminary evaluation of their candidacy for the highest degree program they intend to pursue. The evaluation will be conducted by the end of the second semester of enrollment in the graduate program in the MSNE department.

Each candidate for the MS degree must complete a thesis demonstrating ability in research of a fundamental nature (analytical or experimental). It is expected that the research will be of sufficient importance and quality that positive results would lead to publication. Upon completion of the thesis, each candidate for the MS degree must pass a final public oral examination. The examination will be conducted by a committee consisting of at least three members. Two, including the advisor, must be MSNE faculty members, and one must be a faculty member from another department.

Candidates for the MS degree are required to provide teaching assistance to the department as a teaching assistant or grader for at least 2 semesters, but no more than 3 semesters.

For details, please see the degree requirements on the MSNE website (https://msne.rice.edu/).

Footnotes and Additional Information

1 Students may complete courses that satisfy the Electives requirement from other departmental course offerings upon approval from their advisors or one member of the Departmental Graduate Committee.

2 Credit received for MSNE 500, MSNE 501, and MSNE 800 will not be counted toward coursework, but will count toward the total credit hours required for the degree.

3 Students must attend at least 6 of the 13 MSNE 500 seminars per semester for the duration of their study.

4 Students must attend at least 6 of the 13 MSNE 501 seminars per semester for the duration of their study.

5 Students must register for a minimum of 9 credit hours of MSNE 800 per semester. This course is taken for a Satisfactory/Unsatisfactory grade and must be completed with a Satisfactory grade. As a S/U course, it does not apply to the requirement of a minimum grade of B- (2.67 grade points) in each required course. For more information, see the Grades section of the MSNE Graduate Student Handbook on the Policies tab.

Mathematical Economic Analysis (MTEC) is a major offered by the Economics Department. The MTEC major provides a specialized 16-course program that includes most of the courses required for the regular (ECON) major, but also requires additional preparation in mathematics and statistics, several relatively technical economics electives, and a capstone course.

The MTEC major is recommended for students who intend to pursue graduate work in economics or plan to obtain a position in business or government that requires extensive analytical and quantitative skills.

Bachelor's Program

- Bachelor of Arts (BA) Degree with a Major in Mathematical Economic Analysis (p. 544)

Mathematical Economic Analysis does not currently offer an academic program at the graduate level.

Chair, Department of Economics

Bachelor of Arts (BA) Degree with a Major in Mathematical Economic Analysis

Program Learning Outcomes for the BA Degree with a Major in Mathematical Economic Analysis

Upon completing the BA degree with a major in Mathematical Economic Analysis, students will have:

1. Learned various mathematical skills, including the elements of multiple variable calculus, linear algebra, and optimization techniques, and other mathematical methods utilized in technical economic analyses.

2. Learned various statistical and econometric skills, including a thorough knowledge of both theoretical and applied econometrics.

3. Learned the core principles of microeconomics, including supply and demand, utility maximization by consumers and profit maximization by firms, and equilibrium market structures, as well as technical treatments of advanced topics in microeconomics, especially economic applications of game theory.

4. Learned the core principles of macroeconomics, including the macroeconomic effects of monetary and fiscal policy, the nature of the business cycle, and the determinants of growth, and learn alternative approaches to analyzing the performance of the macroeconomy.

5. Learned how the basic economic principles that have been absorbed in the core courses are utilized in the economic analyses of critical policy issues in a wide variety of applied subject areas.

Additionally, students completing the two-semester departmental honors program will have:

1. Learned how to conduct economic research, beginning with framing of a research idea and progressing to a critical review and evaluation of the relevant literature, the construction of an economic model to analyze the issue under consideration, the identification of testable hypotheses, the collection of data and econometric testing of their hypotheses, the presentation of preliminary and final results, and the preparation of a research paper that presents those results.
Requirements for the BA Degree with a Major in Mathematical Economic Analysis

For general university requirements, see Graduation Requirements (p. 26).

Students pursuing the BA degree with a major in Mathematical Economic Analysis must complete:

- A minimum of 16 or 17 courses (52 or 56 credit hours), depending on course selection, to satisfy major requirements.
- A minimum of 120 credit hours to satisfy degree requirements.
- A minimum of 60 credit hours outside of major requirements.
- A minimum of 8 courses (26 credit hours) taken at the 300-level or above.
- A maximum of 5 courses (15 credit hours) from study abroad or transfer credit after matriculation at Rice may be applied towards specific major requirements. For additional departmental guidelines regarding transfer credit, see the Policies tab.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor, or where applicable, the department’s Director of Undergraduate Studies. (Course substitutions must be formally applied and entered into Degree Works by the major’s Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/).) Students and their academic advisors should identify and clearly document the courses to be taken.

Total Credit Hours Required for the Major in Mathematical Economic Analysis 52-56

Additional Credit Hours to Complete BA Degree Requirements 4-8

University Graduation Requirements (p. 26) 60

Total Credit Hours 120

Footnotes and Additional Information

• Includes coursework completed as distribution credit, FWIS, LPAP, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The “hours outside of the major” requirement may include all of the above university requirements.

1. After matriculation: In some cases, transfer credit may be awarded by the economics department for courses completed at other schools after the student has matriculated at Rice. Students may present a maximum of 2 such transfer courses in fulfilling the mathematics and statistics core requirements, and a maximum of 3 such transfer courses in fulfilling the economics/econometrics core requirements and elective requirements combined. (Additional transfer courses may count toward meeting university graduation requirements, but not toward fulfillment of requirements for the major.)

2. Before matriculation: Credits awarded to transfer students for courses taken prior to matriculation at Rice are not counted against the departmental limit on transfer courses, but all students must complete more than half of their upper-level major coursework (300-level and 400-level courses) at Rice.

3. Students who have received credit for ECON 111 and ECON 113 and have made a grade of B- or better in MATH 102 (taken at Rice University) may substitute any Economics major elective for ECON 100. Students must notify the department’s Director of Undergraduate Studies if they wish to exercise this option.

As specified in their course descriptions, the following courses do not satisfy the Electives requirement for the major in Mathematical Economic Analysis: ECON 101, ECON 103, ECON 111, ECON 113, ECON 260, ECON 265, ECON 270, ECON 275, ECON 499. In addition, BUSI 343 may be substituted for ECON 343, and STAT 449 may be substituted for ECON 449.
Policies for the BA Degree with a Major in Mathematical Economic Analysis

Program Restrictions and Exclusions

Students pursuing the BA degree with a major in Mathematical Economics Analysis should be aware of the following program restriction:

- Students pursuing the major in Mathematical Economics Analysis may not additionally declare the major in Economics.

Transfer Credit

For Rice University's policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines

Students pursuing the major in Mathematical Economics Analysis should be aware of the following departmental transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program's official transfer credit advisor) on an individual case-by-case basis.

- No more than 5 courses (15 credit hours) of transfer credit from U.S. or international universities of similar standing as Rice may apply towards specific major requirements after matriculation at Rice as follows:
  - No more than 2 courses (6 credit hours) of transfer credit may apply towards the mathematics and statistics core requirements
  - No more than 3 courses (9 credit hours) of transfer credit may apply towards the economics/econometrics core requirements and the elective requirements combined

Please Note: Additional transfer courses may count toward meeting university graduation requirements, but not toward fulfillment of requirements for the major. Credits awarded to transfer students for courses taken prior to matriculation at Rice are not counted against the departmental limit on transfer courses, but all students must complete more than half of their upper-level major coursework (300-level and 400-level courses) at Rice.

alan.reid@rice.edu

Mathematics lies at the foundation of many disciplines in the sciences, engineering fields, and the social sciences, and this influence is growing as these subjects become increasingly quantitative. Recognizing this important role in the wide variety of directions available to our degree recipients, the program in mathematics provides undergraduates with a spectrum of choices. These range from nontheoretical treatments of calculus and courses in combinatorics, elementary number theory, and projective geometry to a broad variety of sophisticated mathematics, including real and complex analysis, differential geometry, abstract algebra, algebraic and geometric topology, algebraic geometry, dynamics, and partial differential equations.

Faculty research interests range from differential geometry, ergodic theory, group representations, partial differential equations, and probability to real analysis, mathematical physics, complex variables, algebraic geometry, number theory, combinatorics, geometric topology, algebraic topology, and dynamics.

Opportunities for the BA Degree with a Major in Mathematical Economic Analysis

Academic Honors

The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 48) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 48). Some departments have department-specific Honors awards or designations.

Requirements for Departmental Honors

1. To earn departmental honors in economics, students must earn a grade of B+ (3.33 grade points) or better in each semester of the department's two-semester honors program, ECON 498 and ECON 499.

2. The honors program is available to both ECON and MTEC majors.

3. To be admitted to the honors program, students:
   a. must have a GPA of 3.67 or better in all courses taken toward fulfilling their departmental major requirements at the beginning of the academic year in which they enter the honors program;
   b. must have completed all of the core requirements for their major;
   c. must have completed the 400-level course or courses most closely related to their area of research, and
   d. must be accepted to the honors program by the professor supervising the program.

4. For additional information, consult the Economics Department Honors Program at https://economics.rice.edu/undergraduate-program/honors-program (https://economics.rice.edu/undergraduate-program/honors-program/).

Bachelor of Arts (BA) Degree with a Major in Mathematics
Program Learning Outcomes for the BA Degree with a Major in Mathematics

Upon completing the BA degree with a major in Mathematics, students will be able to:

1. Achieve both practical and theoretical fluency in calculus and linear algebra.
2. Acquire a background at the undergraduate level in a wide variety of central areas of mathematics.
3. Be acquainted with formal mathematical reasoning, including proofs.

Requirements for the BA Degree with a Major in Mathematics

For general university requirements, see Graduation Requirements (p. 26). Students pursuing the BA degree with a major in Mathematics must complete:

- A minimum of 12 courses (36 credit hours) to satisfy major requirements.
- A minimum of 120 credit hours to satisfy degree requirements.
- A minimum of 60 credit hours outside of major requirements.
- A minimum of 8 courses (24 credit hours) taken at the 300-level or above.

Students who are pursuing 2 majors (i.e., are double majors) are eligible for a course substitution exception in the Elective Requirements. Double majors may substitute approved mathematics-related courses for up to 3 courses (9 credit hours) required at the 300-level or above. Double majors who later drop the other major are required to meet the requirements listed for single majors.

Students receive advanced placement (AP) credit by achieving a score of 4 or 5 on the AP AB-level test or by achieving a score of 4 or 5 on the BC-level test. The credit is articulated as MATH 105 or MATH 105 and MATH 106. Declared MATH majors who have had calculus but have not taken the AP test may petition the department for a waiver of the calculus requirements. Entering students should enroll in the most advanced course commensurate with their background; advice is available from the mathematics faculty during Orientation Week and at other times.

The chair of the MATH department's undergraduate committee may modify requirements to meet the needs of specific advanced students. If a course is repeatable for credit, the course may only be repeated once.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major's academic advisor, or where applicable, the department's Director of Undergraduate Studies. (Course substitutions must be formally applied and entered into Degree Works by the major's Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/).) Students and their academic advisors should identify and clearly document the courses to be taken.

Elective Requirements

Select 8 elective courses from departmental (MATH) course offerings at the 300-level or above.  
Total Credit Hours Required for the Major in Mathematics 36  
Additional Credit Hours to Complete BA Degree Requirements 24  
University Graduation Requirements (p. 26) 60  
Total Credit Hours 120

Footnotes and Additional Information

* Includes coursework completed as distribution credit, FWIS, LPAP, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The “hours outside of the major” requirement may include all of the above university requirements.

† The Elective Requirements for the double major are the same as the single major except that students may substitute approved mathematics-related courses for up to 3 courses (9 credit hours) of the 8 courses (24 credit hours) required at the 300-level or above. At most, students can take 1 course (3 credit hours) for any given course number to use toward the major. Additionally, at most 3 credit hours from courses numbered MATH 490 through MATH 499 (research and supervised reading courses) can count towards major requirements.

Policies for the BA Degree with a Major in Mathematics

Transfer Credit

For Rice University's policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their
academic program's transfer credit advisor when considering transfer credit possibilities.

**Departmental Transfer Credit Guidelines**
Students pursuing the major in Mathematics should be aware of the following departmental transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program's official transfer credit advisor) on an individual case-by-case basis.

**Additional Information**
For additional information, please see the Mathematics website: [https://math.rice.edu/](https://math.rice.edu/)

**Opportunities for the BA Degree with a Major in Mathematics**

**Academic Honors**
The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. **Bachelor of Science (BS) Degree with a Major in Mathematics**

**Program Learning Outcomes for the BS Degree with a Major in Mathematics**

Upon completing the BS degree with a major in Mathematics, students will be able to:

1. Achieve both practical and theoretical fluency in calculus and linear algebra.
2. Acquire a broad background at the undergraduate level in all the major areas of mathematics, including analysis, algebra, and geometry.
3. Learn to read and write proofs.

**Requirements for the BS Degree with a Major in Mathematics**

For general university requirements, see [Graduation Requirements](#) (p. 26). Students pursuing the BS degree with a major in Mathematics must complete:

- A minimum of 14-17 courses (42-51 credit hours), depending on course selection, to satisfy the major requirements.
- A minimum of 120 credit hours to satisfy degree requirements.
- A minimum of 60 credit hours outside of major requirements.
- A minimum of 11 courses (33 credit hours) taken at the 300-level or above.

Students receive advanced placement (AP) credit by achieving a score of 4 or 5 on the AP AB-level test or by achieving a score of 4 or 5 on the BC-level test. The credit is articulated as MATH 105 or MATH 105 and MATH 106. Declared MATH majors who have had calculus but have not taken the AP test may petition the department for a waiver of the calculus requirements. Entering students should enroll in the most advanced course commensurate with their background; advice is available from the mathematics faculty during Orientation Week and at other times.

The chair of the MATH department's undergraduate committee may modify requirements to meet the needs of specific advanced students. If a MATH course is repeatable for credit, the course may only be repeated once.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major's academic advisor, or where applicable, the department's Director of Undergraduate Studies. (Course substitutions must be formally applied and entered into Degree Works by the major's Official Certifier [https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/].) Doctor of Philosophy (PhD) Degree in the field of Mathematics

Program Learning Outcomes for the MA and PhD Degrees in the field of Mathematics

Upon completing the MA and PhD degrees in the field of Mathematics, students will be able to:

1. Apply abstract structures from algebra, analysis, and topology to analyze and solve both concrete problems and conceptual questions.
2. Learn fundamental mathematics independently, outside the structure of a regular course.
3. Present mathematical results and reasoning in a compelling way to an audience of mathematicians.
4. Use the mathematical literature and databases to find theorems, constructions, or counterexamples.
5. Write clear and convincing proofs of one's own original mathematical results.

Requirements for the MA and PhD Degrees in the field of Mathematics

Admission to graduate study in mathematics is granted to a limited number of students who have indicated an ability for advanced and original work. Normally, students take one or two years after the BA degree to obtain an MA degree, and they take four or five years to obtain a PhD. An MA is not a prerequisite for the PhD. For additional requirements,
regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55).

A number of graduate scholarships and fellowships are available, awarded on the basis of merit. As part of the graduate education in mathematics, students also engage in teaching or other instructional duties, generally for no more than six hours a week.

For courses carrying dual undergraduate and graduate numbers, (e.g., MATH 463/MATH 563), the 500-level version is intended to prepare students for advanced work in mathematics. In particular, written assignments should be prepared to high professional standards. Mathematics graduate students should enroll in the 500-level version.

MA Degree Program

The MA degree can be either a thesis or a non-thesis master’s degree depending on the option the student pursues. For general university requirements for thesis master’s degrees, please see Thesis Master’s Degrees (p. 68). For general university requirements for non-thesis master’s degrees, please see Non-Thesis Master’s Degrees (p. 68). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55).

Doctoral students may petition for these once they have satisfied all university and departmental requirements.

Student pursuing the MA degree in the field of Mathematics must complete:

- Complete with a grade of B (3.00 grade points) or better a course of study approved by the department. (Students may transfer credits from another university only with the approval of both the department and the University Graduate Council.)
- Perform satisfactorily on the general examinations in algebra, analysis, and topology or prepare and present an oral defense of an original thesis acceptable to the department.

Requirements for the PhD Degree in the field of Mathematics

PhD Degree Program

For general university requirements, please see Doctoral Degrees (p. 65). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55). Students pursuing the PhD degree in the field of Mathematics must:

- Complete with a grade of B (3.00 grade points) or better a course of study approved by the department (students may transfer credits from another university only with the approval of both the department and the University Graduate Council)
- Perform satisfactorily on qualifying examinations (see below)
- Perform satisfactorily on examinations in one approved foreign language (French, German, or Russian)
- Write an original thesis acceptable to the department
- Perform satisfactorily on a final oral examination on the thesis

Qualifying Examinations

The qualifying examinations in mathematics consist of the general examinations and the advanced oral examination.

To complete the general examinations, students must take exams, one each in algebra, analysis, and topology. Exams are offered every August, January, and May. First-year students may take any combination of exams at any time. After 2 semesters of study, students must attempt to pass all remaining exams at each offering. Students must perform satisfactorily on all 3 by the January exams at the beginning of their fourth semester. The judgment of satisfactory performance on the general examinations for either the MA or PhD degree is the responsibility of the department graduate committee. Students may take an exam several times.

To complete the advanced oral examination, students must select a special field (e.g., homotopy theory, several complex variables, or group theory) and submit it to the department graduate committee for approval. The committee schedules an advanced examination in the selected field, normally 6 to 12 months after the student completes the general examinations. While students failing the advanced examination may, with the approval of the committee, retake it on the same or possibly on a different topic, they generally are not allowed to take the advanced examination more than twice.

Policies for the PhD Degree in the field of Mathematics

Department of Mathematics Graduate Program Handbook

The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, the department of Mathematics publishes a graduate program handbook, which can be found here: http://gradhandbooks.rice.edu/2017_18/Mathematics_Graduate_Handbook.pdf

Additional Information

For additional information, please see the Mathematics website: https://math.rice.edu/

Opportunities for the PhD Degree in the field of Mathematics

Minor in Mathematics
Program Learning Outcomes for the Minor in Mathematics

Upon completing the minor in Mathematics, students will have:

1. Achieved practical fluency in calculus and linear algebra.
2. Acquired a background at the undergraduate level in a small variety of central areas of mathematics.
3. Become acquainted with formal mathematical reasoning, including proofs.

Requirements for the Minor in Mathematics

Students pursuing the minor in Mathematics must complete:

- A minimum of 6 courses (18 credit hours) to satisfy minor requirements.
- A minimum of 4 courses (12 credit hours) taken at the 300-level or above.

The courses listed below satisfy the requirements for this minor. In certain instances, courses not on this official list may be substituted upon approval of the minor’s academic advisor, or where applicable, the Program Director. (Course substitutions must be formally applied and entered into Degree Works by the minor’s Official Certifier [https://registrar.rice.edu/facstaff/degeworks/officialcertifier/]). Students and their academic advisors should identify and clearly document the courses to be taken.

Footnotes and Additional Information

1 The required 6 courses (18 credit hours) for the minor must be selected from departmental (MATH) course offerings at the 200-level or above. At most 1 course (3 credit hours) from any particular course or course number may be applied to the minor.

2 Certain approved courses taken outside the mathematics department may be used to satisfy one area of the Core Requirements (Analysis, Discrete Mathematics and Algebra, or Linear Algebra), but will not count towards the required 6 courses (18 credit hours). An approved upper-level departmental (MATH) course (other than courses numbered MATH 490 through MATH 499) may be used to satisfy an area of the Core Requirements. Students seeking to substitute approved courses should consult in advance with the chair of the undergraduate committee.

3 A minimum of 4 courses (12 credit hours) must be taken from departmental (MATH) course offerings at the 300-level or above in order to meet minor requirements.

4 At most 3 credit hours from courses numbered MATH 490 through MATH 499 (research and supervised reading courses) can count towards Elective Requirements.

Policies for the Minor in Mathematics

Program Restrictions and Exclusions

Students pursuing the minor in Mathematics should be aware of the following program restriction:

- As noted in Majors, Minors, and Certificates (p. 11), i.) students may declare their intent to pursue a minor only after they have first declared a major, and ii.) students may not major and minor in the same subject.

Transfer Credit

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: [https://oaa.rice.edu](https://oaa.rice.edu). Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines

Students pursuing the minor in Mathematics should be aware of the following departmental transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

Additional Information

For additional information, please see the Mathematics website: [https://math.rice.edu/](https://math.rice.edu/)
Opportunities for the Minor in Mathematics

Academic Honors
The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 48) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 48). Some departments have department-specific Honors awards or designations.

Laura Schaefer
Department Chair
laura.schaefer@rice.edu

Undergraduate studies in mechanical engineering can lead to careers that focus on a diverse set of areas, including aerospace engineering, biomedical systems, computational fluid dynamics, computational mechanics, fluids-thermal science, mechanical design, mechanics, robotics, systems dynamics and controls.

The graduate program offers professional degrees in mechanical engineering, which permits specialization in the areas previously mentioned. Graduate students also may pursue research degrees. The graduate program, in its comprehensive educational and research activities, collaborates with other departments at Rice and other institutions in Houston, including those in the Texas Medical Center. Collaborations also are extended to universities in the United States, Europe, Japan, and South America. International collaborations include joint research activities and faculty and student visitor exchanges.

A coordinated MBA/MME degrees program is also offered in conjunction with the Jesse H. Jones Graduate School of Business.

Bachelor's Programs
- Bachelor of Arts (BA) Degree with a Major in Mechanical Engineering (p. 554)
- Bachelor of Science in Mechanical Engineering (BSME) Degree (p. 556)

Master's Programs
- Master of Mechanical Engineering (MME) Degree (p. 560)
- Master of Science (MS) Degree in the field of Mechanical Engineering (p. 563)

Doctoral Program
- Doctor of Philosophy (PhD) Degree in the field of Mechanical Engineering (p. 559)

Coordinated Programs
- Master of Mechanical Engineering (MME) Degree / Master of Business Administration (MBA) Degree (p. 561)

Description and Code Legend
Note: Internally, the university uses the following descriptions, codes, and abbreviations for this academic program. The following is a quick reference:

Course Catalog/Schedule
• Course offerings/subject code: MECH

Department Description and Code
• Mechanical Engineering: MECH

Undergraduate Degree Descriptions and Codes
• Bachelor of Arts degree: BA
• Bachelor of Science degree: BSME

Undergraduate Major Description and Code
• Major in Mechanical Engineering (attached to both the BA and BSME Degrees): MECH

Undergraduate Major Areas of Specialization Descriptions and Attribute Codes*
• Area of Specialization in Computational Engineering (BSME degree only): MECE
• Area of Specialization in Mechanics/Dynamics (BSME degree only): MEMD
• Area of Specialization in Thermal Fluids (BSME degree only): METF
• Area of Specialization in Breadth in Mechanical Engineering (BSME degree only): MEBR

Please Note: Areas of Specialization are department/program-specific and are not formally recognized academic credentials. Unlike Major Concentrations, Areas of Specialization do not appear on the student’s official academic transcript, etc.

Graduate Degree Descriptions and Codes
• Master of Mechanical Engineering degree: MME
• Master of Science degree: MS
• Doctor of Philosophy degree: PhD

Graduate Degree Program Description and Code
• Degree Program in Mechanical Engineering: MECH

CIP Code and Description
• MECH Major/Program: CIP Code/Title: 14.1901 - Mechanical Engineering

Program Learning Outcomes for the BA Degree with a Major in Mechanical Engineering
Upon completing the BA degree with a major in Mechanical Engineering, students will demonstrate:

1. An ability to apply principles of engineering science design, and mathematics
2. An ability to communicate effectively with a range of audiences
3. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
4. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
5. An ability to use engineering judgment to draw conclusions
6. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Requirements for the BA Degree with a Major in Mechanical Engineering
For general university requirements, see Graduation Requirements (p. 26). Students pursuing the BA degree with a major in Mechanical Engineering must complete:

• A minimum of 23 courses (64 credit hours) to satisfy major requirements.
• A minimum of 124 credit hours to satisfy degree requirements.
• A minimum of 60 credit hours outside of major requirements.
• A minimum of 9 courses (28 credit hours) taken at the 300-level or above.

The BA degree with a major in Mechanical Engineering is highly flexible, involves less technical content than the BSME degree, and allows students greater freedom to pursue areas of interest outside of engineering. The BA degree with a major in Mechanical Engineering is not accredited by the Engineering Accreditation Commission of ABET.

Lists of courses, including general university requirements and the usual order in which students take them, are available from the department. The BA degree with a major in Mechanical Engineering mirrors the BSME degree in the freshman and sophomore years, with the exception that the laboratory courses are not required. Specific major requirements are completed in the junior and senior years.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor, or where applicable, the department’s Director of Undergraduate Studies. (Course substitutions must be formally applied and entered into Degree Works by the major’s Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/).) Students and their academic advisors should identify and clearly document the courses to be taken.

Total Credit Hours Required for the Major in Mechanical Engineering: 64

University Graduation Requirements (p. 26) *

| Total Credit Hours | 124 |

Footnotes and Additional Information

* Includes coursework completed as distribution credit, FWIS, LPAP, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The "hours outside of the major" requirement may include all of the above university requirements.

1 Note that the courses required to complete the major must be taken after the 10 required Basic Math and Science (Prerequisite) courses (24 credit hours).

Policies for the BA Degree with a Major in Mechanical Engineering

Transfer Credit

For Rice University's policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines

Students pursuing the major in Mechanical Engineering should be aware of the following departmental transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program's official transfer credit advisor) on an individual case-by-case basis.

Additional Information

For additional information, please see the Mechanical Engineering website: https://mech.rice.edu/

Opportunities for the BA Degree with a Major in Mechanical Engineering

Academic Honors

The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 48) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 48). Some departments have department-specific Honors awards or designations.

Fifth-Year Master's Degree Option for Rice Undergraduate Students

Rice students have an option to pursue the Master of Mechanical Engineering (MME) degree by adding an additional fifth year to their four undergraduate years of science and engineering studies.

Advanced Rice undergraduate students in good academic standing may apply to the MME degree program during their junior or senior year. Upon acceptance, depending on course load, financial aid status, and other variables, they may then start taking some required courses of the master's degree program. A plan of study will need to be approved by the student's undergraduate advisor and the MME program director.
As part of this option and opportunity, Rice undergraduate students:

- must complete the requirements for a bachelor’s degree and the master’s degree independently of each other (i.e., no course may be counted toward the fulfillment of both degrees).
- should be aware that if there is financial aid implications if the conversion of undergraduate coursework to that of graduate level reduces their earned undergraduate credit for any semester below that of full-time status (12 credit hours).
- more information on this Undergraduate - Graduate Concurrent Enrollment opportunity, including specific information on the registration process can be found here (p. 17).

Additional Information
For additional information, please see the Mechanical Engineering website: https://mech.rice.edu/

Bachelor of Science in Mechanical Engineering (BSME) Degree

The program leading to the BSME degree is accredited by the Engineering Accreditation Commission (EAC) of ABET, https://www.abet.org (https://www.abet.org/).

Program Learning Outcomes (Student Outcomes) for the BSME Degree

Upon completing the BSME degree, students will be able to demonstrate:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. An ability to communicate effectively with a range of audiences.
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Program Educational Objectives for the BSME Degree

Within 3 to 5 years of graduation, Bachelor of Science in Mechanical Engineering (BSME) degree alumni from Rice will be exceptional engineers who are:

1. Successful and on track to become leaders in the global workforce; and/or
2. Students in top-rated post-graduate programs.

Requirements for the BSME Degree

For general university requirements, see Graduation Requirements (p. 26). Students pursuing the BSME degree must complete:

- A minimum of 33 courses (87 credit hours) to satisfy major requirements.
- A minimum of 127 credit hours to satisfy degree requirements.
- A minimum of 21 courses (50 credit hours) taken at the 300-level or above.
- The requirements for one area of specialization (see below for areas of specialization). When students declare the major (p. 11) in Mechanical Engineering (associated with the BSME degree), students must additionally identify and declare one of four areas of specialization, either in:
  - Computational Engineering (p. ___): covers the tools need to simulate and study a range of systems, both fluidic and solid, and to make predictions about behavior and performance of those systems; or
  - Mechanics/Dynamics (p. 558): provides a background in the fundamentals of solids interactions and control systems, and is highly relevant in areas such as robotics, solid mechanics, and tissue mechanics; or
  - Thermal Fluids (p. ___): integrates topics from thermodynamics, fluids, and heat transfer to study renewable and conventional energy systems, aerospace/aeronautics, and surface interactions; or
  - Breadth in Mechanical Engineering (p. ___): encompasses concepts from across the areas of specialization to prepare students for working in cross-cutting fields.

Because of the common core requirements, it is possible for students to change their area of specialization at any time, even after initially declaring the major. To do so, please contact the Office of the Registrar (registrar@rice.edu).

The BSME degree prepares students for the professional practice of engineering. The degree program’s goals and objectives are available on the departmental website. Lists of representative undergraduate courses and the usual order in which they are taken are available from the department.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor, or where applicable, the department’s Director of Undergraduate Studies. (Course substitutions must be formally applied and entered into Degree Works by the major’s Official Certifier (https://registrar.rice.edu/facstaff/dregeworks/officialcertifier/).) Students and their academic advisors should identify and clearly document the courses to be taken.

### Select 1 course from the following departmental course offerings at the 300-level or above: CAAM, DSCI, MATH, STAT.

### Technical Electives

Select 1 from the following Areas of Specialization (see Areas of Specialization below):

- Computational Engineering
- Mechanics/Dynamics
- Thermal Fluids
- Breadth in Mechanical Engineering

### Total Credit Hours Required for the Major in Mechanical Engineering

87

### University Graduation Requirements (p. 26)

40

### Total Credit Hours

127

### Footnotes and Additional Information

* Includes coursework completed as distribution credit, FWIS, LPAP, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The "hours outside of the major" requirement may include all of the above university requirements.

1 During their senior year, mechanical engineering students in the BSME program complete these courses in design application while completing a major design project.

2 Students must complete a total of 3 technical electives (9 credit hours) in one area of specialization: Computational Engineering, Mechanics/Dynamics, Thermal Fluids, or Breadth in Mechanical Engineering.

### Areas of Specialization

Students must complete the requirements as listed for one of the following areas of specialization for the BSME degree program. A minimum of 3 courses (minimum of 9 credit hours) must be taken in the area of specialization.

#### Area of Specialization: Computational Engineering

To fulfill the BSME degree requirements, students pursuing the Computational Engineering area of specialization must complete:

- 1 course (3 credit hours) from the area of specialization Core Requirement
- 2 courses (6 credit hours) from the area of specialization Elective Requirements

2019-2020 General Announcements
# Bachelor of Science in Mechanical Engineering (BSME) Degree

## MECH 679
**APPLIED MONTE CARLO ANALYSIS**

**Total Credit Hours** 9

### Footnotes and Additional Information
1. MECH 417 or MECH 454 may fulfill the area of specialization Elective Requirements if they are not selected as the area of specialization Core Requirement.

## Area of Specialization: Mechanics/Dynamics

To fulfill the BSME degree requirements, students pursuing the Mechanics/Dynamics area of specialization must complete:

- 1 course (3 credit hours) from the area of specialization Core Requirement
- 2 courses (6 credit hours) from the area of specialization Elective Requirements

### Elective Requirements

Select 2 from the following: 6

- MECH 400  ADVANCED MECHANICS OF MATERIALS
- MECH 411  DYNAMICS AND CONTROL OF MECHANICAL SYSTEMS
- MECH 427  COMPUTATIONAL STRUCTURAL MECHANICS AND FEM
- MECH 435  INTRODUCTION TO ENERGY-EFFICIENT MECHATRONICS
- MECH 450  ALGORITHMIC ROBOTICS
- MECH 488  DESIGN OF MECHATRONIC SYSTEMS
- MECH 497  NEUROMUSCULOSKELETAL MODELING AND SIMULATION
- MECH 498  INTRODUCTION TO ROBOTICS
- MECH 596  INTRODUCTION TO FLIGHT MECHANICS

**Total Credit Hours** 9

### Area of Specialization: Thermal Fluids

To fulfill the BSME degree requirements, students pursuing the Thermal Fluids area of specialization must complete:

- 1 course (3 credit hours) from the area of specialization Core Requirement
- 2 courses (6 credit hours) from the area of specialization Elective Requirements

### Policies for the BSME Degree

#### Transfer Credit
For Rice University's policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of transfer credit advisors on their website: [https://oaa.rice.edu](https://oaa.rice.edu). Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

#### Departmental Transfer Credit Guidelines
Students pursuing the BSME degree should be aware of the following departmental transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program's official transfer credit advisor) on an individual case-by-case basis.

#### Additional Information
For additional information, please see the Mechanical Engineering website: [https://mech.rice.edu/](https://mech.rice.edu/)

2019-2020 General Announcements
PDF Generated 11/12/2019
Opportunities for the BSME Degree

Academic Honors

The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 48) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 48). Some departments have department-specific Honors awards or designations.

Fifth-Year Master's Degree Option for Rice Undergraduate Students

Rice students have an option to pursue the Master of Mechanical Engineering (MME) degree by adding an additional fifth year to their four undergraduate years of science and engineering studies.

Advanced Rice undergraduate students in good academic standing may apply to the MME degree program during their junior or senior year. Upon acceptance, depending on course load, financial aid status, and other variables, they may then start taking some required courses of the master's degree program. A plan of study will need to be approved by the student’s undergraduate advisor and the MME program director.

As part of this option and opportunity, Rice undergraduate students:

• must complete the requirements for a bachelor's degree and the master's degree independently of each other (i.e. no course may be counted toward the fulfillment of both degrees).
• should be aware there could be financial aid implications if the conversion of undergraduate coursework to that of graduate level reduces their earned undergraduate credit for any semester below that of full-time status (12 credit hours).
• more information on this Undergraduate - Graduate Concurrent Enrollment opportunity, including specific information on the registration process can be found here (p. 17).

Additional Information

For additional information, please see the Mechanical Engineering website: https://mech.rice.edu/

Doctor of Philosophy (PhD) Degree in the field of Mechanical Engineering

Program Learning Outcomes for the PhD Degree in the field of Mechanical Engineering

Upon completing the PhD Degree in the field of Mechanical Engineering, students will be able to:

1. Demonstrate command of advanced topics in mechanical engineering.
2. Apply technical skills and conduct research that demonstrates advanced mastery of a subfield within mechanical engineering.
3. Communicate scientific ideas effectively in writing and when speaking.

Requirements for the PhD Degree in the field of Mechanical Engineering

For general university requirements, please see Doctoral Degrees (p. 65). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55). Students seeking the PhD degree are expected to complete all the requirements for the degree within five calendar years following entrance into the program. Continuation in the program beyond this time limit will require special approval of the department.

All entering graduate students pursuing a PhD degree will be subject to a Qualifying Exam. The Qualifying Exam will be conducted by the end of the third semester of enrollment in the graduate program in the Mechanical Engineering department.

By the end of the ninth semester of enrollment in the graduate program in the Mechanical Engineering department, the student must pass a Candidacy evaluation.

Each candidate for the PhD degree must complete a thesis that constitutes an original contribution to scientific knowledge (analytical, numerical or experimental). It is expected that the research will be of sufficient importance and quality that positive results would lead to publications. On completion of the thesis, each candidate for the PhD degree must pass a final public oral examination. The examination will be conducted by a committee consisting of at least four members. Three, including the committee chair, must be members of the department. One member must be from another department within the university.

The minimum semester hours of coursework (a one-semester course is usually three semester hours credit) required are tabulated below as a function of the degree held on entrance into the program. In all cases, a student’s course of study is formulated in consultation with the thesis director and must be approved by the department.

Course requirements for the research degrees vary depending on the extent of individual undergraduate preparation as well as each student’s performance in graduate courses and on qualifying examinations. For both the MS and PhD degrees, students must present a thesis that comprises an original contribution to knowledge and defend it in a public oral examination.

As part of their degree requirements, graduate students are expected to provide instructional assistance to the department not to exceed 10 hours per week. The department chair will assign graduate student work at the beginning of each semester.

All graduate students (except students in the MME degree program (p. 560)) must attend at least 75 percent of the Mechanical Engineering seminars. For details, please see the degree requirements on the Mechanical Engineering website (http://mech.rice.edu/).

Summary

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Total Credit Hours Required for the PhD Degree in the field of Mechanical Engineering</td>
<td>90</td>
</tr>
</tbody>
</table>
Footnotes and Additional Information

A minimum of 30 credit hours at the 500-level or above is required to earn the PhD degree. Depending on the student’s previously earned degree at the time of entrance into the PhD program, additional credit hours of research coursework may be permitted in lieu of a portion of the coursework as approved by the department to reach 90 total credit hours as follows:

Students entering with an MS degree:
- 18 credit hours of coursework
- 72 credit hours of research coursework

Students entering with a BS degree:
- 36 credit hours of coursework
- 54 credit hours of research coursework

Students entering with a 5-year BS degree:
- 30 credit hours of coursework
- 60 credit hours of research coursework

Students entering with a BA degree (or other bachelor’s degree):
- 42 credit hours of coursework
- 48 credit hours of research coursework

Requirements for the MME Degree

The MME degree is a non-thesis master’s degree. For general university requirements, please see Non-Thesis Master’s Degrees (p. 68). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55). Students pursuing the MME degree must complete:

- A minimum of 10 courses (30 credit hours) to satisfy degree requirements.
- A minimum of 30 credit hours of graduate-level study (coursework at the 500-level or above).
- A minimum of 24 credit hours must be taken at Rice University.
- A minimum residency enrollment of one fall or spring semester of part-time graduate study at Rice University.
- A minimum of 18 credit hours from departmental (MECH) course offerings.
- A minimum overall GPA of 2.67 or higher in all Rice coursework.
- A minimum GPA of 3.00 or higher in all Rice coursework that satisfies requirements for the non-thesis master’s degree.

The professional master’s degree in Mechanical Engineering (MME) is a non-thesis degree program intended for students who have completed a 4-year bachelor’s program in engineering and wish to join the workforce as practicing professionals, rather than pursuing a research oriented or academic career. It offers preparation in advanced engineering topics in order to enhance an engineer’s technical qualifications and increases competitiveness in the job market.

The MME program is open to students who have shown academic excellence in their undergraduate studies. Students who have a BS or BA degree in any field of engineering or related study may apply, although some may need to fulfill prerequisites or take remedial courses to earn the MME degree. Students may enroll on a full or part-time basis.

Lists of required and suggested courses are available from the department. Students should develop a specific plan of study based on their particular interests and discussions with their advisor.

The courses listed below satisfy the requirements for this degree program. In certain instances, courses not on this official list may be substituted upon approval of the program’s academic advisor, or where applicable, the department or program’s Director of Graduate Studies. Course substitutions must be formally applied and entered into Degree Works by the department or program’s Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/). Additionally, these must be approved by the Office of Graduate and Postdoctoral Studies. Students and their academic advisors should identify and clearly document the courses to be taken.

COMP 598 / ELEC 598

MECH 594  INTRODUCTION TO AERONAUTICS
MECH 597  NEUROMUSCULOSKELETAL MODELING AND SIMULATION

Elective Requirements
Select 4 courses from approved departmental (MECH) course offerings at the 500-level or above. 1

Total Credit Hours 30

Footnotes and Additional Information
1 With approval by the advisor and the department, some of which could be from outside the department. None of the remaining required 12 credit hours can be from Independent-Study (MECH 611 or MECH 612) courses. A minimum of 30 credit hours at the 500-level or above is required to earn the MME degree. Regardless of the student’s previously earned undergraduate degree at the time of entrance into the graduate program, no credit hours of research coursework may be permitted in lieu of the required coursework outlined above.

Students entering with a BS degree:
• 30 credit hours of coursework

Students entering with a BA degree (or other bachelor’s degree):
• 30 credit hours of coursework

Policies for the MME Degree
Department of Mechanical Engineering Graduate Program Handbook
The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, the department of Mechanical Engineering publishes a graduate program handbook, which can be found here: https://gradhandbooks.rice.edu/2019_20/Mechanical_Engineering_Graduate_Handbook.pdf

Transfer Credit
For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 64). Some departments and programs have additional restrictions on transfer credit. Students are encouraged to meet with their academic program’s advisor when considering transfer credit possibilities.

Additional Information
For additional information, please see the Mechanical Engineering website: https://mech.rice.edu/

Opportunities for the MME Degree
Fifth-Year Master's Degree Option for Rice Undergraduate Students

Master of Mechanical Engineering (MME) Degree / Master of Business Administration (MBA) Degree

Program Learning Outcomes for the MME Degree
Upon completing the MME degree, students will be able to:
1. Demonstrate an advanced command of Mechanical Engineering fieldwork.
2. Communicate scientific ideas effectively in writing and when speaking.

Program Learning Outcomes for the MBA Degree
Upon completing the MBA degree, students will be able to:
1. Demonstrate an understanding and application of the foundational frameworks and tools of all business disciplines, including
accounting, finance, marketing, organizational behavior, and strategic management.

2. Develop, evaluate, and implement complex business strategies and operational solutions holistically, integrating management principles across the functional areas.

3. Function effectively in a team setting both as a leader and a contributor.

**Requirements for the MME/MBA Coordinated Degrees Program**

Students may earn a coordinated MBA degree and a non-thesis Master of Engineering degree from the George R. Brown School of Engineering in the following fields:

- Chemical Engineering (MChE)
- Computational and Applied Mathematics (MCAAM)
- Computer Science (MCS)
- Industrial Engineering (MIE)
- Materials Science and Nanoengineering (MMSNE)
- Mechanical Engineering (MME)
- Statistics (MStat)

For the coordinated MBA/Master of Engineering degrees, students must complete:

- A minimum of 69 credit hours in approved coursework*, including:
  - A minimum of 30 credit hours of graduate-level study (coursework at the 500-level or above) to satisfy the Master of Engineering degree requirements
  - A minimum of 24 credit hours in the corresponding engineering discipline
  - A minimum of 6 credit hours in elective requirements*
- A minimum of 45 credit hours of graduate-level study (coursework at the 500-level or above) to satisfy the MBA degree requirements
- A minimum of 45 credit hours of business coursework
- All MBA core requirements, the global field experience, custom core requirements, and coordinated elective requirements

*Note: A minimum of 6 credit hours of the Master of Engineering degree elective requirements may be selected from business course offerings (MGMP, MGMT, or MICO) and used to fulfill the requirements for both the MBA and the Master of Engineering degrees.

Students plan their course schedules in consultation with the George R. Brown School of Engineering department in which they are enrolled and with the Jones Graduate School of Business Registrar Department. Coordinated degrees candidates can fulfill requirements for both degrees within 2 academic years.

For general university requirements, see Graduate Degrees (p. 49). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55). Candidates in the MBA/Master of Engineering coordinated degrees program must complete all requirements as listed for both degrees, and must apply and be accepted in both degree programs.

The courses listed below satisfy the requirements for this degree program. In certain instances, courses not on this official list may be substituted upon approval of the program’s academic advisor, or where applicable, the department or program's Director of Graduate Studies. Course substitutions must be formally applied and entered into the Degree Works system by the department or program's Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/). Additionally, these must be approved by the Office of Graduate and Postdoctoral Studies. Students and their academic advisors should identify and clearly document the courses to be taken.

Select an additional 12-15 credit hours from departmental (MGMP, MGMT, or MICO) course offerings at the 500-level or above to reach 45 total credit hours.

Total Credit Hours 45
Footnotes and Additional Information

1. To fulfill the remaining requirements for the coordinated MBA degree program, students must complete an additional 12-15 credit hours from departmental (MGMP, MGMT, or MICO) course offerings at the 500-level or above to reach 45 total credit hours. (MGMT 703, MGMT 704, and MGMT 705 are not accepted as electives.) The second year of the program is dedicated entirely to MBA elective coursework. Although the Jones Graduate School of Business offers a variety of courses for students to take as electives, students may wish to take courses from other departments at Rice University. MBA electives are offered on the daytime schedule, the evening schedule, and the weekend schedule.

