**Policies for the MAGA Degree**

**Admission**

Applicants to the Master of Arts in Global Affairs degree program are required to submit:

- Statement of purpose
- Professional resume
- Three letters of recommendation
- Official transcripts from all colleges and universities attended, with official degree conferral date
- Applicants are recommended, but not required to submit scores from either the Graduate Record Examination (GRE) or the Graduate Management Admissions Test (GMAT).
- Approved TOEFL scores for applicants whose native language is not English and who did not receive a degree from a country in which English is the official language of communication.

**Foreign Language Proficiency**

Students who expect to complete their degree program with a particular regional focus in mind are expected to be proficient in one of the primary languages of that region. Proficiency is defined as the ability to read and speak the language. This requirement can be met in one of three ways:

- By passing a language proficiency exam administered by the Rice Language Center.
• By achieving a grade of B+ or better in an intermediate language course at Rice. Taking this class does not count toward the 36 credit hours total for degree completion.

• By graduating from a high school or university where a language other than English was the primary language of instruction.

Transfer Credit
For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 66). Some departments and programs have additional restrictions on transfer credit. Students are encouraged to meet with their academic program’s advisor when considering transfer credit possibilities.

For additional information, please see the Global Affairs website: http://mga.rice.edu/

Opportunities for the MAGA Degree
Fifth-Year Master’s Degree Option for Rice Undergraduate Students
Rice students have an option to achieve the Master of Arts in Global Affairs degree by adding an additional fifth year to the four undergraduate years of studies. Advanced Rice students in good academic standing may apply during their junior year to the graduate program. Upon acceptance, depending on course load, financial aid status, and other variables, they may then start taking required core courses of the global affairs program during their senior year. A plan of study based on their particular focus area will need to be approved by the program director.

As part of this option and opportunity, Rice undergraduate students:

• must complete the requirements for a baccalaureate degree and the Master of Arts in Global Affairs independently of each other (i.e. no course may be counted toward the fulfillment of both degrees).

• should be aware there could be financial aid implications if the conversion of undergraduate coursework to that of graduate level reduces their earned undergraduate credit for any semester below that of full-time status (12 credit hours).

For additional information, please see the Global Affairs website: http://mga.rice.edu/

Global Health Technologies

Contact Information

Rebecca Richards-Kortum
Director, Rice 360°
rkortum@rice.edu

Veronica Leautaud
Director of Education, Rice 360°
vl2@rice.edu

Rice 360°: Institute for Global Health collaborates with multiple departments to offer students a minor in Global Health Technologies (GLHT), a unique, multidisciplinary program to educate and train students to reach beyond traditional disciplinary and geographic boundaries to understand, address, and solve global health disparities. With complementary contributions from the humanities, social science, policy, bioscience, and engineering programs at Rice, the GLHT minor prepares students to integrate diverse perspectives as they develop solutions to the complex problems of global health, using the formal approach of the engineering design process.

The minor is open to Rice undergraduate students from all disciplines and requires completion of seven courses, including five core courses, and two electives. Students begin the minor by taking GLHT 201, which provides an overview of scientific, economic, and policy issues associated with advanced global health technologies, followed by an introductory design course, GLHT 360. The subsequent core course is selected by the student from a collection of approved courses. The final two courses include GLHT 451 and GLHT 452, which are taken in a two-semester sequence in which multidisciplinary teams of undergraduate students work together to design and implement solutions to existing global health challenges in the developing world. Elective courses include a range of subjects. Courses such as Immunology, Health Economics, Medical Chemistry, or Health Policy, provide students experience in engineering and social sciences as applied to international health challenges.

Throughout the program, GLHT students benefit from receiving guidance and mentorship from Rice faculty and graduate students as well as from the Texas Medical Center, partner organizations in developing countries, and clinicians to design low-cost, effective health technologies.

Minor
• Minor in Global Health Technologies (p. 418)

Global Health Technologies does not currently offer an academic program at the graduate level.

Minor in Global Health Technologies

Program Learning Outcomes for the Minor in Global Health Technologies

Upon completing the minor in Global Health Technologies, students will be able to:

1. Demonstrate the ability to prototype and build appropriate technologies that respond to global health design challenges or problems, and/or develop a community health plan or strategy to address these challenges. They will conduct independent research and design—from developing a research question and completing a literature review, to analyzing and interpreting data—to demonstrate the effectiveness of their proposed solution.

2. Demonstrate a broad understanding of the issue of human health, disease, and health care planning from Natural Science, Humanities, and Social Sciences perspectives.

3. Understand the basic elements of human health and disease from evolutionary, biological, and epidemiological perspectives.

4. Demonstrate critical thinking and analysis skills within the realm of global health and its related disciplines, including the ability to critically and responsibly synthesize materials and methods from a range of disciplines to address global health problems or questions.

5. Demonstrate a knowledge of how health and disease are, in part, social and cultural constructs; students will be able to explain how different populations of individuals within the same geographic locale or in very different geographic locales may understand health and disease differently. They will also demonstrate the ability to assess and explain how different kinds of health planning, delivery systems, institutions, and health products would be more or less effective for different populations.

6. Communicate effectively at the college level by demonstrating the ability to write research papers, literature reviews, and other scholarly papers and by being able to verbally present this information effectively and correctly.

Requirements for the Minor in Global Health Technologies

Students pursuing the minor Global Health Technologies must complete:

- A minimum of 7 courses (21 credit hours) to satisfy minor requirements.

The courses listed below satisfy the requirements for this minor. In certain instances, courses not on this official list may be substituted upon approval of the minor’s academic advisor (or official certifier). Students and their academic advisors should identify and clearly document the courses to be taken.

Elective Requirements

Select 1 elective course from Science/Engineering Electives (see course list below).

Select 1 elective course from Humanities/Social Science Electives (see course list below).

Total Credit Hours 21

Footnotes and Additional Information

1. All core courses will be offered each year:
   - GLHT 201, PSYC 370, SOCI 381, ANTH 381, GLHT 392 and GLHT 451 in the fall.
   - GLHT 360, SOCI 345, GLHT 464, GLHT 314, and GLHT 452 in the spring.

   The sequence indicated is the required sequence, as prerequisites do apply.

   If not selected as a Core course, some courses are also available as Electives (see below for course lists).

2. Prior to enrollment in the capstone courses GLHT 451 and GLHT 452, students must successfully complete all other GLHT minor core course requirements, although electives may be taken concurrently.

Elective Requirements

To fulfill the remaining Global Health Technologies minor requirements, students must complete a total of 2 additional electives courses (6 credit hours) as listed below.

### Policies for the Minor in Global Health Technologies

#### Admission

Courses with the GLHT subject code are open to all Rice students, including those not pursuing the GLHT minor, with the exception of GLHT 360 and the capstone course GLHT 451/GLHT 452. While GLHT 451/GLHT 452 senior capstone is restricted to students completing the GLHT minor, for GLHT 360, students are required to submit a 250-word statement explaining their interests in and reasons for taking the course to beyondtraditionalborders@rice.edu to gain special permission from the instructor to register for the course. Preferential admission to GLHT 360 will be given to students who formally declared or state their intention to pursue the GLHT minor. For information on the declaration of minor process for the GLHT minor, please visit this website [http://www.rice360.rice.edu/minor/#Declaration](http://www.rice360.rice.edu/minor/#Declaration).

There is no requirement to initiate or declare the GLHT minor in the freshman year. It can be formally declared as late as the junior year (beginning of the fifth semester). It will be possible for students to receive credit for GLHT minor courses that also fulfill a requirement within their major.

#### Program Restrictions and Exclusions

Students pursuing the minor in Global Health Technologies should be aware of the following program restriction:

- As noted in Majors, Minors, and Certificates (p. 12), i.) students may declare a minor only after they have first declared a major; and ii.) students may not major and minor in the same subject.

#### Transfer Credit

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 32). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: [http://oaa.rice.edu](http://oaa.rice.edu). Students are encouraged to meet with their academic...
program's transfer credit advisor when considering transfer credit possibilities.

**Program Transfer Credit Guidelines**

Students pursuing the minor in Global Health Technologies should be aware of the following program-specific transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

For additional information, please see the Global Health Technologies website:
http://www.rice360.rice.edu/qlht-minor

**Opportunities for the Minor in Global Health Technologies**

**Academic Honors**

The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (p. 47) (*summa cum laude, magna cum laude, and cum laude*) and Distinction in Research and Creative Work (p. 47). Some departments have department-specific Honors awards or designations.

**Departmental Internships and Competition**

**Rice 360° Global Health Summer Internship Program**

The Rice 360° Global Health Technologies Summer Internship Program gives Rice University undergraduate students - both science and non-science majors - first-hand exposure to health care in resource constrained settings. In partnership with clinics, schools, and organizations working in developing countries, the internships allow students to advance their solutions to a global health design challenge in a real-world setting.

The summer internships are held in a number of national and international locations, exposing students to health care challenges and solutions in the developed and developing world. In the past, our students have visited Malawi, Brazil, and the Rio Grande Valley in Texas among other locations. During the internship, students are responsible for the implementation of a GLHT project and a site specific project, both of which are assigned to them. In addition, participants select a project of their choice and work on identifying and documenting five novel ideas or technology ideas at the site.

Summer internships are fully funded experiences, covering the cost of your travel (airfare, visa, and traveler’s insurance), immunizations, housing and a stipend for day to day living expenses (eg. food and local transportation).

For more information visit: http://www.rice360.rice.edu/internships

**Global Health Technologies Design Competition**

The Rice 360° Annual Undergraduate Global Health Technologies Design Competition is held each Spring at Rice University. It features over 20 student teams from national and international universities who present their low-cost global health technologies. Entries are judged on the quality of the problem definition, the effectiveness and potential impact of the design solution, and the likelihood that the solution can be successful in improving healthcare delivery in low-resource settings.

Information on the application process and competition guidelines can be found here: http://www.rice360.rice.edu/design-competition

**Gnosticism, Esotericism and Mysticism**

**Contact Information**

Gnosticism, Esotericism and Mysticism
http://reli.rice.edu/
225 Humanities Building
713-348-2092
April DeConick
Department Chair
adeconick@rice.edu

The Department of Religion offers the Certificate in Gnosticism, Esotericism and Mysticism (GEM). The GEM certificate provides graduate students with a theoretical orientation, which they then can apply to their chosen concentrations (i.e., African-American religions; African religions; Bible and Beyond; Buddhism; Christianity; Hinduism; Islam; Judaism; American Religion; New Age and New Religious Movements; etc.). Traditionally the study of religion has privileged the authoritative voices of the religious experts and the scriptural texts that uphold orthodox faith traditions.

GEM is a new approach to the study of religion that does not privilege the public orthodox framings but takes seriously the heterodox and esoteric currents that have been actively repressed, censored, or marginalized in a variety of sociological, psychological, philosophical, and political ways. GEM takes into account the plurality of religious voices and expressions, including the neglected currents, in order to reconceive religion. This approach also engages the psychology and the phenomenology of religious experience, rather than relying exclusively on the authorial framings taught by the faith traditions and transmitted in their scriptural texts, interpretations and rituals.

Gnosticism, Esotericism and Mysticism does not currently offer an academic program at the undergraduate level.

Department Description and Code
• Religion: RELI

Graduate Certificate Description and Code
• Certificate in Gnosticism, Esotericism and Mysticism: GEM

Certificate in Gnosticism, Esotericism and Mysticism

Program Learning Outcomes for the Certificate in Gnosticism, Esotericism and Mysticism

Upon completing the Certificate in Gnosticism, Esotericism and Mysticism, students will be able to:

1. Understand and interpret religious traditions by examining the plurality of religious voices and expressions, including currents that have been marginalized, neglected, repressed, and censored in a variety of sociological, psychological, philosophical, and political ways.

Requirements for the Certificate in Gnosticism, Esotericism and Mysticism

The Certificate in Gnosticism, Esotericism, and Mysticism is a graduate certificate. For general university requirements, please see Graduate Certificates (p. 53).

Students pursuing the certificate in Gnosticism, Esotericism and Mysticism must complete:

• A minimum of 6 courses (14 credit hours) to satisfy certificate requirements.
• A minimum grade of ‘B-’ (2.67 grade points) or better for all courses taken for a letter grade.
• All required coursework associated with the student’s corresponding degree program.

This certificate is not a freestanding degree program; in addition to fulfilling the certificate requirements outlined below, candidates will be required to complete successfully the degree program to which they have been admitted in order to receive this certificate. Upon completion, the certificate is awarded at the same time as the conferral of the student’s Rice degree, along with a formal notation on their academic transcript.

The courses listed below satisfy the requirements for this certificate. In certain instances, courses not on this official list may be substituted upon approval of the certificate’s academic advisor (or official certifier). Students and their academic advisors should identify and clearly document the courses to be taken.

History

Contact Information

History
http://history.rice.edu/
326 Humanities Building
713-348-4947

Peter C. Caldwell
Department Chair
caldwell@rice.edu

The study of history informs students about the many worlds of the past from which our diverse community has come, providing analytical tools with which to understand the present in terms of the past, and creating a knowledgeable citizenry that can confront the challenges of the future with confidence and historical insight. History lies at the heart of the Humanities, which provides the moral core of all great universities.

The department of History at Rice offers a diverse and exciting range of undergraduate electives that encourage engagement with the past as a way to understand the present and that foster appreciation of past societies for their own sake as important elements of the human experience. Our undergraduate major emphasizes critical skills in communication, writing, and especially research skills, and our department funds travel to archives and libraries as students prepare senior seminar papers and honors theses. The history major is flexible and offers an International Concentration that recognizes study abroad experience and research competency in languages other than English. The Honors Program offers highly motivated students the chance to engage deeply with historical research and writing.

The graduate program, which trains a limited number of carefully selected students, offers these fields: United States (including colonial America, the U.S. South, and United States and the World), Latin America and the Caribbean, the Atlantic World, transnational Asia, and the Middle East. PhD students may concurrently pursue a graduate certificate through the Center for the Study of Women, Gender and Sexuality, or the Center for Critical and Cultural Theory.

Through graduate reciprocal agreements with the Universidade Estadual de Campinas (UNICAMP) and the Instituto Mora, the department offers highly qualified graduate students the opportunity to earn a second PhD at a top-ranked university in Brazil or Mexico. Students in the dual degree program study in Brazil or Mexico, and write dissertations that are co-supervised by faculty at Rice, UNICAMP, or Mora.

Bachelor's Programs

• Bachelor of Arts (BA) Degree with a Major in History (p. 423)
• and a Major Concentration in History: International Concentration (p. 428)

Master's Program

• Master of Arts (MA) Degree in the field of History*

Doctoral Programs

• Doctor of Philosophy (PhD) Degree in the field of History (p. 432)

Coordinated Programs

• Doctor of Philosophy (PhD) Degree in the field of History, with Instituto Mora, in Mexico (Dual Degree) (p. 433)
• Doctor of Philosophy (PhD) Degree in the field of History, with Universidade Estadual de Campinas (UNICAMP), in Brazil (Dual Degree) (p. 434)

* Although students are not normally admitted to a Master of Arts (MA) degree program, graduate students may earn the MA as they work towards the PhD.

Chair

Description and Code Legend

*Note: Internally, the university uses the following descriptions, codes, and abbreviations for this academic program. The following is a quick reference:*

**Course Catalog/Schedule**
- Course offerings/subject code: HIST

**Department Description and Code**
- History: HIST

**Undergraduate Degree Description and Code**
- Bachelor of Arts degree: BA

**Undergraduate Major Description and Code**
- Major in History: HIST

**Undergraduate Major Concentration Description and Code**
- Major Concentration in History: International Concentration: HINT

**Graduate Degree Descriptions and Codes**
- Master of Arts degree: MA
- Doctor of Philosophy degree: PhD

---

**Graduate Degree Program Description and Code**
- Degree Program in History: HIST

**Bachelor of Arts (BA) Degree with a Major in History**

**Program Learning Outcomes for the BA Degree with a Major in History**

Upon completing the BA degree with a major in History, students will be able to:

1. Identify and connect the ways that people, ideas, and technologies have circulated across the range of geographic regions and historical periods.

2. Apply historical questions to concrete cases and demonstrate analytical skills through the use of historical evidence, rigorous logic, and persuasive argument.

3. Exhibit a solid understanding of historical methodologies and research skills, including the careful and creative use of primary and secondary sources that are read critically and weighed carefully as historical evidence.

4. Demonstrate an awareness of the scholarly literature on a given research topic and identify the position of their research within that literature.

5. Exhibit mastery in writing persuasive and analytical prose following the conventions of the discipline.

**Requirements for the BA Degree with a Major in History**

For general university requirements, see Graduation Requirements (p. 25).

Students pursuing the BA degree with a major in History must complete:

- A minimum of 10 courses (30 credit hours) to satisfy major requirements.
- A minimum of 120 credit hours to satisfy degree requirements.
- A minimum of 60 credit hours outside of major requirements.
- A minimum of 6 courses (18 credit hours) taken at the 300-level or above.
- A minimum of 6 courses (18 credit hours) at Rice.
- A minimum of 2 courses (6 credit hours) from departmental course offerings of 400-level seminars.
- A maximum of 4 courses (12 credit hours) from study abroad or transfer credit. For additional departmental guidelines regarding transfer credit, see the Policies tab.

Some foreign language proficiency is desirable and the department highly recommends that students contemplating graduate work in history study at least one foreign language in some depth.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor (or official certifier). Students and their academic advisors should identify and clearly document the courses to be taken.
### Summary

</table>

### Degree Requirements

#### Core Requirements

Select at least 1 course from at least 4 of the 5 following fields (see below for course lists):

- Premodern
- Europe
- United States
- Africa, Asia, Latin America, Middle East
- Transnational, Comparative, World

#### Seminar

Select 2 courses from departmental (HIST) course offerings.  

#### Elective Requirements

Select 4 additional courses from departmental (HIST) course offerings.

#### Total Credit Hours Required for the Major in History

30

#### Additional Credit Hours to Complete BA Degree Requirements

30

#### University Graduation Requirements

60

#### Total Credit Hours

120

### Footnotes and Additional Information

* Includes coursework completed as distribution credit, FWIS, LPAP, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The "hours outside of the major" requirement may include all of the above university requirements.

1 Any departmental (HIST) course offerings between HIST 400 and HIST 499, with the exception of HIST 403 and HIST 404.

2 AP credit for history, HIST 403, and HIST 404 do not fulfill History major requirements as Electives or as Seminar. Additionally, students may take HIST 390 only once to fulfill History major requirements.

### Core Requirements

Of the 10 required courses to satisfy the History major requirements, a minimum of 6 courses total (18 credit hours) must be completed at the 300-level or above.

#### Premodern Courses

**Policies for the BA Degree with a Major in History**

**Transfer Credit**

For Rice University's policy regarding transfer credit, see Transfer Credit (p. 32). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of transfer credit advisors on their website: [http://oaa.rice.edu](http://oaa.rice.edu). Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

**Departmental Transfer Credit Guidelines**

Students pursuing the major in History should be aware of the following departmental transfer credit guidelines:

- No more than 4 courses (12 credit hours) of transfer credit from U.S. or international universities of similar standing as Rice may apply towards the major.
- Requests for transfer credit will be considered by the departmental Director of Undergraduate Studies (and/or the program's official transfer credit advisor) on an individual case-by-case basis.
- Courses taken at another university must be equivalent in required reading, writing, research and testing, as well as classroom hours, of a Rice history course. Regarding subject matter, however, there does not have to be an equivalent course in the Rice history course offerings, unless the student requires distribution credit.
- Rice students planning to study at a foreign university must also obtain pre-approval from the Rice Study Abroad Office.
- AP, IB or A-level credit (and the corresponding Rice transfer credit) may not be used to satisfy any requirements for the history major (even though a student may be able to use the articulated credit hours toward general university requirements).

For additional information, please see the History website: [http://history.rice.edu](http://history.rice.edu).

**Opportunities for the BA Degree with a Major in History**

**Academic Honors**

The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (p. 47) ([summa cum laude](http://summa.com), [magna cum laude](http://magna.com), and [cum laude](http://cum.com)) and Distinction in Research and Creative Work (p. 47). Some departments have department-specific Honors awards or designations.

**Departmental Honors Program in History**

Qualified undergraduates may enroll for 6 semester credit hours of directed honors research and writing, completing an honors thesis in their senior year (these 6 credit hours are in addition to the 30 hours required for the major). Accepted students enroll in HIST 403 for 3 credits in the Fall of their senior year and in HIST 404 for 3 credits in the Spring of their senior year. Application to the program is required. For current procedures, see the department website ([http://history.rice.edu](http://history.rice.edu)).
Financial assistance is available to conduct related research during the summer between the junior and senior year for all students accepted into the Honors Program. See https://humanities.rice.edu/student-life for tables of fellowships, prizes, and internships/practica that may be relevant to this major.

Bachelor of Arts (BA) Degree with a Major in History and a Major Concentration in History: International Concentration

Program Learning Outcomes for the BA Degree with a Major in History and an International Major Concentration

Upon completing the BA degree with a major in History and an International Major Concentration, students will be able to:

1. Identify and connect the ways that people, ideas, and technologies have circulated across the range of geographic regions and historical periods.
2. Apply historical questions to concrete cases and demonstrate analytical skills through the use of historical evidence, rigorous logic, and persuasive argument.
3. Exhibit a solid understanding of historical methodologies and research skills, including the careful and creative use of primary and secondary sources that are read critically and weighed carefully as historical evidence.
4. Demonstrate an awareness of the scholarly literature on a given research topic and identify the position of their research within that literature.
5. Exhibit mastery in writing persuasive and analytical prose following the conventions of the discipline.
6. Experience a different language and culture in situ.
7. Demonstrate the ability to use a second language for research.

Requirements for the BA Degree with a Major in History

For general university requirements, see Graduation Requirements (p. 25). Students pursuing the BA degree with a major in History must complete:

- A minimum of 10 courses (30 credit hours) to satisfy major requirements.
- A minimum of 120 credit hours to satisfy degree requirements.
- A minimum of 60 credit hours outside of major requirements.
- A minimum of 6 courses (18 credit hours) at the 300-level or above.
- A maximum of 4 courses (12 credit hours) from study abroad or transfer credit. For additional departmental guidelines regarding transfer credit, see the Policies tab.

Some foreign language proficiency is desirable and the department highly recommends that students contemplating graduate work in history study at least one foreign language in some depth.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor (or official certifier). Students and their academic advisors should identify and clearly document the courses to be taken.

### Footnotes and Additional Information

* Includes coursework completed as distribution credit, FWIS, LPAP, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The “hours outside of the major” requirement may include all of the above university requirements.

1 Any departmental (HIST) course offerings between HIST 400 and HIST 499, with the exception of HIST 403 and HIST 404.

2 AP credit for history, HIST 403, and HIST 404 do not fulfill History major requirements as Electives or as Seminar. Additionally, students may take HIST 390 only once to fulfill History major requirements.

### Core Requirements

Of the 10 required courses to satisfy the History major requirements, a minimum of 6 courses total (18 credit hours) must be completed at the 300-level or above.

Major Concentration: (Department of History) International Concentration

To guide and recognize the work of history majors who choose to devote a part of their studies to international historical issues and questions, the History department has established an optional major concentration in History: International Concentration. In addition to the standard BA degree and history major requirements, students following this major concentration are required to:

- Complete a significant study abroad experience (such as those regularly recommended by the Rice Study Abroad Office), to be pre-approved by the History department’s Director of Undergraduate Studies.
- Demonstrate research competency in a language other than English. Students may demonstrate language competence in one of the following two ways:
  - Students who pass a departmental language exam will be certified as having met the language requirement.
  - Students who complete a history honors thesis or a 400-level seminar paper that draws on a significant number of non-English secondary or primary sources will also be certified as having met the requirement.

Upon completion of all requirements for the major in History, students who complete the additional requirements of the major concentration in History: International Concentration will have this accomplishment noted on their final transcript. For more information, see the History website: http://history.rice.edu/.

Opportunities for the BA Degree with a Major in History and an International Major Concentration

Academic Honors

The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (p. 47) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 47). Some departments have department-specific Honors awards or designations.

Departmental Honors Program in History

Qualified undergraduates may enroll for 6 semester credit hours of directed honors research and writing, completing an honors thesis in their senior year (these 6 credit hours are in addition to the 30 hours required for the major). Accepted students enroll in HIST 403 for 3 credits in the Fall of their senior year and in HIST 404 for 3 credits in the Spring of their senior year. Application to the program is required. For current procedures, see the department website (http://history.rice.edu). Financial assistance is available to conduct related research during the summer between the junior and senior year for all students accepted into the Honors Program.

See https://humanities.rice.edu/student-life for tables of fellowships, prizes, and internships/practica that may be relevant to this major.

Doctor of Philosophy (PhD) Degree in the field of History
Program Learning Outcomes for the MA and PhD Degrees in the field of History

Upon completing the MA and PhD Degrees in the field of History, students will be able to:

1. Develop analytic skills in critical thinking and writing that are of value both inside and outside the academy.
2. Conduct original research that makes a contribution to the field.
3. Write a dissertation that makes an original contribution to their field.
4. Be equipped to enter the historical profession as academics who can teach, present work to peers, and communicate effectively with the public.
5. Acquire expertise in their major field of historical inquiry and learn the skills necessary to write historical monographs.

Requirements for the MA and PhD Degrees in the field of History

MA Degree Program

The MA degree is a non-thesis master's degree. For general university requirements, please see Non-Thesis Master's Degrees (p. 66). The department gives priority to applicants for the PhD. Completion of the MA degree usually takes two years; no more than three years may elapse between graduate admission and the completion of the MA degree unless the department graduate committee approves an extension. MA degrees are awarded in three ways:

1. completion of one year of course work (18 credit hours) and a thesis written and defended in an oral examination during the second year;
2. completion of two years of course work (36 credit hours), normally including at least two seminar research papers, and
3. for students continuing to the PhD, completion of all requirements for candidacy, including written and oral examinations.

PhD Degree Program

For general university requirements, please see Doctoral Degrees (p. 64). Doctoral candidates must prepare themselves in three fields of history: two in their major area of specialization, whether U.S. or other history, and a third in an area not included in the first two fields. Students who wish to pursue a third field in an area outside the department should petition the graduate committee by the end of their second semester.

The requirements for completing the degree will be administered as flexibly as possible within the bounds of general university requirements (p. 49). These requirements state that the PhD degree will be awarded after successful completion of at least 90 semester hours of advanced study and an original investigation reported in an approved thesis. The student may apply for formal admission to candidacy for the PhD degree after passing the qualifying exam.

For the PhD degree, candidates must:

• Prepare themselves thoroughly in three examination fields.
• Take 8 graduate seminars, including HIST 575.
• Pass an examination in the principal language of research and in one additional language. If the principal language of research is English, candidates must pass an examination in one other language.
• Perform satisfactorily on written and oral examinations.
• Complete a dissertation presenting the results of original research.
• Defend the thesis in a public oral examination.

Policies for the PhD Degree in the field of History

Department of History Graduate Program Handbook

The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, the Department of History publishes a graduate program handbook, which can be found here: http://gradhandbooks.rice.edu/2017_18/History_Graduate_Handbook.pdf.

Admission

The Rice University graduate program in history is primarily a PhD program. Students who have a BA in history (or its equivalent) are eligible to apply to the PhD program. Although many successful candidates to the PhD program have an MA or other advanced degree, advanced study is not a requirement for admission. Graduate study is offered in these fields: United States (including colonial America, the U.S. South, and the United States and the World), Latin America and the Caribbean, the Atlantic World, transnational Asia, and the Middle East. Further information is available at the department website (http://history.rice.edu). For general university requirements, see Graduate Degrees (p. 49).

Financial Support

The department awards graduate tuition waivers and fellowship stipends, within the limits of available funds, to qualified PhD candidates with demonstrated ability. University funding is not available for master's program study only. All graduate students in the history department are expected to participate in the professional activities of the department as part of their training. These include, but are not limited to, assisting with the Journal of Southern History or serving as research assistants or teaching assistants for department members. As far as possible, these assignments are kept consistent with the areas of interests of the students.

For additional information, please see the History website: http://history.rice.edu/

Opportunities for the PhD Degree in the field of History

See https://humanities.rice.edu/student-life for tables of fellowships, prizes, and internships/practica that may be relevant to this degree.

Dual Doctor of Philosophy (PhD) Degree in the field of History, with Instituto Mora, in Mexico
Program Learning Outcomes for the Dual PhD Degree in the field of History, with Instituto Mora, in Mexico

Upon completing the Dual PhD program in the field of History with Instituto Mora, students will:

1. Be able to write and present orally at the level expected for PhD students at Instituto Mora and Rice.
2. Be widely read in historical literature relevant to their research topic in English and Spanish.
3. Be able to work in archives and libraries in the United States and Mexico.
4. Be able to do original research in relevant primary sources in both languages.
5. Understand two distinct academic traditions and learn from both.

Requirements for the Dual PhD Degree in the field of History, with Instituto Mora, in Mexico

For general university requirements, please see Doctoral Degrees (p. 64).

Rice will award the PhD Degree in the field of History to Instituto Mora students who have successfully completed the following requirements:

1. Passed their comprehensive examinations and been admitted to candidacy at Instituto Mora.
2. Completed 6 graduate level courses at Rice, of which one must be HIST 575, one must be a History Graduate Research seminar, and one must be a History Graduate Reading seminar.
3. Written a dissertation in the language of their home institution and a summary in English that is equivalent in style, scholarship, and length to an academic journal article.
4. Successfully presented the dissertation, and the summary, in English, to a faculty panel at Rice.
5. Successfully defended the dissertation at Instituto Mora.

The Instituto Mora will award the Doctorado en Historia Moderna y Contemporánea to Rice students who have successfully completed the following requirements:

1. Passed their comprehensive examinations and been admitted to candidacy at Rice.
2. Completed 8 graduate-level courses at Mora, of which must include Teoría de la Historia, Seminarios de tesis I and II; 2 courses chosen from any of these categories: Teoría Antropológica, Teoría Social, Teoría del Derecho, or Teoría Económica, and 3 additional graduate seminars.
3. Written a dissertation in the language of their home institution and a summary in Spanish that is equivalent in style, scholarship and length to an academic journal article.
4. Successfully defended the doctoral dissertation at Rice.
Requirements for the Dual PhD Degree in the field of History, with Universidade Estadual de Campinas (UNICAMP), in Brazil

For general university requirements, please see Doctoral Degrees (p. 64).

Rice will award a PhD degree in the field of History to UNICAMP students who have successfully completed the following requirements:

1. Passed their comprehensive examinations and been admitted to candidacy at UNICAMP.
2. Completed 6 graduate-level courses at Rice, which one must be HIST 575, one must be a History research seminar, and one must be a History reading seminar. Students must be enrolled in at least 9 credit hours per semester while at Rice University.
3. Written a dissertation in the language of their home institution and a summary in English that is equivalent in style, scholarship, and length to an academic journal article.
4. Successfully presented the dissertation and the summary in English to a faculty panel at Rice.
5. Successfully defended the dissertation at UNICAMP.

UNICAMP will award the Doutor em História to Rice students who have successfully completed the following requirements:

1. Passed their comprehensive examinations and been admitted to candidacy at Rice.
2. Completed 2 semesters of coursework at UNICAMP, including all required courses for UNICAMP Ph.D students in History.
3. Written a dissertation in the language of their home institution and a summary in Portuguese, that is equivalent in style, scholarship, and length to an academic journal article.
4. Successfully presented the dissertation, and the summary, in Portuguese, to a faculty panel at UNICAMP.
5. Successfully defended the dissertation at Rice.

Humanities Research Center

Contact Information

Humanities Research Center
http://hrc.rice.edu/
Herring Hall 306
713-348-4227

Farès el-Dahdah
Director
fdahdah@rice.edu

The Humanities Research Center (HRC) identifies, encourages, and funds innovative research projects by faculty, visiting scholars, graduate, and undergraduate students in the School of Humanities and beyond. This involves fostering scholarly work, facilitating research between the School of Humanities and other areas of Rice University, as well as leading institutional change by partnering with other foundations, centers, research institutions, and universities. Independent initiatives are also taken by the HRC in order to incubate ideas and detect disciplinary changes that shape the future of the university.

The HRC has recently launched initiatives in Public Humanities with focus areas in Cultural Heritage, Medical Humanities, and Spatial Humanities. Interdisciplinary minors in Medical Humanities and in Museums and Cultural Heritage are now overseen by the HRC. Other ongoing programs include research project funding, visiting scholarships, seminars, courses, conferences, workshops, lecture series, practicums, exhibitions, performances, and film series.

As interdisciplinary minors, Medical Humanities and Museums and Cultural Heritage use new and existing courses from across Rice’s schools to promote exploration of their complex subject matter though a number of disciplinary lenses. The Medical Humanities minor examines medicine through humanistic disciplines such as history, ethics, religion, literature, cultural anthropology, media studies, and the visual and dramatic arts. The Museums and Cultural Heritage minor examines the history, politics, materiality, and aesthetics of museum curation practices, technologies of cultural preservation and dissemination, as well as the place of tangible and intangible collective heritage in human social life.

For additional information, please see the HRC website at: http://hrc.rice.edu/.

Minor

• Minor in Medical Humanities (p. 485)
• Minor in Museums and Cultural Heritage (p. 493)

The Humanities Research Center does not currently offer an academic program at the graduate level.
Jewish Studies is an interdisciplinary field that crosses traditional boundaries between academic fields and departments. Courses in Jewish Studies allow students to study Judaism as it has evolved from an ancient set of shared religious practices into the pluralistic religion and culture that it is today. In both the humanities and social sciences, Jewish Studies broadly examines the texts, history, languages, philosophy, literature, and culture of the Jewish people from the ancient to the modern. The study of Jewish life and culture provides an opportunity to explore the continuities and diversity of Judaism as it has been lived and practiced for over three millennia all over the world.

Diversity of thought is a hallmark of Jewish culture dating back to the earliest Jewish texts, and we strive to follow this model in our courses. The diverse and interdisciplinary nature of the Program in Jewish Studies allows undergraduates the opportunity to enrich their major fields of study with a specific focus on Judaism and Jewish culture. The Program in Jewish Studies at Rice also forms an important bridge to the community, making use of the rich resources available in Houston, engaging with local institutions, and participating in timely public discussions.

Minor in Jewish Studies

Program Learning Outcomes for the Minor in Jewish Studies

Upon completing the minor in Jewish Studies, students will be able to:

1. Demonstrate knowledge of key Jewish religious traditions, texts, and figures throughout history, from the ancient to the contemporary, as well as the place of those traditions, texts, and figures within specific historical, geographical, or sociopolitical contexts.
2. Demonstrate knowledge of Jewish history and culture during different time periods and in different geographical locations.
3. Demonstrate the ability to understand and apply theories and methods from multiple disciplines—including religious studies, literature, history, film, and sociology—to address key issues or undertake research in the field of Jewish studies; synthesize theories and methods from multiple disciplines to address questions within the field of Jewish studies.
4. Demonstrate the ability to read and interpret primary and secondary texts critically, including ancient as well as modern literature, religious texts, film, and modern scholarship; demonstrate the ability to use these texts to develop and support evidence-based research questions and arguments in discussions, verbal presentations, and in research papers.
5. Demonstrate the ability to communicate effectively in writing and orally at the college level; this includes demonstrating the ability to communicate in a critical, scholarly manner by developing evidence-based research questions and arguments, using and citing evidence to support argumentation, and writing and speaking clearly and correctly.

Requirements for the Minor in Jewish Studies

Students pursuing the minor in Jewish Studies must complete:

- A minimum of 6 courses (18 credit hours) to satisfy minor requirements.
- A minimum of 3 courses (9 credit hours) at the 300-level or above.
- A maximum of 3 courses (9 credit hours) from study abroad or other transfer credits. For additional program guidelines regarding transfer credit, see the Policies tab.
- A maximum of 2 Hebrew (HEBR) courses.
- A maximum of 2 Religion (RELI) courses.

The courses listed below satisfy the requirements for this minor. In certain instances, courses not on this official list may be substituted upon approval of the minor’s academic advisor (or official certifier). Students and their academic advisors should identify and clearly document the courses to be taken.

Policies for the Minor in Jewish Studies

The courses used to meet the Jewish Studies minor are open to all students at Rice from all backgrounds. Our classes meet student interests in Jewish experience and its importance for history, literature, art, politics, law, and philosophy.
Program Restrictions
Students pursuing the minor in Jewish Studies should be aware of the following program restriction:

- As noted in Majors, Minors, and Certificates (p. 12), i.) students may declare their intent to pursue a minor only after they have first declared a major, and ii.) students may not major and minor in the same subject.

Transfer Credit
For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 32). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: http://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Program Transfer Credit Guidelines
Students pursuing the minor in Jewish Studies should be aware of the following program-specific transfer credit guidelines:

- No more than 3 courses (9 credit hours) of transfer credit from U.S. or international universities of similar standing as Rice may apply towards the minor.
- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

For additional information, please see the Jewish Studies website: http://jewishstudies.rice.edu

Opportunities for the Minor in Jewish Studies

Academic Honors
The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (p. 47) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 47). Some departments have department-specific Honors awards or designations.

See https://humanities.rice.edu/student-life for tables of fellowships, prizes, and internships/practica that may be relevant to this minor.

Nick Iammarino
Department Chair
nki@rice.edu

Rice’s Kinesiology department was one of the first in the nation to institute an academic program structure that allows students

to concentrate their efforts in a specific sub-discipline. Within the Kinesiology major, there are two distinct major concentrations: Health Sciences and Sports Medicine.

Major in Kinesiology and a Major Concentration in Health Sciences
The goal of the health sciences program is to provide students with a fundamental background in health promotion and disease prevention. This background will enable them to understand the role that health promotion plays in society and the mechanisms that affect public and community health while also considering the complexities of maintaining an optimal level of personal health. The health science program is viewed as an excellent option for undergraduate students who are preparing to enter graduate school in public health, health promotion, and health education, as well as other health-related graduate or professional programs such as medicine or dentistry.

Major in Kinesiology and a Major Concentration in Sports Medicine
The sports medicine curriculum intends to provide a strong natural science foundation and interface this foundation with application to the human body. Prerequisite courses in chemistry and physics, elective courses in biology and biochemistry, as well as an array of required and elective courses offered within the department provide this foundation. The sports medicine program is the only academic specialization on campus that provides detailed exposure to human anatomy and human physiology. In addition, students receive coursework in foundations of Kinesiology, research methods, motor learning, statistics, exercise physiology, and sports medicine. Practical experience is afforded through several academic labs. Other elective courses include epidemiology, case studies in human performance, motor control, advanced exercise physiology and preventive medicine, sports nutrition, medical terminology, and muscle physiology and plasticity. During advising sessions, students are encouraged to select from these electives according to their respective career goals. Students in the sports medicine program are expected to develop a strong scientific knowledge.

Students who choose the sports medicine program typically continue their education at the graduate level or plan on attending medical school or other medically related professional schools, such as physical therapy. Graduates also may be directly employed in medical and corporate settings, which include both preventative and rehabilitative programs. Graduates who choose not to seek post-baccalaureate education generally are encouraged to obtain certification for exercise testing, physical fitness evaluation, or exercise prescription through the American College of Sports Medicine (http://acsm.org) website.

Bachelor’s Programs
- Bachelor of Arts (BA) Degree with a Major in Kinesiology
- and a Major Concentration in Health Sciences (p. 440)
- and a Major Concentration in Sports Medicine (p. 442)

Kinesiology does not currently offer an academic program at the graduate level.

Descriptions and Codes Legend
Note: Internally, the university uses the following descriptions, codes, and abbreviations for this academic program. The following is a quick reference:

Course Catalog/Schedule
• Course offerings/subject code for Kinesiology: KINE
• Course offerings/subject code for Emergency Medical Services/Practice: EMSP
• Course offerings/subject code for Health Sciences: HEAL

Department Description and Code
• Kinesiology: KINE

Undergraduate Degree Description Code
• Bachelor of Arts degree: BA

Undergraduate Major Description and Code
• Major in Kinesiology: KINE

Undergraduate Major Concentration Descriptions and Codes
• Major Concentration in Health Sciences: KHSC
• Major Concentration in Sports Medicine: KSPM

Bachelor of Arts (BA) Degree with a Major in Kinesiology and a Major Concentration in Health Sciences

Program Learning Outcomes for the BA Degree with a Major in Kinesiology and a Major Concentration in Health Sciences

Upon completing the BA degree with a major in Kinesiology and a major concentration in Health Sciences, students will be able to:

1. Prepare and deliver presentations effectively and be able to use information technology.
2. Work and collaborate in groups toward a common goal.
3. Read, select, and interpret important information from health sciences literature. They will be able to design and conduct public health research studies using appropriate methodologies.
4. Promote public health education within the framework of legal, ethical, moral, and professional standards.
5. Collaborate with other professionals, staff, and communities in the planning and implementation, and evaluation of health education programs. They will be able to administer and manage health education programs, serve as a health education resource person, and communicate and advocate for health and health education.

Requirements for the BA Degree with a Major in Kinesiology

For general university requirements, see Graduation Requirements (p. 25). Students pursuing the BA degree with a major in Kinesiology must complete:

• A minimum of 14-15 courses (42-43 credit hours), depending on major concentration declared, to satisfy major requirements.
• A minimum of 120 credit hours satisfy degree requirements.
• A minimum of 60 credit hours outside of major requirements.
• A minimum of 5-9 courses (15-25 credit hours), depending on major concentration declared, taken at the 300-level or above.
• The requirements of a major concentration. When students declare the major (p. 12) in Kinesiology, students must additionally identify and declare one of two major concentrations, either in:
  • Health Sciences (p. 440), or
  • Sports Medicine (p. 442)

It is possible for students to change their major concentration at any time, even after initially declaring the major. To do so, please contact the Office of the Registrar (registrar@rice.edu).

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor (or official certifier).
Students and their academic advisors should identify and clearly document the courses to be taken.

### Footnotes and Additional Information

* Includes coursework completed as distribution credit, FWIS, LPAP, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The "hours outside of the major" requirement may include all of the above university requirements.

^1 Core Requirements include an introductory course designed to acquaint students with the fundamental concepts of personal health and models of health promotion, understanding and assessing community health needs, methods of understanding the disease process, a course that introduces statistics, a professional preparation course that introduces students to the profession, theories and models commonly used in health promotion research and practice, and an application course in which students plan a health promotion program.

### Elective Requirements

To fulfill the elective requirements for the major concentration in Health Sciences, students must complete a total of 8 additional courses (24 credit hours) from the courses listed below. The remaining credit hours needed are drawn from elective courses that are both within the Department of Kinesiology and, at present, more than 20 courses from other academic departments at Rice. In keeping with the university's interest in an interdisciplinary approach to undergraduate education, this allows students to choose health-related courses from within the schools of natural sciences, social sciences, and humanities.

Departmental Transfer Credit Guidelines
Students pursuing the major in Kinesiology should be aware of the following departmental transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program's official transfer credit advisor) on an individual case-by-case basis.

For additional information, please see the Kinesiology website: http://kinesiology.rice.edu/

Opportunities for the BA Degree with a Major in Kinesiology and a Major Concentration in Health Sciences

Academic Honors
The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 47) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 47). Some departments have department-specific Honors awards or designations.

For additional information, please see the Kinesiology website: http://kinesiology.rice.edu/

Bachelor of Arts (BA) Degree with a Major in Kinesiology and a Major Concentration in Sports Medicine

Program Learning Outcomes for the BA Degree with a Major in Kinesiology and a Major Concentration in Sports Medicine
Upon completing the BA degree with a major in Kinesiology and a major concentration in Sports Medicine, students will be able to:

1. Prepare and deliver presentations effectively and be able to use information technology.
2. Work and collaborate in groups toward a common goal.
3. Read, select, and interpret important information from sports sciences literature. They will be able to design and conduct research studies using appropriate methodologies.
4. Identify and apply ethical standards to the design and execution of research studies.
5. Understand principles of human nutrition and its application to exercise and sport.
6. Understand the principles of sports psychology.
7. Be knowledgeable of anatomy relevant to sport, exercise, and sport injury. They will develop an understanding of principles of biomechanics applied to exercise and sporting activities. Students will be knowledgeable of prevention, diagnosis, and treatment of injuries and diseases related to exercise and sports.
8. Collect and analyze data in a motor learning, exercise physiology, or other sports medicine lab settings.

Requirements for the BA Degree with a Major in Kinesiology
For general university requirements, see Graduation Requirements (p. 25). Students pursuing the BA degree with a major in Kinesiology must complete:

- A minimum of 14-15 courses (42-43 credit hours), depending on major concentration declared, to satisfy major requirements.
- A minimum of 120 credit hours satisfy degree requirements.
- A minimum of 60 credit hours outside of major requirements.
- A minimum of 5-9 courses (15-25 credit hours), depending on major concentration declared, taken at the 300-level or above.
- The requirements of a major concentration. When students declare the major (p. 12) in Kinesiology, students must additionally identify and declare one of two major concentrations, either in:
  - Health Sciences (p. 440), or
  - Sports Medicine (p. 442)

It is possible for students to change their major concentration at any time, even after initially declaring the major. To do so, please contact the Office of the Registrar (registrar@rice.edu).

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major's academic advisor (or official certifier). Students and their academic advisors should identify and clearly document the courses to be taken.

**Policies for the BA Degree with a Major in Kinesiology and a Major Concentration in Sports Medicine**

**Transfer Credit**

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 32). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: [http://oaa.rice.edu](http://oaa.rice.edu). Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

**Departmental Transfer Credit Guidelines**

Students pursuing the major in Kinesiology should be aware of the following departmental transfer credit guidelines:
Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

For additional information, please see the Kinesiology website: http://kinesiology.rice.edu/

Opportunities for the BA Degree with a Major in Kinesiology and a Major Concentration in Sports Medicine

Academic Honors
The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (p. 47) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 47). Rafael Salaberry
Program Director
salaberry@rice.edu

The Center for Languages and Intercultural Communication (CLIC) provides opportunities for the development of:

• Communicative and interactional abilities in a second language through language analysis and language use
• Analytical, critical-thinking competence through the study of linguistic, social, and cultural aspects that define second language communicative-interactional abilities
• A broad educational experience (intercultural awareness and abilities) that will help students become productive members of a society in which multilingualism and multiculturalism are the norm rather than the exception

The Center for Languages and Intercultural Communication supports students pursuing language-related degrees in other departments, including Asian Studies (p. 149), Classical and European Studies (p. 313), History (p. 422), and Spanish, Portuguese and Latin American Studies (p. 705).

Certificate
• Certificate in Language and Intercultural Communication (p. 445)

The Center for Languages and Intercultural Communication does not currently offer an academic program at the graduate level.

Description and Code Legend

Note: Internally, the university uses the following descriptions, codes, and abbreviations for this academic program. The following is a quick reference:

Course Catalog/Schedule

- Course offerings/subject code: CLIC

Center Description and Code

- Center for Languages and Intercultural Communication: CLIC

Undergraduate Certificate Description and Code

- Certificate in Languages and Intercultural Communication: LIC

Certificate in Languages and Intercultural Communication

Program Learning Outcomes for the Certificate in Languages and Intercultural Communication

Upon completing the Certificate in Languages and Intercultural Communication, students will be able to:

1. Communicate and interact with speakers of a second language (in both oral and written modes of communication) at an intermediate-advanced level.
2. Analyze critically both the target language and their native language as systems of communication.
3. Identify structural, conceptual, social, and cultural aspects associated with language use (including their own native language).
4. Understand the implications of cross-cultural understanding and intercultural communication.
5. Function as productive members of a society in which multilingualism and multiculturalism are the norm rather than the exception.

Requirements for the Certificate in Languages and Intercultural Communication

Students pursuing the Certificate in Languages and Intercultural Communication must complete:

- A minimum of 4 courses (12 credit hours) to satisfy certificate requirements.
- An Experiential Learning opportunity (at least 6 credit hours) through an approved study abroad program.
- An Outcomes Assessment to evaluate language proficiency.

This certificate is not a freestanding degree program; in addition to fulfilling the certificate requirements outlined below, candidates will be required to complete successfully the degree program to which they have been admitted in order to receive this certificate. Upon completion, the certificate is awarded at the same time as the conferral of the student's Rice degree, along with a formal notation on their academic transcript.

Footnotes and Additional Information

1 Students studying Portuguese or Spanish who take two 200-level courses offered by CLIC, must take at least one 300-level course taught by the Department of Spanish, Portuguese, and Latin American Studies (SPLA). If they fulfill any of the 200-level course requirements with a 300-level course, they must register for a minimum of TWO 300-level courses offered by SPLA.
2 In cases when 300-level courses are not offered in the target language, students may take another 200-level course (if available) or submit a request for transfer credit.
3 Rice faculty-led study abroad programs are preferred for meeting the experiential learning component, but in cases when there are no Rice faculty-led programs offered, students should consult with the Certificate advisor for alternative options that include academic content and goals that are similar to Rice faculty-led programs.
4 In order to receive the Certificate, students will complete an examination consisting of oral and written assessments in the target language. Students completing the Certificate are expected to reach level B2 (Independent User) of the Common European Framework of Reference for Languages (CEFR) in the target language. Students receiving the Certificate cannot fail the test; they are simply placed at level of competence obtained after completing the Certificate requirements and assessments. The level reached will be noted through an official letter from CLIC.
Policies for the Certificate in Language and Intercultural Communication

Language Placement Testing
Students are required to take a Language Placement Test to ensure that they are placed in the appropriate course in their target language. Placement tests are administered online prior to and during both fall and spring registration.

Program Restrictions and Exclusions
Students pursuing the certificate in Languages and Intercultural Communication should be aware of the following program restriction:

• As noted in Majors, Minors, and Certificates (p. 12), students may declare their intent to pursue a university certificate only after they have first declared a major.

Transfer Credit
For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 32). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: http://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Program Transfer Credit Guidelines
Students pursuing the certificate in Languages and Intercultural Communication should be aware of the following program-specific transfer credit guidelines:

• The Center for Languages and Intercultural Communication (CLIC) will determine equivalency for foreign language classes taken at other colleges or universities and approve them for transfer credit. Students who study abroad should have their transfer credits pre-approved, when possible, before they commit to a study-abroad program.
• When requesting Rice equivalent credit for foreign language acquisition courses, students should submit no less than the following to CLIC for approval:
  • the appropriate transfer credit request form from the Office of the Registrar.
  • a program description for courses taken abroad or catalog description for courses taken in the United States.
  • a course syllabus for the course they wish to take or have taken, or a web address of the program if one is available.
• Students should be aware that the approval process takes about one week and should plan accordingly.

For additional information, please see the Center for Languages and Intercultural Communication website: http://clic.rice.edu/

Opportunities for the Certificate in Language and Intercultural Communication

Academic Honors
The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (p. 47) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 47). Some departments have department-specific Honors awards or designations.

Scholarships
The Center for Languages and Intercultural Communication invests in students participating in CLIC-sponsored study abroad programs by occasionally offering scholarships to offset the cost of tuition, fees, and in some cases, airfare. When funding is available, the scholarships are offered in the spring semester for study abroad programs taking place the following summer.

See https://humanities.rice.edu/student-life for tables of fellowships, prizes, and internships/practicas that may be relevant to this program.

Program Director
aranda@rice.edu

Latin American Studies is an interdisciplinary major designed to further understanding of the cultures, histories, and politics of Latin America as viewed from regional and global perspectives.

This major draws from courses and faculty from a wide range of departments and programs, including Anthropology, Architecture, Art History, English, French Studies, History, Spanish and Portuguese, and Political Science. This major provides a challenging context for students to develop core skills in interdisciplinarity, language, communication (written and oral), theory, research methodologies, and geography.

The BA degree with a major in Latin American Studies is a degree program in the department of Spanish, Portuguese and Latin American Studies (p. 705).

Bachelor’s Program

• Bachelor of Arts (BA) Degree with a Major in Latin American Studies (p. 447)

Latin American Studies does not currently offer an academic program at the graduate level.

Director
José F. Aranda, Jr.

Professors
Bernard Aresu
Krista Comer
Farés el-Dahdah
Beatriz González-Stephan
Rosemary Hennessy
Carlos Jiménez
Requirements for the BA Degree with a Major in Latin American Studies

For general university requirements, see Graduation Requirements (p. 25). Students pursuing the BA degree with a major in Latin American Studies must complete:

1. A minimum of 10 courses (30 credit hours) to satisfy major requirements.
2. A minimum of 120 credit hours to satisfy degree requirements.
3. A minimum of 60 credit hours outside of major requirements.
4. A minimum of 6 courses (18 credit hours) at Rice University.
5. A minimum of 6 courses (18 credit hours) taken at the 300-level or above.
6. At least 1 semester studying abroad.
7. A language competency requirement.
8. A capstone project.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor (or official certifier). Students and their academic advisors should identify and clearly document the courses to be taken.

Total Credit Hours Required for the BA Degree with a Major in Latin American Studies (p. 25) | 60 |

Total Credit Hours | 120 |
Footnotes and Additional Information

* Includes coursework completed as distribution credit, FWIS, LPAR upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The "hours outside of the major" requirement may include all of the above university requirements.

1 This course both introduces and structures the major. This course is taught in English, with discussion sections available in Spanish or Portuguese pending student interest.

2 At least 2 courses (6 credit hours) must be in the humanities and at least 2 courses (6 credit hours) must be in the social sciences.

3 Students must spend at least one semester studying at a Rice-approved, semester-abroad program in which the primary language of instruction is Spanish, Portuguese, or under special circumstances French. Courses taken abroad may count toward completing the Latin American Studies major and toward meeting the distribution requirements. Study abroad courses cannot count for more than 2 courses (12 semester hours) toward the major. While the semester abroad is ideal, under very special circumstances, the advisor to the major can approve a 12-week summer program as the equivalent of a semester, provided the program allows students to complete at least 3 three-credit-hour courses.

4 Students must demonstrate language competence at three different stages:

- **Prior to study abroad**: students will be examined by Center for Languages and Intercultural Communication (CLIC) faculty trained in proficiency testing to ensure that the students have adequate language competence for studying abroad—adequate at this stage meaning at least Intermediate-High according to proficiency standards set by the American Council on the Teaching of Foreign Languages (ACTFL).

- **After study abroad**: students will be tested for proficiency at the Advanced-Low level, according to ACTFL Guidelines. Proficiency at the Advanced-Low level is desirable, but not required.

- **Writing the capstone research paper**: students must demonstrate to the satisfaction of the colloquium director their ability to do research in a foreign language.

5 The Capstone is completed after completing the semester abroad. Students will enroll in a research colloquium directed by a faculty member from either Humanities or Social Sciences. As directed by this faculty member, the colloquium director, students will write a research paper on a Latin American topic of their choice. During the course, students will be exposed to different research methodologies, theories appropriate to their field of study, and instruction on how best to incorporate research and sources that emerged from their study abroad. Interdisciplinary modes of research and writing will be a major feature of this colloquium. Students will be expected to highlight the interdisciplinary nature of their research in their completed paper. In addition, students in the colloquium will be expected to workshop their writing at different times during the semester. The completed research paper will be evaluated by the colloquium director and one other professor appropriate to the topic. With the approval of the colloquium director, this research paper may be written in English.

**Elective Requirements**

Students must complete a total of 8 courses (24 credit hours) from the following department approved electives, which will focus on a specific region, area, or country in Latin America. This area focus will shape each student’s proposed course of study. Each course of study and an area focus must be approved by the advisor to the major. At least 2 courses (6 credit hours) must be in the humanities and at least 2 courses (6 credit hours) must be in the social sciences.

**Policies for the BA Degree with a Major in Latin American Studies**

**Transfer Credit**
For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 32). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: [http://oaa.rice.edu](http://oaa.rice.edu). Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

**Departmental Transfer Credit Guidelines**
Students pursuing the major in Latin American Studies should be aware of the following departmental transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

For additional information, please see the Spanish, Portuguese and Latin American Studies website: [http://spanishandportuguese.rice.edu/](http://spanishandportuguese.rice.edu/)

**Opportunities for the BA Degree with a Major in Latin American Studies**

**Academic Honors**
The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (p. 47) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 47). Some departments have department-specific Honors awards or designations.

See [https://humanities.rice.edu/student-life](https://humanities.rice.edu/student-life) for tables of fellowships, prizes, and internships/practica that may be relevant to this major.

**Rebecca Sharp Sanchez**
Administrative Program Director
rksharp@rice.edu

The Graduate Liberal Studies program at Rice University is designed for those who crave intellectual challenge at a world-class university. Two unique paths are available: the acclaimed Master of Liberal Studies (MLS) degree and the post-Masters Diploma in Liberal Studies (DLS).

Exploring liberal arts at a highly integrated level is not always possible in a career-focused undergraduate curriculum. MLS and DLS options are tailored toward working adults, retirees, and other non-traditional university students who wish to broaden their knowledge in fields they may not have studied in their earlier education. Courses are taught by distinguished Rice faculty and invited visiting faculty who maintain the high academic standards of Rice University.
Both paths are designed for those who love to learn new ideas, explore new worlds, and enjoy meeting others who are part of the same expedition. By examining timeless, timely human questions within the humanities, social sciences, and natural sciences, students satisfy their curiosity about the world through art, literature, science, politics, human nature, and history.

These programs are designed for working adults and do not follow the traditional university schedule of fall and spring semesters. Classes meet one evening per week for 10–11 weeks, with one or two Saturday morning classes. Sessions are offered in the fall, winter, and spring.

Fall classes begin in September and end before Thanksgiving; winter classes begin in January and end in late March; spring courses begin in April and end in early June. No classes are held in July or August.

**Master of Liberal Studies (MLS)**

Since its inception in 2005, the Rice Master of Liberal Studies (MLS) program has attracted a wide spectrum of students. Medical doctors, attorneys, homemakers, recent college graduates, retirees, teachers, a range of business professionals, and others have been accepted into the program. Such diversity — in both age and profession — adds a level of broad-mindedness not typically found in the traditional classroom.

The MLS program seeks committed, energetic adult students with bachelor's degrees from an accredited college or university, who have significant life experiences and who are able to communicate effectively.

MLS students must take only one course in his or her first semester, MLSC 600. All courses will require research papers; some may require tests or oral presentations. A thesis is not part of the degree program. The program can be completed in approximately four years if one class is completed every session. Students are allowed to take up to seven years to complete the degree.

**Diploma in Liberal Studies (DLS)**

Rice’s Diploma in Liberal Studies (DLS) program complements and extends the educational goals of the Master of Liberal Studies (MLS) program. The DLS is a graduate-level diploma that is currently unique to Rice University.

Exploring liberal arts at a highly integrated level is not always possible in a career-focused undergraduate curriculum. As with MLS, the DLS program is tailored toward working adults, retirees, and other non-traditional university students who wish to broaden their knowledge in fields they may not have studied in their earlier education. Courses are taught by distinguished Rice faculty and invited visiting faculty who maintain the high academic standards of Rice University.

Designed primarily for those who have completed the MLS degree, the DLS allows these graduates to maximize and enhance their academic investment. However, the program also welcomes non-MLS students on a case-by-case basis that considers academic background and future goals. Well-prepared applicants who are accepted into the program can deepen their interdisciplinary knowledge while honing research and writing skills, laying the foundation to improve critical publications, community service, doctoral studies, or career work.

Liberal Studies does not currently offer an academic program at the undergraduate level.

**Master's Program**

- Master of Liberal Studies (MLS) Degree (p. 452)

**Post-Master's Diploma Program**

- Diploma in Liberal Studies (DLS) (p. 450)

**Description and Code Legend**

*Note: Internally, the university uses the following descriptions, codes, and abbreviations for this academic program. The following is a quick reference:*

- **Course Catalog/Schedule**
  - Course offerings/subject code: MLSC

- **School Description and Code**
  - School of Continuing Studies: SOCS

- **Graduate Degree Description and Code**
  - Master of Liberal Studies degree: MLS
  - Diploma of Liberal Studies: DLS

- **Graduate Degree Program Description and Code**
  - Degree Program in Liberal Studies: LBST

**Diploma in Liberal Studies (DLS)**

**Program Learning Outcomes for the Diploma in Liberal Studies**

Upon completing the Diploma in Liberal Studies, students will be able to:

1. Identify significant interdisciplinary problems or issues and select one that the student can successfully address in a research project.
2. Apply current interdisciplinary research methodologies and techniques, appropriate to the student’s selected disciplines, to a problem.
3. Demonstrate a critical and creative use of primary sources and content appropriate for the research topic.
4. Analyze critically and evaluate one’s own findings and those of others.
5. Communicate effectively ideas, methodologies, analyses, and interpretations of the research topic.
6. Demonstrate an understanding of the current interdisciplinary work in at least two academic disciplines.

**Requirements for the Diploma in Liberal Studies**

For general university requirements, see Diploma Programs (p. 66). Students pursuing the Diploma in Liberal Studies must complete:

- A minimum of 30 credit hours to satisfy the Diploma in Liberal Studies program requirements.
• MLSC 750 Introduction to Diploma Research in their entering term, before taking any other DLS courses with a grade of B (3.0 grade points) or better. Additionally, students may take only 1 course, MLSC 750 Introduction to Diploma Research, in their entering term. Afterwards, students may take up to 2 courses per term.
• Students must maintain a 3.33 (B+) grade point average (GPA) and all courses must be completed with a grade of B- (2.67 grade points) or better to count toward the diploma.
• Continuous enrollment in the program and are expected to complete successfully at least 2 courses an academic year and be enrolled in at least 2 terms of the academic year unless granted an official leave of absence.

Additionally, students must follow the guidelines listed below:

• With respect to the 2 main disciplines chosen by the student for interdisciplinary work in completing the diploma project, a student must complete a minimum of 3 courses in each before taking the 2 diploma project courses. This is a minimum. Additional courses in the 2 chosen disciplines are recommended. A student may petition to have post-baccalaureate courses taken before entering the DLS program considered as a partial satisfaction of this requirement. An undergraduate degree in 1 of the disciplines could similarly serve as the basis of a petition.
• If 1 of the 2 main disciplines chosen by the student for the interdisciplinary work of the diploma project is outside the humanities, then the humanities discipline is the primary, the non-humanities discipline the secondary discipline. In such a case, the student must complete a minimum of 3 courses in the primary discipline before taking the 2 diploma project courses (MLSC 798 and MLSC 799), and a minimum of 2 courses in the secondary discipline. More are recommended. A student can petition to have post-baccalaureate courses taken before entering the DLS program considered as a partial satisfaction of these requirements. An undergraduate degree in 1 of the disciplines could similarly serve as the basis of a petition.
• Diploma students are allowed to take up to 7 years to complete the diploma.
• Students must successfully complete all content coursework before taking the research coursework of MLSC 798 and MLSC 799.
• Students should refer to the Diploma in Liberal Studies Student Handbook for additional information.

</tbody>
</table>

Elective Requirements

Students must complete 7 courses from MLSC course offerings at the 500-level or above. 2

Total Credit Hours 30

Footnotes and Additional Information

1 MLSC 798 and MLSC 799 are taken for a Satisfactory/Unsatisfactory grade and must be completed with a Satisfactory grade, however, these courses do not apply to the requirement of a minimum grade of B- (2.67 grade points) in each required course.

2 Students may choose to take up to 6 credit hours of MLSC 797 Advanced Independent Readings to fulfill the Elective Requirements.

Students in the Diploma in Liberal Studies program will complete 24 hours of content coursework from the Liberal Studies catalog of classes, beginning with MLSC 750 Introduction to Diploma Research. Upon completion of these 24 hours, the student will then take 6 hours of research coursework (MLSC 798 and 799) under the direction of 3 readers, a first, second, and third reader. (The first reader is referred to also as "the advisor").

The diploma project will typically take the form of an interdisciplinary diploma thesis. Alternatively, the student may opt to write 2 interdisciplinary academic papers (starred papers) of publishable length and thesis quality.

The interdisciplinary journal of the Association of Graduate Liberal Studies Programs, Confluence, serves as an example of the academic research level required. Confluence is a peer-reviewed journal, publishing articles that reflect “the best scholarly and creative work produced by faculty, students and alumni of AGLSP member institutions,” all of which programs offer graduate degrees in liberal studies, in some cases doctoral programs.

In order to complete the DLS program, students must defend their diploma thesis or 2 starred papers in a public diploma project defense and satisfactorily answer questions from their research advisor and readers and others in attendance. The 3 readers will then decide, with the first reader/advisor serving as chair of the discussion, whether the student has met all diploma project requirements, including passing the defense, with all 3 signing the appropriate papers if the decision is positive.

Policies for the Diploma in Liberal Studies

Admission

Admission to the Diploma in Liberal Studies program requires a 3.5 GPA in successfully-concluded post graduate degree work from either: 1) the Rice MLS program or 2) a liberal arts or liberal studies graduate degree program at an AGLSP member institution. Other post-graduate degrees may be considered (e.g., MA, MD, JD), but only along with evidence of significant academic work in areas relevant to a student’s proposed interdisciplinary work in the Diploma program – for example, an interdisciplinary undergraduate major with relevance to the work proposed for the DLS program or an undergraduate double major in the two disciplines chose for interdisciplinary work in the DLS. Applications will be accepted for Fall admission only and will be due on the March 15 prior. Completed applications will be forwarded to the Graduate Liberal Studies Faculty Steering Committee for review and admission decision. Admitted students will attend a new student orientation.

For additional information, please see the Graduate Liberal Studies website: http://mls.rice.edu.
Opportunities for the Diploma in Liberal Studies

Association of Graduate Liberal Studies National Honor Society

MLS graduates who earn a 3.75 GPA or higher and have demonstrated leadership in the classroom and in the greater community are eligible for nomination to the Association of Graduate Liberal Studies National Honor Society.

For additional information, please see the Graduate Liberal Studies website: http://mls.rice.edu.

Master of Liberal Studies (MLS) Degree

Program Learning Outcomes for the MLS Degree

Upon completing the MLS degree, students will be able to:

1. Appreciate major perspectives and methods of the liberal arts by demonstrating a broadened understanding of some basic concepts in the humanities, social sciences, and sciences.
2. Appreciate the connection of the liberal arts to their lives and the larger world.
3. Demonstrate a capacity for analytical thinking.
4. Demonstrate good writing skills.
5. Practice critical listening and good discussion and oral communication skills.
6. Demonstrate academic research methods.

Requirements for the MLS Degree

The MLS degree is a non-thesis master’s degree. For general university requirements, see N (p. 49)on-Thesis Master’s Degrees (p. 66). Students pursuing the MLS degree must complete:

- A minimum of 11-12 courses (33-36 credit hours) to satisfy degree requirements.
- A minimum overall GPA of 3.0 in required coursework.

Footnotes and Additional Information

1 All students must take MLSC 600 in their first semester of study.
2 The core requirements are designed to acquaint first-year students with contrasting perspectives and methodological approaches that define academic inquiry in the three broad fields of humanities, social sciences, and natural science. Core courses must be completed before courses that satisfy the electives can be taken.
3 The six (6) electives beyond the core requirements may focus on just 1 “track” (humanities, social sciences, or natural science) or may be chosen more broadly.
4 The capstone coursework is designed to help students integrate their knowledge through writing an extended paper or completing a project to be presented to MLS faculty and students. Students may take 1 semester (MLSC 701) or 2 semesters (MLSC 700 and MLSC 701) to complete the capstone project.

Policies for the MLS Degree

Admission

Admission to graduate study is open to qualified students holding a bachelor's degree (or equivalent) from an accredited university or college. A minimum GPA of 3.0 from the applicant’s undergraduate work is expected, though the admissions committee also gives consideration to applicants’ postgraduate experience and recent accomplishments.

For additional information, please see the Master of Liberal Studies website: http://mls.rice.edu.

Opportunities for the MLS Degree

Association of Graduate Liberal Studies National Honor Society

MLS graduates who earn a 3.75 GPA or higher and have demonstrated leadership in the classroom and in the greater community are eligible for nomination to the Association of Graduate Liberal Studies National Honor Society.

For additional information, please see the Master of Liberal Studies website: http://mls.rice.edu.

Lifetime Physical Activity Program

Historically, Rice University has recognized that becoming physically educated is integral to one’s overall education. Since the university was founded in 1912, the Lifetime Physical Activity Program has worked to create a multi-faceted learning experience that promotes the physical, social, and emotional benefits of physical activity. It is the mission of the Lifetime Physical Activity Program to teach both theoretical and practical components of a variety of exercise/performance activities such that they will bring enjoyment and demonstrate the importance of maintaining health and wellness throughout the course of a lifetime.

Specifically, the goals of the Lifetime Physical Activity Program are:

• To encourage a lifetime of fitness through the teaching of mechanical, physiological, and nutritional principles.
• To teach other pertinent knowledge such as historical and cultural foundations, rules, and strategy.
• To create an environment that fosters a sense of emotional satisfaction, physical accomplishment, and social interaction for its participants.
• To provide students with high-quality instruction specific to the course material so that they may learn skills that will improve the length and quality of their lives.
• To expose Rice University students to activities that are not necessarily mainstream in United States culture.

The Lifetime Physical Activity Program offers a variety of sport/exercise/performance activities. In the 40-plus sections that are offered each semester, many have a multi-sport focus (e.g., volleyball/basketball), allowing students to experience three or four activities during one year. A student may select an LPAP section that meets his/her scheduling needs and that offers activities that satisfy his/her interests. Some of the current activities offered include racquet sports (tennis, racquetball, badminton), fitness activities (aerobics, personal fitness, weight training), aquatic activities, dance (Latin, ballroom, modern, ballet, country western, Middle Eastern, classical Indian), martial arts, team sports (flag football,
basketball, volleyball, soccer, softball), and other activities such as fencing, self-defense for women, golf, yoga, and nutrition.

Undergraduates must successfully complete one LPAP course (1 credit) in order to satisfy the graduation requirement. Students may use up to four LPAP courses (4 credits total) towards the total credits necessary for graduation. LPAP courses are not repeatable for credit.

Lifetime Physical Activity Program classes are strongly recommended for all first-year students, including transfers who have not taken equivalent courses elsewhere. Because LPAP courses are participation based and must be supervised by an instructor, students are required to adhere to a program-wide attendance policy.

For additional information regarding the Lifetime Physical Activity program, see the program's website: [https://recreation.rice.edu/lpap/](https://recreation.rice.edu/lpap/).

The courses that can satisfy the Lifetime Physical Activity Program's undergraduate graduation requirements can be found in Rice's Course Catalog. See the Courses tab for a link to the official course offerings.

The Lifetime Physical Activity Program does not currently offer courses at the graduate level.

Robert Englebretson  
Interim Department Chair
reng@rice.edu

The Rice Linguistics Department is the home of an active community of scholars with a wide range of interests. Broadly defined, the department adopts a functional, usage-based approach to language and linguistic theory. A number of recurrent themes emerge in faculty research and the degree programs offered: in-depth investigation of languages, coupled with the search for cross-linguistic generalization; the effects of semantics, language-in-use, sociocultural factors, and other functional influences that motivate and constrain linguistic form; grounding of theories in solid empirical data of many sorts; an interest in the relation between language and mind; and interest in discourse and social/communicative interaction more generally. These interests lead to intensive research activity in empirically well-supported theoretical and descriptive linguistics:

- cognitive/functional linguistics
- typology and language universals
- field studies in American Indian, Australian, Austronesian, African, and other languages
- sociolinguistics
- discourse studies
- phonetics and speech processing
- laboratory phonology
- language change and grammaticization

**Bachelor's Program**

- Bachelor of Arts (BA) Degree with a Major in Linguistics (p. 455)

**Master's Program**

- Master of Arts (MA) Degree in the field of Linguistics*

**Doctoral Program**

- Doctor of Philosophy (PhD) Degree in the field of Linguistics (p. 457)

* Although students are not normally admitted to a Master of Arts (MA) degree program, graduate students may earn the MA as they work towards the PhD.

**Interim Chair**

Robert Englebretson

### Bachelor of Arts (BA) Degree with a Major in Linguistics

**Program Learning Outcomes for the BA Degree with a Major in Linguistics**

Upon completing the BA degree with a major in Linguistics, students will be able to:

1. Demonstrate the ability to perform independent research about languages and their speakers, including the ability to ethically complete field work, collect data, analyze data, utilize laboratory and computing technologies, draw meaningful conclusions from data, and convey research results effectively orally and in writing.

2. Identify and define the main approaches for researching language structure and use at all levels (sounds, words, grammar, meaning, social/cultural interaction), as well as be able to evaluate critically and apply the primary concepts, vocabularies, methods and theories in their own work.

3. Gain an appreciation of the diversity of language and the ways in which it changes over time. They will be able to analyze the diversity of sounds and grammar in the world’s languages. They will also understand the diversity of regionally, socially, and ethnically-defined varieties within a single language. Students will be able to explain why this diversity is relevant to everyday life and how it is crucial to fields both inside and outside of linguistics.

4. Understand language in its relation to cognition, identity formation, culture, and society, and the systematic relationships among them.

**Requirements for the BA Degree with a Major in Linguistics**

For general university requirements, see Graduation Requirements (p. 25). Students pursuing the BA degree with a major in Linguistics must complete:

- A minimum of 12 courses (36 credit hours) to satisfy major requirements.
- A minimum of 120 credit hours to satisfy degree requirements.
- A minimum of 60 credit hours outside of major requirements.
- A minimum of 9 courses (27 credit hours) at the 300-level or above.

Because human language is a multifaceted object of study, linguistics is, by its nature an interdisciplinary field. The undergraduate major provides both an in-depth grounding in the field as well as a cross-disciplinary breadth. Students beginning the linguistics major should take LING 200, which is a prerequisite for many upper-level courses in the department. All majors are required to take at least 9 courses (27 credit hours) in linguistics at the 300-level or above, including 5 core courses as specified below.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor (or official certifier). Students and their academic advisors should identify and clearly document the courses to be taken.

Total Credit Hours Required for the Major in Linguistics: 36

Additional Credit Hours to Complete BA Degree Requirements: 24

University Graduation Requirements (p. 25): 60

Total Credit Hours: 120

Footnotes and Additional Information

* Includes coursework completed as distribution credit, FWIS, LPAP, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The "hours outside of the major" requirement may include all of the above university requirements.

1 In addition to the required prerequisite, core requirements, and elective requirements, competency in one language other than English is required. This requirement may be satisfied by taking 2 courses in a European Language at the 200-level or above (or equivalent) or by taking 2 courses in a Non-European Language at the 100-level or above.

European Languages:
- French (FREN)
- German (GERM)
- Greek (GREE)
- Italian (ITAL)
- Latin (LATI)
- Portuguese (PORT)
- Russian (RUSS)
- Spanish (SPAN)

Non-European Languages:
- Arabic (ARAB)
- Chinese (CHIN)
- Hebrew (HEBR)
- Hindi (HIND)
- Japanese (JAPA)
- Korean (KORE)
- Tibetan (TIBT)

2 The linguistics major requires, in addition to 5 core courses, at least 4 advanced linguistics electives at the 300-level or above. In addition to the LING 499 Research Seminar, one additional Research Seminar can be selected as an elective. No more than 1 independent study course (such as LING 480) may be counted toward the major requirements.

Departmental Transfer Credit Guidelines

Students pursuing the major in Linguistics should be aware of the following departmental transfer credit guidelines:

- Requests for transfer credit will be considered by the program director and/or the program's official transfer credit advisor on an individual case-by-case basis.

For additional information, please see the Linguistics website: https://linguistics.rice.edu/

Opportunities for the BA Degree with a Major in Linguistics

Academic Honors

The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 47) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 47). Some departments have department-specific Honors awards or designations.

Departmental Honors Program in Linguistics

The Linguistics Honors Program provides selected undergraduate majors with the opportunity to conduct supervised research. Majors planning to pursue graduate training in Linguistics or a related field are strongly encouraged to apply, as well as others who wish to add the experience of an intensive, individualized research project to their undergraduate education.

Application to the Honors Program should be made in person to the undergraduate major advisor before the end of the student's junior year. In support of the application, the student should prepare a brief description of the proposed project signed by the faculty member who is to supervise the work (the project supervisor). Acceptance into the program is by agreement of the linguistics faculty. On acceptance, the student will enroll in LING 482, with the supervising faculty member named as instructor.

The Honors Program framework is designed to facilitate the development of a mentoring relationship between student and faculty member. Students are thus expected to meet regularly with their project supervisor regarding their progress; the supervisor is responsible for providing research guidance and general support.

With the appropriate completion of major requirements and the honors project or thesis, the student will graduate with departmental honors.

Departmental Guidelines for Distinction in Research and Creative Work

To earn the Distinction in Research and Creative Work, in Linguistics, students must have done one of the following:

- Written a senior honors thesis in the department that is based on original research and/or scholarship, and is judged to be exceptional; or
- Written a sole-authored scholarly paper that was (or will be) presented at a scholarly conference; or
- Made a significant individual contribution to linguistic research, including research that has been published or presented in a public venue, and highlights the contributions that linguistics can make to other academic, scientific, community, or societal spheres.

Policies for the BA Degree with a Major in Linguistics

Transfer Credit

For Rice University's policy regarding transfer credit, see Transfer Credit (p. 32). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of transfer credit advisors on their website: http://oaa.rice.edu. Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.
By the end of the 14th week of the Spring semester, students applying should submit electronically to Rita Riley (department administrator) at rriley@rice.edu a portfolio consisting of:

1. A two-page description of how their research effort meets the requirements of Distinction. This two-page document should also place the student’s original contribution in broader scholarly linguistics research.
2. If a paper or thesis has been written to qualify, students should also submit the paper.
3. An application form including the endorsement of a faculty member available from the department office.

The application should have the subject: Distinction in Research and Creative Work in Linguistics, should be submitted by the end of the 14th week of the Spring semester, and should be complete (all forms, copies, and documents should be submitted electronically).

For additional information, please see the Linguistics website: https://linguistics.rice.edu/

**Doctor of Philosophy (PhD) Degree in the field of Linguistics**

**Program Learning Outcomes for the PhD Degree in the field of Linguistics**

Upon completion of the PhD degree in the field of Linguistics, students will be able to:

**Requirements for the MA and PhD Degrees in the field of Linguistics**

The Linguistics Department is not accepting new students into the graduate program for Fall 2017.

For graduation requirements, see Graduate Degrees (p. 49). The doctoral linguistics program at Rice emphasizes the study of language use and functional/cognitive approaches to linguistic theory. Rice faculty engage in a broad range of research specializations, all of which play an important role for in-depth graduate training. These interrelated areas include cognitive linguistics, language change, sociolinguistics, discourse analysis, language documentation and description, phonetics, laboratory phonology, and typology. Other faculty research interests include phonological theory, acoustic phonetics, speech sciences and technology, syntax, language revitalization, neurolinguistics, and forensic linguistics. The program only admits students planning to study for the PhD degree full-time. Undergraduate preparation ideally should include language study and coursework in linguistics or disciplines related to linguistics, such as anthropology, applied linguistics, speech and hearing sciences, psychology, sociology, or studies of particular languages, although an advanced degree is not required. Students will earn a master’s degree upon advancement to candidacy. Students admitted to the program are generally offered financial support in the form of tuition scholarships and/or stipends for living expenses.

During the first year of residence, each entering student works closely with the graduate advisor to choose a plan of study congruent with the demands of the program and the student’s interests. Emphasis throughout the program is on a close working relationship with faculty.

Students should select areas of specialization that fit well with faculty research interests and activities.

Students will, in general, take five years to progress through the degree program. With no prior linguistics background, course work in the first three years will include:

- one problem-solving course in linguistic analysis (LING 500) to be taken in the first year of study
- two courses in the area of phonetics/phonology (LING 501 and LING 511)
- two courses in the area of syntactic/semantic analysis (LING 504 and LING 515)
- the two-course sequence in field methods (LING 407 and LING 408) to be taken normally in the second year of study
- two seminars in the department usually to be taken in the second and/or third year of study
- five additional elective courses, including two courses in other subfields of linguistics

Prior preparation in linguistics will be assessed with regard to its equivalence to particular Rice courses. Graduate students are required to register for at least 12 credit hours per semester before advancing to candidacy. The department requires a minimum semester GPA of 3.0 to avoid probationary status. Students are expected to serve as teaching assistants for one course per year for four of the five years during the time they are receiving departmental support, and this service is included in the normal course load.

Before advancing to candidacy, students must prepare two in-depth research papers. Each paper must represent a different area in the field of linguistics (as determined by the linguistics faculty); a separate committee of two members of the faculty reads and referees each paper. The committees are chosen by the student and approved by the student's faculty mentor. The first publishable paper must be approved no later than the end of the fifth semester. Students who fail to meet this deadline will be dismissed from the program. The second publishable paper must be approved by the beginning of the eighth semester. In addition, one of the papers must be presented in the departmental colloquium, and it is expected that students submit their work for presentation at relevant professional meetings and publish their work in venues such as conference proceedings and/or journals when possible.

Finally, students must fulfill the departmental language requirement of competency in at least one language other than English. See the department web page and Linguistics Graduate Student Handbook for specific details.

In the course of the first three years in the program, the student should work toward establishing a close working relationship with various members of the faculty such that multiple faculty members are familiar with the student’s work. During the first year, the graduate advisor serves as the student’s advisor, but after the first year, the student selects a faculty mentor to provide more personalized advising in addition to the general advice of the graduate advisor. After the student’s second paper is accepted, a dissertation advisor is selected and a doctoral committee is formed, by mutual agreement of the student and the anticipated committee members. During the fourth year, students present to their committee members a third research paper, called the dissertation prospectus, consisting of a substantial dissertation proposal and a comprehensive bibliography. It may be based on a grant proposal to an external funding agency, particularly in the case of proposed fieldwork.
Upon completion of the prospectus, students will submit to an oral qualifying exam to be administered by the dissertation committee. The exam will consist of two parts, a general exam demonstrating the student’s knowledge of the field and a dissertation prospectus hearing. Upon completion of this qualifying examination, the student will advance to candidacy.

Following advancement to candidacy, the student works full time toward the completion of the dissertation. The student is expected to consult regularly with the committee members during the data collection and writing process. Upon completion of a complete and acceptable draft of the dissertation, the student will then, in consultation with all members of the dissertation committee, schedule a public defense of the work. When the final version of the dissertation is accepted by the doctoral committee and filed with the university, and all other requirements are certified as fulfilled, the degree is then granted.

For more in-depth information about the linguistics graduate program requirements, consult the official Linguistics Graduate Student Handbook and the departmental web page at linguistics.rice.edu.

MA Degree Program

The MA degree is a non-thesis masters degree. For general university requirements for non-thesis masters degrees, please see Graduate Degrees (p. 49). Although students are not normally admitted to study for an MA, graduate students may earn the MA after obtaining approval of their candidacy for the PhD. After all the requirements necessary to advance to candidacy have been met, the student may apply for a candidacy master’s degree.

Managerial Studies

Contact Information

Managerial Studies
http://mana.rice.edu/
120 Herzstein Hall

Managerial Studies is an interdepartmental, nonprofessional program designed to provide undergraduates with an understanding of the environment in which businesses and other organizations exist today and of some of the tools employed by management in the commitment of its financial and human resources.

All students pursuing the managerial studies major must also complete at least one of the established departmental or interdepartmental majors, other than an area major. The managerial studies major is not the equivalent of an undergraduate business major at other universities.

Bachelor's Program

• Bachelor of Arts (BA) Degree with a Major in Managerial Studies (p. 458)

Managerial Studies does not currently offer an academic program at the graduate level.

Program Director

Richard J. Stoll

Description and Code Legend

Note: Internally, the university uses the following descriptions, codes, and abbreviations for this academic program. The following is a quick reference:

Course Catalog/Schedule

Undergraduate Major Description and Code

• Major in Managerial Studies: MANA

Bachelor of Arts (BA) Degree with a Major in Managerial Studies

Program Learning Outcomes for the BA Degree with a Major in Managerial Studies

Upon completing the BA degree with a major in Managerial Studies, students will be able to:

1. Demonstrate knowledge of how private economic practices, responsibilities, rights, and rewards are related to public policy, regulating institutions, and politics (including local, state, and federal regulation, international policy, and the like) and will be able to evaluate critically the impact of policy, institutions, and politics on business practices.
2. Demonstrate an understanding of economic practices internal to conducting business, including financial reporting and accounting, while also demonstrating an understanding of economic practices external to business, including private investing in company stocks, bonds, and options.

3. Define and critically apply interdisciplinary methodologies and theories (including those from psychology and economics) to problems in Managerial Studies, as well as demonstrate the ability to evaluate different forms of evidence.

4. Demonstrate sufficient proficiency in algebra, statistics and other pertinent mathematics to develop and verify economic hypotheses as well as to evaluate computationally business problems or proposals.

5. Demonstrate an understanding of the underlying principles that govern the way the profession accounts for and communicates business transactions.

Requirements for the BA Degree with a Major in Managerial Studies

For general university requirements, see Graduation Requirements (p. 25). Students pursuing the BA degree with a major in Managerial Studies must complete:

- A minimum of 10 courses (30-32 credit hours) to satisfy major requirements.
- A minimum of 120 credit hours to satisfy degree requirements.
- A minimum of 5 credit hours taken at the 300-level or above.
- The requirements for a second departmental or interdepartmental major.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor (or official certifier). Students and their academic advisors should identify and clearly document the courses to be taken.

Total Credit Hours Required for the Major in Managerial Studies | 30-32 |

Additional Credit Hours to Complete BA Degree Requirements | 28-30 |

University Graduation Requirements (p. 25) * | 60 |

Total Credit Hours | 120 |

Footnotes and Additional Information

* Includes coursework completed as distribution credit, FWIS, LPAP, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The "hours outside of the major" requirement may include all of the above university requirements.
Policies for the BA Degree with a Major in Managerial Studies

Program Restrictions and Exclusions
Students pursuing the major in Managerial Studies should be aware of the following program restriction:

• Students pursuing the major in Managerial Studies must complete the requirements of a second departmental or interdepartmental major.

Transfer Credit
For Rice University's policy regarding transfer credit, see Transfer Credit (p. 32). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of transfer credit advisors on their website: http://oaa.rice.edu. Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

Program Transfer Credit Guidelines
Students pursuing the major in Managerial Studies should be aware of the following program-specific transfer credit guidelines:

• Requests for transfer credit will be considered by the program director (and/or the program's official transfer credit advisor) on an individual case-by-case basis.

• For transfer credit requests for subjects outside of the program's subject code (i.e. ECON courses required for the major in Managerial Studies), students seeking transfer credit should contact the appropriate department for approval, and not the Director of Managerial Studies.

For additional information, please see the Managerial Studies website: http://mana.rice.edu/

Opportunities for the BA Degree with a Major in Managerial Studies

Academic Honors
The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 47) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 47). Some departments have department-specific Honors awards or designations.

Departmental Honors Program
To apply for admission to the honors program, students must have completed 8 courses from the Managerial Studies curriculum and have a B+ (3.33) average in those courses. All applications must be approved by the director of Managerial Studies. The Honors Program consists of taking two additional courses from the following:

<table>
<thead>
<tr>

<td>INDEPENDENT STUDY</td>
<td>3</td>
</tr>
</tbody>
</table>

MANA 498 is offered in collaboration with faculty in the Jesse H. Jones Graduate School of Business. Admission to these courses must be approved by a participating faculty member. A list of participating faculty and their research interests is available from the director of Managerial Studies. For more information, students should consult the program director in 120 Herzstein Hall.

For additional information, please see the Managerial Studies website: http://mana.rice.edu/

Pulickel Ajayan
Department Chair
ajayan@rice.edu

Materials engineering is concerned with the processing, structure, properties, and performance of diverse materials which include metals and their alloys, semiconductors, ceramics, glass, polymers, composites, and nanomaterials. The materials engineer applies principles of math, physics and chemistry to design, produce, characterize, and utilize materials essential to modern society. Examples range in size and properties from the nanometer-thick atomic layers which form transistors on integrated circuit chips to the single-crystal superalloy blades used in turbine engines to the metallic alloys used in transcontinental pipelines and power lines. The Materials Science and NanoEngineering curriculum provides students with the requisite skills and educational background to contribute to the solution of many materials and nanotechnology problems, allow graduates to work in a fascinating field, and make it possible to become a leader in one of the most challenging areas of technology.

The department's graduate degree programs include a non-thesis professional master's degree as well as research degrees which include a thesis. These programs, in their comprehensive educational and research activities, collaborate with other departments at Rice and other institutions and industry in Houston, including those in the Texas Medical Center. Collaborations are also extended to universities in the United States, Europe, Asia, North and South America. International collaborations include joint research activities as well as faculty and student visitor exchanges.

Graduate studies in the department may lead to specialization in one of several areas, including Advanced Manufacturing, Biomaterials, Carbon Nanomaterial Composites, Computational Materials Science, Material Modeling and Theories, Electron Microscopy and in situ Methods, Electronic Materials, Energy Conversion and Storage, Low Dimensional Materials, Mechanical Properties and Nanomechanics, Metallurgy & Metals Processing, Nanotechnology, Optical Materials, Photonics and Nanoplasmonics, Surfaces and Interfaces, Coatings and Thin Films, and
Ultralight-Weight Ultrahigh-Strength Multifunctional Materials. For details about these faculty research areas, please go to the MSNE website (http://www.msne.rice.edu).

**Bachelor's Programs**

Bachelor of Arts (BA) Degree with a Major in Materials Science and NanoEngineering

Program Learning Outcomes for the BA Degree with a Major in Materials Science and Nanoengineering

Upon completing the BA degree with a major in Materials Science and Nanoengineering, students will demonstrate:

1. An ability to apply knowledge of mathematics, science, and engineering.
2. An ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability.
3. An ability to identify, formulate, and solve engineering problems.
4. An ability to communicate effectively.
5. A knowledge of contemporary issues.
6. An ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.

Requirements for the BA Degree with a Major in Materials Science and NanoEngineering

For general university requirements, see Graduation Requirements (p. 25). Students pursuing the BA degree with a major in Materials Science and NanoEngineering must complete:

- A minimum of 20 or 22 courses (57 credit hours) to satisfy major requirements.
- A minimum of 120 credit hours to satisfy degree requirements.
- A minimum of 60 credit hours outside of major requirements.
- A minimum of 9 courses (26 credit hours) taken at the 300-level or above.

The BA program in Materials Science and NanoEngineering is highly flexible, involves less technical content than the BS, and allows students greater freedom to pursue areas of interest outside of engineering.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor (or official certifier). Students and their academic advisors should identify and clearly document the courses to be taken.

Footnotes and Additional Information
* Includes coursework completed as distribution credit, FWIS, LPAR upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The "hours outside of the major" requirement may include all of the above university requirements.

Policies for the BA Degree with a Major in Materials Science and Nanoengineering
Transfer Credit
For Rice University's policy regarding transfer credit, see Transfer Credit (p. 32). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of transfer credit advisors on their website: http://oaa.rice.edu. Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines
Students pursuing the major in Materials Science and Nanoengineering should be aware of the following departmental transfer credit guidelines:

• Requests for transfer credit will be considered by the program director (and/or the program's official transfer credit advisor) on an individual case-by-case basis.

For additional information, please see the Materials Science and Nanoengineering department's website: https://msne.rice.edu/

Opportunities for the BA Degree with a Major in Materials Science and Nanoengineering
Academic Honors
The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 47) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 47). Some departments have department-specific Honors awards or designations.

Research Opportunities
Many MSNE majors participate in undergraduate research; some even start during their freshman year. To get involved, speak to a MSNE undergraduate advisor or directly to a MSNE faculty member.

Fifth-Year MMSNE Degree Option for Rice Undergraduate Students
Rice undergraduate students have the option to earn the MMSNE degree by adding an additional year after completing their bachelor's degree. Advanced Rice undergraduate students in good academic standing may apply to the graduate program during their junior or senior year. Upon acceptance, depending on course load, financial aid status, and other variables, they may complete part of the course requirements for the MMSNE program during their senior year. A plan of study based on their particular focus area will need to be approved by the program director and the MMSNE advisor. Students who have taken MSNE 401, MSNE 402, MSNE 406, MSNE 409 and/or MSNE 435 may request to waive the core course requirements on MSNE 503, MSNE 502, MSNE 506, MSNE 509 and/or MSNE 535, respectively, and replace them with other courses upon the approval of the MMSNE advisor.

As part of this option and opportunity, Rice undergraduate students:
• must complete the requirements for their bachelor's degree and the MMSNE degree independently of each other (i.e., no course may be counted toward the fulfillment of both degrees).
• should be aware of the financial aid implications, if the conversion of undergraduate coursework to that of graduate level reduces their earned undergraduate credit for any semester below that of full-time (12 credit hours) status.

For additional information, please see the Materials Science and Nanoengineering department's website: https://msne.rice.edu/

Bachelor of Science in Materials Science and NanoEngineering (BSMSNE) Degree
Program Learning Outcomes (Student Outcomes) for the BSMSNE Degree
Upon completing the BSMSNE degree, students will demonstrate:

1. An ability to apply knowledge of mathematics, science, and engineering.
2. An ability to design and conduct experiments, as well as to analyze and interpret data.
3. An ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability.
4. An ability to function on multidisciplinary teams.
5. An ability to identify, formulate, and solve engineering problems.
6. An understanding of professional and ethical responsibility.
7. An ability to communicate effectively.
8. The broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context.
9. A recognition of the need for, and an ability to engage in life-long learning.
10. A knowledge of contemporary issues.
11. An ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.

Program Educational Objectives for the BSMSNE Degree
The Bachelor of Science in Materials Science and NanoEngineering (BSMSNE) degree prepares graduates to succeed in professional careers by equipping them with the expertise sought by top graduate schools and corporations. Recognizing that graduates may embark on diverse educational and career paths, the Program Educational Objectives (PEO) that graduates will achieve within a few years of obtaining their Bachelor of Science in Materials Science and NanoEngineering (BSMSNE) degree from Rice University are:
1. Graduates will demonstrate technical proficiency and professional achievement in their work which may include scientific inquiry as well as problem-solving, process optimization, and/or design in materials engineering and related fields.

2. Graduates will be accomplished at communicating and working collaboratively in diverse work environments.

3. Graduates seeking post-baccalaureate education will achieve appropriate levels of success in admission to and progression through those programs. Graduates entering professional careers will achieve appropriate career progression and success.

Requirements for the BSMSNE Degree

For general university requirements, see Graduation Requirements (p. 25).

Students pursuing the BSMSNE degree must complete:

- A minimum of 30 or 34 courses (90-94 credit hours) depending on course selection to satisfy major requirements.
- A minimum of 130-134 credit hours depending on course selection to satisfy major requirements.
- A minimum of 15 courses (38 credit hours) taken at the 300-level or above.

Students seeking the BSMSNE must complete at least 90 semester hours in general math and science, core, and specialization elective courses within the total requirements of 130 hours.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major's academic advisor (or official certifier). Students and their academic advisors should identify and clearly document the courses to be taken.

Policies for the BSMSNE Degree

Transfer Credit
For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 32). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: http://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines
Students pursuing the BSMSNE degree should be aware of the following departmental transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

For additional information, please see the Materials Science and NanoEngineering website: https://msne.rice.edu/

Opportunities for the BSMSNE Degree

Academic Honors
The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (p. 47) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 47). Some departments have department-specific Honors awards or designations.

Research Opportunities
Many MSNE majors participate in undergraduate research; some even start during their freshman year. To get involved, speak to a MSNE undergraduate advisor or directly to a MSNE faculty member.

