Description: Evaluation of the evolution of igneous rocks in the Earth's crust and mantle. Topics will include phase equilibria, experimental studies, and geochemistry. Labs will stress thin section petrography.
Graduate/Undergraduate Equivalency: EEPS 612. Repeatable for Credit.

EEPS 413 - ADVANCED PETROLOGY II
Short Title: ADVANCED PETROLOGY II
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course will bring together constraints from field geology, petrography, petrology, geochemistry, and geodynamics to tackle advanced A87 research questions of whole Earth processes that are relevant in the 21st century. The topics that may be covered include, but are not limited to, interplay between magmatic and tectonic processes, magma generation, migration, extraction, and dynamic stability in various settings, magmatic differentiation, volatiles and fluids exchange between various reservoirs and effects on long-term climate, ore genesis, and formation and modification of continents.
Graduate/Undergraduate Equivalency: EEPS 613. Mutually Exclusive: Cannot register for EEPS 413 if student has credit for EEPS 613/ESCI 411/ESCI 611.

EEPS 415 - GEOCHEMISTRY OF EARTH'S SURFACE
Short Title: GEOCHEM EARTH'S SURFACE
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course will cover concepts in aqueous geochemistry in the context of chemical weathering and Earth's major biogeochemical cycles. Central to this course will be weekly student-led discussions of scientific literature. Students will also learn basic numerical modeling and data analysis techniques using MATLAB, field methods, and basic analytical chemistry.
Graduate/Undergraduate Equivalency: EEPS 615. Mutually Exclusive: Cannot register for EEPS 415 if student has credit for EEPS 615/ESCI 407/ESCI 607.

EEPS 417 - TRACE-ELEMENT AND ISOTOPE GEOCHEMISTRY FOR EARTH AND ENVIRONMENTAL SCIENCE
Short Title: TRACE-ELEMENT& ISOPE GEOCHEM
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Introduction to the principles of trace-element and isotope geochemistry and their applications to high and low temperature processes in the earth. Topics to be covered are trace-element partitioning, basic quantum physics, radiogenic isotopic systems and stable isotope fractionation.
Graduate/Undergraduate Equivalency: EEPS 617. Recommended Prerequisite(s): ESCI 322 or EEPS 322.
Mutually Exclusive: Cannot register for EEPS 417 if student has credit for EEPS 617/ESCI 430/ESCI 630.

<td>EEPS 418</td>
<td>ISOTOPE GEOCHEMISTRY</td>
<td>ISOTOPE GEOCHEMISTRY</td>
<td>Earth/Environmt/Planetary Sci</td>
<td>Undergraduate Upper-Level</td>
<td>Lecture</td>
<td>3</td>
<td>Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.</td>
<td>An introduction to the principles and techniques of stable and radiogenic geochemistry in the geosciences. The course will begin by examining the fundamental physics relevant to isotope partitioning and decay, followed by a survey of different isotope systems and how they are used to study surface processes, element cycling, climate, and planetary science. Graduate/Undergraduate Equivalency: EEPS 618. Recommended Prerequisite(s): ESCI 322 or EEPS 322. Mutually Exclusive: Cannot register for EEPS 418 if student has credit for EEPS 618/ESCI 433/ESCI 633.</td>
</tr>

<td>ORGANIC GEOCHEMISTRY</td>
<td>ORGANIC GEOCHEMISTRY</td>
<td>Earth/Environmt/Planetary Sci</td>
<td>Undergraduate Upper-Level</td>
<td>Lecture</td>
<td>3</td>
<td>Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.</td>
<td>This course covers the organic geochemistry of the natural environment. Topics include: production, transport, decomposition, and storage of organic matter in the marine and terrestrial environments, use of isotopes to track biogeochemical processes and natural and perturbed carbon cycle issues, including past and recent climate shifts. Graduate/Undergraduate Equivalency: EEPS 620. Mutually Exclusive: Cannot register for EEPS 420 if student has credit for EEPS 620/ESCI 423/ESCI 633.</td>
</tr>

<td>EEPS 426</td>
<td>GEOMORPHOLOGY</td>
<td>GEOMORPHOLOGY</td>
<td>Earth/Environmt/Planetary Sci</td>
<td>Undergraduate Upper-Level</td>
<td>Lecture/Laboratory</td>
<td>3</td>
<td>Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.</td>
<td>This course will investigate physical, chemical, and biological processes that contribute to the development and shaping of Earth's surface across a continuum of subaerial and subaqueous environments. Mandatory 4-day field trip is associated with this class. Graduate/Undergraduate Equivalency: EEPS 626. Mutually Exclusive: Cannot register for EEPS 426 if student has credit for EEPS 626/ESCI 431/ESCI 631. Repeatable for Credit.</td>
</tr>
<tr>

<td>MECHANICS OF SEDIMENT TRANSPORT</td>
<td>MECHANICS-SEDIMENT TRANSPORT</td>
<td>Earth/Environmt/Planetary Sci</td>
<td>Undergraduate Upper-Level</td>
<td>Lecture</td>
<td>3</td>
<td>Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.</td>
<td>Evaluation of sedimentary transport dynamics: physical interaction between fluid flow and sediment mobility, from grain to bedform scale; exploration of environments including rivers, estuaries, deltas, coastline, and deserts. Examination of sediment transport for geology, environmental, and engineering applications; formation of diagnostic sedimentary features recognized in the stratigraphic record. Graduate/Undergraduate Equivalency: EEPS 627. Mutually Exclusive: Cannot register for EEPS 427 if student has credit for EEPS 627/ESCI 435/ESCI 635.</td>
</tr>

EEPS 430 - SEQUENCE STRATIGRAPHY
Short Title: SEQUENCE STRATIGRAPHY
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ESCI 101 or ESCI 107 or ESCI 115 or ESCI 201 or ESCI 301 or ESCI 321 or ESCI 340 or EEPS 101 or EEPS 109 or EEPS 107 or EEPS 321 or EEPS 340
Description: Introduction to electromagnetic remote sensing of the earth and other planets using passive and active methods. The course includes a computer lab component involving processing and interpretation of remote sensing imagery, and an individual project.
Graduate/Undergraduate Equivalency: EEPS 634. Mutually Exclusive: Cannot register for EEPS 435 if student has credit for CEVE 450/EEPS 635/ESCI 450/ESCI 650.

EEPS 431 - GIS FOR SCIENTISTS AND ENGINEERS
Short Title: GIS FOR SCIENTISTS
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ESCI 101 or ESCI 107 or ESCI 115 or ESCI 201 or ESCI 301 or ESCI 321 or ESCI 340 or EEPS 101 or EEPS 109 or EEPS 107 or EEPS 321 or EEPS 340
Description: Basic principles of Geographic Information Systems, with a focus on effectively applying the technology to the geosciences. Main platform of the class will be ESRI's ArcGIS, but a wide array of other tools will also be introduced. Material will be delivered via a blend of lecture and hands-on exercises.
Graduate/Undergraduate Equivalency: EEPS 636. Mutually Exclusive: Cannot register for EEPS 436 if student has credit for EEPS 636/ESCI 452/ESCI 652.

EEPS 432 - QUANTITATIVE HYDROGEOLOGY
Short Title: QUANTITATIVE HYDROGEOLOGY
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Advanced course that will provide a quantitative overview of groundwater hydrology. Emphasis will be placed on mastering concepts in fluid mechanics and applying these concepts to water supply, environmental, and geological problems. Graduate/Undergraduate Equivalency: EEPS 632. Mutually Exclusive: Cannot register for EEPS 432 if student has credit for EEPS 630/ESCI 427/ESCI 627.

EEPS 433 - CLIMATE DYNAMICS
Short Title: CLIMATE DYNAMICS
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): EEPS 107 or EEPS 321 or EEPS 340 or ESCI 201 or ESCI 301 or ESCI 321 or EEPS 340 or EEPS 430 or EEPS 432
Description: This course will introduce students to the concepts of sequence stratigraphy and the power behind this correlation technique. The course is divided between classic sequence stratigraphy using cores, well-logs, and outcrop examples and seismic sequence stratigraphy. Graduate/Undergraduate Equivalency: EEPS 630. Mutually Exclusive: Cannot register for EEPS 430 if student has credit for EEPS 630/ESCI 427/ESCI 627.

EEPS 434 - CLIMATE OF THE COMMON ERA
Short Title: CLIMATE OF THE COMMON ERA
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): EEPS 101 or ESCI 101 or ENST 101 or EEPS 107 or ESCI 201 or ENST 201 or EEPS 109 or ESCI 109 or EEPS 321 or ESCI 321 or EEPS 340 or ESCI 340 or EEPS 448 or ESCI 442
Description: This course explores climate variability and change over the past two thousand years to contextualize current rates and magnitudes of anthropogenic climate change on Earth. This reading and discussion-focused seminar course will cover paleoclimate archives such as corals, tree rings, and ice cores, as well as climate reconstruction methods, detection and attribution. Students will be provided with an overview of methods and key findings in paleoclimatology and paleoceanography, using high-resolution archives to explore past changes in global climate. Students will read 3-4 scientific papers each week, provide summaries and volunteer to lead discussions surrounding topics of their choosing.
Graduate/Undergraduate Equivalency: EEPS 634.

EEPS 435 - REMOTE SENSING
Short Title: REMOTE SENSING
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course will introduce students to the concepts of climate variability and change over the past two thousand years to contextualize current rates and magnitudes of anthropogenic climate change on Earth. This reading and discussion-focused seminar course will cover paleoclimate archives such as corals, tree rings, and ice cores, as well as climate reconstruction methods, detection and attribution. Students will be provided with an overview of methods and key findings in paleoclimatology and paleoceanography, using high-resolution archives to explore past changes in global climate. Students will read 3-4 scientific papers each week, provide summaries and volunteer to lead discussions surrounding topics of their choosing.
Graduate/Undergraduate Equivalency: EEPS 634.

EEPS 436 - REMOTE SENSING
Short Title: REMOTE SENSING
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level

Students will read 3-4 scientific papers each week, provide summaries and volunteer to lead discussions surrounding topics of their choosing.
Graduate/Undergraduate Equivalency: EEPS 634.

EEPS 437 - CLIMATE OF THE COMMON ERA
Short Title: CLIMATE OF THE COMMON ERA
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): EEPS 101 or ESCI 101 or ENST 101 or EEPS 107 or ESCI 201 or ENST 201 or EEPS 109 or ESCI 109 or EEPS 321 or ESCI 321 or EEPS 340 or ESCI 340 or EEPS 448 or ESCI 442
Description: This course explores climate variability and change over the past two thousand years to contextualize current rates and magnitudes of anthropogenic climate change on Earth. This reading and discussion-focused seminar course will cover paleoclimate archives such as corals, tree rings, and ice cores, as well as climate reconstruction methods, detection and attribution. Graduate/Undergraduate Equivalency: EEPS 634.

EEPS 438 - CLIMATE OF THE COMMON ERA
Short Title: CLIMATE OF THE COMMON ERA
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): EEPS 101 or ESCI 101 or ENST 101 or EEPS 107 or ESCI 201 or ENST 201 or EEPS 109 or ESCI 109 or EEPS 321 or ESCI 321 or EEPS 340 or ESCI 340 or EEPS 448 or ESCI 442
Description: This course explores climate variability and change over the past two thousand years to contextualize current rates and magnitudes of anthropogenic climate change on Earth. This reading and discussion-focused seminar course will cover paleoclimate archives such as corals, tree rings, and ice cores, as well as climate reconstruction methods, detection and attribution. Students will be provided with an overview of methods and key findings in paleoclimatology and paleoceanography, using high-resolution archives to explore past changes in global climate. Students will read 3-4 scientific papers each week, provide summaries and volunteer to lead discussions surrounding topics of their choosing.
Graduate/Undergraduate Equivalency: EEPS 634.

EEPS 439 - CLIMATE OF THE COMMON ERA
Short Title: CLIMATE OF THE COMMON ERA
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): EEPS 101 or ESCI 101 or ENST 101 or EEPS 107 or ESCI 201 or ENST 201 or EEPS 109 or ESCI 109 or EEPS 321 or ESCI 321 or EEPS 340 or ESCI 340 or EEPS 448 or ESCI 442
Description: This course explores climate variability and change over the past two thousand years to contextualize current rates and magnitudes of anthropogenic climate change on Earth. This reading and discussion-focused seminar course will cover paleoclimate archives such as corals, tree rings, and ice cores, as well as climate reconstruction methods, detection and attribution. Students will be provided with an overview of methods and key findings in paleoclimatology and paleoceanography, using high-resolution archives to explore past changes in global climate. Students will read 3-4 scientific papers each week, provide summaries and volunteer to lead discussions surrounding topics of their choosing.
Graduate/Undergraduate Equivalency: EEPS 634.
EEPS 445 - EARTH AND PLANETARY INTERIORS
Short Title: EARTH AND PLANETARY INTERIORS
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): (ESCI 101 or EEPS 101 or ESCI 107 or ESCI 108 or EEPS 108 or ESCI 110 or EEPS 110 or ESCI 111 or EEPS 111 or ESCI 115 or ESCI 301) and (ESCI 323 or EEPS 323) and MATH 211 and (PHYS 101 or PHYS 111 or PHYS 102 or PHYS 112)

EEPS 446 - EXPLORATION GEOPHYSICS
Short Title: EXPLORATION GEOPHYSICS
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): (ESCI 101 or EEPS 101 or ESCI 107 or ESCI 108 or EEPS 108 or ESCI 110 or EEPS 110 or ESCI 111 or EEPS 111 or ESCI 115 or ESCI 301) and (ESCI 323 or EEPS 323) and MATH 211 and (PHYS 101 or PHYS 111 or PHYS 102 or PHYS 112)
Description: Study of the principles and procedures involved in geophysical exploration. Includes acquisition, processing, and interpretation of seismic, ground-penetrating radar, gravity, magnetic, and electrical data. Graduate/Undergraduate Equivalency: EEPS 648. Mutually Exclusive: Cannot register for EEPS 448 if student has credit for EEPS 648/ESCI 442/ESCI 642.

EEPS 447 - SEISMOLOGY I
Short Title: SEISMOLOGY I
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): (ESCI 101 or EEPS 101 or ESCI 107 or ESCI 108 or EEPS 108 or ESCI 110 or EEPS 110 or ESCI 111 or EEPS 111 or ESCI 115 or ESCI 301) and (ESCI 323 or EEPS 323) and MATH 211
Description: Principles of elastic wave propagation, the determination of Earth structure, and the understanding of earthquake physics. Graduate/Undergraduate Equivalency: EEPS 647. Mutually Exclusive: Cannot register for EEPS 447 if student has credit for EEPS 647/ESCI 451/ESCI 651.

EEPS 450 - GEOPHYSICAL DATA ANALYSIS: DIGITAL SIGNAL PROCESSING
Short Title: GEOPHYSICAL DATA ANALYSIS
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): MATH 211

EEPS 451 - GEOPHYSICAL DATA ANALYSIS: INVERSE METHODS
Short Title: GEOPHYSICAL DATA ANALYSIS
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): MATH 211

EEPS 454 - INTRODUCTION TO SEISMIC INTERPRETATION: STRUCTURAL STYLES AND SEISMIC STRATIGRAPHY
Short Title: 2D SEISMIC STRUCTURE AND STRAT
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ESCI 442 (may be taken concurrently) or EEPS 448 (may be taken concurrently)
Description: This course will introduce students to analysis of sub-regional structural and stratigraphic frameworks. We will utilize the interpretation of 2D seismic profiles to reconstruct basin history and discuss implications for petroleum systems. Students will gain an understanding of a variety of structural and stratigraphic styles, as expressed on seismic data. Instructor Permission Required. Graduate/Undergraduate Equivalency: EEPS 654. Mutually Exclusive: Cannot register for EEPS 454 if student has credit for EEPS 654.
EEPS 455 - REFLECTION SEISMIC DATA PROCESSING
Short Title: REFLEC SEISMIC DATA PROCESSING
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): MATH 101 or MATH 102 and (PHYS 101 or PHYS 102 or PHYS 111) and CAAM 210
Description: Rock physics, the study of the impact of rock microstructure, mineralogy, fluids, stress state, and diagenetic features on wave propagation in porous media. Understanding the use of such relationships for quantitative analysis of seismic datasets. Applications to geologic carbon storage, permafrost characterization, geothermal systems, and hydrogeology. Graduate/Undergraduate Equivalency: EEPS 658. Recommended Prerequisite(s): Knowledge of applied geophysics, seismology, continuum mechanics, differential equations, and petrology will expand the value of the material. Mutually Exclusive: Cannot register for EEPS 458 if student has credit for EEPS 456/ESCI 665.

EEPS 456 - 3D SEISMIC REFLECTION DATA INTERPRETATION
Short Title: 3D SEISMIC INTERPRETATION
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ESCI 442 or EEPS 448
Description: Experience with processing reflection seismic data. Includes seismic data organization, velocity analysis, stacking, filtering, deconvolution, migration, and display, using the Center for Computational Geophysics facility's seismic processing system(s).

EEPS 457 - ENVIRONMENTAL & APPLIED ROCK PHYSICS
Short Title: APPLIED ROCK PHYSICS
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): MATH 101 or MATH 102 and (PHYS 101 or PHYS 102 or PHYS 111) and CAAM 210
Description: Rock physics, the study of the impact of rock microstructure, mineralogy, fluids, stress state, and diagenetic features on wave propagation in porous media. Understanding the use of such relationships for quantitative analysis of seismic datasets. Applications to geologic carbon storage, permafrost characterization, geothermal systems, and hydrogeology. Graduate/Undergraduate Equivalency: EEPS 658. Recommended Prerequisite(s): Knowledge of applied geophysics, seismology, continuum mechanics, differential equations, and petrology will expand the value of the material. Mutually Exclusive: Cannot register for EEPS 458 if student has credit for EEPS 456/ESCI 665.

EEPS 458 - 3D SEISMIC INTERPRETATION
Short Title: 3D SEISMIC INTERPRETATION
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ESCI 442 or EEPS 448
Description: Workstation-based geologic interpretation of 3D seismic reflection data. The course will focus on interpreting horizons and faults tying interpretation to well data, analyzing seismic attributes, and other relevant topics. Emphasis will be placed on workflows utilized in hydrocarbon exploration. Mutually Exclusive: Cannot register for EEPS 456 if student has credit for ESCI 428.

EEPS 459 - WELL LOGGING AND PETROPHYSICS
Short Title: WELL LOGGING AND PETROPHYSICS
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Basics of wireline logging and logging while drilling including borehole environment, resistivity, radiation, thermal, and elastic wave measurements and measuring tools. Building from this introduction, basic interpretation of logging data and formation evaluation will be studied. Graduate/Undergraduate Equivalency: EEPS 659.

EEPS 460 - GLOBAL TECTONICS
Short Title: GLOBAL TECTONICS
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Geometrical aspects of plate tectonics, the 3 traditional types of plate boundaries, instantaneous plate motions, earthquakes and faulting, space geodesy, geomagnetic reversals, paleomagnetic poles, "absolute" plate motion, true polar wander, driving forces, diffuse plate boundaries, plate nonrigidity, and rheology of the lithosphere. Graduate/Undergraduate Equivalency: EEPS 660.

EEPS 461 - STRUCTURE AND EVOLUTION OF TECTONIC SYSTEMS
Short Title: TECTONIC SYSTEMS
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ESCI 323 or EEPS 323
Description: Applications of continuum physics to the deformation, flexure, heat transfer, and gravity field of the lithosphere. Graduate/Undergraduate Equivalency: EEPS 662. Recommended Prerequisite(s): MATH 212.
EEPS 464 - INTRODUCTION TO THE HEAT AND MASS TRANSPORT PROCESSES OF PLANETARY INTERIORS  
Short Title: GEODYNAMICS  
Department: Earth/Environment/Planetary Sci  
Grade Mode: Standard Letter  
Course Type: Lecture  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Description: Introduction to the use of continuum mechanics to solve fundamental problems related to mass and energy transport problems arising in the study of the solid Earth, planets and moons. Topics include: heat conduction, convective heat transfer, planetary thermal evolution, geological fluid dynamics, flow through porous media, rheology of planetary materials. Graduate/Undergraduate Equivalency: EEPS 664.

EEPS 465 - ROCK DEFORMATION AND RHEOLOGY  
Short Title: ROCK DEFORMATION AND RHEOLOGY  
Department: Earth/Environment/Planetary Sci  
Grade Mode: Standard Letter  
Course Type: Lecture  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Prerequisite(s): MATH 211 and MATH 212  
Description: Advanced course in the foundations of fluid mechanics and its application to Earth science. Aspects of continuum mechanics, heat and mass transfer, and the rheologic behavior of materials will be covered in developing the fundamental laws that describe fluid motion. Applications include atmospheric dynamics, mantle and lithospheric dynamics, and hydrogeology. Graduate/Undergraduate Equivalency: EEPS 665. Mutually Exclusive: Cannot register for EEPS 465 if student has credit for EEPS 665/ESCI 460/ESCI 660.

EEPS 467 - GEOMECHANICS  
Short Title: GEOMECHANICS  
Department: Earth/Environment/Planetary Sci  
Grade Mode: Standard Letter  
Course Type: Lecture  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Description: An examination of deformation and failure processes within the Earth's shallow crust, with a focus on rock and sediment mechanics, and associated fluid processes. Emphasis will be on geologic applications, including sediment consolidation, slope stability, fault mechanics, and earthquake nucleation and rupture. Graduate/Undergraduate Equivalency: EEPS 667.

EEPS 468 - VOLCANOES  
Short Title: VOLCANOES  
Department: Earth/Environment/Planetary Sci  
Grade Mode: Standard Letter  
Course Type: Lecture  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Description: Introduction to volcanoes and associated physical processes. Conceptual and quantitative discussion of topics related to magma transport, magma storage, and volcanic eruptions. The course includes a 4-6 day field trip to California and Oregon. Graduate/Undergraduate Equivalency: EEPS 668.

EEPS 469 - PLANETARY VOLCANISM  
Short Title: PLANETARY VOLCANISM  
Department: Earth/Environment/Planetary Sci  
Grade Mode: Satisfactory/Unsatisfactory  
Course Type: Seminar  
Credit Hours: 2  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Description: This seminar will cover the broad range of volcanic phenomena in the solar system, via weekly readings of, and student presentations on, classic and recent papers. Topics include: Composition (basaltic, silicic, unusual, carbonatite), cryovolcanism, structure (caldera, rift zones, volcanic spreading radiating dike systems, magma chambers, and sill complexes), and dynamics (eruption mechanism, effusive vs. explosive, volatiles and atmospheres/oceans). The planetary settings to be considered include Earth, Venu, Mars, Mercury, Moon, large asteroids and outer planet satellites. Graduate/Undergraduate Equivalency: EEPS 669.

EEPS 471 - EARTH SYSTEMS MODELING I: PHILOSOPHY AND FUNDAMENTALS  
Short Title: EARTH SYSTEMS MODELING I  
Department: Earth/Environment/Planetary Sci  
Grade Mode: Standard Letter  
Course Type: Lecture  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Prerequisite(s): CHEM 111 or CHEM 121 or PHYS 101 or PHYS 102  
Description: A model is a simplified representation of something. Scientific models range from conceptual to physical to mathematical. In Earth and planetary science, one is often concerned with modeling interactions between physical, chemical, and biological components, i.e., with modeling systems. This class will cover the fundamentals of scientific modeling with a focus on Earth systems. Graduate/Undergraduate Equivalency: EEPS 671. Recommended Prerequisite(s): MATH 211. Repeatable for Credit.
EEPS 472 - EARTH SYSTEMS MODELING: NUMERICAL TECHNIQUES AND APPLICATIONS
Short Title: NUMERICAL METHODS EARTH SYSTEM
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): CHEM 111 or CHEM 121 or PHYS 101 or PHYS 102
Description: Introduction to numerical methods with applications in Earth Science using Matlab and COMSOL. Much of the class is spent in the computer lab learning Matlab and COMSOL, followed by hands-on exercises. Graduate/Undergraduate Equivalency: EEPS 672. Recommended Prerequisite(s): MATH 211. Mutually Exclusive: Cannot register for EEPS 472 if student has credit for EEPS 672/ESCI 472/ESCI 672.

EEPS 477 - SPECIAL TOPICS
Short Title: SPECIAL TOPICS
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Independent Study, Seminar, Internship/Practicum, Laboratory, Lecture, Lecture/Laboratory
Credit Hours: 1-4
Course Level: Undergraduate Upper-Level
Description: Topics and credit hours vary each semester. Contact the department for current semester's topic(s). Repeatable for Credit.

EEPS 481 - UNDERGRADUATE RESEARCH IN EARTH SCIENCE
Short Title: UNDERGR RESEARCH EARTH SCIENCE
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Research
Credit Hours: 1-6
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Advanced work adapted to the needs of the individual undergraduate student reading. Instructor Permission Required. Repeatable for Credit.

EEPS 484 - DECISION MAKING AND ECONOMICS IN THE ENERGY INDUSTRY
Short Title: DECISION MAKING AND ECONOMICS
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course will provide students with an understanding of how energy projects are evaluated. Topics include resource-size determination, geologic and economic risk, discounted cash-flow economics, and other common methods used in decision making. Emphasis will be placed on working in teams to understand basic concepts and sensitivities. Graduate/Undergraduate Equivalency: EEPS 684. Recommended Prerequisite(s): (EEPS 321 or ESCI 321) and (EEPS 323 or ESCI 323).

EEPS 486 - PETROLEUM INDUSTRY ECONOMICS AND MANAGEMENT
Short Title: PETROLEUM IND ECONOMICS MGMT
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Topics covered include resource size determination; geologic risk analysis; establishing minimum economic thresholds; economic chance factors; the concepts of present worth, investment efficiency, rates of return. Price forecasting, cost inflation are discussed. Graduate/Undergraduate Equivalency: EEPS 686. Recommended Prerequisite(s): ESCI 415 or EEPS 484

EEPS 488 - ECONOMIC GEOLOGY MINERAL DEPOSITS
Short Title: ECON GEOL MINERAL DEPOSITS
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: An overview of metallic and nonmetallic mineral deposits, theories of their origin, and classification. The impact of government regulation, economics, production practices, and exploration will be considered. Graduate/Undergraduate Equivalency: EEPS 688.

EEPS 491 - SPECIAL STUDIES FOR UNDERGRADUATES
Short Title: SPECIAL STUDY FOR UNDERGRADS
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Research
Credit Hours: 1-6
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Work in Earth Science adapted to the needs of individual undergraduate research. Instructor Permission Required. Repeatable for Credit.

EEPS 499 - GRAPHIC AND VISUAL DESIGN FOR SCIENTISTS
Short Title: GRAPHIC AND VISUAL DESIGN
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: A significant portion of a scientists time is spent solving visual design problems (graphics for papers, visual layouts for seminars, posters, teaching). Effective communication of scientific information is part of a scientists skill set. This class is designed to enhance that skill set in terms of presenting visual information clearly, simply, and effectively. Graduate/Undergraduate Equivalency: EEPS 699. Repeatable for Credit.
EEPS 501 - SPECIAL STUDIES FOR GRADUATE STUDENTS
Short Title: SPECIAL STUDIES GRAD STUDENTS
Department: Earth/Environmmt/Planetary Sci
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Independent Study
Credit Hours: 1-15
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Advanced work in Earth science adapted to the needs of individual graduate students. Instructor Permission Required. Repeatable for Credit.

EEPS 510 - ADVANCED BIOGEOCHEMISTRY
Short Title: ADVANCED BIOGEOCHEMISTRY
Department: Earth/Environmmt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Seminar Topics will vary.

EEPS 511 - ADVANCED TOPICS IN GEOCHEMISTRY
Short Title: ADVANCED TOPICS IN GEOCHEMISTRY
Department: Earth/Environmmt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Seminar topics may vary. Repeatable for Credit.

EEPS 514 - SEMINAR: SPECIAL TOPICS IN HIGH TEMPERATURE GEOCHEMISTRY
Short Title: SEM:SPEC TOPICS HIGH TEMP
Department: Earth/Environmmt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Seminar topics may vary. Repeatable for Credit.

EEPS 516 - FIELD TRIP FOR ADVANCED GEOLOGY AND PETROLOGY
Short Title: FIELD TRIP-ADV GEOL & PETROL
Department: Earth/Environmmt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): (ESCI 322 or EEPS 322) and ESCI 324 or EEPS 324
Description: A field trip course centered on weekly readings and several mapping projects carried out over the course of 1 week. The course will focus on western North American geology with emphasis on igneous and metamorphic petrology and structural geology in the context of regional tectonics. Field studies will be accompanied by quantitative data collection and analysis. Each student will be responsible for a small field-based project. Repeatable for Credit.

EEPS 525 - APPLIED SEDIMENTOLOGY I
Short Title: APPLIED SEDIMENTOLOGY I
Department: Earth/Environmmt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course will explore carbon, nitrogen, and water cycling at the advanced level. Repeatable for Credit.

EEPS 526 - APPLIED SEDIMENTOLOGY II
Short Title: APPLIED SEDIMENTOLOGY II
Department: Earth/Environmmt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): ESCI 505
Description: Advanced field studies in sedimentary geology. This course is intended to provide graduate students with experience working in sedimentary rocks by working on projects of their own design.

EEPS 527 - CARBONATE DEPOSITIONAL SYSTEMS
Short Title: CARBONATE DEPOSITIONAL SYSTEMS
Department: Earth/Environmmt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): ESCI 321 or EEPS 321
Description: Characterization of modern and ancient, shallow and deep sedimentary environments and facies. Includes examination of different depositional models in relation both to climate and to hydrographic and geographic settings, as well as three field trips. Meeting times will be determined after registration.

EEPS 528 - TOPICS ON CARBONATES
Short Title: TOPICS ON CARBONATES
Department: Earth/Environmmt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Topics may vary. 7-day field trip is required. Recommended Prerequisite(s): MATH 211. Repeatable for Credit.

EEPS 530 - SILICICLASTIC DEPOSITIONAL SYSTEMS
Short Title: SILICICLASTIC DEPOSITION SYST
Department: Earth/Environmmt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Study of modern and ancient sedimentary environments with emphasis on field work. Depositional models examined in relation to climatic, oceanographic, and tectonic influences. Mutually Exclusive: Cannot register for EEPS 530 if student has credit for ESCI 504.
EEPS 531 - ADVANCED TOPICS IN BASIN SEDIMENTOLOGY AND STRATIGRAPHY
Short Title: ADV TOPICS: BASIN SEDIM & STRAT
Department: Earth/Environmental/Planetary Science
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course will investigate the processes that lead to the development of sedimentary stratigraphy across a continuum of depositional environments, including: fluvial, deltaic, coastal near-shore, continental shelf and slope and abyssal settings. Material will include transport linkages based on studies from modern settings, and will also cover the unique stratigraphic signatures preserved in ancient depositional systems.

EEPS 532 - ADVANCED TOPICS IN FLUVIAL-Deltaic SEDIMENTOLOGY AND STRATIGRAPHY
Short Title: ADV TOPICS FLUVIAL-DELTAIC
Department: Earth/Environmental/Planetary Science
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course will investigate physical and biological processes that contribute to the development of fluvial-deltaic environments. Materials will include deriving physical erosion, transport, and deposition laws, in order to evaluate modern processes that shape deltas and coastlines. The course will also focus on sedimentary deposits of fluvial-deltaic systems and preservation potential of the stratigraphy, by examining ancient depositional systems that are preserved in the rock record. The course will explore these topics by reviewing science literature that utilizes numerical, experimental, and field studies, to further theory on the development of fluvial-deltaic systems. Repeatable for Credit.

EEPS 533 - CLASTIC DEPOSITIONAL SYSTEMS FIELD TRIP
Short Title: FIELD TRIP CLASTIC DEP SYSTEMS
Department: Earth/Environmental/Planetary Science
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 1
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): ESCI 504 or EEPS 530
Description: This is a five day trip that takes place in northwestern New Mexico. The trip is intended for students with strong interests in sedimentology and stratigraphy and focuses on field methods in interpretation of clastic sedimentary deposits in terms of their depositional environment, sequence stratigraphic occurrence and reservoir and source rock potential. The field area includes four different basins, which provides further opportunity for discussion of sedimentary basin evolution. The course also includes reading assignments and class presentations on topics related to the trip. Repeatable for Credit.

EEPS 535 - FIELD COURSE: APPLIED STRATIGRAPHY AND STRUCTURAL GEOLOGY
Short Title: FIELD COURSE: APPLIED STRAT
Department: Earth/Environmental/Planetary Science
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Focus on how to interpret stratigraphy and structure from outcrop and subsurface data using a field transect from the orogenic belt to the foreland basin. By the end of the class, students should be able to measure/describe stratigraphic sections, construct a structural-stratigraphic framework, interpret structural profiles and integrate paleontology.

EEPS 537 - SEMINAR: TOPICS IN SEDIMENTOLOGY
Short Title: SEM: TOPICS-SEDIMENTOLOGY
Department: Earth/Environmental/Planetary Science
Grade Mode: Seminar
Course Type: Seminar
Credit Hour: 1
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Seminar topics may vary. Repeatable for Credit.

EEPS 538 - SEMINAR: CARIBBEAN
Short Title: SEM: CARIBBEAN
Department: Earth/Environmental/Planetary Science
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hour: 1
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Seminar topics may vary. Repeatable for Credit.

EEPS 540 - CRYOSPHERE
Short Title: CRYOSPHERE
Department: Earth/Environmental/Planetary Science
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): ESCI 321 or EEPS 321
Description: The growth and decay of glaciers play a large role in modulating Earth's climate system. This course focuses on physical glaciology, glacial geomorphology, the geologic record of glaciation, and glacier-climate interactions in the past, present, and future. Mutually Exclusive: Cannot register for EEPS 540 if student has credit for ESCI 503.
EEPS 541 - MOUNTAINS, CLIMATE AND GLOBAL CARBON CYCLING
Short Title: CARBON CYCLE
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Seminar
Credit Hours: 2
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: The purpose of this course is to discuss the origins of high elevations, such as mountains and epeirogenic uplifts, and their impacts of climate, global carbon cycling, and sedimentary processes. We will discuss the physics and chemistry of building mountains by magmatism and tectonic thickening as well as destroying them by erosion, chemical weathering, and delamination. We will explore perspectives from the deep Earth to the atmosphere. The seminar will meet once a week for two hours with the first hour being a thematic overview given by faculty or students and the second hour devoted to discussion of assigned papers. Recommended Prerequisite(s): (ESCI 321 or EEPS 321) and (ESCI 322 or EEPS 322) Repeatable for Credit.

EEPS 542 - MARINE GEOLOGY SYSTEMS
Short Title: MARINE GEOLOGY SYSTEMS
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course examines areas of the seafloor recently targeted by large-scale science projects, such as the ocean drilling program. The purpose is to understand current ocean geoscience problems, the research being conducted to address these problems, and preliminary results.

EEPS 543 - EARTH'S ATMOSPHERE
Short Title: EARTH'S ATMOSPHERE
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: How and why has Earth's atmosphere evolved over time? We will begin with an understanding of the atmosphere today - its physics, chemistry, and dynamics - work backwards in time to frontiers that are comparatively data-poor. We focus on empirical/observational constraints that drive theories of atmospheric evolution on Earth and other planets. Recommended Prerequisite(s): MATH 211 Repeatable for Credit.

EEPS 544 - SEMINAR: ADVANCED TOPICS IN HYDROGEOLOGY
Short Title: SEM:ADV TOPICS HYDROGEOLOGY
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Seminar topics may vary. Repeatable for Credit.

EEPS 545 - THEORETICAL GLOBAL SEISMOLOGY I
Short Title: THEORETICAL GLBL SEISMOLOGY I
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: The course provides a path through theoretical seismology from a comprehensive analysis perspective. It consists of five parts:
(i) The introduction of Earth's elastic-gravitational deformations through the calculus of variations, and the introduction of fluid-solid boundaries involving Earth's core using an action integral. (ii) The variationallinearized or weak formulation of Earth's elastic-gravitational deformations. (iii) Energy estimates and well-posedness under appropriate conditions (that, for example, constrain the shapes of the major boundaries) of the system of elastic-gravitational equations describing the oscillations of the earth, and a Volterra equation justifying the extraction of the system describing acousto-elastic waves. (iv) The characterization of the spectrum of the earth, seismic normal modes and the essential spectrum associated with internal or gravity modes and embedded eigenfrequencies. The "asymptotic" resolution of the identity or seismic normal mode summation. In radial models such as PREM, a discussion of the Einstein-Brioullin-Keller quantization, trace formula and length spectrum. (v) Incorporation of dynamic ruptures, using rate- and state-dependent friction laws, generating seismic waves through an iterative coupling scheme and viscosity solutions. All parts will be illustrated with computational simulations using numerical formulations closely related to the analysis.

EEPS 546 - SEISMOLOGY II
Short Title: SEISMOLOGY II
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate

EEPS 548 - 3D SEISMIC REFLECTION DATA INTERPRETATION
Short Title: 3D SEISMIC REFLECTION DATA
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Grade
Prerequisite(s): ESCI 442 or ESCI 642 (may be taken concurrently) or EEPS 448 or EEPS 648 (may be taken concurrently)
Description: Workstation-based geologic interpretation of 3D seismic reflection data. The course will focus on interpreting horizons and faults tying interpretation to well data, analyzing seismic attributes, and other relevant topics. Emphasis will be placed on workflows utilized in hydrocarbon exploration. Mutually Exclusive: Cannot register for EEPS 548 if student has credit for ESCI 558.
EEPS 550 - ADVANCED TOPICS IN THE SOLID EARTH I  
Short Title: ADV TOPICS - SOLID EARTH I  
Department: Earth/Environmnt/Planetary Sci  
Grade Mode: Standard Letter  
Course Type: Seminar  
Credit Hours: 2  
Restrictions: Enrollment is limited to Graduate level students.  
Course Level: Graduate  
Description: Seminar topics may vary.  

EEPS 551 - ADVANCED TOPICS IN THE SOLID EARTH II  
Short Title: ADV TOPICS - SOLID EARTH II  
Department: Earth/Environmnt/Planetary Sci  
Grade Mode: Standard Letter  
Course Type: Seminar  
Credit Hours: 2  
Restrictions: Enrollment is limited to Graduate level students.  
Course Level: Graduate  
Description: Seminar topics may vary. Repeatable for Credit.  

EEPS 552 - ADVANCED TOPICS IN GEOPHYSICS  
Short Title: ADV TOPICS IN GEOPHYSICS  
Department: Earth/Environmnt/Planetary Sci  
Grade Mode: Satisfactory/Unsatisfactory  
Course Type: Seminar  
Credit Hour: 1  
Restrictions: Enrollment is limited to Graduate level students.  
Course Level: Graduate  
Description: Seminar topics may vary. Repeatable for Credit.  

EEPS 555 - SEMINAR: SEISMOLOGY  
Short Title: SEM: SEISMOLOGY  
Department: Earth/Environmnt/Planetary Sci  
Grade Mode: Standard Letter  
Course Type: Seminar  
Credit Hours: 3  
Restrictions: Enrollment is limited to Graduate level students.  
Course Level: Graduate  
Description: Seminar topics may vary. Repeatable for Credit.  

EEPS 556 - SEMINAR: SEISMIC MODELING AND INVERSE METHODS  
Short Title: SEM:SEISMICMODEL&INVERSEMETHOD  
Department: Earth/Environmnt/Planetary Sci  
Grade Mode: Standard Letter  
Course Type: Seminar  
Credit Hours: 3  
Restrictions: Enrollment is limited to Graduate level students.  
Course Level: Graduate  
Description: Seminar topics may vary. Repeatable for Credit.  

EEPS 557 - SEMINAR: GLOBAL SEISMOLOGY  
Short Title: SEM:GLOBAL SEISMOLOGY  
Department: Earth/Environmnt/Planetary Sci  
Grade Mode: Standard Letter  
Course Type: Seminar  
Credit Hours: 3  
Restrictions: Enrollment is limited to Graduate level students.  
Course Level: Graduate  
Description: Seminar topics may vary. Repeatable for Credit.  

EEPS 560 - ADVANCED TECTONOPHYSICS/GLOBAL TECTONICS  
Short Title: ADV TECTONOPHY/GLOBL TECTONICS  
Department: Earth/Environmnt/Planetary Sci  
Grade Mode: Standard Letter  
Course Type: Seminar  
Credit Hours: 3  
Restrictions: Enrollment is limited to Graduate level students.  
Course Level: Graduate  
Description: Seminar topics may vary. Repeatable for Credit.  

EEPS 561 - TOPICS IN PLANETARY DYNAMICS AND MAGMATIC PROCESSES  
Short Title: TOPICS IN PLANETARY DYNAMICS  
Department: Earth/Environmnt/Planetary Sci  
Grade Mode: Satisfactory/Unsatisfactory  
Course Type: Seminar  
Credit Hours: 2  
Restrictions: Enrollment is limited to Graduate level students.  
Course Level: Graduate  
Description: Seminar topics may vary. Instructor Permission Required. Repeatable for Credit.  

EEPS 563 - THE PLANET MARS: FORMATION, DIFFERENTIATION, STRUCTURE AND EVOLUTION  
Short Title: PLANET MARS: FORM, STRUCT, EVO  
Department: Earth/Environmnt/Planetary Sci  
Grade Mode: Satisfactory/Unsatisfactory  
Course Type: Seminar  
Credit Hours: 3  
Restrictions: Enrollment is limited to Graduate level students.  
Course Level: Graduate  
Description: This seminar addresses fundamental issues in Mars science, spanning the disciplines of geology, geophysics, geochemistry and petrology. Sources range over six decades of data from flybys and orbiting spacecraft, landed stations and rovers, and laboratory analysis of meteorites and experiments. Readings will be supplemented by presentations from active Mars researchers.  

EEPS 564 - THE MOON: ORIGIN AND EVOLUTION OF EARTH'S COMPANION  
Short Title: THE MOON: ORIGIN & EVOLUTION  
Department: Earth/Environmnt/Planetary Sci  
Grade Mode: Satisfactory/Unsatisfactory  
Course Type: Seminar  
Credit Hours: 3  
Restrictions: Enrollment is limited to Graduate level students.  
Course Level: Graduate  
Description: This seminar addresses fundamental issues in the origin and evolution of the Moon, spanning the disciplines of geology, geophysics, geochemistry and petrology. Sources range from classic studies to recent results from orbiting spacecraft and laboratory analysis. Readings will be supplemented by guest presentations from active researchers in the field.
EEPS 567 - SEMINAR: ADVANCED TOPICS IN EARTH STRUCTURE AND DEFORMATION
Short Title: SEM:ADV TOPICS EARTH STRUCTURE
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 1-4
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Seminar topics may vary. Please contact the department for more details. Repeatable for Credit.

EEPS 568 - SEMINAR: DEVELOPMENTS IN STRUCTURAL GEOLOGY
Short Title: SEM: DEV STRUCTURAL GEOLOGY
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 2
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Seminar topics may vary. Repeatable for Credit.

EEPS 569 - SEMINAR: TECTONICS OF CONTINENTAL MARGINS
Short Title: SEM:TECTONICS-CONTINEN-MARGINS
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Seminar topics may vary. Repeatable for Credit.

EEPS 570 - SEMINAR: TOPICS IN VOLCANOLOGY, MAGMATIC, AND HYDROTHERMAL PROCESSES
Short Title: SEM: PHYSICAL VOLCANOLOGY
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Seminar
Credit Hour: 1
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Seminar topics may vary. Reading and discussions about current topics related to magma generation, migration, accumulation and eruption, as well as hydrothermal systems. Repeatable for Credit.

EEPS 571 - SEMINAR: ADVANCED TOPICS IN GEOPHYSICS, GEOTHERMICS, AND PLANETARY EVOLUTION
Short Title: SEM:GEOPHYSICS/HERMICS, PLANET
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Seminar topics may vary.

EEPS 572 - SEMINAR: HYDROCARBON EXPLORATION
Short Title: HYDROCARBON EXPLORATION
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: A student team will analyze and assess petroleum prospects in a sedimentary basin. Using a dataset of industry well/seismic data, the team will analyze data, identify/prioritize exploration targets, and prepare a formal presentation. Team will review their findings to industry judges for AAPG Imperial Barrel Award competition. Instructor Permission Required.

EEPS 573 - SEMINAR: QUANTitative PETROLEUM SYSTEMS ANALYSIS
Short Title: QUANT PETROLEUM SYS ANALYSIS
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course has lecture, lab, and field components. Students will learn about the components of the hydrocarbon system and how to rank areas of a basin for prospectively. Activities will be organized on a class and small group basis. Recommended Prerequisite(s): ESCI 323 or EEPS 323 or ESCI 427 or EEPS 430 or ESCI 627 or EEPS 630

EEPS 574 - MODERN EXPLORATION TECHNOLOGY
Short Title: MODERN EXPLORATION TECHNOLOGY
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 4
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Modern petroleum exploration techniques using geology, geophysics, and information technology methods. As new techniques emerge, the course will change to ensure that the course material mirrors the exploration industry.
EEPS 583 - DATA MANAGEMENT AND DATA GOVERNANCE
Short Title: DATA MANAGEMENT
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Description: An organization's data is recognized as the most vital asset of an enterprise, yet far too many fail to appreciate the legal and fiscal responsibilities and liabilities associated with it. This course covers the foundations, principles and methodology of data management and data governance to ensure such high quality data. Mutually Exclusive: Cannot register for EEPS 583 if student has credit for ESCI 549.

EEPS 584 - DATA SCIENCE ENVIRONMENTAL AND GEOSCIENCES
Short Title: DATA SCIENCE GEO-HYDRO-ENV APP
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Description: This course focuses on practical applications of common data science techniques to extract information from environmental, hydrologic and geological data. Lectures cover theories and examples with biweekly course work assignments. Students are required to complete a group project and presentation at the end of the course.

EEPS 585 - COMPUTATIONAL AND DATA SCIENCE IN THE ENERGY INDUSTRY
Short Title: COMP&DATA SCI ENERGY INDUSTRY
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Description: This course will be dedicated to problems and topics occurring in the energy industry, both in R&D and in operations. It has three main components: 1. Computational Geophysics 2. Reservoir Simulation Fundamentals 3. Machine Learning The first two components will be taught together in the first 10 weeks by dedicating half of the class-time to each subject. The Machine Learning component will, in part, build on the first two fundamental components and will be taught using the full class time. Computational Geophysics The participants in this geophysics part of the course are expected to be interested into learn how to use modern seismic data to image the subsurface with awareness of the computational costs of the techniques involved. The main focus will be given to current seismic imaging tools including cutting-edge Machine Learning (ML) applications. As the result of the successful completion of this course part, the course participants should be able to: (1) Understand the context and value of imaging tools for the hydrocarbon exploration business. (2) Relate the imaging tools with their computational costs for modern computer resources. (3) Properly use wave-based geophysical imaging and ML-based tools and (4) Understand main seismic processing and interpretation decisions. Applied Reservoir Simulation This component of the course will introduce participants to the practice of reservoir simulation. This class will be an applied course on reservoir simulation. Theoretical descriptions will be provided as warranted but will be kept to minimum. Class participants will learn about the fundamentals of applied reservoir simulation, use of a reservoir simulator, and how to select the proper model for a simulation study. This course will also cover data preparation, grid design, calibration of the reservoir model, forecasting of future performance, and interpretation of simulation results. Participants will also be introduced to the role of simulation in reservoir management, limitations of reservoir simulation, and the structural aspects of the models. Upscaling and recent advances simulation techniques will also be discussed. A realistic open-source reservoir simulation software will be used during the tutorials and computer projects. Machine Learning for Oil & Gas This part of the course will introduce the fundamentals of statistical learning, present a few of the popular learning paradigms and algorithms, and culminate in a small student project applying them to an oil reservoir data set using the R programming language (solutions to class problems will be accepted in any programming language or system). Much of the material presented here is also known under the names “Big Data”, “Data Analytics”, “Artificial Intelligence”, “Data Mining”, “Petroleum Data Driven Analytics” and other terms. Weeks 11 and 12 are theory only, weeks 13-15 will have small hands-on exercises incorporated and week 16 and 17 are dedicated to solving a simple oil reservoir problem using machine learning. Mutually Exclusive: Cannot register for EEPS 585 if student has credit for ESCI 570.

<td>Data has become a critical asset for enabling organizations to be competitive, make better decisions and support diverse stakeholders. In recent years, new methods, tools and techniques for data management and processing have been developed. In this vein, ensuring that users have the knowledge and skills to profit from this wealth of information is critical. In this course, participants will learn a holistic overview about infrastructure, data life cycles, metadata standards, policies and techniques for successfully managing and using data for decision-making. The emphasis of the course will be from the perspective of the Oil &amp; Gas and Energy Industries. Recommended Prerequisite(s): Basic programming, introductory statistics.</td>

EEPS 595 - PITCHING YOUR SCIENCE
Short Title: PITCHING YOUR SCIENCE
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 2
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course is designed for senior level graduate students who will be facing high-stakes professional speaking opportunities, such as impromptu job conversations, formal academic and professional presentations, conversations with journalists, and/or industrial job interviews. Students will construct and practice 90-second, 5-minute, and 15-minute presentations. Most assignments will take place in-class, with limited work occurring outside of the classroom. Requirement: Participation in the Rice University 90-second thesis competition. Instructor Permission Required.

EEPS 597 - GEOPHYSICAL FIELD WORK FOR EDUCATORS
Short Title: GEOPHYS FLD WK FOR EDUCATORS
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course consists of 2 weeks of geophysical field work and is designated for in-service K-12 teachers. Instructor Permission Required. Repeatable for Credit.

EEPS 598 - PUTTING EARTH SCIENCE INTO ACTION
Short Title: SEM: EARTH SCIENCE INTO ACTION
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: A series of lectures and paper discussions in various areas of Earth science. Graduate/Undergraduate Equivalency: EEPS 406. Repeatable for Credit.

EEPS 603 - SEMINAR: DEPARTMENT RESEARCH
Short Title: SEMINAR: DEPARTMENT RESEARCH
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Seminar
Credit Hour: 1
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Introduction to current research in the Earth Science department. Students will learn how to give a presentation and will get experience presenting their research. Graduate/Undergraduate Equivalency: EEPS 403. Repeatable for Credit.

EEPS 604 - SEMINAR: DEPARTMENT RESEARCH
Short Title: SEMINAR: DEPARTMENT RESEARCH
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Seminar
Credit Hour: 1
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Introduction to current research in the Earth Science department. Students will learn how to give a presentation and will get experience presenting their research. Graduate/Undergraduate Equivalency: EEPS 404. Repeatable for Credit.

EEPS 605 - SEMINAR: CURRENT RESEARCH IN EARTH SCIENCE
Short Title: SEM:CURR RESRCH EARTH SCIENCE
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Seminar
Credit Hour: 1
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: A series of lectures and paper discussions in various areas of Earth science. Graduate/Undergraduate Equivalency: EEPS 405. Repeatable for Credit.

EEPS 606 - SEMINAR: CURRENT RESEARCH IN EARTH SCIENCE
Short Title: SEM:CURR RESRCH EARTH SCIENCE
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Seminar
Credit Hour: 1
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: A series of lectures and paper discussions in various areas of Earth science. Graduate/Undergraduate Equivalency: EEPS 406. Repeatable for Credit.

EEPS 610 - OPTICAL MINERALOGY AND PETROGRAPHY
Short Title: OPTICAL MINERALOGY & PETROGRPH
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This is a lab course focused on the identification of minerals with petrographic microscopy. Principles of crystallography, mineral optics, and mineral chemistry will be covered in the first third of the course. The second third of the course will focus on the identification of minerals in igneous, metamorphic, and sedimentary rocks with emphasis on petrogenetic interpretation. The last third of the course will involve each student working on specific petrologic themes in the context of regional tectonics or magmatic processes. Taught every other Fall. Graduate/Undergraduate Equivalency: EEPS 410. Mutually Exclusive: Cannot register for EEPS 610 if student has credit for EEPS 410/ESCI 410/ESCI 610.
EEPS 611 - CHARACTERIZATION OF EARTH, ENVIRONMENTAL, AND PLANETARY MATERIALS
Short Title: MATERIALS CHARACTERIZATION
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course will provide an overview of various characterization methods used in geological, chemical, material science and other natural science and engineering research. The techniques that will be discussed include but not limited to electron beam methods (imaging and spectroscopy), X-ray methods, ion-beam analysis, vibrational spectroscopies, and Synchrotron-based techniques. Graduate/Undergraduate Equivalency: EEPS 411. Mutually Exclusive: Cannot register for EEPS 611 if student has credit for EEPS 411/ESCI 419/ESCI 619.

EEPS 612 - ADVANCED PETROLOGY
Short Title: ADVANCED PETROLOGY
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Evaluation of the evolution of igneous rocks in the Earth's crust and mantle. Topics will include phase equilibria, experimental studies, and geochemistry. Labs will stress thin section petrography. Graduate/Undergraduate Equivalency: EEPS 412. Repeatable for Credit.

EEPS 613 - ADVANCED PETROLOGY II
Short Title: ADVANCED PETROLOGY II
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course will bring together constraints from field geology, petrography, petrology, geochemistry, and geodynamics to tackle advanced A87 research questions of whole Earth processes that are relevant in the 21st century. The topics that may be covered include, but are not limited to, interplay between magmatic and tectonic processes, magma generation, migration, extraction, and dynamic stability in various settings, magmatic differentiation, volatiles and fluids exchange between various reservoirs and effects on long-term climate, ore genesis, and formation and modification of continents. Graduate/Undergraduate Equivalency: EEPS 413. Mutually Exclusive: Cannot register for EEPS 613 if student has credit for EEPS 413.

EEPS 615 - GEOCHEMISTRY OF EARTH'S SURFACE
Short Title: GEOCHEM EARTH'S SURFACE
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course will cover concepts in aqueous geochemistry in the context of chemical weathering and Earth's major biogeochemical cycles. Central to this course will be weekly student-led discussions of scientific literature. Students will also learn basic numerical modeling and data analysis techniques using MATLAB, field methods, and basic analytical chemistry. Graduate/Undergraduate Equivalency: EEPS 415. Mutually Exclusive: Cannot register for EEPS 615 if student has credit for EEPS 415/ESCI 407/ESCI 607.

EEPS 617 - TRACE-ELEMENT AND ISOTOPE GEOCHEMISTRY FOR EARTH AND ENVIRONMENTAL SCIENCE
Short Title: TRACE-ELEMENT& ISOTOPE GEOCHEM
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Introduction to the principles of trace-element and isotope geochemistry and their applications to high and low temperature processes in the earth. Topics to be covered are trace-element partitioning, basic quantum physics, radiogenic isotopic systems and stable isotope fractionation. Graduate/Undergraduate Equivalency: EEPS 417. Mutually Exclusive: Cannot register for EEPS 617 if student has credit for EEPS 417/ESCI 430/ESCI 630.

EEPS 618 - ISOTOPE GEOCHEMISTRY
Short Title: ISOTOPE GEOCHEMISTRY
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: An introduction to the principles and techniques of stable and radiogenic geochemistry in the geosciences. The course will begin by examining the fundamental physics relevant to isotope partitioning and decay, followed by a survey of different isotope systems and how they are used to study surface processes, element cycling, climate, and planetary science. Graduate/Undergraduate Equivalency: EEPS 418. Recommended Prerequisite(s): ESCI 322 or ESCI 322 Mutually Exclusive: Cannot register for EEPS 618 if student has credit for EEPS 418/ESCI 433/ESCI 633.
EEPS 620 - ORGANIC GEOCHEMISTRY
Short Title: ORGANIC GEOCHEMISTRY
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course covers the organic geochemistry of the natural environment. Topics include: production, transport, decomposition, and storage of organic matter in the marine and terrestrial environments, use of isotopes to track biogeochemical processes and natural and perturbed carbon cycle issues, including past and recent climate shifts. Graduate/Undergraduate Equivalency: EEPS 420. Mutually Exclusive: Cannot register for EEPS 620 if student has credit for EEPS 420/ESCI 425/ESCI 625.

EEPS 625 - PLANETARY SURFACE PROCESSES
Short Title: PLANETARY SURFACE PROCESSES
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course is designed to expand understanding of geologic processes by considering how common or distinctive different geologic processes are on Earth compared to other bodies throughout the solar system. Students will leave the course with an appreciation for the types of surface processes that dominate different bodies throughout the solar system. How does the surface of Earth compare to the surfaces of other bodies in our solar system? How can we best extrapolate our understanding of Earth to other bodies? What do we learn about Earth from such comparisons? Mutually Exclusive: Cannot register for EEPS 625 if student has credit for ESCI 425/ESCI 625.

EEPS 626 - GEOMORPHOLOGY
Short Title: GEOMORPHOLOGY
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course will investigate physical, chemical, and biological processes that contribute to the development and shaping of Earth's surface across a continuum of subaerial and subaqueous environments. Mandatory 4-day field trip is associated with this class. Graduate students will be assigned exercises more challenging than those assigned to undergraduate students. Graduate/Undergraduate Equivalency: EEPS 426. Mutually Exclusive: Cannot register for EEPS 626 if student has credit for EEPS 426/ESCI 431/ESCI 631. Repeatable for Credit.

EEPS 627 - MECHANICS OF SEDIMENT TRANSPORT
Short Title: MECHANICS-SEDIMENT TRANSPORT
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Evaluation of sedimentary transport dynamics: physical interaction between fluid flow and sediment mobility, from grain to bedform scale; exploration of environments including rivers, estuaries, deltas, coastlines, and deserts. Examination of sediment transport for geology, environmental, and engineering applications; formation of diagnostic sedimentary features recognized in the stratigraphic record. Graduate/Undergraduate Equivalency: EEPS 427. Mutually Exclusive: Cannot register for EEPS 627 if student has credit for EEPS 427/ESCI 435/ESCI 635.

EEPS 628 - ANTARCTIC MARINE GEOLOGY
Short Title: ANTARCTIC MARINE GEOLOGY
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: The study of marine geologic principles and processes using examples from the Southern Oceans. Graduate/Undergraduate Equivalency: EEPS 428. Mutually Exclusive: Cannot register for EEPS 628 if student has credit for EEPS 428/ESCI 423/ESCI 623.

EEPS 629 - PALEOCEANOGRAPHY
Short Title: PALEOCEANOGRAPHY
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: The evolution of the ocean, climate and the global carbon cycle over the last 100 million years as recorded by the biology, chemistry and composition of deep-sea sediment. Graduate/Undergraduate Equivalency: EEPS 429. Mutually Exclusive: Cannot register for EEPS 629 if student has credit for EEPS 429/ESCI 421/ESCI 621.

EEPS 630 - SEQUENCE STRATIGRAPHY
Short Title: SEQUENCE STRATIGRAPHY
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course will introduce students to the concepts of sequence stratigraphy and the power behind this correlation technique. The course is divided between classic sequence stratigraphy using cores, well-logs, and outcrop examples and seismic sequence stratigraphy. Graduate/Undergraduate Equivalency: EEPS 430. Mutually Exclusive: Cannot register for EEPS 630 if student has credit for EEPS 430/ESCI 427/ESCI 627.
EEPS 632 - QUANTITATIVE HYDROGEOLOGY
Short Title: QUANTITATIVE HYDROGEOLOGY
Department: Earth/Environment/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Advanced course that will provide a quantitative overview of groundwater hydrology. Emphasis will be placed on mastering concepts in fluid mechanics and applying these concepts to water supply, environmental, and geological problems. Graduate/Undergraduate Equivalency: EEPS 432. Mutually Exclusive: Cannot register for EEPS 632 if student has credit for EEPS 432/ESCI 418/ESCI 618.

EEPS 633 - CLIMATE DYNAMICS
Short Title: CLIMATE DYNAMICS
Department: Earth/Environment/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Earth's climate is a chaotic system, characterized by nonlinear interactions between the ocean, atmosphere, and land surfaces. This course will focus on the dynamics of the ocean and atmosphere, including the drivers of large-scale circulation, heat transport, and modes of natural variability. We will also explore projections of future climate change scenarios and records of historical climate change. Students will learn to post-process climate model output, analyze, and map these data using Python. Graduate/Undergraduate Equivalency: EEPS 433. Mutually Exclusive: Cannot register for EEPS 633 if student has credit for EEPS 433/ESCI 422/ESCI 622.

EEPS 634 - CLIMATE OF THE COMMON ERA
Short Title: CLIMATE OF THE COMMON ERA
Department: Earth/Environment/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course explores climate variability and change over the past two thousand years to contextualize current rates and magnitudes of anthropogenic climate change on Earth. This reading and discussion-focused seminar course will cover paleoclimate archives such as corals, tree rings, and ice cores, as well as climate reconstruction methods, detection and attribution. Students will be provided with an overview of methods and key findings in paleoclimatology and paleoceanography, using high-resolution archives to explore past changes in global climate. Students will read 3-4 scientific papers each week, provide summaries and volunteer to lead discussions surrounding topics of their choosing. Graduate/Undergraduate Equivalency: EEPS 434.

EEPS 635 - REMOTE SENSING
Short Title: REMOTE SENSING
Department: Earth/Environment/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Introduction to electromagnetic remote sensing of the Earth and other planets using passive and active methods. The course includes a computer lab component involving processing and interpretation of remote sensing imagery, and an individual project. Graduate/Undergraduate Equivalency: EEPS 435. Mutually Exclusive: Cannot register for EEPS 635 if student has credit for EEPS 435.

EEPS 636 - GIS FOR SCIENTISTS AND ENGINEERS
Short Title: GIS FOR SCIENTISTS
Department: Earth/Environment/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Basic principles of Geographic Information Systems, with a focus on effectively applying the technology to the geosciences. Main platform of the class will be ESRI's ArcGIS, but a wide array of other tools will also be introduced. Material will be delivered via a blend of lecture and hands-on exercises. Graduate/Undergraduate Equivalency: EEPS 436. Mutually Exclusive: Cannot register for EEPS 636 if student has credit for EEPS 436.

EEPS 645 - EARTH AND PLANETARY INTERIORS
Short Title: EARTH AND PLANETARY INTERIORS
Department: Earth/Environment/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate

EEPS 646 - SEISMOLOGY I
Short Title: SEISMOLOGY I
Department: Earth/Environment/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Principles of elastic wave propagation, the determination of Earth structure, and the understanding of earthquake physics. Graduate/Undergraduate Equivalency: EEPS 446. Mutually Exclusive: Cannot register for EEPS 646 if student has credit for EEPS 446/ESCI 461/ESCI 661.
EEPS 648 - EXPLORATION GEOPHYSICS
Short Title: EXPLORATION GEOPHYSICS
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course will introduce students to analysis of subregional structural and stratigraphic frameworks. We will utilize the interpretation of 2D seismic profiles to reconstruct basin history and discuss implications for petroleum systems. Students will gain an understanding of the diversity of structural and stratigraphic styles, as expressed on seismic data. Instructor Permission Required. Graduate/Undergraduate Equivalency: EEPS 458. Mutually Exclusive: Cannot register for EEPS 648 if student has credit for EEPS 458/ESCI 458/ESCI 658.

EEPS 650 - GEOPHYSICAL DATA ANALYSIS: DIGITAL SIGNAL PROCESSING
Short Title: GEOPHYSICAL DATA ANALYSIS
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate

EEPS 651 - GEOPHYSICAL DATA ANALYSIS: INVERSE METHODS
Short Title: GEOPHYSICAL DATA ANALYSIS
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Data sampling, aliasing, discrete Fourier transform, digital filter design techniques, z-transform, and discrete Hilbert transform are introduced. Deconvolution, velocity filters, polarization filter, stacking, beam forming and migration techniques will be taught together with their application in geophysical studies. Graduate/Undergraduate Equivalency: EEPS 450. Mutually Exclusive: Cannot register for EEPS 650 if student has credit for EEPS 450/ESCI 450/ESCI 640.

EEPS 654 - INTRODUCTION TO SEISMIC INTERPRETATION: STRUCTURAL STYLES AND SEISMIC STRATIGRAPHY
Short Title: 2D SEISMIC STRUCTURE AND STRAT
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): ESCI 642 or EEPS 648 (may be taken concurrently)
Description: This course will introduce students to the interpretation of 2D seismic profiles and stratigraphic frameworks. We will utilize the interpretation of 2D seismic profiles to reconstruct basin history and discuss implications for petroleum systems. Students will gain an understanding of the variety of structural and stratigraphic styles, as expressed on seismic data. Instructor Permission Required. Graduate/Undergraduate Equivalency: EEPS 454. Mutually Exclusive: Cannot register for EEPS 654 if student has credit for EEPS 454.

EEPS 658 - ENVIRONMENTAL & APPLIED ROCK PHYSICS
Short Title: APPLIED ROCK PHYSICS
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Rock physics, the study of the impact of rock microstructure, mineralogy, fluids, stress state, and diagenetic features on wave propagation in porous media. Understanding the use of such relationships for quantitative analysis of seismic datasets. Applications to geologic carbon storage, permafrost characterization, geothermal systems, and hydrogeology. Graduate/Undergraduate Equivalency: EEPS 458. Mutually Exclusive: Cannot register for EEPS 658 if student has credit for EEPS 458/ESCI 458/ESCI 665.

EEPS 659 - WELL LOGGING AND PETROPHYSICS
Short Title: WELL LOGGING AND PETROPHYSICS
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Basics of wireline logging and logging while drilling including borehole environment, resistivity, radiation, thermal, and elastic wave measurements and measuring tools. Building from this introduction, basic interpretation of logging data and formation evaluation will be studied. Graduate/Undergraduate Equivalency: EEPS 459.

EEPS 660 - GLOBAL TECTONICS
Short Title: GLOBAL TECTONICS
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Geometrical aspects of plate tectonics, the 3 traditional types of plate boundaries, instantaneous plate motions, earthquakes and faults, space geodesy, geomagnetic reversals, geomagnetic poles, hotspots, absolute plate motion, true polar wander, driving forces, diffuse plate boundaries, plate nonrigidity, and rheology of the lithosphere. Graduate/Undergraduate Equivalency: EEPS 460.

EEPS 661 - STRUCTURE AND EVOLUTION OF TECTONIC SYSTEMS
Short Title: TECTONIC SYSTEMS
Department: Earth/Environmnt/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: The distribution, origin, and evolution of various tectonic systems, and characterization of their structural and geophysical signatures, emphasizing crustal and lithospheric processes associated with tectonic deformation. Review of representative global examples of convergent and collisional margins, divergent and passive margins, and transform margins. Graduate/Undergraduate Equivalency: EEPS 461.

**Notes:**
- EEPS 465 has credit for EEPS 467.
- EEPS 464 has credit for EEPS 465.
- EEPS 469 has credit for EEPS 468.
- EEPS 467 has credit for EEPS 471.
EEPS 672 - EARTH SYSTEMS MODELING: NUMERICAL TECHNIQUES AND APPLICATIONS
Short Title: NUMERICAL METHODS EARTH SYSTEM
Department: Earth/Environment/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Introduction to numerical methods with applications in Earth Science using Matlab and COMSOL. Much of the class is spent in the computer lab learning Matlab and COMSOL, followed by hands-on exercises. Graduate/Undergraduate Equivalency: EEPS 472. Mutually Exclusive: Cannot register for EEPS 672 if student has credit for EEPS 472/ESCI 472/ESCI 672. Repeatable for Credit.

EEPS 677 - SPECIAL TOPICS
Short Title: SPECIAL TOPICS
Department: Earth/Environment/Planetary Sci
Grade Mode: Standard Letter
Course Type: Seminar, Independent Study, Internship/Practicum, Laboratory, Lecture, Lecture/Laboratory
Credit Hours: 1-4
Course Level: Graduate
Description: Topics and credit hours vary each semester. Contact department for current semester's topic(s). Repeatable for Credit.

EEPS 684 - DECISION MAKING AND ECONOMICS IN THE ENERGY INDUSTRY
Short Title: DECISION MAKING AND ECONOMICS
Department: Earth/Environment/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course will provide students with an understanding of how energy projects are evaluated. Topics include resource-size determination, geologic and economic risk, discounted cash-flow economics, and other common methods used in decision making. Emphasis will be placed on working in teams to understand basic concepts and sensitivities. Graduate/Undergraduate Equivalency: EEPS 484.

EEPS 686 - PETROLEUM INDUSTRY ECONOMICS AND MANAGEMENT
Short Title: PETROLEUM IND ECONOMICS MGMT
Department: Earth/Environment/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Topics covered include resource size determination; geologic risk analysis; establishing minimum economic thresholds; economic chance factors; the concepts of present worth, investment efficiency, rates of return. Price forecasting, cost inflation are discussed. Graduate/Undergraduate Equivalency: EEPS 486.

EEPS 688 - ECONOMIC GEOLOGY MINERAL DEPOSITS
Short Title: ECON GEOL MINERAL DEPOSITS
Department: Earth/Environment/Planetary Sci
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: An overview of metallic and nonmetallic mineral deposits, theories of their origin, and classification. The impact of government regulation, economics, production practices, and exploration will be considered. Graduate/Undergraduate Equivalency: EEPS 488.

EEPS 695 - GRAPHIC AND VISUAL DESIGN FOR SCIENTISTS
Short Title: VISUAL DESIGN FOR SCIENTISTS
Department: Earth/Environment/Planetary Sci
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Course Level: Graduate
Description: A significant portion of a scientists time is spent solving visual design problems (graphics for papers, visual layouts for seminars, posters, teaching). Effective communication of scientific information is part of a scientist's skill set. This class is designed to enhance that skill set in terms of presenting visual information clearly, simply, and effectively. Repeatable for Credit.

EEPS 699 - GRAPHIC AND VISUAL DESIGN FOR SCIENTISTS
Short Title: VISUAL DESIGN FOR SCIENTISTS
Department: Earth/Environment/Planetary Sci
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 1-4
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: A significant portion of a scientists time is spent solving visual design problems (graphics for papers, visual layouts for seminars, posters, teaching). Effective communication of scientific information is part of a scientist's skill set. This class is designed to enhance that skill set in terms of presenting visual information clearly, simply, and effectively. Graduate/Undergraduate Equivalency: EEPS 499. Repeatable for Credit.

EEPS 800 - THESIS RESEARCH
Short Title: THESIS RESEARCH
Department: Earth/Environment/Planetary Sci
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Research
Credit Hours: 1-15
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Thesis research. Recommended Prerequisite(s): Students must pass the preliminary exam before taking this course. Repeatable for Credit.

Requirements for the BA Degree with a Major in Earth, Environmental, and Planetary Sciences

For general university requirements, see Graduation Requirements (p. 29). Students pursuing the BA degree with a major in Earth, Environmental, and Planetary Sciences must complete:

- A minimum of 20 courses (60-63 credit hours, depending on course selection) to satisfy major requirements.
- A minimum of 120 credit hours to satisfy degree requirements.
- A minimum of 9 courses (31 credit hours) taken at the 300-level or above.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor, or where applicable, the department’s Director of Undergraduate Studies. (Course substitutions must be formally applied and entered into Degree Works by the major’s Official Certifier.) Students and their academic advisors should identify and clearly document the courses to be taken.

Bachelor of Arts (BA) Degree with a Major in Earth, Environmental, and Planetary Sciences

Program Learning Outcomes for the BA Degree with a Major in Earth, Environmental, and Planetary Sciences

Upon completing the BA degree with a major in Earth, Environmental, and Planetary Sciences, students will be able to:

1. Demonstrate comprehensive knowledge of how the Earth, and also terrestrial planetary systems, operate over geologic and modern timescales.
2. Demonstrate the ability to make and record observations in the field, and to analyze and interpret these data in the context of the geologic history.
3. Demonstrate effective oral and written communication skills.
4. Demonstrate the ability to apply critical thinking and problem-solving skills to evaluate published research in the Earth, Environmental and Planetary sciences.
Directed Electives in Natural Science and Engineering or above.

Sciences departmental (EEPS) course offerings at the 300-level

Select 4 courses from Earth, Environmental, and Planetary Sciences

Directed Electives in Earth, Environmental, and Planetary Sciences

Directed Electives in Fields Outside Earth, Environmental, and Planetary Sciences

Select 2 courses from the School of Natural Sciences or the School of Engineering course offerings at the 200-level or above.

Total Credit Hours Required for the Major in Earth, Environmental, and Planetary Sciences: 60-63

Additional Credit Hours to Complete Degree Requirements: 26-29

University Credit Hours Requirements (p. 29)

Total Credit Hours: 120

Elective Requirements

Directed Electives in Fields Outside Earth, Environmental, and Planetary Sciences

Select 2-4 courses from either Group A or Group B: 6-8

Group A

Select 1 from the following:

BIOS 201  INTRODUCTORY BIOLOGY I
& BIOS 202  and INTRODUCTORY BIOLOGY II

PHYS 101  MECHANICS (WITH LAB)
& PHYS 103  and MECHANICS DISCUSSION
& PHYS 102  and ELECTRICITY & MAGNETISM (WITH LAB)
& PHYS 104  and ELECTRICITY AND MAGNETISM DISCUSSION

PHYS 125  GENERAL PHYSICS (WITH LAB)
& PHYS 126  and GENERAL PHYSICS II (WITH LAB)

Group B

Select 2 from the following Option Categories:

Option Category - 1

PHYS 101  MECHANICS (WITH LAB)
& PHYS 103  and MECHANICS DISCUSSION

PHYS 125  GENERAL PHYSICS (WITH LAB)

PHYS 102  ELECTRICITY & MAGNETISM (WITH LAB)
& PHYS 104  and ELECTRICITY AND MAGNETISM DISCUSSION

PHYS 126  GENERAL PHYSICS II (WITH LAB)

Option Category - 2

BIOS 211  INTERMEDIATE EXPERIMENTAL BIO SCIENCES
& BIOS 213  and INTRODUCTORY LAB IN ECOLOGY & EVOLUTION

Option Category - 3

MATH 211  ORDINARY DIFFERENTIAL EQUATIONS
AND LINEAR ALGEBRA

Option Category - 4

Directed Electives in Earth, Environmental, and Planetary Sciences

EEPS 220  INTRODUCTION TO COMPUTATION IN THE EARTH, ENVIRONMENT AND PLANETARY SCIENCES
or CAAM 210  INTRODUCTION TO ENGINEERING COMPUTATION

Select 4 courses from Earth, Environmental, and Planetary Sciences departmental (EEPS) course offerings at the 300-level or above. 12

Directed Electives in Natural Science and Engineering

Footnotes and Additional Information

* Note: University Graduation Requirements include 31 credit hours, comprised of Distribution Requirements (Groups I, II, and III), FWIS, and LPAP coursework. In some instances, courses satisfying major requirements may additionally meet distribution requirements. Additional Credit Hours to Complete Degree Requirements include general electives, coursework completed as upper-level, residency (hours taken at Rice), and/or any other additional academic program requirements.

1 CHEM 121 or CHEM 111 can be satisfied by completing CHEM 151; CHEM 123 or CHEM 113 can be satisfied by completing CHEM 153; CHEM 122 or CHEM 112 can be satisfied by completing CHEM 152; CHEM 124 or CHEM 114 can be satisfied by completing CHEM 154.

2 Students may select any course from Earth, Environmental, and Planetary Sciences departmental (EEPS) course offerings between course numbers EEPS 300:399, EEPS 407:476, EEPS 495:499 to fulfill the 4 courses (minimum of 12 credit hours) from departmental (EEPS) course offerings.

3 Courses must be approved by the department undergraduate advisor. Courses from the School of Natural Sciences or the School of Engineering include the following subject codes: ASTR, BIOS, BIOE, CAAM, CEVE, CHBE, CHEM, COMP, DSCI, EEPS, ELEC, ENGI, ENST, GLHT, HEAL, KINE, MATH, MECH, MSNE, NEUR, NSCI, PHYS, STAT.

Policies for the BA Degree with a Major in Earth, Environmental, and Planetary Sciences

Program Restrictions and Exclusions

Students pursuing the BA Degree with a Major in Earth, Environmental, and Planetary Sciences should be aware of the following program restrictions:

- As noted in Majors, Minors, and Certificates (p. 17), under Declaring Majors, Minors and Certificates, students may not obtain both a BA and a BS in the same major. Students pursuing the BA Degree with a Major in Earth, Environmental, and Planetary Sciences may not additionally pursue the BS Degree with a Major in Earth, Environmental, and Planetary Sciences.

- As noted in Majors, Minors, and Certificates (p. 17), students may not major and minor in the same subject.

Transfer Credit

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 37). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their
academic program's transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines
Students pursuing the major in Earth, Environmental, and Planetary Sciences should be aware of the following departmental transfer credit guidelines:

• Requests for transfer credit will be considered by the program director (and/or the program's official transfer credit advisor) on an individual case-by-case basis.

Additional Information
For additional information, please see the Earth Environmental, and Planetary Sciences major page, on the Department of Earth, Environmental, and Planetary Sciences website: https://earthscience.rice.edu/academics/undergraduate-program/

Opportunities for the BA Degree with a Major in Earth, Environmental, and Planetary Sciences

Academic Honors
The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 51) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 51). Some departments have department-specific Honors awards or designations.

Undergraduate Independent Research
The department encourages, but does not require, Earth, Environmental, and Planetary Sciences undergraduate majors to pursue independent supervised research in EEPS 481. This can also be carried out as part of the Earth, Environmental, and Planetary Sciences Honors Thesis Program (described below), or independently with a faculty mentor. Undergraduates enrolled in the Honors Research program automatically will be eligible for consideration for Distinction in Research and Creative Work. Other students who wish to be considered for this honor within the EEPS majors should discuss with an EEPS major advisor at the beginning of their senior year.

Honors Research
Undergraduates are encouraged to embark on an undergraduate honors thesis. The purpose of the honors thesis is for students to develop and demonstrate their creative and independent research potential. Students are recommended to begin in the fall of their junior year to provide ample time for research projects to be developed, executed and written. Students are expected to enroll in at least two semesters of the course EEPS 481, spanning their senior year. Juniors who have identified a research project and mentor can also enroll in EEPS 481. Students should sign up for EEPS 481 for 3 credits.

Criteria for Participating in Undergraduate Honors Thesis Research
• Strong performance in ESCI courses, in particular, EEPS 321, EEPS 322, EEPS 323, EEPS 324, and EEPS 334
• Letter of recommendation of a faculty research mentor
• Brief research proposal

Requirements and Recommendations for Completing an Undergraduate Honors Thesis

Spring Semester of Junior Year
Students are encouraged to choose their honors thesis research topic during their junior year. Each candidate should identify a faculty research advisor, and initiate independent research. The student should select a thesis committee, consisting of a faculty advisor, one member of the honors thesis committee, and one other faculty member of their choosing. By the end of their spring semester, candidates are expected to turn in a preliminary written proposal (2 pages), accompanied by a formal application, both of which will be evaluated by the honors thesis committee for consideration of acceptance into the honors thesis program in their senior year. Recommended courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>EEPS 401</td>
<td>SEMINAR: UNDERGRADUATE HONORS THESIS</td>
<td>1</td>
</tr>
</tbody>
</table>

If they have already identified a research project by the beginning of the semester, they may also take:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>EEPS 481</td>
<td>UNDERGRADUATE RESEARCH IN EARTH SCIENCE</td>
<td>1-6</td>
</tr>
</tbody>
</table>

Fall Semester of Senior Year
Students accepted into the honors thesis program continue to develop and refine their proposed research in concert with their research advisor and thesis committee. Students participate in meetings with other honors thesis candidates to discuss basic research protocols and philosophies, and meet independently with their chosen scientific advisor, and generate data, experiments or models. Students will give oral presentations of their research proposals in public by mid-semester, in the presence of their examining committee. At the end of the semester, students must submit final versions of their proposals, describing motivation, hypothesis, methodology, and preliminary results. The honors thesis committee will evaluate the proposals, and if approved, students can continue in the honors thesis program. Required courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>EEPS 401</td>
<td>SEMINAR: UNDERGRADUATE HONORS THESIS</td>

</tr>
</thead>
<tbody>
<tr>
<td>EEPS 481</td>
<td>UNDERGRADUATE RESEARCH IN EARTH SCIENCE</td>
<td>1-6</td>
</tr>
</tbody>
</table>

Spring Semester of Senior Year
Students continue and complete their research. A mid-semester progress report must be submitted to the thesis committee for feedback. At the end of the spring semester, students submit their final theses, and give public oral exit talks. To complete the honors thesis program, student theses must be approved by the honors thesis committee. Required courses:

<table>

Requirements for the BS Degree with a Major in Earth, Environmental, and Planetary Sciences

For general university requirements, see Graduation Requirements (p. 29). Students pursuing the BS degree with a major in Earth, Environmental, and Planetary Sciences must complete:

- A minimum of 22-24 courses (68-71 credit hours), depending on course selection, to satisfy major requirements.
- A minimum of 120 credit hours to satisfy degree requirements.
- A minimum of 10-12 courses (30-36 credit hours), depending on course selection, taken at the 300-level or above.
- The requirements for one area of specialization (see below for areas of specialization). The BS degree with a major in Earth, Environmental, and Planetary Sciences offers three areas of specialization:
  - Environmental Earth Science (p. 825), or
  - Geoscience (p. 825), or
  - Planetary Science (p. 826).

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor, or where applicable, the department’s Director of Undergraduate Studies. (Course substitutions must be formally applied and entered into Degree Works by the major’s Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/).) Students and their academic advisors should identify and clearly document the courses to be taken.

Areas of Specialization

To fulfill the remaining Earth, Environmental, and Planetary Sciences major requirements, students must complete one of the following areas of specialization. Students are encouraged to discuss course selection with their academic advisor. Course lists to satisfy requirements are listed below the areas of specialization.

Area of Specialization: Environmental Earth Science
To fulfill the remaining Earth, Environmental, and Planetary Sciences major requirements, students pursuing the Environmental Earth Science area of specialization must complete a minimum of 7 courses (21-23 credit hours, depending on course selection) as listed below.

Footnotes and Additional Information

* Note: University Graduation Requirements include 31 credit hours, comprised of Distribution Requirements (Groups I, II, and III), FWIS, and LPAP coursework. In some instances, courses satisfying major requirements may additionally meet distribution requirements. Additional Credit Hours to Complete Degree Requirements include general electives, coursework completed as upper-level, residency (hours taken at Rice), and/or any other additional academic program requirements.

1 CHEM 121 or CHEM 111 can be satisfied by completing CHEM 151; CHEM 123 or CHEM 113 can be satisfied by completing CHEM 153; CHEM 122 or CHEM 112 can be satisfied by completing CHEM 152; CHEM 124 or CHEM 114 can be satisfied by completing CHEM 154.
Bachelor of Science (BS) Degree with a Major in Earth, Environmental, and Planetary Sciences

Geophysics

Petroleum, Geochemistry, and Materials Characterization

Surface Processes

Elective Requirements

Select a minimum of 2 courses from the following:

Any course from Earth, Environmental, and Planetary Sciences departmental (EEPS) course offerings between course numbers EEPS 407:480, EEPS 482:490, EEPS 492:499

BIOS 201 INTRODUCTORY BIOLOGY I

BIOS 202 INTRODUCTORY BIOLOGY II

BIOS 211 INTERMEDIATE EXPERIMENTAL BIOSCIENCES

CHEM 211 ORGANIC CHEMISTRY I & CHEM 213 ORGANIC CHEMISTRY DISCUSSION

CHEM 212 ORGANIC CHEMISTRY II & CHEM 214 ORGANIC CHEM DISCUSSION II

EEPS 390 GEOLOGY FIELD CAMP

or EEPS 391 EARTH SCIENCE FIELD EXPERIENCE

MATH 212 MULTIVARIABLE CALCULUS

PHYS 201 WAVES, LIGHT, AND HEAT

Any course at the 300-level (or above) from the following subject codes: ASTR, CAAM, CHEM, MATH, MECH, PHYS, or STAT

Total Credit Hours 21-23

Footnotes and Additional Information

1 Students following the Geoscience area of specialization must complete EEPS 445 in addition to 1 course (minimum of 3 credit hours) from the Geophysics field. See course lists below.

Area of Specialization: Planetary Science

To fulfill the remaining Earth, Environmental, and Planetary Sciences major requirements, students pursuing the Planetary Science area of specialization must complete a minimum of 7 courses (21-23 credit hours, depending on course selection) as listed below.

Code Title Credit Hours

Area of Specialization: Planetary Science

Select at least 1 course from each of the following 5 fields (see course lists below):

Deformation and Dynamics
Modeling and Computation
Petroleum, Geochemistry, and Materials Characterization
Solar System Workings
Surface Processes

Elective Requirements

Select a minimum of 2 courses from the following:

Any course from Earth, Environmental, and Planetary Sciences departmental (EEPS) course offerings between course numbers EEPS 407:480, EEPS 482:490, EEPS 492:499

EEPS 390 GEOLOGY FIELD CAMP

or EEPS 391 EARTH SCIENCE FIELD EXPERIENCE

MATH 212 MULTIVARIABLE CALCULUS

Total Credit Hours 21-23

Footnotes and Additional Information

1 Students following the Geoscience area of specialization must complete EEPS 445 in addition to 1 course (minimum of 3 credit hours) from the Geophysics field.

Policies for the BS Degree with a Major in Earth, Environmental, and Planetary Sciences

Program Restrictions and Exclusions

Students pursuing the BS Degree with a Major in Earth, Environmental, and Planetary Sciences should be aware of the following program restrictions:

- As noted in Majors, Minors, and Certificates (p. 17), under Declaring Majors, Minors and Certificates, students may not obtain both a BA and a BS in the same major. Students pursuing the BS Degree with a Major in Earth, Environmental, and Planetary Sciences may not additionally pursue the BA Degree with a Major in Earth, Environmental, and Planetary Sciences.

- As noted in Majors, Minors, and Certificates (p. 17), students may not major and minor in the same subject.

Transfer Credit

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 37). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines

Students pursuing the major in Earth, Environmental, and Planetary Sciences should be aware of the following departmental transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

Additional Information

For additional information, please see the Earth Environmental, and Planetary Sciences major page, on the Department of Earth, Environmental, and Planetary Sciences website: https://earthscience.rice.edu/academics/undergraduate-program/
Opportunities for the BS Degree with a Major in Earth, Environmental, and Planetary Sciences

Academic Honors

The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 51) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 51). Some departments have department-specific Honors awards or designations.

Undergraduate Independent Research

The department encourages, but does not require, Earth, Environmental, and Planetary Sciences undergraduate majors to pursue independent supervised research in EEPS 481. This can also be carried out as part of the Earth, Environmental, and Planetary Sciences Honors Thesis Program (described below), or independently with a faculty mentor. Undergraduates enrolled in the Honors Research program automatically will be eligible for consideration for Distinction in Research and Creative Work. Other students who wish to be considered for this honor within the EEPS majors should discuss with an EEPS major advisor at the beginning of their senior year.

Honors Research

Undergraduates are encouraged to embark on an undergraduate honors thesis. The purpose of the honors thesis is for students to develop and demonstrate their creative and independent research potential. Students are recommended to begin in the fall of their junior year to provide ample time for research projects to be developed, executed and written. Students are expected to enroll in at least two semesters of the course EEPS 481, spanning their senior year. Juniors who have identified a research project and mentor can also enroll in EEPS 481. Students should sign up for EEPS 481 for 3 credits.

Criteria for Participating in Undergraduate Honors Thesis Research

- Strong performance in ESCI courses, in particular, EEPS 321, EEPS 322, EEPS 323, EEPS 324, and EEPS 334
- Letter of recommendation of a faculty research mentor
- Brief research proposal

Requirements and Recommendations for Completing an Undergraduate Honors Thesis

Spring Semester of Junior Year

Students are encouraged to choose their honors thesis research topic during their junior year. Each candidate should identify a faculty research advisor, and initiate independent research. The student should select a thesis committee, consisting of a faculty advisor, one member of the honors thesis committee, and one other faculty member of their choosing. By the end of their spring semester, candidates are expected to turn in a preliminary written proposal (2 pages), accompanied by a formal application, both of which will be evaluated by the honors thesis committee for consideration of acceptance into the honors thesis program in their senior year. Recommended courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>EEPS 401</td>
<td>SEMINAR: UNDERGRADUATE HONORS THESS</td>
<td>1</td>
</tr>
</tbody>
</table>

If they have already identified a research project by the beginning of the semester, they may also take:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>EEPS 481</td>
<td>UNDERGRADUATE RESEARCH IN EARTH SCIENCE</td>
<td>1-6</td>
</tr>
</tbody>
</table>

Fall Semester of Senior Year

Students accepted into the honors thesis program continue to develop and refine their proposed research in concert with their research advisor and thesis committee. Students participate in meetings with other honors thesis candidates to discuss basic research protocols and philosophies, and meet independently with their chosen scientific advisor, and generate data, experiments or models. Students will give oral presentations of their research proposals in public by mid-semester, in the presence of their examining committee. At the end of the semester, students must submit final versions of their proposals, describing motivation, hypothesis, methodology, and preliminary results. The honors thesis committee will evaluate the proposals, and if approved, students can continue in the honors thesis program. Required courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>EEPS 401</td>
<td>SEMINAR: UNDERGRADUATE HONORS THESIS</td>
<td>1</td>
</tr>
<tr>
<td>EEPS 481</td>
<td>UNDERGRADUATE RESEARCH IN EARTH SCIENCE</td>
<td>1-6</td>
</tr>
</tbody>
</table>

Spring Semester of Senior Year

Students continue and complete their research. A mid-semester progress report must be submitted to the thesis committee for feedback. At the end of the spring semester, students submit their final theses, and give public oral exit talks. To complete the honors thesis program, student theses must be approved by the honors thesis committee. Required courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>EEPS 401</td>
<td>SEMINAR: UNDERGRADUATE HONORS THESIS</td>
<td>1</td>
</tr>
<tr>
<td>EEPS 481</td>
<td>UNDERGRADUATE RESEARCH IN EARTH SCIENCE</td>
<td>1-6</td>
</tr>
</tbody>
</table>

Further details about the program, and expectations and criteria for the thesis proposal and final thesis can be found on the Department of Earth, Environmental, and Planetary Sciences website (https://earthscience.rice.edu/academics/undergraduate-program/honors-thesis/).

Application Process

Students must apply and be accepted to participate in the senior honors research program. The application form can be downloaded from Department of Earth, Environmental, and Planetary Sciences website (https://earthscience.rice.edu/academics/undergraduate-program/honors-thesis/), and should be submitted along with an approximately two page thesis proposal at the end of the spring semester of the junior year.

Other Points of Consideration

Students who are accepted into the ‘RUSP: Rice Undergraduate Scholars Program’ can substitute EEPS 481 courses for semesters 2 and 3 with...
HONS 470 and HONS 471. However, the students will have to meet all other requirements of the honors thesis set by the department.

Additional Information
For additional information, please see the Earth, Environmental, and Planetary Sciences major page, on the Department of Earth, Environmental, and Planetary Sciences website: [https://earthscience.rice.edu/academics/undergraduate-program/](https://earthscience.rice.edu/academics/undergraduate-program/)

Doctor of Philosophy (PhD) Degree in the field of Earth Science

Program Learning Outcomes for the PhD Degree in the field of Earth Science

Upon completing the PhD degree in the field of Earth Science, students will be able to:

1. Understand the structure and composition of the Earth and Planets, their evolution, and how the Earth changes over time.
2. Use appropriate computational or analytical techniques in the conduct of research investigations.
3. Demonstrate significant skills in scientific communication, written and oral.
4. Demonstrate peer-reviewed literature, and to write and publish a substantial contribution.

Requirements for the PhD Degree in the field of Earth Science

For general university requirements, please see Doctoral Degrees (p. 72). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 60).

All incoming students should have a strong background in physics, chemistry, and mathematics and should have, or should acquire, a broad grounding in fundamental earth science. The department encourages applications from well-qualified students with degrees in the other sciences, mathematics, or engineering. The requirements for the MS and PhD Degrees in earth science are similar, but the PhD demands a significantly higher level of knowledge, research skills, and scholarly independence. Most students need at least two years beyond the bachelor’s degree to complete the MS or four years beyond the bachelor’s degree to complete the PhD.

Candidates determine, with their major professor and thesis committee, a course of study following the [Guidelines for Advanced Degrees in the Department of Earth Science](https://gradhandbooks.rice.edu/2021_22/EEPS_Graduate_Handbook.pdf) handbook, distributed to all incoming students. Students pursuing the MS and PhD degrees in the field of Earth Science must:

- Complete 20 semester hours of coursework at the 500-level or above (or other approved courses), not including research hours
- Pass a written preliminary exam
- Maintain a grade point average of 3.00 (B) or better
- Prepare a written thesis comprised of peer-reviewed publication(s) that represent an original contribution to science
- Defend the research and conclusions of the thesis in an oral examination

Students with a bachelor’s degree and department approval may work directly toward the PhD, in which case the course of study is equivalent to that required for both degrees; performance on the examinations and the thesis, however, should be at the level required for the PhD. Because the graduate programs require full-time study and close interaction with faculty and fellow students, the department discourages students from holding full-time (or nearly full-time) jobs outside the university. Outside employment must be approved by the chair.

For additional information, please see the Earth, Environmental, and Planetary Science website: [https://earthscience.rice.edu/](https://earthscience.rice.edu/)
Master of Science (MS) Degree in the field of Earth Science

Program Learning Outcomes for the MS Degree in the field of Earth Science

Upon completing the MS degree in the field of Earth Science, students will be able to:

1. Understand the structure and composition of the Earth and Planets, their evolution, and how the Earth changes over time.
2. Use appropriate computational or analytical techniques in the conduct of research investigations.
3. Demonstrate significant skills in scientific communication, written and oral.
4. Develop the ability to contribute to the peer-reviewed literature.

Requirements for the MS Degree in the field of Earth Science

The MS degree is a thesis master's degree. For general university requirements, please see Thesis Master's Degrees (p. 75). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 60). All incoming students should have a strong background in physics, chemistry, and mathematics and should have, or should acquire, a broad grounding in fundamental earth science. The department encourages applications from well-qualified students with degrees in the other sciences, mathematics, or engineering. The requirements for the MS and PhD in earth science are similar, but the PhD demands a significantly higher level of knowledge, research skills, and scholarly independence. Most students need at least 2 years beyond the bachelor's degree to complete the MS or 4 years beyond the bachelor's degree to complete the PhD.

Candidates determine, with their major professor and thesis committee, a course of study following the Guidelines for Advanced Degrees in the Department of Earth Science handbook, distributed to all incoming students. For both degrees, candidates must:

- Complete a minimum of 30 credit hours of graduate-level study (graduate semester credit hours, coursework at the 500-level or above) to satisfy degree requirements.
- Complete 20 semester hours of coursework at the 500-level or above (or other approved courses), not including research hours
- Pass a written preliminary exam
- Maintain a grade point average of 3.00 (B) or better
- Prepare a written thesis comprised of peer-reviewed publication(s) that represent an original contribution to science
- Defend the research and conclusions of the thesis in an oral examination

Minor in Earth, Environmental, and Planetary Sciences

Program Learning Outcomes for the Minor in Earth, Environmental, and Planetary Sciences

Upon completing the minor in Earth, Environmental, and Planetary Sciences, students will be able to:

1. Demonstrate a comprehensive knowledge of the structure of the earth from core to atmosphere, and how it has changed over time.
2. Acquire and demonstrate knowledge in a number of advanced earth, environmental, and planetary topics of their choosing.

Requirements for the Minor in Earth, Environmental, and Planetary Sciences

Students pursuing the minor in Earth, Environmental, and Planetary Sciences must complete:

- A minimum of 6 courses (19-24 credit hours, depending on course selection), to satisfy minor requirements.
A minimum of 5 courses (15 credit hours) taken at the 300-level or above.
A minimum of 3 courses (9 credit hours) to satisfy the Core Requirements.
A minimum of 3 courses (9 credit hours) to satisfy the Elective Requirements.
A maximum of 1 course (3 credit hours) from study abroad or transfer credit. No courses for study abroad or other transfer credit will be accepted for upper-level coursework (taken at the 300-level or above).

For additional departmental guidelines regarding transfer credit, see the Policies (p. 831) tab.

The courses listed below satisfy the requirements for this minor. In certain instances, courses not on this official list may be substituted upon approval of the minor’s academic advisor, or where applicable, the Program Director. (Course substitutions must be formally applied and entered into Degree Works by the minor’s Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/)). Students and their academic advisors should identify and clearly document the courses to be taken.

Footnotes and Additional Information

1. Courses not used to fulfill Core Requirements may be used to meet Elective Requirements. A minimum of 5 courses (15 credit hours) must be taken at the 300-level or above.

Policies for the Minor in Earth, Environmental, and Planetary Sciences

Program Restrictions and Exclusions

Students pursuing the minor in Earth, Environmental, and Planetary Sciences should be aware of the following program restrictions:

- As noted in Majors, Minors, and Certificates (p. 17), i.) students may declare their intent to pursue a minor only after they have first declared a major, and ii.) students may not major and minor in the same subject.

Transfer Credit

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 37). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines

Students pursuing the minor in Earth, Environmental, and Planetary Sciences should be aware of the following departmental transfer credit guidelines:

- Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.
- Requests for transfer credit will be considered by the program director (and/or the program's official transfer credit advisor) on an individual case-by-case basis.

Additional Information

For additional information, please see the Earth, Environmental, and Planetary Sciences website: https://earthscience.rice.edu/

Opportunities for the Minor in Earth, Environmental, and Planetary Sciences

Academic Honors

The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (p. 51) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 51). Some departments have department-specific Honors awards or designations.

Additional Information

For additional information, please see the Earth, Environmental, and Planetary Sciences website: https://earthscience.rice.edu/

Economics

Contact Information

Economics
Students will learn the basic principles of microeconomics, macroeconomics, and econometrics, and how to apply those principles in studying economic phenomena and analyzing public policy issues.

Undergraduates may major in one of the following: economics, mathematical economic analysis, or managerial economics and organizational sciences. The major in mathematical economic analysis is a mathematically-intensive course of study recommended for students who intend to pursue graduate work in economics or a business or governmental job in which extensive analytical and quantitative skills are required. The major in managerial economics and organizational sciences exposes students to the broader contexts of business and management, via required courses in economics, political science, and psychology.

Master of Energy Economics (MEEcon) students will be able to produce insightful analyses of energy markets to inform such things as capital asset decisions, firm strategic direction, and future market orientation.

The PhD program in economics equips students with the theoretical and empirical skills essential to entering research careers in academia, business, and government.

Bachelor’s Programs

- Bachelor of Arts (BA) Degree with a Major in Economics (p. 850)
- Bachelor of Arts (BA) Degree with a Major in Managerial Economics and Organizational Sciences (p. 1342)
- Bachelor of Arts (BA) Degree with a Major in Mathematical Economic Analysis (p. 1385)

Minor

- Minor in Financial Computation and Modeling (p. 1030)

Master’s Programs

- Master of Energy Economics (MEEcon) Degree (p. 941)
- Master of Arts (MA) Degree in the field of Economics∗

Doctoral Programs

- Doctor of Philosophy (PhD) Degree in the field of Economics
- and a Major Concentration in Econometrics and Quantitative Economics (p. 853)†
- and a Major Concentration in Economics and Finance (p. 855)

* Although students are not normally admitted to a Master of Arts (MA) degree program, graduate students may earn the MA as they work towards the PhD.
† Students are normally admitted directly into the PhD degree in the field of Economics and a Major Concentration in Econometrics and Quantitative Economics.

Chair

George Zodrow

Professors

Kerry E. Back
Richard Thomas Boylan
Bryan W. Brown
James N. Brown
Flávio Cunha
Mahmoud A. El-Gamal
Hülya Eraslan
Jeremy Fox
Peter Reginald Hartley
Vivian Ho
Ted Loch-Temzelides
Isabelle Perrigne
Xun Tang

Economics (ECON)

ECON 100 - PRINCIPLES OF ECONOMICS
Short Title: PRINCIPLES OF ECONOMICS
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Introduction to the basic concepts of microeconomics and macroeconomics. Microeconomics component includes analysis of supply and demand, consumer and producer behavior, and competitive and noncompetitive market equilibria, with applications to current policy issues. Macroeconomics component provides an overview of the determination of national output, employment, interest rates, and inflation, and analyzes monetary fiscal policies and international trade. Designed for both non-majors and majors.

ECON 101 - INTRODUCTION TO MICROECONOMICS
Short Title: INTRODUCTION TO MICROECONOMICS
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Introduction to microeconomic analysis at a level suitable for non-majors. Applies only for transfer credit and requires departmental approval. Approved credit counts toward total credit hours required for graduation and for distribution, but does not count toward the ECON or MTEC majors. Mutually Exclusive: Cannot register for ECON 101 if student has credit for ECON 112/ECON 113. Student has credit for ECON 112/ECON 113. Mutually Exclusive: Cannot register for ECON 103 if student has credit for ECON 103 or MTEC majors. Mutually Exclusive: Cannot register for ECON 103 if student has credit for ECON 101. Student has credit for ECON 101. Mutually Exclusive: Cannot register for ECON 111 if student has credit for ECON 111.

ECON 103 - INTRODUCTION TO MACROECONOMICS
Short Title: INTRODUCTION TO MACROECONOMICS
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Introduction to macroeconomic analysis at a level suitable for non-majors. Applies only for transfer credit and requires departmental approval. Approved credit counts toward total credit hours required for graduation and for distribution, but does not count toward the ECON or MTEC majors. Mutually Exclusive: Cannot register for ECON 101 if student has credit for ECON 112/ECON 113. Student has credit for ECON 112/ECON 113. Mutually Exclusive: Cannot register for ECON 103 if student has credit for ECON 103 or MTEC majors. Mutually Exclusive: Cannot register for ECON 103 if student has credit for ECON 101. Student has credit for ECON 101. Mutually Exclusive: Cannot register for ECON 111 if student has credit for ECON 111.
ECON 200 - MICROECONOMICS
Short Title: MICROECONOMICS
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Distribution Group: Distribution Group II
Credit Hours: 4
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Prerequisite(s): ECON 100 and (MATH 102 (may be taken concurrently) or MATH 106)
Description: Intermediate level analysis of theories of household behavior, including demand for consumer goods, labor supply, and savings/investment decisions, and producer behavior including the supply of output and demands for labor, capital and other production inputs. Emphasizes individual and interactive decision making under resource constraints and discusses equilibria in competitive markets. MATH 102 may be taken concurrently with ECON 200. As much of the analysis in ECON 200 involves partial differentiation, MATH 212 is strongly recommended. Recommended Prerequisite(s): MATH 212 Mutually Exclusive: Cannot register for ECON 200 if student has credit for ECON 301.

ECON 203 - MACROECONOMICS
Short Title: MACROECONOMICS
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Prerequisite(s): ECON 100
Description: Intermediate level analysis of theories of the national economy including output, inflation, interest rates, employment, the business cycle, monetary and fiscal policy, and more generally the role of government in influencing aggregate economic performance. Introduces both the traditional aggregate-only approach to Macroeconomics and the more recent New Classical and New Keynesian micro-foundations approaches. Mutually Exclusive: Cannot register for ECON 203 if student has credit for ECON 303.

ECON 205 - INTRODUCTION TO GAME THEORY
Short Title: INTRODUCTION TO GAME THEORY
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: This course provides an introduction to game theory, a branch of mathematics that studies decision-making by agents in situations where the outcome for each depends on the actions taken by all. Students will develop a familiarity with analytical tools that have found applications in, for example, economics and other social sciences, biology, computer science, and philosophy. Designed for students who do not wish to major in ECON or MTEC and does not apply to ECON or MTEC major requirements. Mutually Exclusive: Cannot register for ECON 205 if student has credit for ECON 300.

ECON 209 - APPLIED ECONOMETRICS
Short Title: APPLIED ECONOMETRICS
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Distribution Group: Distribution Group II
Credit Hours: 4
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Prerequisite(s): (ECON 100 or ECON 200) and (ECON 307 or STAT 310 or STAT 315 or DSCI 301)
Description: Applied econometric methods: econometric theory with practical emphasis on modeling, estimation, and hypothesis testing. A computer lab one day a week focuses on empirical implementation of econometric methods using STATA software. Mutually Exclusive: Cannot register for ECON 209 if student has credit for ECON 309/ECON 446.