Policies for the MME/MBA Coordinated Degrees Program

Additional Information
For additional information on these two degrees:

1. Please see the Mechanical Engineering website: https://mech.rice.edu/
2. Please see the Jones Graduate School of Business website: https://business.rice.edu/

Opportunities for the MME/MBA Coordinated Degrees Program

Additional Information
For additional information on these two degrees:

1. Please see the Mechanical Engineering website: https://mech.rice.edu/
2. Please see the Jones Graduate School of Business website: https://business.rice.edu/

Master of Science (MS) Degree in the field of Mechanical Engineering

Program Learning Outcomes for the MS Degree in the field of Mechanical Engineering

Upon completing the MS Degree in the field of Mechanical Engineering, students will be able to:

1. Apply the technical skills required by industrial and governmental organizations to solve mechanical engineering problems at an advanced level.
2. Conduct research that demonstrates advanced mastery of a subfield within mechanical engineering.
3. Communicate scientific ideas effectively in writing and when speaking.

Requirements for the MS Degree in the field of Mechanical Engineering

The MS degree is a thesis master’s degree. For general university requirements, please see Thesis Master's Degrees (p. 68). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55). Students seeking the MS degree are expected to complete all the requirements for the degree within two calendar years following entrance into the program. Continuation in the program beyond this time limit will require special approval of the department.

All entering graduate students pursuing a thesis degree program will be subject to a preliminary candidacy evaluation for the highest degree program they intend to pursue. The evaluation will be conducted by the end of the second semester of enrollment in the graduate program in the Mechanical Engineering department.

Each candidate for the MS degree must complete a thesis demonstrating ability in research of a fundamental nature (analytical, numerical, or experimental). It is expected that the research will be of sufficient importance and quality that positive results would lead to publications. A committee consisting of at least three members will conduct the examination. Two, including the committee chair, must be members of the department.

The minimum semester hours of coursework (a one-semester course is usually three semester hours credit) required for the MS degree is tabulated below as a function of the degree held on entrance into the program. Research and thesis hours, as well as seminar hours, do not count towards these course requirements but do count toward the minimum requirement that a student complete 30 credit hours at the 500 level or above. In all cases, a student's specific course of study is formulated in consultation with the departmental advisor (thesis director) and must be approved by the department.

Course requirements for the research degrees vary depending on the extent of individual undergraduate preparation as well as each student’s performance in graduate courses and on qualifying examinations. For both the MS and PhD degrees, students must present a thesis that comprises an original contribution to knowledge and defend it in a public oral examination.

As part of their degree requirements, graduate students are expected to provide instructional assistance to the department not to exceed 10 hours per week. The department chair will assign graduate student work at the beginning of each semester.

All graduate students (except students in the MME degree program (p. 560)) must attend at least 75 percent of the Mechanical Engineering seminars. For additional information and details, please see the degree requirements on the Mechanical Engineering website (http://mech.rice.edu/).

Footnotes and Additional Information

¹ A minimum of 30 credit hours at the 500-level or above is required to earn the MS degree. Depending on the student’s previously earned undergraduate degree at the time of entrance into the graduate program, additional credit hours of research coursework may be permitted in lieu of a portion of the coursework as approved by the department to reach 30 total credit hours as follows:

Students entering with a BS degree:
- 18 credit hours of coursework
- 12 credit hours of research coursework

Students entering with a 5-year BS degree:
- 12 credit hours of coursework
- 18 credit hours of research coursework

Students entering with a BA degree (or other bachelor’s degree):
- 24 credit hours of coursework
- 6 credit hours of research coursework

Medical Humanities is an interdisciplinary field that examines medicine through humanistic disciplines such as history, ethics, religion, literature, cultural anthropology, media studies, and the visual and dramatic arts. Students in the minor will learn about medical systems and practices using methodologies such as close reading, cultural comparison, historical contextualization, creative expression, and critical thinking. The field is committed to interpretive and qualitative work that explores the human dimensions of experiences of health and illness, for doctors and for patients.

Minor

- Minor in Medical Humanities (p. 565)

Medical Humanities does not currently offer an academic program at the graduate level.

Description and Code Legend

Note: Internally, the university uses the following descriptions, codes, and abbreviations for this academic program. The following is a quick reference:

Course Catalog/Schedule
- Course offerings/subject codes: MDHM

Program Description and Code
- Medical Humanities: MDHM

Undergraduate Minor Description and Code
- Minor in Medical Humanities: MDHM

CIP Code and Description
- MDHM Minor: CIP Code/Title: 30.2701 - Human Biology

Minor in Medical Humanities

Program Learning Outcomes for the Minor in Medical Humanities

Upon completing the minor in Medical Humanities, students will be able to:

1. Describe the historical, literary, artistic, and ethical domains of medical humanities scholarship.
2. Analyze and evaluate complex texts relating to the social and cultural aspects of medicine through close reading and critical interpretation of arguments, metaphors, and images.
3. Explain how health disparities and disability shape the healthcare experience for patients.
4. Conduct independent research and communicate their own arguments about medical humanities in research papers, class presentations, and discussions.

Requirements for the Minor in Medical Humanities

Students pursuing the minor in Medical Humanities must complete:

- A minimum of 6-7 courses (18-21 credit hours), depending on course selection, to satisfy minor requirements.
- A minimum of 3 courses (9 credit hours) taken at the 300-level or above.
- A maximum of 2 courses (6 credit hours) from study abroad or transfer credit. For additional program guidelines regarding transfer credit, see the Policies tab.

The courses used in the Medical Humanities program examine the social, cultural, ethical, and aesthetic dimensions of medicine in contemporary and historical contexts, and are open to all undergraduate students at Rice from all backgrounds.

The courses listed below satisfy the requirements for this minor. In certain instances, courses not on this official list may be substituted upon approval of the minor's academic advisor, or where applicable, the Program Director. (Course substitutions must be formally applied and entered into Degree Works by the minor's Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/). Students and their academic advisors should identify and clearly document the courses to be taken.

Total Credit Hours: 18-21

### Footnotes and Additional Information

1. Students must complete the core course before they complete the practicum. The core course and the practicum may not be taken concurrently.

2. Students may take ENGL 386/FILM 381 as either an elective or the practicum, but it will not count toward both requirements.

### Elective Requirements

To fulfill the elective requirements for the Medical Humanities minor, students must complete a total of 4 courses (12 credit hours) from the following Rice departmental course offerings. Students must fulfill the elective requirements by completing coursework from at least 2 different subject codes (i.e., ANTH, ENGL, etc.), and must take a minimum of 2 courses (6 credit hours) at the 300-level or above.

---

**Footnotes and Additional Information**

¹ ANTH 477 is a special topics course, and not all sections are eligible to be applied towards the minor requirements as an Elective course. Please see a minor advisor for more information.

² Students may take ENGL 386/FILM 381 as either an elective or the practicum, but it will not count toward both requirements.

---

**Policies for the Minor in Medical Humanities**

**Program Restrictions and Exclusions**

Students pursuing the minor in Medical Humanities should be aware of the following program restriction:

- As noted in Majors, Minors, and Certificates (p. 11), i.) students may declare their intent to pursue a minor only after they have first declared a major, and ii.) students may not major and minor in the same subject.

**Transfer Credit**

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: [https://oaa.rice.edu](https://oaa.rice.edu). Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

**Program Transfer Credit Guidelines**

Students pursuing the minor in Medical Humanities should be aware of the following program-specific transfer credit guidelines:

- No more than 2 courses (6 credit hours) of transfer credit from U.S. or international universities of similar standing may apply towards the minor.
- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.
- Transfer credit coursework received via the articulation of AP, IB or A-level credit will not be considered towards minor requirements.
- Transfer credit from online-only courses cannot be used to count towards the minor.

**Distribution Credit Information**

The determination of distribution eligibility is done as part of the new course creation process ([https://Registrar.rice.edu/facstaff/courseprocess/](https://Registrar.rice.edu/facstaff/courseprocess/)). As part of an annual roll call ([https://Registrar.rice.edu/](https://Registrar.rice.edu/))
criteria as set in the
ensuring that the courses identified as distribution-eligible meet the
Faculty and leadership in the academic schools are responsible for
Dean's Offices of each of the academic schools.

Distribution courses from the Humanities Research Center (HRC) address
emergent and interdisciplinary fields of knowledge that typically do not
have a home in a traditional department. These courses introduce non-
humanistic students to humanistic methods and areas of study, as well
as advance the abilities of humanities majors to make connections
among disciplines.

Additional Information
For additional information, please see the Medical
Humanities website: https://hrc.rice.edu/medicalhumanities/Minor
(https://hrc.rice.edu/medicalhumanities/Minor/).

Opportunities for the Minor in Medical
Humanities

Academic Honors
The university recognizes academic excellence achieved over an
undergraduate's academic history at Rice. For information on university
honors, please see Latin Honors (p. 48) (summa cum laude, magna cum
laude, and cum laude) and Distinction in Research and Creative Work
(p. 48). Some departments have department-specific Honors awards or
designations.

Distinction in Research and Creative Work
Students completing the minor in Medical Humanities are eligible to
apply for the university honor Distinction in Research and Creative Work
(p. 48). If awarded, Distinction will be noted on the student's transcript
upon graduation and on commencement materials. All applications for
Distinction will be judged by a committee of faculty affiliated with the
program in Medical Humanities. Work deemed to be 'above and beyond'
expectation will be considered for Distinction.

• To apply for Distinction, students must have a minor GPA in Medical
Humanities of 3.80 and an overall GPA of 3.30.
• Applications for Distinction must be submitted to the Director of
Medical Humanities on or before the last day of classes in the spring
semester by 5:00 pm.
• As part of the application for Distinction, students must submit a
single-authored research or creative work, created for a Medical
Humanities class, that represents the substantive output of a
semester's work (length will vary by discipline).
• In addition, any winning submission to the Annual Medical
Humanities Best Essay contest completed by a student in the minor
will be automatically considered for Distinction if the student meets
all other criteria.
• The student's project does not have to be completed nor in its final
format to apply for Distinction. All final research and creative work
materials will be due on the last day of final examinations.
• Applications must include a 1-page letter of support from a
sponsoring faculty advisor.

Applications are available on the Medical Humanities website at:
https://hrc.rice.edu/medicalhumanities/essay (https://hrc.rice.edu/
medicalhumanities/essay/)

Experiential Learning
Advanced students in the Medical Humanities minor have the opportunity
to conduct experiential learning and research in our practica, enroll
in internships at Houston-area hospitals, archives, and community
partner institutions, and take a multi-institution seminar, co-taught by
researchers and clinicians in the Texas Medical Center, University of
Houston, University of Texas School of Public Health, and Rice.

Additional Information
For additional information, please see the Medical
Humanities website: https://hrc.rice.edu/medicalhumanities/Minor
(https://hrc.rice.edu/medicalhumanities/Minor/).

See https://humanities.rice.edu/student-life (https://humanities.rice.edu/
student-life/) for tables of fellowships, prizes, and internships/practica
that may be relevant to this minor.

Medieval and Early Modern Studies

Contact Information
Medieval and Early Modern Studies

Peter Loewen
Program Director
mdem@rice.edu

The Medieval and Early Modern Studies program enables students to
study medieval and early modern cultures in the period between 500 and
1700 A.D.

As an interdisciplinary major, the program combines a broad background
in various aspects of medieval and early modern culture with more
specialized study in a selected field. These fields of emphasis or
specialized study include medieval and early modern art history, history,
literature (Arabic, Chinese, English, French, Spanish, or Latin), music,
philosophy, or religion.

Bachelor's Program
• Bachelor of Arts (BA) Degree with a Major in Medieval and Early
Modern Studies, (p. 568)

Medieval and Early Modern Studies does not currently offer an academic
program at the graduate level.

---

**Bachelor of Arts (BA) Degree with a Major in Medieval and Early Modern Studies**

**Program Learning Outcomes for the BA Degree with a Major in Medieval and Early Modern Studies**

Upon completing the BA degree with a major in Medieval and Early Modern Studies, students will be able to:

1. Situate Medieval and Early Modern studies more broadly within several interdisciplinary fields, including history, art, philosophy, music, literature, and religion.
2. Define and apply appropriate disciplinary and/or interdisciplinary methodologies, vocabularies, concepts, and theories to critically respond to questions within the field of Medieval and Early Modern Studies.
3. Demonstrate the ability to define and respond to research questions and scholarly debates within the field, including the ability to analyze primary and secondary sources, draw conclusions from the analysis of these sources, and cite evidence in support of conclusions.
4. Demonstrate a firm grasp of written, visual, and oral communication, including critical writing principles such as appropriate citation, use of evidence, clarity, and grammatical correctness.

**Requirements for the BA Degree with a Major in Medieval and Early Modern Studies**

For general university requirements, see *Graduation Requirements* (p. 26). Students pursuing the BA degree with a major in Medieval and Early Modern Studies must complete:

- A minimum of 10 courses (30 credit hours) to satisfy major requirements.
- A minimum of 120 credit hours to satisfy degree requirements.
- A minimum of 60 credit hours outside of major requirements.
- A minimum of 5 courses (15 credit hours) taken at the 300-level or above.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor, or where applicable, the department’s Director of Undergraduate Studies. (Course substitutions must be formally applied and entered into Degree Works by the major’s Official Certifier [https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/].) Students and their academic advisors should identify and clearly document the courses to be taken.

Ensuring that the courses identified as distribution-eligible meet the requirements of the academic programs. Faculty and leadership in the academic schools are responsible for ensuring that they meet graduation requirements by completing coursework designated as distribution at the time of course registration.

Distribution courses from Medieval and Early Modern Studies (MDEM) are broad in theme and scope and prompt students to probe knowledge about the variety of often interrelated medieval and early modern civilizations from the 4th to the 16th centuries. They involve a broad, interdisciplinary spectrum of knowledge that provides students with the tools for thinking critically about formations of ideas in the long history of culture and cultural exchange among Europe, Asia, the Middle East, Africa, and the Americas. Many of them are introductions to the medieval and/or early modern periods in a particular field of study (e.g. History, Art History, Religion, Music).

Additional Information
For additional information, please see the Medieval and Early Modern Studies website: https://medieval.rice.edu/.

Opportunities for the BA Degree with a Major in Medieval and Early Modern Studies

Academic Honors
The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 48) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 48). Some departments have department-specific Honors awards or designations.

Senior Thesis
Qualified majors may apply before their senior year for directed research leading to a senior thesis, carried out during both semesters of the senior year. Each semester will require 3 credit hours; these 6 credit hours (MDEM 494 and MDEM 495) are in addition to the credit hours required for the major.

To qualify for senior thesis, students must have an approved research proposal and the agreement of a faculty member to serve as advisor for that project. Applicants will normally be required to have a GPA of 3.75 in MDEM courses and to have completed courses relevant to the proposed thesis topic (e.g. English, History, Art History, etc.), to be determined by the thesis advisor. Applications should be submitted to the director of Medieval and Early Modern Studies and will be evaluated by the advisory board.

Students who are considering applying to write a senior thesis should consult the program director and potential advisor as early as possible. Normally students will apply before preregistration in the second semester of their junior year and will spend time during the following summer reading from a list they have developed with their advisor. The thesis normally will be between 7,500 and 15,000 words (approximately 30-60 pages) in length. Students will enroll MDEM 494 and MDEM 495.

Application Requirements

---

**Recommended Coursework**

It is recommended, but not required, that students take 2 semesters at the college level in an appropriate language (or languages). For students considering MDEM graduate work, it is recommended that they study at least 1 foreign language in some depth (as most graduate schools require a reading knowledge of French and German for the PhD).

**Policies for the BA Degree with a Major in Medieval and Early Modern Studies**

**Transfer Credit**

For Rice University's policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

**Program Transfer Credit Guidelines**

Students pursuing the major in Medieval and Early Modern Studies should be aware of the following program-specific transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program's official transfer credit advisor) on an individual case-by-case basis.

**Distribution Credit Information**

The determination of distribution eligibility is done as part of the new course creation process (https://registrar.rice.edu/facstaff/coursecourseprocess/). As part of an annual roll call (https://registrar.rice.edu/facstaff/distribution_credit/) coordinated each Spring by the Office of the Registrar, course distribution eligibility is reviewed and reaffirmed by the Dean's Offices of each of the academic schools.

Faculty and leadership in the academic schools are responsible for ensuring that the courses identified as distribution-eligible meet the criteria as set in the General Announcements (p. 26). Students are responsible for ensuring that they meet graduation requirements (p. 26) by completing coursework designated as distribution at the time of course registration.

---

**Footnotes and Additional Information**

* Includes coursework completed as distribution credit, FWIS, LPAP, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The “hours outside of the major” requirement may include all of the above university requirements.

1 Of the 10 required courses, a total of 5 courses (15 credit hours) must be taken at the 300-level or above. Please note that not all courses will be offered each academic year.

**Total Credit Hours Required for the Major in Medieval and Early Modern Studies**

- Total Credit Hours: 30
- Additional Credit Hours to Complete BA Degree Requirements: 30
- University Graduation Requirements (p. 26): 60
- Total Credit Hours: 120
• Department thesis application form (available at program website and from the program director) signed by the program director and the faculty member who will supervise the project
• A 500 word abstract of the proposed project

Final Submission and Presentations
• An electronic copy of the final thesis must be submitted by the last day of final examinations for degree candidates. Presentations will take place at the MDEM Undergraduate Conference.

Additional Information
For additional information, please see the Medieval and Early Modern Studies website: https://medieval.rice.edu/

See https://humanities.rice.edu/student-life for tables of fellowships, prizes, and internships/practica that may be relevant to this major.

Military Science
The goal of the U.S. Army ROTC program is to develop technically competent, physically fit, and highly motivated men and women for positions of responsibility as commissioned officers in the active U.S. Army, the U.S. Army Reserve, and the National Guard. Upon completion of the curriculum, students will have an understanding of the fundamental concepts and principles of the military as an art and as a science. The leadership and managerial experience gained through ROTC provides great benefit for students in their military careers as well as in both their civilian endeavors.

Rice does not offer a degree in military science. However, interested students can obtain a degree in any of the other programs offered by Rice. Credit for courses in military science may be obtained by attending courses at the University of Houston. The financial aid available to an ROTC student may be used for Rice courses as well as the University of Houston ROTC courses.

For general university requirements, see Graduation Requirements (p. 26). For requirements for a specific degree program, see the pages for that degree program. For more information on the Army ROTC program in particular, contact the military science department at the University of Houston by calling 713-743-3875.

Statutory Authority
General statutory authority for establishment and operation of the ROTC program, including the scholarship program, is contained in Title 10, United States Code, Chapter 103 (Sec. 2102–2111). Specific rules and procedures are found in U.S. Army Regulation 145–1.

Course Credit
ROTC classes may be taken for elective credit toward any degree plan at the University of Houston or Rice University. Freshman-and sophomore-level classes are open to all students, regardless of age or physical condition. No military obligation is incurred as a result of enrollment in these courses. Junior- and senior-level courses are more restrictive and do require a military obligation. ROTC scholarship students also incur a military obligation.

Four-Year Program
The four-year program is divided into two courses: the basic course, which is normally attended by students during their freshman- and sophomore years; and the advanced course, attended during the junior and senior years. Advanced course students attend a six-week paid advanced camp in Fort Lewis, Washington, normally between their junior and senior years.

The Basic Course
The basic course consists of four semesters of military science, which include:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MILI 121</td>
<td>INTRODUCTION TO LEADERSHIP</td>
<td>2</td>
</tr>
<tr>
<td>MILI 122</td>
<td>INTRODUCTION TO LEADERSHIP II</td>
<td>2</td>

<tr>
<td>MILI 201</td>
<td>FOUNDATIONS OF LEADERSHIP</td>
<td>2</td>
</tr>
<tr>
<td>MILI 202</td>
<td>FOUNDATIONS OF LEADERSHIP II</td>
<td>2</td>
</tr>
</tbody>
</table>

These freshman- and sophomore-level classes are open to all students without obligation.

The Advanced Course
Students entering the advanced course must enter into a contract to pursue and accept a commission in the active army, the Army Reserve, or the National Guard. To be considered for contracting into the advanced course, the student must be a full-time student in a course of instruction that leads to a degree in a recognized academic field, have a minimum of two years of academic work remaining in a curriculum leading to a baccalaureate or advanced degree, be under age 30 when commissioned, and pass a physical and medical examination.

Two-Year Program
The two-year program is designed for students who did not take the basic course but otherwise are eligible to enroll in the advanced course. This program allows students completing their sophomore year to attend a four-week Leader’s Training Course during June and July at Fort Knox, Kentucky, in lieu of taking the first two years of ROTC. There is no military obligation for attending Leader’s Training Course. The army provides transportation, room, and board. Students are paid approximately $900 for the four-week period.

Laboratory Requirements
A military science laboratory is required for students enrolling in:

<table>
<thead>
<tr>

</tr>
</tbody>
</table>
This laboratory provides hands-on opportunities for marksmanship training, rappelling, drill and ceremonies, communications training, and other activities.

Veterans
Veterans who have served on active duty or in the Army Reserve or National Guard also are eligible for the ROTC program. Although veterans are not required to take the basic course, they are encouraged to do so. All students, including veterans, must have a minimum of 54 credit hours prior to enrolling in the advanced course.

National Guard and Army Reserve Members
Students enrolled in ROTC may also be members of the Army Reserve/National Guard. Through the Simultaneous Membership Program (SMP), those students enrolled in the advanced course will be placed in a leadership position as a cadet and will receive pay and entitlements from the National Guard or Army Reserve in the pay grade of Sergeant (E-5).

Financial Assistance
The United States Army offers, on a competitive nationwide basis, four-, three-, and two-year scholarships. The scholarships cover tuition 100%. Recipients also receive benefits for educational fees (to include lab fees), a book allowance, and a subsistence allowance ranging from $300 to $500 per month. Applicants must be U.S. citizens and must be under age 27 on the anticipated graduation date. Applications are available from the military science department. Veteran applicants can extend the age limit up to a maximum of three years, based on prior active duty service.

Other Financial Aid
All students enrolled in the advanced course will receive a subsistence allowance of $450 per month junior year and $500 per month senior year. For more information, contact the military science department. GI Bill® recipients still retain benefits.

Tuition
Members of the Army or the Army Reserve, National Guard, Texas State Guard, or other reserve forces may be exempted from the nonresident tuition fee and other fees and charges.

Special Training
Basic- and advanced-course students may volunteer for and may attend the U.S. Army Airborne and Air Assault courses during June, July, and August. Cadet Troop Leadership Training positions also are available to Advanced-course cadets during the summer months.

Miscellaneous
All participating cadets are eligible for our internal scholarships provided by our alumni and sponsors of the program.

The Corps of Cadets sponsors an annual military ball in addition to other social events throughout the school year. The Department of Military Science sponsors extracurricular activities such as the University of Houston Color Guard and the Ranger Challenge Team.

Military Science does not currently offer an academic program at the graduate level.

Chair and Professor
Lieutenant Colonel Kurt Robinson

Assistant Professors
Lieutenant Colonel Steven Lopez
Captain McVay Chambers
Captain Jonathan Howard
Master Sergeant Al Frances
Sergeant First Class David Briseno
Sergeant First Class Roland Thomas
Staff Sergeant John Russell

Museums and Cultural Heritage incorporates the fields of architecture, anthropology, art, history, and cultural studies to study the identification, preservation, and/or representation of art and heritage materials. Such materials often serve as the evidentiary basis for humanistic, architectural, and social science disciplines.

Students in the minor will learn about the preservation and use of tangible and intangible cultural heritage for study, archival purposes, and public display through the study of museums and cultural heritage institutions, new digital analysis tools and media, and traditional methods of preservation and analysis.

Minor
• Minor in Museums and Cultural Heritage (p. 573)

Museums and Cultural Heritage does not currently offer an academic program at the graduate level.

Co-Directors and Advisors
Leo Costello
Program Learning Outcomes for the Minor in Museums and Cultural Heritage

Upon completing the minor in Museums and Cultural Heritage, students will be able to:

1. Understand the historical, changing uses and meanings of art/cultural objects and collections in museums, particularly with regard to the concept of heritage.
2. Explain the historical and contemporary issues that affect art objects and cultural heritage, including recovery and preservation, and presentation to the public for education, research, and continued practice/use.
3. Work with primary sources relating to art and cultural heritage focusing on visual analysis, recovery and preservation methods, or archival research.
4. Conduct independent and collaborative research in museums and cultural heritage based in a specific disciplinary methodology and communicate it to a public audience through oral, written, visual, or other practical means.

Requirements for the Minor in Museums and Cultural Heritage

Students pursuing the minor in Museums and Cultural Heritage must complete:

- A minimum of 6 courses (18-21 credit hours, depending on course selection) to satisfy minor requirements.
- A minimum of 3 courses (9 credit hours) taken at the 300-level or above.
- A maximum of 2 courses (6 credit hours) from study abroad or transfer credit. For additional program guidelines regarding transfer credit, see the Policies tab.

The courses listed below satisfy the requirements for this minor. In certain instances, courses not on this official list may be substituted upon approval of the minor’s academic advisor, or where applicable, the Program Director. (Course substitutions must be formally applied and entered into Degree Works by the minor’s Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/)). Students and their academic advisors should identify and clearly document the courses to be taken.

**Footnotes and Additional Information**

1. A maximum of 2 courses (6 credit hours) from the same subject code can be counted toward the Elective Requirements for the minor.
2. One of the following courses must be completed before starting a practicum to provide adequate background knowledge: the Core Requirement: ANTH 341/HURC 341; or one of the following Elective Requirements: ANTH 345, HART 312, or HIST 244.
3. The practicum will introduce students to the field directly, promoting an engaged and active learning environment while fostering connections in the fields of museum work, cultural heritage, and preservation. All practica should be taken through established courses or independent study at the 300-level or 400-level (for at least 3 credit hours) and must focus on active participation on the part of students in the mission of the project or institution, with meaningful pedagogical or research outcomes for the student; the chief duties of a student in a practicum cannot be clerical. Students who do not complete one of the application-based internships at area museums and cultural institutions listed above (HART 300, HART 301, HART 400, HART 401) will have the following two alternative options for completing this requirement with advisor (or Official Certifier) approval:
   1. Internships and Practica (of at least 3 credit hours) offered through the Humanities Research Center, the Center for Civic Leadership, or the School of Humanities with the research and related activities approved by a program advisor.
   2. Faculty-Directed Initiatives - independent study courses (for at least 3 credit hours) affiliated with the pertinent department or center.
4. Every year, the HRC will host a capstone symposium (not a course), in which students who have completed their coursework for the minor will present their practicum experiences and address what they have learned throughout the minor’s curriculum.

**Policies for the Minor in Museums and Cultural Heritage**

**Program Restrictions and Exclusions**

Students pursuing the minor in Museums and Cultural Heritage should be aware of the following program restriction:
As noted in Majors, Minors, and Certificates (p. 11), i.) students may declare their intent to pursue a minor only after they have first declared a major, and ii.) students may not major and minor in the same subject.

Transfer Credit
For Rice University's policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

Program Transfer Credit Guidelines
Students pursuing the minor in Museums and Cultural Heritage should be aware of the following program-specific transfer credit guidelines:

- No more than 2 courses (6 credit hours) of transfer credit from U.S. or international universities of similar standing may apply toward the minor.
- Requests for transfer credit will be considered by the program director (and/or the program's official transfer credit advisor) on an individual case-by-case basis.

Distribution Credit Information
The determination of distribution eligibility is done as part of the new course creation process (https://registrar.rice.edu/facstaff/courseprocess/). As part of an annual roll call (https://registrar.rice.edu/facstaff/distribution_credit/) coordinated each Spring by the Office of the Registrar, course distribution eligibility is reviewed and reaffirmed by the Dean's Offices of each of the academic schools.

Faculty and leadership in the academic schools are responsible for ensuring that the courses identified as distribution-eligible meet the criteria as set in the General Announcements (p. 26). Students are responsible for ensuring that they meet graduation requirements (p. 26) by completing coursework designated as distribution at the time of course registration.

Distribution courses from the Humanities Research Center (HRC) address emergent and interdisciplinary fields of knowledge that typically do not have a home in a traditional department. These courses introduce non-humanistic students to humanistic methods and areas of study, as well as advance the abilities of humanities majors to make connections among disciplines.

Additional Information
For additional information, please see the Museums and Cultural Heritage website: h (http://hrc.rice.edu/https://hrc.rice.edu/culturalheritage/Minor (http://hrc.rice.edu)).

Opportunities for the Minor in Museums and Cultural Heritage

Academic Honors
The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 48) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 48). Some departments have department-specific Honors awards or designations.

Additional Information
For additional information, please see the Museums and Cultural Heritage website: h (http://hrc.rice.edu/https://hrc.rice.edu/culturalheritage/Minor (http://hrc.rice.edu)).

See https://humanities.rice.edu/student-life (https://humanities.rice.edu/student-life/) for tables of fellowships, prizes, and internships/practica that may be relevant to this minor.

At the undergraduate level, the Shepherd School of Music offers both professional training and a broad liberal arts curriculum. Degree programs include a BA degree in music and a BMus degree in performance, composition, music history, and music theory. Acceptance into a five-year honors program leads to the simultaneous awarding of the BMus and MMus degrees.

At the graduate level, the school offers professional music training for qualified students in the fields of music composition, performance, or research that is supported by lab or performing ensembles. This training includes theory and history seminars. Advanced degree programs include a MMus degree in composition, orchestral conducting, musicology, and performance; a post-master's Artist Diploma (AD) in orchestral conducting and performance; and a DMA degree in composition and selected areas of performance.

Other Musical Opportunities

For Non-Majors
Students who are not music majors may take the following courses designed for the general student. Other music courses not on this list require the permission of the instructor, and the approval of the dean of the Shepherd School.

**Artist Diploma (AD) in the field of Bassoon Performance**

**Program Learning Outcomes for the Artist Diploma**

Upon completing the Artist Diploma, students will be able to:

1. Demonstrate the technical mastery and musical expertise requisite to having a significant professional career in their chosen area of performance.

2. Master intellectually the stylistic differences when performing music of the Baroque, Classical, Romantic, modern and contemporary eras and be able to apply them in performance.

3. Accumulate a significantly expanded and diverse list of repertoire.

4. Be equipped with multiple extra-musical career skills.

**Requirements for the Artist Diploma**

For general university requirements, see Diploma Programs (p. 68). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55). Students pursuing the Artist Diploma in any field of music performance must complete:

- A minimum of 41 credit hours to satisfy diploma requirements.
- A minimum of 30 credit hours of graduate-level study (coursework at the 500-level or above).
- A minimum of 24 credit hours must be taken at Rice University.
- A minimum residency enrollment of one fall or spring semester of full-time graduate study at Rice University.
- A minimum overall GPA of 2.67 or higher in all Rice coursework.
- A minimum GPA of 2.67 or higher in all Rice coursework that satisfies requirements for the diploma program.

The courses listed below satisfy the requirements for this degree program. In certain instances, courses not on this official list may be substituted upon approval of the program's academic advisor, or where applicable, the department or program's Director of Graduate Studies. Course substitutions must be formally applied and entered into Degree Works by the department or program's Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/). Additionally, these must be approved by the Office of Graduate and Postdoctoral Studies. Students and their academic advisors should identify and clearly document the courses to be taken.

Policies for the Artist Diploma

Shepherd School of Music Graduate Program Handbook

The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, the Shepherd School of Music publishes a graduate program handbook, which can be found here: https://gradhandbooks.rice.edu/2019_20/Shepherd_School_of_Music_Graduate_Handbook.pdf

Academic Standards

Curriculum and Degree Requirements

Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

Grading Policy

A minimum grade of B- (2.67 grade points) is expected of all music students in their major applied area. A grade of C+ (2.33 grade points) or lower is considered unsatisfactory and will be evaluated in the following manner:

A music major who receives a grade of C+ (2.33 grade points) or lower in their major applied area will be placed on music probation. Music probation signifies that the student's work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of C+ (2.33 grade points) or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

Note: For music history and musicology majors a grade of C+ (2.33 grade points) or lower in any music history course is considered unsatisfactory and will be evaluated as above.
Graduate degree requirement: a minimum overall grade point average of 2.67 is necessary for graduation.

Leaves of Absence and Voluntary Withdrawal
Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean’s office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Additional Information
For additional information, please see the Shepherd School of Music website at: https://music.rice.edu

For general university requirements, see Diploma Programs (p. 68). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55). Students pursuing the Artist Diploma in any field of music performance must complete:

- A minimum of 30 credit hours of graduate-level study (coursework at the 500-level or above).
- A minimum of 41 credit hours to satisfy diploma requirements.
- A minimum overall GPA of 2.67 or higher in all Rice coursework.
- A minimum GPA of 2.67 or higher in all Rice coursework that satisfies requirements for the diploma program.

The courses listed below satisfy the requirements for this degree program. In certain instances, courses not on this official list may be substituted upon approval of the program’s academic advisor, or where applicable, the department or program’s Director of Graduate Studies. Course substitutions must be formally applied and entered into Degree Works by the department or program’s Official Certifier (https://registrar.rice.edu/facstaff/degeworks/officialcertifier/). Additionally, these must be approved by the Office of Graduate and Postdoctoral Studies. Students and their academic advisors should identify and clearly document the courses to be taken.

Shepherd School of Music Graduate Program Handbook

The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, the Shepherd School of Music publishes a graduate program handbook, which can be found here: https://gradhandbooks.rice.edu/2019_20/Shepherd_School_of_Music_Graduate_Handbook.pdf

Academic Standards
Curriculum and Degree Requirements
Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

Grading Policy
A minimum grade of B- (2.67 grade points) is expected of all music students in their major applied area. A grade of C+ (2.33 grade points) or lower in any music history course is considered unsatisfactory and will be evaluated as above.

If a student receives a second semester of C+ (2.33 grade points) or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

Note: For music history and musicology majors a grade of C+ (2.33 grade points) or lower in any music history course is considered unsatisfactory and will be evaluated as above.

Graduate degree requirement: a minimum overall grade point average of 2.67 is necessary for graduation.

Leaves of Absence and Voluntary Withdrawal
Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean's office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Additional Information
For additional information, please see the Shepherd School of Music website at: https://music.rice.edu

Opportunities for the Artist Diploma
Other Musical Opportunities
Lectures and Performances
A visiting lecturer series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.

For additional information, please see the Shepherd School of Music website at: https://music.rice.edu

Artist Diploma (AD) in the field of Double Bass Performance
Program Learning Outcomes for the Artist Diploma

Upon completing the Artist Diploma, students will be able to:

1. Demonstrate the technical mastery and musical expertise requisite to having a significant professional career in their chosen area of performance.
2. Master intellectually the stylistic differences when performing music of the Baroque, Classical, Romantic, modern and contemporary eras and be able to apply them in performance.
3. Accumulate a significantly expanded and diverse list of repertoire.
4. Be equipped with multiple extra-musical career skills.
Requirements for the Artist Diploma

For general university requirements, see Diploma Programs (p. 68). For additional requirements, regulations, and procedures for all graduate programs, see All Graduate Students (p. 55). Students pursuing the Artist Diploma in any field of music performance must complete:

- A minimum of 41 credit hours to satisfy diploma requirements.
- A minimum of 30 credit hours of graduate-level study (coursework at the 500-level or above).
- A minimum of 24 credit hours must be taken at Rice University.
- A minimum residency enrollment of one fall or spring semester of full-time graduate study at Rice University.
- A minimum overall GPA of 2.67 or higher in all Rice coursework.
- A minimum GPA of 2.67 or higher in all Rice coursework that satisfies requirements for the diploma program.

The courses listed below satisfy the requirements for this degree program. In certain instances, courses not on this official list may be substituted upon approval of the program’s academic advisor, or where applicable, the department or program’s Director of Graduate Studies. Course substitutions must be formally applied and entered into Degree Works by the department or program’s Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/). Additionally, these must be approved by the Office of Graduate and Postdoctoral Studies. Students and their academic advisors should identify and clearly document the courses to be taken.

Curriculum and Degree Requirements

Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.
Grading Policy
A minimum grade of B- (2.67 grade points) is expected of all music students in their major applied area. A grade of C+ (2.33 grade points) or lower is considered unsatisfactory and will be evaluated in the following manner:

A music major who receives a grade of C+ (2.33 grade points) or lower in their major applied area will be placed on music probation. Music probation signifies that the student’s work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of C+ (2.33 grade points) or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

Note: For music history and musicology majors a grade of C+ (2.33 grade points) or lower in any music history course is considered unsatisfactory and will be evaluated as above.

Graduate degree requirement: a minimum overall grade point average of 2.67 is necessary for graduation.

Leaves of Absence and Voluntary Withdrawal
Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean’s office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Upon completing the Artist Diploma, students will be able to:

1. Demonstrate the technical mastery and musical expertise requisite to having a significant professional career in their chosen area of performance.
2. Master intellectually the stylistic differences when performing music of the Baroque, Classical, Romantic, modern and contemporary eras and be able to apply them in performance.
3. Accumulate a significantly expanded and diverse list of repertoire.
4. Be equipped with multiple extra-musical career skills.

Requirements for the Artist Diploma
For general university requirements, see Diploma Programs (p. 68). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55). Students pursuing the Artist Diploma in any field of music performance must complete:

- A minimum of 41 credit hours to satisfy diploma requirements.
- A minimum of 30 credit hours of graduate-level study (coursework at the 500-level or above).
- A minimum of 24 credit hours must be taken at Rice University.
- A minimum residency enrollment of one fall or spring semester of full-time graduate study at Rice University.
- A minimum overall GPA of 2.67 or higher in all Rice coursework.
- A minimum GPA of 2.67 or higher in all Rice coursework that satisfies requirements for the diploma program.

The courses listed below satisfy the requirements for this degree program. In certain instances, courses not on this official list may be substituted upon approval of the program's academic advisor, or where applicable, the department or program's Director of Graduate Studies. Course substitutions must be formally applied and entered into Degree Works by the department or program's Official Certifier.
Additionally, these must be approved by the Office of Graduate and Postdoctoral Studies. Students and their academic advisors should identify and clearly document the courses to be taken.

### Policies for the Artist Diploma

**Shepherd School of Music Graduate Program Handbook**

The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, the Shepherd School of Music publishes a graduate program handbook, which can be found here: https://gradhandbooks.rice.edu/2019_20/Shepherd_School_of_Music_Graduate_Handbook.pdf

**Academic Standards**

**Curriculum and Degree Requirements**

Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

**Grading Policy**

A minimum grade of B- (2.67 grade points) is expected of all music students in their major applied area. A grade of C+ (2.33 grade points) or lower is considered unsatisfactory and will be evaluated in the following manner:

A music major who receives a grade of C+ (2.33 grade points) or lower in their major applied area will be placed on music probation. Music probation signifies that the student's work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of C+ (2.33 grade points) or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

**Note:** For music history and musicology majors a grade of C+ (2.33 grade points) or lower in any music history course is considered unsatisfactory and will be evaluated as above.

**Graduate degree requirement:** a minimum overall grade point average of 2.67 is necessary for graduation.

**Leaves of Absence and Voluntary Withdrawal**

Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the...

2019-2020 General Announcements

PDF Generated 11/12/2019
Policies for the Artist Diploma

Shepherd School of Music Graduate Program Handbook

The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, the Shepherd School of Music publishes a graduate program handbook, which can be found here: https://gradhandbooks.rice.edu/2019_20/Shepherd_School_of_Music_Graduate_Handbook.pdf

Academic Standards
Curriculum and Degree Requirements

Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

Grading Policy

A minimum grade of B- (2.67 grade points) is expected of all music students in their major applied area. A grade of C+ (2.33 grade points) or lower is considered unsatisfactory and will be evaluated in the following manner:

A music major who receives a grade of C+ (2.33 grade points) or lower in their major applied area will be placed on music probation. Music probation signifies that the student's work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of C+ (2.33 grade points) or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

Note: For music history and musicology majors a grade of C+ (2.33 grade points) or lower in any music history course is considered unsatisfactory and will be evaluated as above.

Graduate degree requirement: a minimum overall grade point average of 2.67 is necessary for graduation.

Leaves of Absence and Voluntary Withdrawal

Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean’s office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Academic Standards

Requirements for the Artist Diploma

For general university requirements, see Diploma Programs (p. 68). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55). Students pursuing the Artist Diploma in any field of music performance must complete:

- A minimum of 41 credit hours to satisfy diploma requirements.
- A minimum of 30 credit hours of graduate-level study (coursework at the 500-level or above).
- A minimum of 24 credit hours must be taken at Rice University.
- A minimum residency enrollment of one fall or spring semester of full-time graduate study at Rice University.
- A minimum overall GPA of 2.67 or higher in all Rice coursework.
- A minimum GPA of 2.67 or higher in all Rice coursework that satisfies requirements for the diploma program.

The courses listed below satisfy the requirements for this degree program. In certain instances, courses not on this official list may be substituted upon approval of the program's academic advisor, or where applicable, the department or program's Director of Graduate Studies. Course substitutions must be formally applied and entered into Degree Works by the department or program's Official Certifier (https://registrar.rice.edu/facstaff/degeworks/officialcertifier/). Additionally, these must be approved by the Office of Graduate and Postdoctoral Studies. Students and their academic advisors should identify and clearly document the courses to be taken.

Requirements for the Artist Diploma

Program Learning Outcomes for the Artist Diploma

Upon completing the Artist Diploma, students will be able to:

1. Demonstrate the technical mastery and musical expertise requisite to having a significant professional career in their chosen area of performance.
2. Master intellectually the stylistic differences when performing music of the Baroque, Classical, Romantic, modern and contemporary eras and be able to apply them in performance.
3. Accumulate a significantly expanded and diverse list of repertoire.
4. Be equipped with multiple extra-musical career skills.

Opportunities for the Artist Diploma

Other Musical Opportunities

Lectures and Performances

A visiting lecturer series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.

Additional Information

For additional information, please see the Shepherd School of Music website at: https://music.rice.edu (https://music.rice.edu/)

#### Academic Coursework

Select 2 courses from the following:

- LPCR 200  ADVANCED MENTAL TRAINING
- MGMT 621  THE NEW ENTERPRISE
- MGMT 625  DESIGN THINKING
- MGMT 629  BUSINESS PLAN DEVELOPMENT
- MGMT 676  SOCIAL ENTERPRISE

### Footnotes and Additional Information

1 Students pursuing the Artist Diploma in all fields of music performance must perform two (2) recitals with the exception of students in the field of Opera Performance, who are not required to perform recitals.

### Course List to Satisfy Requirements

#### Academic Coursework

Academic Coursework is comprised of a minimum of 2 courses (4 credit hours) from the Music Career and Skills Enhancement course offerings

### Policies for the Artist Diploma

**Shepherd School of Music Graduate Program Handbook**

The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, the Shepherd School of Music publishes a graduate program handbook, which can be found here: [https://gradhandbooks.rice.edu/2019_20/Shepherd_School_of_Music_Graduate_Handbook.pdf](https://gradhandbooks.rice.edu/2019_20/Shepherd_School_of_Music_Graduate_Handbook.pdf)

### Academic Standards

**Curriculum and Degree Requirements**

Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

**Grading Policy**

A minimum grade of B- (2.67 grade points) is expected of all music students in their major applied area. A grade of C+ (2.33 grade points) lower is considered unsatisfactory and will be evaluated in the following manner:

A music major who receives a grade of C+ (2.33 grade points) or lower in their major applied area will be placed on music probation. Music probation signifies that the student’s work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of C+ (2.33 grade points) or lower in their major applied area, whether for consecutive semesters or not, the
student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

**Note:** For music history and musicology majors a grade of C+ (2.33 grade points) or lower in any music history course is considered unsatisfactory and will be evaluated as above.