Fifth-Year MMSNE Option for Rice Undergraduate Students
Rice undergraduate students have the option to earn the MMSNE degree by adding an additional year after completing their bachelor’s degree. Advanced Rice undergraduate students in good academic standing may apply to the graduate program during their junior or senior year. Upon acceptance, depending on course load, financial aid status, and other variables, they may complete part of the course requirements for the MMSNE program during their senior year. A plan of study based on their particular focus area will need to be approved by the program director and the MMSNE advisor. Students who have taken MSNE 401, MSNE 402, MSNE 406, MSNE 409 and/or MSNE 435 may request to waive the core course requirements on MSNE 503, MSNE 502, MSNE 506, MSNE 509 and/or MSNE 535, respectively, and replace them with other courses upon the approval of the MMSNE advisor.

As part of this option and opportunity, Rice undergraduate students:

- must complete the requirements for their bachelor’s degree and the MMSNE degree independently of each other (i.e., no course may be counted toward the fulfillment of both degrees).
- should be aware of the financial aid implications, if the conversion of undergraduate coursework to that of graduate level reduces their earned undergraduate credit for any semester below that of full-time (12 credit hours) status.

For additional information, please see the Materials Science and NanoEngineering website: https://msne.rice.edu/

Doctor of Philosophy (PhD) Degree in the field of Materials Science and NanoEngineering

Program Learning Outcomes for the PhD Degree in the field of Materials Science and NanoEngineering
Upon completing the PhD degree in the field of Materials Science and NanoEngineering, students will be able to:

1. Demonstrate an advanced command of Materials Science and NanoEngineering field work.
2. Conduct independent research that demonstrates advanced mastery of a subfield within Materials Science or NanoEngineering.
3. Communicate scientific ideas effectively in writing and when speaking.

Requirements for the PhD Degree in the field of Materials Science and NanoEngineering
Full-time students seeking the PhD degree are expected to complete all the requirements for the degree within five calendar years following entrance into the program. Continuation in the program beyond this time limit will require special approval of the department.

For general university requirements, please see Doctoral Degrees (p. 64). Students pursuing the PhD degree program in Materials Science and NanoEngineering must complete:

- A minimum of 90 credit hours advanced relevant study, of which at least 18 credit hours must be completed through coursework.
- The programs leading to the MS and PhD degrees are open to students who have demonstrated outstanding performance in their undergraduate studies. The granting of a graduate research degree presupposes academic work of superior quality and a demonstrated ability to do original research.

For general university requirements, see Graduate Degrees (p. 49). Course requirements for the research degrees vary depending on the extent of individual undergraduate preparation as well as each student’s performance in graduate courses and on qualifying examinations. For both the MS and PhD degrees, students must present a thesis that
comprises an original contribution to knowledge and defend it in a public oral examination.

Students are expected to earn letter grades of at least B- (2.67 grade points) in all courses taken, and maintain a minimum overall GPA of 3.0 to graduate. If a student’s GPA is below 3.0, the student will be placed on departmental probation. The student may be dismissed from the program if his/her GPA falls below 3.0 for two semesters. Final decision will be made by the Graduate Committee in consultation with the Department Chair.

Each graduate student is expected to render research and/or instructional assistance to the department not to exceed 10 hours per week. Graduate student work assignments will be made by the advisor at the beginning of each semester.

All PhD students must attend at least 75% of the MSNE seminars per semester. For details, please see the degree requirements on the MSNE website (http://msne.rice.edu/Content.aspx?id=2147483743).

Footnotes and Additional Information

1. Students may complete courses that satisfy the Electives requirement from other departmental course offerings upon approval from their advisors or one member of the Departmental Graduate Committee.
2. Credit received for MSNE 500, MSNE 501, and MSNE 800 will not be counted toward coursework, but will count toward the total credit hours required for the degree.
3. Students must attend at least 10 of the 13 MSNE 500 seminars per semester for the duration of their study.
4. Students must attend at least 9 of the 13 MSNE 501 seminars per semester for the duration of their study.
5. Students must register for a minimum of 9 credit hours per semester and must be required to receive an “S” grade. “U” grades are discussed further in the MSNE Graduate Student Handbook in the section Grades.

Graduate students pursuing a thesis degree program will be subject to a preliminary evaluation of their candidacy for the highest degree program they intend to pursue. The evaluation will be conducted by the end of the second semester of enrollment in the graduate program in the MSNE department.

By the end of the sixth semester of enrollment in the graduate program in the MSNE department, the student must pass an oral qualifying examination.

Each candidate for the PhD degree must complete a thesis that constitutes an original contribution to scientific knowledge (analytical or experimental). It is expected that the research will be of sufficient importance and quality that positive results would lead to publication. On completion of the thesis, each candidate for the PhD degree must pass a final public oral examination. The examination will be conducted by a committee consisting of at least three members. Two, including the advisor, must be MSNE faculty members, and one must be a faculty member from another department.

Candidates for the PhD degree program in Materials Science and NanoEngineering are required to provide teaching assistance to the department as a teaching assistant or grader for at least 4 semesters, but no more than 6 semesters.

For additional details and information, please see the degree requirements on the MSNE website (http://msne.rice.edu/Content.aspx?id=64).

Policies for the PhD Degree in the field of Materials Science and NanoEngineering

Department of Materials Science and NanoEngineering Graduate Program Handbook

For more detailed information regarding the PhD degree program policies, please see Materials Science and NanoEngineering department's Graduate Handbook, which can be found here: http://gradhandbooks.rice.edu/2017_18/Material_Science_Nano_Engineering_Graduate_Handbook.pdf

For additional information, please see the Materials Science and Nanoengineering website: https://msne.rice.edu/

Opportunities for the PhD Degree in the field of Materials Science and NanoEngineering

For additional information, please see the Materials Science and Nanoengineering website: https://msne.rice.edu/
Master of Business Administration (MBA) Degree / Master of Materials Science and NanoEngineering (MMSNE) Degree

Program Learning Outcomes for the MMSNE Degree

Upon completing the MMSNE degree, students will be able to:

1. Acquire broad, advanced knowledge within either Materials Science or NanoEngineering, which is also in-depth in one major sub-discipline of the field.
2. Conduct research at an advanced level in at least one area of Materials Science and Nanoengineering.
3. Communicate scientific ideas effectively in writing and when speaking.
4. Demonstrate the ability to gain admission to a graduate or professional program, if interested in pursuing further education.
5. Demonstrate the ability to gain employment or advancement in a technical field related to Materials Science and NanoEngineering, if pursuing non-academic careers.

Program Learning Outcomes for the MBA Degree Programs

Upon completing the MBA degree programs, students will be able to:

1. Demonstrate an understanding and application of the foundational frameworks and tools of all business disciplines, including accounting, finance, marketing, organizational behavior, and strategic management.
2. Develop, evaluate, and implement complex business strategies and operational solutions holistically, integrating management principles across the functional areas.
3. Function effectively in a team setting both as a leader and a contributor.

Requirements for the MBA/MMSNE Coordinated Degree Program

Students may earn this non-thesis Master of Engineering degree in the following fields:

- Bioengineering
- Chemical Engineering
- Civil and Environmental Engineering
- Computational and Applied Mathematics
- Computational Science and Engineering
- Computer Science
- Electrical Engineering
- Materials Science and Nanoengineering
- Mechanical Engineering
- Statistics

Coordinated degree candidates can fulfill requirements for both degrees in 2 academic years.

For the coordinated MBA/Master of Engineering degree, students must complete:

- A minimum of 2 academic years in residence at Rice
- A minimum of 69 semester hours in approved coursework, including:
  - A minimum of 24 credit hours in an engineering discipline
  - A minimum of 45 credit hours in business
- At minimum of 6 credit hours of the 45 credit hours in business must also meet the requirements towards the Master of Engineering degree and will be counted towards both degrees.

Students plan their course schedules in consultation with the engineering department in which they are enrolled and with the Jones Graduate School of Business Registrar Department.

Policies for the MBA/MMSNE Coordinated Degree Program

For additional information on these two degrees:

1. Please see the Business website: https://business.rice.edu/
2. Please see the Materials Science and Nanoengineering website: https://msne.rice.edu/

Opportunities for the MBA/MMSNE Coordinated Degree Program

For additional information on these two degrees:

1. Please see the Business website: https://business.rice.edu/
2. Please see the Materials Science and Nanoengineering website: https://msne.rice.edu/

Master of Materials Science and NanoEngineering (MMSNE) Degree

Program Learning Outcomes for the MMSNE Degree

Upon completing the MMSNE degree, students will be able to:

1. Acquire broad, advanced knowledge within either Materials Science or NanoEngineering, which is also in-depth in one major sub-discipline of the field.
2. Conduct research at an advanced level in at least one area of Materials Science and Nanoengineering.
3. Communicate scientific ideas effectively in writing and when speaking.
4. Demonstrate the ability to gain admission to a graduate or professional program, if interested in pursuing further education.
5. Demonstrate the ability to gain employment or advancement in a technical field related to Materials Science and NanoEngineering, if pursuing non-academic careers.

Requirements for the MMSNE Degree in Materials Science and NanoEngineering

The MMSNE degree is a non-thesis master’s degree. For general university requirements, please see Non-Thesis Master’s Degrees (p. 66). Students pursuing the MMSNE degree must complete:
The MMSNE degree program is open to students who have shown academic excellence in their undergraduate studies. This non-thesis degree option is designed for engineers who have attained a bachelor’s degree and are looking to further their careers in industry. They combine engineering coursework with professional development and communications. A list of required and suggested courses are available on the MSNE website (https://msne.rice.edu). Students should develop a specific plan of study based on their particular interests and discussions with their advisor.

Footnotes and Additional Information

1 Advisor approval is not required for students completing 1 technical elective (3 credit hours) outside of MSNE course offerings. MSNE 500 and MSNE 501 are not considered technical electives.

2 MSNE 502, MSNE 503, MSNE 505, MSNE 506, MSNE 509, and/or MSNE 535 that are not used towards satisfying the core requirements can be taken as Technical Electives.

3 Students must work with their advisor to select their research project. Students may also complete MSNE 622 to fulfill the Research Project requirement, however, MSNE 621 is required.

4 Students should work with their advisor to receive approval for courses according to their interests and field of study.

Policies for the MMSNE Degree

Department of Materials Science and NanoEngineering Graduate Program Handbook

For more detailed information regarding the MMSNE degree program policies, please see Materials Science and NanoEngineering department’s Graduate Handbook, which can be found here: http://gradhandbooks.rice.edu/2017_18/Material_Science_Nano_Engineering_Graduate_Handbook.pdf.

Transfer Credit

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 66). Some departments and programs have additional restrictions on transfer credit. Students are encouraged to meet with their academic program’s advisor when considering transfer credit possibilities.

For additional information, please see the Materials Science and Nanoengineering website: https://msne.rice.edu/

Opportunities for the MMSNE Degree

For additional information, please see the Materials Science and Nanoengineering website: https://msne.rice.edu/
Master of Science (MS) Degree in the field of Materials Science and NanoEngineering

Program Learning Outcomes for the MS Degree in the field of Materials Science and NanoEngineering

Upon completing the MS degree in the field of Materials Science and NanoEngineering, students will be able to:

1. Demonstrate an advanced command of Materials Science and NanoEngineering field work.
2. Conduct independent research that demonstrates advanced mastery of a subfield within Materials Science or NanoEngineering.
3. Communicate scientific ideas effectively in writing and when speaking.

Requirements for the MS Degree in the field of Materials Science and NanoEngineering

The MS degree is a thesis master’s degree. For general university requirements, please see Thesis Master’s Degrees (p. 67). Students pursuing the MS degree program in Materials Science and NanoEngineering must complete:

- A minimum of 30 credit hours of study, of which at least 18 credit hours must be completed through coursework.

Full-time students seeking the MS degree are expected to complete all the requirements for the degree within 2 calendar years into the program. Continuation in the program beyond this time limit will require special approval of the department.

The programs leading to the MS and PhD degrees are open to students who have demonstrated outstanding performance in their undergraduate studies. The granting of a graduate research degree presupposes academic work of superior quality and a demonstrated ability to do original research.

For general university requirements, see Graduate Degrees (p. 49). Course requirements for the research degrees vary depending on the extent of individual undergraduate preparation as well as each student’s performance in graduate courses and on qualifying examinations. For both the MS and PhD degrees, students must present a thesis that comprises an original contribution to knowledge and defend it in a public oral examination.

Students are expected to earn letter grades of at least B- in all courses taken, and maintain a minimum GPA of 3.0 to graduate. If a student’s GPA is below 3.0, the student will be placed on departmental probation. The student may be dismissed from the program if his/her GPA falls below 3.0 for two semesters. Final decision will be made by the Graduate Committee in consultation with the Department Chair.

Each graduate student is expected to render research and/or instructional assistance to the department not to exceed 10 hours per week. Graduate student work assignments will be made by the advisor at the beginning of each semester.

All PhD students must attend at least 75% of the MSNE seminars per semester, and MS students must attend at least 50% of the MSNE seminars per semester. For details, please see the degree requirements on the MSNE website (http://msne.rice.edu/Content.aspx?id=2147483743).

Graduate students pursuing a thesis degree program will be subject to a preliminary evaluation of their candidacy for the highest degree program they intend to pursue. The evaluation will be conducted by the end of the second semester of enrollment in the graduate program in the MSNE department.

Each candidate for the MS degree must complete a thesis demonstrating ability in research of a fundamental nature (analytical or experimental). It is expected that the research will be of sufficient importance and quality that positive results would lead to publication. Upon completion of the thesis, each candidate for the MS degree must pass a final public oral examination. The examination will be conducted by a committee consisting of at least three members. Two, including the advisor, must be MSNE faculty members, and one must be a faculty member from another department.

Candidates for the MS degree are required to provide teaching assistance to the department as a teaching assistant or grader for at least 2 semesters, but no more than 3 semesters.

For details, please see the degree requirements on the MSNE website (http://msne.rice.edu/Content.aspx?id=2147483743).

Mike Wolf
Department Chair
mwolf@rice.edu

Mathematics lies at the foundation of many disciplines in the sciences, engineering fields, and the social sciences, and this influence is growing as these subjects become increasingly quantitative. Recognizing this important role in the wide variety of directions available to our degree recipients, the program in mathematics provides undergraduates with a spectrum of choices. These range from nontheoretical treatments of calculus and courses in combinatorics, elementary number theory, and projective geometry to a broad variety of sophisticated mathematics, including real and complex analysis, differential geometry, abstract algebra, algebraic and geometric topology, algebraic geometry, dynamics, and partial differential equations.

Faculty research interests range from differential geometry, ergodic theory, group representations, partial differential equations, and probability to real analysis, mathematical physics, complex variables, algebraic geometry, number theory, combinatorics, geometric topology, algebraic topology, and dynamics.

Bachelor's Programs

- Bachelor of Arts (BA) Degree with a Major in Mathematics (p. 472)
- Bachelor of Science (BS) Degree with a Major in Mathematics (p. 473)

Minor

- Minor in Mathematics (p. 476)

Master's Program

- Master of Arts (MA) Degree in the field of Mathematics*

Doctoral Program

- Doctor of Philosophy (PhD) Degree in the field of Mathematics (p. 475)
  * Although students are not normally admitted to a Master of Arts (MA) degree program, graduate students may earn the MA as they work towards the PhD.

Bachelor of Arts (BA) Degree with a Major in Mathematics

Program Learning Outcomes for the BA Degree with a Major in Mathematics
Upon completing the BA degree with a major in Mathematics, students will be able to:

1. Achieve both practical and theoretical fluency in calculus and linear algebra.
2. Acquire a background at the undergraduate level in a wide variety of central areas of mathematics.
3. Be acquainted with formal mathematical reasoning, including proofs.

Requirements for the BA Degree with a Major in Mathematics
For general university requirements, see Graduation Requirements (p. 25). Students pursuing the BA degree with a major in Mathematics must complete:

- A minimum of 12 courses (36 credit hours) to satisfy major requirements.
- A minimum of 120 credit hours to satisfy degree requirements.
- A minimum of 60 credit hours outside of major requirements.
- A minimum of 8 courses (24 credit hours) taken at the 300-level or above.

Students who are pursuing 2 majors (i.e., are double majors) are eligible for a course substitution exception in the Elective Requirements. Double majors may substitute approved mathematics-related courses for up to 3 courses (9 credit hours) of the 8 courses (24 credit hours) required at the 300-level or above. Double majors who later drop their second major are required to meet the requirements listed for single majors.

Students receive advanced placement credit for MATH 101 by achieving a score of 4 or 5 on the AP AB-level test and for MATH 101 and MATH 102 by achieving a score of 4 or 5 on the BC-level test. Students who have had calculus but have not taken the AP test may petition the department for a waiver of the calculus requirements. Entering students should enroll in the most advanced course commensurate with their background; advice is available from the mathematics faculty during Orientation Week and at other times.

The chair of the MATH department’s undergraduate committee may modify requirements to meet the needs of specific advanced students. If a course is repeatable for credit, the course may only be repeated once.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor (or official certifier). Students and their academic advisors should identify and clearly document the courses to be taken.

#### Elective Requirements

Select 8 additional courses from departmental (MATH) course offerings at the 300-level or above.  

Total Credit Hours Required for the Major in Mathematics: 36

Additional Credit Hours to Complete BA Degree Requirements: 24

University Graduation Requirements (p. 25): 60

Total Credit Hours: 120

#### Footnotes and Additional Information

* Includes coursework completed as distribution credit, FWIS, LPAP, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The "hours outside of the major" requirement may include all of the above university requirements.

1. In Fall 2017, the MATH department is offering an Honors version of this course, *Honors Ordinary Differential Equations*. Please see the MATH major advisor for details on course substitution, etc.

2. The Elective Requirements for the double major are the same as the single major except that students may substitute approved mathematics-related courses for up to 3 courses (9 credit hours) of the 8 courses (24 credit hours) required at the 300-level or above. At most, students can take one course (three credit hours) for any given course number to use toward the degree.

### Opportunities for the BA Degree with a Major in Mathematics

#### Academic Honors

The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 47) (*summa cum laude, magna cum laude*, and *cum laude*) and Distinction in Research and Creative Work (p. 47). Some departments have department-specific Honors awards or designations.

For additional information, please see the Mathematics website: [http://math.rice.edu/](http://math.rice.edu/)

### Bachelor of Science (BS) Degree with a Major in Mathematics

#### Program Learning Outcomes for the BS Degree with a Major in Mathematics

Upon completing the BS degree with a major in Mathematics, students will be able to:

1. Achieve both practical and theoretical fluency in calculus and linear algebra.
2. Acquire a broad background at the undergraduate level in all the major areas of mathematics, including analysis, algebra, and geometry.
3. Learn to read and write proofs.

### Requirements for the BS Degree with a Major in Mathematics

For general university requirements, see Graduation Requirements (p. 25). Students pursuing the BS degree with a major in Mathematics must complete:

- A minimum of 14-17 courses (42-51 credit hours) depending on course selection to satisfy the major requirements.
- A minimum of 120 credit hours to satisfy degree requirements.
- A minimum of 60 credit hours outside of major requirements.
- A minimum of 11 courses (33 credit hours) taken at the 300-level or above.

Students receive advanced placement credit for MATH 101 by achieving a score of 4 or 5 on the AP AB-level test and for MATH 101 and MATH 102 by achieving a score of 4 or 5 on the BC-level test. Students who have had calculus but have not taken the AP test may petition the department for a waiver of the calculus requirements. Entering students should enroll in the most advanced course commensurate with their background; advice is available from the mathematics faculty during Orientation Week and at other times.

The chair of the MATH department’s undergraduate committee may modify requirements to meet the needs of specific advanced students. If a MATH course is repeatable for credit, the course may only be repeated once.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor (or official certifier).

### Policies for the BA Degree with a Major in Mathematics

#### Transfer Credit

For Rice University's policy regarding transfer credit, see Transfer Credit (p. 32). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of transfer credit advisors on their website: [http://oaa.rice.edu](http://oaa.rice.edu). Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

#### Departmental Transfer Credit Guidelines

Students pursuing the major in Mathematics should be aware of the following departmental transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program's official transfer credit advisor) on an individual case-by-case basis.

For additional information, please see the Mathematics website: [http://math.rice.edu/](http://math.rice.edu/)
Students and their academic advisors should identify and clearly document the courses to be taken.

Elective Requirements

Students must complete a minimum of 33 credit hours from departmental (MATH) course offerings at the 300-level or above.  

Total Credit Hours Required for the Major in Mathematics | 42-51  
Additional Credit Hours to Complete BS Degree Requirements | 9-18  
University Graduation Requirements (p. 25) * | 60  
Total Credit Hours | 120

Footnotes and Additional Information

* Includes coursework completed as distribution credit, FWIS, LPAP, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The "hours outside of the major" requirement may include all of the above university requirements.

1 In Fall 2017, the MATH department is offering an Honors version of this course, Honors Ordinary Differential Equations. Please see the MATH major advisor for details on course substitution, etc.

2 The Elective Requirements can include courses taken from the Core Requirements and/or Elective coursework, for a minimum of 11 courses (33 credit hours) at the 300-level or above. At most, students can take 1 course (3 credit hours) for any given course number to use toward the degree.

Policies for the BS Degree with a Major in Mathematics

Transfer Credit

For Rice University's policy regarding transfer credit, see Transfer Credit (p. 32). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of transfer credit advisors on their website: http://oaa.rice.edu. Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines

Students pursuing the major in Mathematics should be aware of the following departmental transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program's official transfer credit advisor) on an individual case-by-case basis.

For additional information, please see the Mathematics website: http://math.rice.edu/

Opportunities for the BS Degree with a Major in Mathematics

Academic Honors

The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 47) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work
To earn an MA degree in the field of Mathematics, students must complete university and departmental requirements. Doctoral students may petition for these once they have satisfied all master's degree requirements, please see Non-Thesis Master's Degrees. For additional information, please see Non-Thesis Master's Degrees for thesis master's degrees, please see Thesis Master's Degrees depending on the option the student pursues. For general university requirements for non-thesis master's degrees, please see Non-Thesis Master's Degrees (p. 66).

Requirements for the MA and PhD Degrees in the field of Mathematics
Admission to graduate study in mathematics is granted to a limited number of students who have indicated an ability for advanced and original work. Normally, students take one or two years after the BA degree to obtain an MA degree, and they take four or five years to obtain a PhD. An MA is not a prerequisite for the PhD. For general university requirements, please see Doctoral Degrees (p. 64).

A number of graduate scholarships and fellowships are available, awarded on the basis of merit. As part of the graduate education in mathematics, students also engage in teaching or other instructional duties, generally for no more than six hours a week.

For courses carrying dual undergraduate and graduate numbers, (e.g., MATH 463/MATH 563), the 500-level version is intended to prepare students for advanced work in mathematics. In particular, written assignments should be prepared to high professional standards. Mathematics graduate students should enroll in the 500-level version.

MA Degree Program
The MA degree can be either a thesis or a non-thesis master’s degree depending on the option the student pursues. For general university requirements for thesis master’s degrees, please see Thesis Master’s Degrees (p. 67). For general university requirements for non-thesis master’s degrees, please see Non-Thesis Master’s Degrees (p. 66).

Doctoral students may petition for these once they have satisfied all university and departmental requirements.

To earn an MA degree in the field of Mathematics, students must complete:

- Complete with a grade of B or better a course of study approved by the department. (Students may transfer credits from another university only with the approval of both the department and the University Graduate Council.)
- Perform satisfactorily on the general examinations in algebra, analysis, and topology or prepare and present an oral defense of an original thesis acceptable to the department

</tbody>
</table>

Qualifying Examinations
The qualifying examinations in mathematics consist of the general examinations and the advanced oral examination.

To complete the general examinations, students must take exams, one each in algebra, analysis, and topology. Exams are offered every August, January, and May. First-year students may take any combination of exams at any time. After 2 semesters of study, students must attempt to pass all remaining exams at each offering. Students must perform satisfactorily on all 3 by the January exams at the beginning of their fourth semester. The judgment of satisfactory performance on the general examinations for either the MA or PhD degree is the responsibility of the department graduate committee. Students may take an exam several times.

To complete the advanced oral examination, students must select a special field (e.g., homotopy theory, several complex variables, or group theory) and submit it to the department graduate committee for approval. The committee schedules an advanced examination in the selected field, normally 6 to 12 months after the student completes the general examinations. While students failing the advanced examination may, with the approval of the committee, retake it on the same or possibly on a different topic, they generally are not allowed to take the advanced examination more than twice.

Doctor of Philosophy (PhD) Degree in the field of Mathematics
Program Learning Outcomes for the PhD Degree in the field of Mathematics
Upon completing the PhD Degree in the field of Mathematics, students will be able to:

1. Apply abstract structures from algebra, analysis, and topology to analyze and solve both concrete problems and conceptual questions.
2. Learn fundamental mathematics independently, outside the structure of a regular course.
3. Present mathematical results and reasoning in a compelling way to an audience of mathematicians.
4. Use the mathematical literature and databases to find theorems, constructions, or counterexamples.
5. Write clear and convincing proofs of one’s own original mathematical results.

Degree Program Learning Outcomes for the PhD Degree in the field of Mathematics
Upon completing the PhD in the field of Mathematics, students will be able to:

1. Perform satisfactorily on a final oral examination on the thesis
2. Perform satisfactorily on examinations in one approved foreign language (French, German, or Russian)
3. Perform satisfactorily on a final oral examination on the thesis
4. Write an original thesis acceptable to the department
5. Perform satisfactorily on qualifying examinations (see below)

Minor in Mathematics

Program Learning Outcomes for the Minor in Mathematics

Upon completing the minor in Mathematics, students will have:

1. Achieved practical fluency in calculus and linear algebra.
2. Acquired a background at the undergraduate level in a small variety of central areas of mathematics.
3. Become acquainted with formal mathematical reasoning, including proofs.

Requirements for the Minor in Mathematics

Students pursuing the minor in Mathematics must complete:

- A minimum of 6 courses (18 credit hours) to satisfy minor requirements.
- A minimum of 6 courses from departmental (MATH) course offerings at the 200-level or above.
- A minimum of 4 courses (12 credit hours) from departmental (MATH) course offerings at the 300-level or above.

Certain approved classes taken outside the mathematics department may be used to satisfy one area of the Core Requirements, but will not count towards the required 6 courses (18 credit hours). An approved upper-level MATH course (other than MATH 490 or MATH 499) may be used to satisfy an area of the Core Requirements. Students seeking to substitute approved courses should consult in advance with the chair of the undergraduate committee. At most 1 course (3 credit hours) from any particular course or course number may be applied to the minor.

The courses listed below satisfy the requirements for this minor. In certain instances, courses not on this official list may be substituted upon approval of the minor’s academic advisor (or official certifier). Students and their academic advisors should identify and clearly document the courses to be taken.

Policies for the Minor in Mathematics

Program Restrictions and Exclusions

Students pursuing the minor in Mathematics should be aware of the following program restriction:

- As noted in Majors, Minors, and Certificates (p. 12), i.) students may declare their intent to pursue a minor only after they have first declared a major, and ii.) students may not major and minor in the same subject.

Transfer Credit

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 32). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: [http://oaa.rice.edu](http://oaa.rice.edu). Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines

Students pursuing the minor in Mathematics should be aware of the following departmental transfer credit guidelines:
• Requests for transfer credit will be considered by the program director (and/or the program's official transfer credit advisor) on an individual case-by-case basis.

For additional information, please see the Mathematics website: http://math.rice.edu/

Opportunities for the Minor in Mathematics

Academic Honors
The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 47) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 47). Laura Schaefer
Department Chair
laura.schaefer@rice.edu

Undergraduate studies in mechanical engineering can lead to specialization in one or more of a diverse set of areas, including aerospace engineering, biomedical systems, computational fluid dynamics, computational mechanics, fluids-thermal science, mechanical design, mechanics, robotics, systems dynamics and controls.

The graduate program offers professional degrees in mechanical engineering, which permits specialization in the areas previously mentioned. Graduate students also may pursue research degrees. The graduate program, in its comprehensive educational and research activities, collaborates with other departments at Rice and other institutions in Houston, including those in the Texas Medical Center. Collaborations also are extended to universities in the United States, Europe, Japan, and South America. International collaborations include joint research activities and faculty and student visitor exchanges.

A coordinated MBA/MMEDegree program is available in conjunction with the Jesse H. Jones Graduate School of Business.

Bachelor's Programs
• Bachelor of Arts (BA) Degree with a Major in Mechanical Engineering (p. 478)
• Bachelor of Science in Mechanical Engineering (BSME) Degree (p. 479)

Master's Programs
• Master of Mechanical Engineering (MME) Degree (p. 483)
• Master of Science (MS) Degree in the field of Mechanical Engineering (p. 484)

Doctoral Program
• Doctor of Philosophy (PhD) Degree in the field of Mechanical Engineering (p. 481)

Coordinated Program
• Master of Business Administration (MBA) Degree / Master of Mechanical Engineering (MME) Degree (p. 482)

Description and Code Legend

Note: Internally, the university uses the following descriptions, codes, and abbreviations for this academic program. The following is a quick reference:

Course Catalog/Schedule
- Course offerings/subject code: MECH

Department Description and Code
- Mechanical Engineering: MECH

Undergraduate Degree Descriptions and Codes
- Bachelor of Arts degree: BA
- Bachelor of Science degree: BSME

Undergraduate Major Description and Code
- Major in Mechanical Engineering (attached to both the BA and BSME Degrees): MECH

Graduate Degree Descriptions and Codes
- Master of Mechanical Engineering degree: MME
- Master of Science degree: MS
- Doctor of Philosophy degree: PhD

Graduate Degree Program Description and Code
- Degree Program in Mechanical Engineering: MECH

Bachelor of Arts (BA) Degree with a Major in Mechanical Engineering

Program Learning Outcomes for the BA Degree with a Major in Mechanical Engineering

Upn completing the BA degree with a major in Mechanical Engineering, students will be able to:

Requirements for the BA Degree with a Major in Mechanical Engineering

For general university requirements, see Graduation Requirements (p. 25). Students pursuing the BA degree with a major in Mechanical Engineering must complete:

- A minimum of 25 courses (68 credit hours) to satisfy major requirements. Note that the courses required to complete the major must be taken after 13 required basic math and science (pre-requisite) courses (31 credit hours).
- A minimum of 128 credit hours to satisfy degree requirements.
- A minimum of 60 credit hours outside of major requirements.
- A minimum of 9 courses (28 credit hours) at the 300-level or above.

The BA program mirrors the BSME program in the freshman and sophomore years, with the exceptions that MECH 331 and MECH 340 are not required. Specific major requirements are completed in the junior and senior years.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor (or official certifier). Students and their academic advisors should identify and clearly document the courses to be taken.

As part of this option and opportunity, Rice undergraduate students:

- must complete the requirements for their bachelor’s degree and the MME degree independently of each other (i.e. no course may be counted toward the fulfillment of both degrees).
- should be aware of the financial aid implications, if the conversion of undergraduate coursework to that of graduate level reduces their earned undergraduate credit for any semester below that of full-time status (12 credit hours).

For additional information, please see the Mechanical Engineering website: [https://mech.rice.edu/](https://mech.rice.edu/)

### Bachelor of Science in Mechanical Engineering (BSME) Degree

The program leading to the BSME degree is accredited by the Engineering Accreditation Commission (EAC) of ABET, [http://www.abet.org](http://www.abet.org).

### Program Learning Outcomes (Student Outcomes) for the BSME Degree

Upon completing the BSME degree, students will demonstrate:

1. An ability to apply knowledge of mathematics, science, and engineering.
2. An ability to design and conduct experiments, as well as to analyze and interpret data.
3. An ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability.
4. An ability to function on multidisciplinary teams.
5. An ability to identify, formulate, and solve engineering problems.
6. An understanding of professional and ethical responsibility.
7. An ability to communicate effectively.
8. The broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context.
10. A knowledge of contemporary issues.
11. An ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.

### Program Educational Objectives for the BSME Degree

Within 3-5 years of graduation, Bachelor of Science in Mechanical Engineering (BSME) degree alumni from Rice will be exceptional engineers who are:

1. Successful and on track to become leaders in the global workforce, and/or
2. Students in top-rated post-graduate programs.

### Requirements for the BSME Degree

For general university requirements, see Graduation Requirements (p. 25). Students pursuing the BSME degree must complete:

**Fifth-Year MME Degree Option for Rice Undergraduates**

Rice undergraduate students have the option to earn the Master of Mechanical Engineering (MME) degree by adding an additional year after completing their bachelor’s degree. Advanced Rice undergraduate students in good academic standing may apply to the graduate program during their junior or senior year. Upon acceptance, depending on course load, financial aid status, and other variables, they may complete part of the course requirements for the MME program during their senior year. A plan of study based on their particular focus area will need to be approved by the program director and the MME advisor.

As part of this option and opportunity, Rice undergraduate students:
Bachelor of Science in Mechanical Engineering (BSME) Degree

- A minimum of 36 courses (94 credit hours) to satisfy major requirements.
- A minimum of 132 credit hours to satisfy degree requirements.
- A minimum of 21 courses (57 credit hours) taken at the 300-level or above.

The BSME degree prepares students for the professional practice of engineering. The degree program's goals and objectives are available on the departmental website. Lists of representative undergraduate courses and the usual order in which they are taken are available from the department.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major's academic advisor (or official certifier). Students and their academic advisors should identify and clearly document the courses to be taken.

Footnotes and Additional Information

* Includes coursework completed as distribution credit, FWIS, LPAR upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The "hours outside of the major" requirement may include all of the above university requirements.

1 During their senior year, mechanical engineering students in the BSME program complete these courses in design application while completing a major design project.

2 Students must complete a total of 3 technical electives (9 credit hours). A minimum of two of these courses must come from Group A. The remaining course can come from Group A or B. Group A courses are fundamental courses in the following focus areas: aerospace engineering (AE), computational engineering (CompE), fluid mechanics and thermal science (FT), solid mechanics and materials (SMM), and system dynamics and control (SDC). Group B courses are additional technical electives that complement the focus areas listed above.

Policies for the BSME Degree

Transfer Credit

For Rice University's policy regarding transfer credit, see Transfer Credit (p. 32). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of transfer credit advisors on their website: http://oaa.rice.edu. Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines

Students pursuing the BSME degree should be aware of the following departmental transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program's official transfer credit advisor) on an individual case-by-case basis.

For additional information, please see the Mechanical Engineering website: https://mech.rice.edu/

Opportunities for the BSME Degree

Academic Honors

The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 47) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 47). Some departments have department-specific Honors awards or designations.

Fifth-Year MME Degree Option for Rice Undergraduates

Rice undergraduate students have the option to earn the Master of Mechanical Engineering (MME) degree by adding an additional year after completing their bachelor's degree. Advanced Rice undergraduate students in good academic standing may apply to the graduate program during their junior or senior year. Upon acceptance, depending on course load, financial aid status, and other variables, they may complete part of the course requirements for the MME program during their senior year. A plan of study based on their particular focus area will need to be approved by the program director and the MME advisor.

As part of this option and opportunity, Rice undergraduate students:

- must complete the requirements for their bachelor's degree and the MME degree independently of each other (i.e. no course may be counted toward the fulfillment of both degrees).
- should be aware of the financial aid implications, if the conversion of undergraduate coursework to that of graduate level reduces their earned undergraduate credit for any semester below that of full-time status (12 credit hours).

For additional information, please see the Mechanical Engineering website: https://mech.rice.edu/

Doctor of Philosophy (PhD) Degree in the field of Mechanical Engineering

Program Learning Outcomes for the PhD Degree in the field of Mechanical Engineering

Upon completing the PhD Degree in the field of Mechanical Engineering, students will be able to:

1. Apply the technical skills required by industrial and governmental organizations to solve mechanical engineering problems at an advanced level.
2. Conduct research that demonstrates advanced mastery of a subfield within Mechanical Engineering.
3. Communicate scientific ideas effectively in writing and when speaking.
4. Understand and exhibit professional and ethical responsibility.
5. Recognize the need to engage in life-long learning.
6. Recognize and understand the role of leadership.

Requirements for the PhD Degree in the field of Mechanical Engineering

For general university requirements, please see Doctoral Degrees (p. 64). Students seeking the PhD degree are expected to complete all the requirements for the degree within five calendar years following entrance into the program. Continuation in the program beyond this time limit will require special approval of the department.

All entering graduate students pursuing a thesis degree program will be subject to a preliminary evaluation of their candidacy for the highest degree program they intend to pursue. The evaluation will be conducted by the end of the second semester of enrollment in the graduate program in the Mechanical Engineering department.

By the end of the third year of enrollment in the graduate program in the Mechanical Engineering department, the student must pass an oral qualifying examination.

Each candidate for the PhD must complete a thesis that constitutes an original contribution to scientific knowledge (analytical, numerical or experimental). It is expected that the research will be of sufficient importance and quality that positive results would lead to publications. On completion of the thesis, each candidate for the PhD degree must
pass a final public oral examination. The examination will be conducted by a committee consisting of at least four members. Three, including the committee chair, must be members of the department. One member must be from another department within the university.

The minimum semester hours of course work (a one-semester course is usually three semester hours credit) required are tabulated below as a function of the degree held on entrance into the program. In all cases, a student’s course of study is formulated in consultation with the thesis director and must be approved by the department.

Course requirements for the research degrees vary depending on the extent of individual undergraduate preparation as well as each student’s performance in graduate courses and on qualifying examinations. For both the MS and PhD degrees, students must present a thesis that comprises an original contribution to knowledge and defend it in a public oral examination.

As part of their degree requirements, graduate students are expected to provide instructional assistance to the department not to exceed 10 hours per week. The department chair will assign graduate student work at the beginning of each semester.

All graduate students (except professional master’s students, MME) must attend at least 75 percent of the Mechanical Engineering seminars. For details, please see the degree requirements on the mech.rice.edu.

Degree at Entrance: Minimum graduate-level semester hours required (course work)

- MS: 18 graduate-level credit hours
- 5-year BS: 30 graduate-level credit hours
- BS: 36 graduate-level credit hours
- BA: 42 graduate-level credit hours

Opportunities for the PhD Degree in the field of Mechanical Engineering

For additional information, please see the Mechanical Engineering website: https://mech.rice.edu/

Master of Business Administration (MBA) Degree / Master of Mechanical Engineering (MME) Degree

Program Learning Outcomes for the MME Degree

Upon completing the MME degree, students will be able to:

1. Demonstrate an advanced command of Mechanical Engineering fieldwork.
2. Apply professional standards and exercise ethical judgment.
3. Communicate scientific ideas effectively in writing and when speaking.
4. Recognize the need for, and ability to engage in life-long learning.

Program Learning Outcomes for the MBA Degree Programs

Upon completing the MBA degree programs, students will be able to:

1. Demonstrate an understanding and application of the foundational frameworks and tools of all business disciplines, including accounting, finance, marketing, organizational behavior, and strategic management.
2. Develop, evaluate, and implement complex business strategies and operational solutions holistically, integrating management principles across the functional areas.
3. Function effectively in a team setting both as a leader and a contributor.

Requirements for the MBA/MME Coordinated Degree Program

Students may earn this non-thesis Master of Engineering degree in the following fields:

- Bioengineering
- Chemical Engineering
- Civil and Environmental Engineering
- Computational and Applied Mathematics
- Computational Science and Engineering
- Computer Science
- Electrical Engineering
- Materials Science and Nanoengineering
- Mechanical Engineering
- Statistics

Coordinated degree candidates can fulfill requirements for both degrees in 2 academic years.
For the coordinated MBA/Master of Engineering degree, students must complete:

- A minimum of 2 academic years in residence at Rice
- A minimum of 69 semester hours in approved coursework, including:
  - A minimum of 24 credit hours in an engineering discipline
  - A minimum of 45 credit hours in business
- At minimum of 6 credit hours of the 45 credit hours in business must also meet the requirements towards the Master of Engineering degree and will be counted towards both degrees.

Students plan their course schedules in consultation with the engineering department in which they are enrolled and with the Jones Graduate School of Business Registrar Department.

**Policies for the MBA/MME Coordinated Degree Program**

For additional information on these two degrees:

1. Please see the Business website: [https://business.rice.edu/](https://business.rice.edu/)
2. Please see the Mechanical Engineering website: [https://mech.rice.edu/](https://mech.rice.edu/)

**Opportunities for the MBA/MME Coordinated Degree Program**

For additional information on these two degrees:

1. Please see the Business website: [https://business.rice.edu/](https://business.rice.edu/)
2. Please see the Mechanical Engineering website: [https://mech.rice.edu/](https://mech.rice.edu/)

**Master of Mechanical Engineering (MME) Degree**

**Program Learning Outcomes for the MME Degree**

Upon completing the MME degree, students will be able to:

1. Demonstrate an advanced command of Mechanical Engineering fieldwork.
2. Apply professional standards and exercise ethical judgment.
3. Communicate scientific ideas effectively in writing and when speaking.
4. Recognize the need for, and ability to engage in life-long learning.

**Requirements for the MME Degree**

The MME degree is a non-thesis master’s degree. For general university requirements, please see Non-Thesis Master’s Degrees (p. 66). Students pursuing the MME degree must complete:

- A minimum of 30 credit hours of approved coursework at the 500-level or higher.
- A minimum of 18 credit hours from departmental (MECH) course offerings.
- A minimum of 24 credit hours must be taken at Rice University.
- A minimum overall GPA of 3.0 in required coursework.

The professional master’s degree in Mechanical Engineering (MME) is a non-thesis degree program intended for students who have completed a 4-year bachelor’s program in engineering and wish to join the workforce as practicing professionals, rather than pursuing a research oriented or academic career. It offers preparation in advanced engineering topics in order to enhance an engineer’s technical qualifications and increases competitiveness in the job market. The MME program is open to students who have shown academic excellence in their undergraduate studies. Students who have a BS or BA degree in any field of engineering or related study may apply, although some may need to fulfill prerequisites or take remedial courses to earn the MME degree. Students may enroll on a full or part-time basis.

Lists of required and suggested courses are available from the department. Students should develop a specific plan of study based on their particular interests and discussions with their advisor.

**Footnotes and Additional Information**

1 With approval by the advisor and the department, some of which could be from outside the department. None of the remaining required 12 credit hours can be from Independent-Study (MECH 611 or MECH 612) courses.

**Degree at Entrance: Minimum graduate-level semester hours required (course work)**
• 4-year BS: 30 credit hours
• 4-year BA: 30 credit hours

Policies for the MME Degree
Department of Mechanical Engineering Graduate Program Handbook
The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, the department of Mechanical Engineering publishes a graduate program handbook, which can be found here: http://gradhandbooks.rice.edu/2017_18/Mechanical_Engineering_Graduate_Handbook.pdf.

Transfer Credit
For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 66). Some departments and programs have additional restrictions on transfer credit. Students are encouraged to meet with their academic program’s advisor when considering transfer credit possibilities.

For additional information, please see the Mechanical Engineering website: https://mech.rice.edu/

Opportunities for the MME Degree
For additional information, please see the Mechanical Engineering website: https://mech.rice.edu/

Master of Science (MS) Degree in the field of Mechanical Engineering
Program Learning Outcomes for the MS Degree in the field of Mechanical Engineering
Upon completing the MS Degree in the field of Mechanical Engineering, students will be able to:

1. Apply the technical skills required by industrial and governmental organizations to solve mechanical engineering problems at an advanced level.
2. Conduct research that demonstrates advanced mastery of a subfield within Mechanical Engineering.
3. Communicate scientific ideas effectively in writing and when speaking.
4. Understand and exhibit professional and ethical responsibility.
5. Recognize the need to engage in life-long learning.
6. Recognize and understand the role of leadership.

Requirements for the MS Degree in the field of Mechanical Engineering
The MS degree is a thesis master’s degree. For general university requirements, please see Thesis Master's Degrees (p. 67). Students seeking the MS degree are expected to complete all the requirements for the degree within two calendar years following entrance into the program. Continuation in the program beyond this time limit will require special approval of the department.

All entering graduate students pursuing a thesis degree program will be subject to a preliminary candidacy evaluation for the highest degree program they intend to pursue. The evaluation will be conducted by the end of the second semester of enrollment in the graduate program in the Mechanical Engineering department.

Each candidate for the MS degree must complete a thesis demonstrating ability in research of a fundamental nature (analytical, numerical, or experimental). It is expected that the research will be of sufficient importance and quality that positive results would lead to publications. A committee consisting of at least three members will conduct the examination. Two, including the committee chair, must be members of the department.

The minimum semester hours of course work (a one-semester course is usually three semester hours credit) required for the MS degree is tabulated below as a function of the degree held on entrance into the program. Research and thesis hours, as well as seminar hours, do not count towards these course requirements but do count toward the minimum requirement that a student complete 30 credit hours at the 500 level or above. In all cases, a student's specific course of study is formulated in consultation with the departmental advisor (thesis director) and must be approved by the department.

Course requirements for the research degrees vary depending on the extent of individual undergraduate preparation as well as each student's performance in graduate courses and on qualifying examinations. For both the MS and PhD degrees, students must present a thesis that comprises an original contribution to knowledge and defend it in a public oral examination.

As part of their degree requirements, graduate students are expected to provide instructional assistance to the department not to exceed 10 hours per week. The department chair will assign graduate student work at the beginning of each semester.

All graduate students (except professional master’s students, MME) must attend at least 75 percent of the Mechanical Engineering seminars. For additional information and details, please see the degree requirements on the Mechanical Engineering website (http://mech.rice.edu).

Degree at Entrance: Minimum graduate-level semester hours required (coursework)

• 5-year BS: 12 credit hours

Kirsten Ostherr
Program Director
kostherr@rice.edu

Medical Humanities is an interdisciplinary minor that examines medicine through humanistic disciplines such as history, ethics, religion, literature, cultural anthropology, media studies, and the visual and dramatic arts. Students will learn about medical systems and practices using methodologies such as close reading, cultural comparison, historical contextualization, creative expression, and critical thinking. The field is committed to interpretive and qualitative work that explores the human dimensions of experiences of health and illness, for doctors and for patients.

The Medical Humanities minor is housed in the Humanities Research Center (p. 435).

Minor

- Minor in Medical Humanities (p. 485)

Medical Humanities does not currently offer an academic program at the graduate level.

Description and Code Legend

Note: Internally, the university uses the following descriptions, codes, and abbreviations for this academic program. The following is a quick reference:

Course Catalog/Schedule

- Course offerings/subject codes: Courses from various subjects may apply toward the minor.

Program Description and Code

- Medical Humanities: MDHM

Undergraduate Minor Description and Code

- Minor in Medical Humanities: MDHM

Minor in Medical Humanities

Program Learning Outcomes for the Minor in Medical Humanities

Upon completing the minor in Medical Humanities, students will be able to:

1. Describe the historical, literary, artistic and ethical domains of medical humanities scholarship.
2. Analyze and evaluate complex texts relating to the social and cultural aspects of medicine through close reading and critical interpretation of arguments, metaphors, and images.
3. Explain how health disparities and disability shape the healthcare experience for patients.
4. Conduct independent research and communicate their own arguments about medical humanities in research papers, class presentations, and discussions.

**Requirements for the Minor in Medical Humanities**

Students pursuing the minor in Medical Humanities must complete:

- A minimum of 6 courses (18 credit hours) to satisfy minor requirements.
- A minimum of 3 courses (9 credit hours) taken at the 300-level or above.
- A maximum of 2 courses (6 credit hours) from study abroad or transfer credit. For additional program guidelines regarding transfer credit, see the Policies tab.

The courses listed below satisfy the requirements for this minor. In certain instances, courses not on this official list may be substituted upon approval of the minor’s academic advisor (or official certifier). Students and their academic advisors should identify and clearly document the courses to be taken.

The courses used in the Medical Humanities program examine the social, cultural, ethical and aesthetic dimensions of medicine in contemporary and historical contexts, and are open to all undergraduate students at Rice from all backgrounds.

**Footnotes and Additional Information**

1 Students must complete the core course (HURC 201) before they complete the practicum. The core course and the practicum may not be taken concurrently.

2 Students may take ENGL 386/FILM 381 as either an elective or the practicum, but it will not count toward both requirements.

3 HURC 430 provides an archival or other non-clinical setting for engaged research.

4 Students may take NSCI 399 as either an elective or the practicum, but it will not count toward both requirements.

**Elective Requirements**

To fulfill the elective requirements for the Medical Humanities minor, students must complete a total of 4 courses (12 credit hours) from the following Rice departmental course offerings. Students must fulfill the elective requirements by completing coursework from at least 2 different subject codes (i.e., ANTH, ENGL, etc.), and must take a minimum of 2 courses (6 credit hours) at the 300-level or above.

Footnotes and Additional Information
1 ANTH 477 is a special topics course, and not all sections are eligible to be applied towards the minor requirements as an Elective course. Please see a minor advisor for more information.
2 Students may take ENGL 386/FILM 381 as either an elective or the practicum, but it will not count toward both requirements.
3 Students may take NSCI 399 as either an elective or the practicum, but it will not count toward both requirements.

Policies for the Minor in Medical Humanities

Program Restrictions and Exclusions
Students pursuing the minor in Medical Humanities should be aware of the following program restriction:

- As noted in Majors, Minors, and Certificates (p. 12), i.) students may declare their intent to pursue a minor only after they have first declared a major, and ii.) students may not major and minor in the same subject.

Transfer Credit
For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 32). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: http://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Program Transfer Credit Guidelines
Students pursuing the minor in Medical Humanities should be aware of the following program-specific transfer credit guidelines:

- No more than 2 courses (6 credit hours) of transfer credit from U.S. or international universities of similar standing may apply towards the minor.
- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.
- Transfer credit coursework received via the articulation of AP, IB or A-level credit will not be considered towards minor requirements.
- Transfer credit from online-only courses cannot be used to count towards the minor.

For additional information, please see the Humanities Research Center website: http://hrc.rice.edu/

Opportunities for the Minor in Medical Humanities

Academic Honors
The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (p. 47) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 47). Some departments have department-specific Honors awards or designations.

Experiential Learning
Advanced students in the Medical Humanities minor have the opportunity to conduct experiential learning and research in our practica, enroll in internships at Houston-area hospitals, archives, and community partner institutions, and take our multi-institution seminar, co-taught by researchers and clinicians in the Texas Medical Center, University of Houston, University of Texas School of Public Health, and Rice.

See https://humanities.rice.edu/student-life for tables of fellowships, prizes, and internships/practica that may be relevant to this minor.

Medieval and Early Modern Studies

Contact Information
Medieval and Early Modern Studies
https://medieval.rice.edu/
116 Humanities Building
713-348-4274
Peter Loewen
Program Director
pvl1@rice.edu

The Medieval and Early Modern Studies program enables students to study medieval and early modern cultures in the period between 500 and 1700 A.D.

As an interdisciplinary major, the program combines a broad background in various aspects of medieval and early modern culture with more specialized study in a selected field. These fields of emphasis or specialized study include medieval and early modern art history, history, literature (Arabic, Chinese, English, French, or Latin), music, philosophy, or religion.
Bachelor's Program

- Bachelor of Arts (BA) Degree with a Major in Medieval and Early Modern Studies

Medieval and Early Modern Studies does not currently offer an academic program at the graduate level.

Program Description and Code

- Medieval and Early Modern Studies: MDEM

Undergraduate Degree Description and Code

- Bachelor of Arts degree: BA

Undergraduate Major Description and Code

- Major in Medieval and Early Modern Studies: MDEM

Bachelor of Arts (BA) Degree with a Major in Medieval and Early Modern Studies

Program Learning Outcomes for the BA Degree with a Major in Medieval and Early Modern Studies

Upon completing the BA degree with a major in Medieval and Early Modern Studies, students will be able to:

1. Situate Medieval and Early Modern studies more broadly within several interdisciplinary fields, including history, art, philosophy, music, literature, and religion.
2. Define and apply appropriate disciplinary and/or interdisciplinary methodologies, vocabularies, concepts, and theories to critically respond to questions within the field of Medieval and Early Modern Studies.
3. Demonstrate the ability to define and respond to research questions and scholarly debates within the field, including the ability to analyze primary and secondary sources, draw conclusions from the analysis of these sources, and cite evidence in support of conclusions.
4. Demonstrate a firm grasp of written, visual, and oral communication, including critical writing principles such as appropriate citation, use of evidence, clarity, and grammatical correctness.

Requirements for the BA Degree with a Major in Medieval and Early Modern Studies

For general university requirements, see Graduation Requirements (p. 25). Students pursuing the BA degree with a major in Medieval and Early Modern Studies must complete:

- A minimum of 10 courses (30 credit hours) to satisfy major requirements.
- A minimum of 120 credit hours to satisfy degree requirements.
- A minimum of 60 credit hours outside of major requirements.
- A minimum of 5 courses (15 credit hours) at the 300-level or above.

Students who are pursuing two majors (i.e., are double majors) and have declared the major in Medieval and Early Modern Studies must complete:

- A minimum of 8 courses (24 credit hours) to satisfy major requirements.
- A minimum of 5 courses (15 credit hours) at the 300-level or above.

Double majors who drop the other major are required to meet the requirements listed for single majors.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major's academic advisor (or official certifier).
Students and their academic advisors should identify and clearly document the courses to be taken.

Total Credit Hours Required for the Major in Medieval and Early Modern Studies (for double majors) 1,2

30

Additional Credit Hours to Complete BA Degree Requirements

60

University Graduation Requirements (p. 25)

120

Footnotes and Additional Information

* Includes coursework completed as distribution credit, FWIS, LPAP, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The “hours outside of the major” requirement may include all of the above university requirements.

1 Double majors who drop the other major are required to meet the requirements listed for single majors.

2 Of the 10 required courses, a total of 5 courses (15 credit hours) must be taken at the 300-level or above. Double majors may satisfy this requirement by completing a total of 8 courses (24 credit hours). Of the 8 required courses for double majors, a total of 5 courses (15 credit hours) must be taken at the 300-level or above. Please note that not all courses will be offered each academic year.

Recommended Coursework

It is recommended, but not required, that students take 2 semesters at the college level in an appropriate language (or languages). Students should take 3 courses (6 credit hours), and preferably 2 at the 300-level or above, in their chosen language of emphasis. One of these three courses may be a directed reading course. Students work out their programs of study in consultation with the program director. For students considering MDEM graduate work, it is recommended that they study at least one foreign language in some depth (as most graduate schools require a reading knowledge of French and German for the PhD).

Policies for the BA Degree with a Major in Medieval and Early Modern Studies

Transfer Credit

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 32). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: http://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Program Transfer Credit Guidelines

Students pursuing the major in Medieval and Early Modern Studies should be aware of the following program-specific transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

For additional information, please see the Medieval and Early Modern Studies website: https://medieval.rice.edu/

Opportunities for the BA Degree with a Major in Medieval and Early Modern Studies

Academic Honors

The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (p. 47) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work.
The four-year program is divided into two courses: the basic course, which is normally attended by students during their freshman- and sophomore years; and the advanced course, attended during the junior and senior years. Advanced course students attend a six-week paid advanced camp in Fort Lewis, Washington, normally between their junior and senior years.

The Basic Course
The basic course consists of four semesters of military science, which include:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MILI 121</td>
<td>INTRODUCTION TO LEADERSHIP</td>
<td>2</td>
</tr>
<tr>
<td>MILI 122</td>
<td>INTRODUCTION TO LEADERSHIP II</td>
<td>2</td>
</tr>
<tr>
<td>MILI 201</td>
<td>FOUNDATIONS OF LEADERSHIP</td>
<td>2</td>
</tr>
<tr>
<td>MILI 202</td>
<td>FOUNDATIONS OF LEADERSHIP II</td>
<td>2</td>
</tr>
</tbody>
</table>

These freshman- and sophomore-level classes are open to all students without obligation.

The Advanced Course
Students entering the advanced course must enter into a contract to pursue and accept a commission in the active army, the Army Reserve, or the National Guard. To be considered for contracting into the advanced course, the student must be a full-time student in a course of instruction that leads to a degree in a recognized academic field, have a minimum of two years of academic work remaining in a curriculum leading to a baccalaureate or advanced degree, be under age 30 when commissioned, and pass a physical and medical examination.

Two-Year Program
The two-year program is designed for students who did not take the basic course but otherwise are eligible to enroll in the advanced course. This program allows students completing their sophomore year to attend a four-week Leader’s Training Course during June and July at Fort Knox, Kentucky, in lieu of taking the first two years of ROTC. There is no military obligation for attending Leader’s Training Course. The army provides transportation, room, and board. Students are paid approximately $900 for the four-week period.

Laboratory Requirements
A military science laboratory is required for students enrolling in:

<table>

</tr>
</tbody>
</table>

This laboratory provides hands-on opportunities for marksmanship training, rappelling, drill and ceremonies, communications training, and other activities.

Veterans
Veterans who have served on active duty or in the Army Reserve or National Guard also are eligible for the ROTC program. Although veterans are not required to take the basic course, they are encouraged to do so. All students, including veterans, must have a minimum of 54 credit hours prior to enrolling in the advanced course.
National Guard and Army Reserve Members

Students enrolled in ROTC may also be members of the Army Reserve/National Guard. Through the Simultaneous Membership Program (SMP), those students enrolled in the advanced course will be placed in a leadership position as a cadet and will receive pay and entitlements from the National Guard or Army Reserve in the pay grade of Sergeant (E-5).

Financial Assistance

The United States Army offers, on a competitive nationwide basis, four-, three-, and two-year scholarships. The scholarships cover tuition 100%. Recipients also receive benefits for educational fees (to include lab fees), a book allowance, and a subsistence allowance ranging from $300 to $500 per month. Applicants must be U.S. citizens and must be under age 27 on the anticipated graduation date. Applications are available from the military science department. Veteran applicants can extend the age limit up to a maximum of three years, based on prior active duty service.

Other Financial Aid

All students enrolled in the advanced course will receive a subsistence allowance of $450 per month junior year and $500 per month senior year. For more information, contact the military science department. GI Bill recipients still retain benefits.

Tuition

Members of the Army or the Army Reserve, National Guard, Texas State Guard, or other reserve forces may be exempted from the nonresident tuition fee and other fees and charges.

Special Training

Basic- and advanced-course students may volunteer for and may attend the U.S. Army Airborne and Air Assault courses during June, July, and August. Cadet Troop Leadership Training positions also are available to Advanced-course cadets during the summer months.

Miscellaneous

All participating cadets are eligible for our internal scholarships provided by our alumni and sponsors of the program.

The Corps of Cadets sponsors an annual military ball in addition to other social events throughout the school year. The Department of Military Science sponsors extracurricular activities such as the University of Houston Color Guard and the Ranger Challenge Team.

Military Science does not offer an academic program at the graduate level.

Museums and Cultural Heritage incorporates the fields of architecture, anthropology, art, history, and cultural studies to study the identification, preservation, and/or representation of art and heritage materials. Such materials often serve as the evidentiary basis for humanistic, architectural, and social science disciplines.

Students will learn about the preservation and use of tangible and intangible cultural heritage for study, archival purposes, and public display through the study of museums and cultural heritage institutions, new digital analysis tools and media, and traditional methods of preservation and analysis.

Minor in Museums and Cultural Heritage

Program Learning Outcomes for the Minor in Museums and Cultural Heritage

Upon completing the minor in Museums and Cultural Heritage, students will be able to:

1. Understand the historical, changing uses and meanings of art/cultural objects and collections in museums, particularly with regard to the concept of heritage.

2. Explain the historical and contemporary issues that face art objects and cultural heritage, including recovery and preservation, and presentation to the public for education, research, and continued practice/use.

3. Work with primary sources relating to art and cultural heritage focusing on visual analysis, recovery and preservation methods, or archival research.

4. Conduct independent and collaborative research in museums and cultural heritage based in a specific disciplinary methodology and communicate it to a public audience through oral, written, visual, or other practical means.

Requirements for the Minor in Museums and Cultural Heritage

Students pursuing the minor in Museums and Cultural Heritage must complete:

- A minimum of 7 courses (18 credit hours) to satisfy minor requirements.
- A minimum of 3 courses (9 credit hours) taken at the 300-level or above.
- A maximum of 2 courses (6 credit hours) from study abroad or transfer credit, which must be approved by the faculty director of the minor. For additional program guidelines regarding transfer credit, see the Policies tab.

The courses listed below satisfy the requirements for this minor. In certain instances, courses not on this official list may be substituted upon approval of the minor's academic advisor (or official certifier). Students and their academic advisors should identify and clearly document the courses to be taken.

Core Requirement

- ANTH 341 / HURC 341: MUSEUMS AND HERITAGE: EXHIBITING ART, EXHIBITING CULTURE
  - 3 Credit Hours

Elective Requirements

Museums or Preservation

Select 2 from the following:

- ANTH 362: ARCHAEOLOGICAL FIELD TECHNIQUES
- ARCH 323: SEMINAR IN ARCHITECTURE
- ARTS 378: EXHIBITION DESIGN
- FILM 327 / ARTS 327 / ANTH 324: DOCUMENTARY PRODUCTION
- FILM 430: ADVANCED METHODS IN SOUND, CINEMATOGRAPHY, AND EDITING
- FWIS 134: COLLECTING ART: PERSPECTIVES OF ARTISTS, PATRONS, AND MUSEUMS
- FWIS 155: FAKES, FORGERIES, AND STOLEN ART
- HART 101 / CLAS 102 / MDEM 111: INTRODUCTION TO THE HISTORY OF WESTERN ART I: ANTIQUITY TO GOTHIC
- HART 297: SPECIAL TOPICS IN MUSEUM CURATORIAL STUDIES
- HART 307: TECHNICAL ART HISTORY: STUDYING THE TECHNIQUES OF WESTERN PAINTING, 13TH-20TH CENTURIES
Select 2 from the following:

- ANTH 205 INTRODUCTION TO ARCHAEOLOGY
- ANTH 303 INTRODUCTION TO ARCHAEOLOGICAL SCIENCE
- ANTH 308 THE ANTHROPOLOGY OF THE HISTORICAL IMAGINATION
- ANTH 312 / MDEM 311 AFRICAN PREHISTORY
- ANTH 345 THE POLITICS OF THE PAST: ARCHAEOLOGY IN SOCIAL CONTEXT
- ANTH 355 LANDSCAPE ARCHAEOLOGY
- ANTH 363 EARLY CIVILIZATIONS
- ARCH 225 / HART 225 HISTORY & THEORY I (INTRO)
- ARCH 345 / HART 345 HISTORY AND THEORY II - PRE 1890
- FWIS 140 WRITING ARCHAEOLOGY: INTERPRETING THE PAST FOR THE ACADEMY AND THE PUBLIC
- GERM 122 / FWIS 122 HISTORY THROUGH GERMAN CINEMA
- GERM 351 / HART 387 HOLOCAUST MEMORY IN MODERN GERMANY
- HART 359 CINEMAS OF URBAN ALIENATION
- HART 391 / ANTH 378 / FILM 378 PLACE AND MEMORY IN MIDDLE EASTERN AND EUROPEAN CINEMA
- HART 454 / ANTH 454 THE ARTIST AS ETHNOGRAPHER - THE ETHNOGRAPHER AS ARTIST
- HIST 366 RIO DE JANEIRO: A SOCIAL AND ARCHITECTURAL HISTORY
- HURC 432 SPATIAL HUMANITIES

Cultural Heritage

**Practicum**

Select 1 from the following:

- HART 300 MUSEUM INTERNSHIP I
- HART 301 MUSEUM INTERNSHIP II
- HART 400 BAYOU BEND UNDERGRADUATE INTERNSHIP I
- HART 401 BAYOU BEND UNDERGRADUATE INTERNSHIP II
- HURC 423 HRC PRACTICUM IN CULTURAL HERITAGE
- HUMA 406 ARTS AND CULTURE INTERNSHIP 1
- HUMA 407 ARTS AND CULTURE INTERNSHIP 2

**Capstone Symposium**

Total Credit Hours: 18

**Footnotes and Additional Information**

1. A maximum of 2 courses (6 credit hours) from the same subject code can be counted toward the Elective Requirements for the minor.
2. One of the following courses must be completed before starting a practicum to provide adequate background knowledge: the Core Requirement: ANTH 341/HURC 341; or one of the following Elective Requirements: ANTH 345, HART 312, or HIST 244.
3. The practicum will introduce students to the field directly, promoting an engaged and active learning environment while fostering connections in the fields of museum work, cultural heritage, and preservation. All practica should be taken through established courses or independent study at the 300-level or 400-level (for at least 3 credit hours) and must focus on active participation on the part of students in the mission of the project or institution, with meaningful pedagogical or research outcomes for the student; the chief duties of a student in a practicum cannot be clerical. Students who do not complete one of the application-based internships at area museums and cultural institutions listed above (HART 300, HART 301, HART 400, HART 401) will have the following two alternative options for completing this requirement with advisor approval:
   1. Internships and Practica (of at least 3 credit hours) offered through the Humanities Research Center, the Center for Civic Leadership, or the School of Humanities with the research and related activities approved by a program advisor.
   2. Faculty-Directed Initiatives - independent study courses (for at least 3 credit hours) affiliated with the pertinent department or center. Must have approval of the minor’s academic advisor (or official certifier)
4. Every year, the HRC will host a 0 credit hour capstone symposium, in which students who have completed their coursework for the minor will present their practicum experiences and address what they have learned throughout the minor’s curriculum.

**Policies for the Minor in Museums and Cultural Heritage**

**Program Restrictions and Exclusions**

Students pursuing the minor in Museums and Cultural Heritage should be aware of the following program restriction:

- As noted in Majors, Minors, and Certificates (p. 12), i.) students may declare their intent to pursue a minor only after they have first declared a major, and ii.) students may not major and minor in the same subject.

**Program Transfer Credit Guidelines**

Students pursuing the minor in Museums and Cultural Heritage should be aware of the following program-specific transfer credit guidelines:

- No more than 2 courses (6 credit hours) of transfer credit from U.S. or international universities of similar standing may apply toward the minor.
- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.
For additional information, please see the Museums and Cultural Heritage website: h [http://hrc.rice.edu/culturalheritage/minor](http://hrc.rice.edu/culturalheritage/minor).

**Opportunities for the Minor in Museums and Cultural Heritage**

**Academic Honors**
The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 47) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 47). Some departments have department-specific Honors awards or designations.

See https://humanities.rice.edu/student-life for tables of fellowships, prizes, and internships/practicas that may be relevant to this minor.

At the undergraduate level, The Shepherd School of Music offers both professional training and a broad liberal arts curriculum. Degree programs include a BA degree in music and a BMus degree in performance, composition, music history, and music theory. Acceptance into a five-year honors program leads to the simultaneous awarding of the BMus and MMus degrees.

At the graduate level, the school offers professional music training for qualified students in the fields of music composition, performance, or research that is supported by lab or performing ensembles. This training includes theory and history seminars. Advanced degree programs include a MMus degree in composition, orchestral conducting, musicology, and performance; a post-master’s Artist Diploma (AD) in orchestral conducting and performance; and a DMA degree in composition and selected areas of performance.

**Other Musical Opportunities**

**For Non-Majors**

Students who are not music majors may take the following courses designed for the general student. Other music courses not on this list require the permission of the instructor, and the approval of the dean of the Shepherd School.

**Lectures and Performances**

A visiting lecture series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.

**Bachelor’s Programs**

- Bachelor of Music (BMus) Degree with a Major in Bassoon Performance (p. 523)
- Bachelor of Music (BMus) Degree with a Major in Cello Performance (p. 525)
- Bachelor of Music (BMus) Degree with a Major in Clarinet Performance (p. 527)
- Bachelor of Music (BMus) Degree with a Major in Composition (p. 529)
- Bachelor of Music (BMus) Degree with a Major in Double Bass Performance (p. 531)
- Bachelor of Music (BMus) Degree with a Major in Flute Performance (p. 533)
- Bachelor of Music (BMus) Degree with a Major in Harp Performance (p. 535)
- Bachelor of Music (BMus) Degree with a Major in Horn Performance (p. 537)
- Bachelor of Music (BMus) Degree with a Major in Music History (p. 539)
- Bachelor of Music (BMus) Degree with a Major in Music Theory (p. 542)
- Bachelor of Music (BMus) Degree with a Major in Oboe Performance (p. 545)
- Bachelor of Music (BMus) Degree with a Major in Organ Performance (p. 547)
- Bachelor of Music (BMus) Degree with a Major in Percussion Performance (p. 549)
- Bachelor of Music (BMus) Degree with a Major in Piano Performance (p. 551)
- Bachelor of Music (BMus) Degree with a Major in Trombone Performance (p. 553)
Master's Programs

- Bachelor of Music (BMus) Degree with a Major in Trumpet Performance (p. 555)
- Bachelor of Music (BMus) Degree with a Major in Tuba Performance (p. 557)
- Bachelor of Music (BMus) Degree with a Major in Viola Performance (p. 559)
- Bachelor of Music (BMus) Degree with a Major in Violin Performance (p. 561)
- Bachelor of Music (BMus) Degree with a Major in Vocal Performance (p. 563)
- Bachelor of Arts (BA) Degree with a Major in Music (p. 521)

Post-Master's Performance Programs

- Master of Music (MMus) Degree in the field of Vocal Performance
- Master of Music (MMus) Degree in the field of Violin Performance
- Master of Music (MMus) Degree in the field of Viola Performance
- Master of Music (MMus) Degree in the field of Tuba Performance
- Master of Music (MMus) Degree in the field of Trumpet Performance
- Master of Music (MMus) Degree in the field of Trombone Performance
- Master of Music (MMus) Degree in the field of String Quartet Performance
- Master of Music (MMus) Degree in the field of Piano Chamber Music Performance
- Master of Music (MMus) Degree in the field of Percussion Performance
- Master of Music (MMus) Degree in the field of Organ Performance
- Master of Music (MMus) Degree in the field of Orchestral Conducting
- Master of Music (MMus) Degree in the field of Opera Performance
- Master of Music (MMus) Degree in the field of Orchestral Conducting (p. 509)
- Master of Music (MMus) Degree in the field of Organ Performance (p. 511)
- Master of Music (MMus) Degree in the field of Percussion Performance (p. 512)
- Master of Music (MMus) Degree in the field of Piano Performance (p. 513)
- Master of Music (MMus) Degree in the field of Trombone Performance (p. 515)
- Master of Music (MMus) Degree in the field of Trumpet Performance (p. 516)
- Master of Music (MMus) Degree in the field of Tuba Performance (p. 517)
- Master of Music (MMus) Degree in the field of Viola Performance (p. 518)
- Master of Music (MMus) Degree in the field of Violin Performance (p. 520)

Doctoral Programs

- Doctor of Musical Arts (DMA) Degree in the field of Cello Performance (p. 565)
- Doctor of Musical Arts (DMA) Degree in the field of Clarinet Performance (p. 567)
- Doctor of Musical Arts (DMA) Degree in the field of Composition (p. 569)
- Doctor of Musical Arts (DMA) Degree in the field of Double Bass Performance (p. 572)
- Doctor of Musical Arts (DMA) Degree in the field of Flute Performance (p. 574)
- Doctor of Musical Arts (DMA) Degree in the field of Oboe Performance (p. 576)
- Doctor of Musical Arts (DMA) Degree in the field of Organ Performance (p. 578)
- Doctor of Musical Arts (DMA) Degree in the field of Percussion Performance (p. 580)
- Doctor of Musical Arts (DMA) Degree in the field of Piano Performance (p. 582)
- Doctor of Musical Arts (DMA) Degree in the field of Viola Performance (p. 584)
- Doctor of Musical Arts (DMA) Degree in the field of Violin Performance (p. 586)
- Doctor of Musical Arts (DMA) Degree in the field of Vocal Performance (p. 588)

**Artist Diploma (AD) in the field of Bassoon Performance**

**Program Learning Outcomes for the Artist Diploma**

Upon completing the Artist Diploma, students will be able to:

1. Demonstrate the technical mastery and musical expertise requisite to having a significant professional career in their chosen area of performance.
2. Intellectually master the stylistic differences when performing music of the Baroque, Classical, Romantic, modern and contemporary eras and be able to apply them in performance.
3. Accumulate a significantly expanded and diverse list of repertoire.
4. Be equipped with multiple extra-musical career skills.

**Requirements for the Artist Diploma**

For general university requirements, see Diploma Programs (p. 66). Students pursuing the Artist Diploma in any field of music performance must complete:

- A minimum of 41 credit hours to satisfy the Artist Diploma requirements.

Policies for the Artist Diploma

Academic Standards

Curriculum and Degree Requirements
Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

Grading Policy
A minimum grade of “B-” is expected of all music students in their major applied area. A grade of “C+” or lower is considered unsatisfactory and will be evaluated in the following manner:

A music major who receives a grade of “C+” or lower in their major applied area will be placed on music probation. Music probation signifies that the student’s work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of “C+” or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

Note: For music history and musicology majors a grade of “C+” or lower in any music history course is considered unsatisfactory and will be evaluated as above.

Graduate degree requirement: a minimum grade point average of 2.67 is necessary for graduation.

Leaves of Absence and Voluntary Withdrawal
Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean’s office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reauditon. Students should explain the reasons for their withdrawal to the dean before leaving campus.

For additional information, please see the Shepherd School website at: http://music.rice.edu

Opportunities for the Artist Diploma

Other Musical Opportunities

Lectures and Performances
A visiting lecture series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.

For additional information, please see the Shepherd School website at: http://music.rice.edu

Artist Diploma (AD) in the field of Cello Performance

Program Learning Outcomes for the Artist Diploma
Upon completing the Artist Diploma, students will be able to:

1. Demonstrate the technical mastery and musical expertise requisite to having a significant professional career in their chosen area of performance.
2. Intellectually master the stylistic differences when performing music of the Baroque, Classical, Romantic, modern and contemporary eras and be able to apply them in performance.
3. Accumulate a significantly expanded and diverse list of repertoire.
4. Be equipped with multiple extra-musical career skills.

Requirements for the Artist Diploma
For general university requirements, see Diploma Programs (p. 66).

Students pursuing the Artist Diploma in any field of music performance must complete:

- A minimum of 41 credit hours to satisfy the Artist Diploma requirements.

**Policies for the Artist Diploma**

**Academic Standards**

**Curriculum and Degree Requirements**

Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

**Grading Policy**

A minimum grade of “B-” is expected of all music students in their major applied area. A grade of “C+” or lower is considered unsatisfactory and will be evaluated in the following manner:

A music major who receives a grade of “C+” or lower in their major applied area will be placed on music probation. Music probation signifies that the student’s work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of “C+” or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

Note: For music history and musicology majors a grade of “C+” or lower in any music history course is considered unsatisfactory and will be evaluated as above.

Graduate degree requirement: a minimum grade point average of 2.67 is necessary for graduation.

**Leaves of Absence and Voluntary Withdrawal**

Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean’s office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

For additional information, please see the Shepherd School website at:

Artist Diploma (AD) in the field of Horn Performance

Program Learning Outcomes for the Artist Diploma

Upon completing the Artist Diploma, students will be able to:

1. Demonstrate the technical mastery and musical expertise requisite to having a significant professional career in their chosen area of performance.
2. Intellectually master the stylistic differences when performing music of the Baroque, Classical, Romantic, modern and contemporary eras and be able to apply them in performance.
3. Accumulate a significantly expanded and diverse list of repertoire.
4. Be equipped with multiple extra-musical career skills.

Requirements for the Artist Diploma

For general university requirements, see Diploma Programs (p. 66).

Students pursuing the Artist Diploma in any field of music performance must complete:

- A minimum of 41 credit hours to satisfy the Artist Diploma requirements.

Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

Grading Policy
A minimum grade of “B-” is expected of all music students in their major applied area. A grade of “C+” or lower is considered unsatisfactory and will be evaluated in the following manner:

A music major who receives a grade of “C+” or lower in their major applied area will be placed on music probation. Music probation signifies that the student’s work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of “C+” or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

Note: For music history and musicology majors a grade of “C+” or lower in any music history course is considered unsatisfactory and will be evaluated as above.

Graduate degree requirement: a minimum grade point average of 2.67 is necessary for graduation.

Leaves of Absence and Voluntary Withdrawal
Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean’s office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

For additional information, please see the Shepherd School website at: http://music.rice.edu

Opportunities for the Artist Diploma

Other Musical Opportunities

Lectures and Performances
A visiting lecture series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.

For additional information, please see the Shepherd School website at: http://music.rice.edu

Artist Diploma (AD) in the field of Percussion Performance

Program Learning Outcomes for the Artist Diploma

Upon completing the Artist Diploma, students will be able to:

1. Demonstrate the technical mastery and musical expertise requisite to having a significant professional career in their chosen area of performance.
2. Intellectually master the stylistic differences when performing music of the Baroque, Classical, Romantic, modern and contemporary eras and be able to apply them in performance.
3. Accumulate a significantly expanded and diverse list of repertoire.
4. Be equipped with multiple extra-musical career skills.

Requirements for the Artist Diploma

For general university requirements, see Diploma Programs (p. 66). Students pursuing the Artist Diploma in any field of music performance must complete:

• A minimum of 41 credit hours to satisfy the Artist Diploma requirements.

**Grading Policy**

A minimum grade of "B-" is expected of all music students in their major applied area. A grade of "C+" or lower is considered unsatisfactory and will be evaluated in the following manner:

A music major who receives a grade of "C+" or lower in their major applied area will be placed on music probation. Music probation signifies that the student’s work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of "C+" or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

**Note:** For music history and musicology majors a grade of "C+" or lower in any music history course is considered unsatisfactory and will be evaluated as above.

**Graduate degree requirement:** a minimum grade point average of 2.67 is necessary for graduation.

**Leaves of Absence and Voluntary Withdrawal**

Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean’s office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

For additional information, please see the Shepherd School website at: [http://music.rice.edu](http://music.rice.edu)

**Opportunities for the Artist Diploma**

**Other Musical Opportunities**

**Lectures and Performances**

A visiting lecture series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.

For additional information, please see the Shepherd School website at: [http://music.rice.edu](http://music.rice.edu)

---

**Artistic Performance (AD) in the field of Viola Performance**

**Program Learning Outcomes for the Artist Diploma**

Upon completing the Artist Diploma, students will be able to:
1. Demonstrate the technical mastery and musical expertise requisite to having a significant professional career in their chosen area of performance.
2. Intellectually master the stylistic differences when performing music of the Baroque, Classical, Romantic, modern and contemporary eras and be able to apply them in performance.
3. Accumulate a significantly expanded and diverse list of repertoire.
4. Be equipped with multiple extra-musical career skills.

Requirements for the Artist Diploma

For general university requirements, see Diploma Programs (p. 66). Students pursuing the Artist Diploma in any field of music performance must complete:

- A minimum of 41 credit hours to satisfy the Artist Diploma requirements.

Bachelor of Arts (BA) Degree with a Major in Music

Program Learning Outcomes for the BA Degree with a Major in Music

Upon completing the BA degree with a major in Music, students will be able to:

1. Demonstrate an intermediate level of technical and musical competence in performance.
2. Possess rudimentary skills in music theory and an understanding of how those skills are related to music performance.
3. Acquire a fundamental understanding and appreciation of the various historical periods of music literature.

Requirements for the BA Degree with a Major in Music

For general university requirements, see Graduation Requirements (p. 25). Students pursuing the BA degree with a major in Music must complete:

- A minimum of 19 courses (43-51 credit hours) to satisfy major requirements.
- A minimum of 120 credit hours to satisfy degree requirements.
- A minimum of 60 credit hours outside the major.
- A minimum of 14 courses (30 credit hours) taken at the 300-level or above.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major's academic advisor (or official certifier). Students and their academic advisors should identify and clearly document the courses to be taken.

Total Credit Hours Required for the Major in Music 43-51

Additional Credit Hours to Complete BA Degree Requirements 9-17

University Graduation Requirements (p. 25) 60

Total Credit Hours 120

**Footnotes and Additional Information**

* Includes coursework completed as distribution credit, FWIS, LPAR upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The "hours outside of the major" requirement may include all of the above university requirements.

1 Students in the BA degree program who wish to continue taking private lessons beyond the required four (4) semesters of individual instrumental and/or vocal study must obtain permission from the dean of the Shepherd School of Music.

**Policies for the BA Degree with a Major in Music**

**Admission**

The Shepherd School does not admit students to the BA degree with a major in Music. It is provided as an option for those BMus performance majors who no longer wish to pursue the performance degree.

**Academic Standards**

**Curriculum and Degree Requirements**

Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

**Grading Policy**

A minimum grade of "B-" is expected of all music students in their major applied area. A grade of "C+" or lower is considered unsatisfactory and will be evaluated in the following manner.
A music major who receives a grade of "C+" or lower in their major applied area will be placed on music probation. Music probation signifies that the student’s work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of "C+" or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a BMus degree seeking student and merit scholarship from the Shepherd School will be discontinued.

Note: For music history and musicology majors, a grade of "C+" or lower in any music history course is considered unsatisfactory and will be evaluated as noted above. For music theory majors, a grade of "C+" or lower in any advanced music theory course is considered unsatisfactory and will be evaluated as noted above.

Leaves of Absence and Voluntary Withdrawal
Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean’s office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Transfers Credit
For Rice University's policy regarding transfer credit, see Transfer Credit (p. 32). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: http://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Performance
Students are expected to perform frequently during their residence at Rice. Students are expected to attend both faculty and student recitals. In addition, all music majors must participate in the school’s conducted ensembles as assigned.

Examination
At the end of each semester, a jury examination in applied music may be given over the material studied during the semester.

Bachelor of Music (BMus) Degree with a Major in Bassoon Performance

Program Learning Outcomes for the BMus Degree

Upon completing the BMus degree, students will be able to:

1. Demonstrate technical and musical competence in solo performance, composition, or music-historical research appropriate to the standards of a four-year undergraduate program.
2. Possess intermediate analytical skills in music theory and an understanding of how those skills inform music performance.
3. Acquire a fundamental understanding of the relationship between music history and music performance.
4. Develop superior technical collaborative skills in the student’s major area through a combination of practice, coaching, and rehearsal in large and small ensembles.

Requirements for the BMus Degree

For general university requirements, see Graduation Requirements (p. 25). Students pursuing the BMus degree must complete:

- The requirements for one major offered by the BMus degree program
- A minimum of 120 credit hours to satisfy degree requirements

All students pursuing the BMus degree in any major must participate in core music, applied music, and other required music courses as well as in chamber music and large ensembles, plus electives. These students are entitled to one hour of private lessons each week of each semester they are enrolled as a music major; private or group lessons beyond this may result in additional fees.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor (or official certifier). Students and their academic advisors should identify and clearly document the courses to be taken.

Footnotes and Additional Information

* Includes coursework completed as distribution credit, FWIS, LPAP, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The "hours outside of the major" requirement may include all of the above university requirements.

Recommended

It is recommended, though not required, for students to complete MUSI 723.

Policies for the BMus Degree

Admission

An audition, in person, is required of each undergraduate applicant. A recorded audition may be considered in lieu of a live audition in extreme circumstances. The Shepherd School faculty and the university's Committee on Admission jointly determine admission, the latter basing its evaluation on successful academic achievement and other standards of college admission. Transfer applicants from other colleges, conservatories, and universities also must provide an audition, and take placement exams in both music history and music theory. Once admitted, their prior preparation in music is assessed, which may reduce the required period of study at Rice.

Academic Standards

Curriculum and Degree Requirements

Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

Grading Policy

A minimum grade of "B-" is expected of all music students in their major applied area. A grade of "C+" or lower is considered unsatisfactory and will be evaluated in the following manner:

A music major who receives a grade of "C+" or lower in their major applied area will be placed on music probation. Music probation signifies that the student's work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of "C+" or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a BMus degree seeking student and merit scholarship from the Shepherd School will be discontinued.

Note: For music history and musicology majors, a grade of "C+" or lower in any music history course is considered unsatisfactory and will be evaluated as noted above. For music theory majors, a grade of "C+" or lower in any advanced music theory course is considered unsatisfactory and will be evaluated as noted above.

Leaves of Absence and Voluntary Withdrawal

Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean's office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked...
to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Transfer Credit
For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 32). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: http://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Examinations
At the end of each semester, a jury examination in applied music may be given over the material studied during the semester. All degree candidates except BA students must demonstrate keyboard proficiency by examination. If students have little or no knowledge of the keyboard, they should enroll in secondary piano at the beginning of their first semester and continue study until they can meet the examination requirements.

Performance
Students are expected to perform frequently during their residence at Rice. Performance majors must present at least two full recitals. Composition and conducting students should present recitals as specified by their degree programs. Students are expected to attend both faculty and student recitals. In addition, all music majors must participate in the school’s conducted ensembles as assigned. For additional information, please see the School of Music website at: http://music.rice.edu

Opportunities for the BMus Degree

BMus/MMus Honors Program
Shepherd School students who demonstrate truly exceptional musical and academic accomplishment may apply for the BMus/MMus five-year coordinated program. This program, often referred to in the school as the BMus/MMus Honors Program, allows for the completion and awarding of both the BMus and MMus degrees concurrently. Application to this program is made in the student’s fifth or sixth semester of undergraduate studies.

The same general university requirements apply, but students seeking the combined BMus/MMus degrees must complete a total of at least 150 semester hours by graduation. The number of required hours varies according to major area.

The first five semesters of course work in this program parallel the core curriculum of the bachelor’s degrees. The sixth semester is a transitional semester during which students qualify for admission to the combined program. For further information, including application procedures, see the Shepherd School Student Handbook.

Other Musical Opportunities

Lectures and Performances
A visiting lecture series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.

Academic Honors
The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (p. 47) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 47). Some departments have department-specific Honors awards or designations.

For additional information, please see the School of Music website at: http://music.rice.edu

Bachelor of Music (BMus) Degree with a Major in Cello Performance

Program Learning Outcomes for the BMus Degree

Upon completing the BMus degree, students will be able to:

1. Demonstrate technical and musical competence in solo performance, composition, or music-historical research appropriate to the standards of a four-year undergraduate program.
2. Possess intermediate analytical skills in music theory and an understanding of how those skills inform music performance.
3. Acquire a fundamental understanding of the relationship between music history and music performance.
4. Develop superior technical collaborative skills in the student’s major area through a combination of practice, coaching, and rehearsal in large and small ensembles.

Requirements for the BMus Degree
For general university requirements, see Graduation Requirements (p. 25). Students pursuing the BMus degree must complete:

• The requirements for one major offered by the BMus degree program
• A minimum of 120 credit hours to satisfy degree requirements

All students pursuing the BMus degree in any major must participate in core music, applied music, and other required music courses as well as in chamber music and large ensembles, plus electives. These students are entitled to one hour of private lessons each week of each semester they are enrolled as a music major; private or group lessons beyond this may result in additional fees.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor (or official certifier). Students and their academic advisors should identify and clearly document the courses to be taken.

### Piano Proficiency Exam

Students must complete and pass the Piano Proficiency Exam.

### Total Credit Hours Required for the Major in Cello Performance
86

### University Graduation Requirements (p. 25)

#### Total Credit Hours
120

### Footnotes and Additional Information

* Includes coursework completed as distribution credit, FWIS, LPAP, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The *hours outside of the major* requirement may include all of the above university requirements.

### Policies for the BMus Degree

#### Admission

An audition, in person, is required of each undergraduate applicant. A recorded audition may be considered in lieu of a live audition in extreme circumstances. The Shepherd School faculty and the university’s Committee on Admission jointly determine admission, the latter basing its evaluation on successful academic achievement and other standards of college admission. Transfer applicants from other colleges, conservatories, and universities also must provide an audition, and take placement exams in both music history and music theory. Once admitted, their prior preparation in music is assessed, which may reduce the required period of study at Rice.

#### Academic Standards

**Curriculum and Degree Requirements**

Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

#### Grading Policy

A minimum grade of “B-” is expected of all music students in their major applied area. A grade of “C+” or lower is considered unsatisfactory and will be evaluated in the following manner:

A music major who receives a grade of “C+” or lower in their major applied area will be placed on music probation. Music probation signifies that the student’s work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of “C+” or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a BMus degree seeking student and merit scholarship from the Shepherd School will be discontinued.

**Note:** For music history and musicology majors, a grade of “C+” or lower in any music history course is considered unsatisfactory and will be evaluated as noted above. For music theory majors, a grade of “C+” or lower in any advanced music theory course is considered unsatisfactory and will be evaluated as noted above.
Leaves of Absence and Voluntary Withdrawal
Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be made to the dean’s office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed re-admission into the Shepherd School and may be asked to reapply/re-audit. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Transfer Credit
For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 32). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: http://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Examinations
At the end of each semester, a jury examination in applied music may be given over the material studied during the semester. All degree candidates except BA students must demonstrate keyboard proficiency by examination. If students have little or no knowledge of the keyboard, they should enroll in secondary piano at the beginning of their first semester and continue study until they can meet the examination requirements.

Performance
Students are expected to perform frequently during their residence at Rice. Performance majors must present at least two full recitals. Composition and conducting students should present recitals as specified by their degree programs. Students are expected to attend both faculty and student recitals. In addition, all music majors must participate in the school’s conducted ensembles as assigned.

For additional information, please see the School of Music website at: http://music.rice.edu

Opportunities for the BMus Degree
BMus/MMus Honors Program
Shepherd School students who demonstrate truly exceptional musical and academic accomplishment may apply for the BMus/MMus five-year coordinated program. This program, often referred to in the school as the BMus/MMus Honors Program, allows for the completion and awarding of both the BMus and MMus degrees concurrently. Application to this program is made in the student’s fifth or sixth semester of undergraduate studies.

The same general university requirements apply, but students seeking the combined BMus/MMus degrees must complete a total of at least 150 semester hours by graduation. The number of required hours varies according to major area.

The first five semesters of coursework in this program parallel the core curriculum of the bachelor’s degrees. The sixth semester is a transitional semester during which students qualify for admission to the combined program. For further information, including application procedures, see the Shepherd School Student Handbook.

Other Musical Opportunities
Lectures and Performances
A visiting lecture series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.

Academic Honors
The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 47) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 47). Some departments have department-specific Honors awards or designations.

For additional information, please see the School of Music website at: http://music.rice.edu

Bachelor of Music (BMus) Degree with a Major in Clarinet Performance
Program Learning Outcomes for the BMus Degree
Upon completing the BMus degree, students will be able to:

1. Demonstrate technical and musical competence in solo performance, composition, or music-historical research appropriate to the standards of a four-year undergraduate program.
2. Possess intermediate analytical skills in music theory and an understanding of how those skills inform music performance.
3. Acquire a fundamental understanding of the relationship between music history and music performance.
4. Develop superior technical collaborative skills in the student’s major area through a combination of practice, coaching, and rehearsal in large and small ensembles.

Requirements for the BMus Degree
For general university requirements, see Graduation Requirements (p. 25). Students pursuing the BMus degree must complete:

• The requirements for one major offered by the BMus degree program
• A minimum of 120 credit hours to satisfy degree requirements

All students pursuing the BMus degree in any major must participate in core music, applied music, and other required music courses as well as in chamber music and large ensembles, plus electives. These students are entitled to one hour of private lessons each week of each semester they are enrolled as a music major; private or group lessons beyond this may result in additional fees.

The courses listed below satisfy the requirements for this major. Once admitted, their prior preparation in music is assessed, which may reduce the required period of study at Rice.

**Academic Standards**

**Grading Policy**

A minimum grade of "B-" is expected of all music students in their major applied area. A grade of "C+" or lower is considered unsatisfactory and will be evaluated in the following manner:

A music major who receives a grade of "C+" or lower in their major applied area will be placed on music probation. Music probation signifies that the student's work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of "C+" or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a BMus degree seeking student and merit scholarship from the Shepherd School will be discontinued.
Note: For music history and musicology majors, a grade of "C+" or lower in any music history course is considered unsatisfactory and will be evaluated as noted above. For music theory majors, a grade of "C+" or lower in any advanced music theory course is considered unsatisfactory and will be evaluated as noted above.

Leaves of Absence and Voluntary Withdrawal
Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean's office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudit. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Transfer Credit
For Rice University's policy regarding transfer credit, see Transfer Credit (p. 32). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of transfer credit advisors on their website: http://oaa.rice.edu. Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

Examinations
At the end of each semester, a jury examination in applied music may be given over the material studied during the semester. All degree candidates except BA students must demonstrate keyboard proficiency by examination. If students have little or no knowledge of the keyboard, they should enroll in secondary piano at the beginning of their first semester and continue study until they can meet the examination requirements.

Performance
Students are expected to perform frequently during their residence at Rice. Performance majors must present at least two full recitals. Composition and conducting students should present recitals as specified by their degree programs. Students are expected to attend both faculty and student recitals. In addition, all music majors must participate in the school's conducted ensembles as assigned.

For additional information, please see the School of Music website at: http://music.rice.edu

Opportunities for the BMus Degree

Academic Honors
The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 47) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 47). Some departments have department-specific Honors awards or designations.

BMus/MMus Honors Program
Shepherd School students who demonstrate truly exceptional musical and academic accomplishment may apply for the BMus/MMus five-year coordinated program. This program, often referred to in the school as the BMus/MMus Honors Program, allows for the completion and awarding of both the BMus and MMus degrees concurrently. Application to this program is made in the student's fifth or sixth semester of undergraduate studies.

The same general university requirements apply, but students seeking the combined BMus/MMus degrees must complete a total of at least 150 semester hours by graduation. The number of required hours varies according to major area.

The first five semesters of course work in this program parallel the core curriculum of the bachelor's degrees. The sixth semester is a transitional semester during which students qualify for admission to the combined program. For further information, including application procedures, see the Shepherd School Student Handbook.

Other Musical Opportunities

Lectures and Performances
A visiting lecture series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.

For additional information, please see the School of Music website at: http://music.rice.edu

Bachelor of Music (BMus) Degree with a Major in Double Bass Performance

Program Learning Outcomes for the BMus Degree

Upon completing the BMus degree, students will be able to:

1. Demonstrate technical and musical competence in solo performance, composition, or music-historical research appropriate to the standards of a four-year undergraduate program.
2. Possess intermediate analytical skills in music theory and an understanding of how those skills inform music performance.
3. Acquire a fundamental understanding of the relationship between music history and music performance.
4. Develop superior technical collaborative skills in the student's major area through a combination of practice, coaching, and rehearsal in large and small ensembles.

Requirements for the BMus Degree

For general university requirements, see Graduation Requirements (p. 25). Students pursuing the BMus degree must complete:

- The requirements for one major offered by the BMus degree program
- A minimum of 120 credit hours to satisfy degree requirements

All students pursuing the BMus degree in any major must participate in core music, applied music, and other required music courses as well as in chamber music and large ensembles, plus electives. These students are entitled to one hour of private lessons each week of each semester they are enrolled as a music major; private or group lessons beyond this may result in additional fees.
The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor (or official certifier). Students and their academic advisors should identify and clearly document the courses to be taken.

**Footnotes and Additional Information**

* Includes coursework completed as distribution credit, FWIS, LPAP, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The “hours outside of the major” requirement may include all of the above university requirements.

**Policies for the BMus Degree**

**Admission**

An audition, in person, is required of each undergraduate applicant. A recorded audition may be considered in lieu of a live audition in extreme circumstances. The Shepherd School faculty and the university’s Committee on Admission jointly determine admission, the latter basing its evaluation on successful academic achievement and other standards of college admission. Transfer applicants from other colleges, conservatories, and universities also must provide an audition, and take placement exams in both music history and music theory. Once admitted, their prior preparation in music is assessed, which may reduce the required period of study at Rice.

**Academic Standards**

**Curriculum and Degree Requirements**

Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

**Grading Policy**

A minimum grade of “B-” is expected of all music students in their major applied area. A grade of “C+” or lower is considered unsatisfactory and will be evaluated in the following manner:

A music major who receives a grade of “C+” or lower in their major applied area will be placed on music probation. Music probation signifies that the student’s work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.
If a student receives a second semester of “C+” or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a BMus degree seeking student and merit scholarship from the Shepherd School will be discontinued.