ECON 210 - BEHAVIORAL ECONOMICS
Short Title: BEHAVIORAL ECONOMICS
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Prerequisite(s): ECON 100 or ECON 200
Description: Examines behavioral economics, which seeks to insert more behavioral realism into economic theory by incorporating into economic models insights based on empirical observations from psychology, sociology, and neuroscience. Emphasizes attempts by behavioral economists to explain anomalies that depart from the predictions of standard economic theory. Topics include temptation and self-control, fairness and reciprocity, reference dependence, bounded rationality and choice under risk and uncertainty.

ECON 238 - SPECIAL TOPICS
Short Title: SPECIAL TOPICS
Department: Economics
Grade Mode: Standard Letter
Course Type: Internship/Practicum, Laboratory, Lecture, Lecture/Laboratory, Seminar, Independent Study
Credit Hours: 1-4
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Topics and credit hours vary each semester. Contact department for current semester's topic(s). Repeatable for Credit.
ECON 239 - LAW AND ECONOMICS
Short Title: LAW AND ECONOMICS
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Prerequisite(s): ECON 100 or ECON 200
Description: Exploration of the law using economic tools based on microeconomic theory. Focuses on legal issues most applicable to business. Mutually Exclusive: Cannot register for ECON 239 if student has credit for ECON 438.

ECON 260 - MICROECONOMICS AND PUBLIC POLICY
Short Title: MICROECONOMICS & PUBLIC POLICY
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Prerequisite(s): ECON 100 or ECON 200
Description: Applies insights learned from the microeconomic component of ECON 100 to the analysis of public policy issues, stressing economic intuition rather than mathematical formulations. Designed for students who do not wish to major in ECON or MTEC, and does not apply toward ECON or MTEC major requirements.

ECON 270 - MACROECONOMICS AND PUBLIC POLICY
Short Title: MACROECONOMICS & PUBLIC POLICY
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Prerequisite(s): ECON 100 or ECON 200
Description: Applies insights learned from the macroeconomic component of ECON 100 to the analysis of public policy issues, stressing economic intuition rather than mathematical formulations. Designed for students who do not wish to major in ECON or MTEC, and does not apply toward ECON or MTEC major requirements.

ECON 275 - INTERNATIONAL MACROECONOMICS AND PUBLIC POLICY
Short Title: INT MACRO & PUBLIC POLICY
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Prerequisite(s): ECON 100 or ECON 200
Description: Applies insights learned from the macroeconomic component of ECON 100 to the analysis of issues related to international public policy, stressing economic intuition rather than mathematical formulations. Designed for students who do not wish to major in ECON or MTEC, and does not apply toward ECON or MTEC major requirements.

ECON 280 - TRANSPORTATION, INFRASTRUCTURE AND LOGISTICS
Short Title: TRANSPORT, INFRASTRU & LOGISTS
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Prerequisite(s): ECON 100 or ECON 200
Description: The health of an economy depends critically on the efficient flow of goods and products. This course will analyze the economic impacts of transportation, infrastructure and logistics from a policy perspective. Topics will include technological change, regulation versus deregulation, the impact of globalization, and the roles of government and agencies at various levels. Readings will include specific case studies as well as one or two books giving a broad overview of the importance of transportation policy. It is open to majors and non-majors, has a pre-requisite of ECON 100 or ECON 200, and provides three hours of university credit but does not count toward the ECON or MTEC majors.

ECON 299 - EXPERIENTIAL EDUCATION IN ECONOMICS
Short Title: EXPERIENTIAL EDUC IN ECONOMICS
Department: Economics
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Internship/Practicum
Credit Hour: 1
Restrictions: Enrollment is limited to students with a major in Economics or Mathematical Economic Analysis. Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Prerequisite(s): ECON 200
Description: Provides one hour of university credit for faculty-approved internship. Students must obtain approval from a member of the department's undergraduate committee and must submit an offer letter from the internship provider as well as a letter indicating completion and satisfactory performance. Instructor Permission Required. Repeatable for Credit.
ECON 300 - GAME THEORY AND OTHER MICRO TOPICS FOR ECON MAJORS
Short Title: GAME THEORY, MICRO TOPICS/ECON
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ECON 200 and (ECON 307 or STAT 310 or STAT 315 or DSCI 301)
Description: Advanced applied analysis of topics in microeconomics designed for students in the ECON major. Topics include the foundations and applications of game theory, the economics of choice under uncertainty, and information economics including issues of asymmetric information. Additional topics may include auction theory and mechanism design. Open to all majors other than MTEC. Mutually Exclusive: Cannot register for ECON 300 if student has credit for ECON 205.

ECON 305 - GAME THEORY AND OTHER MICRO TOPICS FOR MTEC MAJORS
Short Title: GAME THEORY, MICRO TOPICS/MTEC
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): (ECON 307 or STAT 310 or STAT 315 or DSCI 301) and ECON 308
Description: Advanced theoretical analysis of topics in microeconomics, focusing on mathematical modeling. Topics include the foundations and applications of game theory, general equilibrium theory and applications, the economics of choice under uncertainty, and information economics including issues of asymmetric information. Additional topics may include auction theory and mechanism design. Open to all majors but designed for students in the MTEC major. Mutually Exclusive: Cannot register for ECON 305 if student has credit for ECON 405.

ECON 307 - PROBABILITY AND STATISTICS
Short Title: PROBABILITY & STATISTICS
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group III
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): MATH 102 or MATH 106
Description: Probability and the central concepts and methods of statistics including probability, random variables, distributions of random variables, expectation, sampling distributions, estimation, confidence intervals, and hypothesis testing. Cross-list: STAT 310. Recommended Prerequisite(s): MATH 212. Mutually Exclusive: Cannot register for ECON 307 if student has credit for BUSI 395.

ECON 308 - MATHEMATICAL ECONOMICS
Short Title: MATHEMATICAL ECONOMICS
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 4
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ECON 200 and (MATH 212 or (MATH 221 and MATH 222))
Description: Coverage of mathematical topics used in economics, such as linear algebra, optimization, and real analysis, with applications to fundamental topics in economic theory, constrained optimization, labor market dynamics, game theory and Leontief input-output model. Emphasizes logical clarity and mathematical rigor, along with the ability to follow and construct mathematical proofs. Students must have either (1) made a grade of B- or higher in MATH 212 or MATH 221/MATH 222 taken at Rice, or (2) received transfer credit for MATH 212 or MATH 221/MATH 222 and received approval of the course instructor. Mutually Exclusive: Cannot register for ECON 308 if student has credit for ECON 401.

ECON 310 - ECONOMETRICS
Short Title: ECONOMETRICS
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 4
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ECON 209 and ECON 308
Description: Survey of estimation and forecasting models. Includes multiple regression time series analysis. A good understanding of linear algebra is highly desirable. Cross-list: STAT 376. Mutually Exclusive: Cannot register for ECON 310 if student has credit for ECON 409/STAT 400.

ECON 320 - PUBLIC POLICY AND SOCIAL PROGRAM EVALUATION
Short Title: EVALUATION OF SOCIAL PROGRAMS
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ECON 307 or STAT 310 or STAT 315 or SOSC 302
Description: This course covers quantitative methods to evaluate three aspects of public policy and social programs. The first aspect is the quality of the implementation: are public policy and social programs implemented according to plan? The second aspect is impact: are interventions impacting the populations or issues for which they were designed? The third aspect is cost: do the program benefits justify the costs? The course audience are students interested in innovation in public policy and the design of social programs that aim to reduce inequality and to increase prosperity.
ECON 343 - CORPORATE FINANCE
Short Title: CORPORATE FINANCE
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): (ECON 100 or ECON 200) and (STAT 280 or STAT 305 or STAT 310 or STAT 315 or ECON 307 or STAT 312 or POLI 395 or PSYC 339 or SOSC 302) and BUSI 305
Description: Corporate financial management including tools used to evaluate and select investment projects and the method of financing those investments. The influence of corporate control on investment decisions. The valuation of stocks, bonds and options using the time value of money, the trade-off between risk and return, and arbitrage. Mutually Exclusive: Cannot register for ECON 343 if student has credit for BUSI 343.

ECON 355 - FINANCIAL MARKETS
Short Title: FINANCIAL MARKETS
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ECON 200
Description: Principles governing U.S. and international equity and debt markets, and the interactions between such markets and national monetary and exchange rate policies. Focuses on the role of financial markets and institutions in the allocation and transfer of credit and risk, and examines various existing and suggested regulatory frameworks.

ECON 365 - WORLD ECONOMIC HISTORY
Short Title: WORLD ECONOMIC HISTORY
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ECON 100 and ECON 200 and ECON 203
Description: Study and analysis of world economy focusing on the economic expansion of Western countries between the 14th and 21st centuries. Emphasis on contextual changes in economy, geography, history, society, culture, religion and politics in determining economic leadership of certain economies, such as Italy, Portugal, Spain, the United Kingdom, Belgium, the Netherlands, France, Germany, Sweden, the United States and Japan. Cross-list: HIST 365.

ECON 399 - INDEPENDENT RESEARCH
Short Title: INDEPENDENT RESEARCH
Department: Economics
Grade Mode: Standard Letter
Course Type: Research
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ECON 203 and ECON 209 and (ECON 300 or ECON 305)
Description: Independent research project under the supervision of a faculty member who must approve the topic. Consult the department website under "Independent Research" for additional details. Students must have a GPA of 3.0 or higher in the prerequisite courses and must have taken the 400-level course or courses most relevant to the research topic. Faculty advisors may require additional prerequisites. Instructor and department permission required. Not offered during the summer. Instructor Permission Required.

ECON 415 - LABOR ECONOMICS
Short Title: LABOR ECONOMICS
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ECON 200
Description: Empirical evidence and theories relating to several features of labor markets. Topics covered may include fertility, health, criminal behavior, labor force participation, hours of work, education and training, geographical and inter-firm labor mobility, static and dynamic labor demand, unions, discrimination, government intervention in labor markets, and "hedonic" equilibria in labor markets. Graduate/Undergraduate Equivalency: ECON 515. Mutually Exclusive: Cannot register for ECON 415 if student has credit for ECON 515.

ECON 418 - ECONOMIC FORECASTING
Short Title: ECONOMIC FORECASTING
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ECON 203 and ECON 209
Description: Application of econometric techniques to problems in macroeconomics and financial economics. The course focuses on macroeconomic forecasting and test of economic theories using stationary and non-stationary time-series data. Methods include predictive regressions, vector autoregressions, impulse response functions, and variance decomposition. Tests and comparisons of forecast accuracy are also included. Projects will be completed in STATA.
ECON 419 - ADVANCED TOPICS IN ECONOMETRICS
Short Title: ADV TOPICS IN ECONOMETRICS
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ECON 310 or STAT 376
Description: Introduction to advanced econometrics, with an emphasis on methods used in microeconomic applications. Methods covered are used in the estimation of the demand for goods and services, production functions, and for analyzing the impact of social programs.

ECON 422 - INTERNATIONAL ECONOMICS AND FINANCE
Short Title: INTERNATIONAL ECON & FINANCE
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ECON 200 and ECON 203
Description: Studies the economic relationships among countries. Explores the sources of comparative advantage and reasons for trade policies. Examines foreign exchange and international capital markets and linkages between exchange rates, interest rates, and prices. Includes trade theory, tariffs, and other trade restrictions, an overview of historical and institutional developments, and current policy issues. Mutually Exclusive: Cannot register for ECON 422 if student has credit for ECON 420/ECON 421.

ECON 424 - EMPIRICAL METHODS FOR INDUSTRIAL ORGANIZATION
Short Title: EMPIRICAL METHODS FOR IO
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ECON 200 and (ECON 300 or ECON 305)
Description: Analyzes income redistribution, taxation, the production of public goods, and other actions of the public sector as reasons for redistribution by a political process simultaneously with the economic process of exchange and production. Investigates the connection between public policies and the political forces that shape them.

ECON 425 - INDUSTRIAL ORGANIZATION
Short Title: INDUSTRIAL ORGANIZATION
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): (ECON 300 or ECON 305) and (ECON 209 or ECON 310)
Description: A mathematical approach to topics in industrial organization and market design, including price discrimination, oligopoly, collusion, and auctions.

ECON 432 - POLITICAL ECONOMY
Short Title: POLITICAL ECONOMY
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ECON 200
Description: Addresses the role of economics in understanding the legal system, in particular how the law allocates entitlements and risk in property, tort and contract law. Intended primarily for students who are considering attending law school and uses instruction methods appropriate for that goal.

ECON 437 - ENERGY ECONOMICS
Short Title: ENERGY ECONOMICS
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ECON 200
Description: Discussion of key aspects in the supply and demand of energy. Topics include optimal extraction of depletable resources, transportation, storage, end-use and efficiency, and the relationship between economic activity, energy, and the environment. Cross-list: ENST 437. Graduate/Undergraduate Equivalency: ECON 601. Mutually Exclusive: Cannot register for ECON 437 if student has credit for ECON 601.

ECON 439 - ADVANCED TOPICS IN LAW AND ECONOMICS
Short Title: ADV TOPICS IN LAW AND ECON
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ECON 200
Description: Addresses the role of economics in understanding the legal system, in particular how the law allocates entitlements and risk in property, tort and contract law. Intended primarily for students who are considering attending law school and uses instruction methods appropriate for that goal.

ECON 441 - EMPIRICAL METHODS FOR INDUSTRIAL ORGANIZATION
Short Title: EMPIRICAL METHODS FOR IO
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ECON 200 and ECON 209
Description: Covers empirical methods for the analysis of markets and industries. Focuses on various topics related to incomplete information in industrial organization. Topics include markets, strategy, interactions among firms, and the pricing of products, including non-linear pricing.
ECON 443 - FINANCIAL ECONOMICS  
Short Title: FINANCIAL ECONOMICS  
Department: Economics  
Grade Mode: Standard Letter  
Course Type: Lecture  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Prerequisite(s): ECON 305 and (ECON 307 or STAT 310 or STAT 315 or DSCI 301)  
Description: Economic analysis of the operation of financial markets from a mathematical and theoretical perspective. Topics include asset pricing, risk management, portfolio theory, arbitrage theory, and market efficiency. Emphasizes the application of the financial concepts to decisions faced by households and firms.

ECON 445 - MANAGERIAL ECONOMICS  
Short Title: MANAGERIAL ECONOMICS  
Department: Economics  
Grade Mode: Standard Letter  
Course Type: Lecture  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Prerequisite(s): ECON 200  
Description: Application of economics to the determination of the profitability of the firm. Includes organization theory and problems of control. A student may not receive credit for ECON 445 and ECON 245/POLI 245.

ECON 449 - PRINCIPLES OF FINANCIAL ENGINEERING  
Short Title: FINANCIAL ENGINEERING  
Department: Economics  
Grade Mode: Standard Letter  
Course Type: Lecture  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Prerequisite(s): (ECON 308 or MATH 211) and MATH 212 and (ECON 310 or STAT 376)  
Description: Covers the use of financial securities and derivatives to take or hedge financial risk positions, including most commonly used instruments, from simple forwards and futures to exotic options and swaptions. Studies the pricing of derivative securities with emphasis on the mechanics and uses of financial engineering methods. Mutually Exclusive: Cannot register for ECON 449 if student has credit for STAT 449.

ECON 450 - ECONOMIC DEVELOPMENT  
Short Title: ECONOMIC DEVELOPMENT  
Department: Economics  
Grade Mode: Standard Letter  
Course Type: Lecture  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Prerequisite(s): ECON 200 and ECON 203  
Description: This course covers different dimensions of economic development, focusing on poverty, inequality, demography, and health. It provides an overview of the economies of less developed countries, the lives of the poor, and the theories for why some countries are rich and others are poor. It also describes how labor and credit markets function in poor countries, the consequences for health and education, and the role of institutions.

ECON 452 - RELIGION, ETHICS, AND ECONOMICS  
Short Title: RELIGION, ETHICS, & ECONOMICS  
Department: Economics  
Grade Mode: Standard Letter  
Course Type: Lecture  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Prerequisite(s): ECON 200 and (ECON 307 or STAT 310 or STAT 315 or DSCI 301)  
Description: Reviews economic models of the demand, supply, and markets for religion, including the effects of economic conditions on religious choice and vice versa. Students will write a term paper on topics of their choosing, subject to professor's approval. Recommended Prerequisite(s): ECON 209 or ECON 310 or STAT 376.

ECON 455 - MONEY AND BANKING  
Short Title: MONEY AND BANKING  
Department: Economics  
Grade Mode: Standard Letter  
Course Type: Lecture  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Prerequisite(s): ECON 200 and ECON 203  
Description: Micro-foundations of monetary, fiscal and financial theory. Examines the unique roles of money and of banking in providing the transactions mechanism and in the functioning of financial markets. Explains the use of valued fiat, unbacked money which appears to violate basic microeconomics, in the context of Samuelson's overlapping generations model, including the implications for monetary and fiscal policy and for inflation. Discusses bank runs and financial instability.
ECON 460 - ADVANCED TOPICS IN ECONOMIC DEVELOPMENT
Short Title: ADV TOPICS ECON DEVELOPMENT
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ECON 200 and ECON 450
Description: Focuses on role of taxation, finance and international trade, foreign investment and foreign aid in economic development.

ECON 462 - ECONOMICS OF HUMAN CAPITAL
Short Title: ECONOMICS OF HUMAN CAPITAL
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ECON 320
Description: This course covers theory that describes the central role of human capital in determining economic growth and inequality, uses advanced econometric techniques to test if the theory is consistent with data, and presents insights for public policy that can improve human capital formation, increase economic growth and reduce social inequality.

ECON 460 - ADVANCED TOPICS IN ECONOMIC DEVELOPMENT
Short Title: ADV TOPICS ECON DEVELOPMENT
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ECON 200 and ECON 450
Description: Focuses on role of taxation, finance and international trade, foreign investment and foreign aid in economic development.

ECON 462 - ECONOMICS OF HUMAN CAPITAL
Short Title: ECONOMICS OF HUMAN CAPITAL
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ECON 320
Description: This course covers theory that describes the central role of human capital in determining economic growth and inequality, uses advanced econometric techniques to test if the theory is consistent with data, and presents insights for public policy that can improve human capital formation, increase economic growth and reduce social inequality.

ECON 460 - ADVANCED TOPICS IN ECONOMIC DEVELOPMENT
Short Title: ADV TOPICS ECON DEVELOPMENT
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ECON 200 and ECON 450
Description: Focuses on role of taxation, finance and international trade, foreign investment and foreign aid in economic development.

ECON 462 - ECONOMICS OF HUMAN CAPITAL
Short Title: ECONOMICS OF HUMAN CAPITAL
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ECON 320
Description: This course covers theory that describes the central role of human capital in determining economic growth and inequality, uses advanced econometric techniques to test if the theory is consistent with data, and presents insights for public policy that can improve human capital formation, increase economic growth and reduce social inequality.

ECON 460 - ADVANCED TOPICS IN ECONOMIC DEVELOPMENT
Short Title: ADV TOPICS ECON DEVELOPMENT
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ECON 200 and ECON 450
Description: Focuses on role of taxation, finance and international trade, foreign investment and foreign aid in economic development.

ECON 462 - ECONOMICS OF HUMAN CAPITAL
Short Title: ECONOMICS OF HUMAN CAPITAL
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ECON 320
Description: This course covers theory that describes the central role of human capital in determining economic growth and inequality, uses advanced econometric techniques to test if the theory is consistent with data, and presents insights for public policy that can improve human capital formation, increase economic growth and reduce social inequality.

ECON 460 - ADVANCED TOPICS IN ECONOMIC DEVELOPMENT
Short Title: ADV TOPICS ECON DEVELOPMENT
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ECON 200 and ECON 450
Description: Focuses on role of taxation, finance and international trade, foreign investment and foreign aid in economic development.

ECON 462 - ECONOMICS OF HUMAN CAPITAL
Short Title: ECONOMICS OF HUMAN CAPITAL
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ECON 320
Description: This course covers theory that describes the central role of human capital in determining economic growth and inequality, uses advanced econometric techniques to test if the theory is consistent with data, and presents insights for public policy that can improve human capital formation, increase economic growth and reduce social inequality.

ECON 460 - ADVANCED TOPICS IN ECONOMIC DEVELOPMENT
Short Title: ADV TOPICS ECON DEVELOPMENT
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ECON 200 and ECON 450
Description: Focuses on role of taxation, finance and international trade, foreign investment and foreign aid in economic development.

ECON 462 - ECONOMICS OF HUMAN CAPITAL
Short Title: ECONOMICS OF HUMAN CAPITAL
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ECON 320
Description: This course covers theory that describes the central role of human capital in determining economic growth and inequality, uses advanced econometric techniques to test if the theory is consistent with data, and presents insights for public policy that can improve human capital formation, increase economic growth and reduce social inequality.

ECON 460 - ADVANCED TOPICS IN ECONOMIC DEVELOPMENT
Short Title: ADV TOPICS ECON DEVELOPMENT
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ECON 200 and ECON 450
Description: Focuses on role of taxation, finance and international trade, foreign investment and foreign aid in economic development.

ECON 462 - ECONOMICS OF HUMAN CAPITAL
Short Title: ECONOMICS OF HUMAN CAPITAL
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ECON 320
Description: This course covers theory that describes the central role of human capital in determining economic growth and inequality, uses advanced econometric techniques to test if the theory is consistent with data, and presents insights for public policy that can improve human capital formation, increase economic growth and reduce social inequality.
ECON 483 - PUBLIC FINANCE
Short Title: PUBLIC FINANCE
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ECON 200
Description: Provides an economic analysis of tax policy, focusing on the current national debate regarding the relative merits of income and consumption-based taxes in terms of equity, efficiency, and simplicity. Analyzes tax effects on individual and business behavior and discusses general equilibrium modeling of the economic and distributional effects of alternative tax reforms. Special topics include optimal taxation, taxation of the family, estate taxation, taxation of electronic commerce, and state and local public finance.

ECON 484 - PUBLIC ECONOMICS
Short Title: PUBLIC ECONOMICS
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ECON 200 and MATH 212
Description: Theory and evidence on government expenditure policy. Topics include the theory of public goods, education, state and local public goods, redistribution and welfare policy, cost-benefit analysis, social insurance programs such as social security and unemployment insurance, and health care policy.

ECON 485 - THE ECONOMICS OF SUSTAINABILITY, CONSERVATION, AND PANDEMICS
Short Title: ECON, CONSERVATION & PANDEMICS
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ECON 200
Description: This course will cover issues related to conservation, sustainability and pandemics from an economics point of view. Topics will include the need for conservation policies and planning, how science informs conservation strategies, incentives and the design of conservation agreements, and the role of deforestation and wildlife markets in pandemic emergence. Policies to reduce the likelihood of pandemic emergence, as well as the effects of pandemics like influenza, HIV, and COVID-19 on the global economy will also be discussed. Recommended Prerequisite(s): MATH 212

ECON 489 - ECONOMICS OF SOCIAL NETWORKS
Short Title: ECONOMICS OF SOCIAL NETWORKS
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ECON 200 and ECON 209
Description: This course introduces research on social networks and analyzes how these networks affect our choices: the products we buy, the careers we follow, whom we marry, how we raise our children. Students will learn about network measurement and formation and the influence of social networks on our decisions.

ECON 496 - RESEARCH IN ECONOMIC THEORY
Short Title: RESEARCH IN ECONOMIC THEORY
Department: Economics
Grade Mode: Standard Letter
Course Type: Research
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ECON 203 and (ECON 310 or STAT 376) and ECON 305
Description: Capstone course for MTEC majors whose primary interest is in economic theory. Review and analysis of seminal and current research in economic theory, including independent analysis by the student. Topics vary from year to year.

ECON 497 - RESEARCH IN ECONOMETRICS
Short Title: RESEARCH IN ECONOMETRICS
Department: Economics
Grade Mode: Standard Letter
Course Type: Research
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ECON 203 and (ECON 310 or STAT 376) and ECON 305
Description: Capstone course for MTEC majors whose primary interest is in econometrics. Review and analysis of seminal and current research in econometrics, including independent analysis by the student. Topics vary from year to year.
ECON 498 - HONORS PROGRAM IN ECONOMICS-I
Short Title: HONORS PROGRAM IN ECONOMICS-I
Department: Economics
Grade Mode: Standard Letter
Course Type: Research
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ECON 203 and (ECON 209 or ECON 310) and (ECON 300 or ECON 305)
Description: Research workshop open to ECON and MTEC majors. Students must have a GPA of at least 3.67 in all courses taken toward satisfying major requirements, and must have taken all ECON courses directly related to the topic of their research. Students develop a research idea, construct an economic model with testable hypotheses, test those hypotheses, and write and present an academic quality paper. Econometrics pre-requisite is ECON 209 for ECON majors and ECON 310 for MTEC majors.

ECON 499 - HONORS PROGRAM IN ECONOMICS-II
Short Title: HONORS PROGRAM IN ECONOMICS-II
Department: Economics
Grade Mode: Standard Letter
Course Type: Research
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ECON 498
Description: Continuation of ECON 498. University credit only.

ECON 501 - MICROECONOMICS I
Short Title: MICROECONOMICS I
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Formal mathematical treatments of the classic topics in microeconomics: consumer and producer theory, choice under risk and uncertainty, revealed preference theory and general equilibrium theory. Introduces and uses mathematical tools that are the workhorses of economic theory: real analysis, constrained optimization, monotone comparative statics and fixed point theorems.

ECON 502 - MACROECONOMICS
Short Title: MACROECONOMICS
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Review of static general equilibrium theory; elements of functional analysis for optimization; deterministic and stochastic difference equations, local stability analysis; introduction to Markov processes; dynamic optimization techniques, including stochastic optimal control theory, dynamic programing, and robust control; applications to growth theory, search, industrial organization, and monetary economics; dynamic stochastic general equilibrium modeling.

ECON 504 - COMPUTATIONAL ECONOMICS
Short Title: COMPUTATIONAL ECONOMICS
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): ECON 501 and ECON 502 and ECON 505 and ECON 508 and ECON 510 and ECON 511 and MATH 321
Description: Numerical methods most commonly used in economics and their application to frontier research projects in economic modeling. Topics include optimization theory and numerical integration. Cross-list: STAT 604.

ECON 505 - FINANCIAL ECONOMICS I
Short Title: FINANCIAL ECONOMICS I
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): ECON 501 and ECON 502
Description: Introduction to asset pricing and portfolio choice theory. Covers mathematical analysis of single-period and dynamic models, including pricing by arbitrage, mean-variance analysis, factor models, dynamic optimization, recursive utility, and an introduction to continuous-time finance. Cross-list: BUSI 521.

ECON 507 - MATHEMATICAL ECONOMICS I
Short Title: MATHEMATICAL ECONOMICS I
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: The purpose of this course is to provide the first-year PhD students in Economics with the essential mathematical tools. The course covers topics in real analysis, topology, linear algebra, etc. Aside from providing the mathematical tools, a primary aim of this course is to develop the level of mathematical sophistication necessary to conduct research in modern economics. The course will therefore emphasize logical clarity and mathematical rigor, along with the ability to follow and construct mathematical proofs.

ECON 508 - MICROECONOMICS II
Short Title: MICROECONOMICS II
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 5
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): ECON 501 and MATH 321
Description: Two modules: (1) Introduces students to the mathematical tools of game theory and the modeling of economic settings as games. Covers normal form games, extensive form games with perfect information, Bayesian games, and extensive form games with imperfect information; (2) introduces students to information economics and the theory of mechanism design. Applies tools from game theory and linear and non-linear
ECON 509 - TOPICS IN MICROECONOMICS
Short Title: TOPICS IN MICROECONOMICS
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): ECON 508
Description: Discussion of selected topics in microeconomic theory. Repeatable for credit. The Spring 2021 topic was Psychology and Economics, especially individual choice under risk and uncertainty, reference-dependent preferences, temptation and self-control, other-regarding preferences, behavioral game theory, and bounded rationality. Repeatable for Credit.

ECON 510 - ECONOMETRICS I
Short Title: ECONOMETRICS I
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): ECON 508 or STAT 610
Description: Estimation and inference in single equation regression models, multicollinearity, autocorrelated and heteroskedastic disturbances, distributed lags, asymptotic theory, and maximum likelihood techniques. Emphasis is placed on critical analysis of the literature. Cross-list: STAT 610.

ECON 511 - ECONOMETRICS II
Short Title: ECONOMETRICS II
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): ECON 510 or STAT 610
Description: Topics in linear and nonlinear simultaneous equations estimation, including panel data, qualitative and categorical dependent variable models, duration analysis, simulation-based estimation, treatment effects, stochastic production frontier estimation. Cross-list: STAT 611.

ECON 512 - INTERNATIONAL TRADE THEORY
Short Title: INTERNATIONAL TRADE THEORY
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Exploration of classical, neoclassical, and modern trade theory. Includes welfare aspects of trade such as the theory of commercial policy, with emphasis on applications.

ECON 514 - EMPIRICAL INDUSTRIAL ORGANIZATION
Short Title: EMPIRICAL INDUSTRIAL ORGANIZATION
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Topics include structural analysis of auction, nonlinear pricing, insurance and bargaining data. Emphasizes the use of advanced econometric methods (nonparametric and semiparametric) to estimate and test models under incomplete information.

ECON 515 - LABOR ECONOMICS
Short Title: LABOR ECONOMICS
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): ECON 508
Description: Mathematical and statistical analysis of empirical evidence and theories relating to several features of labor markets. Topics covered may include fertility, health, criminal behavior, labor force participation, hours of work, education and training, geographical and inter-firm labor mobility, static and dynamic labor demand, unions, discrimination, government intervention in labor markets, and "hedonic" equilibria in labor markets. Graduate/Undergraduate Equivalency: ECON 415. Mutually Exclusive: Cannot register for ECON 515 if student has credit for ECON 415.

ECON 516 - EMPIRICAL INDUSTRIAL ORGANIZATION II
Short Title: EMPIRICAL INDUSTRIAL ORGANIZATION II
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): ECON 508
Description: Overview of methods used in empirical microeconomic research. Examples are drawn from health economics, law and economics, and business economics. Emphasis is placed on designing econometric and statistical analyses to test economic hypotheses. Class projects will expand on analyses from previously published studies.

ECON 517 - EMPIRICAL MICROECONOMICS
Short Title: EMPIRICAL MICROECONOMICS
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): ECON 514
Description: Topics in linear and nonlinear simultaneous equations estimation, including panel data, qualitative and categorical dependent variable models, duration analysis, simulation-based estimation, treatment effects, stochastic production frontier estimation. Cross-list: STAT 611.

ECON 518 - LABOR ECONOMICS II
Short Title: LABOR ECONOMICS II
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): ECON 515
Description: Mathematical and statistical analysis of empirical evidence and theories relating to several features of labor markets. Topics covered may include fertility, health, criminal behavior, labor force participation, hours of work, education and training, geographical and inter-firm labor mobility, static and dynamic labor demand, unions, discrimination, government intervention in labor markets, and "hedonic" equilibria in labor markets. Graduate/Undergraduate Equivalency: ECON 415. Mutually Exclusive: Cannot register for ECON 518 if student has credit for ECON 415.

ECON 519 - EMPIRICAL INDUSTRIAL ORGANIZATION III
Short Title: EMPIRICAL INDUSTRIAL ORG III
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): ECON 516
Description: Overview of methods used in empirical microeconomic research. Examples are drawn from health economics, law and economics, and business economics. Emphasis is placed on designing econometric and statistical analyses to test economic hypotheses. Class projects will expand on analyses from previously published studies.

ECON 520 - TOPICS IN MICROECONOMICS
Short Title: TOPICS IN MICROECONOMICS
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): ECON 517 or STAT 611
Description: Discussion of selected topics in microeconomic theory. Repeatable for credit. The Spring 2021 topic was Psychology and Economics, especially individual choice under risk and uncertainty, reference-dependent preferences, temptation and self-control, other-regarding preferences, behavioral game theory, and bounded rationality. Repeatable for Credit.
ECON 518 - INTERNATIONAL MACROECONOMICS
Short Title: INTERNATIONAL MACROECONOMICS
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Effects of fiscal and monetary policies on exchange rates and the current account and balance of payments. Includes exchange market efficiency, exchange rates and prices, LDC debt, and policy coordination.

ECON 519 - ECONOMIC GROWTH AND DEVELOPMENT
Short Title: ECONOMIC GROWTH & DEVELOPMENT
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): ECON 501 and ECON 508 and ECON 510 and ECON 511
Description: Mathematical and statistical analysis of topics in microeconomic development and introduction to some frequently used applied econometric methods. Topics covered include poverty and inequality, health, education, fertility, marriage markets, and other gender issues. Special focus is given to intra-household bargaining models and their applications.

ECON 521 - MATCHING AND MARKET DESIGN
Short Title: MATCHING AND MARKET DESIGN
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): ECON 501 and ECON 502 and ECON 510 and ECON 511
Description: This course begins with an overview of different matching markets (e.g., one-to-one or many-to-one AND with or without transfers AND centralized or decentralized) and the common empirical models; it then provides a relatively in-depth discussion of market design, both theoretical and empirical, for school choice and kidney transplants.

ECON 522 - PUBLIC ECONOMICS: TAX POLICY
Short Title: PUBLIC ECONOMICS: TAX POLICY
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Study of the effects of taxation on individual and firm behavior, general equilibrium tax incidence analysis, optimal taxation theory, optimal implementation of tax reform, analysis of comprehensive income, and consumption taxes.

ECON 523 - DYNAMIC OPTIMIZATION
Short Title: DYNAMIC OPTIMIZATION
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Study of dynamic optimization in discrete and continuous time, including numerical methods and applications to macroeconomics, finance and resource and energy economics.

ECON 547 - ADVANCED TOPICS IN ENERGY ECONOMICS
Short Title: ADV TOPICS IN ENERGY ECONOMICS
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): (ECON 301 or ECON 370) and (ECON 309 or ECON 446 or ECON 409 or ECON 400 or STAT 400) and ECON 437
Description: A detailed development and analysis of topics in energy modeling. Topics include optimal extraction of depletable resources, models of storable energy commodities, energy demand by end-use sector, models of non-competitive behavior, energy security and the relationship between energy and commodity prices. ECON 547 requires an additional assignment in addition to the assignments of ECON 447. Recommended Prerequisite(s): ECON 477 or ECON 401. Mutually Exclusive: Cannot register for ECON 547 if student has credit for ECON 447/ECON 604.

ECON 565 - HEALTH ECONOMICS
Short Title: HEALTH ECONOMICS
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): (ECON 301 or ECON 370) and (ECON 309 or ECON 446 or ECON 409 or ECON 400 or STAT 400) and ECON 437
Description: Application of empirical and theoretical economic models to health and healthcare. Includes production, cost, demand and supply factors; methods of payment and effects of regulation. Topics include optimal design of health insurance markets, econometric evaluation of government regulations and reimbursement in the healthcare sector, and testing of hypothesis that explain rising prices and costs of healthcare. Graduate/Undergraduate Equivalency: ECON 481. Mutually Exclusive: Cannot register for ECON 565 if student has credit for ECON 481.
ECON 575 - TOPICS IN FINANCIAL ECONOMICS  
Short Title: TOPICS IN FINANCIAL ECONOMICS  
Department: Economics  
Grade Mode: Standard Letter  
Course Type: Lecture  
Credit Hours: 3  
Restrictions: Enrollment is limited to Graduate level students.  
Course Level: Graduate  
Prerequisite(s): ECON 505  
Description: Topics in asset pricing, corporate financial theory, and market microstructure, including asymmetric information, learning, heterogeneous priors, market frictions, nonstandard preferences, production models, q theory, real options, dynamic capital structure, quote-driven markets, order-driven markets, and dealer markets. Repeatable for Credit.  

ECON 576 - TOPICS IN MACROECONOMICS  
Short Title: TOPICS IN MACROECONOMICS  
Department: Economics  
Grade Mode: Standard Letter  
Course Type: Seminar  
Credit Hours: 3  
Restrictions: Enrollment is limited to Graduate level students.  
Course Level: Graduate  
Description: Discussion topics in macroeconomics. Repeatable for Credit.  

ECON 577 - TOPICS IN ECONOMIC THEORY I  
Short Title: TOPICS IN ECONOMIC THEORY I  
Department: Economics  
Grade Mode: Standard Letter  
Course Type: Lecture  
Credit Hours: 3  
Restrictions: Enrollment is limited to Graduate level students.  
Course Level: Graduate  
Description: Discussion of topics in advanced economic theory. Repeatable for Credit.  

ECON 578 - TOPICS IN ECONOMETRICS I  
Short Title: TOPICS IN ECONOMETRICS I  
Department: Economics  
Grade Mode: Standard Letter  
Course Type: Lecture/Laboratory  
Credit Hours: 3  
Restrictions: Enrollment is limited to Graduate level students.  
Course Level: Graduate  
Description: Discussion of selected topics in advanced econometrics. Repeatable for Credit.  

ECON 579 - TOPICS IN ECONOMETRICS II  
Short Title: TOPICS IN ECONOMETRICS II  
Department: Economics  
Grade Mode: Standard Letter  
Course Type: Lecture  
Credit Hours: 3  
Restrictions: Enrollment is limited to Graduate level students.  
Course Level: Graduate  
Prerequisite(s): ECON 511  
Description: Discussion of selected topics in advanced econometrics that focus on the mathematical and statistical modeling of such phenomena as (1) extended panel data methods; (2) spatial econometrics; (3) bootstrapping; (4) factor models, wavelets, smoothing-splines, sieves; (5) model averaging; (6) continuous and discrete dynamic programming models; (7) econometrics of auctions; (8) BLP methods of demand estimation; (9) structural and non-structural models of producer behavior; (10) point and set identification; (11) Bayesian Econometrics/Metropolis-Hastings MCMC algorithms. Repeatable for Credit.  

ECON 592 - TOPICS IN POLICY AND APPLIED ECONOMICS  
Short Title: TOP-POLICY&APPL'D ECON  
Department: Economics  
Grade Mode: Standard Letter  
Course Type: Lecture  
Credit Hours: 3  
Restrictions: Enrollment is limited to Graduate level students.  
Course Level: Graduate  
Description: Discussion of selected topics and applied economics. Repeatable for Credit.  

ECON 593 - WORKSHOP IN MICROECONOMICS  
Short Title: WORKSHOP IN ECONOMICS  
Department: Economics  
Grade Mode: Satisfactory/Unsatisfactory  
Course Type: Seminar  
Credit Hour: 1  
Restrictions: Enrollment is limited to Graduate level students.  
Course Level: Graduate  
Prerequisite(s): ECON 508 and ECON 510  
Description: Seminars on advanced topics in macroeconomics, microeconomics, econometrics and applied microeconomic theory, presented through guest lectures by leading researchers. Repeatable for credit. Repeatable for Credit.  

ECON 594 - WORKSHOP IN ECONOMICS II  
Short Title: WORKSHOP IN ECONOMICS II  
Department: Economics  
Grade Mode: Satisfactory/Unsatisfactory  
Course Type: Seminar  
Credit Hour: 1  
Restrictions: Enrollment is limited to Graduate level students.  
Course Level: Graduate  
Prerequisite(s): ECON 508 and ECON 510  
Description: Seminars on advanced topics in macroeconomics, microeconomics, econometrics and applied microeconomic theory, presented through guest lectures by leading researchers. Repeatable for credit. Repeatable for Credit.
ECON 596 - RESEARCH SEMINAR
Short Title: RESEARCH SEMINAR
Department: Economics
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Seminar
Credit Hours: 0.5
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Supervises fourth-year and fifth-year Ph.D. students in their quantitative dissertation research in preparation for graduation. Students must present their own research at least once during the semester. Repeatable for Credit.

ECON 597 - READINGS IN ADVANCED TOPICS
Short Title: READINGS IN ADVANCED TOPICS
Department: Economics
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Independent Study
Credit Hour: 1
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Prepares graduate students for completing innovative and original research. All second year graduate students must attend the workshop. Each week, a faculty member will give a brief lecture about their experience with research. Possible topics include how they came up with ideas, how those ideas evolved and became papers, how these papers proceeded through the publication process, etc. Alternatively, faculty members can present a broad overview of particular research areas and discuss outstanding questions in those areas. Instructor Permission Required. Repeatable for Credit.

ECON 598 - READINGS IN ADVANCED TOPICS
Short Title: READINGS IN ADVANCED TOPICS
Department: Economics
Grade Mode: Standard Letter
Course Type: Independent Study
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Workshop prepares graduate students for completing innovative and original research. All second year graduate students must attend the workshop. Each week, a faculty member will give a brief lecture about their experience with research. Possible topics include how they came up with ideas, how those ideas evolved and became papers, how these papers proceeded through the publication process, etc. Alternatively, faculty members can present a broad overview of particular research areas and discuss outstanding questions in those areas. Instructor Permission Required. Repeatable for Credit.

ECON 601 - ENERGY ECONOMICS I
Short Title: ENERGY ECONOMICS I
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 4
Restrictions: Enrollment is limited to Graduate level students. Enrollment limited to students in a Master of Energy Economics degree.
Course Level: Graduate
Description: Introduces the energy sector to students, discusses key aspects of energy supply, demand and pricing, and is foundational for the MEECON degree. Topics include optimal extraction of depletable resources, investment in energy-using capital, trade of energy commodities, storage, end-use demand and energy efficiency, and the relationship between economic activity, energy and the environment. Students learn to apply dynamic optimization, linear programming and econometric techniques in addressing the course topics. Graduate/Undergraduate Equivalency: ECON 437. Mutually Exclusive: Cannot register for ECON 601 if student has credit for ECON 437.

ECON 602 - MICROECONOMICS OF THE ENERGY SECTOR
Short Title: MICROECONOMICS - ENERGY SECTOR
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 4
Restrictions: Enrollment is limited to Graduate level students. Enrollment limited to students in a Master of Energy Economics degree.
Course Level: Graduate
Description: Covers basic microeconomic concepts and applies them to contemporary issues in the energy sector. Topics covered include demand and supply analysis, market equilibrium and different market structures, international trade, investment and capacity expansion, risk and investment finance, and economic analysis of energy policy including environmental policy. This course enables students to apply quantitative microeconomic theory in order to make data-driven recommendations to case studies presented by industry partners.

ECON 603 - APPLIED ECONOMETRICS FOR ENERGY MARKETS
Short Title: APPLIED ECONOMETRICS ENGY MKTS
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 4
Restrictions: Enrollment is limited to Graduate level students. Enrollment limited to students in a Master of Energy Economics degree.
Course Level: Graduate
Description: Students will be introduced to basic concepts in statistical analysis and how to use statistical tools to analyze economic data and test economic theories. The course includes a laboratory session where students practice using the tools discussed in lectures with data that is particularly relevant to the energy industry.
ECON 604 - ENERGY ECONOMICS II
Short Title: ENERGY ECONOMICS II
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 4
Restrictions: Enrollment is limited to Graduate level students. Enrollment limited to students in a Master of Energy Economics degree.
Course Level: Graduate
Description: Explores a variety of topics in energy modeling and energy data analysis. Topics include optimal extraction of depletable resources, game theoretic approaches to OPEC behavior, national oil company behavior, models of storable energy commodities and energy demand by end-use sector, energy security and fundamental drivers of commodity prices. This course tasks students to expand on the dynamic optimization problems and econometric techniques applied to energy economics. Mutually Exclusive: Cannot register for ECON 604 if student has credit for ECON 547.

ECON 605 - TAXATION IN THE ENERGY SECTOR
Short Title: TAXATION IN THE ENERGY SECTOR
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 4
Restrictions: Enrollment is limited to Graduate level students. Enrollment limited to students in a Master of Energy Economics degree.
Course Level: Graduate
Description: Introduces basic principles of taxation, and general equilibrium modeling of the economic effects of taxes, and applies them to federal and state taxes on the energy sector. Topics include royalties resource rent taxes, corporate income taxes including international tax issues such as transfer pricing and income shifting, excess profit taxes, production-sharing agreements, and environmental taxes. Students will formulate, implement, and use quantitative models to solve problems related to private and public decision making in the context of taxes applied to U.S. energy systems.

ECON 606 - CORPORATE FINANCE FOR THE ENERGY SECTOR
Short Title: CORP FINANCE - ENERGY SECTOR
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 4
Restrictions: Enrollment is limited to Graduate level students. Enrollment limited to students in a Master of Energy Economics degree.
Course Level: Graduate
Description: Examines the investment decisions of corporations, the valuation of stock, bonds and options investments by individual investors. The implications of investor decisions for corporations, and specifically the manner in which they evaluate investment projects and finance investments are a core focus. Examples and case studies focus on the energy sector. Students will increase their understanding of financing and investment decision as the relate to energy companies and energy related projects using analytical and mathematical techniques to make data-driven recommendation to real-world problems.

ECON 607 - THE ECONOMICS OF ENERGY AND THE ENVIRONMENT
Short Title: ECON OF ENERGY & ENVIRONMENT
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 4
Restrictions: Enrollment is limited to Graduate level students. Enrollment limited to students in a Master of Energy Economics degree.
Course Level: Graduate
Description: This course provides students with an introduction to, and overview of, policies to protect environmental resources against emissions from energy production and use and hazardous wastes. The first part of the course will present an economic analysis of the costs and benefits of using different types of policies to control emissions from fossil fuel use. The remainder of the course, taught from a practitioner's perspective, will discuss the interrelationship between science, institutions and politics when designing environmental policy. The focus will be on problems associated with oil and gas production - especially water contamination and use - and hazardous waste disposal.

ECON 608 - RISK MANAGEMENT IN THE ENERGY INDUSTRY
Short Title: RISK MANAGEMENT/ENERGYINDUSTRY
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 4
Restrictions: Enrollment is limited to Graduate level students. Enrollment limited to students in a Master of Energy Economics degree.
Course Level: Graduate
Description: This course introduces quantitative risk management techniques often employed in the energy industry. It covers topics such as real options, value at risk, conditional value at risk, and expected shortfall, as well as the use of derivatives for trading and hedging various risk exposures. The course is methodologically self-contained and provides students with hands-on experience with state-of-the-art software to measure and manage risk-adjusted returns of heterogeneous asset portfolios.

ECON 610 - ENERGY AND THE MACROECONOMY
Short Title: ENERGY & THE MACROECONOMY
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 4
Restrictions: Enrollment is limited to Graduate level students. Enrollment limited to students in a Master of Energy Economics degree.
Course Level: Graduate
Description: Discusses connections between energy and economic activity at the regional, national, and international level, and especially the role of energy shocks in economic fluctuations, innovations in energy supply as drivers of regional economic growth, and the role of energy commodities in transportation and international trade.
ECON 611 - GEOPOLITICS OF ENERGY
Short Title: GEOPOLITICS OF ENERGY
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 4
Restrictions: Enrollment is limited to Graduate level students. Enrollment limited to students in a Master of Energy Economics degree.
Course Level: Graduate
Description: Explores the geopolitical issues around energy security and trade by focusing on role of energy as the world's largest business and a strategic requirement of the modern nation-state, a source of power in international relations, and a major influence on national politics and institutions. This course equips students with the analytical skills to inform policy debates, advocate for the interests of principals, and advise policy makers and firms amid rapid changes in energy markets. Students learn both to produce sound empirical analysis by employing state of the art econometric techniques and to be discerning consumers of empirical research.

ECON 612 - ENERGY PROJECT DEVELOPMENT
Short Title: ENERGY PROJECT DEVELOPMENT
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 4
Restrictions: Enrollment is limited to Graduate level students. Enrollment limited to students in a Master of Energy Economics degree.
Course Level: Graduate
Description: This course will cover the development of energy projects, especially electric power projects, from inception through to financing. It examines key issues such as: siting/permitting, including compliance with federal, state and local environmental and regulatory issues; fuel supply agreements; capital cost pricing; off-take agreements; and the various methods of project financing. Microsoft Excel is used for project financial analysis, including revenue and cost modeling, debt management, project net cash flow, project internal rate of return and net present value. The course also will cover strategies to monetize the project including development fees, carried equity, and private and public sale of equity, including initial public offerings ("IPOs").

ECON 613 - INTERNATIONAL TRADE IN ENERGY
Short Title: INTERNATIONAL TRADE IN ENERGY
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 4
Restrictions: Enrollment is limited to Graduate level students. Enrollment limited to students in a Master of Energy Economics degree.
Course Level: Graduate
Description: This course explores the effects of international trade and the determinants of the amount of trade between countries in energy commodities, and the role of international capital flows in financing energy projects, in particular. It will also discuss the many ways that governments can alter international trade through various policies.

ECON 614 - POLITICAL ECONOMY OF OIL IN DEVELOPING COUNTRIES
Short Title: POLITICAL ECONOMY OF OIL
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 4
Restrictions: Enrollment is limited to Graduate level students. Enrollment limited to students in a Master of Energy Economics degree.
Course Level: Graduate
Description: This course evaluates the political and economic determinants of oil and gas policies in developing countries and their impact on world markets, the interaction between states and oil companies, the challenges of oil wealth management, and the causal links between resource dependency, development, institutions, and political regimes. Although the main focus is on oil production, natural gas is also analyzed, and both are compared to other natural resources. Emphasis is on the analysis of institutional change and the functions of institutional change in the energy industry using data-driven methods to examine case studies.

ECON 615 - SOCIAL STUDIES OF ENERGY
Short Title: SOCIAL STUDIES OF ENERGY
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 4
Restrictions: Enrollment is limited to Graduate level students. Enrollment limited to students in a Master of Energy Economics degree.
Course Level: Graduate
Description: Investigate the ways in which energy production and consumption impacts social life. By studying the implementation and use of renewable and on-renewable energy infrastructures in different parts of the world, the students will develop a contextual, self-reflexive and critical lens that will help them make decisions in later stages of their careers.

ECON 620 - INDUSTRIAL ORGANIZATION AND THE ENERGY SECTOR
Short Title: INDUSTRIAL ORG & ENERGY SECTOR
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 4
Restrictions: Enrollment is limited to Graduate level students. Enrollment limited to students in a Master of Energy Economics degree.
Course Level: Graduate
Description: The course will discuss monopoly, oligopoly, and the underlying sources of monopoly power in energy industries and how the industries can be restructured to isolate the monopoly elements from the more competitive ones. Other topics include price discrimination, vertical control, mergers and acquisitions, and strategic behavior between firms.
ECON 621 - THE ECONOMICS OF THE ELECTRICITY INDUSTRY
Short Title: ELECTRICITY INDUSTRY ECONOMICS
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 4
Restrictions: Enrollment is limited to Graduate level students. Enrollment limited to students in a Master of Energy Economics degree.
Course Level: Graduate
Description: Discusses the determinants of the cost of electricity, the effects of organizing the industry in different ways, the need to encourage sufficient investment in reserve capacity, and the use of information technology to allow for new ways of pricing electricity, operating the network and coordinating supply and demand. Students will learn to analyze the behavior of power markets, the effect of different policies, and draw empirical solutions to the real-world issues.

ECON 622 - TRANSPORTATION ECONOMICS
Short Title: TRANSPORTATION ECONOMICS
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 4
Restrictions: Enrollment is limited to Graduate level students. Enrollment limited to students in a Master of Energy Economics degree.
Course Level: Graduate
Description: Discusses transportation as a major source of energy demand in modern post-industrial economies and of future demands in emerging economies. Emphasizes that the demand for energy use in the transportation sector involves modeling household choices, economic growth and demographic transition, government decisions to support transportation infrastructure development, and the introduction of new technologies. Students will apply problem solving and analytical skills to perform calculations related to transportation energy and its environmental impact.

ECON 677 - SPECIAL TOPICS
Short Title: SPECIAL TOPICS
Department: Economics
Grade Mode: Standard Letter
Course Type: Internship/Practicum, Laboratory, Lecture, Seminar, Independent Study, Lecture/Laboratory
Credit Hours: 1-4
Restrictions: Enrollment is limited to Graduate or Visiting Graduate level students.
Course Level: Graduate
Description: Topics and credit hours vary each semester. Contact department for current semester's topic(s). Repeatable for Credit.

ECON 699 - PRACTICUM
Short Title: PRACTICUM
Department: Economics
Grade Mode: Standard Letter
Course Type: Internship/Practicum
Credit Hours: 4
Restrictions: Enrollment is limited to Graduate level students. Enrollment limited to students in a Master of Energy Economics degree.
Course Level: Graduate
Description: Projects developed by an industry advisory group to be researched and presented to participating industry at completion of all course work. Internships with an approved employer may be substituted. Emphasis on skill building components may include: analyzing data for accuracy and reconciliation across different sources, quantitative analysis and risk assessment of a firm's portfolio of assets and capital investment opportunities, and briefing expert and non-expert audiences.

ECON 700 - DEPARTMENTAL SERVICE COURSE
Short Title: DEPARTMENTAL SERVICE COURSE
Department: Economics
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Independent Study
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: In each semester in which students perform departmental service, they need to register in the departmental service course Econ 700. Students must meet their faculty supervisors as early as possible before the semester starts and regularly during the semester to ensure there is a mutual understanding of the job responsibilities.

ECON 800 - GRADUATE RESEARCH
Short Title: GRADUATE RESEARCH
Department: Economics
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Research
Credit Hours: 1-12
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Assists students in the dissertation writing process. Students must write an independent and original piece of quantitative research that is of sufficient quality to merit publication in an academic economics journal. Towards this objective, faculty mentor evaluate and critique the research of PhD students who are either preparing research before formally selecting a dissertation topic or actively engaged in dissertation research. Repeatable for Credit.

Description and Code Legend
Note: Internally, the university uses the following descriptions, codes, and abbreviations for this academic program. The following is a quick reference:

Course Catalog/Schedule
- Course offerings/subject code: ECON

Department Description and Code
- Economics: ECON

Undergraduate Degree Description and Code
- Bachelor of Arts degree: BA
Bachelor of Arts (BA) Degree with a Major in Economics

Program Learning Outcomes for the BA Degree with a Major in Economics

Upon completing the BA degree with a major in Economics, students will have:

1. Learned the core principles of microeconomics, including supply and demand, utility maximization by consumers and profit maximization by firms, and equilibrium market structures.
2. Learned the core principles of macroeconomics, including the effects of monetary and fiscal policy, business cycles, determinants of growth, and a variety of approaches to researching and critically analyzing the macroeconomy.
3. Learned various statistical and econometric skills, and used statistical software to analyze economic data, interpret and communicate statistical results, both orally and in writing.

Requirements for the BA Degree with a Major in Economics

For general university requirements, see Graduation Requirements (p. 29). Students pursuing the BA degree with a major in Economics must complete:

- A minimum of 14 or 15 courses (44-48 credit hours), depending on course selection, to satisfy major requirements.
- A minimum of 120 hours to satisfy degree requirements.
- A minimum of 5 courses (15 credit hours) taken at the 300-level or above.
- A maximum of 5 courses (15 credit hours) from study abroad or transfer credit after matriculation at Rice may be applied towards specific major requirements. For additional departmental guidelines regarding transfer credit, see the Policies (p. 851) tab.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor, or where applicable, the department’s Director of Undergraduate Studies. (Course substitutions must be formally applied and entered into Degree Works by the major’s Official Certifier [https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/].) Students and their academic advisors should identify and clearly document the courses to be taken.

ECON 210    BEHAVIORAL ECONOMICS
ECON 239    LAW AND ECONOMICS
Courses between ECON 320-ECON 495
ECON 498    HONORS PROGRAM IN ECONOMICS-I

Select 3 courses from ECON 410-ECON 495 and ECON 498. 9

Total Credit Hours Required for the Major in Economics 44-48
Additional Credit Hours to Complete Degree Requirements * 41-45
University Graduation Requirements (p. 29) * 31

Total Credit Hours 120

Footnotes and Additional Information
* Note: University Graduation Requirements include 31 credit hours, comprised of Distribution Requirements (Groups I, I, and III), FWIS, and LPAP coursework. In some instances, courses satisfying major requirements may additionally meet distribution requirements. Additional Credit Hours to Complete Degree Requirements include general electives, coursework completed as upper-level, residency (hours taken at Rice), and/or any other additional academic program requirements.

1 After matriculation: In some cases, transfer credit may be awarded by the economics department for courses completed at other schools after the student has matriculated at Rice. Students may present a maximum of 2 such transfer courses in fulfilling the mathematics and statistics core requirements, and a maximum of 3 such transfer courses in fulfilling the economics/econometrics core requirements and elective requirements combined. (Additional transfer courses may count toward meeting university graduation requirements, but not toward fulfillment of requirements for the major.)

Before matriculation: Credits awarded to transfer students for courses taken prior to matriculation at Rice are not counted against the departmental limit on transfer courses, but all students must complete more than half of their upper-level major coursework (300-level and 400-level courses) at Rice.

2 Students who have received credit for ECON 111 and ECON 113 and have made a grade of B- or better in MATH 102 (taken at Rice University) may substitute any Economics major elective for ECON 100. Students must notify the department’s Director of Undergraduate Studies if they wish to exercise this option.

3 As specified in their course descriptions, the following courses do not satisfy the Electives requirement for the major in Economics: ECON 101, ECON 103, ECON 111, ECON 113, ECON 205, ECON 260, ECON 270, ECON 275, ECON 280, ECON 499. In addition, BUSI 343 may be substituted for ECON 343, and STAT 449 may be substituted for ECON 449.

Policies for the BA Degree with a Major in Economics

Program Restrictions and Exclusions
Students pursuing the major in Economics should be aware of the following program restrictions:

• Students pursuing the major in Economics may not additionally declare the major in Managerial Economics and Organizational Sciences.
• Students pursuing the major in Economics may not additionally declare the major in Mathematical Economic Analysis.

Transfer Credit
For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 37). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines
Students pursuing the major in Economics should be aware of the following departmental transfer credit guidelines:

• Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.
• No more than 5 courses (15 credit hours) of transfer credit from U.S. or international universities of similar standing as Rice may apply towards specific major requirements after matriculation at Rice as follows:
  • No more than 2 courses (6 credit hours) of transfer credit may apply towards the mathematics and statistics core requirements
  • No more than 3 courses (9 credit hours) of transfer credit may apply towards the economics/econometrics core requirements and the elective requirements combined

Please Note: Additional transfer courses may count toward meeting university graduation requirements, but not toward fulfillment of requirements for the major. Credits awarded to transfer students for courses taken prior to matriculation at Rice are not counted against the departmental limit on transfer courses, but all students must complete more than half of their upper-level major coursework (300-level and 400-level courses) at Rice.

Additional Information
For additional information, please see the Economics website: https://economics.rice.edu/.

Opportunities for the BA Degree with a Major in Economics

Academic Honors
The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (p. 51) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 51). Some departments have department-specific Honors awards or designations.

Requirements for Departmental Honors
1. To earn departmental honors in economics, students must earn a grade of B+ (3.33 grade points) or better in each semester of the department’s two-semester honors program, ECON 498 and ECON 499.
2. The honors program is available to both ECON and MTEC majors.
3. To be admitted to the honors program, students:
   a. must have a GPA of 3.67 or better in all courses taken toward fulfilling their departmental major requirements at the beginning of the academic year in which they enter the honors program;
   b. must have completed all of the core requirements for their major;
   c. must have completed the 400-level course or courses most closely related to their area of research, and
   d. must be accepted to the honors program by the professor supervising the program.
4. For additional information, consult the Economics Department Honors Program at https://economics.rice.edu/undergraduate-program/honors-program (https://economics.rice.edu/undergraduate-program/honors-program/).

Additional Information
For additional information, please see the Economics website: https://economics.rice.edu/.

Doctor of Philosophy (PhD) Degree in the field of Economics

Program Learning Outcomes for the MA and PhD Degrees in the field of Economics

Upon completing the MA degree in the field of Economics, students will be able to:

1. Carry out independent research in economics, using mathematical, statistical, econometric, and computational tools.
2. Conduct a focused review of the literature and develop a research design to carry out independent research. Read critically and assess research manuscripts related to their field of study and in other fields.

Additionally, upon completing the PhD degree in the field of Economics, students will be able to:

1. Write an independent and original thesis that is of sufficient quality to merit publication in a top economics journal.
2. Defend their research design and modeling choices by presenting their paper in a seminar environment. Communicate their research effectively by writing clearly, concisely, and cogently.

Requirements for the MA and PhD Degrees in the field of Economics

MA Degree Program
The MA degree is a non-thesis master's degree. For general university requirements for non-thesis masters degrees, please see Non-Thesis Master's Degrees (p. 75). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 60). Although students are not normally admitted to study for an MA, graduate students may earn the MA along the way to the PhD. In order to obtain the MA Degree in the field of Economics, students must:

• Earn a satisfactory grade in ECON 700 in the last two semesters before graduation.

Requirements for the PhD Degree in the field of Economics

PhD Degree Program
For general university requirements, please see Doctoral Degrees (p. 72). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 60). Candidates for the PhD usually spend from 2 to 2-1/2 years in full-time coursework and at least 1 year writing the thesis; 5 years is a reasonable goal for completing the program. For the PhD degree in the field of Economics, students must:

• Attend the statistics and mathematics camp before starting their first year courses.
• Complete an approved program of at least 18 courses (including approved courses in other departments), no more than 4 of which are research workshops. At least 2 years of full-time study must be in residence at Rice.
• Perform satisfactorily on the required coursework.
• Write a research paper proposal before the start of their third year.
• Write and present a research paper before the end of their third year.
• Choose a thesis advisor by the end of their seventh semester.
• Attend a research workshop every semester after their first year and present their own research in a workshop once every semester after their second year.
• Submit a written progress report in every semester they register for ECON 800.
• Submit a thesis progress report every year starting with their fourth year.
• Defend their thesis proposal to the faculty and students in a seminar during the spring semester of their fourth year.

Policies for the PhD Degree in the field of Economics

Department of Economics Graduate Program Handbook
The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, the department of Economics publishes a graduate program handbook, which can be found here: https://gradhandbooks.rice.edu/2020_21/Economics_PhD_Graduate_Handbook.pdf (https://gradhandbooks.rice.edu/2020_21/Economics_PhD_Graduate_Handbook.pdf)
Admission

Preparation for PhD Program: Applicants to the PhD program should have a strong background in mathematics and statistics. All applicants are required to take the Graduate Record Exam (GRE).

Transfer Credit

For Rice University's policy regarding transfer credit, see Transfer Credit (p. 70). Some departments and programs have additional restrictions on transfer credit. Students are encouraged to meet with their academic program's advisor when considering transfer credit possibilities.

- Requests for transfer credit will be considered by the program director on an individual case-by-case basis.

Additional Information

For additional information, please see the Economics website: https://economics.rice.edu/

Opportunities for the PhD Degree in the field of Economics

Additional Master's Degrees Options for the PhD Degree in the field of Economics, or the PhD Degree in the field of Statistics

Students pursuing the PhD degree in the field of Economics, or in the field of Statistics, have the opportunity to also earn a Master of Arts (MA) degree in either the fields of Economics or Statistics, respectively.

Requirements for the PhD Degree in the field of Economics with an MA Degree in the field of Statistics

Students pursuing the PhD degree in the field of Economics and the MA degree with coordinated work in Statistics must complete:

<table>
<thead>
<tr>
<th>Code</th>

</table>

Footnotes and Additional Information

1 Courses that are jointly listed (cross-listed) between the 2 departments are counted toward the number of courses in the "home" department of the particular course.

2 This may be directed by Statistics faculty, but must have strong econometrics content. The doctoral proposal in Statistics can count toward this requirement.

Requirements for the PhD Degree in the field of Economics and a Major Concentration in Econometrics and Quantitative Economics

Upon completing the PhD degree in the field of Economics and a major concentration in Econometrics and Quantitative Economics, students will be able to:

1. Carry out independent research in economics and finance, using mathematical, statistical, econometric, and computational tools.

2. Write an independent and original thesis that is of sufficient quality to merit publication in a top economics or finance journal.

3. Conduct a focused review of the literature and develop a research design to carry out independent research.
4. Defend their research design and modeling choices by presenting their paper in a seminar environment.

Requirements for the MA and PhD Degrees in the field of Economics

MA Degree Program
The MA degree is a non-thesis master's degree. For general university requirements for non-thesis master's degrees, please see Non-Thesis Master's Degrees (p. 75). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 60). Although students are not normally admitted to study for an MA degree, students may earn the MA along the way to the PhD. In order to obtain the MA Degree in the field of Economics, students must:

• Pass the first year core courses with a grade point average of 2.67 or better.
• Complete 6 field courses with passing grades.
• Earn a satisfactory grade in ECON 700 in the last two semesters before graduation.

Requirements for the PhD Degree in the field of Economics

PhD Degree Program
For general university requirements, please see Doctoral Degrees (p. 72). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 60). Candidates for the PhD usually spend from 2 to 2-1/2 years in full-time coursework and at least 1 year writing the thesis; 5 years is a reasonable goal for completing the program. For the PhD degree in the field of Economics, students must:

• Attend the statistics and mathematics camp before starting their first year courses.
• Complete an approved program of at least 18 courses (including approved courses in other departments), no more than 4 of which are research workshops. At least 2 years of full-time study must be in residence at Rice.
• Perform satisfactorily on the required coursework.
• Write a research paper proposal before the start of their third year.
• Write and present a research paper before the end of their third year.
• Choose a thesis advisor by the end of their seventh semester.
• Attend a research workshop every semester after their first year and present their own research in a workshop once every semester after their second year.
• Submit a written progress report in every semester they register for ECON 800.
• Submit a thesis progress report every year starting with their fourth year.
• Defend their thesis proposal to the faculty and students in a seminar during the spring semester of their fourth year.

Requirements for the Major Concentration: Econometrics and Quantitative Economics
Econometrics and quantitative economics are integral parts of the curriculum for the graduate program in economics. All students earning MA or PhD degrees in the field of Economics are awarded a Major Concentration in Econometrics and Quantitative Economics.

Policies for the PhD Degree in the field of Economics

Department of Economics Graduate Program Handbook
The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, the department of Economics publishes a graduate program handbook, which can be found here: https://gradhandbooks.rice.edu/2021-22/Economics_PhD_Graduate_Handbook.pdf

Admission
Preparation for PhD Program: Applicants to the PhD program should have a strong background in mathematics and statistics. All applicants are required to take the Graduate Record Exam (GRE).

Transfer Credit
For Rice University's policy regarding transfer credit, see Transfer Credit (p. 70). Some departments and programs have additional restrictions on transfer credit. Students are encouraged to meet with their academic program's advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines
Students pursuing the PhD degree in the field of Economics should be aware of the following departmental transfer credit guidelines:

• Request for transfer credit will be considered by the program director on an individual case-by-case basis.

Total Credit Hours Required for the PhD Degree in the field of Economics

Requirements for the Major Concentration: Economics and Finance

Students pursuing the PhD degree program in the field of Economics and a major concentration in Economics and Finance must:

1. Achieve a minimum grade of B (3.00 grade points) in each of the 10 required courses (32 credit hours), including Microeconomics, Macroeconomics, Econometrics, Real Analysis, Computational Economics, and Financial Economics.
3. Successfully complete 6 credit hours of elective requirements from the following courses: BUSI 524, BUSI 525, BUSI 526, and BUSI 527.
4. Successfully pass a comprehensive exam on Asset Pricing, Corporate Finance, and Empirical Methods administered by the Finance faculty at the end of the Fall semester of the second year.
5. Write and present a paper in the third year of the program. The paper and its presentation must be approved by two faculty advisors, one of whom must be in the Economics department and one of whom must be a member of the Finance group in the Business school.
6. Write and defend a thesis. The thesis committee must include at least one member from the Economics department and at least one member from the Finance group in the Business School.

Admission

Preparation for PhD Program: Applicants to the PhD program should have a strong background in mathematics and statistics. All applicants are required to take the Graduate Record Exam (GRE).

Transfer Credit

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 70). Some departments and programs have additional restrictions on transfer credit. Students are encouraged to meet with their academic program’s advisor when considering transfer credit possibilities.

The Education program at Rice University’s Susanne M. Glasscock School of Continuing Studies offers a comprehensive educational program that integrates work in courses with fieldwork experience. Additionally, we facilitate a network of support for our students and alumni so that we ensure our teacher leaders continue to grow and evolve as professionals.

Education courses are open to Rice students studying for careers in teaching and to Rice students interested in studying the complexities of the educational system and its role in society. The program provides fieldwork grounded in education research and theory. All of the courses include field-based experiences that encourage students to compare and apply their theoretical work to what is actually happening in schools. Our 21st century mission is to prepare and support teacher leaders to work with diverse students and be responsive to the paradigm shift in education that moves our children from passive recipients of knowledge to active responders to the knowledge they explore.

The Education program engages, prepares, and supports its leaders for student-centered classrooms in a diverse society. The program emphasizes the value of equity in education and the political and educational policies that should undergird that equity. Students acquire a strong foundation in educational leadership, assessment, classroom culture, instructional strategies, and skills. All students will implement culturally responsive content and pedagogy in working with languages and diverse learners as this program acknowledges the changing face of Houston and the nation.
Rice offers four education plans:

1. a program leading to the state of Texas Teacher Certification in combination with the undergraduate degree in the elected subject field(s), including notation of Texas Teacher Certification on the recipient’s Rice academic transcript,
2. a Master of Arts in Teaching (MAT) that can be completed concurrently with a Rice bachelor’s degree with generally one additional year of study,
3. a Master of Arts in Teaching (MAT) for pre-service, and
4. a Master of Arts in Teaching (MAT) for experienced teachers with an optional route to principal certification.

The Rice Education program balances academic integrity with Texas Education Agency (TEA) compliance. Students seeking additional information about the Education program are encouraged to meet with an advisor in the Education department in Rice University’s Susanne M. Glasscock School of Continuing Studies.

**Texas Teaching (TEA) Credentials (Texas Teacher and Principal Certifications)**

Rice is approved by the State of Texas to offer teacher preparation programs in the following fields: art, English language arts and reading, history, Latin, life sciences, mathematics, physical sciences, physics/mathematics, science, social studies, Spanish, and principalship.

After satisfactory completion of the Rice Education program, which includes the state-mandated examinations for teachers, students are recommended for a Texas teaching credential. The Texas Education Agency (TEA) then awards Texas Teacher Certification (for Grades 7–12) or Principal Certification.

**Higher Education Act Title II Reports**

The Higher Education Act (HEA) of the U.S. Congress requires each institution of higher education with a teacher preparation program that enrolls students receiving federal assistance under this act to report annually “to the State and the general public” certain information. This information includes the pass rate of their program completers on assessments required by the state for teacher licensure or certification, the statewide pass rate on those assessments and other basic information on their teacher preparation program.

Rice University’s Education program is accredited by the state of Texas. The first year pass rate for program completers on assessments required by the state for 2019-2020 was 100%, compared with 92% for the overall state pass rate. Eighteen students were enrolled in the program. Students spent an average of 40 hours per week in supervised student teaching with a student/faculty ratio of 4.5-to-1. Rice Education program graduates are regularly recruited by school districts in Houston and the surrounding areas because of their innovative ideas, content knowledge, expertise, leadership abilities, and dedication to the teaching profession.

Rice students will receive an acknowledgement and formal notation of their Texas Teacher Certification on their official Rice academic transcript.

Undergraduate students participating in the Education program, who wish to obtain Texas Teacher (TEA) Certification must complete:

- A minimum of 21 credit hours to satisfy the Texas Teacher (TEA) Certification requirements. Students must meet with an Education program advisor to develop a course of study.
- All university and major requirements for a Rice University bachelor’s degree.
- All courses in teaching field and education with a grade of B- (2.67 grade points) or better.
- All of the content courses specified by the certification field advisor(s). Lists of courses for each subject are available online and in the Education office.
- A minimum of 75 hours of field-based experience in local secondary schools, in conjunction with satisfactory results on background check with participating school districts.

In addition, undergraduate students in the Education program must satisfy the following requirements:

- Students must begin two-semester work in assigned school with first semester curriculum development and theory and methods courses and a second semester full-day practicum with a cooperating teacher (EDUC 421, EDUC 460, EDUC 461, EDUC 462, EDUC 463, EDUC 464, EDUC 465, EDUC 466, and EDUC 467).
- Students must pass the appropriate TExES exams.
- Students must apply with the appropriate (Texas) state agency for Texas Teacher (TEA) Certification when all requirements are completed.

**Professional Education Courses**

The following courses fulfill requirements for Texas Teacher (TEA) Certification. For additional information regarding requirements, students should contact the Education program (https://teach.rice.edu/texas-teacher-certification-rice-undergraduates/).

Footnotes and Additional Information

* The Education Program advises students to take EDUC 304 Race, Class, Gender in Education as an introductory course during the fall semester of the freshman year.

Admission

Rice undergraduate students may apply for admission to the Rice University Education program. In support of their application, candidates must submit:

- Official transcripts of previous and current university studies
- Proof of SAT or ACT scores
- Three letters of reference accompanied by the forms provided with the application
- Minimum 2.50 GPA
- Applications submitted during sophomore year with minimum 12 credit hours in the content area (15 credit hours for math and science) completed before admission
- Evidence that the applicant’s knowledge, experience, skills, and aptitude are appropriate for the certification sought.

The Texas Education Agency (TEA) requires candidates to undergo a criminal background check prior to field-based experience, prior to clinical training, and prior to being hired as a first-year teacher. Candidates may go through the fingerprinting process before applying for admission. If the results are unsatisfactory, the candidate may petition the TEA for reconsideration of the results. More information on this important rule is on the Education program website at: https://glasscock.rice.edu/departments/education/teacher-certification-undergraduate-students

Master’s Program

- Master of Arts in Teaching (MAT) Degree (p. 869) for Current Rice Undergraduates
- Master of Arts in Teaching (MAT) Degree (p. 874) for New Teachers
- Master of Arts in Teaching (MAT) Degree (p. 871) for Experienced Teachers
- Master of Arts in Teaching (MAT) Degree (p. 873) for Experienced Teachers with Principal Certification

Certificates

- Certificate in Dual Credit Teacher Credentialing: English (p. 790)
- Certificate in Dual Credit Teacher Credentialing: History (p. 791)

Education (EDUC)

EDUC 101 - SCIENCE EDUCATION AND CAREER EXPLORATION: INTRODUCTION TO AEROSPACE AND AVIATION

Short Title: INTRO TO AEROSPACE & AVIATION

Department: Education

Grade Mode: Satisfactory/Unsatisfactory

Course Type: Lecture/Laboratory

Credit Hour: 1

Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.

Course Level: Undergraduate Lower-Level

Description: This course enables students to survey the fields of aerospace and aviation and various career options within each. Student will explore career trajectories and supporting educational pathways; engage with engineering faculty from Rice University and practicing professionals during an interactive exploration through all of the phases of product creation; tour a rocket propulsion research facility; experience a mini-ground school simulation at a flight museum; and compete in both a high altitude weather balloon launch and rocket man challenge (each designed to apply learnings from classroom teachings). Department Permission Required.

EDUC 202 - CONTEMPORARY ISSUES IN EDUCATION

Short Title: CONTEMPORARY ISSUES IN EDUC

Department: Education

Grade Mode: Standard Letter

Course Type: Lecture/Laboratory

Credit Hours: 3

Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.

Course Level: Undergraduate Lower-Level

Description: The course examines the way globalization, immigration, privatization and the increasing diversity in our student population is shaping, and being shaped, by America’s schools. An exploration of these and other issues from both micro- (student) and macro- (systemic) levels, will be the mainstay of the course. The lenses of sociology, psychology and political economy will be used throughout the semester. The course is open to students in these fields and to students exploring a career in teaching, and is recommended for students entering the teacher education program. This course requires five hours of observation in a local secondary school. Graduate/Undergraduate Equivalency: EDUC 502. Mutually Exclusive: Cannot register for EDUC 202 if student has credit for EDUC 502.
EDUC 238 - SPECIAL TOPICS  
Short Title: SPECIAL TOPICS  
Department: Education  
Grade Mode: Standard Letter  
Course Type: Internship/Practicum, Laboratory, Lecture, Seminar, Independent Study  
Credit Hours: 1-4  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Lower-Level  
Description: Topics and credit hours vary each semester. Contact department for current semester's topic(s). Repeatable for Credit.  

EDUC 267 - CAREER PRACTICUM  
Short Title: CAREER PRACTICUM  
Department: Education  
Grade Mode: Standard Letter  
Course Type: Internship/Practicum  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Lower-Level  
Description: This experiential learning course provides academic content and guided career and professional development for undergraduate students in a real-world, professional context. It is designed for students to gain experience in a work-place setting while engaging with relevant, focused academic course content. The course provides an opportunity for students to apply the theoretical knowledge learned in the classroom and further develop practical experiences and professional skills in their field of interest while under the supervision and guidance of a field-based, industry-focused mentor and academic instructor. Department Permission Required. Repeatable for Credit.  

EDUC 301 - PHILOSOPHICAL, HISTORICAL, AND SOCIAL FOUNDATIONS OF EDUCATION  
Short Title: PHIL,HIST,&SOC FOUNDTN OF EDUC  
Department: Education  
Grade Mode: Standard Letter  
Course Type: Lecture/Laboratory  
Distribution Group: Distribution Group II  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Description: In this course students analysis events and ideas that have shaped the philosophy and practice of American schools today. It is appropriate for all students interested in the influences and stresses that have created a unique educational system in our culturally diverse country. This course requires five hours of observation in a local secondary school. Graduate/Undergraduate Equivalency: EDUC 501. Mutually Exclusive: Cannot register for EDUC 301 if student has credit for EDUC 501.  

EDUC 304 - RACE, CLASS, GENDER IN EDUCATION  
Short Title: RACE, CLASS, GENDER IN EDUC  
Department: Education  
Grade Mode: Standard Letter  
Course Type: Seminar  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Description: This course examines the complex ways in which race, ethnicity, gender, and class intersect and influence the educational experience of students in American schools. By employing an interdisciplinary approach centered both on individuals’ lived experiences and educational system as a whole; EDUC 304 explores and critiques these critical issues and their impact on student learning. Likely topics include the historical foundations of race, class and gender in education, segregation, Title IX, and other contemporary topics. Graduate/Undergraduate Equivalency: EDUC 504. Mutually Exclusive: Cannot register for EDUC 304 if student has credit for EDUC 504.  

EDUC 305 - EDUCATIONAL PSYCHOLOGY  
Short Title: EDUCATIONAL PSYCHOLOGY  
Department: Education  
Grade Mode: Standard Letter  
Course Type: Lecture/Laboratory  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Description: The goal of this course is to introduce students to a psychological understanding of teaching and learning through an overview of principles, issues, and related research in educational psychology. Students in this course will examine theories of learning, complex cognitive processes, cognitive and emotional development, and motivation. These constructs will be applied to effective instruction, the design of optimum learning environments, assessment of student learning, and teaching in diverse classrooms. Required for those seeking teacher certification. This course requires five hours of observation in a local secondary school. Graduate/Undergraduate Equivalency: EDUC 505. Mutually Exclusive: Cannot register for EDUC 305 if student has credit for EDUC 505.  

EDUC 310 - INTRODUCTION TO SPECIAL EDUCATION  
Short Title: INTRODUCTION SPECIAL EDUCATION  
Department: Education  
Grade Mode: Standard Letter  
Course Type: Lecture/Laboratory  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Description: This course will introduce and expose students to the field of Special Education. Students will learn about the various individuals who receive special education as well as other types of exceptionality, including giftedness. Controversial issues in this field will be examined along with pertinent legislation. This course will familiarize students with instructional approaches in special education and the social issues impacting the field. Students will visit area schools. This course requires five hours of observation in a local secondary school. Graduate/Undergraduate Equivalency: EDUC 510. Mutually Exclusive: Cannot register for EDUC 310 if student has credit for EDUC 510.
EDUC 319 - ADOLESCENT DEVELOPMENT
Short Title: ADOLESCENT DEVELOPMENT
Department: Education
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: The goal of this course is to introduce students to basic theories of adolescent development and cognition. The course will examine principles and concepts in the areas of physical, emotional and psychological development, identity formation, sexuality, and family and peer relations. Other ‘hot topics’ such as substance abuse, eating disorders, and teenagers and the media will also be examined. This course requires five hours of observation in a local secondary school. Graduate/Undergraduate Equivalency: EDUC 519. Mutually Exclusive: Cannot register for EDUC 319 if student has credit for EDUC 519.

EDUC 316 - ASSESSMENT
Short Title: ASSESSMENT
Department: Education
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: In this course, students will use formative and summative assessment to drive instructional decisions. Disaggregation of student data growth in the classroom and on standardized tests will foster academic achievement. Graduate/Undergraduate Equivalency: EDUC 516. Mutually Exclusive: Cannot register for EDUC 316 if student has credit for EDUC 516.

EDUC 319 - TEACHING AND LEARNING WITH INQUIRY
Short Title: TEACHING & LEARNING W/INQUIRY
Department: Education
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Education for the 21st Century of change and innovation demands problem-solving and critical thinking skills. This course approaches the teaching of context areas with a student-focused lens that engages inquiring minds with the small group exploration of open-ended problems. Lesson structure, activities, and assessment will be integral to the course. This course requires five hours of observation in a local secondary school. Graduate/Undergraduate Equivalency: EDUC 519. Mutually Exclusive: Cannot register for EDUC 319 if student has credit for EDUC 519.

EDUC 320 - TEACHING DIVERSE LEARNERS
Short Title: TEACHING DIVERSE LEARNERS
Department: Education
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course offers pedagogies for learners who have different ways of seeing the world, different experiences, and different learning needs. A variety of teaching methods and strategies help special needs students, gifted and talented students and English language learners succeed in the classroom. This course also addresses effective communication in ARDS, LPACS, and staffing within classrooms. Students learn about the support personnel who can assist the classroom teacher. Required for certification. This course requires five hours of observation in a local secondary school. Graduate/Undergraduate Equivalency: EDUC 520. Mutually Exclusive: Cannot register for EDUC 320 if student has credit for EDUC 520.

EDUC 323 - CREATIVE WRITING IN THE CLASSROOM
Short Title: CREATIVE WRITING IN CLASSROOM
Department: Education
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Rice students enrolled in this intensive summer internship will work alongside master teachers and professional writers to promote creative thinking and writing with middle and high school students. Students in this course will explore arts integration pedagogy, engage in the classroom planning process, lead lessons, facilitate student writing, and develop anthologies to showcase student voices. Instructor Permission Required. Graduate/Undergraduate Equivalency: EDUC 523. Mutually Exclusive: Cannot register for EDUC 323 if student has credit for EDUC 523. Repeatable for Credit.

EDUC 325 - ADOLESCENT LITERATURE
Short Title: ADOLESCENT LITERATURE
Department: Education
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: The nature of adolescence in an increasingly complex and diversity society is examined through literature written for and about adolescents and young adults. This study of the cultural, literary and developmental issues in adolescent literature is relevant to students of literature, psychology, child development, anthropology and sociology, and is recommended for students preparing to become teachers. This course requires five hours of observation in a local secondary school. Graduate/Undergraduate Equivalency: EDUC 525. Mutually Exclusive: Cannot register for EDUC 325 if student has credit for EDUC 525.
EDUC 330 - THE AMERICAN HIGH SCHOOL
Short Title: THE AMERICAN HIGH SCHOOL
Department: Education
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Historically one of the few universally experienced institutions in the U.S., the American high school has been an essential rite of passage for youth and an essential building block of democracy. Students in this course will study the historical origins of the high school and examine its roles in the economy, culture, and the lives of youth. Using field study of an urban high school (15 hours of observation required for undergraduates), students will analyze the contemporary high school and debate about its future. Graduate/Undergraduate Equivalency: EDUC 530. Mutually Exclusive: Cannot register for EDUC 330 if student has credit for EDUC 530.

EDUC 335 - URBAN EDUCATION: ISSUES, POLICY, AND PRACTICE
Short Title: URBAN ED:ISSUES, POLICY & PRAC
Department: Education
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course focuses on the major issues facing urban education, including poverty, the implications of racial and ethnic diversity for educational institutions, and strategies for improving academic achievement in urban schools. Students will examine sociological, political, cultural and educational research and theory, as well as explore strategies for improvement of urban education at the classroom, school and policy levels. This course requires five hours of observation in a local secondary school. Graduate/Undergraduate Equivalency: EDUC 535. Mutually Exclusive: Cannot register for EDUC 335 if student has credit for EDUC 535.

EDUC 345 - EDUCATIONAL TECHNOLOGIES & DIGITAL LEARNING
Short Title: EDUC TECH & DIGITAL LRNING
Department: Education
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: The primary purposes of this course is to prepare teachers to identify and evaluate effective, appropriate data and curriculum management systems/programs that improve student achievement, to determine how technologies can personalize and accelerate learning goals for students; and understand how technology can be used to change communication and pedagogical practices in the classroom. This course is required for certification. This course requires five hours of observation in a local secondary school. Graduate/Undergraduate Equivalency: EDUC 545. Mutually Exclusive: Cannot register for EDUC 345 if student has credit for EDUC 545.

EDUC 350 - EDUCATION POLICY: FROM LEGISLATURES TO CLASSROOMS
Short Title: EDUCATION POLICY
Department: Education
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Policy issues in this course include school funding, curriculum decisions, accountability systems, discipline policies, and other areas. What are the major policy discussions affecting K-12 education today, and how are they resolved in the political arena? Who drives policy in each of these areas and what role can or does research-based analysis play? We will answer these questions and more as we explore the political arena of educational policy. This class requires five hours of observation in a local secondary school. Graduate/Undergraduate Equivalency: EDUC 550. Mutually Exclusive: Cannot register for EDUC 350 if student has credit for EDUC 550/POST 340.

EDUC 421 - CURRICULUM DEVELOPMENT
Short Title: CURRICULUM DEVELOPMENT
Department: Education
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment limited to students with a class of Senior. Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course is the first of a two-part series for preservice teachers. It offers a reflective study of classroom practice through seventy-five (75) hours of observation in secondary schools and teaching activities under the guidance of cooperating teachers and education team members in an actual classroom setting. This course includes opportunities to structure lessons for diverse student populations with whole group and small group lessons. This course is required for certification. Instructor Permission Required. Graduate/Undergraduate Equivalency: EDUC 521. Mutually Exclusive: Cannot register for EDUC 421 if student has credit for EDUC 521.

EDUC 422 - LITERACY ACROSS THE CURRICULUM
Short Title: LITERACY ACROSS THE CURRICULUM
Department: Education
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: How students are taught to read and write in all academic and elective disciplines is critical to the academic development of adolescents. In this course multiple literacies will be discussed in terms of theory and practice. Students will examine reading, writing, listening, speaking and thinking strategies across the curriculum and their impact on learning. Additionally students will investigate, plan, and practice the skills of using literacy strategies for the specific discipline. Required for certification. This course requires five hours of observation in a local secondary school. Graduate/Undergraduate Equivalency: EDUC 522. Mutually Exclusive: Cannot register for EDUC 422 if student has credit for EDUC 522.
EDUC 460 - THEORY AND METHODS: ART
Short Title: THEORY AND METHODS: ART
Department: Education
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Students with a class of Freshman may not enroll.
Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course involves the study and integration of theory and methods with observation and practice in the classroom through the facilitation of student-led, student-centered activities. Under the guidance of education support team members, the course offers multiple methods for implementing curriculum with diverse students. Required for certification. This course includes a minimum of 5 hours of observation in a local secondary school. Graduate/Undergraduate Equivalency: EDUC 560. Mutually Exclusive: Cannot register for EDUC 460 if student has credit for EDUC 560.

EDUC 461 - THEORY AND METHODS: ENGLISH LANGUAGE ARTS & READING (ELAR)
Short Title: THEORY AND METHODS: ELAR
Department: Education
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Students with a class of Freshman may not enroll.
Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course involves the study and integration of theory and methods with observation and practice in the classroom through the facilitation of student-led, student-centered activities. Under the guidance of education support team members, the course offers multiple methods for implementing curriculum with diverse students. Required for certification. This course includes a minimum of 5 hours of observation in a local secondary school. Graduate/Undergraduate Equivalency: EDUC 561. Mutually Exclusive: Cannot register for EDUC 461 if student has credit for EDUC 561.

EDUC 462 - THEORY AND METHODS: LOTE
Short Title: THEORY AND METHODS: LOTE
Department: Education
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Students with a class of Freshman may not enroll.
Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course involves the study and integration of theory and methods with observation and practice in the classroom through the facilitation of student-led, student-centered activities. Under the guidance of education support team members, the course offers multiple methods for implementing curriculum with diverse students. Required for certification. This course includes a minimum of 5 hours of observation in a local secondary school. Graduate/Undergraduate Equivalency: EDUC 562. Mutually Exclusive: Cannot register for EDUC 462 if student has credit for EDUC 562.

EDUC 463 - THEORY AND METHODS: MATHEMATICS
Short Title: THEORY AND METHODS:MATHEMATICS
Department: Education
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 1-3
Restrictions: Students with a class of Freshman may not enroll.
Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course involves the study and integration of theory and methods with observation and practice in the classroom through the facilitation of student-led, student-centered activities. Under the guidance of education support team members, the course offers multiple methods for implementing curriculum with diverse students. Required for certification. This course includes a minimum of 5 hours of observation in a local secondary school. Graduate/Undergraduate Equivalency: EDUC 563. Mutually Exclusive: Cannot register for EDUC 463 if student has credit for EDUC 563.

EDUC 464 - THEORY AND METHODS: PHYSICAL EDUCATION
Short Title: THEORY AND METHODS:PHYSICAL ED
Department: Education
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Students with a class of Freshman may not enroll.
Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course involves the study and integration of theory and methods with observation and practice in the classroom through the facilitation of student-led, student-centered activities. Under the guidance of education support team members, the course offers multiple methods for implementing curriculum with diverse students. Required for certification. This course includes a minimum of 5 hours of observation in a local secondary school. Graduate/Undergraduate Equivalency: EDUC 564. Mutually Exclusive: Cannot register for EDUC 464 if student has credit for EDUC 564.

EDUC 465 - THEORY AND METHODS: SCIENCE
Short Title: THEORY AND METHODS: SCIENCE
Department: Education
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 1-3
Restrictions: Students with a class of Freshman may not enroll.
Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course involves the study and integration of theory and methods with observation and practice in the classroom through the facilitation of student-led, student-centered activities. Under the guidance of education support team members, the course offers multiple methods for implementing curriculum with diverse students. Required for certification. This course includes a minimum of 5 hours of observation in a local secondary school. Graduate/Undergraduate Equivalency: EDUC 565. Mutually Exclusive: Cannot register for EDUC 465 if student has credit for EDUC 565.
EDUC 466 - THEORY AND METHODS: SOCIAL STUDIES
Short Title: THEORY AND METHODS: SOCIAL STUDS
Department: Education
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Students with a class of Freshman may not enroll. Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course involves the study and integration of theory and methods with observation and practice in the classroom through the facilitation of student-led, student-centered activities. Under the guidance of education support team members, the course offers multiple methods for implementing curriculum with diverse students. Required for certification. This course includes a minimum of 5 hours of observation in a local secondary school. Graduate/Undergraduate Equivalency: EDUC 566. Mutually Exclusive: Cannot register for EDUC 466 if student has credit for EDUC 566.

EDUC 467 - PRACTICUM FOR PRESERVICE TEACHERS
Short Title: PRACT FOR PRESERVICE TEACHERS
Department: Education
Grade Mode: Standard Letter
Course Type: Internship/Practicum
Credit Hours: 6
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): (EDUC 460 or EDUC 461 or EDUC 462 or EDUC 463 or EDUC 464 or EDUC 465 or EDUC 466) and EDUC 421
Description: This is the second course in the two-part series for preservice teachers. In this field-based practicum. The preservice teacher will have a concentrated experience in student teaching based on the lesson development, pedagogical explorations, and field-based work of the previous semester. Students are expected to follow the assigned district/campus academic calendar for the semester of student teaching. This course is required for certification. Graduate/Undergraduate Equivalency: EDUC 567. Mutually Exclusive: Cannot register for EDUC 467 if student has credit for EDUC 567.

EDUC 470 - FIELD-BASED STUDIES IN TEACHING AND LEARNING
Short Title: FLD-BASED STDY TEACH & LRNG
Department: Education
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 1-3
Restrictions: Students with a class of Freshman or Sophomore may not enroll. Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: The study of critical issues in urban education uses ethnographic research methods to study a wide range of educational subjects, from policy impact to classroom practice, from curriculum and pedagogy to the cultures of the children. The course includes a seminar on research methodologies, with a focus on ethnography; independent research projects in a local school setting; and directed case studies. It is open particularly to students in education, sociology, psychology, anthropology and cultural studies. Graduate/Undergraduate Equivalency: EDUC 570. Mutually Exclusive: Cannot register for EDUC 470 if student has credit for EDUC 570.

EDUC 477 - SPECIAL TOPICS
Short Title: SPECIAL TOPICS
Department: Education
Grade Mode: Standard Letter
Course Type: Internship/Practicum, Seminar, Laboratory, Lecture
Credit Hours: 1-4
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Topics and credit hours vary each semester. Contact department for current semester's topic(s). Repeatable for Credit.

EDUC 491 - INDEPENDENT STUDY AND RESEARCH
Short Title: INDEPENDENT STUDY AND RESEARCH
Department: Education
Grade Mode: Standard Letter
Course Type: Research
Credit Hours: 1-3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course uses ethnographic and quantitative research methods to study a specific issue in education. Independent research projects may include literature reviews and analysis, and/or case studies in school settings. Instructor Permission Required. Graduate/Undergraduate Equivalency: EDUC 591. Mutually Exclusive: Cannot register for EDUC 491 if student has credit for EDUC 591. Repeatable for Credit.

EDUC 501 - PHILOSOPHICAL, HISTORICAL, AND SOCIAL FOUNDATIONS OF EDUCATION
Short Title: PHILOS,HIST,&SOC FOUNDTN OF EDUC
Department: Education
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: In this course students analysis events and ideas that have shaped the philosophy and practice of American schools today. It is appropriate for all students interested in the influences and stresses that have created a unique educational system in our culturally diverse country. This course requires five hours of observation in a local secondary school. Additional assignments are required beyond those for EDUC 501. Graduate/Undergraduate Equivalency: EDUC 301. Mutually Exclusive: Cannot register for EDUC 501 if student has credit for EDUC 301.
EDUC 502 - CONTEMPORARY ISSUES IN EDUCATION
Short Title: CONTEMPORARY ISSUES IN EDUC
Department: Education
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: The course examines the way globalization, immigration, privatization and the increasing diversity in our student population is shaping, and being shaped, by America's schools. An exploration of these and other issues from both micro- (student) and macro- (systemic) levels, will be the mainstay of the course. The lenses of sociology, psychology and political economy will be used throughout the semester. The course is open to students in these fields and to students exploring a career in teaching, and is recommended for students entering the teacher education program. This course requires five hours of observation in a local secondary school. Additional assignments are required beyond those for EDUC 202. Graduate/Undergraduate Equivalency: EDUC 202. Mutually Exclusive: Cannot register for EDUC 502 if student has credit for EDUC 202.

EDUC 504 - RACE, CLASS, GENDER IN EDUCATION
Short Title: RACE, CLASS, GENDER IN EDUC
Department: Education
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course examines the complex ways in which race, ethnicity, gender, and class intersect and influence the educational experience of students in American schools. By employing an interdisciplinary approach centered both on individuals' lived experiences and educational system as a whole; EDUC 504 explores and critiques these critical issues and their impact on student learning. Likely topics include the historical foundations of race, class and gender in education, segregation, Title IX, and other contemporary topics. This graduate equivalent of EDUC 304 requires additional assignments. Graduate/Undergraduate Equivalency: EDUC 304. Mutually Exclusive: Cannot register for EDUC 504 if student has credit for EDUC 304.

EDUC 505 - EDUCATIONAL PSYCHOLOGY
Short Title: EDUCATIONAL PSYCHOLOGY
Department: Education
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: The goal of this course is to introduce students to a psychological understanding of teaching and learning through an overview of principles, issues, and related research in educational psychology. Students in this course will examine theories of learning, complex cognitive processes, cognitive and emotional development, and motivation. These constructs will be applied to effective instruction, the design of optimum learning environments, assessment of student learning, and teaching in diverse classrooms. Required for those seeking teacher certification. This course requires five hours of observation in a local secondary school. Graduate/Undergraduate Equivalency: EDUC 305. Mutually Exclusive: Cannot register for EDUC 505 if student has credit for EDUC 305.

EDUC 510 - INTRODUCTION TO SPECIAL EDUCATION
Short Title: INTRODUCTION SPECIAL EDUCATION
Department: Education
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course will introduce and expose students to the field of Special Education. Students will learn about the various individuals who receive special education as well as other types of exceptionality, including giftedness. Controversial issues in this field will be examined along with pertinent legislation. This course will familiarize students with instructional approaches in special education and the social issues impacting the field. Students will visit area schools. This course requires five hours of observation in a local secondary school. Recommended for certification. Additional assignments are required beyond those for EDUC 310. Graduate/Undergraduate Equivalency: EDUC 310. Mutually Exclusive: Cannot register for EDUC 510 if student has credit for EDUC 310.

EDUC 515 - ADOLESCENT DEVELOPMENT
Short Title: ADOLESCENT DEVELOPMENT
Department: Education
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: The goal of this course is to introduce students to basic theories of adolescent development and cognition. The course will examine principles and concepts in the areas of physical, emotional and psychological development, identity formation, sexuality, and family and peer relations. Other 'hot topics' such as substance abuse, eating disorders, and teenagers and the media will also be examined. This course requires five hours of observation in a local secondary school. Additional assignments are required beyond those for EDUC 315. Graduate/Undergraduate Equivalency: EDUC 315. Mutually Exclusive: Cannot register for EDUC 515 if student has credit for EDUC 315.

EDUC 516 - ASSESSMENT
Short Title: ASSESSMENT
Department: Education
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: In this course, students will use formative and summative assessment to drive instructional decisions. Disaggregation of student data growth in the classroom and on standardized tests will foster academic achievement. Additional requirements are required beyond those for EDUC 316. Graduate/Undergraduate Equivalency: EDUC 316. Mutually Exclusive: Cannot register for EDUC 516 if student has credit for EDUC 316.
EDUC 519 - TEACHING AND LEARNING WITH INQUIRY
Short Title: TEACHING & LEARNING W/INQUIRY
Department: Education
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Education for the 21st Century of change and innovation demands problem-solving and critical thinking skills. This course approaches the teaching of context areas with a student-focused lens that engages inquiring minds with the small group exploration of open-ended problems. Lesson structure, activities, and assessment will be integral to the course. This course requires five hours of observation in a local secondary school. Additional assignments are required beyond those of EDUC 319. Graduate/Undergraduate Equivalency: EDUC 319. Mutually Exclusive: Cannot register for EDUC 519 if student has credit for EDUC 319.

EDUC 520 - TEACHING DIVERSE LEARNERS
Short Title: TEACHING DIVERSE LEARNERS
Department: Education
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course offers pedagogies for learners who have different ways of seeing the world, different experiences, and different learning needs. A variety of teaching methods and strategies help special needs students, gifted and talented students and English language learners succeed in the classroom. This course also addresses effective communication in ARDS, LPACS, and staffing within classrooms. Students learn about the support personnel who can assist the classroom teacher. Required for certification. This course requires five hours of observation in a local secondary school. Additional assignments are required beyond those for EDUC 320. Graduate/Undergraduate Equivalency: EDUC 320. Mutually Exclusive: Cannot register for EDUC 520 if student has credit for EDUC 320.

EDUC 521 - CURRICULUM DEVELOPMENT
Short Title: CURRICULUM DEVELOPMENT
Department: Education
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course is the first of a two-part series for preservice teachers. It offers a reflective study of classroom practice through seventy-five (75) hours of observation in secondary schools and teaching activities under the guidance of cooperating teachers and education team members in an actual classroom setting. This course includes opportunities to structure lessons for diverse student populations with whole group and small group lessons. This course is required for certification. Additional assignments are required beyond those for EDUC 421. Instructor Permission Required. Graduate/Undergraduate Equivalency: EDUC 421. Mutually Exclusive: Cannot register for EDUC 521 if student has credit for EDUC 421.

EDUC 522 - LITERACY ACROSS THE CURRICULUM
Short Title: LITERACY ACROSS THE CURRICULUM
Department: Education
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: How students are taught to read and write in all academic and elective disciplines is critical to the academic development of adolescents. In this course multiple literacies will be discussed in terms of theory and practice. Students will examine reading, writing, listening, speaking and thinking strategies across the curriculum and their impact on learning. Additionally students will investigate, plan, and practice the skills of using literacy strategies for the specific discipline. Required for certification. This course requires five hours of observation in a local secondary school. Additional assignments are required beyond those for EDUC 422. Graduate/Undergraduate Equivalency: EDUC 422. Mutually Exclusive: Cannot register for EDUC 522 if student has credit for EDUC 422.

EDUC 523 - CREATIVE WRITING IN THE CLASSROOM
Short Title: CREATIVE WRITING IN CLASSROOM
Department: Education
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Rice students enrolled in this intensive summer internship will work alongside master teachers and professional writers to promote creative thinking and writing with middle and high school students. Students in this course will explore arts integration pedagogy, engage in the classroom planning process, lead lessons, facilitate student writing, and develop anthologies to showcase student voices. Additional assignments are required beyond those for EDUC 323. Instructor Permission Required. Graduate/Undergraduate Equivalency: EDUC 323. Mutually Exclusive: Cannot register for EDUC 523 if student has credit for EDUC 323. Repeatable for Credit.

EDUC 525 - ADOLESCENT LITERATURE
Short Title: ADOLESCENT LITERATURE
Department: Education
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: The nature of adolescence in an increasingly complex and diversity society is examined through literature written for and about adolescents and young adults. This study of the cultural, literary and developmental issues in adolescent literature is relevant to students of literature, psychology, child development, anthropology and sociology, and is recommended for students preparing to become teachers. This course requires five hours of observation in a local secondary school. Additional assignments are required beyond those for EDUC 325. Graduate/Undergraduate Equivalency: EDUC 325. Mutually Exclusive: Cannot register for EDUC 525 if student has credit for EDUC 325.
EDUC 530 - THE AMERICAN HIGH SCHOOL
Short Title: THE AMERICAN HIGH SCHOOL
Department: Education
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Historically one of the few universally experienced institutions in the U.S., the American high school has been an essential rite of passage for youth and an essential building block of Democracy. This course will study the historical origins of the high school; examine its roles in the economy, our culture, and the lives of youth. We will examine the contemporary high school and debates about its future, through the field of study of an urban high school (20 hours of observation required for graduates). Required for certification unless EDUC 501 is substituted. Additional assignments are required. Graduate/Undergraduate Equivalency: EDUC 330. Mutually Exclusive: Cannot register for EDUC 530 if student has credit for EDUC 330.

EDUC 535 - URBAN EDUCATION: ISSUES, POLICY, AND PRACTICE
Short Title: URBAN ED:ISSUES, POLICY & PRAC
Department: Education
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course focuses on the major issues facing urban education, including poverty, the implications of racial and ethnic diversity for educational institutions, and strategies for improving academic achievement in urban schools. Students will examine sociological, political, cultural and educational research and theory, as well as explore strategies for improvement of urban education at the classroom, school and policy levels. This course requires five hours of observation in a local secondary school. Additional assignments are required beyond those for EDUC 335. Graduate/Undergraduate Equivalency: EDUC 335. Mutually Exclusive: Cannot register for EDUC 535 if student has credit for EDUC 335.

EDUC 540 - SEMINAR FOR FIRST-YEAR TEACHERS
Short Title: SEMINAR FOR FIRST-YR TEACHERS
Department: Education
Grade Mode: Standard Letter
Course Type: Internship/Practicum
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: In this single-year internship, first year teachers will be supported in their work by field supervisors. In a weekly seminar, teachers will analyze their practice with current theories in education. Teachers will also develop and defend portfolios of their work. This course is required for stand certification and for the Master of Arts in Teaching. Repeatable for Credit.

EDUC 545 - EDUCATIONAL TECHNOLOGIES & DIGITAL LEARNING
Short Title: EDUC TECH & DIGITAL LRNING
Department: Education
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: The primary purposes of this course is to prepare teachers to identify and evaluate effective, appropriate data and curriculum management systems/programs that improve student achievement; to determine how technologies can personalize and accelerate learning goals for students; and understand how technology can be used to change communication and pedagogical practices in the classroom. This course is required for certification. This course requires five hours of observation in a local secondary school. Additional assignments are required beyond those for EDUC 345. Graduate/Undergraduate Equivalency: EDUC 345. Mutually Exclusive: Cannot register for EDUC 545 if student has credit for EDUC 345.