**Graduate degree requirement:** A minimum overall grade point average of 2.67 is necessary for graduation.

**Leaves of Absence and Voluntary Withdrawal**
Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean's office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

**Additional Information**
For additional information, please see the Shepherd School of Music website at: [https://music.rice.edu](https://music.rice.edu)

**Opportunities for the Artist Diploma**
**Other Musical Opportunities**
**Lectures and Performances**
A visiting lecturer series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.

**Additional Information**
For additional information, please see the Shepherd School of Music website at: [https://music.rice.edu](https://music.rice.edu)

**Artist Diploma (AD) in the field of Trumpet Performance**

**Program Learning Outcomes for the Artist Diploma**
Upon completing the Artist Diploma, students will be able to:

1. Demonstrate the technical mastery and musical expertise requisite to having a significant professional career in their chosen area of performance.
2. Master intellectually the stylistic differences when performing music of the Baroque, Classical, Romantic, modern and contemporary eras and be able to apply them in performance.
3. Accumulate a significantly expanded and diverse list of repertoire.
4. Be equipped with multiple extra-musical career skills.

**Requirements for the Artist Diploma**
For general university requirements, see [Diploma Programs](https://music.rice.edu) (p. 68). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55). Students pursuing the Artist Diploma in any field of music performance must complete:

- A minimum of 41 credit hours to satisfy diploma requirements.
- A minimum of 30 credit hours of graduate-level study (coursework at the 500-level or above).
- A minimum of 24 credit hours must be taken at Rice University.
- A minimum residency enrollment of one fall or spring semester of full-time graduate study at Rice University.
- A minimum overall GPA of 2.67 or higher in all Rice coursework.
- A minimum GPA of 2.67 or higher in all Rice coursework that satisfies requirements for the diploma program.

The courses listed below satisfy the requirements for this degree program. In certain instances, courses not on this official list may be substituted upon approval of the program's academic advisor, or where applicable, the department or program's Director of Graduate Studies. Course substitutions must be formally applied and entered into Degree Works by the department or program's Official Certifier ([https://registrar.rice.edu/facstaff/degeworks/officialcertifier/](https://registrar.rice.edu/facstaff/degeworks/officialcertifier/)). Additionally, these must be approved by the Office of Graduate and Postdoctoral Studies. Students and their academic advisors should identify and clearly document the courses to be taken.

Policies for the Artist Diploma
Shepherd School of Music Graduate Program Handbook
The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, the Shepherd School of Music publishes a graduate program handbook, which can be found here: https://gradhandbooks.rice.edu/2019_20/Shepherd_School_of_Music_Graduate_Handbook.pdf

Academic Standards
Curriculum and Degree Requirements
Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

Grading Policy
A minimum grade of B- (2.67 grade points) is expected of all music students in their major applied area. A grade of C+ (2.33 grade points) or lower is considered unsatisfactory and will be evaluated in the following manner:

A music major who receives a grade of C+ (2.33 grade points) or lower in their major applied area will be placed on music probation. Music probation signifies that the student's work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of C+ (2.33 grade points) or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

Note: For music history and musicology majors a grade of C+ (2.33 grade points) or lower in any music history course is considered unsatisfactory and will be evaluated as above.

Graduate degree requirement: a minimum overall grade point average of 2.67 is necessary for graduation.

Leaves of Absence and Voluntary Withdrawal
Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean's office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Additional Information
For additional information, please see the Shepherd School of Music website at: https://music.rice.edu

Opportunities for the Artist Diploma
Other Musical Opportunities
Lectures and Performances
A visiting lecturer series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.

Additional Information
For additional information, please see the Shepherd School of Music website at: https://music.rice.edu

Bachelor of Arts (BA) Degree with a Major in Music
Program Learning Outcomes for the BA Degree with a Major in Music
Upon completing the BA degree with a major in Music, students will be able to:

1. Demonstrate an intermediate level of technical and musical competence in performance.
2. Possess rudimentary skills in music theory and an understanding of how those skills are related to music performance.
3. Acquire a fundamental understanding and appreciation of the various historical periods of music literature.

Requirements for the BA Degree with a Major in Music
For general university requirements, see Graduation Requirements (p. 26). Students pursuing the BA degree with a major in Music must complete:

- A minimum of 19 courses (43-51 credit hours, depending on course selection) to satisfy major requirements.
- A minimum of 120 credit hours to satisfy degree requirements.
- A minimum of 60 credit hours outside of major requirements.
- A minimum of 14 courses (30 credit hours) taken at the 300-level or above.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major's academic advisor, or where applicable, the department’s Director of Undergraduate Studies. (Course substitutions must be formally applied and entered into Degree Works by the major’s Official Certifier [https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/].) Students and their academic advisors should identify and clearly document the courses to be taken.

Footnotes and Additional Information

1 Students in the BA degree program who wish to continue taking private lessons beyond the required four (4) semesters of individual instrumental and/or vocal study must obtain permission from the dean of the Shepherd School of Music.

Policies for the BA Degree with a Major in Music

Admission

The Shepherd School does not admit students to the BA degree with a major in Music. It is provided as an option for those BMus performance majors who no longer wish to pursue the performance degree.

Academic Standards

Curriculum and Degree Requirements

Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

Grading Policy

A minimum grade of B- (2.67 grade points) is expected of all music students in their major applied area. A grade of C+ (2.33 grade points) or lower is considered unsatisfactory and will be evaluated in the following manner:

• A music major who receives a grade of C+ (2.33 grade points) or lower in their major applied area will be placed on music probation. Music probation signifies that the student's work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

• If a student receives a second semester of C+ (2.33 grade points) or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a BMus degree seeking student and merit scholarship from the Shepherd School will be discontinued.

Please Note: For music history and musicology majors, a grade of C+ (2.33 grade points) or lower in any music history course is considered unsatisfactory and will be evaluated as noted above. For music theory majors, a grade of C+ (2.33 grade points) or lower in any advanced music theory course is considered unsatisfactory and will be evaluated as noted above.

Leaves of Absence and Voluntary Withdrawal

Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be made in the dean’s office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Examination

At the end of each semester, a jury examination in applied music may be given over the material studied during the semester.

Performance

Students are expected to perform frequently during their residence at Rice. Students are expected to attend both faculty and student recitals. In addition, all music majors must participate in the school's conducted ensembles as assigned.

Transfer Credit

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines

Students pursuing the BA degree with a major in Music should be aware of the following departmental transfer credit guidelines:

• Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

Additional Information

For additional information, please see the Shepherd School of Music website: https://music.rice.edu

Opportunities for the BA Degree with a Major in Music

Academic Honors

The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (p. 48) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 48). Some departments have department-specific Honors awards or designations.

Other Musical Opportunities

Lectures and Performances

A visiting lecturer series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.

Additional Information

For additional information, please see the Shepherd School of Music website: https://music.rice.edu/
1. Demonstrate technical and musical competence in solo performance, composition, or music-historical research appropriate to the standards of a four-year undergraduate program.
2. Possess intermediate analytical skills in music theory and an understanding of how those skills inform music performance.
3. Acquire a fundamental understanding of the relationship between music history and music performance.
4. Develop superior technical collaborative skills in the student’s major area through a combination of practice, coaching, and rehearsal in large and small ensembles.

**Requirements for the BMus Degree**

For general university requirements, see [Graduation Requirements](p. 26).

Students pursuing the BMus degree must complete:

- The requirements for one major offered by the BMus degree program.
- A minimum of 120 credit hours to satisfy degree requirements.

All students pursuing the BMus degree in any major must participate in core music, applied music, and other required music courses as well as in chamber music and large ensembles, plus electives. These students are entitled to one hour of private lessons each week of each semester they are enrolled as a music major; private or group lessons beyond this may result in additional fees.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor, or where applicable, the department’s Director of Undergraduate Studies. (Course substitutions must be formally applied and entered into Degree Works by the major’s Official Certifier [https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/].) Students and their academic advisors should identify and clearly document the courses to be taken.

**Footnotes and Additional Information**

* Includes coursework completed as distribution credit, FWIS, LPAP, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The “hours outside of the major” requirement may include all of the above university requirements.

**Recommended**

It is recommended, though not required, for students to complete MUSI 723.
Policies for the BMus Degree

Admission

An audition, in person, is required of each undergraduate applicant. A recorded audition may be considered in lieu of a live audition in extreme circumstances. The Shepherd School faculty and the university’s Committee on Admission jointly determine admission, the latter basing its evaluation on successful academic achievement and other standards of college admission. Transfer applicants from other colleges, conservatories, and universities must audition, and take placement exams in both music history and music theory. Once admitted, their prior preparation in music is assessed, which may reduce the required period of study at Rice.

Academic Standards

Curriculum and Degree Requirements

Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

Grading Policy

A minimum grade of B- (2.67 grade points) is expected of all music students in their major applied area. A grade of C+ (2.33 grade points) or lower is considered unsatisfactory and will be evaluated in the following manner:

- A music major who receives a grade of C+ (2.33 grade points) or lower in their major applied area will be placed on music probation. Music probation signifies that the student’s work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.
- If a student receives a second semester of C+ (2.33 grade points) or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a BMus degree seeking student and merit scholarship from the Shepherd School will be discontinued.

Please Note: For music history and musicology majors, a grade of C+ (2.33 grade points) or lower in any music history course is considered unsatisfactory and will be evaluated as noted above. For music theory majors, a grade of C+ (2.33 grade points) or lower in any advanced music theory course is considered unsatisfactory and will be evaluated as noted above.

Examinations

At the end of each semester, a jury examination in applied music may be given over the material studied during the semester. All degree candidates except BA students must demonstrate keyboard proficiency by examination. If students have little or no knowledge of the keyboard, they should enroll in secondary piano at the beginning of their first semester and continue study until they can meet the examination requirements.

Performance

Students are expected to perform frequently during their residence at Rice. Performance majors must present at least two full recitals. Composition and conducting students should present recitals as specified by their degree programs. Students are expected to attend both faculty and student recitals. In addition, all music majors must participate in the school’s conducted ensembles as assigned.

Transfer Credit

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines

Students pursuing the BMus degree should be aware of the following departmental transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

Additional Information

For additional information, please see the Shepherd School of Music website: https://music.rice.edu/

Opportunities for the BMus Degree

Academic Honors

The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (p. 48) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 48). Some departments have department-specific Honors awards or designations.

BMus/MMus Honors Program

Shepherd School students who demonstrate truly exceptional musical and academic accomplishment may apply for the BMus/MMus five-year coordinated program. This program, often referred to in the school as the BMus/MMus Honors Program, allows for the completion and awarding of both the BMus and MMus degrees concurrently. Application to this program is made in the student’s fifth or sixth semester of undergraduate studies.

The same general university requirements apply, but students seeking the combined BMus/MMus degrees must complete a total of at least 150 semester hours by graduation. The number of required hours varies according to major area.

The first five semesters of course work in this program parallel the core curriculum of the bachelor’s degrees. The sixth semester is a transitional semester during which students qualify for admission to the combined program. For further information, including application procedures, see the Shepherd School Student Handbook.
Bachelor of Music (BMus) Degree with a Major in Cello Performance

Program Learning Outcomes for the BMus Degree

Upon completing the BMus degree, students will be able to:

1. Demonstrate technical and musical competence in solo performance, composition, or music-historical research appropriate to the standards of a four-year undergraduate program.
2. Possess intermediate analytical skills in music theory and an understanding of how those skills inform music performance.
3. Acquire a fundamental understanding of the relationship between music history and music performance.
4. Develop superior technical collaborative skills in the student's major area through a combination of practice, coaching, and rehearsal in large and small ensembles.

Requirements for the BMus Degree

For general university requirements, see Graduation Requirements (p. 26). Students pursuing the BMus degree must complete:

- The requirements for one major offered by the BMus degree program.
- A minimum of 120 credit hours to satisfy degree requirements.

All students pursuing the BMus degree in any major must participate in core music, applied music, and other required music courses as well as in chamber music and large ensembles, plus electives. These students are entitled to one hour of private lessons each week of each semester they are enrolled as a music major; private or group lessons beyond this may result in additional fees.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major's academic advisor, or where applicable, the department's Director of Undergraduate Studies. (Course substitutions must be formally applied and entered into Degree Works by the major's Official Certifier [https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/].) Students and their academic advisors should identify and clearly document the courses to be taken.
Grading Policy
A minimum grade of B- (2.67 grade points) is expected of all music students in their major applied area. A grade of C+ (2.33 grade points) or lower is considered unsatisfactory and will be evaluated in the following manner:

- A music major who receives a grade of C+ (2.33 grade points) or lower in their major applied area will be placed on music probation. Music probation signifies that the student's work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.
- If a student receives a second semester of C+ (2.33 grade points) or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a BMus degree seeking student and merit scholarship from the Shepherd School will be discontinued.

Please Note: For music history and musicology majors, a grade of C+ (2.33 grade points) or lower in any music history course is considered unsatisfactory and will be evaluated as noted above. For music theory majors, a grade of C+ (2.33 grade points) or lower in any advanced music theory course is considered unsatisfactory and will be evaluated as noted above.

Leaves of Absence and Voluntary Withdrawal
Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean's office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Examinations
At the end of each semester, a jury examination in applied music may be given over the material studied during the semester. All degree candidates except BA students must demonstrate keyboard proficiency by examination. If students have little or no knowledge of the keyboard, they should enroll in secondary piano at the beginning of their first semester and continue study until they can meet the examination requirements.

Performance
Students are expected to perform frequently during their residence at Rice. Performance majors must present at least two full recitals. Composition and conducting students should present recitals as specified by their degree programs. Students are expected to attend both faculty and student recitals. In addition, all music majors must participate in the school's conducted ensembles as assigned.

Transfer Credit
For Rice University's policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of transfer credit advisors on their website: https://oaad.rice.edu. Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines
Students pursuing the BMus degree should be aware of the following departmental transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program's official transfer credit advisor) on an individual case-by-case basis.

Additional Information
For additional information, please see the Shepherd School of Music website: https://music.rice.edu/

Opportunities for the BMus Degree
Academic Honors
The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 48) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work.

Footnotes and Additional Information
* Includes coursework completed as distribution credit, FWIS, LPAR, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The "hours outside of the major" requirement may include all of the above university requirements.
The same general university requirements apply, but students seeking the combined BMus/MMus degrees must complete a total of at least 150 semester hours by graduation. The number of required hours varies according to major area.

The first five semesters of course work in this program parallel the core curriculum of the bachelor's degrees. Footnotes and Additional Information  
* Includes coursework completed as distribution credit, FWIS, LPAP, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The "hours outside of the major" requirement may include all of the above university requirements.

Policies for the BMus Degree Admission  
An audition, in person, is required of each undergraduate applicant. A recorded audition may be considered in lieu of a live audition in extreme circumstances. The Shepherd School faculty and the university’s Committee on Admission jointly determine admission, the latter basing its evaluation on successful academic achievement and other standards of college admission. Transfer applicants from other colleges, conservatories, and universities must audition, and take placement exams in both music history and music theory. Once admitted, their prior preparation in music is assessed, which may reduce the required period of study at Rice.

Academic Standards  
Curriculum and Degree Requirements  
Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

Grading Policy  
A minimum grade of B- (2.67 grade points) is expected of all music students in their major applied area. A grade of C+ (2.33 grade points) or lower is considered unsatisfactory and will be evaluated in the following manner:

• A music major who receives a grade of C+ (2.33 grade points) or lower in their major applied area will be placed on music probation. Music probation signifies that the student’s work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.
• If a student receives a second semester of C+ (2.33 grade points) or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a BMus degree seeking student and merit scholarship from the Shepherd School will be discontinued.

Please Note: For music history and musicology majors, a grade of C+ (2.33 grade points) or lower in any music history course is considered unsatisfactory and will be evaluated as noted above. For music theory majors, a grade of C+ (2.33 grade points) or lower in any advanced music theory course is considered unsatisfactory and will be evaluated as noted above.

Leaves of Absence and Voluntary Withdrawal  
Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean’s office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Examinations  
At the end of each semester, a jury examination in applied music may be given over the material studied during the semester. All degree candidates except BA students must demonstrate keyboard proficiency by examination. If students have little or no knowledge of the keyboard, they should enroll in secondary piano at the beginning of their first semester and continue study until they can meet the examination requirements.

Performance  
Students are expected to perform frequently during their residence at Rice. Performance majors must present at least two full recitals. Composition and conducting students should present recitals as specified by their degree programs. Students are expected to attend both faculty and student recitals. In addition, all music majors must participate in the school’s conducted ensembles as assigned.

Transfer Credit  
For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their
academic program's transfer credit advisor when considering transfer credit possibilities.

**Departmental Transfer Credit Guidelines**

Students pursuing the BMus degree should be aware of the following departmental transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

**Additional Information**

For additional information, please see the Shepherd School of Music website: [https://music.rice.edu/](https://music.rice.edu/)

### Opportunities for the BMus Degree

#### Academic Honors

The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see [Latin Honors](https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 48). Some departments have department-specific Honors awards or designations.

#### BMus/MMus Honors Program

Shepherd School students who demonstrate truly exceptional musical and academic accomplishment may apply for the BMus/MMus five-year coordinated program. This program, often referred to in the school as the BMus/MMus Honors Program, allows for the completion and awarding of both the BMus and MMus degrees concurrently. Application to this program is made in the student’s fifth or sixth semester of undergraduate studies.

The same general university requirements apply, but students seeking the combined BMus/MMus degrees must complete a total of at least 150 semester hours by graduation. The number of required hours varies according to major area.

The first five semesters of course work in this program parallel the core curriculum of the bachelor’s degrees. The sixth semester is a transitional semester during which students qualify for admission to the combined program. For further information, including application procedures, see the Shepherd School Student Handbook.

### Other Musical Opportunities

#### Lectures and Performances

A visiting lecturer series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.

**Bachelor of Music (BMus) Degree with a Major in Composition**

#### Program Learning Outcomes for the BMus Degree

Upon completing the BMus degree, students will be able to:

1. Demonstrate technical and musical competence in solo performance, composition, or music-historical research appropriate to the standards of a four-year undergraduate program.
2. Possess intermediate analytical skills in music theory and an understanding of how those skills inform music performance.
3. Acquire a fundamental understanding of the relationship between music history and music performance.
4. Develop superior technical collaborative skills in the student’s major area through a combination of practice, coaching, and rehearsal in large and small ensembles.

#### Requirements for the BMus Degree

For general university requirements, see [Graduation Requirements](https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/) (p. 26). Students pursuing the BMus degree must complete:

- The requirements for one major offered by the BMus degree program.
- A minimum of 120 credit hours to satisfy degree requirements.

All students pursuing the BMus degree in any major must participate in core music, applied music, and other required music courses as well as in chamber music and large ensembles, plus electives. These students are entitled to one hour of private lessons each week of each semester they are enrolled as a music major; private or group lessons beyond this may result in additional fees.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor, or where applicable, the department’s Director of Undergraduate Studies. (Course substitutions must be formally applied and entered into Degree Works by the major’s [Official Certifier](https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/).) Students and their academic advisors should identify and clearly document the courses to be taken.

Transfer Credit
For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines
Students pursuing the BMus degree should be aware of the following departmental transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

Additional Information
For additional information, please see the Shepherd School of Music website: https://music.rice.edu/

Opportunities for the BMus Degree

Academic Honors
The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (p. 48) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 48). Some departments have department-specific Honors awards or designations.

BMus/MMus Honors Program
Shepherd School students who demonstrate truly exceptional musical and academic accomplishment may apply for the BMus/MMus five-year coordinated program. This program, often referred to in the school as the BMus/MMus Honors Program, allows for the completion and awarding of both the BMus and MMus degrees concurrently. Application to this program is made in the student’s fifth or sixth semester of undergraduate studies.

The same general university requirements apply, but students seeking the combined BMus/MMus degrees must complete a total of at least 150 semester hours by graduation. The number of required hours varies according to major area.

The first five semesters of course work in this program parallel the core curriculum of the bachelor’s degrees. The sixth semester is a transitional semester during which students qualify for admission to the combined program. For further information, including application procedures, see the Shepherd School Student Handbook.

Other Musical Opportunities

Lectures and Performances
A visiting lecturer series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.

Additional Information
For additional information, please see the Shepherd School of Music website: https://music.rice.edu/

Bachelor of Music (BMus) Degree with a Major in Double Bass Performance

Program Learning Outcomes for the BMus Degree
Upon completing the BMus degree, students will be able to:

1. Demonstrate technical and musical competence in solo performance, composition, or music-historical research appropriate to the standards of a four-year undergraduate program.
2. Possess intermediate analytical skills in music theory and an understanding of how those skills inform music performance.
3. Acquire a fundamental understanding of the relationship between music history and music performance.
4. Develop superior technical collaborative skills in the student’s major area through a combination of practice, coaching, and rehearsal in large and small ensembles.

Requirements for the BMus Degree
For general university requirements, see Graduation Requirements (p. 26). Students pursuing the BMus degree must complete:

- The requirements for one major offered by the BMus degree program.
- A minimum of 120 credit hours to satisfy degree requirements.

All students pursuing the BMus degree in any major must participate in core music, applied music, and other required music courses as well as in chamber music and large ensembles, plus electives. These students are entitled to one hour of private lessons each week of each semester they are enrolled as a music major; private or group lessons beyond this may result in additional fees.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor, or where applicable, the department’s Director of Undergraduate Studies. (Course substitutions must be formally applied and entered into Degree Works by the major’s Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/).) Students and their academic advisors should identify and clearly document the courses to be taken.

| Total Credit Hours Required for the Major in Double Bass Performance | 83 |
| University Graduation Requirements (p. 26) | 37 |

Total Credit Hours: 120

**Footnotes and Additional Information**

* Includes coursework completed as distribution credit, FWIS, LPAP, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The “hours outside of the major” requirement may include all of the above university requirements.

**Policies for the BMus Degree**

**Admission**

An audition, in person, is required of each undergraduate applicant. A recorded audition may be considered in lieu of a live audition in extreme circumstances. The Shepherd School faculty and the university’s Committee on Admission jointly determine admission, the latter basing its evaluation on successful academic achievement and other standards of college admission. Transfer applicants from other colleges, conservatories, and universities must audition, and take placement exams in both music history and music theory. Once admitted, their prior preparation in music is assessed, which may reduce the required period of study at Rice.

**Academic Standards**

**Curriculum and Degree Requirements**

Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

**Grading Policy**

A minimum grade of B- (2.67 grade points) is expected of all music students in their major applied area. A grade of C+ (2.33 grade points) or lower is considered unsatisfactory and will be evaluated in the following manner:

- A music major who receives a grade of C+ (2.33 grade points) or lower in their major applied area will be placed on music probation. Music probation signifies that the student’s work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.
- If a student receives a second semester of C+ (2.33 grade points) or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a BMus degree seeking student and merit scholarship from the Shepherd School will be discontinued.

**Please Note:** For music history and musicology majors, a grade of C+ (2.33 grade points) or lower in any music history course is considered unsatisfactory and will be evaluated as noted above. For music theory majors, a grade of C+ (2.33 grade points) or lower in any advanced music theory course is considered unsatisfactory and will be evaluated as noted above.
Leaves of Absence and Voluntary Withdrawal
Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean’s office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Examinations
At the end of each semester, a jury examination in applied music may be given over the material studied during the semester. All degree candidates except BA students must demonstrate keyboard proficiency by examination. If students have little or no knowledge of the keyboard, they should enroll in secondary piano at the beginning of their first semester and continue study until they can meet the examination requirements.

Performance
Students are expected to perform frequently during their residence at Rice. Performance majors must present at least two full recitals. Composition and conducting students should present recitals as specified by their degree programs. Students are expected to attend both faculty and student recitals. In addition, all music majors must participate in the school’s conducted ensembles as assigned.

Transfer Credit
For Rice University’s policy regarding transfer credit, see Transfer Credit in the school’s conducted ensembles as assigned. faculty and student recitals. In addition, all music majors must participate in the school’s conducted ensembles as assigned.

Departmental Transfer Credit Guidelines
Students pursuing the BMus degree should be aware of the following departmental transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

Additional Information
For additional information, please see the Shepherd School of Music website: https://music.rice.edu/.

**Piano Proficiency Exam**

Students must complete and pass the Piano Proficiency Exam.

**University Graduation Requirements (p. 26)**

*Includes coursework completed as distribution credit, FWIS, LPAP, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The “hours outside of the major” requirement may include all of the above university requirements.

**Recommended**

It is recommended, though not required, that music students complete FREN 141 in addition to the requirements listed above. MUSI 338 may be recommended at the discretion of the instructor in addition to the requirements listed above.
Policies for the BMus Degree

Admission
An audition, in person, is required of each undergraduate applicant. A recorded audition may be considered in lieu of a live audition in extreme circumstances. The Shepherd School faculty and the university’s Committee on Admission jointly determine admission, the latter basing its evaluation on successful academic achievement and other standards of college admission. Transfer applicants from other colleges, conservatories, and universities must audition, and take placement exams in both music history and music theory. Once admitted, their prior preparation in music is assessed, which may reduce the required period of study at Rice.

Academic Standards
Curriculum and Degree Requirements
Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

Grading Policy
A minimum grade of B- (2.67 grade points) is expected of all music students in their major applied area. A grade of C+ (2.33 grade points) or lower is considered unsatisfactory and will be evaluated in the following manner:

- A music major who receives a grade of C+ (2.33 grade points) or lower in their major applied area will be placed on music probation. Music probation signifies that the student’s work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.
- If a student receives a second semester of C+ (2.33 grade points) or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a BMus degree seeking student and merit scholarship from the Shepherd School will be discontinued.

Please Note: For music history and musicology majors, a grade of C+ (2.33 grade points) or lower in any music history course is considered unsatisfactory and will be evaluated as noted above. For music theory majors, a grade of C+ (2.33 grade points) or lower in any advanced music theory course is considered unsatisfactory and will be evaluated as noted above.

Leaves of Absence and Voluntary Withdrawal
Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean’s office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Examinations
At the end of each semester, a jury examination in applied music may be given over the material studied during the semester. All degree candidates except BA students must demonstrate keyboard proficiency by examination. If students have little or no knowledge of the keyboard, they should enroll in secondary piano at the beginning of their first semester and continue study until they can meet the examination requirements.

Performance
Students are expected to perform frequently during their residence at Rice. Performance majors must present at least two full recitals. Composition and conducting students should present recitals as specified by their degree programs. Students are expected to attend both faculty and student recitals. In addition, all music majors must participate in the school’s conducted ensembles as assigned.

Transfer Credit
For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines
Students pursuing the BMus degree should be aware of the following departmental transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

Additional Information
For additional information, please see the Shepherd School of Music website: https://music.rice.edu/

Opportunities for the BMus Degree

Academic Honors
The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (p. 48) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 48). Some departments have department-specific Honors awards or designations.

BMus/MMus Honors Program
Shepherd School students who demonstrate truly exceptional musical and academic accomplishment may apply for the BMus/MMus five-year coordinated program. This program, often referred to in the school as the BMus/MMus Honors Program, allows for the completion and awarding of both the BMus and MMus degrees concurrently. Application to this program is made in the student’s fifth or sixth semester of undergraduate studies.

The same general university requirements apply, but students seeking the combined BMus/MMus degrees must complete a total of at least 150 semester hours by graduation. The number of required hours varies according to major area.

The first five semesters of course work in this program parallel the core curriculum of the bachelor’s degrees. The sixth semester is a transitional semester during which students qualify for admission to the combined program. For further information, including application procedures, see the Shepherd School Student Handbook.
Other Musical Opportunities

Lectures and Performances
A visiting lecturer series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.

Additional Information
For additional information, please see the Shepherd School of Music website: https://music.rice.edu/

Bachelor of Music (BMus) Degree with a Major in Horn Performance

Program Learning Outcomes for the BMus Degree

Upon completing the BMus degree, students will be able to:

1. Demonstrate technical and musical competence in solo performance, composition, or music-historical research appropriate to the standards of a four-year undergraduate program.
2. Possess intermediate analytical skills in music theory and an understanding of how those skills inform music performance.
3. Acquire a fundamental understanding of the relationship between music history and music performance.
4. Develop superior technical collaborative skills in the student's major area through a combination of practice, coaching, and rehearsal in large and small ensembles.

Requirements for the BMus Degree

For general university requirements, see Graduation Requirements (p. 26). Students pursuing the BMus degree must complete:

- The requirements for one major offered by the BMus degree program.
- A minimum of 120 credit hours to satisfy degree requirements.

All students pursuing the BMus degree in any major must participate in core music, applied music, and other required music courses as well as in chamber music and large ensembles, plus electives. These students are entitled to one hour of private lessons each week of each semester they are enrolled as a music major; private or group lessons beyond this may result in additional fees.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major's academic advisor, or where applicable, the department's Director of Undergraduate Studies. (Course substitutions must be formally applied and entered into Degree Works by the major's Official Certifier (https://registrar.rice.edu/facstaff/degeworks/officialcertifier/).) Students and their academic advisors should identify and clearly document the courses to be taken.

Policies for the BMus Degree

Admission

An audition, in person, is required of each undergraduate applicant. A recorded audition may be considered in lieu of a live audition in extreme circumstances. The Shepherd School faculty and the university’s Committee on Admission jointly determine admission, the latter basing its evaluation on successful academic achievement and other standards of college admission. Transfer applicants from other colleges, conservatories, and universities must audition, and take placement exams in both music history and music theory. Once admitted, their prior preparation in music is assessed, which may reduce the required period of study at Rice.

Academic Standards

Curriculum and Degree Requirements

Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

Grading Policy

A minimum grade of B- (2.67 grade points) is expected of all music students in their major applied area. A grade of C+ (2.33 grade points) or lower is considered unsatisfactory and will be evaluated in the following manner:

- A music major who receives a grade of C+ (2.33 grade points) or lower in their major applied area will be placed on music probation. Music probation signifies that the student’s work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.
- If a student receives a second semester of C+ (2.33 grade points) or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a BMus degree seeking student and merit scholarship from the Shepherd School will be discontinued.
- If a student receives a second semester of C+ (2.33 grade points) or lower in any music history course is considered unsatisfactory and will be evaluated as noted above. For music theory majors, a grade of C+ (2.33 grade points) or lower in any advanced music theory course is considered unsatisfactory and will be evaluated as noted above.

Leaves of Absence and Voluntary Withdrawal

Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean’s office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/readmission. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Examinations

At the end of each semester, a jury examination in applied music may be given over the material studied during the semester. All degree candidates except BA students must demonstrate keyboard proficiency by examination. If students have little or no knowledge of the keyboard, they should enroll in secondary piano at the beginning of their first semester and continue study until they can meet the examination requirements.

Performance

Students are expected to perform frequently during their residence at Rice. Performance majors must present at least two full recitals. Composition and conducting students should present recitals as specified by their degree programs. Students are expected to attend both faculty and student recitals. In addition, all music majors must participate in the school’s conducted ensembles as assigned.

Transfer Credit

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines

Students pursuing the BMus degree should be aware of the following departmental transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

Policies for the BMus Degree

Admission
An audition, in person, is required of each undergraduate applicant. A recorded audition may be considered in lieu of a live audition in extreme circumstances. The Shepherd School faculty and the university’s Committee on Admission jointly determine admission, the latter basing its evaluation on successful academic achievement and other standards of college admission. Transfer applicants from other colleges, conservatories, and universities must audition, and take placement exams in both music history and music theory. Once admitted, their prior preparation in music is assessed, which may reduce the required period of study at Rice.

Academic Standards
Curriculum and Degree Requirements
Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

Grading Policy
A minimum grade of B- (2.67 grade points) is expected of all music students in their major applied area. A grade of C+ (2.33 grade points) or lower is considered unsatisfactory and will be evaluated in the following manner:

- A music major who receives a grade of C+ (2.33 grade points) or lower in their major applied area will be placed on music probation. Music probation signifies that the student’s work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.
- If a student receives a second semester of C+ (2.33 grade points) or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a BMus degree seeking student and merit scholarship from the Shepherd School will be discontinued.

Please Note: For music history and musicology majors, a grade of C+ (2.33 grade points) or lower in any music history course is considered unsatisfactory and will be evaluated as noted above. For music theory majors, a grade of C+ (2.33 grade points) or lower in any advanced music theory course is considered unsatisfactory and will be evaluated as noted above.

Leaves of Absence and Voluntary Withdrawal
Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean’s office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Examinations
At the end of each semester, a jury examination in applied music may be given over the material studied during the semester. All degree candidates except BA students must demonstrate keyboard proficiency by examination. If students have little or no knowledge of the keyboard, they should enroll in secondary piano at the beginning of their first semester and continue study until they can meet the examination requirements.

Performance
Students are expected to perform frequently during their residence at Rice. Performance majors must present at least two full recitals. Composition and conducting students should present recitals as specified by their degree programs. Students are expected to attend both faculty and student recitals. In addition, all music majors must participate in the school’s conducted ensembles as assigned.

Transfer Credit
For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: https://oaav.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines
Students pursuing the BMus degree should be aware of the following departmental transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

Additional Information
For additional information, please see the Shepherd School of Music website: https://music.rice.edu/

Opportunities for the BMus Degree
Academic Honors
The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (p. 48) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 48). Some departments have department-specific Honors awards or designations.

BMus/MMus Honors Program
Shepherd School students who demonstrate truly exceptional musical and academic accomplishment may apply for the BMus/MMus five-year
coordinated program. This program, often referred to in the school as the BMus/MMus Honors Program, allows for the completion and awarding of both the BMus and MMus degrees concurrently. Application to this program is made in the student's fifth or sixth semester of undergraduate studies.

The same general university requirements apply, but students seeking the combined BMus/MMus degrees must complete a total of at least 150 semester hours by graduation. The number of required hours varies according to major area.

The first five semesters of course work in this program parallel the core curriculum of the bachelor's degrees. The sixth semester is a transitional semester during which students qualify for admission to the combined program. For further information, including application procedures, see the Shepherd School Student Handbook.

**Other Musical Opportunities**

**Lectures and Performances**

A visiting lecturer series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.

**Additional Information**

For additional information, please see the Shepherd School of Music website: [https://music.rice.edu/](https://music.rice.edu/).

**Bachelor of Music (BMus) Degree with a Major in Music Theory**

**Program Learning Outcomes for the BMus Degree**

Upon completing the BMus degree, students will be able to:

1. Demonstrate technical and musical competence in solo performance, composition, or music-historical research appropriate to the standards of a four-year undergraduate program.
2. Possess intermediate analytical skills in music theory and an understanding of how those skills inform music performance.
3. Acquire a fundamental understanding of the relationship between music history and music performance.
4. Develop superior technical collaborative skills in the student's major area through a combination of practice, coaching, and rehearsal in large and small ensembles.

**Requirements for the BMus Degree**

For general university requirements, see Graduation Requirements (p. 26). Students pursuing the BMus degree must complete:

- The requirements for one major offered by the BMus degree program.
- A minimum of 120 credit hours to satisfy degree requirements.

All students pursuing the BMus degree in any major must participate in core music, applied music, and other required music courses as well as in chamber music and large ensembles, plus electives. These students are entitled to one hour of private lessons each week of each semester they are enrolled as a music major; private or group lessons beyond this may result in additional fees.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major's academic advisor, or where applicable, the department's Director of Undergraduate Studies. (Course substitutions must be formally applied and entered into Degree Works by the major's Official Certifier [https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/].) Students and their academic advisors should identify and clearly document the courses to be taken.

Recommended
It is recommended, though not required, that music students complete MUSI 338, in addition to the requirements listed above.

Policies for the BMus Degree
Admission
An audition, in person, is required of each undergraduate applicant. A recorded audition may be considered in lieu of a live audition in extreme circumstances. The Shepherd School faculty and the university’s Committee on Admission jointly determine admission, the latter basing its evaluation on successful academic achievement and other standards of college admission. Transfer applicants from other colleges, conservatories, and universities must audition, and take placement exams in both music history and music theory. Once admitted, their prior preparation in music is assessed, which may reduce the required period of study at Rice.

Academic Standards
Curriculum and Degree Requirements
Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

Grading Policy
A minimum grade of B- (2.67 grade points) is expected of all music students in their major applied area. A grade of C+ (2.33 grade points) or lower is considered unsatisfactory and will be evaluated in the following manner:

- A music major who receives a grade of C+ (2.33 grade points) or lower in their major applied area will be placed on music probation. Music probation signifies that the student's work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.
- If a student receives a second semester of C+ (2.33 grade points) or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a BMus degree seeking student and merit scholarship from the Shepherd School will be discontinued.

Please Note: For music history and musicology majors, a grade of C+ (2.33 grade points) or lower in any music history course is considered unsatisfactory and will be evaluated as noted above. For music theory majors, a grade of C+ (2.33 grade points) or lower in any advanced music theory course is considered unsatisfactory and will be evaluated as noted above.

Leaves of Absence and Voluntary Withdrawal
Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean's office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to
to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Examinations
At the end of each semester, a jury examination in applied music may be given over the material studied during the semester. All degree candidates except BA students must demonstrate keyboard proficiency by examination. If students have little or no knowledge of the keyboard, they should enroll in secondary piano at the beginning of their first semester and continue study until they can meet the examination requirements.

Performance
Students are expected to perform frequently during their residence at Rice. Performance majors must present at least two full recitals. Composition and conducting students should present recitals as specified by their degree programs. Students are expected to attend both faculty and student recitals. In addition, all music majors must participate in the school’s conducted ensembles as assigned.

Transfer Credit
For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines
Students pursuing the BMus degree should be aware of the following departmental transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

Additional Information
For additional information, please see the Shepherd School of Music website: https://music.rice.edu/

Opportunities for the BMus Degree

Academic Honors
The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (p. 48) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 48). Some departments have department-specific Honors awards or designations.

BMus/MMus Honors Program
Shepherd School students who demonstrate truly exceptional musical and academic accomplishment may apply for the BMus/MMus five-year coordinated program. This program, often referred to in the school as the BMus/MMus Honors Program, allows for the completion and awarding of both the BMus and MMus degrees concurrently. Application to this program is made in the student’s fifth or sixth semester of undergraduate studies.

The same general university requirements apply, but students seeking the combined BMus/MMus degrees must complete a total of at least 150 semester hours by graduation. The number of required hours varies according to major area.

The first five semesters of course work in this program parallel the core curriculum of the bachelor’s degrees. The sixth semester is a transitional semester during which students qualify for admission to the combined program. For further information, including application procedures, see the Shepherd School Student Handbook.

Other Musical Opportunities

Lectures and Performances
A visiting lecturer series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.

Additional Information
For additional information, please see the Shepherd School of Music website: https://music.rice.edu/

Bachelor of Music (BMus) Degree with a Major in Oboe Performance

Program Learning Outcomes for the BMus Degree

Upon completing the BMus degree, students will be able to:

1. Demonstrate technical and musical competence in solo performance, composition, or music-historical research appropriate to the standards of a four-year undergraduate program.
2. Possess intermediate analytical skills in music theory and an understanding of how those skills inform music performance.
3. Acquire a fundamental understanding of the relationship between music history and music performance.
4. Develop superior technical collaborative skills in the student’s major area through a combination of practice, coaching, and rehearsal in large and small ensembles.

Requirements for the BMus Degree

For general university requirements, see Graduation Requirements (p. 26). Students pursuing the BMus degree must complete:

- The requirements for one major offered by the BMus degree program.
- A minimum of 120 credit hours to satisfy degree requirements.

All students pursuing the BMus degree in any major must participate in core music, applied music, and other required music courses as well as in chamber music and large ensembles, plus electives. These students are entitled to one hour of private lessons each week of each semester they are enrolled as a music major; private or group lessons beyond this may result in additional fees.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor, or where applicable, the department’s Director of Undergraduate Studies. (Course substitutions must be formally applied and entered into Degree Works by the major’s
Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/). Students and their academic advisors should identify and clearly document the courses to be taken.

**Footnotes and Additional Information**

* Includes coursework completed as distribution credit, FWIS, LPAP, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The “hours outside of the major” requirement may include all of the above university requirements.

**Policies for the BMus Degree**

**Admission**

An audition, in person, is required of each undergraduate applicant. A recorded audition may be considered in lieu of a live audition in extreme circumstances. The Shepherd School faculty and the university's Committee on Admission jointly determine admission, the latter basing its evaluation on successful academic achievement and other standards of college admission. Transfer applicants from other colleges, conservatories, and universities must audition, and take placement exams in both music history and music theory. Once admitted, their prior preparation in music is assessed, which may reduce the required period of study at Rice.

**Academic Standards**

**Curriculum and Degree Requirements**

Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

**Grading Policy**

A minimum grade of B- (2.67 grade points) is expected of all music students in their major applied area. A grade of C+ (2.33 grade points) or lower is considered unsatisfactory and will be evaluated in the following manner:

- A music major who receives a grade of C+ (2.33 grade points) or lower in their major applied area will be placed on music probation. Music probation signifies that the student’s work has been...
sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

- If a student receives a second semester of C+ (2.33 grade points) or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a BMus degree seeking student and merit scholarship from the Shepherd School will be discontinued.

Please Note: For music history and musicology majors, a grade of C+ (2.33 grade points) or lower in any music history course is considered unsatisfactory and will be evaluated as noted above. For music theory majors, a grade of C+ (2.33 grade points) or lower in any advanced music theory course is considered unsatisfactory and will be evaluated as noted above.

Leaves of Absence and Voluntary Withdrawal
Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean's office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Examinations
At the end of each semester, a jury examination in applied music may be given over the material studied during the semester. All degree candidates except BA students must demonstrate keyboard proficiency by examination. If students have little or no knowledge of the keyboard, they should enroll in secondary piano at the beginning of their first semester and continue study until they can meet the examination requirements.

Performance
Students are expected to perform frequently during their residence at Rice. Performance majors must present at least two full recitals. Composition and conducting students should present recitals as specified by their degree programs. Students are expected to attend both faculty and student recitals. In addition, all music majors must participate in the school's conducted ensembles as assigned.

Transfer Credit
For Rice University's policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines
Students pursuing the BMus degree should be aware of the following departmental transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program's official transfer credit advisor) on an individual case-by-case basis.

Additional Information
For additional information, please see the Shepherd School of Music website: https://music.rice.edu/

Opportunities for the BMus Degree

Academic Honors
The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 48) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 48). Some departments have department-specific Honors awards or designations.

BMus/MMus Honors Program
Shepherd School students who demonstrate truly exceptional musical and academic accomplishment may apply for the BMus/MMus five-year coordinated program. This program, often referred to in the school as the BMus/MMus Honors Program, allows for the completion and awarding of both the BMus and MMus degrees concurrently. Application to this program is made in the student's fifth or sixth semester of undergraduate studies.

The same general university requirements apply, but students seeking the combined BMus/MMus degrees must complete a total of at least 150 semester hours by graduation. The number of required hours varies according to major area.

The first five semesters of course work in this program parallel the core curriculum of the bachelor's degrees. The sixth semester is a transitional semester during which students qualify for admission to the combined program. For further information, including application procedures, see the Shepherd School Student Handbook.

Other Musical Opportunities
Lectures and Performances
A visiting lecturer series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.

Additional Information
For additional information, please see the Shepherd School of Music website: https://music.rice.edu/

Bachelor of Music (BMus) Degree with a Major in Percussion Performance

Program Learning Outcomes for the BMus Degree
Upon completing the BMus degree, students will be able to:

1. Demonstrate technical and musical competence in solo performance, composition, or music-historical research appropriate to the standards of a four-year undergraduate program.
2. Possess intermediate analytical skills in music theory and an understanding of how those skills inform music performance.
3. Acquire a fundamental understanding of the relationship between music history and music performance.
4. Develop superior technical collaborative skills in the student's major area through a combination of practice, coaching, and rehearsal in large and small ensembles.