Note: For music history and musicology majors, a grade of “C+” or lower in any music history course is considered unsatisfactory and will be evaluated as noted above. For music theory majors, a grade of “C+” or lower in any advanced music theory course is considered unsatisfactory and will be evaluated as noted above.

Leaves of Absence and Voluntary Withdrawal

Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean’s office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/re audition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Transfer Credit

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 32). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: http://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Examinations

At the end of each semester, a jury examination in applied music may be given over the material studied during the semester. All degree candidates except BA students must demonstrate keyboard proficiency by examination. If students have little or no knowledge of the keyboard, they should enroll in secondary piano at the beginning of their first semester and continue study until they can meet the examination requirements.

Performance

Students are expected to perform frequently during their residence at Rice. Performance majors must present at least two full recitals. Composition and conducting students should present recitals as specified by their degree programs. Students are expected to attend both faculty and student recitals. In addition, all music majors must participate in the school’s conducted ensembles as assigned.

**Footnotes and Additional Information**

* Includes coursework completed as distribution credit, FWIS, LPAP, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The “hours outside of the major” requirement may include all of the above university requirements.

**Recommended**

It is recommended, though not required, that music students complete FREN 141 in addition to the requirements listed above. MUSI 338 may be recommended at the discretion of the instructor in addition to the requirements listed above.

**Policies for the BMus Degree**

**Admission**

An audition, in person, is required of each undergraduate applicant. A recorded audition may be considered in lieu of a live audition in extreme circumstances. The Shepherd School faculty and the university’s Committee on Admission jointly determine admission, the latter basing its evaluation on successful academic achievement and other standards of college admission. Transfer applicants from other colleges, conservatories, and universities also must provide an audition, and take placement exams in both music history and music theory. Once admitted, their prior preparation in music is assessed, which may reduce the required period of study at Rice.

**Academic Standards**

**Curriculum and Degree Requirements**

Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

**Grading Policy**

A minimum grade of “B-” is expected of all music students in their major applied area. A grade of “C+” or lower is considered unsatisfactory and will be evaluated in the following manner:
A music major who receives a grade of "C+" or lower in their major applied area will be placed on music probation. Music probation signifies that the student's work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of "C+" or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a BMus degree seeking student and merit scholarship from the Shepherd School will be discontinued.

Note: For music history and musicology majors, a grade of "C+" or lower in any music history course is considered unsatisfactory and will be evaluated as noted above. For music theory majors, a grade of "C+" or lower in any advanced music theory course is considered unsatisfactory and will be evaluated as noted above.

Leaves of Absence and Voluntary Withdrawal
Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean's office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Transfer Credit
For Rice University's policy regarding transfer credit, see Transfer Credit (p. 32). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of transfer credit advisors on their website: http://oaa.rice.edu. Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

Examinations
At the end of each semester, a jury examination in applied music may be given over the material studied during the semester. All degree candidates except BA students must demonstrate keyboard proficiency by examination. If students have little or no knowledge of the keyboard, they should enroll in secondary piano at the beginning of their first semester and continue study until they can meet the examination requirements.

Performance
Students are expected to perform frequently during their residence at Rice. Performance majors must present at least two full recitals. Composition and conducting students should present recitals as specified by their degree programs. Students are expected to attend both faculty and student recitals. In addition, all music majors must participate in the school's conducted ensembles as assigned.

For additional information, please see the School of Music website at: http://music.rice.edu

Opportunities for the BMus Degree
Academic Honors
The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 47) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 47). Some departments have department-specific Honors awards or designations.

BMus/MMus Honors Program
Shepherd School students who demonstrate truly exceptional musical and academic accomplishment may apply for the BMus/MMus five-year coordinated program. This program, often referred to in the school as the BMus/MMus Honors Program, allows for the completion and awarding of both the BMus and MMus degrees concurrently. Application to this program is made in the student's fifth or sixth semester of undergraduate studies.

The same general university requirements apply, but students seeking the combined BMus/MMus degrees must complete a total of at least 150 semester hours by graduation. The number of required hours varies according to major area.

The first five semesters of course work in this program parallel the core curriculum of the bachelor's degrees. The sixth semester is a transitional semester during which students qualify for admission to the combined program. For further information, including application procedures, see the Shepherd School Student Handbook.

Other Musical Opportunities
Lectures and Performances
A visiting lecture series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.

For additional information, please see the School of Music website at: http://music.rice.edu

Bachelor of Music (BMus) Degree with a Major in Horn Performance
Program Learning Outcomes for the BMus Degree

Upon completing the BMus degree, students will be able to:

1. Demonstrate technical and musical competence in solo performance, composition, or music-historical research appropriate to the standards of a four-year undergraduate program.
2. Possess intermediate analytical skills in music theory and an understanding of how those skills inform music performance.
3. Acquire a fundamental understanding of the relationship between music history and music performance.
4. Develop superior technical collaborative skills in the student’s major area through a combination of practice, coaching, and rehearsal in large and small ensembles.

**Requirements for the BMus Degree**

For general university requirements, see Graduation Requirements (p. 25). Students pursuing the BMus degree must complete:

- The requirements for one major offered by the BMus degree program
- A minimum of 120 credit hours to satisfy degree requirements

All students pursuing the BMus degree in any major must participate in core music, applied music, and other required music courses as well as in chamber music and large ensembles, plus electives. These students are entitled to one hour of private lessons each week of each semester they are enrolled as a music major; private or group lessons beyond this may result in additional fees.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor (or official certifier). Students and their academic advisors should identify and clearly document the courses to be taken.

### Policies for the BMus Degree

**Admission**

An audition, in person, is required of each undergraduate applicant. A recorded audition may be considered in lieu of a live audition in extreme circumstances. The Shepherd School faculty and the university's
Committee on Admission jointly determine admission, the latter basing its evaluation on successful academic achievement and other standards of college admission. Transfer applicants from other colleges, conservatories, and universities also must provide an audition, and take placement exams in both music history and music theory. Once admitted, their prior preparation in music is assessed, which may reduce the required period of study at Rice.

Academic Standards
Curriculum and Degree Requirements
Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

Grading Policy
A minimum grade of "B-" is expected of all music students in their major applied area. A grade of "C+" or lower is considered unsatisfactory and will be evaluated in the following manner:

A music major who receives a grade of "C+" or lower in their major applied area will be placed on music probation. Music probation signifies that the student’s work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of "C+" or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a BMus degree seeking student and merit scholarship from the Shepherd School will be discontinued.

Note: For music history and musicology majors, a grade of "C+" or lower in any music history course is considered unsatisfactory and will be evaluated as noted above. For music theory majors, a grade of "C+" or lower in any advanced music theory course is considered unsatisfactory and will be evaluated as noted above.

Leaves of Absence and Voluntary Withdrawal
Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean’s office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Transfer Credit
For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 32). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: http://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Examinations
At the end of each semester, a jury examination in applied music may be given over the material studied during the semester. All degree candidates except BA students must demonstrate keyboard proficiency by examination. If students have little or no knowledge of the keyboard, they should enroll in secondary piano at the beginning of their first semester and continue study until they can meet the examination requirements.

Performance
Students are expected to perform frequently during their residence at Rice. Performance majors must present at least two full recitals. Composition and conducting students should present recitals as specified by their degree programs. Students are expected to attend both faculty and student recitals. In addition, all music majors must participate in the school’s conducted ensembles as assigned.

For additional information, please see the School of Music website at: http://music.rice.edu

Opportunities for the BMus Degree
BMus/MMus Honors Program
Shepherd School students who demonstrate truly exceptional musical and academic accomplishment may apply for the BMus/MMus five-year coordinated program. This program, often referred to in the school as the BMus/MMus Honors Program, allows for the completion and awarding of both the BMus and MMus degrees concurrently. Application to this program is made in the student's fifth or sixth semester of undergraduate studies.

The same general university requirements apply, but students seeking the combined BMus/MMus degrees must complete a total of at least 150 semester hours by graduation. The number of required hours varies according to major area.

The first five semesters of course work in this program parallel the core curriculum of the bachelor’s degrees. The sixth semester is a transitional semester during which students qualify for admission to the combined program. For further information, including application procedures, see the Shepherd School Student Handbook.

Other Musical Opportunities
Lectures and Performances
A visiting lecture series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.

Academic Honors
The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (p. 47) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 47). Some departments have department-specific Honors awards or designations.

For additional information, please see the School of Music website at: http://music.rice.edu

Bachelor of Music (BMus) Degree with a Major in Music Theory
Program Learning Outcomes for the BMus Degree

Upon completing the BMus degree, students will be able to:

1. Demonstrate technical and musical competence in solo performance, composition, or music-historical research appropriate to the standards of a four-year undergraduate program.
2. Possess intermediate analytical skills in music theory and an understanding of how those skills inform music performance.
3. Acquire a fundamental understanding of the relationship between music history and music performance.
4. Develop superior technical collaborative skills in the student’s major area through a combination of practice, coaching, and rehearsal in large and small ensembles.

Requirements for the BMus Degree

For general university requirements, see Graduation Requirements (p. 25).

Students pursuing the BMus degree must complete:

- The requirements for one major offered by the BMus degree program
- A minimum of 120 credit hours to satisfy degree requirements

All students pursuing the BMus degree in any major must participate in core music, applied music, and other required music courses as well as in chamber music and large ensembles, plus electives. These students are entitled to one hour of private lessons each week of each semester they are enrolled as a music major; private or group lessons beyond this may result in additional fees.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor (or official certifier). Students and their academic advisors should identify and clearly document the courses to be taken.

Bachelor of Music (BMus) Degree with a Major in Percussion Performance

Program Learning Outcomes for the BMus Degree

Upon completing the BMus degree, students will be able to:

1. Demonstrate technical and musical competence in solo performance, composition, or music-historical research appropriate to the standards of a four-year undergraduate program.
2. Possess intermediate analytical skills in music theory and an understanding of how those skills inform music performance.
3. Acquire a fundamental understanding of the relationship between music history and music performance.
4. Develop superior technical collaborative skills in the student’s major area through a combination of practice, coaching, and rehearsal in large and small ensembles.

Requirements for the BMus Degree

For general university requirements, see Graduation Requirements (p. 25). Students pursuing the BMus degree must complete:

- The requirements for one major offered by the BMus degree program
- A minimum of 120 credit hours to satisfy degree requirements

All students pursuing the BMus degree in any major must participate in core music, applied music, and other required music courses as well as in chamber music and large ensembles, plus electives. These students are entitled to one hour of private lessons each week of each semester they are enrolled as a music major; private or group lessons beyond this may result in additional fees.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor (or official certifier). Students and their academic advisors should identify and clearly document the courses to be taken.

For general university requirements, see Graduation Requirements (p. 25).
Policies for the BMus Degree

Admission
An audition, in person, is required of each undergraduate applicant. A recorded audition may be considered in lieu of a live audition in extreme circumstances. The Shepherd School faculty and the university’s Committee on Admission jointly determine admission, the latter basing its evaluation on successful academic achievement and other standards of college admission. Transfer applicants from other colleges, conservatories, and universities also must provide an audition, and take placement exams in both music history and music theory. Once admitted, their prior preparation in music is assessed, which may reduce the required period of study at Rice.

Academic Standards
Curriculum and Degree Requirements
Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

Grading Policy
A minimum grade of “B–” is expected of all music students in their major applied area. A grade of “C+” or lower is considered unsatisfactory and will be evaluated in the following manner:

- A music major who receives a grade of “C+” or lower in their major applied area will be placed on music probation. Music probation signifies that the student’s work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

- If a student receives a second semester of “C+” or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a BMus degree seeking student and merit scholarship from the Shepherd School will be discontinued.

Note: For music history and musicology majors, a grade of “C+” or lower in any music history course is considered unsatisfactory and will be evaluated as noted above. For music theory majors, a grade of “C+” or lower in any advanced music theory course is considered unsatisfactory and will be evaluated as noted above.

Leaves of Absence and Voluntary Withdrawal
Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean’s office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Transfer Credit
For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 32). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: http://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Examinations
At the end of each semester, a jury examination in applied music may be given over the material studied during the semester. All degree candidates except BA students must demonstrate keyboard proficiency by examination. If students have little or no knowledge of the keyboard, they should enroll in secondary piano at the beginning of their first semester and continue study until they can meet the examination requirements.

Performance
Students are expected to perform frequently during their residence at Rice. Performance majors must present at least two full recitals. Composition and conducting students should present recitals as specified by their degree programs. Students are expected to attend both faculty and student recitals. In addition, all music majors must participate in the school’s conducted ensembles as assigned.

For additional information, please see the School of Music website at: http://music.rice.edu

Opportunities for the BMus Degree
Academic Honors
The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university
honors, please see Latin Honors (p. 47) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 47). Some departments have department-specific Honors awards or designations.

**BMus/MMus Honors Program**

Shepherd School students who demonstrate truly exceptional musical and academic accomplishment may apply for the BMus/MMus five-year coordinated program. This program, often referred to in the school as the BMus/MMus Honors Program, allows for the completion and awarding of both the BMus and MMus degrees concurrently. Application to this program is made in the student’s fifth or sixth semester of undergraduate studies.

The same general university requirements apply, but students seeking the combined BMus/MMus degrees must complete a total of at least 150 semester hours by graduation. The number of required hours varies according to major area.

The first five semesters of course work in this program parallel the core curriculum of the bachelor’s degrees. The sixth semester is a transitional semester during which students qualify for admission to the combined program. For further information, including application procedures, see the Shepherd School Student Handbook.

**Other Musical Opportunities**

**Lectures and Performances**

A visiting lecture series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.

For additional information, please see the School of Music website at: [http://music.rice.edu](http://music.rice.edu)

**Bachelor of Music (BMus) Degree with a Major in Piano Performance**

**Program Learning Outcomes for the BMus Degree**

Upon completing the BMus degree, students will be able to:

1. Demonstrate technical and musical competence in solo performance, composition, or music-historical research appropriate to the standards of a four-year undergraduate program.
2. Possess intermediate analytical skills in music theory and an understanding of how those skills inform music performance.
3. Acquire a fundamental understanding of the relationship between music history and music performance.
4. Develop superior technical collaborative skills in the student’s major area through a combination of practice, coaching, and rehearsal in large and small ensembles.

**Requirements for the BMus Degree**

For general university requirements, see Graduation Requirements (p. 25). Students pursuing the BMus degree must complete:

- The requirements for one major offered by the BMus degree program
- A minimum of 120 credit hours to satisfy degree requirements

All students pursuing the BMus degree in any major must participate in core music, applied music, and other required music courses as well as in chamber music and large ensembles, plus electives. These students are entitled to one hour of private lessons each week of each semester they are enrolled as a music major; private or group lessons beyond this may result in additional fees.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor (or official certifier). Students and their academic advisors should identify and clearly document the courses to be taken.

For music theory majors, a grade of "C+" or lower in any advanced music theory course is considered unsatisfactory and will be evaluated as noted above.

Leaves of Absence and Voluntary Withdrawal
Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean’s office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Transfer Credit
For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 32). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: [http://oaa.rice.edu](http://oaa.rice.edu). Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Examinations
At the end of each semester, a jury examination in applied music may be given over the material studied during the semester. All degree candidates except BA students must demonstrate keyboard proficiency by examination. If students have little or no knowledge of the keyboard, they should enroll in secondary piano at the beginning of their first semester and continue study until they can meet the examination requirements.

Performance
Students are expected to perform frequently during their residence at Rice. Performance majors must present at least two full recitals. Composition and conducting students should present recitals as
specified by their degree programs. Students are expected to attend both faculty and student recitals. In addition, all music majors must participate in the school's conducted ensembles as assigned.

For additional information, please see the School of Music website at: http://music.rice.edu

Opportunities for the BMus Degree

Academic Honors

The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 47) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 47). Some departments have department-specific Honors awards or designations.

BMus/MMus Honors Program

Shepherd School students who demonstrate truly exceptional musical and academic accomplishment may apply for the BMus/MMus five-year coordinated program. This program, often referred to in the school as the BMus/MMus Honors Program, allows for the completion and awarding of both the BMus and MMus degrees concurrently. Application to this program is made in the student's fifth or sixth semester of undergraduate studies.

The same general university requirements apply, but students seeking the combined BMus/MMus degrees must complete a total of at least 150 semester hours by graduation. The number of required hours varies according to major area.

The first five semesters of course work in this program parallel the core curriculum of the bachelor's degrees. The sixth semester is a transitional semester during which students qualify for admission to the combined program. For further information, including application procedures, see the Shepherd School Student Handbook.

Other Musical Opportunities

Lectures and Performances

A visiting lecture series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.

For additional information, please see the School of Music website at: http://music.rice.edu

Bachelor of Music (BMus) Degree with a Major in Tuba Performance

Program Learning Outcomes for the BMus Degree

Upon completing the BMus degree, students will be able to:

1. Demonstrate technical and musical competence in solo performance, composition, or music-historical research appropriate to the standards of a four-year undergraduate program.

2. Possess intermediate analytical skills in music theory and an understanding of how those skills inform music performance.

3. Acquire a fundamental understanding of the relationship between music history and music performance.

4. Develop superior technical collaborative skills in the student's major area through a combination of practice, coaching, and rehearsal in large and small ensembles.

Requirements for the BMus Degree

For general university requirements, see Graduation Requirements (p. 25). Students pursuing the BMus degree must complete:

- The requirements for one major offered by the BMus degree program
- A minimum of 120 credit hours to satisfy degree requirements

All students pursuing the BMus degree in any major must participate in core music, applied music, and other required music courses as well as in chamber music and large ensembles, plus electives. These students are entitled to one hour of private lessons each week of each semester they are enrolled as a music major; private or group lessons beyond this may result in additional fees.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major's academic advisor (or official certifier). Students and their academic advisors should identify and clearly document the courses to be taken.

Degree Requirements
### Policies for the BMus Degree

#### Admission

An audition, in person, is required of each undergraduate applicant. A recorded audition may be considered in lieu of a live audition in extreme circumstances. The Shepherd School faculty and the university’s Committee on Admission jointly determine admission, the latter basing its evaluation on successful academic achievement and other standards of college admission. Transfer applicants from other colleges, conservatories, and universities also must provide an audition, and take placement exams in both music history and music theory. Once admitted, their prior preparation in music is assessed, which may reduce the required period of study at Rice.

#### Academic Standards

**Curriculum and Degree Requirements**

Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

**Grading Policy**

A minimum grade of “B-” is expected of all music students in their major applied area. A grade of “C+” or lower is considered unsatisfactory and will be evaluated in the following manner:

A music major who receives a grade of “C+” or lower in their major applied area will be placed on music probation. Music probation signifies that the student’s work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of “C+” or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a BMus degree seeking student and merit scholarship from the Shepherd School will be discontinued.

**Footnotes and Additional Information**

Note: For music history and musicology majors, a grade of “C+” or lower in any music history course is considered unsatisfactory and will be evaluated as noted above. For music theory majors, a grade of “C+” or lower in any advanced music theory course is considered unsatisfactory and will be evaluated as noted above.

**Leaves of Absence and Voluntary Withdrawal**

Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean’s office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

**Transfer Credit**

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 32). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: [http://oaa.rice.edu](http://oaa.rice.edu). Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

**Footnotes and Additional Information**

* Includes coursework completed as distribution credit, FWIS, LPAP, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The “hours outside of the major” requirement may include all of the above university requirements.

**Policies for the BMus Degree**

**Admission**

An audition, in person, is required of each undergraduate applicant. A recorded audition may be considered in lieu of a live audition in extreme circumstances. The Shepherd School faculty and the university's Committee on Admission jointly determine admission, the latter basing its evaluation on successful academic achievement and other standards of college admission. Transfer applicants from other colleges, conservatories, and universities also must provide an audition, and take placement exams in both music history and music theory. Once admitted, their prior preparation in music is assessed, which may reduce the required period of study at Rice.

**Academic Standards**

**Curriculum and Degree Requirements**

Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

**Grading Policy**

A minimum grade of "B-" is expected of all music students in their major applied area. A grade of "C+" or lower is considered unsatisfactory and will be evaluated in the following manner.

A music major who receives a grade of "C+" or lower in their major applied area will be placed on music probation. Music probation signifies that the student's work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of "C+" or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a BMus degree seeking student and merit scholarship from the Shepherd School will be discontinued.

**Note:** For music history and musicology majors, a grade of "C+" or lower in any music history course is considered unsatisfactory and will be evaluated as noted above. For music theory majors, a grade of "C+" or lower in any advanced music theory course is considered unsatisfactory and will be evaluated as noted above.

**Leaves of Absence and Voluntary Withdrawal**

Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean's office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.
Transfer Credit

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 32). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: http://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Examinations

At the end of each semester, a jury examination in applied music may be given over the material studied during the semester. All degree candidates except BA students must demonstrate keyboard proficiency by examination. If students have little or no knowledge of the keyboard, they should enroll in secondary piano at the beginning of their first semester and continue study until they can meet the examination requirements.

Performance

Students are expected to perform frequently during their residence at Rice. Performance majors must present at least two full recitals. Composition and conducting students should present recitals as specified by their degree programs. Students are expected to attend both faculty and student recitals. In addition, all music majors must participate in the school’s conducted ensembles as assigned.

For additional information, please see the School of Music website at: http://music.rice.edu

Opportunities for the BMus Degree

Academic Honors

The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (p. 47) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 47). Some departments have department-specific Honors awards or designations.

BMus/MMus Honors Program

Shepherd School students who demonstrate truly exceptional musical and academic accomplishment may apply for the BMus/MMus five-year coordinated program. This program, often referred to in the school as the BMus/MMus Honors Program, allows for the completion and awarding of both the BMus and MMus degrees concurrently. Application to this program is made in the student’s fifth or sixth semester of undergraduate studies.

The same general university requirements apply, but students seeking the combined BMus/MMus degrees must complete a total of at least 150 semester hours by graduation. The number of required hours varies according to major area.

The first five semesters of course work in this program parallel the core curriculum of the bachelor’s degrees. The sixth semester is a transitional semester during which students qualify for admission to the combined program. For further information, including application procedures, see the Shepherd School Student Handbook.

Other Musical Opportunities

Lectures and Performances

A visiting lecture series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.

For additional information, please see the School of Music website at: http://music.rice.edu

Bachelor of Music (BMus) Degree with a Major in Vocal Performance

Program Learning Outcomes for the BMus Degree

Upon completing the BMus degree, students will be able to:

1. Demonstrate technical and musical competence in solo performance, composition, or music-historical research appropriate to the standards of a four-year undergraduate program.
2. Possess intermediate analytical skills in music theory and an understanding of how those skills inform music performance.
3. Acquire a fundamental understanding of the relationship between music history and music performance.
4. Develop superior technical collaborative skills in the student’s major area through a combination of practice, coaching, and rehearsal in large and small ensembles.

Requirements for the BMus Degree

For general university requirements, see Graduation Requirements (p. 25). Students pursuing the BMus degree must complete:

• The requirements for one major offered by the BMus degree program
• A minimum of 120 credit hours to satisfy degree requirements

All students pursuing the BMus degree in any major must participate in core music, applied music, and other required music courses as well as in chamber music and large ensembles, plus electives. These students are entitled to one hour of private lessons each week of each semester they are enrolled as a music major; private or group lessons beyond this may result in additional fees.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor (or official certifier). Students and their academic advisors should identify and clearly document the courses to be taken.

**Total Credit Hours** | 120 |

### Footnotes and Additional Information

* Includes coursework completed as distribution credit, FWIS, LPAP, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The “hours outside of the major” requirement may include all of the above university requirements.

### Policies for the BMus Degree

#### Admission

An audition, in person, is required of each undergraduate applicant. A recorded audition may be considered in lieu of a live audition in extreme circumstances. The Shepherd School faculty and the university's Committee on Admission jointly determine admission, the latter basing its evaluation on successful academic achievement and other standards of college admission. Transfer applicants from other colleges, conservatories, and universities also must provide an audition, and take placement exams in both music history and music theory. Once admitted, their prior preparation in music is assessed, which may reduce the required period of study at Rice.

#### Academic Standards

**Curriculum and Degree Requirements**

Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

**Grading Policy**

A minimum grade of "B-" is expected of all music students in their major applied area. A grade of "C+" or lower is considered unsatisfactory and will be evaluated in the following manner:

A music major who receives a grade of "C+" or lower in their major applied area will be placed on music probation. Music probation signifies that the student's work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent...
from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of "C+" or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a BMus degree seeking student and merit scholarship from the Shepherd School will be discontinued.

Note: For music history and musicology majors, a grade of "C+" or lower in any music history course is considered unsatisfactory and will be evaluated as noted above. For music theory majors, a grade of "C+" or lower in any advanced music theory course is considered unsatisfactory and will be evaluated as noted above.

Leaves of Absence and Voluntary Withdrawal
Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean’s office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudit. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Transfer Credit
For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 32). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: http://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Examinations
At the end of each semester, a jury examination in applied music may be given over the material studied during the semester. All degree candidates except BA students must demonstrate keyboard proficiency by examination. If students have little or no knowledge of the keyboard, they should enroll in secondary piano at the beginning of their first semester and continue study until they can meet the examination requirements.

Performance
Students are expected to perform frequently during their residence at Rice. Performance majors must present at least two full recitals. Composition and conducting students should present recitals as specified by their degree programs. Students are expected to attend both faculty and student recitals. In addition, all music majors must participate in the school’s conducted ensembles as assigned.

For additional information, please see the School of Music website at: http://music.rice.edu

Opportunities for the BMus Degree
BMus/MMus Honors Program
Shepherd School students who demonstrate truly exceptional musical and academic accomplishment may apply for the BMus/MMus five-year coordinated program. This program, often referred to in the school as the BMus/MMus Honors Program, allows for the completion and awarding of both the BMus and MMus degrees concurrently. Application to this program is made in the student’s fifth or sixth semester of undergraduate studies.

The same general university requirements apply, but students seeking the combined BMus/MMus degrees must complete a total of at least 150 semester hours by graduation. The number of required hours varies according to major area.

The first five semesters of course work in this program parallel the core curriculum of the bachelor’s degrees. The sixth semester is a transitional semester during which students qualify for admission to the combined program. For further information, including application procedures, see the Shepherd School Student Handbook.

Other Musical Opportunities
Lectures and Performances
A visiting lecture series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.

Academic Honors
The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (p. 47) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 47). Some departments have department-specific Honors awards or designations.

For additional information, please see the School of Music website at: http://music.rice.edu

Doctor of Musical Arts (DMA) Degree in the field of Cello Performance
Program Learning Outcomes for the DMA Degree
Upon completing the DMA degree, students will be able to:

1. Demonstrate technical and musical competence in performance or composition at a professional level.
2. Develop highly developed analytical skills in advanced music theory and a profound understanding of how those skills inform music performance.
3. Demonstrate a thorough understanding of the relationship between music history and music performance with greater familiarity of a wide variety of historical and contemporary performance practices.
4. Develop career development skills that complement their professional-level performance skills.
5. Develop working knowledge of and have experience with both classroom teaching and studio teaching methods at the conservatory and university levels.

Requirements for the DMA Degree
For general university requirements, see Graduate Degrees (p. 49). Students pursuing the DMA degree must complete:
• A minimum of 90 credit hours beyond the bachelor's degree to satisfy degree requirements.

<td>²¹ At least six of the required eight semesters of MUSI 695 Violoncello for Majors-Advanced must be taken during residency as a DMA student.</td>
<td></td>
</tr>
</tbody>
</table>

Students pursuing the DMA degree on a string instrument must be enrolled in MUSI 635 Advanced Orchestra during four of their six semesters of residency. Within those four semesters are eight rotations which are generally fulfilled by two chamber orchestra rotations each semester. The student in consultation with their major teacher may choose from Chamber Orchestra, Symphony Orchestra, Opera Orchestra or the Modular Ensemble Framework (MEF) for up to four of the eight rotations. They may also elect to enroll in one or two additional semesters or be required to do so by their major teacher. The student in consultation with their major teacher will choose the seminars for participation.

Five (5) doctoral recitals performed while in residency as a DMA student as follows:

• Two (2) Solo recitals
• One (1) Lecture recital
• One (1) Chamber Music recital
• One (1) Concerto with orchestra

4 courses (3 credit hours each) comprise the 12 credit hours required of Music History coursework.

2 courses (3 credit hours each) comprise the 6 credit hours required of Music Theory coursework.

Graduate academic coursework taken elsewhere may be transferred with the approval of the relevant Department Chair. Additional hours of required performance coursework may not count toward the elective requirement. A maximum of three (3) credit hours of MUSI 649 Graduate Independent Study can count towards degree requirements.

Diagnostic examinations in music history and music theory are given prior to admission to The Shepherd School, and play an important role in the admissions decision. Weaknesses in these areas will be addressed by courses designated by the chairs of the respective departments. These will count within either the Academic Coursework or Elective category. Doctoral students must also pass proficiency exams in aural skills and piano. These exams are scheduled at the beginning of each academic year. If required, MUSI 432 Graduate Aural Skills Review and/or MUSI 281 Secondary Piano must be taken, but neither will count towards the total number of hours required for the degree.

The doctoral document must be publicly defended.

Academic Standards

Curriculum and Degree Requirements

Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

Grading Policy

A minimum grade of "B-" is expected of all music students in their major applied area. A grade of "C+" or lower is considered unsatisfactory and will be evaluated in the following manner:

A music major who receives a grade of "C+" or lower in their major applied area will be placed on music probation. Music probation signifies that the student's work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of "C+" or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

Note: For music history and musicology majors a grade of "C+" or lower in any music history course is considered unsatisfactory and will be evaluated as above.

Graduate degree requirement: a minimum grade point average of 2.67 is necessary for graduation.

Leaves of Absence and Voluntary Withdrawal

Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean's office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Footnotes and Additional Information

1. At least six of the required eight semesters of MUSI 655 Clarinet for Majors-Advanced must be taken during residency as a DMA student.

2. Students pursuing the DMA degree on a wind instrument or percussion must be enrolled in MUSI 635 Advanced Orchestra during four of their six semesters of residency. They may elect to enroll in one or two additional semesters or be required to do so by their major teacher. The student in consultation with their major teacher will choose the semesters for participation.

3. Doctoral recital requirements can be fulfilled in any of the following combinations for four (4) total performed while a DMA student:

   - three (3) solo recitals and one (1) lecture recital; or
   - two (2) solo recitals, one (1) lecture recital, one (1) mock audition

4. Four courses (3 credit hours each) comprise the 12 credit hours required of Music History coursework.

5. Two courses (3 credit hours each) comprise the 6 credit hours required of Music Theory coursework.

6. Graduate academic coursework taken elsewhere may be transferred with the approval of the relevant Department Chair. Additional hours of required performance coursework may not count toward the elective requirement. A maximum of three (3) credit hours of MUSI 649 Graduate Independent Study can count towards degree requirements.

7. Diagnostic examinations in music history and music theory are given prior to admission to The Shepherd School, and play an important role in the admissions decision. Weaknesses in these areas will be addressed by courses designated by the chairs of the respective departments. These will count within either the Academic Coursework or Elective category. All doctoral students must also pass proficiency exams in aural skills and piano. These exams are scheduled at the beginning of each academic year. If required, MUSI 432 Graduate Aural Skills Review and/or MUSI 281 Secondary Piano must be taken, but neither will count towards the total number of hours required for the degree.

The doctoral document must be publicly defended.

Policies for the DMA Degree

Academic Standards

Curriculum and Degree Requirements

Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

Grading Policy

A minimum grade of "B-" is expected of all music students in their major applied area. A grade of "C+" or lower is considered unsatisfactory and will be evaluated in the following manner:

A music major who receives a grade of "C+" or lower in their major applied area will be placed on music probation. Music probation signifies that the student's work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of "C+" or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

Note: For music history and musicology majors a grade of "C+" or lower in any music history course is considered unsatisfactory and will be evaluated as above.

Graduate degree requirement: a minimum grade point average of 2.67 is necessary for graduation.

Leaves of Absence and Voluntary Withdrawal

Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean's office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

For additional information, please see the School of Music website: [http://music.rice.edu](http://music.rice.edu)

Opportunities for the DMA Degree

Other Musical Opportunities

Lectures and Performances

A visiting lecture series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.

For additional information, please see the School of Music website: [http://music.rice.edu](http://music.rice.edu)

Doctor of Musical Arts (DMA) Degree in the field of Composition
Program Learning Outcomes for the DMA Degree

Upon completing the DMA degree, students will be able to:

1. Demonstrate technical and musical competence in performance or composition at a professional level.
2. Develop highly developed analytical skills in advanced music theory and a profound understanding of how those skills inform music performance.
3. Demonstrate a thorough understanding of the relationship between music history and music performance with greater familiarity of a wide variety of historical and contemporary performance practices.
4. Develop career development skills that complement their professional-level performance skills.
5. Develop working knowledge of and have experience with both classroom teaching and studio teaching methods at the conservatory and university levels.

Requirements for the DMA Degree

For general university requirements, see Graduate Degrees (p. 49).

Students pursuing the DMA degree must complete:

- A minimum of 90 credit hours beyond the bachelor’s degree to satisfy degree requirements.

Academic Coursework

Select 6 courses from the Music History course offerings (see below for course list) 18
Select 4 courses from the Music Theory course offerings (see below for course list) 12

Elective Requirements

Select 7 credit hours at the 300-level or above 7

Classroom Teaching

Students must complete the Classroom Teaching requirement

Examinations 5

Students must demonstrate the following proficiencies:
- Piano proficiency
- Aural skills proficiency
- Written and oral qualifying examinations

Doctoral Document

MUSI 800 DISSERTATION (2 semesters) 3

Total Credit Hours 96

Footnotes and Additional Information

1 Two (2) doctoral recitals of original compositions.
2 Performance coursework may be satisfied by any combination of private instrumental and/or vocal study (such as MUSI 251.297 except MUSI 281 Secondary Piano, MUSI 351.373, MUSI 381.398), classes in conducting or score reading, or performance in large ensembles or sonata class (such as MUSI 334, MUSI 436, MUSI 444, MUSI 502, MUSI 514, MUSI 585 MUSI 636, or MUSI 640). Piano lessons are strongly recommended.
3 6 courses (3 credit hours each) comprise the 18 credit hours required of Music History coursework.
4 4 courses (3 credit hours each) comprise the 12 credit hours required of Music Theory coursework.
5 Graduate academic coursework taken elsewhere may be transferred with the approval of the relevant Department Chair. Additional hours of required coursework may not count toward the elective requirement. A maximum of three (3) credit hours of MUSI 649 Graduate Independent Study can count towards degree requirements.
6 Diagnostic examinations in music history and music theory are given prior to admission to The Shepherd School, and play an important role in the admissions decision. Weaknesses in these areas will be addressed by courses designated by the chairs of the respective departments. These will count within either the Academic Coursework or Elective category. Doctoral students must also pass proficiency exams in aural skills and piano. These exams are scheduled at the beginning of each academic year. If required, MUSI 432 Graduate Aural Skills Review and/or MUSI 281 Secondary Piano must be taken, but neither will count towards the total number of hours required for the degree.
7 Students are required to write an original composition of substantial dimensions. The composition must be publicly defended and submitted, following the university’s regulations and procedures for candidacy, oral examination, and thesis (p. 64).

Footnotes and Additional Information

1. At least six of the required eight semesters of MUSI 697 Double Bass for Majors-Advanced must be taken during residency as a DMA student.

2. Students pursuing the DMA degree on a string instrument must be enrolled in MUSI 635 Advanced Orchestra during four of their six semesters of residency. Within those four semesters are eight rotations which are generally fulfilled by two chamber orchestra rotations each semester. The student in consultation with their major teacher may choose from Chamber Orchestra, Symphony Orchestra, Opera Orchestra or the Modular Ensemble Framework (MEF) for up to four of the eight rotations. They may also elect to enroll in one or two additional semesters or be required to do so by their major teacher. The student in consultation with their major teacher will choose the semesters for participation.

3. Four (4) doctoral recitals performed while in residency as a DMA student as follows:
   - Two (2) Solo recitals
   - One (1) Lecture recital
   - One (1) Chamber Music recital

4. 4 courses (3 credit hours each) comprise the 12 credit hours required of Music History coursework.

5. 2 courses (3 credit hours each) comprise the 6 credit hours required of Music Theory coursework.

6. Graduate academic coursework taken elsewhere may be transferred with the approval of the relevant Department Chair. Additional hours of required performance coursework may not count toward the elective requirement. A maximum of three (3) credit hours of MUSI 649 Graduate Independent Study can count towards degree requirements.
Diagnostic examinations in music history and music theory are given prior to admission to The Shepherd School, and play an important role in the admissions decision. Weaknesses in these areas will be addressed by courses designated by the chairs of the respective departments. These will count within either the Academic Coursework or Elective category. Doctoral students must also pass proficiency exams in aural skills and piano. These exams are scheduled at the beginning of each academic year. If required, MUSI 432 Graduate Aural Skills Review and/or MUSI 281 Secondary Piano must be taken, but neither will count towards the total number of hours required for the degree.

The doctoral document must be publicly defended.

90

Footnotes and Additional Information

1 At least six of the required eight semesters of MUSI 651 Flute for Majors-Advanced must be taken during residency as a DMA student.
2 Students pursuing the DMA degree on a wind instrument or percussion must be enrolled in MUSI 635 Advanced Orchestra during four of their six semesters of residency. They may elect to enroll in one or two additional semesters or be required to do so by their major teacher. The student in consultation with their major teacher will choose the semesters for participation.
3 Doctoral recital requirements can be fulfilled in any of the following combinations for four (4) total performed while a DMA student:
   - three (3) solo recitals and one (1) lecture recital; or
   - two (2) solo recitals, one (1) lecture recital, one (1) mock audition
4 4 courses (3 credit hours each) comprise the 12 credit hours required of Music History coursework.
5 2 courses (3 credit hours each) comprise the 6 credit hours required of Music Theory coursework.
Graduate academic coursework taken elsewhere may be transferred with the approval of the relevant Department Chair. Additional hours of required performance coursework may not count toward the elective requirement. A maximum of three (3) credit hours of MUSI 649 Graduate Independent Study can count towards degree requirements.

Diagnostic examinations in music history and music theory are given prior to admission to The Shepherd School, and play an important role in the admissions decision. Weaknesses in these areas will be addressed by courses designated by the chairs of the respective departments. These will count within either the Academic Coursework or Elective category. Doctoral students must also pass proficiency exams in aural skills and piano. These exams are scheduled at the beginning of each academic year. If required, MUSI 432 Graduate Aural Skills Review and/or MUSI 281 Secondary Piano must be taken, but neither will count towards the total number of hours required for the degree.

The doctoral document must be publicly defended.

Policies for the DMA Degree

Academic Standards

Curriculum and Degree Requirements

Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

Grading Policy

A minimum grade of “B-” is expected of all music students in their major applied area. A grade of “C+” or lower is considered unsatisfactory and will be evaluated in the following manner:

If a student receives a second semester of “C+” or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

Note: For music history and musicology majors a grade of “C+” or lower in any music history course is considered unsatisfactory and will be evaluated as above.

Graduate degree requirement: a minimum grade point average of 2.67 is necessary for graduation.
Leaves of Absence and Voluntary Withdrawal
Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean’s office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

For additional information, please see the School of Music website: http://music.rice.edu

Opportunities for the DMA Degree
Other Musical Opportunities
Lectures and Performances
A visiting lecture series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.

For additional information, please see the School of Music website: http://music.rice.edu

Doctor of Musical Arts (DMA) Degree in the field of Oboe Performance
Program Learning Outcomes for the DMA Degree
Upon completing the DMA degree, students will be able to:

1. Demonstrate technical and musical competence in performance or composition at a professional level.
2. Develop highly developed analytical skills in advanced music theory and a profound understanding of how those skills inform music performance.
3. Demonstrate a thorough understanding of the relationship between music history and music performance with greater familiarity of a wide variety of historical and contemporary performance practices.
4. Develop career development skills that complement their professional-level performance skills.
5. Develop working knowledge of and have experience with both classroom teaching and studio teaching methods at the conservatory and university levels.

Requirements for the DMA Degree
For general university requirements, see Graduate Degrees (p. 49).

Students pursuing the DMA degree must complete:

• A minimum of 90 credit hours beyond the bachelor’s degree to satisfy degree requirements.

### Policies for the DMA Degree

#### Academic Standards

##### Curriculum and Degree Requirements
Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

##### Grading Policy
A minimum grade of "B-" is expected of all music students in their major applied area. A grade of "C+" or lower is considered unsatisfactory and will be evaluated in the following manner:

A music major who receives a grade of "C+" or lower in their major applied area will be placed on music probation. Music probation signifies that the student's work has been sufficiently unsatisfactory to preclude
graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of "C+" or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

Note: For music history and musicology majors a grade of "C+" or lower in any music history course is considered unsatisfactory and will be evaluated as above.

Graduate degree requirement: a minimum grade point average of 2.67 is necessary for graduation.

Leaves of Absence and Voluntary Withdrawal
Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean's office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

For additional information, please see the School of Music website: http://music.rice.edu

Policies for the DMA Degree

Academic Standards
Curriculum and Degree Requirements
Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

Grading Policy
A minimum grade of “B-” is expected of all music students in their major applied area. A grade of “C+” or lower is considered unsatisfactory and will be evaluated in the following manner:

A music major who receives a grade of “C+” or lower in their major applied area will be placed on music probation. Music probation signifies that the student’s work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of “C+” or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

Note: For music history and musicology majors a grade of “C+” or lower in any music history course is considered unsatisfactory and will be evaluated as above.

Graduate degree requirement: a minimum grade point average of 2.67 is necessary for graduation.

Leaves of Absence and Voluntary Withdrawal
Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean’s office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

For additional information, please see the School of Music website: http://music.rice.edu

Opportunities for the DMA Degree
Other Musical Opportunities
Lectures and Performances
A visiting lecture series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.

For additional information, please see the School of Music website: http://music.rice.edu

Doctor of Musical Arts (DMA) Degree in the field of Percussion Performance

Program Learning Outcomes for the DMA Degree
Upon completing the DMA degree, students will be able to:

1. Demonstrate technical and musical competence in performance or composition at a professional level.
2. Develop highly developed analytical skills in advanced music theory and a profound understanding of how those skills inform music performance.
3. Demonstrate a thorough understanding of the relationship between music history and music performance with greater familiarity of a wide variety of historical and contemporary performance practices.
4. Develop career development skills that complement their professional-level performance skills.
5. Develop working knowledge of and have experience with both classroom teaching and studio teaching methods at the conservatory and university levels.

Requirements for the DMA Degree
For general university requirements, see Graduate Degrees (p. 49). Students pursuing the DMA degree must complete:

- A minimum of 90 credit hours beyond the bachelor’s degree to satisfy degree requirements.

Academic Coursework

Select 4 courses from the Music History course offerings (see below for course list) 12
Select 2 courses from the Music Theory course offerings (see below for course list) 6

Elective Requirements
Select 13 credit hours at the 300-level or above 5

Classroom Teaching
Students must complete the Classroom Teaching requirement

Examinations
Students must demonstrate the following proficiencies:
- Piano proficiency
- Aural skills proficiency
- Written and oral qualifying examinations

Doctoral Document
MUSI 750 DOCTORAL DOCUMENT (minimum of 2 semesters) 7

Total Credit Hours 90

Footnotes and Additional Information

1 At least 6 of the required 8 semesters of MUSI 671 Percussion for Majors-Advanced must be taken during residency as a DMA student.
2 Students pursuing the DMA degree on a wind instrument or percussion must be enrolled in MUSI 635 Advanced Orchestra during four of their six semesters of residency. They may elect to enroll in one or two additional semesters or be required to do so by their major teacher. The student in consultation with their major teacher will choose the semesters for participation.
3 Four (4) doctoral recitals performed while in residence as a DMA student as follows:
   - Two (2) Solo recitals
   - One (1) Chamber Music recital
   - One (1) Lecture recital
4 4 courses (3 credit hours each) comprise the 12 credit hours required of Music History coursework.
   2 courses (3 credit hours each) comprise the 6 credit hours required of Music Theory coursework.
5 Graduate academic coursework taken elsewhere may be transferred with the approval of the relevant Department Chair. Additional hours of required performance coursework may not count toward the elective requirement. A maximum of three (3) credit hours of MUSI 649 Graduate Independent Study can count towards degree requirements.
6 Diagnostic examinations in music history and music theory are given prior to admission to The Shepherd School, and play an important role in the admissions decision. Weaknesses in these areas will be addressed by courses designated by the chairs of the respective departments. These will count within either the Academic Coursework or Elective category. Doctoral students must also pass proficiency exams in aural skills and piano. These exams are scheduled at the beginning of each academic year. If required, MUSI 432 Graduate Aural Skills Review and/or MUSI 281 Secondary Piano must be taken, but neither will count towards the total number of hours required for the degree.
7 The doctoral document must be publicly defended.

Footnotes and Additional Information

1 At least 6 of the required 8 semesters of MUSI 693 Viola for Majors-Advanced must be taken during residency as a DMA student.
2 Students pursuing the DMA degree on a string instrument must be enrolled in MUSI 635 Advanced Orchestra during four of their six semesters of residency. Within those four semesters are eight rotations which are generally fulfilled by two chamber orchestra rotations each semester. The student in consultation with their major teacher may choose from Chamber Orchestra, Symphony Orchestra, Opera Orchestra or the Modular Ensemble Framework (MEF) for up to four of the eight rotations. They may also elect to enroll in one or two additional semesters or be required to do so by their major teacher. The student in consultation with their major teacher will choose the semesters for participation.

3 Doctoral recital requirements can be fulfilled in any of the following combinations for five (5) total performed while a DMA student:
   - two (2) solo recitals, one (1) lecture recital, one (1) chamber music recital, and one (1) concerto with orchestra;
   - three (3) solo recitals, one (1) lecture recital, one (1) chamber music recital;
   - two (2) solo recitals, one (1) lecture recital, two (2) chamber music recitals

4 4 courses (3 credit hours each) comprise the 12 credit hours required of Music History coursework.
2 courses (3 credit hours each) comprise the 6 credit hours required of Music Theory coursework.

5 Graduate academic coursework taken elsewhere may be transferred with the approval of the relevant Department Chair. Additional hours of required performance coursework may not count toward the elective requirement. A maximum of three (3) credit hours of MUSI 649 Graduate Independent Study can count towards degree requirements.

6 Diagnostic examinations in music history and music theory are given prior to admission to The Shepherd School, and play an important role in the admissions decision. Weaknesses in these areas will be addressed by courses designated by the chairs of the respective departments. These will count within either the Academic Coursework or Elective category. Doctoral students must also pass proficiency exams in aural skills and piano. These exams are scheduled at the beginning of each academic year. If required, MUSI 432 Graduate Aural Skills Review and/or MUSI 281 Secondary Piano must be taken, but neither will count towards the total number of hours required for the degree.

7 The doctoral document must be publicly defended.

Doctor of Musical Arts (DMA) Degree in the field of Violin Performance

Policies for the DMA Degree

Academic Standards

Curriculum and Degree Requirements
Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

Grading Policy
A minimum grade of "B-" is expected of all music students in their major applied area. A grade of "C+" or lower is considered unsatisfactory and will be evaluated in the following manner:

A music major who receives a grade of "C+" or lower in their major applied area will be placed on music probation. Music probation signifies that the student's work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of "C+" or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

Note: For music history and musicology majors a grade of "C+" or lower in any music history course is considered unsatisfactory and will be evaluated as above.

Graduate degree requirement: a minimum grade point average of 2.67 is necessary for graduation.

Leaves of Absence and Voluntary Withdrawal
Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean's office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

For additional information, please see the School of Music website: http://music.rice.edu

Opportunities for the DMA Degree

Other Musical Opportunities

Lectures and Performances
A visiting lecture series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.

For additional information, please see the School of Music website: http://music.rice.edu

Doctor of Musical Arts (DMA) Degree in the field of Violin Performance

Program Learning Outcomes for the DMA Degree

Upon completing the DMA degree, students will be able to:

1. Demonstrate technical and musical competence in performance or composition at a professional level.
2. Develop highly developed analytical skills in advanced music theory and a profound understanding of how those skills inform music performance.
3. Demonstrate a thorough understanding of the relationship between music history and music performance with greater familiarity of a wide variety of historical and contemporary performance practices.
4. Develop career development skills that complement their professional-level performance skills.
5. Develop working knowledge of and have experience with both classroom teaching and studio teaching methods at the conservatory and university levels.

Requirements for the DMA Degree

For general university requirements, see Graduate Degrees (p. 49). Students pursuing the DMA degree must complete:

- A minimum of 90 credit hours beyond the bachelor's degree to satisfy degree requirements.

Academic Coursework

Select 4 courses from the Music History course offerings (see below for course list) 12
Select 2 courses from the Music Theory course offerings (see below for course list) 6

Elective Requirements

Select 11 credit hours at the 300-level or above 11

Classroom Teaching

Students must complete the Classroom Teaching requirement

Examinations

Students must demonstrate the following proficiencies:

- Piano proficiency
- Aural skills proficiency
- Written and oral qualifying examinations

Doctoral Document

5. At least 6 of the required 8 semesters of MUSI 691 Violin for Majors-Advanced must be taken during residency as a DMA student.

2. Students pursuing the DMA degree on a string instrument must be enrolled in MUSI 635 Advanced Orchestra during four of their six semesters of residency. Within those four semesters are eight rotations which are generally fulfilled by two chamber orchestra rotations each semester. The student in consultation with their major teacher may choose from Chamber Orchestra, Symphony Orchestra, Opera Orchestra or the Modular Ensemble Framework (MEF) for up to four of the eight rotations. They may also elect to enroll in one or two additional semesters or be required to do so by their major teacher. The student in consultation with their major teacher will choose the semesters for participation.

5. Graduate academic coursework taken elsewhere may be transferred with the approval of the relevant Department Chair. Additional hours of required performance coursework may not count toward the elective requirement. A maximum of three (3) credit hours of MUSI 649 Graduate Independent Study can count towards degree requirements.

4. One (1) Concerto with orchestra

One (1) Chamber Music recital

One (1) Lecture recital

Two (2) Solo recitals

Five (5) doctoral recitals performed while in residency as a DMA student as follows:

- Two (2) Solo recitals
- One (1) Lecture recital
- One (1) Chamber Music recital
- One (1) Concerto with orchestra

6. At least 6 of the required 8 semesters of MUSI 635 Advanced Orchestra must be taken during residency as a DMA student.

5. Students pursuing the DMA degree on a string instrument must be enrolled in MUSI 635 Advanced Orchestra during four of their six semesters of residency. Within those four semesters are eight rotations which are generally fulfilled by two chamber orchestra rotations each semester. The student in consultation with their major teacher may choose from Chamber Orchestra, Symphony Orchestra, Opera Orchestra or the Modular Ensemble Framework (MEF) for up to four of the eight rotations. They may also elect to enroll in one or two additional semesters or be required to do so by their major teacher. The student in consultation with their major teacher will choose the semesters for participation.

Footnotes and Additional Information

1. Five (5) doctoral recitals performed while in residency as a DMA student as follows:

2. At least 6 of the required 8 semesters of MUSI 691 Violin for Majors-Advanced must be taken during residency as a DMA student.

3. Students pursuing the DMA degree on a string instrument must be enrolled in MUSI 635 Advanced Orchestra during four of their six semesters of residency. Within those four semesters are eight rotations which are generally fulfilled by two chamber orchestra rotations each semester. The student in consultation with their major teacher may choose from Chamber Orchestra, Symphony Orchestra, Opera Orchestra or the Modular Ensemble Framework (MEF) for up to four of the eight rotations. They may also elect to enroll in one or two additional semesters or be required to do so by their major teacher. The student in consultation with their major teacher will choose the semesters for participation.

4. Four (4) courses (3 credit hours each) comprise the 12 credit hours required of Music History coursework.

2. Two (2) courses (3 credit hours each) comprise the 6 credit hours required of Music Theory coursework.

5. Graduate academic coursework taken elsewhere may be transferred with the approval of the relevant Department Chair. Additional hours of required performance coursework may not count toward the elective requirement. A maximum of three (3) credit hours of MUSI 649 Graduate Independent Study can count towards degree requirements.

6. Diagnostic examinations in music history and music theory are given prior to admission to The Shepherd School, and play an important role in the admissions decision. Weaknesses in these areas will be addressed by courses designated by the chairs of the respective departments. These will count within either the Academic Coursework or Elective category. Doctoral students must also pass proficiency exams in aural skills and piano. These exams are scheduled at the beginning of each academic year. If required, MUSI 432 Graduate Aural Skills Review and/or MUSI 281 Secondary Piano must be taken, but neither will count towards the total number of hours required for the degree.

7. The doctoral document must be publicly defended.

Curriculum and Degree Requirements
Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

Grading Policy
A minimum grade of "B-" is expected of all music students in their major applied area. A grade of "C+" or lower is considered unsatisfactory and will be evaluated in the following manner.

A music major who receives a grade of "C+" or lower in their major applied area will be placed on music probation. Music probation signifies that the student's work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of "C+" or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

Note: For music history and musicology majors a grade of "C+" or lower in any music history course is considered unsatisfactory and will be evaluated as above.

Graduate degree requirement: a minimum grade point average of 2.67 is necessary for graduation.

Leaves of Absence and Voluntary Withdrawal
Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean's office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Master of Music (MMus) Degree in the field of Bassoon Performance

Program Learning Outcomes for the MMus Degree

Upon completing the MMus degree, students will be able to:

1. Demonstrate technical and musical competence in performance, composition, or historical scholarship at a professional level.
2. Develop advanced analytical skills in music theory and a deep understanding of how those skills inform music performance.
3. Demonstrate a thorough understanding of the relationship between music history and music performance.
4. Develop career development skills that complement their professional-level performance skills.
5. Demonstrate technical and musical competence in performance, composition, or historical scholarship at a professional level.

Requirements for the MMus Degree

The MMUS degrees can be thesis or non-thesis master's degrees depending on the field declared. For general university requirements for thesis master's degrees, see Thesis Master's Degrees (p. 67). For general university requirements for non-thesis master's degrees, see Non-Thesis Master's Degrees (p. 66). Students pursuing the MMUS degree programs must complete:

- A minimum of 43-54 credit hours depending on field of study to satisfy degree requirements

Students completing the MMus degree in all fields of study must participate in core music, applied music, and other required music courses as well as in chamber music and large ensembles, plus electives. They are entitled to one hour of private lessons each week of each semester they are enrolled as an MMus degree candidate; private or group lessons beyond this may result in additional fees.

**Footnotes and Additional Information**

1. No more than three (3) credit hours of MUSI 649 Independent Study may fulfill this requirement. Remedial courses (such as MUSI 281, MUSI 432, MUSI 511, MUSI 521, or MUSI 522) and extra hours of required Performance Coursework (such as extra private instrumental or vocal study, ensembles, chamber music, vocal coaching, or repertoire classes) will not fulfill this requirement.

2. Deficiencies in these areas will result in remedial coursework being added to a student’s degree plan.

**Policies for the MMus Degree**

**Admission**

For Instrumental Performance, Vocal Performance, and Orchestral Conducting applicants, an audition is required. Composition applicants must submit portfolios, and Musicology applicants must provide samples of their written work. Musicology applicants must also complete advanced music tests as well as the Graduate Record Examination for admission consideration.

**Academic Standards**

**Curriculum and Degree Requirements**

Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

**Grading Policy**

A minimum grade of “B-” is expected of all music students in their major applied area. A grade of “C+” or lower is considered unsatisfactory and will be evaluated in the following manner:
A music major who receives a grade of “C+” or lower in their major applied area will be placed on music probation. Music probation signifies that the student’s work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of “C+” or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

**Note**: For music history and musicology majors a grade of “C+” or lower in any music history course is considered unsatisfactory and will be evaluated as above.

**Graduate degree requirement**: a minimum grade point average of 2.67 is necessary for graduation.

**Leaves of Absence and Voluntary Withdrawal**

Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean’s office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed re-admission into the Shepherd School and may be asked to reapply/re-audition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

**Performance**

Students are expected to perform frequently during their residency at Rice. MMus students in any of the performance fields of study must present at least two full recitals. Composition and Conducting students should present recitals as specified by their degree programs. Students are expected to attend both faculty and student recitals. In addition, all MMus students must participate in the school’s conducted ensembles as assigned.

**Thesis**

A thesis is required for MMus students in the field of Musicology. In lieu of a thesis, MMus students in the field of Composition must produce an original work of extended scope. Both thesis and original work must be publicly defended.

For additional information, please see the School of Music website: [http://music.rice.edu](http://music.rice.edu)

**Opportunities for the MMus Degree**

**Other Musical Opportunities**

**Lectures and Performances**

A visiting lecture series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.

For additional information, please see the School of Music website: [http://music.rice.edu](http://music.rice.edu)

---

**Master of Music (MMus) Degree in the field of Cello Performance**

**Program Learning Outcomes for the MMus Degree**

Upon completing the MMus degree, students will be able to:

1. Demonstrate technical and musical competence in performance, composition, or historical scholarship at a professional level.
2. Develop advanced analytical skills in music theory and a deep understanding of how those skills inform music performance.
3. Demonstrate a thorough understanding of the relationship between music history and music performance.
4. Develop career development skills that complement their professional-level performance skills.
5. Demonstrate technical and musical competence in performance, composition, or historical scholarship at a professional level.

**Requirements for the MMus Degree**

The MMUS degrees can be thesis or non-thesis master’s degrees depending on the field declared. For general university requirements for thesis master’s degrees, please see Thesis Master’s Degrees (p. 67). For general university requirements for non-thesis master’s degrees, please see Non-Thesis Master’s Degrees (p. 66). Students pursuing the MMUS degree programs must complete:

- A minimum of 43-54 credit hours depending on field of study to satisfy degree requirements

Students completing the MMus degree in all fields of study must participate in core music, applied music, and other required music courses as well as in chamber music and large ensembles, plus electives. They are entitled to one hour of private lessons each week of each semester they are enrolled as an MMus degree candidate; private or group lessons beyond this may result in additional fees.

- MUSI 519: THEMATIC PROGRAMMING: THE ART OF THE RECITAL
- MUSI 532: THE FELDENKRAIS METHOD AND THE MUSICIAN'S BODY
- MUSI 540: APPLIED JAZZ IMPROVISATION: DEVELOPING SOLO IMPROVISATIONAL SKILLS IN THE JAZZ IDIOM

### Elective Requirements

Select 6 credit hours from the following:

- Any course at the 300-level or above
- Any language course at the 100-level or above
- Any additional Music Theory, Music History, or Music Career and Skills Enhancement course
- Secondary Lessons (any course between MUSI 251 and MUSI 297 with the exception of MUSI 281)
- MUSI 342: RICE JAZZ ENSEMBLE
- MUSI 345: APPLIED STUDIES IN JAZZ
- MUSI 381: CONCENTRATION PIANO
- MUSI 436: COLLEGIUM MUSICUM
- MUSI 444: PRACTICUM IN CONTEMPORARY MUSIC
- MUSI 585: SONATA CLASS
- MUSI 649: GRADUATE INDEPENDENT STUDY

### Footnotes and Additional Information

1. No more than three (3) credit hours of MUSI 649 - Independent Study may fulfill this requirement. Remedial courses (such as MUSI 281, MUSI 432, MUSI 511, MUSI 521, or MUSI 522) and extra hours of required Performance Coursework (such as extra private instrumental or vocal study, ensembles, chamber music, vocal coaching, or repertoire classes) will not fulfill this requirement.

2. Deficiencies in these areas will result in remedial coursework being added to a student’s degree plan.

### Policies for the MMus Degree

#### Admission

For Instrumental Performance, Vocal Performance, and Orchestral Conducting applicants, an audition is required. Composition applicants must submit portfolios, and Musicology applicants must provide samples of their written work. Musicology applicants must also complete advanced music tests as well as the Graduate Record Examination for admission consideration.

#### Academic Standards

##### Curriculum and Degree Requirements

Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

##### Grading Policy

A minimum grade of “B-” is expected of all music students in their major applied area. A grade of “C+” or lower is considered unsatisfactory and will be evaluated in the following manner:
A music major who receives a grade of “C+” or lower in their major applied area will be placed on music probation. Music probation signifies that the student’s work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of “C+” or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

Note: For music history and musicology majors a grade of “C+” or lower in any music history course is considered unsatisfactory and will be evaluated as above.

Graduate degree requirement: a minimum grade point average of 2.67 is necessary for graduation.

Leaves of Absence and Voluntary Withdrawal
Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean’s office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Performance
Students are expected to perform frequently during their residency at Rice. MMus students in any of the performance fields of study must present at least two full recitals. Composition and Conducting students should present recitals as specified by their degree programs. Students are expected to attend both faculty and student recitals. In addition, all MMus students must participate in the school’s conducted ensembles as assigned.

Thesis
A thesis is required for MMus students in the field of Musicology. In lieu of a thesis, MMus students in the field of Composition must produce an original work of extended scope. Both thesis and original work must be publicly defended.

Master of Music (MMus) Degree in the field of Composition

Program Learning Outcomes for the MMus Degree

Upon completing the MMus degree, students will be able to:

1. Demonstrate technical and musical competence in performance, composition, or historical scholarship at a professional level.
2. Develop advanced analytical skills in music theory and a deep understanding of how those skills inform music performance.
3. Demonstrate a thorough understanding of the relationship between music history and music performance.
4. Develop career development skills that complement their professional-level performance skills.
5. Demonstrate technical and musical competence in performance, composition, or historical scholarship at a professional level.

Requirements for the MMus Degree

The MMUS degrees can be thesis or non-thesis master's degrees depending on the field declared. For general university requirements for thesis master’s degrees, please see Thesis Master's Degrees (p. 67). For general university requirements for non-thesis master’s degrees, please see Non-Thesis Master’s Degrees (p. 66). Students pursuing the MMUS degree programs must complete:

- A minimum of 43-54 credit hours depending on field of study to satisfy degree requirements

Students completing the MMus degree in all fields of study must participate in core music, applied music, and other required music courses as well as in chamber music and large ensembles, plus electives. They are entitled to one hour of private lessons each week of each semester they are enrolled as an MMus degree candidate; private or group lessons beyond this may result in additional fees.

- Concentration Lessons (any course between MUSI 351 and MUSI 373)
- Concentration Lessons (any course between MUSI 381 and MUSI 397)
- MUSI 334 CAMpanile ORCHESTRA
- MUSI 436 COLLEGIUM MUSICUM
- MUSI 444 PRACTICUM IN CONTEMPORARY MUSIC
- MUSI 502 CONDUCTING: AN OVERVIEW OF PRACTICAL SKILLS
- MUSI 514 SCORE READING AND THEORY AT THE KEYBOARD
- MUSI 585 SONATA CLASS
- MUSI 640 RICE CHORALE - ADVANCED

Footnotes and Additional Information
1 Electronic Music courses are chosen following faculty advisement.
2 Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the program.
3 Grading policies for the M.Mus degree: a minimum grade of “B-” is expected of all music students in their major applied area. A grade of “C+” or lower is considered unsatisfactory and will be evaluated in the following manner.
4 If a student receives a second semester of “C+” or lower in their major applied area, whether for consecutive semesters or not, the student will be placed on music probation. Music probation signifies that the student’s work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.
5 Any language course at the 100-level or above
6 Any additional Music Theory, Music History, or Music Career and Skills Enhancement course
7 Any course at the 300-level or above
8 Aural skills proficiency
9 Piano proficiency

Policies for the M.Mus Degree
Admission
For Instrumental Performance, Vocal Performance, and Orchestral Conducting applicants, an audition is required. Composition applicants must submit portfolios, and Musicology applicants must provide samples of their written work. Musicology applicants must also complete advanced music tests as well as the Graduate Record Examination for admission consideration.

Academic Standards
Curriculum and Degree Requirements
Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

Grading Policy
A minimum grade of “B-” is expected of all music students in their major applied area. A grade of “C+” or lower is considered unsatisfactory and will be evaluated in the following manner:

A music major who receives a grade of “C+” or lower in their major applied area will be placed on music probation. Music probation signifies that the student’s work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of “C+” or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

Note: For music history and musicology majors a grade of “C+” or lower in any music history course is considered unsatisfactory and will be evaluated as above.

Graduate degree requirement: a minimum grade point average of 2.67 is necessary for graduation.

Leaves of Absence and Voluntary Withdrawal
Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the program.
Requests must be in the dean's office before the first day of classes in the semester for which leave is requested. Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

MUSI 444 PRACTICUM IN CONTEMPORARY MUSIC
MUSI 585 SONATA CLASS
MUSI 649 GRADUATE INDEPENDENT STUDY

Footnotes and Additional Information

1 No more than three (3) credit hours of MUSI 649 - Independent Study may fulfill this requirement. Remedial courses (such as MUSI 281, MUSI 432, MUSI 511, MUSI 521, or MUSI 522) and extra hours of required Performance Coursework (such as extra private instrumental or vocal study, ensembles, chamber music, vocal coaching, or repertoire classes) will not fulfill this requirement.

2 Deficiencies in these areas will result in remedial coursework being added to a student's degree plan.

Policies for the MMus Degree

Admission

For Instrumental Performance, Vocal Performance, and Orchestral Conducting applicants, an audition is required. Composition applicants must submit portfolios, and Musicology applicants must provide samples of their written work. Musicology applicants must also complete advanced music tests as well as the Graduate Record Examination for admission consideration.

Academic Standards

Curriculum and Degree Requirements

Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

Grading Policy

A minimum grade of "B−" is expected of all music students in their major applied area. A grade of "C+" or lower is considered unsatisfactory and will be evaluated in the following manner:

A music major who receives a grade of "C+" or lower in their major applied area will be placed on music probation. Music probation signifies that the student's work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of "C+" or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

Note: For music history and musicology majors a grade of "C+" or lower in any music history course is considered unsatisfactory and will be evaluated as above.

Graduate degree requirement: a minimum grade point average of 2.67 is necessary for graduation.

Leaves of Absence and Voluntary Withdrawal

Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean's office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Performance

Students are expected to perform frequently during their residency at Rice. MMus students in any of the performance fields of study must present at least two full recitals. Composition and Conducting students should present recitals as specified by their degree programs. Students are expected to attend both faculty and student recitals. In addition, all MMus students must participate in the school's conducted ensembles as assigned.

Thesis

A thesis is required for MMus students in the field of Musicology. In lieu of a thesis, MMus students in the field of Composition must produce an original work of extended scope. Both thesis and original work must be publicly defended.

Master of Music (MMus) Degree in the field of Flute Performance

Program Learning Outcomes for the MMus Degree

Upon completing the MMus degree, students will be able to:

1. Demonstrate technical and musical competence in performance, composition, or historical scholarship at a professional level.
2. Develop advanced analytical skills in music theory and a deep understanding of how those skills inform music performance.
3. Demonstrate a thorough understanding of the relationship between music history and music performance.
4. Develop career development skills that complement their professional-level performance skills.
5. Demonstrate technical and musical competence in performance, composition, or historical scholarship at a professional level.

**Requirements for the MMus Degree**

The MMUS degrees can be thesis or non-thesis master's degrees depending on the field declared. For general university requirements for thesis master's degrees, please see Thesis Master's Degrees (p. 67). For general university requirements for non-thesis master's degrees, please see Non-Thesis Master's Degrees (p. 66). Students pursuing the MMUS degree programs must complete:

- A minimum of 43-54 credit hours depending on field of study to satisfy degree requirements

Students completing the MMus degree in all fields of study must participate in core music, applied music, and other required music courses as well as in chamber music and large ensembles, plus electives. They are entitled to one hour of private lessons each week of each semester they are enrolled as an MMus degree candidate; private or group lessons beyond this may result in additional fees.

#### Elective Requirements

Select 6 credit hours from the following:

- Any course at the 300-level or above
- Any language course at the 100-level or above

### Music Career and Skills Enhancement Courses

Select 2 courses from the following:

- LPCR 200 ADVANCED MENTAL TRAINING
- MGMT 621 THE NEW ENTERPRISE
- MGMT 625 CREATIVE ENTREPRENEURSHIP
- MGMT 629 BUSINESS PLAN DEVELOPMENT
- MGMT 676 SOCIAL ENTREPRENEURSHIP
- MUSI 413 INTRODUCTION TO Dalcroze Eurhythmics
- MUSI 500 IMAGINATION AND COMMUNICATION: DEVELOPING MUSICAL SKILLS THROUGH THEATRICAL TECHNIQUES
- MUSI 501 ENHANCED PERFORMANCE: WRITING, SPEAKING, PLAYING
- MUSI 502 CONDUCTING: AN OVERVIEW OF PRACTICAL SKILLS
- MUSI 503 MUSIC AND PERFORMANCE: THE MIND/BODY CONNECTION
- MUSI 507 TECHNOLOGY FOR MUSICIANS
- MUSI 508 FUNDAMENTALS OF PRIVATE TEACHING
- MUSI 510 PROFESSIONAL DEVELOPMENT FOR MUSICIANS
- MUSI 515 MUSIC ENTREPRENEURSHIP
- MUSI 518 THE ART AND BUSINESS OF STUDIO TEACHING
- MUSI 519 THEMATIC PROGRAMMING: THE ART OF THE RECITAL
- MUSI 532 THE FELDENKRAIS METHOD AND THE MUSICIAN’S BODY
- MUSI 540 APPLIED JAZZ IMPROVISATION: DEVELOPING SOLO IMPROVISATIONAL SKILLS IN THE JAZZ IDIOM

### Elective Requirements

Select 6 credit hours from the following:

- Any course at the 300-level or above
- Any language course at the 100-level or above

### Footnotes and Additional Information

1. No more than three (3) credit hours of MUSI 649 - Independent Study may fulfill this requirement. Remedial courses (such as MUSI 281, MUSI 432, MUSI 511, MUSI 521, or MUSI 522) and extra hours of required Performance Coursework (such as extra private instrumental or vocal study, ensembles, chamber music, vocal coaching, or repertoire classes) will not fulfill this requirement.

2. Deficiencies in these areas will result in remedial coursework being added to a student’s degree plan.

### Policies for the MMus Degree

#### Admission

For Instrumental Performance, Vocal Performance, and Orchestral Conducting applicants, an audition is required. Composition applicants must submit portfolios, and Musicology applicants must provide samples of their written work. Musicology applicants must also complete advanced music tests as well as the Graduate Record Examination for admission consideration.

#### Academic Standards

#### Curriculum and Degree Requirements

Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

#### Grading Policy

A minimum grade of “B-” is expected of all music students in their major applied area. A grade of “C+” or lower is considered unsatisfactory and will be evaluated in the following manner:

A music major who receives a grade of “C+” or lower in their major applied area will be placed on music probation. Music probation signifies that the student’s work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of “C+” or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

Note: For music history and musicology majors a grade of “C+” or lower in any music history course is considered unsatisfactory and will be evaluated as above.

Graduate degree requirement: a minimum grade point average of 2.67 is necessary for graduation.
Leaves of Absence and Voluntary Withdrawal
Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean's office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Performance
Students are expected to perform frequently during their residency at Rice. MMus students in any of the performance fields of study must present at least two full recitals. Composition and Conducting students should present recitals as specified by their degree programs. Students are expected to attend both faculty and student recitals. In addition, all MMus students must participate in the school's conducted ensembles as assigned.

Thesis
A thesis is required for MMus students in the field of Musicology. In lieu of a thesis, MMus students in the field of Composition must produce an original work of extended scope. Both thesis and original work must be publicly defended.

For additional information, please see the School of Music website: [http://music.rice.edu](http://music.rice.edu)

Opportunities for the MMus Degree
Other Musical Opportunities

Lectures and Performances
A visiting lecture series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.

For additional information, please see the School of Music website: [http://music.rice.edu](http://music.rice.edu)

Master of Music (MMus) Degree in the field of Harp Performance

Program Learning Outcomes for the MMus Degree

Upon completing the MMus degree, students will be able to:

1. Demonstrate technical and musical competence in performance, composition, or historical scholarship at a professional level.
2. Develop advanced analytical skills in music theory and a deep understanding of how those skills inform music performance.
3. Demonstrate a thorough understanding of the relationship between music history and music performance.
4. Develop career development skills that complement their professional-level performance skills.
5. Demonstrate technical and musical competence in performance, composition, or historical scholarship at a professional level.

Requirements for the MMus Degree

The MMus degrees can be thesis or non-thesis master's degrees depending on the field declared. For general university requirements for thesis master's degrees, please see Thesis Master's Degrees (p. 67). For general university requirements for non-thesis master's degrees, please see Non-Thesis Master's Degrees (p. 66). Students pursuing the MMus degree programs must complete:

- A minimum of 43-54 credit hours depending on field of study to satisfy degree requirements

Students completing the MMus degree in all fields of study must participate in core music, applied music, and other required music courses as well as in chamber music and large ensembles, plus electives. They are entitled to one hour of private lessons each week of each semester they are enrolled as an MMus degree candidate; private or group lessons beyond this may result in additional fees.

1 No more than three (3) credit hours of MUSI 649 - Independent Study may fulfill this requirement. Remedial courses (such as MUSI 281, MUSI 432, MUSI 511, MUSI 521, or MUSI 522) and extra hours of required Performance Coursework (such as extra private instrumental or vocal study, ensembles, chamber music, vocal coaching, or repertoire classes) will not fulfill this requirement.
2 Deficiencies in these areas will result in remedial coursework being added to a student's degree plan.

Policies for the MMus Degree

Admission
For Instrumental Performance, Vocal Performance, and Orchestral Conducting applicants, an audition is required. Composition applicants must submit portfolios, and Musicology applicants must provide samples of their written work. Musicology applicants must also complete advanced music tests as well as the Graduate Record Examination for admission consideration.

Academic Standards
Curriculum and Degree Requirements
Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

Grading Policy
A minimum grade of “B-” is expected of all music students in their major applied area. A grade of “C+” or lower is considered unsatisfactory and will be evaluated in the following manner:

A music major who receives a grade of “C+” or lower in their major applied area will be placed on music probation. Music probation signifies that the student’s work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of “C+” or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

Note: For music history and musicology majors a grade of “C+” or lower in any music history course is considered unsatisfactory and will be evaluated as above.

Graduate degree requirement: a minimum grade point average of 2.67 is necessary for graduation.

Leaves of Absence and Voluntary Withdrawal
Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean's office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Performance
Students are expected to perform frequently during their residency at Rice. MMus students in any of the performance fields of study must present at least two full recitals. Composition and Conducting students should present recitals as specified by their degree programs. Students are expected to attend both faculty and student recitals. In addition, all MMus students must participate in the school’s conducted ensembles as assigned.

Thesis
A thesis is required for MMus students in the field of Musicology. In lieu of a thesis, MMus students in the field of Composition must produce an original work of extended scope. Both thesis and original work must be publicly defended.

For additional information, please see the School of Music website: http://music.rice.edu

Opportunities for the MMus Degree
Other Musical Opportunities
Lectures and Performances
A visiting lecture series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.

For additional information, please see the School of Music website: http://music.rice.edu

Master of Music (MMus) Degree in the field of Horn Performance
Program Learning Outcomes for the MMus Degree

Upon completing the MMus degree, students will be able to:
1. Demonstrate technical and musical competence in performance, composition, or historical scholarship at a professional level.
2. Develop advanced analytical skills in music theory and a deep understanding of how those skills inform music performance.
3. Demonstrate a thorough understanding of the relationship between music history and music performance.
4. Develop career development skills that complement their professional-level performance skills.
5. Demonstrate technical and musical competence in performance, composition, or historical scholarship at a professional level.

Requirements for the MMus Degree

The MMUS degrees can be thesis or non-thesis master's degrees depending on the field declared. For general university requirements for thesis master's degrees, please see Thesis Master's Degrees (p. 67). For general university requirements for non-thesis master's degrees, please see Non-Thesis Master's Degrees (p. 66). Students pursuing the MMUS degree programs must complete:

- A minimum of 43-54 credit hours depending on field of study to satisfy degree requirements

Students completing the MMus degree in all fields of study must participate in core music, applied music, and other required music courses as well as in chamber music and large ensembles, plus electives. They are entitled to one hour of private lessons each week of each semester they are enrolled as an MMus degree candidate; private or group lessons beyond this may result in additional fees.

**Music Career and Skills Enhancement Courses**

Select 2 courses from the following:

- LPCR 200 ADVANCED MENTAL TRAINING
- MGMT 621 THE NEW ENTERPRISE
- MGMT 625 CREATIVE ENTREPRENEURSHIP
- MGMT 629 BUSINESS PLAN DEVELOPMENT
- MGMT 676 SOCIAL ENTERPRISE
- MUSI 413 INTRODUCTION TO DALCROZE EURHYTHMICS
- MUSI 500 IMAGINATION AND COMMUNICATION: DEVELOPING MUSICAL SKILLS THROUGH THEATRICAL TECHNIQUES
- MUSI 501 ENHANCED PERFORMANCE: WRITING, SPEAKING, PLAYING
- MUSI 502 CONDUCTING: AN OVERVIEW OF PRACTICAL SKILLS
- MUSI 503 MUSIC AND PERFORMANCE: THE MIND/BODY CONNECTION
- MUSI 507 TECHNOLOGY FOR MUSICIANS
- MUSI 508 FUNDAMENTALS OF PRIVATE TEACHING
- MUSI 510 PROFESSIONAL DEVELOPMENT FOR MUSICIANS
- MUSI 515 MUSIC ENTREPRENEURSHIP
- MUSI 518 THE ART AND BUSINESS OF STUDIO TEACHING
- MUSI 519 THEMATIC PROGRAMMING: THE ART OF THE RECITAL
- MUSI 532 THE FELDENKRAIS METHOD AND THE MUSICIAN'S BODY
- MUSI 540 APPLIED JAZZ IMPROVISATION: DEVELOPING SOLO IMPROVISATIONAL SKILLS IN THE JAZZ IDIOM

**Elective Requirements**

Select 6 credit hours from the following:

- Any course at the 300-level or above
- Any language course at the 100-level or above

Any additional Music Theory, Music History, or Music Career and Skills Enhancement course

Secondary Lessons (any course between MUSI 251 and MUSI 297 with the exception of MUSI 281)

- MUSI 342 RICE JAZZ ENSEMBLE
- MUSI 345 APPLIED STUDIES IN JAZZ
- MUSI 381 CONCENTRATION PIANO
- MUSI 436 COLLEGIUM MUSICUM
- MUSI 444 PRACTICUM IN CONTEMPORARY MUSIC
- MUSI 585 SONATA CLASS
- MUSI 649 GRADUATE INDEPENDENT STUDY

**Footnotes and Additional Information**

1. No more than three (3) credit hours of MUSI 649 - Independent Study may fulfill this requirement. Remedial courses (such as MUSI 281, MUSI 432, MUSI 511, MUSI 521, or MUSI 522) and extra hours of required Performance Coursework (such as extra private instrumental or vocal study, ensembles, chamber music, vocal coaching, or repertoire classes) will not fulfill this requirement.

2. Deficiencies in these areas will result in remedial coursework being added to a student’s degree plan.

**Policies for the MMus Degree**

**Admission**

For Instrumental Performance, Vocal Performance, and Orchestral Conducting applicants, an audition is required. Composition applicants must submit portfolios, and Musicology applicants must provide samples of their written work. Musicology applicants must also complete advanced music tests as well as the Graduate Record Examination for admission consideration.

**Academic Standards**

**Curriculum and Degree Requirements**

Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

**Grading Policy**

A minimum grade of “B-” is expected of all music students in their major applied area. A grade of “C+” or lower is considered unsatisfactory and will be evaluated in the following manner:

A music major who receives a grade of “C+” or lower in their major applied area will be placed on music probation. Music probation signifies that the student’s work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of “C+” or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

Note: For music history and musicology majors a grade of “C+” or lower in any music history course is considered unsatisfactory and will be evaluated as above.

Graduate degree requirement: a minimum grade point average of 2.67 is necessary for graduation.
Leaves of Absence and Voluntary Withdrawal
Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean’s office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Performance
Students are expected to perform frequently during their residency at Rice. MMus students in any of the performance fields of study must present at least two full recitals. Composition and Conducting students should present recitals as specified by their degree programs. Students are expected to attend both faculty and student recitals. In addition, all MMus students must participate in the school's conducted ensembles as assigned.

Thesis
A thesis is required for MMus students in the field of Musicology. In lieu of a thesis, MMus students in the field of Composition must produce an original work of extended scope. Both thesis and original work must be publicly defended.

For additional information, please see the School of Music website: http://music.rice.edu

**Policies for the MMus Degree**

**Admission**

For Instrumental Performance, Vocal Performance, and Orchestral Conducting applicants, an audition is required. Composition applicants must submit portfolios, and Musicology applicants must provide samples of their written work. Musicology applicants must also complete advanced music tests as well as the Graduate Record Examination for admission consideration.

**Academic Standards**

**Curriculum and Degree Requirements**

Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

**Grading Policy**

A minimum grade of “B-” is expected of all music students in their major applied area. A grade of “C+” or lower is considered unsatisfactory and will be evaluated in the following manner:

A music major who receives a grade of “C+” or lower in their major applied area will be placed on music probation. Music probation signifies that the student’s work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of “C+” or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

**Note:** For music history and musicology majors a grade of “C+” or lower in any music history course is considered unsatisfactory and will be evaluated as above.

**Graduate degree requirement:** a minimum grade point average of 2.67 is necessary for graduation.

**Leaves of Absence and Voluntary Withdrawal**

Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean’s office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

**Performance**

Students are expected to perform frequently during their residency at Rice. MMus students in any of the performance fields of study must present at least two full recitals. Composition and Conducting students should present recitals as specified by their degree programs. Students are expected to attend both faculty and student recitals. In addition, all MMus students must participate in the school’s conducted ensembles as assigned.

**Thesis**

A thesis is required for MMus students in the field of Musicology. In lieu of a thesis, MMus students in the field of Composition must produce an original work of extended scope. Both thesis and original work must be publicly defended.

For additional information, please see the School of Music website at: [http://music.rice.edu](http://music.rice.edu)

**Opportunities for the MMus Degree**

**Other Musical Opportunities**

**Lectures and Performances**

A visiting lecture series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.

For additional information, please see the School of Music website at: [http://music.rice.edu](http://music.rice.edu)

**Master of Music (MMus) Degree in the field of Oboe Performance**
Program Learning Outcomes for the MMus Degree

Upon completing the MMus degree, students will be able to:

1. Demonstrate technical and musical competence in performance, composition, or historical scholarship at a professional level.
2. Develop advanced analytical skills in music theory and a deep understanding of how those skills inform music performance.
3. Demonstrate a thorough understanding of the relationship between music history and music performance.
4. Develop career development skills that complement their professional-level performance skills.
5. Demonstrate technical and musical competence in performance, composition, or historical scholarship at a professional level.

Requirements for the MMus Degree

The MMUS degrees can be thesis or non-thesis master's degrees depending on the field declared. For general university requirements for thesis master's degrees, see Thesis Master's Degrees (p. 67). For general university requirements for non-thesis master's degrees, please see Non-Thesis Master's Degrees (p. 66). Students pursuing the MMUS degree programs must complete:

- A minimum of 43-54 credit hours depending on field of study to satisfy degree requirements

Students completing the MMus degree in all fields of study must participate in core music, applied music, and other required music courses as well as in chamber music and large ensembles, plus electives. They are entitled to one hour of private lessons each week of each semester they are enrolled as an MMus degree candidate; private or group lessons beyond this may result in additional fees.

Elective Requirements

Select 6 credit hours from the following:

- Any course at the 300-level or above
- Any language course at the 100-level or above
- Any additional Music Theory, Music History, or Music Career and Skills Enhancement course
- Secondary Lessons (any course between MUSI 251 and MUSI 297 with the exception of MUSI 281)
- MUSI 342 RICE JAZZ ENSEMBLE
- MUSI 345 APPLIED STUDIES IN JAZZ
- MUSI 381 CONCENTRATION PIANO
- MUSI 436 COLLEGIUM MUSICUM
- MUSI 444 PRACTICUM IN CONTEMPORARY MUSIC
- MUSI 585 SONATA CLASS
- MUSI 649 GRADUATE INDEPENDENT STUDY

Footnotes and Additional Information

1. No more than three (3) credit hours of MUSI 649 - Independent Study may fulfill this requirement. Remedial courses (such as MUSI 281, MUSI 432, MUSI 511, MUSI 521, or MUSI 522) and extra hours of required Performance Coursework (such as extra private instrumental or vocal study, ensembles, chamber music, vocal coaching, or repertoire classes) will not fulfill this requirement.

2. Deficiencies in these areas will result in remedial coursework being added to a student’s degree plan.

Policies for the MMus Degree

Admission

For Instrumental Performance, Vocal Performance, and Orchestral Conducting applicants, an audition is required. Composition applicants must submit portfolios, and Musicology applicants must provide samples of their written work. Musicology applicants must also complete advanced music tests as well as the Graduate Record Examination for admission consideration.

Proficiencies³

Students must demonstrate the following proficiencies:

- Orchestration
- Piano proficiency
- Aural skills proficiency

Total Credit Hours 47

Other Requirements

Students must complete 6 credit hours from the Elective Requirements, and 2 courses from the Performance Coursework lists below.

2 No more than three (3) credit hours of MUSI 649 - Independent Study may fulfill this requirement. Remedial courses (such as MUSI 281, MUSI 432, MUSI 511, MUSI 521, or MUSI 522) and extra hours of required Performance Coursework (such as extra private instrumental or vocal study, ensembles, chamber music, vocal coaching, or repertoire classes) will not fulfill this requirement.

3 Deficiencies in these areas will result in remedial coursework being added to a student's degree plan. Proficiency in Orchestration is defined as MUSI 416 or the equivalent.

Policies for the MMus Degree

Admission

For Instrumental Performance, Vocal Performance, and Orchestral Conducting applicants, an audition is required. Composition applicants must submit portfolios, and Musicology applicants must provide samples of their written work. Musicology applicants must also complete advanced advanced music tests as well as the Graduate Record Examination for admission consideration.

Academic Standards

Curriculum and Degree Requirements

Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

Grading Policy

A minimum grade of "B-" is expected of all music students in their major applied area. A grade of "C+" or lower is considered unsatisfactory and will be evaluated in the following manner:

A music major who receives a grade of "C+" or lower in their major applied area will be placed on music probation. Music probation signifies that the student's work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of "C+" or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

Note: For music history and musicology majors a grade of "C+" or lower in any music history course is considered unsatisfactory and will be evaluated as above.

Graduate degree requirement: a minimum grade point average of 2.67 is necessary for graduation.

Leaves of Absence and Voluntary Withdrawal

Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean's office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed re-admission into the Shepherd School and may be asked to reapply/re-audition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

For additional information, please see the School of Music website at: http://music.rice.edu

Footnotes and Additional Information

1 Recitals for the MMus degree in the field of Orchestral Conducting are optional. Conducting experience with the orchestra replaces the recital requirements typically found in the MMus degree for other fields of study.
Opportunities for the MMus Degree

- MUSI 515  MUSIC ENTREPRENEURSHIP
- MUSI 518  THE ART AND BUSINESS OF STUDIO TEACHING
- MUSI 519  THEMATIC PROGRAMMING: THE ART OF THE RECITAL
- MUSI 532  THE FELDENKRAIS METHOD AND THE MUSICIAN'S BODY
- MUSI 540  APPLIED JAZZ IMPROVISATION: DEVELOPING SOLO IMPROVISATIONAL SKILLS IN THE JAZZ IDIOM

Elective Requirements

Select 6 credit hours from the following: 6

- Any course at the 300-level or above
- Any language course at the 100-level or above
- Any additional Music Theory, Music History, or Music Career and Skills Enhancement course

Secondary Lessons (any course between MUSI 251 and MUSI 297 with the exception of MUSI 281)

- MUSI 342  RICE JAZZ ENSEMBLE
- MUSI 345  APPLIED STUDIES IN JAZZ
- MUSI 381  CONCENTRATION PIANO
- MUSI 436  COLLEGIUM MUSICUM
- MUSI 444  PRACTICUM IN CONTEMPORARY MUSIC
- MUSI 585  SONATA CLASS
- MUSI 649  GRADUATE INDEPENDENT STUDY

Additional Music Theory Courses

- MUSI 316  EXPERIMENTAL SOUND AND VIDEO
- MUSI 378  CLASSICAL, CONTEMPORARY, AND CROSS-CULTURAL ASIAN MUSIC
- MUSI 403  BASIC ELECTRONIC MUSIC
- MUSI 404  ELECTRONIC MUSIC COMPOSITION
- MUSI 405  MUSIC BUSINESS AND LAW
- MUSI 416  ORCHESTRATION
- MUSI 417  MUSIC FOR MEDIA
- MUSI 514  SCORE READING AND THEORY AT THE KEYBOARD
- MUSI 605  ADVANCED ELECTRONIC AND COMPUTER MUSIC SYSTEMS
- MUSI 606  ADVANCED COMPUTER SOUND SYNTHESIS
- MUSI 611  CLASSROOM PEDAGOGY
- MUSI 711  ANALYTICAL APPROACHES
- MUSI 712  SEMINAR IN ADVANCED ANALYSIS
- MUSI 713  SPECIAL TOPICS IN ADVANCED ANALYSIS
- MUSI 723  AESTHETICS OF MUSIC

Music History Courses

See Electives Requirement Options Above:

- MUSI 422  RENAISSANCE MUSIC
- MUSI 429  MUSIC OF THE MIDDLE AGES
- MUSI 523  BIBLIOGRAPHY AND RESEARCH METHODS
- MUSI 524  AMERICAN MUSIC
- MUSI 525  PERFORMANCE PRACTICES SEMINAR
- MUSI 526  WOMEN IN MUSIC
- MUSI 527  TOPICS IN EARLY MUSIC
- MUSI 528  TOPICS IN THE 17TH AND 18TH CENTURIES
- MUSI 529  TOPICS IN 19TH AND 20TH CENTURIES
- MUSI 530  MUSIC, MAGIC, AND SCIENCE IN THE MODERN WORLD
- MUSI 534  PROGRAM MUSIC IN THE 19TH CENTURY
- MUSI 537  SATIE, COCTEAU, & LES SIX: PARIS IN THE 1920s AND BEYOND
- MUSI 543  MUSIC AND MODERNISM IN FRANCE
- MUSI 551  MUSIC OF RICHARD STRAUSS
- MUSI 552  WORDS AND MUSIC
- MUSI 621  SELECTED STUDIES IN MUSIC HISTORY
- MUSI 622  EARLY OPERA
- MUSI 623  J.S. BACH: CAREER, WORKS, AND CRITICAL RECEPTION
- MUSI 624  SEMINAR ON A SELECTED COMPOSER
- MUSI 625  MOZART OPERAS
- MUSI 626  THE CLASSICAL STYLE
- MUSI 627  ROMANTIC SONGS AND PIANO PIECES
- MUSI 721  MUSIC OF SCHONBERG
- MUSI 722  MUSIC OF STRAVINSKY

Footnotes and Additional Information

1 No more than three (3) credit hours of MUSI 649 - Independent Study may fulfill this requirement. Remedial courses (such as MUSI 281, MUSI 432, MUSI 511, MUSI 521, or MUSI 522) and extra hours of required Performance Coursework (such as extra private instrumental or vocal study, ensembles, chamber music, vocal coaching, or repertoire classes) will not fulfill this requirement.

2 Deficiencies in this area will result in remedial coursework being added to a student's degree plan. MMus students in the field of Organ Performance do not have to demonstrate piano proficiency.
Policies for the MMus Degree

Admission
For Instrumental Performance, Vocal Performance, and Orchestral Conducting applicants, an audition is required. Composition applicants must submit portfolios, and Musicology applicants must provide samples of their written work. Musicology applicants must also complete advanced music tests as well as the Graduate Record Examination for admission consideration.

Academic Standards
Curriculum and Degree Requirements
Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

Grading Policy
A minimum grade of "B-" is expected of all music students in their major applied area. A grade of "C+" or lower is considered unsatisfactory and will be evaluated in the following manner:

A music major who receives a grade of "C+" or lower in their major applied area will be placed on music probation. Music probation signifies that the student's work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of "C+" or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

Note: For music history and musicology majors a grade of "C+" or lower in any music history course is considered unsatisfactory and will be evaluated as above.

Graduate degree requirement: a minimum grade point average of 2.67 is necessary for graduation.

Leaves of Absence and Voluntary Withdrawal
Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean's office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed re-admission into the Shepherd School and may be asked to reapply/re-audition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Performance
Students are expected to perform frequently during their residency at Rice. MMus students in any of the performance fields of study must present at least two full recitals. Composition and Conducting students should present recitals as specified by their degree programs. Students are expected to attend both faculty and student recitals. In addition, all MMus students must participate in the school's conducted ensembles as assigned.

Thesis
A thesis is required for MMus students in the field of Musicology. In lieu of a thesis, MMus students in the field of Composition must produce an original work of extended scope. Both thesis and original work must be publicly defended.

For additional information, please see the School of Music website: http://music.rice.edu

Opportunities for the MMus Degree

Other Musical Opportunities

Lectures and Performances
A visiting lecture series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.

For additional information, please see the School of Music website: http://music.rice.edu

Master of Music (MMus) Degree in the field of Percussion Performance

Program Learning Outcomes for the MMus Degree
Upon completing the MMus degree, students will be able to:

1. Demonstrate technical and musical competence in performance, composition, or historical scholarship at a professional level.
2. Develop advanced analytical skills in music theory and a deep understanding of how those skills inform music performance.
3. Demonstrate a thorough understanding of the relationship between music history and music performance.
4. Develop career development skills that complement their professional-level performance skills.
5. Demonstrate technical and musical competence in performance, composition, or historical scholarship at a professional level.

Requirements for the MMus Degree
The MMUS degrees can be thesis or non-thesis master's degrees depending on the field declared. For general university requirements for thesis master's degrees, please see Thesis Master's Degrees (p. 67). For general university requirements for non-thesis master's degrees, please see Non-Thesis Master's Degrees (p. 66). Students pursuing the MMUS degree programs must complete:

- A minimum of 43-54 credit hours depending on field of study to satisfy degree requirements

Students completing the MMus degree in all fields of study must participate in core music, applied music, and other required music courses as well as in chamber music and large ensembles, plus electives. They are entitled to one hour of private lessons each week of each semester they are enrolled as an MMus degree candidate; private or group lessons beyond this may result in additional fees.

 Policies for the MMus Degree

Admission

For Instrumental Performance, Vocal Performance, and Orchestral Conducting applicants, an audition is required. Composition applicants must submit portfolios, and Musicology applicants must provide samples of their written work. Musicology applicants must also complete advanced music tests as well as the Graduate Record Examination for admission consideration.

Academic Standards

Curriculum and Degree Requirements

Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

Grading Policy

A minimum grade of “B-” is expected of all music students in their major applied area. A grade of “C+” or lower is considered unsatisfactory and will be evaluated in the following manner:

A music major who receives a grade of “C+” or lower in their major applied area will be placed on music probation. Music probation signifies that the student’s work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of “C+” or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

Note: For music history and musicology majors a grade of “C+” or lower in any music history course is considered unsatisfactory and will be evaluated as above.

Graduate degree requirement: a minimum grade point average of 2.67 is necessary for graduation.

Leaves of Absence and Voluntary Withdrawal

Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean's office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Performance

Students are expected to perform frequently during their residency at Rice. MMus students in any of the performance fields of study must present at least two full recitals. Composition and Conducting students should present recitals as specified by their degree programs. Students are expected to attend both faculty and student recitals. In addition, all MMus students must participate in the school's conducted ensembles as assigned.
Thesis
A thesis is required for MMus students in the field of Musicology. In lieu of a thesis, MMus students in the field of Composition must produce an original work of extended scope. Both thesis and original work must be publicly defended.