EDUC 550 - EDUCATION POLICY: FROM LEGISLATURES TO CLASSROOMS
Short Title: EDUCATION POLICY
Department: Education
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Policy issues in this course include school funding, curriculum decisions, accountability systems, discipline policies, and other areas. What are the major policy discussions affecting K-12 education today, and how are they resolved in the political arena? Who drives policy in each of these areas and what role can or does research-based analysis play? We will answer these questions and more as we explore the political arena of educational policy. This class requires five hours of observation in a local secondary school. Additional assignments are required beyond those for EDUC 350. Graduate/Undergraduate Equivalency: EDUC 350. Mutually Exclusive: Cannot register for EDUC 550 if student has credit for EDUC 350/POST 340.

EDUC 556 - THEORY AND METHODS: ART
Short Title: THEORY AND METHODS: ART
Department: Education
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course involves the study and integration of theory and methods with observation and practice in the classroom through the facilitation of student-led, student-centered activities. Under the guidance of education support team members, the course offers multiple methods for implementing curriculum with diverse students. Required for certification. This course includes a minimum of 5 hours of observation in a local secondary school. Additional assignments are required beyond those for EDUC 460. Graduate/Undergraduate Equivalency: EDUC 460. Mutually Exclusive: Cannot register for EDUC 560 if student has credit for EDUC 460.
EDUC 561 - THEORY AND METHODS: ENGLISH LANGUAGE ARTS & READING (ELAR)
Short Title: THEORY AND METHODS: ELAR
Department: Education
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course involves the study and integration of theory and methods with observation and practice in the classroom through the facilitation of student-led, student-centered activities. Under the guidance of education support team members, the course offers multiple methods for implementing curriculum with diverse students. Required for certification. This course includes a minimum of 5 hours of observation in a local secondary school. Additional assignments are required beyond those for EDUC 461. Graduate/Undergraduate Equivalency: EDUC 461. Mutually Exclusive: Cannot register for EDUC 561 if student has credit for EDUC 461.

EDUC 562 - THEORY AND METHODS: LOTE
Short Title: THEORY AND METHODS: LOTE
Department: Education
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course involves the study and integration of theory and methods with observation and practice in the classroom through the facilitation of student-led, student-centered activities. Under the guidance of education support team members, the course offers multiple methods for implementing curriculum with diverse students. Required for certification. This course includes a minimum of 5 hours of observation in a local secondary school. Additional assignments are required beyond those for EDUC 462. Graduate/Undergraduate Equivalency: EDUC 462. Mutually Exclusive: Cannot register for EDUC 562 if student has credit for EDUC 462.

EDUC 563 - THEORY AND METHODS: MATHEMATICS
Short Title: THEORY AND METHODS:MATHEMATICS
Department: Education
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 1-3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course involves the study and integration of theory and methods with observation and practice in the classroom through the facilitation of student-led, student-centered activities. Under the guidance of education support team members, the course offers multiple methods for implementing curriculum with diverse students. Required for certification. This course includes a minimum of 5 hours of observation in a local secondary school. Additional assignments are required beyond those for EDUC 463. Graduate/Undergraduate Equivalency: EDUC 463. Mutually Exclusive: Cannot register for EDUC 563 if student has credit for EDUC 463.

EDUC 564 - THEORY AND METHODS: PHYSICAL EDUCATION
Short Title: THEORY AND METHODS:PHYSICAL ED
Department: Education
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course involves the study and integration of theory and methods with observation and practice in the classroom through the facilitation of student-led, student-centered activities. Under the guidance of education support team members, the course offers multiple methods for implementing curriculum with diverse students. Required for certification. This course includes a minimum of 5 hours of observation in a local secondary school. Additional assignments are required beyond those for EDUC 464. Graduate/Undergraduate Equivalency: EDUC 464. Mutually Exclusive: Cannot register for EDUC 564 if student has credit for EDUC 464.

EDUC 565 - THEORY AND METHODS: SCIENCE
Short Title: THEORY AND METHODS: SCIENCE
Department: Education
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 1-3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course involves the study and integration of theory and methods with observation and practice in the classroom through the facilitation of student-led, student-centered activities. Under the guidance of education support team members, the course offers multiple methods for implementing curriculum with diverse students. Required for certification. This course includes a minimum of 5 hours of observation in a local secondary school. Additional assignments are required beyond those for EDUC 465. Graduate/Undergraduate Equivalency: EDUC 465. Mutually Exclusive: Cannot register for EDUC 565 if student has credit for EDUC 465.

EDUC 566 - THEORY AND METHODS: SOCIAL STUDIES
Short Title: THEORY AND METHODS:SOCIAL STUD
Department: Education
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course involves the study and integration of theory and methods with observation and practice in the classroom through the facilitation of student-led, student-centered activities. Under the guidance of education support team members, the course offers multiple methods for implementing curriculum with diverse students. Required for certification. This course includes a minimum of 5 hours of observation in a local secondary school. Additional assignments are required beyond those for EDUC 466. Graduate/Undergraduate Equivalency: EDUC 466. Mutually Exclusive: Cannot register for EDUC 566 if student has credit for EDUC 466.
EDUC 567 - PRACTICUM FOR PRESERVICE TEACHERS
Short Title: PRACT FOR PRESERVICE TEACHERS
Department: Education
Grade Mode: Standard Letter
Course Type: Internship/Practicum
Credit Hours: 6
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): EDUC 560 or EDUC 561 or EDUC 562 or EDUC 563 or EDUC 564 or EDUC 565 or EDUC 566 and EDUC 521
Description: This is the second course in the two-part series for preservice teachers. In this field-based practicum, the preservice teacher will have a concentrated experience in student teaching based on the lesson development, pedagogical explorations, and field-based work of the previous semester. Students are expected to follow the assigned district/campus academic calendar for the semester of student teaching. This course is required for certification. Additional assignments are required beyond those for EDUC 467. Graduate/Undergraduate Equivalency: EDUC 467. Mutually Exclusive: Cannot register for EDUC 567 if student has credit for EDUC 467. Repeatable for Credit.

EDUC 570 - FIELD-BASED STUDIES IN TEACHING AND LEARNING
Short Title: FLD-BASED STDY TEACH & LRNG
Department: Education
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 1-6
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: The study of critical issues in urban education uses ethnographic research methods to study a wide range of educational subjects, from policy impact to classroom practice, from curriculum and pedagogy to the cultures of the children. The course includes a seminar on research methodologies, with a focus on ethnography; independent research projects in a local school setting; and directed case studies. It is open particularly to students in education, sociology, psychology, anthropology and cultural studies. Additional assignments are required beyond those for EDUC 470. Graduate/Undergraduate Equivalency: EDUC 470. Mutually Exclusive: Cannot register for EDUC 570 if student has credit for EDUC 470. Repeatable for Credit.

EDUC 597 - PRACTICUM FOR PRINCIPALS
Short Title: PRACTICUM FOR PRINCIPALS
Department: Education
Grade Mode: Standard Letter
Course Type: Internship/Practicum
Credit Hours: 6
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): EDUC 504 and EDUC 516 and EDUC 590 and EDUC 596
Corequisite:
Description: This course uses ethnographic and quantitative research methods to study a specific issue in education. Independent research projects may include literature reviews and analysis, and/or case studies in school settings. Additional assignments are required beyond those for EDUC 491. Instructor Permission Required. Graduate/Undergraduate Equivalency: EDUC 491. Mutually Exclusive: Cannot register for EDUC 591 if student has credit for EDUC 491. Repeatable for Credit.

EDUC 591 - INDEPENDENT STUDY AND RESEARCH
Short Title: INDEPENDENT STUDY AND RESEARCH
Department: Education
Grade Mode: Standard Letter
Course Type: Research
Credit Hours: 1-3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course uses ethnographic and quantitative research methods to study a specific issue in education. Independent research projects may include literature reviews and analysis, and/or case studies in school settings. Additional assignments are required beyond those for EDUC 491. Instructor Permission Required. Graduate/Undergraduate Equivalency: EDUC 491. Mutually Exclusive: Cannot register for EDUC 591 if student has credit for EDUC 491. Repeatable for Credit.

EDUC 595 - CAPSTONE
Short Title: CAPSTONE
Department: Education
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Corequisite: EDUC 590
Description: The Capstone Project is the culmination of the program as the student melds the MAT course of study specialization with classroom experience. The work in this two-semester course is showcased in a portfolio to be defended before an academic committee. Repeatable for Credit.

EDUC 596 - ORGANIZATIONAL LEADERSHIP
Short Title: ORGANIZATIONAL LEADERSHIP
Department: Education
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Corequisite: EDUC 590
Description: Students will be challenged in workshops that test a leader’s ability to solve problems that include school finance management, student demographics and test scores, teachers’ effectiveness, and the community’s needs. Department Permission Required.

EDUC 597 - PRACTICUM FOR PRINCIPALS
Short Title: PRACTICUM FOR PRINCIPALS
Department: Education
Grade Mode: Standard Letter
Course Type: Internship/Practicum
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): EDUC 504 and EDUC 516 and EDUC 590 and EDUC 596
Description: During this two-semester course students will be implementing the knowledge gained from classroom experiences into tasks in their home schools under guidance of a school mentor and a field supervisor. Department Permission Required. Repeatable for Credit.
EDUC 677 - SPECIAL TOPICS
Short Title: SPECIAL TOPICS
Department: Education
Grade Mode: Standard Letter
Course Type: Internship/Practicum, Laboratory, Lecture, Seminar, Independent Study
Credit Hours: 1-4
Restrictions: Enrollment is limited to Graduate or Visiting Graduate level students.
Course Level: Graduate
Description: Topics and credit hours vary each semester. Contact department for current semester's topic(s). Repeatable for Credit.

Master of Arts in Teaching (MAT) Degree, for Current Rice Undergraduates

Program Learning Outcomes for the MAT Degree
Upon completing the MAT degree, students will be able to:

1. Foster culturally responsive pedagogy that uses the lives, culture, and community assets of the students.
2. Facilitate teaching strategies for diverse learners.
3. Assess students’ progress and content mastery to guide instruction.
5. Demonstrate instructional leadership.

Requirements for the MAT Degree, for Current Rice Undergraduates
The MAT degree is a non-thesis master’s degree. For general university requirements, please see Non-Thesis Master’s Degrees (p. 75). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 60). Students pursuing the MAT degree must complete:

- A minimum of 10 courses (30 credit hours) to satisfy degree requirements.
- A minimum of 30 credit hours of graduate-level study (graduate semester credit hours, coursework at the 500-level or above).
- A minimum of 24 graduate semester credit hours must be taken at Rice University.
- A minimum of 24 graduate semester credit hours must be taken in standard or traditional courses (with a course type of lecture, seminar, laboratory, lecture/laboratory).
- A minimum residency enrollment of one fall or spring semester of part-time graduate study at Rice University.
- A maximum of 2 courses (6 graduate semester credit hours) from transfer credit. For additional departmental guidelines regarding transfer credit, see the Policies (p. 870) tab.
- A minimum overall GPA of 2.67 or higher in all Rice coursework.
- A minimum program GPA of 2.67 or higher in all Rice coursework that satisfies requirements for the non-thesis master’s degree with a minimum grade of B- (2.67 grade points) in each course.

The MAT is a non-thesis degree program for students who want to qualify for secondary school teaching following the completion of a bachelor’s degree. Most MAT degree candidates entering the program have had no professional education courses. MAT degree and Education program participants who wish to obtain Texas Teacher (TEA) Certification (for grades 7-12) must satisfy the following requirements:

- Students must begin two-semesters of work in assigned school with first semester curriculum development and theory and methods courses and a second semester full-day field-based study with a cooperating teacher (EDUC 521, EDUC 560, EDUC 561, EDUC 562, EDUC 563, EDUC 564, EDUC 565, EDUC 566, and EDUC 570).
- Students must complete a two-semester supervised teaching internship by acquiring and fulfilling all professional responsibilities...
of a teaching position in a local accredited secondary school and completing a seminar course (EDUC 540).

- Students must complete 75 hours of field-based experience in local secondary schools, in conjunction with satisfactory results on background check with participating school districts.
- Students must earn grades of B- (2.67 grade points) or better in all teaching field and education courses.
- Students must pass the appropriate TExES exams.
- Students must apply with the appropriate (Texas) state agency for Texas Teacher (TEA) Certification when all requirements are completed.

The cooperating school districts pay a regular salary for internship teaching.

The courses listed below satisfy the requirements for this degree program. In certain instances, courses not on this official list may be substituted upon approval of the program's academic advisor, or where applicable, the department or program's Director of Graduate Studies. Course substitutions must be formally applied and entered into Degree Works by the department or program's Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/). Additionally, these must be approved by the Office of Graduate and Postdoctoral Studies. Students and their academic advisors should identify and clearly document the courses to be taken.

### Total Credit Hours 30

### Footnotes and Additional Information

1. At the discretion of the associate dean and academic advisor, some students may require additional courses to address deficiencies prior to seeking Texas Teacher Certification.

### Fifth-Year MAT Degree Option for Rice Undergraduate Students

Rice students have the option to pursue the MAT degree by adding an additional fifth year to their four undergraduate years of study. For more information, please see the Opportunities (p. 871) tab.

### Policies for the MAT Degree, for Current Rice Undergraduates

#### Department of Education Graduate Program Handbook

The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, Education publishes a graduate program handbook, which can be found here: https://gradhandbooks.rice.edu/2021_22/Education_Graduate_Handbook.pdf

#### Admission

Applicants must have at least 12 to 15 credit hours in the content area before admission, scholarly ability, and a commitment to teaching, and SAT or ACT scores. Specific requirements include:

- Completion of a bachelor's degree before the internship year (5th year).
- A minimum of 12.15 credit hours in the subject-specific content area for the certification sought, depending on the certification sought:
  - A minimum of 12 semester credit hours in the subject-specific content area for the certification sought, if the certification sought is outside mathematics or science at or above Grade 7, or
  - A minimum of 15 credit hours in the subject-specific content area for the certification sought, if the certification sought is for mathematics or science at or above Grade 7.
- Grades of B- (2.67 grade points) or better in all coursework attempted in the teaching field and a grade point average of 3.00 or better, both in courses for the teaching field and overall.
- Evidence that the applicant's knowledge, experience, skills, and aptitude are appropriate for the certification sought.

The Texas Education Agency (TEA) requires candidates to undergo a criminal background check prior to field-based experience, prior to clinical training, and prior to being hired as a first-year teacher. Candidates may go through the fingerprinting process before applying for admission. If the results are unsatisfactory, the candidate may petition the TEA for reconsideration of the results. More information on this important rule is on the Education program website at: https://glasscock.rice.edu/degrees-certificates/degrees/master-arts-teaching/master-arts-teaching-new-teachers/https://glasscock.rice.edu/degrees-certificates/degrees/master-arts-teaching/master-arts-teaching-new-teachers/
Education team members review each application. Limited tuition assistance is available. See Admission to Graduate Study (https://graduate.rice.edu/admissions/).

Transfer Credit
For Rice University's policy regarding transfer credit, see Transfer Credit (p. 70). Some departments and programs have additional restrictions on transfer credit. Students are encouraged to meet with their academic program's advisor when considering transfer credit possibilities.

Program Transfer Credit Guidelines
Students pursuing the MAT degree should be aware of the following program-specific transfer credit guidelines:

1. No more than 2 courses (6 credit hours) of transfer credit from U.S. or international universities of similar standing as Rice may apply towards the degree.
2. Requests for transfer credit will be considered by the program director on an individual case-by-case basis.

Additional Information
For additional information, please see the Education program website: https://glasscock.rice.edu/departments/education-department (https://glasscock.rice.edu/departments/education-department/)

Opportunities for the MAT Degree, for Current Rice Undergraduates
Fifth-Year Master's Degree Option for Rice Undergraduate Students
In certain situations and with some terminal master's degree programs, Rice students have an option to pursue a master's degree by adding an additional fifth year to their four years of undergraduate studies.

Advanced Rice undergraduate students in good academic standing typically apply to the master’s degree program during their junior or senior year. Upon acceptance, depending on course load, financial aid status, and other variables, they may then start taking some required courses of the master’s degree program. A plan of study will need to be approved by the student's undergraduate major advisor and the master's degree program director.

As part of this option and opportunity, Rice undergraduate students:

1. must complete the requirements for a bachelor's degree and the master's degree independently of each other (i.e. no course may be counted toward the fulfillment of both degrees).
2. should be aware there could be financial aid implications if the conversion of undergraduate coursework to that of graduate level reduces their earned undergraduate credit for any semester below that of full-time status (12 credit hours).
3. more information on this Undergraduate - Graduate Concurrent Enrollment opportunity, including specific information on the registration process can be found here (p. 20).

Rice undergraduate students have the option to pursue the Master of Arts Teaching (MAT) degree and apply to the master's degree program during their sophomore year. Upon acceptance, they may then start taking some required courses of the master's degree program during their junior year. For additional information, students should contact their undergraduate major advisor and the MAT program director.

As part of this option and opportunity, Rice undergraduate students:

1. must complete a minimum of 12-15 credit hours in the subject-specific content area for the certification sought, depending on the certification sought:
   - a minimum of 12 semester credit hours in the subject-specific content area for the certification sought, if the certification sought is outside mathematics or science at or above Grade 7, or
   - a minimum of 15 credit hours in the subject-specific content area for the certification sought, if the certification sought is for mathematics or science at or above Grade 7.

Requirements for Visiting Post-Baccalaureate (VPB) Certification
A non-degree (Visiting Post-Baccalaureate) plan leading to secondary teacher certification or principal certification is available for those who have earned a BA and/or MA degree, but do not choose to pursue a Rice University graduate degree. Candidates complete all requirements for state of Texas secondary teacher certification or principal certification, including professional education courses. Interested students should contact the Education Program.

Master of Arts in Teaching (MAT) Degree, for Experienced Teachers
Program Learning Outcomes for the MAT Degree
Upon completing the MAT degree, students will be able to:

1. Foster culturally responsive pedagogy that uses the lives, culture, and community assets of the students.
2. Facilitate teaching strategies for diverse learners.
3. Assess students’ progress and content mastery to guide instruction.
5. Demonstrate instructional leadership.

Requirements for the MAT Degree, for Experienced Teachers
The MAT degree is a non-thesis master’s degree. For general university requirements, please see Non-Thesis Master’s Degrees (p. 75). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 60). Students pursuing the MAT degree must complete:

1. A minimum of 10 courses (30 credit hours) to satisfy degree requirements.
2. A minimum of 30 credit hours of graduate-level study (graduate semester credit hours, coursework at the 500-level or above).
3. A minimum of 24 graduate semester credit hours must be taken at Rice University.
• A minimum of 24 graduate semester credit hours must be taken in standard or traditional courses (with a course type of lecture, seminar, laboratory, lecture/laboratory).
• A minimum residency enrollment of one fall or spring semester of part-time graduate study at Rice University.
• A maximum of 2 courses (6 graduate semester credit hours) from transfer credit. For additional departmental guidelines regarding transfer credit, see the Policies (p. 872) tab.
• A minimum overall GPA of 2.67 or higher in all Rice coursework.
• A minimum program GPA of 2.67 or higher in all Rice coursework that satisfies requirements for the non-thesis master’s degree with a minimum grade of B- (2.67 grade points) in each course.

This MAT degree program is offered for experienced teachers that have a minimum of 2 years experience teaching. This degree program for experienced teachers also offers a route toward Texas Education Agency (TEA) principal certification (please see the separate program entry for the Master of Arts in Teaching (MAT) Degree, for Experienced Teachers with Principal Certification (p. 873)).

The courses listed below satisfy the requirements for this degree program. In certain instances, courses not on this official list may be substituted upon approval of the program’s academic advisor, or where applicable, the department or program’s Director of Graduate Studies. Course substitutions must be formally applied and entered into Degree Works by the department or program’s Official Certifier (https://glasscock.rice.edu/facstaff/degreeworks/officialcertifier/). Additionally, these must be approved by the Office of Graduate and Postdoctoral Studies. Students and their academic advisors should identify and clearly document the courses to be taken.

Master of Arts in Teaching (MAT) Degree, for Experienced Teachers with Principal Certification

Program Learning Outcomes for the MAT Degree

Upon completing the MAT degree, students will be able to:

1. Foster culturally responsive pedagogy that uses the lives, culture, and community assets of the students.
2. Facilitate teaching strategies for diverse learners.
3. Assess students’ progress and content mastery to guide instruction.
5. Demonstrate instructional leadership.

Requirements for the MAT Degree, for Experienced Teachers with Principal Certification

The MAT degree is a non-thesis master's degree. For general university requirements, please see Non-Thesis Master’s Degrees (p. 75). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 60). Students pursuing the MAT degree must complete:

- A minimum of 10 courses (30 credit hours) to satisfy degree requirements.
- A minimum of 30 credit hours of graduate-level study (graduate semester credit hours, coursework at the 500-level or above).
- A minimum of 24 graduate semester credit hours must be taken at Rice University.
- A minimum of 24 graduate semester credit hours must be taken in standard or traditional courses (with a course type of lecture, seminar, laboratory, lecture/laboratory).
- A minimum residency enrollment of one fall or spring semester of part-time graduate study at Rice University.
- A maximum of 2 courses (6 graduate semester credit hours) from transfer credit. For additional departmental guidelines regarding transfer credit, see the Policies (p. 874) tab.
- A minimum overall GPA of 2.67 or higher in all Rice coursework.
- A minimum program GPA of 2.67 or higher in all Rice coursework that satisfies requirements for the non-thesis master’s degree with a minimum grade of B- (2.67 grade points) in each course.

This MAT degree program is offered for experienced teachers that have a minimum of 2 years teaching experience and desire a route toward Texas Education Agency (TEA) principal certification.

The courses listed below satisfy the requirements for this degree program. In certain instances, courses not on this official list may be substituted upon approval of the program's academic advisor, or where applicable, the department or program’s Director of Graduate Studies. Course substitutions must be formally applied and entered into Degree Works by the department or program's Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/). Additionally, these must be approved by the Office of Graduate and Postdoctoral Studies. Students and their academic advisors should identify and clearly document the courses to be taken.

Total Credit Hours 30
Policies for the MAT Degree, for Experienced Teachers with Principal Certification

Department of Education Graduate Program Handbook
The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, Education publishes a graduate program handbook, which can be found here: https://gradhandbooks.rice.edu/2021_22/Education_Graduate_Handbook.pdf

Admission
Applicants must have a bachelor's degree, scholarly ability, and a commitment to teaching. Specific requirements include:

- Completion of a bachelor's degree before admission to the program.
- A minimum of two years of teaching experience.
- A valid classroom teaching certificate.
- Grades of B+ (2.67 grade points) or better in all coursework and a grade point average of 3.00 or better overall.
- Evidence that the applicant's knowledge, experience, skills, and aptitude are appropriate for the certification sought.

Education team members review each application. Limited tuition assistance is available. See Admission to Graduate Study (https://graduate.rice.edu/admissions/).

Transfer Credit
For Rice University's policy regarding transfer credit, see Transfer Credit (p. 70). Some departments and programs have additional restrictions on transfer credit. Students are encouraged to meet with their academic program’s advisor when considering transfer credit possibilities.

Program Transfer Credit Guidelines
Students pursuing the MAT degree should be aware of the following program-specific transfer credit guidelines:

- No more than 2 courses (6 credit hours) of transfer credit from U.S. or international universities of similar standing as Rice may apply towards the degree.
- Requests for transfer credit will be considered by the program director on an individual case-by-case basis.

Additional Information
For additional information, please see the Education program website: https://glasscock.rice.edu/departments/education-department (https://glasscock.rice.edu/departments/education-department/)

Opportunities for the MAT Degree, for Experienced Teachers with Principal Certification

Requirements for Visiting Post-Baccalaureate (VPB) Certification
A non-degree (Visiting Post-Baccalaureate) plan leading to secondary teacher certification or principal certification is available for those who have earned a BA and/or MA degree, but do not choose to pursue a Rice University graduate degree. Candidates complete all requirements for state of Texas secondary teacher certification or principal certification, including professional education courses. Interested students should contact the Education Program.

Additional Information
For additional information, please see the Education program website: https://glasscock.rice.edu/departments/education-department (https://glasscock.rice.edu/departments/education-department/)

Master of Arts in Teaching (MAT) Degree, for New Teachers

Program Learning Outcomes for the MAT Degree
Upon completing the MAT degree, students will be able to:

1. Foster culturally responsive pedagogy that uses the lives, culture, and community assets of the students.
2. Facilitate teaching strategies for diverse learners.
3. Assess students’ progress and content mastery to guide instruction.
5. Demonstrate instructional leadership.

Requirements for the MAT Degree, for New Teachers

The MAT degree is a non-thesis master’s degree. For general university requirements, please see Non-Thesis Master’s Degrees (p. 75). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 60). Students pursuing the MAT degree must complete:

- A minimum of 10 courses (30 credit hours) to satisfy degree requirements.
- A minimum of 30 credit hours of graduate-level study (graduate semester credit hours, coursework at the 500-level or above).
- A minimum of 24 graduate semester credit hours must be taken at Rice University.
- A minimum of 24 graduate semester credit hours must be taken in standard or traditional courses (with a course type of lecture, seminar, laboratory, lecture/laboratory).
- A minimum residency enrollment of one fall or spring semester of full-time graduate study at Rice University.
- A maximum of 2 courses (6 graduate semester credit hours) from transfer credit. For additional departmental guidelines regarding transfer credit, see the Policies (p. 875) tab.
- A minimum overall GPA of 2.67 or higher in all Rice coursework.
- A minimum program GPA of 2.67 or higher in all Rice coursework that satisfies requirements for the non-thesis master’s degree with a minimum grade of B- (2.67 grade points) in each course.

The MAT is a non-thesis degree program for students who want to qualify for secondary school teaching following the completion of a bachelor’s degree. Most MAT degree candidates entering the program have had no professional education courses. MAT degree and Education program participants who wish to obtain Texas Teacher (TEA) Certification (for grades 7-12) must satisfy the following requirements:
• Students must begin two-semesters of work in assigned school with first semester curriculum development and theory and methods courses and a second semester full-day field-based study with a cooperating teacher (EDUC 521, EDUC 560, EDUC 561, EDUC 562, EDUC 563, EDUC 564, EDUC 565, EDUC 566, and EDUC 570).

• Students must complete a two-semester supervised teaching internship by acquiring and fulfilling all professional responsibilities of a teaching position in a local accredited secondary school and completing a seminar course (EDUC 540).

• Students must complete 75 hours of field-based experience in local secondary schools, in conjunction with satisfactory results on background check with participating school districts.

• Students must earn grades of B- (2.67 grade points) or better in all teaching field and education courses.

• Students must pass the appropriate TEExES exams.

• Students must apply with the appropriate (Texas) state agency for Texas Teacher (TEA) Certification when all requirements are completed.

The cooperating school districts pay a regular salary for internship teaching.

The courses listed below satisfy the requirements for this degree program. In certain instances, courses not on this official list may be substituted upon approval of the program’s academic advisor, or where applicable, the department or program’s Director of Graduate Studies. Course substitutions must be formally applied and entered into Degree Works by the department or program’s Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/). Additionally, these must be approved by the Office of Graduate and Postdoctoral Studies. Students and their academic advisors should identify and clearly document the courses to be taken.

**Policies for the MAT Degree, for New Teachers**

**Department of Education Graduate Program Handbook**

The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, Education publishes a graduate program handbook, which can be found here: https://gradhandbooks.rice.edu/2021_22/Education_Graduate_Handbook.pdf

**Admission**

Applicants must have a bachelor’s degree, scholarly ability, and a commitment to teaching. Specific requirements include:

• Completion of a bachelor’s degree before admission to the program.

• A minimum of 12-15 credit hours in the subject-specific content area for the certification sought, depending on the certification sought:
  • A minimum of 12 semester credit hours in the subject-specific content area for the certification sought, if the certification sought is outside mathematics or science at or above Grade 7, or
  • A minimum of 15 credit hours in the subject-specific content area for the certification sought, if the certification sought is for mathematics or science at or above Grade 7.

• Grades of B- (2.67 grade points) or better in all coursework attempted in the teaching field and a grade point average of 3.00 or better, both in courses for the teaching field and overall.

• Evidence that the applicant’s knowledge, experience, skills, and aptitude are appropriate for the certification sought.

The Texas Education Agency (TEA) requires candidates to undergo a criminal background check prior to field-based experience, prior to clinical training, and prior to being hired as a first-year teacher. Candidates may go through the fingerprinting process before applying for admission. If the results are unsatisfactory, the candidate may petition the TEA for reconsideration of the results. More information on this important rule is on the Education program website at: https://glasscock.rice.edu/degrees-certificates/degrees/master-arts-teaching/master-arts-teaching-new-teachers/
Education team members review each application. Limited tuition assistance is available. See Admission to Graduate Study (https://graduate.rice.edu/admissions/).

Transfer Credit
For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 70). Some departments and programs have additional restrictions on transfer credit. Students are encouraged to meet with their academic program’s advisor when considering transfer credit possibilities.

Program Transfer Credit Guidelines
Students pursuing the MAT degree should be aware of the following program-specific transfer credit guidelines:

- No more than 2 courses (6 credit hours) of transfer credit from U.S. or international universities of similar standing as Rice may apply towards the degree.
- Requests for transfer credit will be considered by the program director on an individual case-by-case basis.

The Electrical and Computer Engineering (ECE) department provides high-quality degree programs that emphasize fundamental principles, respond to the changing demands and opportunities of new technology, challenge the exceptional abilities of Rice students, and prepare students for roles of leadership in their chosen careers.

The department’s research areas include: Computer Engineering; Data Science; Neuroengineering; Photonics, Electronics, and Nano-devices; and Systems.

- **Computer Engineering** topics include: computer architecture, high performance application specific systems, mobile and embedded systems, integrated circuits and antennas for medical imaging and bio-sensing, and parallel I/O for large-scale network storage systems.
- **Data Science** topics include: data acquisition, data analytics, data storage, and computing infrastructure.
- **Neuroengineering** topics include: neural signal processing, brain-computer interfaces at the device, circuit, and systems levels.
- **Photonics, Electronics, and Nano-devices** topics include: nanophotonics/nanospectroscopy, molecular electronics, biophotonics, ultrafast optics and optoelectronics, materials for energy, semiconductor optics and devices, multispectral imaging and terahertz imaging, and condensed matter physics/materials science.
- **Systems** topics include: communications systems, dynamical systems and computation, networks, signal and image processing, wireless networking, pattern recognition, scalable personal healthcare, and computational neuroscience and neuroengineering.

The Electrical and Computer Engineering department offers two undergraduate degree programs. The Bachelor of Science in Electrical Engineering (BSEE) degree program is comprehensive and covers fundamental and emerging hardware and software topics. Courses, research, and design projects grouped in four areas of specialization prepare students for technical leadership in engineering, computing, and science careers. The ECE department also offers a Bachelor of Arts (BA) in Electrical Engineering degree program.

The Electrical and Computer Engineering department offers two graduate degree programs. The Master of Electrical and Computer Engineering (MECE) degree is a course-based program designed to increase a student’s mastery of advanced subjects; no thesis is required. The MECE prepares a student to succeed and advance rapidly in today’s competitive technical marketplace.

The Doctor of Philosophy (PhD) degree program prepares students for a research career in academia or industry. The PhD degree program consists of formal courses and original research conducted under the guidance of a faculty advisor leading to a thesis. Students in the PhD program complete a Master of Science (MS) degree as part of their program; the Electrical and Computer Engineering department does not admit students for a terminal MS degree.

**Bachelor’s Programs**

- **Bachelor of Arts (BA) Degree with a Major in Electrical Engineering** (p. 908)
- **Bachelor of Science in Electrical Engineering (BSEE) Degree** (p. 912)
Master's Programs
• Master of Electrical and Computer Engineering (MECE) Degree (p. 918)
• Master of Science (MS) Degree in the field of Electrical and Computer Engineering*

Doctoral Program
• Doctor of Philosophy (PhD) Degree in the field of Electrical and Computer Engineering (p. 917)

*Although students are not normally admitted to a Master of Science (MS) degree program, graduate students may earn the MS as they work towards the PhD.

For Rice University degree-granting programs:
Electrical & Comp. Engineering (ELEC)

ELEC 101 - ELEMENTS OF ELECTRICAL ENGINEERING
Short Title: ELEMENTS OF ELECT ENGINEERING
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment limited to students with a class of Freshman or Sophomore. Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Introduction to fundamentals of electrical engineering through the hands-on design of a micro-controlled model electric car. Topics from fields of circuits, signals, computing, and sensing are covered as needed to support the student in designing systems to power, monitor, and control the vehicle's speed, and to guide its trajectory, in order to pass a series of vehicle tests. Instructor Permission Required.

ELEC 220 - FUNDAMENTALS OF COMPUTER ENGINEERING
Short Title: FUND COMPUTER ENGINEERING
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 4
Restrictions: Enrollment is limited to students with a major in Computer Science, Engineering Division, Electrical & Computer Eng. or Electrical Engineering. Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: An overview of computer engineering, starting with fundamental building blocks including transistors, bits, data representation, logic and state machines, progressing to computer organization, instruction sets, interrupts, input/output, assembly language programming, and linkage conventions, and ending with an introduction to architectural performance enhancements and computing services.
Course URL: www.owlnet.rice.edu/~elec220 (http://www.owlnet.rice.edu/~elec220/)

ELEC 238 - SPECIAL TOPICS
Short Title: SPECIAL TOPICS
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Internship/Practicum, Laboratory, Lecture, Seminar, Independent Study
Credit Hours: 1-4
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Repeatable for Credit.

ELEC 241 - FUNDAMENTALS OF ELECTRICAL ENGINEERING I
Short Title: FUND EE I LAB
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Laboratory
Credit Hours: 1
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Prerequisite(s): (MATH 101 or MATH 105) and (MATH 102 or MATH 106)
Corequisite: ELEC 242
Description: Laboratory course that introduces basic electronic measurement techniques and demonstrates the principles of information management by electronic means. Lectures supplement the laboratory experiments.

ELEC 242 - SIGNALS, SYSTEMS, AND TRANSFORMS
Short Title: SIGNALS, SYSTEMS, & TRANSFORMS
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Prerequisite(s): (MATH 101 or MATH 105) and (MATH 102 or MATH 106)
Corequisite: ELEC 241
Description: The creation, manipulation, transmission, and extraction of information by electronic and computational means. Elementary signal theory; time and frequency-domain analysis; sampling theorem. Introduction to data science. Information theory; digital communication systems; error-correcting codes.

ELEC 244 - FUNDAMENTALS OF ELECTRICAL ENGINEERING I
Short Title: FUND EE I LAB
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Laboratory
Credit Hours: 1
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Prerequisite(s): ELEC 241
Corequisite: ELEC 244
Description: Transforms between the time and frequency domains. Linear time-invariant systems: convolutions, impulse response, and eigenfunctions. Delta functions, their nature, and their uses. Fourier series and the Fourier transform for continuous signals. Fourier transform for discrete-time signals. Sampling and aliasing. Laplace transform: poles and zeros, and system stability. Students must register for both ELEC 242 and ELEC 244.
such as ELEC 305.

ELEC 261 will lay the foundation for follow-on PEN and circuits courses.

Field effect transistors, optical devices, microwave and power devices.

also introduce the basic concepts of advanced devices such as junction (MOSFETs), and bipolar junction transistors (BJTs). In addition, 261 will contacts, metal-oxide semi-conductor capacitors and transistors.

and design of semiconductor devices including metal-semiconductor construction, and testing of basic electronic circuits; RLC networks; oscilloscopes, and circuit debugging. Topics covered include design, interfacing digital and analog circuits; pulse width modulation; motors; and feedback control. Students must register for both ELEC 242 and ELEC 244.

The second part of 261 is focused on understanding the operation transport, and finally the basics of pn junctions and pn junction diodes.

is focused on understanding of semiconductor materials in terms of physics and operation of semiconductor de-vices. The first part of 261 is focused on understanding of semiconductor materials in terms of crystal structure, energy bands, density of states, dopants, and electronic transport, and finally the basics of pn junctions and pn junction diodes. The second part of 261 is focused on understanding the operation and design of semiconductor devices including metal-semiconductor contacts, metal-oxide semi-conductor capacitors and transistors (MOSFETs), and bipolar junction transistors (BJTs). In addition, 261 will also introduce the basic concepts of advanced devices such as junction field effect transistors, optical devices, microwave and power devices.

ELEC 261 will lay the foundation for follow-on PEN and circuits courses such as ELEC 305.
ELEC 305 - INTRODUCTION TO PHYSICAL ELECTRONICS II
Short Title: INTRO PHYSICAL ELECTRONICS II
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ELEC 261 and (MATH 212 or MATH 222)
Description: Physical principles and practical applications of devices used in modern electronic systems, with an emphasis on transistors, integrated circuits, electromagnetic propagation, and transmission lines.

ELEC 323 - PRINCIPLES OF PARALLEL PROGRAMMING
Short Title: FUNDAMENTALS OF PARALLEL PROG
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 4
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): COMP 211 or COMP 215
Description: Fundamentals of parallel programming: abstract models of parallel computers, parallel algorithms and data structures, and common parallel programming patterns including task parallelism, undirected and directed synchronization, data parallelism, divide-and-conquer parallelism, and map-reduce. Laboratory assignments will explore these topics through the use of parallel extensions to the Java language. Cross-list: COMP 322. Recommended Prerequisite(s): COMP 221.

ELEC 326 - DIGITAL LOGIC DESIGN
Short Title: DIGITAL LOGIC DESIGN
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ELEC 220
Description: Study of gates, flip-flops, combinational and sequential switching circuits, registers, logical and arithmetic operations, introduction to the Verilog hardware description language. Cross-list: COMP 326.

ELEC 327 - IMPLEMENTATION OF DIGITAL SYSTEMS
Short Title: IMPLEMENTATION OF DIGITAL SYSTEMS
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ELEC 326 or COMP 326
Description: Embedded microsystems are widely employed to provide intelligence to sensors and actuators throughout our daily life. In this course, we learn the software and hardware frameworks which underly embedded systems design. Students will learn the fundamentals of embedded system programming and feel competent to design, build, and manufacture their own embedded devices. In particular, we focus on principles of low-power design and interface with external peripherals. In addition, students will learn how to design their own manufacturable hardware and discover how application-specific blocks enable modern commercial devices to function. There are weekly lab assignments and two projects. Instructor Permission Required.

ELEC 332 - ELECTRONIC SYSTEMS PRINCIPLES AND PRACTICE
Short Title: ELEC SYS PRINCIPLES & PRACTICE
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ELEC 242
Description: This course covers the theory and techniques necessary to realize modern, high performance electronic systems. Design considerations for systems utilizing high speed, high frequency analog and digital integrated circuits will be covered. Students develop a microcontroller system for controlling the functions of a model electric car. Power and sensor circuits will be designed to monitor and control the vehicle’s speed, and to guide its trajectory, in order to pass a series of vehicle tests. Instructor Permission Required.

ELEC 342 - ANALOG ELECTRONIC CIRCUITS
Short Title: ANALOG ELECTRONIC CIRCUITS
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ELEC 242 or ELEC 243
Description: The course covers an in-depth analysis of large-signal behavior, linearization, and small signal models. Furthermore, it discusses single-stage and multi-stage amplifiers as well as differential amplifiers, common mode rejection ratio (CMRR), and techniques for increasing gain and improving linearity.
ELEC 361 - QUANTUM MECHANICS FOR ENGINEERS
Short Title: QUANTUM MECHANICS FOR ENGINEER
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ELEC 261
Description: This course provides the background in quantum mechanics and solid state physics necessary for further studies in semiconductor optoelectronic devices, quantum electronics, nanoscience, and photonics. Examples include: electronic energy levels in semiconductor quantum wells and superlattices; tunneling phenomena in semiconductor devices; the Kronig-Penney model; crystal momentum, effective mass, and Bloch oscillations; band structure of graphene and carbon nanotubes; and introduction to quantum information science.
Course URL: www.ece.rice.edu/~kono/ELEC361.html

ELEC 364 - PHOTONICS MEASUREMENTS: PRINCIPLES AND PRACTICE
Short Title: PHOTONICS MEASUREMENTS
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ELEC 262 or PHYS 201
Description: After completing this course, students will have the knowledge and experimental skills to design and apply a photonic measurement system to monitor an environment, process, device, or system. The course will combine predefined labs to develop skills with application projects. Instructor Permission Required.

ELEC 365 - NANOMATERIALS FOR ENERGY
Short Title: NANOMATERIALS FOR ENERGY
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course will introduce students to the fundamental science of nanomaterials. Many of the concepts will be explained by drawing from applications in sustainability (photovoltaics, solar-to-fuel conversion thermionic, thermoelectric, fuel cells). Students will design a lab demo from scratch using amongst others the infrastructure provided by the photonics measurement lab. Cross-list: MSNE 365.

ELEC 380 - INTRODUCTION TO NEUROENGINEERING: MEASURING AND MANIPULATING NEURAL ACTIVITY
Short Title: INTRO TO NEUROENGINEERING
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): (PHYS 101 or PHYS 111 or PHYS 125 or PHYS 141) and (PHYS 102 or PHYS 112 or PHYS 126 or PHYS 142)
Description: This course will serve as an introduction to quantitative modeling of neural activity and the methods used to stimulate and record brain activity. Cross-list: BIOE 380, NEUR 383. Graduate/Undergraduate Equivalency: ELEC 587. Mutually Exclusive: Cannot register for ELEC 380 if student has credit for BIOE 480/BIOE 590/ELEC 480/ELEC 580/ELEC 587.

ELEC 382 - INTRODUCTION TO COMPUTATIONAL NEUROSCIENCE
Short Title: INTRO COMPUTATIONAL NEURSCI
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Introduction to methods and theories used to describe and understand neural information processing in the brain. Models covered will range from single neuron to networks for sensory, motor and learning tasks. Programming exercises will be done using Matlab. Cross-list: NEUR 382. Recommended Prerequisite(s): CAAM 210. Mutually Exclusive: Cannot register for ELEC 382 if student has credit for NEUR 582.

ELEC 385 - TRANSFER CREDIT - JUNIOR
Short Title: TRANSFER CREDIT - JUNIOR
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Transfer
Credit Hours: 1-4
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course is intended for transfer credit for courses not offered at Rice. Permission of ECE Undergraduate Committee and review by faculty in related specialization area is required. ELEC 395 is for Junior level ECE Specialization course credit. Department Permission Required. Repeatable for Credit.
ELEC 410 - SECURE AND CLOUD COMPUTING
Short Title: SECURE & CLOUD COMPUTING
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): COMP 321
Description: What is “cloud computing?” How do we build cloud-scale systems and components that are secure against malicious attacks, and scale to millions of users? Many of today's services run inside the cloud – a set of geographically distributed data centers running heterogeneous software stacks. Cloud systems must scale across tens of thousands of machines, support millions of concurrent requests, and they must do so with high security guarantees. This course will start with the fundamentals of cloud computing, introduce key techniques in building scalable and secure systems and expose students to state-of-the-art research advances as well as emerging security threats and defenses in today's cloud systems. Cross-list: COMP 436. Graduate/Undergraduate Equivalency: ELEC 510. Mutually Exclusive: Cannot register for ELEC 410 if student has credit for ELEC 510.

ELEC 411 - MICROWAVE ENGINEERING
Short Title: MICROWAVE ENGINEERING
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Topics covered include transmission line, Smith Chart, scattering parameters, impedance matching, passive microwave circuits (power divider, coupler, 180° hybrid, filter), and antenna design fundamentals. Graduate/Undergraduate Equivalency: ELEC 517. Recommended Prerequisite(s): ELEC 262 or ELEC 305 or equivalent courses with the key concepts of Maxwell's Equations and Linear Algebra Mutually Exclusive: Cannot register for ELEC 411 if student has credit for ELEC 517.

ELEC 414 - WIRELESS INTEGRATED CIRCUITS AND SYSTEMS
Short Title: WIRELESS IC
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ELEC 305
Description: Topics covered include system architectures for modern wireless transceivers and transistor-level design considerations for circuit building blocks (low noise amplifier, mixer, power amplifier, etc.) in a wireless transceiver. Graduate/Undergraduate Equivalency: ELEC 514. Recommended Prerequisite(s): Equivalent Courses with the Key Concepts: • Transistor-level CMOS analog circuits (basic configurations, small-signal models, parasitic effects) • Frequency response of transistor-level CMOS circuits (pole/zero calculations) • Frequency response of simple passive networks (1st order and 2nd order RLC networks)• Noise analysis of transistor-level CMOS circuits (noise sources in CMOS transistors, input-referred voltage/current noise for CMOS transistor-level circuits)

ELEC 418 - EMBEDDED COMPUTER SYSTEMS PROGRAMMING
Short Title: EMBEDDED SYSTEMS PROGRAMMING
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Embedded computer systems programming focuses on the integrated design of hardware and software for system on chip devices. The course will develop an integrated foundation including principles, practices, and experimentation. Computer languages including C and C++ will be used to analyze and implement algorithms. Object-oriented programming for trees and graphs and other data structures will be explored. Embedded operating systems including Linux, peripheral interfacing, and development environments will be utilized in the laboratory. Mutually Exclusive: Cannot register for ELEC 418 if student has credit for ELEC 518. Graduate/Undergraduate Equivalency: ELEC 518. Recommended Prerequisite(s): COMP 140. ELEC 220, and (ELEC 327 or ELEC 332 or DSCI 400 or DSCI 435) Mutually Exclusive: Cannot register for ELEC 418 if student has credit for ELEC 518.
ELEC 419 - INNOVATION LAB FOR MOBILE HEALTH
Short Title: INNOVATION LAB - MOBILE HEALTH
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Laboratory
Credit Hours: 3
Restrictions: Students with a class of Freshman may not enroll.
Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course will be an innovation lab for mobile health products. The students will organize themselves in groups with complementary skills and work on a single project for the whole semester. The aim will be to develop a product prototype which can then be demonstrated to both medical practitioners and potential investors. For successful projects with an operational prototype, the next steps could be applying for OWLspark (Rice accelerator program) or crowd sourcing (like Kickstarter) and/or work in Scalable Health Labs over summer. ELEC Juniors can also continue the project outcomes as a starting point for their senior design. Cross-list: BIOE 419. Graduate/Undergraduate Equivalency: ELEC 559. Mutually Exclusive: Cannot register for ELEC 419 if student has credit for ELEC 559. Repeatable for Credit.
Course URL: www.ece.rice.edu/~ashu/ELEC419.html
www.ece.rice.edu/~ashu/ELEC419.html

ELEC 421 - OPERATING SYSTEMS AND CONCURRENT PROGRAMMING
Short Title: OP SYS/CONCURRENT PROGRAMMING
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 4
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): COMP 215 and (COMP 221 or COMP 321)
Description: Introduction to the design, construction, and analysis of concurrent programs with an emphasis on operating systems, including filing systems, schedulers, and memory allocators. Specific attention is devoted to process synchronization and communication within concurrent programs. Cross-list: COMP 421. Graduate/Undergraduate Equivalency: ELEC 552. Mutually Exclusive: Cannot register for ELEC 421 if student has credit for ELEC 552.
Course URL: www.clear.rice.edu/comp421/ www.clear.rice.edu/comp421/

ELEC 422 - VLSI SYSTEMS DESIGN
Short Title: VLSI SYSTEMS DESIGN
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ELEC 326 or COMP 326
Description: A study of VLSI technology and design. MOS devices, Characteristics and fabrication. Logic design and implementation. VLSI design methodology, circuit simulation and verification. Graduate/Undergraduate Equivalency: ELEC 527. Mutually Exclusive: Cannot register for ELEC 422 if student has credit for ELEC 527.

ELEC 423 - DIGITAL INTEGRATED CIRCUITS
Short Title: DIGITAL INTEGRATED CIRCUITS
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ELEC 220 and ELEC 242 and (ELEC 326 or COMP 326)
Description: This course introduces students to the analysis and design of digital integrated circuits. We look at how CMOS devices are fabricated and how they operate physically, as well as how to design high-performance and low-power circuits. Various types of memory devices and designs are also covered in the course. Recommended Prerequisite(s): ELEC 305 or ELEC 261.

ELEC 424 - MOBILE AND EMBEDDED SYSTEM DESIGN AND APPLICATION
Short Title: MOBILE & EMBEDDED SYSTEM DESIGN AND APPLICATION
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 4
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ELEC 220
Description: ELEC 424 introduces mobile and embedded system design and applications to undergraduate students and provides them hands-on design experience. It consists of three interlearning parts: lectures, student project, and student presentations. Cross-list: COMP 424. Graduate/Undergraduate Equivalency: ELEC 553. Mutually Exclusive: Cannot register for ELEC 424 if student has credit for ELEC 553.

ELEC 425 - COMPUTER SYSTEMS ARCHITECTURE
Short Title: COMPUTER SYSTEMS ARCHITECTURE
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 4
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ELEC 305 or ELEC 261
Description: This course provides an introduction to computer systems architecture. It is designed to provide undergraduate students with a solid foundation in computer architecture, and to provide them with the knowledge and skills necessary to design and implement computer systems that are efficient and effective. It is also designed to provide students with an understanding of the role of computer architecture in the broader context of computer system design.

ELEC 305 or ELEC 261
**ELEC 426 - ADVANCED DIGITAL INTEGRATED CIRCUITS DESIGN**  
**Short Title:** ADV DIGITAL IC DESIGN  
**Department:** Electrical & Computer Eng.  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
**Course Level:** Undergraduate Upper-Level  
**Prerequisite(s):** ELEC 305 and (ELEC 326 or COMP 326)  
**Description:** The course addresses advanced issues in custom digital IC design. Topics range from physical-level analysis and modeling of new devices, interconnect, and power supply, to circuit-level design techniques for low power and high performance, to application-oriented digital circuits/systems for security and machine learning. Graduate/Undergraduate Equivalency: ELEC 521. Recommended Prerequisite(s): ELEC 342, 422 and 423.

**ELEC 427 - ADVANCED DIGITAL HARDWARE DESIGN, IMPLEMENTATION, AND OPTIMIZATION**  
**Short Title:** ADV DIGITAL DESIGN & IMPLEMENT  
**Department:** Electrical & Computer Eng.  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture/Laboratory  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
**Course Level:** Undergraduate Upper-Level  
**Prerequisite(s):** ELEC 326 or COMP 326  
**Description:** This senior level course will investigate design and implementation of modern digital signal processing, machine learning, and security algorithms in hardware (including FPGAs and ASICs). Along with learning the principals of design, students will acquire hands-on experience in hardware implementation and the use of the hardware in modern applications including but not limited to mobile phones, biomedical devices, and smart cards. Emphasis is on digital processors, design implementation on FPGA/ASIC fabrics and testing real systems on board, architectures, control, functional units, and circuit topologies for increased performance and reduced circuit size and power dissipation. Graduate/Undergraduate Equivalency: ELEC 555. Mutually Exclusive: Cannot register for ELEC 427 if student has credit for ELEC 555. Repeatable for Credit.

**ELEC 429 - INTRODUCTION TO COMPUTER NETWORKS**  
**Short Title:** INTRO TO COMPUTER NETWORKS  
**Department:** Electrical & Computer Eng.  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Credit Hours:** 4  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
**Course Level:** Undergraduate Upper-Level  
**Prerequisite(s):** COMP 221 or COMP 321  
**Course URL:** www.clear.rice.edu/comp429/ (http://www.clear.rice.edu/comp429/)

**ELEC 430 - MODERN COMMUNICATION THEORY AND PRACTICE**  
**Short Title:** MODERN COMM. THEORY & PRACTICE  
**Department:** Electrical & Computer Eng.  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
**Course Level:** Undergraduate Upper-Level  
**Prerequisite(s):** ELEC 301 and ELEC 303  
**Description:** This is an upper-level course in digital communications, which is designed to prepare students for engineering work in high-tech industries and for graduate work in communications, signal processing, and computer systems. The course covers basic concepts and useful tools for design and performance analysis of transmitters and receivers in the physical layer of a communication system, including multiple antenna MIMO systems. A hands-on laboratory using a state-of-the-art radio testbed illustrates course concepts. Mutually Exclusive: Cannot register for ELEC 430 if student has credit for ELEC 551. Graduate/Undergraduate Equivalency: ELEC 551. Mutually Exclusive: Cannot register for ELEC 430 if student has credit for ELEC 551.

**ELEC 431 - DIGITAL SIGNAL PROCESSING**  
**Short Title:** DIGITAL SIGNAL PROCESSING  
**Department:** Electrical & Computer Eng.  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
**Course Level:** Undergraduate Upper-Level  
**Prerequisite(s):** ELEC 301  
**Description:** Methods for analysis of discrete-time signals and design of discrete-time systems including topics of: discrete-time linear systems, difference equations, z-transforms, discrete convolution, stability, discrete-time Fourier transforms, analog-to-digital and digital-to-analog conversion, digital filter design, discrete Fourier transforms, fast Fourier transforms, multi-rate signal processing, filter banks, and spectral analysis. Graduate/Undergraduate Equivalency: ELEC 558. Mutually Exclusive: Cannot register for ELEC 431 if student has credit for ELEC 558.

**ELEC 432 - MOBILE BIO-BEHAVIORAL SENSING**  
**Short Title:** MOBILE BIO-BEHAVIORAL SENSING  
**Department:** Electrical & Computer Eng.  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
**Course Level:** Undergraduate Upper-Level  
**Prerequisite(s):** ELEC 301  
**Description:** In the next-generation of devices, designed for diverse fields as healthcare and education, the devices will understand the human user. At the core of this understanding will be data that is gathered from a new class of sensors, that can measure both biological and behavioral markers. This course introduces the fundamentals of bio- and behavioral sensing. Graduate/Undergraduate Equivalency: ELEC 534. Mutually Exclusive: Cannot register for ELEC 432 if student has credit for ELEC 302/ELEC 534.

<td>ELEC 433</td>
<td>INTRODUCTION TO COMMUNICATION NETWORKS</td>
<td>Electrical &amp; Computer Eng.</td>
<td>Standard Letter</td>
<td>Lecture/Laboratory</td>
<td>3</td>
<td>Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.</td>
<td>ELEC 303 and ELEC 244</td>
<td>This course covers practical aspects of high-speed system design, highlights system design and simulation challenges, and demonstrates common pitfalls and how to prevent them. In this course, students will learn how to design, do gigahertz speed PCB layout, simulate (spice and Hyperlynx), and apply good design practices to minimize both component and system noise and to ensure system design success. Graduate/Undergraduate Equivalency: ELEC 543. Mutually Exclusive: Cannot register for ELEC 434 if student has credit for ELEC 543.</td>

<td>ELEC 434</td>
<td>ADVANCED HIGH-SPEED SYSTEM DESIGN</td>
<td>Electrical &amp; Computer Eng.</td>
<td>Standard Letter</td>
<td>Lecture</td>
<td>3</td>
<td>Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.</td>
<td>ELEC 305 and ELEC 244</td>
<td>This is an FPGA laboratory course. Students will embark upon a detailed study and implementation of digital communications systems. Major functional blocks of end-to-end wireless communication systems will be discussed, built, and tested in hardware. Course will also cover analysis and design of communication systems, especially modulation, demodulation and detection. Students will benefit from a combined theory-lab approach to communications and work in groups on weekly lab assignments and a major semester project. Graduate/Undergraduate Equivalency: ELEC 536. Mutually Exclusive: Cannot register for ELEC 433 if student has credit for ELEC 536.</td>

<td>WIRELESS NETWORKING FOR UNDER-RESOURCED URBAN COMMUNITIES</td>
<td>Electrical &amp; Computer Eng.</td>
<td>Standard Letter</td>
<td>Lecture</td>
<td>3</td>
<td>Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.</td>
<td>WIRELESS NETWKG UNDER-RESRC'D</td>
<td>The Rice Networks Group and the non-profit organization Technology For All have recently deployed a state-of-the art wireless network in one of Houston's most economically disadvantaged neighborhoods. The objective of this network is to empower under-resourced communities with access to technology and educational and work-at-home tools. In this course project teams will perform measurement studies both in the Rice Networks Lab and in the East End neighborhood to characterize the system capacity; optimize placement of wireless nodes; study the effects of traffic and channel characteristics on system-wide performance; and plan deployment of additional nodes to extend the coverage area.</td>

ELEC 440 - ARTIFICIAL INTELLIGENCE
Short Title: ARTIFICIAL INTELLIGENCE
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 4
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: In many applications one is faced with the task of simulating or controlling complex dynamical systems. Such applications include for instance, weather prediction, air quality management, VLSI chip design, molecular dynamics, active noise reduction, chemical reactors, etc. In all these cases complexity manifests itself as the number of first order differential equations which arise. Model (order) reduction (MOR) seeks to replace a large-scale system described in terms of differential or difference equations by a system of much lower dimension that has nearly the same response characteristics. The ensuing methods have been an indispensable tool for speeding up the simulations arising in various engineering applications involving large-scale dynamical systems. In this course we will develop the underlying approximation theory paying particular attention to its data-driven aspects.

ELEC 441 - COMPUTATIONAL IMAGING
Short Title: COMPUTATIONAL IMAGING
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: A upper-level introduction to imaging systems as an integral part of the sense-process-decide-act cycle. This cycle is central to the operation of any goal-directed system, biological or engineered. Students will gain a basic understanding of the mechanisms by which information about a scene is encoded on an electro-magnetic wave. Furthermore, the students will learn to analyze the information extraction process realized via the imaging chain of front-end optics, transduction, and post-processing. The objective of the course is to understand the limits of modern image formation and how optics, photonic-to-electronic transduction, and post-detection processing can be jointly designed to enable imagers with unique capabilities.

ELEC 442 - INTRODUCTION TO ANALOG INTEGRATED CIRCUITS
Short Title: ANALOG INTEGRATED CIRCUITS
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ELEC 424
Description: There has been growing interest in analog computing in both academia and industry in the era of artificial intelligence. This course provides a comprehensive introduction to various aspects of modern analog integrated circuits. Students will learn how to 1) analyze, simulate and design a complementary metal oxide semiconductor (CMOS) analog integrated circuit, 2) analyze and simulate elementary transistor stages, current mirrors, supply- and temperature-independent bias and reference circuits, and 3) explore performance evaluation using computer-aided design tools.

ELEC 444 - INTRODUCTION TO DIGITAL IMAGE AND VIDEO PROCESSING
Short Title: DIGITAL IMAGE & VIDEO PROC.
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ELEC 301
Description: This course covers theory and tools for representing and processing digital images and video. Topics include: multi-dimensional sampling, transforms, and filtering; human visual perception; visual scanning and display; tomographic reconstruction; image and video coding theory and standards; video streaming; and, image restoration. Recommended Prerequisite(s): ELEC 431

Course URL: www.owlnet.rice.edu/~comp440 (http://www.owlnet.rice.edu/~comp440/)
ELEC 446 - MOBILE DEVICE APPLICATIONS PROJECT
Short Title: MOBILE DEVICE APPLICATIONS
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 4
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Connected mobile devices require updated programming models and design concepts to take advantage of their capabilities. We will explore applications primarily on the Apple iPhone and iPad but will also cover smart watches, Google Android and intelligent voice assistants like Amazon Echo and Google Home. We will briefly touch on the development of web services to support mobile applications. The course culminates with a large project taking up most of the second half of the semester. Although the curriculum centers around and teaches iOS and Xcode, final projects may be completed in any major mobile system including Android and Alexa, etc. Cross-list: COMP 446. Recommended Prerequisite(s): COMP 310 or prior Object Oriented Programming experience highly recommended.

ELEC 447 - INTRODUCTION TO COMPUTER VISION
Short Title: INTRO TO COMPUTER VISION
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ELEC 301 or ELEC 475 or COMP 314 or ELEC 322 or COMP 330
Description: An introduction to the basic concepts, algorithms and applications in computer vision. Topics include: cameras, camera models and imaging pipeline, low-level vision/image processing methods such as filtering and edge detection; mid-level vision topics such as segmentation and clustering; shape reconstruction from stereo, introduction to high-level vision tasks such as object recognition and face recognition. The course will involve programming and implementing basic computer vision algorithms in Matlab. Cross-list: COMP 447. Graduate/Undergraduate Equivalency: ELEC 546. Mutually Exclusive: Cannot register for ELEC 447 if student has credit for ELEC 345/ELEC 546.

ELEC 450 - ALGORITHMIC ROBOTICS
Short Title: ALGORITHMIC ROBOTICS
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 4
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): (COMP 221 or COMP 321) and COMP 215
Description: Robots have fascinated people for generations. Today, robots are built for applications as diverse as exploring remote planets, de-mining war zones, cleaning toxic waste, assembling cars, inspecting pipes in industrial plants and mowing lawns. Robots are also interacting with humans in a variety of ways: robots are museum guides, robots assist surgeons in life threatening operations, and robotic cars can drive us around. The field of robotics studies not only the design of new mechanisms but also the development of artificial intelligence frameworks to make these mechanisms useful in the physical world, integrating computer science, engineering, mathematics and more recently biology and sociology, in a unique way. This class will present fundamental algorithmic advances that enable today's robots to move in real environments and plan their actions. It will also explore fundamentals of the field of Artificial Intelligence through the prism of robotics. The class involves a significant programming project. Cross-list: COMP 450, MECH 450. Graduate/Undergraduate Equivalency: ELEC 550. Mutually Exclusive: Cannot register for ELEC 450 if student has credit for ELEC 550.

ELEC 460 - PHYSICS OF SENSOR MATERIALS AND NANOSENSOR TECHNOLOGY
Short Title: PHYSICS OF SENSORS
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ELEC 261 and ELEC 305
Description: Topics covered include MEMS, MOEMS, and NEMS systems along with special materials such as liquid crystals, piezoelectrics, memory metal, and topological insulators. Graduate/Undergraduate Equivalency: ELEC 560. Mutually Exclusive: Cannot register for ELEC 460 if student has credit for ELEC 560.

ELEC 461 - SOLID STATE PHYSICS
Short Title: SOLID STATE PHYSICS
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment limited to students with a class of Junior or Senior. Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ELEC 261
Description: This is a course for juniors and seniors whose specialization is in photonics, electronics, and nanoengineering. This course will provide an introduction to elementary topics in solid state physics, including free electron Fermi gas, crystal structure, reciprocal lattice, lattice vibrations, electronic band structure, Bloch electron dynamics, superconductivity, magnetism, and optical properties.
ELEC 462 - OPTOELECTRONIC DEVICES
Short Title: OPTOELECTRONIC DEVICES
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ELEC 305
Description: This course provides an introduction to the fundamental principles of semiconductor optoelectronic devices. After reviewing the basic elements of quantum mechanics of electrons and photons, light-matter interaction (including laser oscillations), and semiconductor physics (band structure, heterostructures and alloys, optical processes), we will study the details of modern semiconductor devices for the generation, detection, and modulation of light. Graduate/Undergraduate Equivalency: ELEC 562. Mutually Exclusive: Cannot register for ELEC 462 if student has credit for ELEC 562.
Course URL: www.ece.rice.edu/~kono/ELEC462.html

ELEC 475 - LEARNING FROM SENSOR DATA
Short Title: LEARNING FROM SENSOR DATA
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: The first half of this course develops the basic machine learning tools for signals images, and other data acquired from sensors. Tools covered include principal components analysis, regression, support vector machines, neural networks, and deep learning. The second half of this course overviews a number of applications of sensor data science in neuroscience, image and video processing, and machine vision. Graduate/Undergraduate Equivalency: ELEC 575. Mutually Exclusive: Cannot register for ELEC 475 if student has credit for ELEC 575.
Course URL: www.ece.rice.edu/~kono/ELEC462.html

ELEC 477 - SPECIAL TOPICS
Short Title: SPECIAL TOPICS
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Internship/Practicum, Lecture, Seminar, Laboratory
Credit Hours: 1-4
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Topics and credit hours vary each semester. Contact department for current semester’s topic(s). Repeatable for Credit.

ELEC 478 - INTRODUCTION TO MACHINE LEARNING
Short Title: INTRO TO MACHINE LEARNING
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): (STAT 405 or CAAM 210 or COMP 140) and (CAAM 335 or MATH 355 or MATH 354) and (ELEC 301 or STAT 315 or DSCI 301)
Description: This course is an advanced introduction to concepts, methods, best practices, and theoretical foundations of machine learning. Topics covered include regression, classification, regularization, kernels, clustering, dimension reduction, decision trees, ensemble learning, and neural networks. Graduate/Undergraduate Equivalency: ELEC 578. Mutually Exclusive: Cannot register for ELEC 478 if student has credit for DSCI 303.

ELEC 483 - MACHINE LEARNING AND SIGNAL PROCESSING FOR NEURAL SIGNAL PROCESSING
Short Title: NEURAL SIGNAL PROCESSING
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): (MATH 354 or MATH 355 or CAAM 335) and (ELEC 303 or STAT 305 or STAT 310 or ECON 307) and (CAAM 210 or COMP 140)
Description: This course covers advanced statistical signal processing and machine learning approaches for modern neuroscience data (primarily many-channel spike trains). Topics include latent variable models, point processes, Bayesian inference, dimensionality reduction, dynamical systems, and spectral analysis. Neuroscience applications include modeling neural firing rates, spike sorting, decoding. Graduate/Undergraduate Equivalency: ELEC 548. Recommended Prerequisite(s): ELEC 475 and STAT 413 and COMP 540 and (ELEC 242 or ELEC 243) Mutually Exclusive: Cannot register for ELEC 483 if student has credit for ELEC 548.

ELEC 485 - FUNDAMENTALS OF MEDICAL IMAGING I
Short Title: FUND MEDICAL IMAGING I
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ELEC 305 or MATH 211 and MATH 212.
Recommended Prerequisite(s): MATH 211 and MATH 212.
Cross-list: BIOE 485, COMP 485
Graduate/Undergraduate Equivalency: ELEC 585. Recommended Prerequisite(s): MATH 211 and MATH 212. Mutually Exclusive: Cannot register for ELEC 485 if student has credit for ELEC 585.
ELEC 486 - FUNDAMENTALS OF MEDICAL IMAGING II
Short Title: FUND MEDICAL IMAGING II
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ELEC 485 or BIOE 485 or COMP 485
Description: This course focuses on functional imaging modalities used specifically in nuclear medicine such as Gamma cameras, SPECT, and PET imaging. The course will introduce the basic principles of image acquisition, formation, processing and the clinical applications of these imaging modalities and lays the foundations for understanding the principles of radiotracer kinetic modeling. A trip to a clinical site in also planned to gain experience with nuclear medicine imaging. Cross-list: BIOE 486, COMP 486. Graduate/Undergraduate Equivalency: ELEC 586. Mutually Exclusive: Cannot register for ELEC 486 if student has credit for ELEC 586.

ELEC 487 - IMAGING OPTICS
Short Title: IMAGING OPTICS
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): PHYS 102 or PHYS 112 or PHYS 126
Description: The course covers the fundamental properties of light propagation and interaction with matter under the approximations of geometrical optics and scalar wave optics, as well as the fundamentals of optical microscopy. The course emphasizes a system approach to the analysis and design of optical systems from a user and an engineering perspective, focusing on the physical intuition and underlying mathematical tools, and application of the physical concepts to topical engineering domains such as a selection of microscopy techniques. Students will have direct hands-on experience with optics and optical imaging systems in the classroom. Graduate/Undergraduate Equivalency: ELEC 582.

ELEC 488 - THEORETICAL NEUROSCIENCE: FROM CELLS TO LEARNING SYSTEMS
Short Title: THEORETICAL NEUROSCIENCE
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: We present the theoretical foundations of cellular and systems neuroscience from distinctly quantitative point of view. We develop the mathematical and computational tools as they are needed to model, analyze, visualize and interpret a broad range of experimental data. Cross-list: CAAM 415, NEUR 415. Graduate/Undergraduate Equivalency: ELEC 588. Recommended Prerequisite(s): CAAM 210 or MATH 211 or CAAM 335 or MATH 355. Mutually Exclusive: Cannot register for ELEC 488 if student has credit for ELEC 588.

ELEC 489 - NEURAL COMPUTATION
Short Title: NEURAL COMPUTATION
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: How does the brain work? Understanding the brain requires sophisticated theories to make sense of the collective actions of billions of neurons and trillions of synapses. Word theories are not enough; we need mathematical theories. The goal of this course is to provide an introduction to the mathematical theories of learning and computation by neural systems. These theories use concepts from dynamical systems (attractors, oscillations, chaos) and concepts from statistics (information, uncertainty, inference) to relate the dynamics and functions of neural networks. We will apply these theories to sensory computation, learning and memory, and motor control. Students will learn to formalize and mathematically answer questions about neural computations, including “what does a network compute?”, “how does it compute?”, and “why does it compute that way?” Prerequisites: knowledge of calculus, linear algebra, and probability and statistics. Cross-list: CAAM 416, NEUR 416. Graduate/Undergraduate Equivalency: ELEC 589. Mutually Exclusive: Cannot register for ELEC 489 if student has credit for ELEC 589.

ELEC 490 - UNDERGRADUATE ELECTRICAL ENGINEERING RESEARCH PROJECTS
Short Title: UG ELEC ENG’G RES PROJECTS
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Research
Credit Hours: 1-6
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Theoretical and experimental investigations under staff direction. A research project plan should be prepared and approved by the faculty member advising the project. Information about ELEC 490 project plans is available on the ECE Web site on the Academics section under ECE forms. May be repeated for a total of 6 credit hours for undergraduates. Instructor Permission Required. Repeatable for Credit.

ELEC 491 - UNDERGRADUATE ELECTRICAL ENGINEERING RESEARCH PROJECTS-VERTICALLY INTEGRATED PROJECTS-VIP
Short Title: UG ELEC ENG’G RESEARCH VIP
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Research
Credit Hours: 1-6
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Vertically Integrated Projects (VIP) teams include students from multiple years working on one larger, multi-year project defined by the instructor. Students participating in VIP for 3 or more semesters may be eligible for the Distinction in Research and Creative Work graduation award. Instructor Permission Required. Graduate/Undergraduate Equivalency: ELEC 591. Repeatable for Credit.
ELEC 494 - SENIOR DESIGN
Short Title: SENIOR DESIGN
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Senior Design is a year-long course required of all BSEE-degree students. In order to fulfill the BSEE degree requirements, students must register for ELEC 494 for both fall and spring semesters of the same academic year. The course is taught in conjunction with the Senior Design courses in BioEngineering and in Mechanical Engineering and Materials Science. Teams of students will design, construct, and document a prototype system to meet specifications determined by the team and the instructor. Senior design projects are the culmination of the Rice engineering experience. Cross-departmental projects are allowed and encouraged, and extensive use will be made of the Oshman Engineering Design Kitchen. Many projects will involve advisors from industrial affiliates. Throughout the year there will be several opportunities for presentations on the project. Top projects will be eligible for several awards from within Rice and outside the university, including some nation-wide competitions. Instructor Permission Required. Repeatable for Credit.

ELEC 495 - TRANSFER CREDIT - SENIOR
Short Title: TRANSFER CREDIT - SENIOR
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Transfer
Credit Hours: 1-4
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course is intended for transfer credit for courses not offered at Rice. Permission of ECE Undergraduate Committee and review by faculty in related specialization area is required. ELEC 495 is for Senior level ECE Specialization course credit. Department Permission Required. Repeatable for Credit.

ELEC 497 - DESIGN OF ANALOG PRINTED CIRCUIT BOARDS
Short Title: ANALOG PRINTED CIRCUIT BOARDS
Department: Electrical & Computer Eng.
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Lecture/Laboratory
Credit Hour: 1
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ELEC 494 (may be taken concurrently) or BIOE 451 (may be taken concurrently) or MECH 407 (may be taken concurrently)
Description: This course covers the basics of designing, fabricating, and testing daughter cards for microcontrollers such as the Arduino. Using PCB design software such as Eagle, students will design, fabricate, and test their printed circuit board. Prerequisites may be taken concurrently.

ELEC 498 - INTRODUCTION TO ROBOTICS
Short Title: INTRODUCTION TO ROBOTICS
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): MATH 354 or MATH 355 or CAAM 335
Description: The course will provide the student with a mathematical introduction to many of the key ideas used in today’s intelligent robot systems. The focus of the course is on the analysis and control of manipulators. The course will also give an overview of common approaches to building intelligent robot systems. Cross-list: COMP 498, MECH 498. Graduate/Undergraduate Equivalency: ELEC 598. Recommended Prerequisite(s): MECH 211 or CEVE 211 or MECH 310
Mutually Exclusive: Cannot register for ELEC 498 if student has credit for ELEC 598.

ELEC 502 - NEURAL MACHINE LEARNING I
Short Title: NEURAL MACHINE LEARNING I
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Review of major neural machine learning (Artificial Neural Network) paradigms. Analytical discussion of supervised and unsupervised neural learning algorithms and their relation to information theoretical methods. Practical applications to data analysis such as pattern recognition, clustering, classification, function approximation/ regression, non-linear PCA, projection pursuit, independent component analysis, with lots of examples from image and digital productions. Details are posted at www.ece.rice.edu/~erzsebet/ANNcourse.html. Cross-list: COMP 502, STAT 502. Recommended Prerequisite(s): ELEC 430 and ELEC 431 or equivalent or permission of instructor.
Course URL: www.ece.rice.edu/~erzsebet/ANNcourse.html (http://www.ece.rice.edu/~erzsebet/ANNcourse.html)

ELEC 507 - NON LINEAR DYNAMIC SYSTEMS ANALYSIS
Short Title: NONLINEAR DYNAMIC SYSTEMS
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Analytical methods for the study of nonlinear systems are introduced, including singular point and phase plane analysis, the describing function technique, Lyapunov and Lagrangian state functions, stability analysis, bifurcation analysis, and chaotic behavior in nonlinear dynamic systems. As a substrate for the study of nonlinear systems, numerical analysis of ordinary and partial differential equations, boundary value problems, simulation methods, parameter estimation and sensitivity analysis methods are also included.
ELEC 508 - NONLINEAR SYSTEMS: ANALYSIS AND CONTROL
Short Title: NONLINEAR SYSTEMS
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate

ELEC 510 - SECURE AND CLOUD COMPUTING
Short Title: SECURE & CLOUD COMPUTING
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: What is “cloud computing?” How do we build cloud-scale systems and components that are secure against malicious attacks, and scale to millions of users? Many of today's services run inside the cloud - a set of geographically distributed data centers running heterogeneous software stacks. Cloud systems must scale across tens of thousands of machines, support millions of concurrent requests, and they must do so with high security guarantees. This course will start with the fundamentals of cloud computing, introduce key techniques in building scalable and secure systems and expose students to state-of-the-art research advances as well as emerging security threats and defenses in today's cloud systems. Cross-list: COMP 536. Graduate/Undergraduate Equivalency: ELEC 410. Mutually Exclusive: Cannot register for ELEC 510 if student has credit for ELEC 410.

ELEC 511 - DESIGN AND ANALYSIS OF SECURE EMBEDDED SYSTEMS FOR IoT ERA
Short Title: SECURE EMBEDDED SYS FOR IoT
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: The course emphasizes the security of small embedded devices that are central to the Internet of Things (IoT) Era. We discuss the practical security attacks, challenges, constraints, and opportunities that arise in the IoT domain. Covered topics include security engineering, real world attacks, practical and side channel attacks, and hands-on lab/projects. Cross-list: COMP 508. Repeatable for Credit.

ELEC 512 - GRADUATE DESIGN AND ANALYSIS OF ALGORITHMS
Short Title: GR DESGN ANALY OF ALGORITHMS
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Methods for designing and analyzing computer algorithms and data structures. The focus of this course will be on the theoretical and mathematical aspects of algorithms and data structures. Cross-list: COMP 582.

ELEC 513 - COMPLEXITY IN MODERN SYSTEMS
Short Title: COMPLEXITY IN MODERN SYSTEMS
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: A modern computer is a system with enormous complexity in both software and hardware. The course presents the principles for managing such complexity using examples from modern computing systems. It covers emergent issues from system complexity such as energy efficiency, bug finding, and heterogeneous hardware. It also covers designing experiments and writing systems papers. The course consists of lectures, student presentation of classic papers, and a final project. Cross-list: COMP 513.

ELEC 514 - WIRELESS INTEGRATED CIRCUITS AND SYSTEMS
Short Title: WIRELESS IC
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Topics covered include system architectures for modern wireless transceivers and transistor-level design considerations for circuit building blocks (low noise amplifier, mixer, power amplifier, etc.) in a wireless transceiver. Graduate/Undergraduate Equivalency: ELEC 414. Recommended Prerequisite(s): ELEC 305, ELEC 342, or Equivalent Courses with the Key Concepts Listed Below • Transistor-level CMOS analog circuits (basic configurations, small signal models, parasitic effects) • Frequency response of transistor-level CMOS circuits (pole/zero calculations) • Frequency response of simple passive networks (1st order and 2nd order RLC networks) • Noise analysis of transistor-level CMOS circuits (noise sources in CMOS transistors, input referred voltage/current noise for CMOS transistor-level circuits)
ELEC 515 - MACHINE LEARNING FOR RESOURCE-CONstrained PLATFORMS
Short Title: EMBEDDED MACHINE LEARNING
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Machine learning is in tremendous demand in numerous applications; however, its often prohibitive complexity remains a major challenge for its extensive deployment in resource constrained platforms. This course will introduce techniques which enable the development of energy/time efficient machine learning systems, taking a path from algorithm to architecture down to the circuit level. In particular, you will first learn commonly used machine learning algorithms, and then algorithm-, architecture-, circuit-level techniques for reducing the energy/time cost of machine learning systems while maintaining their powerful performance. Finally, we will do a deep dive into state-of-the-art efficient machine learning systems, such as Google’s TPU and Eyeriss.
Course URL: yl150.web.rice.edu/course2019fall_home.html (http://yl150.web.rice.edu/course2019fall_home.html)

ELEC 516 - ANALOG INTEGRATED CIRCUITS
Short Title: ANALOG INTEGRATED CIRCUITS
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: There has been growing interest in analog computing in both academia and industry in the era of artificial intelligence. This course provides a comprehensive introduction to various aspects of modern analog integrated circuits. Students will learn how to 1) analyze, simulate and design a complementary metal oxide semiconductor (CMOS) analog integrated circuit, 2) analyze and simulate elementary transistor stages, current mirrors, supply- and temperature-independent bias and reference circuits, and 3) explore performance evaluation using computer-aided design tools. Graduate/Undergraduate Equivalency: ELEC 516. Mutually Exclusive: Cannot register for ELEC 442 if student has credit for ELEC 442.

ELEC 517 - MICROWAVE ENGINEERING
Short Title: MICROWAVE ENGINEERING
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Topics covered include transmission line, Smith Chart, scattering parameters, impedance matching, passive microwave circuits (power divider, coupler, 180° hybrid, filter), and antenna design fundamentals. Graduate/Undergraduate Equivalency: ELEC 411. Mutually Exclusive: Cannot register for ELEC 517 if student has credit for ELEC 411.

ELEC 518 - EMBEDDED COMPUTER SYSTEMS PROGRAMMING
Short Title: EMBEDDED SYSTEMS PROGRAMMING
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Embedded computer systems programming focuses on the integrated design of hardware and software for system on chip devices. The course will develop an integrated foundation including principles, practices, and experimentation. Computer languages including C and C++ will be used to analyze and implement algorithms. Object-oriented programming for trees and graphs and other data structures will be explored. Embedded operating systems including Linux, peripheral interfacing, and development environments will be utilized in the laboratory. Additional course work required beyond the undergraduate course requirement. Mutually Exclusive: Cannot register for ELEC 518 if student has credit for ELEC 418.

ELEC 519 - DATA SCIENCE AND DYNAMICAL SYSTEMS
Short Title: DATA AND SYSTEMS
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: In many applications one is faced with the task of simulating or controlling complex dynamical systems. Such applications include for instance, weather prediction, air quality management, VLSI chip design, molecular dynamics, active noise reduction, chemical reactors, etc. In all these cases complexity manifests itself as the number of first order differential equations which arise. Model (order) reduction (MOR) seeks to replace a large-scale system described in terms of differential or difference equations by a system of much lower dimension that has nearly the same response characteristics. The ensuing methods have been an indispensable tool for speeding up the simulations arising in various engineering applications involving large-scale dynamical systems. In this course we will develop the underlying approximation theory paying particular attention to its data-driven aspects. Additional coursework required beyond the undergraduate course requirements. Graduate/Undergraduate Equivalency: ELEC 439. Mutually Exclusive: Cannot register for ELEC 519 if student has credit for ELEC 439.
ELEC 520 - DISTRIBUTED SYSTEMS
Short Title: DISTRIBUTED SYSTEMS
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 4
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Course URL: www.cs.rice.edu/~alc/comp520/ (http://www.cs.rice.edu/~alc/comp520/)

ELEC 521 - ADVANCED DIGITAL INTEGRATED CIRCUITS DESIGN
Short Title: ADV DIGITAL IC DESIGN
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: The course addresses advanced issues in custom digital IC design. Topics range from physical-level analysis and modeling of new devices, interconnect, and power supply, to circuit-level design techniques for low power and high performance, to application-oriented digital circuits/systems for security and machine learning. Graduate/Undergraduate Equivalency: ELEC 426. Recommended Prerequisite(s): ELEC 326/COMP 326 or ELEC 342 or Digital Circuit Courses.

ELEC 522 - ADVANCED VLSI DESIGN
Short Title: ADV VLSI DESIGN
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Design and analysis of algorithm-specific VLSI processor architectures. Topics include the implementation of pipelined and systolic processor arrays. Techniques for mapping numerical algorithms onto custom processor arrays. Course includes design project using high-level VLSI synthesis tools.
Course URL: www.owlnet.rice.edu/~elec522 (http://www.owlnet.rice.edu/~elec522/)

ELEC 523 - INTRODUCTION TO MICROFABRICATION
Short Title: INTRO TO MICROFABRICATION
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Microfabrication and nanofabrication are among the most important electrical and computer engineering technologies, and are the basis of manufacturing for nearly all modern miniaturized systems. This course provides an introduction to integrated circuit device fabrication and micromachining technology, including film deposition, lithography, etching, thermal oxidation, ion implantation, impurity diffusion, contacts and interconnections, and process integration topics. Recommended Prerequisite(s): Introductory physics (mechanics, electricity and magnetism), introductory chemistry.

ELEC 524 - MOBILE AND WIRELESS NETWORKING
Short Title: MOBILE AND WIRELESS NETWORKING
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 4
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): COMP 429 or ELEC 429
Description: Study of network protocols for mobile and wireless networking, particularly at the media access control, network, and transport protocol layers. Focus is on the unique problems and challenges presented by the properties of wireless transmission and host or router mobility. Cross-list: COMP 524. Recommended Prerequisite(s): COMP 421 OR ELEC 421.

ELEC 525 - VIRTUALIZATION AND CLOUD RESOURCE MANAGEMENT
Short Title: VIRTUAL & CLOUD RESOURCE MGMT
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): COMP 425 or ELEC 425

ELEC 526 - HIGH PERFORMANCE COMPUTER ARCHITECTURE
Short Title: HIGH PERFORM COMPUTER ARCH
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Design of high performance computer systems, including shared-memory and message-passing multiprocessors and vector systems. Hardware and software techniques to tolerate and reduce memory and communication latency. Case studies and performance simulation of high-performance systems. Cross-list: COMP 526. Recommended Prerequisite(s): ELEC 425 or COMP 425
ELEC 527 - VLSI SYSTEMS DESIGN
Short Title: VLSI SYSTEMS DESIGN
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: A study of VLSI technology and design. MOS devices, Characteristics and fabrication. Logic design and implementation. VLSI design methodology, circuit simulation and verification. Additional course work required beyond the undergraduate course requirement. Graduate/ Undergraduate Equivalency: ELEC 422. Mutually Exclusive: Cannot register for ELEC 527 if student has credit for ELEC 422.

ELEC 528 - SECURITY TOPICS OF EMBEDDED SYSTEMS
Short Title: EMBEDDED HW SYSTEMS SECURITY
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: The course covers wide range of topics pertaining to security of Hardware Embedded systems, including cryptographic processors, secure memory access, hardware IT protection by monitoring and watermarking FPGA security, physical and side-charmed attacks, Trojan horses. Cross-list: COMP 538. Repeatable for Credit.
Course URL: www.ece.rice.edu/~fk1/ (http://www.ece.rice.edu/~fk1/)

ELEC 529 - ADVANCED COMPUTER NETWORKS
Short Title: ADVANCED COMPUTER NETWORKS
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 1-4
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): COMP 429 or ELEC 429
Description: This course explores advanced solutions in computer networks that are driven by the need to go beyond the best-effort capabilities of the Internet. Topics include network fault tolerance, traffic engineering, scalable data center network architectures, network support for big data processing, network support for cloud computing, extensible network control via software defined networking, denial-of-service-attack defense mechanisms. Readings from original research papers. Also include design project and oral presentation components. This course assumes students already have a good understanding of the best-effort Internet. Cross-list: COMP 529. Repeatable for Credit.
Course URL: www.clear.rice.edu/comp529/ (http://www.clear.rice.edu/comp529/)

ELEC 530 - DETECTION THEORY
Short Title: DETECTION THEORY
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Classic and modern methods of optimal decisions in communications and signal processing. Continuous- and discrete-time methods. Gaussian and non-Gaussian problems.

ELEC 531 - STATISTICAL SIGNAL PROCESSING
Short Title: STATISTICAL SIGNAL PROCESSING
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Statistical models for single- and multi-channel signals. Optimal detection and estimation solutions for Gaussian and non-Gaussian environments. Recommended Prerequisite(s): ELEC 533 and knowledge of digital signal processing at the level of ELEC 431

ELEC 532 - INTRODUCTION TO ENERGY-EFFICIENT MECHATRONICS
Short Title: INTRO TO MECHATRONICS
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Introduction to electromechanical systems, focusing on motor mechanics, electric drives & electronics, & modern digital control algorithms. Covers basic principles of electromechanical energy conversion & motor control. Students are introduced to energy efficiency considerations of modern electric drives. Includes hands-on laboratory projects involving digital computer control of various motor types. Additional coursework required beyond the undergraduate course requirements. Cross-list: MECH 535. Graduate/Undergraduate Equivalency: ELEC 435. Mutually Exclusive: Cannot register for ELEC 532 if student has credit for ELEC 435.

ELEC 533 - INTRODUCTION TO RANDOM PROCESSES AND APPLICATIONS
Short Title: INTRO RANDOM PROCESSES & APPL
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Review of basic probability; Sequences of random variables; Random vectors and estimation; Basic concepts of random processes; Random processes in linear systems; expansions of random processes; Wiener filtering; Spectral representation of random processes, and white-noise integrals. Cross-list: CAAM 583, STAT 583.
ELEC 534 - MOBILE BIO-BEHAVIORAL SENSING
Short Title: MOBILE BIO-BEHAVIORAL SENSING
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: In the next-generation of devices, designed for diverse fields as healthcare and education, the devices will understand the human user. At the core of this understanding will be data that is gathered from a new class of sensors, that can measure both biological and behavioral markers. This course introduces the fundamentals of bio- and behavioral sensing. Additional coursework required beyond the undergraduate course requirements. Graduate/Undergraduate Equivalency: ELEC 432. Mutually Exclusive: Cannot register for ELEC 534 if student has credit for ELEC 432.

ELEC 535 - INFORMATION THEORY
Short Title: INFORMATION THEORY
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Introduction to information theory concepts; basic theorems of channel coding and source coding with a fidelity criterion. The course material requires background of a first course in probability, like Rice ELEC 303.

ELEC 536 - ARCHITECTURE FOR WIRELESS COMMUNICATIONS
Short Title: ARCH - WIRELESS COMMUNICATIONS
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This is an FPGA laboratory course. Students will embark upon a detailed study and implementation of digital communications systems. Major functional blocks of end-to-end wireless communication systems will be discussed, built, and tested in hardware. Course will also cover analysis and design of communication systems, especially modulation, demodulation and detection. Students will benefit from a combined theory-lab approach to communications and work in groups on weekly lab assignments and a major semester project. Graduate/Undergraduate Equivalency: ELEC 433. Mutually Exclusive: Cannot register for ELEC 536 if student has credit for ELEC 433.

ELEC 537 - COMMUNICATION NETWORKS
Short Title: COMMUNICATION NETWORKS
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Graduate-level introduction to design and analysis of communication networks. Topics include wireless networks, medium access, routing, traffic modeling, congestion control, and scheduling. Cross-list: MECH 537.

ELEC 538 - ADVANCED WIRELESS NETWORKING
Short Title: ADVANCED WIRELESS NETWORKING
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Advanced topics in next generation mobile and wireless networks. Recommended Prerequisite(s): An introductory course in networking or communications is recommended.

ELEC 539 - INTRODUCTION TO COMMUNICATION NETWORKS
Short Title: INTO COMMUNICATION NETWORK
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Introduction to design and analysis of communication networks. Topics include wireless networks, media access, routing traffic modeling, congestion control, and scheduling. Additional coursework required beyond the undergraduate course requirements. Graduate/Undergraduate Equivalency: ELEC 437. Mutually Exclusive: Cannot register for ELEC 539 if student has credit for ELEC 437.

ELEC 540 - ADVANCED WIRELESS COMMUNICATIONS
Short Title: ADVANCED WIRELESS COMM
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Course will teach advanced techniques in wireless, e.g. MIMO, Massive MIMO, Full-duplex and Coordinated Multi-point. The focus will be on both the theoretical foundations and practical use in actual systems, explored with a combination of lectures, homeworks, data-driven evaluations and mini-projects. Recommended Prerequisite(s): ELEC 430 or ELEC 551 or ELEC 535.

ELEC 541 - ERROR CORRECTING CODES
Short Title: ERROR CORRECTING CODES
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): ELEC 430
Description: Introductory course on error correcting codes. Topics covered include linear block codes, convolutional codes, turbo codes and LDPC codes.
ELEC 542 - THE APPLICATION OF VECTOR SPACE METHODS AND OTHER ADVANCED TECHNIQUES TO DSP
Short Title: VECTOR SPACES AND DSP
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): ELEC 431 (may be taken concurrently)
Description: The course will introduce the application of vector space methods to digital signal processing. This includes topics such as representing a signal using basis expansions, Gram-Schmidt orthogonalization, linear inverse problems, gradient-descent, the use of regularization in approximation, and other advanced topics. The course may be taken in the same semester as ELEC 431.

ELEC 543 - ADVANCED HIGH-SPEED SYSTEM DESIGN
Short Title: ADV H-S SYSTEM DESIGN
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course covers practical aspects of high-speed system design, highlights system design and simulation challenges, and demonstrates common pitfalls and how to prevent them. In this course, students will learn how to design, do gigahertz speed PCB layout, simulate (spice and Hyperlynx), and apply good design practices to minimize both component and system noise and to ensure system design success. Additional coursework required beyond the undergraduate course requirements. Graduate/Undergraduate Equivalency: ELEC 434. Recommended Prerequisite(s): Knowledge of mixed analog/digital circuits, active filters and transmission line theories. Mutually Exclusive: Cannot register for ELEC 543 if student has credit for ELEC 434.

ELEC 544 - ADVANCED DSP
Short Title: ADVANCED DSP
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: The course will cover advanced topics in FIR and IIR digital filter design, advanced topics in signal processing algorithms, especially in FFTs and high speed convolution and correlation, and in wavelet based signal processing and the discrete wavelet transform. The course will be one-half lecture based and one-half project based.

ELEC 545 - INTRODUCTION TO DIGITAL IMAGE AND VIDEO PROCESSING
Short Title: DIGITAL IMAGE & VIDEO PROC.
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course covers theory and tools for representing and processing digital images and video. Topics include: multi-dimensional sampling, transforms, and filtering; human visual perception; visual scanning and display; tomographic reconstruction; image and video coding theory and standards; video streaming; and, image restoration. Recommended Prerequisite(s): Knowledge of the fundamentals of signals and systems and digital signal processing.

ELEC 546 - INTRODUCTION TO COMPUTER VISION
Short Title: INTRO TO COMPUTER VISION
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: An introduction to the basic concepts, algorithms and applications in computer vision. Topics include: cameras, camera models and imaging pipeline, low-level vision/image processing methods such as filtering and edge detection; mid-level vision topics such as segmentation and clustering; shape reconstruction from stereo, introduction to high-level vision tasks such as object recognition and face recognition. The course will involve programming and implementing basic computer vision algorithms in Matlab. Additional coursework required beyond the undergraduate course requirements. Additional coursework required beyond the undergraduate requirements. Cross-list: COMP 546. Graduate/Undergraduate Equivalency: ELEC 447. Mutually Exclusive: Cannot register for ELEC 546 if student has credit for ELEC 447.

ELEC 547 - COMPUTER VISION
Short Title: COMPUTER VISION
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: The goal of computer vision is to make sense of the three dimensional world from captured images and videos. This requires understanding how light interacts with objects in the environment and then captured by a camera. The goal is to solve problems such as estimating 3D shape of an environment (How does Kinect work?), how to detect and recognize people (How to build your own iPhoto?), detect and track how things move. The course provides an introduction to solving such problems using vision tools such as feature detection, image segmentation, motion estimation, image mosaics, 3D shape reconstruction, and object recognition.
ELEC 548 - MACHINE LEARNING AND SIGNAL PROCESSING FOR NEURO ENGINEERING
Short Title: NEURAL SIGNAL PROCESSING
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course covers advanced statistical signal processing and machine learning approaches for modern neuroscience data (primarily many-channel spike trains). Topics include latent variable models, point processes, Bayesian inference, dimensionality reduction, dynamical systems, and spectral analysis. Neuroscience applications include modeling neural firing rates, spike sorting, decoding. Cross-list: BIOE 548. Graduate/Undergraduate Equivalency: ELEC 483. Mutually Exclusive: Cannot register for ELEC 548 if student has credit for ELEC 483.

ELEC 549 - COMPUTATIONAL PHOTOGRAPHY
Short Title: COMPUTATIONAL PHOTOGRAPHY
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Computational photography is an emerging field that aims to overcome the limitations of conventional digital imaging and display devices by using novel optics, signal processing and computer vision to perform more efficient and accurate measurement as well as produce more compelling and meaningful visualizations of the world around us. It is a convergence of many areas, such as optics, computer vision, computer graphics, image processing, photography, and so on. We will cover topics such as computational sensors with assorted pixel, mobile camera control, light field capture and rendering, computational flash photography, computational illumination for appearance acquisition and 3D reconstruction, reflectance transformation imaging, light transport analysis and novel displays.

ELEC 550 - ALGORITHMIC ROBOTICS
Short Title: ALGORITHMIC ROBOTICS
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 4
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): (COMP 221 or COMP 321) and COMP 215
Description: Robots have fascinated people for generations. Today, robots are built for applications as diverse as exploring remote planets, de-mining war zones, cleaning toxic waste, assembling cars, inspecting pipes in industrial plants and mowing lawns. Robots are also interacting with humans in a variety of ways: robots are museum guides, robots assist surgeon in life threatening operations, and robotic cars can drive us around. The field of robotics studies not only the design of new mechanisms but also the development of artificial intelligence frameworks to make these mechanism useful in the physical world, integrating computer science, engineering, mathematics and more recently biology and sociology, in a unique way. This class will present fundamental algorithmic advances that enable today’s robots to move in real environments and plan their actions. It will also explore fundamentals of the field of Artificial Intelligence through the prism of robotics. The class involves a significant programming project. Cross-list: COMP 550, MECH 550. Graduate/Undergraduate Equivalency: ELEC 450. Mutually Exclusive: Cannot register for ELEC 550 if student has credit for ELEC 450.

ELEC 551 - MODERN COMMUNICATION THEORY AND PRACTICE
Short Title: MODERN COMM. THEORY & PRACTICE
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This is an upper-level course in digital communications, which is designed to prepare students for engineering work in high-tech industries and for graduate work in communications, signal processing, and computer systems. The course covers basic concepts and useful tools for design and performance analysis of transmitters and receivers in the physical layer of a communication system, including multiple antenna MIMO systems. A hands-on laboratory using a state-of-the-art radio testbed illustrates course concepts. Additional coursework required beyond the undergraduate course requirements. Mutually Exclusive: Cannot register for ELEC 551 if student has credit for ELEC 430. Graduate/Undergraduate Equivalency: ELEC 430. Mutually Exclusive: Cannot register for ELEC 551 if student has credit for ELEC 430.
ELEC 552 - OPERATING SYSTEMS AND CONCURRENT PROGRAMMING
Short Title: OP SYS/CONCURRENT PROGRAMMING
Department: Electrical & Computer Eng.
Grade Mode: Standard
Course Type: Lecture/Laboratory
Credit Hours: 4
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): COMP 215 and (COMP 221 or COMP 321)
Description: Introduction to the design, construction, and analysis of concurrent programs with an emphasis on operating systems, including filing systems, schedules, and memory allocators. Specific attention is devoted to process synchronization and communication within concurrent programs. Additional coursework required beyond the undergraduate course requirements. Cross-list: COMP 521. Graduate/Undergraduate Equivalency: ELEC 421. Mutually Exclusive: Cannot register for ELEC 552 if student has credit for ELEC 421.
Course URL: www.clear.rice.edu/comp421/ (http://www.clear.rice.edu/comp421/)

ELEC 553 - MOBILE AND EMBEDDED SYSTEM DESIGN AND APPLICATION
Short Title: MOBILE & EMBEDDED SYSTEM
Department: Electrical & Computer Eng.
Grade Mode: Standard
Course Type: Lecture/Laboratory
Credit Hours: 4
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: ELEC 553 introduces mobile and embedded system design and applications to students and provides them hands-on design experience. It consists of three interlearning parts: lectures, student project, and student presentations. Additional coursework required beyond the undergraduate course requirements. Graduate/Undergraduate Equivalency: ELEC 424. Mutually Exclusive: Cannot register for ELEC 553 if student has credit for ELEC 424.

ELEC 554 - COMPUTER SYSTEMS ARCHITECTURE
Short Title: COMPUTER SYSTEMS ARCHITECTURE
Department: Electrical & Computer Eng.
Grade Mode: Standard
Course Type: Lecture/Laboratory
Credit Hours: 4
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Evolution of key architecture concepts found in advanced uniprocessor systems. Fundamental and advanced pipelining techniques and associated issues for improving processor performance. Illustrated with RISC processors such as the ARM processor. Examine several metrics for processor performance, such as Amdahl's law. Key concepts of data and program memory systems found in modern systems with memory hierarchies and caches. Perform experiments in cache performance analysis. Influence of technology trends, such as Moore's law, on processor implementation Approaches for exploiting instruction level parallelism, such as VLIW. Introduction to parallel and multicore architectures. Introduction to processor architectures targeted for imbedded applications. Additional coursework required beyond the undergraduate course requirements. Cross-list: COMP 554. Graduate/Undergraduate Equivalency: ELEC 425. Mutually Exclusive: Cannot register for ELEC 554 if student has credit for ELEC 425.

ELEC 555 - ADVANCED DIGITAL HARDWARE DESIGN, IMPLEMENTATION, AND OPTIMIZATION
Short Title: ADV DIGITAL DESIGN & IMPLEMENT
Department: Electrical & Computer Eng.
Grade Mode: Standard
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This graduate level course will investigate design and implementation of modern digital signal processing, machine learning, and security algorithms in hardware (including FPGAs and ASICs). Along with learning the principals of design, students will acquire hands-on experience in hardware implementation and the use of the hardware in modern applications including but not limited to mobile phones, biomedical devices, and smart cards. Emphasis is on digital processors, design implementation on FPGA/ASIC fabrics and testing real systems on board, architectures, control, functional units, and circuit topologies for increased performance and reduced circuit size and power dissipation. Additional coursework required beyond the undergraduate course requirements. Graduate/Undergraduate Equivalency: ELEC 427. Mutually Exclusive: Cannot register for ELEC 555 if student has credit for ELEC 427. Repeatable for Credit.

ELEC 556 - INTRODUCTION TO COMPUTER NETWORKS
Short Title: INTRO TO COMPUTER NETWORKS
Department: Electrical & Computer Eng.
Grade Mode: Standard
Course Type: Lecture
Credit Hours: 4
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): COMP 221 or COMP 321
ELEC 558 - DIGITAL SIGNAL PROCESSING
Short Title: DIGITAL SIGNAL PROCESSING
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Methods for analysis of discrete-time signals and design of discrete-time systems including topics of: discrete-time linear systems, difference equations, z-transforms, discrete convolution, stability, discrete-time Fourier transforms, analog-to-digital and digital-to-analog conversion, digital filter design, discrete Fourier transforms, fast Fourier transforms, multi-rate signal processing, filter banks, and spectral analysis. Additional coursework required beyond the undergraduate course requirements. Graduate/Undergraduate Equivalency: ELEC 440. Mutually Exclusive: Cannot register for ELEC 558 if student has credit for ELEC 440.

Course URL: www.owlnet.rice.edu/~comp440 (http://www.owlnet.rice.edu/~comp440/)

ELEC 559 - INNOVATION LAB FOR MOBILE HEALTH
Short Title: INNOVATION LAB - MOBILE HEALTH
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course will be an innovation lab for mobile health products. The students will organize themselves in groups with complementary skills and work on a single project for the whole semester. The aim will be to develop a product prototype which can then be demonstrated to both medical practitioners and potential investors. For successful projects with an operational prototype, the next steps could be applying for OWLspark (Rice accelerator program) or crowd sourcing (like Kickstarter) and/or work in Scalable Health Labs over summer. ELEC Juniors can also continue the project outcomes as a starting point for their senior design. Additional course work required beyond the undergraduate course requirements. Cross-list: BIOE 534. Graduate/Undergraduate Equivalency: ELEC 419. Mutually Exclusive: Cannot register for ELEC 559 if student has credit for ELEC 419. Repeatable for Credit.
Course URL: www.ece.rice.edu/~ashu/ELEC419.html (http://www.ece.rice.edu/~ashu/ELEC419.html)

ELEC 560 - PHYSICS OF SENSOR MATERIALS AND NANOSENSOR TECHNOLOGY
Short Title: PHYSICS OF SENSORS
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Topics covered include MEMS, MOEMS, and NEMS systems along with special materials such as liquid crystals, piezoelectrics, memory metal, and topological insulators. Additional coursework required beyond the undergraduate course requirements. Graduate/Undergraduate Equivalency: ELEC 460. Mutually Exclusive: Cannot register for ELEC 560 if student has credit for ELEC 460.

ELEC 561 - OPTICAL TECHNIQUES FOR IMAGING THROUGH SCATTERING MEDIA
Short Title: IMAGING THROUGH SCATTERS
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Topics covered include basics of Physical optics, and Fourier optics with a strong emphasis on its applications to imaging through scattering media.
ELEC 562 - OPTOELECTRONIC DEVICES
Short Title: OPTOELECTRONIC DEVICES
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course provides an introduction to the fundamental principles of semiconductor optoelectronic devices. After reviewing the basic elements of quantum mechanics of electrons and photons, light-matter interaction (including laser oscillations), and semiconductor physics (band structure, heterostructures and alloys, optical processes), we will study the details of modern semiconductor devices for the generation, detection, and modulation of light. Additional coursework required beyond the undergraduate course requirements. Graduate/Undergraduate Equivalency: ELEC 462. Mutually Exclusive: Cannot register for ELEC 562 if student has credit for ELEC 462.

ELEC 563 - INTRODUCTION TO SOLID STATE PHYSICS I
Short Title: INTRO SOLID STATE PHYSICS I
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Fundamental concepts of crystalline solids, including crystal structure, band theory of electrons, and lattice vibration theory. Cross-list: PHYS 563.

ELEC 564 - SOLID-STATE PHYSICS II
Short Title: INTRO SOLID STATE PHYSICS II
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Continuation of PHYS 563, including scattering of waves by crystals, transport theory, and magnetic phenomena. Cross-list: PHYS 564.

ELEC 565 - MATERIALS FOR ENERGY AND PHOTOCATALYSIS
Short Title: MATERIALS FOR ENERGY&CATALYSIS
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course will cover the basic physics and chemistry of solar energy conversion and storage devices, and the current state of the art and future challenges in materials for energy and photocatalysis. In addition, physical and chemical characterization techniques will be covered.