Requirements for the BMus Degree

For general university requirements, see Graduation Requirements (p. 26). Students pursuing the BMus degree must complete:

- The requirements for one major offered by the BMus degree program.
- A minimum of 120 credit hours to satisfy degree requirements.

All students pursuing the BMus degree in any major must participate in core music, applied music, and other required music courses as well as in chamber music and large ensembles, plus electives. These students are entitled to one hour of private lessons each week of each semester they are enrolled as a music major; private or group lessons beyond this may result in additional fees.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor, or where applicable, the department’s Director of Undergraduate Studies. (Course substitutions must be formally applied and entered into Degree Works by the major’s Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/).) Students and their academic advisors should identify and clearly document the courses to be taken.

Opportunities for the BMus Degree

Academic Honors
The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 48) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 48). Some departments have department-specific Honors awards or designations.

BMus/MMus Honors Program
Shepherd School students who demonstrate truly exceptional musical and academic accomplishment may apply for the BMus/MMus five-year coordinated program. This program, often referred to in the school as the BMus/MMus Honors Program, allows for the completion and awarding of both the BMus and MMus degrees concurrently. Application to this program is made in the student's fifth or sixth semester of undergraduate studies.

The same general university requirements apply, but students seeking the combined BMus/MMus degrees must complete a total of at least
150 semester hours by graduation. The number of required hours varies according to major area.

The first five semesters of coursework in this program parallel the core curriculum of the bachelor’s degrees. The sixth semester is a transitional semester during which students qualify for admission to the combined program. For further information, including application procedures, see the Shepherd School Student Handbook.

Other Musical Opportunities

Lectures and Performances

A visiting lecturer series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.

Additional Information

For additional information, please see the Shepherd School of Music website: https://music.rice.edu/

Bachelor of Music (BMus) Degree with a Major in Trombone Performance

Program Learning Outcomes for the BMus Degree

Upon completing the BMus degree, students will be able to:

1. Demonstrate technical and musical competence in solo performance, composition, or music-historical research appropriate to the standards of a four-year undergraduate program.
2. Possess intermediate analytical skills in music theory and an understanding of how those skills inform music performance.
3. Acquire a fundamental understanding of the relationship between music history and music performance.
4. Develop superior technical collaborative skills in the student’s major area through a combination of practice, coaching, and rehearsal in large and small ensembles.

Requirements for the BMus Degree

For general university requirements, see Graduation Requirements (p. 26). Students pursuing the BMus degree must complete:

- The requirements for one major offered by the BMus degree program.
- A minimum of 120 credit hours to satisfy degree requirements.

All students pursuing the BMus degree in any major must participate in core music, applied music, and other required music courses as well as in chamber music and large ensembles, plus electives. These students are entitled to one hour of private lessons each week of each semester they are enrolled as a music major; private or group lessons beyond this may result in additional fees.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor, or where applicable, the department’s Director of Undergraduate Studies. (Course substitutions must be formally applied and entered into Degree Works by the major’s Official Certifier (https://registrar.rice.edu/facstaff/degreqwork/officialcertifier/). Students and their academic advisors should identify and clearly document the courses to be taken.

Total Credit Hours Required for the Major in Trombone Performance  79

University Graduation Requirements (p. 26) *  41

Total Credit Hours  120

Footnotes and Additional Information

* Includes coursework completed as distribution credit, FWIS, LPAP, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The "hours outside of the major" requirement may include all of the above university requirements.

Policies for the BMus Degree

Admission

An audition, in person, is required of each undergraduate applicant. A recorded audition may be considered in lieu of a live audition in extreme circumstances. The Shepherd School faculty and the university’s Committee on Admission jointly determine admission, the latter basing its evaluation on successful academic achievement and other standards of college admission. Transfer applicants from other colleges, conservatories, and universities must audition, and take placement exams in both music history and music theory. Once admitted, their prior preparation in music is assessed, which may reduce the required period of study at Rice.

Academic Standards

Curriculum and Degree Requirements

Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

Grading Policy

A minimum grade of B- (2.67 grade points) is expected of all music students in their major applied area. A grade of C+ (2.33 grade points) or lower is considered unsatisfactory and will be evaluated in the following manner:

- A music major who receives a grade of C+ (2.33 grade points) or lower in their major applied area will be placed on music probation. Music probation signifies that the student’s work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.
- If a student receives a second semester of C+ (2.33 grade points) or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a BMus degree seeking student and merit scholarship from the Shepherd School will be discontinued.

Please Note: For music history and musicology majors, a grade of C+ (2.33 grade points) or lower in any music history course is considered unsatisfactory and will be evaluated as noted above. For music theory majors, a grade of C+ (2.33 grade points) or lower in any advanced music theory course is considered unsatisfactory and will be evaluated as noted above.

Leaves of Absence and Voluntary Withdrawal

Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean’s office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Examinations

At the end of each semester, a jury examination in applied music may be given over the material studied during the semester. All degree candidates except BA students must demonstrate keyboard proficiency by examination. If students have little or no knowledge of the keyboard, they should enroll in secondary piano at the beginning of their first semester and continue study until they can meet the examination requirements.

Performance

Students are expected to perform frequently during their residence at Rice. Performance majors must present at least two full recitals. Composition and conducting students should present recitals as specified by their degree programs. Students are expected to attend both faculty and student recitals. In addition, all music majors must participate in the school’s conducted ensembles as assigned.

Transfer Credit

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their departmental transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines

Students pursuing the BMus degree should be aware of the following departmental transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

Additional Information

For additional information, please see the Shepherd School of Music website: https://music.rice.edu/
Opportunities for the BMus Degree

Academic Honors

The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, see Latin Honors (p. 48) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 48). Some departments have department-specific Honors awards or designations.

BMus/MMus Honors Program

Shepherd School students who demonstrate truly exceptional musical and academic accomplishment may apply for the BMus/MMus five-year coordinated program. This program, often referred to in the school as the BMus/MMus Honors Program, allows for the completion and awarding of both the BMus and MMus degrees concurrently. Application to this program is made in the student’s fifth or sixth semester of undergraduate studies.

The same general university requirements apply, but students seeking the combined BMus/MMus degrees must complete a total of at least 150 semester hours by graduation. The number of required hours varies according to major area.

The first five semesters of course work in this program parallel the core curriculum of the bachelor's degrees. The sixth semester is a transitional semester during which students qualify for admission to the combined program. It is recommended, though not required, that music students complete MUSI 305 and MUSI 403, in addition to the requirements listed above.

Policies for the BMus Degree

Admission

An audition, in person, is required of each undergraduate applicant. A recorded audition may be considered in lieu of a live audition in extreme circumstances. The Shepherd School faculty and the university’s Committee on Admission jointly determine admission, the latter basing its evaluation on successful academic achievement and other standards of college admission. Transfer applicants from other colleges, conservatories, and universities must audition, and take placement exams in both music history and music theory. Once admitted, their prior preparation in music is assessed, which may reduce the required period of study at Rice.

Academic Standards

Curriculum and Degree Requirements

Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

Grading Policy

A minimum grade of B- (2.67 grade points) is expected of all music students in their major applied area. A grade of C+ (2.33 grade points) or lower is considered unsatisfactory and will be evaluated in the following manner:

• A music major who receives a grade of C+ (2.33 grade points) or lower in their major applied area will be placed on music probation. Music probation signifies that the student’s work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

• If a student receives a second semester of C+ (2.33 grade points) or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a BMus degree seeking student and merit scholarship from the Shepherd School will be discontinued.

Please Note: For music history and musicology majors, a grade of C+ (2.33 grade points) or lower in any music history course is considered unsatisfactory and will be evaluated as noted above. For music theory majors, a grade of C+ (2.33 grade points) or lower in any advanced music theory course is considered unsatisfactory and will be evaluated as noted above.

Leaves of Absence and Voluntary Withdrawal

Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean’s office before the first day of classes in the semester for which leave is requested.
Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Examinations
At the end of each semester, a jury examination in applied music may be given over the material studied during the semester. All degree candidates except BA students must demonstrate keyboard proficiency by examination. If students have little or no knowledge of the keyboard, they should enroll in secondary piano at the beginning of their first semester and continue study until they can meet the examination requirements.

Performance
Students are expected to perform frequently during their residence at Rice. Performance majors must present at least two full recitals. Composition and conducting students should present recitals as specified by their degree programs. Students are expected to attend both faculty and student recitals. In addition, all music majors must participate in the school’s conducted ensembles as assigned.

Transfer Credit
For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines
Students pursuing the BMus degree should be aware of the following departmental transfer credit guidelines:

• Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

Program Learning Outcomes for the BMus Degree
Upon completing the BMus degree, students will be able to:

1. Demonstrate technical and musical competence in solo performance, composition, or music-historical research appropriate to the standards of a four-year undergraduate program.
2. Possess intermediate analytical skills in music theory and an understanding of how those skills inform music performance.
3. Acquire a fundamental understanding of the relationship between music history and music performance.
4. Develop superior technical collaborative skills in the student’s major area through a combination of practice, coaching, and rehearsal in large and small ensembles.

Requirements for the BMus Degree
For general university requirements, see Graduation Requirements (p. 26). Students pursuing the BMus degree must complete:

• The requirements for one major offered by the BMus degree program.
• A minimum of 120 credit hours to satisfy degree requirements.

All students pursuing the BMus degree in any major must participate in core music, applied music, and other required music courses as well as in chamber music and large ensembles, plus electives. These students are entitled to one hour of private lessons each week of each semester they are enrolled as a music major; private or group lessons beyond this may result in additional fees.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor, or where applicable, the
Bachelor of Music (BMus) Degree with a Major in Viola Performance

The Department of Undergraduate Studies requires that students and their academic advisors identify and clearly document the courses to be taken.

### Footnotes and Additional Information

* Footnotes and Additional Information include coursework completed as distribution credit, FWIS, LPAP, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The “hours outside of the major” requirement may include all of the above university requirements.

### Policies for the BMus Degree

#### Admission

An audition, in person, is required of each undergraduate applicant. A recorded audition may be considered in lieu of a live audition in extreme circumstances. The Shepherd School faculty and the university’s Committee on Admission jointly determine admission, the latter basing its evaluation on successful academic achievement and other standards of college admission. Transfer applicants from other colleges, conservatories, and universities must audition, and take placement exams in both music history and music theory. Once admitted, their prior preparation in music is assessed, which may reduce the required period of study at Rice.

#### Academic Standards

### Curriculum and Degree Requirements

Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

#### Grading Policy

A minimum grade of B- (2.67 grade points) is expected of all music students in their major applied area. A grade of C+ (2.33 grade points) or lower is considered unsatisfactory and will be evaluated in the following manner:

- A music major who receives a grade of C+ (2.33 grade points) or lower in their major applied area will be placed on music probation. Music probation signifies that the student’s work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.
- If a student receives a second semester of C+ (2.33 grade points) or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a BMus degree seeking...
Please Note: For music history and musicology majors, a grade of C+ (2.33 grade points) or lower in any music history course is considered unsatisfactory and will be evaluated as noted above. For music theory majors, a grade of C+ (2.33 grade points) or lower in any advanced music theory course is considered unsatisfactory and will be evaluated as noted above.

Leaves of Absence and Voluntary Withdrawal
Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean’s office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Examinations
At the end of each semester, a jury examination in applied music may be given over the material studied during the semester. All degree candidates except BA students must demonstrate keyboard proficiency by examination. If students have little or no knowledge of the keyboard, they should enroll in secondary piano at the beginning of their first semester and continue study until they can meet the examination requirements.

Performance
Students are expected to perform frequently during their residence at Rice. Performance majors must present at least two full recitals. Composition and conducting students should present recitals as specified by their degree programs. Students are expected to attend both faculty and student recitals. In addition, all music majors must participate in the school’s conducted ensembles as assigned.

Transfer Credit
For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines
Students pursuing the BMus degree should be aware of the following departmental transfer credit guidelines:
- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

Additional Information
For additional information, please see the Shepherd School of Music website: https://music.rice.edu/.

Opportunities for the BMus Degree

Academic Honors
The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (p. 48) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 48). Some departments have department-specific Honors awards or designations.

BMus/MMus Honors Program
Shepherd School students who demonstrate truly exceptional musical and academic accomplishment may apply for the BMus/MMus five-year coordinated program. This program, often referred to in the school as the BMus/MMus Honors Program, allows for the completion and awarding of both the BMus and MMus degrees concurrently. Application to this program is made in the student’s fifth or sixth semester of undergraduate studies.

The same general university requirements apply, but students seeking the combined BMus/MMus degrees must complete a total of at least 150 semester hours by graduation. The number of required hours varies according to major area.

The first five semesters of course work in this program parallel the core curriculum of the bachelor’s degrees. The sixth semester is a transitional semester during which students qualify for admission to the combined program. For further information, including application procedures, see the Shepherd School Student Handbook.

Other Musical Opportunities

Lectures and Performances
A visiting lecturer series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.

Additional Information
For additional information, please see the Shepherd School of Music website: https://music.rice.edu/.

Bachelor of Music (BMus) Degree

with a Major in Violin Performance

Program Learning Outcomes for the BMus Degree

Upon completing the BMus degree, students will be able to:

1. Demonstrate technical and musical competence in solo performance, composition, or music-historical research appropriate to the standards of a four-year undergraduate program.
2. Possess intermediate analytical skills in music theory and an understanding of how those skills inform music performance.
3. Acquire a fundamental understanding of the relationship between music history and music performance.
Bachelor of Music (BMus) Degree with a Major in Violin Performance

4. Develop superior technical collaborative skills in the student’s major area through a combination of practice, coaching, and rehearsal in large and small ensembles.

Requirements for the BMus Degree

For general university requirements, see Graduation Requirements (p. 26).

Students pursuing the BMus degree must complete:

• The requirements for one major offered by the BMus degree program.
• A minimum of 120 credit hours to satisfy degree requirements.

All students pursuing the BMus degree in any major must participate in core music, applied music, and other required music courses as well as in chamber music and large ensembles, plus electives. These students are entitled to one hour of private lessons each week of each semester they are enrolled as a music major; private or group lessons beyond this may result in additional fees.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor, or where applicable, the department’s Director of Undergraduate Studies. (Course substitutions must be formally applied and entered into Degree Works by the major’s Official Certifier [https://registrar.rice.edu/facstaff/degeworks/officialcertifier/].) Students and their academic advisors should identify and clearly document the courses to be taken.

Students must complete and pass the Piano Proficiency Exam

Total Credit Hours Required for the Major in Vocal Performance  93

University Graduation Requirements (p. 26) *  27

Total Credit Hours  120

Footnotes and Additional Information
* Includes coursework completed as distribution credit, FWIS, LPAR upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The "hours outside of the major" requirement may include all of the above university requirements.

Policies for the BMus Degree

Admission
An audition, in person, is required of each undergraduate applicant. A recorded audition may be considered in lieu of a live audition in extreme circumstances. The Shepherd School faculty and the university’s Committee on Admission jointly determine admission, the latter basing its evaluation on successful academic achievement and other standards of college admission. Transfer applicants from other colleges, conservatories, and universities must audition, and take placement exams in both music history and music theory. Once admitted, their prior preparation in music is assessed, which may reduce the required period of study at Rice.

Academic Standards
Curriculum and Degree Requirements
Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

Grading Policy
A minimum grade of B- (2.67 grade points) is expected of all music students in their major applied area. A grade of C+ (2.33 grade points) or lower is considered unsatisfactory and will be evaluated in the following manner:

- A music major who receives a grade of C+ (2.33 grade points) or lower in their major applied area will be placed on music probation. Music probation signifies that the student’s work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.
- If a student receives a second semester of C+ (2.33 grade points) or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a BMus degree seeking student and merit scholarship from the Shepherd School will be discontinued.

Please Note: For music history and musicology majors, a grade of C+ (2.33 grade points) or lower in any music history course is considered unsatisfactory and will be evaluated as noted above. For music theory majors, a grade of C+ (2.33 grade points) or lower in any advanced music theory course is considered unsatisfactory and will be evaluated as noted above.

Leaves of Absence and Voluntary Withdrawal
Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean’s office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Examinations
At the end of each semester, a jury examination in applied music may be given over the material studied during the semester. All degree candidates except BA students must demonstrate keyboard proficiency by examination. If students have little or no knowledge of the keyboard, they should enroll in secondary piano at the beginning of their first semester and continue study until they can meet the examination requirements.

Performance
Students are expected to perform frequently during their residence at Rice. Performance majors must present at least two full recitals. Composition and conducting students should present recitals as specified by their degree programs. Students are expected to attend both faculty and student recitals. In addition, all music majors must participate in the school’s conducted ensembles as assigned.

Transfer Credit
For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines
Students pursuing the BMus degree should be aware of the following departmental transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

Additional Information
For additional information, please see the Shepherd School of Music website: https://music.rice.edu/
Opportunities for the BMus Degree

Academic Honors
The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 48) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 48). Some departments have department-specific Honors awards or designations.

BMus/MMus Honors Program
Shepherd School students who demonstrate truly exceptional musical and academic accomplishment may apply for the BMus/MMus five-year coordinated program. This program, often referred to in the school as the BMus/MMus Honors Program, allows for the completion and awarding of both the BMus and MMus degrees concurrently. Application to this program is made in the student’s fifth or sixth semester of undergraduate studies.

The same general university requirements apply, but students seeking the combined BMus/MMus degrees must complete a total of at least 150 semester hours by graduation. The number of required hours varies according to major area.

The first five semesters of course work in this program parallel the core curriculum of the bachelor’s degrees. The sixth semester is a transitional semester during which students qualify for admission to the combined program. For further information, including application procedures, see the Shepherd School Student Handbook.

Other Musical Opportunities
Lectures and Performances
A visiting lecturer series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.

Additional Information
For additional information, please see the Shepherd School of Music website: https://music.rice.edu/

Doctor of Musical Arts (DMA) Degree in the field of Cello Performance

Program Learning Outcomes for the DMA Degree
Upon completing the DMA degree, students will be able to:

1. Demonstrate technical and musical competence in performance or composition at a professional level.
2. Develop highly developed analytical skills in advanced music theory and a profound understanding of how those skills inform music performance.
3. Demonstrate a thorough understanding of the relationship between music history and music performance with greater familiarity of a wide variety of historical and contemporary performance practices.
4. Develop career development skills that complement their professional-level performance skills.
5. Develop working knowledge of and have experience with both classroom teaching and studio teaching methods at the conservatory and university levels.

Requirements for the DMA Degree
For general university requirements, see Doctoral Degrees (p. 65). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55). Students pursuing the DMA degree in all fields of study must complete:

- A minimum of 90 credit hours beyond the bachelor’s degree to satisfy degree requirements.

- Piano proficiency
Aural skills proficiency
Written and oral qualifying examinations

Document

MUSI 750  DOCTORAL DOCUMENT (minimum of 2 semesters) 7 3

Total Credit Hours 90

Footnotes and Additional Information

1 At least six of the required eight semesters of MUSI 695 Violoncello for Majors-Advanced must be taken during residency as a DMA student.

2 Students pursuing the DMA degree on a string instrument must be enrolled in MUSI 635 Advanced Orchestra during four of their six semesters of residency. The student in consultation with their major teacher may choose from Chamber Orchestra, Symphony Orchestra, Opera Orchestra or the Modular Ensemble Framework (MEF) for up to four of the eight rotations. They may also elect to enroll in one or two additional semesters or be required to do so by their major teacher. The student in consultation with their major teacher will choose the semesters for participation.

3 Five (5) doctoral recitals performed while in residency as a DMA student as follows:
   - Two (2) Solo recitals
   - One (1) Lecture recital
   - One (1) Chamber Music recital
   - One (1) Concerto with orchestra

4 4 courses (3 credit hours each) comprise the 12 credit hours required of Music History coursework.
2 courses (3 credit hours each) comprise the 6 credit hours required of Music Theory coursework.

5 Graduate academic coursework taken elsewhere may be transferred with the approval of the relevant Department Chair. Additional hours of required performance coursework may not count toward the elective requirement. A maximum of three (3) credit hours of MUSI 649 Graduate Independent Study can count towards degree requirements.

6 Diagnostic examinations in music history and music theory are given prior to admission to The Shepherd School, and play an important role in the admissions decision. Weaknesses in these areas will be addressed by courses designated by the chairs of the respective departments. These will count within either the Academic Coursework or Elective category. Doctoral students must also pass proficiency exams in aural skills and piano. These exams are scheduled at the beginning of each academic year. If required, MUSI 432 Graduate Aural Skills Review and/or MUSI 281 Secondary Piano must be taken, but neither will count towards the total number of hours required for the degree.

7 The doctoral document must be publicly defended.

Academic Coursework
Academic Coursework is comprised of a minimum of 4 courses (12 credit hours) from Music History course offerings and a minimum of 2 courses (6 credit hours) from Music Theory course offerings.

Shepherd School of Music Graduate Program Handbook

The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, the Shepherd School of Music publishes a graduate program handbook, which can be found here: https://gradhandbooks.rice.edu/2019_20/Shepherd_School_of_Music_Graduate_Handbook.pdf

Academic Standards

Curriculum and Degree Requirements

Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

Grading Policy

A minimum grade of B- (2.67 grade points) is expected of all music students in their major applied area. A grade of C+ (2.33 grade points) or lower is considered unsatisfactory and will be evaluated in the following manner:

A music major who receives a grade of C+ (2.33 grade points) or lower in their major applied area will be placed on music probation. Music probation signifies that the student's work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of C+ (2.33 grade points) or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

Note: For music history and musicology majors a grade of C+ (2.33 grade points) or lower in any music history course is considered unsatisfactory and will be evaluated as above.

Graduate degree requirement: a minimum overall grade point average of 2.67 is necessary for graduation.

Leaves of Absence and Voluntary Withdrawal

Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean's office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudit. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Doctor of Musical Arts (DMA) Degree in the field of Composition

Program Learning Outcomes for the DMA Degree

Upon completing the DMA degree, students will be able to:

1. Demonstrate technical and musical competence in performance or composition at a professional level.
2. Develop highly developed analytical skills in advanced music theory and a profound understanding of how those skills inform music performance.
3. Demonstrate a thorough understanding of the relationship between music history and music performance with greater familiarity of a wide variety of historical and contemporary performance practices.
4. Develop career development skills that complement their professional-level performance skills.
5. Develop working knowledge of and have experience with both classroom teaching and studio teaching methods at the conservatory and university levels.
Requirements for the DMA Degree

For general university requirements, see Doctoral Degrees (p. 65). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55). Students pursuing the DMA degree in all fields of study must complete:

- A minimum of 90 credit hours beyond the bachelor’s degree to satisfy degree requirements.

</thead>
</table>

Composition Requirements

|MUSI 601| COMPOSITION FOR MAJORS ADVANCED AND GRADUATES (minimum of 6 semesters) | 3            |
|MUSI 603| GRADUATE COMPOSITION SEMINAR (minimum of 6 semesters) | 1            |
|MUSI 605| ADVANCED ELECTRONIC AND COMPUTER MUSIC SYSTEMS | 3            |
|MUSI 606| ADVANCED COMPUTER SOUND SYNTHESIS | 3            |
|MUSI 751| DOCTORAL SOLO RECITAL | 0            |

Performance Requirements

- Select 8 credit hours from Performance Coursework | 8            |

DMA Core Requirements

|MUSI 611| CLASSROOM PEDAGOGY | 3            |
|MUSI 711| ANALYTICAL APPROACHES | 3            |
|MUSI 733| DOCTORAL SEMINAR I: CAREER SKILLS | 3            |
|MUSI 735| DOCTORAL SEMINAR II: REPERTORY | 3            |
|MUSI 738| DOCTORAL INDIVIDUAL PROJECT | 3            |

Academic Coursework

- Select 6 courses from the Music History course offerings (see course list below) | 18           |
- Select 4 courses from the Music Theory course offerings (see course list below) | 12           |

Elective Requirements

- Select 7 credit hours at the 300-level or above | 7            |

Classroom Teaching

Students must complete the Classroom Teaching requirement

Examinations

Students must demonstrate the following proficiencies:

- Piano proficiency
- Aural skills proficiency
- Written and oral qualifying examinations

Doctoral Document

MUSI 800 | DISSERTATION (2 semesters) | 3            |

Total Credit Hours | 96            |

Footnotes and Additional Information

1. Two (2) doctoral recitals of original compositions.
2. Performance coursework may be satisfied by any combination of private instrumental and/or vocal study (such as MUSI 251:297 except MUSI 281 Secondary Piano, MUSI 351:373, MUSI 381:398), classes in conducting or score reading, or performance in large ensembles or sonata class (such as MUSI 334, MUSI 436, MUSI 444, MUSI 502, MUSI 514, MUSI 585, or MUSI 640). Piano lessons are strongly recommended.
3. 6 courses (3 credit hours each) comprise the 18 credit hours required of Music History coursework.
4. 4 courses (3 credit hours each) comprise the 12 credit hours required of Music Theory coursework.
5. Graduate academic coursework taken elsewhere may be transferred with the approval of the relevant Department Chair. Additional hours of required coursework may not count toward the elective requirement. A maximum of three (3) credit hours of MUSI 649 Graduate Independent Study can count towards degree requirements.
6. Diagnostic examinations in music history and music theory are given prior to admission to The Shepherd School, and play an important role in the admissions decision. Weaknesses in these areas will be addressed by courses designated by the chairs of the respective departments. These will count within either the Academic Coursework or Elective category. Doctoral students must also pass proficiency exams in aural skills and piano. These exams are scheduled at the beginning of each academic year. If required, MUSI 432 Graduate Aural Skills Review and/or MUSI 281 Secondary Piano must be taken, but neither will count towards the total number of hours required for the degree.
7. Students are required to write an original composition of substantial dimensions. The composition must be publicly defended and submitted, following the university’s regulations and procedures for candidacy, oral examination, and thesis (p. 65).

Academic Coursework

Academic Coursework is comprised of a minimum of 6 courses (18 credit hours) from Music History course offerings and a minimum of 4 courses (12 credit hours) from Music Theory course offerings.

Policies for the DMA Degree
Shepherd School of Music Graduate Program Handbook

The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, the Shepherd School of Music publishes a graduate program handbook, which can be found here: https://gradhandbooks.rice.edu/2019_20/Shepherd_School_of_Music_Graduate_Handbook.pdf

Academic Standards
Curriculum and Degree Requirements
Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

Grading Policy
A minimum grade of B- (2.67 grade points) is expected of all music students in their major applied area. A grade of C+ (2.33 grade points) or lower is considered unsatisfactory and will be evaluated in the following manner:

A music major who receives a grade of C+ (2.33 grade points) or lower in their major applied area will be placed on music probation. Music probation signifies that the student's work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of C+ (2.33 grade points) or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

Note: For music history and musicology majors a grade of C+ (2.33 grade points) or lower in any music history course is considered unsatisfactory and will be evaluated as above.

Graduate degree requirement: a minimum overall grade point average of 2.67 is necessary for graduation.

Leaves of Absence and Voluntary Withdrawal
Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean's office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Additional Information
For additional information, please see the Shepherd School of Music website: https://music.rice.edu

Opportunities for the DMA Degree
Other Musical Opportunities
Lectures and Performances
A visiting lecturer series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.

- Aural skills proficiency
- Written and oral qualifying examinations

Doctoral Document

MUSI 750 | DOCTORAL DOCUMENT (minimum of 2 semesters) | 3 |

Total Credit Hours | 90 |

Footnotes and Additional Information

1. At least six of the required eight semesters of MUSI 697 Double Bass for Majors-Advanced must be taken during residency as a DMA student.
2. Students pursuing the DMA degree on a string instrument must be enrolled in MUSI 635 Advanced Orchestra during four of their six semesters of residency. Within those four semesters are eight rotations which are generally fulfilled by two chamber orchestra rotations each semester. The student in consultation with their major teacher may choose from Chamber Orchestra, Symphony Orchestra, Opera Orchestra or the Modular Ensemble Framework (MEF) for up to four of the eight rotations. They may also elect to enroll in one or two additional semesters or be required to do so by their major teacher. The student in consultation with their major teacher will choose the semesters for participation.
3. Four (4) doctoral recitals performed while in residency as a DMA student as follows:
   - Two (2) Solo recitals
   - One (1) Lecture recital
   - One (1) Chamber Music recital
4. 4 courses (3 credit hours each) comprise the 12 credit hours required of Music History coursework.
5. 2 courses (3 credit hours each) comprise the 6 credit hours required of Music Theory coursework.

Graduate academic coursework taken elsewhere may be transferred with the approval of the relevant Department Chair. Additional hours of required performance coursework may not count toward the elective requirement. A maximum of three (3) credit hours of MUSI 649 Graduate Independent Study can count towards degree requirements.
Diagnostic examinations in music history and music theory are given prior to admission to The Shepherd School, and play an important role in the admissions decision. Shepherd School of Music Graduate Program Handbook

The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, the Shepherd School of Music publishes a graduate program handbook, which can be found here: https://gradhandbooks.rice.edu/2019_20/Shepherd_School_of_Music_Graduate_Handbook.pdf

Academic Standards

Curriculum and Degree Requirements
Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

Grading Policy
A minimum grade of B- (2.67 grade points) is expected of all music students in their major applied area. A grade of C+ (2.33 grade points) or lower is considered unsatisfactory and will be evaluated in the following manner:

A music major who receives a grade of C+ (2.33 grade points) or lower in their major applied area will be placed on music probation. Music probation signifies that the student’s work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.
If a student receives a second semester of C+ (2.33 grade points) or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

Note: For music history and musicology majors a grade of C+ (2.33 grade points) or lower in any music history course is considered unsatisfactory and will be evaluated as above.

Graduate degree requirement: a minimum overall grade point average of 2.67 is necessary for graduation.

Leaves of Absence and Voluntary Withdrawal
Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean's office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Additional Information
For additional information, please see the Shepherd School of Music website: [music.rice.edu](http://music.rice.edu/)

Opportunities for the DMA Degree
Other Musical Opportunities
Lectures and Performances
A visiting lecturer series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.

Doctor of Musical Arts (DMA) Degree
in the field of Oboe Performance

Program Learning Outcomes for the DMA Degree

Upon completing the DMA degree, students will be able to:

1. Demonstrate technical and musical competence in performance or composition at a professional level.
2. Develop highly developed analytical skills in advanced music theory and a profound understanding of how those skills inform music performance.
3. Demonstrate a thorough understanding of the relationship between music history and music performance with greater familiarity of a wide variety of historical and contemporary performance practices.
4. Develop career development skills that complement their professional-level performance skills.
5. Develop working knowledge of and have experience with both classroom teaching and studio teaching methods at the conservatory and university levels.

Requirements for the DMA Degree
For general university requirements, see [Doctoral Degrees](p. 65). For additional requirements, regulations, and procedures for all graduate programs, please see [All Graduate Students](p. 55). Students pursuing the DMA degree in all fields of study must complete:

- A minimum of 90 credit hours beyond the bachelor’s degree to satisfy degree requirements.

Doctoral Document
### Footnotes and Additional Information

1. At least six of the required eight semesters of MUSI 653 *Oboe for Majors-Advanced* must be taken during residency as a DMA student.

2. Students pursuing the DMA degree on a wind instrument or percussion must be enrolled in MUSI 635 *Advanced Orchestra* during four of their six semesters of residency. They may elect to enroll in one or two additional semesters or be required to do so by their major teacher. The student in consultation with their major teacher will choose the semesters for participation.

3. Four (4) doctoral recitals performed while in residency as a DMA student as follows:
   - Two (2) Solo recitals
   - One (1) Lecture recital
   - One (1) Mock Audition

4. 4 courses (3 credit hours each) comprise the 12 credit hours required of Music History coursework.

5. 2 courses (3 credit hours each) comprise the 6 credit hours required of Music Theory coursework.

6. Graduate academic coursework taken elsewhere may be transferred with the approval of the relevant Department Chair. Additional hours of required performance coursework may not count toward the elective requirement. A maximum of three (3) credit hours of MUSI 649 *Graduate independent Study* can count towards degree requirements.

7. Diagnostic examinations in music history and music theory are given prior to admission to The Shepherd School, and play an important role in the admissions decision. Weaknesses in these areas will be addressed by courses designated by the chairs of the respective departments. These will count within either the Academic Coursework or Elective category. Doctoral students must also pass proficiency exams in aural skills and piano. These exams are scheduled at the beginning of each academic year. If required, MUSI 432 *Graduate Aural Skills Review* and/or MUSI 281 *Secondary Piano* must be taken, but neither will count towards the total number of hours required for the degree.

8. The doctoral document must be publicly defended.

### Academic Coursework

Academic Coursework is comprised of a minimum of 4 courses (12 credit hours) from Music History course offerings and a minimum of 2 courses (6 credit hours) from Music Theory course offerings.

Grading Policy

A minimum grade of B- (2.67 grade points) is expected of all music students in their major applied area. A grade of C+ (2.33 grade points) or lower is considered unsatisfactory and will be evaluated in the following manner:

A music major who receives a grade of C+ (2.33 grade points) or lower in their major applied area will be placed on music probation. Music probation signifies that the student’s work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of C+ (2.33 grade points) or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

A music major who receives a grade of C+ (2.33 grade points) or lower is considered unsatisfactory and will be evaluated in the following manner:

- A student receives a second semester of C+ (2.33 grade points) or lower in any music history course is considered unsatisfactory and will be evaluated as above.

- If a student receives a second semester of C+ (2.33 grade points) or lower in any music history course, the student will be placed on music probation.

- A minimum overall grade point average of 2.67 is necessary for graduation.

Leaves of Absence and Voluntary Withdrawal

Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean’s office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudit. Students should explain the reasons for their withdrawal to the dean before leaving campus.

**Academic Coursework**

Select 4 courses from the Music History course offerings (see course list below)

Select 2 courses from the Music Theory course offerings (see course list below)

**Elective Requirements**

Select 13 credit hours at the 300-level or above

**Classroom Teaching**

Students must complete the Classroom Teaching requirement

**Examinations**

Students must demonstrate the following proficiencies:

- Piano proficiency
- Aural skills proficiency
- Written and oral qualifying examinations

**Doctoral Document**

MUSI 750 DOCTORAL DOCUMENT (minimum of 2 semesters) 3

Total Credit Hours 90

### Footnotes and Additional Information

1. At least 6 of the required 8 semesters of MUSI 671 PERCUSSION FOR MAJORS-ADVANCED must be taken during residency as a DMA student.

2. Students pursuing the DMA degree on a wind instrument or percussion must be enrolled in MUSI 635 Advanced Orchestra during four of their six semesters of residency. They may elect to enroll in one or two additional semesters or be required to do so by their major teacher. The student in consultation with their major teacher will choose the semesters for participation.

3. Four (4) doctoral recitals performed while in residence as a DMA student as follows:
   - Two (2) Solo recitals
   - One (1) Chamber Music recital
   - One (1) Lecture recital

4. 4 courses (3 credit hours each) comprise the 12 credit hours required of Music History coursework.

5. Graduate academic coursework taken elsewhere may be transferred with the approval of the relevant Department Chair. Additional hours of required performance coursework may not count toward the elective requirement. A maximum of three (3) credit hours of MUSI 649 Graduate Independent Study can count towards degree requirements.

6. Diagnostic examinations in music history and music theory are given prior to admission to The Shepherd School, and play an important role in the admissions decision. Weaknesses in these areas will be addressed by courses designated by the chairs of the respective departments. These will count within either the Academic Coursework or Elective category. Doctoral students must also pass proficiency exams in aural skills and piano. These exams are scheduled at the beginning of each academic year. If required, MUSI 432 Graduate Aural Skills Review and/or MUSI 281 Secondary Piano must be taken, but neither will count towards the total number of hours required for the degree.

7. The doctoral document must be publicly defended.

### Academic Coursework

Academic Coursework is comprised of a minimum of 4 courses (12 credit hours) from Music History course offerings and a minimum of 2 courses (6 credit hours) from Music Theory course offerings.

Policies for the DMA Degree

Shepherd School of Music Graduate Program Handbook

The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, the Shepherd School of Music publishes a graduate program handbook, which can be found here: [Shepherd School of Music Graduate Program Handbook](https://gradhandbooks.rice.edu/2019_20/Shepherd_School_of_Music_Graduate_Handbook.pdf)

Academic Standards

Curriculum and Degree Requirements

Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

Grading Policy

A minimum grade of B- (2.67 grade points) is expected of all music students in their major applied area. A grade of C+ (2.33 grade points) or lower is considered unsatisfactory and will be evaluated in the following manner:

A music major who receives a grade of C+ (2.33 grade points) or lower in their major applied area will be placed on music probation. Music probation signifies that the student's work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of C+ (2.33 grade points) or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

Note: For music history and musicology majors a grade of C+ (2.33 grade points) or lower in any music history course is considered unsatisfactory and will be evaluated as above.

Graduate degree requirement: a minimum overall grade point average of 2.67 is necessary for graduation.

Leaves of Absence and Voluntary Withdrawal

Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean's office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Additional Information

For additional information, please see the Shepherd School of Music website: [https://music.rice.edu](https://music.rice.edu)

Opportunities for the DMA Degree

Other Musical Opportunities

Lectures and Performances

A visiting lecturer series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.

Additional Information

For additional information, please see the Shepherd School of Music website: [https://music.rice.edu](https://music.rice.edu)

Doctor of Musical Arts (DMA) Degree in the field of Piano Performance

Program Learning Outcomes for the DMA Degree

Upon completing the DMA degree, students will be able to:

1. Demonstrate technical and musical competence in performance or composition at a professional level.
2. Develop highly developed analytical skills in advanced music theory and a profound understanding of how those skills inform music performance.
3. Demonstrate a thorough understanding of the relationship between music history and music performance with greater familiarity of a wide variety of historical and contemporary performance practices.
4. Develop career development skills that complement their professional-level performance skills.
5. Develop working knowledge of and have experience with both classroom teaching and studio teaching methods at the conservatory and university levels.
Requirements for the DMA Degree

For general university requirements, see Doctoral Degrees (p. 65). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55). Students pursuing the DMA degree in all fields of study must complete:

- A minimum of 90 credit hours beyond the bachelor's degree to satisfy degree requirements.

Footnotes and Additional Information

1. At least 6 of the required 8 semesters of MUSI 693 Viola for Majors-Advanced must be taken during residency as a DMA student.
2. Students pursuing the DMA degree on a string instrument must be enrolled in MUSI 635 Advanced Orchestra during four of their six semesters of residency. Within those four semesters are eight rotations which are generally fulfilled by two chamber orchestra rotations each semester. The student in consultation with their major teacher may choose from Chamber Orchestra, Symphony Orchestra, Opera Orchestra or the Modular Ensemble Framework (MEF) for up to four of the eight rotations. They may also elect to enroll in one or two additional semesters or be required to do so by their major teacher. The student in consultation with their major teacher will choose the semesters for participation.
3. Doctoral recital requirements can be fulfilled in any of the following combinations for five (5) total performed while a DMA student:
   - two (2) solo recitals, one (1) lecture recital, one (1) chamber music recital, and one (1) concerto with orchestra;
   - three (3) solo recitals, one (1) lecture recital, one (1) chamber music recital;
   - two (2) solo recitals, one (1) lecture recital, two (2) chamber music recitals
4. 4 courses (3 credit hours each) comprise the 12 credit hours required of Music History coursework.
5. 2 courses (3 credit hours each) comprise the 6 credit hours required of Music Theory coursework.
6. Graduate academic coursework taken elsewhere may be transferred with the approval of the relevant Department Chair. Shepherd School of Music Graduate Program Handbook

The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, the Shepherd School of Music publishes a graduate program handbook, which can be found here: https://gradhandbooks.rice.edu/2019_20/Shepherd_School_of_Music_Graduate_Handbook.pdf

Academic Standards
Curriculum and Degree Requirements

Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

Grading Policy

A minimum grade of B- (2.67 grade points) is expected of all music students in their major applied area. A grade of C+ (2.33 grade points) or lower is considered unsatisfactory and will be evaluated in the following manner:

A music major who receives a grade of C+ (2.33 grade points) or lower in their major applied area will be placed on music probation. Music probation signifies that the student's work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of C+ (2.33 grade points) or lower in their major applied area will be placed on music probation. Music probation signifies that the student's work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of C+ (2.33 grade points) or lower in their major applied area will be placed on music probation. Music probation signifies that the student's work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of C+ (2.33 grade points) or lower in their major applied area will be placed on music probation. Music probation signifies that the student's work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

Note: For music history and musicology majors a grade of C+ (2.33 grade points) or lower in any music history course is considered unsatisfactory and will be evaluated as above.

Graduate degree requirement: a minimum overall grade point average of 2.67 is necessary for graduation.

Leaves of Absence and Voluntary Withdrawal

Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean's office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudit. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Additional Information

For additional information, please see the Shepherd School of Music website: https://music.rice.edu (https://music.rice.edu/)

Opportunities for the DMA Degree

Other Musical Opportunities

Lectures and Performances

A visiting lecturer series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.

Additional Information

For additional information, please see the Shepherd School of Music website: https://music.rice.edu

Doctor of Musical Arts (DMA) Degree in the field of Violin Performance

Program Learning Outcomes for the DMA Degree

Upon completing the DMA degree, students will be able to:

1. Demonstrate technical and musical competence in performance or composition at a professional level.
2. Develop highly developed analytical skills in advanced music theory and a profound understanding of how those skills inform music performance.
3. Demonstrate a thorough understanding of the relationship between music history and music performance with greater familiarity of a wide variety of historical and contemporary performance practices.
4. Develop career development skills that complement their professional-level performance skills.
5. Develop working knowledge of and have experience with both classroom teaching and studio teaching methods at the conservatory and university levels.

Requirements for the DMA Degree

For general university requirements, see Doctoral Degrees (p. 65). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55). Students pursuing the DMA degree in all fields of study must complete:

- A minimum of 90 credit hours beyond the bachelor's degree to satisfy degree requirements.

Footnotes and Additional Information

1. At least 6 of the required 8 semesters of MUSI 691 Violin for Majors-Advanced must be taken during residency as a DMA student.
2. Students pursuing the DMA degree on a string instrument must be enrolled in MUSI 635 Advanced Orchestra during four of their six semesters of residency. Within those four semesters are eight rotations which are generally fulfilled by two chamber orchestra rotations each semester. The student in consultation with their major teacher may choose from Chamber Orchestra, Symphony Orchestra, Opera Orchestra or the Modular Ensemble Framework (MEF) for up to four of the eight rotations. They may also elect to enroll in one or two additional semesters or be required to do so by their major teacher. The student in consultation with their major teacher will choose the semesters for participation.
Five (5) doctoral recitals performed while in residency as a DMA student as follows:
- Two (2) Solo recitals
- One (1) Lecture recital
- One (1) Chamber Music recital
- One (1) Concerto with orchestra

4 courses (3 credit hours each) comprise the 12 credit hours required of Music History coursework.
2 courses (3 credit hours each) comprise the 6 credit hours required of Music Theory coursework.

5 Graduate academic coursework taken elsewhere may be transferred with the approval of the relevant Department Chair. Additional hours of required performance coursework may not count toward the elective requirement. A maximum of three (3) credit hours of MUSI 649 Graduate Independent Study can count towards degree requirements.

6 Diagnostic examinations in music history and music theory are given prior to admission to The Shepherd School, and play an important role in the admissions decision. Weaknesses in these areas will be addressed by courses designated by the chairs of the respective departments. These will count within either the Academic Coursework or Elective category. Doctoral students must also pass proficiency exams in aural skills and piano. These exams are scheduled at the beginning of each academic year. If required, MUSI 432 Graduate Aural Skills Review and/or MUSI 281 Secondary Piano must be taken, but neither will count towards the total number of hours required for the degree.