For additional information, please see the school website: http://music.rice.edu

Policies for the MMus Degree

Admission
For Instrumental Performance, Vocal Performance, and Orchestral Conducting applicants, an audition is required. Composition applicants must submit portfolios, and Musicology applicants must provide samples of their written work. Musicology applicants must also complete advanced music tests as well as the Graduate Record Examination for admission consideration.

Academic Standards

Curriculum and Degree Requirements
Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

Grading Policy
A minimum grade of "B-" is expected of all music students in their major applied area. A grade of "C+" or lower is considered unsatisfactory and will be evaluated in the following manner:

A music major who receives a grade of "C+" or lower in their major applied area will be placed on music probation. Music probation signifies that the student’s work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of "C+" or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

Note: For music history and musicology majors a grade of "C+" or lower in any music history course is considered unsatisfactory and will be evaluated as above.

Graduate degree requirement: a minimum grade point average of 2.67 is necessary for graduation.

Leaves of Absence and Voluntary Withdrawal
Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean’s office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Performance

Students are expected to perform frequently during their residency at Rice. MMus students in any of the performance fields of study must present at least two full recitals. Composition and Conducting students should present recitals as specified by their degree programs. Students are expected to attend both faculty and student recitals. In addition, all MMus students must participate in the school’s conducted ensembles as assigned.

Thesis

A thesis is required for MMus students in the field of Musicology. In lieu of a thesis, MMus students in the field of Composition must produce an original work of extended scope. Both thesis and original work must be publicly defended.

For additional information, please see the School of Music website: http://music.rice.edu

Opportunities for the MMus Degree

Other Musical Opportunities

Lectures and Performances

A visiting lecture series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.

For additional information, please see the School of Music website: http://music.rice.edu

Master of Music (MMus) Degree in the field of Piano Performance

Program Learning Outcomes for the MMus Degree

Upon completing the MMus degree, students will be able to:

1. Demonstrate technical and musical competence in performance, composition, or historical scholarship at a professional level.
2. Develop advanced analytical skills in music theory and a deep understanding of how those skills inform music performance.
3. Demonstrate a thorough understanding of the relationship between music history and music performance.
4. Develop career development skills that complement their professional-level performance skills.
5. Demonstrate technical and musical competence in performance, composition, or historical scholarship at a professional level.

Requirements for the MMus Degree

The MMUS degrees can be thesis or non-thesis master's degrees depending on the field declared. For general university requirements for thesis master's degrees, please see Thesis Master's Degrees (p. 67). For general university requirements for non-thesis master's degrees, please see Non-Thesis Master's Degrees (p. 66). Students pursuing the MMUS degree programs must complete:

- A minimum of 43-54 credit hours depending on field of study to satisfy degree requirements

Students completing the MMus degree in all fields of study must participate in core music, applied music, and other required music courses as well as in chamber music and large ensembles, plus electives. They are entitled to one hour of private lessons each week of each semester they are enrolled as an MMus degree candidate; private or group lessons beyond this may result in additional fees.

Music Career and Skills Enhancement Courses

Select 2 courses from the following:

- LPCR 200 ADVANCED MENTAL TRAINING
- MGMT 621 THE NEW ENTERPRISE
- MGMT 625 CREATIVE ENTREPRENEURSHIP
- MGMT 629 BUSINESS PLAN DEVELOPMENT
- MGMT 676 SOCIAL ENTERPRISE
- MUSI 413 INTRODUCTION TO DALCROZE EURHYTHMICS
- MUSI 500 IMAGINATION AND COMMUNICATION: DEVELOPING MUSICAL SKILLS THROUGH THEATRICAL TECHNIQUES
- MUSI 501 ENHANCED PERFORMANCE: WRITING, SPEAKING, PLAYING
- MUSI 502 CONDUCTING: AN OVERVIEW OF PRACTICAL SKILLS
- MUSI 503 MUSIC AND PERFORMANCE: THE MIND/BODY CONNECTION
- MUSI 507 TECHNOLOGY FOR MUSICIANS
- MUSI 508 FUNDAMENTALS OF PRIVATE TEACHING
- MUSI 510 PROFESSIONAL DEVELOPMENT FOR MUSICIANS
- MUSI 515 MUSIC ENTREPRENEURSHIP
- MUSI 518 THE ART AND BUSINESS OF STUDIO TEACHING
- MUSI 519 THEMATIC PROGRAMMING: THE ART OF THE RECITAL
- MUSI 532 THE FE LDENKRAIS METHOD AND THE MUSICIAN'S BODY
- MUSI 540 APPLIED JAZZ IMPROVISATION: DEVELOPING SOLO IMPROVISATIONAL SKILLS IN THE JAZZ IDIOM

Elective Requirements

Select 6 credit hours from the following:

- Any course at the 300-level or above
- Any language course at the 100-level or above
- Any additional Music Theory, Music History, or Music Career and Skills Enhancement course
- Secondary Lessons (any course between MUSI 251 and MUSI 297 with the exception of MUSI 281)
- MUSI 342 RICE JAZZ ENSEMBLE
- MUSI 345 APPLIED STUDIES IN JAZZ
- MUSI 381 CONCENTRATION PIANO
- MUSI 436 COLL EGIUM MUSICUM
- MUSI 444 PRACTICUM IN CONTEMPORARY MUSIC
- MUSI 585 SONATA CLASS
- MUSI 649 GRADUATE INDEPENDENT STUDY

Footnotes and Additional Information

1 No more than three (3) credit hours of MUSI 649 - Independent Study may fulfill this requirement. Remedial courses (such as MUSI 281, MUSI 432, MUSI 511, MUSI 521, or MUSI 522) and extra hours of required Performance Coursework (such as extra private instrumental or vocal study, ensembles, chamber music, vocal coaching, or repertoire classes) will not fulfill this requirement.

2 Deficiencies in this area will result in remedial coursework being added to a student's degree plan. MMus students in the field of Piano Performance do not have to demonstrate piano proficiency.

Policies for the MMus Degree

Admission

For Instrumental Performance, Vocal Performance, and Orchestral Conducting applicants, an audition is required. Composition applicants must submit portfolios, and Musicology applicants must provide samples of their written work. Musicology applicants must also complete advanced music tests as well as the Graduate Record Examination for admission consideration.

Academic Standards

Curriculum and Degree Requirements

Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

Grading Policy

A minimum grade of "B-" is expected of all music students in their major applied area. A grade of "C+" or lower is considered unsatisfactory and will be evaluated in the following manner:

A music major who receives a grade of "C+" or lower in their major applied area will be placed on music probation. Music probation signifies that the student's work has been sufficiently unsatisfactory to preclude...
graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of “C+” or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

Note: For music history and musicology majors a grade of “C+” or lower in any music history course is considered unsatisfactory and will be evaluated as above.

Graduate degree requirement: a minimum grade point average of 2.67 is necessary for graduation.

Leaves of Absence and Voluntary Withdrawal
Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean’s office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Performance
Students are expected to perform frequently during their residency at Rice. MMus students in any of the performance fields of study must present at least two full recitals. Composition and Conducting students should present recitals as specified by their degree programs. Students are expected to attend both faculty and student recitals. In addition, all MMus students must participate in the school’s conducted ensembles as assigned.

Thesis
A thesis is required for MMus students in the field of Musicology. In lieu of a thesis, MMus students in the field of Composition must produce an original work of extended scope. Both thesis and original work must be publicly defended.

For additional information, please see the School of Music website: http://music.rice.edu

Opportunities for the MMus Degree
Other Musical Opportunities
Lectures and Performances
A visiting lecture series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.

</table>

Select 6 credit hours from the following:
- Any course at the 300-level or above
- Any language course at the 100-level or above
- Any additional Music Theory, Music History, or Music Career and Skills Enhancement course
- Secondary Lessons (any course between MUSI 251 and MUSI 297 with the exception of MUSI 281)
- MUSI 342 | RICE JAZZ ENSEMBLE                         |
- MUSI 345 | APPLIED STUDIES IN JAZZ                    |
Footnotes and Additional Information

1. No more than three (3) credit hours of MUSI 649 - Independent Study may fulfill this requirement. Remedial courses (such as MUSI 281, MUSI 432, MUSI 511, MUSI 521, or MUSI 522) and extra hours of required Performance Coursework (such as extra private instrumental or vocal study, ensembles, chamber music, vocal coaching, or repertoire classes) will not fulfill this requirement.

2. Deficiencies in these areas will result in remedial coursework being added to a student's degree plan.

Policies for the MMus Degree

Admission

For Instrumental Performance, Vocal Performance, and Orchestral Conducting applicants, an audition is required. Composition applicants must submit portfolios, and Musicology applicants must provide samples of their written work. Musicology applicants must also complete advanced music tests as well as the Graduate Record Examination for admission consideration.

Academic Standards

Curriculum and Degree Requirements

Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

Grading Policy

A minimum grade of "B-" is expected of all music students in their major applied area. A grade of "C+" or lower is considered unsatisfactory and will be evaluated in the following manner.

A music major who receives a grade of "C+" or lower in their major applied area will be placed on music probation. Music probation signifies that the student’s work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of "C+" or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

Note: For music history and musicology majors a grade of "C+" or lower in any music history course is considered unsatisfactory and will be evaluated as above.

Graduate degree requirement: a minimum grade point average of 2.67 is necessary for graduation.

Leaves of Absence and Voluntary Withdrawal

Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean's office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Performance

Students are expected to perform frequently during their residency at Rice. MMus students in any of the performance fields of study must present at least two full recitals. Composition and Conducting students should present recitals as specified by their degree programs. Students are expected to attend both faculty and student recitals. In addition, all MMus students must participate in the school's conducted ensembles as assigned.

Thesis

A thesis is required for MMus students in the field of Musicology. In lieu of a thesis, MMus students in the field of Composition must produce an original work of extended scope. Both thesis and original work must be publicly defended.

For additional information, please see the School of Music website: http://music.rice.edu

Opportunities for the MMus Degree

Other Musical Opportunities

Lectures and Performances

A visiting lecture series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.

For additional information, please see the School of Music website: http://music.rice.edu

Master of Music (MMus) Degree in the field of Trumpet Performance

Program Learning Outcomes for the MMus Degree

Upon completing the MMus degree, students will be able to:

1. Demonstrate technical and musical competence in performance, composition, or historical scholarship at a professional level.

2. Develop advanced analytical skills in music theory and a deep understanding of how those skills inform music performance.

3. Demonstrate a thorough understanding of the relationship between music history and music performance.

4. Develop career development skills that complement their professional-level performance skills.

5. Demonstrate technical and musical competence in performance, composition, or historical scholarship at a professional level.

Requirements for the MMus Degree

The MMUS degrees can be thesis or non-thesis master's degrees depending on the field declared. For general university requirements for
thesis master's degrees, please see Thesis Master's Degrees (p. 67). For general university requirements for non-thesis master's degrees, please see Non-Thesis Master's Degrees (p. 66). Students pursuing the MMUs degree programs must complete:

- A minimum of 43-54 credit hours depending on field of study to satisfy degree requirements

Students completing the MMus degree in all fields of study must participate in core music, applied music, and other required music courses as well as in chamber music and large ensembles, plus electives. They are entitled to one hour of private lessons each week of each semester they are enrolled as an MMus degree candidate; private or group lessons beyond this may result in additional fees.

### Elective Requirements

#### Select 6 credit hours from the following:

- Any course at the 300-level or above
- Any language course at the 100-level or above
- Any additional Music Theory, Music History, or Music Career and Skills Enhancement course
- Secondary Lessons (any course between MUSI 251 and MUSI 297 with the exception of MUSI 281)
- MUSI 342 RICE JAZZ ENSEMBLE
- MUSI 345 APPLIED STUDIES IN JAZZ
- MUSI 381 CONCENTRATION PIANO
- MUSI 436 COLLEGIUM MUSICUM
- MUSI 444 PRACTICUM IN CONTEMPORARY MUSIC
- MUSI 585 SONATA CLASS
- MUSI 649 GRADUATE INDEPENDENT STUDY

### Footnotes and Additional Information

1. No more than three (3) credit hours of MUSI 649 - Independent Study may fulfill this requirement. Remedial courses (such as MUSI 281, MUSI 432, MUSI 511, MUSI 521, or MUSI 522) and extra hours of required Performance Coursework (such as extra private instrumental or vocal study, ensembles, chamber music, vocal coaching, or repertoire classes) will not fulfill this requirement.
Deficiencies in these areas will result in remedial coursework being added to a student's degree plan.

Policies for the MMus Degree

Admission
For Instrumental Performance, Vocal Performance, and Orchestral Conducting applicants, an audition is required. Composition applicants must submit portfolios, and Musicology applicants must provide samples of their written work. Musicology applicants must also complete advanced music tests as well as the Graduate Record Examination for admission consideration.

Academic Standards

Curriculum and Degree Requirements
Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

Grading Policy
A minimum grade of "B-" is expected of all music students in their major applied area. A grade of "C+" or lower is considered unsatisfactory and will be evaluated in the following manner.

A music major who receives a grade of "C+" or lower in their major applied area will be placed on music probation. Music probation signifies that the student's work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of "C+" or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

Note: For music history and musicology majors a grade of "C+" or lower in any music history course is considered unsatisfactory and will be evaluated as above.

Graduate degree requirement: a minimum grade point average of 2.67 is necessary for graduation.

Leaves of Absence and Voluntary Withdrawal
Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean's office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Performance
Students are expected to perform frequently during their residency at Rice. MMus students in any of the performance fields of study must present at least two full recitals. Composition and Conducting students should present recitals as specified by their degree programs. Students are expected to attend both faculty and student recitals. In addition, all MMus students must participate in the school's conducted ensembles as assigned.

Thesis
A thesis is required for MMus students in the field of Musicology. In lieu of a thesis, MMus students in the field of Composition must produce an original work of extended scope. Both thesis and original work must be publicly defended.

For additional information, please see the School of Music website: http://music.rice.edu

Opportunities for the MMus Degree

Other Musical Opportunities

Lectures and Performances
A visiting lecture series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.

For additional information, please see the School of Music website: http://music.rice.edu

Master of Music (MMus) Degree in the field of Viola Performance

Program Learning Outcomes for the MMus Degree

Upon completing the MMus degree, students will be able to:

1. Demonstrate technical and musical competence in performance, composition, or historical scholarship at a professional level.
2. Develop advanced analytical skills in music theory and a deep understanding of how those skills inform music performance.
3. Demonstrate a thorough understanding of the relationship between music history and music performance.
4. Develop career development skills that complement their professional-level performance skills.
5. Demonstrate technical and musical competence in performance, composition, or historical scholarship at a professional level.

Requirements for the MMus Degree

The MMUS degrees can be thesis or non-thesis master's degrees depending on the field declared. For general university requirements for thesis master's degrees, please see Thesis Master's Degrees (p. 67). For general university requirements for non-thesis master's degrees, please see Non-Thesis Master's Degrees (p. 66). Students pursuing the MMUS degree programs must complete:

- A minimum of 43-54 credit hours depending on field of study to satisfy degree requirements

Students completing the MMus degree in all fields of study must participate in core music, applied music, and other required music courses as well as in chamber music and large ensembles, plus electives. They are entitled to one hour of private lessons each week of each semester they are enrolled as an MMus degree candidate; private or group lessons beyond this may result in additional fees.

</table>

Footnotes and Additional Information

1 No more than three (3) credit hours of MUSI 649 - Independent Study may fulfill this requirement. Remedial courses (such as MUSI 281, MUSI 432, MUSI 511, MUSI 521, or MUSI 522) and extra hours of required Performance Coursework (such as extra private instrumental or vocal study, ensembles, chamber music, vocal coaching, or repertoire classes) will not fulfill this requirement.
Deficiencies in these areas will result in remedial coursework being added to a student’s degree plan.

Policies for the MMus Degree

Admission

For Instrumental Performance, Vocal Performance, and Orchestral Conducting applicants, an audition is required. Composition applicants must submit portfolios, and Musicology applicants must provide samples of their written work. Musicology applicants must also complete advanced music tests as well as the Graduate Record Examination for admission consideration.

Academic Standards

Curriculum and Degree Requirements

Further information on curricular requirements for all majors and degree programs is available from the Shepherd School of Music.

Grading Policy

A minimum grade of “B-” is expected of all music students in their major applied area. A grade of “C+” or lower is considered unsatisfactory and will be evaluated in the following manner:

A music major who receives a grade of "C+" or lower in their major applied area will be placed on music probation. Music probation signifies that the student’s work has been sufficiently unsatisfactory to preclude graduation unless marked improvement is achieved promptly. A student on music probation may be absent from class only for extraordinary reasons and may not represent the school in any public function not directly a part of a degree program.

If a student receives a second semester of "C+" or lower in their major applied area, whether for consecutive semesters or not, the student will be discontinued as a music performance major and merit scholarship from the Shepherd School will be discontinued.

Note: For music history and musicology majors a grade of "C+" or lower in any music history course is considered unsatisfactory and will be evaluated as above.

Graduate degree requirement: a minimum grade point average of 2.67 is necessary for graduation.

Leaves of Absence and Voluntary Withdrawal

Music majors must obtain permission in writing from the dean of the Shepherd School before requesting a leave of absence from the university. Requests must be in the dean's office before the first day of classes in the semester for which leave is requested.

Music majors taking voluntary withdrawal from the university are not guaranteed readmission into the Shepherd School and may be asked to reapply/reaudition. Students should explain the reasons for their withdrawal to the dean before leaving campus.

Performance

Students are expected to perform frequently during their residency at Rice. MMus students in any of the performance fields of study must present at least two full recitals. Composition and Conducting students should present recitals as specified by their degree programs. Students are expected to attend both faculty and student recitals. In addition, all MMus students must participate in the school's conducted ensembles as assigned.

Thesis

A thesis is required for MMus students in the field of Musicology. In lieu of a thesis, MMus students in the field of Composition must produce an original work of extended scope. Both thesis and original work must be publicly defended.

For additional information, please see the School of Music website: http://music.rice.edu

Opportunities for the MMus Degree

Other Musical Opportunities

Lectures and Performances

A visiting lecture series, a professional concert series, and numerous distinguished visiting musicians contribute to the Shepherd School environment. The Houston Symphony Orchestra, Symphony Chorus, Houston Grand Opera, Houston Ballet, Houston Masterworks Chorus, Da Camera, Context, and Chamber Music Houston, as well as the activities of other institutions of higher learning in the area, also provide exceptional opportunities for students to enjoy a wide spectrum of music.

For additional information, please see the School of Music website: http://music.rice.edu

Master of Music (MMus) Degree in the field of Vocal Performance

Program Learning Outcomes for the MMus Degree

Upon completing the MMus degree, students will be able to:

1. Demonstrate technical and musical competence in performance, composition, or historical scholarship at a professional level.
2. Develop advanced analytical skills in music theory and a deep understanding of how those skills inform music performance.
3. Demonstrate a thorough understanding of the relationship between music history and music performance.
4. Develop career development skills that complement their professional-level performance skills.
5. Demonstrate technical and musical competence in performance, composition, or historical scholarship at a professional level.

Requirements for the MMus Degree

The MMUS degrees can be thesis or non-thesis master’s degrees depending on the field declared. For general university requirements for thesis master’s degrees, please see Thesis Master’s Degrees (p. 67). For general university requirements for non-thesis master’s degrees, please see Non-Thesis Master’s Degrees (p. 66). Students pursuing the MMUS degree programs must complete:

- A minimum of 43-54 credit hours depending on field of study to satisfy degree requirements

Students completing the MMus degree in all fields of study must participate in core music, applied music, and other required music courses as well as in chamber music and large ensembles, plus electives. They are entitled to one hour of private lessons each week of each semester they are enrolled as an MMus degree candidate; private or group lessons beyond this may result in additional fees.

### Performance Requirements

- Select 1 course from the Approved Music Theory course offerings (see below for course list) 3
- Select 1 course from the Music History course offerings or an additional Music Theory course (see below for course list) 3
- Select 2 courses from the Music Career and Skills Enhancement course offerings (see below for course list) 4
- Select 6 credit hours from the Elective Requirements (see below for course list) 6

### Additional Coursework

- FREN 141 | FIRST YEAR FRENCH I                               | 3            |
- GERM 141 | FIRST YEAR GERMAN I                                | 3            |
- ITAL 141 | FIRST YEAR ITALIAN I                               | 3            |

### Proficiencies

- Students must demonstrate the following proficiencies:
  - Piano proficiency
  - Aural skills proficiency

### Academic Coursework

Academic Coursework is comprised of at least 1 course (3 credit hours) from the Approved Music Theory course offerings, 1 course (3 credit hours) from the Music Theory or Music History course offerings, 2 courses (4 credit hours) from the Music Career and Skills Enhancement course offerings, and 6 credit hours from the Elective Requirements.

Dagmar Beck
Program Director
dkbeck@rice.edu

Lindsey Hodge
Program Administrator
lindsey.hodge@rice.edu

Rice University introduced this degree program in fall 2002. This program combines a strong component in quantum theory, which governs the behavior of systems at the nanoscale, with the study of practical nano- and mesoscale devices. The program provides the student with the knowledge required to navigate successfully the emerging field of nanotechnology. New courses cover cutting-edge areas such as quantum behavior of nanostructures, quantum nanotechnology, nanoscale imaging, and the fabrication of nanostructures. In addition, a year-long course in methods of experimental physics ensures that students obtain the advanced practical skills valuable to industry.

The degree in Nanoscale Science is 1 of 5 degrees in the professional science master's (PSM) program at Rice University housed in the Wiess School of Natural Sciences. These master's degrees are designed for students seeking to gain further scientific core expertise coupled with enhanced management, communication, and leadership skills, instilling a level of scholastic proficiency that exceeds that of the bachelor's level, and creating the cross-functional aptitudes needed in modern industry. This will allow students to move more easily into management careers in consulting or research and development, design, and marketing of new science-based products.

A coordinated MBA/MSNS degree is offered in conjunction with the Jesse H. Jones Graduate School of Business.

Nanoscale Science does not currently offer an academic program at the undergraduate level.

Master's Program
• Master of Science in Nanoscale Science (MSNS) Degree (p. 645)

Coordinated Program
• Master of Business Administration (MBA) Degree / Master of Science in Nanoscale Science (MSNS) Degree (p. 645)

Description and Code Legend
Note: Internally, the university uses the following descriptions, codes, and abbreviations for this academic program. The following is a quick reference:

Course Catalog/Schedule
• Course offerings/subject codes: Courses from various subjects may apply towards the graduate degree.
Department Description and Code
- Physics: PHYS

Graduate Degree Description and Code
- Master of Science in Nanoscale Science degree: MSNS

Graduate Degree Program Description and Code
- Degree Program in Nanoscale Science: NSSC

Program Learning Outcomes for the MBA/MSNS Coordinated Degree Program
Upon completing the MBA/MSNS Coordinated Degree Program, students will:
1. Develop knowledge of quantum theory and its application to nano- and mesoscale devices.
2. Demonstrate an understanding and application of the foundational frameworks and tools of all business disciplines, including accounting, finance, marketing, organizational behavior, and strategic management.
3. Develop, evaluate, and implement business strategies and operational solutions holistically, effectively integrating management principles across the functional areas both as a leader and as a contributor.

Requirements for the MBA/MSNS Coordinated Degree Program
Students may earn a Master of Science degree from the Weiss School of Natural Sciences Professional Science Master’s (PSM) program in the following fields:
- Bioscience and Health Policy
- Environmental Analysis and Decision Making
- Nanoscale Science
- Space Studies
- Subsurface Geoscience

For the coordinated MBA/Master of Science degree from the professional master's program, students must complete:
- A minimum of 14 courses (40-41 credit hours depending on course selection) to satisfy degree requirements.
- A 3-6 month internship. At the conclusion of the internship, students must present a summary of the internship project in both oral and written form as part of the professional master's seminar.
- A minimum of 30 credit hours at the 500-level or above.

In addition to the core science courses, students are required to complete a three to six month internship and take a set of cohort courses focusing on business and communication. Part-time students who already work in their area of study may fulfill the internship requirement by working on an approved project with their current employer. Certain course requirements may be waived based upon prior graduate coursework or industrial experience.

The courses listed below satisfy the requirements for this degree program. In certain instances, courses not on this official list may be substituted upon approval of the PSM (Professional Science Masters) program director and the MSNS advisor (or official certifier). Students and their academic advisors should identify and clearly document the courses to be taken.

Policies for the MBA/MSNS Coordinated Degree Program
For additional information on these two degrees:
1. Please see the Business website: https://business.rice.edu/
2. Please see the Nanoscale Science website: https://profms.rice.edu/

Opportunities for the MBA/MSNS Coordinated Degree Program
For additional information on these two degrees:
1. Please see the Business website: https://business.rice.edu/
2. Please see the Nanoscale Science website: https://profms.rice.edu/

Program Learning Outcomes for the MSNS Degree
Upon completing the MSNS degree, students will:
1. Develop knowledge of quantum theory and its application to nano- and mesoscale devices.
2. Demonstrate written, oral, and visual communication skills to bridge the gaps between science and business.
3. Develop business and management skills, and obtain practical skills valuable to nanotechnology-related companies.

Requirements for the MSNS Degree
The MSNS degree is a non-thesis master's degree. For general university requirements, please see Non-Thesis Master's Degrees (p. 66). Students pursuing the MSNS degree must complete:
- A minimum of 14 courses (40-41 credit hours depending on course selection) to satisfy degree requirements.
- A 3-6 month internship. At the conclusion of the internship, students must present a summary of the internship project in both oral and written form as part of the professional master's seminar.
- A minimum of 30 credit hours at the 500-level or above.

Students plan their course schedules in consultation with the Weiss School of Natural Sciences PSM program director and with the Jones Graduate School of Business Registrar Department. Coordinated degree candidates can fulfill requirements for both degrees within 3 academic years.

**Total Credit Hours** 40-41

**Footnotes and Additional Information**

1. An internship may be conducted under the guidance of a host company, government agency, or national laboratory. A summary of the internship project is required in both oral and written form as part of the Professional Master’s Project (NSCI 512).

2. To fulfill the remaining requirements for the Nanoscale Science degree program, students must complete a total of 6 additional courses (18 credit hours) as elective coursework from areas of specialization listed below, of which at least 6 credit hours must be science/engineering courses at the 500-level or above. Examples of courses and specializations that may be used as electives are listed here.

3. Each of these electives is not offered every year, and some courses may have prerequisites or require instructor permission. Most courses with the MGMT subject code carry 1.5 credit hours and last half of a semester.

**Policies for the MSNS Degree**

**Nanoscale Science Graduate Program Handbook**

The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, Nanoscale Science publishes a graduate program handbook, which can be found here: [http://gradhandbooks.rice.edu/2017_18/Professional_Science_Masters_Handbook.pdf](http://gradhandbooks.rice.edu/2017_18/Professional_Science_Masters_Handbook.pdf)

**Admission**

Admission to graduate study in nanoscale science is open to qualified students holding a bachelor's degree in physics, electrical engineering, or a related field that includes intermediate level work in mathematics,
electrodynamics, and quantum physics. Department faculty evaluate the previous academic record and credentials of each applicant individually.

Transfer Credit
For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 66). Some departments and programs have additional restrictions on transfer credit. Students are encouraged to meet with their academic program’s advisor when considering transfer credit possibilities.

For additional information, please see the Nanoscale Science website: https://profms.rice.edu/

Opportunities for the MSNS Degree
Fifth-Year MSNS Degree Option for Rice Undergraduate Students
Rice undergraduate students have an option to pursue the MSNS degree by adding an additional fifth year to their four undergraduate years of science studies. Advanced Rice undergraduate students in good academic standing may apply to the graduate program during their junior year. Upon acceptance, depending on course load, financial aid status, and other variables, they may then start taking required core courses of the Nanoscale Science program during their senior year. A plan of study based on their particular focus area will need to be approved by the PSM (Professional Science Masters) program director and the MSNS advisor.

As part of this option and opportunity, Rice undergraduate students:
- must complete the requirements for their bachelor’s degree and the MSNS degree independently of each other (i.e. no course may be counted toward the fulfillment of both degrees).
- should be aware that there could be financial aid implications, if the conversion of undergraduate coursework to that of graduate-level reduces their earned undergraduate credit for any semester below that of full-time status (12 credit hours).

For additional information, please see the Nanoscale Science website: https://profms.rice.edu/

Naval Science
Contact Information
Naval Science

ROTC Annex Building
713-348-3940

Michael Carambas, USN
Department Chair
nrotcco@rice.edu

Students may enroll in the Naval Reserve Officers’ Training Corps (NROTC) program as scholarship or non-scholarship students.

An academic minor in Naval Science is also available to all Rice students in undergraduate degree-granting programs. The faculty and instructors in the program consist of active-duty military officers.

Minor
- Minor in Naval Science (p. 647)
• A maximum of 2 courses (6 credit hours) from study abroad or transfer credit. For additional program guidelines regarding transfer credit, see the Policies tab.

The minor in Naval Science (NAVA) is available to all degree-seeking Rice students in undergraduate degree-granting programs.

The courses listed below satisfy the requirements for this minor. In certain instances, courses not on this official list may be substituted upon approval of the minor’s academic advisor (or official certifier). Students and their academic advisors should identify and clearly document the courses to be taken.

**Footnotes and Additional Information**

1. All Naval Science (NAVA) courses are offered once every academic year with the exception of NAVA 303 and NAVA 410. These two courses are offered every other academic year.

**Program Transfer Credit Guidelines**

Students pursuing the minor in Naval Science should be aware of the following program-specific transfer credit guidelines:

- No more than 2 courses (6 credit hours) as transfer credit from U.S. or international universities of similar standing as Rice may apply towards the minor.
- Requests for transfer credit will be considered by the program director (and/or the program's official transfer credit advisor) on an individual case-by-case basis.

For additional information, please see the Naval Science website: [http://nrotc.rice.edu/Naval_Science_Courses/](http://nrotc.rice.edu/Naval_Science_Courses/)

**Opportunities for the Minor in Naval Science**

**Academic Honors**

The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (p. 47) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 47). Some departments have department-specific Honors awards or designations.

For additional information, please see the Naval Science website: [http://nrotc.rice.edu/Naval_Science_Courses/](http://nrotc.rice.edu/Naval_Science_Courses/)

Program Director
aaz@rice.edu

The Neuroscience program, housed in the BioSciences Department, provides a strong interdisciplinary education covering the breadth of fundamental disciplines on which neuroscience is based and includes multiple opportunities for experiential learning. Neuroscience uses diverse methodologies to investigate the brain and its relationship to the mind, and includes the analysis of brain structures related to specific cognitive processes and representations, investigations of the biochemical processes that occur in brain functions, and the interactions and correlations among the brain, behavior, and biology that can be observed and modeled. The primary aim of the neuroscience degree program is to provide an understanding of how the cognition and behavior of organisms are encoded in neural processes. Such an understanding of the brain, bringing to bear many types of knowledge, is necessary as a basis for understanding and solving many practical problems including but not limited to: neurophysiology of disease; treatment for pathologies related to aging, stroke, autism, and hearing and other impairments; human behavior relating to risk, addiction, and social pathologies; memory, learning, and acquisition of literacy; neural basis of emotion and its relation to human perception and behavior.
The Neuroscience program offers a broad range of introductory and advanced courses that lead to either a Bachelor of Arts (BA) Degree with a Major in Neuroscience or a Minor in Neuroscience. The BA degree is designed with the intent that all majors will gain a robust foundation in science and engineering basics and additional experience in the multidisciplinary core areas that contribute to the breadth of modern neuroscience. Project-based laboratory courses are required, and students will have the opportunity to pursue independent research. This program is appropriate for students with interests in pursuing advanced degrees in the future. The Minor is available for students who choose other majors but desire strong foundational knowledge of the diverse aspects of how the brain functions. Neuroscience students are encouraged to participate in undergraduate research, and numerous students have already availed themselves of the neuroscience research opportunities at Rice and within the Houston community.

**Bachelor’s Program**

**Description and Code Legend**

*Note: Internally, the university uses the following descriptions, codes, and abbreviations for this academic program. The following is a quick reference:*

**Course Catalog/Schedule**

- Course offerings/subject code: NEUR

**Program Description and Code**

- Neuroscience: NEUR

**Undergraduate Major Description and Code**

- Major in Neuroscience: NEUX

**Undergraduate Minor Description and Code**

- Minor in Neuroscience: NEUR

**Minor in Neuroscience**

**Program Learning Outcomes for the Minor in Neuroscience**

Upon completing the minor in Neuroscience, students will be able to:

1. Demonstrate knowledge of the key issues, questions, and perspectives that define contemporary neuroscience.
2. Understand neuroscience as an interdisciplinary field and demonstrate the ability to draw on, and synthesize, key findings and concepts in the sciences, humanities and/or engineering in both the evaluation of existing theories and in the formulation and solution of new problems in neuroscience.
Requirements for the Minor in Neuroscience

Students pursuing a minor in Neuroscience must complete:

- A minimum of 6 courses (18 credit hours) to satisfy minor requirements.
- A minimum of 3 courses (9 credit hours) at the 300-level or above.
- No more than 2 courses (6 credit hours) from study abroad or transfer credits. For additional program guidelines regarding transfer credit, see the Policies tab.
- At least 2 of the electives should be completed for the minor only (not shared or double-counted with another major).
- The requirements for 1 Area of Specialization (see list below). The Areas of Specialization for the minor in Neuroscience are:
  - Humanities and Social Science specialization
    (p. 650): represents cognitive and behavioral approaches to neuroscience.
  - Natural Sciences and Engineering specialization
    (p. 650): represents genetics, cellular/mollecular, bioengineering, computation, and systems-level investigations.

The courses listed below satisfy the requirements for this minor. In certain instances, courses not on this official list may be substituted upon approval of the minor’s academic advisor (or official certifier). Students and their academic advisors should identify and clearly document the courses to be taken.

Footnotes and Additional Information
1  Course is taught at Baylor College of Medicine.

Transfer Credit
For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 32). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: http://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Program Transfer Credit Guidelines
Students pursuing the minor in Neuroscience should be aware of the following program-specific transfer credit guidelines:

- No more than 2 courses (6 credit hours) of transfer credit from U.S. or international universities of similar standing as Rice may apply towards the minor.
- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

For additional information, please see the Neuroscience website: http://neuroscience.rice.edu/.

Opportunities for the Minor in Neuroscience

Academic Honors
The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (p. 47) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 47). Some departments have department-specific Honors awards or designations.

Research in Neuroscience
Research in highly encouraged for all neuroscience minors, and may opportunities are available for independent research at Rice and other institutions of the Texas Medical Center. Students can receive course credit for independent research through the courses NEUR 310 and NEUR 401, NEUR 402, and NEUR 412. There is a 3 credit hour limit for applying research courses to the NEUR minor degree requirements.

For additional information, please see the Neuroscience website: http://neuroscience.rice.edu/.

Philosophy

Contact Information
Philosophy
http://philosophy.rice.edu/  
208 Humanities Building  
713-348-2723  

Donald Morrison  
Department Chair  
donaldm@rice.edu

Philosophy is best described as the attempt to think clearly and deeply about the fundamental questions that arise for us as human beings. What is the nature of knowledge (epistemology)? How are
we to distinguish between what really is and what only seems to be (metaphysics)? What is the right thing to do (ethics)? Is there any meaning to existence? To study the history of philosophy is to study the best, most enduring answers given to these questions in the past. Because every other field of study adopts some stance toward these questions, though often implicitly, philosophical issues arise in the natural and social sciences, history, linguistics, literature, art, and so on. Special courses in philosophy deal with each of these.

Characteristic of philosophy are commitments to the construction and evaluation of arguments, to expressing thoughts clearly and precisely, and to defending one’s ideas and evaluating the ideas of others. The study of philosophy thus provides resources for critical participation in all realms of human endeavor.

The graduate program trains students to teach and pursue research in the main areas of department concentration: ethics (especially bioethics) and social and political philosophy, core portions of analytic philosophy (especially philosophy of mind), history of philosophy, and continental philosophy.

**Bachelor’s Program**
- Bachelor of Arts (BA) Degree with a Major in Philosophy (p. 652)

**Master’s Program**
- Master of Arts (MA) Degree in the field of Philosophy*

**Doctoral Program**
- Doctor of Philosophy (PhD) Degree in the field of Philosophy (p. 654)
- *Although students are not normally admitted to a Master of Arts (MA) degree program, graduate students may earn the MA as they work towards the PhD.

**Description and Code Legend**
*Note: Internally, the university uses the following descriptions, codes, and abbreviations for this academic program. The following is a quick reference:

**Course Catalog/Schedule**
- Course offerings/subject code: PHIL

**Department Description and Code**
- Philosophy : PHIL

**Undergraduate Degree Description and Code**
- Bachelor of Arts degree: BA

**Graduate Degree Descriptions and Codes**
- Master of Arts degree: MA
- Doctor of Philosophy degree: PhD

**Graduate Degree Program Description and Code**
- Degree Program in Philosophy: PHIL

**Bachelor of Arts (BA) Degree with a Major in Philosophy**
**Program Learning Outcomes for the BA Degree with a Major in Philosophy**
Upon completing the BA degree with a major in Philosophy, students will be able to:

1. Demonstrate an understanding of the general historical development of philosophy and develop an in depth understanding of at least one historical period or movement.
2. Demonstrate the ability to read philosophical texts critically and with understanding of the problems and contexts.
3. Demonstrate the cognitive and formal abilities to evaluate critically philosophical arguments.
4. Demonstrate the ability to communicate clearly and logically their own views on a range of important philosophical problems.
Requirements for the BA Degree with a Major in Philosophy

For general university requirements, see Graduation Requirements (p. 25). Students pursuing the BA degree with a major in Philosophy must complete:

- A minimum of 10 courses (30 credit hours) from departmental (PHIL) course offerings to satisfy major requirements.
- A minimum of 120 credit hours to satisfy degree requirements.
- A minimum of 60 credit hours outside of major requirements.
- A minimum of 6 courses (18 credit hours) at the 300-level or above.

Students who are pursuing two majors (i.e., are double majors) and have declared the Philosophy major must complete:

- A minimum of 9 courses (27 credit hours) from departmental (PHIL) course offerings to satisfy major requirements.
- A minimum of 6 courses (18 credit hours) at the 300-level or above.

Double majors who drop the other major are required to meet the requirements listed for single majors.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor (or official certifier). Students and their academic advisors should identify and clearly document the courses to be taken.

**Elective Requirements**

Select 4 electives from departmental (PHIL) courses at the 300-level or above. 12

**Total Credit Hours Required for the Major in Philosophy (for single majors)** 30

**Total Credit Hours Required for the Major in Philosophy (for double majors)** 27

**Additional Credit Hours to Complete BA Degree Requirements** 30-33

**University Graduation Requirements (p. 25)** * 60

**Total Credit Hours** 120

**Footnotes and Additional Information**

* Includes coursework completed as distribution credit, FWIS, LPAP, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The “hours outside of the major” requirement may include all of the above university requirements.

1 Double majors who drop the other major are required to meet the requirements listed for single majors.

2 Double majors may satisfy this requirement by completing a total of 3 courses (9 credit hours) from departmental (PHIL) course offerings at the 300-level or above. Students pursuing departmental honors cannot apply PHIL 411 and PHIL 412 to the Elective Requirements.

3 Students who pursue the senior thesis option must take PHIL 411 and PHIL 412. These courses are required in addition to major requirements and will not fulfill elective requirements. For more information, see the Opportunities tab.

**Policies for the BA Degree with a Major in Philosophy**

**Transfer Credit**

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 32). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: [http://oaa.rice.edu](http://oaa.rice.edu). Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.
Departmental Transfer Credit Guidelines
Students pursuing the major in Philosophy should be aware of the following departmental transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program's official transfer credit advisor) on an individual case-by-case basis.
- Transfer credit coursework from online-only courses cannot be used to count towards the major.

For additional information, please see the Philosophy website: http://philosophy.rice.edu

Opportunities for the BA Degree with a Major in Philosophy
Academic Honors
The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 47) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 47). Some departments have department-specific Honors awards or designations.

Distinction in Research in Philosophy
Students must submit an application to be considered for "Distinction in Research in Philosophy" by April 1. Minimum qualifications are a 3.5 GPA in philosophy courses and enrollment in Honors Thesis course PHIL 412 or the Research Seminar for majors, PHIL 407. The work to be considered must be submitted to a committee appointed by the Chair, which will include the Director of Undergraduate Studies, any Honors Thesis supervisors, and the instructor(s) of the Research Seminar.

Senior Thesis and Departmental Honors in Philosophy
Qualified majors may apply before their senior year for directed research leading to a senior thesis, carried out during both semesters of the senior year. Each semester will require 3 credit hours; these 6 hours are in addition to the course hours required for the major.

To qualify for the program, students must have an approved research proposal and the agreement of a faculty member to serve as advisor for that project. Applicants will normally be required to have a GPA of 3.75 in philosophy courses and to have completed at least two upper-level courses in the distribution area of the proposed research. (See the major requirements for the definition of the distribution areas.) Applications should be submitted to the departmental director of undergraduate studies and will be evaluated by the department.

Students who are considering applying to write a senior thesis should consult the departmental director of undergraduate studies and potential advisors as early as possible. Normally students will apply before preregistration in the second semester of their junior year and will spend time during the following summer reading from a list they have developed with their advisor. The thesis normally will be between 7,500 and 15,000 words (approximately 30–60 pages) in length. Students will enroll in PHIL 411 and PHIL 412. Students accepted into the Rice Undergraduate Scholars Program should enroll in HONS 470 and HONS 471 and will be awarded departmental honors for their work in that program if they meet the requirements in this statement. Note that acceptance into the departmental honors program is a separate process from acceptance in RUSP, as is the evaluation for departmental honors.

To be considered for honors, the senior thesis must be completed by the beginning of April. The thesis will be read and evaluated by the advisor and a second reader chosen by the department, and the final decision on honors will be made by the entire faculty. A student will receive honors if he or she receives a grade of A+, A, or A- in PHIL 412. Completion of the major with at least a 3.5 GPA in all philosophy courses is required for departmental honors. Students who miss the April deadline for thesis submission but meet the university deadline for the semester will receive a grade and credit for completed work but will not be considered for honors. Students whose thesis is not awarded honors will receive a grade and credit for completed work.

For additional information, please see the Philosophy website: http://philosophy.rice.edu

Opportunities for the BA Degree with a Major in Philosophy

Doctor of Philosophy (PhD) Degree in the field of Philosophy
Program Learning Outcomes for the PhD Degree in the field of Philosophy
Upon completing the PhD degree in the field of Philosophy, students will be able to:

1. Demonstrate advanced skills of reading philosophical texts critically and with understanding of the problems and contexts.
2. Demonstrate the ability to communicate clearly and logically their own views on a range of important philosophical problems at an advanced level.
3. Demonstrate an understanding in depth of the content and context of one of the main areas of philosophy.
4. Propose, evaluate, and defend original views in at least one of the main areas of philosophy.
5. Complete a dissertation that makes an original contribution to their field.

Requirements for the MA and PhD Degrees in the field of Philosophy
The MA degree can be either a thesis or a non-thesis master's degree depending on the option the student pursues. For general university requirements for thesis master's degrees, please see Thesis Master's Degrees (p. 67). For general university requirements for non-thesis master's degrees, please see Non-Thesis Master's Degrees (p. 66).

MA Degree Program
Students pursuing the non-thesis MA degree in the field of Philosophy must:

- Complete at least two semesters in residence at Rice University.
- Complete 42 credit hours of courses approved for graduate credit in philosophy at Rice University with a grade of B- (2.67 grade points) or better in each course.
- Accumulate an overall GPA of at least 3.0.
- Complete at least 30 credit hours in philosophy at the 500-level or higher.
- Satisfy the departmental logic requirement (PHIL 505 or examination).
- Complete at least 5 courses in an area of concentration.
• Satisfactorily complete departmental duties.
• File a petition for certification of the non-thesis master’s degree. This petition can be obtained from the graduate administrator and must be approved and signed by the department chair and submitted to the Office of Graduate and Postdoctoral Studies according to the deadlines posted in the Academic Calendar (http://registrar.rice.edu/calendars).

Students pursuing the thesis MA degree in the field of Philosophy must:

• Complete with high standing at least 30 credit hours in advanced courses approved by the department.
• Complete a written thesis on a subject approved by the department.
• Perform satisfactorily on a final oral examination (not limited to the student’s special field of study).

PhD Degree Program

Students pursuing the PhD degree in the field of Philosophy must:

• Complete with high standing 42 credit hours of course work approved by the department (including logic).
• Demonstrate competence in logic.
• Pass a qualifying examination.
• Perform satisfactorily on an oral defense of their thesis proposal.
• Complete a written thesis on a subject approved by the department (at least one year of thesis research must be spent in residence).
• Perform satisfactorily on a final oral examination (not limited to the student’s special field of study).

Policies for the PhD Degree in the field of Philosophy

Department of Philosophy Graduate Program Handbook
The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, the Department of Philosophy publishes a graduate program handbook, which can be found here: http://gradhandbooks.rice.edu/2017_18/Philosophy_Graduate_Handbook.pdf

For additional information, please see the Philosophy website at: http://philosophy.rice.edu

Opportunities for the PhD Degree in the field of Philosophy

See https://humanities.rice.edu/student-life for tables of fellowships, prizes, and internships/practica that may be relevant to this degree.
Although students are not normally admitted to a Master of Science (MS) degree program, graduate students may earn the MS as they work towards the PhD.

Description and Code Legend
Note: Internally, the university uses the following descriptions, codes, and abbreviations for this academic program. The following is a quick reference:

Course Catalog/Schedule:
- Course offerings/subject code for Astronomy: ASTR
- Course offerings/subject code for Physics: PHYS

Department Description and Code
- Physics and Astronomy: PHYS

Undergraduate Degree Descriptions and Codes
- Bachelor of Arts degree: BA
- Bachelor of Science degree: BS

Undergraduate Major Descriptions and Codes
- Major in Physics (attached to the BA and BS degrees): PHYS
- Major in Astronomy (attached to the BA degree): ASBA
- Major in Astrophysics (attached to the BS degree): ASTR

Undergraduate Major Concentration Descriptions and Codes
- Major Concentration in Applied Physics (BS degree-PHYS majors): APPS
• Major Concentration in Biological Physics (BS degree-PHYS majors): BIPS
• Major Concentration in Computational Physics (BS degree-PHYS majors): COPS
• Major Concentration in General Physics (BS degree-PHYS majors): GEPS

Undergraduate Minor Description and Code
• Minor in Physics: PHYM

Graduate Degree Descriptions and Codes
• Master of Science Teaching degree: MST
• Master of Science degree: MS
• Doctor of Philosophy degree: PhD

Graduate Degree Program Description and Code
• Degree Program in Physics: PHYS
• Degree Program in Science Teaching: STEA

Bachelor of Arts (BA) Degree with a Major in Astronomy

Program Learning Outcomes for the BA Degree with a Major in Astronomy

Upon completing the BA degree with a major in Astronomy, students will have:

• Acquired and be able to demonstrate a solid foundation of knowledge in astronomy.

Requirements for the BA Degree with a Major in Astronomy

For general university requirements, see Graduation Requirements (p. 25). Students pursuing the BA degree with a major in Astronomy must complete:

• A minimum of 52 credit hours to satisfy major requirements.
• A minimum of 120 credit hours to satisfy degree requirements.
• A minimum of 60 credit hours outside of major requirements.
• A minimum of 19 credit hours taken at the 300-level or above.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the department's undergraduate committee for input into Degree Works by the major's official certifier. Students and their academic advisors should identify and clearly document the courses to be taken.

Total Credit Hours Required for the Major in Astronomy: 52

Additional Credit Hours to Complete BA Degree Requirements: 8

University Graduation Requirements (p. 25): 60

Total Credit Hours: 120

Footnotes and Additional Information

• Includes coursework completed as distribution credit, FWIS, LPAP, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The "hours outside of the major" requirement may include all of the above university requirements.
Policies for the BA Degree with a Major in Astronomy

Program Restrictions and Exclusions
Students pursuing the major in Astronomy should be aware of the following program restriction:

• Students pursuing the major in Astronomy may not additionally declare the minor in Physics.

Transfer Credit
For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 32). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: http://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines
Students pursuing the major in Astronomy should be aware of the following departmental transfer credit guidelines:

• Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

For additional information, please see the Physics and Astronomy website: http://physics.rice.edu/.

Opportunities for the BA Degree with a Major in Astronomy

Academic Honors
The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (p. 47) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 47). Some departments have department-specific Honors awards or designations.

Research in the Department of Physics and Astronomy
The Physics and Astronomy Department encourages undergraduate participation in research, both within the department and through extramural programs. For current opportunities, please visit the Department’s website and click on the Undergraduate Study link, at: http://www.physics.rice.edu/.

For additional information, please see the Physics and Astronomy website: http://physics.rice.edu/.

Bachelor of Science (BS) Degree with a Major in Astrophysics

Program Learning Outcomes for the BS Degree with a Major in Astrophysics

Upon completing the BS degree with a major in Astrophysics, students will be able to:

1. Demonstrate a solid foundation of knowledge in astrophysics and deeper knowledge of subdivisions of the field related to their interests.
2. Identify, formulate, and solve challenging scientific and technical problems as encountered in astrophysics.
3. Read basic scientific literature and communicate scientific results orally and in writing with scientists and the general public.
4. Conduct directed research.

Requirements for the BS Degree with a Major in Astrophysics

For general university requirements, see Graduation Requirements (p. 25). Students pursuing the BS degree with a major in Astrophysics must complete:

- A minimum of 73 credit hours to satisfy major requirements.
- A minimum of 133 credit hours to satisfy degree requirements.
- A minimum of 60 credit hours outside of major requirements.
- A minimum of 40 credit hours taken at the 300-level or above.

Students may obtain credit for some courses by advanced placement, and the department’s undergraduate committee can modify requirements to meet the needs of students with special backgrounds.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the department’s undergraduate committee for input into Degree Works by the major’s official certifier. Students and their academic advisors should identify and clearly document the courses to be taken.

Total Credit Hours Required for the Major in Astrophysics: 73

University Graduation Requirements (p. 25): 60

Total Credit Hours: 133

Footnotes and Additional Information

* Includes coursework completed as distribution credit, FWIS, LPAP, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The "hours outside of the major" requirement may include all of the above university requirements.

1. PHYS 491 and PHYS 493 must be taken concurrently.
2. PHYS 492 and PHYS 494 must be taken concurrently.

Policies for the BS Degree with a Major in Astrophysics

Program Restrictions and Exclusions

Students pursuing the major in Astrophysics should be aware of the following program restriction:

- Students pursuing the major in Astrophysics may not additionally declare the minor in Physics.

Transfer Credit

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 32). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: [http://oaa.rice.edu](http://oaa.rice.edu). Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines

Students pursuing the major in Astrophysics should be aware of the following departmental transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

For additional information, please see the Physics and Astronomy website: [http://physics.rice.edu](http://physics.rice.edu)/

Opportunities for the BS Degree with a Major in Astrophysics

Academic Honors

The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (p. 47) ([summa cum laude], [magna cum laude], and [cum laude]) and Distinction in Research and Creative Work (p. 47). Some departments have department-specific Honors awards or designations.

Research in the Department of Physics and Astronomy

The Physics and Astronomy Department encourages undergraduate participation in research, both within the department and through extramural programs. For current opportunities, please visit the Department’s website and click on the Undergraduate Study link, at: [http://www.physics.rice.edu/](http://www.physics.rice.edu/)

For additional information, please see the Physics and Astronomy website: [http://physics.rice.edu](http://physics.rice.edu)/

Bachelor of Science (BS) Degree with a Major in Physics and a Major Concentration in Applied Physics
Program Learning Outcomes for the BS Degree with a Major in Physics and a Major Concentration in Applied Physics

Upon completing the BS Degree with a major in Physics and a major concentration in Applied Physics, students will be able to:

1. Demonstrate a solid foundation of knowledge in physics and deeper knowledge of subdivisions of the field related to their interests.
2. Identify, formulate, and solve challenging scientific and technical problems as encountered in physics.
3. Read basic scientific literature and communicate scientific results orally and in writing with scientists and the general public.
4. Conduct directed research.

Requirements for the BS Degree with a Major in Physics and a Major Concentration in Applied Physics

For general university requirements, see Graduation Requirements (p. 25). Students pursuing the BS degree with a major in Physics and a major concentration in Applied Physics must complete:

- A minimum of 67-68 credit hours, depending on course selection, to satisfy major requirements.
- A minimum of 127-128 credit hours, depending on course selection, to satisfy degree requirements.
- A minimum of 60 credit hours outside of major requirements.
- A minimum of 36-37 credit hours, depending on course selection, taken at the 300-level or above.
- Core courses common to all major concentrations.
- The requirements for the major concentration in Applied Physics. When students declare the major (p. 12) in Physics, students must additionally identify and declare one of the major concentrations, either in:
  - Applied Physics (p. 661), or
  - Biological Physics (p. 662), or
  - Computational Physics (p. 664), or
  - General Physics (p. 666)

Because of the common core requirements, it is possible for students to change their major concentration at any time, even after initially declaring the major. To do so, please contact the Office of the Registrar (registrar@rice.edu).

Students may obtain credit for some courses by advanced placement, and the department’s undergraduate committee can modify requirements to meet the needs of students with special backgrounds.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the department’s undergraduate committee for input into Degree Works by the major’s official certifier. Students and their academic advisors should identify and clearly document the courses to be taken.

---

⁴ Students pursuing the BS degree with a major in Physics and a major concentration in Applied Physics must complete:
Bachelor of Science (BS) Degree with a Major in Physics and a Major Concentration in Biological Physics

**Academic Honors**

The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (p. 47) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work.

**Footnotes and Additional Information**

* Indicates coursework completed as distribution credit, FWIS, LPAR, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The “hours outside of the major” requirement may include all of the above university requirements.

1. PHYS 491 and PHYS 493 must be taken concurrently.
2. PHYS 492 and PHYS 494 must be taken concurrently.
3. Because of common core requirements, it is possible to change major concentrations even after declaring the major. See the Undergraduate tab of the Physics and Astronomy department listing the requirements for each major concentration for the BS degree in Physics.
4. Or approved substitute in applied physics.

**Footnotes and Additional Information**

*Includes coursework completed as distribution credit, FWIS, LPAP, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The “hours outside of the major” requirement may include all of the above university requirements.*

1. PHYS 491 and PHYS 493 must be taken concurrently.
2. PHYS 492 and PHYS 494 must be taken concurrently.
3. Because of common core requirements, it is possible to change major concentrations even after declaring the major. See the Undergraduate tab of the Physics and Astronomy department listing for the requirements for each major concentration for the BS degree in Physics.
4. CHEM 121 and CHEM 123 can be satisfied by completing CHEM 151 and CHEM 153. CHEM 122 and CHEM 124 can be satisfied by completing CHEM 152 and CHEM 154.

**Policies for the BS Degree with a Major in Physics and a Major Concentration in Biological Physics**

**Transfer Credit**

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 32). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: [http://oaa.rice.edu](http://oaa.rice.edu). Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

**Departmental Transfer Credit Guidelines**

Students pursuing the major in Physics should be aware of the following departmental transfer credit guidelines:
• Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

For additional information, please see the Physics and Astronomy website: http://physics.rice.edu/

Upon completing the BS degree with a major in Physics and a major concentration in General Physics, students will be able to:

1. Demonstrate a solid foundation of knowledge in physics and deeper knowledge of subdivisions of the field related to their interests.
2. Identify, formulate, and solve challenging scientific and technical problems as encountered in physics.
3. Read basic scientific literature and communicate scientific results orally and in writing with scientists and the general public.
4. Conduct directed research.

Requirements for the BS Degree with a Major in Physics and a Major Concentration in General Physics

For general university requirements, see Graduation Requirements (p. 25). Students pursuing the BS degree with a major in Physics and a major concentration in General Physics must complete:

- A minimum of 64 credit hours to satisfy major requirements.
- A minimum of 124 credit hours to satisfy degree requirements.
- A minimum of 60 credit hours outside of major requirements.
- A minimum of 37 credit hours taken at the 300-level or above.
- Core courses common to all major concentrations.
- The requirements for the major concentration in General Physics. When students declare the major (p. 12) in Physics, students must additionally identify and declare one of the major concentrations, either in:
  - Applied Physics (p. 661), or
  - Biological Physics (p. 662), or
  - Computational Physics (p. 664), or
  - General Physics (p. 666)

Because of the common core requirements, it is possible for students to change their major concentration at any time, even after initially declaring the major. To do so, please contact the Office of the Registrar (registrar@rice.edu).

Students may obtain credit for some courses by advanced placement, and the department’s undergraduate committee can modify requirements to meet the needs of students with special backgrounds.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the department’s undergraduate committee for input into Degree Works by the major’s official certifier. Students and their academic advisors should identify and clearly document the courses to be taken.

The Physics and Astronomy Department encourages undergraduate participation in research, both within the department and through extramural programs. For current opportunities, please visit the Department’s website and click on the Undergraduate Study link, at: http://www.physics.rice.edu/.

For additional information, please see the Physics and Astronomy website: http://physics.rice.edu/

### Doctor of Philosophy (PhD) Degree in the field of Physics

#### Program Learning Outcomes for the PhD Degree in the field of Physics

Upon completing the PhD degree in the field of Physics, students will:

1. Demonstrate advanced knowledge in foundational areas of physics and astronomy, and a mastery of their selected subfield.
2. Have the skills necessary to conduct independent research in physics and astronomy and become leaders in their chosen careers.
3. Have the ability to identify, formulate, and solve challenging scientific and technical problems as encountered in physics and astronomy.
4. Be proficient in reading the scientific literature and in oral and written communication of scientific results.
5. Be able to make an original and significant contribution to knowledge in their discipline.

#### Requirements for the PhD Degree in the field of Physics

For general university requirements, please see Doctoral Degrees (p. 64). To be eligible for the PhD degree, graduate students must demonstrate to the department their knowledge in the discipline and the ability to engage in advanced research. This normally is accomplished by: successfully completing required coursework; presenting a research progress report and proposal to a faculty committee; and passing an oral candidacy exam. Students must complete a total of 60 credit hours of approved graduate-level study at Rice and produce a research thesis under the direction of a departmental faculty member. At least two years of graduate study are required for the PhD.

Complete information about research opportunities, courses and other requirements can be found under the Department’s website, on the Graduate Study link at http://physics.rice.edu/.

#### Opportunities for the BS Degree with a Major in Physics and a Major Concentration in General Physics

**Academic Honors**

The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 47) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 47). Some departments have department-specific Honors awards or designations.

**Research in the Department of Physics and Astronomy**

The Physics and Astronomy Department encourages undergraduate participation in research, both within the department and through extramural programs. For current opportunities, please visit the **Footnotes and Additional Information**

* Includes coursework completed as distribution credit, FWIS, LPAP, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The "hours outside of the major" requirement may include all of the above university requirements.

1 PHYS 491 and PHYS 493 must be taken concurrently.

2 PHYS 492 and PHYS 494 must be taken concurrently.

3 Because of common core requirements, it is possible to change major concentrations even after declaring the major. See the Undergraduate tab of the Physics and Astronomy department listing for the requirements for each major concentration for the BS degree in Physics.

**Policies for the BS Degree with a Major in Physics and a Major Concentration in General Physics**

**Transfer Credit**

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 32). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: http://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

**Departmental Transfer Credit Guidelines**

Students pursuing the major in Physics should be aware of the following departmental transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

For additional information, please see the Physics and Astronomy website: http://physics.rice.edu/.

**Departmental Transfer Credit Guidelines**

Students pursuing the major in Physics should be aware of the following departmental transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

For additional information, please see the Physics and Astronomy website: http://physics.rice.edu/.

### Policies for the PhD Degree in the field of Physics

**Department of Physics and Astronomy Graduate Program Handbook**

The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, the department of Physics and Astronomy publishes a graduate program handbook, which can be found here:
Minor in Physics

Program Learning Outcomes for the Minor in Physics

Upon completing the minor in Physics, students will:

1. Acquire and demonstrate a solid foundation of knowledge in physics. This includes: basic mechanics, basic electromagnetism, Maxwell’s equations in differential form, waves, interference and diffraction, special relativity, the Schroedinger equation, and the wave formulation of quantum mechanics.
2. Acquire and demonstrate knowledge in a number of advanced physics topics of their choosing.

Requirements for the Minor in Physics

Students pursuing the minor in Physics must complete:

- A minimum of 35 credit hours to satisfy minor requirements.
- A minimum of 26 credit hours to satisfy the Core Requirements.
- A minimum of 9 additional credit hours from departmental (PHYS) course offerings at the 300-level or above.

The courses listed below satisfy the requirements for this minor. In certain instances, courses not on this official list may be substituted upon approval of the minor’s academic advisor (or official certifier). Students and their academic advisors should identify and clearly document the courses to be taken.

Policies for the Minor in Physics

Program Restrictions and Exclusions

Students pursuing the minor in Physics should be aware of the following program restrictions:

- As noted in Majors, Minors, and Certificates (p. 12), i.) students may declare their intent to pursue a minor only after they have first declared a major, and ii.) students may not major and minor in the same subject.
- Students pursuing the major in Astronomy may not declare the minor in Physics.
- Students pursuing the major in Astrophysics may not declare the minor in Physics.

Transfer Credit

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 32). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: http://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines

Students pursuing the minor in Physics should be aware of the following departmental transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

For additional information, please see the Physics and Astronomy website: http://physics.rice.edu/

Opportunities for the Minor in Physics

Academic Honors

The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (p. 47) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 47). Some departments have department-specific Honors awards or designations.

Director of Undergraduate Studies
schwindt@rice.edu

Richard Stoll
Undergraduate Advisor
stoll@rice.edu

Students majoring in political science are encouraged to achieve both a broad understanding of the field and a specialized knowledge of one or more aspects of political science, including American politics, comparative politics, and politics and international relations. Graduate study is grounded in the areas of American politics, comparative politics, and international relations.

Bachelor's Program

- Bachelor of Arts (BA) Degree with a Major in Political Science (p. 669)

Master's Program

- Master of Arts (MA) Degree in the field of Political Science*

Doctoral Program

- Doctor of Philosophy (PhD) Degree in the field of Political Science (p. 674)

* Although students are not normally admitted to a Master of Arts (MA) degree program, graduate students may earn the MA as they work towards the PhD.

- Master of Arts degree: MA
- Doctor of Philosophy degree: PhD

Graduate Degree Program Description and Code

- Degree Program in Political Science: POLI

Bachelor of Arts (BA) Degree with a Major in Political Science

Program Learning Outcomes for the BA Degree with a Major in Political Science

Upon completing the BA degree with a major in Political Science, students will be able to:
1. Demonstrate a basic understanding of American Politics including governing institutions and branches, political actors and organizations, political behavior and the operation of government at both the national and sub-national levels.
2. Understand government and politics in a comparative perspective.
3. Understand government and politics in a global context.
4. Develop a deeper understanding of specialized political science topics.
5. Use critical thinking skills to apply methodological, theoretical, and research knowledge to political science issues in order to begin producing independent research in the field, including completion of research projects, research papers, articles, and poster sessions.

Requirements for the BA Degree with a Major in Political Science

For general university requirements, see Graduation Requirements (p. 25). Students pursuing the BA degree with a major in Political Science must complete:

- A minimum of 12 courses (36 credit hours) to satisfy major requirements.
- A minimum of 120 credit hours to satisfy degree requirements.
- A minimum of 60 credit hours outside of major requirements.
- A minimum of 6 courses (18 credit hours) taken at the 300-level or above.
- A minimum of 2 courses (6 credit hours) at the 300-level or above from course offerings in any of the following six fields: ANTH, ECON, HIST, PHIL, PSYC, SOCI.
- A minimum of 1 course (3 credit hours) from each of the following fields: American Politics, Comparative Politics, and International Relations.
- A minimum of 1 Statistics course offered by the Department of Political Science.
- A minimum of 2 seminars taught by different instructors. Note: seminars are courses numbered at the 400-level.
- The requirements for one area of specialization (see list below). The Political Science major offers the following areas of specialization:
  - American Politics (p. ), or
  - Comparative Politics (p. ), or
  - International Relations (p. )

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor (or official certifier). Students and their academic advisors should identify and clearly document the courses to be taken.

### Footnotes and Additional Information

1. Students must complete 1 of the 2 required introductory courses in the area of specialization they are pursuing. The required introductory course for each area of specialization is noted below for each course. The second introductory course completed can be included in the requirement for courses taken in the fields outside the area of specialization selected.
2. The credit hours for the Area of Specialization include one introductory course in the specialization and at least one seminar course.

### Areas of Specialization

Students must complete the requirements as listed for one of the following areas of specialization as offered by the Political Science major. Note that courses taken as part of the Introductory Courses requirement and the Seminar Courses requirement can also be used to...
satisfy the requirements listed below. All courses referenced in the Area of Specialization requirements can be found in the Field Courses lists below the specialization requirements.

**Area of Specialization: American Politics**
To fulfill the remaining Political Science major requirements, students pursuing the American Politics area of specialization must complete a total of 7 additional courses (21 credit hours).

Footnotes and Additional Information

1 POLI 395 is a statistics course required of all majors. It fulfills the minimum requirement of one course from the Theory and Methods field.

Policies for the BA Degree with a Major in Political Science

Transfer Credit
For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 32). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: http://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines
Students pursuing the major in Political Science should be aware of the following departmental transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.
- Transfer credit coursework from online-only courses cannot be used to count towards the major.

For additional information, please see the Political Science website: https://politicalscience.rice.edu/.

Opportunities for the BA Degree with a Major in Political Science

Academic Honors
The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (p. 47) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 47). Some departments have department-specific Honors awards or designations.

Departmental Honors Program
Admission to the honors program requires the approval of the department’s Director of Undergraduate Studies. The faculty member supervising the thesis must have a full-time appointment in the Department of Political Science. During the first semester of the two-semester program, students take one reading course that provides them with a basis for drawing up a thesis prospectus. During the second semester, students write their honors thesis. An electronic copy of the thesis must be sent to the Director of Undergraduate Studies. Students may not combine the two honors courses into one semester. Those who successfully complete the honors program may substitute it for one of the seminars required for the major. Failure to complete the second semester of the honors program will result in loss of credit for the first semester of the honors program.

Work for the Honors Program must be original. It cannot be taken from other courses at Rice or other institutions. This includes using the same work for another honors program (i.e. using the same work for honors in political science and another discipline). If a student has a question about what is permitted, the student should consult the Director of Undergraduate Studies. This consultation should take place early in the first semester of the honors program.

Alternatively, students may earn honors in political science by successfully completing the Rice University Honors Program (RUSP), HONS 470/HONS 471. In addition to successfully completing this program, the student must complete a research project in political science, and the student must be supervised by a full-time faculty member in the political science department. See also Honors Programs. (p. 46)

Directed Readings Courses
Directed readings courses are intended for students who have completed a substantial number of political science courses and who seek to explore a subject not covered in regular courses. They are available only if
an appropriate faculty member agrees to supervise. The faculty member supervising a directed readings course must have a full-time appointment in the Department of Political Science. The student must not take more than one readings course from him or her. Students should submit a brief, one-page description of the work to be conducted in the readings course (including the name of the faculty supervisor) to the department’s Director of Undergraduate Studies no later than two weeks into the semester in which they intend to take the course. Readings courses do not count toward the department’s distribution requirement.

For additional information, please see the Political Science website at: https://politicalscience.rice.edu/.

**Doctor of Philosophy (PhD) Degree in the field of Political Science**

**Program Learning Outcomes for the MA and PhD Degrees in the field of Political Science**

Upon completing the MA and PhD degrees in the field of Political Science, students will be able to:

1. Demonstrate advanced knowledge of theoretical and empirical research in two of the following three sub-fields of Political Science: American politics, comparative politics, and international relations.
2. Learn and apply social science research design and methodologies, including advanced statistical techniques.
3. Demonstrate the ability to communicate their research effectively through multiple mediums including scholarly writing, oral presentation, and poster sessions.
4. Demonstrate their competence as political scientists through research, teaching, and professional development activities.

**Requirements for the MA and PhD Degrees in the field of Political Science**

For general university requirements, please see Doctoral Degrees (p. 64).

**PhD Degree Program Requirements**

**Coursework**

A student must complete successfully 54 credit hours of advanced coursework. This must include the core courses in each of 3 fields, 3 courses beyond the core in the major field, 2 courses beyond the core in the minor field, POLI 500, POLI 501, and 3 additional courses that meet the advanced research tools requirement.

**Exams**

A student must pass three Preliminary Examinations (a general exam in the major field, a subfield exam in the major field, and a general exam in the minor field), a dissertation prospectus defense, and a dissertation defense.

**Maintenance of Good Academic Standing**

A student must remain in good academic standing with the university and with the department. Remaining in good academic standing with the department requires a GPA of at least 3.33, satisfactory evaluations for work as a research and/or teaching mentee, and satisfactory participation in professional development activities.

**Summary**

**MA Degree Program Requirements**

The MA degree is a non-thesis master's degree. For general university requirements, please see Non-Thesis Master’s Degrees (p. 66). The Master of Arts degree requires 30 semester hours of course work, all of which must be taken at the graduate level (500-level or above except with permission of the Director of Graduate Studies), and the completion of two research papers in seminars taken over the course of study. A minimum GPA of 3.0 is required for awarding the MA degree.

The Political Science Department requires that not more than 3 years elapse between the time the student is admitted to the graduate program and the completion of the MA degree, unless an extension is approved by the Graduate Studies Committee.

**Policies for the PhD Degree in the field of Political Science**

**Department of Political Science Graduate Program Handbook**

The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, the department of Political Science publishes a graduate program handbook, which can be found here: http://gradhandbooks.rice.edu/2017_18/Political_Science_Graduate_Handbook.pdf

For additional information, please see the Political Science website: https://politicalscience.rice.edu/

**Opportunities for the PhD Degree in the field of Political Science**

**Requirements for the Coordinated PhD/MA Degree Program in Political Science and Statistics**

The coordinated PhD/MA requires that a student fulfill all requirements for the PhD program in Political Science and satisfy the general university requirements for residency and total hours to receive a second non-thesis MA degree. The Statistics MA degree shall not be conferred prior to conferment of the PhD in Political Science. No course may count for credit for both MA degrees; however, POLI 504, POLI 505, POLI 506, and POLI 507 will continue to count toward the hours required for a PhD degree in Political Science when used to fulfill the requirements for an MA in Statistics.

To earn a non-thesis MA in Statistics, students in the PhD program in Political Science must additionally.
• Obtain written approval from the head of the Methods field and the Director of Graduate Studies in the Political Science department.

• Have their plan of study for the MA in Statistics pre-approved by the Director of Graduate Studies in the Department of Statistics (or another person designated by the chairperson of the Statistics department). Note: A maximum of ten Political Science PhD students will be allowed to enroll in the MA in Statistics program at one time.

• Earn a grade of 'B+' or better in four courses in statistical methodology in the Political Science department, which must include POLI 504, POLI 505, POLI 506, and POLI 507.

• Earn a grade of 'B' or better in each of six courses from the Department of Statistics. Four of these courses must be STAT 605, STAT 518, STAT 519, and STAT 615. Other acceptable courses are STAT 616 and courses at the 500-level and above, subject to the approval by the Director of Graduate studies in the Department of Statistics (or another person designated by the chairperson of the Statistics department). Courses that are jointly listed between two departments (cross-listed) are counted as a course in the home department. Note: completion of POLI 504 and POLI 505 will be considered as meeting the prerequisite requirements for STAT 519.

• Complete a major project that has strong statistical content. The project may be directed by faculty in Political Science, but must be pre-approved by the Director of Graduate Studies in the Department of Statistics (or another person designated by the chairperson of the Statistics department). The doctoral proposal in Political Science may satisfy this requirement, but must be successfully defended.

Program Co-Director
aysha.pollnitz@rice.edu

Politics, Law and Social Thought (PLST) is an interdisciplinary minor open to all undergraduate students at Rice from all backgrounds. Its task is the study of political ideas in their philosophical and historical contexts as well as with regard to their effects on constitutional law and social and political practices.

The central focus of the minor is political theory, taken in a wide sense to mean the theory and philosophy of how polities form, function, and fail. The minor has a strong orientation toward works of political, legal, and social philosophy, understood in their historical context. Politics, Law and Social Thought is a program of study that enables Rice students to engage successfully with the "big" political questions relevant to contemporary society in a global setting: Why democracy? What are the foundations of law? What is political liberty? What is political citizenship? Are states necessary? How do normative political and social orders come into existence? Is there a philosophical justification for human rights?

Minor

• Minor in Politics, Law and Social Thought (p. 675)

Politics, Law and Social Thought does currently not offer an academic program at the graduate level.

Minor in Politics, Law and Social Thought
Program Learning Outcomes for the Minor in Politics, Law and Social Thought

Upon completing the minor in Politics, Law and Social Thought, students will be able to:

1. Have an understanding of the main lines of political, legal, and social thought in their historical context through original sources.
2. Have skills in analyzing and evaluating complex texts in political, legal, and social thought through a close reading and critical interpretation of arguments, metaphors, images, and the emotions that drive political arguments.
3. Have developed the ability to compare different authors and texts and formulate complex arguments across different traditions in the history of political thought.
4. Develop and communicate their own arguments about politics, law and society in research papers, class presentations, and discussions.

Requirements for the Minor in Politics, Law and Social Thought

Students pursuing a minor in Politics, Law and Social Thought must complete:

- A minimum of 6 courses (18 credit hours) to satisfy the minor requirements.
- A minimum of 4 courses (12 credit hours) at the 300-level or above.
- A maximum of 2 courses (6 credit hours) from the same subject code (i.e., GERM, HIST, etc.) may be used to meet the Elective Requirements.
- A maximum of 2 courses (6 credit hours) from study abroad or transfer credits. For additional program guidelines regarding transfer credit, see the Policies tab.
- A minimum of 4 courses (12 credit hours) taken at Rice University.

The courses listed below satisfy the requirements for this minor. In certain instances, courses not on this official list may be substituted upon approval of the minor's academic advisor (or official certifier). Students and their academic advisors should identify and clearly document the courses to be taken.

**Internships**  
Students may count one internship with 3 credit hours toward the elective requirements for the minor, as long as the internship substantively reflects the thematic focus of the minor in PLST. As general guidance, acceptable internships are concerned with the public dimension of law or fall into the area of public policy. Proposed internships have to be approved by the director before the official start date of the internship. Internships must adhere to the requirements and policies governing internships as they have been established by the School of Humanities and/or the School of Social Sciences.

**Policies for the Minor in Politics, Law and Social Thought**

**Program Restrictions and Exclusions**  
Students pursuing the minor in Politics, Law and Social Thought should be aware of the following program restriction:

- As noted in Majors, Minors, and Certificates (p. 12), i.) students may declare their intent to pursue a minor only after they have first declared a major, and ii.) students may not major and minor in the same subject.

**Transfer Credit**

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 32). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: [http://oaa.rice.edu](http://oaa.rice.edu). Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

**Program Transfer Credit Guidelines**  
Students pursuing the minor in Politics, Law and Social Thought should be aware of the following program-specific transfer credit guidelines:

- No more than 2 courses (6 credit hours) of transfer credit from U.S. or international universities of similar standing as Rice may apply towards the minor.
- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.
- Transfer credit coursework received via the articulation of AP, IB or A-level credit will not be considered towards minor requirements.
- Transfer credit from online-only courses may not be used to count towards the minor.

For additional information, please see the Politics, Law and Social Thought website: [http://politics.rice.edu/](http://politics.rice.edu/)

**Opportunities for the Minor in Politics, Law and Social Thought**

**Academic Honors**

The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (p. 47) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 47). Some departments have department-specific Honors awards or designations.

See [https://humanities.rice.edu/student-life](https://humanities.rice.edu/student-life) for tables of fellowships, prizes, and internships/practica that may be relevant to this minor.
Poverty, Justice and Human Capabilities

Diana Strassmann
Program Director
dls@rice.edu

The Program in Poverty, Justice and Human Capabilities (PJHC), provides students with a multifaceted understanding of human well-being. A key goal of the minor is to enrich students’ understanding of poverty and inequality, so that, regardless of their choice of occupation, PJHC alumni will maintain a longstanding commitment to enhancing the well-being of all people. More generally, the program trains Rice students to be future leaders in solving global problems.

This interdisciplinary minor emphasizes a “capabilities approach,” which considers what people are able to do and to be — for example, live to old age and engage in economic and political activities — rather than strictly what material goods they possess. The program also acknowledges the central importance of a variety of additional influences on well-being beyond income, such as gender, health status, racial and ethnic disparities, education, human rights, political freedoms, and material necessities, including food and shelter.

Although impediments to human well-being take many forms, barriers to the capabilities of women and girls persist across societies; women and girls are therefore disproportionately represented among the poor and those unable to attain their full capabilities. The academic component of the program, including the content of core and required courses, acknowledges gender inequality as a powerful influence on disparities in human well-being and recognizes gender as a central analytic category.

The PJHC minor combines high-caliber undergraduate courses with service learning experiences at agencies that help disadvantaged communities and people. Students are placed with organizations where they work directly with clients and gain experiential knowledge that broadens their perspectives on human lives and capabilities. Through these academic and experiential learning opportunities, students explore deeper understandings of the structural factors underlying poverty, and human well-being, and potential policy solutions. The program further aims to promote dialogue among all disciplines about how to address issues of poverty alleviation and human well-being with a sophisticated understanding of the challenges and sound strategies for moving forward.

Minor
- Minor in Poverty, Justice and Human Capabilities (p. 678)

Poverty, Justice and Human Capabilities does not currently offer an academic program at the graduate level.

Undergraduate Minor Description and Code
- Minor in Poverty, Justice and Human Capabilities: PJHC

Minor in Poverty, Justice and Human Capabilities

Program Learning Outcomes for the Minor in Poverty, Justice and Human Capabilities

Upon completing the minor in Poverty, Justice and Human Capabilities, students will:

1. Understand theoretical approaches to poverty and justice that draw from the capabilities framework, economics, history, sociology, philosophy, and other fields. Students will have in-depth knowledge of approaches to enhancing human flourishing and will understand the social, institutional, and political contexts that underlie deprivations and inequities.

2. Demonstrate a sophisticated understanding of the multiple influences on well-being beyond income and material wealth, including gender, racial, and ethnic disparities, and the impact of colonialism on the Global South. Students will be able to provide examples from different geographic regions, not exclusively from one country or region, and be able to apply the capabilities approach when evaluating these disparities.

3. Gain, through direct service, experiential knowledge of the challenges faced in disadvantaged communities.

4. Achieve an interdisciplinary knowledge of approaches to enhancing human well-being and mitigating human deprivations. Students
will be able to apply this knowledge in evaluating potential policy solutions.

5. Demonstrate the oral, written, and visual communication skills essential for sophisticated and successful advocacy.

6. Become a global citizen by understanding the role that advocacy and service play in addressing poverty, strengthening justice, and improving well-being.

Requirements for the Minor in Poverty, Justice and Human Capabilities

Students pursuing the minor in Poverty, Justice and Human Capabilities must complete:

- A minimum of 6 courses (18 credit hours) to satisfy minor requirements.
- A minimum of 3 PJHC Service Credits from the direct service learning experiences.

The courses used to meet the PJHC minor are open to all Rice students, including those not pursuing the minor; however, in some courses with limited space, preference will be given to declared minors.

The courses listed below satisfy the requirements for this minor. In certain instances, courses not on this official list may be substituted upon approval of the minor’s academic advisor (or official certifier). Students and their academic advisors should identify and clearly document the courses to be taken.

Footnotes and Additional Information

1. Students must submit a brief questionnaire to the program director to be considered for admission to HUMA 371/SOCI 371. This questionnaire can be accessed at pjhc.rice.edu/enrollment-questionnaire/.

2. Students can use additional capstone courses to fulfill the General Elective requirement (SWGS 496, SWGS 497 or SWGS 470) or the Race and Ethnicity requirement (HIST 421 or SOCI 470). If HIST 421 and SOCI 470 do not fulfill the Race and Ethnicity requirement unless a second capstone course is completed. Students who complete the entire Engaged Research course sequence may use SWGS 497 to fulfill the General Elective requirement.

Elective Requirements

Students must complete a total of 3 courses (minimum of 9 credit hours) as listed below to satisfy the Poverty, Justice and Human Capabilities minor’s Elective Requirements. An additional course from the Non-Western or Race and Ethnicity list can be used to fulfill the General Elective requirement. Students must select separate courses to fulfill the Non-Western and Race and Ethnicity requirements. Additionally, the 3 required elective courses must come from at least 2 different schools.

As course offerings may vary from year to year, students are urged to consult with the undergraduate advisors (see http://pjhc.rice.edu/) at the beginning of each semester. Please note that not all courses listed below will be offered every academic year.

### Direct Service Learning Experience

As part of the Poverty, Justice and Human Capabilities (PJHC) requirements, students must participate in an approved PJHC direct service learning experience. Students must complete 3 PJHC service credits. Students can choose from an array of options, including internships, service trips, and coursework, to complete this requirement. Direct service learning experiences carry 1, 2, or 3 service credits. These options are described in detail at [http://pjhc.rice.edu/service-learning-requirement/](http://pjhc.rice.edu/service-learning-requirement/).

### Policies for the Minor in Poverty, Justice and Human Capabilities

#### Program Restrictions and Exclusions

Students pursuing the minor in Poverty, Justice and Human Capabilities should be aware of the following program restriction:

- As noted in Majors, Minors, and Certificates (p. 12), i.) students may declare their intent to pursue a minor only after they have first declared a major; and ii.) students may not major and minor in the same subject.

#### Transfer Credit

For Rice University's policy regarding transfer credit, see Transfer Credit (p. 32). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of transfer credit advisors on their website: [http://oaa.rice.edu](http://oaa.rice.edu). Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

#### Program Transfer Credit Guidelines

Students pursuing the minor in Poverty, Justice and Human Capabilities should be aware of the following program-specific transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program's official transfer credit advisor) on an individual case-by-case basis.

For additional information, please see the Poverty, Justice and Human Capabilities website: [http://pjhc.rice.edu/](http://pjhc.rice.edu/).
Opportunities for the Minor in Poverty, Justice and Human Capabilities

Academic Honors
The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 47) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 47). Some departments have department-specific Honors awards or designations.

Susan McAshan Summer Service Internship
Declared Poverty, Justice and Human Capabilities minors are eligible to apply for funding to support a summer service internship. Students must have completed HUMA 371/SOCI 371, SOCI 394/SWGS 394, and at least one approved elective by the end of the spring semester before their internships. Funding supports student interns’ direct service work with international or US-based community service organizations. Students receive 3 service credits upon the completion of their Susan McAshan Summer Service Internship. Additional details may be found at the PJHC website: http://pjhc.rice.edu/summer-service-internship-funding/.

See https://humanities.rice.edu/student-life for tables of fellowships, prizes, and internships/practica that may be relevant to this minor.

Program in Writing and Communication
The mission of the Program in Writing and Communication (PWC) is to integrate the practice of analytical writing and the techniques of both oral and visual communication into the Rice curriculum, with two goals in mind: To enable our students to articulate their ideas as we prepare them for academic and professional life; and to affirm the necessity of this ability and its fundamental value to every aspect of their education and across every University department and discipline.

The PWC provides oversight for the First-Year Writing-Intensive Seminars (FWIS). FWIS are content-based, 3 credit hour seminars in which writing and communication pedagogy plays a significant role in assignments and grading. The courses reflect a broad range of disciplines from across the university.

The PWC also includes the Center for Written, Oral, and Visual Communication. Housed in Fondren Library, the Center supports teaching and learning through workshops, consulting, and courses for undergraduate and graduate students and faculty. Headed by a team of communication professionals, the Center also includes a large staff of writing and communication consultants, both graduate and undergraduate, who are available for individual tutoring appointments. The Center includes facilities for one-on-one consultations and group work, as well as advanced technology for preparation of oral and visual presentations. Physically accessible whenever Fondren Library is open, the Center is virtually accessible around the clock through the Center’s website (https://cwovc.rice.edu).

For additional information regarding the Program in Writing and Communication, please see the program’s website at: http://pwc.rice.edu/.

All first-year students must pass the Composition Examination and complete a content-based First-Year Writing Intensive Seminar (FWIS) course during their first year at Rice.

Students who receive an unsatisfactory score on the Composition Exam must successfully complete FWIS 100 during the fall of their first year and prior to enrolling in one of the required content-based FWIS courses.

The Program in Writing and Communication does not currently offer an academic program at the graduate level.

Industrial/Organizational Psychology Graduate Program
The Psychology Department’s undergraduate program offers the core preparation recommended by the nation’s leading graduate schools of psychology, with advanced courses and research opportunities to fit individual needs. Programs of study may be structured around prospective careers in several fields of psychology, as well as in medicine, law, business, or education.

Program emphasis in graduate study is on doctoral training. An important feature of our doctoral program is its strong research orientation. Students are expected to spend most of their time actively engaged in research and are expected to acquire a high level of research competence. Faculty research interests and areas of specialization for graduate students include: cognitive (understanding of such basic mental activities as perceiving, attending, remembering, learning, judging, verbalizing, and imagining) and affective neuroscience (investigating the relationship between the human brain and higher forms of behavior, including sensation, perception, attention, memory, language, social cognition, emotion, emotion regulation, and health), human factors/human-computer interaction (the scientific discipline concerned with the understanding of interactions among humans and other elements of a system and the application of theories, principles, data, and other methods of design in order to optimize human well-being and overall system performance), industrial/organizational psychology (human behavior in organizational and work situations), and psychometrics and quantitative psychology (understanding specialized skills related to the substantive development; statistical modeling and analysis; and resulting interpretation of psychological measures, experiments, and interventions).

Bachelor's Program

- Bachelor of Arts (BA) Degree with a Major in Psychology  (p. 684)

Master's Program

- Master of Arts (MA) Degree in the field of Psychology*

Doctoral Program

- Doctor of Philosophy (PhD) Degree in the field of Psychology  (p. 685)

* Although students are not normally admitted to a Master of Arts (MA) degree program, graduate students may earn the MA as they work towards the PhD.

Bachelor of Arts (BA) Degree with a Major in Psychology

Program Learning Outcomes for the BA Degree with a Major in Psychology

Upon completing the BA degree with a major in Psychology, students will be able to:

1. Develop a broad knowledge base in psychology and its content domains. They will be able to describe key concepts, principles, and overarching themes in psychology.

2. Understand research methods, and develop and apply research skills. They will be able to explain different research methods used by psychologists and design and conduct scientific studies to address psychological questions using appropriate research methods. Students will follow the APA Ethics Code in the treatment of human and nonhuman participants in the design, data collection, interpretation, and reporting of psychological research. Students will be able to generalize research conclusions appropriately based on the parameters of particular research methods.

3. Understand the applications of psychology. They will describe major areas (e.g., clinical, cognitive, counseling, human factors, industrial/organizational, school) and emerging applied areas (e.g., health, forensics, media) of psychology. They will identify appropriate applications of psychology in solving problems, such as: the pursuit and effect of healthy lifestyles; the origin and treatment of abnormal behavior; psychological tests and measurement; psychology-based interventions in areas such as clinical, cognitive, counseling, educational, human factors, and industrial/organizational psychology; and the resolution of interpersonal and intercultural conflicts. Students will articulate how psychological principles can be used to explain social issues and inform public policy. Students will apply psychological concepts, theories, and research findings as these relate to everyday life.

Requirements for the BA Degree with a Major in Psychology

For general university requirements, see Graduation Requirements (p. 25). Students pursuing the BA degree with a major in Psychology must complete:

- A minimum of 15 courses (47 credit hours) to satisfy major requirements.
- A minimum of 120 credit hours to satisfy degree requirements.
- A minimum of 60 credit hours outside of major requirements.
- A minimum of 9 courses (29 credit hours) at the 300-level or above.

Once enrolled at Rice, students must obtain approval from the psychology department to transfer courses taken at any other college or university.

The 5 courses listed below (comprising 17 credit hours) must be completed to satisfy the core requirements for this major. Students are strongly encouraged to complete the Core Requirements before taking the upper-level courses that comprise their Elective Requirements.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major's academic advisor (or official certifier). Students and their academic advisors should identify and clearly document the courses to be taken.

Select a total of 10 additional courses from departmental (PSYC) course offerings.  30

Total Credit Hours Required for the Major in Psychology  47

Additional Credit Hours to Complete BA Degree Requirements  13

University Graduation Requirements (p. 25)  60

Total Credit Hours  120

Footnotes and Additional Information

* Includes coursework completed as distribution credit, FWIS, LPAR upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The "hours outside of the major" requirement may include all of the above university requirements.

1 Students are strongly encouraged to complete the Core Requirements before taking the upper-level courses that comprise the Elective Requirements.

2 No substitutions or transfer credits are allowed for PSYC 339 or PSYC 340. In addition, students should complete PSYC 339 and PSYC 340 preferably by the end of their sophomore year.

3 Students may take up to 12 credit hours (combined) of PSYC 485 and/or PSYC 488 to apply toward the major, but only 3 of the 12 credit hours may be from PSYC 488.

Policies for the BA Degree with a Major in Psychology

Transfer Credit
For Rice University's policy regarding transfer credit, see Transfer Credit (p. 32). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of transfer credit advisors on their website: http://oaa.rice.edu. Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines
Students pursuing the major in Psychology should be aware of the following departmental transfer credit guidelines:

• Requests for transfer credit will be considered by the program director (and/or the program's official transfer credit advisor) on an individual case-by-case basis.

For additional information, please see the Psychology website: https://psychology.rice.edu/

Opportunities for the BA Degree with a Major in Psychology

Academic Honors
The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (p. 47) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 47). Some departments have department-specific Honors awards or designations.

Departmental Honors Program
Qualified students may apply to the honors program during preregistration in the spring semester of their junior year. A written proposal for the project must be submitted by the end of the second week of classes in the fall of their senior year, and the faculty will decide on final admission to the honors program by the end of the fourth week of classes. Admission to the honors program requires a psychology major GPA of 3.7 and a cumulative GPA of 3.5, completion of PSYC 339, and completion of or concurrent enrollment in PSYC 340. To graduate with departmental honors, students must complete the requirements for the psychology major, a written honors thesis approved by a faculty committee, and other requirements as determined by their honors committee. Detailed information about the honors program is available from the instructor of the course or the department website (http://psychology.rice.edu/Content.aspx?id=67).

For additional information, please see the Psychology website: https://psychology.rice.edu/

Doctor of Philosophy (PhD) Degree in the field of Psychology

Program Learning Outcomes for the MA and PhD Degrees in the field of Psychology

Upon completing the MA and PhD degrees in the field of Psychology, students will be able to:

1. Describe key concepts, principles, and overarching themes in psychology and develop a comprehensive knowledge of scientific theories and empirical findings in a specialty area.

2. Explain different research methods used by psychologists, and design and conduct studies to address psychological questions using appropriate research methods. They will analyze data from any of a wide variety of research designs using appropriate univariate, multivariate, and/or graphical methods. Students will demonstrate that they follow the APA Ethics Code in the treatment of human and nonhuman participants in the design, data collection, interpretation, and reporting of psychological research.

3. Apply scientific reasoning to interpret psychological phenomena. They will be able to identify methodological and statistical problems in published research and evaluate the appropriateness of conclusions derived from psychological research.

4. Write a paper that clearly summarizes previous research, details methods used in the research, presents statistical analyses, and relates the findings to previous research and theory. They will communicate results through writing, tables, and graphs—that clearly and accurately reflect research findings. Students will present their research and answer questions in a formal setting.

Requirements for the MA and PhD Degrees in the field of Psychology

The MA degree is a thesis master’s degree. For general university requirements, please see Thesis Master’s Degrees (p. 67). For general university requirements for PhD degrees, please see Doctoral Degrees (p. 64). For both MA and PhD degrees, students must complete a research thesis, including a public oral defense. Required coursework is determined by the student’s Research Interest Group (cognitive and
affective neuroscience, human factors/human-computer interaction, industrial/organizational, or psychometrics and quantitative psychology). Students must complete an admission-to-candidacy procedure to establish their expertise in their chosen specialty. Competence in a foreign language is not required. For additional information on each Research Interest Group (RIG), please see the Department of Psychology Graduate Program (https://psychology.rice.edu/graduate).

Research Interest Groups (RIGs)

- **Cognitive and Affective Neuroscience**: The Cognitive RIG seeks an understanding of such basic mental activities as perceiving, attending, remembering, learning, judging, verbalizing, and imagining. The Affective Neuroscience RIG investigates the relationship between the human brain and higher forms of behavior, including sensation, perception, attention, memory, language, social cognition, emotion, emotion regulation, and health.

- **Human Factors/Human-Computer Interaction**: The Human Factors/Human-Computer Interaction RIG investigates interactions among humans and other elements of a system. We are especially concerned with the interaction of humans with computer systems.

- **Industrial/Organizational Psychology**: The Industrial and Organizational (I/O) RIG studies human behavior in organizational and work situations. Topics include motivation at work, the aging workforce, discrimination in the workplace, job performance, and team training.

- **Psychometrics and Quantitative Psychology**: Psychological science critically depends on data that are reliable, accurate, valid, and fair. Serving this purpose, PhD students in the Psychometrics and Quantitative Psychology RIG obtain specialized skills related to the substantive development; statistical modeling and analysis; and resulting interpretation of psychological measures, experiments, and interventions.

The program has a strong research orientation, and whether or not students plan to pursue a research career, they are expected to spend a large portion of their graduate years actively engaged in research.

April DeConick
Department Chair
adeconick@rice.edu

The Religion department's undergraduate major is built to be as flexible as possible so that students may pursue individual interests and interdisciplinary goals. The major provides students with the opportunity to explore mainline religious traditions and marginal/repressed religious currents within multicultural and transnational contexts. Students will gain religious literacy while studying the historical, social, cultural, psychological, philosophical, and cognitive dynamics of religion and religious experience.

Bachelor's Program

- Bachelor of Arts (BA) Degree with a Major in Religion (p. 687)

Master's Program

- Master of Arts (MA) Degree in the field of Religion (p. 691)(thesis terminal masters degree)
- Master of Arts (MA) Degree in the field of Religion*

Doctoral Program

- Doctor of Philosophy (PhD) Degree in the field of Religion (p. 690)

Certificate

- Certificate in Gnosticism, Esotericism and Mysticism (p. 421)

* Although students are not normally admitted to a Master of Arts (MA) degree program, graduate students may earn the MA as they work towards the PhD.

Bachelor of Arts (BA) Degree with a Major in Religion

Program Learning Outcomes for the BA Degree with a Major in Religion

Upon completing the BA degree with a major in Religion, students will be able to:

1. Develop and apply critical toolkit to the study of religion and religious traditions including (inter)disciplinary methodologies and theories at a proficient level.

(Critical Skills for the Study of Religion: Theory, Method, and (Inter)Disciplinarity)

2. Understand and interpret religious traditions by examining religion(s) as historical, social, and cultural phenomena. When appropriate, attention is given to the impact of globalism, immigration, colonialism, and other forms of transnational and multi-cultural (non)religious exchange at a proficient level.

(Historical, Social, (Multi-)Cultural Dimensions of Religion)

3. Understand and interpret the subjective dimensions of religion(s) through analyses that explore the psychological, philosophical, and cognitive dynamics of religion and religious experience at a proficient level.

(Psychological, Philosophical, and Cognitive Dimensions of Religion)

4. Understand and interpret religious traditions by examining the plurality of religious voices and expressions, including currents that have been marginalized, neglected, repressed, and censored in a variety of sociological, psychological, philosophical, and political ways at a proficient level.