ELEC 566 - NANOPHOTONICS AND METAMATERIALS
Short Title: NANOPHOTONICS & METAMATERIALS
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: The course will discuss basic concepts of nanophotonics and focus on what metamaterials are, how they work and how to build them. The course will conclude with applications of various meta-devices and upcoming research topics.

ELEC 567 - NANO-OPTICS
Short Title: NANO-OPTICS
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: The goal of this course is to understand concepts of light localization and light-matter interactions on the nanoscale, and to familiarize the students with the state-of-the-art research in the field of nano-optics.

ELEC 568 - LASER SPECTROSCOPY
Short Title: LASER SPECTROSCOPY
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Introduction to the theory and practice of laser spectroscopy as applied to atomic and molecular systems. The course covers fundamentals of spectroscopy, lasers and spectroscopic light sources, high resolution and time resolved laser spectroscopy with applications in atmospheric chemistry, environmental science and medicine. Repeatable for Credit.

ELEC 569 - ULTRAFAST OPTICAL PHENOMENA
Short Title: ULTRAFAST OPTICAL PHENOMENA
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course covers the generation, propagation, and measurement of short laser pulses, of duration less than one picosecond. Concepts include mode locking, the effects of dispersion, optical pulse amplification, and time-domain non-linear optical phenomena. Intended as an introduction to ultrafast phenomena for graduate students or advanced undergraduates; a basic understanding of electromagnetic waves and of quantum mechanics is assumed. Cross-list: PHYS 569.
ELEC 571 - IMAGING AT THE NANOSCALE
Short Title: IMAGING AT THE NANOSCALE
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: A survey of the techniques used in imaging micron and nanometer structures with an emphasis on applications in chemistry, physics, biology, and engineering. The course includes an introduction to scanning probe, submicron optical, and electron microscopies, as well as discussions on the fundamental and practical aspects of image acquisition, artifacts, filtering, and machine learning analysis of such data. Homeworks will involve some familiarity and proficiency with Matlab. The final project will include analysis of the student’s own research data.

ELEC 572 - FINITE ELEMENT METHOD FOR MULTIPHYSICS MODELING
Short Title: MULTIPHYSICS MODELING
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course will provide a hands-on experience on the modeling of micro and nano systems based on the mutual interaction among different physical phenomena. COMSOL Multiphysics, based on the Finite Element Method (FEM), will be utilized as flexible modeling tool to learn how to design a wide range of devices or describe coupled physical mechanisms including electromagnetic waves, heat transfer, fluid dynamics and mass transport. The course will focus in particular on the interaction between light and nanomaterials and how electromagnetic heat dissipation can play a major role in different applications. Recommended Prerequisite(s): Basic electromagnetism and basic calculus.

ELEC 573 - NETWORK SCIENCE AND ANALYTICS
Short Title: NETWORK SCIENCE AND ANALYTICS
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course provides an introduction to complex networks, their structure, and function, with examples from engineering, biology, and social sciences. Topics include spectral graph theory, notions of centrality, community detection, random graph models, inference in networks, opinion dynamics, and contagion phenomena. Our main goal is to study network structures and how they can be leveraged to better understand data defined on them. Recommended Prerequisite(s): Linear algebra, probability and statistics, and basic ability to program in Python.

ELEC 574 - UBIQUITOUS AND WEARABLE COMPUTING
Short Title: UBQ AND WEARABLE COMPUTING
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Wireless and mobile computing, affordable sensors and interaction devices being woven into our daily life and invisible, has created boundless opportunities for in-the-world computing applications that can transform our lives. This course will introduce students to the field of Ubiquitous and Wearable Computing -- a multidisciplinary research area that draws from sensors, machine learning, signal processing, as well as human computer interaction. This class combines lectures, hands-on exercises and assignments, reading state of the art research papers, class discussions and a final project.

ELEC 575 - LEARNING FROM SENSOR DATA
Short Title: LEARNING FROM SENSOR DATA
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: The first half of this course develops the basic machine learning tools for signals images, and other data acquired from sensors. Tools covered include principal components analysis, regression, support vector machines, neural networks, and deep learning. The second half of this course overviews a number of applications of sensor data science in neuroscience, image and video processing, and machine vision. Additional course work required beyond the undergraduate course requirements. Graduate/Undergraduate Equivalency: ELEC 475. Mutually Exclusive: Cannot register for ELEC 575 if student has credit for ELEC 475. Repeatable for Credit.

ELEC 576 - A PRACTICAL INTRODUCTION TO DEEP MACHINE LEARNING
Short Title: INTRODUCTION TO DEEP LEARNING
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Deep Machine Learning has recently made many advances in difficult perceptual tasks, including object and phoneme recognition, and natural language processing. However, the field has a steep learning curve, both conceptually and practically. The point of this course is to engage students by jumping into the deep end, and building their own architectures and algorithms. Cross-list: COMP 576.
ELEC 577 - ALGORITHMS AND OPTIMIZATION FOR DATA SCIENCE
Short Title: OPTIMIZATION FOR DATA SCIENCE
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: In this course, we study algorithms for analyzing data with provable performance, statistical, and computational guarantees. We focus on applications in machine learning and signal processing. Topics include: efficient algorithms for convex optimization, inverse problem, low-rank and sparse models, dimensionality reduction, and randomized algorithms. Recommended Prerequisite(s): MATH 355 and (ECON 307 or STAT 310) or digital circuit courses.

ELEC 578 - INTRODUCTION TO MACHINE LEARNING
Short Title: INTRO TO MACHINE LEARNING
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course is a graduate level introduction to concepts, methods, best practices, and theoretical foundations of machine learning. Topics covered include regression, classification, regularization, kernels, clustering, dimension reduction, decision trees, ensemble learning, and neural networks. Additional work is required for graduate students beyond the undergraduate requirement. Graduate/Undergraduate Equivalency: ELEC 478. Recommended Prerequisite(s): Basic statistics and probability, linear algebra, and programming in R or Python are required. Mutually Exclusive: Cannot register for ELEC 578 if student has credit for DSCI 303.

ELEC 579 - COMPUTATIONAL IMAGING
Short Title: COMPUTATIONAL IMAGING
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course will introduce basic principles of image acquisition, formation and processing of several medical imaging modalities such as X-Ray, CT, MRI, and US that are used to evaluate the anatomy. The course also includes visits to a clinical site to gain experience with the various imaging modalities covered in class. Additional coursework required beyond the undergraduate course requirements. Graduate/Undergraduate Equivalency: ELEC 441.

ELEC 582 - IMAGING OPTICS
Short Title: IMAGING OPTICS
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: The course covers the fundamental properties of light propagation and interaction with matter under the approximations of geometrical optics and scalar wave optics, as well as the fundamentals of optical microscopy. The course emphasizes a system approach to the analysis and design of optical systems from a user and an engineering perspective, focusing on the physical intuition and underlying mathematical tools, and application of the physical concepts to topical engineering domains such as a selection of microscopy techniques. Students will have direct hands-on experience with optics and optical imaging systems in the classroom. Additional coursework required beyond the undergraduate course requirements. Graduate/Undergraduate Equivalency: ELEC 487. Mutually Exclusive: Cannot register for ELEC 582 if student has credit for ELEC 482.

ELEC 584 - FUNDAMENTALS OF HUMAN NEUROIMAGING
Short Title: HUMAN NEUROIMAGING
Department: Neurosciences
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: A survey of methods and results for human brain imaging. Describes the physical and physiological mechanisms of image formation. Provides examples from clinical and basic research, particularly in visual cortex. Emphasis on magnetic resonance imaging, but surveys other imaging modalities including PET, optical, and EEG/MEG source localization. Course taught at Baylor College of Medicine. Cross-list: NEUR 584. Mutually Exclusive: Cannot register for ELEC 584 if student has credit for ELEC 484.

ELEC 585 - FUNDAMENTALS OF MEDICAL IMAGING I
Short Title: FUND MEDICAL IMAGING I
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course will introduce basic principles of image acquisition, formation and processing of several medical imaging modalities such as X-Ray, CT, MRI, and US that are used to evaluate the human anatomy. The course also includes visits to a clinical site to gain experience with the various imaging modalities covered in class. Additional coursework required beyond the undergraduate course requirements. Cross-list: BIOE 591. Graduate/Undergraduate Equivalency: ELEC 485. Mutually Exclusive: Cannot register for ELEC 585 if student has credit for ELEC 485.
ELEC 586 - FUNDAMENTALS OF MEDICAL IMAGING II
Short Title: FUND MEDICAL IMAGING II
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course focuses on functional imaging modalities used specifically in nuclear medicine such as Gamma cameras, SPECT, and PET imaging. The course will introduce the basic principles of image acquisition, formation, processing and the clinical applications of these imaging modalities and lays the foundations for understanding the principles of radiotracer kinetic modeling. A trip to a clinical site in also planned to gain experience with nuclear medicine imaging. Additional coursework required beyond the undergraduate course requirements. Cross-list: BIOE 596. Graduate/Undergraduate Equivalency: ELEC 486. Mutually Exclusive: Cannot register for ELEC 586 if student has credit for ELEC 486.

ELEC 587 - INTRODUCTION TO NEUROENGINEERING: MEASURING AND MANIPULATING NEURAL ACTIVITY
Short Title: INTRO TO NEUROENGINEERING
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course will serve as an introduction to quantitative modeling of neural activity and the methods used to stimulate and record brain activity. Additional coursework required beyond the undergraduate course requirements. Graduate/Undergraduate Equivalency: ELEC 380. Mutually Exclusive: Cannot register for ELEC 587 if student has credit for BIOE 480/BIOE 590/ELEC 380/ELEC 480/ELEC 580.

ELEC 588 - THEORETICAL NEUROSCIENCE I: BIOPHYSICAL MODELING OF CELLS AND CIRCUITS
Short Title: THEORETICAL NEUROSCIENCE
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: We present the theoretical foundations of cellular and systems neuroscience from distinctly quantitative point of view. We develop the mathematical and computational tools as they are needed to model, analyze, visualize and interpret a broad range of experimental data. Additional course work required beyond the undergraduate course requirements. Cross-list: CAAM 615, NEUR 615. Graduate/Undergraduate Equivalency: ELEC 488. Mutually Exclusive: Cannot register for ELEC 588 if student has credit for ELEC 488.

ELEC 589 - NEURAL COMPUTATION
Short Title: NEURAL COMPUTATION
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: How does the brain work? Understanding the brain requires sophisticated theories to make sense of the collective actions of billions of neurons and trillions of synapses. Word theories are not enough; we need mathematical theories. The goal of this course is to provide an introduction to the mathematical theories of learning and computation by neural systems. These theories use concepts from dynamical systems (attractors, oscillations, chaos) and concepts from statistics (information, uncertainty, inference) to relate the dynamics and functions of neural networks. We will apply these theories to sensory computation, learning and memory, and motor control. Students will learn to formalize and mathematically answer questions about neural computations, including “what does a network compute?”, “how does it compute?”, and “why does it compute that way?” Prerequisites: knowledge of calculus, linear algebra, and probability and statistics. Graduate/Undergraduate Equivalency: ELEC 489. Mutually Exclusive: Cannot register for ELEC 589 if student has credit for ELEC 489.

ELEC 590 - GRADUATE NON-THESIS RESEARCH PROJECTS
Short Title: GR NON-THESIS RES PROJECTS
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Research
Credit Hours: 1-6
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Theoretical and experimental investigations under staff direction. Instructor Permission Required. Repeatable for Credit.

ELEC 591 - GRADUATE ELECTRICAL ENGINEERING RESEARCH PROJECTS-VERTICALLY INTEGRATED PROJECTS
Short Title: GRAD ELEC ENG'G RESEARCH VIP
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Research
Credit Hours: 1-6
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Vertically Integrated Projects (VIP) teams include students from multiple years working on one larger, multi-year project defined by the instructor. Instructor Permission Required. Graduate/Undergraduate Equivalency: ELEC 491. Repeatable for Credit.

ELEC 592 - GRADUATE PRE-THESIS RESEARCH PROJECT EXPLORATION
Short Title: PRE-THESIS PROJECT EXPLORATION
Department: Electrical & Computer Eng.
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Research
Credit Hours: 1-3
Restrictions: Enrollment is limited to students with a major in Electrical & Computer Eng. Enrollment is limited to Graduate level students. Enrollment limited to students in a Doctor of Philosophy degree.
Course Level: Graduate
Description: Theoretical and experimental investigations under faculty direction. Department Permission Required.
ELEC 594 - MECE CAPSTONE PROJECT
Short Title: MECE CAPSTONE PROJECT
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Research
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students. Enrollment limited to students in a Master of Electrical Comp Eng degree.
Course Level: Graduate
Description: Supervised project required of all first-year graduate students in the Ph.D. program.

ELEC 599 - FIRST YEAR GRAD STUDENT PROJECTS
Short Title: 1ST YEAR GRAD STUDENTS PROJECT
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Research
Credit Hours: 6
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Supervised project required of all first-year graduate students in the Ph.D. program.

ELEC 602 - NEURAL MACHINE LEARNING AND DATA MINING II
Short Title: NEURAL MACHINE LEARNING II
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): ELEC 502 or COMP 502 or STAT 502
Description: Advanced topics in ANN theories, with a focus on learning high-dimensional complex manifolds with neural maps (Self-Organizing Maps, Learning Vector Quantizers and variants). Application to data mining, clustering, classification, dimension reduction, sparse representation. The course will be a mix of lectures and seminar discussions with active student participation, based on most recent research publications. Students will have access to professional software environment to implement theories. Cross-list: COMP 602, STAT 602. Repeatable for Credit.

Course URL: www.ece.rice.edu/~erzsebet/NMLcourseII.html

ELEC 603 - TOPICS IN NANOPHOTONICS
Short Title: TOPICS IN NANOPHOTONICS
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 2
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course is designed as a cornerstone for the NSF funded Integrative Graduate Research and Educational Training (IGERT) program in nanophotonics. It is also an official "home" for the Laboratory for Nanophotonics (LANP) seminars that serve as a forum for the interaction between researchers in nanophotonics at Rice. The conversational atmosphere of the seminar continues the relatively unstructured spirit of the interaction that has been the hallmark of past LANP meetings and collaboration. The course is open to graduate students who are interested in pursuing research in Nanophotonics. Repeatable for Credit.

ELEC 604 - NANO-OPTICS
Short Title: NANO-OPTICS
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course is designed as a cornerstone for the NSF funded Integrative Graduate Research and Educational Training (IGERT) program in nanophotonics. It is also an official "home" for the Laboratory for Nanophotonics (LANP) seminars that serve as a forum for the interaction between researchers in nanophotonics at Rice. The conversational atmosphere of the seminar continues the relatively unstructured spirit of the interaction that has been the hallmark of past LANP meetings and collaboration. The course is open to graduate students who are interested in pursuing research in Nanophotonics. Repeatable for Credit.
**ELEC 631 - ADVANCED MACHINE LEARNING**  
**Short Title:** ADVANCED MACHINE LEARNING  
**Department:** Electrical & Computer Eng.  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** There is a long history of algorithmic development for solving inferential and estimation problems that play a central role in a variety of learning, sensing, and processing systems, including medical imaging scanners, numerous machine learning algorithms, and compressive sensing, to name just a few. Until recently, most algorithms for solving inferential and estimation problems have iteratively applied static models derived from physics or intuition. In this course, we will explore a new approach that is based on "learning" various elements of the problem including i) stepsizes and parameters of iterative algorithms, ii) regularizers, and iii) inverse functions. For example, we will explore a new approach for solving inverse problems that is based on transforming an iterative, physics-based algorithm into a deep network whose parameters can be learned from training data. For a range of different inverse problems, deep networks have been shown to offer faster convergence to a better quality solution. Specific topics to be discussed include: Ill-posed inverse problems, iterative optimization, deep learning, neural networks, learning regularizers. This is a "reading course," meaning that students will read and present classic and recent papers from the technical literature to the rest of the class in a lively debate format. Discussions will aim at identifying common themes and important trends in the field. Students will also get hands on experience with optimization problems and deep learning software through a group project. Repeatable for Credit.

**ELEC 632 - ADVANCED TOPICS IN IMAGE AND VIDEO PROCESSING**  
**Short Title:** ADV TOPIC IMAGE&VIDEO PROCESS  
**Department:** Electrical & Computer Eng.  
**Grade Mode:** Standard Letter  
**Course Type:** Seminar  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** Seminar on topics of current research interest in image and video processing. Students participate in selecting and presenting papers from technical literature. Discussions aim at identifying common themes and important trends in the field.

**ELEC 635 - NETWORK INFORMATION THEORY**  
**Short Title:** NETWORK INFORMATION THEORY  
**Department:** Electrical & Computer Eng.  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Prerequisite(s):** ELEC 535  
**Description:** This course will introduce the key building blocks in network information theory: multiple access, broadcast, relay and interference channels. Further topics will be explored as part of projects.

**ELEC 660 - QUANTUM INFORMATION SCIENCE AND TECHNOLOGY**  
**Short Title:** QUANTUM INFO  
**Department:** Electrical & Computer Eng.  
**Grade Mode:** Standard Letter  
**Course Type:** Seminar  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** This is a graduate seminar course on quantum information science and technology. There is currently a world-wide effort to develop technologies based on the principles of quantum mechanics that are expected to revolutionize computation, communication, and sensing. These rapid scientific and technological developments can be viewed as the second quantum revolution. Unlike the first quantum revolution which occurred during the first few decades of the 20th century and totally changed the way we describe the universe, the second quantum revolution is about controlling individual quantum systems to a much greater extent than before, enabling even more powerful applications of quantum mechanics. Many of these new applications rely on genuinely quantum, nonintuitive concepts such as superposition and entanglement. These concepts are becoming more and more common and important in diverse scientific disciplines beyond physics, including materials science, electrical engineering, chemistry, mathematics, and computer science. We will review some of the latest published papers on quantum materials, devices, and systems, and their practical applications to quantum technologies. Recommended Prerequisite(s): Understanding of undergraduate-level classical and quantum mechanics, electromagnetism, statistical mechanics, and solid state physics.

**ELEC 677 - SPECIAL TOPICS**  
**Short Title:** SPECIAL TOPICS  
**Department:** Electrical & Computer Eng.  
**Grade Mode:** Standard Letter  
**Course Type:** Internship/Practicum, Laboratory, Lecture, Lecture/Laboratory, Seminar, Independent Study  
**Credit Hours:** 1-4  
**Restrictions:** Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** Topics and credit hours vary each semester. Contact department for current semester’s topic(s). Repeatable for Credit.

**ELEC 680 - NANO-NEUROTECHNOLOGY**  
**Short Title:** NANO-NEUROTECHNOLOGY  
**Department:** Electrical & Computer Eng.  
**Grade Mode:** Standard Letter  
**Course Type:** Seminar  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** This course will review current nanofabricated technologies for measuring, manipulating, and controlling neural activity. The course will be based on reviewing current academic literature and topics will include nano-electronic, -photonic, -mechanical, and -fluidic neural devices. Cross-list: BIOE 680.
ELEC 681 - FUNDAMENTALS OF MACHINE LEARNING
Short Title: FUNDAMNTALS MACHINE LEARNING
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course examines the fundamentals of machine learning, including supervised learning, unsupervised learning, and reinforcement learning. This course will provide the student with the formal concepts and the basic intuition for the different topics of machine learning, from artificial neural networks to value function approximation. Because of the shared problems of machine learning, statistical inference, and signal processing, a focus of the course will be on sharing solution, e.g., dimensionality reduction, of these three fields. Repeatable for Credit.

ELEC 682 - SPOTLIGHT ON LATEST NEUROTECHNOLOGY
Short Title: SPOTLIGHT ON LATEST NEUROTECH
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course is a discussion based seminar about state of the art academic and commercial offerings in these areas. Cross-list: COMP 693. Repeatable for Credit.

ELEC 683 - ADVANCED TOPICS-COMPUTER SYSTEMS
Short Title: ADV TOPICS - COMPUTER SYSTEMS
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 1-3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course is a discussion based seminar about state of the art academic and commercial offerings in these areas. Cross-list: COMP 693. Repeatable for Credit.

ELEC 684 - HOW TO BE A CHIEF TECHNOLOGY OFFICER
Short Title: HOW TO BE A CTO
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This seminar will cover the contributions that nanophotonic concepts and advanced spectroscopy techniques can make to the development and characterization of novel materials for energy and sustainability. We will cover nanophotonic concepts for novel materials and characterization techniques, ultrafast and nanoscale spectroscopy techniques, and applications in energy and sustainability. Repeatable for Credit.

ELEC 685 - FUNDAMENTALS OF MACHINE LEARNING
Short Title: FUNDAMNTALS MACHINE LEARNING
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course examines the fundamentals of machine learning, including supervised learning, unsupervised learning, and reinforcement learning. This course will provide the student with the formal concepts and the basic intuition for the different topics of machine learning, from artificial neural networks to value function approximation. Because of the shared problems of machine learning, statistical inference, and signal processing, a focus of the course will be on sharing solution, e.g., dimensionality reduction, of these three fields. Repeatable for Credit.

ELEC 686 - SPOTLIGHT ON LATEST NEUROTECHNOLOGY
Short Title: SPOTLIGHT ON LATEST NEUROTECH
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course is a discussion based seminar about state of the art academic and commercial offerings in these areas. Cross-list: COMP 693. Repeatable for Credit.

ELEC 687 - ADVANCED TOPICS-COMPUTER SYSTEMS
Short Title: ADV TOPICS - COMPUTER SYSTEMS
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 1-3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course is a discussion based seminar about state of the art academic and commercial offerings in these areas. Cross-list: COMP 693. Repeatable for Credit.

ELEC 688 - HOW TO BE A CHIEF TECHNOLOGY OFFICER
Short Title: HOW TO BE A CTO
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This seminar will cover the contributions that nanophotonic concepts and advanced spectroscopy techniques can make to the development and characterization of novel materials for energy and sustainability. We will cover nanophotonic concepts for novel materials and characterization techniques, ultrafast and nanoscale spectroscopy techniques, and applications in energy and sustainability. Repeatable for Credit.

ELEC 689 - FUNDAMENTALS OF MACHINE LEARNING
Short Title: FUNDAMNTALS MACHINE LEARNING
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course examines the fundamentals of machine learning, including supervised learning, unsupervised learning, and reinforcement learning. This course will provide the student with the formal concepts and the basic intuition for the different topics of machine learning, from artificial neural networks to value function approximation. Because of the shared problems of machine learning, statistical inference, and signal processing, a focus of the course will be on sharing solution, e.g., dimensionality reduction, of these three fields. Repeatable for Credit.

ELEC 690 - SPOTLIGHT ON LATEST NEUROTECHNOLOGY
Short Title: SPOTLIGHT ON LATEST NEUROTECH
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course is a discussion based seminar about state of the art academic and commercial offerings in these areas. Cross-list: COMP 693. Repeatable for Credit.

ELEC 691 - FUNDAMENTALS OF MACHINE LEARNING
Short Title: FUNDAMNTALS MACHINE LEARNING
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course examines the fundamentals of machine learning, including supervised learning, unsupervised learning, and reinforcement learning. This course will provide the student with the formal concepts and the basic intuition for the different topics of machine learning, from artificial neural networks to value function approximation. Because of the shared problems of machine learning, statistical inference, and signal processing, a focus of the course will be on sharing solution, e.g., dimensionality reduction, of these three fields. Repeatable for Credit.

ELEC 692 - ADVANCED TOPICS IN DISTRIBUTED SYSTEMS
Short Title: ADV TOPICS IN DISTRIBUTED SYST
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 1-3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course is a discussion based seminar about state of the art academic and commercial offerings in these areas. Cross-list: COMP 693. Repeatable for Credit.

ELEC 693 - ADVANCED TOPICS IN DISTRIBUTED SYSTEMS
Short Title: ADV TOPICS IN DISTRIBUTED SYST
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 1-3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course is a discussion based seminar about state of the art academic and commercial offerings in these areas. Cross-list: COMP 693. Repeatable for Credit.

ELEC 694 - HOW TO BE A CHIEF TECHNOLOGY OFFICER
Short Title: HOW TO BE A CTO
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This seminar will cover the contributions that nanophotonic concepts and advanced spectroscopy techniques can make to the development and characterization of novel materials for energy and sustainability. We will cover nanophotonic concepts for novel materials and characterization techniques, ultrafast and nanoscale spectroscopy techniques, and applications in energy and sustainability. Repeatable for Credit.

ELEC 695 - FUNDAMENTALS OF MACHINE LEARNING
Short Title: FUNDAMNTALS MACHINE LEARNING
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course examines the fundamentals of machine learning, including supervised learning, unsupervised learning, and reinforcement learning. This course will provide the student with the formal concepts and the basic intuition for the different topics of machine learning, from artificial neural networks to value function approximation. Because of the shared problems of machine learning, statistical inference, and signal processing, a focus of the course will be on sharing solution, e.g., dimensionality reduction, of these three fields. Repeatable for Credit.

ELEC 696 - SPOTLIGHT ON LATEST NEUROTECHNOLOGY
Short Title: SPOTLIGHT ON LATEST NEUROTECH
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course is a discussion based seminar about state of the art academic and commercial offerings in these areas. Cross-list: COMP 693. Repeatable for Credit.

ELEC 697 - ADVANCED TOPICS IN DISTRIBUTED SYSTEMS
Short Title: ADV TOPICS IN DISTRIBUTED SYST
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 1-3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course is a discussion based seminar about state of the art academic and commercial offerings in these areas. Cross-list: COMP 693. Repeatable for Credit.

ELEC 698 - HOW TO BE A CHIEF TECHNOLOGY OFFICER
Short Title: HOW TO BE A CTO
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This seminar will cover the contributions that nanophotonic concepts and advanced spectroscopy techniques can make to the development and characterization of novel materials for energy and sustainability. We will cover nanophotonic concepts for novel materials and characterization techniques, ultrafast and nanoscale spectroscopy techniques, and applications in energy and sustainability. Repeatable for Credit.
ELEC 695 - ADVANCED TOPICS IN COMMUNICATIONS AND STATISTICAL SIGNAL PROCESSING
Short Title: INNOVATIONS IN MOBILE HEALTH
Department: Electrical & Computer Eng.
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 1
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Section 1: Innovations in Mobile Health - In this seminar, we will study the merging area of mobile health, enabled by prevalent data connectivity, highly portable medical sensors, smart-phones and inexpensive cloud computing. The seminar will involve a mix of lectures, paper reading, case studies and group projects. The course is suitable for both undergraduate (junior and seniors) and graduate students. The course is a part of the new ECE initiative on scalable health (http://sh.rice.edu). Open to both undergraduate and graduate students. Section 2: This is a graduate seminar class focused on the role of information theory in engineering wireless networks. Students will survey, read, and present both classic as well as recent papers in the area. Repeatable for Credit.

ELEC 698 - ECE PROFESSIONAL MASTERS SEMINAR SERIES
Short Title: ECE PROFESSIONAL MASTER SEM
Department: Electrical & Computer Eng.
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Seminar
Credit Hour: 1
Restrictions: Enrollment is limited to Graduate level students. Enrollment limited to students in a Master of Electrical Eng degree.
Course Level: Graduate
Description: The Professional Masters Seminar Series presents a combination of seminars on emerging research topics in the many areas of ECE and industry-focused professional development. This course includes attendance and reports based on the seminars, colloquia, and distinguished lectures held each semester. Repeatable for Credit.

ELEC 699 - FRONTIERS OF ELECTRICAL AND COMPUTER ENGINEERING
Short Title: FRONTIERS OF ECE
Department: Electrical & Computer Eng.
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Seminar
Credit Hour: 1
Restrictions: Enrollment is limited to students with a major in Electrical & Computer Eng., Enrollment is limited to Graduate level students. Enrollment limited to students in a Doctor of Philosophy or Master of Electrical Eng degrees.
Course Level: Graduate
Description: Frontiers of Electrical and Computer Engineering presents emerging research topics in the many areas of ECE. This course includes attendance and reports based on the seminars, colloquia, and distinguished lectures held each semester. Repeatable for Credit.

ELEC 800 - RESEARCH AND THESIS
Short Title: RESEARCH AND THESIS
Department: Electrical & Computer Eng.
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Research
Credit Hours: 1-15
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Repeatable for Credit.
Bachelor of Arts (BA) Degree with a Major in Electrical Engineering

Program Learning Outcomes for the Bachelor of Arts Degree (BA) with a Major in Electrical Engineering

Upon completing the BA degree with a major in Electrical Engineering, students will be able to demonstrate:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. An ability to communicate effectively with a range of audiences.
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
6. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Requirements for the BA Degree with a Major in Electrical Engineering

For general university requirements, see Graduation Requirements (p. 29). Students pursuing the BA degree with a major in Electrical Engineering must complete:

- A minimum of 21-23 courses (63 credit hours) to satisfy major requirements.
- A minimum of 120 credit hours to satisfy degree requirements.
- A minimum of 8 courses (24 credit hours) taken at the 300-level or above.

- The requirements for one area of specialization (see below for areas of specialization). When students declare the major (p. 17) in Electrical Engineering, students must additionally identify and declare one of four areas of specialization, either in:
  - Computer Engineering (p. 909): provides a broad background in computer systems engineering, including computer architecture, digital hardware engineering, software engineering, and computer systems performance analysis,
  - Data Science (p. 910): integrates the foundations, tools and techniques involving data acquisition, data analytics, data storage and computing infrastructure in order to enable meaningful extraction of actionable information from diverse and potentially massive data sources. Applications include wireless communication systems, digital signal processing, image processing, and networking,
  - Neuroengineering (p. 910): exploits engineering techniques to understand, repair, manipulate, or treat the diseases of human neural systems and networks, or
  - Photonics, Electronics, and Nano-devices (p. 911): encompasses studies of electronic materials, including nanomaterials, semiconductor and optoelectronic devices, lasers and their applications.

Because of the common core requirements, it is possible for students to change their area of specialization at any time, even after initially declaring the major. To do so, please contact the Office of the Registrar (registrar@rice.edu).

The BA degree provides a basic technical foundation in electrical and computer engineering through a subset of the core and specialization courses offered by the department. The program leading to the BA degree is not accredited by the EAC of ABET and is often pursued by students as a component of a double major or dual degree program. A course can satisfy only one program requirement within the major. Students who place out of required courses without transcript credit must substitute other approved courses in the same area.

Planning sheets and degree plan forms may be found on the Electrical and Computer Engineering website (http://www.ece.rice.edu/).

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor, or where applicable, the department’s Director of Undergraduate Studies. (Course substitutions must be formally applied and entered into Degree Works by the major’s Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/).) Students and their academic advisors should identify and clearly document the courses to be taken.

Areas of Specialization

Students must complete the requirements as listed for one of the following areas of specialization as offered by the Electrical Engineering major. A total of 4 courses (minimum of 12 credit hours) must be taken from at least two areas of specialization, including a minimum of 2 courses from one area of specialization, 1 course from an area of specialization outside the student's chosen specialization, and 1 course from any area of specialization. In addition, ELEC graduate coursework at the 500-level may be used to satisfy specialization requirements with permission. Consult departmental advisors and the Electrical and Computer Engineering (http://www.ece.rice.edu/) website for the latest information.

Area of Specialization: Computer Engineering

To fulfill the remaining Electrical Engineering major requirements, students pursuing the Computer Engineering area of specialization must complete:

- a minimum of 2 courses (6 credit hours) from the Computer Engineering area of specialization
- 1 course (3 credit hours) from any area of specialization outside Computer Engineering (from Data Science/Systems, Neuroengineering, or Photonics, Electronics, or Nano-devices)
- 1 course (3 credit hours) from any area of specialization (including Computer Engineering)

Code     Title                                      Credit Hours
-------------------------------------------------------------------
COMP 321  INTRODUCTION TO COMPUTER SYSTEMS          6
COMP 382  REASONING ABOUT ALGORITHMS                
COMP 430  INTRODUCTION TO DATABASE SYSTEMS          
ELEC 323  PRINCIPLES OF PARALLEL                    
COMP 322  PROGRAMMING                               
ELEC 410  SECURE AND CLOUD COMPUTING                
COMP 436  
ELEC 411  MICROWAVE ENGINEERING                     
ELEC 414  WIRELESS INTEGRATED CIRCUITS AND SYSTEMS   
ELEC 421  OPERATING SYSTEMS AND CONCURRENT PROGRAMMING 
COMP 421  
ELEC 422  VLSI SYSTEMS DESIGN                       
ELEC 423  DIGITAL INTEGRATED CIRCUITS

**Footnotes and Additional Information**

* Note: University Graduation Requirements include 31 credit hours, comprised of Distribution Requirements (Groups I, II, and III), FWIS, and LPAP coursework. In some instances, courses satisfying major requirements may additionally meet distribution requirements. Additional Credit Hours to Complete Degree Requirements include general electives, coursework completed as upper-level, residency (hours taken at Rice), and/or any other additional academic program requirements.

1 Design Laboratory is typically taken in the junior year. The required Design Laboratory does not count as a specialization course. It is important to consult a departmental advisor when choosing the Design Laboratory course or if interested in taking a second one. Any Design Laboratory course taken above the one required course will count as a General Elective, not as a specialization course.

Total Credit Hours 12

Footnotes and Additional Information

The sequence of COMP 140, COMP 182, and COMP 215 is recommended in addition for the Computer Engineering specialization as these courses are prerequisites for many of the Computer Science courses.

Area of Specialization: Data Science/Systems

To fulfill the remaining Electrical Engineering major requirements, students pursuing the Data Science/Systems area of specialization must complete:

- a minimum of 2 courses (6 credit hours) from the Data Science/Systems area of specialization
- 1 course (3 credit hours) from any area of specialization outside Data Science/Systems (from Computer Engineering, Neuroengineering, or Photonics, Electronics, and Nano-devices)
- 1 course (3 credit hours) from any area of specialization (including Data Science/Systems)

Policies for the BA Degree with a Major in Electrical Engineering

Advising

Rice University provides multiple avenues for undergraduate advising through the Office of Academic Advising, the Rice Residential College system, and academic departments. Although students may consult with their Divisional Advisors in their College during the first and second years, they are welcome and encouraged to meet with a major advisor in the Electrical and Computer Engineering Department. In particular, ECE students are required to meet with a major advisor in ECE at least during their junior and senior years to discuss their ECE Specialization Area course selection and Design Courses. The ECE Undergraduate Committee currently has five faculty members who serve as major advisors.

Program Restrictions and Exclusions

Students pursuing the BA Degree with a Major in Electrical Engineering should be aware of the following program restrictions:

- As noted in Majors, Minors, and Certificates (p. 17), under Declaring Majors, Minors and Certificates, students may not obtain both a BA and a BS in the same major. Students pursuing the BA Degree with a Major in Electrical Engineering may not additionally pursue the Bachelor of Science in Electrical Engineering (BSEE) Degree.

Transfer Credit

For Rice University's policy regarding transfer credit, see Transfer Credit (p. 37). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines

Students pursuing the major in Electrical Engineering should be aware of the following departmental transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program's official transfer credit advisor) on an individual case-by-case basis.

Additional Information

For additional information, please see the Electrical and Computer Engineering website: https://www.ece.rice.edu/.

Opportunities for the BA Degree with a Major in Electrical Engineering

Academic Honors

The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 51) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 51). Some departments have department-specific Honors awards or designations.

Fifth-Year Master's Degree Option for Rice Undergraduate Students

In certain situations and with some terminal master's degree programs, Rice students have an option to pursue a master's degree by adding an additional fifth year to their four years of undergraduate studies.

Advanced Rice undergraduate students in good academic standing typically apply to the master's degree program during their junior or senior year. Upon acceptance, depending on course load, financial aid status, and other variables, they may then start taking some required courses of the master's degree program. A plan of study will need to be approved by the student’s undergraduate major advisor and the master's degree program director.
As part of this option and opportunity, Rice undergraduate students:

1. must complete the requirements for a bachelor's degree and the master's degree independently of each other (i.e. no course may be counted toward the fulfillment of both degrees).
2. should be aware there could be financial aid implications if the conversion of undergraduate coursework to that of graduate level reduces their earned undergraduate credit for any semester below that of full-time status (12 credit hours).
3. more information on this Undergraduate - Graduate Concurrent Enrollment opportunity, including specific information on the registration process can be found here (p. 20).

Rice undergraduate students completing studies in science and engineering may have the option to pursue the Master of Electrical and Computer Engineering (MECE) degree. For additional information, students should contact their undergraduate major advisor and the MECE program director.

Independent Research

The ECE Department encourages our undergraduates to pursue research projects with the faculty. The ECE Department has several opportunities including the multi-year, team-oriented Vertically Integrated Projects (VIP) program through the ELEC 491 course and individual independent research with a faculty member through the ELEC 490 course. For information on taking an undergraduate summer research course tuition free, see: https://registrar.rice.edu/students/summersessions (https://registrar.rice.edu/students/summersessions/). Also, there are often summer research opportunities through the NSF funded Research Experience for Undergraduates (REU) program, through individual ECE faculty grants, or through the Smalley-Curl Institute REU Sites program.

Study Abroad

A semester of study abroad is a valuable experience to enhance an individual's perspective on engineering and technology. The ECE Department encourages students to explore this option particularly for the spring semester of the sophomore or junior year. The ECE Department and the University Study Abroad office coordinate to review programs and courses appropriate for Rice engineering students.

Additional Information

For additional information, please see the Electrical and Computer Engineering website: https://www.ece.rice.edu/.

Bachelor of Science in Electrical Engineering (BSEE) Degree

The program leading to the BSEE degree is accredited by the Engineering Accreditation Commission (EAC) of ABET, https://www.abet.org (https://www.abet.org/).

Program Learning Outcomes (Student Outcomes) for the BSEE Degree

Upon completing the BSEE degree, students will be able to demonstrate:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. An ability to communicate effectively with a range of audiences.
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Program Educational Objectives for the BSEE Degree

The Bachelor of Science in Electrical Engineering's (BSEE) degree program strives to provide a high quality degree that emphasizes fundamental principles, responds to the changing demands and opportunities of technology, challenges the exceptional abilities of Rice students, and prepares these students for roles of leadership in their chosen careers. In support of this goal, the Bachelor of Science in Electrical Engineering's (BSEE) degree Program Educational Objectives (PEOs) are to produce graduates who:

1. Practice electrical and computer engineering, and related fields, and/or obtain an advanced degree in electrical and computer engineering, and related fields.
2. Use mathematical modeling and problem solving skills in electrical and computer engineering and other technical applications.
3. Analyze, incorporate, and adapt to new technical and scientific developments.
4. Assume increasing professional responsibility and enhance communication and teamwork abilities.

Requirements for the BSEE Degree

For general university requirements, see Graduation Requirements (p. 29). Students pursuing the BSEE degree must complete:

1. A minimum of 29-31 courses (85-86 credit hours), depending on course selection, to satisfy major requirements.
2. A minimum of 134 credit hours to satisfy degree requirements.
3. A minimum of 13 courses (39 credit hours) taken at the 300-level or above.
4. The requirements for one area of specialization (see below for areas of specialization). When students declare the major (p. 17) in Electrical Engineering (associated with the BSEE degree), students must additionally identify and declare one of four areas of specialization, either in:
   • Computer Engineering (p. 914): provides a broad background in computer systems engineering, including computer architecture, digital hardware engineering, software engineering, and computer systems performance analysis, or
   • Data Science/Systems (p. 915): integrates the foundations, tools and techniques involving data acquisition, data analytics, data storage and computing
infrastructure in order to enable meaningful extraction of actionable information from diverse and potentially massive data sources. Applications include wireless communication systems, digital signal processing, image processing, and networking, or...

- **Neuroengineering** (p. 915): exploits engineering techniques to understand, repair, manipulate, or treat the diseases of human neural systems and networks, or...

- **Photonics, Electronics, and Nano-devices** (p. 916): encompasses studies of electronic materials, including nanomaterials, semiconductor and optoelectronic devices, lasers and their applications.

Because of the common core requirements, it is possible for students to change their area of specialization at any time, even after initially declaring the major. To do so, please contact the Office of the Registrar (registrar@rice.edu).

The specialization electives provide the flexibility to create a focus that crosses traditional areas. Ultimately each student's program must contain a course sequence that provides depth in one area and courses from at least two areas to provide breadth. Because of the number of options, students should consult early with departmental advisors to plan a program that meets their needs. Planning sheets and degree plan forms can be found on the Electrical and Computer Engineering (http://www.ece.rice.edu/) website.

The BSEE degree is the usual degree taken by those students planning a career in engineering practice. The BSEE requires more hours and greater depth than the BA degree; however, it still provides considerable flexibility and can reduce the time required to become a licensed professional engineer. In the final year, BSEE students undertake a capstone design project.

Students considering a major offered by the Electrical and Computer Engineering department should take physics (PHYS 101, PHYS 102) and calculus (MATH 101 or MATH 105, MATH 102 or MATH 106) in their first year, along with CHEM 121 (or CHEM 111) and COMP 140. The first core courses in the department, ELEC 220, ELEC 241 (lecture) with ELEC 240 (lab), and ELEC 261 are usually taken during the second year, along with more math and science. A course can satisfy only one program requirement. Students entering with advanced placement may have more scheduling options and may take some of these core courses in their first year. Students who place out of required courses without transcript credit must substitute other approved courses in the same area. Students should consult with one of the department's undergraduate advisors in these situations.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major's academic advisor, or where applicable, the department's Director of Undergraduate Studies. (Course substitutions must be formally applied and entered into Degree Works by the major's Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/).) Students and their academic advisors should identify and clearly document the courses to be taken.

Electrical and Computer Engineering (ECE) Core Courses:

- ELEC 220: FUNDAMENTALS OF COMPUTER ENGINEERING (4)
- ELEC 241: FUNDAMENTALS OF ELECTRICAL ENGINEERING I (4)
- ELEC 242: SIGNALS, SYSTEMS, AND TRANSFORMS and ANALOG CIRCUITS LABORATORY (4)
- ELEC 301: SIGNALS, SYSTEMS, AND LEARNING (3)
- ELEC 305: INTRODUCTION TO PHYSICAL ELECTRONICS II (3)
- ELEC 357/COMP 326: DIGITAL LOGIC DESIGN (3)
- COMP 140: COMPUTATIONAL THINKING (4) or COMP 130: ELEMENTS OF ALGORITHMS AND COMPUTATION

**Design Requirements**

- Design Laboratory 2
- ELEC 327: IMPLEMENTATION OF DIGITAL SYSTEMS
- ELEC 332: ELECTRONIC SYSTEMS PRINCIPLES AND PRACTICE
- ELEC 364: PHOTONICS MEASUREMENTS: PRINCIPLES AND PRACTICE

**Area of Specialization**

Select 1 from the following Areas of Specialization (see Areas of Specialization below):

- Computer Engineering
- Data Science / Systems
- Neuroengineering
- Photonics, Electronics, and Nano-devices

**Total Credit Hours Required for the Major in Electrical Engineering**: 85-86

**Additional Credit Hours to Complete Degree Requirements**: 17-18

**University Graduation Requirements (p. 29)**: 31

**Total Credit Hours**: 134

**Footnotes and Additional Information**

* Note: University Graduation Requirements include 31 credit hours, comprised of Distribution Requirements (Groups I, II, and III), FWIS, and LPAP coursework. In some instances, courses satisfying major requirements may additionally meet distribution requirements. Additional Credit Hours to Complete Degree Requirements include general electives, coursework completed as upper-level, residency (hours taken at Rice), and/or any other additional academic program requirements.

1 The design requirements (Design Laboratory and Senior Design) are typically taken during the junior and senior years.

2 Design Laboratory is typically taken in the junior year. The required Design Laboratory does not count as a specialization course. It is important to consult a departmental advisor when choosing the Design Laboratory course or if interested in taking a second one. Any Design Laboratory course taken above the one required course will count as a General Elective, not as a specialization course.

3 Students must complete the ELEC 494 during both the fall and spring semesters of their senior year. Within the senior design sequence, professional issues and project management for electrical engineers provide instruction in professional engineering topics and the nontechnical aspects of the design process, including ethics, design methodology, project planning, technical presentations, and documentation. Both semesters of the senior year are devoted to the team design project using the resources of the Oshman Engineering Design Kitchen (OEDK) through the ELEC 494 course. In the fall semester of the senior year, students finalize their project topics in coordination with the faculty and begin the design project. In the spring semester, students continue in the laboratory to complete their design project. Several presentations and design contests within the ECE department and the School of Engineering occur in the spring in which to showcase the projects.

**Areas of Specialization**

Students must complete the requirements as listed for one of the following areas of specialization as offered by the BSEE degree program. A total of 6 courses (minimum of 18 credit hours) must be taken from at least two areas of specialization, including a minimum of 3 courses from one area of specialization, 1 course from an area of specialization outside of the student’s chosen specialization, and 2 courses from any area of specialization. In addition, ELEC graduate coursework at the 500-level may be used to satisfy specialization area requirements with permission. Consult departmental advisors and the Electrical and Computer Engineering (https://www.ece.rice.edu/) website for the latest information.

**Area of Specialization: Computer Engineering**

To fulfill the remaining BSEE degree requirements, students pursuing the Computer Engineering area of specialization must complete:

- a minimum of 3 courses (9 credit hours) from the Computer Engineering area of specialization
- 1 course (3 credit hours) from any area of specialization outside of the student’s chosen specialization
- 2 courses (6 credit hours) from any area of specialization outside of the student’s chosen specialization (including Computer Engineering)

Bachelor of Science in Electrical Engineering (BSEE) Degree

Policies for the BSEE Degree

Advising

Rice University provides multiple avenues for undergraduate advising through the Office of Academic Advising, the Rice Residential College system, and academic departments. Although students may consult with their Divisional Advisors in their College during the first and second years, they are welcome and encouraged to meet with a major advisor in the Electrical and Computer Engineering Department. In particular, ECE students are required to meet with a major advisor in ECE at least during their junior and senior years to discuss their ECE Specialization Area course selection and Design Courses. The ECE Undergraduate Committee currently has five faculty members who serve as major advisors.

Program Restrictions and Exclusions

Students pursuing the BSEE Degree should be aware of the following program restriction:

- As noted in Majors, Minors, and Certificates (p. 17), under Declaring Majors, Minors and Certificates, students may not obtain both a BA and a BS in the same major. Students pursuing the Bachelor of Science in Electrical Engineering (BSEE) Degree may not additionally pursue the BA Degree with a Major in Electrical Engineering.

Transfer Credit

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 37). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines

Students pursuing the BSEE degree should be aware of the following departmental transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

Additional Information

For additional information, please see the Electrical and Computer Engineering website: https://www.ece.rice.edu/.

Opportunities for the BSEE Degree

Academic Honors

The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 51) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 51). Some departments have department-specific Honors awards or designations.

Fifth-Year Master's Degree Option for Rice Undergraduate Students

In certain situations and with some terminal master’s degree programs, Rice students have an option to pursue a master's degree by adding an additional fifth year to their four years of undergraduate studies.

Advanced Rice undergraduate students in good academic standing typically apply to the master's degree program during their junior or senior year. Upon acceptance, depending on course load, financial aid status, and other variables, they may then start taking some required courses of the master’s degree program. A plan of study will need to be

Select 1 course from any Area of Specialization outside Photonics, Electronics, and Nano-devices (from Computer Engineering, Data Science/Systems, or Neuroengineering) 3 credit hours

Select 2 courses from any Area of Specialization (including Photonics, Electronics, and Nano-devices) 6 credit hours

Total Credit Hours 18
approved by the student’s undergraduate major advisor and the master’s degree program director.

As part of this option and opportunity, Rice undergraduate students:

• must complete the requirements for a bachelor’s degree and the master’s degree independently of each other (i.e. no course may be counted toward the fulfillment of both degrees).
• should be aware there could be financial aid implications if the conversion of undergraduate coursework to that of graduate level reduces their earned undergraduate credit for any semester below that of full-time status (12 credit hours).
• more information on this Undergraduate-Graduate Concurrent Enrollment opportunity, including specific information on the registration process can be found here (p. 20).

Rice undergraduate students completing studies in science and engineering may have the option to pursue the Master of Electrical and Computer Engineering (MECE) degree. For additional information, students should contact their undergraduate major advisor and the MECE program director.

**Independent Research**

The ECE Department encourages our undergraduates to pursue research projects with the faculty. The ECE Department has several opportunities including the multi-year, team-oriented Vertically Integrated Projects (VIP) program through the ELEC 491 course and individual independent research with a faculty member through the ELEC 490 course. For information on taking an undergraduate summer research course tuition free, see: https://registrar.rice.edu/students/summersessions [https://registrar.rice.edu/students/summersessions](https://registrar.rice.edu/students/summersessions). Also, there are often summer research opportunities through the NSF funded Research Experience for Undergraduates (REU) program, through individual ECE faculty grants, or through the Smalley-Curl Institute REU Sites program.

**Study Abroad**

A semester of study abroad is a valuable experience to enhance an individual’s perspective on engineering and technology. The ECE Department encourages students to explore this option particularly for the spring semester of the sophomore or junior year. The ECE Department and the University Study Abroad office coordinate to review programs and courses appropriate for Rice engineering students.

**Additional Information**

For additional information, please see the Electrical and Computer Engineering website: https://www.ece.rice.edu/.

---

1. Identify and define relevant research topics in Electrical and Computer Engineering and conduct independent research with results that advance the state of the art in the field.
2. Lead research and design groups by communicating innovative ideas effectively.
3. Solve real-world problems by integrating knowledge gained in courses and through independent study.

**Requirements for the MS and PhD Degrees in the field of Electrical and Computer Engineering**

**PhD Degree Program**

For general university requirements, please see Doctoral Degrees (p. 72). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 60).

Students are admitted to the PhD program only in the fall semester. Electrical and Computer Engineering PhD students move through the program in stages, starting as a first-year student, advancing to MS candidate, PhD-qualified student, and PhD candidate; each advancement requires the approval of the Electrical and Computer Engineering Graduate Committee. The MS degree is a thesis master’s degree. For general university requirements, please see Thesis Master’s Degrees (p. 75). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 60).

The ECE Department offers a stand-alone thesis MS degree on a case-by-case basis. Otherwise, the MS degree is a precursor to the PhD degree for students who were not admitted to the program with a previous MS degree.

Students entering the PhD program with previous graduate work may follow a hybrid program developed in consultation with the faculty and the Graduate Committee. The first academic year concentrates on foundation coursework and developing a research area. Each student must successfully complete a project, ELEC 599, in the student’s chosen area of research in lieu of an oral or written qualifying exam. In addition to enabling the faculty to evaluate the student’s research potential, the project encourages timely completion of the MS degree. The student must complete a master’s thesis and successfully defend it in an oral examination. Students who have already acquired a master’s degree elsewhere must also complete the ELEC 599 project, after which acceptance of their previous master’s degree will be determined by the Graduate Committee. No course in which the student earned a grade lower than a B- (2.67 grade points) may count toward an MS or PhD.

A candidate for the PhD degree must demonstrate independent, original research in Electrical and Computer Engineering. After successful completion of all coursework, a student is eligible for PhD candidacy. The student then engages in full-time research, culminating in presentation of the PhD research proposal and then the completion and public defense of the PhD thesis. Details of the PhD program requirements, the phases of study, and a timetable may be found on the Electrical and Computer Engineering website (http://www.ece.rice.edu/).
Policies for the PhD Degree in the field of Electrical and Computer Engineering

Department of Electrical and Computer Engineering Graduate Program Handbook

The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, the department of Electrical and Computer Engineering publishes a graduate program handbook, which can be found here: https://gradhandbooks.rice.edu/2021_22/Electrical_Computer_Engineering_Graduate_Handbook.pdf

Transfer Credit

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 70). Some departments and programs have additional restrictions on transfer credit. Students are encouraged to meet with their academic program’s advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines

Students pursuing the PhD degree in the field of Electrical and Computer Engineering should be aware of the following departmental transfer credit guidelines:

- Requests for transfer credit will be considered by the program director on an individual case-by-case basis.

Additional Information

For additional information, please see the Electrical and Computer Engineering website: https://www.ece.rice.edu/.

Opportunities for the PhD Degree in the field of Electrical and Computer Engineering

Additional Information

For additional information, please see the Electrical and Computer Engineering website: https://www.ece.rice.edu/.

Master of Electrical and Computer Engineering (MECE) Degree

Program Learning Outcomes for the MECE Degree

Upon completing the MECE degree, students will be able to:

1. Design and implement technical solutions to real-world problems that reflect an advanced command of principles in mathematics and science.
2. Communicate effectively expert analysis of technical problems and features of proposed solutions to stakeholders.
3. Practice as an expert specialist in at least one of the major sub-fields of electrical and computer engineering.

Requirements for the MECE Degree

The MECE degree is a non-thesis master’s degree. For general university requirements, please see Non-Thesis Master’s Degrees (p. 75). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 60). Students pursuing the MECE degree must complete:

- A minimum of 10 courses (30 credit hours) to satisfy degree requirements.
- A minimum of 30 credit hours of graduate-level study (graduate semester credit hours, coursework at the 500-level or above).
- A minimum of 27 graduate semester credit hours must be taken at Rice University.
- A minimum of 24 graduate semester credit hours must be taken in standard or traditional courses (with a course type of lecture, seminar, laboratory, lecture/laboratory).
- A minimum residency enrollment of one fall or spring semester of part-time graduate study at Rice University.
- A minimum of 3 courses (9 credit hours) from the Capstone Requirement.
  - 1 course (3 credit hours) to fulfill the Capstone Foundations requirement.
  - 2 courses (6 credit hours) to fulfill the Capstone Experience Project requirement.
- A minimum of 1 course (3 credit hours) from the Engineering Communications Requirement.
- A minimum of 2 courses (6 credit hours) from the Engineering Software Development Requirement.
- A minimum of 2 courses (6 credit hours) in one area of specialization (see below for areas of specialization). The MECE degree program offers five areas of specialization:
  - Computer Engineering (p. 919), or
  - Data Science (p. 919), or
  - Neuroengineering (p. 920), or
  - Photonics, Electronics, and Nano-devices (p. 920), or
  - Systems (p. 920).
- A minimum of 2 courses (6 credit hours) from the Elective Requirements.
- ELEC 698 each semester in residence at Rice University.
- A maximum of 1 course (3 graduate semester credit hours) from transfer credit. For additional departmental guidelines regarding transfer credit, see the Policies (p. 920) tab.
- A minimum overall GPA of 2.67 or higher in all Rice coursework.
- A minimum program GPA of 3.00 or higher in all Rice coursework that satisfies requirements for the non-thesis master’s degree with a minimum grade of C (2.00 grade points) in each course.

Students are admitted to the MECE degree program in the fall semester. MECE students are to consult with an academic advisor on the MECE Committee each semester in order to identify and clearly document their individual curricular requirements or degree plan to be followed.

The courses listed below satisfy the requirements for this degree program. In certain instances, courses not on this official list may be substituted upon approval of the program’s academic advisor, or where applicable, the department or program’s Director of Graduate Studies. Course substitutions must be formally applied and entered into Degree Works by the department or program’s Official Certifier (https://
Additionally, these must be approved by the Office of Graduate and Postdoctoral Studies. Students and their academic advisors should identify and clearly document the courses to be taken.

Footnotes and Additional Information

1 Prior to enrolling, students must meet with a faculty advisor (or the MECE program director) to select coursework to fulfill the Capstone Requirement (Foundations and Experience Project), the Engineering Communications Requirement, and the Software Development Requirement. Upon approval, courses chosen to fulfill these requirements must be formally applied and entered into Degree Works by the department or program’s Official Certifier. Additionally, these must be approved by the Office of Graduate and Postdoctoral Studies. Students and their academic advisors should identify and clearly document the courses to be taken.

2 The Free Elective Requirement may be fulfilled by any 2 courses (6 credit hours) selected from the following:
   - Departmental (ELEC) course offerings taught by ECE faculty.
   - Research coursework, such as ELEC 590 or ELEC 591, when either are taken for at least 3 credit hours.
   - Any of the following courses: ENGI 528, ENGI 529, ENGI 610, ENGI 615, or NSCI 511.
   - Any other course approved by the student’s MECE academic advisor.

3 ELEC 698 is taken for a Satisfactory/Unsatisfactory grade and must be completed with a Satisfactory grade. As a S/U course it does not apply to the requirement of a minimum grade of C (2.00 grade points) in each required course.

Areas of Specialization

Students must complete a minimum of 2 courses (6 credit hours) from one Area of Specialization.

Policies for the MECE Degree

Department of Electrical and Computer Engineering Graduate Program Handbook

The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, the department of Electrical and Computer Engineering publishes a graduate program handbook, which can be found here: https://gradhandbooks.rice.edu/2021_22/Electrical_Computer_Engineering_Graduate_Handbook.pdf

Transfer Credit

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 70). Some departments and programs have additional restrictions on transfer credit. Students are encouraged to meet with their academic program’s advisor when considering transfer credit possibilities.
Departmental Transfer Credit Guidelines
Students pursuing the MECE degree should be aware of the following departmental transfer credit guidelines:

- No more than 1 course (3 credit hours) of transfer credit from U.S. or international universities of similar standing as Rice may apply towards the degree.
- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

Additional Information
For additional information, please see the Electrical and Computer Engineering website: https://www.ece.rice.edu/

Opportunities for the MECE Degree
Fifth-Year Master’s Degree Option for Rice Undergraduate Students
In certain situations and with some terminal master’s degree programs, Rice students have an option to pursue a master’s degree by adding an additional fifth year to their four years of undergraduate studies.

Advanced Rice undergraduate students in good academic standing typically apply to the master’s degree program during their junior or senior year. Upon acceptance, depending on course load, financial aid status, and other variables, they may then start taking some required courses of the master’s degree program. A plan of study will need to be approved by the student’s undergraduate major advisor and the master’s degree program director.

As part of this option and opportunity, Rice undergraduate students:

- must complete the requirements for a bachelor’s degree and the master’s degree independently of each other (i.e. no course may be counted toward the fulfillment of both degrees).
- should be aware there could be financial aid implications if the conversion of undergraduate coursework to that of graduate level reduces their earned undergraduate credit for any semester below that of full-time status (12 credit hours).
- more information on this Undergraduate - Graduate Concurrent Enrollment opportunity, including specific information on the registration process can be found here (p. 20).

Rice undergraduate students completing studies in science and engineering may have the option to pursue the Master of Electrical and Computer Engineering (MECE) degree. For additional information, students should contact their undergraduate major advisor and the MECE program director.

Energy and Water Sustainability
Contact Information
Energy and Water Sustainability
https://ceve.rice.edu/
713-348-4949
Jorge Loyo Rosales

Program Director
jorge.loyo@rice.edu

The interdisciplinary program in Energy and Water Sustainability is offered by the Civil and Environmental Engineering Department in collaboration with several other Rice University departments.

Sustainable development is a societal goal that challenges traditional ways of thinking and requires alternative approaches and solutions to balance environmental, economic, and social interests. Carbon management strategies and renewable resources will be key elements of energy policy for the coming decades. Similarly, the long-term viability of existing water use and human settlement patterns must be reconsidered given the effect of climate change in freshwater availability, as well as increasing competing demands for this limited resource. More generally, the dedication of materials, energy, and ecological resources will become more important in economic decision-making, while more and more members of society will demand equity in decision-making processes.

Students studying Energy and Water Sustainability will gain knowledge of both the science and policy issues associated with the evaluation of sustainable energy and water strategies that will form a cornerstone of 21st century social systems. Students completing this program will be better prepared for a global society that is attempting to understand and address the challenge of meeting basic human needs today and in the future while maintaining a functional natural system and social order.

Minor

- Minor in Energy and Water Sustainability (p. 922)

Energy and Water Sustainability does not currently offer an academic program at the graduate level.

Director
Jorge Loyo Rosales, Civil and Environmental Engineering

Undergraduate Advisors
Pedro J.I. Alvarez, Civil and Environmental Engineering
Jorge Loyo Rosales, Civil and Environmental Engineering

Steering Committee
Philip B. Bedient, Civil and Environmental Engineering
Walter G. Chapman, Chemical and Biomolecular Engineering
Daniel S. Cohan, Civil and Environmental Engineering
Kenneth R. Cox, Chemical and Biomolecular Engineering
Leonardo A. Dueñas-Osorio, Civil and Environmental Engineering

Minor in Energy and Water Sustainability

Program Learning Outcomes for the Minor in Energy and Water Sustainability

Upon completing the minor in Energy and Water Sustainability, students will be able to:

1. Apply basic economic concepts of energy and water sustainability including aspects of environmental economics and project-scale economic issues.
2. Understand basic environmental issues applicable to energy and water sustainability.
3. Conduct evaluations of social aspects from a sustainability perspective.
4. Evaluate projects and political systems from the standpoint of energy and water issues as well as more general sustainability issues.
5. Apply sustainability concepts at varying scales and viewpoints, including project level, corporate level, and municipal, state, national, and international levels.
6. Understand the role of climate change on future projects and societies.

Requirements for the Minor in Energy and Water Sustainability

Students pursuing the minor in Energy and Water Sustainability must complete:

- A minimum of 7 courses (19 credit hours) to satisfy minor requirements.
- A minimum of 6 courses (16 credit hours) taken at the 300-level or above.
- A Design Practicum.¹
- A maximum of 2 courses (6 credit hours) applied towards the minor’s Elective Requirements can be used to fulfill a student’s major requirements.

The courses listed below satisfy the requirements for this minor. In certain instances, courses not on this official list may be substituted upon approval of the minor’s academic advisor, or where applicable, the Program Director. (Course substitutions must be formally applied and entered into Degree Works by the minor’s Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/)). Students and their academic advisors should identify and clearly document the courses to be taken.

Total Credit Hours 19

Footnotes and Additional Information

1 Students are required to complete 1 special topics course (CEVE 499), typically during the fall semester of their senior year. Students in engineering and architecture will fulfill this requirement by preparing a report that describes the incorporation of sustainability concepts into their design effort in consultation with their senior (capstone) design course instructor. Students not engaged in a suitable design project will either consult with an extant design group or pursue a project related to their own area of study in consultation with the EWSU advisors.

2 No more than 2 electives courses can be drawn from any of the 3 electives categories. At least 1 elective course must be taken from a different school than the school hosting the student’s major. No more than 2 of the 3 electives can be used to also fulfill a student’s major requirements. Course offerings of interest that are not listed above can be approved via contacting the minor’s Official Certifier, Jim Blackburn (blackbur@rice.edu).

Energy Economics

Transfer Credit

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 37). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Program Transfer Credit Guidelines

Students pursuing the minor in Energy and Water Sustainability should be aware of the following program-specific transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

Additional Information

For additional information, please see the Energy and Water Sustainability website: https://ceve.rice.edu/sustainability-minor (https://ceve.rice.edu/sustainability-minor/).

Opportunities for the Minor in Energy and Water Sustainability

Academic Honors

The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (p. 51) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 51). Some departments have department-specific Honors awards or designations.

Additional Information

For additional information, please see the Energy and Water Sustainability website: https://ceve.rice.edu/sustainability-minor (https://ceve.rice.edu/sustainability-minor/).

Co-Director of MEEcon Program
hartley@rice.edu

Kenneth Medlock
Co-Director of MEEcon Program
medlock@rice.edu
The Master of Energy Economics (MEEcon) is a professional master's program emphasizing applying economic theory, economic and financial modeling and analysis, and quantitative and statistical methods to provide insightful analysis of issues and policies affecting the energy industry. The program provides rigorous training in various areas including microeconomics, econometrics, economic and financial modeling, risk management, economic forecasting, geopolitics, and political economy. Students will enhance their analytical and quantitative skills and acquire the necessary energy industry knowledge to understand challenges related to technology, business, investment and regulation, and economic forecasting.

The MEEcon degree is designed to educate future leaders and strategic thinkers in the energy sector. Students develop skills to provide insightful analysis of energy markets in order to inform future market orientation, capital asset decisions and firm strategic direction. Built upon programs in the Economics Department and the Baker Institute's Center for Energy Studies (CES), the MEEcon degree provides a new avenue for energy professionals to develop human capital relevant for business development and/or strategic planning roles.

Energy Economics does not currently offer an academic program at the undergraduate level.

**Economics (ECON)**

**ECON 100 - PRINCIPLES OF ECONOMICS**

*Short Title:* PRINCIPLES OF ECONOMICS  
*Department:* Economics  
*Grade Mode:* Standard Letter  
*Course Type:* Lecture  
*Distribution Group:* Distribution Group II  
*Credit Hours:* 3  
*Restrictions:* Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
*Course Level:* Undergraduate Lower-Level  
*Description:* Introduction to the basic concepts of microeconomics and macroeconomics. Microeconomics component includes analysis of supply and demand, consumer and producer behavior, and competitive and noncompetitive market equilibria, with applications to current policy issues. Macroeconomics component provides an overview of the determination of national output, employment, interest rates, and inflation, and analyzes monetary fiscal policies and international trade. Designed for both non-majors and majors.

**ECON 101 - INTRODUCTION TO MICROECONOMICS**

*Short Title:* INTRODUCTION TO MICROECONOMICS  
*Department:* Economics  
*Grade Mode:* Standard Letter  
*Course Type:* Lecture  
*Distribution Group:* Distribution Group II  
*Credit Hours:* 3  
*Restrictions:* Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
*Course Level:* Undergraduate Lower-Level  
*Description:* Introduction to microeconomic analysis at a level suitable for non-majors. Applies only for transfer credit and requires departmental approval. Approved credit counts toward total credit hours required for graduation and for distribution, but does not count toward the ECON or MTEC majors. Mutually Exclusive: Cannot register for ECON 101 if student has credit for ECON 111. Mutually Exclusive: Cannot register for ECON 101 if student has credit for ECON 111.

**ECON 103 - INTRODUCTION TO MACROECONOMICS**

*Short Title:* INTRODUCTION TO MACROECONOMICS  
*Department:* Economics  
*Grade Mode:* Standard Letter  
*Course Type:* Lecture  
*Distribution Group:* Distribution Group II  
*Credit Hours:* 3  
*Restrictions:* Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
*Course Level:* Undergraduate Lower-Level  
*Description:* Introduction to macroeconomic analysis at a level suitable for non-majors. Applies only for transfer credit and requires departmental approval. Approved credit counts toward total credit hours required for graduation and for distribution, but does not count toward the ECON or MTEC majors. Mutually Exclusive: Cannot register for ECON 103 if student has credit for ECON 112/ECON 113. Mutually Exclusive: Cannot register for ECON 103 if student has credit for ECON 112/ECON 113.

**ECON 111 - AP/OTH CREDIT IN MICROECONOMICS**

*Short Title:* AP/OTH CREDIT MICROECONOMICS  
*Department:* Economics  
*Grade Mode:* Standard Letter  
*Course Type:* Transfer  
*Credit Hours:* 1-6  
*Restrictions:* Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
*Course Level:* Undergraduate Lower-Level  
*Description:* Provides transfer credit based on student performance on approved examinations in microeconomics, such as the Advanced Placement microeconomics exam, the International Baccalaureate higher-level economics exams, or the A-Level economics exam, or for an approved introductory microeconomics course. Approved credit counts toward total credit hours required for graduation, but does not count for distribution or toward the ECON or MTEC majors. Mutually Exclusive: Cannot register for ECON 111 if student has credit for ECON 101. Mutually Exclusive: Cannot register for ECON 111 if student has credit for ECON 101.
ECON 205 - INTRODUCTION TO GAME THEORY
Short Title: INTRODUCTION TO GAME THEORY
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: This course provides an introduction to game theory, a branch of mathematics that studies decision-making by agents in situations where the outcome for each depends on the actions taken by all. Students will develop a familiarity with analytical tools that have found applications in, for example, economics and other social sciences, biology, computer science, and philosophy. Designed for students who do not wish to major in ECON or MTEC and does not apply to ECON or MTEC major requirements. Mutually Exclusive: Cannot register for ECON 205 if student has credit for ECON 300.

ECON 209 - APPLIED ECONOMETRICS
Short Title: APPLIED ECONOMETRICS
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Distribution Group: Distribution Group II
Credit Hours: 4
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Prerequisite(s): ECON 100 or ECON 200 (ECON 100 or ECON 200) and (ECON 307 or STAT 310 or STAT 315 or DSCI 301)
Description: Applied econometric methods: econometric theory with practical emphasis on modeling, estimation, and hypothesis testing. A computer lab one day a week focuses on empirical implementation of econometric methods using STATA software. Mutually Exclusive: Cannot register for ECON 209 if student has credit for ECON 309/ECON 446.

ECON 210 - BEHAVIORAL ECONOMICS
Short Title: BEHAVIORAL ECONOMICS
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Prerequisite(s): ECON 100 or ECON 200
Description: Examines behavioral economics, which seeks to insert more behavioral realism into economic theory by incorporating into economic models insights based on empirical observations from psychology, sociology, and neuroscience. Emphasizes attempts by behavioral economists to explain anomalies that depart from the predictions of standard economic theory. Topics include temptation and self-control, fairness and reciprocity, reference dependence, bounded rationality and choice under risk and uncertainty.

2021-2022 General Announcements PDF Generated 09/22/21
ECON 307 - PROBABILITY AND STATISTICS
Short Title: PROBABILITY & STATISTICS
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): MATH 102 or MATH 106
Description: Probability and the central concepts and methods of statistics including probability, random variables, distributions of random variables, expectation, sampling distributions, estimation, confidence intervals, and hypothesis testing. Cross-list: STAT 310. Recommended Prerequisite(s): MATH 212. Mutually Exclusive: Cannot register for ECON 307 if student has credit for BUSI 395.

ECON 308 - MATHEMATICAL ECONOMICS
Short Title: MATHEMATICAL ECONOMICS
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 4
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ECON 209 and ECON 308
Description: Survey of estimation and forecasting models. Includes multiple regression time series analysis. A good understanding of linear algebra is highly desirable. Cross-list: STAT 376. Mutually Exclusive: Cannot register for ECON 308 if student has credit for ECON 409/STAT 401.

ECON 310 - ECONOMETRICS
Short Title: ECONOMETRICS
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 4
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ECON 209 and ECON 308
Description: Survey of estimation and forecasting models. Includes multiple regression time series analysis. A good understanding of linear algebra is highly desirable. Cross-list: STAT 376. Mutually Exclusive: Cannot register for ECON 310 if student has credit for ECON 409/STAT 400.

ECON 320 - PUBLIC POLICY AND SOCIAL PROGRAM EVALUATION
Short Title: EVALUATION OF SOCIAL PROGRAMS
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ECON 307 or STAT 310 or STAT 315 or SOSC 302
Description: Survey of estimation and forecasting models. Includes multiple regression time series analysis. A good understanding of linear algebra is highly desirable. Cross-list: STAT 376. Mutually Exclusive: Cannot register for ECON 310 if student has credit for ECON 409/STAT 400.
ECON 343 - CORPORATE FINANCE
Short Title: CORPORATE FINANCE
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): (ECON 100 or ECON 200) and (STAT 280 or STAT 305 or STAT 310 or STAT 315 or ECON 307 or STAT 312 or PSOC 305 or PSYC 339 or SOSC 302) and BUSI 305
Description: Corporate financial management including tools used to evaluate and select investment projects and the method of financing those investments. The influence of corporate control on investment decisions. The valuation of stocks, bonds and options using the time value of money, the trade-off between risk and return, and arbitrage. Mutually Exclusive: Cannot register for ECON 343 if student has credit for BUSI 343.

ECON 355 - FINANCIAL MARKETS
Short Title: FINANCIAL MARKETS
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ECON 200
Description: Principles governing U.S. and international equity and debt markets, and the interactions between such markets and national monetary and exchange rate policies. Focuses on the role of financial markets and institutions in the allocation and transfer of credit and risk, and examines various existing and suggested regulatory frameworks.

ECON 365 - WORLD ECONOMIC HISTORY
Short Title: WORLD ECONOMIC HISTORY
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ECON 100 and ECON 200 and ECON 203
Description: Study and analysis of world economy focusing on the economic expansion of Western countries between the 14th and 21st centuries. Emphasis on contextual changes in economy, geography, history, society, culture, religion and politics in determining economic leadership of certain economies, such as Italy, Portugal, Spain, the United Kingdom, Belgium, the Netherlands, France, Germany, Sweden, the United States and Japan. Cross-list: HIST 365.

ECON 399 - INDEPENDENT RESEARCH
Short Title: INDEPENDENT RESEARCH
Department: Economics
Grade Mode: Standard Letter
Course Type: Research
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ECON 203 and ECON 209 and (ECON 300 or ECON 305)
Description: Independent research project under the supervision of a faculty member who must approve the topic. Consult the department website under "Independent Research" for additional details. Students must have a GPA of 3.0 or higher in the prerequisite courses and must have taken the 400-level course or courses most relevant to the research topic. Faculty advisors may require additional prerequisites. Instructor and department permission required. Not offered during the summer. Instructor Permission Required.

ECON 415 - LABOR ECONOMICS
Short Title: LABOR ECONOMICS
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ECON 200
Description: Empirical evidence and theories relating to several features of labor markets. Topics covered may include fertility, health, criminal behavior, labor force participation, hours of work, education and training, geographical and inter-firm labor mobility, static and dynamic labor demand, unions, discrimination, government intervention in labor markets, and "hedonic" equilibria in labor markets. Graduate/Undergraduate Equivalency: ECON 515. Mutually Exclusive: Cannot register for ECON 415 if student has credit for ECON 515.

ECON 418 - ECONOMIC FORECASTING
Short Title: ECONOMIC FORECASTING
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ECON 203 and ECON 209
Description: Application of econometric techniques to problems in macroeconomics and financial economics. The course focuses on macroeconomic forecasting and test of economic theories using stationary and non-stationary time-series data. Methods include predictive regressions, vector autoregressions, impulse response functions, and variance decomposition. Tests and comparisons of forecast accuracy are also included. Projects will be completed in STATA.
ECON 419 - ADVANCED TOPICS IN ECONOMETRICS  
**Short Title:** ADV TOPICS IN ECONOMETRICS  
**Department:** Economics  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
**Course Level:** Undergraduate Upper-Level  
**Prerequisite(s):** ECON 310 or STAT 376  
**Description:** Introduction to advanced econometrics, with an emphasis on methods used in microeconomic applications. Methods covered are used in the estimation of the demand for goods and services, production functions, and for analyzing the impact of social programs.  

ECON 422 - INTERNATIONAL ECONOMICS AND FINANCE  
**Short Title:** INTERNATIONAL ECON & FINANCE  
**Department:** Economics  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
**Course Level:** Undergraduate Upper-Level  
**Prerequisite(s):** ECON 200 and ECON 203  
**Description:** Studies the economic relationships among countries. Explores the sources of comparative advantage and reasons for trade policies. Examines foreign exchange and international capital markets and linkages between exchange rates, interest rates, and prices. Includes trade theory, tariffs, and other trade restrictions, an overview of historical and institutional developments, and current policy issues. Mutually Exclusive: Cannot register for ECON 422 if student has credit for ECON 420/ECON 421.  

ECON 423 - ADVANCED TOPICS IN LAW AND ECONOMICS  
**Short Title:** ADV TOPICS IN LAW AND ECON  
**Department:** Economics  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
**Course Level:** Undergraduate Upper-Level  
**Prerequisite(s):** ECON 200  
**Description:** Addresses the role of economics in understanding the legal system, in particular how the law allocates entitlements and risk in property, tort and contract law. Intended primarily for students who are considering attending law school and uses instruction methods appropriate for that goal.  

ECON 437 - ENERGY ECONOMICS  
**Short Title:** ENERGY ECONOMICS  
**Department:** Economics  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
**Course Level:** Undergraduate Upper-Level  
**Prerequisite(s):** ECON 200  
**Description:** Discussion of key aspects in the supply and demand of energy. Topics include optimal extraction of depletable resources, transportation, storage, end-use and efficiency, and the relationship between economic activity, energy, and the environment. Cross-list: ENST 437. Graduate/Undergraduate Equivalency: ECON 601. Mutually Exclusive: Cannot register for ECON 437 if student has credit for ECON 601.  

ECON 439 - ADVANCED TOPICS IN LAW AND ECONOMICS  
**Short Title:** ADV TOPICS IN LAW AND ECON  
**Department:** Economics  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
**Course Level:** Undergraduate Upper-Level  
**Prerequisite(s):** ECON 200  
**Description:** Addresses the role of economics in understanding the legal system, in particular how the law allocates entitlements and risk in property, tort and contract law. Intended primarily for students who are considering attending law school and uses instruction methods appropriate for that goal.  

ECON 441 - EMPIRICAL METHODS FOR INDUSTRIAL ORGANIZATION  
**Short Title:** EMPIRICAL METHODS FOR IO  
**Department:** Economics  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
**Course Level:** Undergraduate Upper-Level  
**Prerequisite(s):** ECON 200 and ECON 209  
**Description:** Covers empirical methods for the analysis of markets and industries. Focuses on various topics related to incomplete information in industrial organization. Topics include markets, strategy, interactions among firms, and the pricing of products, including non-linear pricing.

ECON 450 - INDUSTRIAL ORGANIZATION  
**Short Title:** INDUSTRIAL ORGANIZATION  
**Department:** Economics  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
**Course Level:** Undergraduate Upper-Level  
**Prerequisite(s):** ECON 300 or ECON 305 and (ECON 209 or ECON 310)  
**Description:** A mathematical approach to topics in industrial organization and market design, including price discrimination, oligopoly, collusion, and auctions.
ECON 443 - FINANCIAL ECONOMICS
Short Title: FINANCIAL ECONOMICS
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ECON 305 and (ECON 307 or STAT 310 or STAT 315 or DSCI 301)
Description: Economic analysis of the operation of financial markets from a mathematical and theoretical perspective. Topics include asset pricing, risk management, portfolio theory, arbitrage theory, and market efficiency. Emphasizes the application of the financial concepts to decisions faced by households and firms.

ECON 444 - MANAGERIAL ECONOMICS
Short Title: MANAGERIAL ECONOMICS
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ECON 200
Description: Application of economics to the determination of the profitability of the firm. Includes organization theory and problems of control. A student may not receive credit for ECON 445 and ECON 245/POLI 245.

ECON 449 - PRINCIPLES OF FINANCIAL ENGINEERING
Short Title: FINANCIAL ENGINEERING
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): (ECON 308 or MATH 211) and MATH 212 and (ECON 310 or STAT 376)
Description: Covers the use of financial securities and derivatives to take or hedge financial risk positions, including most commonly used instruments, from simple forwards and futures to exotic options and swaptions. Studies the pricing of derivative securities with emphasis on the mechanics and uses of financial engineering methods. Mutually Exclusive: Cannot register for ECON 449 if student has credit for STAT 449.

ECON 450 - ECONOMIC DEVELOPMENT
Short Title: ECONOMIC DEVELOPMENT
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ECON 200 and ECON 203
Description: This course covers different dimensions of economic development, focusing on poverty, inequality, demography, and health. It provides an overview of the economies of less developed countries, the lives of the poor, and the theories for why some countries are rich and others are poor. It also describes how labor and credit markets function in poor countries, the consequences for health and education, and the role of institutions.

ECON 452 - RELIGION, ETHICS, AND ECONOMICS
Short Title: RELIGION, ETHICS, & ECONOMICS
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ECON 200 and (ECON 307 or STAT 310 or STAT 315 or DSCI 301)
Description: Reviews economic models of the demand, supply, and markets for religion, including the effects of economic conditions on religious choice and vice versa. Students will write a term paper on topics of their choosing, subject to professor’s approval. Recommended Prerequisite(s): ECON 209 or ECON 310 or STAT 376.

ECON 455 - MONEY AND BANKING
Short Title: MONEY AND BANKING
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ECON 200 and ECON 203
Description: Micro-foundations of monetary, fiscal and financial theory. Examines the unique roles of money and of banking in providing the transactions mechanism and in the functioning of financial markets. Explains the use of valued fiat, unbacked money which appears to violate basic microeconomics, in the context of Samuelson’s overlapping generations model, including the implications for monetary and fiscal policy and for inflation. Discusses bank runs and financial instability.
ECON 460 - ADVANCED TOPICS IN ECONOMIC DEVELOPMENT
Short Title: ADV TOPICS ECON DEVELOPMENT
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ECON 200 and ECON 450
Description: Focuses on role of taxation, finance and international trade, foreign investment and foreign aid in economic development.

ECON 462 - ECONOMICS OF HUMAN CAPITAL
Short Title: ECONOMICS OF HUMAN CAPITAL
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ECON 320
Description: This course covers theory that describes the central role of human capital in determining economic growth and inequality, uses advanced econometric techniques to test if the theory is consistent with data, and presents insights for public policy that can improve human capital formation, increase economic growth and reduce social inequality.

ECON 470 - MARKET DESIGN
Short Title: MARKET DESIGN
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ECON 200 and (ECON 307 or STAT 310 or STAT 315 or DSCI 301)
Description: Regulators, entrepreneurs and economists have recently been involved in the design of novel markets for radio spectrum, kidneys, on-line advertising, school choice, etc. This course utilizes game theory to provide the theoretical underpinning of such markets via real world examples, including the study of institutional details that can determine the success or failure of a market.

ECON 477 - SPECIAL TOPICS
Short Title: SPECIAL TOPICS
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture, Laboratory, Internship/Practicum, Seminar
Credit Hours: 1-4
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Topics and credit hours vary each semester. Contact department for current semester's topic(s). Repeatable for Credit.

ECON 479 - ECONOMIC MODELING AND PUBLIC POLICY
Short Title: ECONOMIC MODLG & PUBLIC POLICY
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ECON 200
Description: Examines the use of computational dynamic models to analyze the effects of economic policy reforms. Introduces computer programming methods to simulate household and firm behavior in partial and general equilibrium frameworks. Policy evaluation includes personal and corporate income taxes, Social Security, retirement savings incentives, and social insurance programs.

ECON 480 - ENVIRONMENTAL ECONOMICS
Short Title: ENVIRONMENTAL ECONOMICS
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ECON 200
Description: Uses economic theories of externalities and common property resources to analyze how markets, legal institutions, regulations, taxes and subsidies, and voluntary activity can affect the supply of environmental amenities, such as clean air, clean water, and wilderness areas. Also discusses methods for determining the demand for environmental amenities. Cross-list: ENST 480.

ECON 481 - HEALTH ECONOMICS
Short Title: HEALTH ECONOMICS
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ECON 200 and (ECON 209 or ECON 310 or STAT 376)
Description: Study of determinants of health, including behavioral, economic and social factors and access to health care. Application of economics to understand health insurance, the hospital and physician markets, pharmaceuticals, and the health care system. Effects of regulation and methods of payment. Graduate/Undergraduate Equivalency: ECON 565. Mutually Exclusive: Cannot register for ECON 481 if student has credit for ECON 565.
ECON 483 - PUBLIC FINANCE  
Short Title: PUBLIC FINANCE  
Department: Economics  
Grade Mode: Standard Letter  
Course Type: Lecture  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Prerequisite(s): ECON 200  
Description: Provides an economic analysis of tax policy, focusing on the current national debate regarding the relative merits of income and consumption-based taxes in terms of equity, efficiency, and simplicity. Analyzes tax effects on individual and business behavior and discusses general equilibrium modeling of the economic and distributional effects of alternative tax reforms. Special topics include optimal taxation, taxation of the family, estate taxation, taxation of electronic commerce, and state and local public finance.

ECON 484 - PUBLIC ECONOMICS  
Short Title: PUBLIC ECONOMICS  
Department: Economics  
Grade Mode: Standard Letter  
Course Type: Lecture  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Prerequisite(s): ECON 200 and MATH 212  
Description: Theory and evidence on government expenditure policy. Topics include the theory of public goods, education, state and local public goods, redistribution and welfare policy, cost-benefit analysis, social insurance programs such as social security and unemployment insurance, and health care policy.

ECON 485 - THE ECONOMICS OF SUSTAINABILITY, CONSERVATION, AND PANDEMICS  
Short Title: ECON, CONSERVATION & PANDEMICS  
Department: Economics  
Grade Mode: Standard Letter  
Course Type: Lecture  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Prerequisite(s): ECON 200  
Description: This course will cover issues related to conservation, sustainability and pandemics from an economics point of view. Topics will include the need for conservation policies and planning, how science informs conservation strategies, incentives and the design of conservation agreements, and the role of deforestation and wildlife markets in pandemic emergence. Policies to reduce the likelihood of pandemic emergence, as well as the effects of pandemics like influenza, HIV, and COVID-19 on the global economy will also be discussed. Recommended Prerequisite(s): MATH 212

ECON 489 - ECONOMICS OF SOCIAL NETWORKS  
Short Title: ECONOMICS OF SOCIAL NETWORKS  
Department: Economics  
Grade Mode: Standard Letter  
Course Type: Lecture  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Prerequisite(s): ECON 200 and ECON 209  
Description: This course introduces research on social networks and analyzes how these networks affect our choices: the products we buy, the careers we follow, whom we marry, how we raise our children. Students will learn about network measurement and formation and the influence of social networks on our decisions.

ECON 496 - RESEARCH IN ECONOMIC THEORY  
Short Title: RESEARCH IN ECONOMIC THEORY  
Department: Economics  
Grade Mode: Standard Letter  
Course Type: Research  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Prerequisite(s): ECON 203 and (ECON 310 or STAT 376) and ECON 305  
Description: Capstone course for MTEC majors whose primary interest is in economic theory. Review and analysis of seminal and current research in economic theory, including independent analysis by the student. Topics vary from year to year.

ECON 497 - RESEARCH IN ECONOMETRICS  
Short Title: RESEARCH IN ECONOMETRICS  
Department: Economics  
Grade Mode: Standard Letter  
Course Type: Research  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Prerequisite(s): ECON 203 and (ECON 310 or STAT 376) and ECON 305  
Description: Capstone course for MTEC majors whose primary interest is in econometrics. Review and analysis of seminal and current research in econometrics, including independent analysis by the student. Topics vary from year to year.
ECON 498 - HONORS PROGRAM IN ECONOMICS-I
Short Title: HONORS PROGRAM IN ECONOMICS-I
Department: Economics
Grade Mode: Standard Letter
Course Type: Research
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): ECON 203 and (ECON 209 or ECON 310) and (ECON 300 or ECON 305)
Description: Research workshop open to ECON and MTEC majors. Students must have a GPA of at least 3.67 in all courses taken toward satisfying major requirements, and must have taken all ECON courses directly related to the topic of their research. Students develop a research idea, construct an economic model with testable hypotheses, test those hypotheses, and write and present an academic quality paper. Econometrics prerequisite is ECON 209 for ECON majors and ECON 310 for MTEC majors.

ECON 499 - HONORS PROGRAM IN ECONOMICS-II
Short Title: HONORS PROGRAM IN ECONOMICS-II
Department: Economics
Grade Mode: Standard Letter
Course Type: Research
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): ECON 498
Description: Continuation of ECON 498. University credit only.

ECON 501 - MICROECONOMICS I
Short Title: MICROECONOMICS I
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Formal mathematical treatments of the classic topics in microeconomics: consumer and producer theory, choice under risk and uncertainty, revealed preference theory and general equilibrium theory. Introduces and uses mathematical tools that are the workhorses of economic theory: real analysis, constrained optimization, monotone comparative statics and fixed point theorems.

ECON 502 - MACROECONOMICS
Short Title: MACROECONOMICS
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Review of static general equilibrium theory; elements of functional analysis for optimization; deterministic and stochastic difference equations, local stability analysis; introduction to Markov processes; dynamic optimization techniques, including stochastic optimal control theory, dynamic programing, and robust control; applications to growth theory, search, industrial organization, and monetary economics; dynamic stochastic general equilibrium modeling.

ECON 504 - COMPUTATIONAL ECONOMICS
Short Title: COMPUTATIONAL ECONOMICS
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): ECON 501 and ECON 502 and ECON 505 and ECON 508 and ECON 510 and ECON 511 and MATH 321
Description: Numerical methods most commonly used in economics and their application to frontier research projects in economic modeling. Topics include optimization theory and numerical integration. Cross-list: STAT 604.

ECON 505 - FINANCIAL ECONOMICS I
Short Title: FINANCIAL ECONOMICS I
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): ECON 501 and ECON 502
Description: Introduction to asset pricing and portfolio choice theory. Covers mathematical analysis of single-period and dynamic models, including pricing by arbitrage, mean-variance analysis, factor models, dynamic optimization, recursive utility, and an introduction to continuous-time finance. Cross-list: BUSI 521.

ECON 507 - MATHEMATICAL ECONOMICS I
Short Title: MATHEMATICAL ECONOMICS I
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: The purpose of this course is to provide the first-year PhD students in Economics with the essential mathematical tools. The course covers topics in real analysis, topology, linear algebra, etc. Aside from providing the mathematical tools, a primary aim of this course is to develop the level of mathematical sophistication necessary to conduct research in modern economics. The course will therefore emphasize logical clarity and mathematical rigor, along with the ability to follow and construct mathematical proofs.

ECON 508 - MICROECONOMICS II
Short Title: MICROECONOMICS II
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 5
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): ECON 501 and MATH 321
Description: Two modules: (1) Introduces students to the mathematical tools of game theory and the modeling of economic settings as games. Covers normal form games, extensive form games with perfect information, Bayesian games, and extensive form games with imperfect information; (2) introduces students to information economics and the theory of mechanism design. Applies tools from game theory and linear and non-linear
ECON 509 - TOPICS IN MICROECONOMICS
Short Title: TOPICS IN MICROECONOMICS
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): ECON 508
Description: Discussion of selected topics in microeconomic theory. Repeatable for credit. The Spring 2021 topic was Psychology and Economics, especially individual choice under risk and uncertainty, reference-dependent preferences, temptation and self-control, other-regarding preferences, behavioral game theory, and bounded rationality. Repeatable for Credit.

ECON 510 - ECONOMETRICS I
Short Title: ECONOMETRICS I
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): ECON 508
Description: Estimation and inference in single equation regression models, multicollinearity, autocorrelated and heteroskedastic disturbances, distributed lags, asymptotic theory, and maximum likelihood techniques. Emphasis is placed on critical analysis of the literature. Cross-list: STAT 610.

ECON 511 - ECONOMETRICS II
Short Title: ECONOMETRICS II
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): ECON 510 or STAT 610
Description: Topics in linear and nonlinear simultaneous equations estimation, including panel data, qualitative and categorical dependent variable models, duration analysis, simulation-based estimation, treatment effects, stochastic production frontier estimation. Cross-list: STAT 611.

ECON 512 - INTERNATIONAL TRADE THEORY
Short Title: INTERNATIONAL TRADE THEORY
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): ECON 511 or STAT 610
Description: Examination of classical, neoclassical, and modern trade theory. Includes welfare aspects of trade such as the theory of commercial policy, with emphasis on applications.

ECON 514 - EMPIRICAL INDUSTRIAL ORGANIZATION
Short Title: EMPIRICAL INDUSTRIAL ORGANIZAT
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Topics include structural analysis of auction, nonlinear pricing, insurance and bargaining data. Emphasizes the use of advanced econometric methods (nonparametric and semiparametric) to estimate and test models under incomplete information.

ECON 515 - LABOR ECONOMICS
Short Title: LABOR ECONOMICS
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): ECON 508
Description: Mathematical and statistical analysis of empirical evidence and theories relating to several features of labor markets. Topics covered may include fertility, health, criminal behavior, labor force participation, hours of work, education and training, geographical and inter-firm labor mobility, static and dynamic labor demand, unions, discrimination, government intervention in labor markets, and “hedonic” equilibria in labor markets. Graduate/Undergraduate Equivalency: ECON 415. Mutually Exclusive: Cannot register for ECON 515 if student has credit for ECON 415.

ECON 516 - EMPIRICAL MICROECONOMICS
Short Title: EMPIRICAL MICROECONOMICS
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): ECON 516
Description: Overview of methods used in empirical microeconomic research. Examples are drawn from health economics, law and economics, and business economics. Emphasis is placed on designing econometric and statistical analyses to test economic hypotheses. Class projects will expand on analyses from previously published studies.

ECON 517 - EMPIRICAL INDUSTRIAL ORGANIZATION II
Short Title: EMPIRICAL INDUSTRIAL ORG II
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): ECON 509
Description: Examines economic models of competition and industry structure. These include models of demand, supply, investment and entry. Special attention is paid to economic statistical modeling of industries and the use of price and game theory in industrial organization. Matching and market design are also covered.
ECON 518 - INTERNATIONAL MACROECONOMICS
Short Title: INTERNATIONAL MACROECONOMICS
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Effects of fiscal and monetary policies on exchange rates and the current account and balance of payments. Includes exchange market efficiency, exchange rates and prices, LDC debt, and policy coordination.

ECON 519 - ECONOMIC GROWTH AND DEVELOPMENT
Short Title: ECONOMIC GROWTH & DEVELOPMENT
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): ECON 501 and ECON 508 and ECON 510 and ECON 511
Description: Mathematical and statistical analysis of topics in microeconomic development and introduction to some frequently used applied econometric methods. Topics covered include poverty and inequality, health, education, fertility, marriage markets, and other gender issues. Special focus is given to intra-household bargaining models and their applications.

ECON 521 - MATCHING AND MARKET DESIGN
Short Title: MATCHING AND MARKET DESIGN
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): ECON 501 and ECON 508 and ECON 510 and ECON 511
Description: This course begins with an overview of different matching markets (e.g., one-to-one or many-to-one AND with or without transfers AND centralized or decentralized) and the common empirical models; it then provides a relatively in-depth discussion of market design, both theoretical and empirical, for school choice and kidney transplants.

ECON 522 - PUBLIC ECONOMICS: TAX POLICY
Short Title: PUBLIC ECONOMICS: TAX POLICY
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Study of the effects of taxation on individual and firm behavior, general equilibrium tax incidence analysis, optimal taxation theory, optimal implementation of tax reform, analysis of comprehensive income, and consumption taxes.

ECON 523 - DYNAMIC OPTIMIZATION
Short Title: DYNAMIC OPTIMIZATION
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Study of dynamic optimization in discrete and continuous time, including numerical methods and applications to macroeconomics, finance and resource and energy economics.

ECON 547 - ADVANCED TOPICS IN ENERGY ECONOMICS
Short Title: ADV TOPICS IN ENERGY ECONOMICS
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): (ECON 301 or ECON 370) and (ECON 309 or ECON 446 or ECON 409 or ECON 400 or STAT 400) and ECON 437
Description: A detailed development and analysis of topics in energy modeling. Topics include optimal extraction of depletable resources, models of storable energy commodities, energy demand by end-use sector, models of non-competitive behavior, energy security and the relationship between energy and commodity prices. ECON 547 requires an additional assignment in addition to the assignments of ECON 447. Recommended Prerequisite(s): ECON 477 or ECON 401. Mutually Exclusive: Cannot register for ECON 547 if student has credit for ECON 447/ECON 604.

ECON 556 - HEALTH ECONOMICS
Short Title: HEALTH ECONOMICS
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Application of empirical and theoretical economic models to health and healthcare. Includes production, cost, demand and supply factors; methods of payment and effects of regulation. Topics include optimal design of health insurance markets, cost-benefit analysis of healthcare technologies, econometric evaluation of government regulations and reimbursement in the healthcare sector, and testing of hypothesis that explain rising prices and costs of healthcare. Graduate/Undergraduate Equivalency: ECON 481. Mutually Exclusive: Cannot register for ECON 556 if student has credit for ECON 481.
ECON 575 - TOPICS IN FINANCIAL ECONOMICS
Short Title: TOPICS IN FINANCIAL ECONOMICS
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): ECON 505
Description: Topics in asset pricing, corporate financial theory, and market microstructure, including asymmetric information, learning, heterogeneous priors, market frictions, nonstandard preferences, production models, q theory, real options, dynamic capital structure, quote-driven markets, order-driven markets, and dealer markets. Repeatable for Credit.

ECON 576 - TOPICS IN MACROECONOMICS
Short Title: TOPICS IN MACROECONOMICS
Department: Economics
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Discussion topics in macroeconomics. Repeatable for Credit.

ECON 577 - TOPICS IN ECONOMIC THEORY I
Short Title: TOPICS IN ECONOMIC THEORY I
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Discussion of topics in advanced economic theory. Repeatable for Credit.

ECON 578 - TOPICS IN ECONOMETRICS I
Short Title: TOPICS IN ECONOMETRICS I
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Discussion of selected topics in advanced econometrics. Repeatable for Credit.

ECON 579 - TOPICS IN ECONOMETRICS II
Short Title: TOPICS IN ECONOMETRICS II
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): ECON 511
Description: Discussion of selected topics in advanced econometrics that focus on the mathematical and statistical modeling of such phenomena as (1) extended panel data methods; (2) spatial econometrics; (3) bootstrapping; (4) factor models, wavelets, smoothing-splines, sieves; (5) model averaging; (6) continuous and discrete dynamic programming models; (7) econometrics of auctions; (8) BLP methods of demand estimation; (9) structural and non-structural models of producer behavior; (10) point and set identification; (11) Bayesian Econometrics/Metropolis-Hastings MCMC algorithms. Repeatable for Credit.

ECON 592 - TOPICS IN POLICY AND APPLIED ECONOMICS
Short Title: TOP-POLICY&APPL'D ECON
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Discussion of selected topics and applied economics. Repeatable for Credit.

ECON 593 - WORKSHOP IN MICROECONOMICS
Short Title: WORKSHOP IN ECONOMICS
Department: Economics
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Seminar
Credit Hour: 1
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): ECON 501 and ECON 502 and ECON 510 and ECON 505 and ECON 508 and ECON 511
Description: Seminars on advanced topics in macroeconomics, microeconomics, econometrics and applied microeconomic theory, presented through guest lectures by leading researchers. Repeatable for credit. Repeatable for Credit.

ECON 594 - WORKSHOP IN ECONOMICS II
Short Title: WORKSHOP IN ECONOMICS II
Department: Economics
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Seminar
Credit Hour: 1
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): ECON 508 and ECON 510
Description: Seminars on advanced topics in macroeconomics, microeconomics, econometrics and applied microeconomic theory, presented through guest lectures by leading researchers. Repeatable for credit. Repeatable for Credit.
ECON 596 - RESEARCH SEMINAR
Short Title: RESEARCH SEMINAR
Department: Economics
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Seminar
Credit Hours: 0.5
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Supervises fourth-year and fifth-year Ph.D. students in their quantitative dissertation research in preparation for graduation. Students must present their own research at least once during the semester. Repeatable for Credit.

ECON 597 - READINGS IN ADVANCED TOPICS
Short Title: READINGS IN ADVANCED TOPICS
Department: Economics
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Independent Study
Credit Hour: 1
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Workshop prepares graduate students for completing innovative and original research. All second year graduate students must attend the workshop. Each week, a faculty member will give a brief lecture about their experience with research. Possible topics include how they came up with ideas, how those ideas evolved and became papers, how these papers proceeded through the publication process, etc. Alternatively, faculty members can present a broad overview of particular research areas and discuss outstanding questions in those areas. Instructor Permission Required. Repeatable for Credit.

ECON 598 - READINGS IN ADVANCED TOPICS
Short Title: READINGS IN ADVANCED TOPICS
Department: Economics
Grade Mode: Standard Letter
Course Type: Independent Study
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Prepares second-year Ph.D. students to conduct quantitative research. After a critical review of existing economic models, statistical analysis of data and economic evaluations, students develop their own research agenda. Repeatable for Credit.

ECON 599 - SEMINAR WORKSHOP
Short Title: SEMINAR WORKSHOP
Department: Economics
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Research
Credit Hours: 0.5
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Promotes graduate students’ attendance and active participation in the Econ 593 and Econ 594 seminar workshops. Each student is required to attend at least fifteen ECON 593/594 seminars per semester, write a brief report on each seminar presentation they attend, prepare to present a background paper for three of the seminars they plan to attend, and participate in post seminar discussions. Repeatable for Credit.

ECON 601 - ENERGY ECONOMICS I
Short Title: ENERGY ECONOMICS I
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 4
Restrictions: Enrollment is limited to Graduate level students. Enrollment limited to students in a Master of Energy Economics degree.
Course Level: Graduate
Description: Introduces the energy sector to students, discusses key aspects of energy supply, demand and pricing, and is foundational for the MEECON degree. Topics include optimal extraction of depletable resources, investment in energy-using capital, trade of energy commodities, storage, end-use demand and energy efficiency, and the relationship between economic activity, energy and the environment. Students learn to apply dynamic optimization, linear programming and econometric techniques in addressing the course topics. Graduate/Undergraduate Equivalency: ECON 437. Mutually Exclusive: Cannot register for ECON 601 if student has credit for ECON 437.

ECON 602 - MICROECONOMICS OF THE ENERGY SECTOR
Short Title: MICROECONOMICS - ENERGY SECTOR
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 4
Restrictions: Enrollment is limited to Graduate level students. Enrollment limited to students in a Master of Energy Economics degree.
Course Level: Graduate
Description: Covers basic microeconomic concepts and applies them to contemporary issues in the energy sector. Topics covered include demand and supply analysis, market equilibrium and different market structures, international trade, investment and capacity expansion, risk and investment finance, and economic analysis of energy policy including environmental policy. This course enables students to apply quantitative microeconomic theory in order to make data-driven recommendations to case studies presented by industry partners.

ECON 603 - APPLIED ECONOMETRICS FOR ENERGY MARKETS
Short Title: APPLIED ECONOMETRICS ENGY MKTS
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 4
Restrictions: Enrollment is limited to Graduate level students. Enrollment limited to students in a Master of Energy Economics degree.
Course Level: Graduate
Description: Students will be introduced to basic concepts in statistical analysis and how to use statistical tools to analyze economic data and test economic theories. The course includes a laboratory session where students practice using the tools discussed in lectures with data that is particularly relevant to the energy industry.
ECON 602 - ENERGY ECONOMICS II
Short Title: ENERGY ECONOMICS II
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 4
Restrictions: Enrollment is limited to Graduate level students. Enrollment limited to students in a Master of Energy Economics degree.
Course Level: Graduate
Description: Examines the investment decisions of corporations, the valuation of stock, bonds and options investments by individual investors. The implications of investor decisions for corporations, and specifically the manner in which they evaluate investment projects and finance investments are a core focus. Examples and case studies focus on the energy sector. Students will increase their understanding of financing and investment decision as the relate to energy companies and energy related projects using analytical and mathematical techniques to make data-driven recommendation to real-world problems.

ECON 603 - THE ECONOMICS OF ENERGY AND THE ENVIRONMENT
Short Title: ECON OF ENERGY & ENVIRONMENT
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 4
Restrictions: Enrollment is limited to Graduate level students. Enrollment limited to students in a Master of Energy Economics degree.
Course Level: Graduate
Description: This course introduces quantitative risk management techniques often employed in the energy industry. It covers topics such as real options, value at risk, conditional value at risk, and expected shortfall, as well as the use of derivatives for trading and hedging various risk exposures. The course is methodologically self-contained and provides students with hands-on experience with state-of-the-art software to measure and manage risk-adjusted returns of heterogeneous asset portfolios.

ECON 604 - ENERGY ECONOMICS II
Short Title: Energy Economics II
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 4
Restrictions: Enrollment is limited to Graduate level students. Enrollment limited to students in a Master of Energy Economics degree.
Course Level: Graduate
Description: Examines a variety of topics in energy modeling and energy data analysis. Topics include optimal extraction of depletable resources, game theoretic approaches to OPEC behavior, national oil company behavior, models of storable energy commodities and energy demand by end-use sector, energy security and fundamental drivers of commodity prices. This course tasks students to expand on the dynamic optimization problems and econometric techniques applied to energy economics. Mutually Exclusive: Cannot register for ECON 604 if student has credit for ECON 547.

ECON 605 - TAXATION IN THE ENERGY SECTOR
Short Title: TAXATION IN THE ENERGY SECTOR
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 4
Restrictions: Enrollment is limited to Graduate level students. Enrollment limited to students in a Master of Energy Economics degree.
Course Level: Graduate
Description: Introduces basic principles of taxation, and general equilibrium modeling of the economic effects of taxes, and applies them to federal and state taxes on the energy sector. Topics include royalties resource rent taxes, corporate income taxes including international tax issues such as transfer pricing and income shifting, excess profit taxes, production-sharing agreements, and environmental taxes. Students will formulate, implement, and use quantitative models to solve problems related to private and public decision making in the context of taxes applied to U.S. energy systems.