7 The doctoral document must be publicly defended.

Academic Coursework
Academic Coursework is comprised of a minimum of 4 courses (12 credit hours) from Music History course offerings and a minimum of 2 courses (6 credit hours) from Music Theory course offerings.

Policies for the DMA Degree
Shepherd School of Music Graduate Program Handbook

The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, the Shepherd School of Music publishes a graduate program handbook, which can be found here: https://gradhandbooks.rice.edu/2019_20/Shepherd_School_of_Music_Graduate_Handbook.pdf

Academic Standards
Curriculum and Degree Requirements

Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

Grading Policy

A minimum grade of B- (2.67 grade points) is expected of all music students in their major applied area. A grade of C+ (2.33 grade points) or lower is considered unsatisfactory and will be evaluated in the following manner:

A music major who receives a grade of C+ (2.33 grade points) or lower in their major applied area will be placed on music probation. Music probation signifies that the student’s work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from
class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of C+ (2.33 grade points) or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

Note: For music history and musicology majors a grade of C+ (2.33 grade points) or lower in any music history course is considered unsatisfactory and will be evaluated as above.

Graduate degree requirement: a minimum overall grade point average of 2.67 is necessary for graduation.

Leaves of Absence and Voluntary Withdrawal
Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean’s office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudit. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Shepherd School of Music Graduate Program Handbook

The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, the Shepherd School of Music publishes a graduate program handbook, which can be found here: [https://gradhandbooks.rice.edu/2019_20/Shepherd_School_of_Music_Graduate_Handbook.pdf](https://gradhandbooks.rice.edu/2019_20/Shepherd_School_of_Music_Graduate_Handbook.pdf)

**Academic Standards**

Curriculum and Degree Requirements

Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.
Grading Policy
A minimum grade of B- (2.67 grade points) is expected of all music students in their major applied area. A grade of C+ (2.33 grade points) or lower is considered unsatisfactory and will be evaluated in the following manner:

A music major who receives a grade of C+ (2.33 grade points) or lower in their major applied area will be placed on music probation. Music probation signifies that the student's work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of C+ (2.33 grade points) or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

Note: For music history and musicology majors a grade of C+ (2.33 grade points) or lower in any music history course is considered unsatisfactory and will be evaluated as above.

Graduate degree requirement: a minimum overall grade point average of 2.67 is necessary for graduation.

Leaves of Absence and Voluntary Withdrawal
Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean's office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudit. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Program Learning Outcomes for the MMus Degree
Upon completing the MMus degree, students will be able to:

1. Demonstrate technical and musical competence in performance, composition, or historical scholarship at a professional level.
2. Develop advanced analytical skills in music theory and a deep understanding of how those skills inform music performance.
3. Demonstrate a thorough understanding of the relationship between music history and music performance.
4. Develop career development skills that complement their professional-level performance skills.

Requirements for the MMus Degree
The MMus degree in the field of Bassoon Performance is a non-thesis master's degree. For general university requirements, please see Non-Thesis Master's Degrees (p. 68). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55). Students pursuing the MMus degree in the field of Bassoon Performance must complete:

- A minimum of 44 credit hours to satisfy degree requirements.
- A minimum of 30 credit hours of graduate-level study (coursework at the 500-level or above).
- A minimum of 24 credit hours must be taken at Rice University.
- A minimum residency enrollment of one fall or spring semester of full-time graduate study at Rice University.
- A minimum overall GPA of 2.67 or higher in all Rice coursework.
- A minimum GPA of 2.67 or higher in all Rice coursework that satisfies requirements for the non-thesis master's degree.

Students completing the MMus degree in all fields of study must participate in core music, applied music, and other required music courses as well as in chamber music and large ensembles, plus electives. They are entitled to one hour of private lessons each week of each semester they are enrolled as an MMus degree candidate; private or group lessons beyond this may result in additional fees.

The courses listed below satisfy the requirements for this degree program. In certain instances, courses not on this official list may be substituted upon approval of the program’s academic advisor, or where applicable, the department or program’s Director of Graduate Studies. Course substitutions must be formally applied and entered into Degree Works by the department or program’s Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/). Additionally, these must be approved by the Office of Graduate and Postdoctoral Studies. Students and their academic advisors should identify and clearly document the courses to be taken.

### Academic Coursework

Select 1 course from the Approved Music Theory course offerings (see course list below) 3
Select 1 additional course from Music Theory or Music History course offerings (see course lists below) 3
Select 2 courses from the Music Career and Skills Enhancement course offerings (see course list below) 4
Select 6 credit hours from the Elective Requirements (see course list below) 6

### Proficiencies

Students must demonstrate the following proficiencies:
- Piano proficiency
- Aural skills proficiency

### Total Credit Hours

44

### Footnotes and Additional Information

1. No more than three (3) credit hours of Independent Study may fulfill this requirement. Remedial courses (such as MUSI 281, MUSI 432, MUSI 511, MUSI 521, or MUSI 522) and extra hours of required Performance Coursework (such as extra private instrumental or vocal study, ensembles, chamber music, vocal coaching, or repertoire classes) will not fulfill this requirement.

2. Deficiencies in these areas will result in remedial coursework being added to a student’s degree plan.

### Academic Coursework

Academic Coursework is comprised of at least 1 course (3 credit hours) from the Approved (or Additional) Music Theory course offerings, 1 course (3 credit hours) from the Music Theory or Music History course offerings, 2 courses (4 credit hours) from the Music Career and Skills Enhancement course offerings, and 6 credit hours from the Elective Requirements.

**Footnotes and Additional Information**

1. No more than three (3) credit hours of MUSI 649 Independent Study may fulfill this requirement. Remedial courses (such as MUSI 281, MUSI 432, MUSI 511, MUSI 521, or MUSI 522) and extra hours of required Performance Coursework (such as extra private instrumental or vocal study, ensembles, chamber music, vocal coaching, or repertoire classes) will not fulfill this requirement.

**Policies for the MMus Degree**

**Shepherd School of Music Graduate Program Handbook**

The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, the Shepherd School of Music publishes a graduate program handbook, which can be found here: [https://gradhandbooks.rice.edu/2019_20/Shepherd_School_of_Music_Graduate_Handbook.pdf](https://gradhandbooks.rice.edu/2019_20/Shepherd_School_of_Music_Graduate_Handbook.pdf)

**Admission**

For Instrumental Performance, Vocal Performance, and Orchestral Conducting applicants, an audition is required. Composition applicants must submit portfolios, and Musicology applicants must provide samples of their written work. Musicology applicants must also complete advanced music tests as well as the Graduate Record Examination for admission consideration.

**Academic Standards**

**Curriculum and Degree Requirements**

Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

**Grading Policy**

A minimum grade of B- (2.67 grade points) is expected of all music students in their major applied area. A grade of C+ (2.33 grade points) or lower is considered unsatisfactory and will be evaluated in the following manner:

A music major who receives a grade of C+ (2.33 grade points) or lower in their major applied area will be placed on music probation. Music probation signifies that the student’s work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of C+ (2.33 grade points) or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

**Note:** For music history and musicology majors a grade of C+ (2.33 grade points) or lower in any music history course is considered unsatisfactory and will be evaluated as above.

Graduate degree requirement: a minimum overall grade point average of 2.67 is necessary for graduation.
Leaves of Absence and Voluntary Withdrawal
Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean’s office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudit. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Performance
Students are expected to perform frequently during their residency at Rice. MMus students in any of the performance fields of study must present at least two full recitals. Composition and Conducting students should present recitals as specified by their degree programs. Students are expected to attend both faculty and student recitals. In addition, all MMus students must participate in the school’s conducted ensembles as assigned.

Thesis
A thesis is required for MMus students in the field of Musicology. In lieu of a thesis, MMus students in the field of Composition must produce an original work of extended scope. Both thesis and original work must be publicly defended.

Additional Information
For additional information, please see the Shepherd School of Music website: https://music.rice.edu (http://music.rice.edu)

Opportunities for the MMus Degree
Other Musical Opportunities
Lectures and Performances
A visiting lecturer series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.

Additional Information
For additional information, please see the Shepherd School of Music website: https://music.rice.edu

Master of Music (MMus) Degree in the field of Cello Performance
Program Learning Outcomes for the MMus Degree
Upon completing the MMus degree, students will be able to:

1. Demonstrate technical and musical competence in performance, composition, or historical scholarship at a professional level.
2. Develop advanced analytical skills in music theory and a deep understanding of how those skills inform music performance.
3. Demonstrate a thorough understanding of the relationship between music history and music performance.

4. Develop career development skills that complement their professional-level performance skills.

Requirements for the MMus Degree
The MMus degree in the field of Cello Performance is a non-thesis master’s degree. For general university requirements, please see Non-Thesis Master’s Degrees (p. 68). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55). Students pursuing the MMus degree in the field of Cello Performance must complete:

- A minimum of 44 credit hours to satisfy degree requirements.
- A minimum of 30 credit hours of graduate-level study (coursework at the 500-level or above).
- A minimum of 24 credit hours must be taken at Rice University.
- A minimum residency enrollment of one fall or spring semester of full-time graduate study at Rice University.
- A minimum overall GPA of 2.67 or higher in all Rice coursework.
- A minimum GPA of 2.67 or higher in all Rice coursework that satisfies requirements for the non-thesis master’s degree.

Students completing the MMus degree in all fields of study must participate in core music, applied music, and other required music courses as well as in chamber music and large ensembles, plus electives. They are entitled to one hour of private lessons each week of each semester they are enrolled as an MMus degree candidate; private or group lessons beyond this may result in additional fees.

The courses listed below satisfy the requirements for this degree program. In certain instances, courses not on this official list may be substituted upon approval of the program’s academic advisor, or where applicable, the department or program’s Director of Graduate Studies. Course substitutions must be formally applied and entered into Degree Works by the department or program’s Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/). Additionally, these must be approved by the Office of Graduate and Postdoctoral Studies. Students and their academic advisors should identify and clearly document the courses to be taken.

**Requirements for the MMus Degree**

The MMus degree in the field of Clarinet Performance is a non-thesis master's degree. For general university requirements, please see [Non-Thesis Master's Degrees](#) (p. 68). For additional requirements, regulations, and procedures for all graduate programs, please see [All Graduate Students](#) (p. 55). Students pursuing the MMus degree in the field of Clarinet Performance must complete:

- A minimum of 44 credit hours to satisfy degree requirements.
- A minimum of 30 credit hours of graduate-level study (coursework at the 500-level or above).
- A minimum of 44 credit hours must be taken at Rice University.
- A minimum residency enrollment of one fall or spring semester of full-time graduate study at Rice University.
- A minimum GPA of 2.67 or higher in all Rice coursework.
- A minimum GPA of 2.67 or higher in all Rice coursework that satisfies requirements for the non-thesis master's degree.

Students completing the MMus degree in all fields of study must participate in core music, applied music, and other required music courses as well as in chamber music and large ensembles, plus electives. They are entitled to one hour of private lessons each week of each semester they are enrolled as an MMus degree candidate; private or group lessons beyond this may result in additional fees.

The courses listed below satisfy the requirements for this degree program. In certain instances, courses not on this official list may be substituted upon approval of the program's academic advisor, or where applicable, the department or program's Director of Graduate Studies. Course substitutions must be formally applied and entered into Degree Works by the department or program's [Official Certifier](https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/). Additionally, these must be approved by the Office of Graduate and Postdoctoral Studies. Students and their academic advisors should identify and clearly document the courses to be taken.

**Summary**

**Total Credit Hours Required for the MMus Degree in the field of Clarinet Performance**

**Academic Coursework**

Select 1 course from the Approved Music Theory course offerings (see course list below) 3

Select 1 additional course from the Music Theory or Music History course offerings (see course lists below) 3

Select 2 courses from the Music Career and Skills Enhancement course offerings (see course list below) 4

Select 6 credit hours from the Elective Requirements (see course list below) 6

**Proficiencies**

Students must demonstrate the following proficiencies:

- Piano proficiency
Footnotes and Additional Information

1 No more than three (3) credit hours of MUSI 649 - Independent Study may fulfill this requirement. Remedial courses (such as MUSI 281, MUSI 432, MUSI 511, MUSI 521, or MUSI 522) and extra hours of required Performance Coursework (such as extra private instrumental or vocal study, ensembles, chamber music, vocal coaching, or repertoire classes) will not fulfill this requirement.

2 Deficiencies in these areas will result in remedial coursework being added to a student’s degree plan.

Academic Coursework

Academic Coursework is comprised of at least 1 course (3 credit hours) from the Approved Music Theory course offerings, 1 course (3 credit hours) from the Music Theory or Music History course offerings, 2 courses (4 credit hours) from the Music Career and Skills Enhancement course offerings, and 6 credit hours from the Elective Requirements.

Academic Standards
Curriculum and Degree Requirements
Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

Grading Policy
A minimum grade of B- (2.67 grade points) is expected of all music students in their major applied area. A grade of C+ (2.33 grade points) or lower is considered unsatisfactory and will be evaluated in the following manner:

A music major who receives a grade of C+ (2.33 grade points) or lower in their major applied area will be placed on music probation. Music probation signifies that the student's work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of C+ (2.33 grade points) or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

Note: For music history and musicology majors a grade of C+ (2.33 grade points) or lower in any music history course is considered unsatisfactory and will be evaluated as above.

Graduate degree requirement: a minimum overall grade point average of 2.67 is necessary for graduation.

Leaves of Absence and Voluntary Withdrawal
Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean's office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Performance
Students are expected to perform frequently during their residency at Rice. MMus students in any of the performance fields of study must present at least two full recitals. Composition and Conducting students should present recitals as specified by their degree programs. Students are expected to attend both faculty and student recitals. In addition, all MMus students must participate in the school's conducted ensembles as assigned.

Thesis
A thesis is required for MMus students in the field of Musicology. In lieu of a thesis, MMus students in the field of Composition must produce an original work of extended scope. Both thesis and original work must be publicly defended.

Additional Information
For additional information, please see the Shepherd School of Music website: https://music.rice.edu
Opportunities for the MMus Degree

Other Musical Opportunities

Lectures and Performances

A visiting lecturer series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.

Additional Information

For additional information, please see the Shepherd School of Music website: https://music.rice.edu

Master of Music (MMus) Degree in the field of Composition

Program Learning Outcomes for the MMus Degree

Upon completing the MMus degree, students will be able to:

1. Demonstrate technical and musical competence in performance, composition, or historical scholarship at a professional level.
2. Develop advanced analytical skills in music theory and a deep understanding of how those skills inform music performance.
3. Demonstrate a thorough understanding of the relationship between music history and music performance.
4. Develop career development skills that complement their professional-level performance skills.

Requirements for the MMus Degree

The MMus degree in the field of Composition is a thesis master’s degree. For general university requirements, please see Thesis Master’s Degrees (p. 68). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55). Students pursuing the MMus degree in the field of Composition must complete:

- A minimum of 48-52 credit hours, depending on course selection, to satisfy degree requirements.
- A minimum of 30 credit hours of graduate-level study (coursework at the 500-level or above).
- A minimum of 24 credit hours must be taken at Rice University.
- A minimum residency enrollment of one fall or spring semester of full-time graduate study at Rice University.
- A minimum overall GPA of 2.67 or higher in all Rice coursework.
- A minimum GPA of 2.67 or higher in all Rice coursework that satisfies requirements for the thesis master’s degree.

Students completing the MMus degree in all fields of study must participate in core music, applied music, and other required music courses as well as in chamber music and large ensembles, plus electives. They are entitled to one hour of private lessons each week of each semester they are enrolled as an MMus degree candidate; private or group lessons beyond this may result in additional fees.

The courses listed below satisfy the requirements for this degree program. In certain instances, courses not on this official list may be substituted upon approval of the program’s academic advisor, or where applicable, the department or program’s Director of Graduate Studies. Course substitutions must be formally applied and entered into Degree Works by the department or program’s Official Certifier. Additionally, these must be approved by the Office of Graduate and Postdoctoral Studies. Students and their academic advisors should identify and clearly document the courses to be taken.

Other Requirements

Select 6 credit hours from the Elective Requirements (see course lists below) 3

Select 2 courses from Performance Coursework (see course lists below) 4

Proficiencies 5

Students must demonstrate the following proficiencies:

- Piano proficiency 4
- Aural skills proficiency

Total Credit Hours 48-52

Footnotes and Additional Information

1 Electronic Music courses are chosen following faculty advisement.
2 The master’s thesis must be publicly defended.
No more than three (3) credit hours of MUSI 649 - Independent Study may fulfill this requirement. Remedial courses (such as MUSI 281, MUSI 432, MUSI 511, MUSI 521, or MUSI 522) and extra hours of required Performance Coursework (such as extra private instrumental or vocal study, ensembles, chamber music, vocal coaching, or repertoire classes) will not fulfill this requirement.

Piano lessons are strongly recommended as the Performance Coursework for MMus students in the field of Composition until piano proficiency is proven. Performance hours may be satisfied by any combination of private instrumental or vocal study, classes in conducting or score reading, or performance in sonata class or large ensembles. Please Note: Some of these courses may result in additional fees.

Deficiencies in these areas will result in remedial coursework being added to a student’s degree plan.

### Other Requirements

Students must complete 6 credit hours from the Elective Requirements, and 2 courses (2-6 credit hours, depending on course selection) from the Performance Coursework lists below.

2019-2020 General Announcements

PDF Generated 11/12/2019
**Policies for the MMus Degree**

**Shepherd School of Music Graduate Program Handbook**

The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, the Shepherd School of Music publishes a graduate program handbook, which can be found here: [https://gradhandbooks.rice.edu/2019_20/Shepherd_School_of_Music_Graduate_Handbook.pdf](https://gradhandbooks.rice.edu/2019_20/Shepherd_School_of_Music_Graduate_Handbook.pdf)

**Admission**

For Instrumental Performance, Vocal Performance, and Orchestral Conducting applicants, an audition is required. Composition applicants must submit portfolios, and Musicology applicants must provide samples of their written work. Musicology applicants must also complete advanced music tests as well as the Graduate Record Examination for admission consideration.

**Academic Standards**

**Curriculum and Degree Requirements**

Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

**Grading Policy**

A minimum grade of B- (2.67 grade points) is expected of all music students in their major applied area. A grade of C+ (2.33 grade points) or lower is considered unsatisfactory and will be evaluated in the following manner.

A music major who receives a grade of C+ (2.33 grade points) or lower in their major applied area will be placed on music probation. Music probation signifies that the student’s work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of C+ (2.33 grade points) or lower in their major applied area they will be placed on music probation. If a student's music probation is unsatisfactory to preclude graduation unless marked improvement is achieved promptly, the student may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

**Graduate degree requirement:** A minimum overall grade point average of 2.67 is necessary for graduation.

**Leaves of Absence and Voluntary Withdrawal**

Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean's office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

**Performance**

Students are expected to perform frequently during their residency at Rice. MMus students in any of the performance fields of study must present at least two full recitals. Composition and Conducting students must submit portfolios, and Musicology applicants must provide samples of their written work. Musicology applicants must also complete advanced music tests as well as the Graduate Record Examination for admission consideration.

Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.
should present recitals as specified by their degree programs. Students are expected to attend both faculty and student recitals. In addition, all MMus students must participate in the school's conducted ensembles as assigned.

**Thesis**

A thesis is required for MMus students in the field of Musicology. In lieu of a thesis, MMus students in the field of Composition must produce an original work of extended scope. Both thesis and original work must be publicly defended.

**Additional Information**

For additional information, please see the Shepherd School of Music website at: [https://music.rice.edu](https://music.rice.edu)

**Opportunities for the MMus Degree**

**Other Musical Opportunities**

**Lectures and Performances**

A visiting lecturer series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.

---

**Master of Music (MMus) Degree in the field of Double Bass Performance**

**Program Learning Outcomes for the MMus Degree**

Upon completing the MMus degree, students will be able to:

1. Demonstrate technical and musical competence in performance, composition, or historical scholarship at a professional level.
2. Develop advanced analytical skills in music theory and a deep understanding of how those skills inform music performance.
3. Demonstrate a thorough understanding of the relationship between music history and music performance.
4. Develop career development skills that complement their professional-level performance skills.

**Requirements for the MMus Degree**

The MMus degree in the field of Double Bass Performance is a non-thesis master's degree. For general university requirements, please see [Non-Thesis Master's Degrees](https://music.rice.edu) (p. 68). For additional requirements, regulations, and procedures for all graduate programs, please see [All Graduate Students](https://music.rice.edu) (p. 55). Students pursuing the MMus degree in the field of Double Bass Performance must complete:

- A minimum of 44 credit hours to satisfy degree requirements.
- A minimum of 30 credit hours of graduate-level study (coursework at the 500-level or above).
- A minimum of 24 credit hours must be taken at Rice University.
- A minimum residency enrollment of one fall or spring semester of full-time graduate study at Rice University.
- A minimum overall GPA of 2.67 or higher in all Rice coursework.
- A minimum GPA of 2.67 or higher in all Rice coursework that satisfies requirements for the non-thesis master's degree.

Students completing the MMus degree in all fields of study must participate in core music, applied music, and other required music courses as well as in chamber music and large ensembles, plus electives. They are entitled to one hour of private lessons each week of each semester they are enrolled as an MMus degree candidate; private or group lessons beyond this may result in additional fees.

The courses listed below satisfy the requirements for this degree program. In certain instances, courses not on this official list may be substituted upon approval of the program's academic advisor, or where applicable, the department or program's Director of Graduate Studies. Course substitutions must be formally applied and entered into Degree Works by the department or program's [Official Certifier](https://registrar.rice.edu/facstaff/degeworks/officialcertifier/). Additionally, these must be approved by the Office of Graduate and Postdoctoral Studies. Students and their academic advisors should identify and clearly document the courses to be taken.

**Academic Coursework**

Select 1 course from the Approved Music Theory course offerings (see course list below) | 3
Select 1 additional course from the Music Theory or Music History course offerings (see course lists below) | 3
Select 2 courses from the Music Career and Skills Enhancement course offerings (see course list below) | 4
Select 6 credit hours from the Elective Requirements (see course list below) | 6

**Proficiencies**

Students must demonstrate the following proficiencies:

- Piano proficiency
### Aural skills proficiency

**Total Credit Hours**: 44

### Footnotes and Additional Information

1. No more than three (3) credit hours of MUSI 649 - Independent Study may fulfill this requirement. Remedial courses (such as MUSI 281, MUSI 432, MUSI 511, MUSI 521, or MUSI 522) and extra hours of required Performance Coursework (such as extra private instrumental or vocal study, ensembles, chamber music, vocal coaching, or repertoire classes) will not fulfill this requirement.

2. Deficiencies in these areas will result in remedial coursework being added to a student's degree plan.

### Academic Coursework

Academic Coursework is comprised of at least 1 course (3 credit hours) from the Approved Music Theory course offerings, 1 course (3 credit hours) from the Music Theory or Music History course offerings, 2 courses (4 credit hours) from the Music Career and Skills Enhancement course offerings, and 6 credit hours from the Elective Requirements.

Policies for the MMus Degree
Shepherd School of Music Graduate Program Handbook

The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, the Shepherd School of Music publishes a graduate program handbook, which can be found here: https://gradhandbooks.rice.edu/2019_20/shepherd_school_of_music_graduate_handbook.pdf

Admission

For Instrumental Performance, Vocal Performance, and Orchestral Conducting applicants, an audition is required. Composition applicants must submit portfolios, and Musicology applicants must provide samples of their written work. Musicology applicants must also complete advanced music tests as well as the Graduate Record Examination for admission consideration.

Academic Standards

Curriculum and Degree Requirements

Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

Grading Policy

A minimum grade of B- (2.67 grade points) is expected of all music students in their major applied area. A grade of C+ (2.33 grade points) or lower is considered unsatisfactory and will be evaluated in the following manner:

A music major who receives a grade of C+ (2.33 grade points) or lower in their major applied area will be placed on music probation. Music probation signifies that the student’s work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of C+ (2.33 grade points) or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

Note: For music history and musicology majors a grade of C+ (2.33 grade points) or lower in any music history course is considered unsatisfactory and will be evaluated as above.

Graduate degree requirement: a minimum overall grade point average of 2.67 is necessary for graduation.

Leaves of Absence and Voluntary Withdrawal

Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean’s office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Performance

Students are expected to perform frequently during their residency at Rice. MMus students in any of the performance fields of study must present at least two full recitals. Composition and Conducting students should present recitals as specified by their degree programs. Students are expected to attend both faculty and student recitals. In addition, all MMus students must participate in the school’s conducted ensembles as assigned.

Thesis

A thesis is required for MMus students in the field of Musicology. In lieu of a thesis, MMus students in the field of Composition must produce an original work of extended scope. Both thesis and original work must be publicly defended.

Additional Information

For additional information, please see the Shepherd School of Music website: https://music.rice.edu
Opportunities for the MMus Degree

Other Musical Opportunities

Lectures and Performances

A visiting lecturer series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.

Additional Information

For additional information, please see the Shepherd School of Music website: https://music.rice.edu

Master of Music (MMus) Degree in the field of Flute Performance

Program Learning Outcomes for the MMus Degree

Upon completing the MMus degree, students will be able to:

1. Demonstrate technical and musical competence in performance, composition, or historical scholarship at a professional level.
2. Develop advanced analytical skills in music theory and a deep understanding of how those skills inform music performance.
3. Demonstrate a thorough understanding of the relationship between music history and music performance.
4. Develop career development skills that complement their professional-level performance skills.

Requirements for the MMus Degree

The MMus degree in the field of Flute Performance is a non-thesis master's degree. For general university requirements, please see Non-Thesis Master's Degrees (p. 68). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55). Students pursuing the MMus degree in the field of Flute Performance must complete:

- A minimum of 44 credit hours to satisfy degree requirements.
- A minimum of 30 credit hours of graduate-level study (coursework at the 500-level or above).
- A minimum of 24 credit hours must be taken at Rice University.
- A minimum residency enrollment of one fall or spring semester of full-time graduate study at Rice University.
- A minimum overall GPA of 2.67 or higher in all Rice coursework.
- A minimum GPA of 2.67 or higher in all Rice coursework that satisfies requirements for the non-thesis master's degree.

Students completing the MMus degree in all fields of study must participate in core music, applied music, and other required music courses as well as in chamber music and large ensembles, plus electives. They are entitled to one hour of private lessons each week of each semester they are enrolled as an MMus degree candidate; private or group lessons beyond this may result in additional fees.

The courses listed below satisfy the requirements for this degree program. In certain instances, courses not on this official list may be substituted upon approval of the program's academic advisor, or where applicable, the department or program's Director of Graduate Studies. Course substitutions must be formally applied and entered into Degree Works by the department or program's Official Certifier (https://registrar.rice.edu/facstaff/degeworks/officialcertifier/). Additionally, these must be approved by the Office of Graduate and Postdoctoral Studies. Students and their academic advisors should identify and clearly document the courses to be taken.

Footnotes and Additional Information

1 No more than three (3) credit hours of MUSI 649 Independent Study may fulfill this requirement. Remedial courses (such as MUSI 281, MUSI 432, MUSI 511, MUSI 521, or MUSI 522) and extra hours of required Performance Coursework (such as extra private instrumental or vocal study, ensembles, chamber music, vocal coaching, or repertoire classes) will not fulfill this requirement.

Policies for the MMus Degree

Shepherd School of Music Graduate Program Handbook

The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, the Shepherd School of Music publishes a graduate program handbook, which can be found here: https://gradhandbooks.rice.edu/2019_20/Shepherd_School_of_Music_Graduate_Handbook.pdf

Admission

For Instrumental Performance, Vocal Performance, and Orchestral Conducting applicants, an audition is required. Composition applicants must submit portfolios, and Musicology applicants must provide samples of their written work. Musicology applicants must also complete advanced music tests as well as the Graduate Record Examination for admission consideration.

Academic Standards

Curriculum and Degree Requirements

Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

Grading Policy

A minimum grade of B- (2.67 grade points) is expected of all music students in their major applied area. A grade of C+ (2.33 grade points) or lower is considered unsatisfactory and will be evaluated in the following manner.

A music major who receives a grade of C+ (2.33 grade points) or lower in their major applied area will be placed on music probation. Music probation signifies that the student's work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of C+ (2.33 grade points) or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

Note: For music history and musicology majors a grade of C+ (2.33 grade points) or lower in any music history course is considered unsatisfactory and will be evaluated as above.

Graduate degree requirement: a minimum overall grade point average of 2.67 is necessary for graduation.

Leaves of Absence and Voluntary Withdrawal

Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean's office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Performance

Students are expected to perform frequently during their residency at Rice. MMus students in any of the performance fields of study must present at least two full recitals. Composition and Conducting students should present recitals as specified by their degree programs. Students are expected to attend both faculty and student recitals. In addition, all MMus students must participate in the school's conducted ensembles as assigned.

Thesis

A thesis is required for MMus students in the field of Musicology. In lieu of a thesis, MMus students in the field of Composition must produce an original work of extended scope. Both thesis and original work must be publicly defended.

Additional Information

For additional information, please see the Shepherd School of Music website: https://music.rice.edu/

Opportunities for the MMus Degree

Other Musical Opportunities

Lectures and Performances

A visiting lecturer series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.
Additional Information
For additional information, please see the Shepherd School of Music website: https://music.rice.edu/

Master of Music (MMus) Degree in the field of Harp Performance

Program Learning Outcomes for the MMus Degree
Upon completing the MMus degree, students will be able to:

1. Demonstrate technical and musical competence in performance, composition, or historical scholarship at a professional level.
2. Develop advanced analytical skills in music theory and a deep understanding of how those skills inform music performance.
3. Demonstrate a thorough understanding of the relationship between music history and music performance.
4. Develop career development skills that complement their professional-level performance skills.

Requirements for the MMus Degree

The MMus degree in the field of Harp Performance is a non-thesis master's degree. For general university requirements, please see Non-Thesis Master's Degrees (p. 68). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55). Students pursuing the MMus degree in the field of Harp Performance must complete:

- A minimum of 44 credit hours to satisfy degree requirements.
- A minimum of 30 credit hours of graduate-level study (coursework at the 500-level or above).
- A minimum of 24 credit hours must be taken at Rice University.
- A minimum residency enrollment of one fall or spring semester of full-time graduate study at Rice University.
- A minimum overall GPA of 2.67 or higher in all Rice coursework.
- A minimum GPA of 2.67 or higher in all Rice coursework that satisfies requirements for the non-thesis master's degree.

Students completing the MMus degree in all fields of study must participate in core music, applied music, and other required music courses as well as in chamber music and large ensembles, plus electives. They are entitled to one hour of private lessons each week of each semester they are enrolled as an MMus degree candidate; private or group lessons beyond this may result in additional fees.

The courses listed below satisfy the requirements for this degree program. In certain instances, courses not on this official list may be substituted upon approval of the program’s academic advisor, or where applicable, the department or program’s Director of Graduate Studies. Course substitutions must be formally applied and entered into Degree Works by the department or program’s Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/). Additionally, these must be approved by the Office of Graduate and Postdoctoral Studies. Students and their academic advisors should identify and clearly document the courses to be taken.

</thead>
</table>

Select 6 credit hours from the following:

- Any course at the 300-level or above
- Any language course at the 100-level or above

**Note:** Additional information about courses and requirements can be found on the Rice University 2019-2020 General Announcements page.
Any additional Music Theory, Music History, or Music Career and Skills Enhancement course
Secondary Lessons (any course between MUSI 251 and MUSI 297 with the exception of MUSI 281)
MUSI 342  RICE JAZZ ENSEMBLE
MUSI 345  APPLIED STUDIES IN JAZZ
MUSI 381  CONCENTRATION PIANO
MUSI 436 / MDEM 456
MUSI 444  PRACTICUM IN CONTEMPORARY MUSIC
MUSI 585  SONATA CLASS
MUSI 649  GRADUATE INDEPENDENT STUDY

Footnotes and Additional Information
1 No more than three (3) credit hours of MUSI 649 Independent Study may fulfill this requirement. Remedial courses (such as MUSI 281, MUSI 432, MUSI 511, MUSI 521, or MUSI 522) and extra hours of required Performance Coursework (such as extra private instrumental or vocal study, ensembles, chamber music, vocal coaching, or repertoire classes) will not fulfill this requirement.

Policies for the MMus Degree
Shepherd School of Music Graduate Program Handbook
The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, the Shepherd School of Music publishes a graduate program handbook, which can be found here: https://gradhandbooks.rice.edu/2019_20/Shepherd_School_of_Music_Graduate_Handbook.pdf

Admission
For Instrumental Performance, Vocal Performance, and Orchestral Conducting applicants, an audition is required. Composition applicants must submit portfolios, and Musicology applicants must provide samples of their written work. Musicology applicants must also complete advanced music tests as well as the Graduate Record Examination for admission consideration.

Academic Standards
Curriculum and Degree Requirements
Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

Grading Policy
A minimum grade of B- (2.67 grade points) is expected of all music students in their major applied area. A grade of C+ (2.33 grade points) or lower is considered unsatisfactory and will be evaluated in the following manner:

A music major who receives a grade of C+ (2.33 grade points) or lower in their major applied area will be placed on music probation. Music probation signifies that the student’s work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of C+ (2.33 grade points) or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

Note: For music history and musicology majors a grade of C+ (2.33 grade points) or lower in any music history course is considered unsatisfactory and will be evaluated as above.

Graduate degree requirement: a minimum overall grade point average of 2.67 is necessary for graduation.

Leaves of Absence and Voluntary Withdrawal
Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean’s office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Performance
Students are expected to perform frequently during their residency at Rice. MMus students in any of the performance fields of study must present at least two full recitals. Composition and Conducting students should present recitals as specified by their degree programs. Students are expected to attend both faculty and student recitals. In addition, all MMus students must participate in the school’s conducted ensembles as assigned.

Thesis
A thesis is required for MMus students in the field of Musicology. In lieu of a thesis, MMus students in the field of Composition must produce an original work of extended scope. Both thesis and original work must be publicly defended.

Additional Information
For additional information, please see the Shepherd School of Music website: https://music.rice.edu

Master of Music (MMus) Degree in the field of Horn Performance
Program Learning Outcomes for the MMus Degree

Upon completing the MMus degree, students will be able to:

1. Demonstrate technical and musical competence in performance, composition, or historical scholarship at a professional level.
2. Develop advanced analytical skills in music theory and a deep understanding of how those skills inform music performance.
3. Demonstrate a thorough understanding of the relationship between music history and music performance.
4. Develop career development skills that complement their professional-level performance skills.

Requirements for the MMus Degree

The MMus degree in the field of Horn Performance is a non-thesis master’s degree. For general university requirements, please see Non-Thesis Master’s Degrees (p. 68). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55). Students pursuing the MMus degree in the field of Horn Performance must complete:

- A minimum of 44 credit hours to satisfy degree requirements.
- A minimum of 30 credit hours of graduate-level study (coursework at the 500-level or above).
- A minimum of 24 credit hours must be taken at Rice University.
- A minimum residency enrollment of one fall or spring semester of full-time graduate study at Rice University.
- A minimum overall GPA of 2.67 or higher in all Rice coursework.
- A minimum GPA of 2.67 or higher in all Rice coursework that satisfies requirements for the non-thesis master’s degree.

Students completing the MMus degree in all fields of study must participate in core music, applied music, and other required music courses as well as in chamber music and large ensembles, plus electives. They are entitled to one hour of private lessons each week of each semester they are enrolled as an MMus degree candidate; private or group lessons beyond this may result in additional fees.

The courses listed below satisfy the requirements for this degree program. In certain instances, courses not on this official list may be substituted upon approval of the program’s academic advisor, or where applicable, the department or program’s Director of Graduate Studies. Course substitutions must be formally applied and entered into Degree Works by the department or program’s Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/). Additionally, these must be approved by the Office of Graduate and Postdoctoral Studies. Students and their academic advisors should identify and clearly document the courses to be taken.

Elective Requirements

Select 6 credit hours from the following:

- Any course at the 300-level or above
- Any language course at the 100-level or above
- Any additional Music Theory, Music History, or Music Career and Skills Enhancement course
- Secondary Lessons (any course between MUSI 251 and MUSI 297 with the exception of MUSI 281)
- MUSI 342 - RICE JAZZ ENSEMBLE
- MUSI 345 - APPLIED STUDIES IN JAZZ
- MUSI 381 - CONCENTRATION PIANO
- MUSI 436 / MDEM 456 - COLLEGIUM MUSICUM
Footnotes and Additional Information

1 No more than three (3) credit hours of MUSI 649 Independent Study may fulfill this requirement. Remedial courses (such as MUSI 281, MUSI 432, MUSI 511, MUSI 521, or MUSI 522) and extra hours of required Performance Coursework (such as extra private instrumental or vocal study, ensembles, chamber music, vocal coaching, or repertoire classes) will not fulfill this requirement.

Policies for the MMus Degree
Shepherd School of Music Graduate Program Handbook

The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, the Shepherd School of Music publishes a graduate program handbook, which can be found here: [https://gradhandbooks.rice.edu/2019_20/Shepherd_School_of_Music_Graduate_Handbook.pdf](https://gradhandbooks.rice.edu/2019_20/Shepherd_School_of_Music_Graduate_Handbook.pdf)

Admission

For Instrumental Performance, Vocal Performance, and Orchestral Conducting applicants, an audition is required. Composition applicants must submit portfolios, and Musicology applicants must provide samples of their written work. Musicology applicants must also complete advanced music tests as well as the Graduate Record Examination for admission consideration.

Academic Standards
Curriculum and Degree Requirements

Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

Grading Policy

A minimum grade of B- (2.67 grade points) is expected of all music students in their major applied area. A grade of C+ (2.33 grade points) or lower is considered unsatisfactory and will be evaluated in the following manner:

A music major who receives a grade of C+ (2.33 grade points) or lower in their major applied area will be placed on music probation. Music probation signifies that the student’s work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of C+ (2.33 grade points) or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

Note: For music history and musicology majors a grade of C+ (2.33 grade points) or lower in any music history course is considered unsatisfactory and will be evaluated as above.

Graduate degree requirement: a minimum overall grade point average of 2.67 is necessary for graduation.

Leaves of Absence and Voluntary Withdrawal

Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean’s office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Performance

Students are expected to perform frequently during their residency at Rice. MMus students in any of the performance fields of study must present at least two full recitals. Composition and Conducting students should present recitals as specified by their degree programs. Students are expected to attend both faculty and student recitals. In addition, all MMus students must participate in the school’s conducted ensembles as assigned.

Thesis

A thesis is required for MMus students in the field of Musicology. In lieu of a thesis, MMus students in the field of Composition must produce an original work of extended scope. Both thesis and original work must be publicly defended.

Additional Information

For additional information, please see the Shepherd School of Music website: [https://music.rice.edu](https://music.rice.edu)

Opportunities for the MMus Degree
Other Musical Opportunities

Lectures and Performances

A visiting lecturer series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.

Additional Information

For additional information, please see the Shepherd School of Music website: [https://music.rice.edu](https://music.rice.edu)

Master of Music (MMus) Degree in the field of Musicology

Program Learning Outcomes for the MMus Degree

Upon completing the MMus degree, students will be able to:

1. Demonstrate technical and musical competence in performance, composition, or historical scholarship at a professional level.
2. Develop advanced analytical skills in music theory and a deep understanding of how those skills inform music performance.
3. Demonstrate a thorough understanding of the relationship between music history and music performance.
4. Develop career development skills that complement their professional-level performance skills.
Requirements for the MMus Degree

The MMus degree in the field of Musicology is a thesis master’s degree. For general university requirements, please see Thesis Master’s Degrees (p. 68). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55). Students pursuing the MMus degree in the field of Musicology must complete:

- A minimum of 50-54 credit hours, depending on course selection, to satisfy degree requirements.
- A minimum of 30 credit hours of graduate-level study (coursework at the 500-level or above).
- A minimum of 24 credit hours must be taken at Rice University.
- A minimum residency enrollment of one fall or spring semester of full-time graduate study at Rice University.
- A minimum overall GPA of 2.67 or higher in all Rice coursework.
- A minimum GPA of 2.67 or higher in all Rice coursework that satisfies requirements for the thesis master’s degree.

Students completing the MMus degree in all fields of study must participate in core music, applied music, and other required music courses as well as in chamber music and large ensembles, plus electives. They are entitled to one hour of private lessons each week of each semester they are enrolled as an MMus degree candidate; private or group lessons beyond this may result in additional fees.

The courses listed below satisfy the requirements for this degree program. In certain instances, courses not on this official list may be substituted upon approval of the program’s academic advisor, or where applicable, the department or program’s Director of Graduate Studies. Course substitutions must be formally applied and entered into Degree Works by the department or program’s Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/). Additionally, these must be approved by the Office of Graduate and Postdoctoral Studies. Students and their academic advisors should identify and clearly document the courses to be taken.

Proiciencies 5

Students must demonstrate the following proficiencies:

- Piano
- Aural Skills
- German Language

Total Credit Hours 50-54

Footnotes and Additional Information

1 Graduate-level Music Theory coursework may replace MUSI 512 and/or some of the seven (7) required Advanced Musicology courses with faculty approval.
2 The master’s thesis must be publicly defended.
3 No more than three (3) credit hours of MUSI 649 Independent Study may fulfill this requirement. Remedial courses (such as MUSI 281, MUSI 432, MUSI 511, MUSI 521, or MUSI 522) will not fulfill this requirement.
4 Please Note: Some instrumental/vocal lessons may result in additional fees.
5 Deficiencies in these areas will result in remedial coursework being added to a student’s degree plan. German language proficiency may be met by one of the following experiences:
   - 4 years of German language instruction at the high-school level;
   - 2 year of German language instruction at the college-level;
   - GERM 141 and GERM 142 at Rice (or an equivalent accelerated course);
   - Passage of a proficiency exam (300 words, 3 hours, with dictionary).

Advanced Musicology

Students must complete a minimum of 7 courses (21 credit hours) from Advanced Musicology course offerings. Additional Advanced Musicology course offerings may also be selected to fulfill Elective Requirements.

Master of Music (MMus) Degree in the field of Oboe Performance

Program Learning Outcomes for the MMus Degree
Upon completing the MMus degree, students will be able to:

1. Demonstrate technical and musical competence in performance, composition, or historical scholarship at a professional level.
2. Develop advanced analytical skills in music theory and a deep understanding of how those skills inform music performance.
3. Demonstrate a thorough understanding of the relationship between music history and music performance.

Policies for the MMus Degree
Shepherd School of Music Graduate Program Handbook
The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, the Shepherd School of Music publishes a graduate program handbook, which can be found here: https://gradhandbooks.rice.edu/2019_20/Shepherd_School_of_Music_Graduate_Handbook.pdf

Admission
For Instrumental Performance, Vocal Performance, and Orchestral Conducting applicants, an audition is required. Composition applicants must submit portfolios, and Musicology applicants must provide samples of their written work. Musicology applicants must also complete advanced music tests as well as the Graduate Record Examination for admission consideration.

Academic Standards
Curriculum and Degree Requirements
Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

Grading Policy
A minimum grade of B- (2.67 grade points) is expected of all music students in their major applied area. A grade of C+ (2.33 grade points) or lower is considered unsatisfactory and will be evaluated in the following manner:

A music major who receives a grade of C+ (2.33 grade points) or lower in their major applied area will be placed on music probation. Music probation signifies that the student's work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of C+ (2.33 grade points) or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

Note: For music history and musicology majors a grade of C+ (2.33 grade points) or lower in any music history course is considered unsatisfactory and will be evaluated as above.

Graduate degree requirement: a minimum overall grade point average of 2.67 is necessary for graduation.