(Religious Plurality and Marginal Currents)

5. Develop the ability to read religious texts in their original languages and perform translations of texts when appropriate to the student’s course of study at a proficient level.

(Foreign Language Skills)

Requirements for the BA Degree with a Major in Religion

For general university requirements, see Graduation Requirements (p. 25).

Students pursuing the BA degree with a major in Religion must complete:

- A minimum of 10 courses (30 credit hours) to satisfy major requirements.
- A minimum of 120 courses to satisfy degree requirements.
- A minimum of 60 credit hours outside of major requirements.
- A minimum of 6 courses (18 credit hours) at the 300-level or above.
- A maximum of 2 courses (6 credit hours) from study abroad or other transfer credits. For additional department guidelines regarding transfer credit, see the Policies tab.

Students who are pursuing two majors (i.e., are double majors) and have declared the Religion major must complete:

- A minimum of 8 courses (24 credit hours) to satisfy major requirements.
- A minimum of 6 courses (18 credit hours) at the 300-level or above.
- A maximum of 2 courses (6 credit hours) from study abroad or other transfer credits. For additional department guidelines regarding transfer credit, see the Policies tab.

Double majors who drop the other major are required to meet the requirements listed for single majors.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor (or official certifier). Students and their academic advisors should identify and clearly document the courses to be taken.

Footnotes and Additional Information

* Includes coursework completed as distribution credit, FWIS, LPAP, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The “hours outside of the major” requirement may include all of the above university requirements.

1 Double majors who drop the other major are required to meet the requirements listed for single majors.

2 Selection of courses should be worked out programmatically with a faculty member advisor so that at least 3 courses form a concentrated area of study.

3 Double majors must complete a total of 4 additional courses (12 credit hours) to satisfy the Elective Requirements. Selection of courses should be worked out programmatically with a faculty member advisor so that at least 3 courses form a concentrated area of study.

4 The course is either a Seminar or Independent Study with a required research paper selected with advisor approval. See advisor for more information.

Select 1 from the following:
Departmental Transfer Credit

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 32). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: http://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines

Students pursuing the major in Religion should be aware of the following departmental transfer credit guidelines:

- No more than 2 courses (6 credit hours) of transfer credit from U.S. or international universities of similar standing as Rice may apply towards the major.
- Requests for transfer credit will be considered by the departmental Director of Undergraduate Studies (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

For additional information, please see the Religion website: http://reli.rice.edu/

Opportunities for the BA Degree with a Major in Religion

Academic Honors

The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (p. 47) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 47). Some departments have department-specific Honors awards or designations.

Departmental Honors Program

Qualified undergraduates may choose the option of writing a senior thesis and submitting it to the department for consideration to receive Distinction in Research and Creative Works. For details about the submission process and this honors award, visit the department’s website. To complete the thesis, the student elects RELI 400 "Senior Thesis." Students must have a minimum 3.2 GPA in Religion courses prior to enrolling in RELI 400, a Religion faculty supervisor, and the permission of the Undergraduate Director. Further details are available upon consultation with the department’s Director of Undergraduate Studies.

See https://humanities.rice.edu/student-life for tables of fellowships, prizes, and internships/practica that may be relevant to this major.

Doctor of Philosophy (PhD) Degree in the field of Religion

Program Learning Outcomes for the PhD Degree in the field of Religion

Upon completing the PhD Degree in the field of Religion, students will be able to:

1. Develop and apply critical toolkit to the study of religion and religious traditions, including (inter)disciplinary methodologies and theories at a professional level.
   (Critical Skills for the Study of Religion: Theory, Method and (Inter)Disciplinarity)
2. Understand and interpret religious traditions by examining religion(s) as historical, social, and cultural phenomena. When appropriate, attention is given to the impact of globalism, immigration, colonialism, and other forms of transnational and multi-cultural (non)religious exchanges at a professional level.
   (Historical, Social, (Multi-)Cultural Dimensions of Religion)
3. Understand and interpret the subjective dimensions of religion(s) through analyses that explore the psychological, philosophical, and cognitive dynamics of religion and religious experience at a professional level.

Policies for the BA Degree with a Major in Religion

Transfer Credit

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 32). Some departments and programs have additional restrictions on transfer credit. Doctor of Philosophy (PhD) Degree in the field of Religion

Program Learning Outcomes for the PhD Degree in the field of Religion

Upon completing the PhD Degree in the field of Religion, students will be able to:

1. Develop and apply critical toolkit to the study of religion and religious traditions, including (inter)disciplinary methodologies and theories at a professional level.
   (Critical Skills for the Study of Religion: Theory, Method and (Inter)Disciplinarity)
2. Understand and interpret religious traditions by examining religion(s) as historical, social, and cultural phenomena. When appropriate, attention is given to the impact of globalism, immigration, colonialism, and other forms of transnational and multi-cultural (non)religious exchanges at a professional level.
   (Historical, Social, (Multi-)Cultural Dimensions of Religion)
3. Understand and interpret the subjective dimensions of religion(s) through analyses that explore the psychological, philosophical, and cognitive dynamics of religion and religious experience at a professional level.
Requirements for the MA and PhD Degrees in the field of Religion

For general university requirements, please see Doctoral Degrees (p. 64). The graduate program accepts a limited number of qualified students. A distinguished undergraduate record and high scores on the Graduate Record Examination (GRE) are essential, and an advanced degree in the humanities is desirable. Students admitted into the program normally will receive financial assistance in the form of a tuition waiver and a stipend. As part of their training and in return for their stipends, students are expected to perform a minimum amount of services in return for their stipend by assisting the department as needed.

MA Degree Program

The MA degree is a non-thesis master's degree. For general university requirements, please see Non-Thesis Master's Degrees (p. 66). Although students are not normally admitted to study for an MA, graduate students may earn the MA after obtaining approval of their candidacy for the PhD.

PhD Degree Program

Students pursuing the PhD degree in the field of Religion must complete the following:

- 18 courses (54 credit hours).
- 2 department seminars to be taken in each of the first 2 years.
- Successful completion of the second-year review.
- Passing grades on reading examinations in two secondary research languages approved by the faculty before taking qualifying exams.
- Passing grades in 4 qualifying examinations.
- Approved dissertation proposal.
- Satisfactory completion of dissertation and oral defense.

Reading Lists

Reading lists are available for all Qualifying Exams. Students are expected to familiarize themselves with this material enough that they draw on it on their exams and the dissertation itself. The graduate seminar is, in part, an introduction to areas of the reading list and to the techniques for engaging in deep, independent reading.

Policies for the PhD Degree in the field of Religion

Department of Religion Graduate Program Handbook

The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, the Department of Religion publishes a graduate program handbook, which can be found here: http://gradhandbooks.rice.edu/2017_18/Religious_Studies_Graduate_Handbook.pdf.

For additional information, please see the Religion website: http://reli.rice.edu/

Opportunities for the PhD Degree in the field of Religion

Professional Development

Opportunities are available to teach undergraduate courses in the department. Students are encouraged to pursue teaching opportunities at colleges and universities. Limited funds also are available for students to attend conferences to present their research. The department encourages these and other efforts to prepare students for academic careers.

See https://humanities.rice.edu/student-life for tables of fellowships, prizes, and internships/practica that may be relevant to this degree.

Master of Arts (MA) Degree in the field of Religion

Program Learning Outcomes for the MA Degree in the field of Religion

Upon completing the MA degree in the field of Religion, students will be able to:

1. Develop and apply critical toolkit to the study of religion and religious traditions, including (inter)disciplinary methodologies and theories at a level of mastery.
   - (Critical Skills for the Study of Religion: Theory, Method and (Inter)Disciplinarity)
2. Understand and interpret religious traditions by examining religion(s) as historical, social, and cultural phenomena. When appropriate, attention is given to the impact of globalization, immigration, colonialism, and other forms of transnational and multi-cultural (non)religious exchange at a level of mastery.
   - (Historical, Social, (Multi-)Cultural Dimensions of Religion)
3. Understand and interpret the subjective dimensions of religion(s) through analyses that explore the psychological, philosophical, and cognitive dynamics of religion and religious experience at a level of mastery.
(Psychological, Philosophical, and Cognitive Dimensions of Religion)

4. Understand and interpret religious traditions by examining the plurality of religious voices and expressions, including currents that have been marginalized, neglected, repressed, and censored in a variety of sociological, psychological, philosophical, and political ways at a level of mastery.
(Religious Plurality and Marginal Currents)

5. Develop ability to read and understand relevant scholarly research/literature that has been published in foreign languages. Develop ability to read religious texts in their original languages and perform translations of texts when appropriate to the student's course of study at a level of mastery.
(Foreign Language Skills)

Requirements for the MA Degree in the field of Religion

The MA degree is a thesis master's degree. For general university requirements, please see Thesis Master's Degrees (p. 67). Students pursuing the MA degree in the field of Religion (RELI) must:

- Complete all university graduation requirements
- Complete Graduate Methods Seminar requirement (2 courses):
  RELI 527 (History and Methods: 19th Century) and RELI 559 (History and Methods: 20th Century)
- Complete at least 30 hours of courses approved for graduate credit at Rice University
- Complete at least 24 hours of graduate-level coursework in departmental (RELI) course offerings with a B- or better
- At least 12 hours of the RELI coursework must be seminars at the 500 or 600 level, where research papers are required
- Accumulate an overall GPA of at least 3.0
- Pass 1 secondary language reading exam (French or German)
- Comprehensive exam on Method and Theory in the study of religion
- Master's thesis developed from a paper in a course that represents the student's interests in the study of religion
- Oral defense of thesis with student and three faculty members who have worked with the student in the Department of Religion
- Candidacy, defense, and thesis submission will follow the guidelines described here (p. 67).

Policies for the MA Degree in the field of Religion

Department of Religion Graduate Program Handbook

The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, the Department of Religion publishes a graduate program handbook, which can be found here:

Admission

Students will apply for admittance to the MA program via the Rice Grad Apps webpage. Each January, the faculty in the Religion Department will evaluate the applications and select the MA students for the next academic year.

Application for Degree

The student must file a petition to receive the MA. This petition can be obtained from the Graduate Administrator and must be approved and signed by the Chair of the Department and submitted to the Office of Graduate Studies. In exceptional cases, when a student who has completed the terminal MA, applies to the PhD program, and is admitted, the coursework already completed by the student may be applied toward the PhD requirements.

Transfer Credit

For Rice University's policy regarding transfer credit, see Transfer Credit (p. 66). Some departments and programs have additional restrictions on transfer credit. Students are encouraged to meet with their academic program's advisor when considering transfer credit possibilities.

For additional information, please see the Religion website: http://reli.rice.edu/

Opportunities for the MA Degree in the field of Religion

Patricia Reiff
Program Director
reiff@rice.edu

The Master of Science Teaching (MST) degree is a content-based, non-thesis, advanced degree primarily directed towards inservice middle school, IPC (Integrated Physics and Chemistry), Physics, or Astronomy high school teachers and other Education and Public Outreach (EPO)
professionals. The goal of the program is to provide content and skills to inservice and preservice K-12 and Informal educators, so that they will become proficient in, and able to teach, all the Planetary, Astronomy, and Space Science topics included in the Next Generation Science Standards and the State of Texas science standards.

The teachers who finish the program are encouraged to become master teachers in their school district, multiplying the impact of the program manifold by giving workshops and other inservice programs to other teachers both in-state, and across the country.

Science Teaching does not currently offer an academic program at the undergraduate level.

**Description and Code Legend**

*Note: Internally, the university uses the following descriptions, codes, and abbreviations for this academic program. The following is a quick reference:*

**Course Catalog/Schedule**

Course offerings/subject codes: Courses from various subjects may apply toward the graduate degree.

**Department Description and Code**

Physics and Astronomy: PHYS

**Graduate Degree Description and Code**

Master of Science Teaching degree: MST

---

**Graduate Degree Program Description and Code**

Degree Program in Science Teaching: STEA

**Master of Science Teaching (MST) Degree**

**Program Learning Outcomes for the MST Degree**

Upon completing the MST degree, students will be able to:

1. Solve problems based on Kepler’s Laws and Newton’s Laws using non-calculus mathematical techniques.
2. Demonstrate best practices for teaching scientific content.
3. Present an oral report on a scientific topic using presentation software such as Powerpoint.
4. Learn how to use scientific and astronomical equipment such as telescopes, digital cameras, GPS, and electronic devices, including multimeters, and/or portable planetariums.
5. Prepare a Final Project, which will include scientific research, educational research, and/or curriculum creation or analysis.

**Requirements for the MST Degree**

The MST degree is a non-thesis master’s degree. For general university requirements, please see Non-Thesis Master’s Degrees (p. 66). Students pursuing the MST degree must complete:

• A minimum of 30 credit hours at the 500-level or above to satisfy degree requirements, including a minimum of 15 credit hours from Content or Content/Skills Courses.
• A final project. Students will prepare a final project which will include scientific research, educational research, and/or curriculum creation or analysis.

Each candidate for the Master of Science Teaching degree will specify an area of specialization. Examples of the areas of specialization are listed below:

• Astronomy
• Computer Science
• Earth Science
• Engineering
• Informal Science
• Integrated Physics and Chemistry (IPC)
• Mathematics
• Middle School Science
• Physics

Each student will have a 3-person committee, with at least 2 members from the tenure-track faculty, to approve the student’s proposed program, advise on which specific courses will best suit the student’s needs, and approve their final project. At least 1 of the members of the committee will be an experienced Education Professional, who will ensure the appropriateness of the courses to the educator’s program. At least 1 person of the committee will be an expert in the content area that is the student’s primary teaching interest.

**Total Credit Hours Required for the MST Degree**

- Total Credit Hours: 30

---

**Footnotes and Additional Information**

1. At least 9 credit hours should be directly related to the student's major area of specialization. There may be some courses at the 400-level that satisfy this requirement, but students should be aware that if they take courses at the 400-level, they may need to take additional courses at the 500-level or above to satisfy overall degree requirements. Students may also satisfy the requirement, upon approval of their graduate committee, by completing courses from departmental (ASTR, BIOC, CHEM, EBIO, EDUC, ENGI, ESCI, MATH, NSCI, or PHYS) course offerings at the 500-level or above.

2. Students may also satisfy the requirement, upon approval of their graduate committee, by completing courses from departmental (ASTR, BIOC, CHEM, EBIO, EDUC, ENGI, ESCI, MATH, NSCI, or PHYS) course offerings.

3. Students must complete, at a minimum, 3 credit hours from graduate research or teaching practicum (ESCI 515 or PHYS 800), developing a research project in conjunction with a science or educational advisor.

---

**Policies for the MST Degree**

**Transfer Credit**

For Rice University's policy regarding transfer credit, see Transfer Credit (p. 66). Some departments and programs have additional restrictions on transfer credit. Students are encouraged to meet with their academic program's advisor when considering transfer credit possibilities.

For additional information, please see the Science Teaching website: [http://space.rice.edu/MST/](http://space.rice.edu/MST/).

**Social Policy Analysis**

**Contact Information**

Social Policy Analysis  
[https://socialpolicy.rice.edu/](https://socialpolicy.rice.edu/)  
102 Herzstein Hall  
713-348-2694  
Melissa Marschall  
Program Director  
marschal@rice.edu

The central focus of Rice University's Social Policy Analysis program is policy design, analysis, and communication. Interdisciplinary in nature, the curriculum's emphasis is on integrating rigorous instruction in theory and method with hands-on, skills-based instruction by social science faculty. The primary goal of the program is to train Rice students to obtain the specialized knowledge, skill and experience to be leaders in the field of social policy analysis.

The Social Policy Analysis program focuses on the evaluation of alternative interventions that propose to improve human well-being. Graduates will be able to answer questions like: Which early interventions lead to greater educational attainment for low-income children? Which juvenile rehabilitation programs are more likely to reduce the recurrence of criminal behavior? How does healthcare policy influence our daily health behaviors? Without evidence-based research and rigorous evaluations to test these ideas, there is no way to know which solutions work and for whom. In a time of limited resources and rising demands, our leaders need the analytical expertise to make a demonstrable, sustained impact on the most pressing issues facing our cities and nation. The Social Policy Analysis program will train Rice students to meet these needs.

**Bachelor's Program**

- Bachelor of Arts (BA) degree with a major in Social Policy Analysis (p. 695)

Social Policy Analysis does not currently offer an academic program at the graduate level.

Program Description and Code
• Social Policy Analysis: SOPA

Undergraduate Degree Description and Code
• Bachelor of Arts degree: BA

Undergraduate Major Description and Code
• Major in Social Policy Analysis: SOPA

Bachelor of Arts (BA) Degree with a Major in Social Policy Analysis

Program Learning Outcomes for the Bachelor of Arts (BA) Degree with a Major in Social Policy Analysis

Upon completing the BA degree with a major in Social Policy Analysis, students will be able to:

1. Understand social policy as an interdisciplinary field and demonstrate the ability to synthesize key knowledge, theories, and research across different disciplines in the social sciences.

2. Develop critical analysis, problem solving and research skills in order to design and evaluate evidence-based interventions for social problems.

3. Demonstrate the ability to communicate policy research and findings in written and oral formats.

Requirements for the BA Degree with a Major in Social Policy Analysis

For general university requirements, see Graduation Requirements (p. 25). Students pursuing the BA degree with a major in Social Policy Analysis must complete:

• A minimum of 14 courses (42-43 credit hours) to satisfy major requirements.
• A minimum of 120 credit hours required to satisfy degree requirements.
• A minimum of 60 credit hours outside the major.
• A minimum of 9 courses (18 credit hours) taken at the 300-level or above.
• A maximum of 2 courses (6 credit hours) from study abroad or transfer credit. For additional program guidelines regarding transfer credit, see the Policies tab.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor (or official certifier). Students and their academic advisors should identify and clearly document the courses to be taken.

Jenifer Bratter
Graduate Program Director
Jenifer.L.Bratter@rice.edu

Sociology is a branch of the social sciences that evolved in response to the revolutionary social changes of the 19th century, such as industrialization and urbanization, that ushered in the modern era. Sociology's founding fathers include Emile Durkheim, Max Weber, Karl Marx, Herbert Spencer, and George Herbert Mead. They explored how social relationships and interactions affect individuals and large-scale social institutions, including religion, government, and education.

Today, sociologists use qualitative techniques, including ethnography; participant observation; and case studies of a variety of social phenomena, processes, and problems as methods for exploring the meaning of social life and culture to those who live it, and in building inductive theory. Quantitative techniques engage in hypothesis testing of established theories and concepts, using techniques that include experimental designs, survey questionnaires, and network analysis. Sociology as a discipline includes "ways of knowing" that link it closely to methods of the natural sciences, and more interpretive and critical perspectives that are closer to scholarship in the humanities.

The Sociology department does not have a terminal MA program. Students seeking only a master's degree are not admitted. However, the Master of Arts degree is earned as a student progresses toward the PhD.

Bachelor's Program
- Bachelor of Arts (BA) Degree with a Major in Sociology (p. 698)

Minor
- Minor in Sociology (p. 701)

Master's Program
- Master of Arts (MA) Degree in the field of Sociology*

Doctoral Program
- Doctor of Philosophy (PhD) Degree in the field of Sociology (p. 700)
  * Although students are not normally admitted to a Master of Arts (MA) degree program, graduate students may earn the MA degree as they work towards the PhD.

Chair
Bridget K. Gorman

Policies for the BA Degree with a Major in Social Policy Analysis

Transfer Credit
For Rice University's policy regarding transfer credit, see Transfer Credit (p. 32). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of transfer credit advisors on their website: http://oaa.rice.edu. Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

Program Transfer Credit Guidelines
Students pursuing the major in Social Policy Analysis should be aware of the following program-specific transfer credit guidelines:

- No more than 2 courses (6 credit hours) of transfer credit from U.S. or international universities of similar standing may apply towards the major.
- Request for transfer credit will be considered by the program director (and/or the program's official transfer credit advisor) on an individual case-by-case basis.

For additional information, please see the Social Policy Analysis website: https://socialpolicy.rice.edu/

Opportunities for the BA Degree with a Major in Social Policy Analysis

Academic Honors
The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 47) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 47). Some departments have department-specific Honors awards or designations.

For additional information, please see the Social Policy Analysis website: https://socialpolicy.rice.edu/

**Bachelor of Arts (BA) Degree with a Major in Sociology**

**Program Learning Outcomes for the BA Degree with a Major in Sociology**

Upon completing the BA degree with a major in Sociology, students will be able to:

1. Understand the functions of theory and its use in the social sciences. Students will be familiar with key social theorists in the field. Students will understand key theoretical concepts and be comfortable using them beyond the classroom.

2. Gain richer understanding of the social world, including class, race, gender, ethnicity, education, family, occupation, deviancy, health, and global citizenship as well as how the human social world impacts its environment.

3. Apply sociological knowledge and training to understand theory and policy oriented around issues of human well-being in the US and globally, including how to understand the relationship between inequality and factors like race, class, gender, and education.

4. Apply methodological, theoretical, and research skills to carry out empirical research projects.

**Requirements for the BA Degree with a Major in Sociology**

For general university requirements, see Graduation Requirements (p. 25). Students pursuing the BA degree with a major in Sociology must complete:

- A minimum of 11 courses (33 credit hours) to satisfy major requirements.
- A minimum of 120 credit hours to satisfy degree requirements.
- A minimum of 60 credit hours outside of major requirements.
- A minimum of 10 courses (30 credit hours) at the 300-level or above.
- A maximum of 5 courses (15 credit hours) from study abroad or transfer credit. For additional departmental guidelines regarding transfer credit, see the Policies tab.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor (or official certifier). Students and their academic advisors should identify and clearly document the courses to be taken.
Sociology

For additional information, please see the Sociology website: http://sociology.rice.edu/

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 32). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: http://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines
Students pursuing the major in Sociology should be aware of the following departmental transfer credit guidelines:

- No more than 5 courses (15 credit hours) of transfer credit from U.S. or international universities of similar standing as Rice may apply towards the major.
- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.
- Transfer credit coursework from online-only courses cannot be used to count towards the major.

For additional information, please see the Sociology website: http://sociology.rice.edu/

Opportunities for the BA Degree with a Major in Sociology

Academic Honors
The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (p. 47) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 47). Some departments have department-specific Honors awards or designations.

Departmental Honors Program
The Sociology Department Honors Program is designed to provide sociology majors with the opportunity to sharpen their research skills and deepen their understanding of the discipline through a 2-to-3 semester program of directed independent research and writing. The program also offers the opportunity for formal recognition, through Departmental Honors, of those undergraduates who have demonstrated unusual competence in sociology by successfully completing a sustained independent research project. Small grants for honors thesis research are generously supported by the Chandler and Ian Davidson Scholars Fund as well as the Walter Hall Scholars program.

Eligibility
To be eligible for the Departmental Honors Program, students must have:

- Taken at least 4 sociology courses beyond SOCI 101 Introduction to Sociology, including SOCI 381 Research Methods. If their project requires statistical analysis, students should also complete SOCI 382 Social Statistics before beginning their research.
- An A- (3.67) GPA in all sociology courses taken.

Application Process
1. During the fall and early spring semester of their junior year, students are invited to consult with tenured and tenure-track members of the faculty about a potential thesis topic. All students must have at least 1 tenured or tenure-track faculty member in the sociology department as their thesis chair. The student must submit a written description of their proposed research project to the chosen faculty member for approval of their topic and review of their proposal, as well as secure agreement of the chosen faculty member(s) to serve as their thesis committee chair.

2. Once a thesis supervisor has been identified, the student must submit a written description of their proposed research project to the departmental undergraduate advisor. The proposal should be 2-3 pages in length, double-spaced, and is due by April 1st of their junior year. It should include a signed statement from the chosen faculty member agreeing to serve as their chair advisor.

3. The sociology faculty will vote on the merits of the proposed thesis project at their monthly faculty meeting in mid-April. If approved, the student may begin work on their thesis immediately, or at a start time agreed upon with their thesis supervisor (including summer semester, if desired).

Program
Students in the Honors Program register for 2 successive semesters in Directed Honors Research (SOCI 492 and SOCI 493). An honors thesis typically involves much discussion over both semesters between the student and their tenure or tenure-track advisor. Students should meet early in the process to agree on ground rules for the project, to choose the other members of the thesis committee (made up of one additional

Policies for the BA Degree with a Major in Sociology

Transfer Credit
For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 32). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: http://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.
Sociology must complete:

For general university requirements, please see Doctoral Degrees Requirements for the MA and PhD degrees. Students will be able to:

Upon completing the MA and PhD degrees in the field of Sociology,

Program Learning Outcomes for the MA and PhD Degrees in the field of Sociology

Upon completing the MA and PhD degrees in the field of Sociology, students will be able to:

1. Understand and apply the role of theory in sociology.
2. Demonstrate understanding and application of both qualitative and quantitative sociological methods.
3. Demonstrate expertise in at least two specialty areas within sociology.

Requirements for the MA and PhD Degrees in the field of Sociology

For general university requirements, please see Doctoral Degrees (p. 64). Students pursuing the MA and PhD degrees in the field of Sociology must complete:

- A minimum of 90 credit hours to satisfy degree requirements

The PhD program is a five-year degree program. The Sociology department does not admit students seeking only a master's degree. The MA degree is a thesis master's degree. For general university requirements, please see Thesis Master's Degrees (p. 67). Students will normally obtain a master's degree after two years of study and research as a student progresses toward the PhD, and will usually need an additional three years to complete the requirements for a PhD. The coursework is sequenced and will typically be completed in two and a half years. By this point, students will be required to have written their Master's thesis and completed their Master's degree. This leaves one semester to take the comprehensive exams and two years to complete the dissertation. Each student will attend a monthly Teaching and Professionalization Workshop that the department will hold throughout the academic school year.

Minor in Sociology

Program Learning Outcomes for the Minor in Sociology
Upon completing the minor in Sociology, students will be able to:

- Gain a richer understanding of the social world, including class, race, gender, ethnicity, education, family, occupation, deviancy, health and global citizenship as well as how the human social world impacts its environment.
- Apply sociological knowledge and training to understand theory and policy oriented around issues of human well-being in the US and globally, including how to understand the relationship between inequality and factors like race, class, gender and education.
- Students will gain an in-depth understanding of the role of theory OR research methods, depending on their preference. This means they will be able to apply sociological knowledge and training to understand theory and policy oriented around issues of human well-being in the US and globally, including how to understand the relationship between inequality and factors like race, class, gender and education. Alternatively, students will be able to apply methodological, theoretical, and research skills to carry out empirical research projects.

Requirements for the Minor in Sociology

Students pursuing the minor in Sociology must complete:

- A minimum of 6 courses (18 credit hours) to satisfy minor requirements.
- A minimum of 5 courses (15 credit hours) at the 300-level or above.
- A maximum of 2 courses (6 credit hours) from study abroad or transfer credit. For additional departmental guidelines regarding transfer credit, see the Policies tab.

The courses listed below satisfy the requirements for this minor. In certain instances, courses not on this official list may be substituted upon approval of the minor’s academic advisor (or official certifier). Students and their academic advisors should identify and clearly document the courses to be taken.

**Policies for the Minor in Sociology**

**Program Restrictions and Exclusions**

Students pursuing the minor in Sociology should be aware of the following program restriction:

- As noted in Majors, Minors, and Certificates (p. 12), i.) students may declare their intent to pursue a minor only after they have first declared a major, and ii.) students may not major and minor in the same subject.

**Transfer Credit**

For Rice University's policy regarding transfer credit, see Transfer Credit (p. 32). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of transfer credit advisors on their website: [http://oaa.rice.edu](http://oaa.rice.edu). Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

**Departmental Transfer Credit Guidelines**

Students pursuing the minor in Sociology should be aware of the following departmental transfer credit guidelines:

- No more than 2 courses (6 credit hours) of transfer credit from U.S. or international universities of similar standing as Rice may apply towards the minor.
- Requests for transfer credit will be considered by the program director (and/or the program's official transfer credit advisor) on an individual case-by-case basis.
- Transfer credit coursework from online-only courses cannot be used to count towards the minor.

For additional information, please see the Sociology website: [http://sociology.rice.edu/](http://sociology.rice.edu/).

---

**Opportunities for the Minor in Sociology**

**Academic Honors**

The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 47) (*summa cum laude, magna cum laude,* and *cum laude*) and Distinction in Research and Creative Work (p. 47). Some departments have department-specific Honors awards or designations.

The professional master’s degree in Space Studies is a collaboration between the Wiess School of Natural Sciences and the George R. Brown School of Engineering, and is geared to help individuals increase their knowledge of space engineering and related science, program management, and policy. The program includes advanced engineering, biological, and physical science classes and introduces students to economics, public policy, and management disciplines, which impact space commercialization and national policy. It focuses on training engineers and scientists interested in program management, providing them with the tools to face the complex challenges inherent in US space policy, human and robotic space exploration, science in space exploration, and technology development.

The degree in Space Studies is 1 of 5 degrees in the professional science master’s (PSM) program at Rice University housed in the Wiess School of Natural Sciences. It focuses on training students in Space Engineering and Science with the intent of creating new opportunities for those students interested in working in the space technology industry or related government entities, e.g. NASA, as well as governmental relations positions in non-profit organizations, industry and academic institutions. These master’s degrees are designed for students seeking to gain further technical core expertise coupled with enhanced management, communication, and leadership skills, instilling a level of scholastic proficiency that exceeds that of the bachelor’s level, and creating the cross-functional aptitudes needed in modern industry and government.

In addition, a coordinated MBA/MSSpS degree is offered in conjunction with the Jesse H. Jones Graduate School of Business.

Space Studies does not currently offer an academic program at the undergraduate level.

**Master’s Program**

- Master of Science in Space Studies (MSSpS) Degree (p. 703)

**Coordinated Program**

- Master of Business Administration (MBA) Degree / Master of Science in Space Studies (MSSpS) Degree (p. 703)

**Directors**

David Alexander
Description and Code Legend

Note: Internally, the university uses the following descriptions, codes, and abbreviations for this academic program. The following is a quick reference:

**Course Catalog/Schedule**
- Course offerings/subject codes: Courses from various subjects may apply toward the graduate degree.

**Department Description and Code**
- Physics and Astronomy: PHYS

**Graduate Degree Description and Code**
- Master of Science in Space Studies degree: MSSpS

**Graduate Degree Program Description and Code**
- Degree Program in Space Studies: SPST

**Master of Business Administration (MBA) Degree / Master of Science in Space Studies (MSSpS) Degree**

**Program Learning Outcomes for the MBA/MSSpS Coordinated Degree Program**

Upon completing the MBA/MSSpS Coordinated Degree Program, students will:

1. Achieve advanced science, engineering, and computational skills and abroad understanding of the methodologies applied in the space industry.
2. Demonstrate an understanding and application of the foundational frameworks and tools of all business disciplines, including accounting, finance, marketing, organizational behavior, and strategic management.
3. Develop, evaluate, and implement business strategies and operational solutions holistically, effectively integrating principles across the functional areas both as a leader and a contributor.

**Requirements for the MBA/MSSpS Coordinated Degree Program**

Students may earn a Master of Science degree from the Weiss School of Natural Sciences Professional Science Master’s (PSM) program in the following fields:

- Biotechnology and Biomolecular Sciences
- Environmental Analysis and Decision Making
- Nanotechnology
- Space Studies
- Subsurface Geoscience

For the coordinated MBA/Master of Science degree from the professional master's program, students must complete:

- a minimum of 75 credit hours of coursework, including:
  - a minimum of 30 credit hours in a science discipline
  - a minimum of 45 credit hours of business course work
- Satisfy all MBA core curriculum requirements
- Satisfy all PSM track-specific requirements
- Complete a summer internship

Students plan their course schedules in consultation with the Weiss School of Natural Sciences PSM program director and with the Jones Graduate School of Business Registrar Department. Coordinated degree candidates can fulfill requirements for both degrees within 3 academic years.

**Policies for the MBA/MSSpS Coordinated Degree Program**

For additional information on these two degrees:

1. Please see the Business website: [https://business.rice.edu/](https://business.rice.edu/)
2. Please see the Space Studies website: [https://profms.rice.edu/](https://profms.rice.edu/)

**Opportunities for the MBA/MSSpS Coordinated Degree Program**

For additional information on these two degrees:

1. Please see the Business website: [https://business.rice.edu/](https://business.rice.edu/)
2. Please see the Space Studies website: [https://profms.rice.edu/](https://profms.rice.edu/)

**Master of Science in Space Studies (MSSpS) Degree**

**Program Learning Outcomes for the MSSpS Degree**

Upon completing the MSSpS Degree, students will:

1. Achieve advanced science, engineering, and computational skills and a broad understanding of the methodologies applied in the space industry.
2. Gain real life experience in solving technical problems in a science and technology environment.
3. Develop business and communication skills to bridge the gap between science and business.

Requirements for the MSSpS Degree

The MSSpS degree is a non-thesis master’s degree. For general university requirements, please see Non-Thesis Master’s Degrees (p. 66). Students pursuing the MSSpS degree must complete:

- A minimum of 39 credit hours to satisfy degree requirements.
- An internship of 3-6 months. Students must present a summary of their internship project in both oral and written form as part of the professional master’s seminar.
- A minimum of 30 credit hours at the 500-level or above.

The courses listed below satisfy the requirements for this degree program. In certain instances, courses not on this official list may be substituted upon approval of the PSM (Professional Science Masters) program director and the MSSpS advisor (or official certifier). Students and their academic advisors should identify and clearly document the courses to be taken.

and strong quantitative abilities. Statistics, the general Graduate Record Examination (GRE), good critical thinking calculus, linear algebra, and differential equations. Good scores from a program that included course work in general physics, chemistry, students holding a bachelor's degree in a related science or engineering program. Admission to graduate study in Space Studies is open to qualified programs are available for applicants. Students are encouraged to meet with their academic advisor to get guidance on transfer credit possibilities. For additional information, please see the Space Studies website: https://profms.rice.edu/ Opportunities for the MSSpS Degree Fifth-Year MSSpS Degree Option for Rice Undergraduate Students Rice undergraduate students have an option to pursue the MSSpS degree by adding an additional fifth year to their four undergraduate years of science studies. Advanced Rice undergraduate students in good academic standing may apply to the graduate program during their junior year. Upon acceptance, depending on course load, financial aid status, and other variables, they may then start taking required core courses of the Space Studies program during their senior year. A plan of study based on their particular focus area will need to be approved by the PSM (Professional Science Masters) program director and the MSSpS advisor. As part of this option and opportunity, Rice undergraduate students:

- must complete the requirements for their bachelor’s degree and the MSSpS degree independently of each other (i.e. no course may be counted toward the fulfillment of both degrees).
- should be aware that there could be financial aid implications, if the conversion of undergraduate coursework to that of graduate-level reduces their earned undergraduate credit for any semester below that of full-time status (12 credit hours).

For additional information, please see the Space Studies website: https://profms.rice.edu/ Spanish, Portuguese and Latin American Studies Contact Information Spanish, Portuguese and Latin American Studies http://spanishandportuguese.rice.edu/ 307 Rayzor Hall 713-348-5451 Luis Duno-Gottberg Department Chair ld4@rice.edu

The Spanish, Portuguese and Latin American Studies department offers courses on the literatures and cultures of the Portuguese and Spanish-speaking nations of the world and on Spanish and Portuguese linguistics. The department stresses linguistic competence, interdisciplinary study, and a transnational perspective on Spanish, Latin America, and Brazilian literature and culture. In addition to courses on the novel, poetry, and the essay, the department also offers the opportunity to study film, art,
Bachelor of Arts (BA) Degree with a Major in Spanish and Portuguese

Prominent topics include cultural theory, translation, and gender. Qualified students may undertake independent work.

Latin American Studies is an interdisciplinary major designed to further understanding of the cultures, histories, and politics of Latin America as viewed from regional and global perspectives. For more information, see Latin American Studies (p. 446).

**Bachelor's Programs**

- Bachelor of Arts (BA) Degree with a Major in Latin American Studies (p. 447)
- Bachelor of Arts (BA) Degree with a Major in Spanish and Portuguese (p. 706)

Spanish, Portuguese and Latin American Studies does not currently offer an academic program at the graduate level.

**Description and Code Legend**

*Note: Internally, the university uses the following descriptions, codes, and abbreviations for this academic program. The following is a quick reference:*

**Course Catalog/Schedule**

- Course offerings/subject code for Latin American Studies: LASR
- Course offerings/subject code for Portuguese: PORT
- Course offerings/subject code for Spanish: SPAN
- Course offerings/subject code for Spanish and Portuguese: SPPO

**Department Description and Code**

- Spanish, Portuguese and Latin American Studies: SPLA

**Undergraduate Degree Description and Code**

- Bachelor of Arts degree: BA

**Undergraduate Major Descriptions and Codes**

- Major in Latin American Studies: LASR
- Major in Spanish and Portuguese: SPPO

**Program Learning Outcomes for the BA Degree with a Major in Spanish and Portuguese**

Upon completing the BA degree with a major in Spanish and Portuguese, students will be able to:

1. Demonstrate an advanced level of communicative proficiency when writing, speaking, listening to, reading and translating Spanish or Portuguese, including a high degree of ability in interacting with native Spanish or Portuguese speakers and text.
2. Demonstrate analytical competence and independent and critical thinking skills by analyzing and responding to Spanish or Portuguese communications, including: identifying and evaluating arguments, ideas, and evidence, constructing critical responses to Spanish or Portuguese texts, and pursuing independent study or research in some facet of Spanish or Portuguese language or culture.
3. Demonstrate advanced knowledge of the social, historical, political, and cultural aspects of the Spanish-speaking world and Spanish-speaking communities and apply this knowledge to reading and analyzing authentic cultural products, including literature, art and film. They will understand how these cultural products reflect or construct facets of the Spanish-speaking world's history, culture, and identity.

**Requirements for the BA Degree with a Major in Spanish and Portuguese**

For general university requirements, see Graduation Requirements (p. 25). Students pursuing the BA degree with a major in Spanish and Portuguese must complete:

- A minimum of 12 courses (36 credit hours) to satisfy major requirements.
- A minimum of 12 courses (36 credit hours) taken at the 300-level or above.
- A minimum of 120 credit hours to satisfy degree requirements.
- A minimum of 60 credit hours outside the major.

Students who are pursuing two majors (i.e., are double majors) and have declared the major in Spanish and Portuguese must complete:

- A minimum of 10 courses (30 credit hours) to satisfy major requirements.
- A minimum of 10 courses (30 credit hours) taken at the 300-level or above.

Double majors who drop the other major are required to meet the requirements listed for single majors.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major's academic advisor (or official certifier). Students and their academic advisors should identify and clearly document the courses to be taken.

**Footnotes and Additional Information**

1. Includes coursework completed as distribution credit, FWIS, LPAP upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The "hours outside of the major" requirement may include all of the above university requirements.

2. If SPPO 340 or SPPO 341 are selected as the Hispanic Linguistics Core Requirement, it will fulfill 1 of the 2 required Survey courses between course numbers SPPO 340 and SPPO 359.

3. If SPPO 360 is selected as the Hispanic Linguistics Core Requirement, it will fulfill 1 of the 3 required Advanced courses between course numbers SPPO 360 and SPPO 399 (for single majors) or it will fulfill 1 of the 2 required Advanced courses between course numbers SPPO 360 and SPPO 399 (for double majors).

4. Double majors may satisfy this requirement by completing 2 Advanced courses (6 credit hours) between course numbers SPPO 360 and SPPO 399.

5. Double majors may satisfy this requirement by completing 2 Seminar courses (6 credit hours) between course numbers SPPO 401 and SPPO 489.

**Elective Requirements**

Both single and double majors must complete 2 elective courses (6 credit hours). These may be selected as 1 course (3 credit hours) from Spanish (SPAN) course offerings between SPAN 303 and SPAN 324, or 1 course (3 credit hours) from Spanish and Portuguese (SPPO) course offerings at the 330 course number or higher, or 1 course (3 credit hours) from the department approved electives listed below.

Policies for the BA Degree with a Major in Spanish and Portuguese

Transfer Credit
For Rice University's policy regarding transfer credit, see Transfer Credit (p. 32). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of transfer credit advisors on their website: http://oaa.rice.edu. Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines
Students pursuing the major in Spanish and Portuguese should be aware of the following departmental transfer credit guidelines:

• Requests for transfer credit will be considered by the program director (and/or the program's official transfer credit advisor) on an individual case-by-case basis.

For additional information, please see the Spanish, Portuguese, and Latin American Studies website: http://spanishandportuguese.rice.edu/

Opportunities for the BA Degree with a Major in Spanish and Portuguese

Academic Honors
The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 47) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 47). Some departments have department-specific Honors awards or designations.

Departmental Honors
The department offers to outstanding majors the opportunity to do honors work during their final year of study. Honors work consists of an independent research project leading to a thesis and is undertaken under the direction of a departmental faculty member. Every year, the department also presents the Cervantes Award for Outstanding Seniors to its top students. Students wishing to do honors work must submit a thesis proposal to be approved by the department before the end of the semester prior to the semester in which they will register for the honors thesis (SPPO 495).

See https://humanities.rice.edu/student-life for tables of fellowships, prizes, and internships/practica that may be relevant to this major.

Sport Management

Sport Management is an interdisciplinary field of study that draws from a wide range of academic disciplines, including business, management, law, and communication. The thoroughly interdisciplinary emphasis of the sport management major aims to educate students in the skills and theory necessary to assume leadership roles both in and out of the sport industry.

Career preparation for leadership and entrepreneurial positions is the ultimate goal of the sport management major at Rice. Students will acquire a solid academic and practical foundation and thus will be competitive for opportunities that include entering the sport business industry or applying to the country's best law and business schools.

Bachelor's Programs
• Bachelor of Arts (BA) Degree with a Major in Sport Management
  • and a Major Concentration in Sport Analytics (p. 709)
  • and a Major Concentration in Sport Law (p. 710)
  • and a Major Concentration in Sport Leadership (p. 712)

Sport Management does not currently offer an academic program at the graduate level.

Description and Code Legend
Note: Internally, the university uses the following descriptions, codes, and abbreviations for this academic program. The following is a quick reference:

Course Catalog/Schedule
• Course offerings/subject code: SMGT

Program Description and Code
• Sport Management: SMGT

Undergraduate Degree Description and Code
• Bachelor of Arts degree: BA
Undergraduate Major Description and Code
• Major in Sport Management: SMGT

Undergraduate Major Concentration Descriptions and Codes
• Major Concentration in Sport Analytics: SPAS
• Major Concentration in Sport Law: SPLW
• Major Concentration in Sport Leadership: SPLE

Bachelor of Arts (BA) Degree with a Major in Sport Management and a Major Concentration in Sport Analytics

Program Learning Outcomes for the BA Degree with a Major in Sport Management and a Major Concentration in Sport Analytics

Upon completing the BA Degree with a major in Sport Management, students will be able to:

1. Develop and hone professional skills through classroom learning and experiential learning through a steady progression of internships with added responsibilities.
2. Develop a diverse set of fundamental principles and skills, including skills in business, finance, and marketing that would be necessary to produce or evaluate an event from beginning to end (from marketing and media promotion, to budget and sales, to execution and post-event evaluation).
3. Develop an understanding of the sports industry in relationship to the legal sector as well as the broader relationship between the industry and society.
4. Develop a marketing plan specific to a product in the sport industry.

Upon completing the BA Degree with a major in Sport Management and a major concentration in Sport Analytics, students will be able to:

1. Create a research project specific to Sport Analytics.

Requirements for the BA Degree with a Major in Sport Management and a Major Concentration in Sport Analytics

For general university requirements, see Graduation Requirements (p. 25). Students pursuing the BA degree with a major in Sport Management and must complete:

• A minimum of 15 courses (46-47 credit hours depending on major concentration declared) to satisfy major requirements.
• A minimum of 120 hours to satisfy degree requirements.
• A minimum of 60 credit hours outside of major requirements.
• A minimum of 7-8 courses (21-24 credit hours) depending on major concentration declared taken at the 300-level or above.

• The requirements of a major concentration. When students declare the major (p. 12) in Sport Management, students must additionally identify and declare one of the three major concentrations, either in:
  • Sport Analytics (p. 709), or
  • Sport Law (p. 710), or
  • Sport Leadership (p. 712)

The 3 Sport Management major concentrations and descriptions are listed below:

• Sport Analytics: Designed to prepare our graduates as to how to properly use big data to make educated decisions in the sport management industry.
• Sport Law: Designed to prepare our graduates for law school.
• Sport Leadership: Designed to prepare our graduates for management, leadership, and entrepreneurial roles within the sport industry.

Because of the common core requirements, it is possible for students to change their major concentration at any time, even after initially declaring the major. To do so, please contact the Office of the Registrar (registrar@rice.edu).

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor (or official certifier). Students and their academic advisors should identify and clearly document the courses to be taken.

**Footnotes and Additional Information**

1 Students must complete this course after all required courses have been completed.

**Opportunities for the BA Degree with a Major in Sport Management and a Major Concentration in Sport Law**

**Academic Honors**

The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 47). Some departments have department-specific Honors awards or designations.

**Internships**

Students are required to complete at least one internship prior to graduation, often with one of the professional teams in Houston (Rockets, Astros, Texans, Dynamo, etc.). Students also will receive networking and out-of-class developmental training, as these play a significant role in obtaining high-profile positions in collegiate and professional sports.

For additional information, please see the Sport Management website: http://sport.rice.edu/.

**Bachelor of Arts (BA) Degree with a Major in Sport Management and a Major Concentration in Sport Law**

**Program Learning Outcomes for the BA Degree with a Major in Sport Management and a Major Concentration in Sport Law**

**Transfer Credit**

For Rice University's policy regarding transfer credit, see Transfer Credit (p. 32). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of transfer credit advisors on their website: http://oaa.rice.edu. Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

**Departmental Transfer Credit Guidelines**

Students pursuing the major in Sport Management should be aware of the following departmental transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program's official transfer credit advisor) on an individual case-by-case basis.

For additional information, please see the Sport Management website: http://sport.rice.edu/.

**Policies for the BA Degree with a Major in Sport Management and a Major Concentration in Sport Law**

**Bachelor of Arts (BA) Degree with a Major in Sport Management and a Major Concentration in Sport Law**

**Program Learning Outcomes for the BA Degree with a Major in Sport Management and a Major Concentration in Sport Law**

Upon completing the BA Degree with a major in Sport Management, students will be able to:

1. Develop and hone professional skills through classroom learning and experiential learning through a steady progression of internships with added responsibilities.

2. Develop a diverse set of fundamental principles and skills, including skills in business, finance, and marketing that would be necessary to produce or evaluate an event from beginning to end (from marketing and media promotion, to budget and sales, to execution and post-event evaluation).

3. Develop an understanding of the sports industry in relationship to the legal sector as well as the broader relationship between the industry and society.

4. Develop a marketing plan specific to a product in the sport industry.

Upon completing the BA Degree with a major in Sport Management and a major concentration in Sport Law, students will be able to:

1. Develop proficiency in legal analysis by evaluating and communicating the theories and ethical dilemmas impacting the sports industry.
Requirements for the BA Degree with a Major in Sport Management and a Major Concentration in Sport Law

For general university requirements, see Graduation Requirements (p. 25). Students pursuing the BA degree with a major in Sport Management must complete:

- A minimum of 15 courses (46-47 credit hours depending on major concentration declared) to satisfy major requirements.
- A minimum of 120 hours to satisfy degree requirements.
- A minimum of 60 credit hours outside of major requirements.
- A minimum of 7-8 courses (21-24 credit hours) depending on major concentration declared taken at the 300-level or above.
- The requirements of a major concentration. When students declare the major (p. 12) in Sport Management, students must additionally identify and declare one of the three major concentrations, either in:
  - Sport Analytics (p. 709), or
  - Sport Law (p. 710), or
  - Sport Leadership (p. 712)

The 3 Sport Management major concentrations and descriptions are listed below:

- Sport Analytics: Designed to prepare our graduates as to how to properly use big data to make educated decisions in the sport management industry.
- Sport Law: Designed to prepare our graduates for law school.
- Sport Leadership: Designed to prepare our graduates for management, leadership, and entrepreneurial roles within the sport industry.

Because of the common core requirements, it is possible for students to change their major concentration at any time, even after initially declaring the major. To do so, please contact the Office of the Registrar (registrar@rice.edu).

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor (or official certifier). Students and their academic advisors should identify and clearly document the courses to be taken.

Rudy Guerra
Associate Department Chair
rguerra@rice.edu

Statistics course work acquaints students with the role played in the modern world by probabilistic and statistical ideas and methods. Students grow familiar with both the theory and the application of techniques in common use as they are trained in statistical research.

The flexibility of the undergraduate program allows students to concentrate on theoretical or applied training, or they may link their studies in statistics to work in other related departments.

The graduate program has concentrations in applied probability, Bayesian methodology, bioinformatics, biomathematics, biostatistics, computational finance, epidemiology, large and complex data, machine and statistical learning, quality control, statistical computing, spatial and stochastic processes, and time series analysis. Statistics is a cornerstone of the campus wide data science initiative.

A coordinated MBA/professional Master of Statistics degree also is available in conjunction with the Jesse H. Jones Graduate School of Business.

Bachelor's Program
• Bachelor of Arts (BA) Degree with a Major in Statistics (p. 715)

Minor
• Minor in Statistics (p. 719)

Master's Programs
• Master of Arts (MA) Degree in the field of Statistics*
• Master of Statistics (MStat) Degree (p. 718)

Doctoral Program
• Doctor of Philosophy (PhD) Degree in the field of Statistics (p. 716)

Coordinated Program
• Master of Business Administration (MBA) Degree / Master of Statistics (MStat) Degree (p. 717)

* Although students are not normally admitted to a Master of Arts (MA) degree program, graduate students may earn the MA as they work towards the PhD.

Bachelor of Arts (BA) Degree with a Major in Statistics

Program Learning Outcomes for the BA Degree with a Major in Statistics
Upon completing the BA degree with a major in Statistics, students will be able to:
1. Apply fundamental theory in probability and statistical inference.
2. Apply and evaluate statistical models.
3. Apply statistical computing for data analysis and data science.
4. Demonstrate competency as a professional statistician.
5. Effectively communicate as a professional statistician.

Requirements for the BA Degree with a Major in Statistics
For general university requirements, see Graduation Requirements (p. 25). Students pursuing the BA degree with a major in Statistics must complete:

• A minimum of 16 courses (49-51 credit hours) to satisfy major requirements.
• A minimum of 120 credit hours to satisfy degree requirements.
• A minimum of 60 credit hours outside of major requirements.
• A minimum of 12 courses (35 credit hours) at the 300-level or above.
• A maximum of 3 courses (9 credit hours) from study abroad or transfer credit. For additional departmental guidelines regarding transfer credit, see the Policies tab.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor (or official certifier). Students and their academic advisors should identify and clearly document the courses to be taken.

Senior Capstone
STAT 450  SENIOR CAPSTONE PROJECT 3

Total Credit Hours Required for the Major in Statistics 49-51
University Graduation Requirements (p. 25) 1

Total Credit Hours 120

Footnotes and Additional Information
* Includes coursework completed as distribution credit, FWIS, LPAR, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The "hours outside of the major" requirement may include all of the above university requirements.
1 With advisor approval, 1 course (3 credit hours) from departments other than Statistics may be used as an elective. The substitution course may not be used as a replacement for 1 of the 3 required methodology/theory courses listed above. STAT 305 and STAT 385 will not count as electives.

Policies for the BA Degree with a Major in Statistics
Transfer Credit
For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 32). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: http://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines
Students pursuing the major in Statistics should be aware of the following departmental transfer credit guidelines:

- No more than 3 courses (9 credit hours) of transfer credit from U.S. or international universities of similar standing as Rice may apply towards the major.
- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

For additional information, please see the Statistics website: https://statistics.rice.edu/.

Opportunities for the BA Degree with a Major in Statistics
Academic Honors
The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (p. 47) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 47). Some departments have department-specific Honors awards or designations.

Internship and Research Opportunities
The Department of Statistics encourages its major and minors to participate the practice of statistics through summer internships, employment and research. Information on current opportunities are posted here: https://statistics.rice.edu/undergraduate-program/opportunities. Students can also approach individual faculty about research opportunities in their group. An undergraduate advisor can talk with you about these and other possibilities.

For additional information, please see the Statistics website: https://statistics.rice.edu/.

Doctor of Philosophy (PhD) Degree in the field of Statistics
Program Learning Outcomes for the MA and PhD Degrees in the field of Statistics
Upon completing the MA and PhD degree in the field of Statistics, students will be able to:

1. Master fundamental theory in probability and statistics.
2. Become familiar with a broad range of statistical methods for applications.
4. Develop effective communication skills as a professional statistician.
5. Develop the skills to do independent research.
Requirements for the MA and PhD Degrees in the field of Statistics

For general university requirements, please see Doctoral Degrees (p. 64). Students pursuing the PhD degree in the field of Statistics must complete:

- A minimum of 90 credit hours of approved course work beyond the bachelor’s degree and a minimum of 60 hours beyond a master’s degree.
- A satisfactory performance on preliminary and qualifying examinations, and an original thesis with a public oral defense.

All Statistics graduate students are assigned a limited amount of teaching and other departmental service as part of their graduate education. The assignment usually entails less than 10 hours per week, averaged over the semester. Students completing the PhD degree in 4 years will be assigned no more than 6 semesters of service.

MA Degree Program

The MA degree is a non-thesis master’s degree. For general university requirements, please see Non-Thesis Master’s Degrees (p. 66). Students awarded the MA degree in the field of Statistics should be aware that:

- The MA degree in the field of Statistics requires 30 credit hours of approved course work as well as one of the following:
  a. the completion of an original thesis and defense in a public oral examination; or
  b. satisfactory performance on the PhD comprehensive examinations, and the completion of a major project.
- A candidacy MA degree is awarded to statistics PhD students through option (2) where the major project corresponds to the doctoral thesis proposal.
- An MA degree is available to PhD students in the Departments of Economics or Political Science through option (1) where the original doctoral thesis and defense is related to the MA in the field of statistics.
- The MA degree awarded in the field of statistics is a non-thesis master’s degree.

Policies for the PhD Degree in the field of Statistics

Department of Statistics Graduate Program Handbook

The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, the department of Statistics publishes a graduate program handbook, which can be found here:

Admission

Preparation for PhD Program. All applicants are required to take the Graduate Record Exam (GRE), and admission applications should include GRE scores on the quantitative, verbal, and analytical tests. Financial support is available for well-qualified doctoral students.

For additional information, please see the Statistics website: https://statistics.rice.edu/

Opportunities for the PhD Degree in the field of Statistics

For additional information, please see the Statistics website: https://statistics.rice.edu/

Master of Business Administration (MBA) Degree / Master of Statistics (MStat) Degree

Program Learning Outcomes for the MStat Degree

Upon completing the MStat degree, students will be able to:

1. Master fundamental theory in probability and statistics.
2. Become familiar with a broad range of statistical methods for applications.
4. Develop effective communication skills as a professional statistician.

Program Learning Outcomes for the MBA Degree Programs

Upon completing the MBA degree programs, students will be able to:

1. Demonstrate an understanding and application of the foundational frameworks and tools of all business disciplines, including accounting, finance, marketing, organizational behavior, and strategic management.
2. Develop, evaluate, and implement complex business strategies and operational solutions holistically, integrating management principles across the functional areas.
3. Function effectively in a team setting both as a leader and a contributor.

Requirements for the MBA/MStat Coordinated Degree Program

Students may earn this non-thesis Master of Engineering degree in the following fields:

- Bioengineering
- Chemical Engineering
- Civil and Environmental Engineering
- Computational and Applied Mathematics
- Computational Science and Engineering
Coordinated degree candidates can fulfill requirements for both degrees in 2 academic years.

For the coordinated MBA/Master of Engineering degree, students must complete:

- A minimum of 2 academic years in residence at Rice
- A minimum of 69 semester hours in approved coursework, including:
  - A minimum of 24 credit hours in an engineering discipline
  - A minimum of 45 credit hours in business
- At least 6 credit hours of the 45 credit hours in business must also meet the requirements towards the Master of Engineering degree and will be counted towards both degrees.

Students plan their course schedules in consultation with the engineering department in which they are enrolled and with the Jones Graduate School of Business Registrar Department.

**Policies for the MBA/MStat Coordinated Degree Program**

For additional information on these two degrees:

1. Please see the Business website: [https://business.rice.edu/](https://business.rice.edu/)
2. Please see the Statistics website: [https://statistics.rice.edu/](https://statistics.rice.edu/)

**Opportunities for the MBA/MStat Coordinated Degree Program**

For additional information on these two degrees:

1. Please see the Business website: [https://business.rice.edu/](https://business.rice.edu/)
2. Please see the Statistics website: [https://statistics.rice.edu/](https://statistics.rice.edu/)

**Master of Statistics (MStat) Degree**

**Program Learning Outcomes for the MStat Degree**

Upon completing the MStat degree, students will be able to:

1. Master fundamental theory in probability and statistics.
2. Become familiar with a broad range of statistical methods for applications.
4. Develop effective communication skills as a professional statistician.

**Requirements for the MStat Degree**

The MStat degree is a non-thesis master’s degree. For general university requirements, please see Non-Thesis Master’s Degrees (p. 66). Students pursuing the MStat degree must complete:

- A minimum of 30 credit hours of approved coursework at the 500-level or above.

**Areas of Specialization:**

- Bioinformatics, Statistical Genetics, and Biostatistics
- Environmental Statistics
- Financial Statistics and the Statistics of Risk
- Statistical Computing and Data Mining

**Total Credit Hours**

**Footnotes and Additional Information**

1 These courses are normally completed by the end of the first 2 semesters.
Students are allowed to choose either a broad-based or specialized program of study. Depending on the student's selected specialization, the mix of required, specialization-specific and elective courses will be jointly determined by the student and the graduate advisor. Students will meet with their advisor during the first year of the program to select an individualized plan of study, with periodic tune-ups as the program progresses.

Students may be asked to take specific courses outside the department, depending on the incoming background of the student, career objectives, and funding sources.

Policies for the MStat Degree

Department of Statistics Graduate Program Handbook
For more detailed information regarding the MStat degree program policies, please see Statistics department's Graduate Handbook, which can be found here: http://gradhandbooks.rice.edu/2017_18/Statistics_Graduate_Handbook.pdf

Program Restrictions and Exclusions
Students pursuing this degree should be aware of the following program restriction:

- Courses comprising the 30-credit hour requirement shall not be taken or completed on a pass/fail grading basis.

Transfer Credit
For Rice University's policy regarding transfer credit, see Transfer Credit (p. 66). Some departments and programs have additional restrictions on transfer credit. Students are encouraged to meet with their academic program's advisor when considering transfer credit possibilities.

For additional information, please see the Statistics website: https://statistics.rice.edu/

Opportunities for the MStat Degree
For additional information, please see the Statistics website: https://statistics.rice.edu/

Minor in Statistics
Program Learning Outcomes for the Minor in Statistics
Upon completing the minor in Statistics, students will be able to:

Requirements for the Minor in Statistics
Students pursuing the minor in Statistics must complete:

- A minimum of 6 courses (19-20 credit hours depending on area of specialization/track selected) to satisfy minor requirements.
- A minimum of 5 courses (15 credit hours) at the 300-level or above.
- A maximum of 2 courses (6 credit hours) from study abroad or transfer credit. For additional departmental guidelines regarding transfer credit, see the Policies tab.
- The requirements of 1 area of specialization. There are 2 areas of specialization offered to students pursuing the Statistics minor.
  - Track A is designed for mathematically sophisticated students who wish to understand not only how statistical methods are used, but also how they are developed.
  - Track B is designed to help students develop a working knowledge of statistics and the wide range of possibilities for the use and misuse of statistical methods.

The courses listed below satisfy the requirements for this minor. In certain instances, courses not on this official list may be substituted upon approval of the minor's academic advisor (or official certifier). Students and their academic advisors should identify and clearly document the courses to be taken.

</tr>
</tbody>
</table>
**Elective Requirements**

Select 4 electives from departmental (STAT) course offerings at the 300-level or above.  

| Total Credit Hours | 20 |

**Footnotes and Additional Information**

1 STAT 305 and STAT 385 do not count as electives for Track B. The following are recommended electives for Track B: STAT 313, STAT 405, STAT 482, STAT 484 / CEVE 484, STAT 485, and STAT 486. Other electives may be chosen as well. With advisor approval, 1 elective may be from departments other than Statistics.

**Policies for the Minor in Statistics**

**Program Restrictions and Exclusions**

Students pursuing the minor in Statistics should be aware of the following program restriction:

- As noted in Majors, Minors, and Certificates (p. 12), i.) students may declare their intent to pursue a minor only after they have first declared a major, and ii.) students may not major and minor in the same subject.

**Transfer Credit**

For Rice University's policy regarding transfer credit, see Transfer Credit (p. 32). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of transfer credit advisors on their website: [http://oaa.rice.edu](http://oaa.rice.edu). Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

**Departmental Transfer Credit Guidelines**

Students pursuing the minor in Statistics should be aware of the following departmental transfer credit guidelines:

- No more than 2 courses (6 credit hours) of transfer credit from U.S. or international universities of similar standing as Rice may apply towards the minor.
- Requests for transfer credit will be considered by the program director (and/or the program's official transfer credit advisor) on an individual case-by-case basis.

For additional information, please see the Statistics website: [https://statistics.rice.edu/](https://statistics.rice.edu/).

**Opportunities for the Minor in Statistics**

**Academic Honors**

The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 47) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 47). Some departments have department-specific Honors awards or designations.

For additional information, please see the Statistics website: [https://statistics.rice.edu/](https://statistics.rice.edu/).

**Description and Code Legend**

*Note: Internally, the university uses the following descriptions, codes, and abbreviations for this academic program. The following is a quick reference:*

---

**Course Catalog/Schedule**

Course offerings/subject code: SWGS

**Program Description and Code**

Center for the Study of Women, Gender, and Sexuality: SWGS

**Undergraduate Degree Code and Description**

Bachelor of Arts Degree: BA

**Undergraduate Major Code and Description**

Major in the Study of Women, Gender, and Sexuality: SWGS

**Graduate Certificate Description and Code**

• Certificate in Study of Women, Gender and Sexuality: WGS

**Bachelor of Arts (BA) Degree with a Major in Study Of Women, Gender and Sexuality**

**Program Learning Outcomes for the BA Degree with a Major in the Study of Women, Gender and Sexuality**

Upon completing the BA degree with a major in the Study of Women, Gender and Sexuality, students will be able to:

1. Demonstrate an awareness of the diversity of feminist thought in the past and present.
2. Demonstrate familiarity with key issues in the study of women's lives and histories.
3. Demonstrate knowledge of social, political, and cultural features of gender and sexuality in the US and globally.
4. Understand diverse global feminist perspectives, including critical race studies and feminist contributions to social and critical theory.
5. Demonstrate knowledge of the feminist concept of engaged research based upon cumulative practice as engaged researchers in extra-classroom activities.
6. Develop skill in analytical writing as well as oral and visual presentation.

**Requirements for the BA Degree with a Major in the Study of Women, Gender and Sexuality**

For general university requirements, see Graduation Requirements (p. 25).

Students pursuing the BA degree with a major in the Study of Women, Gender and Sexuality must complete:

• A minimum of 12-13 courses (36-37 credit hours) to satisfy major requirements.
• A minimum of 120 credit hours to satisfy degree requirements.
• A minimum of 60 credit hours outside of major requirements.
• A maximum of 4 courses (12 credit hours) from a single department course offering/subject code outside of the SWGS course offerings/subject code (or not cross-listed with the SWGS course offerings/subject code).
• A minimum of 5 courses (15 credit hours) taken at the 300-level or above.

Students who are pursuing two majors (i.e., are double majors) and have declared the major in the Study of Women, Gender and Sexuality must complete:

• A minimum of 10-11 courses (30-31 credit hours) to satisfy major requirements.
• A maximum of 4 courses (12 credit hours) from a single department course offering/subject code outside of the SWGS course offerings/subject code (or not cross-listed with the SWGS course offerings/subject code).
• A minimum of 5 courses (15 credit hours) taken at the 300-level or above.

Double majors who drop the other major are required to meet the requirements listed for single majors.

All students must work out their individual courses of study with their faculty advisors. Each student’s course of study must be approved by the Study of Women, Gender and Sexuality advisor. Course requirement tracking forms are available in the Study of Women, Gender and Sexuality office.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor (or official certifier). Students and their academic advisors should identify and clearly document the courses to be taken.

Policies for the BA Degree with a Major in the Study of Women, Gender and Sexuality

Transfer Credit

For Rice University's policy regarding transfer credit, see Transfer Credit (p. 32). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of transfer credit advisors on their website: http://oaa.rice.edu. Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines

Students pursuing the major in Study of Women, Gender and Sexuality should be aware of the following departmental transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program's official transfer credit advisor) on an individual case-by-case basis.

For additional information, please see the Center for the Study of Women, Gender and Sexuality website: https://cswgs.rice.edu/

Opportunities for the BA Degree with a Major in the Study of Women, Gender and Sexuality

Academic Honors

The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 47). Some departments have department-specific Honors awards or designations.

Honors Program

Students wishing to pursue the Study of Women, Gender and Sexuality Honors Program will complete a thesis. The process of preparing the thesis begins in the late spring of the junior year.

In that spring semester, the student chooses an advisor from the SWGS faculty and with that advisor produces a proposal for a research project. The proposal must be approved by the Study of Women, Gender, and Sexuality major advisor by the last day of the exam period in the spring of the junior year.

In the fall of the senior year, students enroll in SWGS 498 for directed research supervised by a CSWGS faculty affiliate and are in regular consultation with their advisors.

In the spring of the senior year, students enroll in SWGS 499 and work closely with their advisors as they complete the thesis. Honors students present their projects in a public event at the end of the semester.
Research, Practicum, and Seminar
The Engaged Research Practicum and Seminar courses (SWGS 494, SWGS 496, and SWGS 497) are open to non-majors. Permission of the instructor is required as well as some background in the study of women, gender or sexuality.

See https://humanities.rice.edu/student-life for tables of fellowships, prizes, and internships/practica that may be relevant to this major.

Certificate in Women, Gender and Sexuality
Program Learning Outcomes for the Certificate in the Study of Women, Gender and Sexuality
Upon completing the Certificate in the Study of Women, Gender and Sexuality, students will be able to:

1. Demonstrate knowledge of historical and contemporary approaches to the study of women, gender and sexuality across diverse disciplines.
2. Engage through their intellectual production feminist concepts and methodologies, and features of women's studies, gender studies, and/or sexuality studies as academic fields.
3. Incorporate critical debates in the study of women, gender and sexuality in their oral presentations and written analyses, including work for publication and/or use in a dissertation.

Requirements for the Certificate in the Study of Women, Gender and Sexuality
The Certificate in Women, Gender and Sexuality is a graduate certificate. For general university requirements, please see Graduate Certificates (p. 53).

Students pursuing the Certificate in the Study of Women, Gender and Sexuality must complete:

- A minimum of 3 courses (9 credit hours) to satisfy certificate requirements
- A minimum of 4 semesters of participation in the SWGS Department Annual Colloquium
- A dissertation (for the PhD program in which they have been admitted) that in some way features the study of women, gender and/or sexuality
- All required coursework associated with the student's corresponding degree program.

This certificate is not a freestanding degree program; in addition to fulfilling the certificate requirements outlined below, candidates will be required to complete successfully the degree program to which they have been admitted in order to receive this certificate. Upon completion, the certificate is awarded at the same time as the conferment of the student’s Rice degree, along with a formal notation on their academic transcript.

The courses listed below satisfy the requirements for this certificate. In certain instances, courses not on this official list may be substituted upon approval of the certificate's academic advisor (or official certifier).

Students and their academic advisors should identify and clearly document the courses to be taken.

Annual Colloquium (minimum of 4 semesters)

| Total Credit Hours | 9 |

[1]
Footnotes and Additional Information

1 The Annual Colloquium requirement is met by attending a series of colloquium seminars and associated public lectures offered by the Center for the Study of Women, Gender and Sexuality (CSWGS) over the course of a year, for a total of four (4) semesters. Generally students complete this requirement within two (2) years of study. It is recommended, though not required, that students attend the Annual Colloquium beyond the minimum requirements. For more information about the Annual Colloquium, see the Opportunities tab.

2 CSWGS must verify that a student’s dissertation (for the PhD program in which they have been admitted) in some way features the study of women, gender and/or sexuality. Students are strongly encouraged to include a member of the SWGS faculty on their dissertation committee and to consult regularly with the faculty member as they pursue their dissertation work.

3 The participation in the SWGS Department Annual Colloquium and the dissertation that in some way features the study of women, gender, and/or sexuality together comprise the experiential learning opportunity requirement for the WGS certificate.

Policies for the Certificate in the Study of Women, Gender and Sexuality

Program Restrictions and Exclusions

Students pursuing this certificate should be aware of the following program restriction:

- Graduate students may declare their intent to pursue a university certificate only after they have first been admitted into a graduate-level Rice degree-granting program.

Advising

In most cases, students will be able to complete the certificate requirements within the normal time limits for coursework in their PhD program. All students must work out their individual courses of study with the CSWGS director and the graduate advisor in their home departments. Each student’s course of study must be pre-approved by the CSWGS director. Please note that not all courses listed as certificate requirements will be offered every academic year.

Dissertation Work

Students pursuing the Certificate in the Study of Women, Gender and Sexuality are strongly encouraged to include a member of the SWGS faculty on their dissertation committee and to consult regularly with the faculty member as they pursue their dissertation work.

Transfer Credit

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 32). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: http://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

For additional information, please see the Center for the Study of Women, Gender and Sexuality website: https://cswgs.rice.edu/

Opportunities for the Certificate in the Study of Women, Gender and Sexuality

Colloquium

Students in the Certificate in the Study of Women, Gender and Sexuality program participate in a colloquium consisting of a series of seminars and public lectures over the course of a year, offered annually at Rice and organized by the Center for the Study of Women, Gender and Sexuality (CSWGS). Colloquium topics are determined by the CSWGS steering committee with a view to highlighting emerging knowledge in gender, sexuality, and women’s studies. The colloquium provides graduate students with the opportunity to engage in sustained intellectual exchange with leading scholars and to participate in producing cutting-edge work in the field.

Colloquium attendance constitutes an official requirement for the certificate (for more information, see the Requirements tab). Attendance beyond the required minimum is highly encouraged.

Graduate Fellowship Stipend

The Center for the Study of Women, Gender and Sexuality awards graduate fellowship stipends, within the limits of available funds, to enrolled certificate students during the prospectus-writing semester. Although timelines vary depending on the student’s home department, this normally occurs during the semester following the completion of all required coursework (within the student’s home department as well as in the Certificate in the Study of Women, Gender and Sexuality), and after achieving candidacy in the PhD program.

To receive the fellowship stipend, graduate students will be asked to submit a dissertation proposal (or a 500-word statement with a proposal to follow later) that includes some indication of the ways women, gender, and/or sexuality feature in their project in order for a stipend to be disbursed during the “prospectus semester.” The Center for the Study of Women, Gender and Sexuality will ask for this proposal or statement after the student completes qualifying exams.

Teaching Assistants

Certificate students are eligible to work as teaching assistants for an undergraduate SWGS core course or for a course cross-listed with SWGS. In some cases, certificate students may be eligible to teach a course of their own upon approval of the steering committee.

See https://humanities.rice.edu/student-life for tables of fellowships, prizes, and internships/practica that may be relevant to this program.

Dagmar Beck
Program Director
dkbeck@rice.edu

André W. Droxler
Faculty Director
andre@rice.edu
The professional master’s degree in Subsurface Geoscience is designed for students who wish to become proficient in applying geological knowledge and geophysical methods to finding and developing reserves of oil and natural gas.

Students can specialize in 2 focus areas: 1) geology or 2) geophysics.

• The geology focus area prepares students to be explorationists, with strong skills in using seismic and other geophysical methods along with geological principles to find oil and natural gas.
• The geophysics focus area prepares students to become technical experts in aspects of exploration seismology.

This degree is 1 of 5 degrees in the professional science master’s (PSM) program at Rice housed in the Wiess School of Natural Sciences. These master’s degrees are designed for students seeking to gain further scientific core expertise coupled with enhanced management and communication skills. These degrees instill a level of scholastic proficiency that exceeds that of the bachelor’s level, and they create the cross-functional aptitudes needed in modern industry. This program will allow students to move more easily into management careers in consulting or research and development, design, and/or marketing within oil-and gas-related industries.

A coordinated MBA/MSSG degree is offered in conjunction with the Jesse H. Jones Graduate School of Business.

Subsurface Geoscience does not currently offer an academic program at the undergraduate level.

Master’s Program

• Master of Science in Subsurface Geoscience (MSSG) Degree (p. 728)

Coordinated Program

• Master of Business Administration (MBA) Degree / Master of Science in Subsurface Geoscience (MSSG) Degree (p. 727)

Gary Gray

Description and Code Legend

Note: Internally the university uses the following descriptions, codes, and abbreviations for this academic program. The following is a quick reference:

Course Catalog/Schedule

• Course offerings/subject codes: Courses from various subjects may apply toward the graduate degree.

Program Description and Code

• Earth Science: EEPS

Undergraduate Degree Description and Code

• Master of Science in Subsurface Geoscience degree: MSSG

Undergraduate Degree Program Description and Code

• Degree Program in Bioscience and Health Policy: SGEO

Master of Business Administration (MBA) Degree / Master of Science in Subsurface Geoscience (MSSG) Degree

Program Learning Outcomes for the MBA/MSSG Coordinated Degree Program

Upon completing the MBA/MSSG Coordinated Degree Program, students will:

1. Become proficient in applying geological and geophysical knowledge and methods.
2. Demonstrate an understanding and application of the foundational frameworks and tools of all business disciplines, including accounting, finance, marketing, organizational behavior, and strategic management.
3. Develop, evaluate, and implement business strategies and operational solutions holistically, effectively integrating management principles across the functional areas both as a leader and a contributor.

Requirements for the MBA/MSSG Coordinated Degree Program

Students may earn a Master of Science degree from the Weiss School of Natural Sciences Professional Science Master’s (PSM) program in the following fields:

• Bioscience and Health Policy
• Environmental Analysis and Decision Making
• Nanoscale Science
• Space Studies
• Subsurface Geoscience

For the coordinated MBA/Master of Science degree from the professional master’s program, students must complete:
Master of Science in Subsurface Geoscientific (MSSG) Degree

Program Learning Outcomes for the MSSG Degree

Upon completing the MSSG degree, students will be able to:

1. Become proficient in applying geological and geophysical knowledge and methods.
2. Develop business and management skills, and obtain practical skills valuable to the energy industry.
3. Develop written, oral, and visual communication skills to bridge the gap between science and business.

Requirements for the MSSG Degree

The MSSG degree is a non-thesis master's degree. For general university requirements for non-thesis masters degrees, please see Non-Thesis Master's Degrees (p. 66). Students pursuing the MSSG degree must complete:

- A minimum of 14 courses (39-41 credit hours) to satisfy degree requirements.
- A 3-6 month internship. Instead of a thesis, students must present their internship project in both oral and written form in the Professional Master's Seminar. Part-time students who already work in their area of study may fulfill the internship requirement by working on an approved project with their current employer.
- The requirements for one area of specialization (see below for areas of specializations). The MSSG degree offers two areas of specialization:
  - Geology (p. 728), or
  - Geophysics (p. 729)
- A minimum of 30 credit hours at the 500-level or above.

The courses listed below satisfy the requirements for this degree program. In certain instances, courses not on this official list may be substituted upon approval of the PSM (Professional Science Masters) program director and the MSSG advisor (or official certifier). Students and their academic advisors should identify and clearly document the courses to be taken.

### Footnotes and Additional Information

1. Please contact the department for additional courses that can satisfy the requirements listed above. Substitutions for required or elective courses may be approved by the Track Advisor.

2. Taught at the University of Houston campus.

### Policies for the MSSG Degree

**Subsurface Geoscience Graduate Program Handbook**

The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, Subsurface Geoscience publishes a graduate program handbook, which can be found here: [http://gradhandbooks.rice.edu/2017_18/Professional_Science_Masters_Handbook.pdf](http://gradhandbooks.rice.edu/2017_18/Professional_Science_Masters_Handbook.pdf).

**Admission**

Admission to graduate study in subsurface geoscience is open to qualified students holding a bachelor's degree in a related science that includes coursework in geoscience, general chemistry, physics, calculus,
and differential equations. Department faculty evaluate the previous academic record and credentials of each applicant individually.

Transfer Credit
For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 66). Some departments and programs have additional restrictions on transfer credit. Students are encouraged to meet with their academic program’s advisor when considering transfer credit possibilities.

For additional information, please see the Subsurface Geoscience website: https://profms.rice.edu/

Opportunities for the MSSG Degree
Fifth-Year MSSG Degree Option for Rice Undergraduate Students
Rice undergraduate students have an option to pursue the MSSG degree by adding an additional fifth year to their four undergraduate years of science studies. Advanced Rice undergraduate students in good academic standing may apply to the graduate program during their junior year. Upon acceptance, depending on course load, financial aid status, and other variables, they may then start taking required core courses of the Subsurface Geoscience program during their senior year. A plan of study based on their particular focus area will need to be approved by the PSM (Professional Science Masters) program director and the MSSG advisor.

As part of this option and opportunity, Rice undergraduate students:

• must complete the requirements for their bachelor’s degree and the MSSG degree independently of each other (i.e. no course may be counted toward the fulfillment of both degrees).
• should be aware that there could be financial aid implications, if the conversion of undergraduate coursework to that of graduate-level reduces their earned undergraduate credit for any semester below that of full-time status (12 credit hours).

For additional information, please see the Subsurface Geoscience website: https://profms.rice.edu/

Systems, Synthetic and Physical Biology

Contact Information
Systems, Synthetic and Physical Biology
http://sspb.rice.edu/
170 BioScience Research Collaborative
713-348-5961
Jonathan (Joff) Silberg
Program Director
joff@rice.edu

Systems, Synthetic and Physical Biology (SSPB) is a new discipline that draws upon principles from physics, chemistry, engineering, and mathematics and integrates experimental biochemical, cell biological, and molecular genetics approaches with computational design, simulation, and modeling to anticipate the properties of complex and multiscale biological systems. The Graduate Program in SSPB represents a cooperative effort by faculty in the schools of Natural Sciences and the Engineering to provide training in this highly interdisciplinary field. This program is overseen by the Institute of Biosciences and Bioengineering (IBB) and overseen by an executive committee composed of members from any of the participating departments.

The interdisciplinary nature of the SSPB program allows students to achieve their graduate degree requirements by taking select classes from any of the participating departments and performing their dissertation research under supervision of any faculty associated with the program.

Systems, Synthetic, and Physical Biology does not currently offer an academic program at the undergraduate level.

Master's Program
• Master of Science (MS) Degree in the field of Systems, Synthetic, and Physical Biology*

Doctoral Program
• Doctor of Philosophy (PhD) Degree in the field of Systems, Synthetic, and Physical Biology (p. 731)
  * Although students are not normally admitted to a Master of Science (MS) degree program, graduate students may earn the MS as they work towards the PhD.

Director

Description and Code Legend
Note: Internally, the university uses the following descriptions, codes, and abbreviations for this academic program. The following is a quick reference:

Course Catalog/Schedule
• Course offerings/subject codes: Courses from various subjects may apply toward this program

Program Description and Code
• Systems, Synthetic, and Physical Biology: SSPB

Graduate Degree Descriptions and Codes
• Master of Science degree: MS
• Doctor of Philosophy degree: PhD

Graduate Degree Program Description and Code
• Degree Program in Systems, Synthetic and Physical Biology: SSPB

Doctor of Philosophy (PhD) Degree in the field of Systems, Synthetic and Physical Biology

Program Learning Outcomes for MS and PhD Degrees in the field of Systems, Synthetic and Physical Biology
Upon completing the MS and PhD degrees in the field of Systems, Synthetic and Physical Biology, students graduating will:

1. Develop knowledge of the breadth of topics within Science, Technology, Engineering and Mathematics (STEM) disciplines that underlie the foundations of Systems, Synthetic and Physical Biology.
2. Demonstrate the critical thinking skills and ability to integrate knowledge from diverse STEM fields to solve biological problems.
3. Demonstrate the written communication skills required for a thesis describing independent research, published research, and external research proposals.

4. Demonstrate the effective oral and visual communication skills necessary for articulating scientific findings and significance to diverse audiences.

Requirements for the MS and PhD Degrees in the field of Systems, Synthetic and Physical Biology
For general university requirements, please see Doctoral Degrees (p. 64). The Graduate Program in SSPB offers Master’s and Doctoral degrees. Students will be directly admitted only to the Doctoral program. For each degree, the student must fulfill the university requirements set forth in the General Announcements under which he or she entered. The semester credit hour requirements may be fulfilled both by classroom hours and research hours. Students are required to accumulate at least 25 semester hours of graduate approved courses while maintaining a GPA of 3.0 or higher. Students must be enrolled for at least 12 credits each semester.

Elective Requirements
Select 2 open elective courses

Additional Credit Hours as Defined by Department
64

Total Credit Hours
90

Footnotes and Additional Information

1 All students are required to complete UNIV 594 during their first semester, and credit earned for UNIV 594 does not apply toward the minimum of 24 credit hours in coursework requirement for the degree.
2 Courses are subject to approval by the Graduate Advising Committee (GAC). It is recommended that at least one of the courses in advanced topics apply quantitative concepts from computer science, physics, and mathematics or statistics to biological problems, and at least one of the courses focus on biology within the sub-area where students pursue their dissertation research.

Other Program Requirements (MS students)
The MS degree is a thesis master's degree. For general university requirements, please see Thesis Master's Degrees (p. 67). All students involved in research must complete the Collaborative Institutional Training Initiative (CITI) Responsible Conduct of Research online course. Candidates for the MS degree also must:

- Choose an advisor (PI) by the end of the first semester
- Fulfill a teaching requirement
- Submit an original research thesis
- Complete 30 semester hours of study (including thesis research hours)
- Defend the thesis in a public oral examination.

Other Program Requirements (PhD students)
All students involved in research must complete the Collaborative Institutional Training Initiative (CITI) Responsible Conduct of Research online course. Candidates for the PhD degree also must:

- Choose an advisor (PI) by the end of the first semester or equivalent
- Fulfill a teaching requirement
- Submit a thesis proposal that provides evidence of their ability to carry out original research in a specialized area of Systems, Synthetic and Physical Biology before the beginning of their fifth semester in residence
- Complete 90 semester hours of advanced study (including thesis research hours)
- Pass their qualifying exam which includes thesis proposal defense
- Defend the PhD thesis in a public oral examination.

Qualifying Exam (PhD students)
Students are expected to pass their qualifying exam before the beginning of their fifth semester in residence unless an extension has been granted by the Program Director. Students may retake the exam up to two times if granted permission to do so by the Program Director. Students who do not pass the Qualifying Exam may exit the program with a MS degree if the appropriate requirements have been met.

Thesis Proposal Defense
Students are required to submit their written proposal to their Research Progress Committee no later than two weeks before the scheduled exam. The proposal is expected to be in NIH NRSA-like format - limited to 10 pages (not including References) and include the following sections: Abstract, Background, Problem Statement, Research Plan, Preliminary Results, References, and Proposed Timeline. Students whose research area may not be suitable for this format may seek approval of an alternative format by their Research Progress Committee. On the day of the defense, students are expected to give an oral presentation of their proposal and answer technical questions. The student should expect to give a presentation, which if uninterrupted would last about 45 minutes, and be prepared for substantial questioning by the Research Progress Committee.

Policies for the MS and PhD Degrees in the field of Systems, Synthetic and Physical Biology

Systems, Synthetic and Physical Biology Graduate Program Handbook
The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, Systems, Synthetic and Physical Biology publishes a graduate program handbook, which can be found here: [http://gradhandbooks.rice.edu/2017_18/Systems_Synthetic_Physical_Biology_Graduate_Handbook.pdf](http://gradhandbooks.rice.edu/2017_18/Systems_Synthetic_Physical_Biology_Graduate_Handbook.pdf)

Admission
Applicants for graduate study in Systems, Synthetic and Physical Biology must have:

- BA or BS degree in natural sciences, engineering, or related field (or some equivalent)
- Strong ability and motivation for research as indicated by academic record, Graduate Record Examination (GRE) scores, and recommendations

Although the program offers an MS degree, only students who intend to pursue the PhD degree are admitted into the program. In rare instances, students who fulfilled the MS degree requirements and who do not wish to continue their studies toward their PhD degree may choose to graduate with MS degree. Information on admission to the program is available on the SSPB website ([http://sspb.rice.edu/admissions](http://sspb.rice.edu/admissions)).

Prerequisite Requirements
Students are required to have training in the following 5 foundation areas:

1. Molecular Biology (Introductory Biology class, and at least 1 upper-level biology class such as Cell Biology, Genetics, or Biophysics)
2. Biochemical Reaction Kinetics (Biochemistry, Bioreaction Engineering, or equivalent)
3. Physical Chemistry or Thermodynamics or Statistical Mechanics
4. Ordinary Differential Equations
5. Statistics

If students are missing formal training in these subjects, they are required to take the equivalent background courses during their first year at Rice (no more than 1 of these classes can be taken as Pass/Fail). The corresponding courses at Rice include the following:

<table>

Required Prerequisites
Rice offers four teacher education plans: changing the face of Houston and the nation. This program acknowledges culturally relevant content and pedagogy in working with English language and diverse learners. All students will implement classroom culture, instructional strategies, literacy across the curriculum, and educational policies that should undergird equity. The program emphasizes the value of equity in education and political leaders for student-centered classrooms in a diverse society. The teacher education program prepares, and supports teacher leaders for student-centered classrooms to work with diverse students and be responsive to the paradigm shift in education.

For additional information, please see the Systems, Synthetic and Physical Biology website: http://sspb.rice.edu/

Opportunities for the MS and PhD Degrees in the field of Systems, Synthetic and Physical Biology

For additional information, please see the Systems, Synthetic and Physical Biology website: http://sspb.rice.edu/

Teacher Education

Contact Information

Teacher Education

713-348-4826

Judy Radigan
Program Director
jradigan@rice.edu

Teacher Education courses are open to Rice students studying for careers in teaching and to Rice students interested in studying the complexities of the educational system and its role in society. The program provides fieldwork grounded in education research and theory. All of the courses include field-based experiences that encourage students to compare and apply their theoretical work to what is actually happening in schools. Our 21st century mission is to prepare and support teacher leaders to work with diverse students and be responsive to the paradigm shift in education that moves us from teaching academic content to teaching skills and strategies that foster lifelong learning.

The teacher education program engages, prepares, and supports its leaders for student-centered classrooms in a diverse society. The program emphasizes the value of equity in education and the political and educational policies that should undergird that equity. Students acquire a strong foundation in educational leadership, assessment, classroom culture, instructional strategies, literacy across the curriculum, and human developmental processes. All students will implement culturally relevant content and pedagogy in working with English language and diverse learners as this program acknowledges the changing face of Houston and the nation.

Rice offers four teacher education plans:

1. a program leading to the state of Texas teacher certification in combination with the undergraduate degree in the elected subject field(s), including notation of that Texas Teacher Certificate on the recipient's Rice academic transcript,
2. a Master of Arts in Teaching (MAT) that can be completed concurrently with a Rice bachelor's degree with generally one additional year of study,
3. a Master of Arts in Teaching (MAT) for pre-service, and
4. a Master of Arts in Teaching (MAT) for experienced teachers with an optional route to principal certification.

The Rice teacher education program balances academic integrity with Texas Education Agency compliance. Students seeking additional information about the teacher education program are encouraged to meet with an advisor in Teacher Education.

Texas Teaching Credentials (the Texas Teacher Certificate)

Rice is approved by the State of Texas to offer teacher preparation programs in the following fields: art, English language arts and reading, history, Latin, life sciences, mathematics, physical sciences, physics/mathematics, science, social studies, Spanish, and principalship.

After satisfactory completion of the Rice teacher education program, which includes the state-mandated examinations for teachers, students are recommended for a Texas teaching credential. The Texas Education Agency then awards a Texas Teacher Certificate (Grades 7–12) or Principal Certificate.

Higher Education Act Title II Reports

The Higher Education Act (HEA) of the U.S. Congress requires each institution of higher education with a teacher preparation program that enrolls students receiving federal assistance under this act to report annually “to the State and the general public” certain information. This information includes the pass rate of their program completers on assessments required by the state for teacher licensure or certification, the statewide pass rate on those assessments and other basic information on their teacher preparation program.

Rice University's Education program is accredited by the state of Texas. The first year pass rate for program completers on assessments required by the state for 2015-2016 was 100%, compared with 95% for the overall state pass rate. Fifteen students were enrolled in the program in 2015-2016. Student teachers spent an average of 40 hours per week in supervised student teaching with a student/faculty ratio of 1.25-to-1. Rice teacher education program graduates are regularly recruited by school districts in Houston and the surrounding areas because of their innovative ideas, content knowledge, expertise, leadership abilities, and dedication to the teaching profession.

Texas Teacher Certification for Rice Undergraduates

The Teacher Education Program does not currently offer an academic major at the undergraduate level, however, the following lists a description of the Texas Teacher Certification program.

For general university requirements, see Graduation Requirements (p. 25). The Rice University Teacher Education Program seeks to engage, prepare, and support teacher leaders for student-centered classrooms in a diverse society. While Rice does not award a formal certificate for
teacher education, Rice University Teacher Education does offer a plan to current Rice degree-seeking undergraduate students. The plan fulfills all requirements for Texas Teacher Certification for grades 7-12. Upon completion of the Teacher Education program, all undergraduate degree requirements, and certification by the State of Texas, Rice students will receive an acknowledgement and formal notation of their Texas teacher certification on their Rice academic transcript.

Undergraduate students participating in the Teacher Education program, who wish to obtain Texas Teacher Certification must complete:

- A minimum of 30 credit hours to satisfy the Texas Teacher Certificate requirements. Students must meet with a Teacher Education Program advisor to develop a course of study.
- Complete all university and major requirements for a bachelor’s degree.
- Complete all courses in teaching field and education with a C+ or better.
- Complete the content courses specified by the certification field advisor(s). Lists of courses for each subject are available online and in the Teacher Education office.
- Complete 75 hours of field-based experience in local secondary schools, in conjunction with satisfactory results on background check with participating school districts.

In addition, undergraduate students in this program must satisfy the following requirements:

- Students must begin two-semester work in assigned school with first semester curriculum development and theory and methods courses and a second semester full-day practicum with a cooperating teacher (EDUC 421, EDUC 460-EDUC 466, and EDUC 467).
- Students must pass appropriate TExES exams.
- Students must apply with the appropriate (Texas) state agency for Texas Teacher Certification when all requirements are completed.

### Professional Education Courses

The following courses fulfill requirements for Texas Teacher Certification. For additional information regarding requirements, students should contact the Teacher Education Program. ([http://teach.rice.edu/texas-teacher-certification-rice-undergraduates](http://teach.rice.edu/texas-teacher-certification-rice-undergraduates))

### Admission

Rice students may apply for admission to the Rice University Teacher Education program if they show:

- Attainment of sophomore standing at Rice University.
- Grades of C+ or better in all semester hours for the teaching field and a grade point average of 2.5 or better, both in courses for the teaching field and overall.
- Evidence of adequate physical vigor and speech to perform as a teacher in a classroom.

A completed plan of study approved by a department advisor and the major field advisor is required before completion of the Teacher Education program. Once completed, and after completion of the student’s Rice undergraduate degree requirements, and certification by the State of Texas, an acknowledgement and formal notation of the student’s Texas teacher certification will be made on their Rice academic transcript.

### Description and Code Legend

Note: Internally, the university uses the following descriptions, codes, and abbreviations for this academic program. The following is a quick reference:
Course Catalog/Schedule

• Course offerings/subject code: EDUC

Program Description and Code

• Education: EDUC

Graduate Degree Description and Code

• Master of Arts in Teaching degree: MAT

Graduate Degree Program Description and Code

• Degree Program in Education: EDUC

Master of Arts in Teaching (MAT) Degree

Program Learning Outcomes for the MAT Degree

Upon completing the requirements for the MAT degree, students will be able to:

1. Create environments where students discover and construct meaning from content (using classroom students’ unique perceptions, thoughts, and feelings).
2. Facilitate teaching strategies for diverse learners.
3. Assess students’ progress and content mastery to guide instruction.
5. Demonstrate instructional and organizational leadership.

Requirements for the MAT Degree

The MAT degree is a non-thesis masters degree. For general university requirements, please see Non-Thesis Master’s Degrees (p. 66). Students pursuing the MAT degree must complete:

• A minimum of 36 credit hours at the 500-level or above to satisfy degree requirements.
• All courses with a grade of B- (2.67 grade points) or better to receive credit.

The MAT is a non-thesis degree program for students who want to qualify for secondary school teaching following a bachelor’s degree. Most candidates entering the program have had no professional education courses. By completing the program, candidates fulfill all requirements for a Texas Standard Teaching Certificate for grades 7–12. The specific requirements for the Texas Standard Teaching Certificate are listed below.

• Complete 75 hours of field-based experience in local secondary schools, in conjunction with satisfactory results on background check with participating school districts.
• Make grades of B- or better in all teaching field and education courses.
• Pass appropriate TExES exams.
• Apply for Texas State certification when all requirements are completed.

The cooperating school districts pay a regular salary for internship teaching.

Footnotes and Additional Information

1 At the discretion of the associate dean and academic advisor, some students may require additional courses to address deficiencies prior to seeking Texas State teacher certification

Requirements for the Master of Arts in Teaching (MAT) Degree, for Experienced Teachers

Students pursuing the Master of Arts in Teaching Degree, for Experienced Teachers, must complete:

• A minimum of 36 credit hours at the 500-level or above to satisfy degree requirements.
• All courses with a grade of B- (2.67 grade points) or better to receive credit.

This MAT degree program is offered for experienced teachers that have a minimum of 2 years experience teaching. This program offers a route toward principal certification (see below under the “Degree Requirements under Requirements for the Master of Arts in Teaching (MAT) Degree, for Experienced Teachers” listing).

Total Credit Hours: 36
Policies for the MAT Degree

Admission
Applicants must have a bachelor’s degree, scholarly ability, and a commitment to teaching, and they must have taken the Graduate Record Examination (GRE) within 5 years. Specific requirements include:

- Completion of a bachelor’s degree before admission to the program.
- Completion of 24 credit hours in a specified content area is required.
- Grades of B- (2.67 grade points) or better in all semester hours attempted in the teaching field and a grade point average of 3.0 or better, both in courses for the teaching field and overall.
- Evidence of adequate physical vigor and speech to perform as a teacher in a classroom.

Education team members review each application. Limited tuition assistance is available. See Admission to Graduate Study (https://graduate.rice.edu/admissions).

Transfer Credit
For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 66). Some departments and programs have additional restrictions on transfer credit. Students are encouraged to meet with their academic program’s advisor when considering transfer credit possibilities.

For additional information, please see the Teacher Education website: http://teach.rice.edu/

Opportunities for the MAT Degree

Fifth-Year MAT Degree Option for Rice Undergraduate Students
Rice students have an option to achieve the MAT degree by adding an additional fifth year to the four undergraduate years of study. Advanced Rice students in good academic standing may apply during their junior year to the graduate program. Upon acceptance, depending on course load, financial aid status, and other variables they may then start taking required core courses of the MAT degree during their senior year. A plan of study based on their particular focus area will need to be approved by the program director and the MAT advisor.