ECON 606 - CORPORATE FINANCE FOR THE ENERGY SECTOR
Short Title: CORP FINANCE - ENERGY SECTOR
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 4
Restrictions: Enrollment is limited to Graduate level students. Enrollment limited to students in a Master of Energy Economics degree.
Course Level: Graduate
Description: Examines a variety of topics in energy modeling and energy data analysis. Topics include optimal extraction of depletable resources, game theoretic approaches to OPEC behavior, national oil company behavior, models of storable energy commodities and energy demand by end-use sector, energy security and fundamental drivers of commodity prices. This course tasks students to expand on the dynamic optimization problems and econometric techniques applied to energy economics. Mutually Exclusive: Cannot register for ECON 604 if student has credit for ECON 547.

ECON 607 - THE ECONOMICS OF ENERGY AND THE ENVIRONMENT
Short Title: ECON OF ENERGY & ENVIRONMENT
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 4
Restrictions: Enrollment is limited to Graduate level students. Enrollment limited to students in a Master of Energy Economics degree.
Course Level: Graduate
Description: Discusses connections between energy and economic activity at the regional, national, and international level, and especially the role of energy shocks in economic fluctuations, innovations in energy supply as drivers of regional economic growth, and the role of energy commodities in transportation and international trade.
ECON 611 - GEOPOLITICS OF ENERGY
Short Title: GEOPOLITICS OF ENERGY
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 4
Restrictions: Enrollment is limited to Graduate level students. Enrollment limited to students in a Master of Energy Economics degree.
Course Level: Graduate
Description: Explores the geopolitical issues around energy security and trade by focusing on role of energy as the world's largest business and a strategic requirement of the modern nation-state, a source of power in international relations, and a major influence on national politics and institutions. This course equips students with the analytical skills to inform policy debates, advocate for the interests of principals, and advise policy makers and firms amid rapid changes in energy markets. Students learn both to produce sound empirical analysis by employing state of the art econometric techniques and to be discerning consumers of empirical research.

ECON 612 - ENERGY PROJECT DEVELOPMENT
Short Title: ENERGY PROJECT DEVELOPMENT
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 4
Restrictions: Enrollment is limited to Graduate level students. Enrollment limited to students in a Master of Energy Economics degree.
Course Level: Graduate
Description: This course will cover the development of energy projects, especially electric power projects, from inception through to financing. It examines key issues such as: siting/permitting, including compliance with federal, state and local environmental and regulatory issues; fuel supply agreements; capital cost pricing; off-take agreements; and the various methods of project financing. Microsoft Excel is used for project financial analysis, including revenue and cost modeling, debt management, project net cash flow, project internal rate of return and net present value. The course also will cover strategies to monetize the project including development fees, carried equity, and private and public sale of equity, including initial public offerings ("IPOs").

ECON 613 - INTERNATIONAL TRADE IN ENERGY
Short Title: INTERNATIONAL TRADE IN ENERGY
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 4
Restrictions: Enrollment is limited to Graduate level students. Enrollment limited to students in a Master of Energy Economics degree.
Course Level: Graduate
Description: This course explores the effects of international trade and the determinants of the amount of trade between countries in energy commodities, and the role of international capital flows in financing energy projects, in particular. It will also discuss the many ways that governments can alter international trade through various policies.

ECON 614 - POLITICAL ECONOMY OF OIL IN DEVELOPING COUNTRIES
Short Title: POLITICAL ECONOMY OF OIL
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 4
Restrictions: Enrollment is limited to Graduate level students. Enrollment limited to students in a Master of Energy Economics degree.
Course Level: Graduate
Description: This course evaluates the political and economic determinants of oil and gas policies in developing countries and their impact on world markets, the interaction between states and oil companies, the challenges of oil wealth management, and the causal links between resource dependency, development, institutions, and political regimes. Although the main focus is on oil production, natural gas is also analyzed, and both are compared to other natural resources. Emphasis is on the analysis of institutional change and the functions of institutional change in the energy industry using data-driven methods to examine case studies.

ECON 615 - SOCIAL STUDIES OF ENERGY
Short Title: SOCIAL STUDIES OF ENERGY
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 4
Restrictions: Enrollment is limited to Graduate level students. Enrollment limited to students in a Master of Energy Economics degree.
Course Level: Graduate
Description: Investigate the ways in which energy production and consumption impacts social life. By studying the implementation and use of renewable and non-renewable energy infrastructures in different parts of the world, the students will develop a contextual, self-reflexive and critical lens that will help them make decisions in later stages of their careers.

ECON 620 - INDUSTRIAL ORG & THE ENERGY SECTOR
Short Title: INDUSTRIAL ORG & ENERGY SECTOR
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 4
Restrictions: Enrollment is limited to Graduate level students. Enrollment limited to students in a Master of Energy Economics degree.
Course Level: Graduate
Description: The course will discuss monopoly, oligopoly, and the underlying sources of monopoly power in energy industries and how the industries can be restructured to isolate the monopoly elements from the more competitive ones. Other topics include price discrimination, vertical control, mergers and acquisitions, and strategic behavior between firms.
ECON 621 - THE ECONOMICS OF THE ELECTRICITY INDUSTRY
Short Title: ELECTRICITY INDUSTRY ECONOMICS
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 4
Restrictions: Enrollment is limited to Graduate level students. Enrollment limited to students in a Master of Energy Economics degree.
Course Level: Graduate
Description: Discusses the determinants of the cost of electricity, the effects of organizing the industry in different ways, the need to encourage sufficient investment in reserve capacity, and the use of information technology to allow for new ways of pricing electricity, operating the network and coordinating supply and demand. Students will learn to analyze the behavior of power markets, the effect of different policies, and draw empirical solutions to the real-world issues.

ECON 622 - TRANSPORTATION ECONOMICS
Short Title: TRANSPORTATION ECONOMICS
Department: Economics
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 4
Restrictions: Enrollment is limited to Graduate level students. Enrollment limited to students in a Master of Energy Economics degree.
Course Level: Graduate
Description: Discusses transportation as a major source of energy demand in modern post-industrial economies and of future demands in emerging economies. Emphasizes that the demand for energy use in the transportation sector involves modeling household choices, economic growth and demographic transition, government decisions to support transportation infrastructure development, and the introduction of new technologies. Students will apply problem solving and analytical skills to perform calculations related to transportation energy and its environmental impact.

ECON 677 - SPECIAL TOPICS
Short Title: SPECIAL TOPICS
Department: Economics
Grade Mode: Standard Letter
Course Type: Internship/Practicum, Laboratory, Lecture, Seminar, Independent Study, Lecture/Laboratory
Credit Hours: 1-4
Restrictions: Enrollment is limited to Graduate or Visiting Graduate level students.
Course Level: Graduate
Description: Topics and credit hours vary each semester. Contact department for current semester's topic(s). Repeatable for Credit.

ECON 699 - PRACTICUM
Short Title: PRACTICUM
Department: Economics
Grade Mode: Standard Letter
Course Type: Internship/Practicum
Credit Hours: 4
Restrictions: Enrollment is limited to Graduate level students. Enrollment limited to students in a Master of Energy Economics degree.
Course Level: Graduate
Description: Projects developed by an industry advisory group to be researched and presented to participating industry at completion of all course work. Internships with an approved employer may be substituted. Emphasis on skill building components may include: analyzing data for accuracy and reconciliation across different sources, quantitative analysis and risk assessment of a firm's portfolio of assets and capital investment opportunities, and briefing expert and non-expert audiences.

ECON 700 - DEPARTMENTAL SERVICE COURSE
Short Title: DEPARTMENTAL SERVICE COURSE
Department: Economics
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Independent Study
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: In each semester in which students perform departmental service, they need to register in the departmental service course Econ 700. Students must meet their faculty supervisors as early as possible before the semester starts and regularly during the semester to ensure there is a mutual understanding of the job responsibilities.

ECON 800 - GRADUATE RESEARCH
Short Title: GRADUATE RESEARCH
Department: Economics
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Research
Credit Hours: 1-12
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Assists students in the dissertation writing process. Students must write an independent and original piece of quantitative research that is of sufficient quality to merit publication in an academic economics journal. Towards this objective, faculty mentor evaluate and critique the research of PhD students who are either preparing research before formally selecting a dissertation topic or actively engaged in dissertation research. Repeatable for Credit.

Description and Code Legend
Note: Internally, the university uses the following descriptions, codes, and abbreviations for this academic program. The following is a quick reference:

Course Catalog/Schedule

Master of Energy Economics (MEEcon) Degree

Program Learning Outcomes for the MEEcon Degree

Upon completing the MEEcon degree, students will be able to:

1. Understand and apply basic economic, scientific, political, and statistical principles useful for analyzing and understanding energy markets.
2. Apply quantitative skills, including econometric models and statistical software, to better utilize data to critique, analyze, and report results of industry-related issues and inform strategic decisions.
3. Be better able to communicate insights arising from the economics perspective on issues affecting the energy sector.

Requirements for the MEEcon Degree

The MEEcon degree is a non-thesis master's degree. For general university requirements, please see Non-Thesis Master’s Degrees (p. 75). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 60). Students pursuing the MEEcon degree must complete:

- A minimum of 40 credit hours to satisfy degree requirements.
- A minimum of 40 credit hours of graduate-level study (graduate semester credit hours, coursework at the 500-level or above).
- A minimum of 40 credit hours of graduate-level study (graduate semester credit hours, coursework at the 500-level or above).
- A minimum of 24 graduate semester credit hours must be taken at Rice University.
- A minimum of 24 graduate semester credit hours must be taken at Rice University.
- A minimum residency enrollment of 2 semesters of full-time graduate study at Rice University.
- A minimum of 2 semesters of full-time graduate study at Rice University.
- A minimum overall GPA of 2.67 or higher in all Rice coursework.
- A minimum program GPA of 2.67 or higher in all Rice coursework that satisfies requirements for the non-thesis master's degree.

The courses listed below satisfy the requirements for this degree program. In certain instances, courses not on this official list may be substituted upon approval of the program’s academic advisor, or where applicable, the department or program’s Director of Graduate Studies. Course substitutions must be formally applied and entered into Degree Works by the department or program’s Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/). Additionally, these must be approved by the Office of Graduate and Postdoctoral Studies. Students and their academic advisors should identify and clearly document the courses to be taken.

Elective Requirements ³

Select 3 courses as electives from departmental (ECON) course offerings selected from any course between ECON 605 and ECON 622 (except ECON 606 and ECON 610, which are required)

Total Credit Hours | 40

Footnotes and Additional Information

¹ The summer prior to the student’s first fall semester, an online "Math and Statistics Camp" (hosted by the Economics department and Rice Online Learning) must be successfully completed as a required prerequisite to Core Requirements.

² A practicum or internship is required for completion of the MEEcon professional master’s degree. It can be taken in either the Spring or Summer Session. The practicum will provide students with practical experience relative to the degree. Students will work on projects developed by an industry advisory group. The research will be presented to participating industry advisors at the completion of the degree program. The projects will provide prospective employers with an opportunity to evaluate new talent effectively. As an alternative to the practicum, students may complete an internship with an approved special project with an employer. The internship is meant to last a minimum of 7 weeks and should be directly related to the student’s core area of study in the MEEcon degree program. Spring internships start on the first day of Spring classes.

³ See Proposed Plan-of-Study below. Students may complete either 2 electives in Session II, or complete 1 elective each in both Sessions II and III.

Proposed Plan-of-Study

The MEEcon degree program is completed in 12 months and is organized in four sessions. Sessions I and II correspond to the Fall and Spring semesters, respectively, and follow the standard Rice Academic Calendar (https://registrar.rice.edu/calendars/). Sessions III and IV are two...
consecutive 7-week long sessions that take place during the subsequent summer semester. All courses (including required courses and electives) are graduate-level courses, numbered 500-level and above.

Footnotes and Additional Information

1. A practicum or internship is required for completion of the MEEcon professional master’s degree. It can be taken in either Session II (Spring Semester) or Session IV (Summer II). The practicum will provide students with practical experience relative to the degree. Students will work on projects developed by an industry advisory group. The research will be presented to participating industry advisors at the completion of the degree program. The projects will provide prospective employers with an opportunity to evaluate new talent effectively. As an alternative to the practicum, students may complete an internship with an approved special project with an employer. The internship is meant to last a minimum of 7 weeks and should be directly related to the student’s core area of study in the MEEcon degree program. Spring internships start on the first day of Spring classes.

2. Students may select ECON 699 during one session - either Session II (Spring Semester) or Session IV (Summer II). Because the course is worth 4 credit hours and is only taken once, the total credit hours needed to complete the MEEcon degree is 40 hours.

3. Students must complete a total of 3 courses as electives from departmental (ECON) course offerings selected from any course between ECON 605 and ECON 622 (except ECON 606 and ECON 610, which are required). Students may complete either 2 electives in Session II, or complete 1 elective each in both Sessions II and IV.

Policies for the MEEcon Degree

Department of Economics Graduate Program Handbook

The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, the Department of Economics publishes a graduate program handbook, which can be found here: [https://gradhandbooks.rice.edu/2021_22/Economics_MEECON_Graduate_Handbook.pdf](https://gradhandbooks.rice.edu/2021_22/Economics_MEECON_Graduate_Handbook.pdf)

Admission

Information on admission to the MEEcon program is available on the Economics website ([https://economics.rice.edu/graduate-program/meecon/admissions/](https://economics.rice.edu/graduate-program/meecon/admissions/)). For general university requirements, see Graduate Degrees (p. 57) and Admission to Graduate Study (p. 59).

Transfer Credit

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 70). Some departments and programs have additional restrictions on transfer credit. Students are encouraged to meet with their academic program's advisor when considering transfer credit possibilities.

Program Transfer Credit Guidelines

Students pursuing the MEEcon degree should be aware of the following program-specific transfer credit guidelines:

- No more than 2 courses (6 credit hours) of transfer credit from U.S. or international universities of similar standing as Rice may apply towards the degree.
- Requests for transfer credit will be considered by the program director on an individual case-by-case basis.

Additional Information

For additional information, please see the Economics website: [https://economics.rice.edu/](https://economics.rice.edu/)

Opportunities for the MEEcon Degree

Byron Pope Award

The Byron Pope Award is given to the student who best exemplifies the benefits provided by participation in the Masters in Energy Economics Program.

MEEcon Award for Scholarly Excellence

This award is for superior demonstrated academic excellence in the Master of Energy Economics program courses. This award is supported by a gift from BP.

Additional Information

For additional information, please see the Economics website: [https://economics.rice.edu/](https://economics.rice.edu/)

Engineering Design

Contact Information

Engineering Design

Oshman Engineering Design Kitchen
713-348-OEDK
Z. Maria Oden
Program Co-Chair
Defined simply, Engineering Design is the process of creating a new product or process to meet a defined need while taking into account constraints such as cost, practicality, and safety. The design process begins with creating an open-ended problem statement to address an unmet need. Through careful consideration of existing solutions and other research, students establish goals that the design should meet. Following a period of brainstorming, students select ideas that best meet the design goals. Building and testing technologies is challenging and forces students to apply their ‘book knowledge’ (e.g., equations) to develop a physical or computational solution. A proof-of-concept prototype usually needs extensive revision and testing before it can be manufactured at scale. Throughout the design process, project planning and communication are essential. Because solving engineering challenges is often open-ended, it is very important to give students many opportunities to experience the steps in the process.

The minor in Engineering Design capitalizes on strengths in engineering design at Rice- both innovative and successful engineering design courses and unsurpassed facilities that are available for undergraduate engineering students starting in their freshman year. Students may begin the minor in their freshman year and take courses throughout their duration of undergraduate studies. The skills they gain will complement their academic major and provide a deep understanding and skill set to embark successfully in engineering design careers.

Minors

- Minor in Engineering Design (p. 943)

Engineering Design does not currently offer an academic program at the graduate level.

Undergraduate Minor Description and Code

- Minor in Engineering Design: EDES

CIP Code and Description

1 EDES Minor: CIP Code/Title: 15.1502 - Engineering Design

1 Classification of Instructional Programs (CIP) 2020 Codes and Descriptions from the National Center for Education Statistics: https://nces.ed.gov/ipeds/cipcode/

Minor in Engineering Design

Program Learning Outcomes for the Minor in Engineering Design

Upon completing the minor in Engineering Design, students will be able to:

1. Execute steps of the engineering design process including problem identification, needs assessment, context review, defining design criteria, idea generation, solution selection, iterative prototyping, and testing.

2. Become familiar with other steps of the engineering design process including market assessment, design for manufacturing, field testing, and implementation.

3. Apply technical knowledge from their major within the School of Engineering to solve a design challenge.

4. Develop breadth in design by working on at least two different design projects.

5. Work in multiple teams, filling the role of a team member and a team leader.

6. Apply project planning tools to guide design projects.

7. Communicate effectively their design problems and solutions through written, oral, and visual communication tools to a wide variety of audiences.
8. Become proficient in low and high fidelity physical and digital-based prototyping.

**Requirements for the Minor in Engineering Design**

Students pursuing the minor in Engineering Design must complete:

- A minimum of 6 courses (18 credit hours) to satisfy minor requirements.

Students are encouraged to begin taking courses in the minor during their freshman year, and are encouraged to declare the minor no later than the beginning of their fifth semester.

The courses listed below satisfy the requirements for this minor. In certain instances, courses not on this official list may be substituted upon approval of the minor’s academic advisor, or where applicable, the Program Director. (Course substitutions must be formally applied and entered into Degree Works by the minor’s Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/). Students and their academic advisors should identify and clearly document the courses to be taken.

### Minor Requirements

#### Core Requirements

Select 1 course from the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGI 120</td>
<td>INTRODUCTION TO ENGINEERING DESIGN</td>
<td>3</td>
</tr>
<tr>
<td>ENGI 220</td>
<td>INTRODUCTION TO ENGINEERING DESIGN II</td>
<td>3</td>
</tr>
<tr>
<td>FWIS 188</td>
<td>INTRODUCTION TO ENGINEERING DESIGN AND COMMUNICATION</td>
<td>3</td>
</tr>
<tr>
<td>ENGI 200</td>
<td>ENGINEERING DESIGN STUDIO</td>
<td>3</td>
</tr>
<tr>
<td>ENGI 210</td>
<td>PROTOTYPING AND FABRICATION</td>
<td>3</td>
</tr>
<tr>
<td>ENGI 350</td>
<td>NEEDS IDENTIFICATION AND DESIGN IMPLEMENTATION</td>
<td>3</td>
</tr>
</tbody>
</table>

#### Elective Requirements

Select 2 courses (and a minimum of 6 credit hours) from the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOE 360 / GLHT 360</td>
<td>APPROPRIATE DESIGN FOR GLOBAL HEALTH</td>
<td></td>
</tr>
<tr>
<td>BUSI 221 / ENGI 221</td>
<td>NEW ENTERPRISES</td>
<td></td>
</tr>
<tr>
<td>BUSI 463</td>
<td>ENTREPRENEURIAL STRATEGY</td>
<td></td>
</tr>
<tr>
<td>CEVE 314 / BIOE 365 / GLHT 314</td>
<td>SUSTAINABLE WATER PURIFICATION FOR THE DEVELOPING WORLD</td>
<td></td>
</tr>
<tr>
<td>CHBE 490</td>
<td>CHEMICAL CAR ENGINEERING AND DESIGN</td>
<td></td>
</tr>
<tr>
<td>ELEC 327</td>
<td>IMPLEMENTATION OF DIGITAL SYSTEMS</td>
<td></td>
</tr>
</tbody>
</table>

### Additional Requirement

Students must participate in at least two different design projects during their undergraduate experience.

#### Footnotes and Additional Information

1. With minor advisor approval, students may also complete departmental design courses or project-based courses, excluding capstone or final-year design coursework, to satisfy the Electives Requirement.
2. With minor advisor approval, students may receive a maximum of 3 credit hours for ELEC 491.
3. The design projects requirement is in place to ensure that students have some breadth in their practice of design. This can be satisfied by a project completed while taking the courses listed in the Electives Requirement and/or a capstone design course. Note that while a capstone design course may be required by the student’s major (e.g., BIOE 451 and BIOE 452, MECH 407 and MECH 408, ELEC 494, etc.) that capstone design course may NOT count as an elective in the Engineering Design minor. However, a project completed in these major-required courses may count as a second design project for this minor. For example, a student may work on one project in ENGI 120 and ENGI 200 and then a second project in the major-required capstone course, such as CHBE 404. ENGI 120 and ENGI 200 may be used to count toward minor requirements, whereas CHBE 404 would not count toward the minor requirements. However, the projects completed in ENGI 120, ENGI 200, and CHBE 404 could be used to fulfill the design projects requirement. Please see the minor advisor regarding the design projects requirement.

### Policies for the Minor in Engineering Design

#### Admission

Rice students who are pursuing a B.A. or B.S. degree in the School of Engineering are best prepared to pursue the minor in Engineering Design. Many courses that can be applied towards the minor requirements are open to all Rice students, including those not pursuing the minor in Engineering Design. For ENGI 200 and ENGI 300, students must explain their interest and reasons for taking the course in order to gain instructor permission. Preferential admission will be given to students who indicate they are seeking to complete the minor in Engineering Design.
Program Restrictions and Exclusions
Students pursuing the minor in Engineering Design should be aware of the following program restriction:

- As noted in Majors, Minors, and Certificates (p. 17), i.) students may declare their intent to pursue a minor only after they have first declared a major, and ii.) students may not major and minor in the same subject.

Transfer Credit
For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 37). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

Program Transfer Credit Guidelines
Students pursuing the minor in Engineering Design should be aware of the following program-specific transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program's official transfer credit advisor) on an individual case-by-case basis.

Additional Information
For additional information, please see the Engineering Design website: http://oedk.rice.edu/minor (http://oedk.rice.edu/minor/)

Opportunities for the Minor in Engineering Design
Academic Honors
The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 51) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 51). Some departments have department-specific Honors awards or designations.

Additional Information
For additional information, please see the Engineering Design website: http://oedk.rice.edu/minor (http://oedk.rice.edu/minor/)

Executive Director

kazimir.i.karwowski@rice.edu

The mission of the Rice Center for Engineering Leadership (RCEL) is to educate and develop and inspire Rice Engineers to become ethical leaders in technology who will excel in research, industry, enabling (non-engineering) career paths, or bold entrepreneurship. RCEL programming enhances traditional undergraduate education by developing skills that are not expressly covered by the traditional curricula from the School of Engineering. Ultimately, the goal of the Certificate in Engineering Leadership is to equip engineering students with the critical technical, communication, and leadership skills necessary to succeed and excel professionally.

The Certificate in Engineering Leadership is designed to familiarize undergraduate students with key leadership concepts and allow them to practice the skills necessary to function effectively in a variety of leadership roles in a global and national economy within a workplace, which is often increasingly diverse and multi-cultural. Through coursework, extracurricular activities, internship support, and community events, the Certificate in Engineering Leadership lays a foundation for leadership advancement within 3-5 years of graduation while also teaching students to envision their career impact beyond the 10-year horizon. RCEL programming covers a range of important competency domains, including such topics as creative problem solving, conflict resolution, developing self-awareness, setting goals, project management, oral/written communication, teamwork, and ethics.

At the graduate level the Professional Master's in Engineering Management and Leadership (MEML) allows engineers to plan their career path within a company along the engineering management and leadership track helping fulfill both organizational and personal goals. MEML programming covers a range of important competency domains, including such topics as creative problem solving, conflict resolution, engineering project management, oral/written communication, and advanced technical teamwork. Engineering management covers the gap between engineering and management, namely the combination of technical decision making with analytical skills, optimization capabilities, and technical product development.

Certificate
- Certificate in Engineering Leadership (p. 950)

Master's Program
- Master of Engineering Management and Leadership (MEML) Degree (p. 952)
- Master of Engineering Management and Leadership (MEML) Degree Online Program (p. 955)

Faculty Director
C. Fred Higgs, III, John and Ann Doerr Professor of Mechanical Engineering

Executive Director
Kazimir I. Karwowski

Professors in the Practice
James P. Hennessy
Sergio D. Kapusta
Tom Phalen
Lecturers
Kazimir I. Karwowski
Jerlyn Mardis
Gayle M. Moran
Elizabeth O’Sullivan
Germaine Porche
George Webb
Ebony Wiley

For Rice University degree-granting programs:
To view the list of official course offerings, please see Rice's Course Catalog (https://courses.rice.edu/admweb/ISWKSCAT.cat?p_action=cata)
To view the most recent semester's course schedule, please see Rice's Course Schedule (https://courses.rice.edu/admweb/ISWKSCAT.cat)

Rice Center for Engineering Leadership (RCEL)
RCEL 100 - SELF-AWARENESS AND THE ENGINEERING LEADER
Short Title: SELF-AWARENESS & THE ENGINEER
Department: Center Engineering Leadership
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 2
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: The purpose of this course is to prepare students to become future leaders. Engineering leadership is an emerging innovation in both education and practice and our course will prepare students to begin their development journey toward this goal. Mutually Exclusive: Cannot register for RCEL 100 if student has credit for ENGI 140/ENGI 218.

RCEL 200 - PERSONAL DEVELOPMENT FOR THE ENGINEERING LEADER
Short Title: PERSONAL DEVELOPMENT ENG LEADR
Department: Center Engineering Leadership
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 2
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: The purpose of this course is to prepare students to be future leaders. Engineering leadership is an emerging innovation in both education and practice and our course will prepare students to begin their development journey toward this goal. Mutually Exclusive: Cannot register for RCEL 100 if student has credit for ENGI 140/ENGI 218.

RCEL 238 - SPECIAL TOPICS
Short Title: SPECIAL TOPICS
Department: Center Engineering Leadership
Grade Mode: Standard Letter
Course Type: Internship/Practicum, Laboratory, Lecture, Seminar, Independent Study
Credit Hours: 1-4
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Topics and credit hours may vary each semester. Contact department for current semester's topic(s). Repeatable for Credit.

RCEL 241 - INTERNSHIP PRACTICUM FOR ENGINEERING LEADERSHIP
Short Title: INTERNSHIP PRACTICUM FOR ENGI
Department: Center Engineering Leadership
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Internship/Practicum
Credit Hours: 0-1
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: RCEL 241 is an applied practicum and internship course that provides guided career and professional development for engineering students in a real-world industrial, academic, research, or other professional context. It prepares students to assimilate quickly and to exceed employer expectations during their internships. This course offers variable credit (0 or 1 credit). If you choose to take the course for 1 credit, you must indicate your intent with the instructor upon registration. Mutually Exclusive: Cannot register for RCEL 241 if student has credit for ENGI 241. Repeatable for Credit.

RCEL 300 - DEVELOPMENT OF HIGH PERFORMING ENGINEERING TEAMS
Short Title: DEVELOPMENT OF HIGH PERFORMING
Department: Center Engineering Leadership
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 2
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): RCEL 200
Description: The purpose of this course is to prepare students for engineering leadership and followership roles in engineering contexts. This course is required for our school's certificate engineering leadership and includes a focus on practical skills and how these skills can be learned, developed, and applied in team situations. Mutually Exclusive: Cannot register for RCEL 300 if student has credit for ENGI 219/ENGI 315.
RCEL 400 - LEADING HIGH PERFORMING ENGINEERING TEAMS

Short Title: LEADING HIGH PERFORMING ENGINE

Department: Center Engineering Leadership

Grade Mode: Standard Letter

Course Type: Lecture/Laboratory

Credit Hours: 2

Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.

Course Level: Undergraduate Upper-Level

Prerequisite(s): RCEL 300

Description: This course develops skills that are required for enterprise wide leadership positions. Topics include: managing and leveraging diversity, creative problem solving through intersectional thinking, ethical issue identification and resolution, risk management, performance management, development and communication of an enterprise wide vision, and development of a change management plan. Mutually Exclusive: Cannot register for RCEL 400 if student has credit for ENGI 219/ENGI 315.

RCEL 410 - ENGINEERING LAUNCH PAD-RESEARCH

Short Title: ENG LAUNCH PAD-RESEARCH

Department: Center Engineering Leadership

Grade Mode: Standard Letter

Course Type: Lecture/Laboratory

Credit Hour: 1

Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.

Course Level: Undergraduate Upper-Level

Prerequisite(s): ENGI 100

Description: RCEL 410 is one of four RCEL courses intended to jump-start the next steps for aspiring engineering leaders. The other courses deal with industry, Alternative Pathways, and Entrepreneurship, while RCEL 410 is focused on developing an understanding of leadership principles applicable in a Research environment. Students will gain insights into managing ethical dilemmas, developing communication strategies, creating a vision and goals, and project management in either an undergraduate or graduate student level engineering discipline. Research in academia, government labs, and industry will be compared and contrasted.

RCEL 420 - ENGINEERING LAUNCH PAD-INDUSTRY

Short Title: ENGINEERING LAUNCH PAD-INDUST

Department: Center Engineering Leadership

Grade Mode: Standard Letter

Course Type: Lecture/Laboratory

Credit Hour: 1

Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.

Course Level: Undergraduate Upper-Level

Prerequisite(s): RCEL 300

Description: The purpose of this course is to prepare students for engineering leadership and followership roles in an industry context. This course is required for our school's certificate in engineering leadership and includes a focus on the practical skills needed to thrive in an industry environment.

RCEL 430 - ENGINEERING LAUNCH PAD-NON-ENGINEERING PATHWAYS

Short Title: ENGINEERING LAUNCH PAD-PATHWAY

Department: Center Engineering Leadership

Grade Mode: Standard Letter

Course Type: Lecture/Laboratory

Credit Hour: 1

Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.

Course Level: Undergraduate Upper-Level

Description: Engineering students explore alternative professional paths, including policy, law, medicine, industry consulting, and other viable career options beyond industry and research. Students will identify a focus career track and complete a series of assignments designed to increase familiarity and competency in that discipline. Graduate/Undergraduate Equivalency: RCEL 530.

RCEL 436 - INTRODUCTION TO PATENTS AND INTELLECTUAL PROPERTY FOR FUTURE ENGINEERING LEADERS

Short Title: INTRO TO PATENTS & INTELL PROP

Department: Center Engineering Leadership

Grade Mode: Standard Letter

Course Type: Lecture

Credit Hour: 1

Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.

Course Level: Undergraduate Upper-Level

Description: RCEL 436 introduces undergraduate students to the fundamentals of intellectual property. Through class discussion, assignments, and guest speakers, the course provides a foundation for recognizing, evaluating, and leveraging IP opportunities and limitations in both research and industry, and thus equips students for the many encounters with IP that are likely to occur in their careers. Graduate/Undergraduate Equivalency: RCEL 536.

RCEL 440 - ENGINEERING LAUNCH PAD-ENTREPRENEURSHIP

Short Title: ENGINEERING LAUNCH PAD-ENTREPR

Department: Center Engineering Leadership

Grade Mode: Standard Letter

Course Type: Lecture/Laboratory

Credit Hour: 1

Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.

Course Level: Undergraduate Upper-Level

Description: This course will focus on identifying the value proposition a potential venture has for a specific customer segment, and who those customers are and why. Students will be forced to “get out of the building” and interview potential customers to help refine their assumptions based on data. The goal is to help the teams create a scalable and repeatable business model for their venture.
RCEL 450 - ENGINEERING PROJECT MANAGEMENT AND LEADERSHIP
ACTION LEARNING
Short Title: PROJECT MANAGEMENT AND LEADERSHIP
Department: Center Engineering Leadership
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 2
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: RCEL 450 combines project management and a practicum experience allowing students to practice leadership skills in an applied context utilizing a project. During the semester, each student will serve in a primary leadership capacity for a project. In addition to facilitating the project management of the project, each student will participate in an individualized action learning based model of leadership. Mutually Exclusive: Cannot register for RCEL 450 if student has credit for ENGI 317.

RCEL 477 - SPECIAL TOPICS
Short Title: SPECIAL TOPICS
Department: Center Engineering Leadership
Grade Mode: Standard Letter
Course Type: Internship/Practicum, Seminar, Lecture, Laboratory
Credit Hours: 1-4
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Topics and credit hours may vary each semester. Contact department for current semester's topic(s). Repeatable for Credit.

RCEL 501 - ENGINEERING MANAGEMENT & LEADERSHIP THEORY AND
APPLICATION
Short Title: ENGINEERING MGMT & LEADERSHIP
Department: Center Engineering Leadership
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Technology-based innovation is the grand driver of economic progress, which hinges on strong technical leadership guiding engineering teams in mid-to-large corporate organizations and startup to small companies. By surveying and learning about the different type of EML approaches, this course outlines a framework for engineering professionals to progress from engineering manager to engineering executive (e.g., Vice President of Engineering, Chief Technology Officer). Practical methods from the engineering management literature that addresses technology-based innovation issues that have engineering management implications will be introduced. Seminal technology management principles, such as disruptive innovation, leaderless technology development, and digital platform strategy, found in companies ranging in size from start-up to large, will be examined.

RCEL 502 - ENGINEERING PROJECT MANAGEMENT
Short Title: ENGINEERING PROJECT MANAGEMENT
Department: Center Engineering Leadership
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Engineering Project Management is targeted for young professionals with 0 to 5 years experience. Content will provide instruction on the tools, techniques, and leadership characteristics required to successfully execute a project. The course will address the phases of project execution—initiating, planning, executing, monitoring and controlling, and closing. The course is designed to use a combination of video presentations, case studies, and project related exercises.

RCEL 503 - ENGINEERING PRODUCT MANAGEMENT IN INDUSTRY 4.0
Short Title: ENGINEERING PRODUCT MANAGEMENT
Department: Center Engineering Leadership
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: The fourth and latest industrial revolution, Industry 4.0, is comprised of intelligent automated machines and devices being developed by unconstrained manufacturing technologies (e.g., 3D printing), which can give them unprecedented sensing and communication capabilities. The internet of things (machines and sensors and the 'big data' they output) is creating new avenues for the remote collection of data from these new products. Engineering leaders will have a unique opportunity to guide engineering teams to create products that can leverage and evolve based on data from the supply chain to customer usage.

RCEL 504 - ETHICAL-TECHNICAL LEADERSHIP
Short Title: ETHICAL-TECHNICAL LEADERSHIP
Department: Center Engineering Leadership
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Technology-based companies are powered by teams of engineers who create products and services that create value and competitive advantages for organizations that can turn into profits. However, the matrices of technical and user related decision paths that engineering leaders make to guide the team are not always constrained by ethics in a formal way. This course will help students understand the impact of ethics on engineering and technology in order to apply ethics concepts to decision making on issues that emerge in the workplace during one's career.
RCEL 505 - ENGINEERING ECONOMICS FOR LEADERS
Short Title: LEADING ENGINEERING ECONOMICS
Department: Center Engineering Leadership
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course will explore economic analysis of capital expenditure decisions, financial mathematics, microeconomics, and decision-making under risk and uncertainty. Topics covered in this course include time value of money, analysis of alternatives using net present value and internal rate of return, depreciation, taxes, and inflation. Computational approaches, such as probabilistic design in engineering designs, which connect randomly varying design parameters to economic impact, will sometimes be considered based on course composition. Engineering ethics case studies that involve engineering economics will be explored as well. Mutually Exclusive: Cannot register for RCEL 505 if student has credit for CEVE 322/CEVE 528/ENGI 303/ENGI 528.

RCEL 506 - APPLIED STATISTICS AND DATA SCIENCE FOR ENGINEERING LEADERS
Short Title: STATS & DATA FOR ENGINEERS
Department: Center Engineering Leadership
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Modern engineering leaders face myriad projects and problems that involve the generation, collection, analysis, visualization and interpretation of data, much of which is now known as big data (upwards of millions of observations) and/or high-dimensional (upwards of millions of variables). In turn, engineering leaders must be able to leverage the abundance of data to generate new knowledge and be proficient in data-driven decision making. This course will provide a foundation in statistics and data science with a view toward preparing engineering leaders to engage and direct teams in data based solutions to engineering problems.

RCEL 507 - MASTER’S IN ENGINEERING MANAGEMENT AND LEADERSHIP CAPSTONE
Short Title: MEML CAPSTONE
Department: Center Engineering Leadership
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course represents the capstone of the MEML program. It is a project-based and discussion-based course where students develop economically-sustainable, technological solutions to society’s most complex grand challenges using the methods and competencies taught in the MEML program. Students are expected to devise Industry 4.0 relevant solutions, with mechanisms for continuous learning and improving the solution from end-user data, while bounding all approaches with a demonstrable ethical-technical framework.

RCEL 530 - ENGINEERING LAUNCH PAD-NON-ENGINEERING PATHWAYS
Short Title: ENGINEERING LAUNCH PAD-PATHWAY
Department: Center Engineering Leadership
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hour: 1
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Engineering students explore alternative professional paths, including policy, law, medicine, industry consulting, and other viable career options beyond industry and research. Students will identify a focus career track and complete a series of assignments designed to increase familiarity and competency in that discipline. Graduate/Undergraduate Equivalency: RCEL 430.

RCEL 536 - INTRODUCTION TO PATENTS AND INTELLECTUAL PROPERTY FOR FUTURE ENGINEERING LEADERS
Short Title: INTRO TO PATENTS & INTELL PROP
Department: Center Engineering Leadership
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hour: 1
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: RCEL 536 introduces graduate (non-law) students to the fundamentals of intellectual property. Through class discussion, assignments, and guest speakers, the course provides a foundation for recognizing, evaluating, and leveraging IP opportunities and limitations in both research and industry, and thus equips students for the many encounters with IP that are likely to occur in their careers. Graduate/Undergraduate Equivalency: RCEL 436.

RCEL 610 - ETHICS FOR ENGINEERS
Short Title: ETHICS FOR ENGINEERS
Department: Center Engineering Leadership
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Course Level: Graduate
Description: Engineers can encounter a variety of ethical issues and dilemmas in fulfilling their professional responsibilities. Ethical problems can be considered somewhat analogous to engineering design problems: both involve significant complexities, high degrees of uncertainty, a number of boundary conditions and constraints, conformance with criteria, identification and evaluation of alternatives responses, and deciding on the best solution or action. This course will prepare engineering students to understand the ethical issues related to their profession, analyze the various options and alternative course of actions, and implement the solutions to their ethical problems.
Certificate in Engineering Leadership

Program Learning Outcomes for the Certificate in Engineering Leadership

Upon completing the certificate in Engineering Leadership, students will be able to:

1. Communicate Effectively: Apply effective oral, written, and interpersonal communication strategies.
2. Make Timely Decisions: Apply analytical and creative problem solving to deliver timely solutions based on the information at hand.
3. Work on Teams: Understand and analyze team dynamics to empower those around them to be successful in accomplishing team goals.
4. Manage Projects: Demonstrate knowledge of the basic tools and techniques to deliver projects on-time, on budget and within scope.
6. Create a Vision: Develop a clear vision that sets future personal and team direction.
7. Apply Ethics and Analyze Values: Analyze personal and organizational values and apply ethics concepts to their own decision-making.

Requirements for the Certificate in Engineering Leadership

Students pursuing the certificate in Engineering Leadership must complete:

- A minimum of 7 courses (11-13 credit hours, depending on course selection) to satisfy certificate requirements.
- A Leadership Development Plan.
- An Engineering Internship.
- An Engineering Launch Pad Requirement.
- A Senior Leadership Portfolio and Presentation.
- A minimum overall GPA of 2.00 in required coursework with a minimum grade of C (2.00 grade points) in each course.

No credit hours counted toward the student's major or minor degree requirements can be applied toward the certificate. Only declared Engineering majors are eligible for the certificate and are required to formally declare their intention to pursue the certificate within their first two years at Rice.

This certificate is not a freestanding degree program; in addition to fulfilling the certificate requirements outlined below, candidates will be required to complete successfully the degree program to which they have been admitted in order to receive this certificate. Upon completion, the certificate is awarded at the same time as the conferral of the student's Rice degree, along with a formal notation on their academic transcript.

The courses listed below satisfy the requirements for this certificate. In certain instances, courses not on this official list may be substituted upon approval of the certificate's academic advisor, or where applicable, the Program Director. (Course substitutions must be formally applied and entered into Degree Works by the certificate’s Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/).) Students and their academic advisors should identify and clearly document the courses to be taken.

RCEL 200  PERSONAL DEVELOPMENT FOR THE ENGINEERING LEADER  2
RCEL 300  DEVELOPMENT OF HIGH PERFORMING ENGINEERING TEAMS  2
RCEL 400  LEADING HIGH PERFORMING ENGINEERING TEAMS  2

Leadership Development Plan  
Engineering Internship  
RCEL 241  INTERNSHIP PRACTICUM FOR ENGINEERING LEADERSHIP  0-1

Engineering Launch Pad Requirement  
Select 1 course from the following:  1-2
RCEL 410  ENGINEERING LAUNCH PAD-RESEARCH
RCEL 420  ENGINEERING LAUNCH PAD-INDUSTRY
RCEL 430  ENGINEERING LAUNCH PAD-NON-ENGINEERING PATHWAYS
RCEL 440  ENGINEERING LAUNCH PAD-entrepreneurship

Leadership Action Learning  
RCEL 450  ENGINEERING PROJECT MANAGEMENT AND LEADERSHIP ACTION LEARNING  2

Senior Leadership Portfolio and Presentation  
Total Credit Hours  11-13

Footnotes and Additional Information
1 The purpose of the Development Plan is to understand one’s personal leadership capabilities, synthesize the “lessons learned” from experiences, and use experience to manage the development of the capabilities needed to become an engineering leader.
2 The certificate in Engineering Leadership requires all students to participate in a qualifying summer internship, ideally after the sophomore year. To receive credit for the internship experience, students enroll in RCEL 241 Internship Practicum for Engineering Leadership.
3 The certificate program culminates in the creation of a comprehensive Leadership Portfolio, which documents the personal, academic, and professional growth of the student over the course of their time in the program. Each student must also deliver a final Senior Leadership Presentation that synthesizes and expands upon the information included in the Leadership Portfolio.

Additional Recommended Courses  
The following courses are not required to complete the certificate in Engineering Leadership, but are highly recommended:  

<table>

Policies for the Certificate in Engineering Leadership  
Program Restrictions and Exclusions  
Students pursuing the certificate in Engineering Leadership should be aware of the following program restriction:
- As noted in Majors, Minors, and Certificates (p. 17), students may declare their intent to pursue a university certificate only after they have first declared a major.
- No credit hours counted toward a student’s major or minor degree requirements can be applied toward the certificate in Engineering Leadership.
- Only declared Engineering majors are eligible for the certificate and are required to declare formally their intention to pursue the certificate within their first two years at Rice.

Transfer Credit  
For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 37). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Program Transfer Credit Guidelines  
Students pursuing the certificate in Engineering Leadership should be aware of the following program-specific transfer credit guidelines:
- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

Additional Information  
For additional information, please see the Engineering Leadership website: https://www.rcelconnect.org/

Opportunities for the Certificate in Engineering Leadership  
Academic Honors  
The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (p. 51) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 51). Some departments have department-specific Honors awards or designations.

Additional Information  
For additional information, please see the Engineering Leadership website: https://www.rcelconnect.org/
Master of Engineering Management and Leadership (MEML) Degree

Program Learning Outcomes for the MEML Degree

Upon completing the MEML degree, students will be able to:

1. Employ ethical-technical decision making; understand the susceptibility of engineering teams and organizations to ethical failure and devise creative technical solutions that are constrained by ethics-based boundaries.
2. Lead and manage engineering teams; excel at hybrid communications (i.e. to both technical and non-technical persons), managing projects, leading engineering teams, and inspiring people.
3. Evaluate the economic viability of technology products and ideas; apply key principles of engineering entrepreneurship to determine if a technical product or idea is valuable and economically viable.
4. Solve advanced engineering problems; have a graduate-level understanding of key disciplinary engineering courses. Engineering leaders will lead teams of engineers in a way that leverages the varying degrees of engineering training, from the undergraduate to graduate level. They should have a fundamental understanding and appreciation for the deeper technical skills that graduate-level engineers add to a team.

Requirements for the MEML Degree

The MEML degree is a non-thesis master's degree. For general university requirements, please see Non-Thesis Master’s Degrees (p. 75). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 60). Students pursuing the MEML degree must complete:

- A minimum of 10 courses (30-32 credit hours, depending on course selection) to satisfy degree requirements.
- A minimum of 30 credit hours of graduate-level study (graduate semester credit hours, coursework at the 500-level or above).
- A minimum of 24 graduate semester credit hours must be taken at Rice University.
- A minimum of 24 graduate semester credit hours must be taken in standard or traditional courses (with a course type of lecture, seminar, laboratory, lecture/laboratory).
- A minimum residency enrollment of one fall or spring semester of part-time graduate study at Rice University.
- A maximum of 6 credit hours from graduate semester credit hours as transfer credit. For additional program guidelines regarding transfer credit, see the Policies tab.
- The requirements for one area of specialization (see below for areas of specialization). The MEML degree program offers ten areas of specialization:
  - Bioengineering (p. 953), or
  - Chemical and Biomolecular Engineering (p. ), or
  - Civil and Environmental Engineering (p. ), or
  - Computational and Applied Mathematics (p. ), or
  - Computer Science (p. ), or
  - Data Science (p. ), or
  - Electrical and Computer Engineering (p. ), or
  - Materials Science and Engineering (p. ), or
  - Mechanical Engineering (p. ), or
  - Statistics (p. 954).

Students in the MEML degree program and in either of the two cohorts (on-campus or online) will be allowed to take up to 3 courses (9 credit hours) in the other modality (online or on-campus) with permission from the Engineering Management and Leadership Program Advisor.

The courses listed below satisfy the requirements for this degree program. In certain instances, courses not on this official list may be substituted upon approval of the program's academic advisor, or where applicable, the department or program's Director of Graduate Studies. Course substitutions must be formally applied and entered into Degree Works by the department or program’s Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier). Additionally, these must be approved by the Office of Graduate and Postdoctoral Studies. Students and their academic advisors should identify and clearly document the courses to be taken.

Area of Specialization

Select 1 from the following Areas of Specialization (see Areas of Specialization below): 1

- Bioengineering
- Chemical and Biomolecular Engineering
- Civil and Environmental Engineering
- Computational and Applied Mathematics
- Computer Science
- Data Science
- Electrical and Computer Engineering
- Materials Science and Engineering
- Mechanical Engineering
- Statistics

Capstone Requirement
RICE UNIVERSITY
RCEL 507
MASTER'S IN ENGINEERING MANAGEMENT AND LEADERSHIP CAPSTONE

Total Credit Hours 30-32

Footnotes and Additional Information
1 Select 3 courses (9-11 credit hours, depending on course selection) from courses offered by the George R. Brown School of Engineering (or from an engineering-centered focus area) as an Area of Specialization to provide technical depth. Courses offered by the George R. Brown School of Engineering include the following: BIOE, CAAM, CEVE, CHBE, COMP, DSCI, ELEC, ENGI, GLHT, INDE, MECH, MSNE, RCEL, SSPB, or STAT. Engineering-centered focus areas (such as Data Science) or student-designed areas of specialization may also be approved. Departmental approval is required for areas of specialization. See below for typically approved areas of specialization.

Areas of Specialization
Students must complete a minimum of 3 courses (9-11 credit hours, depending on course selection) from one of the following typically approved Areas of Specialization or from a student-designed Area of Specialization. Department approval is required for areas of specialization.

Area of Specialization: Bioengineering

Committee by each program’s deadline outlined above. When completing the online application, candidates will be asked to due by October 30 for spring admission and April 30 for fall admission. Applications for the Engineering Management and Leadership degree are both programs.

program cohort or the other. The admission standards are the same for campus or online MEML degree program and are admitted into one an on-campus and online option. Students must apply to either the on-

committees will evaluate the previous academic record and credentials of each applicant individually, and will make all admissions decisions.

Admission to graduate study in Engineering Management and Leadership is open to qualified students holding a BS or a BA degree in a quantitative field from an accredited institution. The MEML degree governing committee will evaluate the previous academic record and credentials of each applicant individually, and will make all admissions decisions.

The MEML degree program exists as two distinct offerings, with both an on-campus and online option. Students must apply to either the on-campus or online MEML degree program and are admitted into one program cohort or the other. The admission standards are the same for both programs.

Applications for the Engineering Management and Leadership degree are due by October 30 for spring admission and April 30 for fall admission. When completing the online application, candidates will be asked to submit the following items electronically to the Graduate Admissions Committee by each program’s deadline outlined above.

- Transcripts from all undergraduate and graduate schools attended.
- All student applicants must upload an unofficial transcript to the application and also send an official copy of their transcripts.
- A Statement of Purpose is required for all applicants. This statement should clearly and succinctly summarize the applicant’s past academic and professional experience and achievements, discuss their motivation for seeking the MEML degree, and explain or articulate their future goals. The applicant should also briefly discuss any other factors they might want the Admission Committee to consider while reviewing their application (e.g., personal background, work experience, leadership roles, etc.).
- At least three letters of recommendation should be requested from at least three individuals, preferably professors, research advisors, or direct supervisors, who are familiar with the applicant’s technical skills in engineering, science, or computer science. An applicant may submit more than three letters of recommendation, but no less than three must be submitted with their application.
- Graduate Record Examination (GRE) scores are optional for all applicants. If an applicant has relevant industrial experience, the Admissions Committee will factor in work experience and the recommendation of the applicant’s current supervisor in lieu of any GRE scores when evaluating the application. Furthermore, at least one of the recommendation letters must be from a supervisor and should speak to the applicant’s technical and communication proficiency/ability and any relevant industrial experience should be highlighted in the applicant’s resume. If taking the GRE, applicants should have their scores sent directly to Rice University using code: 6609 (GRE subject tests are not required).
- TOEFL/IELTS scores are required for all international students that have not conferred a degree from an English-speaking University. The code to send the electronic scores is: 6609
  - TOEFL score, the minimum is 90 on the iBT and 600 on the paper-based TOEFL.
  - IELTS score, the minimum is 7.
- This requirement is automatically waived for eligible applicants who upload their transcript from an English-speaking University into this application showing a degree in-progress or conferred.
- CV/Resume - applicants should upload their most current Curriculum Vitae or Resume.
- The application fee of $85. The fee can be paid either by credit card or electronic check. At this time, the Rice Center for Engineering Leadership is not considering application fee waivers. Payment of the application fee cannot be deferred until time of enrollment. The application will be processed only when the application fee has been received.

Financial Aid
- No financial aid is available from Rice University for students in the MEML degree program.

Transfer Credit
For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 70). Some departments and programs have additional restrictions on transfer credit. Students are encouraged to meet with their academic program’s advisor when considering transfer credit possibilities.

Program Transfer Credit Guidelines
Students pursuing the MEML degree should be aware of the following program-specific transfer credit guidelines:

- No more than 6 credit hours from another U.S. or international universities of similar standing as Rice may apply towards the degree. Transfer coursework must be comparable in content and depth to the corresponding course at Rice, and must not have counted toward another degree.
- Requests for transfer credit will be considered by the Engineering Management and Leadership Graduate Committee Chair and the instructor of the equivalent Rice course.

Additional Information
- For additional information, please see the Engineering Leadership website: https://www.rcelconnect.org/

Master of Engineering Management and Leadership (MEML) Degree, Online Program

Program Learning Outcomes for the MEML Degree
Upon completing the MEML degree, students will be able to:

1. Employ ethical-technical decision making; understand the susceptibility of engineering teams and organizations to ethical failure and devise creative technical solutions that are constrained by ethics-based boundaries.
2. Lead and manage engineering teams; excel at hybrid communications (i.e. to both technical and non-technical persons), managing projects, leading engineering teams, and inspiring people.
3. Evaluate the economic viability of technology products and ideas; apply key principles of engineering entrepreneurship to determine if a technical product or idea is valuable and economically viable.
4. Solve advanced engineering problems; have a graduate-level understanding of key disciplinary engineering courses. Engineering leaders will lead teams of engineers in a way that leverages the varying degrees of engineering training, from the undergraduate to graduate level. They should have a fundamental understanding and appreciation for the deeper technical skills that graduate-level engineers add to a team.

Requirements for the MEML Degree, Online Program

Requirements for the MEML Degree
The MEML degree is a non-thesis master’s degree. For general university requirements, please see Non-Thesis Master’s Degrees (p. 75). For additional requirements, regulations, and procedures for all graduate requirements, please see All Graduate Students (p. 60). Students pursuing the MEML degree must complete:

- A minimum of 10 courses (30-32 credit hours, depending on course selection) to satisfy degree requirements.
- A minimum of 30 credit hours of graduate-level study (graduate semester credit hours, coursework at the 500-level or above).
- A minimum of 24 graduate semester credit hours must be taken at Rice University.
- A minimum of 24 graduate semester credit hours must be taken in standard or traditional courses (with a course type of lecture, seminar, laboratory, lecture/laboratory).
- A minimum residency enrollment of one fall or spring semester of part-time graduate study at Rice University.
- A maximum of 6 credit hours from graduate semester credit hours as transfer credit. For additional program guidelines regarding transfer credit, see the Policies tab.
- The requirements for one area of specialization (see below for areas of specialization). The MEML degree program offers ten areas of specialization:
  - Bioengineering (p. 956), or
  - Chemical and Biomolecular Engineering (p. 957), or
  - Civil and Environmental Engineering (p. 958), or
  - Computational and Applied Mathematics (p. 959), or
  - Computer Science (p. 960), or
  - Data Science (p. 961), or
  - Electrical and Computer Engineering (p. 962), or
  - Materials Science and Nanoengineering (p. 963), or
  - Mechanical Engineering (p. 964), or
  - Statistics (p. 957).

- A minimum overall GPA of 2.67 or higher in all Rice coursework.
- A minimum program GPA of 3.00 or higher in all Rice coursework that satisfies requirements for the non-thesis master’s degree.

Students in the MEML degree program and in either of the two cohorts (on-campus or online) will be allowed to take up to 3 courses (9 credit hours) in the other modality (online or on-campus) with permission from the Engineering Management and Leadership Program Advisor.

The courses listed below satisfy the requirements for this degree program. In certain instances, courses not on this official list may be substituted upon approval of the program’s academic advisor, or where applicable, the department or program’s Director of Graduate Studies. Course substitutions must be formally applied and entered into Degree Works by the department or program’s Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/). Additionally, these must be approved by the Office of Graduate and Postdoctoral Studies. Students and their academic advisors should identify and clearly document the courses to be taken.

Admissions Committee will factor in work experience and the recommendation of the applicant’s current supervisor in lieu of any GRE scores when evaluating the application. Furthermore, at least one of the recommendation letters must be from a supervisor and should speak to the applicant’s technical and communication promise/ability and any relevant industrial experience should be highlighted in the applicant’s resume. If taking the GRE, applicants should have their scores sent directly to Rice University using code: 6609 (GRE subject tests are not required).

- TOEFL/IELTS scores are required for all international students that have not conferred a degree from an English-speaking University. The code to send the electronic scores is: 6609
  - TOEFL score, the minimum is 90 on the iBT and 600 on the paper-based TOEFL.
  - IELTS score, the minimum is 7.
- This requirement is automatically waived for eligible applicants who upload their transcript from an English-speaking University into this application showing a degree in-progress or conferred.
- CV/Resume - applicants should upload their most current Curriculum Vitae or Resume.
- The application fee of $85. The fee can be paid either by credit card or electronic check. At this time, the Rice Center for Engineering Leadership is not considering application fee waivers. Payment of the application fee cannot be deferred until time of enrollment. The application will be processed only when the application fee has been received.

Financial Aid

- No financial aid is available from Rice University for students in the MEML degree program.

Transfer Credit

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 70). Some departments and programs have additional restrictions on transfer credit. Students are encouraged to meet with their academic program’s advisor when considering transfer credit possibilities.

Program Transfer Credit Guidelines

Students pursuing the MEML degree should be aware of the following program-specific transfer credit guidelines:

- No more than 6 credit hours from another U.S. or international universities of similar standing as Rice may apply towards the degree. Transfer coursework must be comparable in content and depth to the corresponding course at Rice, and must not have counted toward another degree.
- Requests for transfer credit will be considered by the Engineering Management and Leadership Graduate Committee Chair and the instructor of the equivalent Rice course.

Rice English integrates creative and critical practice through training in close reading, analytical writing, cultural history and theory, and craft/form. Our faculty research and pedagogy cover the breadth of the study of British and American literatures and cultures ranging from the medieval era to the present. The curriculum emphasizes literature and literary history, race and ethnicity studies, feminist and gender studies, queer theory and the history of sexuality, visual culture and comparative media studies, and the Anglophone literature of the postcolonial world. Faculty have particular strengths in the newer interdisciplinary areas of medical humanities, ecocriticism, post-humanism, and environmental humanities. Recent research and writing in the public humanities innovates the departmental mission as faculty and students engage new audiences. Rice English is also home to a vibrant creative writing concentration offering a range of courses in fiction, poetry, and creative non-fiction.

Bachelor’s Programs
• Bachelor of Arts (BA) Degree with a Major in English (p. 983)
  • and a Major Concentration in Creative Writing (p. 988)

Master’s Program
• Master of Arts (MA) Degree in the field of English*

Doctoral Program
• Doctor of Philosophy (PhD) Degree in the field of English (p. 992)
  * Although students are not normally admitted to a Master of Arts (MA) degree program, graduate students may earn the MA as they work towards the PhD.

ENGL 100 - INTRODUCTION TO LITERATURE
Short Title: INTRODUCTION TO LITERATURE
Department: English
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: This course is designed to introduce students from a variety of academic backgrounds to the major literary genres of fiction, poetry, drama, and creative non-fiction. Students will learn and practice the skills of close reading, interpretation, and literary analysis through discussion and critical writing about literature and language. Repeatable for Credit.
Course URL: www.english.rice.edu (http://www.english.rice.edu)

ENGL 121 - AP/OTH CREDIT IN ENGLISH
Short Title: AP/OTH CREDIT IN ENGLISH
Department: English
Grade Mode: Standard Letter
Course Type: Transfer
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: This course provides credit for students who have successfully completed approved examinations, such as Advanced Placement exams. This credit counts toward the total credit hours required for graduation.
Course URL: www.english.rice.edu (http://www.english.rice.edu)

ENGL 175 - GLOBAL LITERATURES IN ENGLISH
Short Title: GLOBAL LITERATURES IN ENGLISH
Department: English
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: An introduction to global literary studies and critical writing in which students study a range of literatures in English. The subject is twentieth-century modernism and its successors; postmodernism; and postcolonialism.
Course URL: www.english.rice.edu (http://www.english.rice.edu)

ENGL 200 - GATEWAYS TO LITERARY STUDY
Short Title: GATEWAYS TO LITERARY STUDY
Department: English
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: A course designed for and required of all prospective English majors. Emphasis is on close reading, literary interpretation, and critical writing. Attention is paid to the major genres (poetry, drama, and fiction) across a range of historical periods.
Course URL: www.english.rice.edu (http://www.english.rice.edu)

ENGL 201 - INTRODUCTION TO CREATIVE WRITING
Short Title: INTRO TO CREATIVE WRITING
Department: English
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: A course dedicated to the study and craft of fiction, nonfiction, and poetry. Through engaged reading and creative exercises, students will analyze the use of various elements of creative writing - including image, voice, tension, character, setting, and story. Students will develop a writing portfolio as well as a sense of the possibilities inherent in and unique to each genre. Course counts toward the English Creative Writing Concentration (ECRW).
Course URL: www.english.rice.edu (http://www.english.rice.edu)
ENGL 203 - TOPICS IN CREATIVE WRITING  
Short Title: TOPICS IN CREATIVE WRITING  
Department: English  
Grade Mode: Standard Letter  
Course Type: Seminar  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Lower-Level  
Description: An introductory, variable topics workshop in creative writing that asks students to work in multiple genres (fiction, non-fiction, poetry, reviewing, etc.). Topics will vary from semester to semester and may include "Food Writing," "Writing Green," "Persona," and more. Course counts toward the English Creative Writing Concentration (ECRW). Repeatable for Credit.  
Course URL: english.rice.edu (http://english.rice.edu)

ENGL 204 - FORMS OF POETRY  
Short Title: FORMS OF POETRY  
Department: English  
Grade Mode: Standard Letter  
Course Type: Seminar  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Lower-Level  
Description: This course examines the fundamental architecture of poetry. How do poets create a sense of shape? What are the nuts and bolts of a poem? Students will read widely in the history of poetry from traditional meters and historical forms to contemporary free verse and experimental or open forms. Part workshop and part seminar, this course will feature critical and creative assignments and is designed for majors and non-majors, writers and non-writers alike. Course counts toward the English Creative Writing Concentration (ECRW).  
Course URL: www.english.rice.edu (http://www.english.rice.edu)

ENGL 210 - BEGINNINGS: BRITISH LITERATURE TO 1800  
Short Title: BEGINNINGS: BRIT LIT TO 1800  
Department: English  
Grade Mode: Standard Letter  
Course Type: Lecture  
Distribution Group: Distribution Group I  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Lower-Level  
Description: A survey of representative British authors of the Middle Ages, the Renaissance, and the 18th century for both majors and non-majors.  
Course URL: www.english.rice.edu (http://www.english.rice.edu)

ENGL 211 - BRITISH LITERATURE: ROMANTICISM TO THE 20TH CENTURY  
Short Title: BRIT LIT ROMANTICISM TO 20TH C  
Department: English  
Grade Mode: Standard Letter  
Course Type: Lecture  
Distribution Group: Distribution Group I  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Lower-Level  
Description: A survey of representative British authors of the 19th and 20th centuries for both majors and non-majors.  
Course URL: www.english.rice.edu (http://www.english.rice.edu)

ENGL 213 - THE RICE REVIEW: INTRODUCTION TO LITERARY EDITING & PUBLISHING  
Short Title: R2:LITERARY EDITING/PUBLISHING  
Department: English  
Grade Mode: Standard Letter  
Course Type: Seminar  
Credit Hours: 1.5  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Lower-Level  
Description: This course will explore the contemporary means and methods of literary publishing. The class will involve students in the real-world issues of producing Rice's own nationally award-winning undergraduate literary journal, R2: The Rice Review. The course will explore the methods and best-practices required to produce and sustain a high-quality literary journal on both print and digital platforms. Assignments will include: promotions, blog posts, book reviews, interviews, articles for web, editing, layout and graphic design. Course counts toward the English Creative Writing Concentration (ECRW). Two instances of ENGL 213 (1.5 credit hours) will be eligible to be counted toward the English Creative Writing Concentration/ECRW. Repeatable for credit. Instructor Permission Required. Repeatable for Credit.  
Course URL: www.english.rice.edu (http://www.english.rice.edu)

ENGL 222 - THE WORLD AND SOUTH ASIA  
Short Title: WORLD AND SOUTH ASIA  
Department: English  
Grade Mode: Standard Letter  
Course Type: Seminar  
Distribution Group: Distribution Group I  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Lower-Level  
Description: Introduction to important 20th and 21st-century writers in English from South Asia - the region that includes India, Pakistan, Bangladesh and Sri Lanka. Readings include award-winning and bestselling works (fiction and non-fiction) by writers who address a wide range of issues including national and cultural identity, colonialism, sexuality, religion, globalization and political violence. Cross-list: ASIA 222.  
Course URL: www.english.rice.edu (http://www.english.rice.edu)

ENGL 238 - SPECIAL TOPICS  
Short Title: SPECIAL TOPICS  
Department: English  
Grade Mode: Standard Letter  
Course Type: Internship/Practicum, Laboratory, Lecture, Seminar, Independent Study, Lecture/Laboratory  
Credit Hours: 1-4  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Lower-Level  
Description: Topics and credit hours vary each semester. Contact department for current semester's topic(s). Repeatable for Credit.
ENGL 245 - INTERDISCIPLINARY APPROACHES  
Short Title: INTERDISCIPLINARY APPROACHES  
Department: English  
Grade Mode: Standard Letter  
Course Type: Seminar  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Lower-Level  
Description: Interdisciplinary study of cultural forms as diverse as poetry, advertisement, and film as well as topical interdisciplinary courses on literature and the arts, psychology, cultural studies, film media, anthropology, social theory, philosophy, law, and ethics. Topics vary each semester. Repeatable for Credit.  
Course URL: www.english.rice.edu (http://www.english.rice.edu)  

ENGL 250 - HISTORY OF THE NOVEL  
Short Title: HISTORY OF THE NOVEL  
Department: English  
Grade Mode: Standard Letter  
Course Type: Lecture  
Distribution Group: Distribution Group I  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Lower-Level  
Description: Course designed to introduce students to the intellectual, historical and aesthetic importance of the novelistic tradition. Selection of works from the 19th century to the present may include Austen, Dickens, Flaubert, James, Woolf, Ellison, Nabokov, Rushdie, and Franzen, and others.  
Course URL: www.english.rice.edu (http://www.english.rice.edu)  

ENGL 251 - READING POETRY  
Short Title: READING POETRY  
Department: English  
Grade Mode: Standard Letter  
Course Type: Seminar  
Distribution Group: Distribution Group I  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Lower-Level  
Description: Course designed to introduce students to significant works of the poetic tradition, from ancient to contemporary, and from American and English masterworks to world poetry in translation.  

ENGL 252 - HOW TO READ TEXTS  
Short Title: HOW TO READ TEXTS  
Department: English  
Grade Mode: Standard Letter  
Course Type: Lecture  
Distribution Group: Distribution Group I  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Lower-Level  
Description: In this course we will study a wide range of texts with a view to understanding how to read them attentively: newspaper articles, Facebook posts, tweets, poems, narratives, dramas.  

ENGL 255 - THE IDEA OF SHAKESPEARE  
Short Title: THE IDEA OF SHAKESPEARE  
Department: English  
Grade Mode: Standard Letter  
Course Type: Lecture  
Distribution Group: Distribution Group I  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Lower-Level  
Description: Who was Shakespeare? How do we understand the global multimedia icon that is "Shakespeare"? Designed for non-majors or for potential English majors, this course offers an introductory approach to the works of William Shakespeare and to the Shakespeare "phenomenon" through close attention to his poems, play texts, and after effects.  
Course URL: www.english.rice.edu (http://www.english.rice.edu)  

ENGL 260 - WHAT IS AMERICAN LITERATURE  
Short Title: WHAT IS AMERICAN LITERATURE  
Department: English  
Grade Mode: Standard Letter  
Course Type: Lecture  
Distribution Group: Distribution Group I  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Lower-Level  
Description: A survey of representative U.S. authors from the 18th century to the present designed for both majors and non-majors.  
Course URL: www.english.rice.edu (http://www.english.rice.edu)  

ENGL 265 - JEWISH-AMERICAN LITERATURE AND CULTURE  
Short Title: JEWISH-AMERICAN LITERATURE  
Department: English  
Grade Mode: Standard Letter  
Course Type: Lecture  
Distribution Group: Distribution Group I  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Lower-Level  
Description: A survey of Jewish-American literature from the early 20th century to the present designed for both majors and non-majors.  
Course URL: www.english.rice.edu (http://www.english.rice.edu)  

ENGL 267 - INTRODUCTION TO AFRICAN AMERICAN LITERATURE  
Short Title: INTRO TO AFRICAN AMER LIT  
Department: English  
Grade Mode: Standard Letter  
Course Type: Lecture  
Distribution Group: Distribution Group I  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Lower-Level  
Description: An introduction to the history and traditions of African American literature. Course will examine the poetry, essays, and fiction by people of African descent from the 18th to the 21st centuries.  
Course URL: www.english.rice.edu (http://www.english.rice.edu)
ENGL 268 - INTRODUCTION TO NATIVE AMERICAN LITERATURE  
Short Title: NATIVE AMERICAN LITERATURE  
Department: English  
Grade Mode: Standard Letter  
Course Type: Lecture  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Lower-Level  
Description: This multi-genre course introduces students to Native American literature through the contemporary novel, autobiography, critical essays, poetry, and film. An awareness of historical, cultural, and political movements important to American Indian peoples will supplement literary analysis. The class will address issues of sovereignty, land claims, activism, and identity.  
Course URL: www.english.rice.edu (http://www.english.rice.edu)

ENGL 269 - SCIENCE FICTION AND THE ENVIRONMENT  
Short Title: SCI FI AND THE ENVIRONMENT  
Department: English  
Grade Mode: Standard Letter  
Course Type: Seminar  
Distribution Group: Distribution Group I  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Lower-Level  
Description: Examines the ways that science fiction has expressed and challenged ideas about nature, culture, society, and politics. Cross-list: ENST 265.

ENGL 270 - ASPECTS OF MODERN LITERATURE  
Short Title: ASPECTS OF MODERN LITERATURE  
Department: English  
Grade Mode: Standard Letter  
Course Type: Lecture  
Distribution Group: Distribution Group I  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Lower-Level  
Description: An introduction to modern/postmodern culture that may include readings of novels, plays, short stories, poems, psychoanalytic theory, and art criticism/philosophy. The emphasis is on reading and interpreting different kinds of texts in broad cultural contexts.  
Course URL: www.english.rice.edu (http://www.english.rice.edu)

ENGL 272 - LITERATURE AND MEDICINE  
Short Title: LITERATURE AND MEDICINE  
Department: English  
Grade Mode: Standard Letter  
Course Type: Lecture  
Distribution Group: Distribution Group I  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Lower-Level  
Description: Designed for, but not limited to, students interested in the medical profession, this course introduces the study of medicine through reading imaginative literature—novels, plays, essays, poems—by and about doctors and patients, focusing on understanding ethical issues and on developing critical and interpretive skills.

ENGL 303 - PLAYWRITING  
Short Title: PLAYWRITING  
Department: English  
Grade Mode: Standard Letter  
Course Type: Seminar  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Description: Playwriting will explore and engage in various rudiments, skills, practices, stagings and performances of stage plays. Course counts toward the English Creative Writing Concentration (ECRW).  
Course URL: www.english.rice.edu (http://www.english.rice.edu)  

ENGL 304 - INTRODUCTION TO POETRY WRITING  
Short Title: INTRO TO POETRY WRITING  
Department: English  
Grade Mode: Standard Letter  
Course Type: Seminar  
Distribution Group: Distribution Group I  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Description: An introduction to poetry writing through the study of contemporary poets and the writing of poems. The class will pay extensive attention to such elements of poetry as imagery, figurative language, tone, syntax, and form in order to create a vocabulary for students to discuss their own poems. Students' poems will be critiqued by the class in a workshop setting. Course counts toward the English Creative Writing Concentration (ECRW). Registration for odd-numbered sections is restricted to English Majors (ENGL, ECRW); registration for even numbered sections is open to all undergraduate students.  
Course URL: www.english.rice.edu (http://www.english.rice.edu)  

ENGL 305 - INTRODUCTION TO CREATIVE NONFICTION WRITING  
Short Title: INTRO CREATIVE NONFICT WRITING  
Department: English  
Grade Mode: Standard Letter  
Course Type: Seminar  
Distribution Group: Distribution Group I  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Description: A course in reading and writing creative nonfiction prose for the beginning writer. Sections may focus on a range of nonfiction genres or one specific form, e.g. personal essay/memoir, travel narratives, literary journalism, science and nature writing. Course counts toward the English Creative Writing Concentration (ECRW). Registration for odd-numbered sections is restricted to English Majors (ENGL, ECRW); registration for even numbered sections is open to all undergraduate students.  
Course URL: www.english.rice.edu (http://www.english.rice.edu)  

ENGL 306 - TOPICS IN FICTION WRITING  
Short Title: TOPICS IN FICTION WRITING  
Department: English  
Grade Mode: Standard Letter  
Course Type: Seminar  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Description: A variable topics workshop in the writing of fiction. Topics will vary from semester to semester and may include "Persona," "Experiments in Fiction," and more. Course counts toward the English Creative Writing Concentration (ECRW). Repeatable for Credit.  
Course URL: www.english.rice.edu (http://www.english.rice.edu)  

ENGL 307 - TOPICS IN POETRY WRITING  
Short Title: TOPICS IN POETRY WRITING  
Department: English  
Grade Mode: Standard Letter  
Course Type: Seminar  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Description: A variable topics workshop in the writing of poetry. Topics will vary from semester to semester and may include "Sonnet, Elegy, Ode," "Writing Green," "The Art of the Archive," "Poems and Paintings," and more. Course counts toward the English Creative Writing Concentration (ECRW). Repeatable for Credit.  
Course URL: www.english.rice.edu (http://www.english.rice.edu)  

ENGL 308 - INTRODUCTION TO PODCASTING  
Short Title: INTRODUCTION TO PODCASTING  
Department: English  
Grade Mode: Standard Letter  
Course Type: Seminar  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Description: This project-based course will lead us through an introduction to the ever-expanding medium of podcasting, specifically radio storytelling. We will unpack and discuss the techniques of practiced podcasters and use those elements in our own attempts at radio reportage: arts & culture shorts, vox pops, sonic ID's, and short and long-form interviews. We will become proficient in capturing sound, interviewing strangers, writing scripts, pitching ideas for stories, and using GarageBand software to edit and shape that content. NOTE: If a student previously enrolled in ENGL 309 Special Topics - Podcasting, the student cannot take ENGL 308.
ENGL 309 - TOPICS IN CREATIVE NONFICTION WRITING
Short Title: CREATIVE NONFICT WRITING
Department: English
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: A variable topics workshop in the writing of creative nonfiction. Topics will vary from semester to semester and may include "Nature Writing," "Life Writing," "History of the Essay," and more. Course counts toward the English Creative Writing Concentration (ECRW). Repeatable for Credit.
Course URL: www.english.rice.edu (http://www.english.rice.edu)

ENGL 310 - NONFICTION NATURE WRITING
Short Title: NONFICTION NATURE WRITING
Department: English
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: In this creative writing seminar, students will explore some of the ways that creative nonfiction can become a vehicle for questions about how to imagine our place in the world, as well as the relationships between memory and landscape, politics and place, and inclusion and exile. NOTE: If a student previously enrolled in ENGL 309 Special Topics - Topics in Nonfiction Writing, the student cannot take ENGL 310. Course counts toward the English Creative Writing Concentration (ECRW).
Course URL: www.english.rice.edu (http://www.english.rice.edu)

ENGL 311 - TOPICS IN MEDIEVAL LITERATURE AND/OR CULTURE
Short Title: MEDIEVAL TOPICS
Department: English
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: A special course in Medieval literature and/or culture. Topics will vary.

ENGL 312 - OLD ENGLISH LITERATURE AND LANGUAGE
Short Title: OLD ENGL LIT AND LANGUAGE
Department: English
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: A survey course in Old English literature and language. Cross-list: MDEM 312. Repeatable for Credit.

ENGL 314 - MEDIEVAL ROMANCE
Short Title: MEDIEVAL ROMANCE
Department: English
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: A course that examines the development of romance as a genre during the medieval period. Cross-list: MDEM 319.

ENGL 316 - CHAUCER
Short Title: CHAUCER
Department: English
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: An introduction to Geoffrey Chaucer’s The Canterbury Tales, Middle English, and the political and cultural climate of the fourteenth century. Cross-list: MDEM 316, SWGS 305.

ENGL 317 - ARTHURIAN LITERATURE
Short Title: ARTHURIAN LITERATURE
Department: English
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: A survey of the origins and development of the Arthurian legend from the earliest chronicles in the sixth century and later medieval French, Welsh, Irish, and English Arthurian poems to modern adaptations of Arthurian material, including films. Cross-list: MDEM 317, SWGS 301.

ENGL 318 - FAIRY TALES AND FEAR TALES
Short Title: FAIRY TALES AND FEAR TALES
Department: English
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level

ENGL 327 - GRAPHIC NOVEL
Short Title: GRAPHIC NOVEL
Department: English
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: In this course students will use the study of the Graphic Novel as an opportunity to explore imagination both analytically and creatively (and to recognize that the two modes are not at odds). Students shall read widely and deeply and with great pleasure and intensity. NOTE: If a student previously enrolled in ENGL 306 Special Topics "Graphic Novel", the student cannot take ENGL 327. Course counts toward the English Creative Writing Concentration (ECRW).
Course URL: www.english.rice.edu (http://www.english.rice.edu)
ENGL 328 - JOHN MILTON: RADICAL THOUGHT THEN AND NOW
Short Title: JOHN MILTON: RADICAL
Department: English
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: A course on the major poems of John Milton, with an emphasis on “Paradise Lost” and the theological and philosophical issues that it engages (then and now). Mutually Exclusive: Cannot register for ENGL 328 if student has credit for ENGL 528.

ENGL 330 - ORIGINS OF THE ENGLISH NOVEL
Short Title: ORIGINS OF THE ENGLISH NOVEL
Department: English
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: A course focusing on the most important literary innovation of the 18th-century: the birth of the novel. We will examine the modern social and cultural forces crucial to and inextricable from this watershed development: the emergence of liberalism, conservatism, feminism, class, secular culture, the sex/gender system, individualism, and the separation of public and private spheres.
Course URL: www.english.rice.edu

ENGL 332 - LITERATURE OF THE BRITISH ENLIGHTENMENT
Short Title: LIT OF BRITISH ENLIGHTENMENT
Department: English
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3

Course URL: www.english.rice.edu

ENGL 337 - GOTHIC AMERICAN LITERATURE: TERROR, HORROR, THE GROTESQUE, AND THE SUBLIME IN AMERICAN CULTURE
Short Title: GOTHIC AMERICAN LITERATURE
Department: English
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: A course that examines a representative range of British prose and poetry from 1660-1790, the period known as the Enlightenment. This was a volatile age of plots, revolution, philosophical and scientific innovation, and literary transformation. Our readings will cover poems of several genres, short prose narratives, essays and philosophical treatises.

ENGL 337 - GOTHIC AMERICAN LITERATURE: TERROR, HORROR, THE GROTESQUE, AND THE SUBLIME IN AMERICAN CULTURE
Short Title: GOTHIC AMERICAN LITERATURE
Department: English
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Gothic America concerns the many instances of terror, horror, the grotesque, and the sublime in American literature, from the Republic’s troubled birth in the late 1700s to the onset of industrial modernity in the early 1900s. In surveying the theoretical underpinnings of the Gothic, this course will discuss race, sexuality, religion, science, and philosophy. In short, this course explores why America remains a haunted nation.
ENGL 338 - BRITISH ROMANTICISM  
Short Title: BRITISH ROMANTICISM  
Department: English  
Grade Mode: Standard Letter  
Course Type: Lecture  
Distribution Group: Distribution Group I  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Description: A multi-genre course on the Romantic period. This course will explore the excesses, extremes, and diversities of British Romanticism across a variety of media: plays, tales, confessions, novels, and satires (including illustrations, paintings, and visual spectacles).  
Course URL: www.english.rice.edu (http://www.english.rice.edu)

ENGL 339 - ROMANTICISM IN RUINS  
Short Title: ROMANTICISM IN RUINS  
Department: English  
Grade Mode: Standard Letter  
Course Type: Lecture  
Distribution Group: Distribution Group I  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Description: The incomplete ruins - fragments - fascinate us. The course examines how this concern forms in the Romantic Period and how it remains relevant today. It focuses on texts (novels, poems, philosophy, history) and visual art; most sources will be Romantic, some contemporary (e.g. Wordsworth, Volney, Schlegel, Piranesi, Shelley, Burke, Sebald).  
Course URL: www.english.rice.edu (http://www.english.rice.edu)

ENGL 340 - CALDERWOOD SEMINAR IN PUBLIC WRITING  
Short Title: THE LINE OF LOVE  
Department: English  
Grade Mode: Standard Letter  
Course Type: Seminar  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Prerequisite(s): ENGL 200  
Description: Take a step back from your English major and learn how to transfer your expertise to the public. The Calderwood Seminars in Public Writing challenge junior and senior majors in an intimate workshop setting to grow as critics and writers. Topics will vary semester to semester. Throughout the semester, students build a writing portfolio that might include op-eds, book reviews, journal article reviews, coverage of public talks, and interviews with poets and critics. Classes will include collaborative editing workshops, guest lectures from experts in the writing field, and activities to build a strong writing foundation. You have learned how to write for college, now learn how to write for life. Open to junior and senior English majors or by permission of instructor. Recommended Prerequisite(s): ENGL 300

ENGL 341 - VICTORIAN LITERATURE AND CULTURE  
Short Title: VICTORIAN LITERATURE & CULTURE  
Department: English  
Grade Mode: Standard Letter  
Course Type: Lecture  
Distribution Group: Distribution Group I  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Description: A multi-genre course that explores the array of creative works that examine the Victorian period through poetry, non-fiction prose, fiction, art and material culture. Repeatable for Credit.

ENGL 342 - SURVEY OF VICTORIAN FICTION  
Short Title: VICTORIAN FICTION  
Department: English  
Grade Mode: Standard Letter  
Course Type: Lecture  
Distribution Group: Distribution Group I  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Description: A survey of the many genres of the nineteenth-century novel, this course will try to come to terms with some of the insistent questions posed by and through the fiction of the period. Cross-list: SWGS 372.  
Course URL: www.english.rice.edu (http://www.english.rice.edu)

ENGL 343 - JANE AUSTEN'S WORLDS  
Short Title: JANE AUSTEN'S WORLDS  
Department: English  
Grade Mode: Standard Letter  
Course Type: Seminar  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Description: An exploration of Jane Austen as Regency writer and contemporary icon. The course will focus both on Austen's writing her novels, her juvenilia and her letters and on visual and textual adaptations of her work. Cross-list: SWGS 343.  
Course URL: www.english.rice.edu (http://www.english.rice.edu)

ENGL 344 - ACCOUNTING FOR DICKENS  
Short Title: DICKENS  
Department: English  
Grade Mode: Standard Letter  
Course Type: Seminar  
Distribution Group: Distribution Group I  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Description: How do we account for the extraordinary popularity and influence of Charles Dickens from his own time till now? How did he and how have his audiences assigned and extracted value from his writing and his life more generally? The course will focus on Dickens's journalism, novels, shorter fiction, and letters, as well as on visual and verbal adaptations of his work. Readings will include selections of texts from throughout Dickens's career such as Sketches by Boz, Oliver Twist, A Christmas Carol, David Copperfield, and A Tale of Two Cities.
ENGL 345 - MODERN SHORT STORY: TOWARDS AN ETHICS OF FICTION
Short Title: MODERN SHORT STORY
Department: English
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Study of great modern short fiction with emphasis on reading as an ethical enterprise. Selected critical essays complement works from Melville to Maupassant, Flaubert to Kafka to O'Connor as we talk about alienation and solitude, death and violence and the vicissitudes of family. Taught in English. Cross-list: FREN 355. Recommended Prerequisite(s): Any 200-level course or above in English or French Studies, or EURO 101 or EURO 102
Course URL: www.english.rice.edu

ENGL 355 - MODERNISMS
Short Title: MODERNISMS
Department: English
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: An exploration of modernist work from the late 19th century to World War II. Course includes fiction, poetry, film, painting, theatre, music and theories of art.
Course URL: www.english.rice.edu

ENGL 356 - MODERNISMS
Short Title: MODERNISMS
Department: English
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: An exploration of modernist work from the late 19th century to World War II. Course includes fiction, poetry, film, painting, theatre, music and theories of art.
Course URL: www.english.rice.edu

ENGL 357 - ORIGINS OF THE POSTMODERN
Short Title: ORIGINS OF THE POSTMODERN
Department: English
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: An examination of diverse cultural manifestations of the "postmodern" through the last half of the twentieth century. Popular music, novels, plays, film, art, and fairy tales may be discussed.
Course URL: www.english.rice.edu

ENGL 358 - CONSUMPTION AND CONSUMERISM
Short Title: CONSUMPTION & CONSUMERISM
Department: English
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: An exploration of the history, philosophy and culture of eating, drinking, shopping and other forms of consuming. Featuring detailed analysis of literatures in English, visual art, music, film and food.
Course URL: www.english.rice.edu
ENGL 359 - WRITING ON/WRITING OFF NEW ORLEANS  
Short Title: WRITING ON/OFF NEW ORLEANS  
Department: English  
Grade Mode: Standard Letter  
Course Type: Lecture  
Distribution Group: Distribution Group 1  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Description: An examination of the relation between New Orleans and the writing in and about it. Works by Kate Chopin, William Faulkner, Tennessee Williams, Walker Percy, Eudora Welty, John Kennedy Toole, Michael Ondaatje, and others will be studied. Students will create their own New Orleans text in a final paper.  
Course URL: english.rice.edu (http://english.rice.edu)  

ENGL 360 - AMERICAN LITERATURE BEFORE THE CIVIL WAR  
Short Title: AMER LIT BEFORE THE CIVIL WAR  
Department: English  
Grade Mode: Standard Letter  
Course Type: Lecture  
Distribution Group: Distribution Group 1  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Description: A survey of American literatures spanning the Age of Discovery, Atlantic Revolutions, and onset of the U.S. Civil War.  

ENGL 361 - US LITERATURE FROM THE CIVIL WAR TO WWI  
Short Title: US LITERATURE CIVIL WAR TO WWI  
Department: English  
Grade Mode: Standard Letter  
Course Type: Lecture  
Distribution Group: Distribution Group 1  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Description: From Mark Twain to T.S. Elliot, a survey of authors commenting on the American North, South, and West from Reconstruction to WWI.  

ENGL 362 - MODERN AMERICAN FICTION  
Short Title: MODERN AMERICAN FICTION  
Department: English  
Grade Mode: Standard Letter  
Course Type: Lecture  
Distribution Group: Distribution Group 1  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Description: A survey of the fiction of the first half of the 20th century, one of the great periods of social turmoil and intense artistic experimentation. Authors may include Chopin, Hemingway, Fitzgerald, Toomer, Faulkner, Hurston, Barnes.  
Course URL: www.english.rice.edu (http://www.english.rice.edu)  

ENGL 363 - THE US NOVEL POST-WORLD WAR II  
Short Title: US NOVEL POST-WORLD WAR II  
Department: English  
Grade Mode: Standard Letter  
Course Type: Lecture  
Distribution Group: Distribution Group 1  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Description: An examination of the narrative experiments and trends of the period, from 1950 to the present.  
Course URL: www.english.rice.edu (http://www.english.rice.edu)  

ENGL 364 - MODERN AMERICAN POETRY  
Short Title: MODERN AMERICAN POETRY  
Department: English  
Grade Mode: Standard Letter  
Course Type: Lecture  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Description: A survey of representative American poets of the period. These may include Gertrude Stein, Amy Lowell, Robert Frost, Wallace Stevens, William Carlos Williams, Ezra Pound, Marianne Moore, T.S. Eliot.  
Course URL: www.english.rice.edu (http://www.english.rice.edu)

ENGL 376 - SOUTHEAST ASIAN LITERATURE IN ENGLISH  
Short Title: SE ASIAN LITERATURE IN ENGLISH  
Department: English  
Grade Mode: Standard Letter  
Course Type: Seminar  
Distribution Group: Distribution Group I  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Description: An introductory course that surveys the literary history of English-language writing in Southeast Asia. This course examines twentieth- and twenty-first-century novels, short stories, and poetry from across the region, with a primary focus on literature from former colonies of the British and American empires—namely, Singapore, Malaysia, and the Philippines. Attention will also be given to Vietnamese literature grappling with the legacies of American military intervention in the region. Situating this dynamic writing within the historical, cultural, and sociopolitical contexts of Southeast Asia, this course will introduce students to shared thematic engagements with anticolonial nationalism, the aftermath of war, modernization, urbanization, and globalization.  
Course URL: english.rice.edu (http://english.rice.edu)

ENGL 377 - ART AND LITERATURE  
Short Title: ART AND LITERATURE  
Department: English  
Grade Mode: Standard Letter  
Course Type: Seminar  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Description: A course that explores how the languages of text and image can interrogate as well as clarify each other. We will focus on three key bodies of work: the paintings of Vermeer; a massive graphic novel by Charlotte Salomon, a 22 year old woman who died at Auschwitz; and Alfred Hitchcock’s revision of his novelistic source for “Psycho”.  
Course URL: www.english.rice.edu (http://www.english.rice.edu)

ENGL 379 - THIRD WORLD LITERATURE  
Short Title: THIRD WORLD LITERATURE  
Department: English  
Grade Mode: Standard Letter  
Course Type: Lecture  
Distribution Group: Distribution Group I  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Description: A course that primarily surveys fiction, poetry, drama, film (in English) from postcolonial contexts, especially those of Africa, the Caribbean, and the Indian subcontinent. Authors discussed may include Rushdie, Narayan, Roy, Wolcott, Ngugi, Coetzee, and Achebe.

ENGL 380 - CONTEMPORARY ANGLOPHONE LITERATURES

ENGL 384 - AMERICAN INDEPENDENT CINEMA
Short Title: AMERICAN INDEPENDENT CINEMA
Department: English
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: A course that explores the history of filmmaking outside of Hollywood in the United States throughout the 20th century, emphasizing the period from 1959 to the present. Special attention to the contributions of marginalized communities and the art world, innovative film styles, and the interdependence of alternative and mainstream media cultures. Cross-list: FILM 384.

ENGL 385 - FILM STUDIES
Short Title: FILM STUDIES
Department: English
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: A variable topics course that may focus on such areas as film genres, national cinemas, world cinema, directors or other thematically organized topics. Cross-list: FILM 385. Mutually Exclusive: Cannot register for ENGL 385 if student has credit for ENGL 589. Repeatable for Credit.
Course URL: www.english.rice.edu (http://www.english.rice.edu)

ENGL 386 - MEDICAL MEDIA ARTS LAB
Short Title: MEDICAL MEDIA ARTS LAB
Department: English
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Distribution Group: Distribution Group I
Credit Hours: 4
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Students will collaborate with health professionals to create solutions to real-world medical communication, visualization and design problems. Working individually and in teams, students will apply critical thinking and theory to hands-on design. Projects may include production of short videos, infographics, app development, 3-D virtual models, creative writing, and other media arts. Cross-list: FILM 381.
Course URL: www.english.rice.edu (http://www.english.rice.edu)

ENGL 387 - TOPICS IN CULTURAL STUDIES
Short Title: CULTURAL STUDIES
Department: English
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: A variable topics course that may focus on one or more theorist, on a genre or theme, or on debates within the field of cultural studies. Recent topics have included mass culture and film; Marx; Science in Fiction and Film; contemporary ethnic studies; and more. Not limited in period, scope, or geography. Repeatable for Credit.

ENGL 388 - MEDIA STUDIES
Short Title: MEDIA STUDIES
Department: English
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3-4
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: A variable topics course that addresses interdisciplinary approaches to studying the relationships between film, photography, television, and digital technologies such as the internet and computer-generated imaging. Cross-list: FILM 386. Repeatable for Credit.
Course URL: www.english.rice.edu (http://www.english.rice.edu)

ENGL 389 - YOUTH STUDIES
Short Title: YOUTH STUDIES
Department: English
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: A variable topics course exploring the cultural productions of youth, their social geographies, and youth as a critical field important to the theorization of activism, technology, law and incarceration, reproductive politics, sexuality, consumerism, citizenship, environment. Previous topics: Generation X, Third Wave Feminism, Obama and the Youth Vote, Harry Potter & Gen Y, Power, Politics, and Reading Issues of Access. Cross-list: SWGS 389.
Course URL: www.english.rice.edu (http://www.english.rice.edu)

2021-2022 General Announcements PDF Generated 09/22/21
ENGL 390 - INTRODUCTION TO THEATRE
Short Title: INTRODUCTION TO THEATRE
Department: English
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Course URL: www.english.rice.edu (http://www.english.rice.edu)

ENGL 392 - CONTEMPORARY POETRY
Short Title: CONTEMPORARY POETRY
Department: English
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: An in-depth analysis of contemporary poetry and poetics. Readings will focus on the rich variety of work written in English between the last decades of the twentieth century and to present. Topics will vary from semester to semester. Repeatable for Credit.
Course URL: www.english.rice.edu (http://www.english.rice.edu)

ENGL 397 - TOPICS IN LITERATURE AND CULTURE
Short Title: TOPICS IN LITERATURE & CULTURE
Department: English
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Course URL: www.english.rice.edu (http://www.english.rice.edu)

ENGL 398 - SLAVERY IN 20TH CENTURY FILM AND FICTION
Short Title: SLAVERY IN 20TH C. FILM & FICT
Department: English
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course studies how twentieth century reconstructions of slavery in American literature and film engage contemporary anxieties regarding race, gender, sexuality, and national identity. These neo-slave narratives often critique modernity; challenge how we think about history, evidence, memory, and trauma; and trouble narrative conventions.
Course URL: www.english.rice.edu (http://www.english.rice.edu)

ENGL 399 - THE BLACK IMAGINARY: 1775-PRESENT
Short Title: THE BLACK IMAGINARY
Department: English
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course addresses some of the leading questions that shaped black writings and expressive culture in the United States from the late 18th century forward. Our readings will include Wheatley, Walker, Delany, Douglass, Du Bois, Ellison, Baldwin, King, Malcolm X, Morrison, Percival Everett, and early and contemporary films and music.
Course URL: www.english.rice.edu (http://www.english.rice.edu)

ENGL 401 - ADVANCED FICTION WRITING
Short Title: ADVANCED FICTION WRITING
Department: English
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ENGL 301
Description: A course conducted mostly as a workshop for advanced fiction writers. It will include assigned writing exercises and weekly readings of published stories to deepen students' understanding of narrative technique. Course counts toward the English Creative Writing Concentration (ECRW). Repeatable for Credit.
Course URL: www.english.rice.edu (http://www.english.rice.edu)
ENGL 402 - WRITING LONGER FICTION: NARRATIVE DESIGN  
Short Title: WRITING LONGER FICTION  
Department: English  
Grade Mode: Standard Letter  
Course Type: Seminar  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Prerequisite(s): ENGL 301 or ENGL 306  
Description: A course in writing of longer narrative forms for advanced fiction writers. At the start of the semester, students will write a proposal for an original novel in the genre of their choosing and complete no fewer than 100 pages by the end. The class will be a mixture of discussion of assigned reading, workshop, and one-on-one tutorial. Course counts toward the English Creative Writing Concentration (ECRW). Repeatable for Credit.  
Course URL: www.english.rice.edu (http://www.english.rice.edu)  

ENGL 404 - ADVANCED POETRY WRITING  
Short Title: ADV POETRY WRITING  
Department: English  
Grade Mode: Standard Letter  
Course Type: Seminar  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Prerequisite(s): ENGL 304  
Description: An in-depth study of contemporary poetry, this course emphasizes the careful analysis of books by six to eight contemporary poets, the reading of selected essays on poetic technique, and the writing of poems with a view toward finding a personal voice. Course counts toward the English Creative Writing Concentration (ECRW). Repeatable for Credit.  
Course URL: www.english.rice.edu (http://www.english.rice.edu)  

ENGL 405 - ADVANCED CREATIVE NONFICTION WRITING  
Short Title: ADV CREATIVE NONFICT WRITING  
Department: English  
Grade Mode: Standard Letter  
Course Type: Seminar  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Description: An advanced reading and writing workshop for writers who have some familiarity with the nonfiction genre. Published works will be read as blueprints for the construction of student work. Course counts toward the English Creative Writing Concentration (ECRW). Repeatable for Credit.  
Course URL: www.english.rice.edu (http://www.english.rice.edu)  

ENGL 410 - SENIOR SEMINAR  
Short Title: SENIOR SEMINAR  
Department: English  
Grade Mode: Standard Letter  
Course Type: Seminar  
Credit Hours: 3  
Restrictions: Enrollment limited to students with a class of Senior. Enrollment is limited to students with a major in English. Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Prerequisite(s): ENGL 200 and ENGL 300  
Description: The Senior Seminar is the first course in a 2 part sequence, required of all senior English majors. An immersive, research and writing methods course, the Senior Seminar prepares students to produce a significant piece of critical or creative work, guiding each year’s senior cohort through the methods and best-practices that invigorate longer-forms of creative inquiry and research. Similar to other senior design and research courses throughout the university, the Senior Seminar engages students in the deeper and more rewarding processes of sustained writing and research, and offers all students the opportunity to prepare and build an independent research project with sustained faculty support.  

ENGL 411 - RESEARCH WORKSHOP  
Short Title: RESEARCH WORKSHOP  
Department: English  
Grade Mode: Standard Letter  
Course Type: Seminar  
Credit Hours: 3  
Restrictions: Enrollment limited to students with a class of Senior. Enrollment is limited to students with a major in English. Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Prerequisite(s): ENGL 200 and ENGL 300  
Description: Taught in the Spring, the Research Workshop is the 2nd course required of senior English majors. It follows from the Fall Senior Seminar. The course is co-taught by three faculty members from different areas of expertise, including one creative writer. The Spring Research Workshop guides the cohort of senior majors from the Fall Senior Seminar through the writing stage of their senior projects. In this course, the students will complete their in-depth critical or creative project, begun in the Fall semester. Recommended Prerequisite(s): ENGL 200 and ENGL 300 and ENGL 410  

ENGL 418 - STUDIES IN RENAISSANCE DRAMA  
Short Title: STUDIES IN RENAISSANCE DRAMA  
Department: English  
Grade Mode: Standard Letter  
Course Type: Seminar  
Credit Hours: 3  
Restrictions: Enrollment limited to students with a class of Junior or Senior. Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Prerequisite(s): ENGL 200 and ENGL 300  
Description: A variable topics course designed to build on student knowledge gained earlier in the curriculum. Repeatable for Credit.
ENGL 419 - STUDIES IN SHAKESPEARE
Short Title: STUDIES IN SHAKESPEARE
Department: English
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: A variable topics course that provides an opportunity to explore some dimension of Shakespeare's work with specialized focus. Please consult English department for specific details. Repeatable for Credit.

ENGL 430 - EMPIRE AND BRITISH LITERATURE 1700-1950
Short Title: EMPIRE & BRITISH LITERATURE
Department: English
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ENGL 200 and ENGL 300
Description: This course provides detailed knowledge of a diverse range of eighteenth and nineteenth-century texts that engaged the realities, possibilities, fantasies and pitfalls of the British Empire. Course also includes historical and archival material as well as recent critical and historical approaches to the study of empire and its relationship to cultural identity. Repeatable for Credit.
Course URL: english.rice.edu (http://english.rice.edu)

ENGL 438 - THE GROTESQUE
Short Title: THE GROTESQUE
Department: English
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course examines the grotesque in literature and art. It covers a variety of textual and visual sources across periods; theoretical materials will include works from literary studies, visual culture, art history, critical theory and aesthetics. Cross-list: HART 430.
Course URL: www.english.rice.edu (http://www.english.rice.edu)

ENGL 441 - VICTORIAN STUDIES
Short Title: VICTORIAN STUDIES
Department: English
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment limited to students with a class of Junior or Senior. Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ENGL 200 and ENGL 300
Description: A variable topics course designed to build on student knowledge of Victorian literature and/or culture gained earlier in the curriculum. Recent topics have included the family, "The Pre-Raphaelites", "Around 1900" the "Long Victorian Novel", and "Victorian Legacies". Graduate/Undergraduate Equivalency: ENGL 541. Repeatable for Credit.
Course URL: www.english.rice.edu (http://www.english.rice.edu)

ENGL 459 - STUDIES IN LITERATURE AND ECOLOGY
Short Title: STUDIES IN LIT. AND ECOLOGY
Department: English
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: A special topics course that addresses literature and culture from 1750 to the present, with a view to understanding the new geological era that humans have created, and its ecological implications. Repeatable for Credit.

ENGL 461 - 19TH-CENTURY AMERICAN STUDIES
Short Title: 19TH-CENTURY AMER STUDIES
Department: English
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: A variable topics course designed to build on student knowledge of 19th-century American literature and/or culture gained earlier in the curriculum. Repeatable for Credit.
Course URL: www.english.rice.edu (http://www.english.rice.edu)

ENGL 466 - STUDIES IN AMERICAN/U.S. LITERATURE AND CULTURE
Short Title: STUDIES IN AMER/ US LIT, CULT
Department: English
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment limited to students with a class of Junior or Senior. Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ENGL 200 and ENGL 300
Description: A special topics course in American/U.S. literature and culture that transcends historical periods. Repeatable for Credit.
ENGL 470 - STUDIES IN AFRICAN AMERICAN LITERATURE  
**Short Title:** AFRICAN AMERICAN STUDIES  
**Department:** English  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
**Course Level:** Undergraduate Upper-Level  
**Description:** A variable topics course designed to build on student knowledge of African American literature gained earlier in the curriculum. Past topics include Black Women Writers. Cross-list: SWGS 453. Graduate/Undergraduate Equivalency: ENGL 570. Repeatable for Credit.

ENGL 477 - SPECIAL TOPICS

**Description:** A variable topics course designed to build on student knowledge of feminist theory gained earlier in the curriculum. Recent topics have included sexualities, Marriage and Its Others, and Third Wave Feminism. Cross-list: SWGS 407. Repeatable for Credit.

ENGL 485 - STUDIES IN MODERN LITERATURE  
**Short Title:** STUDIES IN MODERN LITERATURE  
**Department:** English  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
**Course Level:** Undergraduate Upper-Level  
**Description:** A variable topics course designed to build on student knowledge of modern literature gained earlier in the curriculum. Repeatable for Credit.  
**Course URL:** www.english.rice.edu (http://www.english.rice.edu)

ENGL 493 - INDEPENDENT STUDY/DIRECTED READING  
**Short Title:** INDEPENDENT STUDY/DIR READING  
**Department:** English  
**Grade Mode:** Standard Letter  
**Course Type:** Independent Study  
**Credit Hours:** 1-6  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
**Course Level:** Undergraduate Upper-Level  
**Description:** A variable-credit course designed for students who want to pursue intensive semester-long study of a particular topic not included in the curriculum. Students must identify and receive the approval of an English department faculty member. Instructor and Department approval must be granted prior to registration. Instructor Permission Required. Repeatable for Credit.  
**Course URL:** www.english.rice.edu (http://www.english.rice.edu)

ENGL 494 - SENIOR THESIS PREPARATION  
**Short Title:** SENIOR THESIS PREPARATION  
**Department:** English  
**Grade Mode:** Standard Letter  
**Course Type:** Research  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
**Course Level:** Undergraduate Upper-Level  
**Description:** Special work, research and preliminary preparation of a substantive research project for advanced English majors under the supervision of a member of the English department. Prerequisites: ENGL 200 and ENGL 300. Consult English department website for procedures and application. Instructor and department approval must be granted prior to registration. Instructor Permission Required. Repeatable for Credit.  
**Course URL:** www.english.rice.edu (http://www.english.rice.edu)
ENGL 495 - SENIOR THESIS
Short Title: SENIOR THESIS
Department: English
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ENGL 200 and ENGL 300 or (ENGL 493 or ENGL 494)
Description: Writing and completion of a substantive research project under the supervision of a member of the English department. Prior approval of instructor and department approval must be granted prior to registration. Consult English department website for procedures and application. Instructor and department approval must be granted prior to registration. Prerequisites: ENGL 200; ENGL 300; ENGL 493 or 494. Instructor Permission Required. Repeatable for Credit.
Course URL: www.english.rice.edu (http://www.english.rice.edu)

ENGL 497 - STUDIES IN LITERATURE AND CULTURE
Short Title: LITERATURE AND CULTURE
Department: English
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ENGL 200 and ENGL 300
Description: A variable topics course in a variety of fields and genres, such as City in Literature; Writing On/Writing Off New Orleans; and Literatures of Environmental Justice. Repeatable for Credit.
Course URL: www.english.rice.edu (http://www.english.rice.edu)

Department: English
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Course introduces the major critical voices in the transnational turn that has been underway in American literary studies for the last decade. Further, it focuses on a series of literary texts and case studies that have occasioned reanalysis of the critical tools and assumptions governing American studies.
Course URL: www.english.rice.edu (http://www.english.rice.edu)

ENGL 570 - African American Studies
Short Title: African American Studies
Department: English
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: A variable topics course. Please consult the English department website for additional course information. Recent topics have included Visual Cultures 1550-1800; Problems of Close Reading in literature and film; and Ecology & Philosophy.
Course URL: www.english.rice.edu (http://www.english.rice.edu)

ENGL 573 - Black Histories Lab: Digital Humanities & Black Studies
Short Title: Black Histories Lab
Department: English
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Combining the elements of a research practicum and traditional graduate seminar, the Black Histories Lab focuses on the study, preservation, histories, and cultures of African Americans. This research intensive graduate seminar combines African American literary and expressive culture, black feminist and critical race theory, and histories of American race relations with opportunities to participate in engaged research projects in digital humanities.