MUSI 515 MUSIC ENTREPRENEURSHIP 2
MUSI 518 THE ART AND BUSINESS OF STUDIO TEACHING 2
MUSI 519 THEMATIC PROGRAMMING: THE ART OF THE RECITAL 2
MUSI 532 THE FELDENKRAIS METHOD AND THE MUSICIAN'S BODY 2
MUSI 538 THE ART OF PERFORMANCE: PRESENCE ON STAGE 2
MUSI 540 APPLIED JAZZ IMPROVISATION: DEVELOPING SOLO IMPROVISATIONAL SKILLS IN THE JAZZ IDIOM 2
4. Develop career development skills that complement their professional-level performance skills.

Requirements for the MMus Degree

The MMus degree in the field of Oboe Performance is a non-thesis master’s degree. For general university requirements, please see Non-Thesis Master’s Degrees (p. 68). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55). Students pursuing the MMus degree in the field of Oboe Performance must complete:

- A minimum of 44 credit hours to satisfy degree requirements.
- A minimum of 30 credit hours of graduate-level study (coursework at the 500-level or above).
- A minimum of 24 credit hours must be taken at Rice University.
- A minimum residency enrollment of one fall or spring semester of full-time graduate study at Rice University.
- A minimum overall GPA of 2.67 or higher in all Rice coursework.
- A minimum GPA of 2.67 or higher in all Rice coursework that satisfies requirements for the non-thesis master’s degree.

Students completing the MMus degree in all fields of study must participate in core music, applied music, and other required music courses as well as in chamber music and large ensembles, plus electives. They are entitled to one hour of private lessons each week of each semester they are enrolled as an MMus degree candidate; private or group lessons beyond this may result in additional fees.

The courses listed below satisfy the requirements for this degree program. In certain instances, courses not on this official list may be substituted upon approval of the program's academic advisor, or where applicable, the department or program's Director of Graduate Studies. Course substitutions must be formally applied and entered into Degree Works by the department or program’s Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/). Additionally, these must be approved by the Office of Graduate and Postdoctoral Studies. Students and their academic advisors should identify and clearly document the courses to be taken.

Footnotes and Additional Information

1. No more than three (3) credit hours of MUSI 649 - Independent Study may fulfill this requirement. Remedial courses (such as MUSI 281, MUSI 432, MUSI 511, MUSI 521, or MUSI 522) and extra hours of required Performance Coursework (such as extra private instrumental or vocal study, ensembles, chamber music, vocal coaching, or repertoire classes) will not fulfill this requirement.

2. Deficiencies in these areas will result in remedial coursework being added to a student's degree plan.

Academic Coursework

Academic Coursework is comprised of at least 1 course (3 credit hours) from the Approved Music Theory course offerings, 1 course (3 credit hours) from the Music Theory or Music History course offerings, 2 courses (4 credit hours) from the Music Career and Skills Enhancement course offerings, and 6 credit hours from the Elective Requirements.

**Footnotes and Additional Information**

1 No more than three (3) credit hours of MUSI 649 Independent Study may fulfill this requirement. Remedial courses (such as MUSI 281, MUSI 432, MUSI 511, MUSI 521, or MUSI 522) and extra hours of required Performance Coursework (such as extra private instrumental or vocal study, ensembles, chamber music, vocal coaching, or repertoire classes) will not fulfill this requirement.
Policies for the MMus Degree

Shepherd School of Music Graduate Program Handbook

The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, the Shepherd School of Music publishes a graduate program handbook, which can be found here: https://gradhandbooks.rice.edu/2019_20/Shepherd_School_of_Music_Graduate_Handbook.pdf

Admission

For Instrumental Performance, Vocal Performance, and Orchestral Conducting applicants, an audition is required. Composition applicants must submit portfolios, and Musicology applicants must provide samples of their written work. Musicology applicants must also complete advanced music tests as well as the Graduate Record Examination for admission consideration.

Academic Standards

Curriculum and Degree Requirements

Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

Grading Policy

A minimum grade of B- (2.67 grade points) is expected of all music students in their major applied area. A grade of C+ (2.33 grade points) or lower is considered unsatisfactory and will be evaluated in the following manner:

A music major who receives a grade of C+ (2.33 grade points) or lower in their major applied area will be placed on music probation. Music probation signifies that the student's work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of C+ (2.33 grade points) or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

Note: For music history and musicology majors a grade of C+ (2.33 grade points) or lower in any music history course is considered unsatisfactory and will be evaluated as above.

Graduate degree requirement: a minimum overall grade point average of 2.67 is necessary for graduation.

Leaves of Absence and Voluntary Withdrawal

Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean's office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Performance

Students are expected to perform frequently during their residency at Rice. MMus students in any of the performance fields of study must present at least two full recitals. Composition and Conducting students should present recitals as specified by their degree programs. Students are expected to attend both faculty and student recitals. In addition, all MMus students must participate in the school's conducted ensembles as assigned.

Thesis

A thesis is required for MMus students in the field of Musicology. In lieu of a thesis, MMus students in the field of Composition must produce an original work of extended scope. Both thesis and original work must be publicly defended.

Additional Information

For additional information, please see the Shepherd School of Music website: https://music.rice.edu

Opportunities for the MMus Degree

Other Musical Opportunities

Lectures and Performances

A visiting lecturer series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.

Additional Information

For additional information, please see the Shepherd School of Music website: https://music.rice.edu

Master of Music (MMus) Degree in the field of Orchestral Conducting

Program Learning Outcomes for the MMus Degree

Upon completing the MMus degree, students will be able to:

1. Demonstrate technical and musical competence in performance, composition, or historical scholarship at a professional level.
2. Develop advanced analytical skills in music theory and a deep understanding of how those skills inform music performance.
3. Demonstrate a thorough understanding of the relationship between music history and music performance.
4. Develop career development skills that complement their professional-level performance skills.

Requirements for the MMus Degree

The MMus degree in the field of Orchestral Conducting is a non-thesis master's degree. For general university requirements, please see Non-Thesis Master's Degrees (p. 68). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55). Students pursuing the MMus degree in the field of Orchestral Conducting must complete:

• A minimum of 47 credit hours to satisfy degree requirements.
• A minimum of 30 credit hours of graduate-level study (coursework at the 500-level or above).
• A minimum of 24 credit hours must be taken at Rice University.
• A minimum residency enrollment of one fall or spring semester of full-time graduate study at Rice University.
• A minimum overall GPA of 2.67 or higher in all Rice coursework.
• A minimum GPA of 2.67 or higher in all Rice coursework that satisfies requirements for the non-thesis master’s degree.

Students completing the MMus degree in all fields of study must participate in core music, applied music, and other required music courses as well as in chamber music and large ensembles, plus electives. They are entitled to one hour of private lessons each week of each semester they are enrolled as an MMus degree candidate; private or group lessons beyond this may result in additional fees.

The courses listed below satisfy the requirements for this degree program. In certain instances, courses not on this official list may be substituted upon approval of the program’s academic advisor, or where applicable, the department or program’s Director of Graduate Studies. Course substitutions must be formally applied and entered into Degree Works by the department or program’s Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/). Additionally, these must be approved by the Office of Graduate and Postdoctoral Studies. Students and their academic advisors should identify and clearly document the courses to be taken.

Footnotes and Additional Information

1 Recitals for the MMus degree in the field of Orchestral Conducting are optional. Conducting experience with the orchestra replaces the recital requirements typically found in the MMus degree for other fields of study.

2 No more than three (3) credit hours of MUSI 649 - Independent Study may fulfill this requirement. Remedial courses (such as MUSI 281, MUSI 432, MUSI 511, MUSI 521, or MUSI 522) and extra hours of required Performance Coursework (such as extra private instrumental or vocal study, ensembles, chamber music, vocal coaching, or repertoire classes) will not fulfill this requirement.

3 Deficiencies in these areas will result in remedial coursework being added to a student’s degree plan. Proficiency in Orchestration is defined as MUSI 416 or the equivalent.

Other Requirements

Students must complete 6 credit hours from the Elective Requirements, and 2 courses (8 credit hours) from the Concentration Lessons lists below.
### Concentration Lessons (private vocal and/or instrumental study)

**Policies for the MMus Degree**

**Shepherd School of Music Graduate Program Handbook**

The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, the Shepherd School of Music publishes a graduate program handbook, which can be found here: [https://gradhandbooks.rice.edu/2019-20/Shepherd_School_of_Music_Graduate_Handbook.pdf](https://gradhandbooks.rice.edu/2019-20/Shepherd_School_of_Music_Graduate_Handbook.pdf)

**Admission**

For Instrumental Performance, Vocal Performance, and Orchestral Conducting applicants, an audition is required. Composition applicants must submit portfolios, and Musicology applicants must provide samples of their written work. Musicology applicants must also complete advanced music tests as well as the Graduate Record Examination for admission consideration.

**Academic Standards**

**Curriculum and Degree Requirements**

Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

**Grading Policy**

A minimum grade of B- (2.67 grade points) is expected of all music students in their major applied area. A grade of C+ (2.33 grade points) or lower is considered unsatisfactory and will be evaluated in the following manner:

A music major who receives a grade of C+ (2.33 grade points) or lower in their major applied area will be placed on music probation. Music probation signifies that the student’s work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of C+ (2.33 grade points) or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

**Note:** For music history and musicology majors a grade of C+ (2.33 grade points) or lower in any music history course is considered unsatisfactory and will be evaluated as above.

**Graduate degree requirement: a minimum overall grade point average of 2.67 is necessary for graduation.**

**Leaves of Absence and Voluntary Withdrawal**

Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean's office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

**Additional Information**

For additional information, please see the Shepherd School of Music website at: [https://music.rice.edu](https://music.rice.edu)

**Opportunities for the MMus Degree**

**Other Musical Opportunities**

**Lectures and Performances**

A visiting lecturer series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.

**Additional Information**

For additional information, please see the Shepherd School of Music website at: [https://music.rice.edu](https://music.rice.edu)

**Master of Music (MMus) Degree in the field of Organ Performance**

**Program Learning Outcomes for the MMus Degree**

Upon completing the MMus degree, students will be able to:

1. Demonstrate technical and musical competence in performance, composition, or historical scholarship at a professional level.
2. Develop advanced analytical skills in music theory and a deep understanding of how those skills inform music performance.
3. Demonstrate a thorough understanding of the relationship between music history and music performance.
4. Develop career development skills that complement their professional-level performance skills.

**Requirements for the MMus Degree**

The MMus degree in the field of Organ Performance is a non-thesis master’s degree. For general university requirements, please see Non-Thesis Master’s Degrees (p. 68). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55). Students pursuing the MMus degree in the field of Organ Performance must complete:

- A minimum of 51 credit hours to satisfy degree requirements.
- A minimum of 30 credit hours of graduate-level study (coursework at the 500-level or above).
- A minimum of 24 credit hours must be taken at Rice University.
- A minimum residency enrollment of one fall or spring semester of full-time graduate study at Rice University.
- A minimum overall GPA of 2.67 or higher in all Rice coursework.
- A minimum GPA of 2.67 or higher in all Rice coursework that satisfies requirements for the non-thesis master’s degree.

Students completing the MMus degree in all fields of study must participate in core music, applied music, and other required music courses as well as in chamber music and large ensembles, plus electives. They are entitled to one hour of private lessons each week of each
semester they are enrolled as an MMus degree candidate; private or
group lessons beyond this may result in additional fees.

The courses listed below satisfy the requirements for this degree
program. In certain instances, courses not on this official list may
be substituted upon approval of the program's academic advisor, or
where applicable, the department or program's Director of Graduate
Studies. Course substitutions must be formally applied and entered into
Degree Works by the department or program's Official Certifier (https://
registrar.rice.edu/facstaff/degreeworks/officialcertifier/). Additionally,
these must be approved by the Office of Graduate and Postdoctoral
Studies. Students and their academic advisors should identify and clearly
document the courses to be taken.

Total Credit Hours: 51

Footnotes and Additional Information

1 No more than three (3) credit hours of MUSI 649 - Independent Study may fulfill this requirement. Remedial courses (such as MUSI 281, MUSI 432, MUSI 511, MUSI 521, or MUSI 522) and extra hours of required Performance Coursework (such as extra private instrumental or vocal study, ensembles, chamber music, vocal coaching, or repertoire classes) will not fulfill this requirement.

2 Deficiencies in this area will result in remedial coursework being added to a student's degree plan. MMus students in the field of Organ Performance do not have to demonstrate piano proficiency.

### Policies for the MMus Degree

**Shepherd School of Music Graduate Program Handbook**

The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, the Shepherd School of Music publishes a graduate program handbook, which can be found here: [https://gradhandbooks.rice.edu/2019_20/Shepherd_School_of_Music_Graduate_Handbook.pdf](https://gradhandbooks.rice.edu/2019_20/Shepherd_School_of_Music_Graduate_Handbook.pdf)

**Admission**

For Instrumental Performance, Vocal Performance, and Orchestral Conducting applicants, an audition is required. Composition applicants must submit portfolios, and Musicology applicants must provide samples of their written work. Musicology applicants must also complete...
advanced music tests as well as the Graduate Record Examination for admission consideration.

**Academic Standards**

**Curriculum and Degree Requirements**
Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

**Grading Policy**
A minimum grade of B- (2.67 grade points) is expected of all music students in their major applied area. A grade of C+ (2.33 grade points) or lower is considered unsatisfactory and will be evaluated in the following manner:

A music major who receives a grade of C+ (2.33 grade points) or lower in their major applied area will be placed on music probation. Music probation signifies that the student’s work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from any public function not directly a part of a degree program.

If a student receives a second semester of C+ (2.33 grade points) or lower in their major applied area, the student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

**Note:** For music history and musicology majors a grade of C+ (2.33 grade points) or lower in any music history course is considered unsatisfactory and will be evaluated as above.

**Graduate degree requirement: a minimum overall grade point average of 2.67 is necessary for graduation.**

**Leaves of Absence and Voluntary Withdrawal**
Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean’s office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudit. Students should explain the reasons for their withdrawal to the dean before leaving campus.

**Performance**
Students are expected to perform frequently during their residency at Rice. MMus students in any of the performance fields of study must present at least two full recitals. Composition and Conducting students should present recitals as specified by their degree programs. Students are expected to attend both faculty and student recitals. In addition, all MMus students must participate in the school’s conducted ensembles as assigned.

**Thesis**
A thesis is required for MMus students in the field of Musicology. In lieu of a thesis, MMus students in the field of Composition must produce an original work of extended scope. Both thesis and original work must be publicly defended.

**Additional Information**
For additional information, please see the Shepherd School of Music website: [https://music.rice.edu](https://music.rice.edu)

---

**Opportunities for the MMus Degree**

**Other Musical Opportunities**

**Lectures and Performances**
A visiting lecturer series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.

**Additional Information**
For additional information, please see the Shepherd School of Music website: [https://music.rice.edu](https://music.rice.edu)

---

**Master of Music (MMus) Degree in the field of Percussion Performance**

**Program Learning Outcomes for the MMus Degree**
Upon completing the MMus degree, students will be able to:

1. Demonstrate technical and musical competence in performance, composition, or historical scholarship at a professional level.
2. Develop advanced analytical skills in music theory and a deep understanding of how those skills inform music performance.
3. Demonstrate a thorough understanding of the relationship between music history and music performance.
4. Develop career development skills that complement their professional-level performance skills.

**Requirements for the MMus Degree**
The MMus degree in the field of Percussion Performance is a non-thesis master’s degree. For general university requirements, please see [Non-Thesis Master’s Degrees](p. 68). For additional requirements, regulations, and procedures for all graduate programs, please see [All Graduate Students](p. 55). Students pursuing the MMus degree in the field of Percussion Performance must complete:

- A minimum of 48 credit hours to satisfy degree requirements.
- A minimum of 30 credit hours of graduate-level study (coursework at the 500-level or above).
- A minimum of 24 credit hours must be taken at Rice University.
- A minimum residency enrollment of one fall or spring semester of full-time graduate study at Rice University.
- A minimum overall GPA of 2.67 or higher in all Rice coursework.
- A minimum GPA of 2.67 or higher in all Rice coursework that satisfies requirements for the non-thesis master’s degree.

Students completing the MMus degree in all fields of study must participate in core music, applied music, and other required music courses as well as in chamber music and large ensembles, plus electives. They are entitled to one hour of private lessons each week of each semester they are enrolled as an MMus degree candidate; private or group lessons beyond this may result in additional fees.

The courses listed below satisfy the requirements for this degree program. In certain instances, courses not on this official list may
be substituted upon approval of the program’s academic advisor, or where applicable, the department or program’s Director of Graduate Studies. Course substitutions must be formally applied and entered into Degree Works by the department or program’s Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/). Additionally, these must be approved by the Office of Graduate and Postdoctoral Studies. Students and their academic advisors should identify and clearly document the courses to be taken.

MUSI 540  APPLIED JAZZ IMPROVISATION: DEVELOPING SOLO IMPROVISATIONAL SKILLS IN THE JAZZ IDIOM  2

**Elective Requirements**

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
</table>

Select 6 credit hours from the following:

- Any course at the 300-level or above
- Any language course at the 100-level or above
- Any additional Music Theory, Music History, or Music Career and Skills Enhancement course
- Secondary Lessons (any course between MUSI 251 and MUSI 297 with the exception of MUSI 281)
- MUSI 342  RICE JAZZ ENSEMBLE
- MUSI 345  APPLIED STUDIES IN JAZZ
- MUSI 381  CONCENTRATION PIANO
- MUSI 436 / MDEM 456  COLLEGIUM MUSICUM
- MUSI 444  PRACTICUM IN CONTEMPORARY MUSIC
- MUSI 585  SONATA CLASS
- MUSI 649  GRADUATE INDEPENDENT STUDY

**Footnotes and Additional Information**

1 No more than three (3) credit hours of MUSI 649 Independent Study may fulfill this requirement. Remedial courses (such as MUSI 281, MUSI 432, MUSI 511, MUSI 521, or MUSI 522) and extra hours of required Performance Coursework (such as extra private instrumental or vocal study, ensembles, chamber music, vocal coaching, or repertoire classes) will not fulfill this requirement.

**Policies for the MMus Degree**

Shepherd School of Music Graduate Program Handbook

The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, the Shepherd School of Music publishes a graduate program handbook, which can be found here: [https://gradhandbooks.rice.edu/2019_20/Shepherd_School_of_Music_Graduate_Handbook.pdf](https://gradhandbooks.rice.edu/2019_20/Shepherd_School_of_Music_Graduate_Handbook.pdf)

**Admission**

For Instrumental Performance, Vocal Performance, and Orchestral Conducting applicants, an audition is required. Composition applicants must submit portfolios, and Musicology applicants must provide samples of their written work. Musicology applicants must also complete advanced music tests as well as the Graduate Record Examination for admission consideration.

**Academic Standards**

Curriculum and Degree Requirements

Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

**Grading Policy**

A minimum grade of B- (2.67 grade points) is expected of all music students in their major applied area. A grade of C+ (2.33 grade points) or lower is considered unsatisfactory and will be evaluated in the following manner:
A music major who receives a grade of C+ (2.33 grade points) or lower in their major applied area will be placed on music probation. Music probation signifies that the student's work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of C+ (2.33 grade points) or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

Note: For music history and musicology majors a grade of C+ (2.33 grade points) or lower in any music history course is considered unsatisfactory and will be evaluated as above.

Graduate degree requirement: a minimum overall grade point average of 2.67 is necessary for graduation.

Leaves of Absence and Voluntary Withdrawal
Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean's office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudit. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Performance
Students are expected to perform frequently during their residency at Rice. MMus students in any of the performance fields of study must present at least two full recitals. Composition and Conducting students should present recitals as specified by their degree programs. Students are expected to attend both faculty and student recitals. In addition, all MMus students must participate in the school's conducted ensembles as assigned.

Thesis
A thesis is required for MMus students in the field of Musicology. In lieu of a thesis, MMus students in the field of Composition must produce an original work of extended scope. Both thesis and original work must be publicly defended.

Additional Information
For additional information, please see the Shepherd School of Music website: https://music.rice.edu

Master of Music (MMus) Degree in the field of Piano Chamber Music and Accompanying

Program Learning Outcomes for the MMus Degree

Upon completing the MMus degree, students will be able to:

1. Demonstrate technical and musical competence in performance, composition, or historical scholarship at a professional level.
2. Develop advanced analytical skills in music theory and a deep understanding of how those skills inform music performance.
3. Demonstrate a thorough understanding of the relationship between music history and music performance.
4. Develop career development skills that complement their professional-level performance skills.

Requirements for the MMus Degree

The MMus degree in the field of Piano, Chamber Music, and Accompanying is a non-thesis master's degree. For general university requirements, please see Non-Thesis Master's Degrees (p. 68).

For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55). Students pursuing the MMus degree in the field of Piano, Chamber Music, and Accompanying must complete:

- A minimum of 46-50 credit hours, depending on course selection, to satisfy degree requirements.
- A minimum of 30 credit hours of graduate-level study (coursework at the 500-level or above).
- A minimum of 24 credit hours must be taken at Rice University.
- A minimum residency enrollment of one fall or spring semester of full-time graduate study at Rice University.
- A minimum overall GPA of 2.67 or higher in all Rice coursework.
- A minimum GPA of 2.67 or higher in all Rice coursework that satisfies requirements for the non-thesis master's degree.

Students completing the MMus degree in all fields of study must participate in core music, applied music, and other required music courses as well as in chamber music and large ensembles, plus electives. They are entitled to one hour of private lessons each week of each semester they are enrolled as an MMus degree candidate; private or group lessons beyond this may result in additional fees.

The courses listed below satisfy the requirements for this degree program. In certain instances, courses not on this official list may be substituted upon approval of the program's academic advisor, or where applicable, the department or program's Director of Graduate Studies. Course substitutions must be formally applied and entered into Degree Works by the department or program's Official Certifier (https://registrar.rice.edu/facstaff/degeworks/officialcertifier/). Additionally, these must be approved by the Office of Graduate and Postdoctoral
Studies. Students and their academic advisors should identify and clearly document the courses to be taken.

#### Footnotes and Additional Information

1. No more than three (3) credit hours of MUSI 649 - Independent Study may fulfill this requirement. Remedial courses (such as MUSI 281, MUSI 432, MUSI 511, MUSI 521, or MUSI 522) and extra hours of required Performance Coursework (such as extra private instrumental or vocal study, ensembles, chamber music, vocal coaching, or repertoire classes) will not fulfill this requirement.

2. Deficiencies in this area will result in remedial coursework being added to a student's degree plan. MMus students in the field of Piano, Chamber Music, and Accompanying do not have to demonstrate piano proficiency. MUSI 426 Piano Literature is required if not completed at the undergraduate level. This course would be considered remedial and would not count towards the elective requirement.

### Footnotes and Additional Information

1. No more than three (3) credit hours of MUSI 649 Independent Study may fulfill this requirement. Remedial courses (such as MUSI 281, MUSI 432, MUSI 511, MUSI 521, or MUSI 522) and extra hours of required Performance Coursework (such as extra private instrumental or vocal study, ensembles, chamber music, vocal coaching, or repertoire classes) will not fulfill this requirement.

### Policies for the MMus Degree

#### Shepherd School of Music Graduate Program Handbook

The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, the Shepherd School of Music publishes a graduate program handbook, which can be found here: [https://gradhandbooks.rice.edu/2019_20/Shepherd_School_of_Music_Graduate_Handbook.pdf](https://gradhandbooks.rice.edu/2019_20/Shepherd_School_of_Music_Graduate_Handbook.pdf)

#### Admission

For Instrumental Performance, Vocal Performance, and Orchestral Conducting applicants, an audition is required. Composition applicants must submit portfolios, and Musicology applicants must provide samples of their written work. Musicology applicants must also complete advanced music tests as well as the Graduate Record Examination for admission consideration.
Academic Standards
Curriculum and Degree Requirements
Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

Grading Policy
A minimum grade of B- (2.67 grade points) is expected of all music students in their major applied area. A grade of C+ (2.33 grade points) or lower is considered unsatisfactory and will be evaluated in the following manner:

A music major who receives a grade of C+ (2.33 grade points) or lower in their major applied area will be placed on music probation. Music probation signifies that the student’s work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of C+ (2.33 grade points) or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

Note: For music history and musicology majors a grade of C+ (2.33 grade points) or lower in any music history course is considered unsatisfactory and will be evaluated as above.

Graduate degree requirement: a minimum overall grade point average of 2.67 is necessary for graduation.

Leaves of Absence and Voluntary Withdrawal
Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean’s office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Performance
Students are expected to perform frequently during their residency at Rice. MMus students in any of the performance fields of study must present at least two full recitals. Composition and Conducting students should present recitals as specified by their degree programs. Students are expected to attend both faculty and student recitals. In addition, all MMus students must participate in the school’s conducted ensembles as assigned.

Thesis
A thesis is required for MMus students in the field of Musicology. In lieu of a thesis, MMus students in the field of Composition must produce an original work of extended scope. Both thesis and original work must be publicly defended.

Additional Information
For additional information, please see the Shepherd School of Music website: https://music.rice.edu

Opportunities for the MMus Degree
Other Musical Opportunities
Lectures and Performances
A visiting lecturer series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.

Additional Information
For additional information, please see the Shepherd School of Music website: https://music.rice.edu

Master of Music (MMus) Degree in the field of Piano Performance
Program Learning Outcomes for the MMus Degree
Upon completing the MMus degree, students will be able to:

1. Demonstrate technical and musical competence in performance, composition, or historical scholarship at a professional level.
2. Develop advanced analytical skills in music theory and a deep understanding of how those skills inform music performance.
3. Demonstrate a thorough understanding of the relationship between music history and music performance.
4. Develop career development skills that complement their professional-level performance skills.

Requirements for the MMus Degree
The MMus degree in the field of Piano Performance is a non-thesis master’s degree. For general university requirements, please see Non-Thesis Master's Degrees (p. 68). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55). Students pursuing the MMus degree in the field of Piano Performance must complete:

- A minimum of 43-47 credit hours, depending on course selection, to satisfy degree requirements.
- A minimum of 30 credit hours of graduate-level study (coursework at the 500-level or above).
- A minimum of 24 credit hours must be taken at Rice University.
- A minimum residency enrollment of one fall or spring semester of full-time graduate study at Rice University.
- A minimum overall GPA of 2.67 or higher in all Rice coursework.
- A minimum GPA of 2.67 or higher in all Rice coursework that satisfies requirements for the non-thesis master’s degree.

Students completing the MMus degree in all fields of study must participate in core music, applied music, and other required music courses as well as in chamber music and large ensembles, plus electives. They are entitled to one hour of private lessons each week of each semester they are enrolled as an MMus degree candidate; private or group lessons beyond this may result in additional fees.
The courses listed below satisfy the requirements for this degree program. In certain instances, courses not on this official list may be substituted upon approval of the program's academic advisor, or where applicable, the department or program's Director of Graduate Studies. Course substitutions must be formally applied and entered into Degree Works by the department or program's Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/). Additionally, these must be approved by the Office of Graduate and Postdoctoral Studies. Students and their academic advisors should identify and clearly document the courses to be taken.

### Footnotes and Additional Information

1. No more than three (3) credit hours of MUSI 649 - Independent Study may fulfill this requirement. Remedial courses (such as MUSI 281, MUSI 432, MUSI 511, MUSI 521, or MUSI 522) and extra hours of required Performance Coursework (such as extra private instrumental or vocal study, ensembles, chamber music, vocal coaching, or repertoire classes) will not fulfill this requirement.

2. Deficiencies in this area will result in remedial coursework being added to a student's degree plan. MMus students in the field of Piano Performance do not have to demonstrate piano proficiency.

### Aural Skills

Elective Requirements

Select 6 credit hours from the following:

1. Any course at the 300-level or above
2. Any language course at the 100-level or above
3. Any additional Music Theory, Music History, or Music Career and Skills Enhancement course
4. Secondary Lessons (any course between MUSI 251 and MUSI 297 with the exception of MUSI 281)
5. MUSI 342 RICE JAZZ ENSEMBLE
6. MUSI 345 APPLIED STUDIES IN JAZZ
7. MUSI 381 CONCENTRATION PIANO
8. MUSI 436 / MDEM 456 COLLEGIUM MUSICUM
9. MUSI 444 PRACTICUM IN CONTEMPORARY MUSIC
10. MUSI 585 SONATA CLASS
11. MUSI 649 GRADUATE INDEPENDENT STUDY

Footnotes and Additional Information

1. No more than three (3) credit hours of MUSI 649 Independent Study may fulfill this requirement. Remedial courses (such as MUSI 281, MUSI 432, MUSI 511, MUSI 521, or MUSI 522) and extra hours of required Performance Coursework (such as extra private instrumental or vocal study, ensembles, chamber music, vocal coaching, or repertoire classes) will not fulfill this requirement.

Policies for the MMus Degree

Shepherd School of Music Graduate Program Handbook

The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, the Shepherd School of Music publishes a graduate program handbook, which can be found here: [https://gradhandbooks.rice.edu/2019_20/Shepherd_School_of_Music_Graduate_Handbook.pdf](https://gradhandbooks.rice.edu/2019_20/Shepherd_School_of_Music_Graduate_Handbook.pdf)

Admission

For Instrumental Performance, Vocal Performance, and Orchestral Conducting applicants, an audition is required. Composition applicants must submit portfolios, and Musicology applicants must provide samples of their written work. Musicology applicants must also complete...
advanced music tests as well as the Graduate Record Examination for admission consideration.

**Academic Standards**  
**Curriculum and Degree Requirements**  
Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

**Grading Policy**  
A minimum grade of B- (2.67 grade points) is expected of all music students in their major applied area. A grade of C+ (2.33 grade points) or lower is considered unsatisfactory and will be evaluated in the following manner:

A music major who receives a grade of C+ (2.33 grade points) or lower in their major applied area will be placed on music probation. Music probation signifies that the student's work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of C+ (2.33 grade points) or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

Note: For music history and musicology majors a grade of C+ (2.33 grade points) or lower in any music history course is considered unsatisfactory and will be evaluated as above.

**Graduate degree requirement: a minimum overall grade point average of 2.67 is necessary for graduation.**

**Leaves of Absence and Voluntary Withdrawal**  
Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean's office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

**Performance**  
Students are expected to perform frequently during their residency at Rice. MMus students in any of the performance fields of study must present at least two full recitals. Composition and Conducting students should present recitals as specified by their degree programs. Students are expected to attend both faculty and student recitals. In addition, all MMus students must participate in the school's conducted ensembles as assigned.

**Thesis**  
A thesis is required for MMus students in the field of Musicology. In lieu of a thesis, MMus students in the field of Composition must produce an original work of extended scope. Both thesis and original work must be publicly defended.

**Additional Information**  
For additional information, please see the Shepherd School of Music website: [https://music.rice.edu](https://music.rice.edu)

---

### Opportunities for the MMus Degree

#### Other Musical Opportunities

**Lectures and Performances**  
A visiting lecturer series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.

**Additional Information**  
For additional information, please see the Shepherd School of Music website: [https://music.rice.edu](https://music.rice.edu)

### Master of Music (MMus) Degree in the field of String Quartet Performance

**Program Learning Outcomes for the MMus Degree**

Upon completing the MMus degree, students will be able to:

1. Demonstrate technical and musical competence in performance, composition, or historical scholarship at a professional level.
2. Develop advanced analytical skills in music theory and a deep understanding of how those skills inform music performance.
3. Demonstrate a thorough understanding of the relationship between music history and music performance.
4. Develop career development skills that complement their professional-level performance skills.

**Requirements for the MMus Degree**

The MMus degree in the field of String Quartet Performance is a non-thesis master's degree. For general university requirements, please see Non-Thesis Master's Degrees (p. 68). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55). Students pursuing the MMus degree in the field of String Quartet Performance must complete:

- A minimum of 45 credit hours to satisfy degree requirements.
- A minimum of 30 credit hours of graduate-level study (coursework at the 500-level or above).
- A minimum of 24 credit hours must be taken at Rice University.
- A minimum residency enrollment of one fall or spring semester of full-time graduate study at Rice University.
- A minimum overall GPA of 2.67 or higher in all Rice coursework.
- A minimum GPA of 2.67 or higher in all Rice coursework that satisfies requirements for the non-thesis master's degree.

Students completing the MMus degree in all fields of study must participate in core music, applied music, and other required music courses as well as in chamber music and large ensembles, plus electives. They are entitled to one hour of private lessons each week of each semester they are enrolled as an MMus degree candidate; private or group lessons beyond this may result in additional fees.
The courses listed below satisfy the requirements for this degree program. In certain instances, courses not on this official list may be substituted upon approval of the program’s academic advisor, or where applicable, the department or program’s Director of Graduate Studies. Course substitutions must be formally applied and entered into Degree Works by the department or program’s Official Certifier (https://registrar.rice.edu/facstaff/degeworks/officialcertifier/). Additionally, these must be approved by the Office of Graduate and Postdoctoral Studies. Students and their academic advisors should identify and clearly document the courses to be taken.

Master of Music (MMus) Degree in the field of Trombone Performance

Program Learning Outcomes for the MMus Degree

Upon completing the MMus degree, students will be able to:

1. Demonstrate technical and musical competence in performance, composition, or historical scholarship at a professional level.
2. Develop advanced analytical skills in music theory and a deep understanding of how those skills inform music performance.
3. Demonstrate a thorough understanding of the relationship between music history and music performance.
4. Develop career development skills that complement their professional-level performance skills.

Requirements for the MMus Degree

The MMus degree in the field of Trombone Performance is a non-thesis master’s degree. For general university requirements, please see Non-Thesis Master’s Degrees (p. 68). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55). Students pursuing the MMus degree in the field of Trombone Performance must complete:

- A minimum of 44 credit hours to satisfy degree requirements.
- A minimum of 30 credit hours of graduate-level study (coursework at the 500-level or above).
- A minimum of 24 credit hours must be taken at Rice University.
- A minimum residency enrollment of one fall or spring semester of full-time graduate study at Rice University.
- A minimum overall GPA of 2.67 or higher in all Rice coursework.
- A minimum GPA of 2.67 or higher in all Rice coursework that satisfies requirements for the non-thesis master’s degree.

Students completing the MMus degree in all fields of study must participate in core music, applied music, and other required music
courses as well as in chamber music and large ensembles, plus electives. They are entitled to one hour of private lessons each week of each semester they are enrolled as an MMus degree candidate; private or group lessons beyond this may result in additional fees.

The courses listed below satisfy the requirements for this degree program. In certain instances, courses not on this official list may be substituted upon approval of the program’s academic advisor, or where applicable, the department or program’s Director of Graduate Studies. Course substitutions must be formally applied and entered into Degree Works by the department or program’s Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/). Additionally, these must be approved by the Office of Graduate and Postdoctoral Studies. Students and their academic advisors should identify and clearly document the courses to be taken.

### Elective Requirements

Select 6 credit hours from the following:

- Any course at the 300-level or above
- Any language course at the 100-level or above
- Any additional Music Theory, Music History, or Music Career and Skills Enhancement course
- Secondary Lessons (any course between MUSI 251 and MUSI 297 with the exception of MUSI 281)
- MUSI 342 RICE JAZZ ENSEMBLE
- MUSI 345 APPLIED STUDIES IN JAZZ
- MUSI 381 CONCENTRATION PIANO
- MUSI 436 / MDEM 456 COLLEGIUM MUSICUM
- MUSI 444 PRACTICUM IN CONTEMPORARY MUSIC
- MUSI 585 SONATA CLASS
- MUSI 649 GRADUATE INDEPENDENT STUDY

### Footnotes and Additional Information

1. No more than three (3) credit hours of MUSI 649 Independent Study may fulfill this requirement. Remedial courses (such as MUSI 281, MUSI 432, MUSI 511, MUSI 521, or MUSI 522) and extra hours of required Performance Coursework (such as extra private instrumental or vocal study, ensembles, chamber music, vocal coaching, or repertoire classes) will not fulfill this requirement.

### Policies for the MMus Degree

#### Shepherd School of Music Graduate Program Handbook

The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, the Shepherd School of Music publishes a graduate program handbook, which can be found here: [https://gradhandbooks.rice.edu/2019_20/Shepherd_School_of_Music_Graduate_Handbook.pdf](https://gradhandbooks.rice.edu/2019_20/Shepherd_School_of_Music_Graduate_Handbook.pdf)

#### Admission

For Instrumental Performance, Vocal Performance, and Orchestral Conducting applicants, an audition is required. Composition applicants must submit portfolios, and Musicology applicants must provide samples of their written work. Musicology applicants must also complete advanced music tests as well as the Graduate Record Examination for admission consideration.
Academic Standards
Curriculum and Degree Requirements
Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

Grading Policy
A minimum grade of B- (2.67 grade points) is expected of all music students in their major applied area. A grade of C+ (2.33 grade points) or lower is considered unsatisfactory and will be evaluated in the following manner:

A music major who receives a grade of C+ (2.33 grade points) or lower in their major applied area will be placed on music probation. Music probation signifies that the student’s work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of C+ (2.33 grade points) or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

Note: For music history and musicology majors a grade of C+ (2.33 grade points) or lower in any music history course is considered unsatisfactory and will be evaluated as above.

Graduate degree requirement: a minimum overall grade point average of 2.67 is necessary for graduation.

Leaves of Absence and Voluntary Withdrawal
Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean’s office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reauditon. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Performance
Students are expected to perform frequently during their residency at Rice. MMus students in any of the performance fields of study must present at least two full recitals. Composition and Conducting students should present recitals as specified by their degree programs. Students are expected to attend both faculty and student recitals. In addition, all MMus students must participate in the school’s conducted ensembles as assigned.

Thesis
A thesis is required for MMus students in the field of Musicology. In lieu of a thesis, MMus students in the field of Composition must produce an original work of extended scope. Both thesis and original work must be publicly defended.

Additional Information
For additional information, please see the Shepherd School of Music website: https://music.rice.edu

Opportunities for the MMus Degree
Other Musical Opportunities
Lectures and Performances
A visiting lecturer series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.

Additional Information
For additional information, please see the Shepherd School of Music website: https://music.rice.edu

Master of Music (MMus) Degree in the field of Trumpet Performance
Program Learning Outcomes for the MMus Degree
Upon completing the MMus degree, students will be able to:

1. Demonstrate technical and musical competence in performance, composition, or historical scholarship at a professional level.
2. Develop advanced analytical skills in music theory and a deep understanding of how those skills inform music performance.
3. Demonstrate a thorough understanding of the relationship between music history and music performance.
4. Develop career development skills that complement their professional-level performance skills.

Requirements for the MMus Degree
The MMus degree in the field of Trumpet Performance is a non-thesis master’s degree. For general university requirements, please see Non-Thesis Master’s Degrees (p. 68). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55). Students pursuing the MMus degree in the field of Trumpet Performance must complete:

- A minimum of 44 credit hours to satisfy degree requirements.
- A minimum of 30 credit hours of graduate-level study (coursework at the 500-level or above).
- A minimum of 24 credit hours must be taken at Rice University.
- A minimum residency enrollment of one fall or spring semester of full-time graduate study at Rice University.
- A minimum overall GPA of 2.67 or higher in all Rice coursework.
- A minimum GPA of 2.67 or higher in all Rice coursework that satisfies requirements for the non-thesis master’s degree.

Students completing the MMus degree in all fields of study must participate in core music, applied music, and other required music courses as well as in chamber music and large ensembles, plus electives. They are entitled to one hour of private lessons each week of each semester they are enrolled as an MMus degree candidate; private or group lessons beyond this may result in additional fees.

The courses listed below satisfy the requirements for this degree program. In certain instances, courses not on this official list may...
be substituted upon approval of the program's academic advisor, or where applicable, the department or program's Director of Graduate Studies. Course substitutions must be formally applied and entered into Degree Works by the department or program's Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/). Additionally, these must be approved by the Office of Graduate and Postdoctoral Studies. Students and their academic advisors should identify and clearly document the courses to be taken.

Policies for the MMus Degree

Shepherd School of Music Graduate Program Handbook

The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, the Shepherd School of Music publishes a graduate program handbook, which can be found here: https://gradhandbooks.rice.edu/2019_20/Shepherd_School_of_Music_Graduate_Handbook.pdf

Admission

For Instrumental Performance, Vocal Performance, and Orchestral Conducting applicants, an audition is required. Composition applicants must submit portfolios, and Musicology applicants must provide samples of their written work. Musicology applicants must also complete advanced music tests as well as the Graduate Record Examination for admission consideration.

Academic Standards

Curriculum and Degree Requirements
Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

Grading Policy

A minimum grade of B- (2.67 grade points) is expected of all music students in their major applied area. A grade of C+ (2.33 grade points) or lower is considered unsatisfactory and will be evaluated in the following manner.
A music major who receives a grade of C+ (2.33 grade points) or lower in their major applied area will be placed on music probation. Music probation signifies that the student's work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of C+ (2.33 grade points) or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

Note: For music history and musicology majors a grade of C+ (2.33 grade points) or lower in any music history course is considered unsatisfactory and will be evaluated as above.

Graduate degree requirement: a minimum overall grade point average of 2.67 is necessary for graduation.

Leaves of Absence and Voluntary Withdrawal
Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean's office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Additional Information
For additional information, please see the Shepherd School of Music website: https://music.rice.edu

Opportunities for the MMus Degree
Other Musical Opportunities
Lectures and Performances
A visiting lecturer series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.

Requirements for the MMus Degree
The MMus degree in the field of Tuba Performance is a non-thesis master's degree. For general university requirements, please see Non-Thesis Master's Degrees (p. 68). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55). Students pursuing the MMus degree in the field of Tuba Performance must complete:

- A minimum of 44 credit hours to satisfy degree requirements.
- A minimum of 30 credit hours of graduate-level study (coursework at the 500-level or above).
- A minimum of 24 credit hours must be taken at Rice University.
- A minimum residency enrollment of one fall or spring semester of full-time graduate study at Rice University.
- A minimum overall GPA of 2.67 or higher in all Rice coursework.
- A minimum GPA of 2.67 or higher in all Rice coursework that satisfies requirements for the non-thesis master's degree.

Students completing the MMus degree in all fields of study must participate in core music, applied music, and other required music courses as well as in chamber music and large ensembles, plus electives. They are entitled to one hour of private lessons each week of each semester they are enrolled as an MMus degree candidate; private or group lessons beyond this may result in additional fees.

The courses listed below satisfy the requirements for this degree program. In certain instances, courses not on this official list may be substituted upon approval of the program's academic advisor, or when applicable, the department or program's Director of Graduate Studies. Course substitutions must be formally applied and entered into Degree Works by the department or program's Official Certifier (https://registrar.rice.edu/facstaff/degeworks/officialcertifier/). Additionally, these must be approved by the Office of Graduate and Postdoctoral Studies. Students and their academic advisors should identify and clearly document the courses to be taken.

Select 6 credit hours from the following: ¹

¹ No more than three (3) credit hours of MUSI 649 Independent Study may fulfill this requirement. Remedial courses (such as MUSI 281, MUSI 432, MUSI 511, MUSI 521, or MUSI 522) and extra hours of required Performance Coursework (such as extra private instrumental or vocal study, ensembles, chamber music, vocal coaching, or repertoire classes) will not fulfill this requirement.

Footnotes and Additional Information

Policies for the MMus Degree
Shepherd School of Music Graduate Program Handbook

The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, the Shepherd School of Music publishes a graduate program handbook, which can be found here: https://gradhandbooks.rice.edu/2019_20/Shepherd_School_of_Music_Graduate_Handbook.pdf

Admission

For Instrumental Performance, Vocal Performance, and Orchestral Conducting applicants, an audition is required. Composition applicants must submit portfolios, and Musicology applicants must provide samples of their written work. Musicology applicants must also complete advanced music tests as well as the Graduate Record Examination for admission consideration.

Academic Standards

Curriculum and Degree Requirements

Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

Grading Policy

A minimum grade of B- (2.67 grade points) is expected of all music students in their major applied area. A grade of C+ (2.33 grade points) or lower is considered unsatisfactory and will be evaluated in the following manner:

A music major who receives a grade of C+ (2.33 grade points) or lower in their major applied area will be placed on music probation. Music probation signifies that the student's work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of C+ (2.33 grade points) or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

Note: For music history and musicology majors a grade of C+ (2.33 grade points) or lower in any music history course is considered unsatisfactory and will be evaluated as above.