As part of this option and opportunity, Rice undergraduate students:

- must complete the requirements for their bachelor’s degree and the MAT degree independently of each other (i.e., no course may counted toward the fulfillment of both degrees).
- should be aware there could be financial aid implications, if the conversion of undergraduate coursework to that of graduate level reduces their earned undergraduate credit for any semester below that of full-time status (12 hours).

Requirements for Visiting Post-Baccalaureate (VPB) Certification
A non-degree (Visiting Post-Baccalaureate) plan leading to secondary teacher certification or principal certification is available for those who have earned a BA and/or MA degree, but not do not choose to pursue a Rice University graduate degree. Candidates complete all requirements for secondary teacher certification or principal certification, including professional education courses. Interested students should contact the Teacher Education Program.

For additional information, please see the Teacher Education website: http://teach.rice.edu/

Teaching and Learning

The graduate certificate in Teaching and Learning is intended to provide participants with a combination of formal pedagogical training, practical experience, and mentoring that will prepare them to be effective college teachers and instructors. The program is open to any Rice graduate student or postdoctoral scholar in good academic standing.

Teaching and Learning does not currently offer an academic program at the undergraduate level.

Certificate

Graduate Certificate Description and Code
- Certificate in Teaching and Learning: TAL

Certificate in Teaching and Learning

Program Learning Outcomes for the Certificate in Teaching and Learning
Upon completing the certificate in Teaching and Learning, students will be able to:

1. Develop an understanding of and explain best practices in teaching and learning.
2. Communicate individual pedagogical values and approaches to teaching and learning.
3. Assess key approaches, methodologies, and trends in the scholarship of teaching and learning.
4. Identify and evaluate pedagogical methods that apply to students’ disciplines and teaching interests.
5. Demonstrate effectiveness as instructors through formal presentations.
6. Situate the role of teaching in higher education and the job market.

Requirements for the Certificate in Teaching and Learning

The Certificate in Women, Gender and Sexuality is a graduate certificate. For general university requirements, please see Graduate Certificates (p. 53).

Students pursuing the certificate in Teaching and Learning must complete:

- A minimum of 4 courses (11 credit hours) to satisfy certificate requirements.
- All required coursework associated with the student’s corresponding degree program.

This certificate is not a freestanding degree program; in addition to fulfilling the certificate requirements outlined below, candidates will be required to complete successfully the degree program to which they have been admitted in order to receive this certificate. Upon completion, the certificate is awarded at the same time as the conferral of the student’s Rice degree, along with a formal notation on their academic transcript.

The courses listed below satisfy the requirements for this certificate. In certain instances, courses not on this official list may be substituted upon approval of the certificate’s academic advisor (or official certifier). Students and their academic advisors should identify and clearly document the courses to be taken.

### Footnotes and Additional Information

1. The Teaching Portfolio Course (UNIV 599) comprises the experiential learning opportunity requirement for the TAL certificate.

### Policies for the Certificate in Teaching and Learning

#### Transfer Credit

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 32). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: [http://oaa.rice.edu](http://oaa.rice.edu). Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

### Program Restrictions and Exclusions

Students pursuing the certificate in Teaching and Learning should be aware of the following program restriction:

- Graduate students may declare their intent to pursue a university certificate only after they have first been admitted into a graduate-level Rice degree-granting program.

For additional information, please see the Teaching and Learning website: [http://cte.rice.edu/](http://cte.rice.edu/)

### Opportunities for the Certificate in Teaching and Learning

For additional information, please see the Teaching and Learning website: [http://cte.rice.edu/](http://cte.rice.edu/)

### University Courses

University courses provide opportunities for dialogue across disciplinary and departmental boundaries. They are an experiment in curriculum development, directed toward students interested in interdisciplinary subjects beyond their elected major.

University Courses is not a degree-granting academic program at the undergraduate level.

University Courses is not a degree-granting academic program at the graduate level.

John Sparagana
Department Chair
sparaga@rice.edu
The Department of Visual and Dramatic Arts welcomes the full spectrum of Rice University students. Scientists, architects, historians, engineers and economists, among many others, augment our core of arts majors to create a diverse, lively forum of artists and thinkers. We believe this composite community is a vital asset to majors and non-majors alike: art thrives in contact with new and varied perspectives, and the risk-taking and critical thinking necessary to making art are crucial in many other fields. Beyond a dynamic artistic practice, we aim to cultivate an artistic frame of mind.

Students may focus their education in one of three major concentrations, or tracks: studio, theater, or film and photography. Courses draw on the resources of Rice's active and accomplished faculty, extensive on-campus facilities, and Houston's vibrant artistic community. The department boasts a state-of-the-art cinema, as well as a 500-seat proscenium-style theater. Immediately next door, the Moody Center for the Arts hosts interdisciplinary arts courses and mounts exhibitions by internationally acclaimed artists. Rice campus is within walking distance of the Museum of Fine Arts Houston and the Contemporary Arts Museum Houston, and a short drive from the renowned Menil Collection. Distinguished speakers, visiting artists, film series, field trips, student exhibitions and performance opportunities all contribute to an immersive arts education that extends well beyond the classroom.

Bachelor's Program

• Bachelor of Arts (BA) Degree with a Major in Visual and Dramatic Arts
  • and a Major Concentration in Film and Photography (p. 740)
  • and a Major Concentration in Studio Art (p. 743)
  • and a Major Concentration in Theatre (p. 746)

Visual and Dramatic Arts does not currently offer an academic program at the graduate level.

Bachelor of Arts (BA) Degree with a Major in Visual And Dramatic Arts and a Major Concentration in Film and Photography

Program Learning Outcomes for the Major in Visual and Dramatic Arts and a Major Concentration in Film and Photography

Upon completing the BA degree with a major in Visual and Dramatic Arts and a major concentration in Film and Photography, students will be able to:

1. Understand the social, aesthetic, and technological history of film and photography.
2. Become fluent in both older forms of filmmaking and photography and newer ones.
3. Grasp the relationship between the tools and the art.
4. Utilize the understanding and the fluency to create works of art.

Requirements for the BA Degree with a Major in Visual and Dramatic Arts and a Major Concentration in Film and Photography

For general university requirements, see Graduation Requirements (p. 25).

Students pursuing the BA degree with a major in Visual and Dramatic Arts must complete:

- A minimum of 11-13 courses (30-40 credit hours), depending on major concentration declared and whether or not the student is a single major or double major, to satisfy major requirements.
- A minimum of 120 credit hours to satisfy degree requirements.
- A minimum of 60 credit hours outside of major requirements.
- A minimum of 3-7 courses (9-21 credit hours), depending on major concentration declared, taken at the 300-level or above.
- A maximum of 2 courses (6 credit hours) of study abroad or transfer credit. For additional departmental guidelines regarding transfer credit, see the Policies tab.

The requirements of a major concentration. When students declare the major (p. 12) in Visual and Dramatic Arts, students must additionally identify and declare one of three major concentrations, either in:

- Studio Art (p. 743), or
- Film and Photography (p. 740), or
- Theatre (p. 746)

It is possible for students to change their major concentration at any time, even after initially declaring the major. To do so, please contact the Office of the Registrar (registrar@rice.edu).

Students pursuing the major concentration in Film and Photography are strongly encouraged to explore film-related courses offered in other departments that may enrich their selected major concentration, such as philosophy, anthropology, science, history, cultural studies, language, writing, comparative studies, etc. Students should speak with their faculty advisor prior to enrolling.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major's academic advisor (or official certifier). Students and their academic advisors should identify and clearly document the courses to be taken.

Departmental Transfer Credit Guidelines
Students pursuing the major in Visual and Dramatic Arts should be aware of the following departmental transfer credit guidelines:

- No more than 2 courses (6 credit hours) of transfer credit from U.S. or international universities of similar standing as Rice may apply towards the major. The 2 transfer credit courses should be studio, film, photography, or theatre practice courses required for all majors.
- Transfer students who are transferring coursework from another accredited college or university should be allowed to transfer their undergraduate art courses. However, students must speak with the department chair or program advisor immediately upon transferring to Rice.
- Academic work completed in the Spring at NYU program or the National Theater Institute at the Eugene O’Neill Theater Center will be accepted as transfer credit to fulfill major requirements (following university transfer credit guidelines).
- Transfer credit received via the articulation of advanced placement (AP) credit, international baccalaureate (IB) credit, or A-level credit will not be considered towards major requirements.
- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

For additional information, please see the Visual and Dramatic Arts website: https://arts.rice.edu/

Opportunities for the BA Degree with a Major in Visual and Dramatic Arts and a Major Concentration in Film and Photography

Academic Honors
The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (p. 47) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 47). Some departments have department-specific Honors awards or designations.

Distinction in Research and Creative Work
Distinction in Research and Creative Work is a university award for select undergraduates, granted at commencement, which appears on the transcript and diploma. Students must apply within their department or program to be considered for the award, and a letter from a faculty member must support the application.

Eligibility for the award extends widely to include a variety of research, design, and other creative projects, as well as persistent dedication to research. Projects completed in part or entirely at other institutions or with community partners will be eligible for consideration.

Applicants must be in good academic standing and have a cumulative GPA of at least 3.30 in courses completed at Rice.

Also, of further note: The award will be granted only to projects that produce a concrete outcome – e.g. an essay, invention, design, art exhibition, project or performance, or musical composition – and demonstrate commitment and/or achievement above and beyond the norm. Students who complete senior theses, senior design projects, or

### Policies for the BA Degree with a Major in Visual and Dramatic Arts and a Major Concentration in Film and Photography

#### Transfer Credit

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 32). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: http://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.
other required senior capstone projects shall not qualify automatically for consideration for this university distinction.

For the Department of Visual and Dramatic Arts, the application for Distinction in Research and Creative Work must include:

1. application form, including portfolio;
2. overall GPA of 3.30;
3. a written artist statement;
4. letter of support from a Visual and Dramatic Arts faculty member;
5. public exhibition, screening, publication, or performance that includes a lecture or artist talk component by applicant;
6. two-page description of how the project meets the requirements of Distinction.

The department requires exceptional evidence of success, as defined by completion of a project (body of artwork, film, theatrical design work, etc.). Support through the application process is available through the department – e.g. workshops, seminars and individual meetings with faculty mentors.

Contact the department or look online for deadline dates. No electronic submissions accepted. Please note that your project does not have to be already completed to apply for Distinction (all final materials will be due in Spring 2018). The department selects a very limited number of students for this university academic honor.

ARTS 294 Special Problems: Junior Field Trip
Recommended for students pursuing the major concentration in Film and Photography. The junior year field trip is designed to help VADA majors focus on the upcoming senior year of intensive studio work, and to get to know the Visual and Dramatic Arts faculty and staff. These are trips to cultural centers nationally and internationally, including visits to museums, galleries, artist studios, theaters, and meetings with creative professionals in the fields of film/photo, theater, and studio arts.

Exhibitions, Lectures, and Arts Programs at Rice
The Department of Visual and Dramatic Arts mounts several art and photography exhibitions and stage productions each year. In addition, exhibitions and related activities organized by the Rice University Art Gallery enrich the teaching program of the Visual and Dramatic Arts department, as well as the larger university and Houston communities.

The department enjoys an ongoing close relationship with local theaters, museums, and galleries. The department offers opportunities for students to work and study with local art venues and alternative art spaces by way of collaborative events and programs. The collections and exhibitions of local museums are often the subject of course lectures.

Lectures, symposia, and talks are sponsored by the department and are designed to bring local, national, and international scholars, actors, directors, critics, and studio artists to campus to speak on a broad range of topics and current interests.

Rice Film Program
Rice’s film program works in concert with the Visual and Dramatic Arts department’s academic mission to enrich students’ undergraduate experience. Film and media studies students are provided state-of-the-art screening facilities to examine and study the historical and methodological aspects of movies from around the world in celluloid and 4K Digital Cinema Projection with Dolby Digital Sound. Film production students can showcase their work during the academic year on our silver screen in recently renovated projection facilities.

During the academic year, Rice Cinema screens films from around the world—foreign features, shorts, documentaries, and animation—as part of our ongoing partnership with the diverse cultural communities of the City of Houston. Film at Rice reaches beyond the university’s hedges to create, engage, and encourage scholarly thought and dialog on the many issues that impact our world. Internationally known filmmakers who have appeared on our campus over the years include Werner Herzog, Rakhshan Baniotemad, Atom Egoyan, Shirin Neshat, Martin Scorsese, Andy Warhol, George Lucas, and Dennis Hopper.

Rice Theatre Program
The Rice Theatre Program curriculum offers a solid foundation in all aspects of theatrical production from acting and directing to technology and design for students who wish to pursue a professional career in theatre or continue on to a graduate program. Theatre courses also are open to non-majors who want to gain a greater appreciation for the art of theatre.

There are two main-stage productions (one fall and one spring) and the possibility of two student showcases offered each year in Hamman Hall, a 450-seat proscenium theatre facility. The department invites distinguished guest artists each semester to direct and produce the two main-stage productions. Participation in productions is open to all students.

Theatre Program faculty are actively involved in professional theatre and film locally, nationally, and internationally and actively pursue opportunities to involve advanced students in that work. In addition, advanced students are encouraged to apply for internships whenever possible. Rice students have been accepted in competitive internships at theatres such as The Alley Theatre, Houston Shakespeare Festival, Berkeley Repertory Theatre, and Williamstown Theatre Festival. In addition, students are encouraged to study theatre abroad and transfer course credit back to Rice. Approval for transfer credit must be sought prior to enrollment in a study-abroad program by contacting the director of the Theatre Program.

In even numbered years, the Theatre Program, sponsored by the Alan and Shirley Grob Endowment for Shakespeare in Performance, hosts the Actors From the London Stage, one of the oldest established touring Shakespeare theatre companies in the world for a week-long residency of workshops, performances, and lectures. Each tour presents a full-length play by Shakespeare performed by five classically trained actors who come from such prestigious companies as the Royal Shakespeare Company, the Royal National Theatre of Great Britain, and Shakespeare’s Globe Theatre.

National Theater Institute
The National Theater Institute is the educational arm of the renowned Eugene O’Neill Theater Center. The program is designed to complement a liberal arts education with three distinct study-away programs, all offering rigorous, risk-taking theater exploration. The semester long program at the O’Neill Center in Connecticut, the NTI Moscow Art Theater semester, and the seven-week Theatremakers summer program confront the serious theater student with opportunities to discover new creative possibilities.

The National Theater Institute offers an extensive conservatory-based training program for the dedicated student. Distinguished master teaching artists guide the classes in courses in acting, directing, design,
playwriting, stage combat, voice, and movement. The Department of Visual and Dramatic Arts will accept academic work completed at the National Theater Institute as transfer credit to fulfill major requirements (following university transfer credit guidelines).

See https://humanities.rice.edu/student-life for tables of fellowships, prizes, and internships/practica that may be relevant to this major.

**Bachelor of Arts (BA) Degree with a Major in Visual and Dramatic Arts and a Major Concentration in Studio Art**

**Program Learning Outcomes for the Major in Visual and Dramatic Arts and a Major Concentration in Studio Art**

Upon completing the BA degree with a major in Visual and Dramatic Arts and a major concentration in Studio Art, students will be able to:

1. Demonstrate a knowledge and understanding of a variety of materials and processes in a range of two and three-dimensional media as well as the ability to apply these acquired skills to other materials and ways of working. This includes students developing their own artistic vocabularies.
2. Demonstrate the ability to explore and hone a variety of techniques and materials while developing their own artistic vocabularies and creative vision. This involves gaining a familiarity with a wide range of skills, concepts, and approaches essential to artistic development.
3. Demonstrate an understanding of the meaning and potential purpose of the arts, a knowledge of art history, art’s role and varied guises in contemporary society, and art’s relationship and engagement with other disciplines including literature, music, philosophy, and the sciences.
4. Develop an understanding of self in the larger context of the practice of art.

**Requirements for the BA Degree with a Major in Visual and Dramatic Arts and a Major Concentration in Studio Art**

For general university requirements, see Graduation Requirements (p. 25).

Students pursuing the BA degree with a major in Visual and Dramatic Arts must complete:

- A minimum of 11-13 courses (30-40 credit hours), depending on major concentration declared and whether or not the student is a single major or double major, to satisfy major requirements.
- A minimum of 120 credit hours to satisfy degree requirements.
- A minimum of 60 credit hours outside of major requirements.
- A minimum of 3-7 courses (9-21 credit hours), depending on major concentration declared, taken at the 300-level or above.
- A maximum of 2 courses (6 credit hours) of study abroad or transfer credit. For additional departmental guidelines regarding transfer credit, see the Policies tab.
- The requirements of a major concentration. When students declare the major (p. 12) in Visual and Dramatic Arts, students must additionally identify and declare one of three major concentrations, either in:
  - Studio Art (p. 743), or
  - Film and Photography (p. 740), or
  - Theatre (p. 746)

It is possible for students to change their major concentration at any time, even after initially declaring the major. To do so, please contact the Office of the Registrar (registrar@rice.edu).

Students pursuing the major concentration in Studio Art are strongly encouraged to explore art-related courses offered in other departments that may enrich their selected major concentration, such as: philosophy, anthropology, science, history, cultural studies, language, writing, comparative studies, etc. Students should speak with their faculty advisor prior to enrolling.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor (or official certifier). Students and their academic advisors should identify and clearly document the courses to be taken.

Total Credit Hours Required for the Major in Visual and Dramatic Arts and a Major Concentration in Studio Arts (for double majors)
37

University Graduation Requirements (p. 25)²
80-83

Footnotes and Additional Information
- Includes coursework completed as distribution credit, FWIS, LPAR, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The “hours outside of the major” requirement may include all of the above university requirements.
- Double majors who drop the other major are required to meet the requirements listed for single majors.
- The junior year field trip (ARTS 294) is designed to help visual arts majors focus on the upcoming senior year of intensive studio work, and to get to know the Visual and Dramatic Arts faculty and staff. These are trips to cultural centers nationally and internationally, including visits to museums, galleries, artist studios, theaters, and meetings with creative professionals in the fields of film/photo, theater, and studio arts. It is required for students pursuing the major concentration in Studio Art.
- Double majors must complete at least 1 course (3 credit hours) from Visual Arts (ARTS), Film (FILM), Photography (FOTO), or Theatre (THEA) course offerings at the 100-level or above.

Opportunities for the BA Degree with a Major in Visual and Dramatic Arts and a Major Concentration in Studio Art

Academic Honors
The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 47) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 47). Some departments have department-specific Honors awards or designations.

Distinction in Research and Creative Work
Distinction in Research and Creative Work is a university award for select undergraduates, granted at commencement, which appears on the transcript and diploma. Students must apply within their department or program to be considered for the award, and a letter from a faculty member must support the application.

Eligibility for the award extends widely to include a variety of research, design, and other creative projects, as well as persistent dedication to research. Projects completed in part or entirely at other institutions or with community partners will be eligible for consideration.

Applicants must be in good academic standing and have a cumulative GPA of at least 3.30 in courses completed at Rice.

Also, of further note: The award will be granted only to projects that produce a concrete outcome – e.g. an essay, invention, design, art exhibition, project or performance, or musical composition – and demonstrate commitment and/or achievement above and beyond the norm. Students who complete senior theses, senior design projects, or program’s transfer credit advisor when considering transfer credit possibilities.
other required senior capstone projects shall not qualify automatically for consideration for this university distinction.

For the Department of Visual and Dramatic Arts, the application for Distinction in Research and Creative Work must include:

1. application form, including portfolio;
2. overall GPA of 3.30;
3. a written artist statement;
4. letter of support from a Visual and Dramatic Arts faculty member;
5. public exhibition, screening, publication, or performance that includes a lecture or artist talk component by applicant;
6. two-page description of how the project meets the requirements of Distinction.

The department requires exceptional evidence of success, as defined by completion of a project (body of artwork, film, theatrical design work, etc.). Support through the application process is available through the department — e.g. workshops, seminars and individual meetings with faculty mentors.

Contact the department or look online for deadline dates. No electronic submissions accepted. Please note that your project does not have to be already completed to apply for Distinction (all final materials will be due in Spring 2018). The department selects a very limited number of students for this university academic honor.

Exhibitions, Lectures, and Arts Programs at Rice

The Department of Visual and Dramatic Arts mounts several art and photography exhibitions and stage productions each year. In addition, exhibitions and related activities organized by the Rice University Art Gallery enrich the teaching program of the Visual and Dramatic Arts department, as well as the larger university and Houston communities.

The department enjoys an ongoing close relationship with local theatres, museums, and galleries. The department offers opportunities for students to work and study with local art venues and alternative art spaces by way collaborative events and programs. The collections and exhibitions of local museums are often the subject of course lectures.

Lectures, symposia, and talks are sponsored by the department and are designed to bring local, national, and international scholars, actors, directors, critics, and studio artists to campus to speak on a broad range of topics and current interests.

Rice Film Program

Rice’s film program works in concert with the Visual and Dramatic Arts department’s academic mission to enrich students’ undergraduate experience. Film and media studies students are provided state-of-the-art screening facilities to examine and study the historical and methodological aspects of movies from around the world in celluloid and 4K Digital Cinema Projection with Dolby Digital Sound. Film production students can showcase their work during the academic year on our silver screen in recently renovated projection facilities.

During the academic year, Rice Cinema screens films from around the world—foreign features, shorts, documentaries, and animation—as part of our ongoing partnership with the diverse cultural communities of the City of Houston. Film at Rice reaches beyond the university’s hedges to create, engage, and encourage scholarly thought and dialog on the many issues that impact our world. Internationally known filmmakers who have appeared on our campus over the years include Werner Herzog, Rakhshan Banietemad, Atom Egoyan, Shirin Neshat, Martin Scorsese, Andy Warhol, George Lucas, and Dennis Hopper.

Rice Theatre Program

The Rice Theatre Program curriculum offers a solid foundation in all aspects of theatrical production from acting and directing to technology and design for students who wish to pursue a professional career in theatre or continue on to a graduate program. Theatre courses also are open to non-majors who want to gain a greater appreciation for the art of theatre.

There are two main-stage productions (one fall and one spring) and the possibility of two student showcases offered each year in Hamman Hall, a 450-seat proscenium theatre facility. The department invites distinguished guest artists each semester to direct and produce the two main-stage productions. Participation in productions is open to all students.

Theatre Program faculty are actively involved in professional theatre and film locally, nationally, and internationally and actively pursue opportunities to involve advanced students in that work. In addition, advanced students are encouraged to apply for internship positions whenever possible. Rice students have been accepted in competitive internships at theatres such as The Alley Theatre, Houston Shakespeare Festival, Berkeley Repertory Theatre, and Williamstown Theatre Festival.

In addition, students are encouraged to study theatre abroad and transfer course credit back to Rice. Approval for transfer credit must be sought prior to enrollment in a study-abroad program by contacting the director of the Theatre Program.

In even numbered years, the Theatre Program, sponsored by the Alan and Shirley Grob Endowment for Shakespeare in Performance, hosts the Actors From the London Stage, one of the oldest established touring Shakespeare theatre companies in the world for a week-long residency of workshops, performances, and lectures. Each tour presents a full-length play by Shakespeare performed by five classically trained actors who come from such prestigious companies as the Royal Shakespeare Company, the Royal National Theatre of Great Britain, and Shakespeare’s Globe Theatre.

National Theater Institute

The National Theater Institute is the educational arm of the renowned Eugene O’Neill Theater Center. The program is designed to complement a liberal arts education with three distinct study-away programs, all offering rigorous, risk-taking theater exploration. The semester long program at the O’Neill Center in Connecticut, the NTI Moscow Art Theater semester, and the seven-week Theatersmakers summer program confront the serious theater student with opportunities to discover new creative possibilities.

The National Theater Institute offers an extensive conservatory-based training program for the dedicated student. Distinguished master teaching artists guide the classes in courses in acting, directing, design, playwriting, stage combat, voice, and movement. The Department of Visual and Dramatic Arts will accept academic work completed at the National Theater Institute as transfer credit to fulfill major requirements (following university transfer credit guidelines).

For tables of fellowships, prizes, and internships/practica that may be relevant to this major.

Bachelor of Arts (BA) Degree with a Major in Visual And Dramatic Arts and a Major Concentration in Theatre

Program Learning Outcomes for the Major in Visual and Dramatic Arts and a Major Concentration in Theatre

Upon completing the BA degree with a major in Visual and Dramatic Arts and a major concentration in Theatre, students will be able to:

1. Demonstrate the ability to adapt and apply their foundational skills and knowledge in theatre direction, performance, sound, etc. to fulfill professionally and effectively a range of roles in an actual, hands-on theatre production.

2. Demonstrate the ability to use critical thinking and analytical skills to analyze and evaluate a theatrical text, including being able to identify its structure and form, and to understand characters and specific scenes with the depth necessary for effective performance, scene study, and design.

3. Demonstrate the ability to communicate effectively both verbally and in writing in situations of performance, play analysis, and performance direction, which necessitates collaboration and communication amongst many contributing individuals.

4. Understand theatre and performance broadly, and specific theatrical works or performances, within their historical, social, cultural, and political contexts.

Requirements for the BA Degree with a Major in Visual and Dramatic Arts and a Major Concentration in Theatre

For general university requirements, see Graduation Requirements (p. 25). Students pursuing the BA degree with a major in Visual and Dramatic Arts must complete:

- A minimum of 11-13 courses (30-40 credit hours), depending on major concentration declared and whether or not the student is a single major or double major, to satisfy major requirements.
- A minimum of 120 credit hours to satisfy degree requirements.
- A minimum of 60 credit hours outside of major requirements.
- A minimum of 3-7 courses (9-21 credit hours), depending on major concentration declared, taken at the 300-level or above.
- A maximum of 2 courses (6 credit hours) of study abroad or transfer credit. For additional departmental guidelines regarding transfer credit, see the Policies tab.

The requirements of a major concentration. When students declare the major (p. 12) in Visual and Dramatic Arts, students must additionally identify and declare one of three major concentrations, either in:

- Studio Art (p. 743), or
- Film and Photography (p. 740), or
- Theatre (p. 746)

It is possible for students to change their major concentration at any time, even after initially declaring the major. To do so, please contact the Office of the Registrar (registrar@rice.edu).

Students pursuing the major concentration in Theatre are strongly encouraged to explore theatre-related courses offered in other departments that may enrich their selected major concentration, such as: philosophy, anthropology, science, history, cultural studies, language, writing, comparative studies, etc. Students should speak with their faculty advisor prior to enrolling.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor (or official certifier). Students and their academic advisors should identify and clearly document the courses to be taken.

Select 1 from the following:

Elective Requirements

Electives in Visual Arts, Film, Photography, or Theatre

Select 6 courses from Theatre (THEA), Studio Arts (ARTS), Photography (FOTO), or Film (FILM) course offerings. 3, 4

Electives in Dramatic or Film Theory/Criticism, Dramatic Literature, or Art History

Select 3 courses in dramatic or film theory or criticism, dramatic literature, or art history. 5

Total Credit Hours Required for the Major in Visual and Dramatic Arts and a Major Concentration in Theatre (for single majors) 39

Total Credit Hours Required for the Major and a Major in Visual and Dramatic Arts and a Major Concentration in Theatre (for double majors) 33
Footnotes and Additional Information

* Includes coursework completed as distribution credit, FWIS, LPAP, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The "hours outside of the major" requirement may include all of the above university requirements.
1. Double majors who drop the other major are required to meet the requirements listed for single majors.
2. THEA 331 Theatre Production - Crew. Each student must perform crew duties for at least one theatre production as part of the technical or design team.
3. Single majors may not include more than 3 courses (9 credit hours) from ARTS or FILM course offerings to satisfy this requirement.
4. Double majors must complete a total of 4 courses (12 credit hours) from Theatre (THEA), Studio Arts (ARTS), Photography (FOTO), or Film (FILM) course offerings. Double majors may not include more than 2 courses (6 credit hours) from ARTS or FILM course offerings to satisfy this requirement.
5. Elective courses that fulfill dramatic or film theory or criticism, dramatic literature, or art history should be selected in consultation with the theatre faculty advisor.

Policies for the BA Degree with a Major in Visual and Dramatic Arts and a Major Concentration in Theatre

Transfer Credit

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 32). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: http://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines

Students pursuing the major in Visual and Dramatic Arts should be aware of the following departmental transfer credit guidelines:

- No more than 2 courses (6 credit hours) of transfer credit from U.S. or international universities of similar standing as Rice may apply towards the major. The 2 transfer credit courses should be studio, film, photography, or theatre practice courses required for all majors.
- Transfer students who are transferring coursework from another accredited college or university should be allowed to transfer their undergraduate art courses. However, students must speak with the department chair or program advisor immediately upon transferring to Rice.
- Academic work completed in the Spring at NYU program or the National Theater Institute at the Eugene O’Neill Theater Center will be accepted as transfer credit to fulfill major requirements (following university transfer credit guidelines).
- Transfer credit received via the articulation of advanced placement (AP) credit, international baccalaureate (IB) credit, or A-level credit will not be considered towards major requirements.

- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

For additional information, please see the Visual and Dramatic Arts website: https://arts.rice.edu/

Opportunities for the BA Degree with a Major in Visual and Dramatic Arts and a Major Concentration in Theatre

Suggested LPAP (Dance) Courses

Students pursuing the major concentration in Theatre are encouraged to take Lifetime Physical Activity Program (LPAP) courses to supplement and enhance their studies in theatre. Courses include (but not limited to):

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>LPAP 148</td>
<td>DANCE CHOREOGRAPH</td>
<td>1</td>
</tr>
<tr>
<td>LPAP 130</td>
<td>CONTACT IMPROVISATION</td>
<td>1</td>
</tr>
<tr>
<td>LPAP 155</td>
<td>INTRODUCTION TO BALLET</td>
<td>1</td>
</tr>
<tr>
<td>LPAP 133</td>
<td>CAPOEIRA</td>
<td>1</td>
</tr>
<tr>
<td>LPAP 157</td>
<td>JAZZ DANCE/HIP HOP</td>
<td>1</td>
</tr>
</tbody>
</table>

Students should receive departmental approval and have already satisfied the LPAP graduation requirement before enrolling. For university policy, students may not take more than four LPAP courses for credit.

ARTS 294 is recommended for students pursuing the major concentration in Theatre. The junior year field trip will be designed to help all visual and dramatic arts majors focus on the upcoming senior year of intensive work, and to get to know the Visual and Dramatic Arts faculty and staff. These are trips to cultural centers nationally and internationally, including visits to museums, galleries, artist studios, theaters, and meetings with creative professionals in the fields of film/photo, theater, and studio arts.

Academic Honors

The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (p. 47) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 47). Some departments have department-specific Honors awards or designations.

Distinction in Research and Creative Work

Distinction in Research and Creative Work is a university award for select undergraduates, granted at commencement, which appears on the transcript and diploma. Students must apply within their department or program to be considered for the award, and a letter from a faculty member must support the application.

Eligibility for the award extends widely to include a variety of research, design, and other creative projects, as well as persistent dedication to research. Projects completed in part or entirely at other institutions or with community partners will be eligible for consideration.

Applicants must be in good academic standing and have a cumulative GPA of at least 3.30 in courses completed at Rice.

Also, of further note: The award will be granted only to projects that produce a concrete outcome – e.g. an essay, invention, design, art
exhibition, project or performance, or musical composition — and demonstrate commitment and/or achievement above and beyond the norm. Students who complete senior theses, senior design projects, or other required senior capstone projects shall not qualify automatically for consideration for this university distinction.

For the Department of Visual and Dramatic Arts, the application for Distinction in Research and Creative Work must include:

1. application form, including portfolio;
2. overall GPA of 3.30;
3. a written artist statement;
4. letter of support from a Visual and Dramatic Arts faculty member;
5. public exhibition, screening, publication, or performance that includes a lecture or artist talk component by applicant;
6. two-page description of how the project meets the requirements of Distinction.

The department requires exceptional evidence of success, as defined by completion of a project (body of artwork, film, theatrical design work, etc.). Support through the application process is available through the department — e.g. workshops, seminars and individual meetings with faculty mentors.

Contact the department or look online for deadline dates. No electronic submissions accepted. Please note that your project does not have to be already completed to apply for Distinction (all final materials will be due in Spring 2018). The department selects a very limited number of students for this university academic honor.

Exhibitions, Lectures, and Arts Programs at Rice

The Department of Visual and Dramatic Arts mounts several art and photography exhibitions and stage productions each year. In addition, exhibitions and related activities organized by the Rice University Art Gallery enrich the teaching program of the Visual and Dramatic Arts department, as well as the larger university and Houston communities.

The department enjoys an ongoing close relationship with local theatres, museums, and galleries. The department offers opportunities for students to work and study with local art venues and alternative art spaces by way collaborative events and programs. The collections and exhibitions of local museums are often the subject of course lectures.

Lectures, symposia, and talks are sponsored by the department and are designed to bring local, national, and international scholars, actors, directors, critics, and studio artists to campus to speak on a broad range of topics and current interests.

Rice Film Program

Rice’s film program works in concert with the Visual and Dramatic Arts department’s academic mission to enrich students’ undergraduate experience. Film and media studies students are provided state-of-the-art screening facilities to examine and study the historical and methodological aspects of movies from around the world in celluloid and 4K Digital Cinema Projection with Dolby Digital Sound. Film production students can showcase their work during the academic year on our silver screen in recently renovated projection facilities.

During the academic year, Rice Cinema screens films from around the world—foreign features, shorts, documentaries, and animation—as part of our ongoing partnership with the diverse cultural communities of the City of Houston. Film at Rice reaches beyond the university’s hedges to create, engage, and encourage scholarly thought and dialog on the many issues that impact our world. Internationally known filmmakers who have appeared on our campus over the years include Werner Herzog, Rakhshan Banietemad, Atom Egoyan, Shirin Neshat, Martin Scorsese, Andy Warhol, George Lucas, and Dennis Hopper.

Rice Theatre Program

The Rice Theatre Program curriculum offers a solid foundation in all aspects of theatrical production from acting and directing to technology and design for students who wish to pursue a professional career in theatre or continue on to a graduate program. Theatre courses also are open to non-majors who want to gain a greater appreciation for the art of theatre.

There are two main-stage productions (one fall and one spring) and the possibility of two student showcases offered each year in Hamman Hall, a 450-seat proscenium theatre facility. The department invites distinguished guest artists each semester to direct and produce the two main-stage productions. Participation in productions is open to all students.

AFSC 101 - FOUNDATION OF THE USAF I
Short Title: FOUNDATION OF THE USAF I
Department: Air Force Science
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 2
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Lower-Level
Description: Overall roles and missions of the USAF; career fields available. Emphasis on military customs and courtesies, appearance standards, core values, written and personal communications. Introduction to American military history. Course taught on the University of Houston campus in Garrison Gymnasium, Room 116. This course includes a lab taught on Wednesday from 4-6pm. Instructors: Lecture - Kiebach; Lab - Bentley.
Course URL: www.class.uh.edu/rotc/airforce (http://www.class.uh.edu/rotc/airforce)

AFSC 102 - FOUNDATION OF THE USAF II
Short Title: FOUNDATION OF THE USAF II
Department: Air Force Science
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 2
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Lower-Level
Description: Continuation of AFSC 101. Course taught at the University of Houston.
Course URL: www.class.uh.edu/rotc/airforce (http://www.class.uh.edu/rotc/airforce)

AFSC 201 - EVOLUTION OF AIR POWER I
Short Title: EVOLUTION OF AIR POWER I
Department: Air Force Science
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 2
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Lower-Level
Description: Key historical events and milestones in the development of air power as a primary instrument of United States national security. Core values and competencies of leaders in the United States Air Force. Tenets of leadership and ethics. Course taught on the University of Houston campus in Garrison Gymnasium in Room 116. This course also includes a lab taught on Wednesday from 4-6 pm. Instructors: Lecture - Kiebach; Lab - Bentley.
Course URL: www.class.uh.edu/rotc/airforce (http://www.class.uh.edu/rotc/airforce)

AFSC 202 - EVOLUTION OF AIR POWER II
Short Title: EVOLUTION OF AIR POWER II
Department: Air Force Science
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 2
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Lower-Level
Description: Continuation of AFSC 201. Course taught at the University of Houston.
Course URL: www.class.uh.edu/rotc/airforce (http://www.class.uh.edu/rotc/airforce)
AFSC 301 - AIR FORCE LEADERSHIP STUDY I
Short Title: AIR FORCE LEADERSHIP STUDY I
Department: Air Force Science
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Leadership, management fundamentals, professional knowledge, Air Force personnel and evaluation systems, and leadership ethics. Case studies of Air Force leadership and management situations. Course taught on the University of Houston campus in Garrison Gymnasium, Room 116. This course includes a lab, taught on Wednesday from 4-6pm. Instructors: Lecture - Bentley; Lab - Bentley.
Course URL: www.class.uh.edu/rotc/airforce

AFSC 302 - AIR FORCE LEADERSHIP STUDY II
Short Title: AIR FORCE LEADERSHIP STUDY II
Department: Air Force Science
Grade Mode: Standard Letter

Description: Continuation of AFSC 301.
Course URL: www.class.uh.edu/rotc/airforce

AFSC 381 - FIELD TRAINING
Short Title: FIELD TRAINING
Department: Air Force Science
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: No military obligation is associated with this course. Four-week off-campus field training practicum. Introduces students to Air Force leadership. Places students in demanding and stressful leadership positions. Course taught at military base. Instructors: Lecture - Bentley; Lab - Bentley. Department Permission Required.
Course URL: www.class.uh.edu/rotc/airforce

AFSC 401 - NATIONAL SECURITY AFFAIRS I
Short Title: NATIONAL SECURITY AFFAIRS I
Department: Air Force Science
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Evolution of the role of national security in a democratic society with emphasis on policy formation, competing values, and organization. Civilian control of the military, roles of the services; functions of the Air Force Commands. Course taught on the University of Houston campus in Garrison Gymnasium, Room 116. This course includes a lab, taught on Wednesday from 4-6pm. Instructors: Lecture - Bentley; Lab - Bentley.
Course URL: www.class.uh.edu/rotc/airforce

AFSC 402 - NATIONAL SECURITY AFFAIRS II
Short Title: NATIONAL SECURITY AFFAIRS II
Department: Air Force Science
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Continuation of AFSC 401. Course taught at the University of Houston.
Course URL: www.class.uh.edu/rotc/airforce

Americas Research Center (ARCR)

ARCR 451 - CONTEMPORARY SOCIAL MOVEMENTS
Short Title: CONTEMPORARY SOCIAL MOVEMENTS
Department: Americas Research Center
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hour: 1
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: 2011 saw an eruption of worldwide protest. These protests created new forms of mass democracy and popular resistance. This course seeks to engage this contemporary wave of global resistance from a multiplicity of vantage points. Graduate students who enroll are each expected to teach at least one class period. Graduate/Undergraduate Equivalency: ARCR 551. Mutually Exclusive: Credit cannot be earned for ARCR 451 and ARCR 551. Repeatable for Credit.

ARCR 478 - THE CARIBBEAN IN FRENCH
Short Title: THE CARIBBEAN IN FRENCH
Department: Americas Research Center
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This is the undergraduate senior version of the graduate level seminar FREN/ARCR 578. Both the course's reading list and the length of the research are adjusted to accommodate undergraduate needs. The seminar examines the history, political writings, literature and the arts of the French Caribbean from the beginning of colonization to the present. It will include figures such as Saint-John Perse, Roumain, Cesaire, Fanon, Depeste, Schwarz-Bart, Warner-Vieyra, Glissant, Conde, Chamoiseau, Laferriere, as well as the Caribbean arts and film. Taught in English. Cross-list: FREN 478. Mutually Exclusive: Credit cannot be earned for ARCR 478 and ARCR 578.
ARCR 515 - MAPPING LATINO ART
Short Title: MAPPING LATINO ART
Department: Americas Research Center
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course examines the history of Latino art in the United States since 1945 with emphasis on the artistic cultures of Chicanos, Cuban-Americans and Puerto Ricans. We will also study the problematical representation via gender, sexuality, race and other identities. Readings include exhibition catalogues, art history, and cultural history.

ARCR 551 - CONTEMPORARY SOCIAL MOVEMENTS
Short Title: CONTEMPORARY SOCIAL MOVEMENTS
Department: Americas Research Center
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hour: 1
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: 2011 saw an eruption of worldwide protest. These protests created new forms of mass democracy and popular resistance. This course seeks to engage this contemporary wave of global resistance from a multiplicity of vantage points. Graduate students who enroll are each expected to teach at least one class period. Graduate/Undergraduate Equivalency: ARCR 451. Mutually Exclusive: Credit cannot be earned for ARCR 551 and ARCR 451. Repeatable for Credit.

Ancient Mediterranean Civil (AMCI)

AMCI 400 - DIRECTED HONORS RESEARCH
Short Title: AMC HONORS THESIS
Department: Ancient Mediterranean Civil
Grade Mode: Standard Letter
Course Type: Research
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: In this two semester course an AMC student will write an honors thesis under the direction of an AMC faculty member. Instructor Permission Required. Repeatable for Credit.

Anthropology (ANTH)

ANTH 201 - INTRODUCTION TO SOCIAL/CULTURAL ANTHROPOLOGY
Short Title: INTRO TO SOCIAL/CULTURAL ANTH
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Lower-Level
Description: Introduction to the history, methods, and concepts of social/cultural anthropology, which is devoted to the systematic description and understanding of cultural diversity in human societies.

ANTH 203 - HUMAN ANTIQUITY: AN INTRODUCTION TO PHYSICAL ANTHROPOLOGY AND PREHISTORY
Short Title: INTRO TO PHYSICAL ANTHROPOLOGY
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Lower-Level
Description: This course offers a broad introduction to the human past as revealed by evolutionary studies of both biochemical and fossil evidence, and by archaeological studies of human cultural behavior.

ANTH 205 - INTRODUCTION TO ARCHAEOLOGY
Short Title: INTRO TO ARCHAEOLOGY
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Lower-Level
Description: An introduction to the elementary concepts of the discipline through a series of case studies.

ANTH 212 - PERSPECTIVES ON MODERN ASIA
Short Title: PERSPECTIVES ON MODERN ASIA
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Lower-Level
Description: A team taught interdisciplinary course focusing on the political, social and economic forces that are shaping the lives of the nearly one-half of the world’s population that lives in Asia. Provides a selective, in-depth look at certain important areas of East, Southeast and South Asia that reflect larger themes and problems. Cross-list: ASIA 212.
ANTH 290 - HISTORY AND ETHNOGRAPHY
Short Title: HISTORY & ETHNOGRAPHY
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This course focuses on the history and ethnography of a single people, the selection of which changes from year to year. Using all available materials, this course provides an introduction to the approaches of the discipline and how they have changed, registered by the different ways anthropologists and others have represented the same subjects over time.

ANTH 299 - EXPERIENTIAL EDUCATION IN ANTHROPOLOGY
Short Title: EXPERIENTIAL EDUCATION IN ANTH
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Internship/Practicum
Credit Hour: 1
Restrictions: Enrollment is limited to students with a major in Anthropology. Graduate level students may not enroll.
Course Level: Undergraduate Lower-Level
Description: This course provides one hour of university credit for a faculty-directed and approved internship. Students must obtain approval from a member of the department's undergraduate committee and must submit a letter from the internship provider indicating completion and satisfactory performance. Department Permission Required. Repeatable for Credit.

ANTH 300 - LINGUISTIC ANALYSIS
Short Title: LINGUISTIC ANALYSIS
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ANTH 200 or LING 200
Description: A hands-on, data-oriented approach to how different languages construct words and sentences. Students will develop skills in linguistic problem solving and the foundations for pursuing grammatical description. Topics: word classes, morphology, tense-aspect-modality, clause structure, word order, grammatical relations, existentials/possessives/locatives, voice/valence, questions, negation, relative clauses, complements, causatives. Cross-list: LING 300. Graduate/Undergraduate Equivalency: ANTH 500. Mutually Exclusive: Credit cannot be earned for ANTH 300 and ANTH 500.

ANTH 301 - PHONETICS
Short Title: PHONETICS
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Prerequisite(s): LING 200 or ANTH 200
Description: Introductory study of sound as it relates to speech and sound systems in the world's languages. Speech sounds are examined in terms of production mechanisms (articulatory phonetics), propagation mechanisms (acoustic phonetics), and perception mechanisms (auditory phonetics). Includes a basic introduction to Digital Signal Processing.
Cross-list: LING 301. Graduate/Undergraduate Equivalency: ANTH 501. Mutually Exclusive: Credit cannot be earned for ANTH 301 and ANTH 501.

ANTH 302 - ANTHROPOLOGICAL THEORY: A SURVEY
Short Title: ANTHROPOLOGICAL THEORY
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: A survey of the major theorists and theoretical schools of social-cultural anthropology. Strongly recommended for majors.

ANTH 303 - INTRODUCTION TO ARCHAEOLOGICAL SCIENCE
Short Title: INTRO ARCHAEOLOGY SCIENCE
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This course focuses on methods of scientific analysis applied to archaeological materials, including bone, stone, pottery, glass, and metal. Methods conclude absolute dating, mineral petrography, experimental archaeology, elemental and isotopic analysis, and ancient DNA. Labs offer hands-on experience with various archaeological materials and analytical methods. Recommended Prerequisite(s):

ANTH 205

ANTH 305 - HISTORICAL LINGUISTICS
Short Title: HISTORICAL LINGUISTICS
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Prerequisite(s): (ANTH 200 or LING 200) and (ANTH 301 or LING 301)
Description: Exploration of the nature of language change. Topics covered include sound change syntactic and semantic change, modeling language splits, the sociolinguistics of language change, and the history of European languages. Cross-list: LING 305. Graduate/Undergraduate Equivalency: ANTH 505. Mutually Exclusive: Credit cannot be earned for ANTH 305 and ANTH 505.
ANTH 308 - THE ANTHROPOLOGY OF THE HISTORICAL IMAGINATION
Short Title: THE HISTORICAL IMAGINATION
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Explores ideas of history and attitudes toward the past as culturally conditioned phenomena. Emphasizes history as a statement of cultural values as well as conceptualizations of cause, change, time, and reality. Cross-list: SWGS 336. Graduate/Undergraduate Equivalency: ANTH 508. Mutually Exclusive: Credit cannot be earned for ANTH 308 and ANTH 508.

ANTH 309 - GLOBAL CULTURES
Short Title: GLOBAL CULTURES
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This course will examine specific cultural debates and issues that have "overflowed" national boundaries. Topics will include student movements, democracy and citizenship, and the internationalization of professional and popular culture. Graduate/Undergraduate Equivalency: ANTH 509. Mutually Exclusive: Credit cannot be earned for ANTH 309 and ANTH 509.

ANTH 310 - CONTEMPORARY CHINESE CULTURE
Short Title: CONTEMPORARY CHINESE CULTURE
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This introductory course is designed to encourage ways of thinking about: Cultural China--a broad-ranging concept that includes the People's Republic of China, the newly established Special Administrative Region (SAR) of Hong Kong, the Republic of China on Taiwan, and overseas Chinese communities throughout the world.

ANTH 311 - MASCULINITIES
Short Title: MASCULINITIES
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This course deals with masculinities in the West, concentrating on concepts of masculine protagonism and personhood. Readings explore identities constructed in realms such as law, politics, finances, art, the home, and war. Cross-list: SWGS 333. Graduate/Undergraduate Equivalency: ANTH 511. Mutually Exclusive: Credit cannot be earned for ANTH 311 and ANTH 511.

ANTH 312 - AFRICAN PREHISTORY
Short Title: AFRICAN PREHISTORY
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This course considers anthropological theories of the state and examines ethnographic accounts of states in some unexpected places - that is, outside the official realm of government bureaucracies and institutionalized politics. Topics include so-called "stateless societies," planning and bureaucratic rationality, violence and power, and ethnographic methods for studying the state. Graduate/Undergraduate Equivalency: ANTH 512. Mutually Exclusive: Credit cannot be earned for ANTH 312 and ANTH 512.

ANTH 313 - LANGUAGE AND CULTURE
Short Title: LANGUAGE AND CULTURE
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Investigates the relation between language and thought, language and worldview, language and logic. Cross-list: LING 313. Graduate/Undergraduate Equivalency: ANTH 513. Mutually Exclusive: Credit cannot be earned for ANTH 313 and ANTH 513.

ANTH 317 - REVOLUTIONS AND UTOPIAS
Short Title: REVOLUTIONS AND UTOPIAS
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: In order to gain a more precise grasp of our contemporary political challenges and possibilities, this course in political anthropology investigates a wide range of historical and contemporary cases of rapid political and social transformation and carefully examines the ideas, desires and utopias that inspired them. Graduate/Undergraduate Equivalency: ANTH 517. Mutually Exclusive: Credit cannot be earned for ANTH 317 and ANTH 517.

ANTH 319 - SYMBOLISM AND POWER
Short Title: SYMBOLISM AND POWER
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This course considers anthropological theories of the state and examines ethnographic accounts of states in some unexpected places - that is, outside the official realm of government bureaucracies and institutionalized politics. Topics include so-called "stateless societies," planning and bureaucratic rationality, violence and power, and ethnographic methods for studying the state. Graduate/Undergraduate Equivalency: ANTH 519. Mutually Exclusive: Credit cannot be earned for ANTH 319 and ANTH 519.

Rice University
ANTH 330 - GEOARCHAEOLOGY
Short Title: GEOARCHAEOLOGY
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to students with a major in Anthropology or Earth Science. Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Overview of the basics of the analysis of soils and sediments as related to archaeological deposits, and introducing the key concepts of surficial geology, site formation, landscape evolution, and the scope of depositional environments. Includes practical methods for describing stratigraphy, sediments and soil profiles in the field. Cross-list: ESCI 330.

ANTH 331 - ART AND ARCHAEOLOGY OF THE ANCIENT NEAR EAST
Short Title: ANCIENT NEAR EAST
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: An in-depth examination of the art and archaeology of ancient Mesopotamia, Syria, Anatolia and Persia. Beginning in the Neolithic period, we will examine the development of Near Eastern art and architecture through the study of ancient sites and their associated material culture. Cross-list: HART 311.

ANTH 332 - THE SOCIAL LIFE OF CLEAN ENERGY
Short Title: SOCIAL LIFE OF CLEAN ENERGY
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This course considers the phenomenon of renewable energy, using a social scientific approach to analyze the various forces and interests involved in the development of renewable energy projects (such as hydropower, solar and wind) in both the global North and South. No prerequisites required. Cross-list: ENST 332. Graduate/Undergraduate Equivalency: ANTH 532. Mutually Exclusive: Credit cannot be earned for ANTH 332 and ANTH 532.

ANTH 333 - THE MATERIAL WORLD
Short Title: THE MATERIAL WORLD
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This course explores the mutually constructive relationship between humans and objects; it asks how objects are made meaningful and active by humans, and how, in turn, people acquire meaning, relations, and agency through material culture. Topics include: commoditization, consumption, gift exchange, subjects and objects, identity, fashion, collecting, art, and authenticity. Graduate/Undergraduate Equivalency: ANTH 533. Mutually Exclusive: Credit cannot be earned for ANTH 333 and ANTH 533.

ANTH 334 - THE CULTURE OF IDENTITY POLITICS IN CONTEMPORARY BRAZIL
Short Title: CULTURE AND IDENTITY IN BRAZIL
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This course introduces students to popular cultural manifestations in the form of festivals and artistic movements in the Nordeste of Brazil. The objective is to show how the cultural can be deeply political, with cultural manifestations speaking to everyday forms of representation, new identity formations, and struggles for social justice. Cross-list: HIST 333.

ANTH 335 - ANTHROPOLOGY AS CULTURAL CRITIQUE
Short Title: ANTHROPOLOGY/CULTURAL CRITIQUE
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: The critical assessment and interpretation of Euroamerican social institutions and cultural forms have always been an integral part of anthropology's intellectual project. This course will explain the techniques, history, and achievements of such critique. It will also view the purpose in the context of a more generational tradition of critical social thought in the West, especially the U.S. Graduate/Undergraduate Equivalency: ANTH 535. Mutually Exclusive: Credit cannot be earned for ANTH 335 and ANTH 535.

ANTH 336 - BECOMING A DOCTOR
Short Title: BECOMING A DOCTOR
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: The course introduces such classic anthropological concepts as the rite of passage and the cultural system as frames for the investigation of the professionalization of medicine as a discipline, medical training and the changing epistemologies of medical knowledge and the changing scope and content of the medical cosmos. Graduate/Undergraduate Equivalency: ANTH 536. Mutually Exclusive: Credit cannot be earned for ANTH 336 and ANTH 536.

ANTH 337 - JAPANESE POPULAR CULTURE
Short Title: JAPANESE POPULAR CULTURE
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Japan and the U.S. are connected by a mutual fascination with each other’s mass culture, with each country frequently employing the other as inspiration or cautionary tale. We will examine selections from anthropological work, juxtaposing it with theoretical readings on the nature of publics, crowds, and image circulation in general.
ANTH 338 - READING POPULAR CULTURE
Short Title: READING POPULAR CULTURE
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: The course examines a number of cases from popular genres—romance, novels, television sit-coms, tourist sites, movies, rock music and submits them to a variety of theoretical approaches from disciplines such as anthropology, sociology, literary studies, and philosophy. Graduate/Undergraduate Equivalency: ANTH 538. Mutually Exclusive: Credit cannot be earned for ANTH 338 and ANTH 538.

ANTH 339 - IMAGE, MEDIA, ANTHROPOLOGY
Short Title: IMAGE, MEDIA, ANTHROPOLOGY
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: The intersection of anthropology and aesthetics is making a significant contribution to the discipline. From the modern to the post-modern to the contemporary work of visual anthropology we will examine what it means to take up a philosophy of aesthetics, and consider how we can integrate this genealogy of thought into contemporary anthropological projects.

ANTH 340 - NEOLIBERALISM AND GLOBALIZATION
Short Title: NEOLIBERALISM & GLOBALIZATION
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This course explores the relationship between two of the most powerful forces shaping the world today: economic globalization and political neoliberalism. Using ethnographic, policy and theoretical documentation drawn from a variety of case studies, we will reconstruct the interrelated origins of globalization and neoliberalism and map their social and cultural impacts across the world. Graduate/Undergraduate Equivalency: ANTH 540. Mutually Exclusive: Credit cannot be earned for ANTH 340 and ANTH 540.

ANTH 341 - MUSEUMS AND HERITAGE: EXHIBITING ART, EXHIBITING CULTURE
Short Title: MUSEUMS AND HERITAGE
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: A wide-ranging introduction to museum studies with a particular focus on the collection and exhibition of cultural heritage materials. We will examine how heritage objects are displayed and represented in museums of art, natural historical history, and heritage. Topics include looking and ethics of collecting, policies of display, changing roles for museums; exhibition design and curatorial practice. Cross-list: HURC 341. Graduate/Undergraduate Equivalency: ANTH 541. Mutually Exclusive: Credit cannot be earned for ANTH 341 and ANTH 541.

ANTH 342 - ETHNOGRAPHIES OF CARE
Short Title: ETHNOGRAPHIES OF CARE
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: An ethnographically grounded exploration of the political, social, and intimate relations that constitute care in various situations of life and death. We ask how particular populations come to be understood as requiring, receiving, or being entitle to care? Who becomes obliged to provide care? And what are care's collateral effects? Graduate/Undergraduate Equivalency: ANTH 542. Mutually Exclusive: Credit cannot be earned for ANTH 342 and ANTH 542.

ANTH 343 - NEW RELIGIOUS MOVEMENTS IN AFRICA
Short Title: NEW RELIG MOVEMENTS IN AFRICA
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Discusses new religious movements and the religious, sociological, and political factors leading to their rise, also missionary and colonial reactions to them. Examines their relationship to indigenous religions, political praxis, and their focus on this-worldly salvation in the wake of political and economic marginality. Cross-list: RELI 342.
ANTH 344 - CITY/CULTURE
Short Title: CITY/CULTURE
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: The course will examine the cultural dimensions of nationalism, particularly around the creation of forms of "peoplehood" that seem to be presupposed by almost all nation-building projects. Texts to be analyzed will include the Declaration of Independence, the United States Constitution, and the Declaration of the Rights of Man. Graduate/Undergraduate Equivalency: ANTH 549. Mutually Exclusive: Credit cannot be earned for ANTH 344 and ANTH 544.

ANTH 345 - THE POLITICS OF THE PAST: ARCHAEOLOGY IN SOCIAL CONTEXT
Short Title: ARCHAEOLOGY IN SOCIAL CONTEXT
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: An examination of the way that archaeological evidence of the past has been used and viewed by particular groups at different times. Using case studies, the course considers issues of gender, race, Eurocentrism, political domination and legitimacy that emerge from critical analysis of representations of the past by archaeologists, museums, and collectors. Graduate/Undergraduate Equivalency: ANTH 545. Mutually Exclusive: Credit cannot be earned for ANTH 345 and ANTH 545.

ANTH 346 - VIRTUAL RECONSTRUCTION OF HISTORICAL CITIES
Short Title: VIRT RECONSTR HISTORCL CITIES
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Research
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This course, part of the HRC's Digital Humanities Initiative, is devoted to the virtual reconstruction of ancient urban landscapes with focus on individual buildings in their urban settings. All course activities will be based around interdisciplinary student teams who will work together through the semesters to complete a virtual reconstruction project. Instructor Permission Required. Cross-list: ARCH 310, COMP 316, HART 316.

ANTH 347 - THE U.S. AS A FOREIGN COUNTRY
Short Title: THE U.S. AS A FOREIGN COUNTRY
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: The course will examine the cultural dimensions of nationalism, particularly around the creation of forms of "peoplehood" that seem to be presupposed by almost all nation-building projects. Texts to be analyzed will include the Declaration of Independence, the United States Constitution, and the Declaration of the Rights of Man. Graduate/Undergraduate Equivalency: ANTH 549. Mutually Exclusive: Credit cannot be earned for ANTH 349 and ANTH 549.

ANTH 348 - ANTHROPOLOGIES OF NATURE
Short Title: ANTHROPOLOGIES OF NATURE
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This course examines the uses and makings of nature in accounts of the human and post-human. It introduces students to nature as an object of study, as an analytic and as a heuristic. Some of the topics the course explores include the nature-culture dyad, nature as resource, science and technology and the remaking of nature, economies of nature, materiality, nature and kinship, and natural ontologies. Graduate/Undergraduate Equivalency: ANTH 548. Mutually Exclusive: Credit cannot be earned for ANTH 348 and ANTH 548.

ANTH 349 - THE ANTHROPOLOGY OF ETHICS
Short Title: THE ANTHROPOLOGY OF ETHICS
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Philosophical ethics argues over the proper criteria of the definition and the assessment of ethical action. This course focuses on an emerging and increasingly salient anthropological project: empirical inquiry into the themes and variations of ethical systems and the sociocultural rationale for their existence and reproduction. Graduate/Undergraduate Equivalency: ANTH 549. Mutually Exclusive: Credit cannot be earned for ANTH 349 and ANTH 549.

ANTH 351 - CULTURES OF NATIONALISM
Short Title: CULTURES OF NATIONALISM
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This course will examine the cultural dimensions of nationalism, particularly around the creation of forms of "peoplehood" that seem to be presupposed by almost all nation-building projects. Texts to be analyzed will include the Declaration of Independence, the United States Constitution, and the Declaration of the Rights of Man. Graduate/Undergraduate Equivalency: ANTH 551. Mutually Exclusive: Credit cannot be earned for ANTH 351 and ANTH 551.

ANTH 362 - ARCHAELOGICAL FIELD TECHNIQUES
Short Title: ARCHAELOGICAL FLD TECHNIQUES
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ANTH 205
Description: Methods used in fieldwork, laboratory analysis, and interpretation of archaeological data from a local site excavated by the class. Graduate/Undergraduate Equivalency: ANTH 562. Mutually Exclusive: Credit cannot be earned for ANTH 362 and ANTH 562. Repeatable for Credit.

ANTH 363 - EARLY CIVILIZATIONS
Short Title: EARLY CIVILIZATIONS
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: A comparative study of the civilizations of Mesopotamia, Egypt, the Indus, China, and the Maya, emphasizing the causes and conditions of their origins. Graduate/Undergraduate Equivalency: ANTH 363. Mutually Exclusive: Credit cannot be earned for ANTH 363 and ANTH 563.

ANTH 364 - AFRICAN ARCHAEOLOGY FIELD TECHNIQUES
Short Title: AFRICAN ARCHAEOLOGY
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Research
Credit Hours: 1-6
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: In this course, basic field archaeology techniques are taught on-site in an archaeological context in Africa with emphasis on excavation methods, artifact recovery, and recording techniques. Students will excavate stone structures and a variety of historical deposits. Fieldwork takes place in Africa, June-July. Graduate/Undergraduate Equivalency: ANTH 364. Mutually Exclusive: Credit cannot be earned for ANTH 364 and ANTH 564. Repeatable for Credit.
Course URL: www.songomara.rice.edu/fieldschool.htm

ANTH 365 - POLITICS OF REPRESENTATION: HOW WE UNDERSTAND "WAR" AND "THE RACIAL OTHER"
Short Title: POLITICS OF REPRESENTATION
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Does media show how things really are? This class explores the politics of representation, particularly in times of social mayhem, revolution, and war. Although we will focus primarily on cultural and political representations of the Israeli-Palestinian conflict, this class will also put this dispute in comparison with other global events. Cross-list: SOCI 365.

ANTH 366 - SCIENCE, LOCAL AND GLOBAL
Short Title: SCIENCE, LOCAL AND GLOBAL
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This course explores science as a transnational phenomenon, focusing on the pathways along which it flows around the world. Topics include differences in local styles of reasoning, dynamics of international scientific collaborations, transnational migration of knowledge workers, the role of science in nationalist projects, and the commodification of science. Graduate/Undergraduate Equivalency: ANTH 366. Mutually Exclusive: Credit cannot be earned for ANTH 366 and ANTH 566.

ANTH 370 - ARCHAELOGICAL LABORATORY TECHNIQUES AND ANALYSIS
Short Title: ARCHAELOGICAL LABORATORY
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3-6
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Techniques of processing, conserving, and recording archaeological materials are emphasized. Students will become familiar with procedures for pottery, glass, metals, and building materials in addition to plant and animal remains. Course work includes lectures, hands-on lab work, and informal discussion. Lab takes place in Africa, June-July. Graduate/Undergraduate Equivalency: ANTH 370. Mutually Exclusive: Credit cannot be earned for ANTH 370 and ANTH 570. Repeatable for Credit.

ANTH 371 - MONEY AND EVERYDAY LIFE
Short Title: MONEY AND EVERYDAY LIFE
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Money is such a part of everyday modern life that it is hard for us to imagine living without it. Yet in many pre-modern societies, gift-exchange was as important as money is in our own. This course will look at the cultural dimensions of systems of exchange, ranging from gift giving among Northwest Coast Indians to foreign currency exchanges between financial institutions. Along with the classic work of Marx and Simmel on money and capital, we will also cover some of the anthropological work on gifts and exchange, such as that of Mauss, Levi-Strauss, and Bourdieu, as well as some of the contemporary debates initiated by Bataille and Derrida. Graduate/Undergraduate Equivalency: ANTH 371. Mutually Exclusive: Credit cannot be earned for ANTH 371 and ANTH 571.
ANTH 372 - CULTURES OF CAPITALISM
Short Title: CULTURES OF CAPITALISM
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Most of us think of capitalism as primarily an economic phenomenon. Yet, it also has a profoundly cultural dimension. This class will examine how capitalism and related phenomena, such as commodification, markets and marketing, corporate finance and the calculation of risk, both affect and are affected by culture. We will consider the impact of capitalist markets on social relations and gender identities; on ideals of patriotism, responsibility and success; and on popular culture and leisure practices. We will also ask how people resist, appropriate and modify in culturally specific ways the logic and institutions of a global capitalist order. Graduate/Undergraduate Equivalency: ANTH 572. Mutually Exclusive: Credit cannot be earned for ANTH 372 and ANTH 572.

ANTH 374 - ASIAN PREHISTORY
Short Title: ASIAN PREHISTORY
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: The course covers select topics in the archaeology and paleoanthropology of Asia from the arrival of Homo erectus to the development of the earliest civilizations. Class discussions will focus on the history of exploration in Asia and the main debates that have shaped the study of prehistory in the largest continent on Earth. Graduate/Undergraduate Equivalency: ANTH 574. Mutually Exclusive: Credit cannot be earned for ANTH 374 and ANTH 574.

ANTH 376 - ART AND ACTIVISM
Short Title: ART AND ACTIVISM
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This course explores art and social change in times of mass displacement, racial oppression, and war. It surveys the efforts involved in achieving justice and the possible implications of remaining historically mute and hopeless. The class will host contemporary activists and artists concerned with radical visions of hope in Houston. Cross-list: SOCI 376.

ANTH 378 - PLACE AND MEMORY IN MIDDLE EASTERN AND EUROPEAN CINEMA
Short Title: MEMORY AND PLACE IN CINEMA
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 4
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Focuses on cinematic explorations of and preoccupations with the notion of place. Screenings include iconic and lesser-known films from Europe and the Middle East that offer diverse lenses and contexts (love, family, landscapes, borders, trauma, exile) through which we will examine questions of real and imagined place and the politics of memory. Cross-list: FILM 378, HART 391. Graduate/Undergraduate Equivalency: ANTH 578. Mutually Exclusive: Credit cannot be earned for ANTH 378 and ANTH 578.

ANTH 381 - MEDICAL ANTHROPOLOGY
Short Title: MEDICAL ANTHROPOLOGY
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Cultural, ecological, and biological perspectives on human health and disease throughout the world. Graduate/Undergraduate Equivalency: ANTH 581. Mutually Exclusive: Credit cannot be earned for ANTH 381 and ANTH 581.

ANTH 382 - BODY, TECHNOLOGY, AND ENHANCEMENT
Short Title: BODY, TECHNOLOGY, ENHANCEMENT
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Focuses on cinematic explorations of and preoccupations with the notion of place. Screenings include iconic and lesser-known films from Europe and the Middle East that offer diverse lenses and contexts (love, family, landscapes, borders, trauma, exile) through which we will examine questions of real and imagined place and the politics of memory. Cross-list: FILM 378, HART 391. Graduate/Undergraduate Equivalency: ANTH 578. Mutually Exclusive: Credit cannot be earned for ANTH 378 and ANTH 578.

ANTH 384 - PALEO-TECHNOLOGY
Short Title: PALEO-TECHNOLOGY
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This Stone Age semester will immerse students in hunter-gatherer lifeways and the innovations that allowed our ancestors to survive. Student "bands" will complete cooperative learning tasks to ensure group survival (assessment). Most class meetings will be held in outdoor space on campus. Graduate/Undergraduate Equivalency: ANTH 584. Mutually Exclusive: Credit cannot be earned for ANTH 384 and ANTH 584.
ANTH 385 - MEDIA, CULTURE, AND SOCIETY
Short Title: MEDIA, CULTURE, AND SOCIETY
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This course offers a theoretical and ethnographic overview of past, current, and future anthropological research on media. Topics rotate but can include: cultural conservation among indigenous peoples, spectacle and sexuality, nationalism, advertising, journalism, and news-making, political communication and activism, technology and social change. Graduate/Undergraduate Equivalency: ANTH 585. Mutually Exclusive: Credit cannot be earned for ANTH 385 and ANTH 585.

ANTH 386 - MEDICAL ANTHROPOLOGY OF FOOD AND HEALTH
Short Title: MEDICINE, FOOD, AND HEALTH
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Food is increasingly understood and manipulated at the molecular level and used in therapy or disease prevention. This course focuses on the fluid intersection of biomedicine and nutrition as changes in agriculture, food safety, and research into the physiological and genetic effects of food alter how Western cultures eat. Graduate/Undergraduate Equivalency: ANTH 586. Mutually Exclusive: Credit cannot be earned for ANTH 386 and ANTH 586.

ANTH 387 - ASIAN AMERICAN CONTEMPORARY COMMUNITIES
Short Title: ASIAN AMERICAN COMMUNITIES
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This interdisciplinary course will investigate the diverse cultural traditions and shared experiences of Asian Americans in the United States. By analyzing historical works, literary texts, and films, we will explore a range of topics including Asian immigration, gender roles, identity formation, and ethnic media. Cross-list: ASIA 387.

ANTH 388 - THE LIFE CYCLE: A BIOCULTURAL VIEW
Short Title: LIFE CYCLE: A BIOCULTURAL VIEW
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: The human life cycle from conception to death. Focus is on the interaction between biological processes and culture. Cross-list: SWGS 335. Graduate/Undergraduate Equivalency: ANTH 588. Mutually Exclusive: Credit cannot be earned for ANTH 388 and ANTH 588.

ANTH 389 - THE ARCHAEOLOGY OF FOOD
Short Title: ARCHAEOLOGY OF FOOD
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This course offers a broad anthropological perspective on food and culture, as well as the way that archaeologists attempt to reconstruct the subsistence technologies and diets of ancient peoples. Topics include forager and agricultural subsistence technologies, the origins of food production, feasting, food and identity, and gender and food. Graduate/Undergraduate Equivalency: ANTH 589. Mutually Exclusive: Credit cannot be earned for ANTH 389 and ANTH 589.

ANTH 390 - CULTURE, NARRATION, AND SUBJECTIVITY
Short Title: CULTURE, NARRATION, SUBJECTIVITY
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This course examines how linguistic and narrative structures interact to produce specific cultures of interpretation. The focus will be on linguistic and literary representations of subjectivity. This course will use novels by Western authors, such as Virginia Woolf and Dostoevsky, and some Chinese materials as comparison. Graduate/Undergraduate Equivalency: ANTH 590. Mutually Exclusive: Credit cannot be earned for ANTH 390 and ANTH 590.

ANTH 391 - SPECULATIVE FUTURES
Short Title: SPECULATIVE FUTURES
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Drawing from "CliFi," "Speculative Fiction," and global anthropological case studies, this course analyzes a series of potential futures as earthly conditions continue to be altered by human activity. Students will develop speculative future models through assessing climate conditions, population displacement, ethics, ecological transformations and human practices and values. Cross-list: ENST 391. Graduate/Undergraduate Equivalency: ANTH 591. Mutually Exclusive: Credit cannot be earned for ANTH 391 and ANTH 591.
ANTH 397 - ANTHROPOLOGY JOURNAL CLUB
Short Title: ANTHROPOLOGY JOURNAL CLUB
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Students select, read, and discuss current articles from leading journals in sociocultural anthropology and related fields.
Department Permission Required. Mutually Exclusive: Credit cannot be earned for ANTH 397 and ANTH 597. Repeatable for Credit.

ANTH 398 - ETHNOGRAPHIC RESEARCH METHODS
Short Title: ETHNOGRAPHIC RESEARCH
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Course considers the practice of ethnographic research (design, data collection and analysis). Topics include the contentious canonization of fieldwork & the ethnographic method, ethics & human subjects, rethinking the field & collaboration. Projects include participant observation, field notes, interviewing, and analysis of archival, ephemeral & audio/visual materials. Graduate/Undergraduate Equivalency: ANTH 598. Mutually Exclusive: Credit cannot be earned for ANTH 398 and ANTH 598.

ANTH 399 - LAW AND RESISTANCE IN THE EVERYDAY
Short Title: LAW AND RESISTANCE
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This course will explore how people interact with the law in their everyday lives — in the U.S. and elsewhere. Examples will include how individuals experience and respond to policing, examining the effects of immigration and border security policies, and tracing how people and groups mobilize to challenges laws perceived as unjust.
Mutually Exclusive: Credit cannot be earned for ANTH 396 and ANTH 596.

ANTH 400 - GLOBAL URBAN LAB
Short Title: GLOBAL URBAN LAB
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Research
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Guided independent research with lab component to study questions under the topics of sports, healthcare, transportation, immigration, and urban development in Houston and other global cities covered in the Global Urban Lab program. Instructor Permission Required. Mutually Exclusive: Credit cannot be earned for ANTH 400 and POST 400/SOSC 400.

ANTH 403 - ANALYZING PRACTICE
Short Title: ANALYZING PRACTICE
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: A critical review of work informed by what has sometimes been deemed the "key concept" of anthropological theory and research since the 1960s. Special attention will be devoted to the analytics of practice developed by Foucault, by Bourdieu, and by de Certeau. Graduate/Undergraduate Equivalency: ANTH 603. Mutually Exclusive: Credit cannot be earned for ANTH 403 and ANTH 603.

ANTH 404 - INDEPENDENT STUDY
Short Title: INDEPENDENT STUDY
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Independent Study
Credit Hours: 1-9
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Directed reading and preparation of written papers on anthropological subjects not offered in the curriculum and advanced study of subjects on which courses are offered. Instructor Permission Required. Repeatable for Credit.
ANTH 405 - MUSEUM INTERNSHIP AND DIRECTED READING
Short Title: MUSEUM INTERNSHIP
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Internship/Practicum
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This course combines a research-oriented internship at a local museum with directed readings in preparation for the specific focus of the internship. Instructor Permission Required. Recommended Prerequisite(s): ANTH 341.

ANTH 406 - COGNITIVE STUDIES
Short Title: COGNITIVE STUDIES
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Relations between thought, language, and culture. Special emphasis given to natural systems of classification and the logical principles underlying them. Cross-list: LING 406. Graduate/Undergraduate Equivalency: ANTH 606. Mutually Exclusive: Credit cannot be earned for ANTH 406 and ANTH 606.

ANTH 407 - LINGUISTIC FIELD METHODS
Short Title: LINGUISTIC FIELD METHODS
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 5
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Prerequisite(s): (LING 300 or ANTH 300) and (LING 301 or ANTH 301) and (LING 304 or ANTH 304) and (LING 311 or ANTH 323) or (LING 500 or ANTH 500) and (LING 501 or ANTH 501) and (LING 504 or ANTH 504) and (LING 511 or ANTH 523)
Description: Techniques and practice in the observation, analysis, and recording of a human language. Cross-list: LING 407. Repeatable for Credit.

ANTH 408 - LINGUISTIC FIELD METHODS
Short Title: LINGUISTIC FIELD METHODS
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 5
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ANTH 407 or LING 407
Description: Continuation of ANTH 407 or LING 407. Cross-list: LING 408. Repeatable for Credit.

ANTH 409 - THE ETHNOGRAPHY OF DEVELOPMENT
Short Title: THE ETHNOGRAPHY OF DEVELOPMENT
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Overview of classical theories. Intensive discussion of contemporary theories and applications in a wide variety of disciplines. Cross-list: LING 410. Graduate/Undergraduate Equivalency: ANTH 612. Mutually Exclusive: Credit cannot be earned for ANTH 410 and ANTH 612.

ANTH 410 - CULTURE AFTER COMMUNISM
Short Title: CULTURE AFTER COMMUNISM
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Examines cultural transformations in the late- and post-socialist societies of East-Central Europe, the former Soviet Union, and Asia. Explores everyday discourses and practices through which new forms of property, selfhood, nationalism, and the state are emerging, and the legacy of cold war politics for ethnographic representation of these societies. Graduate/Undergraduate Equivalency: ANTH 613. Mutually Exclusive: Credit cannot be earned for ANTH 413 and ANTH 613.
ANTH 414 - HERMENEUTICS AND LINGUISTIC ANTHROPOLOGY

Short Title: HERMENEUTICS &LINGUISTIC ANTH

Department: Anthropology

Grade Mode: Standard Letter

Course Type: Lecture

Credit Hours: 3

Restrictions: Graduate level students may not enroll.

Course Level: Undergraduate Upper-Level

ANTH 417 - ONTOLOGIES, VITALITIES, THINGS

Short Title: ONTOLOGIES, VITALITIES, THINGS

Department: Anthropology

Grade Mode: Standard Letter

Course Type: Seminar

Credit Hours: 3

Restrictions: Graduate level students may not enroll.

Course Level: Undergraduate Upper-Level

Description: Course focuses on emerging and established thematics in cultural anthropology that have been drawn from philosophical (and other) interventions concerning being, matter, vibrancy, vitality and objects and considers how these conceptual domains can be productively engaged in the empirical work of anthropology. Graduate/Undergraduate Equivalency: ANTH 617. Mutually Exclusive: Credit cannot be earned for ANTH 417 and ANTH 617.

ANTH 420 - ETHNOGRAPHY STUDIO

Short Title: ETHNOGRAPHY STUDIO

Department: Anthropology

Grade Mode: Standard Letter

Course Type: Seminar

Credit Hours: 3

Restrictions: Graduate level students may not enroll.

Course Level: Undergraduate Upper-Level

Description: Students will read a selection of contemporary ethnographies deemed "exemplary" by diverse audiences paired with theoretical works that the authors claim in their arguments. The course will focus on how ethnographies are structured, the central issues they investigate, and how they go about doing this. The central task of the class is to analyze, critically but also productively, what rigor and creativity mean in the ethnographic investigation of contemporary and recurring questions and problems, relations between questions, theory and ethnography will also be explored through students’ own ethnographic writing. Graduate/Undergraduate Equivalency: ANTH 620. Mutually Exclusive: Credit cannot be earned for ANTH 420 and ANTH 620.

ANTH 422 - INFRASTRUCTURES AND POWER

Short Title: INFRASTRUCTURES AND POWER

Department: Anthropology

Grade Mode: Standard Letter

Course Type: Seminar

Credit Hours: 3

Restrictions: Graduate level students may not enroll.

Course Level: Undergraduate Upper-Level

Description: This seminar course asks why “infrastructure” – that which enables other things to happen – has recently become such an important concept in the human sciences. After reviewing recent and classic theoretical approaches we explore recent anthropological studies of infrastructures-in-action ranging from information and media infrastructures to environmental and biotic infrastructures to infrastructures of governance and power. Graduate/Undergraduate Equivalency: ANTH 622. Mutually Exclusive: Credit cannot be earned for ANTH 422 and ANTH 622.

ANTH 423 - AFRICAN MYTHS AND RITUALS

Short Title: AFRICAN MYTHS AND RITUALS

Department: Anthropology

Grade Mode: Standard Letter

Course Type: Lecture

Distribution Group: Distribution Group I

Credit Hours: 3

Restrictions: Graduate level students may not enroll.

Course Level: Undergraduate Upper-Level

Description: Explore and analyze specific myths and rituals which provide legitimation for community ceremonies and that serve as a basis for the negotiation of power and ideology for members within that community. Readings from classic theorists: Durkheim, Levi-Strauss, Edmond Leach, Gennap and Turner, and contemporary theorists: Werbner, Heusch, Comaroff, and Ray. Cross-list: RELI 423.

ANTH 425 - ADVANCED TOPICS IN ARCHAEOLOGY

Short Title: ADVANCED TOPICS IN ARCHAEOLOGY

Department: Anthropology

Grade Mode: Standard Letter

Course Type: Seminar

Credit Hours: 3

Restrictions: Graduate level students may not enroll.

Course Level: Undergraduate Upper-Level

Prerequisite(s): ANTH 205 and ANTH 362

Description: Seminar on selected topics in archaeological analysis and theory. The course will variously focus on ceramic analysis and classification, archaeological sampling in regional survey and excavation, and statistical approaches to data analysis and presentation. Please consult with the department for additional information. Graduate/Undergraduate Equivalency: ANTH 625. Mutually Exclusive: Credit cannot be earned for ANTH 425 and ANTH 625. Repeatable for Credit.
ANTH 429 - ACTIVISM AND SOCIAL MOVEMENTS
Short Title: ACTIVISM AND SOCIAL MOVEMENTS
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Movements to alleviate inequalities constitute important cultural and political interventions globally. This course examines advocacy practices to create and sustain social movements and political struggles. Cases included grassroots advocacy, NGOs, transnational and technological activism; environmental justice; human rights; gender, ethnic and sexual rights; consumption and globalization; democratization and neoliberalism. Graduate/Undergraduate Equivalency: ANTH 629. Mutually Exclusive: Credit cannot be earned for ANTH 429 and ANTH 629.

ANTH 440 - REGULATORY TRANSLATIONS LAB
Short Title: REGULATORY TRANSLATIONS LAB
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Laboratory
Credit Hours: 2
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This class examines how the concept of "translation" can be used to understand the movement of regulations around our globalized world. It is designed as a research experience that will give students the opportunity to conduct archival research, produce annotated bibliographies, and conduct a literature review with an interdisciplinary approach that combines the social sciences and humanities. This is a hands on lab that will benefit students who are interested in the law from a social perspective and interdisciplinary thinking and research methods. Instructor Permission Required.

ANTH 441 - EXPLORING THE UNDERGROUND THROUGH ETHNOGRAPHY
Short Title: EXPLORING THE UNDERGROUND
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Research
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This class will be a hands-on research experience to explore the meaning and uses of "the underground and the subterranean" across diverse communities. Students will review existing academic literature and artistic forms of expression that explore the meaning of the underground of r scientists, activists, artists, and everyday citizens. Students will also conduct fieldwork (interviews and participant observation) with Houston communities to understand what practices bring people close to that which is not immediately visible. Instructor Permission Required.

ANTH 442 - MUSEUMS: THEORY AND PRACTICE
Short Title: MUSEUMS: THEORY & PRACTICE
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Internship/Practicum
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This course combines readings and lectures exploring the representation of anthropological and archaeological materials in Museum exhibits with an internship at the Houston Museum of Natural Science. Graduate/Undergraduate Equivalency: ANTH 642. Mutually Exclusive: Credit cannot be earned for ANTH 442 and ANTH 642.

ANTH 443 - ANTHROPOLOGY OF RACE, ETHNICITY AND HEALTH
Short Title: RACE ETHNICITY AND HEALTH
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This course explores how human bodies and biomedical 'facts' are culturally constructed with respect to race and ethnicity, and examines how these constructs variably impact experiences of health, well-being and illness. Graduate/Undergraduate Equivalency: ANTH 643. Mutually Exclusive: Credit cannot be earned for ANTH 443 and ANTH 643.

ANTH 444 - CULTURE, PSYCHIATRY, AND MENTAL ILLNESS
Short Title: CULTURE AND MENTAL ILLNESS
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This seminar takes psychiatric practice as an object of anthropological investigation. It explores the ways in which emotional suffering and therapeutic systems are constituted within various social, cultural, and historical contexts. Topics include affect, anxiety, psychosis, and somatization in cross-cultural perspective; diagnostic standardization; the cultural history of psychiatry; institutionalization and deinstitutionalization; psychiatric professionalization; the globalization of Western psychiatric practice; and critical anti-psychiatry movements. Graduate/Undergraduate Equivalency: ANTH 644. Mutually Exclusive: Credit cannot be earned for ANTH 444 and ANTH 644.

ANTH 445 - EXPERTS AND CULTURES OF EXPERTISE
Short Title: EXPERTS/EXPERTISE
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This seminar takes psychiatric practice as an object of anthropological investigation. It explores the ways in which emotional suffering and therapeutic systems are constituted within various social, cultural, and historical contexts. Topics include affect, anxiety, psychosis, and somatization in cross-cultural perspective; diagnostic standardization; the cultural history of psychiatry; institutionalization and deinstitutionalization; psychiatric professionalization; the globalization of Western psychiatric practice; and critical anti-psychiatry movements. Graduate/Undergraduate Equivalency: ANTH 644. Mutually Exclusive: Credit cannot be earned for ANTH 444 and ANTH 644.
ANTH 446 - ADVANCED TOPICS IN BIOMEDICAL ANTHROPOLOGY
Short Title: ADV BIOMEDICAL ANTHROPOLOGY
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ANTH 381
Description: Seminar on contemporary research on the biomedical aspects of human health and disease. Includes topics from medical ecology and epidemiology. Graduate/Undergraduate Equivalency: ANTH 646. Mutually Exclusive: Credit cannot be earned for ANTH 446 and ANTH 646.

ANTH 447 - MODERN ETHNOGRAPHY AND THE ETHNOGRAPHY OF MODERNITY
Short Title: MODERN ETHNOGRAPHY
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: The course explores the strategies of representation, the methodologies, and the diagnostic categories to which anthropologists have resorted in coming to terms with such phenomena as rationalization, economic and informational globalization, and the commodification of culture. Graduate/Undergraduate Equivalency: ANTH 647. Mutually Exclusive: Credit cannot be earned for ANTH 447 and ANTH 647.

ANTH 448 - PHENOMENOLOGICAL ANTHROPOLOGY
Short Title: PHENOMENOLOGICAL ANTHROPOLOGY
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This advanced seminar explores phenomenological theory in the human sciences beginning with Hegel and Marx and examines its uptake in recent works of anthropological ethnography and theory. The course will focus especially upon questions of selfhood and alterity, affect and emotion, and the senses and knowledge. Graduate/Undergraduate Equivalency: ANTH 648. Mutually Exclusive: Credit cannot be earned for ANTH 448 and ANTH 648.

ANTH 449 - CULTURES OF SEXUALITY
Short Title: CULTURES OF SEXUALITY
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: What is "sexuality" across cultural milieux? This course analyzes understandings and practices of sexuality from a global, comparative perspective, including different social configurations of gender and intimacy, reproduction, sensuality and the erotic. Case studies explore the complex relationships between sexuality and gender, ethnicity, nationalism, globalization, commodification, politics, media, health and medicine. Cross-list: SWGS 449. Graduate/Undergraduate Equivalency: ANTH 649. Mutually Exclusive: Credit cannot be earned for ANTH 449 and ANTH 649.

ANTH 451 - THE ANTHROPOLOGY OF WATER
Short Title: THE ANTHROPOLOGY OF WATER
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Laboratory
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This class will offer students concepts and methodological resources to conduct their own research projects on water related issues from an anthropological perspective. It will include reading materials and fieldwork according to each student's project specificities. Mutually Exclusive: Credit cannot be earned for ANTH 451 and ANTH 651.

ANTH 453 - COLLATERAL AFTERWORLDS
Short Title: COLLATERAL AFTERWORLDS
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Drawing on ethnography and social theory, this course develops analytics attuned to the socialities, intimacies, temporalities, and forms of ethic that emerge in the precarious spaces of liberal and democratic violence and failure. In refugee camps or climate catastrophes, in a queer present or under enduring legacies, what happens if we think the social with hope and futurity in abeyance? Mutually Exclusive: Credit cannot be earned for ANTH 453 and ANTH 653. Repeatable for Credit.
**ANTH 456 - HERITAGE MANAGEMENT**
Short Title: HERITAGE MANAGEMENT
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This course examines the policies and politics of heritage management from a global perspective. We examine how different nations define, protect, and manage heritage resources. Case studies will present debates over the meaning and interpretation of cultural heritage and illustrate connections between heritage and such issues as nationalism and identity. The graduate level course will engage students at a more advanced theoretical level through additional reading assignments and an additional paper. Graduate/Undergraduate Equivalency: ANTH 656. Mutually Exclusive: Credit cannot be earned for ANTH 456 and ANTH 656.

**ANTH 458 - HUMAN OSTEOLOGY**
Short Title: HUMAN OSTEOLOGY
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Introduction to the analysis of human skeletal material from archaeological sites. Graduate/Undergraduate Equivalency: ANTH 658. Mutually Exclusive: Credit cannot be earned for ANTH 458 and ANTH 658.

**ANTH 456 - WEST AFRICAN PREHISTORY**
Short Title: WEST AFRICAN PREHISTORY
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Seminar providing in-depth consideration of the later prehistoric archaeology (late Stone Age and Iron Age) of the West African subcontinent. Graduate/Undergraduate Equivalency: ANTH 663. Mutually Exclusive: Credit cannot be earned for ANTH 463 and ANTH 663.

**ANTH 457 - SPECIAL TOPICS**
Short Title: SPECIAL TOPICS
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 1-4
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Topics and credit hours vary each semester. Contact department for current semester’s topic(s). Repeatable for Credit.

**ANTH 483 - SEMINAR ON DOCUMENTARY AND ETHNOGRAPHIC FILM**
Short Title: DOCUM & ETHNOGRAPH FILM
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 4
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Overview of the history of documentary and ethnographic cinema from a worldwide perspective. Includes both canonical and alternative films and film movements, with emphasis on the shifting and overlapping of boundaries of fiction and nonfiction genres. Graduate/Undergraduate Equivalency: ANTH 683. Mutually Exclusive: Credit cannot be earned for ANTH 483 and ANTH 683.

**ANTH 490 - DIRECTED HONORS RESEARCH**
Short Title: DIRECTED HONORS RESEARCH
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Research
Credit Hours: 1-3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: A two-semester sequence of independent research culminating in the preparation and defense of an honors thesis. Open only to candidates formally accepted into the honors program. Instructor Permission Required.

**ANTH 491 - DIRECTED HONORS RESEARCH**
Short Title: DIRECTED HONORS RESEARCH
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Research
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: A two-semester sequence of independent research culminating in the preparation and defense of an honors thesis. Open only to candidates formally accepted into the honors program. Instructor Permission Required.
ANTH 493 - SENIOR RESEARCH PREPARATION
Short Title: SENIOR RESEARCH PREPARATION
Department: Anthropology
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Seminar
Credit Hour: 1
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Through this required course for Anthropology majors in their final year of the program, students will cultivate skills in research design and preparation, complete training in research ethics, prepare research ethics protocols, connect with faculty advisors for their senior research project, and connect with other students in their cohort.

ANTH 494 - SENIOR RESEARCH SEMINAR
Short Title: SENIOR RESEARCH SEMINAR
Department: Anthropology
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Seminar
Credit Hour: 1
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ANTH 493
Corequisite: ANTH 495
Description: This is a required course that follows ANTH 493 Senior Research Preparation, and is taken to support ANTH 495, Senior Research. The course supports students in conceptualizing and writing their senior research paper and crating their oral research presentation.

ANTH 495 - ANTHROPOLOGY CAPSTONE
Short Title: ANTHROPOLOGY CAPSTONE
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Research
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Corequisite: ANTH 494
Description: Required of all anthropology majors who do not enroll in ANTH 490 and ANTH 491. Each student formulates and completes an advanced research project guided by a faculty supervisor and evaluated by a faculty panel. Students who register for ANTH 495 must also simultaneously register for ANTH 494.

ANTH 500 - LINGUISTIC ANALYSIS
Short Title: LINGUISTIC ANALYSIS
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: A hands-on, data-oriented approach to how different languages construct words and sentences. Students will develop skills in linguistic problem solving and the foundations for pursuing grammatical description. Topics: word classes, morphology, tense-aspect-modality, clause structure, word order, grammatical relations, existentials/possessives/locatives, voice/valence, questions, negation, relative clauses, complements causatives. Cross-list: LING 500. Graduate/Undergraduate Equivalency: ANTH 300. Mutually Exclusive: Credit cannot be earned for ANTH 500 and ANTH 300.

ANTH 501 - PHONETICS
Short Title: PHONETICS
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Introductory study of sound as it relates to speech and sound systems in the world's languages. Speech sounds are examined in terms of production mechanisms (articulatory phonetics), propagation mechanisms (acoustic phonetics), and perception mechanisms (auditory phonetics). Includes a basic introduction to Digital Signal Processing. Without Permission of Instructor, must have Graduate Standing. Cross-list: LING 501. Graduate/Undergraduate Equivalency: ANTH 301. Mutually Exclusive: Credit cannot be earned for ANTH 501 and ANTH 301.

ANTH 505 - HISTORICAL LINGUISTICS
Short Title: HISTORICAL LINGUISTICS
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): ANTH 200 or LING 200
Description: Exploration of the nature of language change. Topics covered include sound change, syntactic and semantic change, modeling language splits, the sociolinguistics of language change, and the history of European languages. Without Permission of Instructor, must have Graduate Standing. Cross-list: LING 505. Graduate/Undergraduate Equivalency: ANTH 305. Mutually Exclusive: Credit cannot be earned for ANTH 505 and ANTH 305.

ANTH 506 - HISTORY OF ANTHROPOLOGICAL IDEAS
Short Title: HIST OF ANTHROPOLOGICAL IDEAS
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: An introduction to the history of anthropology and its theories and methods. The emphasis is upon social and cultural anthropology.

ANTH 507 - ANTHROPOLOGICAL DIRECTIONS FROM SECOND WORLD WAR TO PRESENT
Short Title: ANTHRO FROM 2ND WW-PRESENT
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: A sequel to ANTH 306/506, the course explores turns and trends in sociocultural research and critique during the past half-century. Special attention is paid to the rise and fall of structuralism, the problematization of "the primitive" and the proliferation of theories of "practice."
ANTH 508 - THE ANTHROPOLOGY OF THE HISTORICAL IMAGINATION
Short Title: THE HISTORICAL IMAGINATION
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 5
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Explores ideas of history and attitudes toward the past as culturally conditioned phenomena. Emphasizes history as a statement of cultural values as well as conceptualizations of cause, change, time, and reality. Graduate/Undergraduate Equivalency: ANTH 308. Mutually Exclusive: Credit cannot be earned for ANTH 508 and ANTH 308.

ANTH 509 - GLOBAL CULTURES
Short Title: GLOBAL CULTURES
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course will examine specific cultural debates and issues that have "overflowed" national boundaries. Topics will include student movements, democracy and citizenship, and the internationalization of professional and popular culture. Graduate/Undergraduate Equivalency: ANTH 309. Mutually Exclusive: Credit cannot be earned for ANTH 509 and ANTH 309.

ANTH 511 - MASCULINITIES
Short Title: MASCULINITIES
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course deals with masculinities in the West, concentrating on concepts of masculine protagonism and personhood. Readings explore identities constructed in realms such as law, politics, finances, art, the home and war. Graduate/Undergraduate Equivalency: ANTH 311. Mutually Exclusive: Credit cannot be earned for ANTH 511 and ANTH 311.

ANTH 512 - AFRICAN PREHISTORY
Short Title: AFRICAN PREHISTORY
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Thematic coverage of developments throughout the continent from the Lower Paleolithic to medieval times, with emphasis on food production, metallurgy and the rise of cities and complex societies. Graduate/Undergraduate Equivalency: ANTH 312. Mutually Exclusive: Credit cannot be earned for ANTH 512 and ANTH 312. Repeatable for Credit.

ANTH 513 - LANGUAGE AND CULTURE
Short Title: LANGUAGE AND CULTURE
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Investigates the relation between language and thought, language and world view, language and logic. Without Permission of Instructor, must have Graduate Standing. Cross-list: LING 513. Graduate/Undergraduate Equivalency: ANTH 313. Mutually Exclusive: Credit cannot be earned for ANTH 513 and ANTH 313.

ANTH 517 - REVOLUTIONS AND UTOPIAS
Short Title: REVOLUTIONS AND UTOPIAS
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course considers anthropological theories of the state and examines ethnographic accounts of states in some unexpected places- that is, outside the official realm of government bureaucracies and institutionalized politics. Topics include so-called "stateless societies," planning and bureaucratic rationality, violence and power, and ethnographic methods for studying the state. Graduate/Undergraduate Equivalency: ANTH 317. Mutually Exclusive: Credit cannot be earned for ANTH 517 and ANTH 317.

ANTH 519 - SYMBOLISM AND POWER
Short Title: SYMBOLISM AND POWER
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course investigates a wide range of historical and contemporary cases of rapid political and social transformation and carefully examines the ideas, desires and utopias that inspired them. Graduate/Undergraduate Equivalency: ANTH 319. Mutually Exclusive: Credit cannot be earned for ANTH 519 and ANTH 319.