ENGL 577 - Emergent Media: Technologies, Networks, Culture
Short Title: Emergent Media: Tech, Net, Cult
Department: English
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course will delve deeply into media theory, examining the complex interplay between the emergence of new media technologies in different historical periods (past, present and future), the networks of commerce and creativity that fuel and arise from these innovations, and the cultural productions that result.
Course URL: www.english.rice.edu (http://www.english.rice.edu)

ENGL 581 - Cultural Studies: Contemporary Literature, Culture and Politics
Short Title: Contemplit., Culture & Poli
Department: English
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: A variable topics course. Please consult the English department website for additional course information. Recent topics have included Contemporary Issues in U.S. Culture and Studies in Sexuality. Thinking Sex Under Neo-Liberalism. Cross-list: SWGS 581. Repeatable for Credit.
Course URL: www.english.rice.edu (http://www.english.rice.edu)

ENGL 585 - Postcolonialism and Beyond
Short Title: Postcolonialism and Beyond
Department: English
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: A course that serves both as an introduction to postcolonial theory and as a reevaluation of its political and ethical ends vis-a-vis recent debates around globalization and cosmopolitanism. For additional course information please consult the English department website. Cross-list: SWGS 585.
Course URL: www.english.rice.edu (http://www.english.rice.edu)

ENGL 591 - Studies in Literature and Other Disciplines
Short Title: Studies in Lit & Other Discipl
Department: English
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: A variable topics course. Please consult the English department website for additional information. Recent topics have included Visual Cultures 1550-1800; Problems of Close Reading in Literature and Film; and Ecology & Philosophy. Repeatable for Credit.
Course URL: www.english.rice.edu (http://www.english.rice.edu)
ENGL 592 - STUDIES IN MODERNISM
Short Title: STUDIES IN MODERNISM
Department: English
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: A variable topics course. Please consult the English department website for additional course information. Recent topics have included What Was Modernism; and Joyce and Modernism. Repeatable for Credit.
Course URL: [www.english.rice.edu](http://www.english.rice.edu)

ENGL 596 - STUDIES IN MAJOR AMERICAN AUTHORS
Short Title: CONTEMP. LIT AND CULTURE
Department: English
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: A variable topics course. Please consult the English department website for additional course information. Recent topics have included Emerson and Posthumanism. Repeatable for Credit.
Course URL: [www.english.rice.edu](http://www.english.rice.edu)

ENGL 594 - STUDIES IN CONTEMPORARY LITERATURE AND CULTURE
Short Title: STUDIES IN CONTEMPORARY LITERATURE AND CULTURE
Department: English
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: A variable topics course. Please consult the English department website for additional course information. Recent topics have included Global English, Globalization and its Discontents; and Critical Regionalisms. Cross-list: HART 594. Repeatable for Credit.
Course URL: [www.english.rice.edu](http://www.english.rice.edu)

ENGL 604 - SPRING TEACHING OF LITERATURE AND COMPOSITION
Short Title: SPRING TEACHING OF LITERATURE AND COMPOSITION
Department: English
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Internship/Practicum
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Open only to those graduate students teaching independent courses in the English department in the fall semester. Repeatable for Credit.
Course URL: [www.english.rice.edu](http://www.english.rice.edu)

ENGL 602 - SPRING TEACHING PRACTICUM
Short Title: SPRING TEACHING PRACTICUM
Department: English
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Internship/Practicum
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Open only to those graduate students serving as teaching assistants for courses in English. Repeatable for Credit.
Course URL: [www.english.rice.edu](http://www.english.rice.edu)

ENGL 600 - TOPICS IN LITERARY STUDIES
Short Title: TOPICS IN LITERARY STUDIES
Department: English
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: The first in a two-semester sequence of courses designed to introduce first-year graduate students to different methods and theoretical approaches, to the history and culture of the university as an institution, and to professional genres. Restricted to first-semester graduate students in the English Department.
Course URL: [www.english.rice.edu](http://www.english.rice.edu)

ENGL 601 - FALL TEACHING PRACTICUM
Short Title: FALL TEACHING PRACTICUM
Department: English
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Internship/Practicum
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Open only to those graduate students serving as teaching assistants for courses in English. Repeatable for Credit.
Course URL: [www.english.rice.edu](http://www.english.rice.edu)

ENGL 603 - FALL TEACHING OF LITERATURE AND COMPOSITION
Short Title: FALL TEACHING OF LITERATURE AND COMPOSITION
Department: English
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Internship/Practicum
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Open only to graduate students teaching independent courses in the English department in the fall semester. Repeatable for Credit.
Course URL: [www.english.rice.edu](http://www.english.rice.edu)

ENGL 605 - SPRING TEACHING OF LITERATURE AND COMPOSITION
Short Title: SPRING TEACHING OF LITERATURE AND COMPOSITION
Department: English
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Internship/Practicum
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Open only to graduate students teaching independent courses in the English department in the spring semester. Repeatable for Credit.
Course URL: [www.english.rice.edu](http://www.english.rice.edu)
ENGL 605 - THIRD-YEAR WRITING WORKSHOP
Short Title: THIRD-YEAR WRITING WORKSHOP
Department: English
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: A course designed for students who want to pursue intensive semester-long study of a particular topic not included in the curriculum. Students must identify and receive the approval on an English department faculty member. Instructor and Department approval must be granted prior to registration. Instructor Permission Required. Repeatable for Credit.
Course URL: www.english.rice.edu (http://www.english.rice.edu)

ENGL 610 - TOPICS IN LITERARY STUDIES PART 2
Short Title: TOPICS IN LITERARY STUDIES 2
Department: English
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): ENGL 600
Description: The second in a two-semester sequence of courses designed to introduce first-year graduate students to different methods and theoretical approaches, to the history and culture of the university as an institution, and to professional genres.
Course URL: english@rice.edu (http://english@rice.edu)

ENGL 621 - FALL DIRECTED READING
Short Title: FALL DIRECTED READING
Department: English
Grade Mode: Standard Letter
Course Type: Independent Study
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: A course designed for students who want to pursue intensive semester-long study of a particular topic not included in the curriculum. Students must identify and receive the approval on an English department faculty member. Instructor and Department approval must be granted prior to registration. Instructor Permission Required. Repeatable for Credit.
Course URL: www.english.rice.edu (http://www.english.rice.edu)

ENGL 677 - SPECIAL TOPICS
Short Title: SPECIAL TOPICS
Department: English
Grade Mode: Standard Letter
Course Type: Internship/Practicum, Laboratory, Lecture, Seminar, Independent Study, Lecture/Laboratory
Credit Hours: 1-4
Restrictions: Enrollment is limited to Graduate or Visiting Graduate level students. 
Course Level: Graduate
Description: A course designed for students who want to pursue intensive semester-long study of a particular topic not included in the curriculum. Students must identify and receive the approval on an English department faculty member. Instructor Permission Required. Repeatable for Credit.
Course URL: www.english.rice.edu (http://www.english.rice.edu)

ENGL 600 - PHD RESEARCH AND THESIS
Short Title: PHD RESEARCH AND THESIS
Department: English
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Research
Credit Hours: 1-9
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Dissertation research for PhD candidates. Repeatable for Credit.
Course URL: www.english.rice.edu (http://www.english.rice.edu)

ENGL 603 - RESEARCH LEADING TO CANDIDACY YEAR 3
Short Title: RESEARCH LEADING TO CANDIDACY YEAR 3
Department: English
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Research
Credit Hours: 1-9
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Year 3 research leading to PhD candidacy. Repeatable for Credit.
Course URL: www.english.rice.edu (http://www.english.rice.edu)

ENGL 604 - RESEARCH LEADING TO CANDIDACY YEAR 4
Short Title: RESEARCH LEADING TO CANDIDACY YEAR 4
Department: English
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Research
Credit Hours: 1-9
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Year 4 research leading to PhD candidacy. Repeatable for Credit.
Course URL: www.english.rice.edu (http://www.english.rice.edu)

ENGL 705 - SUMMER RESEARCH LEADING TO CANDIDACY
Short Title: SUMMER CANDIDACY RESEARCH
Department: English
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Research
Credit Hours: 9
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Summer research leading to PhD candidacy. Repeatable for Credit.
Course URL: www.english.rice.edu (http://www.english.rice.edu)

ENGL 706 - PHD RESEARCH AND THESIS
Short Title: PHD RESEARCH AND THESIS
Department: English
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Research
Credit Hours: 1-9
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Dissertation research for PhD candidates. Repeatable for Credit.
Course URL: www.english.rice.edu (http://www.english.rice.edu)

Description and Code Legend
Note: Internally, the university uses the following descriptions, codes, and abbreviations for this academic program. The following is a quick reference:
Upon completing the BA degree with a major in English, students will be able to demonstrate:

1. Competence in literary analysis.
2. Understanding of literature in relation to its historical and socio-cultural contexts.
3. Disciplinary-specific methodological, critical, and theoretical training.
4. Critical writing skills in papers of varying length.
5. Disciplinary-specific research knowledge.

**Requirements for the BA Degree with a Major in English**

For general university requirements, see Graduation Requirements (p. 29). Students pursuing the BA degree with a major in English must complete:

- A minimum of 11 courses (33-36 credit hours, depending on course selection) to satisfy major requirements.
- A minimum of 120 credit hours to satisfy degree requirements.
- A minimum of 7 courses (21 credit hours) taken at the 300-level or above.
- The requirements for one area of specialization (see below for areas of specialization). When students declare the major (p. 17) in English, students must additionally identify and declare one of four areas of specialization, either in:
  - Culture and Social Change (p. 985), or
  - Literature and Literary History (p. 986), or
  - Science, Medicine, and the Environment (p. 987), or
  - Visual and Comparative Media (p. 987).

Because of the common core requirements, it is possible for students to change their area of specialization at any time, even after initially declaring the major. To do so, please contact the Office of the Registrar (registrar@rice.edu).

AP course credit is not permitted to count towards the major. The department recommends that all English majors take courses in British and American history and, if they plan to do graduate work, at least 6 credit hours of upper-level coursework in a foreign language.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor, or where applicable, the department’s Director of Undergraduate Studies. (Course substitutions must be formally applied and entered into Degree Works by the major’s Official Certifier [https://registrar.rice.edu/facstaff/degreeworks/officialcertifier].) Students and their academic advisors should identify and clearly document the courses to be taken.

**Bachelor of Arts (BA) Degree with a Major in English**

**Program Learning Outcomes for the BA Degree with a Major in English**

Upon completing the BA degree with a major in English, students will be able to demonstrate:
ENGL 300  PRACTICES OF LITERARY STUDY: READING METHODS  3

Pre-1900 and Pre-1800

Select 3 courses from Pre-1900 and Pre-1800 courses (see course list below). At least 2 of the 3 selected courses must be in fields designated as Pre-1800.

Critical Race, Postcolonial, and Gender Studies Requirement

Select 1 course from Critical Race, Postcolonial, and Gender Studies courses (see course list below).

Area of Specialization

Select 1 from the following Areas of Specialization (see Areas of Specialization below):

- Culture and Social Change
- Literature and Literary History
- Science, Medicine, and the Environment
- Visual and Comparative Media

Senior Seminar and Research Workshop Requirement 2

ENGL 410  SENIOR SEMINAR  3
ENGL 411  RESEARCH WORKSHOP  3

Total Credit Hours Required for the Major in English  33-36

Additional Credit Hours to Complete Degree Requirements *  53-56

University Graduation Requirements (p. 29) *  31

Total Credit Hours  120

Footnotes and Additional Information

* Note: University Graduation Requirements include 31 credit hours, comprised of Distribution Requirements (Groups I, II, and III), FWIS, and LPAP coursework. In some instances, courses satisfying major requirements may additionally meet distribution requirements.

Additional Credit Hours to Complete Degree Requirements include general electives, coursework completed as upper-level, residency (hours taken at Rice), and/or any other additional academic program requirements.

1 Specific course offerings will vary from semester to semester.

2 The Senior Seminar and Research Workshop requirement consists of the year-long, 6 credit hour senior seminar (ENGL 410) and research workshop (ENGL 411).

Course Lists to Satisfy Requirements

The following lists of courses can be used to satisfy the requirements of the major when available. Specific course offerings will vary from semester to semester. Courses not on the list may be taken upon approval of the department's Director of Undergraduate Studies. Requirements fulfilled by special topics field courses can vary.

Pre-1900 and Pre-1800 Requirement

Students must complete a total of 3 courses (9 credit hours) at the 200-level or above in periods before 1900. Of the 3 courses, 2 courses (6 credit hours) must be from the approved Pre-1800 coursework, but only one may be a Shakespeare course. The third required course may be an additional course from the Pre-1800 coursework or an approved Pre-1900 course.

Areas of Specialization
Students must complete the requirements as listed for one of the following areas of specialization as offered by the English major. A total of 3 courses (9-12 credit hours, depending on course selection) must be taken in the area of specialization.

Please note: When applicable, students may count one course from Core Requirements (the Pre-1900 and Pre-1800 Requirement or the Critical Race, Postcolonial, and Gender Studies Requirement) toward their chosen area of specialization. Additional coursework would then be required in order to complete a minimum of 11 courses (33-36 credit hours, depending on course selection) to satisfy major requirements. Please see an advisor for more information.

Area of Specialization: Culture and Social Change
To fulfill the remaining English major requirements, students pursuing the Culture and Social Change area of specialization must complete:

- a minimum of 3 courses (9 credit hours) from the Culture and Social Change area of specialization

Policies for the BA Degree with a Major in English

Transfer Credit

For Rice University's policy regarding transfer credit, see Transfer Credit (p. 37). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of transfer credit advisors on their website: https://aaa.rice.edu. Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines

Students pursuing the major in English should be aware of the following departmental transfer credit guidelines:

- Requests for transfer credit will be considered by the departmental Director of Undergraduate Studies (and/or the program's official transfer credit advisor) on an individual case-by-case basis.
- The English department does not award Rice equivalent transfer credit for coursework taken at community colleges, "for-profit" universities, or two-year colleges.

Distribution Credit Information

The determination of distribution credit eligibility is done initially as part of the new course creation process (https://registrar.rice.edu/facstaff/courseprocess/). Additionally, as part of an annual roll call (https://registrar.rice.edu/facstaff/distribution_credit/) coordinated each Spring by the Office of the Registrar, course distribution credit eligibility is routinely reviewed and reaffirmed by the Dean's Offices of each of the academic schools.

Faculty and leadership in the academic schools are responsible for ensuring that the courses identified as distribution-credit-eligible meet the criteria as set in the General Announcements (p. 29). Students are responsible for ensuring that they meet graduation requirements (p. 29) by completing coursework designated as distribution-credit-eligible at the time of course registration.

Distribution courses from English (ENGL) aim to develop students' critical and aesthetic understanding of texts and the arts, lead students to examine ideas and values, and introduce students to the craft of writing as it poses conceptual and intellectual problems. They engage students with works of culture that have intellectual importance by virtue of the ideas that they express, their historical influence, mode of expression, and critical engagement with established cultural assumptions and traditions.

Additional Information

For additional information, please see the English website: https://english.rice.edu/.

Opportunities for the BA Degree with a Major in English

Academic Honors

The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 51) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 51). Some departments have department-specific Honors awards or designations.

Study Abroad Program for English Majors at the University of Exeter

English majors may opt to spend the spring semester of their junior year at the University of Exeter in the U.K. Students planning to do so should complete ENGL 200 and ENGL 300 by the fall semester of their junior year (the semester preceding study abroad). At Exeter, students will take 2 courses or modules (each worth 30 Exeter credits) from Rice's approved list of Exeter Courses.

The approved courses taken abroad will be articulated on the Rice transcript as ENGL 325 (two instances of 3 credit hours each) with the remaining credit hours articulated as general TRAN credit. Final Exeter grades will also appear on the Rice transcript and be counted in the student's overall Rice GPA. With pre-approval from the Department, ENGL 325 may additionally count toward major field requirements (Pre-1800, Pre-1900, or Critical Race, Postcolonial, and Gender Studies).

For more information, please consult the Director of Undergraduate Studies in English and the Rice Study Abroad office.

Additional Information

For additional information, please see the English website: https://english.rice.edu/.

See https://humanities.rice.edu/student-life (https://humanities.rice.edu/student-life/) for tables of fellowships, prizes, and internships/practica that may be relevant to this major.

Bachelor of Arts (BA) Degree with a Major in English and a Major Concentration in Creative Writing

Program Learning Outcomes for the BA Degree with a Major in English and a Major Concentration in Creative Writing

Upon completing the BA degree with a major in English, students will be able to demonstrate:

1. Competence in literary analysis.
2. Understanding of literature in relation to its historical and socio-cultural contexts.
3. Disciplinary-specific methodological, critical, and theoretical training.
4. Critical writing skills in papers of varying length.
5. Disciplinary-specific research knowledge.
Requirements for the BA Degree with a Major in English and a Major Concentration in Creative Writing

For general university requirements, see Graduation Requirements (p. 29). Students pursuing the BA degree with a major in English, and a major concentration in Creative Writing, must complete:

- A minimum of 11 courses (33-34 credit hours, depending on course selection) to satisfy major requirements.
- A minimum of 120 credit hours to satisfy degree requirements.
- A minimum of 7 courses (21 credit hours) taken at the 300-level or above.
- The requirements for the major concentration in Creative Writing.

The department recommends that all English majors take courses in British and American history and, if they plan to do graduate work, at least 6 hours of upper-level courses in a foreign language. AP course credit is not permitted to count toward the major.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor, or where applicable, the department’s Director of Undergraduate Studies. (Course substitutions must be formally applied and entered into Degree Works by the major’s Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/).) Students and their academic advisors should identify and clearly document the courses to be taken.

Footnotes and Additional Information

* Note: University Graduation Requirements include 31 credit hours, comprised of Distribution Requirements (Groups I, II, and III), FWIS, and LPAP coursework. In some instances, courses satisfying major requirements may additionally meet distribution requirements. Additional Credit Hours to Complete Degree Requirements include general electives, coursework completed as upper-level, residency (hours taken at Rice), and/or any other additional academic program requirements.

1 Specific course offerings will vary from semester to semester.

2 The Senior Seminar and Research Workshop requirement consists of the year-long, 6 credit hour senior seminar (ENGL 410) and research workshop (ENGL 411).

Course Lists to Satisfy Requirements

The following lists of courses can be used to satisfy the requirements of the major when available. Specific course offerings will vary from semester to semester. Courses not on the list may be taken upon approval of the department’s Director of Undergraduate Studies. Requirements fulfilled by special topics field courses can vary.

Pre-1900 and Pre-1800 Requirement

Students must complete a total of 2 courses (6 credit hours) at the 200-level or above in periods before 1900. Of the 2 courses, 1 course (3 credit hours) must be from the approved Pre-1800 coursework, but only one may be a Shakespeare course. The second required course may be an additional course from the Pre-1800 coursework or an approved Pre-1900 course.

Footnotes and Additional Information

1 In order to fulfill the 200-level Elective category for the major concentration in Creative Writing, ENGL 213 must be taken twice (for a total of 3 credit hours).

Policies for the BA Degree with a Major in English and a Major Concentration in Creative Writing

Transfer Credit

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 37). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines

Students pursuing the major in English should be aware of the following departmental transfer credit guidelines:

- Requests for transfer credit will be considered by the departmental Director of Undergraduate Studies (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.
- The English department does not award Rice equivalent course transfer credit for coursework taken at community colleges, “for-profit” universities, or two-year colleges.

Distribution Credit Information

The determination of distribution credit eligibility is done initially as part of the new course creation process (https://registrar.rice.edu/facstaff/courseprocess/). Additionally, as part of an annual roll call (https://registrar.rice.edu/facstaff/distribution_credit/) coordinated each Spring by the Office of the Registrar, course distribution credit eligibility is routinely reviewed and reaffirmed by the Dean's Offices of each of the academic schools.

Faculty and leadership in the academic schools are responsible for ensuring that the courses identified as distribution-credit-eligible meet the criteria as set in the General Announcements (p. 29). Students are responsible for ensuring that they meet graduation requirements (p. 29) by completing coursework designated as distribution-credit-eligible at the time of course registration.

Distribution courses from English (ENGL) aim to develop students’ critical and aesthetic understanding of texts and the arts, lead students to examine ideas and values, and introduce students to the craft of writing as it poses conceptual and intellectual problems. They engage students with works of culture that have intellectual importance by virtue of the ideas that they express, their historical influence, mode of expression, and critical engagement with established cultural assumptions and traditions.

Additional Information

For additional information, please see the English website: https://english.rice.edu/.

Opportunities for the BA Degree with a Major in English and a Major Concentration in Creative Writing

Academic Honors

The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (p. 51) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 51). Some departments have department-specific Honors awards or designations.

Study Abroad Program for English Majors at the University of Exeter

English majors may opt to spend the spring semester of their junior year at the University of Exeter in the U.K. Students planning to do so should complete ENGL 200 and ENGL 300 by the fall semester of their junior year (the semester preceding study abroad). At Exeter, students will take 2 courses or modules (each worth 30 Exeter credits) from Rice's approved list of Exeter Courses.

The approved courses taken abroad will be articulated on the Rice transcript as ENGL 325 (two instances of 3 credit hours each) with the remaining credit hours articulated as general TRAN credit. Final Exeter grades will also appear on the Rice transcript and be counted in the...
For more information, please consult the Director of Undergraduate Studies in English and the Rice Study Abroad office.

Additional Information
For additional information, please see the English website: https://english.rice.edu/. See https://humanities.rice.edu/student-life (https://humanities.rice.edu/student-life/) for tables of fellowships, prizes, and internships/practica that may be relevant to this major.

Doctor of Philosophy (PhD) Degree in the field of English

Program Learning Outcomes for the MA and PhD Degrees in the field of English

Upon completing the MA and PhD degrees in the field of English, students will be able to:

1. Apply advanced knowledge of literary, cultural, and critical studies, including: critical reading, thinking, and writing; professional methodologies; literary and cultural histories, and theoretical and interdisciplinary perspectives.
2. Demonstrate breadth and depth of knowledge in fields of specialization for research and teaching.
3. Demonstrate the ability to teach literature and culture at the university level.
4. Demonstrate professional level skills in public and oral presentation through participation in symposia, work-in-progress groups, conferences, and in-course presentations.
5. Demonstrate the capacity to create professional-level and ultimately publishable research that makes original contributions to scholarly debates.

Requirements for the MA and PhD Degrees in the field of English

MA Degree Program

The MA degree is a non-thesis master’s degree. For general university requirements, please see Non-Thesis Master's Degrees (p. 75). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 60). The English department does not have an MA program, but offers the MA degree to those PhD students who have achieved candidacy and are in the process of completing the doctorate, and to qualified PhD students who leave the program before completing the doctorate. To receive an MA students must:

- Satisfactorily complete at least 33 hours of graduate work in English at Rice University. Courses must be those that count towards the PhD in English. Students must satisfactorily complete ENGL 600 and ENGL 610 as well as distribution requirements for the PhD (see above).

- Satisfactorily complete two teaching assistantships (ENGL 601/ENGL 602) and two research assistantships. These do not count toward the 33-hour requirement.

Distribution Requirements

Select 7 additional courses as Electives at the 500-level or above

Footnotes and Additional Information

1. The distribution requirements consist of two courses before 1800 and two courses after 1800. These four courses count toward the 13-course requirement.

Requirements for the PhD Degree in the field of English

For general university requirements, please see Doctoral Degrees (p. 72). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 60). As part of their training, graduate students participate in both the teaching and research activities of the department. Upon entering, students will be assigned to a Program Advisory Committee (PAC), consisting of two faculty members. In consultation with their PAC, students will design their own individualized program structured by the requirements listed below. For more detailed information, please see the department’s Graduate Handbook found under the Policies (p. 993) tab.

PhD Degree Program

To gain admission to PhD candidacy, students must satisfy the first six of the following requirements. To earn a PhD in English, candidates also must complete the last two requirements. Students must:

1. Satisfactorily complete a minimum of 13 graduate courses, of which at least 10 must be graduate seminars. With the approval of the PAC, students may enroll in ENGL 621, either as a traditional directed reading course or in conjunction with a 400-level English course to which a graduate component has been added. ENGL 621 counts toward the 13 required graduate courses but does not count as a graduate seminar. Students also are encouraged to take graduate courses in other departments related to their areas of interest. These will count toward the 13-course requirement but not usually for distribution.
2. Satisfactorily complete the following three required courses:
ENGL 600, ENGL 610, and ENGL 605. These count toward the 13-course requirement.
3. Satisfactorily complete the distribution requirement, which consists of two courses before 1800 and two after 1800. These count toward the 13-course requirement.
4. Satisfactorily complete the teaching requirement by serving twice as a teaching assistant, completing ENGL 510, and teaching at least one lower-level course designed in conjunction with the instructor of ENGL 510. ENGL 510 counts toward the 13-course requirement.
5. Pass a qualifying exam that consists of two qualifying papers, and an oral exam. Refer to the department's Graduate Handbook found under the Policies (p. 993) tab.
6. Complete a thesis prospectus that defines the topic of the thesis, the particular argument that the doctoral document hopes to develop about the topic, and the relevance and importance of the thesis' argument to debate in the student's chosen field(s). The thesis prospectus and a satisfactory draft of a chapter must be approved for the student to advance to candidacy. Refer to the department's Graduate Handbook found under the Policies (p. 993) tab.
7. Complete a thesis that demonstrates independent and original academic work of high quality.

Micaela McGlone
Senior Associate Director
Micaela.McGlone@rice.edu

The Entrepreneurship minor provides Rice students with a pathway to pursue rigorous and interdisciplinary study in the field of innovation and entrepreneurship, enabling students to understand the theory and
frameworks behind different disciplinary aspects of entrepreneurship and how to apply these theories to develop and scale innovative solutions to societal problems.

At the heart of the Entrepreneurship minor is the entrepreneurial process and mindset. This structured process has its origins in decades of research exploring the process for commercialization of new technologies and the launching of new ventures. The process includes identifying an unmet user and customer need, articulating a value proposition, developing a strategy to bring new concepts to market, designing a sustainable business model, assessing market traction, communicating a vision to key stakeholders, and building and managing appropriate teams. The process involves the mastery of theory-driven frameworks, tools and competencies, and, as in engineering and the sciences, the practical application of these theories.

As a joint offering with the George R. Brown School of Engineering, the Entrepreneurship minor is an interdisciplinary course of study drawing on multiple disciplines, with oversight from the Jones Graduate School of Business. The campus-wide, multi-disciplinary Liu Idea Lab for Innovation and Entrepreneurship (Lilie), serves as a home for the minor. Working out of Lilie, students will demonstrate their mastery in a final capstone project to be completed in the final year of study.

Entrepreneurship does not currently offer an academic program at the graduate level.

Minor in Entrepreneurship

Program Learning Outcomes for the Minor in Entrepreneurship

Upon completing the minor in Entrepreneurship, students will be able to:
1. Execute the steps of the entrepreneurial process.
2. Demonstrate knowledge of the entrepreneurial mindset.
3. Communicate effectively the value of an entrepreneurial venture.

Requirements for the Minor in Entrepreneurship

Students pursuing the minor in Entrepreneurship must complete:

• A minimum of 6 courses (18 credit hours) to satisfy minor requirements.
• A minimum of 3 courses (9 credit hours) taken at the 300-level or above.
• 4 courses (12 credit hours) to satisfy the Core Requirements.
• 1-2 courses, depending on course selection, (3 credit hours) to satisfy the Elective Requirement.
• 1 course (3 credit hours) to satisfy the Capstone Requirement.

The courses listed below satisfy the requirements for this minor. In certain instances, courses not on this official list may be substituted upon approval of the minor’s academic advisor, or where applicable, the Program Director. (Course substitutions must be formally applied and entered into Degree Works by the minor’s Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/). Students and their academic advisors should identify and clearly document the courses to be taken.

PSM Program Director
dkbeck@rice.edu

The professional master’s degree in Environmental Analysis teaches students rigorous methods that are needed by business and governmental organizations to deal with environmental issues. As an interdisciplinary program, the MS in Environmental Analysis degree aims to give students the ability to not only remediate and solve environmental problems, but also to predict possible environmental impacts to enable avoidance and mitigation of consequences. The Environmental Analysis curriculum not only emphasizes core quantitative topics such as statistics, remote sensing, data analysis, and modeling, but also expands students’ knowledge in environmental engineering and science, and broadens their understanding of management and business including communication and leadership training and the flexibility to tailor their interest area by taking electives in relevant fields.

The MS in Environmental Analysis (MSEA) degree is part of the professional science master’s (PSM) program at Rice housed in the Wiess School of Natural Sciences. These master’s degrees are designed for students seeking to gain further scientific core expertise coupled with enhanced management and communications skills. They instill a level of scholastic proficiency that exceeds that of the bachelor’s level, and create the cross-functional aptitudes needed in modern industry. Skills acquired in this program will allow students to move more easily into management careers in consulting or research and development, design, and marketing of new science-based products.

A coordinated MBA/MSEA degrees program is also offered in conjunction with the Jesse H. Jones Graduate School of Business.
Environmental Analysis does not currently offer an academic program at the undergraduate level.

**Master’s Program**

1 Classification of Instructional Programs (CIP) 2020 Codes and Descriptions from the National Center for Education Statistics: [https://nces.ed.gov/ipeds/cipcode/](https://nces.ed.gov/ipeds/cipcode/)

**Master of Science in Environmental Analysis (MSEA) Degree**

**Program Learning Outcomes for the MSEA Degree**
Upon completing the MSEA Degree, students will be able to:

1. Apply technical and analytical skills and scientific evaluation methods to help solve problems affecting the environment.
2. Demonstrate written, oral, and visual communication strategies required to work effectively across science, business, and government.
3. Possess business and management skills and professional ethics to be effective in a business environment.

**Requirements for the MSEA Degree**
The MSEA degree is a non-thesis master's degree. For general university requirements, please see [Non-Thesis Master's Degrees](p. 75). For additional requirements, regulations, and procedures for all graduate programs, please see [All Graduate Students](p. 60). Students pursuing the MSEA degree must complete:

- A minimum of 14 courses (minimum of 39 credit hours) to satisfy degree requirements.
- A minimum of 30 credit hours of graduate-level study (graduate semester credit hours, coursework at the 500-level or above).
- A minimum of 4 graduate semester credit hours must be taken at Rice University.
- A minimum of 24 graduate semester credit hours must be taken in standard or traditional courses (with a course type of lecture, seminar, laboratory, lecture/laboratory, etc.).
- A minimum residency enrollment of one fall or spring semester of part-time graduate study at Rice University.
- A maximum of 2 courses (6 graduate semester credit hours) from transfer credit. For additional departmental guidelines regarding transfer credit, see the Policies (p. 998) tab.
- A 3-6 month internship. Instead of a thesis, at the conclusion of their internship, students must present their internship project in both oral and written form as part of the Professional Master’s Project (NSCI 512). Part-time students who already work in their area of study may request approval to fulfill the internship requirement by working on a specific, pre-approved project with their current employer.
- A minimum overall GPA of 2.67 or higher in all Rice coursework.
- A minimum program GPA of 2.67 or higher in all Rice coursework that satisfies requirements for the non-thesis master’s degree.

*Note: Some of the listed courses are not offered every year, and some may also have prerequisites or require instructor permission.*

The courses listed below satisfy the requirements for this degree program. In certain instances, courses not on this official list may
be substituted upon approval of the program's academic advisor, or where applicable, the department or program's Director of Graduate Studies. Course substitutions must be formally applied and entered into Degree Works by the department or program's Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/). Additionally, these must be approved by the Office of Graduate and Postdoctoral Studies. Students and their academic advisors should identify and clearly document the courses to be taken.

¹ Students and their academic advisors should identify and clearly document the courses to be taken.
² Select a minimum of 7 courses (minimum of 21 credit hours) as electives from courses listed below.
³ The following courses may be taken as electives: BIOS 523, BIOS 563, BIOS 568, BIOS 569, BIOS 573, BIOS 580, CEVE 501, CEVE 502, CEVE 507, CEVE 508, CEVE 509, CEVE 511, CEVE 518, CEVE 520, CEVE 523, CEVE 526, CEVE 534, CEVE 535, CEVE 536, CEVE 544, CEVE 550, DSCI 535 / COMP 549, EEPS 592, EEPS 632, EEPS 635, EEPS 645, EEPS 699, MGMT 658, MGMT 758, ECON 611 or MGMT 61, GLBL 543, MGMT 609, MGMT 610, MGMT 661, MGMT 670, MGMT 676, MGMT 721, MGMT 747, MGMT 758, NSCI 515.
CEVE 528 / ENGINEERING ECONOMICS
ENG 528
DSCI 535 / APPLIED MACHINE LEARNING AND DATA
COMP 549 SCIENCE PROJECTS
EEPS 635 REMOTE SENSING
EEPS 645 EARTH AND PLANETARY INTERIORS
EEPS 699 GRAPHIC AND VISUAL DESIGN FOR
SCIENTISTS
NSCI 515 FOUNDATIONS OF PROJECT AND
PROGRAM MANAGEMENT
STAT 553 BIOSTATISTICS
STAT 605 R FOR DATA SCIENCE
or STAT 606 SAS STATISTICAL PROGRAMMING
STAT 615 REGRESSION AND LINEAR MODELS

Total Credit Hours 39

Footnotes and Additional Information
1 Practical experience is offered via a three to six month immersion. The internship will be under the guidance of a host company, government agency, or non-profit organization. At the conclusion of the internship, students must present a summary of their internship project in both oral and written form as part of the cohort course Professional Master's Project (NSCI 512). Part-time students who already work in their area of study may fulfill the internship requirements by working on an approved project with their current employer.

2 The 21 credit hours of electives must include at least 3 credit hours from Management and Policy, 9 credit hours from one focus area, and one course each from the following subject codes: Biosciences (BIOS), Civil and Environmental Engineering (CEVE), and Statistics (STAT).

3 Note: Some of the listed courses are not offered every year, and other coursework may be offered that satisfies the stated requirements upon approval. Depending on the student's background or interest, course substitutions for any required or elective course may be approved by the program's academic advisor. Students should consult with their academic advisors before enrolling.

Policies for the MSEA Degree

Professional Science Master’s Graduate Program Handbook
The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, the Professional Science Master's Program publishes a graduate program handbook, which can be found here: https://gradhandbooks.rice.edu/2021_22/ Professional_Science_Masters_Handbook.pdf

Admission
Admission to graduate study in Environmental Analysis is open to qualified students holding a bachelor's degree in a related field that includes general biology, chemistry, calculus, differential equations, and linear algebra. Department faculty evaluate the previous academic record and credentials of each applicant individually.

Transfer Credit
For Rice University's policy regarding transfer credit, see Transfer Credit (p. 70). Some departments and programs have additional restrictions on transfer credit. Students are encouraged to meet with their academic program's advisor when considering transfer credit possibilities.

Program Transfer Credit Guidelines
Students pursuing the MSEA degree should be aware of the following program-specific transfer credit guidelines:

• No more than 2 courses (6 credit hours) of transfer credit from U.S. or international universities of similar standing as Rice may apply towards the degree.
• Requests for transfer credit will be considered by the program director on an individual case-by-case basis.

Additional Information
For additional information, please see the Environmental Analysis website: https://profs.rice.edu/

Opportunities for the MSEA Degree

Fifth-Year Master’s Degree Option for Rice Undergraduate Students
In certain situations and with some terminal master’s degree programs, Rice students have an option to pursue a master’s degree by adding an additional fifth year to their four years of undergraduate studies.

Advanced Rice undergraduate students in good academic standing typically apply to the master's degree program during their junior or senior year. Upon acceptance, depending on course load, financial aid status, and other variables, they may then start taking some required courses of the master’s degree program. A plan of study will need to be approved by the student's undergraduate major advisor and the master's degree program director.

As part of this option and opportunity, Rice undergraduate students:

• must complete the requirements for a bachelor's degree and the master's degree independently of each other (i.e. no course may be counted toward the fulfillment of both degrees).
• should be aware there could be financial aid implications if the conversion of undergraduate coursework to that of graduate level reduces their earned undergraduate credit for any semester below that of full-time status (12 credit hours).
• more information on this Undergraduate - Graduate Concurrent Enrollment opportunity, including specific information on the registration process can be found here (p. 20).

Rice undergraduate students completing studies in science may have the option to pursue the Master of Science in Environmental Analysis (MSEA) degree. For additional information, students should contact their undergraduate major advisor, the faculty MSEA program director, and the Professional Science Master's (PSM) program director.

Additional Information
For additional information, please see the Environmental Analysis website: https://profs.rice.edu/
Master of Science in Environmental Analysis (MSEA) Degree / Master of Business Administration (MBA) Degree

Program Learning Outcomes for the MSEA Degree

Upon completing the MSEA Degree, students will be able to:

1. Apply technical and analytical skills and scientific evaluation methods to help solve problems affecting the environment.
2. Demonstrate written, oral, and visual communication strategies required to work effectively across science, business, and government.
3. Possess business and management skills and professional ethics to be effective in a business environment.

Program Learning Outcomes for the MBA Degree

Upon completing the MBA degree, students will be able to:

1. Demonstrate an understanding and application of the foundational frameworks and tools of all business disciplines, including accounting, finance, marketing, organizational behavior, and strategic management.
2. Develop, evaluate, and implement complex business strategies and operational solutions holistically, integrating management principles across the functional areas.
3. Function effectively in a team setting both as a leader and a contributor.

Requirements for the MSEA/MBA Coordinated Degrees Program

Students may earn a coordinated MBA degree and a Master of Science degree from the Wiess School of Natural Sciences Professional Science Master's (PSM) program in the following fields:

- Bioscience and Health Policy (MSBHP)
- Environmental Analysis (MSEA)
- Space Studies (MSSpS)
- Subsurface Geoscience (MSSG)

For the coordinated MBA/Master of Science degree from the Professional Science Master's (PSM) program, students must complete:

- A minimum of 75 credit hours in approved coursework, including:
  - A minimum of 30 credit hours of graduate-level study (coursework at the 500-level or above) to satisfy the Professional Science Master's (PSM) degree requirements
  - A minimum of 30 credit hours in the corresponding science discipline
  - All PSM degree-specific requirements
  - A three to six month internship
  - A minimum of 45 credit hours of graduate-level study (coursework at the 500-level or above) to satisfy the MBA degree requirements

- A minimum of 45 credit hours of business coursework
- All MBA core requirements, the global field coursework, custom core requirements, and coordinated elective requirements

Students plan their course schedules in consultation with the Wiess School of Natural Sciences PSM program director and with the Jones Graduate School of Business Registrar Department. Coordinated degrees candidates can fulfill requirements for both degrees within 3 academic years.

For general university requirements, see Graduate Degrees (p. 57). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 60). Candidates in the MBA/Master of Science degree from the Professional Science Master's (PSM) program must complete all requirements as listed for both degrees, and must apply and be accepted in both degree programs.

The courses listed below satisfy the requirements for this degree program. In certain instances, courses not on this official list may be substituted upon approval of the program's academic advisor, or where applicable, the department or program's Director of Graduate Studies. Course substitutions must be formally applied and entered into Degree Works by the department or program's Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/). Additionally, these must be approved by the Office of Graduate and Postdoctoral Studies. Students and their academic advisors should identify and clearly document the courses to be taken.

Amy Dunham
Undergraduate Advisor, major concentration in Ecology and Evolutionary Biology
aed4@rice.edu

Evan Siemann
Undergraduate Advisor, major concentration in Ecology and Evolutionary Biology
siemann@rice.edu

Environmental Science is an interdisciplinary field that explores the interconnection between humans and the natural environment. Modern environmental issues reflect the complex interactions of natural and social systems at global and local scales, and the resulting impacts on the Earth have led many to ask whether humankind has entered into a new epoch in the planet’s history, one in which humans are now a key driver in the change of Earth systems. The Environmental Science program fosters the critical, integrative thinking required to better understand the complexities of this human-nature relationship and the resultant scales of impact, and to assess and develop solutions that meet intergenerational human needs without compromising the natural systems upon which humans depend.

The Environmental Science program offers a major in Environmental Science for both the BA and BS degrees, along with two paths, a major concentration in Earth Science, or a major concentration in Ecology and Evolutionary Biology. The program includes a number of interdisciplinary courses for students interested in broadening their understanding of environmental issues. These courses often are team-taught by faculty from various areas of study.

Students desiring a major with an environmental emphasis have multiple options:

- environmental science (the aforementioned major, earned through the pursuit of the BA or BS degree)
- environmental engineering (an area of specialization within the Bachelor of Science in Chemical Engineering (BSChE) degree)
- environmental engineering (a major concentration within the Bachelor of Arts (BA) degree with a major in Civil and Environmental Engineering)
- environmental engineering (an area of specialization within the Bachelor of Science in Civil Engineering (BSCE) degree)
- environmental earth science (an area of specialization within the Bachelor of Science (BS) degree with a major in Earth, Environmental, and Planetary Sciences)

Students seeking information or advice on the Environmental Science major should contact:

- Dr. Caroline A. Masiello (masiello@rice.edu) for the major concentration in Earth Science, or
- Dr. Evan Siemann (siemann@rice.edu) for the major concentration in Ecology and Evolutionary Biology.
Bachelor’s Programs

- Bachelor of Arts (BA) Degree with a Major in Environmental Science
  - and a Major Concentration in Earth Science (p. 1001)
  - and a Major Concentration in Ecology and Evolutionary Biology (p. 1005)
- Bachelor of Science (BS) Degree with a Major in Environmental Science
  - and a Major Concentration in Earth Science (p. 1008)
  - and a Major Concentration in Ecology and Evolutionary Biology (p. 1011)

Environmental Science does not currently offer an academic program at the graduate level.

Environmental Science Major Advisors

Caroline A. Masiello, Earth, Environmental and Planetary Sciences
Julia K. Morgan, Earth, Environmental and Planetary Sciences
Amy E. Dunham, Ecology and Evolutionary Biology
Evan Siemann, Ecology and Evolutionary Biology

For Rice University degree-granting programs:

To view the list of official course offerings, please see Rice's Course Catalog (https://courses.rice.edu/admweb/!SWKSCAT.cat?p_action=cata)

To view the most recent semester’s course schedule, please see Rice’s Course Schedule (https://courses.rice.edu/admweb/!SWKSCAT.cat)

Descriptions and Codes Legend

Note: Internally the university uses the following descriptions, codes, and abbreviations for this academic program. The following is a quick reference:

Course Catalog/Schedule

- Course offerings/subject code: Courses from various subjects may apply toward the degree

Department Description and Code

- Environmental Studies: ENST

Undergraduate Degree Descriptions and Codes

- Bachelor of Arts degree: BA
- Bachelor of Science degree: BS

Undergraduate Major Description and Code

- Major in Environmental Science (both the BA and BS Degrees): ENVS

Undergraduate Major Concentration Descriptions and Codes

- Major concentration in Earth Science (both the BA and BS Degrees): ESEA
- Major concentration in Ecology and Evolutionary Biology (both the BA and BS Degrees): ESEC

CIP Code and Description

- ENVS Major/Program: CIP Code/Title: 03.0104 - Environmental Science
- ESEA Major Concentration: CIP Code/Title: 40.0601 - Geology/Earth Science, General
- ESEC Major Concentration: CIP Code/Title: 26.1310 - Ecology and Evolutionary Biology

1 Classification of Instructional Programs (CIP) 2020 Codes and Descriptions from the National Center for Education Statistics: https://nces.ed.gov/ipeds/cipcode/

Bachelor of Arts (BA) Degree with a Major in Environmental Science and a Major Concentration in Earth Science

Program Learning Outcomes for the BA Degree with a Major in Environmental Science

Upon completing the BA degree with a major in Environmental Science, students will be able to:

1. Demonstrate foundational knowledge in the natural sciences that is fundamental to the environmental sciences or application of the environmental sciences to other fields.
2. Integrate knowledge of natural and applied sciences to understand complex natural systems and cycles.
3. Synthesize knowledge from natural sciences and engineering and understand how it applies to the study of the environment.
4. Understand environmental issues from a scientific perspective and be able to solve issues using a variety of interdisciplinary perspectives (e.g., social sciences, economics, humanities, and/or architecture).

Requirements for the BA Degree with a Major in Environmental Science

For general university requirements, see Graduation Requirements (p. 29).

Students pursuing the BA degree with a major in Environmental Science must complete:

- A minimum of 23-24 courses (66-71 credit hours), depending on course selection, to satisfy major requirements.
- A minimum of 120 credit hours to satisfy degree requirements.
- A minimum of 4-6 courses (12-21 credit hours), depending on declared major concentration, taken at the 300-level or above.
- A capstone senior seminar requirement.
- The requirements of a major concentration. When students declare the major (p. 17) in Environmental Science, students must additionally identify and declare one of two major concentrations, either in:
  - Earth Science (p. 1003), or
  - Ecology and Evolutionary Biology (p. 1007).

Because of the common core requirements, it is possible for students to change their major concentration at any time, even after initially declaring the major. To do so, please contact the Office of the Registrar (registrar@rice.edu).

Environmental science is an interdisciplinary major that addresses environmental issues in the context of what we know about earth, ecology, and society. In addition to its science core, the major also seeks to provide students with some appreciation of social, cultural, and policy dimensions of environmental issues.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted.
upon approval of the major’s academic advisor, or where applicable, the department’s Director of Undergraduate Studies. (Course substitutions must be formally applied and entered into Degree Works by the major’s Official Certifier (link to registrar.rice.edu/facstaff/degreeworks/officialcertifier/).) Students and their academic advisors should identify and clearly document the courses to be taken.

### Footnotes and Additional Information

1. CHEM 151 may be substituted for CHEM 121 or CHEM 111; CHEM 153 may be substituted for CHEM 123 or CHEM 113; CHEM 152 may be substituted for CHEM 122 or CHEM 112, and CHEM 154 may be substituted for CHEM 124 or CHEM 114.
2. The Core Courses acquaint students with a range of environmental topics encountered by scientists, engineers, managers, and policy makers. Core Courses stress the components of the global environment and their interactions, culminating with a tropical seminar that integrates across the field.
3. Students may also petition to complete alternative courses to be applied toward the Advanced Electives requirement.
4. In addition to the courses in the Natural Sciences and Engineering Advanced Electives list, students may complete 1 course listed in the major concentration requirements outside of the student’s declared major concentration.

### Major Concentration: Earth Science

Students must complete a total of 3 courses (minimum of 10-12 credit hours, depending on course selection) as listed below to satisfy the requirements for the major concentration in Earth Science.

#### Code | Title                                            | Credit Hours |
--- | --- | --- |
EEPS 321 | EARTH AND PLANETARY SURFACE ENVIRONMENTS | 7-8 |
EEPS 322 | EARTH AND PLANETARY CHEMISTRY AND MATERIALS | |
EEPS 323 | EARTH AND PLANETARY STRUCTURE AND DYNAMICS | |
EEPS 340 | GLOBAL BIOGEOCHEMICAL CYCLES | |

Total Credit Hours: 10-12

Footnotes and Additional Information
1. Note that the course not completed in the Core Requirements list for the major concentration in Earth Science may be completed and applied towards the major concentration's Elective Requirement.

Policies for the BA Degree with a Major in Environmental Science and a Major Concentration in Earth Science

Program Restrictions and Exclusions
Students pursuing the BA Degree with a Major in Environmental Science and a Major Concentration in Earth Science should be aware of the following program restrictions:

- As noted in Majors, Minors, and Certificates (p. 17) under Declaring Majors, Minors and Certificates, students may not obtain both a BA and a BS in the same major. Students pursuing the BA Degree with a Major in Environmental Science and a Major Concentration in Earth Science may not additionally pursue the BS Degree with a major in Environmental Science.
- Students pursuing the major in Environmental Science may pursue only one major concentration within the major.
- Students pursuing the major in Environmental Science may not additionally declare the major in Earth, Environmental, and Planetary Sciences.

Transfer Credit
For Rice University's policy regarding transfer credit, see Transfer Credit (p. 37). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

Program Transfer Credit Guidelines
Students pursuing the major in Environmental Science should be aware of the following program transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program's official transfer credit advisor) on an individual case-by-case basis.

Additional Information
For additional information, please see the following websites:

- https://biosciences.rice.edu/

Opportunities for the BA Degree with a Major in Environmental Science and a Major Concentration in Earth Science

Academic Honors
The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 51) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 51). Some departments have department-specific Honors awards or designations.

Independent Research
Students are encouraged to undertake independent research on environmentally related topics as part of their degree programs, in cooperation with one or more faculty. Course options for independent research, repeatable for credit, include: BIOS 401, BIOS 402, and EEPS 481.

Students also can enroll in senior honors thesis programs within their major concentrations, or by arrangement with other departments, and/or through the Rice Undergraduate Scholars Program. Students completing a thesis will also be eligible for the Distinction in Research and Creative Work, a university honor. Details for each program can be found here:

- BIOS Honors Research (https://biosciences.rice.edu/research-overview (https://biosciences.rice.edu/research-overview/))
- Rice Undergraduate Scholars Program (https://ouri.rice.edu/rusp (https://ouri.rice.edu/rusp/))

Additional Information
For additional information, please see the following websites:

- https://biosciences.rice.edu/
- https://earthscience.rice.edu/academics/undergraduate-program/
Bachelor of Arts (BA) Degree with a Major in Environmental Science and a Major Concentration in Ecology and Evolutionary Biology

Program Learning Outcomes for the BA Degree with a Major in Environmental Science

Upon completing the BA degree with a major in Environmental Science, students will be able to:

1. Demonstrate foundational knowledge in the natural sciences that is fundamental to the environmental sciences or application of the environmental sciences to other fields.
2. Integrate knowledge of natural and applied sciences to understand complex natural systems and cycles.
3. Synthesize knowledge from natural sciences and engineering and understand how it applies to the study of the environment.
4. Understand environmental issues from a scientific perspective and be able to solve issues using a variety of interdisciplinary perspectives (e.g., social sciences, economics, humanities, and/or architecture).

Requirements for the BA Degree with a Major in Environmental Science

For general university requirements, see Graduation Requirements (p. 29). Students pursuing the BA degree with a major in Environmental Science must complete:

- A minimum of 23-24 courses (66-71 credit hours), depending on course selection, to satisfy major requirements.
- A minimum of 120 credit hours to satisfy degree requirements.
- A minimum of 4-6 courses (12-21 credit hours), depending on declared major concentration, taken at the 300-level or above.
- A capstone senior seminar requirement.
- The requirements of a major concentration. When students declare the major (p. 17) in Environmental Science, students must additionally identify and declare one of two major concentrations, either in:
  - Earth Science (p. 1003), or
  - Ecology and Evolutionary Biology (p. 1007).

Because of the common core requirements, it is possible for students to change their major concentration at any time, even after initially declaring the major. To do so, please contact the Office of the Registrar (registrar@rice.edu).

Environmental science is an interdisciplinary major that addresses environmental issues in the context of what we know about earth, ecology, and society. In addition to its science core, the major also seeks to provide students with some appreciation of social, cultural, and policy dimensions of environmental issues.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor, or where applicable, the department’s Director of Undergraduate Studies. (Course substitutions must be formally applied and entered into Degree Works by the major’s Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/).) Students and their academic advisors should identify and clearly document the courses to be taken.

**Total Credit Hours Required for the Major in Environmental Science**

| Total Credit Hours Required for the Major in Environmental Science | 66-71 |

Additional Credit Hours to Complete Degree Requirements

* | 18-23 |
Footnotes and Additional Information

Note: University Graduation Requirements include 31 credit hours, comprised of Distribution Requirements (Groups I, II, and III), FWIS, and LPAP coursework. In some instances, courses satisfying major requirements may additionally meet distribution requirements. Additional Credit Hours to Complete Degree Requirements include general electives, coursework completed as upper-level, residency (hours taken at Rice), and/or any other additional academic program requirements.

1 CHEM 151 may be substituted for CHEM 121 or CHEM 111; CHEM 153 may be substituted for CHEM 123 or CHEM 113; CHEM 152 may be substituted for CHEM 122 or CHEM 112, and CHEM 154 may be substituted for CHEM 124 or CHEM 114.

2 The Core Courses acquaint students with a range of environmental topics encountered by scientists, engineers, managers, and policy makers. Core Courses stress the components of the global environment and their interactions, culminating with a tropical seminar that integrates across the field.

3 Students may also petition to complete alternative courses to be applied toward the Advanced Electives requirement.

4 In addition to the courses in the Natural Sciences and Engineering Advanced Electives list, students may complete 1 course listed in the major concentration requirements outside of the student’s declared major concentration.

Major Concentration: Ecology and Evolutionary Biology

Students must complete a total of 3 courses (minimum of 9 credit hours) as listed below to satisfy the requirements for the major concentration in Ecology and Evolutionary Biology.

Footnotes and Additional Information

1 Please note that the course not completed in the Core Requirements list for the major concentration in Ecology and Evolutionary Biology may be completed and applied towards the major concentration's Elective Requirements.

Policies for the BA Degree with a Major in Environmental Science and a Major Concentration in Ecology and Evolutionary Biology

Program Restrictions and Exclusions

Students pursuing the BA Degree with a Major in Environmental Science and a Major Concentration in Ecology and Evolutionary Biology should be aware of the following program restrictions:

- As noted in Majors, Minors, and Certificates (p. 17) under Declaring Majors, Minors and Certificates, students may not obtain both a BA and a BS in the same major. Students pursuing the BA Degree with a Major in Environmental Science and a Major Concentration in Ecology and Evolutionary Biology may not additionally pursue the BS Degree with a Major in Environmental Science.
- Students pursuing the major in Environmental Science may pursue only one major concentration within the major.

Transfer Credit

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 37). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

Program Transfer Credit Guidelines

Students pursuing the major in Environmental Science should be aware of the following program transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program's official transfer credit advisor) on an individual case-by-case basis.

Additional Information

For additional information, please see the following websites:

- https://biosciences.rice.edu/
- https://earthscience.rice.edu/academics/undergraduate-program/

Opportunities for the BA Degree with a Major in Environmental Science and a Major Concentration in Ecology and Evolutionary Biology

Academic Honors

The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 51) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work.
Students will be able to:

Upon completing the BS degree with a major in Environmental Science, students also can enroll in senior honors thesis programs within their major concentrations, or by arrangement with other departments, and/or through the Rice Undergraduate Scholars Program. Students completing a thesis will also be eligible for the Distinction in Research and Creative Work, a university honor. Details for each program can be found here:

- **BIOS Honors Research** ([https://biosciences.rice.edu/research-overview](https://biosciences.rice.edu/research-overview/))
- **Rice Undergraduate Scholars Program** ([https://ouri.rice.edu/rusp](https://ouri.rice.edu/rusp))

**Independent Research**

Students are encouraged to undertake independent research on environmentally related topics as part of their degree programs, in cooperation with one or more faculty. Course options for independent research, repeatable for credit, include: BIOS 401, BIOS 402, and EEPS 481.

Additional Information

For additional information, please see the following websites:

- [https://earthscience.rice.edu/academics/undergraduate-program/](https://earthscience.rice.edu/academics/undergraduate-program/)

**Bachelor of Science (BS) Degree with a Major in Environmental Science and a Major Concentration in Earth Science**

**Program Learning Outcomes for the BS Degree with a Major in Environmental Science**

Upon completing the BS degree with a major in Environmental Science, students will be able to:

1. Demonstrate foundational knowledge in the natural sciences that is fundamental to the environmental sciences or application of the environmental sciences to other fields.
2. Integrate knowledge of natural and applied sciences to understand complex natural systems and cycles.
3. Synthesize knowledge from natural sciences and engineering and apply it to the study of the environment.
4. Understand environmental issues from a scientific perspective and be able to solve issues using a variety of interdisciplinary perspectives (e.g., social sciences, economics, humanities, and/or architecture).
5. Demonstrate knowledge and skills suitable for doing research and/or field studies in environmental science.

**Requirements for the BS Degree with a Major in Environmental Science**

For graduation requirements, see Graduation Requirements (p. 29). Students pursuing the BS degree with a major in Environmental Science must complete:

- A minimum of 26-29 courses (77-82 credit hours), depending on course selection, to satisfy major requirements.
- A minimum of 120 credit hours to satisfy degree requirements.
- A minimum of 5-7 courses (15-24 credit hours), depending on declared major concentration, taken at the 300-level or above.
- An advanced field or research experience requirement.
- A capstone senior seminar requirement.
- The requirements of a major concentration. When students declare the major (p. 17) in Environmental Science, students must additionally identify and declare one of two major concentrations, either in:
  
  - **Earth Science (p. 1010), or**
  - **Ecology and Evolutionary Biology (p. 1014).**

Because of the common core requirements, it is possible for students to change their major concentration at any time, even after initially declaring the major. To do so, please contact the Office of the Registrar ([registrar@rice.edu](mailto:registrar@rice.edu)).

Environmental Science is an interdisciplinary major that addresses environmental issues in the context of what we know about earth, ecology, and society. In addition to its science core, the major also seeks to provide students with some appreciation of social, cultural, and policy dimensions of environmental issues.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor, or where applicable, the department’s Director of Undergraduate Studies. (Course substitutions must be formally applied and entered into Degree Works by the major’s [Official Certifier](https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/).) Students and their academic advisors should identify and clearly document the courses to be taken.

Total Credit Hours Required for the Major in Environmental Science

77-82

Additional Credit Hours to Complete Degree Requirements

7-12

University Graduation Requirements (p. 29)

31

Total Credit Hours

120

Footnotes and Additional Information

* Note: University Graduation Requirements include 31 credit hours, comprised of Distribution Requirements (Groups I, II, and III), FWIS, and LPAP coursework. In some instances, courses satisfying major requirements may additionally meet distribution requirements. Additional Credit Hours to Complete Degree Requirements include general electives, coursework completed as upper-level, residency (hours taken at Rice), and/or any other additional academic program requirements.

1 CHEM 151 may be substituted for CHEM 121 or CHEM 111; CHEM 153 may be substituted for CHEM 123 or CHEM 113; CHEM 152 may be substituted for CHEM 122 or CHEM 112, and CHEM 154 may be substituted for CHEM 124 or CHEM 114.

2 The Core Courses acquaint students with a range of environmental topics encountered by scientists, engineers, managers, and policy makers. Core Courses stress the components of the global environment and their interactions, culminating with a tropical seminar that integrates across the field.

3 Students may also petition to complete alternative courses to be applied toward the Advanced Electives requirement.

4 In addition to the courses in the Natural Sciences and Engineering Advanced Electives list, students may complete 1 course listed in the major concentration requirements outside of the student’s declared major concentration.

5 Students are encouraged, but not required, to undertake independent research on environmentally related topics.

Major Concentration: Earth Science

Students must complete a total of 3 courses (minimum of 10-12 credit hours, depending on course selection) as listed below to satisfy requirements for the major concentration in Earth Science.

Opportunities for the BS Degree with a Major in Environmental Science and a Major Concentration in Earth Science

Academic Honors

The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 51) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 51). Some departments have department-specific Honors awards or designations.

Independent Research

Students are encouraged to undertake independent research on environmentally related topics as part of their degree programs, in cooperation with one or more faculty. Course options for independent research, repeatable for credit, include: BIOS 401, BIOS 402, and EEPS 481.

Students also can enroll in senior honors thesis programs within their major concentrations, or by arrangement with other departments, and/or through the Rice Undergraduate Scholars Program. Students completing a thesis will also be eligible for the Distinction in Research and Creative Work, a university honor. Details for each program can be found here:

- BIOS Honors Research (https://biosciences.rice.edu/research-overview (https://biosciences.rice.edu/research-overview/))
- Rice Undergraduate Scholars Program (https://ouri.rice.edu/rusp (https://ouri.rice.edu/rusp/))

Additional Information

For additional information, please see the following websites:

- https://biosciences.rice.edu/
- https://earthscience.rice.edu/academics/undergraduate-program/

Bachelor of Science (BS) Degree with a Major in Environmental Science and a Major Concentration in Ecology and Evolutionary Biology

Program Learning Outcomes for the BS Degree with a Major in Environmental Science

Upon completing the BS degree with a major in Environmental Science, students will be able to:

1. Demonstrate foundational knowledge in the natural sciences that is fundamental to the environmental sciences or application of the environmental sciences to other fields.
2. Integrate knowledge of natural and applied sciences to understand complex natural systems and cycles.
3. Synthesize knowledge from natural sciences and engineering and apply it to the study of the environment.
4. Understand environmental issues from a scientific perspective and be able to solve issues using a variety of interdisciplinary perspectives (e.g., social sciences, economics, humanities, and/or architecture).
5. Demonstrate knowledge and skills suitable for doing research and/or field studies in environmental science.

Requirements for the BS Degree with a Major in Environmental Science

For graduation requirements, see Graduation Requirements (p. 29). Students pursuing the BS degree with a major in Environmental Science must complete:

- A minimum of 26-29 courses (77-82 credit hours), depending on course selection, to satisfy major requirements.
- A minimum of 120 credit hours to satisfy degree requirements.
- A minimum of 5-7 courses (15-24 credit hours), depending on declared major concentration, taken at the 300-level or above.
- An advanced field or research experience requirement.
- A capstone senior seminar requirement.
- The requirements of a major concentration. When students declare the major (p. 17) in Environmental Science, students must additionally identify and declare one of two major concentrations, either in:
  - Earth Science (p. 1010), or
  - Ecology and Evolutionary Biology (p. 1014).

Because of the common core requirements, it is possible for students to change their major concentration at any time, even after initially declaring the major. To do so, please contact the Office of the Registrar (registrar@rice.edu).

Environmental Science is an interdisciplinary major that addresses environmental issues in the context of what we know about earth, ecology, and society. In addition to its science core, the major also seeks to provide students with some appreciation of social, cultural, and policy dimensions of environmental issues.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor, or where applicable, the department’s Director of Undergraduate Studies. (Course substitutions must be formally approved and entered into Degree Works by the major’s Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/).) Students and their academic advisors should identify and clearly document the courses to be taken.

**Major Concentration**

Select 1 from the following Major Concentrations (see below for Major Concentration requirements):

- Earth Science
- Ecology and Evolutionary Biology

**Advanced Electives**

**Social Sciences**

Select 1 course from the following: 3

- ANTH 348  ANTHROPOLOGIES OF NATURE
- ANTH 381  MEDICAL ANTHROPOLOGY
- ENST 301  ENVIRONMENTAL JUSTICE
- ENST 302 / SOCI 304  ENVIRONMENTAL ISSUES: RICE INTO THE FUTURE
- ENST 332  THE SOCIAL LIFE OF CLEAN ENERGY
- ENST 367  ENVIRONMENTAL SOCIOLOGY
- ENST 437  ENERGY ECONOMICS
- ECON 437  ECONOMICS
- ENST 480  ENVIRONMENTAL AND ENERGY ECONOMICS
- ENST 367  URBAN POLITICS
- ENST 367  COMPARE URBAN POLITICS AND POLICY
- SOCIO 313  DEMOGRAPHY
- SOCIO 368  SOCIOLOGY OF DISASTER
- SOCIO 423  SOCIOLOGY OF FOOD

**Humanities and Architecture**

Select 1 course from the following: 3

- ENGL 269 / ENST 265  SCIENCE FICTION AND THE ENVIRONMENT
- ENST 310  NONFICTION NATURE WRITING
- ENGL 358  CONSUMPTION AND CONSUMERISM
- ENGL 459  STUDIES IN LITERATURE AND ECOLOGY
- ENST 202 / HUMA 202  CULTURE, ENERGY, AND THE ENVIRONMENT: AN INTRODUCTION TO ENERGY HUMANITIES
- ENST 313 / ARCH 313  CASE STUDIES IN SUSTAINABLE DESIGN
- ENST 322 / ARCH 322  CASE STUDIES IN SUSTAINABILITY: THE REGENERATIVE REPOSITIONING OF NEW OR EXISTING RICE CAMPUS BLDGS
- ENST 368 / ENGL 368  LITERATURE AND THE ENVIRONMENT
- ENST 445  SEMINAR IN URBAN SUSTAINABILITY AND LIVABILITY RESEARCH METHODS AND APPLICATIONS
- ENST 446  LAB IN ENGAGED URBAN SUSTAINABILITY AND LIVABILITY RESEARCH

**Natural Sciences and Engineering**

Select 1 course from the following: 3

- BIOS 280  SUSTAINABLE DEVELOPMENT AND REPORTING
- BIOS 559  SUSTAINABILITY IMPACT ASSESSMENTS
- CEVE 302 / ENGI 302  SUSTAINABLE DESIGN
- CEVE 308  INTRODUCTION TO AIR POLLUTION CONTROL
- CEVE 310  PRINCIPLES OF ENVIRONMENTAL ENGINEERING

Total Credit Hours 9

Footnotes and Additional Information

1 Please note that the course not completed in the Core Requirements list for the major concentration in Ecology and Evolutionary Biology may be completed and applied towards the major concentration’s Elective Requirement.

Policies for the BS Degree with a Major in Environmental Science and a Major Concentration in Ecology and Evolutionary Biology

Program Restrictions and Exclusions

Students pursuing the BS Degree with a Major in Environmental Science and a Major Concentration in Ecology and Evolutionary Biology should be aware of the following program restrictions:

- As noted in Majors, Minors, and Certificates (p. 17) under Declaring Majors, Minors and Certificates, students may not obtain both a BA and a BS in the same major. Students pursuing the BS Degree with a Major in Environmental Science and a Major Concentration in Ecology and Evolutionary Biology may not additionally pursue the BA Degree with a Major in Environmental Science.
- Students pursuing the major in Environmental Science may pursue only one major concentration within the major.

Transfer Credit

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 37). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Program Transfer Credit Guidelines

Students pursuing the major in Environmental Science should be aware of the following program transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

Additional Information

For additional information, please see the following websites:

Program Co-Director  
rrj@rice.edu

Environmental Studies is an interdisciplinary field that explores the interconnection between humans and the natural environment. Modern environmental issues reflect the complex interactions of natural and social systems at global and local scales, and the resulting impacts on the Earth have led many to ask whether humankind has entered into a new epoch in the planet's history, one in which humans are now a key driver in the change of Earth systems.

The Environmental Studies program fosters the critical, integrative thinking required to better understand the complexities of this human-nature relationship and the resultant scales of impact, and to assess and develop solutions that meet intergenerational human needs without compromising the natural systems upon which humans depend.

The Environmental Studies program offers an undergraduate minor in Environmental Studies and several interdisciplinary courses for students interested in broadening their understanding of environmental issues. These courses often are team-taught by faculty from various areas of study.

The program in Environmental Studies, along with the Center for Environmental Studies, are administered jointly by the School of Humanities and the School of Architecture, with staff support and first point of contact in the School of Humanities.

**Minor**

**Environmental Studies (ENST)**

**ENST 100 - ENVIRONMENT, CULTURE & SOCIETY**

**Short Title:** ENVIRONMENT, CULTURE & SOCIETY  
**Department:** Environmental Studies  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Distribution Group:** Distribution Group II  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.

**Course Level:** Undergraduate Lower-Level  
**Description:** This introductory course in environmental studies helps students to better understand the complex interrelationship between human cultures and their social and physical environments. Lectures and assignments draw upon the methods and expertise of architecture, the humanities and the social sciences. This is a core course of Rice's Environmental Studies minor. Cross-list: ARCH 105.
ENST 117 - FRESHMAN SEMINAR IN LOCAL ENVIRONMENTAL SCIENCE RESEARCH
Short Title: FRESHMAN ENVIRONMENTAL SEMINAR
Department: Environmental Studies
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hour: 1
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.

Course Level: Undergraduate Lower-Level
Description: A 7-week seminar course to introduce freshmen perspective environmental science researches to the excitement of research at Rice and in the broader Houston area, and to provide context with which to think about facts presented in textbooks. Small groups will meet weekly with a graduate student or postdoctoral researcher to explore a published research article by a local team of researchers, gaining background information about the subject and exposure to the research techniques. In the final session, the group will tour the lab that produced the feature article. Additional tours and activities TBA. All first year non-transfer students are eligible to enroll in ENST 117 regardless of AP credit. This course meets in the second half of the semester and features research in the Environmental Science Major. Distribution Credit for ENST 117 no longer eligible beginning Fall 2019.

ENST 201 - THE SCIENCE OF CLIMATE CHANGE
Short Title: SCIENCE OF CLIMATE CHANGE
Department: Environmental Studies
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group III
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.

Course Level: Undergraduate Lower-Level
Description: This undergraduate course will introduce students to the fundamentals of natural and anthropogenic climate change. After briefly reviewing Earth’s composition and its fluid envelopes, we will cover the basic physics of the climate system, providing tools to understand weather and climate phenomena (e.g. monsoons, El Niño), the greenhouse effect, and climate feedbacks. Building on this understanding, a succinct tour of geologic history will help us paint a more complete picture of Earth’s climate variations and how they affected human evolution and history. With this context, we will be able to judge the anomalous character of recent climate change, establish its anthropogenic nature, and discuss solutions to the current climate crisis. Students from any major are encouraged to enroll and engage on important topic. Mutually Exclusive: Cannot register for ENST 201 if student has credit for EEPS 107.

ENST 202 - CULTURE, ENERGY, AND THE ENVIRONMENT: AN INTRODUCTION TO ENERGY HUMANITIES
Short Title: CULTURE ENERGY & ENVIRONMENT
Department: Environmental Studies
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.

Course Level: Undergraduate Lower-Level
Description: Humanity faces extraordinary challenges in an era of climate change and energy transition. These challenges are not only technological but also questions of value, power, behavior, and understanding. This course draws upon new research across the arts, humanities and social sciences to help students better understand the cultural and social dimensions of our current patterns of energy use, their environmental impacts, and the possibility of new energy futures. Intended for both STEM majors and humanities and social science students. Cross-list: HUMA 202.

ENST 210 - SUSTAINABLE FUTURES: AN EXPLORATION OF GLOBAL SUSTAINABILITY CHALLENGES AND SOLUTIONS
Short Title: SUSTAINABLE FUTURES
Department: Environmental Studies
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.

Course Level: Undergraduate Lower-Level
Description: Sustainable Futures will explore a wide array of global sustainability challenges and solutions alongside significant trends and disruptive technologies that are shaping the future. Throughout the journey, discussions will be enhanced by drawing upon lessons from human exploration of analogous extreme environments in space – like Mars, the Moon, and low-earth orbit – as well as from terrestrial locales known as extreme environments. Sustainable Futures may feature an optional spring break trip to further enrich course content, for which an additional fee will be necessary.

ENST 238 - SPECIAL TOPICS
Short Title: SPECIAL TOPICS
Department: Environmental Studies
Grade Mode: Standard Letter
Course Type: Internship/Practicum, Laboratory, Lecture, Seminar, Independent Study, Lecture/Laboratory
Credit Hours: 1-4
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.

Course Level: Undergraduate Lower-Level
Description: Topics and credit hours vary each semester. Contact department for current semester's topic(s). Repeatable for Credit.
ENST 250 - UNDERSTANDING ENERGY: ENERGY LITERACY AND CIVICS  
**Short Title:** UNDERSTANDING ENERGY  
**Department:** Environmental Studies  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Credit Hours:** 3  
**Restrictions:** Students with a class of Freshman may not enroll. Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
**Course Level:** Undergraduate Lower-Level  
**Prerequisite(s):** ENGRG SUSTAINABLE COMMUNITIES  
**Description:** Energy is a foundational driver of human development. Energy impacts our economy, politics, culture, and environment. In this course, students will learn the fundamentals of energy in the context of broader systems and will be asked to think critically about how and why we rely on particular energy resources. The course structure will be comprised of lectures and class discussions along with field trips to power plants, chemical plants, and/or refineries. This class is vital for students interested in the environment and/or the energy industry. First year Rice students may not enroll in this course. Formerly offered as HURC 302. Mutually Exclusive: Cannot register for ENST 250 if student has credit for HURC 302.  
**Course URL:** [understandingenergy.rice.edu](http://understandingenergy.rice.edu)  

---  

ENST 265 - SCIENCE FICTION AND THE ENVIRONMENT  
**Short Title:** SCI FI AND THE ENVIRONMENT  
**Department:** Environmental Studies  
**Grade Mode:** Standard Letter  
**Course Type:** Seminar  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
**Course Level:** Undergraduate Lower-Level  
**Description:** Examines the ways that science fiction has expressed and challenged ideas about nature, culture, society, and politics. Cross-list: ENGL 269.  

---  

ENST 281 - ENGINEERING SOLUTIONS FOR SUSTAINABLE COMMUNITIES  
**Short Title:** ENGRG SUSTAINABLE COMMUNITIES  
**Department:** Environmental Studies  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
**Course Level:** Undergraduate Lower-Level  
**Description:** Students will work in teams to develop sustainable solutions for energy or environmental problems affecting our Houston and Rice communities. Emphasis will be placed on the integration of engineering fundamentals with societal issues, environmental and safety considerations, sustainability and professional communications. Prerequisites: introductory engineering courses, or permission of instructor. Cross-list: CHBE 281.  

---  

ENST 301 - ENVIRONMENTAL JUSTICE  
**Short Title:** ENVIRONMENTAL JUSTICE  
**Department:** Environmental Studies  
**Grade Mode:** Standard Letter  
**Course Type:** Seminar  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
**Course Level:** Undergraduate Upper-Level  
**Description:** The impacts of environmental turmoil, climate change, toxicity, pollution, biodiversity loss, and more increasingly impact all but rarely equally. To consider environmental justice in this course is to consider these differential impacts (and their relationship to race, gender, ethnicity, economics, region, and other factors) and possible responses and remedies to these inequities with respect to a range of communities and regions through a range of arts, media, cultural documents, and social phenomena.  

---  

ENST 302 - ENVIRONMENTAL ISSUES: RICE INTO THE FUTURE  
**Short Title:** ENVIRON ISSUES: RICE IN FUTURE  
**Department:** Environmental Studies  
**Grade Mode:** Standard Letter  
**Course Type:** Laboratory  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
**Course Level:** Undergraduate Upper-Level  
**Description:** Students use the campus as a laboratory for learning about sustainability through group projects to reduce Rice’s environmental impact or resolve environmental issues. Cross-list: SOCI 304.  

---  

ENST 307 - ENERGY AND THE ENVIRONMENT  
**Short Title:** ENERGY AND THE ENVIRONMENT  
**Department:** Environmental Studies  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
**Course Level:** Undergraduate Upper-Level  
**Description:** This course explores the physical principles of energy use and its impacts on Earth’s environment and climate. Topics will include energy mechanics, climate change, and the environmental impacts and future prospects of various fossil fuel and alternative energy sources. Cross-list: CEVE 307, EEPS 307.  

---  

ENST 311 - TOPICS IN ENVIRONMENTAL JUSTICE  
**Short Title:** TOPICS ENVIRONMENTAL JUSTICE  
**Department:** Environmental Studies  
**Grade Mode:** Standard Letter  
**Course Type:** Seminar  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
**Course Level:** Undergraduate Upper-Level  
**Description:** A variable topics seminar that takes an in depth approach to questions of environmental justice. Topics will vary from semester to semester and may include "Black and Green: Environmental Justice in the Afro-Americas" and others. Repeatable for Credit.
ENST 313 - CASE STUDIES IN SUSTAINABLE DESIGN
Short Title: CASE STUDIES IN SUSTAINABLE DESIGN
Department: Environmental Studies
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course will explore sustainable design from initial sustainable facility concepts and team organizations, to enlisting community support and process assessment. The course will develop into details about sustainable design, lessons learned, processes and outcomes. Space is limited and registration does not guarantee a space in this course. The final course roster is formulated on the first day class by the individual instructor. Cross-list: ARCH 313. Graduate/Undergraduate Equivalency: ENST 613. Mutually Exclusive: Cannot register for ENST 313 if student has credit for ENST 613.
Course URL: www.arch.rice.edu/academics/current-courses/ (http://www.arch.rice.edu/academics/current-courses/)

ENST 314 - CULTURES AND MEDIA OF ENVIRONMENTAL HEALTH
Short Title: CULTURE/MEDIA OF ENVIRO HEALTH
Department: Environmental Studies
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Cultures and Media of Environmental Health is a discussion based seminar that addresses the uncertainty of our ecological future and the changing environment’s impact on human and nonhuman health from an interdisciplinary point of view. This course pays particular attention to cultural and media representation at the intersection of health and the environment. This course will consider a broad array of media to stage important questions about how scientific and cultural systems can respond to the growing pressures of "environmental health."

ENST 315 - ENVIRONMENTAL HEALTH
Short Title: ENVIRONMENTAL HEALTH
Department: Environmental Studies
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): (BIOS 201 or BIOC 201) and (BIOS 202 or EBIO 202)
Description: An overview of environmental health issues including discussion of epidemiologic methods, illnesses caused or exacerbated by environmental exposures, and the role of research in driving effective policies to protect and promote public health. The class includes numerous guest lectures by area experts (physicians, researchers, community activists, policymakers and others); a bus tour featuring disproportionately affected neighborhoods as well as cutting-edge “green” initiatives; original student research projects; and an opportunity to address the Houston City Council. The dynamic between research and action, i.e., “making a difference,” is stressed. FORMERLY ENST 314.

ENST 316 - ENVIRONMENTAL FILM
Short Title: ENVIRONMENTAL FILM
Department: Environmental Studies
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Explores the ways film represents the environment and environmental issues (food, water, energy, waste, environmental justice, sustainability), and both expresses and shapes environmental values. We will view and analyze a variety of genres, as well as reading supplementary material.

ENST 321 - CASE STUDIES IN SUSTAINABILITY: THE HIGH PERFORMANCE BUILDING
Short Title: SUSTAINABILITY CASE STUDIES
Department: Environmental Studies
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course will explore application of high performance, sustainable design to specific Rice University campus and facility targets. In partnership with Rice University leadership, the team effort will develop "regenerative redesign" approaches based on investigation of other campuses' case study. Space is limited and registration does not guarantee a space in this course. The final course roster is formulated on the first day of class by the individual instructor. Cross-list: ARCH 321. Graduate/Undergraduate Equivalency: ENST 621. Mutually Exclusive: Cannot register for ENST 321 if student has credit for ENST 621.

ENST 322 - CASE STUDIES IN SUSTAINABILITY: THE REGENERATIVE REPOSITIONING OF NEW OR EXISTING RICE CAMPUS BLDGS
Short Title: CASE STUDIES IN SUSTAINABILITY
Department: Environmental Studies
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course will explore application of high performance, sustainable design to specific Rice University campus and facility targets. In partnership with Rice University leadership, the team effort will develop "regenerative redesign" approaches based on investigation of other campuses' case study. Space is limited and registration does not guarantee a space in this course. The final course roster is formulated on the first day of class by the individual instructor. Cross-list: ARCH 322. Mutually Exclusive: Cannot register for ENST 322 if student has credit for ENST 622.
Course URL: www.arch.rice.edu/academics/current-courses/ (http://www.arch.rice.edu/academics/current-courses/)
ENST 332 - THE SOCIAL LIFE OF CLEAN ENERGY
Short Title: SOCIAL LIFE OF CLEAN ENERGY
Department: Environmental Studies
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course considers the phenomenon of renewable energy, using a social scientific approach to analyze the various forces and interests involved in the development of renewable energy projects (such as hydropower, solar and wind) in both the global North and South. No prerequisites required. Cross-list: ANTH 332.

ENST 350 - ENVIRONMENTAL INTERNSHIP
Short Title: ENVIRONMENTAL INTERNSHIP
Department: Environmental Studies
Grade Mode: Standard Letter
Course Type: Internship/Practicum
Credit Hours: 1-6
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Provides enrollment credit for approved internships with environmental organizations or agencies. Students must seek approval prior to beginning the internship. Weekly progress reports and a final paper are required. Instructor Permission Required.

ENST 367 - ENVIRONMENTAL SOCIOLOGY
Short Title: ENVIRONMENTAL SOCIOLOGY
Department: Environmental Studies
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course focuses on the foundations of environmental sociology and takes a social and historical approach to examine how humans affect the environment and the environment affects humans. Topics include: agricultural sustainability, resource extraction and climate change, assimilative capacity and other similar issues. Cross-list: CEVE 406.

ENST 391 - SPECULATIVE FUTURES
Short Title: SPECULATIVE FUTURES
Department: Environmental Studies
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Drawing from "CliFi," "Speculative Fiction," and global anthropological case studies, this course analyzes a series of potential futures as earthly conditions continue to be altered by human activity. Students will develop speculative future models through assessing climate conditions, population displacement, ethics, ecological transformations and human practices and values. Cross-list: ANTH 391.

ENST 400 - INDEPENDENT STUDY
Short Title: INDEPENDENT STUDY
Department: Environmental Studies
Grade Mode: Standard Letter
Course Type: Independent Study
Credit Hours: 1-6
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level

ENST 406 - INTRODUCTION TO ENVIRONMENTAL LAW
Short Title: INTRO TO ENVIRONMENTAL LAW
Department: Environmental Studies
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Introduction to Environmental Law is intended to introduce the student to the methods used by the United States and the international community to regulate and/or allocate air, water and land resources. A key focus of this course will be the emerging area of the law of sustainable development, including the implementation of full price costing, life cycle analysis, carbon cycle analysis, allocation of assimilative capacity and other similar issues. Cross-list: CEVE 406.

ENST 415 - THE ENVIRONMENTAL MOVEMENT
Short Title: THE ENVIRONMENTAL MOVEMENT
Department: Environmental Studies
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Examines the environmental movement in the U.S. and globally. After a historical overview, we will use a social movement perspective to examine mobilization, organizations and tactics, ideologies and identities, as well as exploring aspects of contemporary environmentalism (e.g. green building and slow food, wildlife management/biodiversity, sustainable development, environmental justice). Cross-list: SOCI 415.

Course URL: www.english.rice.edu (http://www.english.rice.edu)
ENST 437 - ENERGY ECONOMICS
Short Title: ENERGY ECONOMICS
Department: Environmental Studies
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ECON 301 or ECON 370
Description: Discussion of key aspects in the supply and demand of energy. Topics include optimal extraction of depletable resources, transportation, storage, end-use and efficiency, and the relationship between economic activity, energy, and the environment. Cross-list: ECON 437.

ENST 441 - GOVERNING THE ENVIRONMENTAL COMMONS
Short Title: GOVERNING ENVIRONMNTL COMMONS
Department: Environmental Studies
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): POLI 395
Description: Common Property Resources (CPRs), such as fisheries, aquifers, and the Internet, appear in many guises and pose a fundamental problem for governing. Exploration of theoretical underpinnings for CPRs, their growing literature, and the political and economic institutions mediating CPR dilemmas. Included is an original research project in conjunction with the instructor. Cross-list: POLI 441.

ENST 445 - SEMINAR IN URBAN SUSTAINABILITY AND LIVABILITY RESEARCH METHODS AND APPLICATIONS
Short Title: URBAN SUSTAINABILITY SEMINAR
Department: Environmental Studies
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Corequisite: ENST 446
Description: Seminar in the practice and techniques for student-led engaged research in urban sustainability and livability. Techniques and methods applied in actual urban settings, including an understanding of intentional design, the use of psycho-geographic mapping, human geography, and derives to understand urban communities. Content includes multifaceted exploration of sustainability. Instructor Permission Required. Repeatable for Credit.
Course URL: culturesofenergy.com/enst-minor/ (http://culturesofenergy.com/enst-minor/)

ENST 446 - LAB IN ENGAGED URBAN SUSTAINABILITY AND LIVABILITY RESEARCH
Short Title: ENGAGED URBAN RESEARCH LAB
Department: Environmental Studies
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3-4
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Corequisite: ENST 445
Description: Lab in the practice and techniques for student-led engaged research in urban sustainability and livability. Techniques and methods applied in actual urban settings, including an understanding of intentional design, the use of psycho-geographic mapping, human geography, and derives to understand urban communities. Content includes multifaceted exploration of sustainability. Instructor Permission Required. Repeatable for Credit.
Course URL: culturesofenergy.com/enst-minor/ (http://culturesofenergy.com/enst-minor/)

ENST 477 - SPECIAL TOPICS
Short Title: SPECIAL TOPICS
Department: Environmental Studies
Grade Mode: Standard Letter
Course Type: Laboratory, Lecture, Internship/Practicum, Seminar, Independent Study, Lecture/Laboratory
Credit Hours: 1-4
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Topics and credit hours may vary each semester. Contact Department for current semester's topic. Repeatable for Credit.

ENST 480 - ENVIRONMENTAL AND ENERGY ECONOMICS
Short Title: ENVIRONMENTAL ECONOMICS
Department: Environmental Studies
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ECON 200 or ECON 301 or ECON 370
Description: Uses economic theories of externalities and common property resources to analyze how markets, legal institutions, regulations, taxes and subsidies, and voluntary activity can affect the supply of environmental amenities, such as clean air, clean water, and wilderness areas. Also discusses methods for determining the demand for environmental amenities. Cross-list: ECON 480.
ENST 500 - INTRODUCTION TO THE ENVIRONMENTAL HUMANITIES
Short Title: INTRO TO ENVIRO HUMANITIES
Department: Environmental Studies
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This seminar explores the “environmental humanities,” a wide range of approaches to the cultural, social, historical, and aesthetic dimensions of pressing ecological questions. Topics may include studies of plants, animals, and other creatures; biodiversity and extinction; energy humanities; environmental justice and environmental racism; climate and environmental histories; theories and philosophies of disaster; waste, toxicity, pollution; marine or blue humanities; religion and ecology; and many others. We will consider representative recent publications in the field as well as the research of scholars working here at Rice and far beyond. We will consider how to write about the environmental humanities, from scholarly publications in a range of fields to forms of public-facing writing on the subject. We'll consider strategies for teaching of the environmental humanities, from individual assignments to the design of courses in the home disciplines of the participants. Coursework will include opportunities through the Center for Environmental Studies, the Environmental Studies minor (ENST), and the Mellon Foundation funded Diluvial Houston project at the Humanities Research Center. These opportunities may include: observing classes in the ENST minor; working on Cultures of Energy, a public facing platform for writing and activity about energy and the environment; and spring events at the Center for Environmental Studies, including a symposium.

ENST 513 - SEMINAR: TOPICS RELATED TO THE EARTH'S DEEP INTERIOR
Short Title: SEM: EARTH'S DEEP INTERIOR
Department: Environmental Studies
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Seminar
Credit Hours: 1-3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Seminar topics may vary. Readings and discussions about current topics related to the processes governing the Earth’s deep interior. General themes include mantle convection, thermal evolution, and volatiles. Repeatable for Credit.

ENST 599 - DIRECTED READING IN ENVIRONMENTAL HUMANITIES
Short Title: DIRECTED READING
Department: Environmental Studies
Grade Mode: Standard Letter
Course Type: Independent Study
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: A course for graduate students pursuing intensive semester-long study of a particular topic not included in the curriculum. Students must identify and receive the approval of a faculty member. Instructor and Department approval must be granted prior to registration. Instructor Permission Required. Repeatable for Credit. Instructor Permission Required. Repeatable for Credit.

ENST 601 - ENVIRONMENTAL HUMANITIES RESEARCH FORUM
Short Title: ENVIRO HUMA RESEARCH FORUM
Department: Environmental Studies
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Research
Credit Hours: 1-3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: The Environmental Humanities Research Forum meets regularly to share research, teaching, and other activities in the environmental humanities with both members of the Rice community and invited guests. Evaluation is based on student participation, research and presentations. Repeatable for Credit. Department Permission Required. Repeatable for Credit.

ENST 613 - CASE STUDIES IN SUSTAINABLE DESIGN
Short Title: SUSTAINABLE DESIGN
Department: Environmental Studies
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Cross-list: ARCH 613. Graduate/Undergraduate Equivalency: ENST 313. Mutually Exclusive: Cannot register for ENST 613 if student has credit for ENST 313.
Course URL: www.arch.rice.edu/academics/current-courses (http://www.arch.rice.edu/academics/current-courses/)

ENST 621 - CASE STUDIES IN SUSTAINABILITY: THE HIGH PERFORMANCE BUILDING
Short Title: SUSTAINABILITY CASE STUDIES
Department: Environmental Studies
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: The project-based seminar will provide a means by which all those with an interest in the building science entailed in the design of commercial, institutional, and residential structures can investigate common issues, obtain information, discuss local strategies, and otherwise address subjects relating to building or campus performance over its lifecycle. To develop an approach of taking an existing Rice University building an optimizing its use via “repositioning” or redesign the class will create an interdisciplinary forum where students of architecture, engineering (structural, mechanical, etc.), and human sciences will potentially collaborate with professional building consultants, materials manufactures, contractors, developers, owners, and Rice campus facility managers. Cross-list: ARCH 621. Graduate/Undergraduate Equivalency: ENST 321. Mutually Exclusive: Cannot register for ENST 621 if student has credit for ENST 321.
ENST 646 - ADVANCED TOPICS IN BIOMEDICAL ANTHROPOLOGY
Short Title: ADV BIOMEDICAL ANTHROPOLOGY
Department: Environmental Studies
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Seminar on contemporary research on the biomedical aspects of human health and disease. Includes topics from medical ecology and epidemiology. Cross-list: ANTH 646. Recommended Prerequisite(s): ANTH 381 or ANTH 581.

ENST 677 - SPECIAL TOPICS
Short Title: SPECIAL TOPICS
Department: Environmental Studies
Grade Mode: Standard Letter
Course Type: Independent Study, Internship/Practicum, Laboratory, Lecture, Lecture/Laboratory, Seminar
Credit Hours: 1-4
Restrictions: Enrollment is limited to Graduate or Visiting Graduate level students.
Course Level: Graduate
Description: Topics and credit hours vary each semester. Contact department for current semester's topic(s). Repeatable for Credit.

Descriptions and Codes Legend
Note: Internally, the university uses the following descriptions, codes, and abbreviations for this academic program. The following is a quick reference:

Course Catalog/Schedule
- Course offerings/subject code: ENST

Program Description and Code
- Environmental Studies: ENST

Undergraduate Minor Description and Code
- Minor in Environmental Studies: ENST

CIP Code and Description ¹
- ENST Minor: CIP Code/Title: 03.0103 - Environmental Studies

¹ Classification of Instructional Programs (CIP) 2020 Codes and Descriptions from the National Center for Education Statistics: https://nces.ed.gov/ipeds/cipcode/

Minor in Environmental Studies

Program Learning Outcomes for the Minor in Environmental Studies
Upon completing the minor in Environmental Studies, students will be able to:

1. Understand the fundamental science that drives earth/natural systems, and that frames and makes comprehensible current environmental issues.
2. Evaluate the nexus of human activity with environmental processes to examine and understand sustainable (or unsustainable) practices.
3. Develop a cross-disciplinary perspective to better understand environmental issues and solutions through a focus within the natural sciences and/or engineering and a focus within the humanities, social sciences, and/or architecture.

Requirements for the Minor in Environmental Studies
Students pursuing the minor in Environmental Studies must complete:

- A minimum of 6 courses (18 credit hours) to satisfy minor requirements.
- A minimum of 3 courses (9 credit hours) taken at the 300-level or above.

The Environmental Studies minor was specifically created to provide undergraduates from a broad range of academic backgrounds with a cohesive program offering foundational literacy in the social, cultural, and scientific dimensions of environmental issues, and a cross-disciplinary holistic understanding of the challenges and solutions for creating a sustainable world. Students completing the minor will be able to synthesize frameworks, tools, and perspectives from multiple disciplines; master sustainability terminology; understand major environmental issues from multiple perspectives; develop and assess environmental solutions in an informed and logical manner; and convey knowledge and insights about environmental issues in multiple formats.

The courses listed below satisfy the requirements for this minor. In certain instances, courses not on this official list may be substituted upon approval of the minor’s academic advisor, or where applicable, the Program Director. (Course substitutions must be formally applied and entered into Degree Works by the minor’s Official Certifier (https://registrar.rice.edu/facstaff/degeworks/officialcertifier/)). Students and their academic advisors should identify and clearly document the courses to be taken.

Footnotes and Additional Information

1 Current/former Biosciences majors (or Ecology and Evolutionary Biology majors) are eligible to substitute BIOS 332 (formerly EBIO 325) in place of BIOS 124 (formerly EBIO 124) to meet the introductory course requirement from the natural sciences.

2 Given the wide range of courses at Rice related to Environmental Studies, students are encouraged to contact the Minor Director to suggest courses to include on the list of approved electives.

Policies for the Minor in Environmental Studies

Program Restrictions and Exclusions

Students pursuing the minor in Environmental Studies should be aware of the following program restriction:

• As noted in Majors, Minors, and Certificates (p. 17), i.) students may declare their intent to pursue a minor only after they have first declared a major, and ii.) students may not major and minor in the same subject.

Transfer Credit

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 37). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Program Transfer Credit Guidelines

Students pursuing the minor in Environmental Studies should be aware of the following program-specific transfer credit guidelines:

• Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

Distribution Credit Information

The determination of distribution credit eligibility is done initially as part of the new course creation process (https://registrar.rice.edu/facstaff/courseprocess/). Additionally, as part of an annual roll call (https://registrar.rice.edu/facstaff/distribution_credit/) coordinated each Spring by the Office of the Registrar, course distribution credit eligibility is routinely reviewed and reaffirmed by the Dean’s Offices of each of the academic schools.

Faculty and leadership in the academic schools are responsible for ensuring that the courses identified as distribution-credit-eligible meet the criteria as set in the General Announcements (p. 29). Students are responsible for ensuring that they meet graduation requirements (p. 29) by completing coursework designated as distribution-credit-eligible at the time of course registration.

Distribution courses from Environmental Studies (ENST) are broadly scoped and thematically diverse and prompt students to explore the cultural, social, and political dimensions of human-environmental relations and environmental systems. They present students with an interdisciplinary spectrum of relevant methods and skills and help students to develop analytical, expressive, and critical knowledge of the relationship of environment, culture, and society across the world.

They are introductions to the study of human-environment relations and environmental systems.

Department Chair
emden@rice.edu

European Studies is an interdisciplinary undergraduate major offered by the Modern and Classical Literatures and Cultures (MCLC) Department. The major includes courses and faculty from the departments of Art History, English, History, Philosophy, and Religion.

The focus of the major in European Studies is a critical understanding of European cultures and societies in a global context that combines the study of literature, philosophy, history, the visual arts, and media.

Bachelor’s Program

• Bachelor of Arts (BA) Degree with a Major in European Studies (p. 1026)

European Studies does not currently offer an academic program at the graduate level.

European Studies (EURO)

EURO 101 - INTRODUCTION TO EUROPEAN LITERATURE AND CULTURE I
Short Title: INTRO TO EURO LIT & CULTURE I
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Antiquity to Renaissance. An introduction to major literary texts and other cultural artifacts of Europe dating from antiquity to the Renaissance. The course will contextualize texts and artifacts historically and culturally, and teach students to analyze them critically, both in relation to their original context and to present-day Europe.

EURO 102 - INTRODUCTION TO EUROPEAN LITERATURE AND CULTURE II
Short Title: INTRO TO EURO LIT & CULTURE II
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Antiquity to Renaissance. An introduction to major literary texts and other cultural artifacts of Europe dating from Renaissance to the present day. The course will contextualize the aforementioned texts and artifacts historically and culturally and will teach students to analyze them critically, both in relation to their original context and to present-day Europe.

EURO 238 - SPECIAL TOPICS
Short Title: SPECIAL TOPICS
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Internship/Practicum, Laboratory, Lecture, Seminar, Lecture/Laboratory, Independent Study
Credit Hours: 1-4
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Topics and credit hours vary each semester. Contact department for current semester's topic(s). Repeatable for Credit.
**EURO 320 - TELL-ALL: SAYING "I" IN CONTEMPORARY LITERATURE**

**Short Title:** TELL-ALL CONTEMPORARY LIT

**Department:** Modrn & Classicl Lit & Culture

**Grade Mode:** Standard Letter

**Course Type:** Seminar

**Distribution Group:** Distribution Group I

**Credit Hours:** 3

**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.

**Course Level:** Undergraduate Upper-Level

**Description:** Why do contemporary writers want to "tell all" in their novels, memoirs, exposés? This hybrid literary studies/creative writing course explores "I" genres in contemporary literature, asking why authors risk their lives, their reputations, and their families in the name of literature, truth and freedom of speech.

**EURO 401 - CONSTRUCTING EUROPE: CONTESTED IDENTITIES**

**Short Title:** CONSTRUCTING EUROPE

**Department:** Modrn & Classicl Lit & Culture

**Grade Mode:** Standard Letter

**Course Type:** Seminar

**Credit Hours:** 3

**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.

**Course Level:** Undergraduate Upper-Level

**Description:** This capstone course offers a critical investigation of European cultural narratives and social imaginaries. Central topics include reason (science, humanism, secularism); freedom (individualism, capitalism, democracy, nation-states, revolution); universalism (Greek, Roman, and Christian origins, religious toleration, imperialism, globalization, the EU, resurgent nationalism).

**EURO 477 - SPECIAL TOPICS**

**Short Title:** SPECIAL TOPICS

**Department:** Modrn & Classicl Lit & Culture

**Grade Mode:** Standard Letter

**Course Type:** Laboratory, Internship/Practicum, Lecture, Seminar, Independent Study, Lecture/Laboratory

**Credit Hours:** 1-4

**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.

**Course Level:** Undergraduate Upper-Level

**Description:** Topics and credit hours vary each semester. Contact department for current semester's topic(s). Repeatable for Credit.

**EURO 499 - EUROPEAN STUDIES HONORS THESIS**

**Short Title:** EUROPEAN STUDIES HONOR THESIS

**Department:** Modrn & Classicl Lit & Culture

**Grade Mode:** Standard Letter

**Course Type:** Research

**Credit Hours:** 3

**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.

**Course Level:** Undergraduate Upper-Level

**Prerequisite(s):** EURO 101 and EURO 102

**Description:** Two-semester honors thesis in European Studies. Independent research projects by outstanding European Studies majors lead to honors theses. Undertaken in close cooperation with a departmental faculty member. This is 3-credit course which will be repeated in sequential semesters for a total of 6 credits. Permission of instructor only. Department Permission Required. Repeatable for Credit.

---

**Regarding course descriptions:**

---

**Bachelor of Arts (BA) Degree with a Major in European Studies**

**Program Learning Outcomes for the BA Degree with a Major in European Studies**

Upon completing the BA degree with a major in European Studies, students will be able to:

1. Demonstrate a synthetic understanding of European history and identity over a wide period, from antiquity to the modern era.
2. Identify, contextualize, and analyze key aspects of European history and identity—e.g., texts, artifacts, institutions, ideas, events, personalities, and places.
3. Demonstrate successful command of research skills and methodologies appropriate to the major.
4. Communicate orally in clear, informed, and critical terms about European history and identity.
5. Produce papers in analytical and persuasive prose following the conventions of humanities scholarship.

**Requirements for the BA Degree with a Major in European Studies**

For general university requirements, see *Graduation Requirements* (p. 29). Students pursuing the BA degree with a major in European Studies must complete:

- A minimum of 10 courses (30 credit hours) to satisfy major requirements.
- A minimum of 120 credit hours to satisfy degree requirements.
- A minimum of 6 courses (18 credit hours) taken at the 300-level or above.
A maximum of 4 courses (12 credit hours) from study abroad or transfer credit. For additional departmental guidelines regarding transfer credit, see the Policies tab.

A Capstone Requirement.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major's academic advisor, or where applicable, the department's Director of Undergraduate Studies. (Course substitutions must be formally applied and entered into Degree Works by the major's Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/).) Students and their academic advisors should identify and clearly document the courses to be taken.

### Course Lists to Satisfy Requirements

#### Elective Requirements

Students must complete a total of 7 courses (21 credit hours), of which 5 courses (15 credit hours) must be at the 300-level or above. Student must take 3 elective courses (9 credit hours) from Elective Group A. Students must take 4 elective courses (12 credit hours) from Elective Group B. Within Elective Group B, a maximum of 2 courses (6 credit hours) can come from any one subject code.

#### Footnotes and Additional Information

* Note: University Graduation Requirements include 31 credit hours, comprised of Distribution Requirements (Groups I, II, and III), FWIS, and LPAP coursework. In some instances, courses satisfying major requirements may additionally meet distribution requirements. Additional Credit Hours to Complete Degree Requirements include general electives, coursework completed as upper-level, residency (hours taken at Rice), and/or any other additional academic program requirements.

1 A minimum of 6 courses (18 credit hours), including the Core Requirements (EURO 101 and EURO 102) and the Capstone Requirement (EURO 401), must be taken at Rice.

Footnotes and Additional Information
1 A maximum of 2 courses (6 credit hours) can come from any one subject code in the Elective Group B course list.

Additional Information
Honors Thesis
Majors in European Studies may fulfill 2 of their elective courses (6 credit hours) by writing an honor thesis in their final year of study. This Honors Thesis course will be a 3 credit hour course that can be repeated in two semesters, Fall and Spring.

European Languages
The major in European Studies does not include a language requirement. Students are strongly encouraged to pursue the study of at least one European language (up to and) at an advanced level. Majors with an interest in a European language, however, may take up to two elective courses in that language at the 300-level or above that will count toward the major. These courses constitute two of the elective courses required for the major. These courses do not include FREN 301, FREN 302 or GERM 301, GERM 302.

Policies for the BA Degree with a Major in European Studies
Transfer Credit
For Rice University's policy regarding transfer credit, see Transfer Credit (p. 37). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines
Students pursuing the major in European Studies should be aware of the following departmental transfer credit guidelines:

- No more than 4 courses (12 credit hours) of transfer credit from U.S. or international universities of similar standing may apply towards the major.
- Requests for transfer credit will be considered by the program director (and/or the program's official transfer credit advisor) on an individual case-by-case basis.

Distribution Credit Information
The determination of distribution credit eligibility is done initially as part of the new course creation process (https://registrar.rice.edu/facstaff/courseprocess/). Additionally, as part of an annual roll call (https://registrar.rice.edu/facstaff/distribution_credit/) coordinated each Spring by the Office of the Registrar, course distribution credit eligibility is routinely reviewed and reaffirmed by the Dean's Offices of each of the academic schools.

Faculty and leadership in the academic schools are responsible for ensuring that the courses identified as distribution-credit-eligible meet the criteria as set in the General Announcements (p. 29). Students are responsible for ensuring that they meet graduation requirements (p. 29) by completing coursework designated as distribution-credit-eligible at the time of course registration.

Distribution courses from the Department of Modern and Classical Literatures and Cultures are broad in theme and scope and provide students with a substantial inquiry into literature, art, media, history, thought, and/or politics, including specific national traditions, linguistic contexts, and historical periods. Such courses involve a broad and often interdisciplinary spectrum of knowledge, providing students with the tools for thinking critically about the formation of modern culture, its colonial past, and its national and linguistic traditions from antiquity to the present.

Financial Computation and Modeling

Contact Information

Financial Computation and Modeling

https://www.cofes-rice.org/
2051 Duncan Hall
713-348-5839

Katherine Bennett Ensor
Program Director
ensor@rice.edu

The interdisciplinary Financial Computation and Modeling (FCAM) program is offered through a collaboration of the departments of Statistics and Economics. The FCAM minor consists of six courses focusing on the strategies and computational technologies used in the financial industry. The minor is designed for those undergraduate students with strong computational skills and an interest in finance. Many students pursuing the FCAM minor enter careers in the financial industry, either immediately after completion of their undergraduate studies or after graduate studies. Students completing the FCAM minor will understand the complexities of financial markets and their role in and impact on world economies.

The basic tools component of the FCAM curriculum will equip students with the economic, probability, and statistical tools necessary to pursue the advanced analytical courses. In the advanced courses, students will be exposed to state-of-the-art models and methodologies based on long-standing assumptions about the behavior of financial markets. They also will be exposed to alternative views of market behavior and investment strategies. The goal is to educate students to question basic assumptions as well as utilize and understand technologies based on these important assumptions. In the financial industry, a large suite of solutions are implemented and continually enhanced. A goal of the FCAM program is to train leaders in this industry who not only will understand the financial technologies but also will understand the role, impact, and potential pitfalls of these technologies.

Minor

• Minor in Financial Computation and Modeling (p. 1030)

Financial Computation and Modeling does not currently offer an academic program at the graduate level.

Minor in Financial Computation and Modeling

Program Learning Outcomes for the Minor in Financial Computation and Modeling

Upon completing the minor in Financial Computation and Modeling, students will be able to:

1. Demonstrate knowledge of statistical, mathematical, and computational techniques and methods and how to choose and apply appropriate methods to questions or problems in the field of finance.
2. Understand the basic concepts of Economic Theory and how they apply to financial markets as well as how financial markets impact global economies.
3. Demonstrate an understanding of basic financial databases and the ability to use technologies, like R and Excel, to model and solve financial problems.
4. Understand core quantitative modeling concepts and demonstrate key skills necessary for working in the field of finance and investing.
5. Demonstrate the ability to understand, interpret, and critically evaluate empirical financial studies and investment strategies.