Graduate degree requirement: a minimum overall grade point average of 2.67 is necessary for graduation.

Leaves of Absence and Voluntary Withdrawal

Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean's office before the first day of classes in the semester for which leave is requested.
Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudit. Students should explain the reasons for their withdrawal to the dean before leaving campus.

**Performance**

Students are expected to perform frequently during their residency at Rice. MMus students in any of the performance fields of study must present at least two full recitals. Composition and Conducting students should present recitals as specified by their degree programs. Students are expected to attend both faculty and student recitals. In addition, all MMus students must participate in the school’s conducted ensembles as assigned.

**Thesis**

A thesis is required for MMus students in the field of Musicology. In lieu of a thesis, MMus students in the field of Composition must produce an original work of extended scope. Both thesis and original work must be publicly defended.

**Additional Information**

For additional information, please see the Shepherd School of Music website: https://music.rice.edu

**Opportunities for the MMus Degree**

**Other Musical Opportunities**

**Lectures and Performances**

A visiting lecturer series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.

**Additional Information**

For additional information, please see the Shepherd School of Music website: https://music.rice.edu

**Master of Music (MMus) Degree in the field of Viola Performance**

**Program Learning Outcomes for the MMus Degree**

Upon completing the MMus degree, students will be able to:

1. Demonstrate technical and musical competence in performance, composition, or historical scholarship at a professional level.
2. Develop advanced analytical skills in music theory and a deep understanding of how those skills inform music performance.
3. Demonstrate a thorough understanding of the relationship between music history and music performance.
4. Develop career development skills that complement their professional-level performance skills.

**Requirements for the MMus Degree**

The MMus degree in the field of Viola Performance is a non-thesis master’s degree. For general university requirements, please see Non-

**Thesis Master’s Degrees** (p. 68). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55). Students pursuing the MMus degree in the field of Viola Performance must complete:

- A minimum of 44 credit hours to satisfy degree requirements.
- A minimum of 30 credit hours of graduate-level study (coursework at the 500-level or above).
- A minimum of 24 credit hours must be taken at Rice University.
- A minimum residency enrollment of one fall or spring semester of full-time graduate study at Rice University.
- A minimum overall GPA of 2.67 or higher in all Rice coursework.
- A minimum GPA of 2.67 or higher in all Rice coursework that satisfies requirements for the non-thesis master’s degree.

Students completing the MMus degree in all fields of study must participate in core music, applied music, and other required music courses as well as in chamber music and large ensembles, plus electives. They are entitled to one hour of private lessons each week of each semester they are enrolled as an MMus degree candidate; private or group lessons beyond this may result in additional fees.

The courses listed below satisfy the requirements for this degree program. In certain instances, courses not on this official list may be substituted upon approval of the program’s academic advisor, or where applicable, the department or program’s Director of Graduate Studies. Course substitutions must be formally applied and entered into Degree Works by the department or program’s Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/). Additionally, these must be approved by the Office of Graduate and Postdoctoral Studies. Students and their academic advisors should identify and clearly document the courses to be taken.

**Performance Requirements**

**Academic Coursework**

Select 1 course from the Approved Music Theory course offerings (see course list below) 3

Select 1 additional course from the Music Theory or Music History course offerings (see course lists below) 3
Select 2 courses from the Music Career and Skills Enhancement course offerings (see course list below)  

Select 6 credit hours from the Elective Requirements (see course list below)  

Proficiencies

Students must demonstrate the following proficiencies:
- Piano proficiency
- Aural skills proficiency

Total Credit Hours: 44

Footnotes and Additional Information

1 No more than three (3) credit hours of MUSI 649 - Independent Study may fulfill this requirement. Remedial courses (such as MUSI 281, MUSI 432, MUSI 511, MUSI 521, or MUSI 522) and extra hours of required Performance Coursework (such as extra private instrumental or vocal study, ensembles, chamber music, vocal coaching, or repertoire classes) will not fulfill this requirement.

2 Deficiencies in these areas will result in remedial coursework being added to a student’s degree plan.

Academic Coursework

Academic Coursework is comprised of at least 1 course (3 credit hours) from the Approved Music Theory course offerings, 1 course (3 credit hours) from the Music Theory or Music History course offerings, 2 courses (4 credit hours) from the Music Career and Skills Enhancement course offerings, and 6 credit hours from the Elective Requirements.

Remedial courses (such as MUSI 281, MUSI 432, MUSI 511, MUSI 521, or MUSI 522) and extra hours of required Performance Coursework (such as extra private instrumental or vocal study, ensembles, chamber music, vocal coaching, or repertoire classes) will not fulfill this requirement.

---

**Policies for the MMus Degree**

**Shepherd School of Music Graduate Program Handbook**

The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, the Shepherd School of Music publishes a graduate program handbook, which can be found here: https://gradhandbooks.rice.edu/2019-20/Shepherd_School_of_Music_Graduate_Handbook.pdf

---

**Admission**

For Instrumental Performance, Vocal Performance, and Orchestral Conducting applicants, an audition is required. Composition applicants must submit portfolios, and Musicology applicants must provide samples of their written work. Musicology applicants must also complete advanced music tests as well as the Graduate Record Examination for admission consideration.

---

**Academic Standards**

**Curriculum and Degree Requirements**

Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

---

**Grading Policy**

A minimum grade of B- (2.67 grade points) is expected of all music students in their major applied area. A grade of C+ (2.33 grade points) or lower is considered unsatisfactory and will be evaluated in the following manner.

A music major who receives a grade of C+ (2.33 grade points) or lower in their major applied area will be placed on music probation. Music probation signifies that the student's work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of C+ (2.33 grade points) or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

**Note:** For music history and musicology majors a grade of C+ (2.33 grade points) or lower in any music history course is considered unsatisfactory and will be evaluated as above.

**Graduate degree requirement:** A minimum overall grade point average of 2.67 is necessary for graduation.

---

**Leaves of Absence and Voluntary Withdrawal**

Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean's office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

---

**Performance**

Students are expected to perform frequently during their residency at Rice. MMus students in any of the performance fields of study must present at least two full recitals. Composition and Conducting students should present recitals as specified by their degree programs. Students are expected to attend both faculty and student recitals. In addition, all MMus students must participate in the school's conducted ensembles as assigned.

---

**Thesis**

A thesis is required for MMus students in the field of Musicology. In lieu of a thesis, MMus students in the field of Composition must produce an
original work of extended scope. Both thesis and original work must be publicly defended.

Master of Music (MMus) Degree in the field of Violin Performance

Program Learning Outcomes for the MMus Degree

Upon completing the MMus degree, students will be able to:

1. Demonstrate technical and musical competence in performance, composition, or historical scholarship at a professional level.
2. Develop advanced analytical skills in music theory and a deep understanding of how those skills inform music performance.
3. Demonstrate a thorough understanding of the relationship between music history and music performance.
4. Develop career development skills that complement their professional-level performance skills.

Requirements for the MMus Degree

The MMus degree in the field of Violin Performance is a non-thesis master's degree. For general university requirements, please see Non-Thesis Master's Degrees (p. 68). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55). Students pursuing the MMus degree in the field of Violin Performance must complete:

- A minimum of 44 credit hours to satisfy degree requirements.
- A minimum of 30 credit hours of graduate-level study (coursework at the 500-level or above).
- A minimum of 24 credit hours must be taken at Rice University.
- A minimum residency enrollment of one fall or spring semester of full-time graduate study at Rice University.
- A minimum overall GPA of 2.67 or higher in all Rice coursework.
- A minimum GPA of 2.67 or higher in all Rice coursework that satisfies requirements for the non-thesis master's degree.

Students completing the MMus degree in all fields of study must participate in core music, applied music, and other required music courses as well as in chamber music and large ensembles, plus electives. They are entitled to one hour of private lessons each week of each semester they are enrolled as an MMus degree candidate; private or group lessons beyond this may result in additional fees.

The courses listed below satisfy the requirements for this degree program. In certain instances, courses not on this official list may be substituted upon approval of the program’s academic advisor, or where applicable, the department or program’s Director of Graduate Studies. Course substitutions must be formally applied and entered into Degree Works by the department or program’s official certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/). Additionally, these must be approved by the Office of Graduate and Postdoctoral Studies. Students and their academic advisors should identify and clearly document the courses to be taken.

Select 1 course from the Approved Music Theory course offerings

Select 1 additional course from the Music Theory or Music History course offerings

Select 2 courses from the Music Career and Skills Enhancement course offerings

Select 6 credit hours from the Elective Requirements

Proficiencies

Students must demonstrate the following proficiencies:

- Piano proficiency
- Aural skills proficiency

Total Credit Hours

44
Footnotes and Additional Information

1. No more than three (3) credit hours of MUSI 649 - Independent Study may fulfill this requirement. Remedial courses (such as MUSI 281, MUSI 432, MUSI 511, MUSI 521, or MUSI 522) and extra hours of required Performance Coursework (such as extra private instrumental or vocal study, ensembles, chamber music, vocal coaching, or repertoire classes) will not fulfill this requirement.

2. Deficiencies in these areas will result in remedial coursework being added to a student’s degree plan.

Academic Coursework

Academic Coursework is comprised of at least 1 course (3 credit hours) from the Approved Music Theory course offerings, 1 course (3 credit hours) from the Music Theory or Music History course offerings, 2 courses (4 credit hours) from the Music Career and Skills Enhancement course offerings, and 6 credit hours from the Elective Requirements.

Footnotes and Additional Information
1 No more than three (3) credit hours of MUSI 649 Independent Study may fulfill this requirement. Remedial courses (such as MUSI 281, MUSI 432, MUSI 511, MUSI 521, or MUSI 522) and extra hours of required Performance Coursework (such as extra private instrumental or vocal study, ensembles, chamber music, vocal coaching, or repertoire classes) will not fulfill this requirement.

Academic Standards
Curriculum and Degree Requirements
Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

Grading Policy
A minimum grade of B- (2.67 grade points) is expected of all music students in their major applied area. A grade of C+ (2.33 grade points) or lower is considered unsatisfactory and will be evaluated in the following manner:

A music major who receives a grade of C+ (2.33 grade points) or lower in their major applied area will be placed on music probation. Music probation signifies that the student's work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of C+ (2.33 grade points) or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

Note: For music history and musicology majors a grade of C+ (2.33 grade points) or lower in any music history course is considered unsatisfactory and will be evaluated as above.

Graduate degree requirement: a minimum overall grade point average of 2.67 is necessary for graduation.

Leaves of Absence and Voluntary Withdrawal
Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean's office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Performance
Students are expected to perform frequently during their residency at Rice. MMus students in any of the performance fields of study must present at least two full recitals. Composition and Conducting students should present recitals as specified by their degree programs. Students are expected to attend both faculty and student recitals. In addition, all MMus students must participate in the school’s conducted ensembles as assigned.

Thesis
A thesis is required for MMus students in the field of Musicology. In lieu of a thesis, MMus students in the field of Composition must produce an original work of extended scope. Both thesis and original work must be publicly defended.

Additional Information
For additional information, please see the Shepherd School of Music website: https://music.rice.edu
Opportunities for the MMus Degree

Other Musical Opportunities

Lectures and Performances
A visiting lecturer series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.

Additional Information
For additional information, please see the Shepherd School of Music website: https://music.rice.edu

Master of Music (MMus) Degree in the field of Vocal Performance

Program Learning Outcomes for the MMus Degree

Upon completing the MMus degree, students will be able to:

1. Demonstrate technical and musical competence in performance, composition, or historical scholarship at a professional level.
2. Develop advanced analytical skills in music theory and a deep understanding of how those skills inform music performance.
3. Demonstrate a thorough understanding of the relationship between music history and music performance.
4. Develop career development skills that complement their professional-level performance skills.

Requirements for the MMus Degree

The MMus degree in the field of Vocal Performance is a non-thesis master's degree. For general university requirements, please see Non-Thesis Master's Degrees (p. 68). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55). Students pursuing the MMus degree in the field of Vocal Performance must complete:

- A minimum of 48-52 credit hours, depending on course selection, to satisfy degree requirements.
- A minimum of 30 credit hours of graduate-level study (coursework at the 500-level or above).
- A minimum of 24 credit hours must be taken at Rice University.
- A minimum residency enrollment of one fall or spring semester of full-time graduate study at Rice University.
- A minimum overall GPA of 2.67 or higher in all Rice coursework.
- A minimum GPA of 2.67 or higher in all Rice coursework that satisfies requirements for the non-thesis master's degree.

The courses listed below satisfy the requirements for this degree program. In certain instances, courses not on this official list may be substituted upon approval of the program's academic advisor, or where applicable, the department or program's Director of Graduate Studies. Course substitutions must be formally applied and entered into Degree Works by the department or program's Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/). Additionally, these must be approved by the Office of Graduate and Postdoctoral Studies. Students and their academic advisors should identify and clearly document the courses to be taken.

Students must demonstrate the following proficiencies:

- Piano proficiency
Master of Music (MMus) Degree in the field of Vocal Performance

Aural skills proficiency
Total Credit Hours 48-52

Footnotes and Additional Information
1 No more than three (3) credit hours of MUSI 649 - Independent Study may fulfill this requirement. Remedial courses (such as MUSI 281, MUSI 432, MUSI 511, MUSI 521, or MUSI 522) and extra hours of required Performance Coursework (such as extra private instrumental or vocal study, ensembles, chamber music, vocal coaching, or repertoire classes) will not fulfill this requirement.

2 Language coursework is only required for MMus students in the field of Vocal Performance if not completed at the undergraduate level. Language coursework may be taken for Elective credit by Vocal Performance students only if the required coursework (or equivalent) is completed at the undergraduate level, otherwise language coursework is considered remedial and will not count toward the elective requirement.

3 Deficiencies in these areas will result in remedial coursework being added to a student's degree plan.

Academic Coursework
Academic Coursework is comprised of at least 1 course (3 credit hours) from the Approved Music Theory course offerings, 1 course (3 credit hours) from the Music Theory or Music History course offerings, 2 courses (4 credit hours) from the Music Career and Skills Enhancement course offerings, and 6 credit hours from the Elective Requirements.

**Admission**

For Instrumental Performance, Vocal Performance, and Orchestral Conducting applicants, an audition is required. Composition applicants must submit portfolios, and Musicology applicants must provide samples of their written work. Musicology applicants must also complete advanced music tests as well as the Graduate Record Examination for admission consideration.

**Academic Standards**

**Curriculum and Degree Requirements**

Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

**Grading Policy**

A minimum grade of B- (2.67 grade points) is expected of all music students in their major applied area. A grade of C+ (2.33 grade points) or lower is considered unsatisfactory and will be evaluated in the following manner.

A music major who receives a grade of C+ (2.33 grade points) or lower in their major applied area will be placed on music probation. Music probation signifies that the student's work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from any public function not directly a part of a degree program. If a student receives a second semester of C+ (2.33 grade points) or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

**Note:** For music history and musicology majors a grade of C+ (2.33 grade points) or lower in any music history course is considered unsatisfactory and will be evaluated as above.

Graduate degree requirement: a minimum overall grade point average of 2.67 is necessary for graduation.

**Leaves of Absence and Voluntary Withdrawal**

Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean's office before the first day of classes in the semester for which leave is requested.

### Description and Code Legend

**Note:** Internally, the university uses the following descriptions, codes, and abbreviations for this academic program. The following is a quick reference:

#### Course Catalog/Schedule

- Course offerings/subject code: NAVA

#### Program Description and Code

- Naval Science: NAVA

#### Undergraduate Minor Description and Code

- Minor in Naval Science: NAVA

#### CIP Code and Description

1. **NAVA** Minor: CIP Code/Title: 28.0505 - Naval Science and Operational Studies

1. Classification of Instructional Programs (CIP) 2010 Codes and Descriptions from the National Center for Education Statistics: [https://nces.ed.gov/ipeds/cipcode/](https://nces.ed.gov/ipeds/cipcode/)

---

### Minor in Naval Science

#### Program Learning Outcomes for the Minor in Naval Science

Upon completing the minor in Naval Science, students will be able to:

1. Gain a broad understanding of the United States Navy and Marine Corps to include their current structure, organization, missions, and national security importance.

2. Become familiar with the significant events, attitudes, personalities, and circumstances that have shaped the naval service and understand their relative impact on American history.

3. Become familiar with organizational behavior and management, to include individual and group behaviors, performance incentives and degraders, and different leadership styles.

4. Gain an understanding of Western moral traditions and ethical philosophy as they relate to military leadership and the conduct of warfare, to include Aristotle, Bentham, Mill, Kant, and Aquinas.

5. Develop critical analysis, writing, verbal skills and demonstrate practical application through experiential learning, case study analysis and Socratic discussion.

---

### Requirements for the Minor in Naval Science

Students pursuing the minor in Naval Science must complete:

- A minimum of 6 courses (18 credit hours) to satisfy the minor requirements.
- A minimum of 3 courses (9 credit hours) taken at the 300-level or above.
- A maximum of 2 courses (6 credit hours) from study abroad or transfer credit. For additional program guidelines regarding transfer credit, see the Policies tab.
The minor in Naval Science (NAVA) is available to all degree-seeking Rice students in undergraduate degree-granting programs.

The courses listed below satisfy the requirements for this minor. In certain instances, courses not on this official list may be substituted upon approval of the minor's academic advisor, or where applicable, the Program Director. (Course substitutions must be formally applied and entered into Degree Works by the minor's Official Certifier [https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/]). Students and their academic advisors should identify and clearly document the courses to be taken.

**Footnotes and Additional Information**

1 All Naval Science (NAVA) courses are offered once every academic year with the exception of NAVA 303 and NAVA 411. These two courses are offered every other academic year.

**Policies for the Minor in Naval Science**

**Program Restrictions and Exclusions**

Students pursuing the minor in Naval Science should be aware of the following program restriction:

- As noted in Majors, Minors, and Certificates (p. 11), i) students may declare their intent to pursue a minor only after they have first declared a major, and ii) students may not major and minor in the same subject.

**Transfer Credit**

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of transfer credit advisors on their website: [https://oaa.rice.edu](https://oaa.rice.edu). Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

**Program Transfer Credit Guidelines**

Students pursuing the minor in Naval Science should be aware of the following program-specific transfer credit guidelines:

- No more than 2 courses (6 credit hours) as transfer credit from U.S. or international universities of similar standing as Rice may apply towards the minor.
- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

**Additional Information**

For additional information, please see the Naval Science website: [https://nrotc.rice.edu/prospective-students/naval-science-courses](https://nrotc.rice.edu/prospective-students/naval-science-courses/)

**Opportunities for the Minor in Naval Science**

**Academic Honors**

The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (p. 48) ([summa cum laude](#), [magna cum laude](#), and [cum laude](#)) and Distinction in Research and Creative Work (p. 48). Some departments have department-specific Honors awards or designations.

Behnaam Aazhang
Program Director
[aaz@rice.edu](mailto:aaz@rice.edu)

The Neuroscience program, housed in the BioSciences Department, provides a strong interdisciplinary education covering the breadth of fundamental disciplines on which neuroscience is based and includes multiple opportunities for experiential learning. Neurosciences uses diverse methodologies to investigate the brain and its relationship to the mind, and includes the analysis of brain structures related to specific cognitive processes and representations, investigations of the biochemical processes that occur in brain functions, and the interactions and correlations among the brain, behavior, and biology that can be observed and modeled. The primary aim of the neuroscience program is to provide an understanding of how the cognition and behavior of organisms are encoded in neural processes. Such an understanding of
the brain, bringing to bear many types of knowledge, is necessary as a basis for understanding and solving many practical problems including but not limited to: neurophysiology of disease; treatment for pathologies related to aging, stroke, autism, and hearing and other impairments; human behavior relating to risk, addiction, and social pathologies; memory, learning, and acquisition of literacy; neural basis of emotion and its relation to human perception and behavior.

The Neuroscience program offers a broad range of introductory and advanced courses that lead to either a Bachelor of Arts (BA) Degree with a Major in Neuroscience or a Minor in Neuroscience. The BA degree is designed with the intent that all majors will gain a robust foundation in science and engineering basics and additional experience in the multidisciplinary core areas that contribute to the breadth of modern neuroscience. Project-based laboratory courses are required, and students will have the opportunity to pursue independent research. This program is appropriate for students with interests in pursuing advanced degrees in the future. The minor is available for students who choose other majors but desire strong foundational knowledge of the diverse aspects of how the brain functions. Neuroscience students are encouraged to participate in undergraduate research, and numerous students have already availed themselves of the neuroscience research opportunities at Rice and within the Houston community.

**Bachelor’s Program**
- Bachelor of Arts (BA) Degree with a Major in Neuroscience (p. 746)

**Minor**
- Minor in Neuroscience (p. 748)

Neuroscience does not currently offer an academic program at the graduate level.

1 Classification of Instructional Programs (CIP) 2010 Codes and Descriptions from the National Center for Education Statistics: https://nces.ed.gov/ipeds/cipcode/

**Bachelor of Arts (BA) Degree with a Major in Neuroscience**
Program Learning Outcomes for the BA Degree with a Major in Neuroscience

Upon completing the BA degree with a major in Neuroscience, students will be able to:

1. Demonstrate knowledge of the biological basis for brain and neuron function and experimental strategies that led to our current understanding of brain and neuron function.
2. Demonstrate knowledge of the key issues, questions, and perspectives that define systems neuroscience.
3. Demonstrate the ability to analyze and interpret neuro-scientific data.
4. Understand multiple experimental methods to measure and manipulate brain activity.
5. Demonstrate how to apply the modern scientific method, including designing and executing experiments, and collecting, analyzing, and interpreting meaningful data.

Requirements for the BA Degree with a Major in Neuroscience

For general university requirements, see Graduation Requirements (p. 26). Students pursuing the BA degree with a major in Neuroscience must complete:

- A minimum of 23 courses (62-69 credit hours, depending on course selection) to satisfy major requirements.
- A minimum of 122-129 credit hours to satisfy degree requirements.
- A minimum of 60 credit hours outside of major requirements.
- A minimum of 10 courses (26-30 credit hours) taken at the 300-level or above.
- A maximum of 2 courses (6 credit hours) from study abroad or transfer credits. For additional program guidelines regarding transfer credit, see the Policies tab.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor, or where applicable, the department’s Director of Undergraduate Studies. (Course substitutions must be formally applied and entered into Degree Works by the major’s Official Certifier [https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/].) Students and their academic advisors should identify and clearly document the courses to be taken.

Total Credit Hours Required for the Major in Neuroscience: 62-69

University Graduation Requirements (p. 26) ^1

Footnotes and Additional Information

^1 Footnotes and Additional Information

Includes coursework completed as distribution credit, FWIS, LPAP, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The "hours outside of the major" requirement may include all of the above university requirements.

^2 Permissible substitutions: MATH 105 or MATH 111 and MATH 112 may be substituted for MATH 101; MATH 106 may be substituted for MATH 102; CHEM 151 may be substituted for CHEM 121 or CHEM 111; CHEM 153 may be substituted for CHEM 123 or CHEM 113; CHEM 152 may be substituted for CHEM 122 or CHEM 112, and CHEM 154 may be substituted for CHEM 124 or CHEM 114; PHYS 101 and PHYS 103 or PHYS 111 may be substituted for PHYS 125; PHYS 102 and PHYS 104 or PHYS 112 may be substituted for PHYS 126.

^3 Students must complete a minimum of three semesters (3 credit hours total) of BIOC 129 to use this course as an Elective Requirement.

Policies for the BA Degree with a Major in Neuroscience

Transfer Credit

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Program Transfer Credit Guidelines

Students pursuing the major in Neuroscience should be aware of the following program transfer credit guidelines:

- No more than 2 courses (6 credit hours) of transfer credit from U.S. or international universities of similar standing as Rice may apply towards the major.
- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

Additional Information

For additional information, please see the Neuroscience website: http://neuroscience.rice.edu/.

Opportunities for the BA Degree with a Major in Neuroscience

Academic Honors

The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (p. 48) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 48). Some departments have department-specific Honors awards or designations.

Research in Neuroscience

Research is highly encouraged for all neuroscience programs, and many opportunities are available for independent research at Rice and other institutions of the Texas Medical Center. Students can receive course credit for independent research through the course NEUR 310 with the option to repeat for credit once as an elective for the major.

Additional Information

For additional information, please see the Neuroscience website: http://neuroscience.rice.edu/.

Minor in Neuroscience

Program Learning Outcomes for the Minor in Neuroscience

Upon completing the minor in Neuroscience, students will be able to:

2019-2020 General Announcements

PDF Generated 11/12/2019
1. Demonstrate knowledge of the key issues, questions, and perspectives that define contemporary neuroscience.

2. Understand neuroscience as an interdisciplinary field and demonstrate the ability to draw on, and synthesize, key findings and concepts in the sciences, humanities and/or engineering in both the evaluation of existing theories and in the formulation and solution of new problems in neuroscience.

**Requirements for the Minor in Neuroscience**

Students pursuing the minor in Neuroscience must complete:

- A minimum of 6 courses (18 credit hours) to satisfy minor requirements.
- A minimum of 3 courses (9 credit hours) taken at the 300-level or above.
- A maximum of 2 courses (6 credit hours) from study abroad or transfer credit. For additional program guidelines regarding transfer credit, see the Policies tab.
- A minimum of 2 of the Elective Requirements should be completed for the minor only (not shared or double-counted with another major).
- The requirements for one area of specialization (see below for areas of specialization). The Neuroscience minor offers two areas of specialization:
  - Humanities and Social Science (p. 749); represents cognitive and behavioral approaches to neuroscience, or
  - Natural Sciences and Engineering (p. 749); represents genetics, cellular/molecular, bioengineering, computation, and systems-level investigations.

The courses listed below satisfy the requirements for this minor. In certain instances, courses not on this official list may be substituted upon approval of the minor’s academic advisor, or where applicable, the Program Director. (Course substitutions must be formally applied and entered into Degree Works by the minor’s Official Certifier [https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/]). Students and their academic advisors should identify and clearly document the courses to be taken.

### Footnotes and Additional Information

1. Students must complete a minimum of three semesters (3 credit hours total) of BIOC 129 to use this course as an elective requirement.

### Policies for the Minor in Neuroscience

#### Program Restrictions and Exclusions

Students pursuing minor in Neuroscience should be aware of the following program restriction:

- As noted in Majors, Minors, and Certificates (p. 11), i.) students may declare their intent to pursue a minor only after they have first declared a major, and ii.) students may not major and minor in the same subject.

#### Transfer Credit

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: [https://oaa.rice.edu](https://oaa.rice.edu). Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

#### Program Transfer Credit Guidelines

Students pursuing the minor in Neuroscience should be aware of the following program-specific transfer credit guidelines:

- No more than 2 courses (6 credit hours) of transfer credit from U.S. or international universities of similar standing as Rice may apply towards the minor.
- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

#### Additional Information

For additional information, please see the Neuroscience website: [http://neuroscience.rice.edu/](http://neuroscience.rice.edu/).
Opportunities for the Minor in Neuroscience

Academic Honors
The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 48) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 48). Some departments have department-specific Honors awards or designations.

Research in Neuroscience
Research in highly encouraged for all neuroscience minors, and may opportunities are available for independent research at Rice and other institutions of the Texas Medical Center. Students can receive course credit for independent research through the course NEUR 310. There is a 3 credit hour limit for applying research courses to the NEUR minor requirements.

208 Humanities Building
713-348-2723

Timothy Schroeder
Department Chair
tas6@rice.edu

Philosophy is best described as the attempt to think clearly and deeply about the fundamental questions that arise for us as human beings. What is the nature of knowledge (epistemology)? How are we to distinguish between what really is and what only seems to be (metaphysics)? What is the right thing to do (ethics)? Is there any meaning to existence? To study the history of philosophy is to study the best, most enduring answers given to these questions in the past. Because every other field of study adopts some stance toward these questions, though often implicitly, philosophical issues arise in the natural and social sciences, history, linguistics, literature, art, and so on. Special courses in philosophy deal with each of these.

Characteristic of philosophy are commitments to the construction and evaluation of arguments, to expressing thoughts clearly and precisely, and to defending one's ideas and evaluating the ideas of others. The study of philosophy thus provides resources for critical participation in all realms of human endeavor.

The graduate program trains students to teach and pursue research in the main areas of department concentration: ethics (especially bioethics) and social and political philosophy, core portions of analytic philosophy (especially philosophy of mind), history of philosophy, and continental philosophy.

Bachelor's Program
• Bachelor of Arts (BA) Degree with a Major in Philosophy (p. 752)

Master's Program
• Master of Arts (MA) Degree in the field of Philosophy*

Doctoral Program
• Doctor of Philosophy (PhD) Degree in the field of Philosophy (p. 754)

* Although students are not normally admitted to a Master of Arts (MA) degree program, graduate students may earn the MA as they work towards the PhD.

Description and Code Legend
Note: Internally, the university uses the following descriptions, codes, and abbreviations for this academic program. The following is a quick reference:

Course Catalog/Schedule
• Course offerings/subject code: PHIL

Department Description and Code
• Philosophy : PHIL

Undergraduate Degree Description and Code
• Bachelor of Arts degree: BA
Bachelor of Arts (BA) Degree with a Major in Philosophy

Program Learning Outcomes for the BA Degree with a Major in Philosophy

Upon completing the BA degree with a major in Philosophy, students will be able to:

1. Demonstrate an understanding of the general historical development of philosophy and develop an in-depth understanding of at least one historical period or movement.
2. Demonstrate the ability to read philosophical texts critically and with understanding of the problems and contexts.
3. Demonstrate the cognitive and formal abilities to evaluate critically philosophical arguments.
4. Demonstrate the ability to communicate clearly and logically their own views on a range of important philosophical problems.

Requirements for the BA Degree with a Major in Philosophy

For general university requirements, see Graduation Requirements (p. 26). Students pursuing the BA degree with a major in Philosophy must complete:

- A minimum of 10 courses (30 credit hours) to satisfy major requirements.
- A minimum of 120 credit hours to satisfy degree requirements.
- A minimum of 60 credit hours outside of major requirements.
- A minimum of 6 courses (18 credit hours) taken at the 300-level or above.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major's academic advisor, or where applicable, the department's Director of Undergraduate Studies. (Course substitutions must be formally applied and entered into Degree Works by the major's Official Certifier (https://registrar.rice.edu/facstaff/degeworks/officialcertifier/).) Students and their academic advisors should identify and clearly document the courses to be taken.

Footnotes and Additional Information

* Includes coursework completed as distribution credit, FWIS, LPAP, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The "hours outside of the major" requirement may include all of the above university requirements.
Students who pursue the senior thesis (departmental honors) option must take PHIL 411 and PHIL 412. These courses are required in addition to major requirements and will not fulfill Elective Requirements. For more information, see the Opportunities tab.

Policies for the BA Degree with a Major in Philosophy

Transfer Credit

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines

Students pursuing the major in Philosophy should be aware of the following departmental transfer credit guidelines:

• Requests for transfer credit will be considered by the program director and/or the program’s official transfer credit advisor on an individual case-by-case basis.
• Transfer credit coursework from online-only courses cannot be used to count towards the major.

Distribution Credit Information

The determination of distribution eligibility is done as part of the new course creation process (https://registrar.rice.edu/facstaff/courseprocess/). As part of an annual roll call (https://registrar.rice.edu/facstaff/distribution_credit/) coordinated each Spring by the Office of the Registrar, course distribution eligibility is reviewed and reaffirmed by the Dean’s Offices of each of the academic schools.

Faculty and leadership in the academic schools are responsible for ensuring that the courses identified as distribution-eligible meet the criteria as set in the General Announcements (p. 26). Students are responsible for ensuring that they meet graduation requirements (p. 26) by completing coursework designated as distribution at the time of course registration.

Distribution courses from Philosophy (PHIL) study basic questions of knowledge, value, and reality. They show students the importance of critical examination and careful reasoning about fundamental issues that affect us as persons, as professionals, and as citizens. These courses tend to be broad based and address foundational concerns connected to studies in many other disciplines. Many bear importantly on basic ethical and political issues. Many involve the study of perspectives that have broadly and profoundly shaped history and culture.

Additional Information

For additional information, please see the Philosophy website: https://philosophy.rice.edu.

Opportunities for the BA Degree with a Major in Philosophy

Academic Honors

The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (p. 48) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 48). Some departments have department-specific Honors awards or designations.

Distinction in Research in Philosophy

Students must submit an application to be considered for ‘Distinction in Research in Philosophy’ by April 1. Minimum qualifications are a 3.50 GPA in philosophy courses and enrollment in Honors Thesis course PHIL 407 or the Research Seminar for majors, PHIL 407. The work to be considered must be submitted to a committee appointed by the Chair, which will include the Director of Undergraduate Studies, any Honors Thesis supervisors, and the instructor(s) of the Research Seminar.

Senior Thesis and Departmental Honors in Philosophy

Qualified majors may apply before their senior year for directed research leading to a senior thesis, carried out during both semesters of the senior year. Each semester will require 3 credit hours; these 6 hours (PHIL 411 and PHIL 412) are in addition to the course hours required for the major.

To qualify for the program, students must have an approved research proposal and the agreement of a faculty member to serve as advisor for that project. Applicants will normally be required to have a GPA of 3.75 in philosophy courses and have completed at least two upper-level courses in the distribution area of the proposed research. (See the major requirements for the definition of the distribution areas.) Applications should be submitted to the departmental director of undergraduate studies and will be evaluated by the department.

Students who are considering applying to write a senior thesis should consult the departmental director of undergraduate studies and potential advisors as early as possible. Normally students will apply before preregistration in the second semester of their junior year and will spend time during the following summer reading from a list they have developed with their advisor. The thesis normally will be between 7,500 and 15,000 words (approximately 30–60 pages) in length. Students will enroll in PHIL 411 and PHIL 412. Students accepted into the Rice Undergraduate Scholars Program should enroll in HONS 470 and HONS 471 and will be awarded departmental honors for their work in that program if they meet the requirements in this statement. Note that acceptance into the departmental honors program is a separate process from acceptance in RUSP, as is the evaluation for departmental honors.

To be considered for honors, the senior thesis must be completed by the beginning of April. The thesis will be read and evaluated by the advisor and a second reader chosen by the department, and the final decision on honors will be made by the entire faculty. A student will receive honors if he or she receives a grade of A+, A, or A- in PHIL 412. Completion of the major with at least a 3.50 GPA in all philosophy courses is required for departmental honors. Students who miss the April deadline for thesis submission but meet the university deadline for the semester will receive a grade and credit for completed work but will not be considered for honors. Students whose thesis is not awarded honors will receive a grade and credit for completed work.

Additional Information

For additional information, please see the Philosophy website at: https://philosophy.rice.edu.

See https://humanities.rice.edu/student-life for tables of fellowships, prizes, and internships/practica that may be relevant to this major.
Doctor of Philosophy (PhD) Degree in the field of Philosophy

Program Learning Outcomes for the MA and PhD Degrees in the field of Philosophy

Upon completing the MA and PhD degrees in the field of Philosophy, students will be able to:

1. Demonstrate advanced skills of reading philosophical texts critically and with understanding of the problems and contexts.
2. Demonstrate the ability to communicate clearly and logically their own views on a range of important philosophical problems at an advanced level.
3. Demonstrate an understanding in depth of the content and context of one of the main areas of philosophy.
4. Propose, evaluate, and defend original views in at least one of the main areas of philosophy.

Requirements for the MA and PhD Degrees in the field of Philosophy

MA Degree Program

The MA degree can be either a thesis or a non-thesis master's degree depending on the option the student pursues. For general university requirements for thesis master's degrees, please see Thesis Master’s Degrees (p. 68). For general university requirements for non-thesis master's degrees, please see Non-Thesis Master's Degrees (p. 68). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55).

Students pursuing the non-thesis MA degree in the field of Philosophy must:

- Complete at least two semesters in residence at Rice University.
- Complete 42 credit hours of courses approved for graduate credit in philosophy at Rice University with a grade of B- (2.67 grade points) or better in each course.
- Accumulate an overall GPA of at least 3.00.
- Complete at least 30 credit hours in philosophy at the 500-level or higher.
- Satisfy the departmental logic requirement (PHIL 505 or examination).
- Complete at least 5 courses in an area of concentration.
- Satisfactorily complete departmental duties.
- File a petition for certification of the non-thesis master's degree. This petition can be obtained from the graduate administrator and must be approved and signed by the department chair and submitted to the Office of Graduate and Postdoctoral Studies according to the deadlines posted in the Academic Calendar (http://registrar.rice.edu/calendars/).

Students pursuing the thesis MA degree in the field of Philosophy must:

- Complete with high standing at least 30 credit hours in advanced courses approved by the department.
- Complete a written thesis on a subject approved by the department.

PhD Degree Program

For general university requirements, please see Doctoral Degrees (p. 65). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55). Students pursuing the PhD degree in the field of Philosophy must:

- Complete with high standing 42 credit hours of coursework approved by the department (including logic).
- Demonstrate competence in logic.
- Pass a qualifying examination.
- Perform satisfactorily on an oral defense of their thesis proposal.
- Complete a written thesis on a subject approved by the department (at least one year of thesis research must be spent in residence).
- Perform satisfactorily on a final oral examination (not limited to the student's special field of study)

The Department of Physics and Astronomy offers undergraduate and graduate programs for a wide range of interests. The bachelor of arts degree with majors in physics or astronomy is suitable for students who wish to obtain a broad liberal arts education with a concentration in a physical science. The bachelor of science degree with majors in physics, astrophysics, or chemical physics provides preparation for employment or further study in physics, astrophysics, and related technical fields. The minor in physics provides a solid foundation in physics with additional advanced physics topics of the student’s choosing.

Research facilities and thesis supervision are available for MS and PhD students in atomic, molecular, and optical physics; biophysics; condensed matter physics; galactic astronomy; high energy astrophysics, nuclear and particle physics; and space physics.

Bachelor's Programs

- Bachelor of Arts (BA) Degree with a Major in Astronomy (p. 756)
- Bachelor of Arts (BA) Degree with a Major in Physics (p. 758)
- Bachelor of Science (BS) Degree with a Major in Astrophysics (p. 759)
- Bachelor of Science (BS) Degree with a Major in Physics
  - and a Major Concentration in Applied Physics (p. 761)
  - and a Major Concentration in Biological Physics (p. 762)
  - and a Major Concentration in Computational Physics (p. 764)
  - and a Major Concentration in General Physics (p. 766)

Minor

- Minor in Physics. (p. 768)

Coordinated Program

- Bachelor of Science (BS) Degree with a Major in Chemical Physics (p. 286)

* This degree is jointly managed by the Department of Chemistry and the Department of Physics and Astronomy. For more information, see Chemical Physics. (p. 286)

Doctoral Program

- Doctor of Philosophy (PhD) Degree in the field of Physics. (p. 768)

* Although students are not normally admitted to a Master of Science (MS) degree program, graduate students may earn the MS as they work towards the PhD.

Coordinated Program

- Master of Science Teaching (MST) Degree (p. 802)

Bachelor of Arts (BA) Degree with a Major in Astronomy

Program Learning Outcomes for the BA Degree with a Major in Astronomy
Upon completing the BA degree with a major in Astronomy, students will be able to:

1. Demonstrate an understanding of fundamental concepts in Mechanics.
2. Demonstrate an understanding of fundamental concepts in Electromagnetism.
3. Demonstrate an understanding of fundamental concepts in Quantum Mechanics.
4. Be knowledgeable in fundamental topics in Astronomy.

Requirements for the BA Degree with a Major in Astronomy

For general university requirements, see Graduation Requirements (p. 26). Students pursuing the BA degree with a major in Astronomy must complete:

- A minimum of 53 credit hours to satisfy major requirements.
- A minimum of 120 credit hours to satisfy degree requirements.
- A minimum of 60 credit hours outside of major requirements.
- A minimum of 19 credit hours taken at the 300-level or above.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the department’s undergraduate committee. (Course substitutions must be formally applied and entered into Degree Works by the major’s Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/).) Students and their academic advisors should identify and clearly document the courses to be taken.

Footnotes and Additional Information

* Includes coursework completed as distribution credit, FWIS, LPAP, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The “hours outside of the major” requirement may include all of the above university requirements.

Policies for the BA Degree with a Major in Astronomy

Program Restrictions and Exclusions

Students pursuing the major in Astronomy should be aware of the following program restriction:

- Students pursuing the major in Astronomy may not additionally declare the minor in Physics.

Transfer Credit

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines

Students pursuing the major in Astronomy should be aware of the following departmental transfer credit guidelines:
Requests for transfer credit will be considered by the program director (and/or the program's official transfer credit advisor) on an individual case-by-case basis.

Additional Information
For additional information, please see the Physics and Astronomy website: https://physics.rice.edu/.

Opportunities for the BA Degree with a Major in Astronomy

Academic Honors
The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 48) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 48). Some departments have department-specific Honors awards or designations.

Research in the Department of Physics and Astronomy
The Physics and Astronomy Department encourages undergraduate participation in research, both within the department and through extramural programs. For current opportunities, please visit the Department's website and click on the Undergraduate Study link, at: https://physics.rice.edu/.

Additional Information
For additional information, please see the Physics and Astronomy website: https://physics.rice.edu/.

Bachelor of Arts (BA) Degree with a Major in Physics

Program Learning Outcomes for the BA Degree with a Major in Physics
Upon completing the BA degree with a major in Physics, students will be able to:

1. Demonstrate an understanding of fundamental concepts in Mechanics.
2. Demonstrate an understanding of fundamental concepts in Electromagnetism.
3. Demonstrate an understanding of fundamental concepts in Quantum Mechanics.
4. Demonstrate an understanding of a variety of physics topics taken from: statistical and thermal physics, biological physics, nuclear and particle physics, solid state physics, computational physics, and/or plasma physics.

Requirements for the BA Degree with a Major in Physics
For general university requirements, see Graduation Requirements (p. 26). Students pursuing the BA degree with a major in Physics must complete:

A minimum of 45-47 credit hours, depending on course selection, taken at the 300-level or above.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the department's undergraduate committee. (Course substitutions must be formally applied and entered into Degree Works by the major's Official Certifier (https://registrar.rice.edu/facstaff/degereeworks/officialcertifier/).) Students and their academic advisors should identify and clearly document the courses to be taken.

Select 6 additional credit hours of departmental (PHYS) or (ASTR) courses at the 300-level or above.  
Select 1 course from the following:

- CAAM 210 INTRODUCTION TO ENGINEERING COMPUTATION

1 course from Computational and Applied Mathematics (CAAM) course offerings at the 300-level or above.

1 course from Mathematics (MATH) course offerings at the 300-level or above.

Total Credit Hours Required for the Major in Physics: 45-47

Additional Credit Hours to Complete BA Degree Requirements: 13-15

University Graduation Requirements (p. 26) *: 60

Total Credit Hours: 120

Footnotes and Additional Information

* Includes coursework completed as distribution credit, FWIS, LPAR upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The "hours outside of the major" requirement may include all of the above university requirements.

1 Includes PHYS 332, PHYS 461, and PHYS 462, but does not include PHYS 491, PHYS 492, PHYS 493, or PHYS 494.

Policies for the BA Degree with a Major in Physics

Transfer Credit

For Rice University's policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines

Students pursuing the major in Physics should be aware of the following departmental transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

Additional Information

For additional information, please see the Physics and Astronomy website: https://physics.rice.edu/

Opportunities for the BA Degree with a Major in Physics

Academic Honors

The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 48) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 48). Some departments have department-specific Honors awards or designations.

Research in the Department of Physics and Astronomy

The Physics and Astronomy Department encourages undergraduate participation in research, both within the department and through extramural programs. For current opportunities, please visit the Department's website and click on the Undergraduate Study link, at: https://physics.rice.edu/.