ANTH 522 - CULTURES AND IDENTITIES: RACE, ETHNICITY, AND NATIONALISM
Short Title: CULTURES AND IDENTITIES
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: How do cultural conceptions of race, ethnicity, and nationalism shape who we think we are? How are these ideas related to Western views of the relations between nature and society, and how do these differ from those in other cultures? Graduate/Undergraduate Equivalency: ANTH 322. Mutually Exclusive: Credit cannot be earned for ANTH 522 and ANTH 322.
ANTH 523 - INTRODUCTION TO PHONOLOGY
Short Title: INTRODUCTION TO PHONOLOGY
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Introduction to analysis techniques and theory concerning patternings of sounds in the world's languages. The course will involve extensive work with non-English data sets, and development of analytical techniques such as identification of sound alternations or restrictions, and formalization of abstract representations and rules to account for them. Without Permission of Instructor, must have Graduate Standing.
Cross-list: LING 511. Graduate/Undergraduate Equivalency: ANTH 323. Mutually Exclusive: Credit cannot be earned for ANTH 523 and ANTH 323.

ANTH 525 - SEX, SELF, AND SOCIETY IN ANCIENT GREECE
Short Title: SOCIETY IN ANCIENT GREECE
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course explores the mutually constructive relationship between humans and objects; it asks how objects are made meaningful and active by humans, and how, in turn, people acquire meaning, relations, and agency through material culture. Topics include: commoditization, consumption, gift exchange, subjects and objects, identity, fashion, collecting, art, and authenticity. Graduate/Undergraduate Equivalency: ANTH 325. Mutually Exclusive: Credit cannot be earned for ANTH 525 and ANTH 325.

ANTH 526 - LAW, POWER AND CULTURE
Short Title: LAW, POWER AND CULTURE
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course considers the phenomenon of renewable energy using a social scientific approach to analyze the various forces and interests involved in the development of renewable energy projects (such as hydropower, solar and wind) in both the global North and South. No prerequisites required. GR/UG Equivalent: ANTH 332. Graduate/Undergraduate Equivalency: ANTH 332. Mutually Exclusive: Credit cannot be earned for ANTH 532 and ANTH 332.

ANTH 529 - BODIES, SENSUALITIES, AND ART
Short Title: BODIES, SENSUALITIES, & ART
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Cross-cultural approaches to art and the senses. Students may engage any medium. Emphasis to be placed on issues generated from performance in the arts rather than from academia. Contrasts art and academic knowledge to explore alternative epistemologies and aesthetics. Graduate/Undergraduate Equivalency: ANTH 329. Mutually Exclusive: Credit cannot be earned for ANTH 529 and ANTH 329.

ANTH 532 - THE SOCIAL LIFE OF CLEAN ENERGY
Short Title: SOCIAL LIFE OF CLEAN ENERGY
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: An introductory venture into conducting fieldwork in the past. The course treats a wide range of artifacts, from philosophical essays to vase paintings. It derives its focus from a rich corpus of recent research into the ancient problematization of desire and self-control.
Cross-list: SWGS 525. Graduate/Undergraduate Equivalency: ANTH 325. Mutually Exclusive: Credit cannot be earned for ANTH 525 and ANTH 325.

ANTH 533 - THE MATERIAL WORLD
Short Title: THE MATERIAL WORLD
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: An exploration of normativity and its different social forms across the world. It combines theoretical and ethnographic analyses of legal institutions and practices as cultural phenomena undergirded by power relations, knowledge forms and historical forces. Graduate/Undergraduate Equivalency: ANTH 326. Mutually Exclusive: Credit cannot be earned for ANTH 526 and ANTH 326.

ANTH 527 - GENDER AND SYMBOLISM
Short Title: GENDER AND SYMBOLISM
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Examinations of beliefs concerning men, women, and gender in different cultures, including the West, relating to issues of symbolism, power, and the distribution of cultural models. Graduate/Undergraduate Equivalency: ANTH 327. Mutually Exclusive: Credit cannot be earned for ANTH 527 and ANTH 327.
ANTH 535 - ANTHROPOLOGY AS CULTURAL CRITIQUE
Short Title: ANTHROPOLOGY/CULTURAL CRITIQUE
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: The critical assessment and interpretation of Euro American social institutions and cultural forms have always been an integral part of anthropology’s intellectual project. This course will explain the techniques, history, and achievements of such critique. It will also view the purpose in the context of a more generational tradition of critical social thought in the West, especially the U.S. Graduate/Undergraduate Equivalency: ANTH 335. Mutually Exclusive: Credit cannot be earned for ANTH 535 and ANTH 335.

ANTH 536 - BECOMING A DOCTOR
Short Title: BECOMING A DOCTOR
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: The course introduces such classic anthropological concepts as the rite of passage and the cultural system as frames for the investigation of the professionalization of medicine as a discipline, medical training and the changing epistemologies of medical knowledge and the changing scope and content of the medical cosmos. Graduate/Undergraduate Equivalency: ANTH 336. Mutually Exclusive: Credit cannot be earned for ANTH 536 and ANTH 336.

ANTH 538 - READING POPULAR CULTURE
Short Title: READING POPULAR CULTURE
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: The course examines a number of cases from popular genres-romance novels, television sit-coms, tourist sites, movies, rock music and submits them to a variety of theoretical approaches from disciplines such as anthropology, sociology, literary studies, and philosophy. Graduate/Undergraduate Equivalency: ANTH 338. Mutually Exclusive: Credit cannot be earned for ANTH 538 and ANTH 338.

ANTH 540 - NEOLIBERALISM AND GLOBALIZATION
Short Title: NEOLIBERALISM & GLOBALIZATION
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course explores the relationship between two of the most powerful forces shaping the world today: economic globalization and political neoliberalism. Using ethnographic, policy and theoretical documentation drawn from a variety of case studies, we will reconstruct the interrelated origins of globalization and neoliberalism and map their social and cultural impacts across the world. Graduate/Undergraduate Equivalency: ANTH 340. Mutually Exclusive: Credit cannot be earned for ANTH 540 and ANTH 340.

ANTH 541 - MUSEUMS AND HERITAGE: EXHIBITING ART, EXHIBITING CULTURE
Short Title: MUSEUMS AND HERITAGE
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Course Level: Graduate
Description: A wide-ranging introduction to museum studies with a particular focus on the collection and exhibition of cultural heritage materials. We will examine how heritage objects are displayed and represented in museums of art, natural historical history, and heritage. Topics include looking and ethics of collecting, policies of display, changing roles for museums; exhibition design and curatorial practice. Instructor Permission Required. Graduate/Undergraduate Equivalency: ANTH 341. Mutually Exclusive: Credit cannot be earned for ANTH 541 and ANTH 341.

ANTH 542 - ETHNOGRAPHIES OF CARE
Short Title: ETHNOGRAPHIES OF CARE
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: An ethnographically grounded exploration of the political, social, and intimate relations that constitute care in various situations of life and death. We ask how particular populations come to be understood as requiring, receiving, or being entitled to care? Who becomes obliged to provide care? And what are care’s collateral effects? Graduate/Undergraduate Equivalency: ANTH 342. Mutually Exclusive: Credit cannot be earned for ANTH 542 and ANTH 342.
ANTH 544 - CITY/CULTURE
Short Title: CITY/CULTURE
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course examines the cultural dimensions of American culture and society from an anthropological point of view. Readings derive from the works of both foreign and native observers, past and present. Graduate/Undergraduate Equivalency: ANTH 347. Mutually Exclusive: Credit cannot be earned for ANTH 544 and ANTH 347.

ANTH 545 - THE POLITICS OF THE PAST: ARCHAEOLOGY IN SOCIAL CONTEXT
Short Title: ARCHAEOLOGY IN SOCIAL CONTEXT
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: An examination of the way that archaeological evidence of the past has been used and viewed by particular groups at different times. Using case studies, the course considers issues of gender, race, Eurocentrism, political domination and legitimacy that emerge from critical analysis of representations of the past by archaeologists, museums, and collectors. Graduate/Undergraduate Equivalency: ANTH 345. Mutually Exclusive: Credit cannot be earned for ANTH 545 and ANTH 345.

ANTH 547 - THE U.S. AS A FOREIGN COUNTRY
Short Title: THE U.S. AS A FOREIGN COUNTRY
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: The course looks at selected aspects of American culture and society from an anthropological point of view. Readings derive from the works of both foreign and native observers, past and present. Graduate/Undergraduate Equivalency: ANTH 347. Mutually Exclusive: Credit cannot be earned for ANTH 547 and ANTH 347.

ANTH 548 - ANTHROPOLOGIES OF NATURE
Short Title: ANTHROPOLOGIES OF NATURE
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This class examines the uses and makings of nature in accounts of the human and post-human. It introduces students to nature as an object of study, as an analytic and as a heuristic. Some of the topics the course explores include the nature-culture dyad, nature as resource, science and technology and the remaking of nature, economies of nature, materiality, nature and kinship, and natural ontologies. Graduate/Undergraduate Equivalency: ANTH 348. Mutually Exclusive: Credit cannot be earned for ANTH 548 and ANTH 348.

ANTH 549 - THE ANTHROPOLOGY OF ETHICS
Short Title: THE ANTHROPOLOGY OF ETHICS
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Philosophical ethics argues over the proper criteria of the definition and the assessment of ethical action. This course focuses on an emerging and increasingly salient anthropological project: empirical inquiry into the themes and variations of ethical systems and the sociocultural rationale for their existence and reproduction. Graduate/Undergraduate Equivalency: ANTH 349. Mutually Exclusive: Credit cannot be earned for ANTH 549 and ANTH 349.

ANTH 550 - HISTORICAL ANTHROPOLOGIES OF RELIGION
Short Title: HISTORICAL ANTHROPOLOGIES
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course will address the study of the religious past through conjunctions of anthropology and history. Readings will include books and selections by Max Weber, Marshall Sahlins, Victor Turner, Jacques Le Goff, Aron Gurevich, and others. Cross-list: RELI 555.

ANTH 551 - CULTURES OF NATIONALISM
Short Title: CULTURES OF NATIONALISM
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course will examine the cultural dimensions of nationalism, particularly around the creation of forms of "peoplehood" that seem to be presupposed by almost all nation-building projects. Texts to be analyzed will include the Declaration of Independence, the United States Constitution, and the Declaration of the Rights of Man. Graduate/Undergraduate Equivalency: ANTH 351. Mutually Exclusive: Credit cannot be earned for ANTH 551 and ANTH 351.

ANTH 553 - CULTURES OF INDIA
Short Title: CULTURES OF INDIA
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Indian philosophy. Graduate/Undergraduate Equivalency: ANTH 353. Mutually Exclusive: Credit cannot be earned for ANTH 553 and ANTH 353.
ANTH 554 - ILLNESS, DISABILITY, AND THE GENDERED BODY  
**Short Title:** DISABILITY AND GENDERED BODIES  
**Department:** Anthropology  
**Grade Mode:** Standard Letter  
**Course Type:** Seminar  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** This course draws on critical disability studies and medical anthropology to explore how gender and sexuality matter in contexts of illness and disability across a range of institutional, social, and national contexts. We pay particular attention to the ways illness and disability expose, disturb, or reframe normative arrangements of gender. Cross-list: SWGS 554. Graduate/Undergraduate Equivalency: ANTH 354. Mutually Exclusive: Credit cannot be earned for ANTH 554 and ANTH 354.

ANTH 555 - LANDSCAPE ARCHAEOLOGY  
**Short Title:** LANDSCAPE ARCHAEOLOGY  
**Department:** Anthropology  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** This course provides an overview of the way archaeologists study landscapes including studies that emphasize their ecological, symbolic, political economic and religious aspects. Recent theoretical work on landscape will be emphasized, as well as archaeological methods of investigation and interpretation, including remote sensing, surveying, and GIS. Graduate/Undergraduate Equivalency: ANTH 355. Mutually Exclusive: Credit cannot be earned for ANTH 555 and ANTH 355.

ANTH 558 - THE FOURTH WORLD: ISSUES OF INDIGENOUS PEOPLES  
**Short Title:** FOURTH WORLD:INDIGENOUS PEOPLE  
**Department:** Anthropology  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** In contrast with people self-identified within political structures of the First, Second and Third Worlds, Fourth World peoples are, generally speaking, "stateless peoples." In this course we will examine both how this "unofficial" status affects their struggle for self-determination and how native peoples engage traditional beliefs and practices for self-empowerment. Through readings, films and speakers we will examine current conflicts facing indigenous people in North and South America, the Soviet Union, Europe, Asia, and Australia. Graduate/Undergraduate Equivalency: ANTH 358. Mutually Exclusive: Credit cannot be earned for ANTH 558 and ANTH 358.

ANTH 561 - LATIN AMERICAN TOPICS  
**Short Title:** LATIN AMERICAN TOPICS  
**Department:** Anthropology  
**Grade Mode:** Standard Letter  
**Course Type:** Seminar  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** This course examines contemporary cultural and political dynamics in Latin America. Topics include: race, ethnicity and indigenousness; borders, migrations and diaspora; genocide and state violence; neo-colonialisms and neo-liberalisms; sexuality, gender and class dynamics; social movements and activism; the politics and practices of medicine and religion; popular culture, media and technology. Graduate/Undergraduate Equivalency: ANTH 361. Mutually Exclusive: Credit cannot be earned for ANTH 561 and ANTH 361.

ANTH 562 - ARCHAEOLOGICAL FIELD TECHNIQUES  
**Short Title:** ARCHAEOLOGICAL FLD TECHNIQUES  
**Department:** Anthropology  
**Grade Mode:** Standard Letter  
**Course Type:** Seminar  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Prerequisite(s):** ANTH 205  
**Description:** Methods used in fieldwork, laboratory analysis, and interpretation of archaeological data from a local site excavated by the class. Graduate/Undergraduate Equivalency: ANTH 362. Mutually Exclusive: Credit cannot be earned for ANTH 562 and ANTH 362. Repeatable for Credit.

ANTH 563 - EARLY CIVILIZATIONS  
**Short Title:** EARLY CIVILIZATIONS  
**Department:** Anthropology  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** A comparative study of the civilizations of Mesopotamia, Egypt, the Indus, China, and the Maya, emphasizing the causes and conditions of their origins. Graduate/Undergraduate Equivalency: ANTH 363. Mutually Exclusive: Credit cannot be earned for ANTH 563 and ANTH 363.

ANTH 564 - AFRICAN ARCHAEOLOGY FIELD TECHNIQUES  
**Short Title:** AFRICAN ARCHAEOLOGY  
**Department:** Anthropology  
**Grade Mode:** Standard Letter  
**Course Type:** Research  
**Credit Hours:** 1-6  
**Restrictions:** Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** In this course, basic field archaeology techniques are taught on-site in an archaeological context in Africa with emphasis on excavation methods, artifact recovery, and recording techniques. Students will excavate stone structures and a variety of historical deposits. Fieldwork takes place in Africa, June-July. Graduate/Undergraduate Equivalency: ANTH 364. Mutually Exclusive: Credit cannot be earned for ANTH 564 and ANTH 364. Repeatable for Credit.  
**Course URL:** [www.songonara.rice.edu/fieldschool.htm](http://www.songonara.rice.edu/fieldschool.htm)
ANTH 566 - SCIENCE, LOCAL AND GLOBAL
Short Title: SCIENCE, LOCAL AND GLOBAL
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course explores science as a transnational phenomenon, focusing on the pathways along which it flows around the world. Topics include differences in local styles of reasoning, dynamics of international scientific collaborations, transnational migration of knowledge workers, the role of science in nationalist projects, and the commodification of science. Graduate/Undergraduate Equivalency: ANTH 366. Mutually Exclusive: Credit cannot be earned for ANTH 566 and ANTH 372.

ANTH 570 - ARCHAEOLOGICAL LABORATORY TECHNIQUES AND ANALYSIS
Short Title: ARCHAEOLOGICAL LABORATORY
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3-6
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Techniques of processing, conserving, and recording archaeological materials are emphasized. Students will become familiar with procedures for pottery, glass, metals, and building materials, in addition to plant and animal remains. Course work includes lectures, hands-on lab work, and informal discussion. Lab takes place in Senegal, June-July. Graduate/Undergraduate Equivalency: ANTH 370. Mutually Exclusive: Credit cannot be earned for ANTH 570 and ANTH 370. Repeatable for Credit.

ANTH 571 - MONEY AND EVERYDAY LIFE
Short Title: MONEY AND EVERYDAY LIFE
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Money is such a part of everyday modern life that it is hard for us to imagine living without it. Yet in many pre-modern societies, gift-exchange was as important as money is in our own. This course will look at the cultural dimensions of systems of exchange, ranging from gift giving among Northwest Coast Indians to foreign currency exchanges between financial institutions. Along with the classic work of Marx and Simmel on money and capital, we will also cover some of the anthropological work on gifts and exchange, such as that of Mauss, Levi-Strauss, and Bourdieu, as well as some of the contemporary debates initiated by Bataille and Derrida. Graduate/Undergraduate Equivalency: ANTH 371. Mutually Exclusive: Credit cannot be earned for ANTH 571 and ANTH 371.

ANTH 572 - CULTURES OF CAPITALISM
Short Title: CULTURES OF CAPITALISM
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: The course covers select topics in the archaeology and paleoanthropology of Asia from the arrival of Homo erectus to the development of the earliest civilizations. Class discussions will focus on the history of exploration in Asia and the main debates that have shaped the study of prehistory in the largest continent on Earth. Graduate/Undergraduate Equivalency: ANTH 372. Mutually Exclusive: Credit cannot be earned for ANTH 572 and ANTH 372.

ANTH 574 - ASIAN PREHISTORY
Short Title: ASIAN PREHISTORY
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course explores science as a transnational phenomenon, focusing on the pathways along which it flows around the world. Topics include differences in local styles of reasoning, dynamics of international scientific collaborations, transnational migration of knowledge workers, the role of science in nationalist projects, and the commodification of science. Graduate/Undergraduate Equivalency: ANTH 366. Mutually Exclusive: Credit cannot be earned for ANTH 566 and ANTH 372.

ANTH 578 - PLACE AND MEMORY IN MIDDLE EASTERN AND EUROPEAN CINEMA
Short Title: MEMORY AND PLACE IN CINEMA
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 4
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course explores science as a transnational phenomenon, focusing on the pathways along which it flows around the world. Topics include differences in local styles of reasoning, dynamics of international scientific collaborations, transnational migration of knowledge workers, the role of science in nationalist projects, and the commodification of science. Graduate/Undergraduate Equivalency: ANTH 366. Mutually Exclusive: Credit cannot be earned for ANTH 566 and ANTH 372.

ANTH 572 - CULTURES OF CAPITALISM
Short Title: CULTURES OF CAPITALISM
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Most of us think of capitalism as primarily an economic phenomenon. Yet, it also has a profoundly cultural dimension. This class will examine how capitalism and related phenomena, such as commodification, markets and marketing, corporate finance and the calculation of risk, both affect and are affected by culture. We will consider the impact of capitalist markets on social relations and gender identities; on ideals of patriotism, responsibility and success; and on popular culture and leisure practices. We will also ask how people resist, appropriate and modify in culturally specific ways the logic and institutions of a global capitalist order. Graduate/Undergraduate Equivalency: ANTH 372. Mutually Exclusive: Credit cannot be earned for ANTH 572 and ANTH 372.

ANTH 587 - SCIENCE, LOCAL AND GLOBAL
Short Title: SCIENCE, LOCAL AND GLOBAL
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3-6
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Techniques of processing, conserving, and recording archaeological materials are emphasized. Students will become familiar with procedures for pottery, glass, metals, and building materials, in addition to plant and animal remains. Course work includes lectures, hands-on lab work, and informal discussion. Lab takes place in Senegal, June-July. Graduate/Undergraduate Equivalency: ANTH 370. Mutually Exclusive: Credit cannot be earned for ANTH 570 and ANTH 370. Repeatable for Credit.
ANTH 581 - MEDICAL ANTHROPOLOGY  
**Short Title:** MEDICAL ANTHROPOLOGY  
**Department:** Anthropology  
**Grade Mode:** Standard Letter  
**Course Type:** Seminar  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** Cultural, ecological, and biological perspectives on human health and disease throughout the world. Graduate/Undergraduate Equivalency: ANTH 381. Mutually Exclusive: Credit cannot be earned for ANTH 581 and ANTH 381.

ANTH 582 - BODY, TECHNOLOGY, ENHANCEMENT  
**Short Title:** BODY, TECHNOLOGY, ENHANCEMENT  
**Department:** Anthropology  
**Grade Mode:** Standard Letter  
**Course Type:** Seminar  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** Seminar on the body and the various technologies that are used to optimize it. Includes topics such as cosmetic surgery, diet supplementation, pharmaceutical enhancement and body art. Graduate/Undergraduate Equivalency: ANTH 382. Mutually Exclusive: Credit cannot be earned for ANTH 582 and ANTH 382. Repeatable for Credit.

ANTH 584 - PALEO-TECHNOLOGY  
**Short Title:** PALEO-TECHNOLOGY  
**Department:** Anthropology  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture/Laboratory  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** This Stone Age semester will immerse students in hunter-gatherer lifeways and the innovations that allowed our ancestors to survive. Student 'bands' will complete cooperative learning tasks to ensure group survival (assessment). Most class meetings will be held in outdoor space on campus. Graduate/Undergraduate Equivalency: ANTH 384. Mutually Exclusive: Credit cannot be earned for ANTH 584 and ANTH 384.

ANTH 585 - MEDIA, CULTURE, AND SOCIETY  
**Short Title:** MEDIA, CULTURE, AND SOCIETY  
**Department:** Anthropology  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** This course offers a theoretical and ethnographic overview of past, current, and future anthropological research on media. Topics rotate but can include: cultural conservation among indigenous peoples, spectacle and sexuality, nationalism, advertising, journalism, and news-making, political communication and activism, technology and social change. Graduate/Undergraduate Equivalency: ANTH 385. Mutually Exclusive: Credit cannot be earned for ANTH 585 and ANTH 385.

ANTH 586 - MEDICAL ANTHROPOLOGY OF FOOD AND HEALTH  
**Short Title:** MEDICINE, FOOD, AND HEALTH  
**Department:** Anthropology  
**Grade Mode:** Standard Letter  
**Course Type:** Seminar  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** Food is increasingly understood and manipulated at the molecular level, and used in therapy or disease-prevention. This course focuses on the fluid intersection of biomedicine and nutrition as changes in agriculture, food safety, and research into the physiological and genetic effects of food alter how Western cultures eat. Graduate/Undergraduate Equivalency: ANTH 386. Mutually Exclusive: Credit cannot be earned for ANTH 586 and ANTH 386.

ANTH 588 - THE LIFE CYCLE: A BIOCULTURAL VIEW  
**Short Title:** LIFE CYCLE: A BIOCULTURAL VIEW  
**Department:** Anthropology  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** The human life cycle from conception to death. Focus is on the interaction between biological processes and culture. Graduate/Undergraduate Equivalency: ANTH 388. Mutually Exclusive: Credit cannot be earned for ANTH 588 and ANTH 388.

ANTH 589 - THE ARCHAEOLOGY OF FOOD  
**Short Title:** ARCHAEOLOGY OF FOOD  
**Department:** Anthropology  
**Grade Mode:** Standard Letter  
**Course Type:** Seminar  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** This course offers a broad anthropological perspective on food and culture, as well as the way that archaeologists attempt to reconstruct the subsistence technologies and diets of ancient peoples. Topics include forager and agricultural subsistence technologies, the origins of food production, feasting, food and identity, and gender and food. Graduate/Undergraduate Equivalency: ANTH 389. Mutually Exclusive: Credit cannot be earned for ANTH 589 and ANTH 389.

ANTH 590 - CULTURE, NARRATION, AND SUBJECTIVITY  
**Short Title:** CULTURE,NARRATION,SUBJECTIVITY  
**Department:** Anthropology  
**Grade Mode:** Standard Letter  
**Course Type:** Seminar  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** This course examines how linguistic and narrative structures interact to produce specific cultures of interpretation. The focus will be on linguistic and literary representations of subjectivity. This course will use novels by Western authors, such as Virginia Woolf and Dostoevsky, and some Chinese materials as comparison. Graduate/Undergraduate Equivalency: ANTH 390. Mutually Exclusive: Credit cannot be earned for ANTH 590 and ANTH 390.
ANTH 591 - SPECULATIVE FUTURES
Short Title: SPECULATIVE FUTURES
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Drawing from ”CliFi,” ”Speculative Fiction, ”and global anthropological case studies, this course analyzes a series of potential futures as earthly conditions continue to be altered by human activity. Students will develop speculative future models through assessing climate conditions, population displacement, ethics, ecological transformations and human practices and values. Graduate/Undergraduate Equivalency: ANTH 391. Mutually Exclusive: Credit cannot be earned for ANTH 591 and ANTH 391.

ANTH 595 - CULTURES AND COMMUNICATION
Short Title: CULTURES AND COMMUNICATION
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Investigates the relations between different forms of communication - speech, print, film, and cultural constructions such as audiences, publics, and communities. Graduate/Undergraduate Equivalency: ANTH 395. Mutually Exclusive: Credit cannot be earned for ANTH 595 and ANTH 395.

ANTH 596 - LAW AND RESISTANCE IN THE EVERYDAY
Short Title: LAW AND RESISTANCE
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course will explore how people interact with the law in their everyday lives – in the U.S. and elsewhere. Examples will include how individuals experience and respond to policing, examining the effects of immigration and border security policies, and tracing how people and groups mobilize to challenges laws perceived as unjust. Mutually Exclusive: Credit cannot be earned for ANTH 596 and ANTH 396.

ANTH 597 - ANTHROPOLOGY JOURNAL CLUB
Short Title: ANTHROPOLOGY JOURNAL CLUB
Department: Anthropology
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Independent Study
Credit Hour: 1
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Students select, read, and discuss current articles from leading journals in sociocultural anthropology and related fields. Department Permission Required. Mutually Exclusive: Credit cannot be earned for ANTH 597 and ANTH 397. Repeatable for Credit.

ANTH 598 - ETHNOGRAPHIC RESEARCH METHODS
Short Title: ETHNOGRAPHIC RESEARCH
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Course considers the practice of ethnographic research (design, data collection and analysis). Topics include the contentious canonization of fieldwork & the ethnographic method, ethics & human subjects, rethinking the field & collaboration. Projects include participant observation, field notes, interviewing, and analysis of archival, ephemeral & audio/visual materials. Graduate/Undergraduate Equivalency: ANTH 398. Mutually Exclusive: Credit cannot be earned for ANTH 598 and ANTH 398.

ANTH 600 - INDEPENDENT STUDY
Short Title: INDEPENDENT STUDY
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Independent Study
Credit Hours: 1-9
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Repeatable for Credit.

ANTH 601 - GRADUATE PROSEMINAR IN ANTHROPOLOGY: THEORY, METHOD, AND PROFESSIONALIZATION
Short Title: GR PROSEMINAR IN ANTHROPOLOGY
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This seminar course combines an introduction to classic and contemporary social theory with an overview of the evolving research foci of anthropology today and with detailed discussion of the process of anthropological professionalization. The course is designed for graduate students in anthropology but is open to others with advance permission. Repeatable for Credit.

ANTH 602 - ANTHROPOLOGY PROPOSAL WRITING SEMINAR
Short Title: PROPOSAL WRITING SEMINAR
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This seminar prepares anthropology graduate students to write a successful grant proposal. Basic elements of proposal writing, including problem conceptualization, literature reviews, and methods will be covered.
ANTH 603 - ANALYZING PRACTICE
Short Title: ANALYZING PRACTICE
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: A critical review of work informed by what has sometimes been deemed the "key concept" of anthropological theory and research since the 1960s. Special attention will be devoted to the analytics of practice developed by Foucault, by Bourdieu, and by de Certeau. Graduate/Undergraduate Equivalency: ANTH 403. Mutually Exclusive: Credit cannot be earned for ANTH 603 and ANTH 403.

ANTH 606 - COGNITIVE STUDIES
Short Title: COGNITIVE STUDIES
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Relations between thought, language, and culture. Special emphasis given to natural systems of classification and the logical principles underlying them. Graduate/Undergraduate Equivalency: ANTH 406. Mutually Exclusive: Credit cannot be earned for ANTH 606 and ANTH 406. Repeatable for Credit.

ANTH 610 - THE ETHNOGRAPHY OF DEVELOPMENT
Short Title: THE ETHNOGRAPHY OF DEVELOPMENT
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course suggests the necessity of a solid ethnographic grounding for both practical development work and for further intellectual growth of the discipline. Graduate/Undergraduate Equivalency: ANTH 410. Mutually Exclusive: Credit cannot be earned for ANTH 610 and ANTH 410.

ANTH 612 - RHETORIC
Short Title: RHETORIC
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Overview of classical theories. Intensive discussion of contemporary theories and applications in a wide variety of disciplines. Graduate/Undergraduate Equivalency: ANTH 412. Mutually Exclusive: Credit cannot be earned for ANTH 612 and ANTH 412. Repeatable for Credit.

ANTH 613 - CULTURE AFTER COMMUNISM
Short Title: CULTURE AFTER COMMUNISM
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Examines cultural transformations in the late- and post-socialist societies of East-Central Europe, the former Soviet Union, and Asia. Explores everyday discourses and practices through which new forms of property, selfhood, nationalism, and the state are emerging, and the legacy of cold war politics for ethnographic representation of these societies. Graduate/Undergraduate Equivalency: ANTH 413. Mutually Exclusive: Credit cannot be earned for ANTH 613 and ANTH 413.

ANTH 614 - HERMENEUTICS AND LINGUISTIC ANTHROPOLOGY
Short Title: HERMENEUTICS &LINGUISTIC ANTH
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Application of linguistic theory and method in the analysis of cultural materials. Includes discourse analysis and the structure and interpretation of texts and conversation. Graduate/Undergraduate Equivalency: ANTH 414. Mutually Exclusive: Credit cannot be earned for ANTH 614 and ANTH 414. Repeatable for Credit.

ANTH 615 - THEORIES OF MODERNITY/POSTMODERNITY
Short Title: THEORIES OF MODERNITY/POSTMOD
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: An advanced course for graduate students and undergraduate majors with interests in the interdisciplinary field of cultural studies. Readings in the work of Marx, Weber, Durkheim, Saussure, Gadamer, Derrida, Bakhtin, Foucault, and others. Mutually Exclusive: Credit cannot be earned for ANTH 615 and ANTH 415.

ANTH 616 - CLASSICAL SOCIAL THEORY
Short Title: CLASSICAL SOCIAL THEORY
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This seminar explores the foundations of social and cultural analysis. It will address precursors, but will focus primarily on works that introduce and develop the concepts and epistemic apparatuses that inaugurated such disciplines as sociology, anthropology, religious studies, and political theory as we know them today.
ANTH 617 - ONTOLOGIES, VITALITIES, THINGS
Short Title: ONTOLOGIES, VITALITIES, THINGS
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Description: Students will read a selection of contemporary ethnographies deemed "exemplary" by diverse audiences paired with theoretical works that the authors claim in their arguments. The course will focus on how ethnographies are structured, the central issues they investigate, and how they go about doing this. The central task of the class is to analyze, critically but also productively, what rigor and creativity mean in the ethnographic investigation of contemporary and recurring questions and problems, relations between questions, theory and ethnography will also be explored through students’ own ethnographic writing. Graduate/Undergraduate Equivalency: ANTH 420. Mutually Exclusive: Credit cannot be earned for ANTH 620 and ANTH 420.

ANTH 620 - ETHNOGRAPHY STUDIO
Short Title: ETHNOGRAPHY STUDIO
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Description: Course focuses on emerging and established thematics in cultural anthropology that have been drawn from philosophical (and other) interventions concerning being, matter, vibrancy, vitality and objects and considers how these conceptual domains can be productively engaged in the empirical work of anthropology. Graduate/Undergraduate Equivalency: ANTH 417. Mutually Exclusive: Credit cannot be earned for ANTH 617 and ANTH 417.

ANTH 622 - INFRASTRUCTURES AND POWER
Short Title: INFRASTRUCTURES AND POWER
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Description: This seminar course asks why "infrastructure" – that which enables other things to happen – has recently become such an important concept in the human sciences. After reviewing recent and classic theoretical approaches we explore recent anthropological studies of infrastructures-in-action ranging from information and media infrastructures to environmental and biotic infrastructures to infrastructures of governance and power. Graduate/Undergraduate Equivalency: ANTH 422. Mutually Exclusive: Credit cannot be earned for ANTH 622 and ANTH 422.

ANTH 625 - ADVANCED TOPICS IN ARCHAEOLOGY
Short Title: ADVANCED TOPICS IN ARCHAEOLOGY
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Description: Seminar on selected topics in archaeological analysis and theory. The course will variously focus on ceramic analysis and classification, archaeological sampling in regional survey and excavation, and statistical approaches to data analysis and presentation. Please consult with the department for additional information. Graduate/Undergraduate Equivalency: ANTH 425. Mutually Exclusive: Credit cannot be earned for ANTH 625 and ANTH 425. Repeatable for Credit.

ANTH 629 - ACTIVISM AND SOCIAL MOVEMENTS
Short Title: ACTIVISM AND SOCIAL MOVEMENTS
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Description: Movements to alleviate inequalities constitute important cultural and political interventions globally. This course examines advocacy practices to create and sustain social movements and political struggles. Cases included grassroots advocacy, NGOs, transnational and technological activism; environmental justice; human rights; gender, ethnic and sexual rights; consumption and globalization; democratization and neoliberalism. Graduate/Undergraduate Equivalency: ANTH 429. Mutually Exclusive: Credit cannot be earned for ANTH 629 and ANTH 429.

ANTH 642 - MUSEUMS: THEORY & PRACTICE
Short Title: MUSEUMS: THEORY & PRACTICE
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Internship/Practicum
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Description: This course combines readings and lectures exploring the representation of anthropological and archaeological materials in museum exhibits with an internship at the Houston Museum of Natural Science. The Graduate-Level course will engage students at a more advanced theoretical level through additional reading assignments and an additional paper. Graduate/Undergraduate Equivalency: ANTH 442. Mutually Exclusive: Credit cannot be earned for ANTH 642 and ANTH 442.

ANTH 643 - ANTHROPOLOGY OF RACE, ETHNICITY AND HEALTH
Short Title: RACE ETHNICITY AND HEALTH
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Description: This course explores how human bodies and biomedical 'facts' are culturally constructed with respect to race and ethnicity, and examines how these constructs variably impact experiences of health, well-being and illness. Instructor Permission Required. Graduate/Undergraduate Equivalency: ANTH 443. Mutually Exclusive: Credit cannot be earned for ANTH 643 and ANTH 443.
ANTH 644 - CULTURE, PSYCHIATRY, AND MENTAL ILLNESS
Short Title: CULTURE AND MENTAL ILLNESS
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This seminar takes psychiatric practice as an object of anthropological investigation. It explores the ways in which emotional suffering and therapeutic systems are constituted within various social, cultural, and historical contexts. Topics include affect, anxiety, psychosis, and somatization in cross-cultural perspective; diagnostic standardization; the cultural history of psychiatry; institutionalization and deinstitutionalization; psychiatric professionalization; the globalization of Western psychiatric practice; and critical anti-psychiatry movements. Graduate/Undergraduate Equivalency: ANTH 444. Mutually Exclusive: Credit cannot be earned for ANTH 644 and ANTH 444.

ANTH 645 - EXPERTS AND CULTURES OF EXPERTISE
Short Title: EXPERTS/EXPERTISE
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Studies of experts and expert knowledge have recently become one of the most vibrant and promising areas of research in social-cultural anthropology today. This seminar reviews recent anthropological research on experts and their cultures of expertise and situates it in comparison to theoretical, sociological and historical anthropological research on experts and their cultures of expertise. Graduate/Undergraduate Equivalency: ANTH 445. Mutually Exclusive: Credit cannot be earned for ANTH 645 and ANTH 445.

ANTH 646 - ADVANCED TOPICS IN BIOMEDICAL ANTHROPOLOGY
Short Title: ADV BIOMEDICAL ANTHROPOLOGY
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Seminar on contemporary research on the biomedical aspects of human health and disease. Includes topics from medical ecology and epidemiology. Cross-list: ENST 646. Graduate/Undergraduate Equivalency: ANTH 446. Recommended Prerequisite(s): ANTH 381 or ANTH 581. Mutually Exclusive: Credit cannot be earned for ANTH 646 and ANTH 446.

ANTH 647 - MODERN ETHNOGRAPHY AND THE ETHNOGRAPHY OF MODERNITY
Short Title: MODERN ETHNOGRAPHY
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: The course explores the strategies of representation, the methodologies, and the diagnostic categories to which anthropologists have resorted in coming to terms with such phenomena as rationalization, economic and informational globalization, and the commodification of culture. Graduate/Undergraduate Equivalency: ANTH 447. Mutually Exclusive: Credit cannot be earned for ANTH 647 and ANTH 447.

ANTH 648 - PHENOMENOLOGICAL ANTHROPOLOGY
Short Title: PHENOMENOLOGICAL ANTHROPOLOGY
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This advanced seminar explores phenomenological theory in the human sciences beginning with Hegel and Marx and examines its uptake in recent works of anthropological ethnography and theory. The course will focus especially upon questions of selfhood and alterity, affect and emotion, and the senses and knowledge. Graduate/Undergraduate Equivalency: ANTH 448. Mutually Exclusive: Credit cannot be earned for ANTH 648 and ANTH 448.

ANTH 649 - CULTURES OF SEXUALITY
Short Title: CULTURES OF SEXUALITY
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: What is "sexuality" across cultural milieux? This course analyzes understandings and practices of sexuality from a global, comparative perspective, including different social configurations of gender and intimacy, reproduction, sensuality and the erotic. Case studies explore the complex relationships between sexuality and gender, ethnicity, nationalism, globalization, commodification, politics, media, health and medicine. Graduate/Undergraduate Equivalency: ANTH 449. Mutually Exclusive: Credit cannot be earned for ANTH 649 and ANTH 449.

ANTH 650 - PEDAGOGY
Short Title: PEDAGOGY
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Training in the basic elements of teaching in anthropology to be taken in conjunction with applied graduate student teaching in ANTH 316. Recommended Prerequisite(s): Third year and above graduate students. Repeatable for Credit.
ANTH 651 - THE ANTHROPOLOGY OF WATER
Short Title: THE ANTHROPOLOGY OF WATER
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This class will offer students concepts and methodological resources to conduct their own research projects on water related issues from an anthropological perspective. It will include reading materials and fieldwork according to each student's project specificities. Mutually Exclusive: Credit cannot be earned for ANTH 651 and ANTH 451.

ANTH 652 - RESEARCH DESIGN
Short Title: RESEARCH DESIGN
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: An exploration of the process of conceptualization and concrete design of dissertation-linked research. Recommended for third- or fourth-year graduate students.

ANTH 653 - COLLATERAL AFTERWORLDS
Short Title: COLLATERAL AFTERWORLDS
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Drawing on ethnography and social theory, this course develops analytics attuned to the socialities, intimacies, temporalities, and forms of ethic that emerge in the precarious spaces of liberal and democratic violence and failure. In refugee camps or climate catastrophes, in a queer present or under enduring legacies, what happens if we think the social with hope and futurity in abeyance? Mutually Exclusive: Credit cannot be earned for ANTH 653 and ANTH 453. Repeatable for Credit.

ANTH 656 - HERITAGE MANAGEMENT
Short Title: HERITAGE MANAGEMENT
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course examines the policies and politics of heritage management from a global perspective. We examine how different nations define, protect, and manage heritage resources. Case studies will present debates over the meaning and interpretation of cultural heritage and illustrate connections between heritage and such issues as nationalism and identity. The graduate level course will engage students at a more advanced theoretical level through additional reading assignments and an additional paper. Graduate/Undergraduate Equivalency: ANTH 456. Mutually Exclusive: Credit cannot be earned for ANTH 656 and ANTH 456.

ANTH 658 - HUMAN OSTEOLOGY
Short Title: HUMAN OSTEOLOGY
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Introduction to the analysis of human skeletal material from archaeological sites. Instructor Permission Required. Graduate/Undergraduate Equivalency: ANTH 458. Mutually Exclusive: Credit cannot be earned for ANTH 658 and ANTH 458.

ANTH 660 - ADVANCED ARCHAEOLOGICAL THEORY
Short Title: ADVANCED ARCHAEOLOGICAL THEORY
Department: Anthropology
Grade Mode: Seminar
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): ANTH 205
Description: History and analysis of the major currents of archaeological theory from the Encyclopaedist origins of positivism, through cultural evolutionism and historical particularism, to the New Archaeology and current trends. Graduate/Undergraduate Equivalency: ANTH 460. Mutually Exclusive: Credit cannot be earned for ANTH 660 and ANTH 460. Repeatable for Credit.

ANTH 663 - WEST AFRICAN PREHISTORY
Short Title: WEST AFRICAN PREHISTORY
Department: Anthropology
Grade Mode: Seminar
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): ANTH 205
Description: Prehistoric archaeology (late Stone Age and Iron Age) of the West African subcontinent. Graduate/Undergraduate Equivalency: ANTH 463. Mutually Exclusive: Credit cannot be earned for ANTH 663 and ANTH 463.

ANTH 667 - SPECIAL TOPICS
Short Title: SPECIAL TOPICS
Department: Anthropology
Grade Mode: Seminar
Course Type: Lecture
Credit Hours: 1-4
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Topics and credit hours vary each semester. Contact department for current semester’s topic(s). Repeatable for Credit.
ANTH 683 - DOCUMENTARY AND ETHNOGRAPHIC FILM
Short Title: DOCUMENTARY AND ETHNOGRAPHIC
Department: Anthropology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Overview of the history of documentary and ethnographic cinema from a worldwide perspective. Includes both canonical and alternative films and film movements, with emphasis on the shifting and overlapping boundaries of fiction and nonfiction genres. Graduate/Undergraduate Equivalency: ANTH 483. Mutually Exclusive: Credit cannot be earned for ANTH 683 and ANTH 483.

ANTH 800 - RESEARCH AND THESIS
Short Title: RESEARCH AND THESIS
Department: Anthropology
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Research
Credit Hours: 3-9
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Repeatable for Credit.

Applied Physics (APPL)

APPL 490 - RQI - REU SUMMER RESEARCH PROGRAM
Short Title: UNDERGRAD SUMMER RESEARCH-REU
Department: Applied Physics
Grade Mode: Standard Letter
Course Type: Research
Credit Hours: 1-6
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Research experience under supervision of graduate students and faculty. Summer semester only. Department Permission Required.

APPL 800 - RESEARCH AND THESIS
Short Title: RESEARCH AND THESIS
Department: Applied Physics
Grade Mode: Standard Letter
Course Type: Research
Credit Hours: 1-15
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Thesis research under the supervision of faculty. Repeatable for Credit.

Arabic (ARAB)

ARAB 141 - FIRST YEAR ARABIC I
Short Title: FIRST YEAR ARABIC I
Department: Cntr Lang & Intercultural Comm
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Lower-Level
Description: Development of interactional competence in Arabic (sociolinguistic and sociocultural knowledge) to communicate and interact with speakers of Arabic. The course is based on a student-centered, critical-thinking approach to language analysis/acquisition. No prior knowledge of this language is necessary. Placement Test is required. Mutually Exclusive: Credit cannot be earned for ARAB 141 and ARAB 161.
Course URL: clicarabic.blogs.rice.edu

ARAB 142 - FIRST YEAR ARABIC II
Short Title: FIRST YEAR ARABIC II
Department: Cntr Lang & Intercultural Comm
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Lower-Level
Prerequisite(s): ARAB 141
Description: Continuation of ARAB 141. Development of interactional competence in Arabic (sociolinguistic and socio cultural knowledge) to communicate and interact with speakers of Arabic. The course is based on a student-centered, critical-thinking approach to language analysis/acquisition. Mutually Exclusive: Credit cannot be earned for ARAB 142 and ARAB 262.
Course URL: clicarabic.blogs.rice.edu

ARAB 222 - AP CREDIT IN ARABIC LANGUAGE
Short Title: AP/OTH CREDIT ARABIC LANGUAGE
Department: Cntr Lang & Intercultural Comm
Grade Mode: Transfer Courses
Course Type: Transfer
Credit Hours: 4
Course Level: Undergraduate Lower-Level
Description: This course provides credit for students who have successfully completed approved examinations, such as Advanced Placement and International Baccalaureate exams. This credit counts toward the total credit hours required for graduation. Credit may not be received for both ARAB 222 and ARAB 101. Does not receive distribution credit.
ARAB 263 - SECOND YEAR ARABIC I
Short Title: SECOND YEAR ARABIC I
Department: Cntr Lang & Intercultural Comm
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Lower-Level
Prerequisite(s): ARAB 142
Description: Continuation of ARAB 142. Development of interactional competence in Arabic (sociolinguistic and socio cultural knowledge) to communicate and interact with speakers of Arabic. The course is based on a student-centered, critical-thinking approach to language analysis/acquisition. Mutually Exclusive: Credit cannot be earned for ARAB 263 and ARAB 201.
Course URL: clicarabic.blogs.rice.edu

ARAB 264 - SECOND YEAR ARABIC II
Short Title: SECOND YEAR ARABIC II
Department: Cntr Lang & Intercultural Comm
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Lower-Level
Prerequisite(s): ARAB 263
Description: Continuation of ARAB 263. Development of interactional competence in Arabic (sociolinguistic and socio cultural knowledge) to communicate and interact with speakers of Arabic. The course is based on a student-centered, critical-thinking approach to language analysis/acquisition. Mutually Exclusive: Credit cannot be earned for ARAB 264 and ARAB 202.
Course URL: clicarabic.blogs.rice.edu

ARAB 301 - THIRD YEAR ARABIC I
Short Title: THIRD YEAR ARABIC I
Department: Cntr Lang & Intercultural Comm
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ARAB 264
Description: Continuation of ARAB 264. Emphasis on developing reading and writing ability as more authentic materials and socio-cultural topics are introduced.
Course URL: clicarabic.blogs.rice.edu

ARAB 302 - THIRD YEAR ARABIC II
Short Title: THIRD YEAR ARABIC II
Department: Cntr Lang & Intercultural Comm
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ARAB 301
Description: Continuation of ARAB 301. Emphasis on developing reading and writing ability as more authentic materials and socio-cultural topics are introduced.
Course URL: clicarabic.blogs.rice.edu

Architecture (ARCH)

ARCH 100 - LAUNCH - RICE SCHOOL OF ARCHITECTURE SUMMER PROGRAM: INTRODUCTORY DESIGN STUDIO
Short Title: (LAUNCH) RICE SUMMER ARCH
Department: Architecture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hour: 1
Restrictions: Enrollment is limited to Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Introduction to architectural design for current Rice students and summer visitors. Guided explorations introduce speculative ways of thinking about architecture and the city, using basic design tools and materials.

ARCH 101 - PRINCIPLES OF ARCHITECTURE I - ORDER
Short Title: PRINCIPLES OF ARCHITECTURE I
Department: Architecture
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 6
Restrictions: Enrollment is limited to Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: This introductory studio frames architecture as a discipline through a set of short problems that examine the relationship between formal and spatial ordering, technical and material concepts, and issues of use and program, culminating in a small synthetic project. Permission Required by Director of Undergraduate Studies, Rice School of Architecture. Department Permission Required.

ARCH 102 - PRINCIPLES OF ARCHITECTURE II - REPRESENTATION
Short Title: PRINCIPLES OF ARCHITECTURE II
Department: Architecture
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 6
Restrictions: Enrollment is limited to Undergraduate level students.
Course Level: Undergraduate Lower-Level
Prerequisite(s): ARCH 101
Description: What is the role of information and representation within the design process? This studio introduces and explores the tools and concepts of notation and representation in architecture and how they serve as instruments of inquiry in a design processes. The use of precedents is a focus early in the semester, in which students analyze a project and its formal concepts that inform the design of a small architectural project in n the second part of the course.
ARCH 105 - ENVIRONMENT, CULTURE AND SOCIETY
Short Title: ENVIRONMENT, CULTURE & SOCIETY
Department: Architecture
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: This introductory course in environmental studies helps students to better understand the complex interrelationship between human cultures and their social and physical environments. Lectures and assignments draw upon the methods and expertise of architecture, the humanities and the social sciences. This is a core course of Rice's Environmental Studies minor. Cross-list: ENST 100.

ARCH 110 - THE PARTHENON AND PERIKLEAN ATHENS
Short Title: THE PARTHENON
Department: Architecture
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: In this course, we will trace the history and mythology of the Parthenon. We begin with the dawn of sacred tradition on the Acropolis, then explore the classical recreation of the city, the conversion of the Parthenon into a church, its subsequent destruction and the current debate over restoration. This course is limited to first-year students only, any others will be removed from this course. Cross-list: CLAS 103, FSEM 113, HART 110.

ARCH 201 - PRINCIPLES OF ARCHITECTURE III - ORGANIZATION
Short Title: PRINCIPLES OF ARCHITECTURE III
Department: Architecture
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 6
Restrictions: Enrollment is limited to Undergraduate level students.
Course Level: Undergraduate Lower-Level
Prerequisite(s): ARCH 102
Description: What is the relationship between diagrammatic organization systems and the tectonic systems of construction? What is the relationship between the internal organization of a building's program and its immediate external context? The potentials of different structural systems in relationship to programmatic diagrams are foregrounded to develop an architectural proposal for a public program of medium size.

ARCH 202 - PRINCIPLES OF ARCHITECTURE IV - EFFECTS
Short Title: PRINCIPLES OF ARCHITECTURE IV
Department: Architecture
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 6
Restrictions: Enrollment is limited to Undergraduate level students.
Course Level: Undergraduate Lower-Level
Prerequisite(s): ARCH 201
Description: What is the relationship between material, technique and spatial or formal effects? This studio focuses on developing a student's understanding and experimentation with material and tectonic systems, building envelopes, and issues of sustainability.

ARCH 207 - TECHNOLOGY I
Short Title: TECHNOLOGY I
Department: Architecture
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group III
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: The course will introduce students to historical and contemporary structures through multi-media presentations, computer-based visualizations, field trips, and hands-on experiments with materials of construction and physical models of structures. This course also addresses sustainability issues specific to structural systems such as embodied energy, life-cycle cost, and material recycling. This is the introductory course on the art and science of designing engineered structures and is the first of four required courses in the architectural technology sequence. It is intended for first or second year students interested in both civil engineering and architecture. Graduate/Undergraduate Equivalency: ARCH 507. Mutually Exclusive: Credit cannot be earned for ARCH 207 and ARCH 507.

ARCH 225 - HISTORY & THEORY I (INTRO)
Short Title: HISTORY & THEORY I (INTRO)
Department: Architecture
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: This introductory course exposes student's issues and debates that have driven architects and theorists from the early twentieth century to the present. The course is structured around a sequence of fourteen themes that have recurred as major issues throughout architectural history. Focusing on topics, ranging from representation, to media, to politics, urbanity, or the environment, teach theme is presented as a debate between differing viewpoints, in order to expose the positions that have motivated both theory and practice. In weekly discussion sections, we will be analyzing buildings and discussing canonical texts. These sections provide opportunities for students to develop their own positions on the issues debated, and to refine their ability to make arguments. Cross-list: HART 225. Graduate/Undergraduate Equivalency: ARCH 525. Mutually Exclusive: Credit cannot be earned for ARCH 225 and ARCH 525.

ARCH 235 - HISTORY OF ARCHITECTURAL THINKING I
Short Title: HISTORY OF ARCH THINKING I
Department: Architecture
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Lower-Level
Description: Introduction to architectural thought. Lectures and discussions focusing on ideas before 1850 that have exercised a significant influence on the subsequent discourse and production of architecture and urbanism. Graduate/Undergraduate Equivalency: ARCH 535. Mutually Exclusive: Credit cannot be earned for ARCH 235 and ARCH 345/ARCH 535/ARCH 645.
ARCH 301 - INTERMEDIATE PROBLEMS IN ARCHITECTURE I - SITUATION
Short Title: INTERMEDIATE PROBLEMS ARCH I
Department: Architecture
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 6
Restrictions: Enrollment is limited to Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ARCH 301
Description: This seminar will construct a conversation about coherence. The opening salvo in this conversation: architects traffic entirely in the other a global economy and discipline.

ARCH 302 - INTERMEDIATE PROBLEMS IN ARCHITECTURE II - LEGIBILITY
Short Title: INTERMEDIATE PROBLEMS ARCH II
Department: Architecture
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 6
Restrictions: Enrollment is limited to Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ARCH 301
Description: How do questions of legibility in architecture engage a global milieu? This typically travel focused studio develops a large and complex architectural project in an urban context, examining through design the relationship between a specific locale and culture on the one hand and on the other a global economy and discipline.

ARCH 303 - COHERENCE
Short Title: COHERENCE
Department: Architecture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This seminar will construct a conversation about coherence. The opening salvo in this conversation: architects traffic entirely in greater or lesser degrees of coherence. A series of questions will start our discussion: How so? What structures underlie coherence in architecture? Is coherence necessarily overt? Latent? How is coherence fruitful today? Graduate/Undergraduate Equivalency: ARCH 603. Mutually Exclusive: Credit cannot be earned for ARCH 303 and ARCH 603.

ARCH 304 - ARCHITECTURE FOR NON-ARCHITECTS
Short Title: ARCH FOR NON-ARCHITECTS
Department: Architecture
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course is designed to increase awareness and appreciation of broad range of architectural issues through lectures, comparative building studies, design exercises, readings, and discussion. Intended for non-majors in architecture, the course will provide students the opportunity to understand the architectural design process through hands-on experience. Enrollment limited to 15 and requires instructor permission. Instructor Permission Required.

ARCH 305 - TECHNOLOGY II
Short Title: TECHNOLOGY II
Department: Architecture
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group III
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course is the second part of the introduction to contemporary building structures. The topics covered are the design of concrete structures and design of specialized structures including tilt wall, long span, and high rise. Each structural type is explored in terms of overall performance, design of individual components, and the relation of structure to other building subsystems such as foundations, enclosure, and interiors. This course also addresses sustainability issues specific to structural systems and is the second of four required courses in the architectural technology sequence. Graduate/Undergraduate Equivalency: ARCH 509. Recommended Prerequisite(s): Prior completion of Technology I. Mutually Exclusive: Credit cannot be earned for ARCH 309 and ARCH 509.
### ARCH 310 - VIRTUAL RECONSTRUCTION OF HISTORICAL CITIES
- **Short Title:** VIRTUAL RECONSTR HISTORICAL CITIES
- **Department:** Architecture
- **Grade Mode:** Standard Letter
- **Course Type:** Research
- **Credit Hours:** 3
- **Restrictions:** Enrollment is limited to Undergraduate level students.
- **Course Level:** Undergraduate Upper-Level
- **Description:** This course, part of the HRC’s Digital Humanities Initiative, is devoted to the virtual reconstruction of ancient urban landscapes with focus on individual buildings in their urban settings. All course activities will be based around interdisciplinary student teams who will work together through the semesters to complete a virtual reconstruction project. Instructor Permission Required. Cross-list: ANTH 346, COMP 316, HART 316.

### ARCH 311 - HOUSTON ARCHITECTURE
- **Short Title:** HOUSTON ARCHITECTURE
- **Department:** Architecture
- **Grade Mode:** Standard Letter
- **Course Type:** Lecture
- **Distribution Group:** Distribution Group I
- **Credit Hours:** 3
- **Course Level:** Undergraduate Upper-Level
- **Description:** This course consists of a series of illustrated lectures and walking tours that describe and analyze the architecture of Houston from the city’s founding in 1836 to the present. Characteristic building types and exceptional works of architecture are identified; tours stimulate an awareness of the historical dimension of urban sites. Graduate/Undergraduate Equivalency: ARCH 611. Mutually Exclusive: Credit cannot be earned for ARCH 311 and ARCH 611.

### ARCH 313 - CASE STUDIES IN SUSTAINABLE DESIGN
- **Short Title:** CASE STUDIES IN SUSTAINABLE DESIGN
- **Department:** Architecture
- **Grade Mode:** Standard Letter
- **Course Type:** Seminar
- **Credit Hours:** 3
- **Course Level:** Undergraduate Upper-Level
- **Description:** This course will explore sustainable design from initial sustainable facility concepts and team organizations, to enlisting community support and process assessment. The course will develop into details about sustainable design, lessons learned, processes and outcomes. Space is limited and registration does not guarantee a space in this course. The final course roster is formulated on the first day class by the individual instructor. Cross-list: ENST 313. Graduate/Undergraduate Equivalency: ARCH 613. Mutually Exclusive: Credit cannot be earned for ARCH 313 and ARCH 613.

### ARCH 314 - TECHNOLOGY III
- **Short Title:** TECHNOLOGY III
- **Department:** Architecture
- **Grade Mode:** Standard Letter
- **Course Type:** Lecture
- **Credit Hours:** 3
- **Restrictions:** Enrollment is limited to Undergraduate level students.
- **Course Level:** Undergraduate Upper-Level
- **Description:** The building envelope is the collection of material assemblies that separate a building’s interior from the exterior environment. This course examines the interaction of those assemblies with natural forces such as temperature, moisture, and solar radiation and the details of construction which have evolved to mitigate them. The subject matter includes both traditional building exterior wall and roof construction and newer technologies such as rainscreen, green roof, and building surface media systems. This course addresses sustainability issues related to enclosure systems through energy cost and carbon footprint analysis. It is the third of four required courses in the architectural technology sequence. Graduate/Undergraduate Equivalency: ARCH 514. Mutually Exclusive: Credit cannot be earned for ARCH 314 and ARCH 514.

### ARCH 315 - BRAZIL BUILT: THE CLINIC, THE TROPICAL, AND THE AESTHETIC
- **Short Title:** BRAZIL BUILT
- **Department:** Architecture
- **Grade Mode:** Standard Letter
- **Course Type:** Seminar
- **Credit Hours:** 3
- **Restrictions:** Enrollment is limited to Undergraduate level students.
- **Course Level:** Undergraduate Upper-Level
- **Description:** From Brazil Builds, MOMA’s 1943 celebrated exhibition to Brasilia, the supermodern capital created ex-nihilo in the middle of nowhere, to today’s worldwide attention on Brazil, this seminar examines the built environment - natural and architectural - as the main transmitter of modernism in Brazil. This is a seminar on Brazilian modernism and its discontents. Cross-list: HART 310. Graduate/Undergraduate Equivalency: ARCH 515. Mutually Exclusive: Credit cannot be earned for ARCH 315 and ARCH 515.

### ARCH 316 - TECHNOLOGY IV
- **Short Title:** TECHNOLOGY IV
- **Department:** Architecture
- **Grade Mode:** Standard Letter
- **Course Type:** Lecture
- **Distribution Group:** Distribution Group III
- **Credit Hours:** 3
- **Restrictions:** Enrollment is limited to Undergraduate level students.
- **Course Level:** Undergraduate Upper-Level
- **Description:** This course addresses building environmental systems including power, water, and wastewater with an emphasis on air condition systems. Through multimedia presentations and fieldtrips, students are taught to analyze the thermal environment in a variety of building types and select equipment to meet these needs. Sustainability issues related to environmental systems such as energy conservational and life cycle costs are also addressed. This is the fourth required course in the architectural technology sequence. Graduate/Undergraduate Equivalency: ARCH 516. Mutually Exclusive: Credit cannot be earned for ARCH 316 and ARCH 516.
ARCH 317 - LANDSCAPE AND SITE STRATEGIES FOR HOUSTON
Short Title: LANDSCAPE & SITE STRAT HOUSTON
Department: Architecture
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Course Level: Undergraduate Upper-Level
Description: This course is a workshop in site planning, with Houston as its focus. It will allow students to gain practice assessing, cataloging, and communicating the many complex issues that go into plugging a building into a site. We will navigate the networks created by natural environments, the build and legal environments, and access. The final product of this course is a site plan. Space is limited and registration does not guarantee a space in this course. The final course roster is formulated on the first day of class by the individual instructor. Graduate/Undergraduate Equivalency: ARCH 617. Mutually Exclusive: Credit cannot be earned for ARCH 317 and ARCH 617.

ARCH 318 - LIVING IN THE CITY IN THE OTTOMAN EMPIRE
Short Title: LIVING IN THE CITY
Department: Architecture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Seminar combines primary and secondary sources to explore the urban experiences of Ottoman men and women in the 18th and early 19th centuries. Looking at several cities including Istanbul, Izmir, Salonika, Damascus, Aleppo and Alexandria, we will discuss such issues as neighborhood and community life, public spaces and recreational culture perceptions of space, urban institutions, Muslim and non-Muslim relations, migration and marginality, violence and death. Reading knowledge of French and/or Turkish helpful but not necessary. Cross-list: HART 308. Graduate/Undergraduate Equivalency: ARCH 518. Mutually Exclusive: Credit cannot be earned for ARCH 318 and ARCH 518.

ARCH 321 - CASE STUDIES IN SUSTAINABILITY: THE HIGH PERFORMANCE BUILDING
Short Title: SUSTAINABILITY CASE STUDIES
Department: Architecture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: The project-based seminar will provide a means by which all those with an interest in the building science entailed in the design of commercial, institutional, and residential structures can investigate common issues, obtain information, discuss local strategies, and otherwise address subjects relating to building or campus performance over its lifecycle. To develop an approach of taking an existing Rice University building or campus facility managers Photo: Rice University

ARCH 322 - CASE STUDIES IN SUSTAINABILITY: THE REGENERATIVE REPOSITIONING OF NEW OR EXISTING RICE CAMPUS BUILDING
Short Title: CASE STUDIES IN SUSTAINABILITY
Department: Architecture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Course Level: Undergraduate Upper-Level
Description: This course will explore application of high performance, sustainable design to specific Rice University campus and facility targets. In partnership with Rice University leadership, the team effort will develop "regenerative redesign" approaches based on investigation of other campuses’ case study. Space is limited and registration does not guarantee a space in this course. The final course roster is formulated on the first day of class by the individual instructor. Cross-list: ENST 322. Graduate/Undergraduate Equivalency: ARCH 622. Mutually Exclusive: Credit cannot be earned for ARCH 322 and ARCH 622.

ARCH 323 - SEMINAR IN ARCHITECTURE
Short Title: SEMINAR IN ARCHITECTURE
Department: Architecture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Small, focused, discussion, workshop and/or design based courses on topics of recent research in architecture, delivered by RSA individual instructor. Graduate/Undergraduate Equivalency: ARCH 523. Repeatable for Credit.

ARCH 326 - MATERIAL, FORM, SPACE, TIME: CONCRETE AND THE REVOLUTION OF SPACE IN ANCIENT ROME
Short Title: MATERIAL, FORM, SPACE, TIME
Department: Architecture
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: "Architectural Revolution" has been tied to Le Corbusier, the Eiffel Tower, the Louvre, Brunelleschi and to towering Gothic cathedrals. At the foundation of all these endeavors is the Concrete Revolution in Roman Architecture. In this course we'll look at the four essential elements of this revolution from the fourth century BCE to the fifth century CE, and we'll investigate how shifts in application and experience created a background that informs design to this day. Cross-list: CLAS 326, HART 326. Graduate/Undergraduate Equivalency: ARCH 626. Mutually Exclusive: Credit cannot be earned for ARCH 326 and ARCH 626.
ARCH 327 - RICE BUILDING WORKSHOP II

Short Title: RICE BUILDING WORKSHOP II

Department: Architecture

Credit Hours: 3

Course Type: Seminar

Restrictions: Enrollment is limited to Undergraduate level students.

Description: The Rice Building Workshop involves graduate and undergraduate students in the design and construction of building projects at various scales. Elective courses and course sequences will be formatted to address the specific requirements of each project as required. Please consult postings for further information. Space is limited, and registration does not guarantee a space in this course. The final course roster is formulated on the first day of class by the individual instructor. Mutually Exclusive: Credit cannot be earned for ARCH 327 and ARCH 627.

ARCH 329 - STREETS AND URBAN LIFE: PARIS TO ISTANBUL

Short Title: STREETS AND URBAN LIFE

Department: Architecture

Credit Hours: 3

Course Type: Lecture

Restrictions: Enrollment is limited to Undergraduate level students.

Description: Exploration of the street as a focus of urban life in 18th and 19th century. We will look at ways streets functioned as spaces of livelihood, sociability, and transgression in cities such as London, Paris, Istanbul, Amsterdam & Cairo. Cross-list: HART 329, HIST 329. Graduate/Undergraduate Equivalency: ARCH 529. Mutually Exclusive: Credit cannot be earned for ARCH 329 and ARCH 529.

ARCH 330 - RICE BUILDING WORKSHOP SEMINAR II

Short Title: RICE BUILDING WORKSHOP II

Department: Architecture

Credit Hours: 3

Course Type: Seminar

Restrictions: Enrollment is limited to Undergraduate level students.

Description: The Rice Building Workshop involves graduate and undergraduate students in the design and construction of real projects at various scales. Elective courses and course sequences will be formatted to address the specific requirements of each project as required. Please consult postings for further information. Space is limited, and registration does not guarantee a space in this course. The final course roster is formulated on the first day of class by the individual instructor. Graduate/Undergraduate Equivalency: ARCH 630. Mutually Exclusive: Credit cannot be earned for ARCH 330 and ARCH 630. Repeatable for Credit.

ARCH 331 - IMPERIAL CITY: ISTANBUL 1453-1922

Short Title: ISTANBUL IMPERIAL CITY

Department: Architecture

Credit Hours: 3

Restrictions: Enrollment is limited to Undergraduate level students.

Description: This thematic seminar examines significant historical moments in the architectural and urban cultural of the Ottoman imperial capital from the moment it was conquered until the demise of the Ottoman empire. Weekly readings and discussions will cover a range of topics including building patronage, architectural decorum, the Byzantine legacy, artistic relations with Persia, India and Europe, cultural pluralism, neighborhood and public life, law and urban order, modernity and modernization. Cross-list: HART 321. Graduate/Undergraduate Equivalency: ARCH 521. Mutually Exclusive: Credit cannot be earned for ARCH 331 and ARCH 521.

ARCH 332 - JERUSALEM TO ISFAHAN

Short Title: JERUSALEM TO ISFAHAN

Department: Architecture

Credit Hours: 3

Restrictions: Enrollment is limited to Undergraduate level students.

Description: A seminar on key topics of the study of visual cultures in the medieval and early modern Muslim world focused on specific works of art. Politics of architectural patronage, dissemination of visual languages, calligraphy, "ornament" and figural representation in Islam, cross-cultural exchanges and trans-religious iconographies are among the topics discussed. Cross-list: HART 322. Graduate/Undergraduate Equivalency: ARCH 522. Mutually Exclusive: Credit cannot be earned for ARCH 332 and ARCH 522.

ARCH 333 - BETWEEN INFORMATION AND SPACE

Short Title: BETWEEN INFORMATION AND SPACE

Department: Architecture

Credit Hours: 3

Restrictions: Enrollment is limited to Undergraduate level students.

Description: This course situates contemporary graphic methods (of inquiry and presentation) in architecture through an historical overview of information management techniques used by a range of architectural practices, from post-war to the present. A digital collection of architectural graphic formats and their building counterparts will be used to identify the synthetic, elastic, and pragmatic relationships between techniques of spatializing 2D information and the development of an architectural project. The course will distinguish and catalogue the various format types - how they are structure, how they are read, the technologies that facilitate them, and how they shape design procedures and effects. Organized through lecture prompts, discussions of readings, case studies, and graphic projects, the course is intended to advance a student’s understanding of an ability to position their own architectural projects relative to an historic lineage of graphic procedures. Graduate/Undergraduate Equivalency: ARCH 533. Mutually Exclusive: Credit cannot be earned for ARCH 333 and ARCH 533.
ARCH 346 - HISTORY AND THEORY III - 1890 to 1968
Short Title: HISTORY & THEORY III 1890-1968
Department: Architecture
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ARCH 345 or ARCH 645 or HART 345 or HART 645
Description: This third course in the required History and Theory of Architecture sequence surveys the history and theory of architecture and urbanism between 1890 and 1968, tracing the critical shifts in architectural thought and practice that inaugurated, constituted, and questioned architectural modernism. Organized around a series of significant case studies considered particular designed responses to their material, intellectual, and sociopolitical context, the course elucidates the influence of contingent conditions on architectural design, but emphasizes the designer's efforts to reinforce, reform, or transform those conditions. While non-majors are welcome, availability is determined by the instructor. Graduate/Undergraduate Equivalency: ARCH 646. Mutually Exclusive: Credit cannot be earned for ARCH 346 and ARCH 336/ARCH 536.

ARCH 350 - INTRODUCTORY ARCHITECTURE SEMINAR
Short Title: INTRODUCTORY ARCHITECTURE SEM
Department: Architecture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: A seminar in which the relationship between the construction of an object and its usefulness is explored. The premise in the course is that the way things are made can be one credible point of departure for the architectural design process. Graduate/Undergraduate Equivalency: ARCH 644. Mutually Exclusive: Credit cannot be earned for ARCH 344 and ARCH 644.
ARCH 352 - HISTORY AND THEORY IV - 1968 TO THE PRESENT
Short Title: HISTORY & THEORY IV 1968-PRES
Department: Architecture
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): (ARCH 225 or ARCH 525) and (ARCH 345 or ARCH 645) and (ARCH 346 or ARCH 646)
Description: This final course in the History and Theory of Architecture core sequence provides an overview of key projects and concepts of contemporary architecture and related fields. Lectures on case-studies drawn from around the world from the late 20th century through the present are complimented by weekly discussions. This course is required for students in the undergraduate and graduate architecture programs. Enrollment of other students is welcomed but may be limited based on availability and approval of the instructor. Graduate/Undergraduate Equivalency: ARCH 652. Mutually Exclusive: Credit cannot be earned for ARCH 352 and ARCH 337/ARCH 537.

ARCH 353 - PHOTOGRAPHY FOR ARCHITECTS
Short Title: PHOTO FOR ARCHITECTS
Department: Architecture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Course Level: Undergraduate Upper-Level
Description: Exploration of a variety of photographic techniques for architectural research, design, and presentation. Space is limited and registration does not guarantee a space in this course. The final course roster is formulated on the first day class by the individual instructor. Graduate/Undergraduate Equivalency: ARCH 653. Mutually Exclusive: Credit cannot be earned for ARCH 353 and ARCH 653.

ARCH 358 - CAST MODERNITY
Short Title: CAST MODERNITY
Department: Architecture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This seminar will look at concrete’s role as a facilitator of the conceptual and theoretical agendas of the architecture of the 20th century. Just as the Domino system enabled a new architecture at the beginning of the century, the current interests in topological and non-treated form are again arguing for concrete’s unique properties. Graduate/Undergraduate Equivalency: ARCH 658. Mutually Exclusive: Credit cannot be earned for ARCH 358 and ARCH 658.

ARCH 359 - CINEMAS OF URBAN ALIENATION
Short Title: CINEMAS OF URBAN ALIENATION
Department: Architecture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 4
Restrictions: Enrollment is limited to Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This seminar examines cinematic engagements with urban spaces and experiences around the world spanning the last two centuries. Particular attention will be paid to issues of migration, marginality, colonialism, war and post-war, nostalgia and memory, race and gender. Cities of focus include Berlin, Istanbul, Moscow, Algiers, Beirut and Paris. Our weekly discussions of individual films will be grounded in critical writings of the cities’ histories and theories of space and film. Cross-list: FILM 359, HART 359. Graduate/Undergraduate Equivalency: ARCH 654. Mutually Exclusive: Credit cannot be earned for ARCH 359 and ARCH 654.

ARCH 362 - PROBLEMATIZING THE PRACTICE OF MODERN ARCHITECTURE
Short Title: PRACTICE MODERN ARCHITECTURE
Department: Architecture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Seminar examines the problematics of modern architectural practice in the United States in the second half of the twentieth century by focusing on the career of the Houston architect Howard Barnstone (1923-87). Students will perform original research in the Howard Barnstone architectural archive, readings and seminar discussions leading to individual research papers on aspects of modern architectural practice. Graduate/Undergraduate Equivalency: ARCH 662. Mutually Exclusive: Credit cannot be earned for ARCH 362 and ARCH 662.

ARCH 363 - ARCHITECTURAL FREEHAND DRAWING WORKSHOP
Short Title: ARCH FREEHAND DRAWING WKSHOP
Department: Architecture
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Course Level: Undergraduate Upper-Level
Description: The object of this workshop is to explore, practice and develop a series of drawing methods and techniques in the context of the architectural design process. Emphasis will be on the development of free-hand drawing skills that will enhance the ability of the ability of the design in communicating conceptual ideas. The course will consist of a combination of lectures/demonstrations, in-class drawing exercises, and out-of-class assignments. Two sketch books (one at mid-term and one at the end of the semester) will also be required. Attendance is critical. Please come to the first class prepared to draw with pen and an 8 1/2 x 11 or 9 x 12 sketch pad. Space is limited and registration does not guarantee a space in this course. The final course roster is formulated on the first day class by the individual instructor. Graduate/Undergraduate Equivalency: ARCH 663. Mutually Exclusive: Credit cannot be earned for ARCH 363 and ARCH 663. Repeatable for Credit.
ARCH 366 - RIO DE JANEIRO: A SOCIAL AND ARCHITECTURAL HISTORY
Short Title: RIO DE JANEIRO
Department: Architecture
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: The development of Rio de Janeiro from a colonial capital to an Olympic host with emphasis on the peoples of the city and evolution of the urban panorama. Cross-list: ARTS 165. Graduate/Undergraduate Equivalency: ARCH 666. Mutually Exclusive: Credit cannot be earned for ARCH 366 and ARCH 666.

ARCH 367 - SCULPTURE STUDIO
Short Title: SCULPTURE STUDIO
Department: Architecture
Grade Mode: Standard Letter
Course Type: Studio
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ARTS 165
Description: Study of advanced problems in various sculptural media. Limited enrollment. The roster is formulated on the first day of class by the instructor, who may allow additional registration for majors and under-classmen. It is necessary to attend the first class meeting to confirm your place on the class roster. Cross-list: ARTS 366.

ARCH 370 - DESIGNING THE SOCIAL: ARCHITECTURE & COLLECTIVE ASSOC. - 'COMRADES,' 'THE DUDE,' AND BEYOND
Short Title: DESIGNING THE SOCIAL
Department: Architecture
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Over the past decades, the conception of books has become an integral part of any architectural practice. This seminar aims to introduce students to the book as a means to think about the production of space, and as a critical vessel to discuss and disseminate architectural ideas. The second part will be dedicated to the actual "building" of a small architectural publication, which will reflect critical and editorial skills as well as the craft of bookmaking. Graduate/Undergraduate Equivalency: ARCH 670. Mutually Exclusive: Credit cannot be earned for ARCH 370 and ARCH 670.
ARCH 377 - ISLAND IRREDENTA: TAIWAN
Short Title: ISLAND IRREDENTA: TAIWAN
Department: Architecture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This seminar seeks to use Taiwan as a model to explore the implications of architectural engagement with a post-industrial operating across several scales, from the local to the global. The shift in Taiwan's industrial base has spurred massive investment in new infrastructure and a series of extra-large public architectural projects by global practices such as UN Studio, Toyo Ito, Richard Rogers, OMA and RUR. Added to this economic re-alignment are Taiwan's ambiguous, "unredeemed" international status and its island geography, which uniquely suit of restudding the role of architecture to simultaneously crate a global identity and serve an splintered local constituency. The insistence on the architectural project situated in an increasingly precarious context will form sphere and better definitions of architecture's relationship to post-industrial infrastructure. The seminar is structured around weekly discussions of reading material paired with case studies of Taiwan's infrastructural development and recent large-scale architectural interventions. Graduate/Undergraduate Equivalency: ARCH 673. Mutually Exclusive: Credit cannot be earned for ARCH 377 and ARCH 673. Repeatable for Credit.

ARCH 401 - ADVANCED TOPICS IN ARCHITECTURE - THE METROPOLIS
Short Title: ADVANCED TOPICS ARCHITECTURE
Department: Architecture
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ARCH 302
Description: What is the agency of the architect as a public figure and the contributions of architecture to the emerging and existing public realms? This studio focuses on a very large building program or urban scaled design, engaging the complexity of the communities and shared spaces of the emerging metropolis/megalopolis.

ARCH 402 - ADVANCED TOPICS IN ARCHITECTURE - WILLIAM WARD WATKIN
Short Title: ADVANCED TOPICS ARCHITECTURE
Department: Architecture
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ARCH 401 and ARCH 403
Description: The final design studio of the four year BA in Architecture is conducted as design research studio in which students pursue a topic and develop a brief under a conceptual umbrella provided by the instructor. The studio is linked to the ARCH 403 design research seminar taken the semester prior to the studio.

ARCH 403 - DEGREE PROJECT SEMINAR
Short Title: DEGREE PROJECT SEMINAR
Department: Architecture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: A special-topics seminar establishing the intellectual/design foundation for the spring Watkin Studio (ARCH 402). Texts, case studies, and design methods will be used to investigate focused subjects of particular contemporary relevance as established by the instructor. Assignments can consist of written papers, analytical projects, elaborations of design techniques, and other forms of investigation. Students are approved for section and topic, taking their preference into account. Students enrolled in each section will continue to work with the same instructor in the spring studio. Instructor Permission Required.

ARCH 412 - ADVANCED SEMINAR IN ARCHITECTURE
Short Title: ADV SEMINAR IN ARCHITECTURE
Department: Architecture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Course Level: Undergraduate Upper-Level
Description: Small, focused, advanced discussion, workshop and/or design based courses on topics of recent research in architecture, delivered by RSA full time or visiting faculty. This seminar is open to RSA undergraduate students junior-level and above, and RSA graduate students. Students from other departments may enroll in the course with instructor permission. See the RSA website for more information: arch.rice.edu/courses. Cross-list: HART 412. Graduate/Undergraduate Equivalency: ARCH 612. Mutually Exclusive: Credit cannot be earned for ARCH 412 and ARCH 612. Repeatable for Credit.

ARCH 416 - INNOVATION IN DESIGN AND CONSTRUCTION INDUSTRY
Short Title: INNOV.DESIGN & CONST. INDUSTRY
Department: Architecture
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Process innovation in the design and construction industries is far too rare. Even with access to powerful tools such as CADD and the Internet, many opportunities for process improvement are overlooked and problems are repeatedly ignored. Within this course, cross-discipline project teams will use contemporary business tools to evaluate longstanding industry practices and develop ideas for process innovation. At the end of the semester, students will present innovation concepts to members of the Project Delivery Innovation Forum, a group of industry leaders that may select student ideas for further research on real projects. Space is limited and registration does not guarantee a space in this course. The final course roster is formulated on the first day class by the individual instructor. Graduate/Undergraduate Equivalency: ARCH 616. Mutually Exclusive: Credit cannot be earned for ARCH 416 and ARCH 616.
ARCH 418 - ADVANCED TECHNOLOGY SEMINAR IN ARCHITECTURE
Short Title: ADVANCED TECHNOLOGY SEMINAR
Department: Architecture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course is an advance seminar in specialized area of architectural technology (Structures, Acoustics, Lighting, Materials, and Energy) taught by RSA full-time or visiting faculty. This seminar series is open to RSA undergraduate students junior-level and above and RSA graduate students. Students from other departments may enroll in the course with instructor permission. Topics vary from semester to semester. See our website for more information. Space is limited, and registration does not guarantee a space in this course. The final course roster is formulated on the first day of class by the individual instructor. Graduate/Undergraduate Equivalency: ARCH 618. Mutually Exclusive: Credit cannot be earned for ARCH 418 and ARCH 618. Repeatable for Credit.
Course URL: arch.rice.edu/courses

ARCH 423 - PROFESSIONALISM AND MANAGEMENT IN ARCHITECTURAL PRACTICE
Short Title: PROF&MGMT IN ARCH PRACTICE
Department: Architecture
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ARCH 302
Description: This course is required for the completion of the Bachelor of Architecture professional degree; students may take the course in their fourth year of architectural study in the BA program or in their final year of study in the BArch program. Graduate/Undergraduate Equivalency: ARCH 623. Mutually Exclusive: Credit cannot be earned for ARCH 423 and ARCH 623.

ARCH 431 - URBANISM: ARCHITECTURE AND THE CITY
Short Title: URBANISM: ARCH & THE CITY
Department: Architecture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: The intention of a course on urbanism is to view architecture in light of the city. An assembly of theoretical considerations serves to construct a perspective that allows us to critically assess modern urbanization. The goal is to help students form their own perspective on the practice of architecture and to broaden their understanding of the relentless urbanization that dominates the modern world. Students are expected to read extensively, to be prepared to discuss topics of urbanism in class, to form two-person teams to read selected texts to be presented in class and to shape a term project that may take the form of a final paper or a design proposal dealing with suburban issues. Grades are based on class participation, the reading project and the term project. Graduate/Undergraduate Equivalency: ARCH 631. Mutually Exclusive: Credit cannot be earned for ARCH 431 and ARCH 631.

ARCH 433 - THE CULLINAN SEMINAR
Short Title: THE CULLINAN SEMINAR
Department: Architecture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This seminar for advanced undergraduate students and graduate students will focus on the writings and practice of the semester's four RSA Cullinan visitors: art historian David Joselit (Yale), architect Michael Maltzan (L.A.), architect Alejandro Zaera-Polo (London), and art historian Neil Levine (Harvard). The seminar will be a platform for researching these four topics, including additional background references, other writings by these four figures as well as writings about them and their own work. Additionally, the seminar will feature one seminar session each with the four speakers. Graduate/Undergraduate Equivalency: ARCH 633. Mutually Exclusive: Credit cannot be earned for ARCH 433 and ARCH 633. Repeatable for Credit.

ARCH 435 - PRACTICES OF ARCHITECTURAL THINKING I
Short Title: PRACTICES OF ARCH THINKING I
Department: Architecture
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Seminar
Credit Hour: 1
Restrictions: Enrollment is limited to students with a major in Architecture. Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Presentations, workshops, and discussions on the interrelationship of history, theory, and design, focusing on significant modern and contemporary practices.

ARCH 436 - PRACTICES OF ARCHITECTURAL THINKING II
Short Title: PRACTICES OF ARCH THINKING II
Department: Architecture
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Seminar
Credit Hour: 1
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Presentations, workshops, and discussions on the interrelationship of history, theory, and design, focusing on the intentions and methods of architectural analysis.

ARCH 437 - PRACTICES OF ARCHITECTURAL THINKING III
Short Title: PRACTICES OF ARCH THINKING III
Department: Architecture
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Seminar
Credit Hour: 1
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Presentations, workshops, and discussions on the interrelationship of history, theory, and design, focusing on a special topic in discourse and practice.
ARCH 442 - WHOLE WORLDS
Short Title: WHOLE WORLDS
Department: Architecture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: The seminar aims to conceptualize and project on the idea of architectural world-making, i.e., constructing alternative worlds through architecture. During the last two decades, architectural world-making has mostly been speculated as a social (participation) or a systemic (infrastructure) phenomenon, judged on the basis of its inclusiveness and performance within larger contingencies. On the other hand, the question of disciplinary specificity has by and large been limited to self-referential attributes of exclusive singularity. As part of outlining new directions in relation to these questions, the seminar will speculate and project on an alternative framework of architectural world-making, which both aims multiplicity and singularity while projecting unconventional associations between the two. Through focusing on a particular lineage of architectural ideas, projects and texts, the seminar aims to instigate further interplay between critical thinking and speculative work for future architectures. Space is limited and registration does not guarantee a space in this course. The final course roster is formulated on the first day class by the individual instructor. Graduate/Undergraduate Equivalency: ARCH 642. Mutually Exclusive: Credit cannot be earned for ARCH 442 and ARCH 642.

ARCH 450 - INTERMEDIATE ARCHITECTURE SEMINAR
Short Title: INTERMEDIATE ARCH SEMINAR
Department: Architecture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Course Level: Undergraduate Upper-Level
Description: Small, focused, intermediate-level course in discussion, workshop and/or design-based format on topics related to current research in architecture. Current offerings and enrollment eligibility are listed on the Rice Architecture website: arch.rice.edu. Space is limited and registration does not guarantee a space in this course. Repeatable for Credit.

ARCH 452 - PRACTICING UTOPIA: ARCHITECTURE, EUGENICS AND THE MODERN LATIN CITY
Short Title: PRACTICING UTOPIA
Department: Architecture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This seminar will explore the alliance between aesthetics, science, and ideology at the core of French and Latin American modernism. Focusing on early twentieth-century scientific and cultural dialogues between France and Latin America, this seminar will have as main territories of exploration: Paris, Rio de Janeiro, Buenos Aires, Havana, and Caracas. Cross-list: HART 463.

ARCH 455 - HOUSING AND URBAN PROGRAMS: ISSUES IN POLICY
Short Title: HOUSE&URBAN PROG:ISSUES POLICY
Department: Architecture
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Course Level: Undergraduate Upper-Level
Description: This course will explore current issues in the formulation and implementation of housing and urban development programs in the U.S. An oral presentation and written paper on a specific topic within a general policy area required.

ARCH 456 - FUTURES OF THE BOOK
Short Title: FUTURES OF THE BOOK
Department: Architecture
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Seminar
Credit Hour: 1
Restrictions: Enrollment is limited to Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: From an ongoing interest in the book as a physical object, to the exploration of its potentials expanding into a four-dimensional digital realm, to rapidly changing demands for the storage and retrieval of knowledge, this master class will provide a platform to engage experts from various disciplines in a debate on the shifting futures of the book. Instructor Permission Required. Cross-list: HURC 408. Graduate/Undergraduate Equivalency: ARCH 656. Mutually Exclusive: Credit cannot be earned for ARCH 456 and ARCH 656.

ARCH 461 - SPECIAL PROJECTS
Short Title: SPECIAL PROJECTS
Department: Architecture
Grade Mode: Standard Letter
Course Type: Research
Credit Hours: 1-9
Restrictions: Enrollment is limited to Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Independent research or design arranged in consultation with a faculty member. Subject to approval of faculty advisor and director or undergraduate studies. Instructor Permission Required. Repeatable for Credit.

ARCH 462 - NATURE IN-VITRO: BODIES, GARDENS AND BUILT FORMS
Short Title: NATURE IN-VITRO
Department: Architecture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This seminar considers theories and narratives of nature in the crafting of modern and contemporary art and architecture in the Americas. We will travel from Humboldt’s re-imagined geographies, Jean-Baptiste Lamarck’s re-formulated notions of milieu, and Xavier Bichat’s re-conceptualized human body to 20th century earthworks and current obsessions with ecology and sustainability. Cross-list: HART 467.
ARCH 469 - CASE STUDY IN URBAN DESIGN: BRASILIA
Short Title: CASE STDY URBN DESIGN:BRASILIA
Department: Architecture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Starting with two principal documents describing the city of Brasilia, the original hand drawn competition entry in 1957 and a digital survey of 1997, this seminar will study modern urban design in relation to the 1950’s project for a new Brazilian capital. The project of Brasilia, and its inevitable transformation over time, will be looked at historically, politically, culturally, formally and esthetically. Graduate/Undergraduate Equivalency: ARCH 669. Mutually Exclusive: Credit cannot be earned for ARCH 469 and ARCH 669.

ARCH 480 - INTRODUCTION TO BUILDING INFORMATION MANAGEMENT
Short Title: INTRODUCTION TO BIM
Department: Architecture
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This is an introductory course in the use of Building Information Management (BIM) software. The course will utilize "Revit Architecture" by Autodesk, which is now installed on the PC’s in RAVL. Students will produce a complete drawing package including architectural, mechanical and structural drawings of a building they have previously designed in studio or a structure developed specifically for this exercise. Space is limited and registration does not guarantee a space in this course. The final course roster is formulated on the first day class by the individual instructor. Graduate/Undergraduate Equivalency: ARCH 680. Mutually Exclusive: Credit cannot be earned for ARCH 480 and ARCH 680.

ARCH 489 - ARCHITECTURE EXPANDED: CONTEXT, SCALE, AGENCY
Short Title: ARCHITECTURE EXPANDED
Department: Architecture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: For more than 2 decades, new scales of context have been a pervasive paradigm for Architecture. Suggesting infrastructural, ecological or political scale shifts for design, this paradigm has sparked a prevalent interest in emergent urban conditions, larger territories as well as interdisciplinary juxtapositions. In parallel, however, of paramount importance has been the accumulation of new questions in relation to architectural agency, disciplinary specificity and form. In an attempt to explore this proposition further, the seminar will concentrate on an alternative reading for the ideas of context and agency within 20th century architecture & urbanism. Graduate/Undergraduate Equivalency: ARCH 689. Mutually Exclusive: Credit cannot be earned for ARCH 489 and ARCH 689.

ARCH 491 - REAL ESTATE LAB: DEVELOP, DESIGN AND CONSTRUCTION
Short Title: RE LAB:DEVELOP DESIGN CONSTR
Department: Architecture
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Undergraduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Full time internship for nine to twelve months under guidance of appointed preceptor. Required for all students enrolled in the Bachelor or Architecture degree program. Instructor Permission Required. Repeatable for Credit.

ARCH 500 - PRECEPTORSHIP PROGRAM
Short Title: PRECEPTORSHIP PROGRAM
Department: Architecture
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Internship/Practicum
Credit Hours: 1-15
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: The first in a sequence of four studios that foregrounds the relationship between form and program. By underscoring this pairing, the studio suggests that program and form amplify one another (rather than one superseding the other). The studio establishes a foundation in visual culture through examples in architecture and other design disciplines, art, and art history, as well as exercises in visual/spatial discrimination. The studio stresses the importance of iteration throughout the semester: individual projects emphasize a production/critique/refinement cycle, as does the overall sequence of projects that make up the entire studio.

ARCH 501 - CORE DESIGN STUDIO I
Short Title: CORE DESIGN STUDIO I
Department: Architecture
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 10
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: The second in a sequence of four studios that foregrounds the relationship between form and program. By underscoring this pairing, the studio suggests that program and form amplify one another (rather than one superseding the other). The studio establishes a foundation in visual culture through examples in architecture and other design disciplines, art, and art history, as well as exercises in visual/spatial discrimination. The studio stresses the importance of iteration throughout the semester: individual projects emphasize a production/critique/refinement cycle, as does the overall sequence of projects that make up the entire studio.

ARCH 502 - CORE DESIGN STUDIO II
Short Title: CORE DESIGN STUDIO II
Department: Architecture
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 10
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: The second in a sequence of four studios that foregrounds the relationship between form, program, and technology.

ARCH 503 - CORE DESIGN STUDIO III
Short Title: CORE DESIGN STUDIO III
Department: Architecture
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 10
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: The third in a sequence of four studios that foregrounds the relationship between form, program, and technology.
ARCH 509 - TECHNOLOGY II
Short Title: TECHNOLOGY II
Department: Architecture
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Undergraduate level students may not enroll.
Description: This course is the second part of the introduction to contemporary building structures. The topics covered are the design of concrete structures and design of specialized structures including tilt wall, long span, and high rise. Each structural type is explored in terms of overall performance, design of individual components, and the relation of structure to other building subsystems such as foundations, enclosure, and interiors. This course also addresses sustainability issues specific to structural systems and is the second of four required courses in the architectural technology sequence. Graduate/Undergraduate Equivalency: ARCH 309. Recommended Prerequisite(s): Prior completion of Technology I. Mutually Exclusive: Credit cannot be earned for ARCH 509 and ARCH 309.

ARCH 514 - TECHNOLOGY III
Short Title: TECHNOLOGY III
Department: Architecture
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: The building envelope is the collection of material assemblies that separate a building's interior from the exterior environment. This course examines the interaction of those assemblies with natural forces such as temperature, moisture, and solar radiation and the details of construction which have evolved to mitigate them. The subject matter includes both traditional building exterior wall and roof construction and newer technologies such as rainscreen, green roof, and building surface media systems. This course addresses sustainability issues related to enclosure systems through energy cost and carbon footprint analysis. It is the third of four required courses in the architectural technology sequence. Graduate/Undergraduate Equivalency: ARCH 314. Mutually Exclusive: Credit cannot be earned for ARCH 514 and ARCH 314.

ARCH 515 - BRAZIL BUILT: THE CLINIC, THE TROPICAL AND THE AESTHETIC
Short Title: BRAZIL BUILT
Department: Architecture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: From Brazil Builds, MOMA’s 1943 celebrated exhibition to Brasilia, the supermodern capital created ex-nihilo in the middle of nowhere, to today’s worldwide attention on Brail, this seminar examines the built environment - natural and architectural - as the main transmitter of modernism in Brazil. This is a seminar on Brazilian modernism and its discontents. Cross-list: HART 526. Graduate/Undergraduate Equivalency: ARCH 315. Mutually Exclusive: Credit cannot be earned for ARCH 515 and ARCH 315.

ARCH 516 - TECHNOLOGY IV
Short Title: TECHNOLOGY IV
Department: Architecture
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: This course addresses building environmental systems including power, water, and wastewater with an emphasis on air conditioning systems. Through multimedia presentations and fieldtrips, students are taught to analyze the thermal environment in a variety of building types and select equipment to meet these needs. Sustainability issues related to environmental systems such as energy conservation and life cycle costs are also addressed. This is the fourth required course in the architectural technology sequence. Graduate/Undergraduate Equivalency: ARCH 316. Mutually Exclusive: Credit cannot be earned for ARCH 516 and ARCH 316.
ARCH 518 - LIVING IN THE CITY IN THE OTTOMAN EMPIRE
Short Title: LIVING IN THE CITY
Department: Architecture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: Seminar combines primary and secondary sources to explore the urban experiences of Ottoman men and women in the 18th and early 19th centuries. Looking at several cities including Istanbul, Izmir, Salonika, Damascus, Aleppo and Alexandria, we will discuss such issues as neighborhood and community life, public spaces and recreational culture perceptions of space, urban institutions, Muslim and non-Muslim relations, migration and marginality, violence and death. Reading knowledge of French and/or Turkish helpful but not necessary. For each lecture, Graduate Students will be assigned additional readings. They will write an annotated bibliography of all these readings to be turned in at the end of the semester. We will meet for an additional every two or three weeks to discuss interpretive and methodological problems and ideas associated with the readings. Graduate Students will be expected to complete all the requirements of the class in addition to writing a substantial research paper due at the end of the semester. Cross-list: HART 508. Graduate/Undergraduate Equivalency: ARCH 318. Mutually Exclusive: Credit cannot be earned for ARCH 518 and ARCH 318.

ARCH 520 - ISTANBUL - IMPERIAL CITY
Short Title: ISTANBUL: IMPERIAL CITY
Department: Architecture
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: Graduate Equivalent of ARCH 220. Additional requirements will include 3 - 7 to 8 page papers. These will include limited research, based on bibliography. The 3 papers will be in lieu of the 1-hour midterm and 1 hour final tests required for the 200 level class. Cross-list: HART 520.

ARCH 521 - IMPERIAL CITY: ISTANBUL 1453-1922
Short Title: ISTANBUL IMPERIAL CITY
Department: Architecture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: This thematic seminar examines significant historical moments in the architectural and urban cultural of the Ottoman imperial capital from the moment it was conquered until the demise of the Ottoman Empire. Weekly readings and discussions will cover a range of topics including building patronage, architectural decorum, the Byzantine legacy, artistic relations with Persia, India and Europe, cultural pluralism, neighborhood and public life, law and urban order, modernity and modernization. For each lecture, Graduate Students will be assigned additional readings. They will write an annotated bibliography of all these reading to be turned in at the end of the semester. We will meet at the end of the semester. We will meet for an additional every two or three weeks to discuss interpretive and methodological problems and ideas associated with the readings. Graduate Students will be expected to complete all the requirements of the class in addition to writing a substantial research paper due at the end of the semester. Cross-list: HART 521. Graduate/Undergraduate Equivalency: ARCH 331. Mutually Exclusive: Credit cannot be earned for ARCH 521 and ARCH 331.