Requirements for the Minor in Financial Computation and Modeling

Students pursuing the minor in Financial Computation and Modeling must complete:

- A minimum of 6 courses (19-20 credit hours, depending on course selection) to satisfy minor requirements.
- A minimum of 5 courses (16 credit hours) taken at the 300-level or above.

The courses listed below satisfy the requirements for this minor. In certain instances, courses not on this official list may be substituted upon approval of the minor's academic advisor, or where applicable, the Program Director. (Course substitutions must be formally applied and entered into Degree Works by the minor’s Official Certifier [https://registrar.rice.edu/facstaff/degeworks/officialcertifier/]). Students and their academic advisors should identify and clearly document the courses to be taken.

Footnotes and Additional Information

¹ A maximum of 1 course (3 credit hours) can be taken from each group to satisfy Elective Requirements.

Policies for the Minor in Financial Computation and Modeling

Program Restrictions and Exclusions

Students pursuing the minor in Financial Computation and Modeling should be aware of the following program restriction:

- As noted in Majors, Minors, and Certificates (p. 17), i.) students may declare their intent to pursue a minor only after they have first declared a major, and ii.) students may not major and minor in the same subject.

Transfer Credit

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 37). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of transfer credit advisors on their website: [https://oaa.rice.edu](https://oaa.rice.edu). Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Program Transfer Credit Guidelines

Students pursuing the minor in Financial Computation and Modeling should be aware of the following program-specific transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program's official transfer credit advisor) on an individual case-by-case basis.

Additional Information

For additional information, please see the Students (Undergraduate) page on the Center for Computational Finance and Economic Systems website: [https://cofes.rice.edu/](https://cofes.rice.edu/)

Opportunities for the Minor in Financial Computation and Modeling

Academic Honors

The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (p. 51) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 51). Some departments have department-specific Honors awards or designations.
Finance Seminar
Students pursuing the FCAM minor have the opportunity to participate in STAT 499 Computational Finance Seminar for 1 credit hour. Students are also encouraged to take part in the annual Eubank Conference on Real World Markets and join the student computational finance club.

Internship and Research Opportunities
The Center for Computational Finance and Economic Systems (CoFES) and the Department of Statistics encourages the practice of quantitative finance through summer internships, employment and research. Information on current opportunities are distributed to students through an FCAM email list.

Additional Information
For additional information, please see the Students (Undergraduate) page on the Center for Computational Finance and Economic Systems website: https://cofes.rice.edu/

French Studies
Contact Information
Modern and Classical Literatures and Cultures

207 Rayzor Hall
713-348-4868

Christian J. Emden
Department Chair
emden@rice.edu

The Department of Modern and Classical Literatures and Cultures (MCLC) houses the French Studies program, offering courses on such topics as the legacy of courtly literature, French philosophy since the Enlightenment, sex and race in the French Atlantic, notions of the 'feminine' since the French Revolution, and social issues in contemporary France. The focus of the program is highly interdisciplinary, engaging not just literature and language, but also gender and race, film and visual art, history and medicine, philosophy and critical theory. Students in the program may pursue the BA degree with a major in French Studies. The department also offers a minor in French Studies.

The majority of courses are offered entirely in French but some courses are also offered in English (some of these in collaboration with the other majors offered by the Modern and Classical Literatures and Cultures Department).

Bachelor's Program
- Bachelor of Arts (BA) Degree with a Major in French Studies (p. 1041)

Minor
- Minor in French Studies (p. 1043)

French Studies does not currently offer an academic program at the graduate level.

French Studies (FREN)
FREN 106 - ACCELERATED FIRST-YEAR FRENCH
Short Title: ACCEL 1ST YR FRENCH
Department: Cntr Lang & Intercultural Comm
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Alternate first-year French for students with previous knowledge of another romance language, or limited previous French knowledge with a significant (1+ year) gap in study. Covers equivalent of FREN 141 and 142. Upon completion, students are prepared for FREN 263 or Rice-in-France. Mutually exclusive: cannot earn credit for FREN 141/142. Mutually Exclusive: Cannot register for FREN 106 if student has credit for FREN 141/FREN 142.

FREN 141 - FIRST YEAR FRENCH I
Short Title: FIRST YEAR FRENCH I
Department: Cntr Lang & Intercultural Comm
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Alternate first-year French for students with previous knowledge of another romance language, or limited previous French knowledge with a significant (1+ year) gap in study. Covers equivalent of FREN 141 and 142. Upon completion, students are prepared for FREN 263 or Rice-in-France. Mutually exclusive: cannot earn credit for FREN 141/142. Mutually Exclusive: Cannot register for FREN 106 if student has credit for FREN 141/FREN 142.

2021-2022 General Announcements PDF Generated 09/22/21
FREN 142 - FIRST YEAR FRENCH II
Short Title: FIRST YEAR FRENCH II
Department: Cntr Lang & Intercultural Comm
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Prerequisite(s): FREN 141
Description: Continuation of FREN 141. Development of interactional competence in French (sociolinguistic and socio cultural knowledge) to communicate and interact with speakers of French. The course is based on a student-centered, critical-thinking approach to language analysis/acquisition. Effective May 15, 2019, this course does not carry D1 credit. Mutually Exclusive: Cannot register for FREN 142 if student has credit for FREN 106/FREN 262.

FREN 222 - AP/OTH CREDIT FRENCH LANGUAGE
Short Title: AP/OTH CREDIT FRENCH LANGUAGE
Department: Cntr Lang & Intercultural Comm
Grade Mode: Standard Letter
Course Type: Transfer
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: This course provides credit for students who have successfully completed approved examinations, such as Advanced Placement exams. This credit counts toward the total credit hours required for graduation. Mutually Exclusive: Cannot register for FREN 222 if student has credit for FREN 141.

FREN 238 - SPECIAL TOPICS
Short Title: SPECIAL TOPICS
Department: Cntr Lang & Intercultural Comm
Grade Mode: Standard Letter
Course Type: Internship/Practicum, Laboratory, Lecture, Lecture/Laboratory, Seminar, Independent Study
Credit Hours: 1-4
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Topics and credit hours vary each semester. Contact department for current semester's topic(s). Repeatable for Credit.

FREN 263 - SECOND YEAR FRENCH I
Short Title: SECOND YEAR FRENCH I
Department: Cntr Lang & Intercultural Comm
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Prerequisite(s): FREN 106 or FREN 142
Description: Continuation of FREN 142. Development of interactional competence in French (sociolinguistic and socio cultural knowledge) to communicate and interact with speakers of French. The course is based on a student-centered, critical-thinking approach to language analysis/acquisition. Mutually Exclusive: Cannot register for FREN 263 if student has credit for FREN 201.
FREN 305 - LITERARY AND CULTURAL ANALYSIS: THE ART OF READING  
Short Title: LITERARY AND CULTURAL ANALYSIS  
Department: Modrn & Classicl Lit & Culture  
Grade Mode: Standard Letter  
Course Type: Seminar  
Distribution Group: Distribution Group I  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Description: Introduction to the unique critical skills necessary for reading and analysis across the arts and social sciences. Taught in French. Recommended Prerequisite(s): FREN 202 or FREN 264 or Placement Test.

FREN 307 - THE MANY FACETS OF FRENCH CULTURAL IDENTITY  
Short Title: FRENCH CULTURAL IDENTITY I  
Department: Modrn & Classicl Lit & Culture  
Grade Mode: Standard Letter  
Course Type: Seminar  
Distribution Group: Distribution Group I  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Description: With the help of nine French films and selected readings, we will discuss what it means to be French today. Recommended Prerequisite(s): FREN 202 or FREN 264 or Placement Test.

FREN 308 - BEAUTY AND THE BEAST(S): SEX, VIOLENCE, AND FOLKTALES IN THE AFRICAN DIASPORA  
Short Title: BEAUTY AND THE BEAST(S)  
Department: Modrn & Classicl Lit & Culture  
Grade Mode: Standard Letter  
Course Type: Seminar  
Distribution Group: Distribution Group I  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Description: This course examines the carnal violence and brutality associated with sex and gender in folktales and fairytales from the African diaspora to the Americas. In so doing, this course will also put European and African folklore in conversation with the New World's oral traditions. Taught in English.

FREN 311 - MAJOR LITERARY WORKS AND ARTIFACTS OF PRE-REVOLUTIONARY FRANCE  
Short Title: PRE-REV FRENCH LIT  
Department: Modrn & Classicl Lit & Culture  
Grade Mode: Standard Letter  
Course Type: Seminar  
Distribution Group: Distribution Group I  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Description: Study of French culture, literature, and artifacts from the Middle Ages until the Revolution. Recommended Prerequisite(s): FREN 202 or FREN 264 or Placement Test.

FREN 312 - MAJOR LITERARY WORKS AND ARTIFACTS OF POST-REVOLUTIONARY FRANCE  
Short Title: MAJ LIT WORKS POST-REV FRANCE  
Department: Modrn & Classicl Lit & Culture  
Grade Mode: Standard Letter  
Course Type: Seminar  
Distribution Group: Distribution Group I  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Description: Study of 19th and 20th century poetry, fiction, and cinema through the major literary and artistic movements: romanticism, realism, symbolism, Dada, surrealism, and existentialism. Recommended Prerequisite(s): FREN 202 or FREN 264 or Placement Test.

FREN 313 - MAJOR LITERARY WORKS AND ARTIFACTS OF THE FRANCOPHONE WORLD  
Short Title: MAJ LITERARY WORKS & ARTIFACTS  
Department: Modrn & Classicl Lit & Culture  
Grade Mode: Standard Letter  
Course Type: Seminar  
Distribution Group: Distribution Group I  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Description: This course will explore the artistic, historical, and philosophical textures of French cultures outside Europe, focusing especially on Africa North and South of the Sahara, the Caribbean, North America, and on the evolution of the concept of "francophonie" since World War II. Taught in French. Recommended Prerequisite(s): FREN 202 or FREN 264 or Placement Test.

FREN 321 - INTRODUCTION TO FRENCH SOCIETY AND CULTURE  
Short Title: INTRO FRENCH SOCIETY & CULTURE  
Department: Modrn & Classicl Lit & Culture  
Grade Mode: Standard Letter  
Course Type: Seminar  
Distribution Group: Distribution Group I  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Description: This course provides grounding in social, political, cultural, and economic aspects of contemporary France. The course will focus on themes such as youth culture, Europeanization, immigration, and gender debates. Recommended Prerequisite(s): FREN 202 or FREN 264 or Placement Test.
FREN 323 - FROM EXISTENTIALISM TO CYBERPUNK
Short Title: EXISTENTIALISM TO CYBERPUNK
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Films and novels. Investigations of human consciousness, subjectivity and identity – from Sartre’s existentialism of the “absurd”, through Robbe-Grillet’s “anti-humanism”, to the cyberpunk science-fictional studies of “post-humanity”, genetic manipulation, environmental collapse and post-religious mysticism, by contemporary figures like Dantec and Houellebecq. Recommended Prerequisite(s): FREN 202 or FREN 264 or Placement Test.

FREN 324 - FROM DECOLONIZATION TO GLOBALIZATION
Short Title: FROM DECOLONI TO GLOBALIZATION
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Taught in English. Novels, and films, from North and West Africa, and the immigrant population in France, from 1960 to 2010. Emphasis on the tensions between narratives of political emancipation, modernity, secularism, and religious fundamentalism and mysticism. Extra reading for graduate students in theories of colonialism, postcolonialism, globalization. Cross-list: POLI 324, RELI 476. Recommended Prerequisite(s): Any 200 level course or above in English or French, or HUMA 101 or HUMA 102, or a FWIS course. Mutually Exclusive: Cannot register for FREN 324 if student has credit for FREN 524/RELI 604.

FREN 325 - FRENCH THEORY, IN ENGLISH
Short Title: FRENCH THEORY, IN ENGLISH
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course provides an introduction to contemporary French theory and philosophy in their historical context, from decolonization and the Cold War to the present. Along the way, we will discuss French phenomenology, Marxism, structuralism, feminism, post-structuralism, and post-continental philosophy, including their impact on US culture. Taught in English.

FREN 326 - SHAKESPEARE IN THE CARIBBEAN: POST/COLONIAL READINGS
Short Title: SHAKESPEARE IN THE CARIBBEAN
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course examines English translations of Caribbean and Latin American writers' retellings of Shakespeare's The Tempest. Students will explore the construction of identity (including race and gender) and otherness since the beginning of the colonial project (1492). We will question the relationship between colonized and colonizer, and tropes such as the Master/Slave relationship. Taught in English.

FREN 340 - GENDER AROUND THE WORLD
Short Title: GENDER AROUND THE WORLD
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course focuses on the challenges of defining gender, race, and identity in Africa, Asia, and the Caribbean, or the Global South as this area is also known. The nations of the Global South are newly industrialized or in the process of industrializing and have had to battle the widespread effects of colonialism and globalization. Students will investigate the pervasiveness of stereotypes in literature, film, popular culture and the media in western and non-western contexts. We will examine theories from the Global South to avoid the simplification of Eurocentric analysis. Taught in French. Recommended Prerequisite(s): FREN 202 or FREN 264 or Placement Test
FREN 350 - PARIS
Short Title: PARIS
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3,4
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Overview of the history of Paris as a cultural, intellectual, and economic center through texts, music and films. Students earn 3 credits for the course, or 4 credits if participating in a supplementary 10-day study trip to France at the end of the semester in May. Taught in French. Recommended Prerequisite(s): FREN 202 or FREN 264 or Placement Test.

FREN 351 - PROVINCES OF FRANCE
Short Title: PROVINCES OF FRANCE
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3,4
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Overview of the amazing diversity in the history, languages, economic bases, traditions, and cultures of the original provinces in order to arrive at a better understanding of France as it exists today. For an additional credit hour, students may participate in a two week on site visit to a location in France. The location will vary; contact the instructor or the department for details. Recommended Prerequisite(s): FREN 202 or FREN 264 or Placement Test.

FREN 355 - MODERN SHORT STORY: TOWARDS AN ETHICS OF FICTION
Short Title: MODERN SHORT STORY
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course will explore those stories "behind the story" of the 19th century—that strange and often misunderstood genre, the "fantastic tale." Reading such writers as Gautier, Balzac, and Maupassant, we will discuss this genre's anxieties about madness and machines, misbehaving objects, and especially about women and their bodies. Recommended Prerequisite(s): FREN 202 or FREN 264 or Placement Test.

FREN 356 - TRANSLATION AS INTERPRETATION: CLOSE ENCOUNTERS WITH POETS OF THE MODERN AGE
Short Title: TRANSLATION AS INTERPRETATION
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: A course dedicated to reading closely some of the great poets of the modern period — from Hugo to Baudelaire to Prévert—and to the art of translation as a tool for reflecting on the subtleties of the French language and the special shape of the poetic. Recommended Prerequisite(s): FREN 202 or FREN 264 or Placement Test.

FREN 370 - WOMEN IN TALES OF THE FANTASTIC
Short Title: WOMEN IN TALES OF FANTASTIC
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course will explore those stories "behind the story" of the 19th century—that strange and often misunderstood genre, the "fantastic tale." Reading such writers as Gautier, Balzac, and Maupassant, we will discuss this genre's anxieties about madness and machines, misbehaving objects, and especially about women and their bodies. Recommended Prerequisite(s): FREN 202 or FREN 264 or Placement Test.

FREN 380 - FLAUBERT AND THE ART OF TRANSLATION: EXPERIMENTS IN WRITING
Short Title: WRITING FLAUBERT
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Flaubert was both a romantic and a realist who achieved the acutely modern through legend and myth in prose that was poetic. This will be a course in which he anchors our study of short, innovative prose works of the 19th century, encountered, each one, through the imaginative art of translation. Recommended Prerequisite(s): FREN 202 or FREN 264 or Placement Test.
FREN 401 - TRANSLATION
Short Title: TRANSLATION
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Exploration of the theory and practice of translation. Includes translation of modern texts from and into English. Effective May 15, 2019, this course does not carry D1 credit. Recommended Prerequisite(s): Completion of one 300-level course or permission of instructor.

FREN 402 - GLOBAL FRENCH CINEMA (IN ENGLISH)
Short Title: GLOBAL FRENCH CINEMA
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Taught in English. Cinema from France and the French-speaking world (especially Africa) - both the canon of "art" cinema and smash successes of commercial "entertainment." Discussion of this distinction. Critical and theoretical discourse in film studies with special attention to French contributions. Globalization in cinema. Recommended Prerequisite(s): Completion of one 300-level course.

FREN 403 - SPECIAL TOPICS
Short Title: SPECIAL TOPICS
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Independent Study
Credit Hours: 1-5
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Topics may vary. Please consult with the department for additional information. Taught in French. Instructor Permission Required. Repeatable for Credit.

FREN 404 - BEGINNINGS OF THE LANGUAGE AND LITERATURE OF FRANCE
Short Title: THE LANG AND LIT OF FRANCE
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course includes and external history of the French language, an examination of hagiographic literature and the chanson de geste in their cultural and artistic contexts, as well as bibliographic component to acquaint the students with library tools available for research emphasizing medieval resources but not excluding those for later periods. Student will acquire a reading knowledge of Old French. Course taught in French. Effective May 15, 2019, this course does not carry D1 credit. Cross-list: MDEM 404. Recommended Prerequisite(s): Completion of one 300-level course or permission of instructor.

FREN 407 - CINEMA IN FRENCH
Short Title: CINEMA IN FRENCH
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Cinema In French -- In France and the French-speaking world (especially Africa): both the canon of "auteurs" of "high culture" and commercial "mere entertainment." Discussion of this distinction, and introduction to critical and theoretical discourse in film studies. Effective May 15, 2019, this course does not carry D1 credit. Recommended Prerequisite(s): Completion of one 300-level course or permission of instructor.

FREN 409 - NOVELS AND FILMS
Short Title: NOVELS AND FILMS
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Comparison between French novels from the 16th to the 20th centuries and movies that have been based on them, in some cases more than one movie based on a given novel. The class will read each novel in question and then examine how the director perceived it when making the film. For example, La Reine Margot, Tous les Matins du Monde, Liaisons Dangereuses, Madame Bovary, Cyrano de Bergerac, Hiroshima mon amour. Effective May 15, 2019, this course does not carry D1 credit. Recommended Prerequisite(s): Completion of one 300-level course or permission of instructor.

FREN 411 - THE LEGACY OF COURTLY LITERATURE
Short Title: LEGACY OF COURTLY LITERATURE
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course will address the various ways that courtly literature has evolved into modern times and stages through which the themes have passed. We will study courtly themes in literature (French, English, Spanish, German, Italian), film, art, and music from the Middle Ages to modern times. Effective May 15, 2019, this course does not carry D1 credit. Recommended Prerequisite(s): Completion of one 300-level course or permission of instructor.
FREN 412 - SAINTS AND SINNERS
Short Title: SAINTS AND SINNERS
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Study of sanctity and sin in medieval culture through literary and some historical texts. Effective May 15, 2019, this course does not carry D1 credit. Recommended Prerequisite(s): Completion of one 300-level course or permission of instructor.

FREN 413 - BLACK VENUS/VÉNUS NOIRE: REPRESENTATIONS OF BLACK WOMEN IN THE LONG 19TH CENTURY
Short Title: BLACK VENUS/VÉNUS NOIRE
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course explores the mythology of the black woman's body in the French/Francophone imaginary, namely in the literary rewriting of the "primitive" in the long 19th century. Students will examine how this eroticized body bears traces of its social, political and cultural codification and symbolizes anxieties born out of the colonial encounter. Effective May 15, 2019, this course does not carry D1 credit. Taught in French. Recommended Prerequisite(s): Completion of one 300-level course or permission of instructor.

FREN 414 - SEX AND RACE IN THE FRENCH ATLANTIC
Short Title: SEX AND RACE - FRENCH ATLANTIC
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course examines the carnal violence and brutality associated with sex, gender, and race in folktales and fairy tales in French from the Americas. In so doing, this course will also put European and African folklore in conversation with the New World's oral traditions. Effective May 15, 2021, this course does not carry D1 credit. Taught in French. Recommended Prerequisite(s): Completion of one 300-level course or permission of instructor.

FREN 415 - COURTLY LOVE IN MEDIEVAL FRANCE
Short Title: COURTLY LOVE MEDIEVAL FRANCE
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Study of the Occitan and Old French poetry that served as the source of the kind of love that came to be called "Amour courtois" in the nineteenth century. Effective May 15, 2019, this course does not carry D1 credit. Cross-list: MDEM 425. Recommended Prerequisite(s): Completion of one 300-level course or permission of instructor. Mutually Exclusive: Cannot register for FREN 415 if student has credit for FREN 515.

FREN 416 - LITERATURE AND CULTURE OF THE MIDDLE AGES: KING ARTHUR
Short Title: LIT & CULTURE OF MIDDLE AGES
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Examination of the origins of the legend of King Arthur and reasons for its popularity, particularly in literature of the French Middle Ages but also in other medieval literatures of Western Europe. Includes discussion of the legend's influence in diverse areas even in modern times. Effective May 15, 2019, this course does not carry D1 credit. Taught in French. Cross-list: MDEM 436. Recommended Prerequisite(s): Completion of one 300-level course or permission of instructor.
FREN 430 - 17TH CENTURY
Short Title: 17TH CENTURY
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Thematic approach to examining the main political, religious, philosophical, and literary discourses of the golden age of absolutism. Effective May 15, 2019, this course does not carry D1 credit. Recommended Prerequisite(s): Completion of one 300-level course or permission of instructor

FREN 433 - FRENCH CARIBBEAN ECOCRITICISM
Short Title: FRENCH CARIBBEAN ECOCRITICISM
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course examines French Caribbean writers’ representations of natural and human disasters, and their impact on human interactions, human societies, and nature. Contrary to scholars considered to be in the first-wave of ecocriticism, these writers explore the social dimensions of environmentalism as well as the ecological implications of colonialism and neocolonialism. Taught in French. Recommended Prerequisite(s): Completion of one 300-level course or permission of instructor

FREN 450 - POETRY AND POETICS IN THE 19TH CENTURY
Short Title: POETRY & POETICS 19TH CENTURY
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Study of the poetry and prose poetry of the 19th century from the Romantic period to the Symbolist era, through such writers as Desbordes-Valmore, Lamartine, Musset, Vigny, Hugo, Nerval, Baudelaire, Verlaine, Rimbaud, and Mallarme. Effective May 15, 2019, this course does not carry D1 credit. Taught in French. Recommended Prerequisite(s): Completion of one 300-level course or permission of instructor

FREN 451 - FRANCE - AMERICA: IMAGE AND EXCHANGE
Short Title: FRANCE-AMER: IMAGE & EXCHANGE
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course studies the history and memory of World War Two in France. Students will learn how literature and film contributed to the making and undoing of national myths about collaboration and resistance and participation in the Holocaust. How has contemporary French society reconciled with this dark period of history? Effective May 15, 2019, this course does not carry D1 credit. Recommended Prerequisite(s): Completion of one 300-level course or permission of instructor

FREN 452 - WORLD WAR TWO IN FRENCH HISTORY, LITERATURE, AND FILM
Short Title: WORLD WAR TWO IN FRENCH HIST
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This undergraduate course analyzes French and American culture and identity through transatlantic encounters. We study French intellectuals (Tocqueville, Beauvoir, Baudrillard) who traveled to the US, and images of America in French novels, comic strips, films. We also examine American gazes toward the French. Effective May 15, 2019, this course does not carry D1 credit. Recommended Prerequisite(s): Completion of one 300-level course or permission of instructor

FREN 453 - IMMIGRATION AND CITIZENSHIP IN CONTEMPORARY FRANCE
Short Title: IMMIGRATION AND CITIZENSHIP
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course examines the impact of immigration on contemporary French society and analyzes debates over citizenship, integration, and multiculturalism. Taught in French. Effective May 15, 2019, this course does not carry D1 credit. Recommended Prerequisite(s): Completion of one 300-level course or permission of instructor
FREN 459 - THE BATTLES OF ALGIERS: FROM CHARLES X TO CHARLIE-HEBDO
Short Title: THE BATTLES OF ALGIERS
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Historical, literary, and visual materials from the 19th century to the present will illustrate the global perception of a war that left an indelible inscription in contemporary debates on democracy and reform. Effective May 15, 2019, this course does not carry D1 credit. Recommended Prerequisite(s): Completion of one 300-level course or permission of instructor.

FREN 460 - WOMEN IN FICTION AND HISTORY: NOTIONS OF THE FEMININE SINCE THE FRENCH REVOLUTION
Short Title: WOMEN, FRENCH FICTION, HISTORY
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Reading closely lyric, fictional, historical, and critical texts from Olympe de Gouges and Baudelaire to Rachilde and Irigaray, we will explore how women have been represented (and misrepresented) since the French Revolution, and how notions of the feminine since the 18th century still plague women's place and power in the 21st. Taught in French. Recommended Prerequisite(s): Completion of one 300-level course or permission of instructor.

FREN 477 - SPECIAL TOPICS
Short Title: SPECIAL TOPICS
Department: Modnr & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Internship/Practicum, Seminar, Lecture, Laboratory
Credit Hours: 1-4
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Topics and credit hours vary each semester. Contact department for current semester’s topic(s). Repeatable for Credit.

FREN 478 - THE CARIBBEAN IN FRENCH
Short Title: THE CARIBBEAN IN FRENCH
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This is the undergraduate senior version of the graduate level seminar FREN/ARCR 578. Both the course's reading list and the length of the research are adjusted to accommodate undergraduate needs. The seminar examines the history, political writings, literature and the arts of the French Caribbean from the beginning of colonization to the present. It will include figures such as Saint-John Perse, Roumain, Césaire, Fanon, Depestre, Schwarz-Bart, Warner-Vieyra, Glissant, Condé, Chamoiseau, Laferrière, as well as the Caribbean arts and film. Taught in English. Effective May 15, 2021, this course does not carry D1 credit. Cross-list: ARCR 478. Mutually Exclusive: Cannot register for FREN 478 if student has credit for FREN 578.

FREN 493 - FALL HONOR THESIS
Short Title: FALL HONOR THESIS
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Research
Credit Hours: 3-6
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Independent research projects by outstanding French Studies majors leading to a substantial honors thesis, undertaken in close cooperation with a departmental faculty member. Instructor Permission Required.

FREN 494 - SPRING HONOR THESIS
Short Title: SPRING HONOR THESIS
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Research
Credit Hours: 3-6
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Independent research projects by outstanding French Studies majors leading to a substantial honors thesis, undertaken in close cooperation with a departmental faculty member. Instructor Permission Required.
FREN 495 - THE FRENCH AVANT-GARDE: SYMBOLISM, DADAISM, SURREALISM, CONTEMPORARY CINEMA

Short Title: THE FRENCH AVANT-GARDE
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Short texts and films by Baudelaire, Verlaine, Rimbaud, Mallarmé, Jarry, Apollinaire, Breton, Artaud, Bataille, Robbe-Grillet, Catherine Breillat, Virginie Despentes. Effective May 15, 2019, this course does not carry D1 credit. Recommended Prerequisite(s): Completion of one 300-level course or permission of instructor

Bachelor of Arts (BA) Degree with a Major in French Studies

Program Learning Outcomes for the BA Degree with a Major in French Studies

Upon completing the BA degree with a major in French Studies, students will be able to:

1. Communicate fluently in spoken and written French at an advanced level, as indicated by the ability to: understand spoken French, converse in French, critically read and translate French texts, and write in multiple genres in French.

2. Achieve the cultural literacy necessary for studying abroad or practicing internationally-based professions by demonstrating an understanding of the major social, cultural, and political stakes of the French and Francophone world, past and present.

3. Demonstrate an interdisciplinary understanding of French studies through critical investigations of French literature, art, film, and other cultural forms.

4. Understand French language and culture not as isolated geographic phenomena, but in the wider context of multicultural exchange and globalization.

5. Learn and apply various research skills, including critical thinking and reading skills, theory, and criticism, to French texts (broadly construed) in order to produce new critical insights verbally or in writing.

Requirements for the BA Degree with a Major in French Studies

For general university requirements, see Graduation Requirements (p. 29). Students pursuing the BA degree with a major in French Studies must complete:

• A minimum of 10 courses (30 credit hours) to satisfy major requirements.
• A minimum of 120 credit hours to satisfy degree requirements.
• A minimum of 8 courses (24 credit hours) taken at the 300-level or above.
• A maximum of 4 courses (12 credit hours) from study abroad or transfer credit. For additional departmental guidelines regarding transfer credit, see the Policies (p. 1042) tab.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major's academic advisor, or where applicable, the department's Director of Undergraduate Studies. (Course substitutions must be formally applied and entered into Degree Works by the major's Official Certifier [https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/].) Students and their academic advisors should identify and clearly document the courses to be taken.

Policies for the BA Degree with a Major in French Studies

Enrollment
As many as two French courses taught in English may count toward a major in French Studies. Students who have taken French courses at the 300- and 400-level (except those taught in English) cannot enroll simultaneously or afterward in 200-level French courses for credit. Students with diplomas from French-speaking institutions must consult with the department before enrolling in courses, and all majors and prospective majors must have their programs of study approved by an undergraduate advisor.

Students who arrive at Rice with AP credit in French of 4 or 5, or who have passed the International Baccalaureate with a 6 or 7 in French, can immediately enroll in all courses at the 300- or 400-level without taking a placement exam. All other students should take the placement exam administered by CLIC and will be assigned to courses in accordance with their level.

Program Restrictions and Exclusions
Students pursuing the major in French Studies should be aware of the following program restriction:

- As noted in Majors, Minors, and Certificates (p. 17), students may not major and minor in the same subject.

Transfer Credit
For Rice University's policy regarding transfer credit, see Transfer Credit (p. 37). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines
Students pursuing the major in French Studies should be aware of the following departmental transfer credit guidelines:

- No more than 4 courses (12 credit hours) of transfer credit from U.S. or international universities of similar standing as Rice may apply towards the major.
- Requests for transfer credit will be considered by the program director (and/or the program's official transfer credit advisor) on an individual case-by-case basis.

Distribution Credit Information
The determination of distribution credit eligibility is done initially as part of the new course creation process (https://registrar.rice.edu/facstaff/courseprocess/). Additionally, as part of an annual roll call (https://registrar.rice.edu/facstaff/distribution_credit/) coordinated each Spring by the Office of the Registrar, course distribution credit eligibility is routinely reviewed and reaffirmed by the Dean's Offices of each of the academic schools.

Faculty and leadership in the academic schools are responsible for ensuring that the courses identified as distribution-credit-eligible meet the criteria as set in the General Announcements (p. 29). Students are responsible for ensuring that they meet graduation requirements (p. 29) by completing coursework designated as distribution-credit-eligible at the time of course registration.

Distribution courses from the Department of Modern and Classical Literatures and Cultures are broad in theme and scope and provide students with a substantial inquiry into literature, art, media, history, thought, and/or politics, including specific national traditions, linguistic contexts, and historical periods. Such courses involve a broad and often interdisciplinary spectrum of knowledge, providing students with the tools for thinking critically about the formation of modern culture, its colonial past, and its national and linguistic traditions from antiquity to the present.

Additional Information
For additional information, please see the Modern and Classical Literatures and Cultures website: https://cultures.rice.edu

Opportunities for the BA Degree with a Major in French Studies
Academic Honors
The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 51) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 51). Some departments have department-specific Honors awards or designations.
Honors Program
French Studies offers an honors program for majors excelling in their studies. Honors work consists of two semesters of independent research under faculty supervision on a topic proposed by the student leading to a substantial thesis (FREN 493 in the fall semester and FREN 494 in the spring semester).

Study Abroad Opportunities
We strongly encourage students to spend time studying in a francophone country, and to that end the faculty and the Rice Study Abroad Office will help them select an appropriate program. To support study abroad, the department offers several Bull Fellowships annually.

Additional Information
For additional information, please see the Modern and Classical Literatures and Cultures website: https://cultures.rice.edu

See https://humanities.rice.edu/student-life (https://humanities.rice.edu/student-life/) for tables of fellowships, prizes, and internships/practica that may be relevant to this major.

Minor in French Studies

Program Learning Outcomes for the Minor in French Studies

Upon completing the minor in French Studies, students will be able to:

1. Communicate fluently in spoken and written French at an advanced level, as indicated by the ability to: understand spoken French, converse in French, critically read and translate French texts, and write in multiple genres in French.
2. Achieve the cultural literacy necessary for studying abroad or practicing internationally-based professions by demonstrating an understanding of the major social, cultural, and political stakes of the French and Francophone world, past and present.
3. Understand French language and culture not as isolated geographic phenomena, but in the wider context of multicultural exchange and globalization.

Requirements for the Minor in French Studies

Students pursuing the minor in French Studies must complete:

• A minimum of 6 courses (18 credit hours) to satisfy minor requirements.
• A minimum of 6 courses (18 credit hours) taken at the 300-level or above.
• A maximum of 2 courses (6 credit hours) from study abroad or transfer credit. For additional departmental guidelines regarding transfer credit, see the Policies (p. 1043) tab.

The courses listed below satisfy the requirements for this minor. In certain instances, courses not on this official list may be substituted upon approval of the minor’s academic advisor, or where applicable, the Program Director. (Course substitutions must be formally applied and entered into Degree Works by the minor’s Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/)). Students and their academic advisors should identify and clearly document the courses to be taken.

Elective Requirements

Select 3 elective courses from departmental (FREN) course offerings at the 300-level and above. ¹, ²

Total Credit Hours

18

Footnotes and Additional Information

¹ Courses not used to fulfill the Core Requirements may be taken to fulfill Elective Requirements. The same course may not be used to satisfy more than one requirement for this minor.

² No courses may be taken in English to fulfill minor requirements. Departmental (FREN) course offerings taught in English that will not fulfill minor requirements include the following: FREN 308, FREN 324, FREN 355, FREN 402, and FREN 478.

Policies for the Minor in French Studies

Program Restrictions and Exclusions

Students pursuing the minor in French Studies should be aware of the following program restriction:

• As noted in Majors, Minors, and Certificates (p. 17), i.) students may declare their intent to pursue a minor only after they have first declared a major, and ii.) students may not major and minor in the same subject.

Transfer Credit

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 37). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines

Students pursuing the minor in French Studies should be aware of the following departmental transfer credit guidelines:
• No more than 2 courses (6 credit hours) of transfer credit from U.S. or international universities of similar standing as Rice may apply towards the minor.
• Requests for transfer credit will be considered by the departmental Director of Undergraduate Studies (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

Distribution Credit Information
The determination of distribution credit eligibility is done initially as part of the new course creation process (https://registrar.rice.edu/facstaff/courseprocess/). emden@rice.edu

The Department of Modern and Classical Literatures and Cultures (MCLC) houses the German Studies program, a research-centered and student-friendly program with a challenging curriculum taught by internationally renowned faculty. The program covers the entire tradition of German culture, history, and politics within a European and global context, from early modern times to the present. Particular strengths of the department are in eighteenth- to twentieth-century literature and culture, media and film studies, modern intellectual history and political thought, and philosophy. Students in the program may pursue the BA degree with a major in German Studies. The department also offers a minor in German Studies.

The close connection between research and teaching lies at the heart of the major’s curriculum and enables students to develop original contributions at an early stage. Beyond a detailed and historically grounded understanding of German and European culture, students gain intellectual and social qualities that are highly valued in a global knowledge society: logical reasoning, critical thinking, linguistic skills, and cultural competence. German Studies majors have received Fulbright grants and have continued at some of the best graduate schools in the U.S. and Europe.

Bachelor’s Program
• Bachelor of Arts (BA) Degree with a Major in German Studies (p. 1054)

Minor
• Minor in German Studies (p. 1056)

German Studies does not currently offer an academic program at the graduate level.

GERM 101/GERM 106/GERM 222.

Mutually Exclusive: Cannot register for GERM 141 if student has credit for GERM 201. Placement exams. This credit counts toward the total credit hours required for graduation. Mutually Exclusive: Cannot register for GERM 222 if student has credit for GERM 141.

GERM 222 - AP/OTH CREDIT IN GERMAN LANGUAGE
Short Title: AP/OTH CREDIT GERMAN LANGUAGE
Department: Cntr Lang & Intercultural Comm
Grade Mode: Standard Letter
Course Type: Transfer
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: This course provides credit for students who have successfully completed approved examinations, such as Advanced Placement exams. This credit counts toward the total credit hours required for graduation. Mutually Exclusive: Cannot register for GERM 222 if student has credit for GERM 141.

GERM 238 - SPECIAL TOPICS
Short Title: SPECIAL TOPICS
Department: Cntr Lang & Intercultural Comm
Grade Mode: Standard Letter
Course Type: Internship/Practicum, Laboratory, Lecture, Seminar, Independent Study, Lecture/Laboratory
Credit Hours: 1-4
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Topics and credit hours vary each semester. Contact department for current semester's topic(s). Repeatable for Credit.

GERM 263 - SECOND YEAR GERMAN I
Short Title: SECOND YEAR GERMAN I
Department: Cntr Lang & Intercultural Comm
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Prerequisite(s): GERM 142
Description: Continuation of GERM 142. Development of interactional competence in German (sociolinguistic and socio cultural knowledge) to communicate and interact with speakers of German. The course is based on a student-centered, critical-thinking approach to language analysis/ acquisition. Mutually Exclusive: Cannot register for GERM 263 if student has credit for GERM 201.
GERM 264 - SECOND YEAR GERMAN II
Short Title: SECOND YEAR GERMAN II
Department: Cntr Lang & Intercultural Comm
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Prerequisite(s): GERM 263
Description: Continuation of GERM 263. Development of interactional competence in German (sociolinguistic and socio cultural knowledge) to communicate and interact with speakers of German. The course is based on a student-centered, critical-thinking approach to language analysis/ acquisition. Mutually Exclusive: Cannot register for GERM 264 if student has credit for GERM 202.
Course URL: clicgerman.blogs.rice.edu (http://clicgerman.blogs.rice.edu)

GERM 280 - HISTORY OF CINEMA AND MEDIA I: INVENTION TO 1945
Short Title: HISTORY OF CINEMA AND MEDIA I
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: This seminar will introduce students to the history of cinema from its inception to 1945 by considering individual cinematic artifacts in their technological, economic, aesthetic, political, and social contexts. Cross-list: CMST 201.

GERM 301 - THIRD YEAR GERMAN I
Short Title: THIRD YEAR GERMAN I
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course introduces students to contemporary German speaking cultures through the use of authentic materials (film, media, literature). Taught in German. Recommended Prerequisite(s): GERM 264 or Instructor Permission.

GERM 302 - THIRD YEAR GERMAN II
Short Title: THIRD YEAR GERMAN II
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course focuses on complex topics in contemporary German speaking cultures through the use of authentic materials (film, media, literature). Recommended Prerequisite(s): GERM 301 or Permission of Instructor.

GERM 303 - GERMAN FOR PROFESSIONALS: BUSINESS AND RESEARCH
Short Title: GERMAN FOR PROFESSIONALS
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): GERM 302
Description: This course introduces students to current issues and language use in German technology, business, and international relations, and it explores these issues in larger cultural contexts. Assignments allow students to explore areas of individual interest and encourage exploration of international career opportunities including GERM 399 The German Studies Internship. Taught in German.

GERM 305 - ENLIGHTENMENT AND ROMANTICISM (1750-1850)
Short Title: ENLIGHTENMENT (1750-1850)
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: An introduction to the major social, political and cultural developments in the period between 1700-1850, which contributed to the emergence of modern German cultural identity within the European context. Covers wide range of theoretical and literary works by Kant, Lessing, Schiller, Goethe, Eichendorff, Hoffmann, Heine, and others. Taught in German.

GERM 306 - REALISM TO MODERNITY (1850-PRESENT)
Short Title: REALISM TO MODERNITY-1850-PRES
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: German history and culture during the late 19th and the 29th century have been rather turbulent: From Wilhelminian empire to Weimar democracy to Hitler fascism to socialist division to German reunification to entry into the European Union. All these political changes will be commented on by cultural reflections in textual and filmic forms. Literary texts will include Fontane, Mann, Kafka, Boll, Grass, Wolf and Maron. Taught in German.
GERM 307 - FOLK AND FAIRY TALE IN GERMAN: TRADITION, STRUCTURE, ARTISTRY
Short Title: FOLK & FAIRY TALE IN GERMAN
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: The folk tales collected by the Brothers Grimm still exhibit all the principle characteristics and functions of oral literature, i.e. the reproduction of an audience's cultural identity and the securing of that identity. Nevertheless, these characteristics are still preserved in fairy tales written by specific authors for a reading audience. Examples of the latter are mainly from authors of Romanticism and Realism. Taught in German.

GERM 309 - GERMAN POETRY
Short Title: GERMAN POETRY
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: "If the soul speaks out, alas! it is no longer the soul that speaks" - in Schiller's famous line one of the many fascinating paradoxes of lyric poetry is expressed. With the tradition of the "Lied," poems set to music, German poetry of the Classical-Romantic epoch was soon to become the epitome of lyric poetry as such. There were, however, poems of quite different kinds before and after Goethe, Eichendorff, and Heine. Without neglecting the Classical-Romantic period, the course will explore the history of lyric expression in German literature from the early modern period to the present in both poems and theoretical texts. Taught in German.

GERM 311 - BERLIN: PAST AND PRESENT
Short Title: BERLIN: PAST AND PRESENT
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: The course introduces students to German history and culture as mirrored in the history of the city that is "always in progress and never accomplished." With an emphasis on the period from the 1920's to the present, class discussions encompass literature and theory, politics and social life, as well as architecture, fine arts and film. Taught in German.

GERM 320 - TWENTIETH CENTURY GERMAN THOUGHT AND LITERATURE IN GERMAN
Short Title: 20TH CENTURY GERMAN THOUGHT
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course will focus on the way in which major events of twentieth century German history and culture — especially World War I, the founding of the Weimar Republic, and National Socialism and the Holocaust – have been dealt with in literature, philosophy, and the social sciences.

GERM 322 - MARX, FREUD, EINSTEIN: FOREBEARERS OF MODERNITY
Short Title: MARX, FREUD, EINSTEIN
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Like no others, these three thinkers of the 19th and 20th centuries have influenced the intellectual, historical, social and cultural development not only of Germany, but of the entire world. The course examines the works of these authors in the context of their own time as well as their continued importance in the present. Works by Brecht, Christa Wolf, Schnitzler, Kafka will also be considered. Taught in English. Cross-list: HUMA 322.

GERM 324 - BERLIN: RESIDENCE, METROPOLIS, CAPITAL
Short Title: BERLIN: RESIDENCE, METROPOLIS, CAPITAL
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: The course offers an introduction to German history, politics, and culture as mirrored in the history of the old and new German capital. Berlin has always been a city of contradictions: from imperial glamour to proletarian slums, from the Roaring Twenties to Hitler's seizure of power. Emerging from the ruins of WWII Berlin became both the capital of Socialism and the display window of the Free World. After the fall of the wall, Berlin is still looking for its role in the center of a reshaped Europe. Readings and discussions encompass fine arts and literature from the 18th century to the present, including film. Taught in English. Cross-list: HUMA 324.
GERM 325 - MODERN GERMAN WRITERS: KAFKA
Short Title: MODERN GERMAN WRITERS: KAFKA
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Goethe’s vision of “world-literature” came true in the twentieth century. German authors, among them Kafka, transcended the confines of national traditions and redefined the concepts of literature and authorship in view of a modern globally dispersed audience. Topics may vary. Taught in English. Cross-list: HUMA 325. Repeatable for Credit.

GERM 326 - THE GERMAN FAIRY TALE: OLD AND NEW
Short Title: GERMAN FAIRY TALE: OLD & NEW
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Discussion of several prototypes from the fairy-tale collection of the Brothers Grimm and the subsequent development of the “literary” fairy tale from Goethe and the Romantics to the 20th century. Taught in English. Cross-list: HUMA 372.

GERM 327 - GERMAN EXPRESSIONISM IN EUROPEAN CONTEXT: HISTORY, LITERATURE AND FINE ARTS
Short Title: GERMAN EXPRESSIONISM
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: The literature, fine arts and film of German Expressionism represent the most concentrated breakthrough of modernity. In addition to focusing on this accomplishment in its European context, the course will also discuss Nietzsche’s influence, the movement’s ambivalent reaction to WWI and its misappropriation by communism and national-socialism. Taught in English.

GERM 328 - GERMAN ADAPTATIONS: TEXT TO FILM
Short Title: GERMAN ADAPTATIONS: TEXT-FILM
Department: Modrn & Classicl Lit & Film
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Prominent novels of the 20th century will be studied for their possibilities or impossibilities of rendition from print medium to cinematic medium. From the myriad of adaptations we will concentrate on Thomas Mann: Tod in Venedig; Franz Kafka: Das Schloss; Klaus Mann: Mephisto; Gunter Grass: Die Blechtrommel; H. Boll: Katharina Blum; Jurek Becker: Jacob der Lugner. All films are subtitled in English. Taught in English. Cross-list: HUMA 328.

GERM 329 - LITERATURE OF THE HOLOCAUST AND EXILE
Short Title: LIT OF HOLOCAUST & EXILE
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Most of the authors from Germany and Austria, who were persecuted and fled into exile, used literature to search for meaning in life that apparently had been stripped of all meaning. Among these authors are the most distinguished writers of the time, i.e., Th. and H. Mann, Brecht, Benjamin, Werfel, Doblin, J. Roth, S. Zweig, N. Sachs, Celan, Auslander. Taught in English. Cross-list: HUMA 329.

GERM 330 - LITERATURE AND FILM IN EAST GERMANY: BEHIND THE IRON CURTAIN
Short Title: Lit and Film: East Germany
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This seminar will introduce students to the literature and filmic culture of East Germany, as well as to its social, political, and cultural context. It will also ask how literature and film not only reflect history but also respond to history by mobilizing their own political force.
GERM 333 - NIETZSCHE: PHILOSOPHY, POLITICS, HISTORY
Short Title: NIETZSCHE
Department: Modrn &Classic Lit & Culture
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Situates Nietzsche's thought on language, history, and the body within its historical context, and examines the validity of his arguments in a world increasingly challenged by scientific knowledge. Focuses on Nietzsche's views on truth, genealogy, nihilism, morality, and science, which continue to be relevant for current debates within the humanities. Taught in English.

GERM 334 - NATIONALISM AND CITIZENSHIP
Short Title: NATIONALISM AND CITIZENSHIP
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Critical review of modern concepts of nationalism and citizenship. Topics include: theories of nationalism and citizenship, space and territory, identity, monuments, the emergence of nation states, multicultural democracy, transnationalism, and political belonging. Course provides links between political theory, public policy, literature, visual culture, architecture, and historical anthropology.

GERM 335 - GERMAN FILM (IN ENGLISH)
Short Title: GERMAN FILM (IN ENGLISH)
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: The course explores filmic representations of communities, their complex mechanisms of inclusion and exclusion, their inevitable dynamics of otherness, as well as practices of modern states toward communal regulation and control. While communities biologically denote the interaction of organisms sharing an environment, we will examine the practices of power that states wield toward the maximization of "life." Hence the questions of biopower, health politics, eugenics, sexism, racism, and genocide. How do films negotiate the precarious politics of communal life, what are their strategies for resistance, and what their moments of complicity? We will explore how film reflects communal life in twentieth-century German history, but also, and perhaps primarily, how film responds to that history by generating its own speaking power and mobilizing its own political force. Mutually Exclusive: Cannot register for GERM 335 if student has credit for FSEM 136/GERM 136.

GERM 336 - NATIONAL SOCIALISM AND FILM
Short Title: NATIONAL SOCIALISM AND FILM
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course explores films made in Nazi Germany as well as films about Nazi Germany and the corresponding crisis of justice in the mid-twentieth century. We will analyze cinematic responses to the rise of the fascist movement, World War II, the Holocaust, and the post-war years. Particular attention will be paid to the value of film as propagandistic tool, ways in which it can configure and contest our image of national identity, and the relation between mass manipulation and mass murder. Taught in English. Mutually Exclusive: Cannot register for GERM 336 if student has credit for FSEM 132/GERM 132.

GERM 337 - VIENNA 1800 TO THE PRESENT - LASTING CENTER OF GERMAN CULTURE
Short Title: VIENNA 1800 TO THE PRESENT
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Despite Vienna's drastic political changes from 1800 to 2000, it is still synonymous with German culture in its fusion of literature, music and the fine arts.

GERM 338 - NEW GERMAN FILM: HITLER'S CINEMATIC CHILDREN
Short Title: NEW GERMAN FILM: HITLER'S CINEMA
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: From the 1960 to 2000, Germany has developed a very distinct auteur cinema with independent filmmakers such as Fassbinder, Herzog, Wenders, Adlon, Trotta, Sander, Brueckner, Doerrie, Garnier, Tykwer, and others. The first 20 years of German film were oriented on coming to terms with the fascist past; the second 20 years focused on more contemporary issues. Film, critical reading and class discussion in English. All films are subtitled in English and will be assessed with podium technology. Taught in English. Cross-list: HUMA 373, SWGS 361.
GERM 339 - FROM EXPRESSIONISM TO FASCISM: ART AND FILM IN GERMANY
Short Title: FROM EXPRESSIONISM TO FASCISM
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Focusing on the tumultuous years of the Weimar Republic, this class will examine art and film in Germany from the birth of Expressionism through the end of the Nazi dictatorship. Topics covered will include Expressionism, Dada, the Bauhaus, and Fascist aesthetics. Particular attention will be paid to the relations between aesthetics and politics and art and everyday life, all central concerns of the art and criticism of the period. Cross-list: HART 398.

GERM 340 - WALTER BENJAMIN: AESTHETICS, HISTORY AND POLITICS
Short Title: WALTER BENJAMIN
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Benjamin has been celebrated as a revolutionary Marxist, a theologian of Jewish Messianism, and as an essayist and literary critic. The course offers an introduction to his writings by way situating them in the historical background of the Weimar Republic and the crises of European society on the eve of WWII. Taught in English. Cross-list: HUMA 340.

GERM 341 - A SHORT HISTORY OF GERMAN THOUGHT ON HISTORY
Short Title: GERMAN THOUGHT ON HISTORY
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: From early modern times onward history has played and still plays a crucial role in German thought. Why? An answer to this question is to be sought in history; in authors such as Lessing, Kant, Hegel, Marx, and Nietzsche who contributed to what in German is called “Philosophy of History.”

GERM 345 - FROM DEMOCRACY TO DICTATORSHIP: GERMAN HISTORY, 1890-1945
Short Title: GERMAN HISTORY, 1890-1945
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: From 1890-1945, Germans experienced dramatic changes in their political environment. This lecture class will examine these changes, taking into account not only political history, but also attempts to come to terms with the challenges posed by organized capitalism, the rise and fall of socialism, the development of an interventionist state, cultural critique, and political culture, the Nazi social revolution, and the Holocaust. Taught in English. Cross-list: HIST 355.

GERM 349 - GERMAN POLITICAL THOUGHT
Short Title: GERMAN POLITICAL THOUGHT
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Advanced seminar in political thought. Traces the development and influence of one of the most important traditions of modern political thought from the Enlightenment to the present. Topics include: natural law, public sphere, intellectuals and the modern state, civil society, mass democracy. Reading intensive and research oriented. Taught in English.

GERM 351 - HOLOCAUST MEMORY IN MODERN GERMANY
Short Title: HOLOCAUST MEMORY
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3,4
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course traces and examines forms of Holocaust memory and memorialization in film, literature, art, architecture, city planning, museums, and memorials in Germany. For an additional credit hour, students will participate in a week-long trip to Berlin. Instructor Permission Required. Cross-list: HART 387.
GERM 352 - POLITICS OF THE FLESH IN GERMAN LITERATURE, THOUGHT AND FILM
Short Title: THE POLITICS OF THE FLESH
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course will introduce students to the complex relation between the sphere of politics and the human body as negotiated in German literature, thought and film. We will examine the practices of power that states wield toward the maximization of "life" and discuss such pressing issues as biopower, eugenics, racism, sexism and genocide. Taught in English.

GERM 361 - THE AGE OF GOETHE: POETRY AND TRUTH
Short Title: AGE OF GOETHE: POETRY & TRUTH
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: The "Age of Goethe" is generally referred to as the "classical" decade of German literature and culture. It was, however, by no means exclusively the age of Goethe and Schiller, but also of Kant and Herder, Holderlin and Kleist, and the beginning of the Romantic movement. While German intellectuals debated revolution in the lofty realm of letters, their French contemporaries took to the streets and staged a political revolution that culminated in the execution of their king. Germany as the "land of the poets and philosophers" is a myth indeed, and a rather ambivalent one, too. The course explores the age of Goethe, its "poetry" and its "truth," by way of reading key texts of that period in their intellectual, historical, and political contexts. Taught in German.

GERM 362 - NEW REALITIES: LITERATURE AND POLITICS IN THE 19TH CENTURY
Short Title: 19TH C. LITERATURE & POLITICS
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: In German arts and letters, the nineteenth century is usually referred to as the age of Realism. As a reaction to Neo-Classicism, Romanticism, and Idealism, intellectual life turned towards the new realities in the sciences as well as society and politics. Industrialization, urbanization, the social question, women's liberation and the founding of the "Reich" created a new sense of reality and gave way to new forms of expression in literature and the arts. While optimism regarding the process of mankind prevailed, pessimism spread amongst the more thoughtful. Readings include texts by Heine, Fontaine, Keller, Hauptmann, Marx, Schopenhauer and Nietzsche. Taught in German.

GERM 363 - THE WEIMAR REPUBLIC, 1919-1933
Short Title: THE WEIMAR REPUBLIC, 1919-1933
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Seminar in Germany’s first democracy and one of the most formative moments of modernity. Covers political culture, constitutional conflict, literary and intellectual movements and urban visual culture from the end of the First World War and the spectacular modernity of 1920s Berlin to the rise of the Nazis. Taught in German.

GERM 364 - THE EXPRESSIONIST VISION OF "NEW MAN"
Short Title: EXPRESSIONIST VISION
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Inspired by Nietzsche’s concept of the "Superman," the Expressionist writers and artists (roughly between 1910 and 1920) strived towards a total renewal of society. They attached its patriarchal foundation, blamed the anonymity of the metropolitan mass society with the newly formed proletariat on hand and the materialistic life-style on the other for the general dissociation of individuals. The major literary forms were poetry and drama, which were either activist or experimenting with newly created metaphors. The prose employs the genre of the grotesque. The visual artists are influenced by van Gogh. As a totally new medium, the film incorporates all these aspects and elements. Taught in German.

GERM 380 - GERMAN HISTORY IN FILM: INTERNATIONAL PERSPECTIVES
Short Title: GERMAN HISTORY IN FILM
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course explores how German history and its effects on Europe and the world have been presented in international film. Special attention will be paid to films dealing with traumatic moments and developments before, during and after World War I, World War II, the Holocaust and the Cold War.
GERM 399 - THE GERMAN STUDIES INTERNSHIP
Short Title: THE GERMAN STUDIES INTERNSHIP
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Internship/Practicum
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: The Office of the Dean of humanities and relevant faculty from German Studies match students individually with one of a variety of projects in the areas of diplomacy, engineering, pedagogy, public culture. Students conduct research or related activities under the guidance of on-site supervisor and the section instructor on record. Instructor Permission Required.

GERM 401 - TOPICS IN GERMAN LITERATURE AND CULTURE
Short Title: TOPICS IN GERMAN
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 1-3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course will work with sophisticated texts to enable students to bring their proficiency in the various modalities of German to the advanced level. Taught in German. Repeatable for Credit.

GERM 402 - GERMAN TRANSLATION
Short Title: GERMAN TRANSLATION
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Advanced seminar on German-English translations. With stylistic exercises covering a broad range of genres: poetry, novels, essays, historical documents, legal documents, journalism, etc. Taught in German. Effective May 15, 2019, this course does not carry D1 credit.

GERM 410 - THE POLITICS OF GERMAN FILM (IN GERMAN)
Short Title: THE POLITICS OF GERMAN FILM
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course explores film in the context of German politics and history. It examines why film has been such a contested subject in German philosophy and the social sciences. Assignments will include films from the Weimar Republic and Nazi Germany to postwar New German Cinema and today's filmic presentation of German history and politics. Selected directors include: Maren Ade, Rainer Werner Fassbinder, Florian Henckel von Donnersmarck, Werner Herzog, Fritz Lang, Margarete von Trotta, and Tom Tykwer. The course also provides an introduction to German film theory examining selected works by Theodor W. Adorno, Walter Benjamin, Siegfried Kracauer, and Georg Lukács. Taught in German.

GERM 411 - THE POETICS OF JUSTICE IN GERMAN LITERATURE, THOUGHT, AND FILM
Short Title: THE POETICS OF JUSTICE
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Seminar will introduce students to the ongoing concern with law and its relation to justice in German literature, thought, and film. We will examine works that stage actual and figurative trials, and will ask how these enactments serve as a catalyst for civilization's most pressing normative questions.

GERM 420 - GERMAN POLITICS/CULTURE AFTER 1945
Short Title: GERM. POLI/CULTURE AFTER 1945
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Advanced seminar on German culture and politics after the Second World War – from the foundation of the Federal Republic, the separation of the two Germanys, and the student revolts of 1968 to 1970s terrorism, the fall of the Berlin Wall, and Germany's present role in the international community. Taught in German.

GERM 425 - VIENNA AND ITS PEOPLE
Short Title: VIENNA AND ITS PEOPLE
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: In this course we will look at the people of Vienna from the turn of the century to the present. Our readings, film viewings and discussions will introduce us to the Viennese as people of all classes and ethnic and national groups. Taught in German. Recommended Prerequisite(s): Intermediate high proficiency (speaking & writing).

GERM 430 - GERMAN INTELLECTUAL HISTORY
Short Title: GERMAN INTELLECTUAL HISTORY
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Advanced Seminar on key topics in modern German intellectual history, including history of science and scholarship, from 1700 to the present. Ideal preparation for graduate school in the humanities. Taught in German.
GERM 435 - CONCEPTS OF HISTORY FROM G.E. LESSING TO W. BENJAMIN
Short Title: CONCEPTS OF HISTORY
Department: Modrn & Classical Lit & Culture
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: The eighteenth-century German philosopher Gotthold Lessing and the nineteenth-century philosopher Friedrich Nietzsche called philosophy of history (Geschichtsphilosophie) a "German discipline." There is indeed a long and rich tradition of texts in German thought focusing on making sense of the seemingly senseless, on speculating about the origin, the course, the aim, or, quite generally, the "meaning" of history. Based on selected texts by Lessing, Kant, Heine, Hegel, Nietzsche, Ranke, Burckhardt, Benjamin, and others, the course discusses different concepts of history from the early eighteenth century to the twentieth century. Taught in German.

GERM 477 - SPECIAL TOPICS
Short Title: SPECIAL TOPICS
Department: Cntr Lang & Intercultural Comm
Grade Mode: Standard Letter
Course Type: Seminar, Lecture, Laboratory, Internship/Practicum
Credit Hours: 1-4
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Topics and credit hours vary each semester. Contact the department for current semester's topic(s). Repeatable for Credit.

GERM 491 - FALL - INDEPENDENT WORK IN GERMAN LITERATURE
Short Title: FALL-IND WRK GERM LITERATURE
Department: Modrn & Classical Lit & Culture
Grade Mode: Standard Letter
Course Type: Independent Study
Credit Hours: 1-3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Qualified students work on projects of their choice under the supervision of individual instructors with approval of the undergraduate advisor. Department Permission Required. Repeatable for Credit.

GERM 492 - SPRING - INDEPENDENT WORK IN GERMAN LITERATURE
Short Title: SPRING-IND WRK GERM LITERATURE
Department: Modrn & Classical Lit & Culture
Grade Mode: Standard Letter
Course Type: Independent Study
Credit Hours: 1-3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Qualified students work on projects of their choice under the supervision of individual instructors with approval of the undergraduate advisor. Department Permission Required. Repeatable for Credit.

GERM 493 - FALL HONOR THESIS
Short Title: FALL HONOR THESIS
Department: Modrn & Classical Lit & Culture
Grade Mode: Standard Letter
Course Type: Research
Credit Hours: 3-6
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Independent research projects by outstanding German majors leading to a substantial honors thesis, undertaken in close cooperation with a departmental faculty member. Department Permission Required.

GERM 494 - SPRING HONORS THESIS
Short Title: SPRING HONOR THESIS
Department: Modrn & Classical Lit & Culture
Grade Mode: Standard Letter
Course Type: Research
Credit Hours: 3-6
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Independent research projects by outstanding German majors leading to a substantial honors thesis, undertaken in close cooperation with a departmental faculty member. Department Permission Required.

GERM 541 - FIRST-YEAR GERMAN I FOR GRADUATE STUDENTS
Short Title: 1ST YR GERMAN I FOR GRAD STUD
Department: Cntr Lang & Intercultural Comm
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course is targeted at graduate students of different disciplines as an introduction to the fundamentals of listening, reading, writing, spoken production and interaction in German. This course is student-centered, uses a critical-thinking approach and intends to make students aware of contextualized language use and socioculturally significant interactions.

GERM 542 - FIRST-YEAR GERMAN II FOR GRADUATE STUDENTS
Short Title: 1ST YR GERMAN II FOR GRAD STUD
Department: Cntr Lang & Intercultural Comm
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): GERM 541
Description: This course builds on GERM 541. Based on an active student-centered critical-thinking approach, this course wants to make students aware of language use in context and socioculturally significant interactions. The emphasis is on interactional communication, reading, writing, translations, and intercultural awareness and understanding.

Bachelor of Arts (BA) Degree with a Major in German Studies

Program Learning Outcomes for the BA Degree with a Major in German Studies
Upon completing the BA degree with a major in German Studies, students will have:

1. Expertise in literary and film analysis and theory.
2. Understanding of the historical and political contexts of German culture.
3. German Studies specific oral and writing skills.
4. German Studies specific research knowledge.

Requirements for the BA Degree with a Major in German Studies
For general university requirements, see Graduation Requirements (p. 29). Students pursuing the BA degree with a major in German Studies must complete:

- A minimum of 10 courses (30 credit hours) to satisfy major requirements.
- A minimum of 120 credit hours to satisfy degree requirements.
- A minimum of 8 courses (24 credit hours) taken at the 300-level or above.
- A maximum of 4 courses (12 credit hours) from study abroad or transfer credit. For additional departmental guidelines regarding transfer credit, see the Policies (p. 1055) tab.

German Studies at Rice is a research-centered and undergraduate-focused program with internationally renowned faculty. Courses are offered in both German and English. The program covers German history, literature, and culture, from the seventeenth century to the present, with a strong emphasis on Germany's role in a wider European and transatlantic context. Particular departmental strengths are in the areas of modern intellectual history, 18th- to 20th-century literature and philosophy, film and media studies, as well as political theory. The close connection between research and teaching lies at the core of the curriculum. For more information please see the Modern and Classical Literatures and Cultures website: https://cultures.rice.edu.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major's academic advisor, or where applicable, the department's Director of Undergraduate Studies. (Course substitutions must be formally applied and entered into Degree Works by the major's Official Certifier [https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/].) Students and their academic advisors should identify and clearly document the courses to be taken.

Elective Requirements

Select 6 elective courses from departmental (GERM) course offerings

Total Credit Hours Required for the Major in German Studies

Additional Credit Hours to Complete Degree Requirements
Footnotes and Additional Information

**Note:** University Graduation Requirements include 31 credit hours, comprised of Distribution Requirements (Groups I, II, and III), FWIS, and LPAP coursework. In some instances, courses satisfying major requirements may additionally meet distribution requirements. **Additional Credit Hours to Complete Degree Requirements** include general electives, coursework completed as upper-level, residency (hours taken at Rice), and/or any other additional academic program requirements.

1 Both GERM 263 and GERM 264 may be replaced by an eight-week intensive summer language course at the University of Leipzig, Germany. The Leipzig Summer Program course counts toward the German Studies major at Rice with 6 credit hours. For more information, see the Opportunities (p. 1056) tab.

2 GERM 301 and GERM 302 may be replaced by two four-week summer language courses at the University of Leipzig, Germany. For more information, see the Opportunities (p. 1056) tab.

3 To fulfill the remaining German Studies major requirements, students must complete a total of 6 additional courses (18 credit hours) from departmental (GERM) course offerings as follows: 4 courses (12 credit hours) at the 300-level or above, and 2 courses (6 credit hours) at the 400-level. Please note: any elective course at the 300-level may be replaced by a course at a higher level.

### Policies for the BA Degree with a Major in German Studies

#### Enrollment

Students who arrive at Rice with AP credit in German of 4 or 5, or who have passed the International Baccalaureate with a 6 or 7 in German, should enroll in any course at the 300-level or 400-level. All other students should take the placement exam administered by the Center for Languages and Intercultural Communication (CLIC) and will be assigned to courses at the appropriate level. Any 200-level course in German can be replaced by a higher-level course.

#### Program Restrictions and Exclusions

Students pursuing the major in German Studies should be aware of the following program restriction:

- As noted in Majors, Minors, and Certificates (p. 17), students may not major and minor in the same subject.

#### Transfer Credit

For Rice University's policy regarding transfer credit, see Transfer Credit (p. 37). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

#### Departmental Transfer Credit Guidelines

Students pursuing the major in German Studies should be aware of the following departmental transfer credit guidelines:

- No more than 4 courses (12 credit hours) of transfer credit from U.S. or international universities of similar standing as Rice may apply towards the major.
- Requests for transfer credit will be considered by the program director (and/or the program's official transfer credit advisor) on an individual case-by-case basis.

#### Distribution Credit Information

The determination of distribution credit eligibility is done initially as part of the new course creation process (https://registrar.rice.edu/facstaff/courseprocess/). Additionally, as part of an annual roll call (https://registrar.rice.edu/facstaff/distribution_credit/) coordinated each Spring by the Office of the Registrar, course distribution credit eligibility is routinely reviewed and reaffirmed by the Dean's Offices of each of the academic schools.

Faculty and leadership in the academic schools are responsible for ensuring that the courses identified as distribution-credit-eligible meet the criteria as set in the General Announcements (p. 29). Students are responsible for ensuring that they meet graduation requirements (p. 29) by completing coursework designated as distribution-credit-eligible at the time of course registration.

Distribution courses from the Department of Modern and Classical Literatures and Cultures are broad in theme and scope and provide students with a substantial inquiry into literature, art, media, history, thought, and/or politics, including specific national traditions, linguistic
contexts, and historical periods. Such courses involve a broad and often interdisciplinary spectrum of knowledge, providing students with the tools for thinking critically about the formation of modern culture, its colonial past, and its national and linguistic traditions from antiquity to the present.

Additional Information
For additional information, please see the Modern and Classical Literatures and Cultures website: https://cultures.rice.edu (https://cultures.rice.edu/)

Opportunities for the BA Degree with a Major in German Studies

Academic Honors
The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (p. 51) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 51). Some departments have department-specific Honors awards or designations.

Honors Program
German Studies offers an honors program for majors excelling in their studies. Honors work consists of two semesters of independent research under faculty supervision on a topic proposed by the student leading to a substantial essay (GERM 493 in fall, GERM 494 in spring). Outstanding seniors are presented annually with the Max Freund Prize.

The Leipzig Summer Program
The Department of German Studies strongly encourages intermediate-level students of German to attend an eight-week, intensive language course at the University of Leipzig’s renowned Herder Institute. For the Rice student majoring in German Studies, this Leipzig course can be used to replace the sequence GERM 263 and GERM 264 or the sequence GERM 301 and GERM 302, and it will count as two courses (and 6 semester credit hours) of transfer credit. Through several generous endowments, the department offers the Leipzig Fellowships (and 6 semester credit hours) of transfer credit. Through several generous endowments, the department offers the Leipzig Fellowships (and 6 semester credit hours) of transfer credit.

Details about the Leipzig Summer Program, including information about housing, can be found at https://ces.rice.edu/ and https://www.interdaf.uni-leipzig.de/. Students must apply directly to Leipzig-interDaF for course admission. For further information, contact the Program Advisor for German Studies, Astrid Oesmann, astrid.oesmann@rice.edu.

Additional Information
For additional information, please see the Modern and Classical Literatures and Cultures website: https://cultures.rice.edu (https://cultures.rice.edu/)

See https://humanities.rice.edu/student-life (https://humanities.rice.edu/student-life/) for tables of fellowships, prizes, and internships/practica that may be relevant to this major.

Minor in German Studies

Program Learning Outcomes for the Minor in German Studies

Upon completing the minor in German Studies, students will be able to:

1. Display an understanding of the main lines of cultural, political, and social thought in German history from early modern times to the present in the European context based on original sources.
2. Analyze and evaluate key texts and documents of German cultural and political history such as literature, philosophy, art, film, and electronic media by way of close reading, critical interpretation and an awareness of the document’s rhetorical and media-specific features.
3. Identify and compare different authors and texts within the different traditions they form a part of as well as their impact and legacy within both the national and international context.

Requirements for the Minor in German Studies

Students pursuing the minor in German Studies must complete:

- A minimum of 6 courses (18 credit hours) to satisfy minor requirements.
- A minimum of 4 courses (12 credit hours) taken at the 300-level or above.
- A maximum of 2 courses (6 credit hours) from study abroad or transfer credit. For additional departmental guidelines regarding transfer credit, see the Policies (p. 1057) tab.

The courses listed below satisfy the requirements for this minor. In certain instances, courses not on this official list may be substituted upon approval of the minor’s academic advisor, or where applicable, the Program Director. (Course substitutions must be formally applied and entered into Degree Works by the minor’s Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/). Students and their academic advisors should identify and clearly document the courses to be taken.

Minor Requirements

Core Requirements 1, 2, 3

Select 2 courses from departmental (GERM) course offerings at the 200-level or above 6

Select 4 courses from departmental (GERM) course offerings at the 300-level or above 12

Total Credit Hours 18
Footnotes and Additional Information

1. No courses may be taken in English to fulfill minor requirements. Departmental (GERM) course offerings taught in English that will not fulfill minor requirements include the following: GERM 280, GERM 322, GERM 324, GERM 325, GERM 326, GERM 327, GERM 328, GERM 329, GERM 330, GERM 333, GERM 334, GERM 335, and GERM 336.

2. A maximum of 2 courses (6 courses) may be taken at the 200-level.

3. Any lower level course may be replaced by a course taken at a higher level.

Policies for the Minor in German Studies
Program Restrictions and Exclusions

Students pursuing the minor in German Studies should be aware of the following program restriction:

- As noted in Majors, Minors, and Certificates (p. 17), i.) students may declare their intent to pursue a minor only after they have first declared a major, and ii.) students may not major and minor in the same subject.

Transfer Credit

For Rice University's policy regarding transfer credit, see Transfer Credit (p. 37). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines

Students pursuing the minor in German Studies should be aware of the following departmental transfer credit guidelines:

- No more than 2 courses (6 credit hours) of transfer credit from U.S. or international universities of similar standing as Rice may apply towards the minor.
- Requests for transfer credit will be considered by the departmental Director of Undergraduate Studies (and/or the program's official transfer credit advisor) on an individual case-by-case basis.

The Master of Global Affairs is a co-sponsored degree between Rice University's Baker Institute for Public Policy and the School of Social Sciences. The program offers graduate students a professional master's degree that simultaneously requires high standards of scholarship and practical training for careers in government, the private sector, and international organizations.

The Master of Global Affairs is a two-year, 36 credit hour degree program. The program requires a non-credit bearing pre-term math boot camp held in the evenings before classes begin. The first year core-curriculum requires a sequence of 18 credit hours exposing students to a variety of topics in global affairs. The second year is reserved for pursuit of an Area of Study, participation in a required internship, and completion of
a capstone project. The program is considered full-time with classes offered in the evening.

Global Affairs does not currently offer an academic program at the undergraduate level.

**Global Affairs (GLBL)**

**GLBL 501 - GLOBAL SYSTEMS I**

- **Short Title:** GLOBAL SYSTEMS I
- **Department:** Global Affairs
- **Grade Mode:** Standard Letter
- **Course Type:** Lecture
- **Credit Hours:** 3
- **Restrictions:** Enrollment is limited to Graduate level students.
- **Description:** Designed to help students think theoretically and analytically about leading issues in international affairs by introducing them to social science methods and scholarship, and exposes them to the uses of such concepts in practice, through examination of contemporary problems and relations between nation states. Introduces central concepts and approaches from a variety of social science perspectives, particularly comparative politics and international relations used to explain, analyze and evaluate international politics and economics. Master of Global Affairs students only.

**GLBL 502 - INSTITUTIONS & DEVELOPMENT**

- **Short Title:** INSTITUTIONS & DEVELOPMENT
- **Department:** Global Affairs
- **Grade Mode:** Standard Letter
- **Course Type:** Lecture
- **Credit Hours:** 1.5
- **Restrictions:** Enrollment is limited to Graduate level students.
- **Course Level:** Graduate
- **Description:** This course will explore a broad, multidisciplinary range of methodologies and requisite analytical tools needed to identify, measure, and assess the determinants and effects of international development, the nature of change in the development process, and of the associated role of policy and institutional design. This will include the normative analysis of change (applying various concepts of well-being, efficiency, social justice and poverty), the application of economic concepts (to the interpretation of household and firm behavior, strategic interactions and economy-wide patterns), and the role of political, governmental and social behavior in shaping the possibilities for, drivers of and resistance to change. This will be undertaken through a mixture of discussion of overall patterns backed by a strong focus on case studies in particular country settings. Master of Global Affairs students only.

**GLBL 503 - INTRODUCTION TO STATISTICS FOR MASTERS STUDENTS**

- **Short Title:** INTRODUCTION TO STATISTICS
- **Department:** Global Affairs
- **Grade Mode:** Standard Letter
- **Course Type:** Lecture
- **Credit Hours:** 1.5
- **Restrictions:** Enrollment is limited to Graduate level students.
- **Course Level:** Graduate
- **Description:** This course familiarizes students with basic concepts of research design and statistical methodology that used in policy analysis. It covers (1) fundamental concepts of scientific inference and barriers to inference in observational data, (2) the implementation and evaluation of experimental and observational research designs in policy analysis, (3) descriptive and graphical statistics, (4) statistical hypothesis testing, (5) elementary use and interpretation of the generalized linear model, and (6) using the R statistical software environment for data organization and analysis. It is strongly recommended that students complete this course in the fall semester of their first year; in all cases, it must be completed before the end of the first year. Master of Global Affairs students only.

**GLBL 504 - QUANTITATIVE APPLICATIONS IN GLOBAL POLITICS AND POLICY**

- **Short Title:** GLOBAL POLITICS AND POLICY
- **Department:** Global Affairs
- **Grade Mode:** Standard Letter
- **Course Type:** Lecture
- **Credit Hours:** 1.5
- **Restrictions:** Enrollment is limited to Graduate level students.
- **Course Level:** Graduate
- **Description:** The course takes a problem-driven approach to practical applications of quantitative research methods in political and policy studies. Using a series of international and domestic policy topics, students will learn to apply and extend their knowledge of research design and statistics as part of developing a systematic approach to the study of global affairs. Student assignments will involve research related to the practice of global affairs, including comparative policy-making, political economy and security. Master of Global Affairs students only.
GLBL 505 - MACROECONOMICS AND THE GLOBAL ECONOMY
Short Title: MACROECONOMICS&GLOBAL ECONOMY
Department: Global Affairs
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 1.5
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This part develops our foundations on topics such as national product and income concepts, measurements, and relationships; interrelationships of the major segments of the national economy; forces affecting the general level of economic activity. Here we study how the major markets (those for labor, capital, and goods) operate. These markets are first studied in isolation. Why some countries have rapid economic development, and others low growth and pervasive poverty? We will explore the ways in which growing economic interdependence shifts global wealth. We will discuss the role of global energy supply and of ongoing technological progress as a force of change in the global economy. Masters of Global Affairs students only. Equivalency: GLBL 506, GLBL 524. Mutually Exclusive: Cannot register for GLBL 505 if student has credit for GLBL 524.

GLBL 506 - MACROECONOMICS FOR THE GLOBAL ECONOMY
Short Title: MACROECONOMICS FOR GLOBAL ECON
Department: Global Affairs
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 1.5
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: The second part of the course puts the markets studied in the first part together and studies their interactions. The key issues here are: (a) how macroeconomic variables behave and (b) how can policy affect these outcomes both domestically and internationally. Students will engage in a short team project to explore the role of economic development in international settings, including topics such as energy supply, labor and employment, population, education, health and nutrition. International economics: balance of payments, foreign exchange markets, international trade theory, tariffs, quotas, and exchange controls. The course will focus on the relationship between international policy and economics. North-South relations, including the US-Mexico economic relation will be discussed. Master of Global Affairs students only. Equivalency: GLBL 505, GLBL 524. Mutually Exclusive: Cannot register for GLBL 506 if student has credit for GLBL 524.

GLBL 507 - DECISION MAKING UNDER UNCERTAINTY
Short Title: DECISION MAKING UNCERTAINTY
Department: Global Affairs
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: The course examines how leaders on the world stage-those in governments, international organizations, and non-state actors-make decisions that alter the course of international affairs. These decisions are made under conditions of uncertainty with limited information, elements of surprise about what will happen next, and often carry high degrees of risk. The course considers key theoretical models of uncertainty in decision making and examines specific foreign policy decisions that managed the uncertainty toward a successful outcome and those that ended in failure or expensive mistakes. Master of Global Affairs students only.

GLBL 510 - CULTURAL DIRECTIONS IN INTERNATIONAL AFFAIRS
Short Title: CULTURAL DIRECTIONS
Department: Global Affairs
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 1.5
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Investigates the cultural and social dimensions of the development and implementation of international policy; emphasizes historical and ethnographic case studies to understand the variable impacts of policy implementation in different contexts. Master of Global Affairs students only.

GLBL 512 - INTERNATIONAL CONFLICT
Short Title: INTERNATIONAL CONFLICT
Department: Global Affairs
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 1.5
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Introduction to a broad range of areas related to the analysis and resolution of conflict, focusing on the interdisciplinary study of defining, understanding, and addressing conflict. International and community conflict, characteristics, negotiation, collaborative problem solving, process-advice. Students will research international conflict escalation, stalemate, de-escalation, settlement, resolution, or management; mediation skills to facilitate the resolution of disputes and differences, techniques of third party intervention with individuals and groups. Learning approach includes lectures, simulations, modeling and practice mediations. Master of Global Affairs students only.

GLBL 513 - INTERNATIONAL COOPERATION
Short Title: INTERNATIONAL COOPERATION
Department: Global Affairs
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 1.5
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Study of theories and best practices from academia and governments/NGO's related to international cooperation, including international law and treaties, international coalitions and sanctions, international and transnational organizations, translocal city and NGO partnerships, government and business partnerships, transnational governance and publicly diplomacy, including soft power and collective action for global public goods. Master of Global Affairs students only.

GLBL 514 - THE MIDDLE EAST CAULDRON AND UNITED STATES POLICY
Short Title: M. EAST CAULDRON & U.S. POLICY
Department: Global Affairs
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 1.5
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course examines the expanding public dimension of diplomacy by investigating the growing global interests and trends in the 21st century's diplomatic environment. This course also examines the underlying political, socio-economic, and cultural trends and surveys US national security interests, foreign policy, and public diplomacy around the world. For Master of Global Affairs Students Only.
GLBL 515 - ISSUES IN CONTEMPORARY U.S. FOREIGN POLICY
Short Title: CONTEMP. US FOREIGN POLICY
Department: Global Affairs
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 1.5
Restrictions: Enrollment limited to students in the MAGA program. Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: U.S. foreign policy is in transition. This process began long before President Donald J. Trump assumed office. We have moved decisively into what could be called "the post-post-Cold War" era. The global struggle between the Soviet Union and the United States ended 25 years go. But so has the "unipolar moment" that followed the Cold War, when the United States possessed unrivalled power in world affairs. The rise of China, the resurgence of Russia, and continuing turmoil in the Middle East confront U.S. policy-makers with an array of complex challenges. This course focuses on these and other issues that are shaping U.S. foreign policy today. It will include discussions of topics "ripped from the news" whether we are talking about the Syrian Civil War, the ongoing low-intensity conflict in the Ukraine, or Chinese military actions in the South China Sea. Master of Global Affairs students only.

GLBL 519 - MASTER OF GLOBAL AFFAIRS INTERNSHIP
Short Title: MASTER GLOBAL AFFAIRS INTRNSHP
Department: Global Affairs
Grade Mode: Standard Letter
Course Type: Internship/Practicum
Credit Hours: 1-6
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: The Master of Global Affairs internship is a graduate-level supervised field experience for students in the MAGA program. All internships must be preapproved and must be conducted after the student has completed a minimum of 18 credit hours in the program. Master of Global Affairs students only. Instructor Permission Required. Repeatable for Credit.

GLBL 520 - MASTER OF GLOBAL AFFAIRS CAPSTONE
Short Title: MASTER GLOBAL AFFAIRS CAPSTONE
Department: Global Affairs
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment limited to students in the MAGA program. Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: The Master of Global Affairs capstone course is the culmination of all graduate coursework and internship experience in the program; it is a significant piece of work than what is normally expected of a term paper. The capstone project must reflect a scholarly and professional analysis informed by the application of analytical strategies that address a real-world problem or public policy issue. All MGA students must complete the capstone in their final semester. Instructor Permission Required.

GLBL 521 - DIRECTED READING IN GLOBAL AFFAIRS
Short Title: DIR READING IN GLOBAL AFFAIRS
Department: Global Affairs
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3-6
Restrictions: Enrollment limited to students in the MAGA program. Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Graduate level independent reading course. Topics vary. Master of Global Affairs students only. Instructor Permission Required. Repeatable for Credit.

GLBL 523 - QUANTITATIVE APPLICATIONS IN GLOBAL AFFAIRS
Short Title: QUANTITATIVE APPLICATIONS
Department: Global Affairs
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment limited to students in the MAGA program. Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: The course takes a problem-driven approach to practical applications of quantitative research methods in political and policy studies. Using a series of international domestic policy topics, students will learn to apply and extend their knowledge of research design and statistics as part of developing a systematic approach to the study of global affairs. Student assignments will involve research related to the practice of global affairs, including comparative policy-making, political economy and security.

GLBL 524 - MACROECONOMICS IN A GLOBAL ECONOMY
Short Title: MACROECONOMICS GLOBAL ECONOMY
Department: Global Affairs
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment limited to students in the MAGA program. Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course develops our foundations of aggregate economic analysis; use of the aggregate demand/aggregate supply model for the determination of output, employment, and prices. The focus will be on topics such as national product and income concepts, measurements, and relationships; interrelationships of the major segments of the national economy; forces affecting the general level of economic activity. Here we study how the major markets (those for labor, capital, and goods) operate. These fundamental concepts will be used to analyze international economic policy. Equivalency: GLBL 505, GLBL 506. Mutually Exclusive: Cannot register for GLBL 524 if student has credit for GLBL 505/ GLBL 506.
GLBL 525 - INTERNATIONAL SECURITY
Course Title: INTERNATIONAL SECURITY
Department: Global Affairs
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment limited to students in the MAGA program. Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course covers two general areas in International Security: (1) traditional (i.e., "state-centered") and (2) non-traditional security issues. The first half of the course is devoted to recent developments in the study of interstate security. We will contemplate unipolarity, American security policy, the rise of some peer competitors, and the changing nature of interstate relations in the 21st century. The second half of the course will explore the growing significance of a number of emerging non-traditional security concerns. In this portion, we will discuss counterinsurgency, civil war, terrorism, humanitarian intervention, among other developing issues.

GLBL 532 - INTERNATIONAL BUSINESS ENVIRONMENT AND GLOBAL ECONOMIC GOVERNANCE
Course Title: INT'L BUSINESS DEVELOPMENT
Department: Global Affairs
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment limited to students in the MAGA program. Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This is a comprehensive course in how governance of the global economy affects business and investment decisions. It is designed to provide students with an understanding of the main international economic institutions that have been developed to oversee the global economy, and how these institutions affect the international business and investment climate. Lectures and class discussions will focus on real world examples of the impact of the international trade and financial institutions (the G-8, G-20, WTO, IMF, and World Bank) on global and individual country economic environments, with particular emphasis on non-OECD countries.

GLBL 533 - SUSTAINABILITY AND GLOBAL ISSUES
Course Title: SUSTAINABILITY & GLOBAL ISSUES
Department: Global Affairs
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students. Enrollment limited to students in a Master of Arts in Global Affrs degree.
Course Level: Graduate
Description: This course aims to familiarize the student with current Sustainability debates as well as with conceptual origins, history and principles. We will study important global and regional landmarks, conferences and agreements that have brought Sustainability to the forefront of the political, private and public spheres. Moreover, this class is expected to provide a systems approach that will help students develop a comprehensive understanding of how local to regional challenges need to be addressed under sustainable frameworks.

GLBL 541/POST 401/POST 501.

GLBL 542 - INTERNATIONAL MACROECONOMIC POLICY FOR MASTER'S STUDENTS
Course Title: INTL MACROECONOMIC POLICY
Department: Global Affairs
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course covers two general areas in International Macroeconomics: (1) traditional (i.e., "state-centered") and (2) non-traditional exchange rate policies. The course will constraint policy space? Students will model the linkages between exchange rates, interest rates, capital flows, and prices. The course will emphasize emerging economies.

GLBL 543 - ENERGY POLICY
Course Title: ENERGY POLICY
Department: Global Affairs
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment limited to students in the MAGA program. Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course covers two general areas in International Macroeconomics: (1) traditional (i.e., "state-centered") and (2) non-traditional exchange rate policies. The course will constraint policy space? Students will model the linkages between exchange rates, interest rates, capital flows, and prices. The course will emphasize emerging economies.

GLBL 544 - CHANGE IN WORLD POLITICS
Course Title: CHANGE IN WORLD POLITICS
Department: Global Affairs
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course covers two general areas in International Macroeconomics: (1) traditional (i.e., "state-centered") and (2) non-traditional exchange rate policies. The course will constraint policy space? Students will model the linkages between exchange rates, interest rates, capital flows, and prices. The course will emphasize emerging economies.
other organization(s) to plan for and manage the crisis incident? Therefore requires an integrated joint partnership with the government or do these corporations prepare for a crisis even that impacts national banking system is owned and operated by private corporations. How medical, transportation, chemical, etc.), and nearly all of the global (water, electricity, food/agriculture, energy, finance, IT, communication, medical, transportation, chemical, etc.), and nearly all of the global banking system is owned and operated by private corporations. How do these corporations prepare for a crisis even that impacts national security, national economic issues, or public order/safety/health, and therefore requires an integrated joint partnership with the government or other organization(s) to plan for and manage the crisis incident?

**GLBL 551 - CYBERPOLITIK: INTERNATIONAL AFFAIRS IN TECHNOLOGY AND INFORMATION**

**Short Title:** CYBERPOLITIK  
**Department:** Global Affairs  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** How are the evolving cases of cyber-attack and breach as well as the actions of government and corporations shaping how cyberspace is governed? What object lessons are there in security cases such as those involving WikiLeaks and the Snowden affair? This course examines the widely pervasive and enormously effective nature of cyber threats today, explaining why cyber-attacks happen, how they matter, and how they may be managed.

**GLBL 552 - INTERNATIONAL SECURITY: DE-RISKING NATIONAL THREATS AND BUSINESS THREATS**

**Short Title:** INTERNATIONAL SECURITY  
**Department:** Global Affairs  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** This course seeks to define the risks and risk-mitigation strategies employed by both nation-states and multinational businesses. We will examine how businesses control their risks by following compliance laws around the world. We will also examine what a superpower is within the context of the geopolitical challenges America is facing (fracturing of national institutions/will/consensus, our potential relative decline, shifting alliances, China’s rise, the European Union stagnation and diminution, and Russian aggression) as we look to answer the following question: who would even want to be a superpower.

**GLBL 553 - INTERNATIONAL CRISIS MANAGEMENT IN A MULTI-RISK, INTER-CONNECTED WORLD**

**Short Title:** INTERNATIONAL CRISIS MGMT  
**Department:** Global Affairs  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** Approximately 85% of the nation’s critical infrastructure (water, electricity, food/agriculture, energy, finance, IT, communication, medical, transportation, chemical, etc.), and nearly all of the global banking system is owned and operated by private corporations. How do these corporations prepare for a crisis even that impacts national security, national economic issues, or public order/safety/health, and therefore requires an integrated joint partnership with the government or other organization(s) to plan for and manage the crisis incident?

**GLBL 554 - UNDERSTANDING TERRORISM AND COUNTERTERRORISM**

**Short Title:** COUNTERTERRORISM SEMINAR  
**Department:** Global Affairs  
**Grade Mode:** Standard Letter  
**Course Type:** Seminar  
**Credit Hours:** 3  
**Restrictions:** Enrollment limited to students in the MAGA program. Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** This course reviews the history of terrorism and counterterrorism and focuses on the experience of the United States, the United Kingdom, and Israel. The course will include topics such as the evolution of terrorism, intelligence collection and analysis, the use of technology, and policing.

**GLBL 555 - SECURITY, ECONOMY AND DEVELOPMENT IN A CHANGING MIDDLE EAST**

**Short Title:** MIDDLE EAST SECURITY & ECONOMY  
**Department:** Global Affairs  
**Grade Mode:** Standard Letter  
**Course Type:** Seminar  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** The Middle East and North Africa plays a key role in international patterns of energy, human rights, migration, development, and security remains in a state of transition a decade after the Arab uprisings of 2011. This course offers a survey of critical political, social, and economic topics in the Middle East and North Africa region with a particular focus on political economy, international and regional security, and international development. Over the semester, students will gain an understanding of the intersecting drivers of change in the region and the ability to put them into historical and comparative context. The course also will equip students with the skills to analyze cross-cutting conceptual developments and to identify nuance and variation in their public policy applicability across the region.

**GLBL 573 - NON-THESIS GRADUATE RESEARCH**

**Short Title:** NON-THESIS GRADUATE RESEARCH  
**Department:** Global Affairs  
**Grade Mode:** Satisfactory/Unsatisfactory  
**Course Type:** Research  
**Credit Hours:** 3-9  
**Restrictions:** Enrollment limited to students in the MAGA program. Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** Individual research for graduate students in the Master of Global Affairs.

**GLBL 577 - SPECIAL TOPICS**

**Short Title:** SPECIAL TOPICS  
**Department:** Global Affairs  
**Grade Mode:** Standard Letter  
**Course Type:** Internship/Practicum, Laboratory, Lecture, Seminar, Lecture/Laboratory, Independent Study  
**Credit Hours:** 1-4  
**Restrictions:** Enrollment is limited to Graduate or Visiting Graduate level students.  
**Course Level:** Graduate  
**Description:** Topics and credit hours vary each semester. Contact department for current semester’s topic(s). Repeatable for Credit.
Description and Code Legend

Note: Internally, the university uses the following descriptions, codes, and abbreviations for this academic program. The following is a quick reference:

Course Catalog/Schedule
- Course offerings/subject code: GLBL

Program Description and Code
- Global Affairs: GLBL

Graduate Degree Description and Code
- Master of Global Affairs degree: MGA

Graduate Degree Program Description and Code
- Degree Program in Global Affairs: GLBL

- GLBL Major/Program: CIP Code/Title: 45.0901 - International Relations and Affairs

Classification of Instructional Programs (CIP) 2020 Codes and Descriptions from the National Center for Education Statistics: https://nces.ed.gov/ipeds/cipcode/

Master of Global Affairs (MGA) Degree

Program Learning Outcomes for the MGA Degree

Upon completing the MGA degree, students will be able to:

1. Demonstrate leadership, communication, and research skills to conduct independent studies enabling them to understand and formulate public policy recommendations in the international arena.
2. Apply quantitative skills to data analysis to make policy recommendations.
3. Describe real-life experience in international public policy development by participating in an internship.
4. Assess the social responsibilities of governments, non-governmental organizations, corporations, and individuals in the global twenty-first century.
5. Analyze and develop new and innovative solutions to emerging challenges in the global community.

Requirements for the MGA Degree

The MGA degree is a non-thesis master's degree. For general university requirements, please see Non-Thesis Master's Degrees (p. 75). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 60). Students pursuing the MGA degree must complete:

- A minimum of 36 credit hours to satisfy degree requirements.
- A minimum of 30 credit hours of graduate-level study (graduate semester credit hours, coursework at the 500-level or above).
- A minimum of 24 graduate semester credit hours must be taken at Rice University.
- A minimum of 24 graduate semester credit hours must be taken in standard or traditional courses (with a course type of lecture, seminar, laboratory, lecture/laboratory).
- A minimum residency enrollment of one fall or spring semester of part-time graduate study at Rice University.
- A maximum of 2 courses (6 graduate semester credit hours) from transfer credit. For additional departmental guidelines regarding transfer credit, see the Policies (p. 1064) tab.
- The requirements for one area of specialization (see below for areas of specialization). The MGA degree program offers three areas of specialization:
  - International Political Development (p. 1064), or
  - International Political Economy (p. 1064), or
  - International Security (p. 1064).
- The required Graduate Field Internship.
- The required Capstone project.
- A minimum overall GPA of 2.67 or higher in all Rice coursework.
- A minimum program GPA of 2.67 or higher in all Rice coursework that satisfies requirements for the non-thesis master's degree.

Please Note: Courses offerings may vary. Some listed courses may not be offered every year, and others may be offered that satisfy the requirements with pre-approval. Students should consult their academic advisors before enrolling and check for any course prerequisites.

The courses listed below satisfy the requirements for this degree program. In certain instances, courses not on this official list may be substituted upon approval of the program's academic advisor, or where applicable, the department or program's Director of Graduate Studies. Course substitutions must be formally applied and entered into Degree Works by the department or program's Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/). Additionally, these must be approved by the Office of Graduate and Postdoctoral Studies. Students and their academic advisors should identify and clearly document the courses to be taken.

Footnotes and Additional Information

1 Core Requirements must be completed during the first year of study.
2 The Area of Specialization requirement must be completed during the second year of study.
3 Students are required to complete a minimum eight-week extensive field experience in which they intern at one of a variety of internationally-based or internationally-focused governmental and nongovernmental organizations, international commissions, embassies, agencies, or corporations. The internship will provide students valuable real-world application of their degree with the goal of facilitating their employment in these organizations.
4 In the second year, students must select a topic of concentration and pursue in-depth research which delves into the real-world, policy aspects of the topic.

Areas of Specialization

Students must complete a minimum of 3 courses (9 credit hours) from one area of specialization. Students should choose coursework according to their individual academic interests and career goals. No more than 1 course (3 credit hours) at the undergraduate level (300- or 400-level) can be used toward the area of specialization. The area of specialization requirement must be completed during the second year of study.

Policies for the MGA Degree

Global Affairs Graduate Program Handbook

The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, Global Affairs publishes a graduate program handbook, which can be found here: https://gradhandbooks.rice.edu/2020_21/Global_Affairs_Graduate_Handbook.pdf
Admission
Applicants to the Master of Global Affairs degree program are required to submit:

- Statement of purpose
- Professional resume
- Three letters of recommendation
- Official transcripts from all colleges and universities attended, with official degree conferral date
- Applicants are recommended, but not required to submit scores from either the Graduate Record Examination (GRE) or the Graduate Management Admissions Test (GMAT).
- Approved TOEFL scores for applicants whose native language is not English and who did not receive a degree from a country in which English is the official language of communication.

Foreign Language Proficiency
Students who expect to complete their degree program with a particular regional focus in mind are expected to be proficient in one of the primary languages of that region. Proficiency is defined as the ability to read and speak the language. This requirement can be met in one of three ways:

- By passing a language proficiency exam administered by the Rice Language Center.
- By achieving a grade of B+ (3.33 grade points) or better in an intermediate language course at Rice. Taking this class does not count toward the 36 credit hours total for degree completion.
- By graduating from a high school or university where a language other than English was the primary language of instruction.

Transfer Credit
For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 70). Some departments and programs have additional restrictions on transfer credit. Students are encouraged to meet with their academic program’s advisor when considering transfer credit possibilities.

Program Transfer Credit Guidelines
Students pursuing the MGA degree should be aware of the following program-specific transfer credit guidelines:

- No more than 2 courses (6 credit hours) of transfer credit from U.S. or international universities of similar standing as Rice may apply towards the degree.
- Requests for transfer credit will be considered by the program director on an individual case-by-case basis.

Additional Information
For additional information, please see the Global Affairs website: https://mga.rice.edu/

Opportunities for the MGA Degree
Fifth-Year Master's Degree Option for Rice Undergraduate Students

In certain situations and with some terminal master's degree programs, Rice students have an option to pursue a master's degree by adding an additional fifth year to their four years of undergraduate studies.

Advanced Rice undergraduate students in good academic standing typically apply to the master's degree program during their junior or senior year. Upon acceptance, depending on course load, financial aid status, and other variables, they may then start taking some required courses of the master's degree program. A plan of study will need to be approved by the student's undergraduate major advisor and the master's degree program director.

As part of this option and opportunity, Rice undergraduate students:

- must complete the requirements for a bachelor's degree and the master's degree independently of each other (i.e. no course may be counted toward the fulfillment of both degrees).
- should be aware there could be financial aid implications if the conversion of undergraduate coursework to that of graduate level reduces their earned undergraduate credit for any semester below that of full-time status (12 credit hours).
- more information on this Undergraduate: Graduate Concurrent Enrollment opportunity, including specific information on the registration process can be found here (p. 20).

Rice undergraduate students may have the option to pursue the Master of Global Affairs (MGA) degree. For additional information, students should contact their undergraduate major advisor and the MGA program director.

Rice 360º: Institute for Global Health collaborates with multiple departments to offer students a minor in Global Health Technologies (GLHT), a unique, multidisciplinary program to educate and train students to reach beyond traditional disciplinary and geographic boundaries to understand, address, and solve global health disparities. With complementary contributions from the humanities, social science, policy,
bioscience, and engineering programs at Rice, the GLHT minor prepares students to integrate diverse perspectives as they develop solutions to the complex problems of global health, using the formal approach of the engineering design process.

The minor is open to Rice undergraduate students from all disciplines and requires completion of seven courses, including five core courses, and two electives. Students begin the minor by taking GLHT 201 which provides an overview of scientific, economic, and policy issues associated with advanced global health technologies, followed by an introductory design course, GLHT 360. The subsequent core course is selected by the student from a collection of approved courses. The final two courses include GLHT 451 and GLHT 452 which are taken in a two-semester sequence in which multidisciplinary teams of undergraduate students work together to design and implement solutions to existing global health challenges in low-resource settings. Elective courses include a range of subjects. Courses such as Immunology, Health Economics, Medical Chemistry, or Health Policy, provide students experience in engineering and social sciences as applied to international health challenges.

Throughout the program, GLHT students benefit from receiving guidance and mentorship from Rice faculty and graduate students as well as from the Texas Medical Center, partner organizations in low-resource settings, and clinicians to design low-cost, effective health technologies.

**Global Health Technologies (GLHT)**

**GLHT 201 - INTRODUCTION TO GLOBAL HEALTH**

- **Short Title:** INTRO TO GLOBAL HEALTH  
- **Department:** Global Health Technologies  
- **Grade Mode:** Standard Letter  
- **Course Type:** Lecture  
- **Distribution Group:** Distribution Group III  
- **Credit Hours:** 3  
- **Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
- **Course Level:** Undergraduate Lower-Level

**Description:** This course provides an overview of contemporary challenges and advances to improve human health. The course opens with an introduction to the epidemiology and physiology of the major human health problems throughout the world. With this introduction, we examine medical technologies to prevent infection, detect cancer and treat heart disease. The course is designed for non-engineering / non-science majors.

**GLHT 238 - SPECIAL TOPICS**

- **Short Title:** SPECIAL TOPICS  
- **Department:** Global Health Technologies  
- **Grade Mode:** Standard Letter  
- **Course Type:** Internship/Practicum, Laboratory, Lecture, Seminar, Independent Study  
- **Credit Hours:** 1-4  
- **Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
- **Course Level:** Undergraduate Lower-Level

**Description:** Topics and credit hours vary each semester. Contact department for current semester’s topic(s). Repeatable for Credit.

**GLHT 314 - SUSTAINABLE WATER PURIFICATION FOR THE DEVELOPING WORLD**

- **Short Title:** SUST WTR PURIF FOR DEV WORLD  
- **Department:** Global Health Technologies  
- **Grade Mode:** Standard Letter  
- **Course Type:** Lecture/Laboratory  
- **Credit Hours:** 3  
- **Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
- **Course Level:** Undergraduate Upper-Level

**Description:** This course is an overview of sustainable strategies for safe water supply in off-the-grid, low-income regions. Topics covered include water quality and treatment, sustainability and WASH (water, sanitation and hygiene). A major element of the course is a project to solve a water-related issue in a real-world context. Cross-list: BIOE 365, CEVE 314. Repeatable for Credit.
GLHT 360 - APPROPRIATE DESIGN FOR GLOBAL HEALTH
Short Title: APPRO DESIGN FOR GLOBAL HEALTH
Department: Global Health Technologies
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): GLHT 201
Description: Seminar-style introductory design course covering epidemiology, pathophysiology, health systems, health economics, medical ethics, humanitarian emergencies, scientific and engineering design methods, and appropriate health technology case studies. To register, you must be enrolled in the GLHT minor and submit a 250 statement to beyondtraditionalborders@rice.edu by Monday of preregistration. The minor and course prerequisite is waived for students majoring in Bioengineering. Instructor Permission Required. Cross-list: BIOE 360.

GLHT 392 - NEEDS FINDING AND DEVELOPMENT IN BIOENGINEERING
Short Title: NEEDS FINDING & DEV IN BIOE
Department: Global Health Technologies
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Students in this course will learn and develop the engineering skill of needs finding in the field of bioengineering focused on designing for disabilities. Students will work in groups with patients with disabilities to identify daily needs and develop design criteria to meet those needs including preliminary prototype development. Instructor Permission Required. Cross-list: BIOE 392.

GLHT 400 - GLOBAL HEALTH TECHNOLOGIES INDEPENDENT RESEARCH PROJECTS
Short Title: GLHT INDEPENDENT RESEARCH
Department: Global Health Technologies
Grade Mode: Standard Letter
Course Type: Research
Credit Hours: 1-3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course enables undergraduates pursuing the Global Health Technologies Minor to perform independent research on a specific design challenge in global health technology and innovation. Students are advised by the faculty and often mentored by a graduate student/post-doc. Instructor Permission Required. Repeatable for Credit.
Course URL: www.btb.rice.edu (http://www.btb.rice.edu)

GLHT 401 - GLHT RESEARCH PAPER WRITING AND SUBMISSION
Short Title: GLHT RESEARCH REPORTING
Department: Global Health Technologies
Grade Mode: Standard Letter
Course Type: Research
Credit Hour: 1
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Students in this course will work in the preparation of a paper reporting a previously completed design project. Instructor Permission Required. Repeatable for Credit.

GLHT 411 - INTEGRATED APPROACHES TO SUSTAINABLE DEVELOPMENT
Short Title: SUSTAINABLE DEVELOPMENT
Department: Global Health Technologies
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This is a multidisciplinary course in which students explore the origins, connections and consequence of social and political tensions arising from the expansion of commercial energy resources in unique and rapidly changing Arctic and sub-Artic environments. The challenge for the class will be to understand that in matters of sustainable development systemic complexities often give rise to a disconnect between analysis and decision-making. Topics will include the impacts of commercial energy development and drilling in rapidly changing Arctic environments, as well as strategies that can promote sustainable development and improved conditions for indigenous populations in the context of environmental challenges associated with the Arctic meltdown and drilling activities for oil and gas. Methodologies for structuring the analysis to be applied to enhance systemic resilience of the Alaska environment will be presented. Students will learn explore the barriers to sustainable development and discuss cost-effective, culturally appropriate solutions to energy related issues by integrating technical, organizational, and personal perspectives. Each class will have formal lectures(s) by Rice faculty or guest lecturer. Registered students are eligible to apply for a summer internship in Alaska. Recommended Prerequisite(s): POST 401 Mutually Exclusive: Cannot register for GLHT 411 if student has credit for POST 411. Repeatable for Credit.