Additional Information

For additional information, please see the Physics and Astronomy website: https://physics.rice.edu/

Bachelor of Science (BS) Degree with a Major in Astrophysics

Program Learning Outcomes for the BS Degree with a Major in Astrophysics

Upon completing the BS degree with a major in Astrophysics, students will be able to:

1. Demonstrate an understanding of fundamental concepts in Mechanics.
2. Demonstrate an understanding of fundamental concepts in Electromagnetism.
3. Demonstrate an understanding of fundamental concepts in Quantum Mechanics.
4. Be knowledgeable in fundamental topics in Astrophysics.
5. Demonstrate proficiency in research techniques and methodology under guidance of a faculty member.
6. Communicate scientific results both in writing and oral presentations.

Requirements for the BS Degree with a Major in Astrophysics

For general university requirements, see Graduation Requirements (p. 26). Students pursuing the BS degree with a major in Astrophysics must complete:

- A minimum of 71 credit hours to satisfy major requirements.
- A minimum of 131 credit hours to satisfy degree requirements.
- A minimum of 60 credit hours outside of major requirements.
- A minimum of 40 credit hours taken at the 300-level or above.

Students may obtain credit for some courses by advanced placement, and the department’s undergraduate committee can modify requirements to meet the needs of students with special backgrounds.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the department’s undergraduate committee. (Course substitutions must be formally applied and entered into Degree Works by the major’s Official Certifier (https://registrar.rice.edu/facstaff/degereeworks/officialcertifier/).) Students and their academic advisors should identify and clearly document the courses to be taken.

### Footnotes and Additional Information

* Includes coursework completed as distribution credit, FWIS, LPAP, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The “hours outside of the major” requirement may include all of the above university requirements.
1 PHYS 491 and PHYS 493 must be taken concurrently.
2 PHYS 492 and PHYS 494 must be taken concurrently.

### Policies for the BS Degree with a Major in Astrophysics

#### Program Restrictions and Exclusions

Students pursuing the major in Astrophysics should be aware of the following program restriction:

- Students pursuing the major in Astrophysics may not additionally declare the minor in Physics.

#### Transfer Credit

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: [https://oaa.rice.edu](https://oaa.rice.edu). Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

#### Departmental Transfer Credit Guidelines

Students pursuing the major in Astrophysics should be aware of the following departmental transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

#### Additional Information

For additional information, please see the Physics and Astronomy website: [https://physics.rice.edu/](https://physics.rice.edu/)

### Opportunities for the BS Degree with a Major in Astrophysics

#### Academic Honors

The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university
honors, please see Latin Honors (p. 48) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 48). Some departments have department-specific Honors awards or designations.

Research in the Department of Physics and Astronomy

The Physics and Astronomy Department encourages undergraduate participation in research, both within the department and through extramural programs. For current opportunities, please visit the Department’s website and click on the Undergraduate Study link at: https://physics.rice.edu/.

Bachelor of Science (BS) Degree with a Major in Physics and a Major Concentration in Applied Physics

Program Learning Outcomes for the BS Degree with a Major in Physics and a Major Concentration in Applied Physics

Upon completing the BS Degree with a major in Physics and a major concentration in Applied Physics, students will be able to:

1. Demonstrate an understanding of fundamental concepts in Mechanics.
2. Demonstrate an understanding of fundamental concepts in Electromagnetism.
3. Demonstrate an understanding of fundamental concepts in Quantum Mechanics.
4. Be knowledgeable in the applications of physics concepts to real world devices and applications.
5. Demonstrate proficiency in research techniques and methodology under guidance of a faculty member.
6. Communicate scientific results both in writing and oral presentations.

Requirements for the BS Degree with a Major in Physics and a Major Concentration in Applied Physics

For general university requirements, see Graduation Requirements (p. 26). Students pursuing the BS degree with a major in Physics and a major concentration in Applied Physics must complete:

- A minimum of 68 credit hours to satisfy major requirements.
- A minimum of 128 credit hours to satisfy degree requirements.
- A minimum of 60 credit hours outside of major requirements.
- A minimum of 37 credit hours taken at the 300-level or above.
- Core courses common to all major concentrations.
- The requirements for the major concentration in Applied Physics. When students declare the major (p. 11) in Physics, students must additionally identify and declare one of four major concentrations, either in:
  - Applied Physics (p. 761), or
  - Biological Physics (p. 763), or
  - Computational Physics (p. 764), or
  - General Physics (p. 766).

Because of the common core requirements, it is possible for students to change their major concentration at any time, even after initially declaring the major. To do so, please contact the Office of the Registrar (%20registrar@rice.edu).

Students may obtain credit for some courses by advanced placement, and the department’s undergraduate committee can modify requirements to meet the needs of students with special backgrounds.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the department’s undergraduate committee. (Course substitutions must be formally applied and entered into Degree Works by the major’s Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/).) Students and their academic advisors should identify and clearly document the courses to be taken.

Total Credit Hours  128

Footnotes and Additional Information
* Includes coursework completed as distribution credit, FWIS, LPAR, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The "hours outside of the major" requirement may include all of the above university requirements.
1 PHYS 491 and PHYS 493 must be taken concurrently.
2 PHYS 492 and PHYS 494 must be taken concurrently.
3 Because of common core requirements, it is possible to change major concentrations even after declaring the major. See the Undergraduate tab of the Physics and Astronomy department listing for the requirements for each major concentration for the BS degree in Physics.
4 Or approved substitute in applied physics.

Policies for the BS Degree with a Major in Physics and a Major Concentration in Applied Physics

Transfer Credit
For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines
Students pursuing the major in Physics should be aware of the following departmental transfer credit guidelines:
- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

Additional Information
For additional information, please see the Physics and Astronomy website: https://physics.rice.edu/.

Opportunities for the BS Degree with a Major in Physics and a Major Concentration in Applied Physics

Academic Honors
The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (p. 48) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 48). Some departments have department-specific Honors awards or designations.

Research in the Department of Physics and Astronomy
The Physics and Astronomy Department encourages undergraduate participation in research, both within the department and through extramural programs. For current opportunities, please visit the Department’s website and click on the Undergraduate Study link at: https://physics.rice.edu/.

Bachelor of Science (BS) Degree with a Major in Physics and a Major Concentration in Biological Physics

Program Learning Outcomes for the BS Degree with a Major in Physics and a Major Concentration in Biological Physics

Upon completing the BS degree with a major in Physics and a major concentration in Biological Physics, students will be able to:

1. Demonstrate an understanding of fundamental concepts in Mechanics.
2. Demonstrate an understanding of fundamental concepts in Electromagnetism.
3. Demonstrate an understanding of fundamental concepts in Quantum Mechanics.
4. Understand how the tools and concepts of physics are used to understand fundamental processes in the biosciences.
5. Demonstrate proficiency in research techniques and methodology under guidance of a faculty member.
6. Communicate scientific results both in writing and oral presentations.

**Requirements for the BS Degree with a Major in Physics and a Major Concentration in Biological Physics**

For general university requirements, see *Graduation Requirements* (p. 26). Students pursuing the BS degree with a major in Physics and a major concentration in Biological Physics must complete:

- A minimum of 75 credit hours to satisfy major requirements.
- A minimum of 135 credit hours to satisfy degree requirements.
- A minimum of 60 credit hours outside of major requirements.
- A minimum of 32 credit hours taken at the 300-level or above.

Core courses common to all major concentrations:

- The requirements for the major concentration in Biological Physics. When students declare the major (p. 11) in Physics, students must additionally identify and declare one of four major concentrations, either in:
  - Applied Physics (p. 761), or
  - Biological Physics (p. 763), or
  - Computational Physics (p. 764), or
  - General Physics (p. 766).

Because of the common core requirements, it is possible for students to change their major concentration, even after initially declaring the major. To do so, please contact the Office of the Registrar (%20registrar@rice.edu).

Students may obtain credit for some courses by advanced placement, and the department's undergraduate committee can modify requirements to meet the needs of students with special backgrounds.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the department's undergraduate committee. (Course substitutions must be formally applied and entered into Degree Works by the major’s Official Certifier (https://registrar.rice.edu/facstaff/dregeworks/officialcertifier/).) Students and their academic advisors should identify and clearly document the courses to be taken.

Total Credit Hours Required for the Major in Physics and a Major Concentration in Biological Physics: 75
Footnotes and Additional Information
* Includes coursework completed as distribution credit, FWIS, LPAR, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The "hours outside of the major" requirement may include all of the above university requirements.
1 PHYS 491 and PHYS 493 must be taken concurrently.
2 PHYS 492 and PHYS 494 must be taken concurrently.
3 Because of common core requirements, it is possible to change major concentrations even after declaring the major. See the Undergraduate tab of the Physics and Astronomy department listing for the requirements for each major concentration for the BS degree in Physics.
4 CHEM 121 or CHEM 111 can be satisfied by completing CHEM 151; CHEM 123 or CHEM 113 can be satisfied by completing CHEM 153. CHEM 122 or CHEM 112 can be satisfied by completing CHEM 152; CHEM 124 or CHEM 114 can be satisfied by completing CHEM 154.

Policies for the BS Degree with a Major in Physics and a Major Concentration in Biological Physics

Transfer Credit
For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines
Students pursuing the major in Physics should be aware of the following departmental transfer credit guidelines:

• Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

Additional Information
For additional information, please see the Physics and Astronomy website: https://physics.rice.edu/

Opportunities for the BS Degree with a Major in Physics and a Major Concentration in Biological Physics

Academic Honors
The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (p. 48) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 48). Some departments have department-specific Honors awards or designations.

Research in the Department of Physics and Astronomy
The Physics and Astronomy Department encourages undergraduate participation in research, both within the department and through extramural programs. For current opportunities, please visit the Department’s website and click on the Undergraduate Study link, at: https://physics.rice.edu/.

Additional Information
For additional information, please see the Physics and Astronomy website: https://physics.rice.edu/

Bachelor of Science (BS) Degree with a Major in Physics and a Major Concentration in Computational Physics

Program Learning Outcomes for the BS Degree with a Major in Physics and a Major Concentration in Computational Physics

Upon completing the BS degree with a major in Physics and a major concentration in Computational Physics, students will be able to:

1. Demonstrate an understanding of fundamental concepts in Mechanics.
2. Demonstrate an understanding of fundamental concepts in Electromagnetism.
3. Demonstrate an understanding of fundamental concepts in Quantum Mechanics.
4. Be knowledgeable of the use of numerical analysis to apply the laws of physics to real-world problems.
5. Demonstrate proficiency in research techniques and methodology under guidance of a faculty member.
6. Communicate scientific results both in writing and oral presentations.

Requirements for the BS Degree with a Major in Physics and a Major Concentration in Computational Physics

For general university requirements, see Graduation Requirements (p. 26). Students pursuing the BS degree with a major in Physics and a major concentration in Computational Physics must complete:

• A minimum of 72 credit hours to satisfy major requirements.
• A minimum of 132 credit hours to satisfy degree requirements.
• A minimum of 60 credit hours outside of major requirements.
• A minimum of 38 credit hours taken at the 300-level or above.
• Core courses common to all major concentrations.
• The requirements for the major concentration in Computational Physics. When students declare the major (p. 11) in Physics, students must additionally identify and declare one of four major concentrations, either in:
  • Applied Physics (p. 761), or
  • Biological Physics (p. 763), or
Because of the common core requirements, it is possible for students to change their major concentration at any time, even after initially declaring the major. To do so, please contact the Office of the Registrar (%20registrar@rice.edu).

Students may obtain credit for some courses by advanced placement, and the department’s undergraduate committee can modify requirements to meet the needs of students with special backgrounds.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the department’s undergraduate committee. (Course substitutions must be formally applied and entered into Degree Works by the major’s Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/).) Students and their academic advisors should identify and clearly document the courses to be taken.

**Bachelor of Science (BS) Degree with a Major in Physics and a Major Concentration in General Physics**

**Program Learning Outcomes for the BS Degree with a Major in Physics and a Major Concentration in General Physics**

Upon completing the BS degree with a major in Physics and a major concentration in General Physics, students will be able to:

1. Demonstrate an understanding of fundamental concepts in Mechanics.
2. Demonstrate an understanding of fundamental concepts in Electromagnetism.
3. Demonstrate an understanding of fundamental concepts in Quantum Mechanics.
4. Demonstrate an understanding of a variety of fundamental physics topics taken from: statistical and thermal physics, biological physics, nuclear and particle physics, solid state physics, computational physics, and/or plasma physics.
5. Demonstrate proficiency in research techniques and methodology under guidance of a faculty member.
6. Communicate scientific results both in writing and oral presentations.

**Requirements for the BS Degree with a Major in Physics and a Major Concentration in General Physics**

For general university requirements, see [Graduation Requirements](#) (p. 26). Students pursuing the BS degree with a major in Physics and a major concentration in General Physics must complete:

- A minimum of 64 credit hours to satisfy major requirements.
- A minimum of 124 credit hours to satisfy degree requirements.
- A minimum of 60 credit hours outside of major requirements.
- A minimum of 37 credit hours taken at the 300-level or above.
- Core courses common to all major concentrations.
- The requirements for the major concentration in General Physics. When students declare the major (p. 11) in Physics, students must additionally identify and declare one of four major concentrations, either in:
  - [Applied Physics](#) (p. 761), or
  - [Biological Physics](#) (p. 763), or
  - [Computational Physics](#) (p. 764), or
  - [General Physics](#) (p. 766).

Because of the common core requirements, it is possible for students to change their major concentration at any time, even after initially declaring the major. To do so, please contact the [Office of the Registrar](#) (%20registrar@rice.edu).

Students may obtain credit for some courses by advanced placement, and the department’s undergraduate committee can modify requirements to meet the needs of students with special backgrounds.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the department’s undergraduate committee. (Course substitutions must be formally applied and entered into Degree Works by the major’s Official Certifier ([https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/](https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/).) ### Total Credit Hours Required for the Major in Physics and a Major Concentration in General Physics

- **University Graduation Requirements (p. 26)**: 60
- **Total Credit Hours**: 124

### Footnotes and Additional Information

1. PHYS 491 and PHYS 493 must be taken concurrently.
2. PHYS 492 and PHYS 494 must be taken concurrently.
3. Because of common core requirements, it is possible to change major concentrations even after declaring the major. See the Undergraduate tab of the Physics and Astronomy department listing for the requirements for each major concentration for the BS degree in Physics.

### Policies for the BS Degree with a Major in Physics and a Major Concentration in General Physics

**Transfer Credit**

For Rice University’s policy regarding transfer credit, see [Transfer Credit](p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: [https://oaa.rice.edu](https://oaa.rice.edu). Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

**Departmental Transfer Credit Guidelines**

Students pursuing the major in Physics should be aware of the following departmental transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

### Additional Information

For additional information, please see the Physics and Astronomy website: [https://physics.rice.edu/](https://physics.rice.edu/)

### Opportunities for the BS Degree with a Major in Physics and a Major Concentration in General Physics

**Academic Honors**

The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see [Latin Honors](p. 48) (*summa cum laude*, *magna cum laude*, and *cum laude*) and [Distinction in Research and Creative Work](p. 48). Some departments have department-specific Honors awards or designations.

**Research in the Department of Physics and Astronomy**

The Physics and Astronomy Department encourages undergraduate participation in research, both within the department and through
extramural programs. For current opportunities, please visit the Department’s website and click on the Undergraduate Study link, at: https://physics.rice.edu/.

## Additional Information
For additional information, please see the Physics and Astronomy website: https://physics.rice.edu/

## Doctor of Philosophy (PhD) Degree in the field of Physics

### Program Learning Outcomes for the PhD Degree in the field of Physics

Upon completing the PhD degree in the field of Physics, students will be able to:

1. Demonstrate advanced knowledge in foundational areas of physics and astronomy, and a mastery of their selected subfield.
2. Have the skills necessary to conduct independent research in physics and astronomy and become leaders in their chosen careers.
3. Have the ability to identify, formulate, and solve challenging scientific and technical problems as encountered in physics and astronomy.
4. Be proficient in reading the scientific literature and in oral and written communication of scientific results.
5. Make an original and significant contribution to knowledge in their discipline.

## Requirements for the PhD Degree in the field of Physics

For general university requirements, please see Doctoral Degrees (p. 65). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55). To be eligible for the PhD degree, graduate students must demonstrate to the department their knowledge in the discipline and the ability to engage in advanced research. This normally is accomplished by: successfully completing required coursework; presenting a research progress report and proposal to a faculty committee; and passing an oral candidacy exam. Students must complete a total of 60 credit hours of approved graduate-level study at Rice and produce a research thesis under the direction of a departmental faculty member. At least two years of graduate study are required for the PhD.

Complete information about research opportunities, courses and other requirements can be found under the Department’s website, on the Graduate Study link at https://physics.rice.edu/.

### Department of Physics and Astronomy Graduate Program Handbook

The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, the department of Physics and Astronomy publishes a graduate program handbook, which can be found here: https://gradhandbooks.rice.edu/2019_20/Physics_Astronomy_Graduate_Handbook.pdf

### Additional Information
For additional information, please see the Physics and Astronomy website: https://physics.rice.edu/

## Opportunities for the PhD Degree in the field of Physics

### Additional Information
For additional information, please see the Physics and Astronomy website: https://physics.rice.edu/

## Minor in Physics

### Program Learning Outcomes for the Minor in Physics

Upon completing the minor in Physics, students will be able to:

1. Acquire and demonstrate a solid foundation of knowledge in physics. This includes: basic mechanics, basic electromagnetism, Maxwell’s equations in differential form, waves, interference and diffraction, special relativity, the Schroedinger equation, and the wave formulation of quantum mechanics.
2. Acquire and demonstrate knowledge in a number of advanced physics topics of their choosing.

### Requirements for the Minor in Physics

Students pursuing the minor in Physics must complete:

- A minimum of 35 credit hours to satisfy minor requirements.
- A minimum of 26 credit hours to satisfy the Core Requirements.
- A minimum of 9 additional credit hours from departmental (PHYS) course offerings at the 300-level or above.

The courses listed below satisfy the requirements for this minor. In certain instances, courses not on this official list may be substituted upon approval of the minor’s academic advisor, or where applicable, the Program Director. (Course substitutions must be formally applied and entered into Degree Works by the minor’s Official Certifier (https://registrar.rice.edu/facstaff/degreworks/officialcertifier/)). Students and their academic advisors should identify and clearly document the courses to be taken.

Policies for the Minor in Physics

Program Restrictions and Exclusions

Students pursuing the minor in Physics should be aware of the following program restrictions:

- As noted in Majors, Minors, and Certificates (p. 11), i.) students may declare their intent to pursue a minor only after they have first declared a major, and ii.) students may not major and minor in the same subject.
- Students pursuing the major in Astronomy may not declare the minor in Physics.
- Students pursuing the major in Astrophysics may not declare the minor in Physics.

Transfer Credit

For Rice University's policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines

Students pursuing the minor in Physics should be aware of the following departmental transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program's official transfer credit advisor) on an individual case-by-case basis.

Additional Information

For additional information, please see the Physics and Astronomy website: https://physics.rice.edu/

Opportunities for the Minor in Physics

Academic Honors

The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 48) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 48). Some departments have department-specific Honors awards or designations.

Keith Hamm
Director of Graduate Studies
hamm@rice.edu

The mission of the Department of Political Science, at Rice University’s School of Social Sciences, is to contribute to the university and discipline through excellence in research, graduate training, and undergraduate teaching. We train graduate and undergraduate students in modern techniques of social science research in three substantive areas of political science—American Politics, Comparative Politics, and International Relations—to prepare them for successful careers in academia, government, business, law, education, non-governmental organizations, and many other professional paths.

Undergraduate students majoring in political science are encouraged to achieve both a broad understanding of the field and a specialized knowledge of one or more aspects of political science, including American Politics, Comparative Politics, and Politics and International Relations. Graduate study is grounded in the areas of American Politics, Comparative Politics, and International Relations.

Bachelor of Arts (BA) Degree with a Major in Political Science

Program Learning Outcomes for the BA Degree with a Major in Political Science

Upon completing the BA degree with a major in Political Science, students will have:

1. Developed a broad understanding of political science and more specific knowledge in one or more subfields (Substantive knowledge).
2. Developed critical thinking skills and the ability to apply political science theories to understand the political world (Critical thinking).
3. Learned how to interpret, conduct, and evaluate political science research, including data collection and data analysis techniques and statistical software (Empirical analysis).
4. Developed and strengthen written, oral and visual communication skills and the ability to present political science research to an audience (Communication).
5. Become informed citizens able to participate effectively and meaningfully in the political process (Citizenship).
Requirements for the BA Degree with a Major in Political Science

For general university requirements, see Graduation Requirements (p. 26). Students pursuing the BA degree with a major in Political Science must complete:

- A minimum of 13 courses (41 credit hours) to satisfy major requirements.
- A minimum of 120 credit hours to satisfy degree requirements.
- A minimum of 60 credit hours outside of major requirements.
- A minimum of 8 courses (26 credit hours) taken at the 300-level or above.
- A minimum of 4 courses (14 credit hours) from the Core Requirements.
- A minimum of 2 courses (6 credit hours) from the Seminar Requirements.
- A minimum of 7 courses (21 credit hours) from the Elective Requirements.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major's academic advisor, or where applicable, the department's Director of Undergraduate Studies. (Course substitutions must be formally applied and entered into Degree Works by the major's Official Certifier (https://registrar.rice.edu/facstaff/degeworks/officialcertifier/).) Students and their academic advisors should identify and clearly document the courses to be taken.

Policies for the BA Degree with a Major in Political Science

Transfer Credit

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines

Students pursuing the major in Political Science should be aware of the following departmental transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.
- Transfer credit coursework from online-only courses cannot be used to count towards the major.

Additional Information

For additional information, please see the Political Science website: https://politicalscience.rice.edu/.
Opportunities for the BA Degree with a Major in Political Science

Academic Honors
The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 48) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 48). Some departments have department-specific Honors awards or designations.

Additional Information
For additional information, please see the Political Science website at: https://politicalscience.rice.edu/.

Doctor of Philosophy (PhD) Degree in the field of Political Science

Program Learning Outcomes for the MA and PhD Degrees in the field of Political Science
Upon completing the MA and PhD degrees in the field of Political Science, students will be able to:

1. Demonstrate advanced knowledge of theoretical and empirical research in two of the following three sub-fields of Political Science: American politics, comparative politics, and international relations.
2. Apply social science research design and methodologies, including advanced statistical techniques.
3. Demonstrate the ability to communicate their research effectively through multiple mediums including scholarly writing, oral presentation, and poster sessions.
4. Demonstrate their competence as political scientists through research, teaching, and professional development activities.

Requirements for the MA and PhD Degrees in the field of Political Science

MA Degree Program
The MA degree is a non-thesis master's degree. For general university requirements, please see Non-Thesis Master's Degrees (p. 68). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 55). The Master of Arts degree requires 30 semester hours of coursework, all of which must be taken at the graduate level (500-level or above except with permission of the Director of Graduate Studies), and the completion of two research papers in seminars taken over the course of study. A minimum GPA of 3.00 is required for awarding the MA degree.

The Political Science Department requires that not more than 3 years elapse between the time the student is admitted to the graduate program and the completion of the MA degree, unless an extension is approved by the Graduate Studies Committee.

PhD Degree Program
A student must complete successfully 54 credit hours of advanced coursework. This must include the core courses in each of 3 fields, 3 courses beyond the core in the major field, 2 courses beyond the core in the minor field, POLI 500, POLI 501, and 3 additional courses that meet the advanced research tools requirement.

Exams
A student must pass three Preliminary Examinations (a general exam in the major field, a subfield exam in the major field, and a general exam in the minor field), a thesis prospectus defense, and a thesis defense.

Maintenance of Good Academic Standing
A student must remain in good academic standing with the university and with the department. Remaining in good academic standing with the department requires a GPA of at least 3.33, satisfactory evaluations for work as a research and/or teaching mentee, and satisfactory participation in professional development activities.

Policies for the PhD Degree in the field of Political Science

Department of Political Science Graduate Program Handbook
The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, the department of Political Science publishes a graduate program handbook, which can be found here: https://gradhandbooks.rice.edu/2019_20/Political_Science_Graduate_Handbook.pdf

Additional Information
For additional information, please see the Political Science website: https://politicalscience.rice.edu/.
Opportunities for the PhD Degree in the field of Political Science

Requirements for the Coordinated PhD/MA Degree Program in Political Science and Statistics

The coordinated PhD/MA requires that a student fulfill all requirements for the PhD program in Political Science and satisfy the general university requirements for residency and total hours to receive a second non-thesis MA degree. The Statistics MA degree shall not be conferred prior to conferral of the PhD in Political Science. No course may count for credit for both MA degrees; however, POLI 504, POLI 505, POLI 506, and POLI 507 will continue to count toward the hours required for a PhD degree in Political Science when used to fulfill the requirements for an MA in Statistics.

To earn a non-thesis MA in Statistics, students in the PhD program in Political Science must additionally:

- Obtain written approval from the head of the Methods field and the Director of Graduate Studies in the Political Science department.
- Have their plan of study for the MA in Statistics pre-approved by the Director of Graduate Studies in the Department of Statistics (or another person designated by the chairperson of the Statistics department). Note: A maximum of ten Political Science PhD students will be allowed to enroll in the MA in Statistics program at one time.
- Earn a grade of ‘B+’ or better in four courses in statistical methodology in the Political Science department, which must include POLI 504, POLI 505, POLI 506, and POLI 507.
- Earn a grade of ‘B’ or better in each of six courses from the Department of Statistics. Four of these courses must be STAT 605, STAT 518, STAT 519, and STAT 615. Other acceptable courses are STAT 616 and courses at the 500-level and above, subject to the approval by the Director of Graduate studies in the Department of Statistics (or another person designated by the chairperson of the Statistics department). Courses that are jointly listed between two departments (cross-listed) are counted as a course in the home department. Note: completion of POLI 504 and POLI 505 will be considered as meeting the prerequisite requirements for STAT 519.
- Complete a major project that has strong statistical content. The project may be directed by faculty in Political Science, but must be pre-approved by the Director of Graduate Studies in the Department of Statistics (or another person designated by the chairperson of the Statistics department). The doctoral proposal in Political Science may satisfy this requirement, but must be successfully defended.

Minor in Politics, Law and Social Thought

Program Learning Outcomes for the Minor in Politics, Law and Social Thought
Upon completing the minor in Politics, Law and Social Thought, students will be able to:

1. Understand the main lines of political, legal, and social thought in their historical context through original sources.
2. Analyze and evaluate complex texts in political, legal, and social thought through a close reading and critical interpretation of arguments, metaphors, images, and the emotions that drive political arguments.
3. Compare different authors and texts and formulate complex arguments across different traditions in the history of political thought.
4. Develop and communicate their own arguments about politics, law, and society in research papers, class presentations, and discussions.

Requirements for the Minor in Politics, Law and Social Thought
Students pursuing the minor in Politics, Law and Social Thought must complete:

• A minimum of 6 courses (18 credit hours) to satisfy minor requirements.
• A minimum of 4 courses (12 credit hours) taken at the 300-level or above.
• A maximum of 2 courses (6 credit hours) from study abroad or transfer credits. For additional program guidelines regarding transfer credit, see the Policies tab.
• A maximum of 2 courses (6 credit hours) from the same subject code (i.e., GERM, HIST, etc.) may be used to meet the Elective Requirements.

The courses listed below satisfy the requirements for this minor. In certain instances, courses not on this official list may be substituted upon approval of the minor’s academic advisor, or where applicable, the Program Director. (Course substitutions must be formally applied and entered into Degree Works by the minor’s Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/)). Students and their academic advisors should identify and clearly document the courses to be taken.

**Study of Women, Gender and Sexuality**
Practica
Students may count one practicum with 3 credit hours toward the Elective Requirements for the minor, as long as the practicum substantively reflects the thematic focus of the minor in PLST. As general guidance, acceptable practica are concerned with the public dimension of law or fall into the area of public policy. Proposed practica have to be approved by the director before the official start date of the practicum. Practica must adhere to the requirements and policies governing practica as they have been established by the School of Humanities and/or the School of Social Sciences.

Policies for the Minor in Politics, Law and Social Thought

Program Restrictions and Exclusions
Students pursuing the minor in Politics, Law and Social Thought should be aware of the following program restriction:

- As noted in Majors, Minors, and Certificates (p. 11), i.) students may declare their intent to pursue a minor only after they have first declared a major, and ii.) students may not major and minor in the same subject.

Transfer Credit
For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 33). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Program Transfer Credit Guidelines
Students pursuing the minor in Politics, Law and Social Thought should be aware of the following program-specific transfer credit guidelines:

- No more than 2 courses (6 credit hours) of transfer credit from U.S. or international universities of similar standing as Rice may apply towards the minor.
- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.
- Transfer credit coursework received via the articulation of AP, IB or A-level credit will not be considered towards minor requirements.
- Transfer credit from online-only courses may not be used to count towards the minor.

Distribution Credit Information
The determination of distribution eligibility is done as part of the new course creation process (https://registrar.rice.edu/facstaff/courseprocess/). As part of an annual roll call (https://registrar.rice.edu/facstaff/distribution_credit/) coordinated each Spring by the Office of the Registrar, course distribution eligibility is reviewed and reaffirmed by the Dean’s Offices of each of the academic schools.

Distribution courses from Politics, Law and Social Thought (PLST) are responsible for ensuring that they meet graduation requirements (p. 26) by completing coursework designated as distribution at the time of course registration.

Opportunities for the Minor in Politics, Law and Social Thought

Academic Honors
The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (p. 48) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 48). Some departments have department-specific Honors awards or designations.

Additional Information
For additional information, please see the Politics, Law and Social Thought website: https://politics.rice.edu/

Poverty, Justice and Human Capabilities

Contact Information
Poverty, Justice and Human Capabilities
https://pjhc.rice.edu/
322 Rayzor Hall
713-348-6152
Diana Strassmann
Program Director
dls@rice.edu

The Program in Poverty, Justice and Human Capabilities (PJHC) provides students with a multifaceted understanding of human well-being. A key goal of the minor is to enrich students’ understanding of poverty and inequality so that, regardless of their choice of occupation, PJHC alumni will maintain a longstanding commitment to enhancing the well-being of all people. More generally, the program trains Rice students to be future leaders in solving global problems.

This interdisciplinary minor emphasizes a “capabilities approach,” which considers what people are able to do and to be — for example, live to old age and engage in economic and political activities — rather than strictly what material goods they possess. The program also acknowledges the central importance of a variety of additional influences on well-being beyond income, such as: gender, health status, racial and ethnic
disparities, education, human rights, political freedoms, and material necessities, including food and shelter.

Although impediments to human well-being take many forms, barriers to the capabilities of women and girls persist across societies; women and girls are therefore disproportionately represented among the poor and those unable to attain their full capabilities. The academic component of the program, including the content of core and required coursework, acknowledges gender inequality as a powerful influence on disparities in human well-being and recognizes gender as a central analytic category.

The PJHC minor combines high-caliber undergraduate courses with service learning experiences that help disadvantaged communities and people. Students are placed with organizations where they work directly with clients and gain experiential knowledge that broadens their perspectives on human lives and capabilities. Through these academic and experiential learning opportunities, students explore deeper understandings of the structural factors underlying poverty and human well-being, as well as potential policy solutions. The program further aims to promote dialogue among all disciplines about how to address issues of poverty alleviation and human well-being with a sophisticated understanding of the challenges and sound strategies for moving forward.

Minor

Minor in Poverty, Justice and Human Capabilities

Program Learning Outcomes for the Minor in Poverty, Justice and Human Capabilities

Upon completing the minor in Poverty, Justice and Human Capabilities, students will be able to:

1. Understand theoretical approaches to poverty and justice that draw from the capabilities framework, economics, history, sociology, philosophy, and other fields. Students will have in-depth knowledge of approaches to enhancing human flourishing and will understand the social, institutional, and political contexts that underlie deprivations and inequities.

2. Demonstrate a sophisticated understanding of the multiple influences on well-being beyond income and material wealth, including gender, racial, and ethnic disparities, and the impact of colonialism on the Global South. Students will be able to provide examples from different geographic regions, not exclusively from one country or region, and be able to apply the capabilities approach when evaluating these disparities.

3. Gain, through direct service, experiential knowledge of the challenges faced in disadvantaged communities.

4. Achieve an interdisciplinary knowledge of approaches to enhancing human well-being and mitigating human deprivations. Students will be able to apply this knowledge in evaluating potential policy solutions.

5. Demonstrate the oral, written, and visual communication skills essential for sophisticated and successful advocacy.

6. Become a global citizen by understanding the role that advocacy and service play in addressing poverty, strengthening justice, and improving well-being.

Requirements for the Minor in Poverty, Justice and Human Capabilities

Students pursuing the minor in Poverty, Justice and Human Capabilities must complete:

- A minimum of 6-8 courses (18-22 credit hours), depending on course selection, to satisfy minor requirements.
- A minimum of 3 PJHC Service Credits from the direct service learning experiences.

The courses used to meet the PJHC minor are open to all Rice students, including those not pursuing the minor; however, in some courses with limited space, preference will be given to declared minors.

The courses listed below satisfy the requirements for this minor. In certain instances, courses not on this official list may be substituted upon approval of the minor’s academic advisor, or where applicable,
the Program Director. (Course substitutions must be formally applied and entered into Degree Works by the minor’s Official Certifier [https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/]). Students and their academic advisors should identify and clearly document the courses to be taken.

Elective Requirements

Select 3 courses as Electives from the following categories (see below for course lists):

Global South

Race and Ethnicity

Capstone Requirement

Select 1 of the following options:

Capstone Course Option

HIST 421 | RACE, EDUCATION AND SOCIETY IN THE URBAN SOUTH or PJHC 470 | ADVANCED SEMINAR IN POVERTY, JUSTICE, AND CAPABILITIES

Capstone Course Sequences Option

Select 1 of the following:

SOCI 469 | COMMUNITY BRIDGES TRAINING & SOCI 470 | and INEQUALITY AND URBAN LIFE
SWGS 494 | PRE-SEMINAR IN ENGAGED RESEARCH & SWGS 496 | and ENGAGED RESEARCH PRACTICUM & SWGS 497 | and ENGAGED RESEARCH SEMINAR

Direct Service Learning Experience

Students must complete a total of three PJHC Service Credits. See below for more information.

Total Credit Hours

18-22

Footnotes and Additional Information

1 Students can use additional capstone courses to fulfill the General Elective requirement (SWGS 496, SWGS 497, or PJHC 470) or the Race and Ethnicity requirement (HIST 421 or SOCI 470). HIST 421 and SOCI 470 do not fulfill the Race and Ethnicity requirement unless a second capstone course is completed. Students who complete the entire Engaged Research course sequence (SWGS 494, SWGS 496, and SWGS 497) may use SWGS 497 to fulfill the General Elective requirement.

Course Lists to Satisfy Requirements

Elective Requirements

Students must complete a total of 3 courses (minimum of 9 credit hours) from the Global South, Race and Ethnicity, and General Electives Categories as listed below to satisfy the Poverty, Justice and Human Capabilities minor’s Elective Requirements. An additional course from the Global South or Race and Ethnicity list can be used to fulfill the General Elective requirement. Students must select separate courses to fulfill the Global South and Race and Ethnicity requirements. As course offerings may vary from year to year, students are urged to consult with the undergraduate advisors (see [https://pjhc.rice.edu/]) at the beginning of each semester. Please note that not all courses listed below will be offered every academic year.

Program Transfer Credit Guidelines
Students pursuing the minor in Poverty, Justice and Human Capabilities should be aware of the following program-specific transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program's official transfer credit advisor) on an individual case-by-case basis.

Distribution Credit Information
The determination of distribution eligibility is done as part of the new course creation process (https://registrar.rice.edu/facstaff/courseprocess/). As part of an annual roll call (https://registrar.rice.edu/facstaff/distribution_credit/) coordinated each Spring by the Office of the Registrar, course distribution eligibility is reviewed and reaffirmed by the Dean's Offices of each of the academic schools.

Faculty and leadership in the academic schools are responsible for ensuring that the courses identified as distribution-eligible meet the criteria as set in the General Announcements (p. 26). Students are responsible for ensuring that they meet graduation requirements (p. 26) by completing coursework designated as distribution at the time of course registration.

Additional Information
For additional information, please see the Poverty, Justice and Human Capabilities website: https://pjhc.rice.edu/.

Opportunities for the Minor in Poverty, Justice and Human Capabilities

Academic Honors
The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 48) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 48). Some departments have department-specific Honors awards or designations.

Susan McAshan Summer Service Internship
Declared Poverty, Justice and Human Capabilities minors are eligible to apply for funding to support a summer service internship. Students must have completed PJHC 371, PJHC 394, and at least one approved elective by the end of the spring semester before their internships. Funding supports student interns' direct service work with international or US-based community service organizations. Students receive 3 service credits upon the completion of their Susan McAshan Summer Service Internship. Additional details may be found at the PJHC website: https://pjhc.rice.edu/summer-service-internship-funding/.

Additional Information
For additional information, please see the Poverty, Justice and Human Capabilities website: https://pjhc.rice.edu/.

See https://humanities.rice.edu/student-life for tables of fellowships, prizes, and internships/practica that may be relevant to this minor.
Program in Writing and Communication

The mission of the Program in Writing and Communication (PWC) is to integrate the practice of analytical writing and the techniques of both oral and visual communication into the Rice curriculum, with two goals in mind: To enable our students to articulate their ideas as we prepare them for academic and professional life; and to affirm the necessity of this ability and its fundamental value to every aspect of their education and across every University department and discipline.

The PWC provides oversight for the First-Year Writing-Intensive Seminars (FWIS). FWIS are content-based, 3-credit hour seminars in which writing and communication pedagogy plays a significant role in assignments and grading. The courses reflect a range of disciplines from across the university. In addition, PWC faculty teach undergraduate communication courses under the COMM designation and courses for international graduate students (UNIV 600, UNIV 601, and UNIV 602).

The PWC also includes the Center for Academic and Professional Communication. Housed in Fondren Library, the Center supports teaching and learning through workshops, consulting, and coaching for undergraduate and graduate students and faculty. Headed by a team of communication professionals, the Center also includes a large staff of writing and communication consultants, both graduate and undergraduate, who are available for individual tutoring appointments. The Center includes facilities for one-on-one consultations and group work, as well as advanced technology for preparation of oral and visual presentations. Physically accessible whenever Fondren Library is open, the Center is virtually accessible around the clock through the Center’s website (https://pwc.rice.edu/center-academic-and-professional-communication/).

For additional information regarding the Program in Writing and Communication, please see the program’s website at: https://pwc.rice.edu/.

All first-year students must pass the Composition Examination and complete a content-based First-Year Writing Intensive Seminar (FWIS) course during their first year at Rice.

Students who receive an unsatisfactory score on the Composition Exam must successfully complete FWIS 100 during the fall of their first year and prior to enrolling in one of the required content-based FWIS courses.

For courses that satisfy the First-Year Writing Intensive Seminar University Graduation Requirement (p. 26), please see Rice’s Course Catalog (https://courses.rice.edu).

The Program in Writing and Communication does not currently offer an academic program at the graduate level.

The Department of Psychological Science’s undergraduate program offers the core preparation found across the nation’s leading graduate schools of psychology, combined with advanced courses and research opportunities offered by the nation’s leading scholars and teachers in psychological science. Programs of study may be tailored to graduate school and future careers in several major fields of psychology, as well as in medicine, law, business, or education.

Program emphasis in graduate study is on doctoral training. An important feature of our doctoral program is its strong research orientation. Graduate students are expected to spend most of their time actively engaged in research and are expected to acquire a high level of research...
and statistical competence. Faculty research interests and PhD major concentrations for graduate students include:

- **Cognitive and Affective Neuroscience**: understanding the psychology and neuroscience behind basic mental activities (e.g., perceiving, attending, remembering) and higher forms of behavior (e.g., memory, language, social cognition, emotion, health);
- **Human-Computer Interaction and Human Factors**: understanding interactions between humans and other elements of a physical system, and the application of theories, principles, data, and other methods of design that optimize human well-being and overall system performance and usability;
- **Industrial-Organizational Psychology**: understanding human behavior in organizational and work situations, addressing research problems such as motivation at work, the aging workforce, discrimination in the workplace, job performance, and team training;
- **Psychometrics and Quantitative Psychology**: understanding specialized skills related to appropriate and innovative study design; statistical modeling and analysis; and interpretation of psychological measures, experiments, and interventions

Beginning Fall 2019, the Department of Psychological Sciences will offer a terminal non-thesis master's program in Human-Computer Interaction and Human Factors, which examines the scientific consideration of people in the design of products, services, and systems.

**Bachelor's Program**
- Bachelor of Arts (BA) Degree with a Major in Psychology. (p. 784)

**Master's Program**
- Master of Arts (MA) Degree in the field of Psychology*
- Master of Human-Computer Interaction and Human Factors (MHCIHF) Degree. (p. 478)

**Doctoral Program**
- Doctor of Philosophy (PhD) Degree in the field of Psychology
  - and a Major Concentration in Cognitive and Affective Neuroscience (p. 786)
  - and a Major Concentration in Human-Computer Interaction and Human Factors (p. 788)
  - and a Major Concentration in Industrial-Organizational Psychology (p. 790)
  - and a Major Concentration in Psychometrics and Quantitative Psychology (p. 791)

* Although students are not normally admitted to a Master of Arts (MA) degree program, graduate students may earn the MA as they work towards the PhD.

Bachelor of Arts (BA) Degree with a Major in Psychology

Program Learning Outcomes for the BA Degree with a Major in Psychology

Upon completing the BA degree with a major in Psychology, students will be able to:

1. Describe key concepts, principles, and overarching themes in psychology, drawing on a broad knowledge base in psychology and its content domains.
2. Understand research methods, and develop and apply research skills. They will be able to explain different research methods used by psychologists, and design and conduct scientific studies to address psychological questions using appropriate research methods. Students will follow the APA Ethics Code in the treatment of human and nonhuman participants in the design, data collection, interpretation, and reporting of psychological research. Students will be able to generalize research conclusions appropriately based on the parameters of particular research methods.
3. Understand the applications of psychology. They will be able to describe major areas (e.g., clinical, cognitive, counseling, human factors, industrial/organizational) and emerging applied areas (e.g., health, forensics, media) of psychology. They will be able to identify appropriate applications of psychology in solving problems, such as: the pursuit and effect of healthy lifestyles; the origin and treatment of abnormal behavior; psychological tests and measurement; psychology-based interventions in areas such as clinical, cognitive, counseling, educational, human factors, and industrial/organizational psychology; and the resolution of interpersonal and intercultural conflicts. Students will be able to articulate how psychological principles can be used to explain social issues and inform public policy. Students will be able to apply psychological concepts, theories, and research findings as these relate to everyday life.

Requirements for the BA Degree with a Major in Psychology

For general university requirements, see Graduation Requirements (p. 26). Students pursuing the BA degree with a major in Psychology must complete:

- A minimum of 15 courses (47 credit hours) to satisfy major requirements.
- A minimum of 120 credit hours to satisfy degree requirements.
- A minimum of 60 credit hours outside of major requirements.

Once enrolled at Rice, students must obtain approval from the department to transfer courses taken at any other college or university.

The 5 courses listed below (comprising 17 credit hours) must be completed to satisfy the Core Requirements for this major. Students are strongly encouraged to complete the Core Requirements before taking the upper-level courses that comprise their Elective Requirements.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor, or where applicable, the department’s Director of Undergraduate Studies. (Course substitutions must be formally applied and entered into Degree Works by the major’s Official Certifier (https://registrar.rice.edu/facstaff/degeworks/officialcertifier/) Students and their academic advisors should identify and clearly document the courses to be taken.