ARCH 522 - JERUSALEM TO ISFAHAN
Short Title: JERUSALEM TO ISFAHAN
Department: Architecture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: A seminar on key topics of the study of visual cultures in the medieval and early modern Muslim world focused on specific works of art. Politics of architectural patronage, dissemination of visual languages, calligraphy, "ornament" and figural representation in Islam, cross-cultural exchanges and trans-religious iconographies are among the topics discussed. For each lecture, Graduate Students will be assigned additional readings. They will write an annotated bibliography of all these reading to be turned in at the end of the semester. We will meet at the end of the semester. We will meet for an additional every two or three weeks to discuss interpretive and methodological problems and ideas associated with the readings. Graduate Students will be expected to complete all the requirements of the class in addition to writing a substantial research paper due at the end of the semester. Cross-list: HART 522. Graduate/Undergraduate Equivalency: ARCH 332. Mutually Exclusive: Credit cannot be earned for ARCH 522 and ARCH 332.
ARCH 523 - SEMINAR IN ARCHITECTURE
Short Title: SEMINAR IN ARCHITECTURE
Department: Architecture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: Small, focused, discussion, workshop and/or design based courses on topics of recent research in architecture, delivered by RSA full time or visiting faculty. This seminar series is open to RSA undergraduate and graduate students. Students from other departments may enroll in the course with instructor permission. “See our website for more information: arch.rice.edu/courses”. Space is limited and registration does not guarantee a space in this course. The final course roster is formulated on the first day class by the individual instructor. Graduate/Undergraduate Equivalency: ARCH 323. Repeatable for Credit.

ARCH 525 - HISTORY & THEORY I (INTRODUCTION)
Short Title: HISTORY & THEORY I (INTRO)
Department: Architecture
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: This introductory course exposes students issues and debates that have driven architects and theorists from the early twentieth century to the present. The course is structured around a sequence of fourteen themes that have recurred as major issues throughout architectural history. Focusing on topics, ranging from representation, to media, to politics, urbanity, or the environment, teach theme is presented as a debate between differing viewpoints, in order to expose the positions that have motivated both theory and practice. In weekly discussion sections, we will be analyzing buildings and discussing canonical texts. These sections provide opportunities for students to develop their own positions on the issues debated, and to refine their ability to make arguments. Cross-list: HART 545. Graduate/Undergraduate Equivalency: ARCH 225. Mutually Exclusive: Credit cannot be earned for ARCH 525 and ARCH 225.

ARCH 528 - MIDDLE EASTERN CITIES - SPACE, MODERNITY AND MEMORY (1840-1945)
Short Title: MIDDLE EASTERN CITIES
Department: Architecture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: This seminar engages in debates about urban modernity focusing on three cities Istanbul, Cairo and Beirut. We examine these cities during the period of rapid modernization brought about by the Ottoman reforms of the 1840s and their post-Ottoman period. We will explore innovative methodologies to the study of Mediterranean cities by reflecting on the everyday life, the multiplicity of processes inherent to the shaping of urban space, questions of identities and concepts of citizenship, and the tensions playing out in the making of a modern urban order. Cross-list: HART 528.

ARCH 529 - STREETS AND URBAN LIFE: PARIS TO ISTANBUL
Short Title: STREETS AND URBAN LIFE
Department: Architecture
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: For each lecture, Graduate Students will be assigned additional readings. They will write an annotated bibliography of all these readings to be turned in at the end of the semester. We will meet for an additional every two or three weeks to discuss interpretive and methodological problems and ideas associated with the readings. Graduate Students will be expected to complete all the requirements of the class in addition to writing a substantial research paper due at the end of the semester. Cross-list: HART 529. Graduate/Undergraduate Equivalency: ARCH 329. Mutually Exclusive: Credit cannot be earned for ARCH 529 and ARCH 329.

ARCH 533 - BETWEEN INFORMATION AND SPACE
Short Title: BETWEEN INFORMATION AND SPACE
Department: Architecture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: This course situates contemporary graphic methods (of inquiry and presentation) in architecture through an historical overview of information management techniques used by a range of architectural practices, from post-war to the present. A digital collection of architectural graphic formats and their building counterparts will be used to identify the synthetic, elastic, and pragmatic relationships between techniques of spatializing 2d information and the development of an architectural project. The course will distinguish and catalogue the various format types - how they are structure, how they are read, the technologies that facilitate them, and how they shape design procedures and effects. Organized through lecture prompts, discussions of readings, case studies, and graphic projects, the course is intended to advance a student’s understanding of an ability to position their own architectural projects relative to an historic lineage of graphic procedures. Graduate/Undergraduate Equivalency: ARCH 333. Mutually Exclusive: Credit cannot be earned for ARCH 533 and ARCH 333.

ARCH 535 - HISTORY OF ARCHITECTURAL THINKING I
Short Title: HISTORY OF ARCH THINKING I
Department: Architecture
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: Introduction to architectural thought. Lectures and discussions focusing on ideas before 1850 that have exercised a significant influence on the subsequent discourse and production of architecture and urbanism. Graduate/Undergraduate Equivalency: ARCH 235. Mutually Exclusive: Credit cannot be earned for ARCH 535 and ARCH 235/ARCH 345/ARCH 645.

ARCH 607 - INTRODUCTION TO LANDSCAPE ARCHITECTURE: HISTORY & METHOD
Short Title: INTRODUCTION TO LANDSCAPE
Department: Architecture
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: This course will provide an introduction to landscape architecture through a survey of its history, and through direct application to a studio project. From the historic gardens at Versailles to the current Millennium Park in Chicago, the direct manipulation and design of land has a long and complex set of rules, traditions and practices. The focus will be on the consideration of how architecture extends beyond the interior and its relationship to an equally important external fabric. The course is comprised of interactive lectures on landscape themes, and the application of specific concepts imparted into design exercises. Graduate/Undergraduate Equivalency: ARCH 307. Mutually Exclusive: Credit cannot be earned for ARCH 607 and ARCH 307.

ARCH 610 - HISTORY, THEORY AND STRUCTURE/ PARIS PROGRAM (RSAP)
Short Title: HIST, THEORY & STRUCTR: PARIS
Department: Architecture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 6
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: Seminar, comprised of separate modules, each addressing different issues of urban theory, historical evolution and structure of greater Paris, through lectures, discussions, research and site visits.

ARCH 611 - HOUSTON ARCHITECTURE
Short Title: HOUSTON ARCHITECTURE
Department: Architecture
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: Graduate/Undergraduate Equivalency: ARCH 311. Mutually Exclusive: Credit cannot be earned for ARCH 611 and ARCH 311.

ARCH 612 - ADVANCED SEMINAR IN ARCHITECTURE
Short Title: ADV SEMINAR IN ARCHITECTURE
Department: Architecture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: Small, focused, advanced discussion, workshop and/or design based courses on topics of recent research in architecture, delivered by RSA full time or visiting faculty. This seminar is open to RSA undergraduate students junior-level and above, and RSA graduate students. Students from other departments may enroll in the course with instructor permission. See the RSA website for more information: arch.rice.edu/courses. Space is limited and registration does not guarantee a space in this course. The final course roster is formulated on the first day class by the individual instructor. Cross-list: HART 612. Graduate/Undergraduate Equivalency: ARCH 412. Mutually Exclusive: Credit cannot be earned for ARCH 612 and ARCH 412. Repeatable for Credit.

ARCH 613 - CASE STUDIES IN SUSTAINABLE DESIGN
Short Title: SUSTAINABLE DESIGN
Department: Architecture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: Cross-list: ENST 613. Graduate/Undergraduate Equivalency: ARCH 313. Mutually Exclusive: Credit cannot be earned for ARCH 613 and ARCH 313.

ARCH 615 - WOODSHOP SAFETY
Short Title: WOODSHOP SAFETY
Department: Architecture
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Laboratory
Credit Hour: 1
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: This course will cover all safety concerns in the model shop. Students will learn the proper set up and maintenance of the stationary tools as well as how to do basic fabrication. Students will learn basic material layout and produce objects using the tools as we cover them. Repeatable for Credit.
ARCH 616 - INNOVATION IN DESIGN AND CONSTRUCTION INDUSTRY
Short Title: INNOV.DESIGN & CONST. INDUSTRY
Department: Architecture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: Process innovation in the design and construction industries is far too rare. Even with access to powerful tools such as CADD and the Internet, many opportunities for process improvement are overlooked and problems are repeatedly ignored. Within this course, cross-discipline project teams will use contemporary business tools to evaluate long-standing industry practices and develop ideas for process innovation. At the end of the semester, students will present innovation concepts to members of the Project Delivery Innovation Forum, a group of industry leaders that may select student ideas for further research on real projects. Space is limited and registration does not guarantee a space in this course. The final course roster is formulated on the first day of class by the individual instructor. Cross-list: MGMT 716. Graduate/Undergraduate Equivalency: ARCH 416. Mutually Exclusive: Credit cannot be earned for ARCH 616 and ARCH 416.

ARCH 617 - LANDSCAPE AND SITE STRATEGIES FOR HOUSTON
Short Title: LANDSCAPE & SITE STRAT HOUSTON
Department: Architecture
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: This course is a workshop in site planning, with Houston as its focus. It will allow students to gain practice assessing, cataloging, and communicating the many complex issues that go into plugging a building into a site. We will navigate the networks created by natural environments, the build and legal environments, and access. The final product of this course is a site plan. Space is limited and registration does not guarantee a space in this course. The final course roster is formulated on the first day of class by the individual instructor. Graduate/Undergraduate Equivalency: ARCH 317. Mutually Exclusive: Credit cannot be earned for ARCH 617 and ARCH 317.

ARCH 618 - ADVANCED TECHNOLOGY SEMINAR
Short Title: ADVANCED TECHNOLOGY SEMINAR
Department: Architecture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: This course is an advance seminar in specialized area of architectural technology (Structures, Acoustics, Lighting, Materials, and Energy) taught by RSA full-time or visiting faculty. This seminar series is open to RSA undergraduate students junior-level and above and RSA graduate students. Students from other departments may enroll in the course with instructor permission. Topics vary from semester to semester. See our website for more information. Space is limited, and registration does not guarantee a space in this course. The final course roster is formulated on the first day of class by the individual instructor. Graduate/Undergraduate Equivalency: ARCH 418. Mutually Exclusive: Credit cannot be earned for ARCH 618 and ARCH 418. Repeatable for Credit.

ARCH 620 - ARCHITECTURAL PROBLEMS: STUDIO/PARIS PROGRAM (RSAP)
Short Title: ARCHITECTURAL PROBLEMS
Department: Architecture
Grade Mode: Standard Letter
Course Type: Studio
Credit Hours: 10
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: Advanced issues in building design and urban infrastructure using greater Paris as context. Emphasis on abstract thought and design capabilities relevant to systematic processes of designing specific architectural interventions in the urban context.

ARCH 621 - CASE STUDIES IN SUSTAINABILITY: THE HIGH PERFORMANCE BUILDING
Short Title: SUSTAINABILITY CASE STUDIES
Department: Architecture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: The project-based seminar will provide a means by which all those with an interest in the building science entailed in the design of commercial, institutional, and residential structures can investigate common issues, obtain information, discuss local strategies, and otherwise address subjects relating to building or campus performance over its lifecycle. To develop an approach of taking an existing Rice University building an optimizing its use via "repositioning" or redesign the class will create an interdisciplinary forum where students of architecture, engineering (structural, mechanical, etc.), and human sciences will potentially collaborate with professional building consultants, materials manufacturers, contractors, developers, owners, and Rice campus facility managers Cross-list: ENST 621. Graduate/Undergraduate Equivalency: ARCH 321. Mutually Exclusive: Credit cannot be earned for ARCH 621 and ARCH 321.

ARCH 622 - CASE STUDIES IN SUSTAINABILITY: THE REGENERATIVE REPOSITIONING OF NEW OR EXISING RICE CAMPUS BU
Short Title: CASE STUDIES IN SUSTAINABILITY
Department: Architecture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: This course will explore application of high performance, sustainable design to specific Rice University campus and facility targets. In partnership with Rice University leadership, the team effort will develop "regenerative redesign" approaches based on investigation of other campuses' case study. Space is limited and registration does not guarantee a space in this course. The final course roster is formulated on the first day of class by the individual instructor. Cross-list: ENST 622. Graduate/Undergraduate Equivalency: ARCH 322. Mutually Exclusive: Credit cannot be earned for ARCH 622 and ARCH 322.
ARCH 623 - PROFESSIONALISM AND MANAGEMENT IN ARCHITECTURAL PRACTICE
Short Title: PROF&MGMT IN ARCH PRACTICE
Department: Architecture
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: Graduate/Undergraduate Equivalency: ARCH 423. Mutually Exclusive: Credit cannot be earned for ARCH 623 and ARCH 423.

ARCH 626 - MATERIAL, FORM, SPACE, TIME: CONCRETE AND THE REVOLUTION OF SPACE IN ANCIENT ROME
Short Title: MATERIAL, FORM, SPACE, TIME
Department: Architecture
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: "Architectural Revolution" has been tied to Le Corbusier, the Eiffel Tower, the Louvre, Brunelleschi and to towering Gothic cathedrals. At the foundation of all these endeavors is the Concrete Revolution in Roman Architecture. In this course we'll look at the four essential elements of this revolution from the fourth century BCE to the fifth century CE, and we'll investigate how shifts in application and experience created a background that informs design to this day. Cross-list: HART 626. Graduate/Undergraduate Equivalency: ARCH 326. Mutually Exclusive: Credit cannot be earned for ARCH 626 and ARCH 326.

ARCH 630 - RICE BUILDING WORKSHOP SEMINAR II
Short Title: RICE BUILDING WORKSHOP II
Department: Architecture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 4
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: The Rice Building Workshop involves graduate and undergraduate students in the design and construction of real projects at various scales. Elective courses and course sequences will be formatted to address the specific requirements of each project as required. Please consult postings for further information. Space is limited, and registration does not guarantee a space in this course. The final roster is formulated on the first day of class by the individual instructor. Graduate/Undergraduate Equivalency: ARCH 330. Mutually Exclusive: Credit cannot be earned for ARCH 630 and ARCH 330. Repeatable for Credit.

ARCH 631 - URBANISM I: THE CITY THEORETICALLY CONSIDERED
Short Title: URBANISM I
Department: Architecture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: The intention of a course on urbanism is to view architecture in light of the city. An assembly of theoretical considerations serves to construct a perspective that allows us to critically assess modern urbanization. The goal is to help students form their own perspective on the practice of architecture and to broaden their understanding of the relentless urbanization that dominates the modern world. Students are expected to read extensively, to be prepared to discuss topics of urbanism in class, to form two-person teams to read selected texts to be presented in class and to shape a term project that may take the form of a final paper or a design proposal dealing with suburban issues. Grades are based on class participation, the reading project and the term project. Graduate/Undergraduate Equivalency: ARCH 431. Mutually Exclusive: Credit cannot be earned for ARCH 631 and ARCH 431.

ARCH 633 - THE CULLINAN SEMINAR
Short Title: THE CULLINAN SEMINAR
Department: Architecture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: This seminar for advanced undergraduate students and graduate students will focus on the writings and practice of the semester’s four RSA Cullinan visitors: art historian David Joselit (Yale), architect Michael Maltzan (L.A.), architect Alejandro Zaera-Polo (London), and art historian Neil Levine (Harvard). The seminar will be a platform for researching these four topics, including additional background references, other writings by these four figures as well as writings about them and their own work. Additionally, the seminar will feature one seminar session each with the four speakers. Graduate/Undergraduate Equivalency: ARCH 433. Mutually Exclusive: Credit cannot be earned for ARCH 633 and ARCH 433. Repeatable for Credit.

ARCH 638 - HISTORY OF ARCHITECTURAL THINKING IV
Short Title: HISTORY OF ARCH THINKING IV
Department: Architecture
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: Lectures and discussions focusing on issues and approaches central to current discourse and practice. Mutually Exclusive: Credit cannot be earned for ARCH 638 and ARCH 702.
ARCH 642 - WHOLE WORLDS
Short Title: WHOLE WORLDS
Department: Architecture
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: The seminar aims to conceptualize and project on the idea of architectural world-making, i.e. constructing alternative worlds through architecture. During the last two decades, architectural world-making has mostly been speculated as a social (participation) or a systemic (infrastructure) phenomenon, judged on the basis of its inclusiveness and performance within larger contingencies. On the other hand, the question of disciplinary specificity has by and large been limited to self-referential attributes of exclusive singularity. As part of outlining new directions in relation to these questions, the seminar will speculate and project on an alternative framework of architectural world-making, which both aims multiplicity and singularity while projecting unconventional associations between the two. Through focusing on a particular lineage of architectural ideas, projects and texts, the seminar aims to instigate further interplay between critical thinking and speculative work for future architectures. Space is limited and registration does not guarantee a space in this course. The final course roster is formulated on the first day class by the individual instructor. Graduate/Undergraduate Equivalency: ARCH 442. Mutually Exclusive: Credit cannot be earned for ARCH 642 and ARCH 442.

ARCH 644 - CONSTRUCTION AND DESIGN
Short Title: CONSTRUCTION & DESIGN
Department: Architecture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: This course will trace the development of Renaissance and Baroque architecture in Italy and France with reference to the dialectic of license and rule. The first part, which covers the period from 1400-1600, will focus on the civil, domestic, and ecclesiastical architecture of the chief protagonists of the Italian Renaissance: Brunelleschi, Alberti, Bramante, Giulio Romano, Michelangelo and Palladio. Their buildings and urban initiatives will be interpreted in terms of continuities & discontinuities between an emerging theoretical tradition and the demands of actual practice. Cross-list: HART 645. Graduate/Undergraduate Equivalency: ARCH 344. Mutually Exclusive: Credit cannot be earned for ARCH 644 and ARCH 344.

ARCH 645 - HISTORY AND THEORY II - PRE 1890
Short Title: HISTORY & THEORY II - PRE 1890
Department: Architecture
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: This course will trace the development of Renaissance and Baroque architecture in Italy and France with reference to the dialectic of license and rule. The first part, which covers the period from 1400-1600, will focus on the civil, domestic, and ecclesiastical architecture of the chief protagonists of the Italian Renaissance: Brunelleschi, Alberti, Bramante, Giulio Romano, Michelangelo and Palladio. Their buildings and urban initiatives will be interpreted in terms of continuities & discontinuities between an emerging theoretical tradition and the demands of actual practice. Cross-list: HART 645. Graduate/Undergraduate Equivalency: ARCH 345. Mutually Exclusive: Credit cannot be earned for ARCH 645 and ARCH 235/ARCH 535.

ARCH 646 - HISTORY AND THEORY III - 1890-1968
Short Title: HISTORY & THEORY III 1890-1968
Department: Architecture
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Prerequisite(s): ARCH 345 or ARCH 645 or HART 345 or HART 645
Description: This third course in the required History and Theory of Architecture sequence surveys the history and theory of architecture and urbanism between 1890 and 1968, tracing the critical shifts in architectural thought and practice that inaugurated, constituted, and questioned architectural modernism. Organized around a series of significant case studies considered particular designed responses to their material, intellectual, and sociopolitical context, the course elucidates the influence of contingent conditions on architectural design, but emphasizes the designer’s efforts to reinforce, reform, or transform those conditions. While non-majors are welcome, availability is determined by the instructor. Cross-list: HART 506. Graduate/Undergraduate Equivalency: ARCH 346. Mutually Exclusive: Credit cannot be earned for ARCH 646 and ARCH 336/ARCH 536.

ARCH 650 - ADVANCED ARCHITECTURE SEMINAR
Short Title: ADVANCED ARCH SEMINAR
Department: Architecture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Course Level: Graduate
Description: Small, focused, advanced-level course in discussion, workshop and/or design-based format on topics related to current research in architecture. Current offerings and enrollment eligibility are listed on the Rice Architecture website: arch.rice.edu. Space is limited and registration does not guarantee a space in this course. Repeatable for Credit.

ARCH 651 - PRESENT FUTURE SEMINAR
Short Title: PRESENT FUTURE SEMINAR
Department: Architecture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: The present Future seminar will examine the history of future projection as it came to dominate modern architecture and urbanism in the period of 1914-2014. The realization of such a large number of future projections over the preceding century allows us to examine their effects as they have now come to constitute our present. Focusing on modern urbanism, will trace both the historical and the contemporary effects of the future as it was imagined so long ago. Given the volatile historical moment that we are presently passing through, an effort will be made to understand the logic as well as the remaining potential of future projection as a design strategy today.
ARCH 654 - CINEMAS OF URBAN ALIENATION
Short Title: CINEMAS OF URBAN ALIENATION
Department: Architecture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 4
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: This seminar examines cinematic engagements with urban spaces and experiences around the world spanning the last two centuries. Particular attention will be paid to issues of migration, marginality, colonialism, war and post-war, nostalgia and memory, race and gender. Cities of focus include Berlin, Istanbul, Moscow, Algiers, Beirut and Paris. Our weekly discussions of individual films will be grounded in critical writings of the cities’ histories and theories of space and film. Cross-list: HART 659. Graduate/Undergraduate Equivalency: ARCH 359. Mutually Exclusive: Credit cannot be earned for ARCH 654 and ARCH 359.

ARCH 656 - FUTURES OF THE BOOK
Short Title: FUTURES OF THE BOOK
Department: Architecture
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Seminar
Credit Hour: 1
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: From an ongoing interest in the book as a physical object, to the exploration of its potentials expanding into a four-dimensional digital realm, to rapidly changing demands for the storage and retrieval of knowledge, this master class will provide a platform to engage experts from various disciplines in a debate on the shifting futures of the book. Instructor Permission Required. Cross-list: HURC 608. Graduate/Undergraduate Equivalency: ARCH 456. Mutually Exclusive: Credit cannot be earned for ARCH 656 and ARCH 456.

ARCH 658 - CAST MODERNITY
Short Title: CAST MODERNITY
Department: Architecture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: From an ongoing interest in the book as a physical object, to the exploration of its potentials expanding into a four-dimensional digital realm, to rapidly changing demands for the storage and retrieval of knowledge, this master class will provide a platform to engage experts from various disciplines in a debate on the shifting futures of the book. Instructor Permission Required. Cross-list: HURC 608. Graduate/Undergraduate Equivalency: ARCH 456. Mutually Exclusive: Credit cannot be earned for ARCH 656 and ARCH 456.

ARCH 662 - PROBLEMATIZING THE PRACTICE OF MODERN ARCHITECTURE
Short Title: PRACTICE MODERN ARCHITECTURE
Department: Architecture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: From an ongoing interest in the book as a physical object, to the exploration of its potentials expanding into a four-dimensional digital realm, to rapidly changing demands for the storage and retrieval of knowledge, this master class will provide a platform to engage experts from various disciplines in a debate on the shifting futures of the book. Instructor Permission Required. Cross-list: HURC 608. Graduate/Undergraduate Equivalency: ARCH 456. Mutually Exclusive: Credit cannot be earned for ARCH 656 and ARCH 456.

ARCH 663 - ARCHITECTURAL REPRESENTATION
Short Title: ARCH FREEHAND DRAWING WKSHOP
Department: Architecture
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: The object of this workshop is to explore, practice and develop a series of drawing methods and techniques in the context of the architectural design process. Emphasis will be on the development of free-hand drawing skills that will enhance the ability of the design in communicating conceptual ideas. The course will consist of a combination of lectures/demonstrations, in-class drawing exercises, and out-of-class assignments. Two sketch books (one at mid-term and one at the end of the semester) will also be required. Attendance is critical. Please come to the first class prepared to draw with pen and an 8 1/2 x 11 or 9 x 12 sketch pad. Graduate/Undergraduate Equivalency: ARCH 363. Mutually Exclusive: Credit cannot be earned for ARCH 663 and ARCH 363. Repeatable for Credit.

ARCH 656 - FUTURES OF THE BOOK
Short Title: FUTURES OF THE BOOK
Department: Architecture
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Seminar
Credit Hour: 1
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: From an ongoing interest in the book as a physical object, to the exploration of its potentials expanding into a four-dimensional digital realm, to rapidly changing demands for the storage and retrieval of knowledge, this master class will provide a platform to engage experts from various disciplines in a debate on the shifting futures of the book. Instructor Permission Required. Cross-list: HURC 608. Graduate/Undergraduate Equivalency: ARCH 456. Mutually Exclusive: Credit cannot be earned for ARCH 656 and ARCH 456.

ARCH 658 - CAST MODERNITY
Short Title: CAST MODERNITY
Department: Architecture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: From an ongoing interest in the book as a physical object, to the exploration of its potentials expanding into a four-dimensional digital realm, to rapidly changing demands for the storage and retrieval of knowledge, this master class will provide a platform to engage experts from various disciplines in a debate on the shifting futures of the book. Instructor Permission Required. Cross-list: HURC 608. Graduate/Undergraduate Equivalency: ARCH 456. Mutually Exclusive: Credit cannot be earned for ARCH 656 and ARCH 456.

ARCH 662 - PROBLEMATIZING THE PRACTICE OF MODERN ARCHITECTURE
Short Title: PRACTICE MODERN ARCHITECTURE
Department: Architecture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: From an ongoing interest in the book as a physical object, to the exploration of its potentials expanding into a four-dimensional digital realm, to rapidly changing demands for the storage and retrieval of knowledge, this master class will provide a platform to engage experts from various disciplines in a debate on the shifting futures of the book. ARCH 663 - ARCHITECTURAL REPRESENTATION
Short Title: ARCH FREEHAND DRAWING WKSHOP
Department: Architecture
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: The object of this workshop is to explore, practice and develop a series of drawing methods and techniques in the context of the architectural design process. Emphasis will be on the development of free-hand drawing skills that will enhance the ability of the design in communicating conceptual ideas. The course will consist of a combination of lectures/demonstrations, in-class drawing exercises, and out-of-class assignments. Two sketch books (one at mid-term and one at the end of the semester) will also be required. Attendance is critical. Please come to the first class prepared to draw with pen and an 8 1/2 x 11 or 9 x 12 sketch pad. Graduate/Undergraduate Equivalency: ARCH 363. Mutually Exclusive: Credit cannot be earned for ARCH 663 and ARCH 363. Repeatable for Credit.
ARCH 666 - RIO DE JANEIRO
Short Title: RIO DE JANEIRO
Department: Architecture
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: EXCESS AND FORM ***** See ARCH 466. Graduate/Undergraduate Equivalency: ARCH 466. Mutually Exclusive: Credit cannot be earned for ARCH 666 and ARCH 466.

ARCH 669 - CASE STUDY IN URBAN DESIGN: BRASILIA
Short Title: CASE STUDY URBAN DESIGN: BRASILIA
Department: Architecture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: An investigation of how materials influence and inspire the making of works of architecture. Space is limited and registration does not guarantee a space in this course. The final course roster is formulated on the first day class by the individual instructor. Graduate/Undergraduate Equivalency: ARCH 469. Mutually Exclusive: Credit cannot be earned for ARCH 669 and ARCH 469.

ARCH 670 - DESIGNING THE SOCIAL: ARCHITECTURE & COLLECTIVE ASSOC. - 'COMRADES,' 'THE DUDE,' AND BEYOND
Short Title: DESIGNING THE SOCIAL
Department: Architecture
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: Although one can point to the New England town hall in Alexis de Tocqueville's "Democracy in America" (1835/40) or the bowling alley in connection with Robert D. Putnam's "Bowling Alone: The Collapse and Revival of American Community" (2000), architecture's social agency has been notoriously and productively difficult to pin down and architecture's relationship to the social sciences has been as tense as it has been constant. The course will focus its efforts on architecture's past and potential contribution to what has historically been called 'civic association' - the realm of social activity outside the market and purview of the state. Each class will focus on a particular architectural mode of social projection through the close reading of a single architectural work. In the major assignment for the course, students will be asked to conceive alternate architectural modes of social engagement and to speculate on their potential implications. Space is limited and registration does not guarantee a space in this course. The final course roster is formulated on the first day class by the individual instructor. Graduate/Undergraduate Equivalency: ARCH 470. Mutually Exclusive: Credit cannot be earned for ARCH 670 and ARCH 370.

ARCH 673 - ISLAND IRREDENTA: TAIWAN
Short Title: ISLAND IRREDENTA: TAIWAN
Department: Architecture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: This seminar seeks to use Taiwan as a model to explore the implications of architectural engagement with a post-industrial operating across several scales, from the local to the global. The shift in Taiwan's industrial base has spurred massive investment in new infrastructure and a series of extra-large public architectural projects by global practices such as UN Studio, Toyo Ito, Richard Rogers, OMA and RUR. Added to this economic re-alignment are Taiwan's ambiguous, "unredeemed" international status and its island geography, which uniquely suit of restudying the role of architecture to simultaneously crate a global identity and serve an splintered local constituency. The insistence on the architectural project situated in an increasingly precarious context will form sphere and better definitions of architecture's relationship to post-industrial infrastructure. The seminar is structured around weekly discussions of reading material paired with case studies of Taiwan's infrastructural development and recent large-scale architectural interventions. Graduate/Undergraduate Equivalency: ARCH 377. Mutually Exclusive: Credit cannot be earned for ARCH 673 and ARCH 377. Repeateable for Credit.

ARCH 674 - THE JOY OF MATERIALS
Short Title: THE JOY OF MATERIALS
Department: Architecture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: This course challenges our pre-conceived maps of the world, highlighting Latin America's place within our understanding of modernity as a product of transnational interconnections. Transversing the Atlantic, this course traces the interactions of capitalism and culture, science and aesthetics, and the ideologies that informed and formed the urban fabric and spatial politics of important cities in the modern Latin world - Paris, Rio de Janeiro, Rome, Buenos Aires, Barcelona, Havana, and Brasilia.

ARCH 675 - LATIN-EUROPE/LATIN-AMERICA: THE AESTHETICS AND POLITICS OF MODERN CITIES
Short Title: LATIN-EUROPE/LATIN-AMERICA
Department: Architecture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: This course challenges our pre-conceived maps of the world, highlighting Latin America's place within our understanding of modernity as a product of transnational interconnections. Transversing the Atlantic, this course traces the interactions of capitalism and culture, science and aesthetics, and the ideologies that informed and formed the urban fabric and spatial politics of important cities in the modern Latin world - Paris, Rio de Janeiro, Rome, Buenos Aires, Barcelona, Havana, and Brasilia.

Cross-list: HART 675. Graduate/Undergraduate Equivalency: ARCH 375. Mutually Exclusive: Credit cannot be earned for ARCH 675 and ARCH 375.
ARCH 676 - THE ARCHITECTURE OF BOOKS
Short Title: THE ARCHITECTURE OF BOOKS
Department: Architecture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: Over the past decades, the conception of books has become an integral part of any architectural practice. This seminar aims to introduce students to the book as a means to think about the production of space, and as a critical vessel to discuss and disseminate architectural ideas. In the first part of the seminar students will engage in an in-depth analysis of seminal architectural publications, considering their historical background, conceptual background and introducing such topics as typography and layout-and in-class discussions of relevant literature. The second part will be dedicated to the actual “building” of a small architectural publication, which will reflect critical and editorial skills as well as the craft of bookmaking. Graduate/Undergraduate Equivalency: ARCH 376. Mutually Exclusive: Credit cannot be earned for ARCH 676 and ARCH 376.

ARCH 680 - INTRODUCTION TO BUILDING INFORMATION MANAGEMENT
Short Title: INTRODUCTION TO BIM
Department: Architecture
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: This is an introductory course in the use of Building Information Management (BIM) software. The course will utilize "Revit Architecture" by Autodesk, which is now installed on the PC's in RAVL. Students will produce a complete drawing package including architectural, mechanical and structural drawings of a building they have previously designed in studio or a structure developed specifically for this exercise. Space is limited and registration does not guarantee a space in this course. The final course roster is formulated on the first day class by the individual instructor. Graduate/Undergraduate Equivalency: ARCH 480. Mutually Exclusive: Credit cannot be earned for ARCH 680 and ARCH 480.

ARCH 688 - NONLINEAR HISTORY AND THE EVOLUTION OF CITIES
Short Title: NONLINEAR HISTORY & EVOLUTION
Department: Architecture
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: Using Manuel DeLanda’s "A Thousand Years of Nonlinear History" as the framework the seminar will explore the evolution of three types of cities from three different times. The intent is to use DeLanda’s work diachronically while looking at the cities synchronically.

ARCH 689 - ARCHITECTURE EXPANDED: CONTEXT, SCALE, AGENCY
Short Title: ARCHITECTURE EXPANDED
Department: Architecture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: For more than 2 decades, new scales of context have been a pervasive paradigm for Architecture. Suggesting infrastructural, ecological or political scale shifts for design, this paradigm has sparked a prevalent interest in emergent urban conditions, larger territories as well as interdisciplinary juxtapositions. In parallel, however, of paramount importance has been the accumulation of new questions in relation to architectural agency, disciplinary specificity and form. In an attempt to explore this proposition further, the seminar will concentrate on an alternative reading for the ideas of context and agency within 20th century architecture & urbanism. Graduate/Undergraduate Equivalency: ARCH 489. Mutually Exclusive: Credit cannot be earned for ARCH 689 and ARCH 489.

ARCH 690 - PEDAGOGY PRACTICUM
Short Title: PEDAGOGY PRACTICUM
Department: Architecture
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Internship/PRACTICUM
Credit Hours: 3
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: This course addresses the development of skills for the teaching of History & Technology core courses. Weekly meetings will be held and supervised by faculty in the teaching of whose courses practicum students are involved. Department Permission Required. Repeatable for Credit.

ARCH 691 - REAL ESTATE LAB: DEVELOP, DESIGN AND CONSTRUCTION
Short Title: RE LAB:DEVELOP DESIGN CONSTR
Department: Architecture
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: Cross-list: MGMT 757. Graduate/Undergraduate Equivalency: ARCH 491. Mutually Exclusive: Credit cannot be earned for ARCH 691 and ARCH 491. Repeatable for Credit.

ARCH 693 - THE SPATIAL DOMINANT
Short Title: THE SPATIAL DOMINANT
Department: Architecture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: This seminar will analyze the essential quality of contemporary built environments - architectural and urban space. The analysis will look at the texts and projects that are indispensable to an understanding of what contemporary space actually is and how it came to dominate the contemporary city over the course of the past century. The second half of the seminar will focus on the unexpected origins of that space in the natural world. Driven by a powerful organic ideal, space emerges as the engine of badly needed reforms in Megalopolis today.
ARCH 696 - RETHINKING SUBURBAN LIVING
Short Title: RETHINKING SUBURBAN LIVING
Department: Architecture
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Seminar
Credit Hours: 3
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: A major portion of urbanized America is in areas loosely referred to as sprawl. Here the subdivision is the dominant living unit. Although New Urbanism has provided adjustments to this common model, few truly innovative models of suburban living exist. The reason for this conservatism is manifold. This seminar will challenge the status quo through a series of unusual strategies, motivated by a series of assumptions drawn from the French philosopher Alain Badiou's "The Century" - a highly polemical view of the 20th century. Registration limited to graduate and 5th year Architecture students. Repeatable for Credit.

ARCH 700 - PRACTICUM
Short Title: PRACTICUM
Department: Architecture
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Internship/Practicum
Credit Hours: 3
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: Full-time internship service in approved local offices under interdisciplinary supervision. Emphasis on real world design, planning, or research experiences. Special tuition. May be taken in any semester or in summer. Instructor Permission Required. Repeatable for Credit.

ARCH 702 - PRE-THESIS PREPARATION
Short Title: PRE-THESIS PREPARATION
Department: Architecture
Grade Mode: Standard Letter
Course Type: Research
Credit Hours: 3
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: The aim of this course is to locate potential thesis topics and hone those topics by situating them within a lineage of architectural and urban paradigms. The aim is also to develop and rehearse a focused argument for your particular approach to the topic. The thesis design project tests this approach in a project, the underpinnings of which seek a synthesis of intellectual and design objectives. Thesis concludes with a public final review, where the project is evaluated both on its own terms and within the broader field of contemporary architectural discourse. Mutually Exclusive: Credit cannot be earned for ARCH 702 and ARCH 638.

ARCH 703 - DESIGN THESIS STUDIO
Short Title: DESIGN THESIS STUDIO
Department: Architecture
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Lecture
Credit Hours: 10
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: Presentations, workshops, and discussions on the interrelationship of history, theory, and design, focusing on metacritical and methodological issues in the formation of design theses.

ARCH 711 - SPECIAL PROJECTS
Short Title: SPECIAL PROJECTS
Department: Architecture
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Research
Credit Hours: 1-9
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: Independent research or design arranged in consultation with a faculty member subject to approval of the student's faculty advisor and director. Repeatable for Credit.

ARCH 714 - INDEPENDENT DESIGN PROJECTS
Short Title: INDEPENDENT DESIGN PROJECTS
Department: Architecture
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Independent Study
Credit Hours: 1-9
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: Independent research or design arranged in consultation with a faculty member subject to approval of the student's faculty advisor and director. Repeatable for Credit.

ARCH 729 - THESIS WRITTEN DOCUMENT (FALL)
Short Title: FALL WRITTEN THESIS
Department: Architecture
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Independent Study
Credit Hours: 3
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: All architecture thesis students are required to provide a written document to the university on completion of their thesis as a requirement for graduation. This document, prepared in consultation with the thesis director and the director of the thesis program, should include a written and graphic description of the project and conform to the university requirements for thesis documents.

ARCH 730 - THESIS WRITTEN DOCUMENT (SPRING)
Short Title: SPRING WRITTEN THESIS
Department: Architecture
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Independent Study
Credit Hours: 3
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: All architecture thesis students are required to provide a written document to the university on completion of their thesis as a requirement for graduation. This document, prepared in consultation with the thesis director and the director of the thesis program, should include a written and graphic description of the project and conform to the university requirements for thesis documents.

ARCH 738 - PRACTICES OF ARCHITECTURAL THINKING IV
Short Title: PRACTICES OF ARCH THINKING IV
Department: Architecture
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Seminar
Credit Hour: 1
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: Presentations, workshops, and discussions on the interrelationship of history, theory, and design, focusing on metacritical and methodological issues in the formation of design theses.
ARCH 751 - PRESENT FUTURE II
Short Title: PRESENT FUTURE II
Department: Architecture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Undergraduate level students may not enroll.
Course Level: Graduate
Description: ARCH 751 is the third core course of the Master of Arts degree program. It is the concluding semester of the three semester research project, the subject of which changes with each class. The purpose of the semester is to draw the conclusions of the project and produce and package the results. The formats vary with each project.

Art History (HART)

HART 100 - AP/OTH CREDIT IN ART HISTORY
Short Title: AP/OTH CREDIT IN ART HISTORY
Department: Art History
Grade Mode: Standard Letter
Course Type: Transfer
Credit Hours: 3
Course Level: Undergraduate Lower-Level
Description: This course provides credit for students who have successfully completed approved examinations, such as Advanced Placement Exams. This credit counts toward the total credit hours required for graduation, but does not count toward total credit hours required for the Art History Major.

HART 101 - INTRODUCTION TO THE HISTORY OF WESTERN ART I: ANTIQUITY TO GOTHIC
Short Title: INTRO TO HIST OF WESTERN ART I
Department: Art History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 4
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Lower-Level
Description: A survey of painting, sculpture, and architecture from Antiquity through the 15th century. Students will also attend a one-hour weekly tutorial with a teaching assistant. Cross-list: CLAS 102, MDEM 111.

HART 102 - INTRODUCTION TO THE HISTORY OF WESTERN ART II: RENAISSANCE TO PRESENT
Short Title: INTRO HIST OF WESTERN ART II
Department: Art History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 4
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Lower-Level
Description: A survey of painting, sculpture, and architecture from the Renaissance through the 20th century.

HART 103 - INTRODUCTION TO THE HISTORY OF ASIAN ART
Short Title: INTRO TO THE HIST OF ASIAN ART
Department: Art History
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Lower-Level
Description: Survey of Asian art from the Neolithic period to the present.

HART 105 - KEY MONUMENTS AND ARTISTS OF WESTERN ART
Short Title: KEY MONUMENTS & ARTISTS
Department: Art History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Lower-Level
Description: This seminar presents a selected range of key psychoanalytic concepts, which have been used by artists and architects to develop their practices and by theoreticians and critics to explain the production or experience of art and architecture. A typical week pairs a theoretical text with a work of art or architecture. This course is limited to first-year students only, any others will be removed from this course. Cross-list: ARCH 110, CLAS 103, FSEM 113.

HART 110 - THE PARTHENON AND PERIKLEAN ATHENS
Short Title: THE PARTHENON
Department: Art History
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Lower-Level
Description: In this course, we will trace the history and mythology of the Parthenon. We begin with the dawn of sacred tradition on the Acropolis, then explore the classical recreation of the city, the conversion of the Parthenon into a church, its subsequent destruction and the current debate over restoration. This course is limited to first-year students only, any others will be removed from this course. Cross-list: ARCH 110, CLAS 103, FSEM 113.

HART 117 - FROM FREUD TO LE CORBUSIER: PSYCHOANALYSIS, ART AND ARCHITECTURE
Short Title: FROM FREUD TO LE CORBUSIER
Department: Art History
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Lower-Level
Description: This seminar presents a selected range of key psychoanalytic concepts, which have been used by artists and architects to develop their practices and by theoreticians and critics to explain the production or experience of art and architecture. A typical week pairs a theoretical text with a work of art or architecture. This course is limited to first-year students only, any others will be removed from this course. Cross-list: FSEM 117.
HART 120 - CINEMA AND MODERNITY
Short Title: CINEMA AND MODERNITY
Department: Art History
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 4
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Lower-Level
Description: This class focuses on cinema as a primary cultural product of industrial capitalism, whose processes of mechanization and urbanization fundamentally changed everyday life. Classes will focus on films by Chaplin, Lang, Eisenstein, Hitchcock, and others, and encompass issues of technology and representation, shock and trauma, and crime and the city. This course is limited to first-year students only. Cross-list: FSEM 181.

HART 179 - ROMAN VS GREEK: QUESTIONING THE DEFINITION OF ART IN THE ANCIENT MEDITERRANEAN WORLD
Short Title: ROMAN VS GREEK
Department: Art History
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Lower-Level
Description: What's in a name? Apparently a lot. For 500 years—since the Renaissance—scholars have cleaved Roman and Greek art from one another and this division has defined how we think about art in antiquity. In this freshman seminar, we will question this paradigm. Looking at art from around the Mediterranean and reading the very scholarship that has both created these definitions and questioned them, we will work toward a new way of conceiving the art of the Ancient Mediterranean world. This course is limited to first-year students only, any others will be removed from this course. Cross-list: CLAS 179, FSEM 179.

HART 180 - 14 FILMS YOU SHOULD SEE BEFORE YOU GRADUATE FROM RICE UNIVERSITY
Short Title: 14 FILMS BEFORE YOU GRADUATE
Department: Art History
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 4
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Lower-Level
Description: Featuring the important, but less familiar works of American and European directors from the 1930s - 1960s. This class represents an ideal mixture of modernist auteur cinema and shameless viewing pleasure. Cross-list: FILM 180.

HART 201 - ART OF ANCIENT ROME
Short Title: ART OF ANCIENT ROME
Department: Art History
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Lower-Level
Description: In this course, you'll learn about the history of Ancient Roman art, which spans a period of more than 1500 years and saw the conquest of Alexander the Great, Aristotelian philosophy, the birth of republican government and the religion of Christianity, and myriad humanistic revolutions that shaped the world.

HART 202 - AVANT-GARDE AND AFTER: MODERN ART IN EUROPE, 1900-1945
Short Title: MODERN ART IN EUROPE, 1900-1945
Department: Art History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Lower-Level
Description: This class surveys European art from roughly 1900-1945, paying particular attention to the social contexts in which this work emerged and the interpretive strategies that have been used to understand it. Among the topics to be considered are Cubism, Futurism, Constructivism, Dada, and Surrealism, as well as the reaction against these by emergent authoritarian regimes of the 1930s. Students cannot receive credit for HART 202 and HART 305. Mutually Exclusive: Credit cannot be earned for HART 202 and HART 305.

HART 205 - ART SINCE 1945
Short Title: ART SINCE 1945
Department: Art History
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Lower-Level
Description: This course introduces the major developments, figures, and works of late modernism beginning with the shift, during the 1940s, from Paris to New York as the cultural center of avant-garde. The class charts the rise of Abstract Expressionism in the 1940s and 50s and follows its divided legacies in the 1960s and 70s. We will examine the post-modern debates of the 1980s and the 90s and conclude with a look at trends in contemporary art.
Throughout the semester we will explore how would-be rulers used visual architecture and exquisite art was often created for personal gain. The aesthetic dialogues of Matisse and Picasso, the abstracted sculptures of Brancusi and Calder, and the site-specific installation of Turrell's light tunnel.

HART 211 - INTRODUCTION TO ASIAN CIVILIZATIONS
Short Title: INTRO TO ASIAN CIVILIZATIONS
Department: Art History
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Lower-Level
Description: A team-taught interdisciplinary course focusing on certain major philosophical, religious and artistic traditions of pre-modern Asia, with an emphasis on the historical processes by which ideas, people, products, technologies and skills circulated within and beyond state boundaries. Cross-list: ASIA 211, HIST 206.

HART 216 - CITIES, SANCTUARIES, CIVILIZATIONS: INTRODUCTION TO GREEK ART AND ARCHAEOLOGY
Short Title: GREEK ART AND ARCHAEOLOGY
Department: Art History
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Lower-Level
Description: An introduction to the art and archaeology of the ancient Greek world. Artistic media, such as sculpture and vase painting will be examined in a broad range of the material culture ancient Greeks created and used. Consideration of these materials within their cultural, social and religious contexts will be discussed. Cross-list: CLAS 218.

HART 225 - HISTORY & THEORY I (INTRO)
Short Title: HISTORY & THEORY I (INTRO)
Department: Art History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Lower-Level
Description: This introductory course exposes student's issues and debates that have driven architects and theorists from the early twentieth century to the present. The course is structured around a sequence of fourteen themes that have recurred as major issues throughout architectural history. Focusing on topics, ranging from representation, to media, to politics, urbanity, or the environment, teach theme is presented as a debate between differing viewpoints, in order to expose the positions that have motivated both theory and practice. In weekly discussion sections, we will be analyzing buildings and discussing canonical texts. These sections provide opportunities for students to develop their own positions on the issues debated, and to refine their ability to make arguments. Cross-list: ARCH 225. Graduate/Undergraduate Equivalency: HART 545. Mutually Exclusive: Credit cannot be earned for HART 225 and HART 545.

HART 238 - SPECIAL TOPICS
Short Title: SPECIAL TOPICS
Department: Art History
Grade Mode: Standard Letter
Course Type: Internship/Practicum, Seminar, Lecture
Credit Hours: 1-4
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Lower-Level
Description: Topics and credit hours may vary each semester. Contact department for current semester's topic(s). Repeatable for Credit.

HART 207 - FOURTEEN ARTWORKS AT THE MFAH
Short Title: FOURTEEN ARTWORKS AT THE MFAH
Department: Art History
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Lower-Level
Description: This course is designed to provide students with no previous background in art history with an introduction to the discipline through the "in situ" study of 14 works from the permanent collection of The Museum of Fine Arts, Houston. Some of the topics to be addressed include British aristocratic portraiture, French Impressionist painting, technological skills and meaning in the context of photography's continuing history. Primary software application is Adobe Lightroom which is provided on computer in the VADA Digital Lab in the Rice Media Center; students must provide their own digital camera. Instructor Permission Required. Cross-list: FOTO 210.

HART 209 - BEGINNING DIGITAL PHOTOGRAPHY
Short Title: BEGINNING DIGITAL PHOTOGRAPHY
Department: Art History
Grade Mode: Standard Letter
Course Type: Studio
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Lower-Level
Description: Introduction to digital photography through exploration of light, camera, and computer. Assignments include looking, taking, discussing, adjusting, printing and writing about photographs. The class is a balance of visual awareness, technical skills and meaning in the context of photography's continuing history. Primary software application is Adobe Lightroom which is provided on computer in the VADA Digital Lab in the Rice Media Center; students must provide their own digital camera. Instructor Permission Required. Cross-list: FOTO 210.
HART 240 - ART IN CONTEXT: LATE MEDIEVAL AND RENAISSANCE CULTURE
Short Title: LATE MEDIEVAL & RENAISSANCE
Department: Art History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Lower-Level
Description: This course will be concerned with the art, architecture, and history of the late Middle Ages and Renaissance. We will employ historical texts, literature, and illustrations of works of art, showing how historical documents and sources can illuminate the cultural context of art and architecture. Cross-list: HUMA 108, MDEM 108.

HART 250 - CONTEMPORARY EUROPEAN CINEMA
Short Title: CONTEMPORARY EUROPEAN CINEMA
Department: Art History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 4
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Lower-Level
Description: This class examines trends in European cinema of the last fifteen years. Particular attention will be given to the issues of history, memory and national identity in Europe's shifting geopolitical climate, and to the formal and aesthetic concerns with which filmmakers responded to these shifts. The discussion will include films by Michael Haneke, Fatih Akin, Christian Mingiu and others. Cross-list: FILM 250.

HART 263 - EPISODES IN THE HISTORY OF PHOTOGRAPHY: FROM INVENTION TO THE PRESENT
Short Title: HISTORY OF PHOTOGRAPHY
Department: Art History
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Lower-Level
Description: This class aims to examine the history of photography in the nineteenth century as it develops within a number of specific theamtics, from medium's conception in the late eighteenth-century through to debates in the twentieth century about photography's relationship to artistic and social issues. Instructor Permission Required. Cross-list: FOTO 263. Mutually Exclusive: Credit cannot be earned for HART 263 and HART 363.

HART 265 - A VISUAL CULTURE TRAVELOGUE: ART AND POLITICS IN MODERN LATIN AMERICA
Short Title: ART/ POLITICS MOD LATIN AMER
Department: Art History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Lower-Level
Description: Providing an alternative understanding of modernity and its artistic partner, modernism, this survey course traverses the political, social and cultural landscapes that informed and formed the art and architecture of Latin America, from the early twentieth century to the present. Graduate/Undergraduate Equivalency: HART 665. Mutually Exclusive: Credit cannot be earned for HART 265 and HART 665.

HART 280 - HISTORY AND AESTHETICS OF FILM
Short Title: HISTORY & AESTHETICS OF FILM
Department: Art History
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 4
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Lower-Level
Description: Introduction to the art and aesthetics of film as an artifact produced within certain social contexts. Includes style, narration, mise-en-scene, editing, sound, and ideology in classical Hollywood cinema, as well as in independent, alternative, nonfiction, and Third World cinemas. Cross-list: ARTS 280, FILM 280.

HART 281 - THE BEGINNINGS OF CINEMA
Short Title: THE BEGINNINGS OF CINEMA
Department: Art History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Lower-Level
Description: This class studies the emergence of cinema in the context of cultural developments at the turn of the 20th century. Early films will be examined together with such contemporaneous issues as technologies of vision, modern mass culture, urban expansion and consumerism. Cross-list: FILM 281.
HART 283 - AUTEUR FILM: CASE STUDIES OF THREE AUTEURS
Short Title: AUTEUR FILM
Department: Art History
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Lower-Level
Description: This course will explore the tradition of auteur filmmaking, with an emphasis on how this particular artistic mode situates itself within the evolving system of Hollywood institutional film. The auteur, in contrast to other filmmakers, exhibits unparalleled control over the production and post-production processes and is uniquely identifiable through the notable conventions of aesthetics, style, theme, content, atmosphere, etc. FILM 485/HART 481 (4 Credit Hours) will require completion of additional coursework for the additional credit than the FILM 285/HART 283 (3 Credit Hours). Credit may not be received for more than one of FILM 285 or FILM 485 or Hart 283 or HART 481. Cross-list: FILM 285. Equivalency: HART 481. Mutually Exclusive: Credit cannot be earned for HART 283 and HART 481.

HART 284 - NONFICTION FILM
Short Title: NONFICTION FILM
Department: Art History
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 4
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Lower-Level
Description: Introduction to the history and aesthetics of nonfiction film as both a social artifact and as a work of art. Includes discussions of actualities, the city film, the social documentary, surrealist cinema, propaganda, ethnography, the essay film, and the contemporary nonfiction film from around the world. Cross-list: FILM 284.

HART 285 - FILM CRITICISM
Short Title: FILM CRITICISM
Department: Art History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 4
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Lower-Level
Description: This course focuses on the concepts and techniques necessary to write film criticism and interpretation. Each two-week section will concentrate on a film, sample critical essays on that film and writing about the film to develop their skills, analytic techniques, and strategies for effective critical contribution. This course will draw on films in Hollywood, avant-garde, contemporary and international cinema. Cross-list: ENGL 275, FILM 273.

HART 286 - CLASSICAL AND CONTEMPORARY FILM AND THEORY
Short Title: CLASSICAL & CONTEMPORARY FILM
Department: Art History
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Lower-Level
Description: A course focusing on contexts such as movies and ads, familiar plots and conventions define their significance. Cross-list: ENGL 286.
Course URL: www.english.rice.edu

HART 288 - SPECIAL TOPICS IN FILM AND MEDIA STUDIES
Short Title: SPECIAL TOPICS
Department: Art History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 1-6
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Lower-Level
Description: Special topics class taught by visiting Curators from the MFAH. FA 2016: Intro to Islamic Art at the MFAH: This course explores the dynamic, multifaceted character of Islamic art and architecture across the globe. Travel from Spain to India studying original art at the Museum of Fine Arts. Gain understanding of the historical, religious, social, craft, and visual contexts of the art. Graduate/Undergraduate Equivalency: HART 597. Mutually Exclusive: Credit cannot be earned for HART 297 and HART 597.

HART 297 - SPECIAL TOPICS IN MUSEUM CURATORIAL STUDIES
Short Title: SPECIAL TOPICS: MUSEUM STUDIES
Department: Art History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Lower-Level
Description: Special Topics class taught by visiting Curators from the MFAH. FA 2016: Intro to Islamic Art at the MFAH: This course explores the dynamic, multifaceted character of Islamic art and architecture across the globe. Travel from Spain to India studying original art at the Museum of Fine Arts. Gain understanding of the historical, religious, social, craft, and visual contexts of the art. Graduate/Undergraduate Equivalency: HART 597. Mutually Exclusive: Credit cannot be earned for HART 297 and HART 597.

HART 298 - SPECIAL TOPICS IN ART THEORY AND CRITICISM
Short Title: SPECIAL TOPICS
Department: Art History
Grade Mode: Standard Letter
Course Type: Independent Study
Credit Hours: 1-6
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Lower-Level
Description: Independent study, reading, or special research in art history. Instructor Permission Required. Repeatable for Credit.

HART 299 - INDEPENDENT STUDY IN ART THEORY AND CRITICISM
Short Title: INDEPENDENT STUDY
Department: Art History
Grade Mode: Standard Letter
Course Type: Independent Study
Credit Hours: 1-6
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Lower-Level
Description: Independent study, reading, or special research in art history. Instructor Permission Required. Repeatable for Credit.
HART 300 - MUSEUM INTERNSHIP I
Short Title: MUSEUM INTERNSHIP I
Department: Art History
Grade Mode: Standard Letter
Course Type: Internship/Practicum
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: The aim of this course is to provide select students a practicum in museum work accompanied by an introduction to a history of museums, including the varieties of museums, their role in society and significant issues in museums today. Instructor Permission Required.

HART 301 - MUSEUM INTERNSHIP II
Short Title: MUSEUM INTERNSHIP II
Department: Art History
Grade Mode: Standard Letter
Course Type: Internship/Practicum
Credit Hours: 1-6
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: The aim of this course is to provide select students a practicum in museum work accompanied by an introduction to a history of museums, including the varieties of museums, their role in society and significant issues in museums today. Instructor Permission Required.

HART 302 - FROM THE SUBLIME TO THE SUSTAINABLE: ART, ARCHITECTURE AND NATURE
Short Title: ART, ARCHITECTURE AND NATURE
Department: Art History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This seminar considers theories and narratives of nature in the crafting of modern and contemporary art and architecture in the Americas. Artists and architects will include Maria Fernanda Cardoso, Rogelio Salmona (Colombia); Ana Mendieta, Ricardo Porro (Cuba); Ana Maria Tavares, Lina Bo Bardi (Brazil); Mark Dion and Buckminster Fuller (USA). Graduate/Undergraduate Equivalency: HART 549. Mutually Exclusive: Credit cannot be earned for HART 302 and HART 549.

HART 303 - INDEPENDENT STUDY
Short Title: INDEPENDENT STUDY
Department: Art History
Grade Mode: Standard Letter
Course Type: Independent Study
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Independent Study in Art History. Instructor Permission Required.

HART 304 - A REVOLUTION FROM WITHIN: TRENDS IN CONTEMPORARY CUBAN CULTURE
Short Title: TRENDS IN CUBAN CULTURE
Department: Art History
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This research seminar will explore contemporary trends in Cuban culture through literary texts, films, music and works of art. We will examine the ways in which politics and the practices of artistic representation intersect in post-revolutionary Cuba. A research trip to Cuba has been organized as part of this seminar. Course taught in Spanish. Instructor Permission Required. Cross-list: FILM 339, SPPO 375. Graduate/Undergraduate Equivalency: HART 565. Mutually Exclusive: Credit cannot be earned for HART 304 and HART 565.

HART 307 - TECHNICAL ART HISTORY: STUDYING THE TECHNIQUES OF WESTERN PAINTING, 13TH-20TH CENTURIES
Short Title: TECHNICAL ART HISTORY
Department: Art History
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Art historians, especially in the United States, tend to rely on photographs, but a study of the actual object is invaluable in studying works of art. This course aims to inform students about the technical study of art, which in the last fifty years has become a major field of research. Most classes will be held at the Museum of Fine Arts, Houston, or other Houston collections. Graduate/Undergraduate Equivalency: HART 549. Mutually Exclusive: Credit cannot be earned for HART 307 and HART 549.

HART 308 - LIVING IN THE CITY IN THE OTTOMAN EMPIRE
Short Title: LIVING IN THE CITY
Department: Art History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Seminar combines primary and secondary sources to explore the urban experiences of Ottoman men and women in the 18th and early 19th centuries. Looking at several cities including Istanbul, Izmir, Salonika, Damascus, Aleppo and Alexandria, we will discuss such issues as neighborhood and community life, public spaces and recreational culture perceptions of space, urban institutions, Muslim and non-Muslim relations, migration and marginality, violence and death. Reading knowledge of French and/or Turkish helpful but not necessary. Cross-list: ARCH 318. Graduate/Undergraduate Equivalency: HART 508. Mutually Exclusive: Credit cannot be earned for HART 308 and HART 508.
Short Title: THE DAWN OF ROME
Department: Art History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: In this course you will uncover the roots of the Eternal City, Rome. Through analysis of archaeological remains, art historical methodologies and theories of social space, intentionality, structuration and agency, you will question how and why Rome became a city and a culture the reshaped the world. The course will focus on the first 500 years of Roman art and society, ca. 800-300 BCE, looking closely at the kingship of Rome, the genesis of the Roman Republic, and the ability to understand a distant culture through artistic manufacture, materiality and philosophical shift. Cross-list: CLAS 309. Graduate/Undergraduate Equivalency: HART 509. Mutually Exclusive: Credit cannot be earned for HART 309 and HART 509.

HART 310 - BRAZIL BUILT: THE CLINIC, THE TROPICAL, AND THE AESTHETIC
Short Title: BRAZIL BUILT
Department: Art History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: From Brazil Builds, MOMA's 1943 celebrated exhibition to Brasília, the supermodern capital created ex-nihilo in the middle of nowhere, to today's worldwide attention on Brazil, this seminar examines the built environment - natural and architectural - as the main transmitter of modernism in Brazil. This is a seminar on Brazilian modernism and its discontents. Cross-list: ARCH 315. Graduate/Undergraduate Equivalency: HART 526. Mutually Exclusive: Credit cannot be earned for HART 310 and HART 526.

HART 311 - ART AND ARCHAEOLOGY OF THE ANCIENT NEAR EAST
Short Title: ANCIENT NEAR EAST
Department: Art History
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: An in-depth examination of the art and archaeology of ancient Mesopotamia, Syria, Anatolia and Persia. Beginning in The Neolithic period, we will examine the development of Near Eastern art and architecture through the study of ancient sites and their associated material culture. Cross-list: ANTH 331. Graduate/Undergraduate Equivalency: HART 511. Mutually Exclusive: Credit cannot be earned for HART 311 and HART 511.

HART 312 - ADVANCED STUDY IN MUSEUMS AND HERITAGE: ARTS OF ANCIENT MEDITERRANEAN AT THE MENIL COLLECTION
Short Title: ADV STUDY IN MUSEUMS/HERITAGE
Department: Art History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This course introduces students to advanced ethical, legal and practical issues facing museums as they acquire and maintain collections from areas prone to looting and destruction, especially the Ancient Mediterranean. We will examine the civic engagement and operation of the Menil Collection through close, on-site archival and object study. Cross-list: HURC 308. Graduate/Undergraduate Equivalency: HART 540. Mutually Exclusive: Credit cannot be earned for HART 312 and HART 540.

HART 314 - POLITICS OF CULTURAL HERITAGE IN THE MODERN MIDDLE EAST, 1800 TO THE PRESENT
Short Title: POLITICS OF CULTURAL HERITAGE
Department: Art History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This seminar will examine the history of the concept of "cultural heritage" in the modern Middle East. We will explore the emergence of concerns for archaeological sites and architectural monuments, and the ability of cultural heritage to shore up contested claims of identity, ideology, and political legitimacy.

HART 316 - VIRTUAL RECONSTRUCTION OF HISTORICAL CITIES
Short Title: VIRTUAL RECONSTR HISTORCL CITIES
Department: Art History
Grade Mode: Standard Letter
Course Type: Research
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This course, part of the HRC's Digital Humanities Initiative, is devoted to the virtual reconstruction of ancient urban landscapes with focus on individual buildings in their urban settings. All course activities will be based around interdisciplinary student teams who will work together through the semesters to complete a virtual reconstruction project. Instructor Permission Required. Cross-list: ANTH 346, ARCH 310, COMP 316.

HART 318 - SPECIAL TOPICS IN ANCIENT ART
Short Title: ROME: THE ETERNAL CITY
Department: Art History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This course will introduce you to the major monuments of Rome, Pompeii, and Herculaneum. We will focus not only on the history and functions of these monuments in antiquity but also on how their meaning and representation has changed and evolved in the post-classical world. Instructor Permission Required. Cross-list: CLAS 321. Repeatable for Credit.
HART 320 - EIGHTEENTH CENTURY EUROPEAN ART
Short Title: 18TH CENTURY EUROPEAN ART
Department: Art History
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This course considers the painting, sculpture, architecture, decorative and graphic arts of the 1700s in relation to important social and ideological developments of the period. These include the decline of traditional patronage, the rising idea of an art public, and the spread of skeptical attitudes about received authority. Graduate/Undergraduate Equivalency: HART 550. Mutually Exclusive: Credit cannot be earned for HART 320 and HART 550.

HART 321 - IMPERIAL CITY: ISTANBUL 1453-1922
Short Title: ISTANBUL IMPERIAL CITY
Department: Art History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This thematic seminar examines significant historical moments in the architectural and urban culture of the Ottoman imperial capital from the moment it was conquered until the demise of the Ottoman empire. Weekly readings and discussions will cover a range of topics including building patronage, architectural decorum, the Byzantine legacy, artistic relations with Persia, India and Europe, cultural pluralism, neighborhood and public life, law and urban order, modernity and modernization. Cross-list: ARCH 331. Graduate/Undergraduate Equivalency: HART 521. Mutually Exclusive: Credit cannot be earned for HART 321 and HART 521.

HART 322 - JERUSALEM TO ISFAHAN
Short Title: JERUSALEM TO ISFAHAN
Department: Art History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: A seminar on key topics of the study of visual cultures in the medieval and early modern Muslim world focused on specific works of art. Politics of architectural patronage, dissemination of visual languages, calligraphy, "ornament" and figural representation in Islam, cross-cultural exchanges and trans-religious iconographies are among the topics discussed. Cross-list: ARCH 332. Graduate/Undergraduate Equivalency: HART 522. Mutually Exclusive: Credit cannot be earned for HART 322 and HART 522.

HART 323 - RELIGIOUS VISUAL CULTURES IN TRADITIONAL CHINA
Short Title: CHINESE RELIGIOUS ART
Department: Art History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This seminar explores the visual materials and their context that shed light on pre-modern China's Buddhist, Daoist, funeral, and other diverse religious and ritual practices. Topics of discussion include iconic and aniconic traditions; breathing, meditation, and visualization; paradise and hell; body; ritual performance; patronage; Buddhist grottoes; tombs; multi-ethnic; printing. Cross-list: ASIA 323, MDEM 323. Graduate/Undergraduate Equivalency: HART 623. Mutually Exclusive: Credit cannot be earned for HART 323 and HART 623.

HART 326 - MATERIAL, FORM, SPACE, TIME: CONCRETE AND THE REVOLUTION OF SPACE IN ANCIENT ROME
Short Title: MATERIAL, FORM, SPACE, TIME
Department: Art History
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: "Architectural Revolution" has been tied to Le Corbusier, the Eiffel Tower, the Louvre, Brunelleschi and to towering Gothic cathedrals. At the foundation of all these endeavors is the Concrete Revolution in Roman Architecture. In this course we'll look at the four essential elements of this revolution from the fourth century BCE to the fifth century CE, and we'll investigate how shifts in application and experience created a background that informs design to this day. Cross-list: ARCH 326, CLASS 326. Graduate/Undergraduate Equivalency: HART 626. Mutually Exclusive: Credit cannot be earned for HART 326 and HART 626.

HART 327 - THE GENESIS OF ROMAN ART
Short Title: THE GENESIS OF ROMAN ART
Department: Art History
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This course explores the roots of the art and architecture of ancient Rome (ca. 600-200 BCE). In it we will examine the earliest vestiges of sculpture, painting and architecture from the Archaic and Classical periods to the twisted forms of Hellenistic conquest. You will grapple with the questions of cultural agency, connoisseurship, cultural interaction, network and object theories and spatial imagination to question standard narratives that divide Rome in this time from neighboring Greek polities. Cross-list: CLAS 324. Graduate/Undergraduate Equivalency: HART 627. Mutually Exclusive: Credit cannot be earned for HART 327 and HART 627.
HART 328 - EPIPHANIES: SEEING IN A NEW LIGHT AND RECOGNIZING THE RADIANCE
Short Title: EPIPHANIES
Department: Art History
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Epiphanies are events or objects that can note a striking appearance or manifestation, just as an epiphanic experience contains a significant moment of revelation. This course examines expressions of epiphanies in modernist art, literature, film, sacred experience, and in the mundane details of life itself. Cross-list: RELI 375.

HART 329 - STREETS AND URBAN LIFE: PARIS TO ISTANBUL
Short Title: STREETS AND URBAN LIFE
Department: Art History
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Exploration of the street as a focus of urban life in 18th and 19th century. We will look at ways streets functioned as spaces of livelihood, sociability, and transgression in cities such as London, Paris, Istanbul, Amsterdam and Cairo. Cross-list: ARCH 329, HIST 329. Graduate/Undergraduate Equivalency: HART 529. Mutually Exclusive: Credit cannot be earned for HART 329 and HART 529.

HART 330 - EARLY MEDIEVAL ART
Short Title: EARLY MEDIEVAL ART
Department: Art History
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Examination of the full array of sacred art and architecture produced in the early and high gothic periods in northern Europe. Includes cathedral architecture, sculpture, stained glass, manuscripts, and metalwork studies in relationship to the expansion of royal and Episcopal power. Cross-list: MDEM 331. Graduate/Undergraduate Equivalency: HART 531. Mutually Exclusive: Credit cannot be earned for HART 331 and HART 531.

HART 331 - GOTHIC ART
Short Title: GOTHIC ART
Department: Art History
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Examination of the full array of sacred art and architecture produced in the early and high gothic periods in northern Europe. Includes cathedral architecture, sculpture, stained glass, manuscripts, and metalwork studies in relationship to the expansion of royal and Episcopal power. Cross-list: MDEM 331. Graduate/Undergraduate Equivalency: HART 531. Mutually Exclusive: Credit cannot be earned for HART 331 and HART 531.

HART 332 - ART OF THE COURTS
Short Title: ART OF THE COURTS
Department: Art History
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Examination of art and architecture produced in the late gothic period within three distinct settings—the court, the city, and the church. Includes private, public, and religious life as expressed in the objects, architecture, and decoration of the castle and palace, the house, the city hall and hospital, and the chapel and parish church. Cross-list: MDEM 332. Graduate/Undergraduate Equivalency: HART 532. Mutually Exclusive: Credit cannot be earned for HART 332 and HART 532.

HART 333 - LOOKING AT EUROPEAN PRINTS 1400-1700
Short Title: LOOKING AT PRINTS 1400-1700
Department: Art History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: The class has several goals: to gain a thorough historical understanding of prints by major masters as Schongauer, Mantegna, Düer, and Rembrandt as well as more popular prints, explore key issues in the study of prints, such as how they revolutionized European culture, their patronage, markets, functions, and techniques; and to examine the prints first-hand. Graduate/Undergraduate Equivalency: HART 525. Mutually Exclusive: Credit cannot be earned for HART 333 and HART 525.
HART 334 - PICASSO, POLLOCK, WARHOL
Short Title: PICASSO, POLLOCK, WARHOL
Department: Art History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This seminar will look in detail at three of the twentieth century’s most important artists: Pablo Picasso, Jackson Pollock, and Andy Warhol. Our central focus in doing so will be painting, in particular, the means by which these three artists tested, expanded or even “destroyed” the medium. What did it mean to make (or reject) painting in 1910, 1950, and 1965? Special attention will be paid to recent scholarly literature and close looking at works in local collections. Graduate/Undergraduate Equivalency: HART 546. Mutually Exclusive: Credit cannot be earned for HART 334 and HART 546.

HART 336 - CINEMA AND THE CITY
Short Title: CINEMA AND THE CITY
Department: Art History
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This class explores representations of the city in 20th and 21st century world cinema. Central concerns will include the city as cinematic protagonist, parallels between urban and cinematic space and the intertwined histories of both film and urban design over the last century. Cross-list: ASIA 355, FILM 336. Graduate/Undergraduate Equivalency: HART 536. Mutually Exclusive: Credit cannot be earned for HART 336 and HART 536.

HART 339 - AMERICAN ART AND ARCHITECTURE I: 1620-1800
Short Title: AMERICAN ART: 1620-1800
Department: Art History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Study of the works of the greatest painters and sculptors in the colonies and early United States. Highlights will include design at Monticello and Mount Vernon; the portraiture of John Singleton Copley; Georgian and Federal-period architecture in Boston, New York, Williamsburg, and Philadelphia; and Spanish and Dutch colonial art and architecture. Graduate/Undergraduate Equivalency: HART 539. Mutually Exclusive: Credit cannot be earned for HART 339 and HART 539.

HART 340 - NORTHERN RENAISSANCE ART
Short Title: NORTHERN RENAISSANCE ART
Department: Art History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Study of art in northern Europe from Jan van Eyck to Peter Bruegel. Cross-list: MDEM 340. Graduate/Undergraduate Equivalency: HART 553. Mutually Exclusive: Credit cannot be earned for HART 340 and HART 553.

HART 341 - EARLY RENAISSANCE ART IN ITALY
Short Title: EARLY RENAISSANCE ART IN ITALY
Department: Art History
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Study of Italian art and architecture from Giotto to Botticelli, with emphasis on painting and sculpture in the 15th century. Graduate/Undergraduate Equivalency: HART 541. Mutually Exclusive: Credit cannot be earned for HART 341 and HART 541.

HART 342 - THE HIGH RENAISSANCE AND MANNERISM IN ITALY
Short Title: HIGH RENAISSANCE & MANNERISM IN ITALY
Department: Art History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Study of Italian art and architecture from Giotto to Botticelli, with emphasis on painting and sculpture in the 15th century. Graduate/Undergraduate Equivalency: HART 541. Mutually Exclusive: Credit cannot be earned for HART 341 and HART 541.

HART 343 - MASTERS OF THE BAROQUE ERA
Short Title: MASTERS OF THE BAROQUE ERA
Department: Art History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Study of the works of the greatest painters and sculptors in Europe during the Baroque period. Includes Rembrandt, Rubens, Caravaggio, Poussin, Claude, and Velazquez. Cross-list: MDEM 343. Graduate/Undergraduate Equivalency: HART 543. Mutually Exclusive: Credit cannot be earned for HART 343 and HART 543.
HART 344 - CAPITALISM AND CULTURE
Short Title: CAPITALISM AND CULTURE
Department: Art History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This seminar will examine the way European culture, especially art, was shaped by the rise of the monetary economy and capitalism, beginning in the late Middle Ages and continuing into modern times. Graduate/Undergraduate Equivalency: HART 344 and HART 544.

HART 345 - HISTORY AND THEORY II - PRE 1890
Short Title: HISTORY & THEORY II - PRE 1890
Department: Art History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: An in-depth exploration as to why select monuments from Antiquity through the 19th century were 'canonized' in popular imagination and given referential status. Following a case study format, each week will focus on a particular building, built or unbuilt, from both Western and Eastern traditions. Cross-list: ARCH 345.

HART 346 - SEMINAR ON LOVE: MAKING LOVE IN MODERN ART AND THOUGHT
Short Title: MAKING LOVE IN MODERN ART
Department: Art History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This seminar explores various conceptions of love from the classical era to our postmodern age. Ranging from eros to philia to agape, we will examine literary, philosophical, and artistic expressions of love in painting, cinema, literature, psychoanalysis, philosophy, religion, and culture. Cross-list: SWGS 346.

HART 347 - SEMINAR ON LOVE
Short Title: SEMINAR ON LOVE
Department: Art History
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This seminar explores the themes of love, sex, and spirit from the classical era through the postmodern age. We will examine literary, philosophical, and artistic expressions in painting, sculpture, cinema, novels, poetry, psychoanalysis, religion, and culture. Cross-list: RELI 343.

HART 348 - A REVOLUTION FROM WITHIN: TRENDS IN CONTEMPORARY CUBAN CULTURE
Short Title: TRENDS IN CUBAN CULTURE
Department: Art History
Grade Mode: Standard Letter
Course Type: Research
Credit Hour: 1
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This research seminar will explore contemporary trends in Cuban culture through literary texts, films, music and works of art. We will examine the ways in which politics and the practices of artistic representation intersect in post-revolutionary Cuba. A research trip to Cuba has been organized as part of this seminar. This course is taught in Spanish. Graduate students will be required to complete all the requirements for the course in addition to writing a substantial research paper at the end of the semester. This is the credit for the actual trip to Cuba. Graduate/Undergraduate Equivalency: HART 548. Mutually Exclusive: Credit cannot be earned for HART 348 and HART 548.

HART 349 - TRENDS IN CONTEMPORARY ART
Short Title: TRENDS IN CONTEMPORARY ART
Department: Art History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This seminar will map the terrain of contemporary art as it has developed in the wake of political and theoretical engagements of the 1990's. For many critics, Contemporary Art practice has given way to the worst aspects of spectacular culture losing sight of the political, theoretical, and artistic rigor that characterized the historical and neo-avant-garde. Graduate/Undergraduate Equivalency: HART 570. Mutually Exclusive: Credit cannot be earned for HART 349 and HART 570.

HART 350 - SCIENCE AND MEDICINE IN MEDIEVAL VISUAL CULTURE
Short Title: MEDIEVAL SCIENCE AND MEDICINE
Department: Art History
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This seminar explores various conceptions of love from the classical era to our postmodern age. Ranging from eros to philia to agape, we will examine literary, philosophical, and artistic expressions of love in painting, cinema, literature, psychoanalysis, philosophy, religion, and culture. Cross-list: SWGS 346.

HART 351 - SCIENCE AND MEDICINE IN MEDIEVAL VISUAL CULTURE
Short Title: MEDIEVAL SCIENCE AND MEDICINE
Department: Art History
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This seminar will explore the diverse and often unexpected forms of medieval representation that intersect with science, medicine, and natural history: maps, diagrams, images from health and surgery guides, encyclopedic compendia of animals and plants, astrolabes. Optics and theories of vision, and the ideals of naturalism and perspective, will be examined alongside issues such as function, cultural exchange, and intellectual authority. Cross-list: MDEM 352. Graduate/Undergraduate Equivalency: HART 650. Mutually Exclusive: Credit cannot be earned for HART 350 and HART 650.
HART 351 - ART, REVOLUTION, WAR: MODERN ART IN VIOLENT TIMES
Short Title: ART, REVOLUTION, WAR
Department: Art History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This seminar examines the ambition (or lack thereof) of modern art to play an active role during periods of violent conflict. From the French Revolution to the recent disastrous American engagements in the Middle East wars to the never-ending war on terror, artists have produced images that attempt to actively engage in these conflicts. This class will examine the relative successes and failures of art during times of violent revolution and war within the modern era. Graduate/Undergraduate Equivalency: HART 651. Mutually Exclusive: Credit cannot be earned for HART 351 and HART 651.

HART 353 - ART AND EMOTION
Short Title: ART AND EMOTION
Department: Art History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This seminar will examine the role played by emotion in our response to works of art. What is the relationship of emotion to the specific formal properties of a given work of art, such as color, texture, shape, line quality, sound, and so on? What role does our cognitive faculties play in determining our emotional response to art? Are there political stakes to emotional affect? These and other questions will be examined. Graduate/Undergraduate Equivalency: HART 653. Mutually Exclusive: Credit cannot be earned for HART 353 and HART 653.

HART 354 - AGE OF ROMANTICISM IN EUROPE
Short Title: AGE OF ROMANTICISM IN EUROPE
Department: Art History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This course will consider the emergence and flourishing of Romanticism in the visual arts in Europe. We will consider artists from France, Germany and Britain, including Eugene Delacroix, J.M.W. Turner, John Constable and Caspar David Friedrich. We will combine study of paintings with readings of contemporaneous philosophers and writers, including Hegel and Byron. Graduate/Undergraduate Equivalency: HART 554. Mutually Exclusive: Credit cannot be earned for HART 354 and HART 554.

HART 355 - JACQUES-LOUIS DAVID: REVOLUTION
Short Title: JACQUES-LOUIS DAVID: REVOLUTION
Department: Art History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This class will consider the painting of Jacques-Louis David with particular reference to the ideas of revolution. This seminar will combine close reading and looking, using primary and secondary readings to explore issues of classicism, politics, eroticism, and aesthetics in the work of this central figure in art history. Graduate/Undergraduate Equivalency: HART 555. Mutually Exclusive: Credit cannot be earned for HART 355 and HART 555.

HART 357 - CONSTABLE AND TURNER
Short Title: CONSTABLE AND TURNER
Department: Art History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This seminar will explore critical issues surrounding the careers of John Constable and J.M.W. Turner, arguably the greatest landscape painters of the early 19th century. We will look at both similarities and differences in the work of these two rivals, while considering their work in the context of great historical change in England. Graduate/Undergraduate Equivalency: HART 547. Mutually Exclusive: Credit cannot be earned for HART 357 and HART 547.

HART 358 - IMPRESSIONISM AND POST-IMPRESSIONISM
Short Title: IMPRESSIONISM/POST-IMP
Department: Art History
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This class will explore painting in France from approximately 1865 to 1900. Mixing lectures and classroom discussion, we will focus on individual artists including Claude Monet, Edgar Degas, Mary Cassatt, Georges Seurat, Vincent van Gogh, and Paul Czanne. We will also consider and discuss a set of critical issues surrounding these painters, including the politics of gender and class within the changing urban setting of Paris. Graduate/Undergraduate Equivalency: HART 558. Mutually Exclusive: Credit cannot be earned for HART 358 and HART 558.
HART 359 - CINEMAS OF URBAN ALIENATION
Short Title: CINEMAS OF URBAN ALIENATION
Department: Art History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 4
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This seminar examines cinematic engagements with urban spaces and experiences around the world spanning the last two centuries. Particular attention will be paid to issues of migration, marginality, colonialism, war and post-war, nostalgia and memory, race and gender. Cities of focus include Berlin, Istanbul, Moscow, Algiers, Beirut and Paris. Our weekly discussions of individual films will be grounded in critical writings of the cities' histories and theories of space and film. Cross-list: ARCH 359, FILM 359. Graduate/Undergraduate Equivalency: HART 659. Mutually Exclusive: Credit cannot be earned for HART 359 and HART 659.

HART 360 - AMERICAN ARCHITECTURE AND DECORATIVE ARTS BEFORE 1900
Short Title: AMER ARCH & DECOR ARTS 1900
Department: Art History
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Major topics will include the furniture styles of early America, the architecture of colonial cities, the life, thought, and architectural ideas of Thomas Jefferson, urban design and building projects in Washington, D.C., and other U.S. cities, and domestic life and interior design in 19th century America. Cross-list: ARCH 360. Graduate/Undergraduate Equivalency: HART 560. Mutually Exclusive: Credit cannot be earned for HART 360 and HART 560.

HART 361 - WHAT IS CINEMA? CLASSIC READINGS OF CLASSIC FILMS
Short Title: WHAT IS CINEMA?
Department: Art History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Using a variety of readings now considered classics as our guide, this class will look closely at a broad range of films and film movements discussed by critics and theorists such as Rudolf Amheim, Jean Epstein, Sergei Fisenstein, Walter Benjamin and Andre Bazin. Cross-list: FILM 361. Graduate/Undergraduate Equivalency: HART 561. Mutually Exclusive: Credit cannot be earned for HART 361 and HART 561.

HART 362 - UPCYCLING: MEANINGFUL REUSE IN ART AND MONUMENTS FROM ANTIQUITY TO TODAY
Short Title: UPCYCLING
Department: Art History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: In this seminar, we will explore the phenomenon of upcycling - intentionally meaningful reuse - by investigating the intersection of reuse and memory in the art and monuments of many different times, places, and people, from prehistory to the modern art that surrounds us on the Rice campus. Mutually Exclusive: Credit cannot be earned for HART 362 and HART 562.

HART 364 - THE RISE OF CAPITALISM AND LATE MEDIEVAL AND EARLY MODERN ART
Short Title: CAPITALISM & ART, 1300-1700
Department: Art History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This course will explore how the rise of capitalism affected late medieval and early modern art. It will explore depictions of avarice, charity, and poverty, representations of shopping; how the rise of the art market affected art production; images of different socio-economic classes, and the material culture of money. Cross-list: MDEM 363. Graduate/Undergraduate Equivalency: HART 584. Mutually Exclusive: Credit cannot be earned for HART 364 and HART 584.

HART 365 - ART BETWEEN THE WARS: EUROPEAN MODERNISM, 1918-1940
Short Title: ART BETWEEN THE WARS
Department: Art History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Beginning in the aftermath of the First World War, a conflict that devastated the physical and psychological landscape of Europe, and ending with the rise of various totalitarian regimes (Fascism, Stalinism) this seminar will examine European art of the interwar period, from 1918-1940. Potential topics will include Surrealism, The Russian avant-garde, the return to order, Esprit-Nouveau, the machine aesthetic, De Stijl, avant-garde cinema, etc. Graduate/Undergraduate Equivalency: HART 575. Mutually Exclusive: Credit cannot be earned for HART 365 and HART 575.
HART 367 - MODERN AND CONTEMPORARY ART: FROM POLLOCK TO THE PRESENT
Short Title: MODERN AND CONTEMPORARY ART
Department: Art History
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This course will examine a range of topics in American and European art from the 1950s to the present. Our subjects will include Abstract Expressionism, Pop art, body and performance art, deconstruction, postmodernism, minimalism, and art in the digital age.

HART 369 - (RE)DEFINING (CLASSICAL) ART HISTORY: DIVISION, CONNECTIVITY AND SHIFT IN THE ANCIENT MEDITERRANEAN
Short Title: REDEFINING CLASSICAL ART HIST
Department: Art History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: For 500 years scholars have cleaved Roman and Greek art from one another in order to define the heart of antiquity. The scholarship that created such division is the very scholarship that created the discipline of Art History and redefined it through iconographical, social historical and broadly theoretical analysis. Windelmann, Droysen, Brendel, Deleuze, Gell. In this seminar, we will question the disciplinary paradigm. Looking at art from around the Mediterranean and reading the very scholarship that has both created these definitions and questioned them, we will work toward a new way of conceiving the art of the Ancient Mediterranean world. Cross-list: CLAS 323. Graduate/Undergraduate Equivalency: HART 569. Mutually Exlcusive: Credit cannot be earned for HART 369 and HART 569.

HART 371 - CHINESE PAINTING
Short Title: CHINESE PAINTING
Department: Art History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This course examines Chinese painting from ancient times to the early twentieth century. Issues of examination include themes, styles, and functions of Chinese painting; the interrelationship between paintings and the intended viewers; regionalism; images and words; foreign elements in Chinese painting. Cross-list: ASIA 371. Graduate/Undergraduate Equivalency: HART 571. Mutually Exclusive: Credit cannot be earned for HART 371 and HART 571.

HART 372 - CHINESE ART AND VISUAL CULTURE
Short Title: CHINESE ART AND VISUAL CULTURE
Department: Art History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This course will examine a range of topics in American and European art from the 1950s to the present. Our subjects will include Abstract Expressionism, Pop art, body and performance art, deconstruction, postmodernism, minimalism, and art in the digital age.

HART 373 - METHODOLOGY SEMINAR: WORD AND IMAGE
Short Title: METHODOLOGY SEMINAR
Department: Art History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Art history is the craft of putting images into words. This course explores the question of how words and images intersect in the visual arts. Readings of some key texts on the subject will be followed by a series of case studies concerning specific artistic genres and issues. Topics include: narrative in painting; the frame and the caption; character and face in portraiture; the word as image in calligraphy; and sound and image in film. Through its readings and cases, the course will provide students a focused introduction to art historical theories and methods.

HART 375 - LATIN-EUROPE/LATIN-AMERICA: THE AESTHETICS AND POLITICS OF MODERN CITIES
Short Title: LATIN-EUROPE/LATIN-AMERICA
Department: Art History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This course challenges our pre-conceived maps of the world, highlighting Latin America's place within our understanding of modernity as a product of transnational interconnections. Transversing the Atlantic, this course traces the interactions of capitalism and culture, science and aesthetics, and the ideologies that informed and formed the urban fabric and spatial politics of important cities in the modern Latin world - Paris, Rio de Janeiro, Rome, Buenos Aires, Barcelona, Havana, and Brasilia. Cross-list: ARCH 375. Graduate/Undergraduate Equivalency: HART 675. Mutually Exlcusive: Credit cannot be earned for HART 375 and HART 675.
HART 376 - EAST & WEST: MEDIEVAL VISUAL CULTURE IN CHINA AND NORTHERN EUROPE
Short Title: EAST AND WEST
Department: Art History
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This course explores a series of issues that are critically important for the medieval art of both China and northern Europe. Topics include materials and techniques; public and private art: commerce, technology and prints; art and motion; archaeology; paradise and hell; maps and space; the gaze; erotica; patronage; and multiculturalism. Cross-list: ASIA 376, MDEM 376. Graduate/Undergraduate Equivalency: HART 576. Mutually Exclusive: Credit cannot be earned for HART 376 and HART 576.

HART 377 - MEDIEVAL MANUSCRIPTS
Short Title: MEDIEVAL MANUSCRIPTS
Department: Art History
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This seminar explores illuminated European manuscripts from late antiquity through the early sixteenth century. It examines manuscripts’ functions, patrons, makers, and materials and technique, as well as such issues as the relationship between text and image and the manuscript’s ideological stance. Students have the opportunity to study original medieval illuminations. Cross-list: MDEM 377. Graduate/Undergraduate Equivalency: HART 577. Mutually Exclusive: Credit cannot be earned for HART 377 and HART 577.

HART 378 - DUTCH ART IN THE AGE OF REMBRANDT
Short Title: DUTCH ART IN AGE OF REMBRANDT
Department: Art History
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This course will examine Dutch and Flemish seventeenth-century art, including major masters, such as Rembrandt, Rubens, and Vermeer, and major developments, such as the rise of still life, genre, and landscape painting. Cross-list: MDEM 378. Graduate/Undergraduate Equivalency: HART 578. Mutually Exclusive: Credit cannot be earned for HART 378 and HART 578.

HART 379 - POSTMODERNISM AND ITS HISTORIES
Short Title: POSTMODERNISM AND ITS HISTORIES
Department: Art History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This class will explore the centrality of collage to the development of the 20th century art and film. Beginning with the seminal achievements of Picasso and Braque, we will examine works across geographical and medium boundaries, including Dada photomontage, early avant-garde film, 1960s happenings, and the reformulation of collage aesthetics in 1980s postmodernism. Graduate/Undergraduate Equivalency: HART 581. Mutually Exclusive: Credit cannot be earned for HART 379 and HART 581.

HART 380 - SURVEY OF AMERICAN FILM AND CULTURE
Short Title: SURVEY OF AMER FILM & CULTURE
Department: Art History
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 4
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: A course that explores the history of cinema in the U.S. from its origins to the present day. Cross-list: ENGL 373, FILM 373.
Course URL: www/english.rice.edu

HART 381 - MODALITIES OF CINEMA
Short Title: MODALITIES OF CINEMA
Department: Art History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This course introduces students to cinema as a global enterprise. It explores the relationship between nations, identities, races, concepts, and genres. It inquires into the question of globalization as it relates to the motion picture audience, corporations, and the commerce of ideas. Cross-list: FILM 383.
HART 385 - EUROPEAN WOMEN FILMMAKERS
Short Title: EUROPEAN WOMEN FILMMAKERS
Department: Art History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Filmmaking has celebrated its first hundred years. Women's contributions were significant and deserve to widen the film canon for all filmgoers. This course will concentrate on films by European women directors, taking into account aesthetic particularities, gender commitment, and post-feminist attempts. Importance will also be given to the contexts and conditions of women's film production. All films subtitled in English. Taught in English. Cross-list: GERM 321, HUMA 321, SWGS 358.

HART 386 - DADA
Short Title: DADA
Department: Art History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Inaugurated against the calamitous backdrop of the First World War, "Dada," the artist Francis Picabia claimed, "smells of nothing, it is nothing, nothing, nothing." This seminar will examine the aesthetics of shock and nihilism (literally, 'nothingness'), developed by Dada in six cities: Zurich, Berlin, Colgne, Hannover, New York, and Paris. Graduate/Undergraduate Equivalency: HART 586. Mutually Exclusive: Credit cannot be earned for HART 386 and HART 586.

HART 387 - HOLOCAUST MEMORY IN MODERN GERMANY
Short Title: HOLOCAUST MEMORY
Department: Art History
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3-4
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This course traces and examines forms of Holocaust memory and memorialization in film, literature, art, architecture, city planning, museums, and memorials in Germany. For an additional credit hour, students will participate in a week-long trip to Berlin. Instructor Permission Required. Cross-list: GERM 351.

HART 388 - POST WAR EUROPEAN CINEMA
Short Title: POST WAR EUROPEAN CINEMA
Department: Art History
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 4
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This class surveys major developments in European cinema from the late 1940s to the late 1960s. Our study will include such movements as Italian Neorealism, German Rubble Films, French New Wave, and Soviet cinema in the Thaw. Particular attention will be paid to such issues as cinema and post-war reconstruction, memory and nation, and body and space. Cross-list: FILM 388. Graduate/Undergraduate Equivalency: HART 588. Mutually Exclusive: Credit cannot be earned for HART 388 and HART 588.

HART 389 - FILM MELODRAMA
Short Title: FILM MELODRAMA
Department: Art History
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 4
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Melodrama - the genre of tears, sensationalism and excess - has long been the focus of critical debates. Initially dismissed as mere escapism, melodrama films have begun to generate nuanced studies about their engagement with issues of gender, sexuality, class, and race. This seminar examines aesthetic, socio-political, and psychological dimensions of film melodrama, including historical works by Vidor, Sirk, Godard, and Fassbinder, as well as more recent projects by Haynes and Almodovar. Cross-list: FILM 389. Mutually Exclusive: Credit cannot be earned for HART 389 and HART 589.

HART 390 - THEORETICAL PERSPECTIVES ON THE VISUAL ARTS
Short Title: THEORIES OF VISUAL ARTS
Department: Art History
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Exploration of overlapping themes central in the history of art, using texts from Plato to post-modernism. Includes the use of biography, style, connoisseurship, quality, the social basis of art, theories of change in the arts, psychology, iconography, and the modernist canon and post-modern challenges to that canon, as well as race, gender, class, authorship, and audience.
HART 391 - PLACE AND MEMORY IN MIDDLE EASTERN AND EUROPEAN CINEMA
Short Title: MEMORY AND PLACE IN CINEMA
Department: Art History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 4
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Focuses on cinematic explorations of and preoccupations with the notion of place. Screenings include iconic and lesser-known films from Europe and the Middle East that offer diverse lenses and contexts (love, family, landscapes, borders, trauma, exile) through which we will examine questions of real and imagined place and the politics of memory. Cross-list: ANTH 378, FILM 378. Graduate/Undergraduate Equivalency: HART 691. Mutually Exclusive: Credit cannot be earned for HART 391 and HART 691.

HART 392 - LATIN AMERICAN ART AND CINEMA SINCE 1960
Short Title: LAT AMER ART/CINEMA SINCE 1960
Department: Art History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 4
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This course examines the relationships between art and cinema in Latin America, providing an overview of key artists, movements, and films from Argentina, Brazil, Cuba, and Mexico from 1960 to present. Sessions include weekly film screenings and focus on research and discussions about topics including globalization, mass media, reception, and the social, economic, and political contexts around artistic production. Graduate/Undergraduate Equivalency: HART 592. Mutually Exclusive: Credit cannot be earned for HART 392 and HART 592.

HART 394 - THE SACRED ARTS OF SECULAR MODERNISM
Short Title: SACRED ARTS SECULAR MODERNISM
Department: Art History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This course examines various representations of spirituality and the sacred in modernist & post modernist aesthetics, and their corresponding expressions in historical and contemporary museum practices. Special emphasis will be placed on the outstanding collections of the adjacent museum district, the Menil Collection and the Museum of Fine Arts, Houston. Cross-list: RELI 394.

HART 395 - ROMAN ARCHAEOLOGY: FIELD SCHOOL
Short Title: ROMAN ARCHAEOLOGY FIELD SCHOOL
Department: Art History
Grade Mode: Standard Letter
Course Type: Research
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: This is a traditional archaeological field course, taught in the Roman Forum. Techniques and advanced technologies for processing, conserving, and recording archeological materials are emphasized. Students will become familiar with procedures for ceramics, metals, plant and animal remains and building materials. Course work include lectures, hands-on excavation, and informal discussion. Instructor Permission Required. Recommended Prerequisite(s): HART 201 or ANTH 205 or ANTH 303. Mutually Exclusive: Credit cannot be earned for HART 395 and HART 695.

HART 396 - MEDICAL HUMANITIES VISUAL CULTURE
Short Title: MED HUMANITIES VISUAL CULTURES
Department: Art History
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: In this course we will examine literal and symbolic representations of the human body in order to explore the relations between the visuality of medicine, corporeality, subjectivity, and healing. Repeatable for Credit.

HART 397 - SPECIAL TOPICS: HART IN THE WORLD
Short Title: SPECIAL TOPICS - FIELD STUDY
Department: Art History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to students with a major in Art History. Graduate level students may not enroll.
Course Level: Undergraduate Upper-Level
Description: Through lectures, seminar discussions, museum visits, architectural itineraries, and field trips, this course will explore the complex political, social, and cultural histories of each country visited; locations are Brazil (2017), London (2018), Berlin (2019), China (2020). More information available at http://arthistory.rice.edu/hart-world. Instructor Permission Required. Graduate/Undergraduate Equivalency: HART 697. Mutually Exclusive: Credit cannot be earned for HART 397 and HART 697.