2021-2022 General Announcements PDF Generated 09/22/21
GLHT 448 - TECHNOLOGY COMMERCIALIZATION IN DEVELOPING COUNTRIES FOR ENGINEERING
Short Title: TECH COMM IN DEV CTY FOR ENGS
Department: Global Health Technologies
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This is a unique opportunity for engineering students to 1) collaborate with graduate business students to design and disseminate global health technologies; 2) learn about the sustainable distribution of health products in developing countries; 3) have a once-in-a-lifetime trip to Africa that tourism can never duplicate; and 4) help the poor. Working alongside advanced MBA students, engineering students will apply their skills to developing business plans for student-designed global health technologies that may influence dissemination and business plans. Interested students should email beyondtraditionalborders@rice.edu for an application. Instructor Permission Required.

GLHT 449 - TROUBLESHOOTING WORKSHOP FOR CLINICALLY-RELEVANT BIOMEDICAL EQUIPMENT
Short Title: MED BIOENGINEERING WORKSHOP
Department: Global Health Technologies
Grade Mode: Standard Letter
Course Type: Laboratory
Credit Hour: 1
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): ELEC 243
Description: Bioengineering course in the troubleshooting, repair, and maintenance of standard biomedical equipment used in hospitals in the developed and developing worlds. Cross-list: BIOE 449. Repeatable for Credit.

GLHT 451 - GLOBAL HEALTH DESIGN CHALLENGES I
Short Title: GLOBAL HEALTH DESIGN I
Department: Global Health Technologies
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): GLHT 201 and (BIOE 360 or GLHT 360) and (GLHT 363 or BIOS 363 or PSYC 480 or SOCI 345)
Description: Students in this course will work on design projects to address global health disparities. Students will work in teams and partner with bioengineering students to develop solutions to particular problems in delivering healthcare in the developing world. Students must take GLHT 452 in the spring semester to complete their projects. Instructor Permission Required.
Course URL: www.btb.rice.edu (http://www.btb.rice.edu)

GLHT 452 - GLOBAL HEALTH DESIGN CHALLENGES II
Short Title: GLOBAL HEALTH DESIGN II
Department: Global Health Technologies
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): GLHT 451
Description: Students in this course will work on design projects to address global health disparities. Students will work in teams and partner with bioengineering students to develop solutions to particular problems in delivering healthcare in the developing world. Students must have taken GLHT 451 in the fall semester to initiate their projects.
Course URL: www.btb.rice.edu (http://www.btb.rice.edu)

GLHT 464 - SOCIAL ENTREPRENEURSHIP
Short Title: SOCIAL ENTREPRENEURSHIP
Department: Global Health Technologies
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course introduces students to contemporary concepts, debates, and contexts necessary for analyzing and engaging in the sphere of social entrepreneurship. The course has four distinct parts: social context; organizational forms and collaborations; private sector roles; and measurement and impacts. Various aspects of social entrepreneurship, such as base of the pyramid/microenterprises, private-public partnerships, private-governmental partnerships, voluntary social codes, corporate social responsibility, and ethical consumerism will be covered. From this foundation, students will undertake a social entrepreneurship project about a contemporary social problem in Houston: food insecurity and food deserts. Cross-list: BUSI 464, SOSC 464.

GLHT 510 - SEMINAR IN TROPICAL MEDICINE
Short Title: SEMINAR IN TROPICAL MEDICINE
Department: Global Health Technologies
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Seminar
Credit Hour: 1
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: 8 week lecture series on topics in global health. The theme for this offering is one health; integrating efforts to obtain optimal health for humans, animals, and the environment. Offered in conjunction with the new National School of Tropical Medicine, the course will feature lectures by various experts on the public health issues most pressing in poor populations in the world today. Course open to all undergraduates and graduate students. Cross-list: BIOE 510. Repeatable for Credit.
GLHT 677 - SPECIAL TOPICS
Short Title: SPECIAL TOPICS
Department: Global Health Technologies
Grade Mode: Standard Letter
Course Type: Internship/Practicum, Laboratory, Lecture, Seminar, Independent Study
Credit Hours: 1-4
Restrictions: Enrollment is limited to Graduate or Visiting Graduate level students.
Course Level: Graduate
Description: Topics and credit hours vary each semester. Contact department for current semester's topic(s). Repeatable for Credit.

Description and Code Legend
Note: Internally, the university uses the following descriptions, codes, and abbreviations for this academic program. The following is a quick reference:

Course Catalog/Schedule
• Course offerings/subject code: GLHT

Program Description and Code
• Global Health Technologies: GLHT

Undergraduate Minor Description and Code
• Minor in Global Health Technologies: GLHT

CIP Code and Description
GLHT Minor. CIP Code/Title: 51.2210 - International Public Health/International Health

1 Classification of Instructional Programs (CIP) 2020 Codes and Descriptions from the National Center for Education Statistics: https://nces.ed.gov/ipeds/cipcode/

Minor in Global Health Technologies

Program Learning Outcomes for the Minor in Global Health Technologies
Upon completing the minor in Global Health Technologies, students will be able to:

1. Demonstrate the ability to prototype and build appropriate technologies that respond to global health design challenges or problems, and/or develop a community health plan or strategy to address these challenges. They will conduct independent research and design—from developing a research question and completing a literature review, to analyzing and interpreting data—to demonstrate the effectiveness of their proposed solution.

2. Demonstrate a broad understanding of the issue of human health, disease, and health care planning from Natural Science, Humanities, and Social Sciences perspectives.

3. Understand the basic elements of human health and disease from evolutionary, biological, and epidemiological perspectives.

4. Demonstrate critical thinking and analysis skills within the realm of global health and its related disciplines, including the ability to critically and responsibly synthesize materials and methods from a range of disciplines to address global health problems or questions.

5. Demonstrate a knowledge of how health and disease are, in part, social and cultural constructs; students will be able to explain how different populations of individuals within the same geographic locale or in very different geographic locales may understand health and disease differently. They will also demonstrate the ability to assess and explain how different kinds of health planning, delivery systems, institutions, and health products would be more or less effective for different populations.

6. Communicate effectively at the college level by demonstrating the ability to write research papers, literature reviews, and other scholarly papers and by being able to verbally present this information effectively and correctly.

Requirements for the Minor in Global Health Technologies
Students pursuing the minor Global Health Technologies must complete:

• A minimum of 7 courses (minimum of 21 credit hours) to satisfy minor requirements.

The courses listed below satisfy the requirements for this minor. In certain instances, courses not on this official list may be substituted upon approval of the minor's academic advisor, or where applicable, the Program Director. (Course substitutions must be formally applied and entered into Degree Works by the minor's Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/)). Students and their academic advisors should identify and clearly document the courses to be taken.

Footnotes and Additional Information

1 All core courses will be offered each year:
   - GLHT 201, PSYC 370, SOCI 381, ANTH 381, GLHT 392 and GLHT 451 in the Fall.
   - GLHT 360 SOCI 345, GLHT 464, GLHT 314 and GLHT 452 in the Spring.

The sequence indicated is the required sequence, as prerequisites do apply.

If not selected as a Core course, some courses are also available as Electives (see below for course lists).

2 Prior to enrollment in the capstone courses GLHT 451 and GLHT 452, students must successfully complete all other GLHT minor core course requirements, although electives may be taken concurrently.

Course Lists to Satisfy Requirements

Elective Requirements

To fulfill the remaining Global Health Technologies minor requirements, students must complete a minimum of 2 additional electives courses (minimum of 6 total credit hours) as listed below.

Policies for the Minor in Global Health Technologies

Admission
Courses with the GLHT subject code are open to all Rice students, including those not pursuing the GLHT minor, with the exception of GLHT 360 and the capstone course GLHT 451/452. Preferential admission to GLHT 360 will be given to students who formally declared or state their intention to pursue the GLHT minor. For GLHT 360, the minor and course prerequisite (GLHT 201) is waived for students who have declared a major in Bioengineering (BIOE). For information on the declaration of major process for the GLHT minor, please visit this website (http://www.rice360.rice.edu/minor/#Declaration).

There is no requirement to initiate or declare the GLHT minor in the freshman year. It can be formally declared as late as the junior year (beginning of the fifth semester). It will be possible for students to receive credit for GLHT minor courses that also fulfill a requirement within their major.

Program Restrictions and Exclusions
Students pursuing the minor in Global Health Technologies should be aware of the following program restriction:

• As noted in Majors, Minors, and Certificates (p. 17), i.) students may declare their intent to pursue a minor only after they have first declared a major, and ii.) students may not major and minor in the same subject.

Transfer Credit
For Rice University's policy regarding transfer credit, see Transfer Credit (p. 37). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

Program Transfer Credit Guidelines
Students pursuing the minor in Global Health Technologies should be aware of the following program-specific transfer credit guidelines:

• Requests for transfer credit will be considered by the program director (and/or the program's official transfer credit advisor) on an individual case-by-case basis.

Additional Information
For additional information, please see the Global Health website: https://www.rice360.rice.edu/glht-minor (https://www.rice360.rice.edu/glht-minor/)

Opportunities for the Minor in Global Health Technologies

Academic Honors
The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 51) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 51). Some departments have department-specific Honors awards or designations.

Program Internships and Competition
Rice 360° Global Health Summer Internship Program
The Rice 360° Global Health Technologies Summer Internship Program gives Rice University undergraduate students - both science and non-science majors - first-hand exposure to health care in resource constrained settings. In partnership with clinics, schools, and organizations working in resource constrained settings, the internships allow students to advance their solutions to a global health design challenge in a real-world setting.

The summer internships are held in a number of national and international locations, exposing students to health care challenges and solutions in low-resource settings. In the past, our students have visited Malawi, Tanzania, Brazil, and the Rio Grande Valley in Texas among other locations. During the internship, students are responsible for the implementation of a GLHT project and a site specific project, both of which are assigned to them. In addition, participants select a project of their choice and work on identifying and documenting five novel ideas or technology ideas at the site.

Summer internships are fully funded experiences, covering the cost of your travel (airfare, visa, and traveler's insurance), immunizations, housing and a stipend for day to day living expenses (eg. food and local transportation).

For more information visit: https://www.rice360.rice.edu/internships (https://www.rice360.rice.edu/internships/).

Global Health Technologies Design Competition
The Rice 360° Annual Undergraduate Global Health Technologies Design Competition is held each Spring at Rice University. It features over 20 student teams from national and international universities who present their low-cost global health technologies. Entries are judged on the quality of the problem definition, the effectiveness and potential impact of the design solution, and the likelihood that the solution can be successful in improving healthcare delivery in low-resource settings by...
The Department of Religion offers the Certificate in Gnosticism, Esotericism and Mysticism (GEM). The GEM certificate provides graduate students with a theoretical orientation, which they then can apply to their chosen concentrations (i.e., African-American religions; African religions; Bible and Beyond; Buddhism; Christianity; Hinduism; Islam; Judaism; American Religion; New Age and New Religious Movements, New Testament and Early Christianity; etc.).

Traditionally the study of religion has privileged the authoritative voices of the religious experts and the scriptural texts that uphold orthodox faith traditions. GEM is a new approach to the study of religion that does not privilege the public orthodox framings but takes seriously the heterodox and esoteric currents that have been actively repressed, censored, or marginalized in a variety of sociological, psychological, philosophical, and political ways. GEM takes into account the plurality of religious voices and expressions, including the neglected currents, in order to reconceive religion. This approach also engages the psychology and the phenomenology of religious experience, rather than relying exclusively on the authorial framings taught by the faith traditions and transmitted in their scriptural texts, interpretations and rituals.

Gnosticism, Esotericism and Mysticism does not currently offer an academic program at the undergraduate level.

Religion (RELI)

RELI 101 - INTRODUCTION TO THE STUDY OF RELIGION
Short Title: WHAT IS RELIGION?
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Comparative and interdisciplinary analysis of key elements (including scripture, religious experience, ideas of the divine, religious art and practices) of two Western and two non-Western religions, of the scholarly study of religion, and of the role of religion in the contemporary world.

RELI 104 - INTRODUCTION TO JEWISH MYSTICISM
Short Title: INTRO TO JEWISH MYSTICISM
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Surveys the historical development and central themes of Jewish mysticism. From the bible to ancient mysticism to medieval Kabbalah to modern expressions, we will critically reflection the ideas such as divine presence in the world, the cultivation of insight and magical powers, contemplative and restorative practices, and charismatic authority. Cross-list: MDEM 103.
REL 105 - INTRODUCTION TO MEDIEVAL CHRISTIAN THOUGHT
Short Title: MEDIEVAL CHRISTIAN THOUGHT
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Survey of major medieval Christian thinkers. Primary focus on high and late middle ages (12th-15th century), with some attention to spiritual and apocalyptic writings and dissenting thought in this period. Cross-list: MDEM 105.

REL 108 - INTRODUCTION TO JUDAISM
Short Title: INTRODUCTION TO JUDAISM
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Survey of post-biblical Judaism as reflected in the literature of the classical rabbinic tradition, mysticism, medieval biblical commentary, legal codes and philosophy, and modern movements such as Hasidism, denominational Judaism, Zionism, and feminist Judaism. Jewish material culture such as synagogue architecture, illuminated manuscripts and ritual artifacts will be included. Students will not receive credit for both RELI 108 and RELI 209. Mutually Exclusive: Cannot register for RELI 108 if student has credit for RELI 209.

REL 109 - RELIGION AND LAW
Short Title: RELIGION AND LAW
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Law and religion: origins, differentiation, relation to legitimacy and stability of basic institutions. Law school, professional life, quest for a fitting career in the search for meaning and authentic selfhood. Required: willingness to share the personal roots of your interest in law and your take on the Big Picture.

REL 111 - INTRODUCTION TO AFRICAN RELIGIONS
Short Title: INTRO AFRICAN RELIGIONS
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Introduction to the structures of African religions through readings. Topics include community, cosmology, ritual, ethical values, magic, witchcraft, spirit possession, contribution to nationalism, social change, religion and art, and transplantation of African Religions in the Americas.

REL 112 - COMPARING CHRISTIANITIES
Short Title: COMPARING CHRISTIANITIES
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: This course maps the pluralistic nature of early Christianity from its grassroots beginnings in a commune in Jerusalem to Rome and the conversion of Emperor Constantine. Different Christian movements include the Apostolic Christians, Ebionites, Marcionites, Thomasians, Montanists, Monarchians, Modalists, Arians, and a variety of Gnostic Christians will be studied comparatively as well as historically.

REL 113 - INTRODUCTION TO CHRISTIANITY IN AFRICA
Short Title: INTRO TO CHRISTIANITY AFRICA
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: An introductory reading course examining the dynamics of African Christianity from the early church to the present. Course will include studying the African church during the Patristic era, the Colonial period, Prophetic Movements, nationalism, racial tensions, the role of women, and the emergence of a distinct theological voice.
RELI 116 - MYSTICISM THROUGHOUT THE AGES
Short Title: MYSTICISM THROUGHOUT THE AGES
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: This course examines the historical development of mysticism in Western thought, placing the Christian experiential traditions in comparison with Jewish developments. Through mystical texts, we will explore key concepts, such as visions of God and spiritual journeys, as developed during late antiquity, the middle-ages, and into the early modern period. Cross-list: MDEM 116.

RELI 122 - THE BIBLE AND ITS INTERPRETERS
Short Title: THE BIBLE AND ITS INTERPRETERS
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level

RELI 123 - INTRODUCTION TO WORLD CHRISTIANITY
Short Title: INTRO TO WORLD CHRISTIANITY
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: This course is designed to introduce students to world Christianity from historical and thematic perspectives. Readings and lectures for the course will draw from interdisciplinary research and scholarship to situate world Christianity as a dynamic spiritual, intellectual, cultural, and communal tradition. This course will introduce students to Christianity in the Americas, Europe, Asia, Africa, and the Pacific using historical analysis to probe the history of the Christian movement, its global distribution, its sacred texts and practices, social engagement, and roles it has a place in a changing world. Interdisciplinary texts will be used to probe selected topics including but not limited to proselytization, leadership, the dynamic competitive relations between mainstream churches, emerging Christian communities, and the social and political dimensions of world Christianity.

RELI 124 - RELIGION AND THE ART OF HAPPINESS
Short Title: RELIGION & ART OF HAPPINESS
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Students at Rice University consistently self-report as "happiest" by rankings like the Princeton Review. Course analyzes what we mean when we talk about "happiness" in the study of religion, assessing the role of community, habits, meaning, and positive thinking in religious and psychological texts, as well as lived experience.

RELI 125 - INTRODUCTION TO BIBLICAL HEBREW I
Short Title: INTRO TO BIBLICAL HEBREW I
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: An introduction to Biblical Hebrew with emphasis on grammar and vocabulary. Cross-list: HEBR 125. Graduate/Undergraduate Equivalency: RELI 507. Mutually Exclusive: Cannot register for RELI 125 if student has credit for RELI 507.

RELI 126 - INTRODUCTION TO BIBLICAL HEBREW II
Short Title: INTRO TO BIBLICAL HEBREW II
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Continuation of RELI 125. We will finish the grammar in the second half of this semester and then read selections from the Hebrew Bible. Cross-list: HEBR 126. Graduate/Undergraduate Equivalency: RELI 511. Mutually Exclusive: Cannot register for RELI 126 if student has credit for RELI 511.

RELI 127 - INTERMEDIATE BIBLICAL HEBREW III
Short Title: INTERM BIBLICAL HEBREW III
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Prerequisite(s): RELI 125 and RELI 126
Description: Readings in the Hebrew Bible as well as in some unvocalized texts from the Dead Sea Scrolls. Review of grammar and vocabulary. Instructor Permission Required. Graduate/Undergraduate Equivalency: RELI 512. Mutually Exclusive: Cannot register for RELI 127 if student has credit for RELI 512.
RELI 157 - RELIGION AND HIP HOP CULTURE IN AMERICA
Short Title: RELIGION AND HIP HOP
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Hip Hop culture has changed how life is discussed and conducted. However, one of the under-explored dimensions of Hip Hop culture involves its religious sensibilities. Using lectures, discussions, films, and video presentations, this course explores Hip Hop culture’s religious dimensions through its musical language-rap music. Mutually Exclusive: Cannot register for RELI 157 if student has credit for RELI 311.

RELI 158 - LIBERATION THEOLOGIES
Short Title: LIBERATION THEOLOGIES
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: This course seeks to acquaint students with examples of liberation theology, as they relate to the following issues: racism, sexism, classism, and environmental destruction. Attention is given to the context, construction, form, and aims of Latin American liberation theology, Black theology, Feminist theology, and Theology in the Intersections. Mutually Exclusive: Cannot register for RELI 158 if student has credit for RELI 548.

RELI 191 - STAR WARS AND RELIGION
Short Title: STAR WARS AND RELIGION
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: The Star Wars films contain one of the richest fictional universes of our time. In this course, we use the theories and methods of Religious Studies (e.g., comparison, psychology, the paranormal, religion and technology) to analyze the Star Wars universe as a modern mythology. Student can expect to gain a working knowledge of tools utilized in the humanities as well as a novel understanding of Star Wars films and fandom.

RELI 203 - JUDAISM OF JESUS AND HILLEL
Short Title: JUDAISM OF JESUS AND HILLEL
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: This course examines the history and literature of Judaism during the Second Temple period, which produced such religious leaders as Jesus and Hillel. Topics include: Jewish sectarianism, scribes and the growth of Scripture, temple worship and the first synagogues, diaspora religion, Jesus and the birth of Christianity, and the origin of Rabbinic Judaism. Counts for the Minor in Jewish Studies. Cross-list: HIST 201.

RELI 213 - THE PROPHET JEREMIAH: THE BIBLICAL BOOK AND ITS RECEPTION IN JUDAISM AND CHRISTIANITY
Short Title: THE PROPHET JEREMIAH
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: A seminar on the book of Jeremiah and its reception. Topics to be explored: ancient Near Eastern prophecy and Israel's cultures of revelation; the composition, production, and transmission of a biblical book; the life of the prophet; the transformation of Jeremiah's message in later, post-biblical texts attributed to him.

RELI 215 - MYSTIC CINEMA: KABBALAH IN FILM
Short Title: MYSTIC CINEMA
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: This course explores uses by the film industry of ideas drawn from Jewish mysticism. We will examine themes such as monsters, spirits, numerology and the paranormal, as portrayed in classic film and through to contemporary Hollywood. Emphasis will be placed on the medieval textual and folkloric traditions behind such portrayals. Cross-list: FILM 215. Mutually Exclusive: Cannot register for RELI 215 if student has credit for FILM 114/FSEM 141/RELI 114.
RELI 216 - RELIGION AND BLACK LIVES MATTER
Short Title: RELIGION & BLACK LIVES MATTER
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: This course explores the intersections of religion, politics, and social justice during the period of history marked by the emergence and activities of the Black Lives Matter Movement.

RELI 217 - SHI'ISM: ASSASSINS AND AYATULLAH
Short Title: SHI'ISM: ASSASSINS & AYATULLAH
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Ranging from the violent disputes at the beginnings of Islam to the mysterious and misunderstood Assassins, Shi'ism is more than about Iran and Iraq. Ayatullahs rule, Alawis in Syria fight ISIS, Isalamis in London are at the cutting edge of Muslim modernity—Shi'ism is much more than you would expect.

RELI 219 - THE SUPERNATURAL AND RELIGION
Short Title: THE SUPERNATURAL AND RELIGION
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: This course will treat the history of the supernatural from the biblical materials on the miraculous "sign" through the birth of the "supernatural" in medieval Christianity and the canonization of saints, to the mediating categories of the "preternatural" and the modern "paranormal." Comparative categories and materials in other cultural and religious complexes will also be treated. Mutually Exclusive: Cannot register for RELI 219 if student has credit for RELI 519.

RELI 221 - THE LIFE OF THE PROPHET MUHAMMAD
Short Title: LIFE OF PROPHET MUHAMMAD
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: This course will examine the life of the Prophet Muhammad, focusing on its significance for Muslims and for non-Muslims. Readings in The Qur'an, Ibn Hisham, and Haykal. Cross-list: ASIA 221.

RELI 223 - QUR'AN AND COMMENTARY
Short Title: QUR'AN AND COMMENTARY
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Survey of the major themes of the Qur'an and selected types of commentary on it from the early Islamic period until the present day.

RELI 230 - ASIAN RELIGIONS IN AMERICA
Short Title: ASIAN RELIGIONS IN AMERICA
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: A survey course on Hinduism, Buddhism, Taoism, and Jainism in America, from the colonial period to the present, with a special focus on American metaphysical religion, the counterculture, the New Age, and the history of Western colonialism, transcultural encounter, translation and immigration. Cross-list: ASIA 230.

RELI 231 - AMERICAN METAPHYSICAL RELIGION
Short Title: AMERICAN METAPHYSICAL RELIGION
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Beginning with a historical survey of the American metaphysical tradition, this course turns to a close study of the Esalen Institute in Big Sur, California, as a unique window into some of the different ways the tradition has appropriated Asian religions, psychological models of the unconscious, and contemporary scientific paradigms. Cross-list: ASIA 231. Graduate/Undergraduate Equivalency: RELI 505. Mutually Exclusive: Cannot register for RELI 231 if student has credit for RELI 505.

RELI 232 - RELIGIONS FROM INDIA
Short Title: RELIGIONS FROM INDIA
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: This course will survey the religions of India, namely Hinduism, Buddhism, Jainism, Christianity, Islam, and Sikhism. Emphasis will be placed on the study of scriptures of these traditions and their continuing global relevance, particularly in American history and culture. Cross-list: ASIA 232. Graduate/Undergraduate Equivalency: RELI 500. Mutually Exclusive: Cannot register for RELI 232 if student has credit for RELI 500.
RELI 233 - INTRODUCTION TO TIBETAN LANGUAGE, LITERATURE AND CULTURE
Short Title: INTRO TO TIBETAN LANG & LIT
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Continued training in Tibetan language-extending vocabulary and facility with grammar. Final includes a paper drawn from readings and class discussion. Cross-list: TIBT 234. Graduate/Undergraduate Equivalency: RELI 564. Mutually Exclusive: Cannot register for RELI 233 if student has credit for RELI 564. Repeatable for Credit.

RELI 238 - SPECIAL TOPICS
Short Title: SPECIAL TOPICS
Department: Religion
Grade Mode: Standard Letter
Course Type: Internship/Practicum, Laboratory, Lecture, Lecture/Laboratory, Seminar, Independent Study
Credit Hours: 1-4
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Topics and credit hours may vary each semester. Contact department for current semester's topic(s). Repeatable for Credit.

RELI 243 - THE BOOK OF GENESIS
Short Title: THE BOOK OF GENESIS
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: A critical reading in English of the Book of Genesis with close attention to the narrative artistry and theological dimensions of the text. Compares pre-modern modes of interpretation and modern historical criticism.

RELI 270 - INTRODUCTION TO THE BLACK CHURCH IN THE UNITED STATES
Short Title: INTRO BLACK CHURCH IN THE US
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Much of what has historically taken place within Black communities has been shaped by Black Christian churches. These churches are resources for those interested in understanding religious expression and activism within the Black community. This course provides an introduction into the history, thought, and worship of the major Black denominations.

RELI 271 - MEDIEVAL POPULAR CHRISTIANITY
Short Title: MEDIEVAL POPULAR CHRISTIANITY
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: For much of the Middle Ages, literacy was a luxury that ordinary people could not afford. How could peasants participate in Christian traditions? Course surveys devotional practices engaged by the laity, including penance, pilgrimage, plays, charms and spells, as well as traditions of lay interaction with dead saints and ghosts. Cross-list: MDEM 271.

RELI 282 - INTRODUCTION TO CHRISTIANITY
Short Title: INTRO TO CHRISTIANITY
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Multidisciplinary exploration of Christian religious experience, belief, and social reality with examples from Africa, the Americas, Asia, and Europe during the last two thousand years. Themes include search for lasting marks of identity amid change and diversity as well as the issue of Christianity’s relation to processes of modernization and secularization. No prior background in religious studies required.
Gnosticism, Esotericism and Mysticism

RELI 294 - RELIGION IN FICTION AND FILM
Short Title: RELIGION IN FICTION AND FILM
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: The sacred in interreligious, international, and interdisciplinary encounter, approached via social sciences, theology, theories of literature and mythology. Authors and directors can include Waugh, Mishima, Mann, Proust, Hesse, Percy, Gardner, Updike, Gibson, Sterling, Coupland, Ray, Resnais, Fellini, Bergman, Anderson, Bunuel, and Nutley. Graduate/Undergraduate Equivalency: RELI 514. Mutually Exclusive: Cannot register for RELI 294 if student has credit for RELI 514.

RELI 300 - RELIGIONS IN AMERICA
Short Title: RELIGIONS IN AMERICA
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Examines the religions and religious practices of America from colonial encounter with native peoples to the contemporary period with a special focus on the morphing natures and historical complexities of American Christianities, religious pluralism and secularism. Graduate/Undergraduate Equivalency: RELI 504. Mutually Exclusive: Cannot register for RELI 300 if student has credit for RELI 504.

RELI 301 - NIETZSCHE AND RELIGIOUS THOUGHT
Short Title: NIETZSCHE & RELIGIOUS THOUGHT
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Nietzsche's thought and background: his impact on religious thinkers and cultural critics; his influence on understanding of God, faith, values, society, his connection with Schopenhauer, Wagner, Tillich, Mann, Barth, Buber, Freud, Jung, D.H. Lawrence, Heidegger, antibourgeois cultural criticism, environmentalism, feminism, and postmodernism. Graduate/Undergraduate Equivalency: RELI 515. Mutually Exclusive: Cannot register for RELI 301 if student has credit for RELI 515.

RELI 302 - PEOPLE OF THE BOOK: JUDAISM AND SCRIPTURE
Short Title: PEOPLE OF THE BOOK
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Examines Judaism as a "People of the Book" recognizing Judaism's dominant religious preoccupation for millennia to be the reading, study and performance of Jewish scripture, particularly the Torah or the first 5 books of the Hebrew Bible: book culture, act of reading, canonization, revelation, and rabbinic, philosophical, mystical interpretations. All readings are in English. Graduate/Undergraduate Equivalency: RELI 526. Mutually Exclusive: Cannot register for RELI 302 if student has credit for RELI 526.

RELI 304 - JESUS AND THE GOSPELS
Short Title: JESUS AND THE GOSPELS
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Explores the various portraits of Jesus in the New Testament and extra-canonical gospels (including the gospels of Thomas Philip, Mary and Judas) in order to reconstruct each gospel's Christological interpretation of Jesus as well as the "historical" Jesus himself.

RELI 307 - BASIC COPTIC 1
Short Title: BASIC COPTIC 1
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: A first semester introduction to Coptic grammar and vocabulary. Graduate/Undergraduate Equivalency: RELI 591. Mutually Exclusive: Cannot register for RELI 307 if student has credit for RELI 591. Repeatable for Credit.

RELI 308 - BASIC COPTIC 2
Short Title: BASIC COPTIC 2
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): RELI 307
Description: Second semester introduction to Coptic grammar and vocabulary, with selected readings from the Coptic New Testament, Nag Hammadi, and monastic literature. Prerequisite: Introduction to Coptic Language I. Graduate/Undergraduate Equivalency: RELI 592. Mutually Exclusive: Cannot register for RELI 308 if student has credit for RELI 592.
RELI 309 - BASIC COPTIC 3
Short Title: BASIC COPTIC 3
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 1-3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Varied readings in original language to include the New Testament, Nag Hammadi, and monastic literature. Prerequisite: Coptic 1 and 2. Graduate/Undergraduate Equivalency: RELI 593. Mutually Exclusive: Cannot register for RELI 309 if student has credit for RELI 593. Repeatable for Credit.

RELI 311 - RELIGION AND HIP HOP CULTURE IN AMERICA
Short Title: RELIGION AND HIP HOP
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Hip Hop culture has changed how life is discussed and conducted. However, one of the under-explored dimensions of Hip Hop culture involves its religious sensibilities. Using lectures, discussions, films, and video presentations, this course explores Hip Hop culture's religious dimensions through its musical language-rap music. RELI 311 requires additional work above the RELI 157 counterpart, including a term paper, etc. Mutually Exclusive: Cannot register for RELI 311 if student has credit for RELI 157.

RELI 312 - THE RELIGIOUS THOUGHT OF MARTIN L. KING, JR. AND MALCOLM X
Short Title: MLK AND MALCOLM X
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Although many figures played a prominent role during the Civil Rights Movement, Martin L. King, Jr. and Malcolm X made unique contributions. Their work sparked important conversation concerning the methods, goals, and consequences of struggle toward liberation. This course examines their religiosity, theological sensibilities, and the major themes which surface in their writings and public work. Graduate/Undergraduate Equivalency: RELI 546. Mutually Exclusive: Cannot register for RELI 312 if student has credit for RELI 546.

RELI 315 - GENDER AND ISLAM
Short Title: GENDER AND ISLAM
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Explores the lives of Muslim women in Asia, the Middle East, Europe, and North America; analyze constructions of gender in the Islamic world over time, the challenges faced from such diverse quarters as colonial administrators, Western feminists, and states, as well as movements and individuals within the Muslim world. Cross-list: ASIA 315, SWGS 315.

RELI 318 - THE BIBLE: A BRIEF INTELLECTUAL HISTORY
Short Title: BIOGRAPHY OF THE BIBLE
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: An investigation of how the perception of the Bible changed from antiquity to the 21st century. The course is structured chronologically. A close reading of the works of major thinkers from each period, together with specific examples of biblical exegesis. Graduate/Undergraduate Equivalency: RELI 518. Mutually Exclusive: Cannot register for RELI 318 if student has credit for RELI 518.

RELI 322 - INTRODUCTION TO BUDDHISM
Short Title: INTRODUCTION TO BUDDHISM
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Buddhist ideas, art, and meditation. Exploration of the Buddhism in India, China, and Japan and their impact in the USA today. Readings include Buddhists classics and contemporary responses from mediators and scientists. Cross-list: ASIA 322. Graduate/Undergraduate Equivalency: RELI 572. Mutually Exclusive: Cannot register for RELI 322 if student has credit for RELI 572.
RELI 328 - RELIGION AND GLOBAL POVERTY
Short Title: RELIGION & GLOBAL POVERTY
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Advanced study of religion and poverty in global context. Course materials will address religious, ethical, anthropological theories of development, analyze specific themes economic and social development, examine the role of Faith Based Organizations and do specific case studies. Students will be graded on short reflections papers and a final term paper. Graduate/Undergraduate Equivalency: RELI 528. Mutually Exclusive: Cannot register for RELI 328 if student has credit for RELI 528.

RELI 329 - THE BIBLE AS LIVED EXPERIENCE
Short Title: THE BIBLE AS LIVED EXPERIENCE
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Even in today's seemingly secular landscape, the Bible is a strong artistic, social, and political influence. We will explore ways in which the Bible is brought to life in contemporary culture by analyzing biblical references in music, film, art, and contemporary religious practice. We will show how American culture shapes understandings of the Bible and vice versa. Mutually Exclusive: Cannot register for RELI 329 if student has credit for RELI 529.

RELI 332 - ADVANCED TIBETAN LANGUAGE & CULTURE
Short Title: ADV TIBETAN LANGUAGE & CULTURE
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): RELI 132 or TIBT 132
Description: This class builds on RELI 232 and 234, now including more challenging material in Tibetan, and continuing the trajectory of gaining familiarity with Buddhist philosophical systems as these touch on epistemology, ontology, and contemplative practice. Cross-list: TIBT 332. Graduate/Undergraduate Equivalency: RELI 532. Mutually Exclusive: Cannot register for RELI 332 if student has credit for RELI 532. Repeatable for Credit.

RELI 333 - KNOWING BODY/GLOWING MIND: BUDDHIST ARTS OF CONTEMPLATION AND ANALYSIS
Short Title: KNOWING BODY/GLOWING MIND
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Buddhism is a performing art engaging both mind and body. Our course investigates Buddhist and other literature, epistemology and rituals with an eye to how they speak to contemplative practice. Contemplative practice itself, in class and out, supplements our exploration of the interplay between traditional Asian and contemporary Western perspectives. Graduate/Undergraduate Equivalency: RELI 573. Recommended prerequisite(s): One course in Buddhism. Mutually Exclusive: Cannot register for RELI 333 if student has credit for RELI 573. Repeatable for Credit.

RELI 334 - PSYCHOLOGY OF RELIGION
Short Title: PSYCHOLOGY OF RELIGION
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: An overview of the basic approaches in the psychological understanding of religious belief and practice. Topics to be addressed in religious systems East and West include: sex, religious experience, ritual, myth, saintliness, guilt, God and meditation.

RELI 335 - MEDICINE AND THE MUSEUM: CLINICAL AESTHETICS AND THE MUSEUM OF FINE ARTS, HOUSTON
Short Title: MEDICINE AND THE MUSEUM
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Through weekly visits to the Museum of Fine Arts, Houston, this class develops key skills and engages relevant themes relating to medicine and caregiving, including observation and description, embodiment and motion, eros and suffering, vulnerable populations, grief and loss, human mortality and spiritual transcendence.
RELI 336 - RELIGION & THE SOCIAL SCIENCES
Short Title: RELIGION & THE SOCIAL SCIENCES
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Designed to introduce the student to classic and contemporary texts in the social scientific study of religion. Topics include: mysticism, the social construction of gender, the guru-disciple relationship, secularization, healing traditions East and West, cross-cultural debates. Mutually Exclusive: Cannot register for RELI 336 if student has credit for RELI 260/RELI 609.

RELI 337 - SHAMANS, SAINTS, & SAGES
Short Title: SHAMANS, SAINTS, & SAGES
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Familiarize the student with diverse texts (secular and religious, East and West) found in mystical literature. Emphasis will be placed on psychological and comparative methods. Mutually Exclusive: Cannot register for RELI 337 if student has credit for RELI 262.

RELI 338 - THE CHURCH OF AFRICA
Short Title: THE CHURCH OF AFRICA
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: A reading course designed to examine Christianity in Africa. Course materials and readings will address the development of the church from the Patristic era to the present, paying attention to theological developments, missionization, colonialism, nationalism, prophetic movements, race relations, the role of women, and social issues. Graduate/Undergraduate Equivalency: RELI 540. Mutually Exclusive: Cannot register for RELI 338 if student has credit for RELI 540.

RELI 339 - APOCALYPSE THEN AND NOW
Short Title: APOCALYPSE THEN AND NOW
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: A close reading of some early Jewish and Christian apocalypses, a discussion of the apocalyptic worldview, and an examination of America's fascination with the Apocalypse in media and science. Graduate/Undergraduate Equivalency: RELI 510. Mutually Exclusive: Cannot register for RELI 339 if student has credit for RELI 510.

RELI 340 - THEOLOGY IN AFRICA
Short Title: THEOLOGY IN AFRICA
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Introductory readings on theological thinking in Africa. Course will address methodological issues as well as constructive theological work on enculturation, social and economic justice, gender, health, and liberation. Read 5 major texts, write a major review, lead class discussions, discuss texts used, and write 20 page research paper. Graduate/Undergraduate Equivalency: RELI 539. Mutually Exclusive: Cannot register for RELI 340 if student has credit for RELI 539.

RELI 341 - AMERICAN JUDAISM: RELIGION AND THOUGHT
Short Title: AMERICAN JUDAISM
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course will examine the distinct character of Jewish religion and thought as it has taken shape in America, including its incorporation within secret societies and the occult. Topics to be examined are American Jewish denominationalism, interfaith relations, pluralism and individualism, and developments in American Jewish spirituality. Graduate/Undergraduate Equivalency: RELI 542. Mutually Exclusive: Cannot register for RELI 341 if student has credit for RELI 542.
RELI 342 - NEW RELIGIOUS MOVEMENTS IN AFRICA
Short Title: NEW RELIG MOVEMENTS IN AFRICA
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Discusses new religious movements and the religious, sociological, and political factors leading to their rise, also missionary and colonial reactions to them. Examines their relationship to indigenous religions, political praxis, and their focus on this-worldly salvation in the wake of political and economic marginality. Cross-list: ANTH 343.

RELI 343 - SEMINAR ON LOVE
Short Title: SEMINAR ON LOVE
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This seminar explores the themes of love, sex, and spirit from the classical era through the postmodern age. We will examine literary, philosophical, and artistic expressions in painting, sculpture, cinema, novels, poetry, psychoanalysis, religion, and culture. Cross-list: HART 347.

RELI 344 - SEMINAR ON THE END OF LIFE
Short Title: END OF LIFE SEMINAR
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 4
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course examines themes associated with death and dying from the historical through the contemporary periods. The class will adopt highly multidisciplinary approach that combines the critical perspectives of biomedicine, religious studies, art history, philosophy, anthropology, bioethics, and cultural studies as we consider life at the end of life.

RELI 348 - CHRISTIANITY AND ISLAM IN AFRICA
Short Title: CHRISTIANITY & ISLAM IN AFRICA
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course will focus upon the history and conflict of Christianity and Islam in Africa, with emphasis placed upon indigenous African developments, cultural and artistic themes, and conversion narratives as well as exploring the co-existence and conflict of the two major faiths of the continent. Mutually Exclusive: Cannot register for RELI 348 if student has credit for RELI 536.

RELI 350 - DEMONS, MENTAL ILLNESS AND MEDICINE
Short Title: DEMONS/MENTAL ILLNESS/MEDICINE
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Treats complex connections between religious beliefs/practices and formulation of human psychology in western tradition, through a historical reckoning with demonology. Consider the way demons are represented – from semi-corporeal beings to marks of mental illness – by looking at texts from the ancient world to modern psychiatry. Cross-list: MDEM 350. Mutually Exclusive: Cannot register for RELI 350 if student has credit for RELI 605.

RELI 356 - MAJOR ISSUES IN CONTEMPORARY ISLAM
Short Title: MAJ ISSUES CONTEMPORARY ISLAM
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course will focus on the major issues confronting contemporary Islam including Islamic unity, the place of the Qur’an and traditions, human rights, Islamic feminism, da’wa, education, science and Islam, globalization and medical ethics.
RELI 357 - WHAT’S RELIGIOUS ABOUT BLACK RELIGION?
Short Title: IS BLACK RELIGION RELIGIOUS?
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course examines two questions: How is religion defined within the study of black religion? What constitutes the nature and meaning of blackness within black religion? These questions provide opportunity to explore how scholars explain what it has meant to be black and religious within the United States. Graduate/Undergraduate Equivalency: RELI 547. Mutually Exclusive: Cannot register for RELI 357 if student has credit for RELI 547.

RELI 359 - RELIGIOUS TOLERANCE IN THE CRUCIBLE OF GLOBALIZATION
Short Title: RELIGIOUS TOLERANCE
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Explores context and consequences of the concept of religious tolerance in the crucible of globalization politics. Background in settlement of Reformation-era religious wars; American attitudes; impetus for tolerance policies and their implementation, 1945 to present (including governmentality and surveillance); results for historically Christian populations, esp. in US and Europe. Graduate/Undergraduate Equivalency: RELI 580. Mutually Exclusive: Cannot register for RELI 359 if student has credit for RELI 580.

RELI 361 - THE HUMANITIES OF CARE & END OF LIFE
Short Title: THE HUMANITIES OF CARE
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Pairing the perspectives of medicine, bioethics, and the medical humanities with thematic case studies in art, literature, cinema, and visual culture, the class examines the humanities of care and the end of life.

RELI 362 - RELIGION AND SCIENCE
Short Title: RELIGION AND SCIENCE
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This advanced seminar analyzes interdisciplinary efforts by scholars of religion to engage scientific research in the cognitive and neuro-sciences. We assess the possibilities for collaboration, as well as conflict, between humanistic and scientific disciplines, asking how the tools of interpretation and empiricism might enrich our understanding of religious phenomena. Graduate/Undergraduate Equivalency: RELI 563. Mutually Exclusive: Cannot register for RELI 362 if student has credit for RELI 563.

RELI 363 - JEWISH PHILOSOPHY: GREAT THINKERS AND THEMES IN JEWISH THOUGHT
Short Title: JEWISH PHILOSOPHY
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: An introduction to the main figures and themes in Jewish philosophy. Topics to be discussed include reason vs faith and prophetic revelation; Israel’s chosenness vs human universalism; creation vs eternity; divine providence and necessity vs free will; evil, justice, and divine omnipotence; prayer, contemplation, and divine and human perfection. Graduate/Undergraduate Equivalency: RELI 567. Mutually Exclusive: Cannot register for RELI 363 if student has credit for RELI 567.

RELI 365 - PAUL AND THE NEW TESTAMENT
Short Title: PAUL & THE NEW TESTAMENT
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Examines the growth of Christianity from its origins as a Jewish group to a religion in the mid-second century that distinguished itself from Judaism. Includes discussion of Acts, Paul’s letters, Johannine corpus, Gospel of Thomas, Pastorals, Catholic letters, Hebrews, and Revelation.
RELI 367 - REPRESENTING THE DEVIL IN CHRISTIAN THEOLOGY AND ART
Short Title: REPRESENTING THE DEVIL
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course focuses on representations of the Devil, demons, and ambiguous spirits in Christian sources from the early medieval to early modern period. Students examine theological as well as ritual sources (blessings and exorcisms), and popular, narrative, dramatic, and artistic representations of evil. Graduate/Undergraduate Equivalency: RELI 557. Mutually Exclusive: Cannot register for RELI 367 if student has credit for RELI 557.

RELI 368 - RISE OF THE NONES: HUMANISMS AND HUMANITIES
Short Title: RISE OF THE NONES
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course will look at the rise of the “nones,” that is, individuals who affiliate with no religious tradition, through both a history of secular thought in the West and a close reading of key texts and figures. Atheism, humanism, secularism and the “spiritual but not religious” will all be treated as key categories. Graduate/Undergraduate Equivalency: RELI 568. Mutually Exclusive: Cannot register for RELI 368 if student has credit for RELI 568. Repeatable for Credit.

RELI 369 - READING WRIGHT: THEISM AND ATHEISM IN THE WRITINGS OF RICHARD WRIGHT
Short Title: READING RICHARD WRIGHT
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Richard Wright’s fiction and nonfiction are important resources for understanding the nature of radicalized life in the United States. This course explores his writings for what they tell us about the role of religion in the development of identity and life meaning, and we will juxtapose the role of religion with Wright’s commentary on the nature and significance of atheism for countering injustice. Graduate/Undergraduate Equivalency: RELI 606. Mutually Exclusive: Cannot register for RELI 369 if student has credit for RELI 606.

RELI 371 - CHRISTIANITY IN THE GLOBAL SOUTH
Short Title: CHRISTIANITY IN GLOBAL SOUTH
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Readings on Christianity in the Global South analyzing historical developments, mission and colonial encounters, growth and expansion; diversity of expression, the development of local initiated Churches, Pentecostalism, and public role of the Church. Graduate/Undergraduate Equivalency: RELI 561. Mutually Exclusive: Cannot register for RELI 371 if student has credit for RELI 561.

RELI 375 - EPIPHANIES: SEEING IN A NEW LIGHT AND RECOGNIZING THE RADIANCE
Short Title: EPIPHANIES
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Epiphanies are events or objects that can note a striking appearance or manifestation, just as an epiphanic experience contains a significant moment of revelation. This course examines expressions of epiphanies in modernist art, literature, film, sacred experience, and in the mundane details of life itself. Cross-list: HART 328.

RELI 378 - MIND AND ART, FILM AND LITERATURE IN BUDDHISM
Short Title: BUDDHIST ART AND LITERATURE
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Examines the historical origins of Messianism. The Hebrew Bible, the Dead Sea Scrolls, and other ancient texts reflect a surprising diversity of Messianic expectations in early Judaism. These form the background of early Christian depictions of Jesus of Nazareth.
RELI 382 - LOST JUDAISMS: THE APOCRYPHAL WRITINGS
Short Title: LOST JUDAISMS
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: After the Hebrew Bible/Old Testament canon was closed, Jews and Christians continued to compose texts and attributed them to the biblical figures of the past. Seminar offers a close reading of some of these apocryphal/pseudepigraphic little known texts. Graduate/Undergraduate Equivalency: RELI 509. Mutually Exclusive: Cannot register for RELI 382 if student has credit for RELI 509.

RELI 383 - THE DEAD SEA SCROLLS
Short Title: THE DEAD SEA SCROLLS
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: A survey of the Dead Sea Scrolls as a window into the Second Temple period. A close reading of the scrolls will lead to a discussion of the theological and historical issues of the time, a period pivotal for the formation of Rabbinic Judaism and Early Christianity. Graduate/Undergraduate Equivalency: RELI 553. Mutually Exclusive: Cannot register for RELI 383 if student has credit for RELI 553.

RELI 384 - PILGRIMAGE AND CRUSADE
Short Title: PILGRIMAGE AND CRUSADE
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Focus on the pilgrimage to Jerusalem and Mecca by Jews, Christians, and Muslims within the context of the crusade period. Also covers the historical religious events of the crusades (approximately 1000-1300) from both a Muslim and a Christian perspective. Mutually Exclusive: Cannot register for RELI 384 if student has credit for RELI 608.

RELI 385 - GOD, TIME AND HISTORY
Short Title: GOD, TIME AND HISTORY
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: How is the passage of time given meaning, and what role—if any—is assigned to divinity in shaping the direction of events? Course explores various forms of recording and interpreting events, drawing from ancient Mesopotamia, Israel, and the Greco-Roman world—the cultures in which modern ideas of history began. Cross-list: HIST 381. Mutually Exclusive: Cannot register for RELI 385 if student has credit for RELI 585.

RELI 387 - WESTERN ESOTERICISM: METHOD AND THEORY
Short Title: WESTERN ESOTERICISM
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course explores the relation between esoteric texts and the idea of "Western Esotericism." We will look at primary writings from Agrippa to Madame Blavatsky and consider the historical and methodological approaches emerging as Esotericism is constructed as an academic area. Graduate/Undergraduate Equivalency: RELI 587. Mutually Exclusive: Cannot register for RELI 387 if student has credit for RELI 587.

RELI 388 - THE PSALMS
Short Title: THE PSALMS
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: A seminar on biblical poetry. The Psalms have constituted a book of study, devotion, and prayer for Jews and Christians for two millennia. This course explores the psalms' poetic force, liturgical setting in ancient Israel, theology, and enduring significance today. Counts for the Minor in Jewish Studies. RELI 612: Additional readings and longer paper. Graduate/Undergraduate Equivalency: RELI 612. Mutually Exclusive: Cannot register for RELI 388 if student has credit for RELI 612.
REL 390 - SEARCH FOR GOD IN THE POSTMODERN WORLD
Short Title: SEARCH FOR GOD
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Explore forms of theistic religious experience, concentrating on the Western Christian tradition; past and present cultural and philosophical challenges to traditional religious belief; the possibility of Christian faith and the struggle for justice and meaning. Mutually Exclusive: Cannot register for RELI 390 if student has credit for RELI 280.

REL 391 - THE REFORMATION & ITS RESULTS
Short Title: THE REFORMATION & ITS RESULTS
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Theology and church-state issues from 16th-century Reformation to 17th-century; medieval background; Luther and Calvin, the Catholic Reformation; religious wars; Protestant orthodoxy; Pietist spirituality; Puritanism; and calls for toleration. Cross-list: MDEM 391. Mutually Exclusive: Cannot register for RELI 391 if student has credit for RELI 286.

REL 392 - JERUSALEM: HOLY CITY IN TIME AND IMAGINATION
Short Title: JERUSALEM
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3,4
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: A course on Jerusalem's past and present, its religious meanings in Judaism, Christianity, and Islam, and its role in the modern conflict in the Middle East. Instructor Permission Required.

REL 393 - MUTANTS AND MYSTICS: RACE, SEXUALITY, AND THE FUTURE OF THE HUMANITIES
Short Title: MUTANTS AND MYSTICS
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This is a course about the deep historical and conceptual connections between the histories of science fiction, the paranormal, and social transformation around race, gender, sexuality, and the human. We will see that such events tend to erupt in the "gaps" or "fractures" of society and within both personal and historical traumatic contexts in order to both deconstruct the reigning social formations, epistemologies, and ontologies—usually of an objectivizing, colonizing, and scientific nature—but also supply the numinous foundations for the imagining of new humanities, or what queer theorist Ramzi Fawaz calls our emerging "mutanity.” Graduate/Undergraduate Equivalency: RELI 589. Mutually Exclusive: Cannot register for RELI 393 if student has credit for RELI 589.

REL 395 - LOSING YOUR RELIGION IN FILM & FICTION & MUSIC
Short Title: LOSING YOUR RELIGION IN FILM
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Doubt, sex, despair, obsession, ecstasy in directors, writers, musicians wanting spiritual reboot, 1890-2015: such as Allen Ginsberg, Oscar Wilde, D.H. Lawrence, T.S. Eliot, H.P. Lovecraft, John Updike, and Ingmar Bergman. Graduate/Undergraduate Equivalency: RELI 503. Mutually Exclusive: Cannot register for RELI 395 if student has credit for RELI 503.

REL 396 - PENTECOSTALISM
Short Title: PENTECOSTALISM
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: An introduction to Pentecostalism in a global context focusing historical developments, expansion in Europe, North America, Africa, Latin America and Asia. Graduate/Undergraduate Equivalency: RELI 595. Mutually Exclusive: Cannot register for RELI 396 if student has credit for RELI 595.
RELI 399 - CONTEMPLATIVE PRACTICE
Short Title: CONTEMPLATIVE PRACTICE
Department: Religion
Grade Mode: Standard Letter
Course Type: Activity Course
Credit Hour: 1
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Literary and artistic creativity, religious experience, and textual interpretation often draw on focused states of consciousness made possible by contemplative practices. The practice will provide historical information about such practices and offer opportunities to participate in techniques ranging from meditation and observing breath to freeform writing and T'ai Chi. Graduate/Undergraduate Equivalency: RELI 597. Mutually Exclusive: Cannot register for RELI 399 if student has credit for RELI 597. Repeatable for Credit.

RELI 400 - SENIOR THESIS
Short Title: SENIOR THESIS
Department: Religion
Grade Mode: Standard Letter
Course Type: Independent Study
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Consisting of the writing of a thesis of considerable length, depth, and research, this course will function as the capstone course on writing in the discipline. Required of all majors.

RELI 401 - INDEPENDENT STUDY
Short Title: INDEPENDENT STUDY
Department: Religion
Grade Mode: Standard Letter
Course Type: Independent Study
Credit Hours: 1-6
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Multiple sections of this course are offered. Repeatable for Credit.

RELI 402 - INDEPENDENT STUDY
Short Title: INDEPENDENT STUDY
Department: Religion
Grade Mode: Standard Letter
Course Type: Independent Study
Credit Hours: 1-6
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Multiple sections of this course are offered. Repeatable for Credit.

RELI 403 - SENIOR THESIS I
Short Title: SENIOR THESIS I
Department: Religion
Grade Mode: Standard Letter
Course Type: Independent Study
Credit Hours: 1-6
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: For the duration of their senior year, qualified students can elect to write a senior thesis. To complete the thesis, the student elects RELI 403 "Senior Thesis I" in Fall semester and RELI 404 "Senior Thesis II" in Spring semester and works with a Religion faculty supervisor for the year. Instructor Permission Required.

RELI 404 - SENIOR THESIS II
Short Title: SENIOR THESIS II
Department: Religion
Grade Mode: Standard Letter
Course Type: Independent Study
Credit Hours: 1-6
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): RELI 403
Description: For the duration of their senior year, qualified students can elect to write a senior thesis. To complete the thesis, the student elects RELI 403 "Senior Thesis I" in Fall semester and RELI 404 "Senior Thesis II" in Spring semester and works with a Religion faculty supervisor for the year. Instructor Permission Required.

RELI 406 - CHRISTIANITY AND LATE ANTIQUITY
Short Title: CHRISTIANITY & LATE ANTIQUITY
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This advanced seminar treats the formation of Christianity as an institutional power in relation to the Roman Empire. Starting with the Edict of Milan in 313 CE, which put an end to persecution of Christians, and closing with the Council of Chalcedon in 451 CE, which established normative Christian doctrine, we will move through this development in seven roughly chronological units. Graduate/Undergraduate Equivalency: RELI 506. Mutually Exclusive: Cannot register for RELI 406 if student has credit for RELI 506.
RELI 407 - ARCHIVES OF THE IMPOSSIBLE
Short Title: ARCHIVES OF THE IMPOSSIBLE
Department: Religion
Grade Mode: Standard Letter
Course Type: Research
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: After reading Prof. Kripal's Authors of the Impossible as a basic theoretical structure for the semester, this advanced archival research seminar will involve students engaging original historical documents contained in Rice University's archive on Paranormal Currents in American Culture toward the writing of a graduate or undergraduate thesis. Graduate/Undergraduate Equivalency: RELI 607. Mutually Exclusive: Cannot register for RELI 407 if student has credit for RELI 607.

RELI 410 - CONCEPTS IN THE STUDY OF RELIGION
Short Title: CONCEPTS IN RELIGION
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course introduces useful concepts and key methodological problems in the discipline of religious studies. It aims to provide a theoretical toolkit for graduate students at the Masters level and advanced undergraduates, especially those contemplating or engaged in honors or MA theses in the Religion department. Graduate students must take a final exam and write an additional three to four thousand words. Graduate/Undergraduate Equivalency: RELI 610.

RELI 415 - SECRET RELIGION
Short Title: SECRET RELIGION
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Examines religious currents that operate in the margins of traditional religion: the gnostic, esoteric and mystical. Covers how these categories were theorized. Explores how they continue to identify contemporary religious currents that are considered transgressive and are rejected by conventional religious authorities. Class is grounded in antiquity and historical method. Graduate/Undergraduate Equivalency: RELI 615. Mutually Exclusive: Cannot register for RELI 415 if student has credit for RELI 615.

RELI 416 - NEW TESTAMENT / CHRISTIAN ORIGINS
Short Title: NEW TESTAMENT/CHRISTIAN ORIG
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course introduces useful concepts and key methodological problems in the discipline of religious studies. It aims to provide a theoretical toolkit for graduate students at the Masters level and advanced undergraduates, especially those contemplating or engaged in honors or MA theses in the Religion department. Graduate students must take a final exam and write an additional three to four thousand words. Graduate/Undergraduate Equivalency: RELI 610.

RELI 417 - GNOSTIC AMERICA
Short Title: GNOSTIC AMERICA
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course introduces useful concepts and key methodological problems in the discipline of religious studies. It aims to provide a theoretical toolkit for graduate students at the Masters level and advanced undergraduates, especially those contemplating or engaged in honors or MA theses in the Religion department. Graduate students must take a final exam and write an additional three to four thousand words. Graduate/Undergraduate Equivalency: RELI 610.

RELI 419 - MYSTERY RELIGIONS
Short Title: MYSTERY RELIGIONS
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Examines religious currents that operate in the margins of traditional religion: the gnostic, esoteric and mystical. Covers how these categories were theorized. Explores how they continue to identify contemporary religious currents that are considered transgressive and are rejected by conventional religious authorities. Class is grounded in antiquity and historical method. Graduate/Undergraduate Equivalency: RELI 615. Mutually Exclusive: Cannot register for RELI 415 if student has credit for RELI 615.
RELI 420 - ART OF INTERPRETING THE BIBLE
Short Title: ART OF INTERPRETING THE BIBLE
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Explores issues of history, historiography, and hermeneutics within the context of Biblical Studies. While traditional forms of Biblical criticism are covered, the bulk of the course focuses on intertextuality, reception history, sociological methods, feminist views, and cognitive approaches. Graduate students (7500 word paper, seminar leadership, and oral presentation); Undergraduate students (5000 word paper and oral presentation). Graduate/Undergraduate Equivalency: RELI 620.

RELI 421 - FOUCAULT & THE HERMENEUTICS OF SELF
Short Title: FOUCAULT & THE SELF
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Best known for analyzing domination and power, Michel Foucault shifts his attention to ethics and “technologies of the self” in 1976. In this advanced seminar, we study and critique Foucault’s turn to western antiquity through his lectures and volumes of foregrounding power through religion, politics and ethics. Graduate/Undergraduate Equivalency: RELI 569. Mutually Exclusive: Cannot register for RELI 421 if student has credit for RELI 569.

RELI 423 - AFRICAN MYTHS AND RITUALS
Short Title: AFRICAN MYTHS AND RITUALS
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Explore and analyze specific myths and rituals which provide legitimation for community ceremonies and that serve as a basis for the negotiation of power and ideology for members within that community. Readings from classic theorists: Durkheim, Levi-Strauss, Edmond Leach, Gennap and Turner, and contemporary theorists: Webner, Heusch, Comaroff, and Ray. Cross-list: ANTH 423. Graduate/Undergraduate Equivalency: RELI 537. Mutually Exclusive: Cannot register for RELI 423 if student has credit for RELI 537.

RELI 424 - RELIGION AND POLITICS IN AFRICA
Short Title: RELIGION & POLITICS IN AFRICA
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3

Lovecraft, John Updike, and Ingrid Bergman. Graduate/Undergraduate Equivalency: RELI 395. Mutually Exclusive: Cannot register for RELI 503 if student has credit for RELI 395.

RELI 504 - RELIGIONS IN AMERICA
Short Title: RELIGIONS IN AMERICA
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Examines the religions and religious practices of America from colonial encounter with native peoples to the contemporary period with a special focus on the morphing natures and historical complexities of American Christianities, religious pluralism and secularism. Graduate students will be required to read a standard and well-known two-volume, 1,200-page collection of primary historical sources. They will also write a research paper (25-30 pages) that is approximately twice as long as the undergraduate paper. Graduate/Undergraduate Equivalency: RELI 300. Mutually Exclusive: Cannot register for RELI 504 if student has credit for RELI 300.
RELI 505 - AMERICAN METAPHYSICAL RELIGION
Short Title: AMERICAN METAPHYSICAL RELIGION
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: With a historical survey of the American metaphysical tradition, this course turns to a close study of the Esalen Institute in Big Sur, CA, as a unique window to some of the different ways tradition has appropriated Asian religions, psychological models of the unconscious, and contemporary scientific paradigms. Graduate/Undergraduate Equivalency: RELI 231. Mutually Exclusive: Cannot register for RELI 505 if student has credit for RELI 231.

RELI 506 - CHRISTIANITY AND LATE ANTIQUITY
Short Title: CHRISTIANITY & LATE ANTIQUITY
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This advanced seminar treats the formation of Christianity as an institutional power in relation to the Roman Empire. Starting with the Edict of Milan in 313 CE, which put an end to persecution of Christians, and closing with the Council of Chalcedon in 451 CE, which established normative Christian doctrine, we will move through this development in seven roughly chronological units. Graduate/Undergraduate Equivalency: RELI 406. Mutually Exclusive: Cannot register for RELI 506 if student has credit for RELI 406.

RELI 507 - INTRODUCTION TO BIBLICAL HEBREW I
Short Title: INTRO TO BIBLICAL HEBREW I
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: An introduction to Biblical Hebrew with emphasis on grammar and vocabulary. Write an exegetical paper on a Hebrew text of your choice. UG/GR Equivalent: RELI 127.

RELI 508 - INTERMEDIATE BIBLICAL HEBREW II
Short Title: INTERM BIBLICAL HEBREW II
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Continuation of RELI 507. We will finish the grammar in the second half of this semester and then read selections from the Hebrew bible. Write an exegetical paper on a Hebrew text of your choice. Graduate/Undergraduate Equivalency: RELI 126. Mutually Exclusive: Cannot register for RELI 511 if student has credit for RELI 126.

RELI 509 - LOST JUDAISMS: THE APOCRYPHAL WRITINGS
Short Title: LOST JUDAISMS
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: After the Hebrew Bible/Old Testament canon was closed, Jews and Christians continued to compose texts and attributed them to the biblical figures of the past. Seminar offers a close reading of some of these apocryphal/psuedepigraphic little known texts. Students in RELI 509 will additionally conduct a research project. Graduate/Undergraduate Equivalency: RELI 382. Mutually Exclusive: Cannot register for RELI 509 if student has credit for RELI 382.

RELI 510 - APOCALYPSE THEN AND NOW
Short Title: APOCALYPSE THEN AND NOW
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: A close reading of some early Jewish and Christian apocalypses, a discussion of the apocalyptic worldview, and an examination of America's fascination with the Apocalypse in media and science. Graduate/Undergraduate Equivalency: RELI 339. Mutually Exclusive: Cannot register for RELI 510 if student has credit for RELI 339.

RELI 511 - INTRODUCTION TO BIBLICAL HEBREW II
Short Title: INTRO TO BIBLICAL HEBREW II
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Readings in the Hebrew Bible as well as some unvocalized texts from the Dead Sea Scrolls. Review of grammar and vocabulary. Write an exegetical paper on a Hebrew text of your choice. Graduate/Undergraduate Equivalency: RELI 127. Instructor Permission Required.

RELI 512 - INTERMEDIATE BIBLICAL HEBREW III
Short Title: INTERM BIBLICAL HEBREW III
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): RELI 125 and RELI 126
Description: Readings in the Hebrew Bible as well as some unvocalized texts from the Dead Sea Scrolls. Review of grammar and vocabulary. Write an exegetical paper on a Hebrew text of your choice. Graduate/Undergraduate Equivalency: RELI 127. Instructor Permission Required. Graduate/Undergraduate Equivalency: RELI 127. Mutually Exclusive: Cannot register for RELI 512 if student has credit for RELI 127.

RELI 514 - RELIGION IN FICTION AND FILM
Short Title: RELIGION IN FICTION AND FILM
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.

A close reading of the works of major thinkers from each period, together with specific examples of biblical exegesis. Graduate students will have one extra reading assignment per week and complete a 14-15 page paper. Graduate/Undergraduate Equivalency: RELI 301. Mutually Exclusive: Cannot register for RELI 518 if student has credit for RELI 302.

REL 521 - ADVANCED STUDY OF ISLAM
Short Title: ADVANCED STUDY OF ISLAM
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: The purpose of this course will be to give graduate students a working knowledge of Islam historically and religiously.

REL 522 - ISLAM'S MYSTICAL AND ESOTERIC TRADITION
Short Title: ISLAM'S MYSTICAL TRADITION
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: An investigation of how the perception of the Bible changed from antiquity to the 21st century. The course is structured chronologically. A close reading of the works of major thinkers from each period, together with specific examples of biblical exegesis. Graduate students will have one extra reading assignment per week and complete a 14-15 page paper. Graduate/Undergraduate Equivalency: RELI 440. Mutually Exclusive: Cannot register for RELI 522 if student has credit for RELI 440.

REL 523 - INDEPENDENT STUDY
Short Title: INDEPENDENT STUDY
Department: Religion
Grade Mode: Standard Letter
Course Type: Independent Study
Credit Hours: 1-9
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Multiple sections of this course are offered. Repeatable for Credit.

REL 524 - INDEPENDENT STUDY
Short Title: INDEPENDENT STUDY
Department: Religion
Grade Mode: Standard Letter
Course Type: Independent Study
Credit Hours: 1-9
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Multiple sections of this course are offered. Repeatable for Credit.

REL 525 - MAGIC AND POPULAR RELIGION
Short Title: MAGIC & POPULAR RELIGION
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate

RELI 537 - AFRICAN MYTHS AND RITUALS  
Short Title: AFRICAN MYTHS AND RITUALS  
Department: Religion  
Grade Mode: Standard Letter  
Course Type: Lecture  
Credit Hours: 3  
Restrictions: Enrollment is limited to Graduate level students.  
Course Level: Graduate  
Description: Course explores interdisciplinary perspectives on religion and politics in Africa focusing on indigenous religious, Christianity, and Islam. Readings will reflect theoretical perspectives, historical developments, regional angels, and contemporary issues such as sharia, gender, and reconciliation as political options. RELI 534 requires additional reading, review a book on the subject, and write a 25 page research paper. Graduate/Undergraduate Equivalency: RELI 423. Mutually Exclusive: Cannot register for RELI 537 if student has credit for RELI 423.
RELI 539 - THEOLOGY IN AFRICA
Short Title: THEOLOGY IN AFRICA
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Graduate level students will complete a 30-page research paper; and complete additional readings. Graduate/Undergraduate Equivalency: RELI 339. Mutually Exclusive: Cannot register for RELI 539 if student has credit for RELI 339.

RELI 540 - THE CHURCH OF AFRICA
Short Title: THE CHURCH OF AFRICA
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Graduate level students will complete a 30-page research paper; and complete additional readings. Graduate/Undergraduate Equivalency: RELI 340. Mutually Exclusive: Cannot register for RELI 540 if student has credit for RELI 340.

RELI 541 - CLASSICAL AND CONTEMPORARY ARABIC TEXTS
Short Title: ARABIC TEXTS
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Graduate level students will complete a 30-page research paper; and complete additional readings. Graduate/Undergraduate Equivalency: RELI 341. Mutually Exclusive: Cannot register for RELI 541 if student has credit for RELI 341.

RELI 542 - AMERICAN JUDAISM: RELIGION AND THOUGHT
Short Title: AMERICAN JUDAISM
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Graduate level students will complete a 30-page research paper; and complete additional readings. Graduate/Undergraduate Equivalency: RELI 342. Mutually Exclusive: Cannot register for RELI 542 if student has credit for RELI 342.

RELI 543 - Gnosticism, Esotericism and Mysticism
Short Title: Gnosticism, Esotericism and Mysticism
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Graduate level students will complete a 30-page research paper; and complete additional readings. Graduate/Undergraduate Equivalency: RELI 343. Mutually Exclusive: Cannot register for RELI 543 if student has credit for RELI 343.

RELI 544 - THE RELIGIOUS THOUGHT OF MARTIN L. KING, JR. AND MALCOLM X
Short Title: MLK AND MALCOLM X
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Graduate level students will complete a 30-page research paper; and complete additional readings. Graduate/Undergraduate Equivalency: RELI 344. Mutually Exclusive: Cannot register for RELI 544 if student has credit for RELI 344.

RELI 545 - WHAT'S RELIGIOUS ABOUT BLACK RELIGION?
Short Title: IS BLACK RELIGION RELIGIOUS?
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Graduate level students will complete a 30-page research paper; and complete additional readings. Graduate/Undergraduate Equivalency: RELI 345. Mutually Exclusive: Cannot register for RELI 545 if student has credit for RELI 345.

RELI 546 - THE RELIGIOUS THOUGHT OF MARTIN L. KING, JR. AND MALCOLM X
Short Title: MLK AND MALCOLM X
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Graduate level students will complete a 30-page research paper; and complete additional readings. Graduate/Undergraduate Equivalency: RELI 346. Mutually Exclusive: Cannot register for RELI 546 if student has credit for RELI 346.
RELI 555 - HISTORICAL ANTHROPOLOGIES OF RELIGION  
**Short Title:** HISTORICAL ANTHROPOLOGIES  
**Department:** Religion  
**Grade Mode:** Standard Letter  
**Course Type:** Seminar  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** This course will address the study of the religious past through conjunctions of anthropology and history. Readings will include books and selections by Max Weber, Marshall Sahlins, Victor Turner, Jacques Le Goff, Aron Gurevich, and others. Cross-list: ANTH 550.  

RELI 557 - REPRESENTING THE DEVIL IN CHRISTIAN THEOLOGY AND ART  
**Short Title:** REPRESENTING THE DEVIL  
**Department:** Religion  
**Grade Mode:** Standard Letter  
**Course Type:** Seminar  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** This course focuses on representations of the Devil, demons and ambiguous spirits in Christian theological, ritual, and narrative sources from the early medieval to early modern period. Graduate work includes added reading (30-50 pp weekly above undergraduate requirements), article length essay (8 to 10 thousand words) and two presentations. Graduate/Undergraduate Equivalency. RELI 367. Mutually Exclusive: Cannot register for RELI 557 if student has credit for RELI 367.  

RELI 558 - MYSTICISM: THEORIES AND METHODS  
**Short Title:** MYSTICISM  
**Department:** Religion  
**Grade Mode:** Standard Letter  
**Course Type:** Seminar  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** A history of the development of the modern category of "mysticism" from the seventeenth century to today, with side studies of cognate terms like "spirituality," "metaphysical religion," and the "paranormal," as these forms of extreme religious experience are by social-scientific and humanistic methods. RELI 558: Additional readings and writing. Graduate/Undergraduate Equivalency: RELI 458. Mutually Exclusive: Cannot register for RELI 558 if student has credit for RELI 458.  

RELI 559 - HISTORY AND METHODS: TWENTIETH CENTURY  
**Short Title:** HISTORY AND METHODS: 20TH CENT  
**Department:** Religion  
**Grade Mode:** Standard Letter  
**Course Type:** Seminar  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** Focused discussion of the history and methods of the study of religion via close readings of classical texts and narratives of the field from 1900-present. Graduate course will require reading of more books and a longer paper to write. Graduate/Undergraduate Equivalency: RELI 428. Mutually Exclusive: Cannot register for RELI 559 if student has credit for RELI 428.  

RELI 560 - ADVANCED READINGS IN TIBETAN TEXTS  
**Short Title:** READING TIBETAN TEXTS  
**Department:** Religion  
**Grade Mode:** Standard Letter  
**Course Type:** Seminar  
**Credit Hours:** 1-4  
**Restrictions:** Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** This course is to accommodate Grad students’ requests to read more widely in Tibetan texts and genres. Our focus is reading and disciplined discussion of the texts. Repeatable for Credit.  

RELI 561 - CHRISTIANITY IN THE GLOBAL SOUTH  
**Short Title:** CHRISTIANITY IN GLOBAL SOUTH  
**Department:** Religion  
**Grade Mode:** Standard Letter  
**Course Type:** Seminar  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** Readings on Christianity in the Global South analyzing historical developments, mission and colonial encounters, growth and expansion; diversity of expression, the development of local initiated Churches, Pentecostalism, and public role of the Church. Graduate students will lead class on a church in a country of their choice. Each graduate student will prepare and lead a seminar on one aspect of the region or country. Each graduate student will also present in class an in-depth study of a selected theme. Graduate students will read additional books selected from a list of texts discussed with instructor. They will also write a 25 page research paper on any topic in Global Christianity. Graduate/Undergraduate Equivalency: RELI 371. Mutually Exclusive: Cannot register for RELI 561 if student has credit for RELI 371.  

RELI 563 - RELIGION AND SCIENCE  
**Short Title:** RELIGION AND SCIENCE  
**Department:** Religion  
**Grade Mode:** Standard Letter  
**Course Type:** Seminar  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** This advanced seminar analyzes interdisciplinary efforts by scholars of religion to engage scientific research in the cognitive and neuro-sciences. We assess the possibilities for collaboration, as well as conflict, between humanistic and scientific disciplines, asking how the tools of interpretation and empiricism might enrich our understanding of religious phenomena. Graduate students will lecture one course session and will engage additional secondary literature throughout the semester. Graduate/Undergraduate Equivalency: RELI 362. Mutually Exclusive: Cannot register for RELI 563 if student has credit for RELI 362.
RELI 564 - INTERMEDIATE TIBETAN LANGUAGE, LITERATURE AND CULTURE  
**Short Title:** INT. TIBETAN LANG LIT & CULTUR  
**Department:** Religion  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** Continued training in Tibetan language-extending vocabulary and facility with grammar. Final includes a paper drawn from readings and class discussion. RELI 564: Write a paper approximately one-third longer and complete a more substantial oral presentation. Graduate/Undergraduate Equivalency: RELI 234. Mutually Exclusive: Cannot register for RELI 564 if student has credit for RELI 234. Repeatable for Credit.

RELI 567 - JEWISH PHILOSOPHY: GREAT THINKERS AND THEMES IN JEWISH THOUGHT  
**Short Title:** JEWISH PHILOSOPHY  
**Department:** Religion  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** An introduction to the main figures and themes in Jewish philosophy. Topics to be discussed include reason vs faith and prophetic revelation; Israel's chosenness vs human universalism; creation vs eternity; divine providence and necessity vs free will; evil, justice, and divine omnipotence; prayer, contemplation, and divine and human perfection. Graduate students are required to write a research paper (25-30 pp.) and to prepare and lead at least one class. Graduate/Undergraduate Equivalency: RELI 363. Mutually Exclusive: Cannot register for RELI 567 if student has credit for RELI 363.

RELI 568 - RISE OF THE NONES: HUMANISMS AND HUMANITIES  
**Short Title:** RISE OF THE NONES  
**Department:** Religion  
**Grade Mode:** Standard Letter  
**Course Type:** Seminar  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** This course will look at the rise of the “nones,” that is, individuals who affiliate with no religious tradition, through both a history of secular thought in the West and a close reading of key texts and figures. Atheism, humanism, secularism and the “spiritual but not religious” will all be treated as key categories. RELI 568 will require additional readings, 3 additional papers plus a longer research paper, leading discussions and teaching. Graduate/Undergraduate Equivalency: RELI 368. Mutually Exclusive: Cannot register for RELI 568 if student has credit for RELI 368. Repeatable for Credit.

RELI 569 - FOUCALUT & THE HERMENEUTICS OF SELF  
**Short Title:** FOUCALUT & THE SELF  
**Department:** Religion  
**Grade Mode:** Standard Letter  
**Course Type:** Seminar  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** Best known for analyzing domination and power, Michel Foucault shifts his attention to ethics and “technologies of the self” in 1976. In this advanced seminar, we study and critique Foucault's turn to western antiquity through his lectures and volumes of foregrounding resistance to power through religion, politics and ethics. Graduate/Undergraduate Equivalency: RELI 421. Mutually Exclusive: Cannot register for RELI 569 if student has credit for RELI 421.

RELI 570 - BUDDHIST WISDOM TEXTS  
**Short Title:** BUDDHIST WISDOM TEXTS  
**Department:** Religion  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** Indo-Tibetan analyses of the mind and its functions, especially differing views on the role of reasoning and the nature of the “ultimate” in major philosophical schools of Tibet and India. RELI 570: More difficult readings and two longer papers required. Graduate/Undergraduate Equivalency: RELI 470. Repeatable for Credit.

RELI 572 - INTRODUCTION TO BUDDHISM: ARTS FOR LIFE  
**Short Title:** INTRODUCTION TO BUDDHISM  
**Department:** Religion  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** Buddhist ideas, art, and meditation. Exploration of the Buddhism in India, China, and Japan and their impact in the USA today. Readings include Buddhists classics and contemporary responses from mediators and scientists. Additional readings, more writing. Graduate/Undergraduate Equivalency: RELI 322. Mutually Exclusive: Cannot register for RELI 572 if student has credit for RELI 322.

RELI 573 - KNOWING BODY/GLOWING MIND: BUDDHIST ARTS OF CONTEMPLATION AND ANALYSIS  
**Short Title:** KNOWING BODY/GLOWING MIND  
**Department:** Religion  
**Grade Mode:** Standard Letter  
**Course Type:** Seminar  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** Buddhism is a performing art engaging both mind and body. Our course investigates Buddhist and other literature, epistemology and rituals with an eye to how they speak to contemplative practice. Contemplative practice itself, in class and out, supplements our exploration of the interplay between traditional Asian and contemporary Western perspectives. Graduate/Undergraduate Equivalency: RELI 333. Recommended prerequisite(s): One course in Buddhism. Mutually Exclusive: Cannot register for RELI 573 if student has credit for RELI 333. Repeatable for Credit.
RELI 582 - KABBALAH SEMINAR
Short Title: KABBALAH SEMINAR
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This seminar will delve into literature known as "kabbalah." Drawing on a wealth of Buddhist-related art, film, and literature, this course introduces you to Tibetan and other Buddhist approaches to these crucial questions. RELI 582 requires additional readings and research papers. Graduate/Undergraduate Equivalency: RELI 472. Mutually Exclusive: Cannot register for RELI 582 if student has credit for RELI 472.

RELI 581 - GNOSTICISM SEMINAR
Short Title: GNOSTICISM SEMINAR
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: In depth examination of one (or more) Gnostic texts within its literary, social, historical, and religious landscapes. RELI 581 requires preparation and delivery of public presentations. Graduate/Undergraduate Equivalency: RELI 481. Mutually Exclusive: Cannot register for RELI 581 if student has credit for RELI 481.

RELI 580 - RELIGIOUS TOLERANCE IN THE CRUCIBLE OF GLOBALIZATION
Short Title: RELIGIOUS TOLERANCE
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Explores context and consequences of the concept of religious tolerance in the crucible of globalization politics. Background in settlement of Reformation-era religious wars; American attitudes; impetus for tolerance policies and their implementation, 1945 to present (including governmentality and surveillance); results for historically Christian populations, esp. in US and Europe. Graduate/Undergraduate Equivalency: RELI 359. Mutually Exclusive: Cannot register for RELI 580 if student has credit for RELI 359.

RELI 589 - MUTANTS AND MYSTICS: RACE, SEXUALITY, AND THE FUTURE OF THE HUMANITIES
Short Title: MUTANTS AND MYSTICS
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This is a course about the deep historical and conceptual connections between the histories of science fiction, the paranormal, and social transformation around race, gender, sexuality, and the human. We will see that such events tend to erupt in the "gaps" or "fractures" of society and within both personal and historical traumatic contexts in order to both deconstruct the reigning social formations, epistemologies, and ontologies—usually of an objectivizing, colonizing, and scientific nature—but also supply the numerous foundations for the imagining of new humanities, or what queer theorist Ramzi Fawaz calls our emerging "mutany." Graduate/Undergraduate Equivalency: RELI 393. Mutually Exclusive: Cannot register for RELI 589 if student has credit for RELI 393.
RELI 590 - AFRICAN AMERICAN LITERATURE AND RELIGION
Short Title: AF/AM LITERATURE & RELIGION
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: In this seminar students will read and analyze African American literature in order to explore the various ways in which African Americans have understood and articulated the nature and meaning of African American religious experience and practice. Graduate/Undergraduate Equivalency: RELI 490. Mutually Exclusive: Cannot register for RELI 590 if student has credit for RELI 490.

RELI 591 - BASIC COPTIC 1
Short Title: BASIC COPTIC 1
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: A first semester introduction to Coptic grammar and vocabulary. Select a Coptic text, read in its original language, and prepare a commentary or an exegesis on that text (5,000 words). Graduate/Undergraduate Equivalency: RELI 307. Mutually Exclusive: Cannot register for RELI 591 if student has credit for RELI 307.

RELI 592 - BASIC COPTIC 2
Short Title: BASIC COPTIC 2
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): RELI 307
Description: Second semester introduction to Coptic grammar and vocabulary, with selected readings from the Coptic New Testament, nag Hammadi, and monastic literature. Pre-requisite: Introduction to Coptic Language I RELI 592: Select a Coptic text, read in its original language, and prepare a commentary or an exegesis on that text (5,000 words). Graduate/Undergraduate Equivalency: RELI 308. Mutually Exclusive: Cannot register for RELI 592 if student has credit for RELI 308.

RELI 593 - BASIC COPTIC 3
Short Title: BASIC COPTIC 3
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 1-3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Varied readings in original language to include the New Testament, Nag Hammadi, and monastic literature. Pre-requisite: Coptic 1 and 2. RELI 593: Students will select a Coptic text, and in addition to reading it in its original language, prepare a commentary or an exegesis on that text (5,000 words). Graduate/Undergraduate Equivalency: RELI 309. Mutually Exclusive: Cannot register for RELI 593 if student has credit for RELI 309. Repeatable for Credit.

RELI 595 - PENTECOSTALISM
Short Title: PENTECOSTALISM
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Graduate stu and analysis of introduction to Pentecostalism in a global context focusing historical developments, expansion in Europe, North America, Africa, Latin America and Asia. Graduate students will read 4 additional texts one from East, Central, West, and Southern Africa. Graduate students will write weekly reflections on the reading to the braded satisfactory or unsatisfactory. They will do two presentations during the semester. Each student will write a research paper that will be at least 25 double spaced pages. Graduate/Undergraduate Equivalency: RELI 396. Mutually Exclusive: Cannot register for RELI 595 if student has credit for RELI 396.

RELI 596 - THE LEGAL FRAMEWORK OF RELIGIOUS TOLERANCE
Short Title: LEGAL FRMWK RELI TOLERANCE
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: The American Constitution embodies a complex experiment in religious tolerance, including the promise of "free exercise of religion" and the prohibition of laws "respecting an establishment of religion". In this class we will primarily seek a critical understanding of our tolerance-rich legal invocations of religious freedom and address fundamental issues such as how can we distinguish "religious" actions and commitments from other morally important beliefs and activities. RELI 596: Write additional paper and more readings. Mutually Exclusive: Cannot register for RELI 596 if student has credit for RELI 320.

RELI 597 - CONTEMPLATIVE PRACTICE
Short Title: CONTEMPLATIVE PRACTICE
Department: Religion
Grade Mode: Standard Letter
Course Type: Activity Course
Credit Hour: 1
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Literary and artistic creativity, religious experience, and textual interpretation often draw on focused states of consciousness made possible by contemplative practices. The practice will provide historical information about such practices and offer opportunities to participate in techniques ranging from meditation and observing breath to freeform writing and Tai Chi. Graduate students will be expected to write a longer paper and/or to include a segment on contemplative practice in connection with whatever course they are taking. In either case this will involve readings and issues beyond what the undergraduates are responsible for, and which will be developed with each graduate student on an individual basis. Graduate/Undergraduate Equivalency: RELI 399. Mutually Exclusive: Cannot register for RELI 597 if student has credit for RELI 399. Repeatable for Credit.
RELI 600 - GEM RESEARCH FORUM
Short Title: GEM RESEARCH FORUM
Department: Religion
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Research
Credit Hour: 1
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: The GEM Research Forum meets regularly throughout the academic year to share and engage the ongoing research of the GEM faculty and students. The annual capstone experience of the Forum features an invited speaker. Evaluation is based on student participation, research, and presentations. Repeatable for Credit.

RELI 604 - FROM DECOLONIZATION TO GLOBALIZATION
Short Title: FROM DECOLONI TO GLOBALIZATION
Department: Religion
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Taught in English. Novels and films, from North and West Africa, and the immigrant population in France, from 1960 to 2010. Emphasis on the tensions between narratives of political emancipation, modernity, secularism, and religious fundamentalism and mysticism. Extra reading for graduate students in theories of colonialism, postcolonialism, globalization. Graduate/Undergraduate Equivalency: RELI 476. Recommended Prerequisite(s): Any 200 level course or above in English or French, or HUMA 101 or HUMA 102, or a FWIS course. Mutually Exclusive: Cannot register for RELI 604 if student has credit for FREN 324/POLI 324/RELI 476.

RELI 606 - READING WRIGHT: THEISM AND ATHEISM IN THE WRITINGS OF RICHARD WRIGHT
Short Title: READING RICHARD WRIGHT
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Richard Wright's fiction and nonfiction are important resources for understanding the nature of radicalized life in the United States. This course explores his writings for what they tell us about the role of religion in the development of identity and life meaning, and we will juxtapose the role of religion with Wright's commentary on the nature and significance of atheism for countering injustice. RELI 606 requires additional reflection papers, longer research paper and class presentations. Graduate/Undergraduate Equivalency: RELI 369. Mutually Exclusive: Cannot register for RELI 606 if student has credit for RELI 369.

RELI 607 - ARCHIVES OF THE IMPOSSIBLE
Short Title: ARCHIVES OF THE IMPOSSIBLE
Department: Religion
Grade Mode: Standard Letter
Course Type: Research
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: After reading Prof. Kripal's Authors of the Impossible as a basic theoretical structure for the semester, this advanced archival research seminar will involve students engaging original historical documents contained in Rice University's archive on Paranormal Currents in American Culture toward the writing of a graduate or undergraduate thesis. Graduate students will be responsible for a much more extensive engagement with Whitley Strieber's corpus. They will be required to read examples of Stieber's nonfiction (particularly COMMUNION and THE AFTERLIFE REVOLUTION) and fiction, including WOLFEN, THE GRAYS, and THE HYBRIDS. Each of these books bears directly or indirectly on the content of the Anne and Whitley Strieber Collection. Graduate/Undergraduate Equivalency: RELI 407. Mutually Exclusive: Cannot register for RELI 607 if student has credit for RELI 407.

RELI 610 - CONCEPTS IN THE STUDY OF RELIGION
Short Title: CONCEPTS IN RELIGION
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course serves as an advanced introduction to useful concepts and key methodological problems in the discipline of religious studies. The primary aim of the course is to provide a theoretical toolkit for graduate students at the Masters level and advanced undergraduates, especially those contemplating or engaged in an honors or MA thesis in the department of Religion. Graduate work includes extended writing assignments and exam. Graduate/Undergraduate Equivalency: RELI 410. Mutually Exclusive: Cannot register for RELI 610 if student has credit for RELI 405.

RELI 611 - READINGS IN MEDIEVAL LATIN
Short Title: READINGS IN MEDIEVAL LATIN
Department: Religion
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Guided readings in Latin from a range of medieval genres, including medicine, theology, visionary literature. Repeatable for Credit.
RELI 612 - THE PSALMS
Short Title: THE PSALMS
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: A seminar on biblical poetry. The Psalms have constituted a book of study, devotion, and prayer for Jews and Christians for two millennia. This course explores the psalms’ poetic force, liturgical setting in ancient Israel, theology, and enduring significance today. Counts for the Minor in Jewish Studies. RELI 612: Additional readings and longer paper. Graduate/Undergraduate Equivalency: RELI 388. Mutually Exclusive: Cannot register for RELI 612 if student has credit for RELI 388.

RELI 614 - THE RICE/LEIPZIG SEMINAR ON EARLY JUDAISM AND CHRISTIAN ORIGINS
Short Title: THE RICE/LEIPZIG SEMINAR
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Graduate seminar on Early Judaism and Christian Origins taught jointly by Dr. Matthias Henze (Rice) and Dr. Jens Herzer (University of Leipzig, Germany). Participation is by invitation only. Instructor Permission Required.

RELI 615 - SECRET RELIGION
Short Title: SECRET RELIGION
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Examines religious currents that operate in the margins of traditional religion: the gnostic, esoteric and mystical. Covers how these categories were theorized. Explores how they continue to identify contemporary religious currents that are considered transgressive and are rejected by conventional religious authorities. Class is grounded in antiquity and historical method. RELI 615: Write 7,500-10,000 word research paper. Graduate/Undergraduate Equivalency: RELI 415. Mutually Exclusive: Cannot register for RELI 615 if student has credit for RELI 415.

RELI 616 - NEW TESTAMENT / CHRISTIAN ORIGINS
Short Title: NEW TESTAMENT/CHRISTIAN ORIG
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: How did Christianity emerge as a new religious movement in the Roman Empire? Covers the history and literature of the first generations of Christians, focusing on Post-Temple developments, issues of authority and leadership, rise of regional forms of Christianity, and formation of distinct Christian identities. Graduate requirements: additional readings and presentations. Graduate/Undergraduate Equivalency: RELI 416. Mutually Exclusive: Cannot register for RELI 616 if student has credit for RELI 416.

RELI 619 - MYSTERY RELIGIONS
Short Title: MYSTERY RELIGIONS
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Examines religious currents that operate in the margins of traditional religion: the gnostic, esoteric and mystical. Covers how these categories were theorized. Explores how they continue to identify contemporary religious currents that are considered transgressive and are rejected by conventional religious authorities. Class is grounded in antiquity and historical method. RELI 615: Write 7,500-10,000 word research paper. Graduate/Undergraduate Equivalency: RELI 415. Mutually Exclusive: Cannot register for RELI 619 if student has credit for RELI 419/RELI 491.

RELI 620 - ART OF INTERPRETING THE BIBLE
Short Title: ART OF INTERPRETING THE BIBLE
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Explores issues of history, historiography, and hermeneutics within the context of Biblical Studies. While traditional forms of Biblical criticism are covered, the bulk of the course focuses on intertextuality, reception history, sociological methods, feminist views, and cognitive approaches. Graduate students (7500 word paper, seminar leadership, and oral presentation); Undergraduate students (5000 word paper and oral presentation). Graduate/Undergraduate Equivalency: RELI 420.

RELI 644 - VISIONS AND VISIONARY PRACTICES: MEDIEVAL TO MODERN
Short Title: VISIONS & VISIONARY PRACTICES
Department: Religion
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course examines accounts of visions, comparing medieval and modern visionary techniques and processes and relating visionary writings to cultural and personal contexts. Includes some Christian theology along with other theoretical frameworks, but emphasis on praxis. Graduate work includes 10 additional readings (200 pp), double the pages to be written, 30 more minutes presentation time. Graduate/Undergraduate Equivalency: RELI 444. Mutually Exclusive: Cannot register for RELI 644 if student has credit for RELI 444.

RELI 677 - SPECIAL TOPICS
Short Title: SPECIAL TOPICS
Department: Religion
Grade Mode: Standard Letter
Course Type: Internship/Practicum, Laboratory, Lecture, Seminar, Independent Study, Lecture/Laboratory
Credit Hours: 1-4
Restrictions: Enrollment is limited to Graduate or Visiting Graduate level students.
Course Level: Graduate
Description: Topics and credit hours vary each semester. Contact department for current semester's topic(s). Repeatable for Credit.
Certificate in Gnosticism, Esotericism and Mysticism

Program Learning Outcomes for the Certificate in Gnosticism, Esotericism and Mysticism

Upon completing the certificate in Gnosticism, Esotericism and Mysticism, students will be able to:

1. Understand and interpret gnostic, esoteric, and mystic traditions by examining the plurality of religious voices and expressions, including currents that have been marginalized, neglected, repressed, and censored in a variety of sociological, psychological, philosophical, and political ways.

Requirements for the Certificate in Gnosticism, Esotericism and Mysticism

The certificate in Gnosticism, Esotericism, and Mysticism is a graduate certificate. For general university requirements, please see Graduate Certificates (p. 53). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 60). Students pursuing the certificate in Gnosticism, Esotericism and Mysticism must complete:

- A minimum of 6 courses (14 credit hours) of graduate-level study (graduate semester credit hours, coursework at the 500-level or above) to satisfy certificate requirements.
- All course requirements met with Rice University coursework (transfer credit not permitted). For additional program guidelines regarding transfer credit, see the Policies (p. 1104) tab.
- A minimum overall GPA of 2.67 or higher in all Rice coursework.
- A minimum program GPA of 2.67 or higher in all Rice coursework that satisfies requirements for the graduate certificate with a minimum grade of B- (2.67 grade points) in each course.

This certificate is not a freestanding degree program; in addition to fulfilling the certificate requirements outlined below, candidates will be required to complete successfully the degree program to which they have been admitted in order to receive this certificate. Upon completion, the certificate is awarded at the same time as the conferral of the student’s Rice degree, along with a formal notation on their academic transcript.

The courses listed below satisfy the requirements for this certificate. In certain instances, courses not on this official list may be substituted upon approval of the certificate’s academic advisor, or where applicable, the Program Director. Course substitutions must be formally applied and entered into Degree Works by the certificate’s Official Certifier (https://registrar.rice.edu/facstaff/degeworks/officialcertifier/). Additionally, these must be approved by the Office of Graduate and Postdoctoral Studies. Students and their academic advisors should identify and clearly document the courses to be taken.

Footnotes and Additional Information

1 Students must complete 2 consecutive Fall and Spring semesters of RELI 600 (1 credit hour each semester for 2 credit hours total). This forum meets monthly throughout the semester. RELI 600 is taken for a Satisfactory/Unsatisfactory grade and must be completed with a Satisfactory grade. As a S/U course, it does not apply to the requirement of a minimum grade of B- (2.67 grade points) in each required course.

Program Restrictions and Exclusions

Students pursuing the certificate in Gnosticism, Esotericism and Mysticism should be aware of the following program restriction:

• Graduate students may declare their intent to pursue a university certificate only after they have first been admitted into a graduate-level Rice degree-granting program.

Transfer Credit

For Rice University's policy regarding transfer credit, see Transfer Credit (p. 70). Some departments and programs have additional restrictions on transfer credit. Students are encouraged to meet with their academic program's advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines

Students pursuing the certificate in Gnosticism, Esotericism and Mysticism should be aware of the following departmental transfer credit guidelines:

• Transfer credit coursework cannot be applied or used to meet any of the program's course requirements.

Additional Information

For additional information, please see the Gnosticism, Esotericism and Mysticism's page on the Department of Religion website: https://reli.rice.edu/gem-certificate (https://reli.rice.edu/gem-certificate/)

Greek (GREE)

GREE 101 - ELEMENTARY GREEK I
Short Title: ELEMENTARY GREEK I
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Reading-based introduction to ancient Greek. Readings include passages from classical and New Testament authors. Explanation and analysis of basic grammar, including comparison with English grammar. Besides translating Greek to English (and vice versa), we will consider the language and literature in their historical context, and practice reading ancient Greek aloud. Effective May 15, 2019, this course does not carry D1 credit.

GREE 102 - ELEMENTARY GREEK II
Short Title: ELEMENTARY GREEK II
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Continuation of GREE 101. Effective May 15, 2019, this course does not carry D1 credit.

GREE 201 - INTERMEDIATE GREEK I: PROSE
Short Title: INTERMEDIATE GREEK I: PROSE
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Review of forms and syntax. Readings from Plato.

GREE 202 - INTERMEDIATE GREEK: EURIPIDES MEDEA/BIBLICAL KOINE
Short Title: INTERMEDIATE GREEK
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Section 1 reads Euripides or Sophocles. Section 2 reads excerpts from New Testament, Septuagint, and Early Christian writers. Includes review of forms and syntax.

GREE 238 - SPECIAL TOPICS
Short Title: SPECIAL TOPICS
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Internship/Practicum, Laboratory, Lecture, Seminar, Independent Study, Lecture/Laboratory
Credit Hours: 1-4
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Topics and credit hours vary each semester. Contact department for current semester's topic(s). Repeatable for Credit.
GREE 302 - HOMER
Short Title: HOMER
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Open to third and fourth year undergraduates. An opportunity to read the iliad/Odyssey in the original Greek. Includes review of forms and syntax as well as discussion of Homeric dialect, meter, poetics, and oral tradition. May be repeated (once) for credit. Graduate/Undergraduate Equivalency: GREE 502. Mutually Exclusive: Cannot register for GREE 302 if student has credit for GREE 502. Repeatable for Credit.

GREE 305 - PLATO, ARISTOTLE, OR NEW TESTAMENT GREEK
Short Title: PLATO, ARISTOTLE, NEW TSTMNT GRK
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Greek prose for third or fourth year undergraduates. Choice of texts flexible depending on the needs and interests of those enrolled. Includes review of forms and syntax. Continuation of GREE 301, with additional texts. May be repeated for credit. Graduate/Undergraduate Equivalency: GREE 505. Mutually Exclusive: Cannot register for GREE 305 if student has credit for GREE 505. Repeatable for Credit.

GREE 306 - ADVANCED GREEK: POETRY
Short Title: ADVANCED GREEK: POETRY
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course is intended for students with at least two prior years of Greek. The course will focus on Greek poetic texts, with an emphasis on fifth- and fourth-century authors. The course will emphasize vocabulary, grammar, and historical contexts. Texts change each semester, repeatable for credit. Repeatable for Credit.

GREE 307 - ADVANCED GREEK: PROSE
Short Title: ADVANCED GREEK: PROSE
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course is intended for students with at least two prior years of Greek. The course will focus on prose texts, with an emphasis on fifth- and fourth-century authors. The course will emphasize vocabulary, grammar, and historical contexts. Texts change each semester, repeatable for credit. Repeatable for Credit.

GREE 477 - SPECIAL TOPICS
Short Title: SPECIAL TOPICS
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Internship/Practicum, Lecture, Seminar, Laboratory
Credit Hours: 1-4
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Topics and credit hours vary each semester. Contact department for current semester's topic(s). Repeatable for Credit.

GREE 492 - DIRECTED READING
Short Title: DIRECTED READING
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Independent Study
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Independent work for qualified juniors and seniors in genres or authors not presented in other courses. Effective May 15, 2019, this course does not carry D1 credit. Instructor Permission Required. Repeatable for Credit.

GREE 502 - HOMER
Short Title: HOMER
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Open to graduate students. Read the iliad/Odyssey in the original Greek. Review of forms and syntax. Discussion of Homeric dialect, meter, poetics, and oral tradition. Requirement beyond GREE 302: oral presentation analyzing diction and poetic formulas in a specific passage. Repeatable (once) for credit. Graduate/Undergraduate Equivalency: GREE 302. Mutually Exclusive: Cannot register for GREE 502 if student has credit for GREE 302. Repeatable for Credit.
GREE 503 - DIRECTED READING FOR GRADUATE STUDENTS
Short Title: DIRECTED READING GRAD STUDENTS
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Independent Study
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Graduate level, independent reading course. Topics vary. Repeatable for Credit.

GREE 504 - DIRECTED READING FOR GRADUATE STUDENTS
Short Title: GR STUDENTS DIRECTED READING
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Independent Study
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Graduate level, independent reading course. Topics vary. Offered in the spring semester. Repeatable for Credit.

GREE 505 - PLATO, ARISTOTLE, OR NEW TESTAMENT GREEK
Short Title: PLATO,ARISTOTLE,NEW TSTMNT GRK
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Greek prose for graduate students in related disciplines. Choice of texts flexible depending on the needs and interests of those enrolled. Includes review of forms and syntax. Continuation of GREE 501, with additional texts. Additional work required beyond GREE 305, in the form of an oral presentation analyzing the language and style of one or more text in terms of its historical, social, and generic context. May be repeated for credit. Graduate/Undergraduate Equivalency: GREE 305. Mutually Exclusive: Cannot register for GREE 505 if student has credit for GREE 305. Repeatable for Credit.

GREE 677 - SPECIAL TOPICS
Short Title: SPECIAL TOPICS
Department: Modrn & Classicl Lit & Culture
Grade Mode: Standard Letter
Course Type: Internship/Practicum, Laboratory, Lecture, Seminar, Independent Study, Lecture/Laboratory
Credit Hours: 1-4
Restrictions: Enrollment is limited to Graduate or Visiting Graduate level students.
Course Level: Graduate
Description: Topics and credit hours vary each semester. Contact department for current semester's topic(s). Repeatable for Credit.

Description and Code Legend

Note: Internally, the university uses the following descriptions, codes, and abbreviations for this academic program. The following is a quick reference:

Course Catalog/Schedule
- Course offerings/subject code for Greek: GREE

Department Description and Code
- Modern and Classical Literatures and Cultures: MCLC

Undergraduate Minor Description and Code
- Minor in Greek Language and Literature: GRLL

CIP Code and Description
- GRLL Minor: CIP Code/Title: 16.1202 - Ancient/Classical Greek Language and Literature

Minor in Greek Language and Literature

Program Learning Outcomes for the Minor in Greek Language and Literature
Upon completing the minor in Greek Language and Literature, students will be able to:
1. Understand texts, artifacts, institutions, events, personalities, and places that are integral to ancient Greek culture.
2. Situate those texts, artifacts, institutions, events, personalities, and places in their historical and cultural contexts.
3. Relate classical civilization to the world around them, and appreciate the profound influence classical civilization has on later Western civilization.

Requirements for the Minor in Greek Language and Literature
Students pursuing the minor in Greek Language and Literature must complete:
- A minimum of 6 courses (18 credit hours) to satisfy minor requirements.
- A minimum of 2 courses (6 credit hours) taken at the 300-level or above.
- A maximum of 2 courses (6 credit hours) from study abroad or transfer credit. For additional departmental guidelines regarding transfer credit, see the Policies (p. 1108) tab.

The courses listed below satisfy the requirements for this minor. In certain instances, courses not on this official list may be substituted upon approval of the minor’s academic advisor, or where applicable, the Program Director. (Course substitutions must be formally applied and entered into Degree Works by the minor's Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/)). Students and their academic advisors should identify and clearly document the courses to be taken.

Select 3 elective courses from departmental Greek (GREE) course offerings at any level
Select 2 elective courses from departmental Greek (GREE) course offerings at the 300-level and above

Total Credit Hours 18

Footnotes and Additional Information

1 CLAS 336 Introduction to Indo-European may substitute for any of the Elective Requirements.

Policies for the Minor in Greek Language and Literature

Students pursuing the minor in Greek Language and Literature should be aware of the following program restrictions:

- As noted in Majors, Minors, and Certificates (p. 17), i.) students may declare their intent to pursue a minor only after they have first declared a major, and ii.) students may not major and minor in the same subject.
- Students pursuing the major in Classical Studies may not additionally declare the minor in Greek Language and Literature.
- Students pursuing the minor in Greek Language and Literature may not additionally declare the minor in Classical Civilizations.
- Students pursuing the minor in Greek Language and Literature may not additionally declare the minor in Latin Language and Literature.

Transfer Credit

For Rice University's policy regarding transfer credit, see Transfer Credit (p. 37). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines

Students pursuing the minor in Greek Language and Literature should be aware of the following departmental transfer credit guidelines.

- No more than 2 courses (6 credit hours) of transfer credit from U.S. or international universities of similar standing as Rice may apply towards the minor.
- Requests for transfer credit will be considered by the departmental Director of Undergraduate Studies (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

Distribution Credit Information

The determination of distribution credit eligibility is done initially as part of the new course creation process (https://registrar.rice.edu/facstaff/courseprocess/). Additionally, as part of an annual roll call (https://registrar.rice.edu/facstaff/distribution_credit/) coordinated each Spring by the Office of the Registrar, course distribution credit eligibility is routinely reviewed and reaffirmed by the Dean's Offices of each of the academic schools.

Faculty and leadership in the academic schools are responsible for ensuring that the courses identified as distribution-credit-eligible meet the criteria as set in the General Announcements (p. 29). Students are responsible for ensuring that they meet graduation requirements (p. 29) by completing coursework designated as distribution-credit-eligible at the time of course registration.

Distribution courses from the Department of Modern and Classical Literatures and Cultures are broad in theme and scope and provide students with a substantial inquiry into literature, art, media, history, thought, and/or politics, including specific national traditions, linguistic contexts, and historical periods. Such courses involve a broad and often interdisciplinary spectrum of knowledge, providing students with the tools for thinking critically about the formation of modern culture, its colonial past, and its national and linguistic traditions from antiquity to the present.

Additional Information

For additional information, please see the Modern and Classical Literatures and Cultures website: https://cultures.rice.edu (https://cultures.rice.edu/)

Opportunities for the Minor in Greek Language and Literature

Academic Honors

The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 51) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 51). Some departments have department-specific Honors awards or designations.

Additional Information

For additional information, please see the Modern and Classical Literatures and Cultures website: https://cultures.rice.edu (https://cultures.rice.edu/)

See https://humanities.rice.edu/student-life (https://humanities.rice.edu/student-life/) for tables of fellowships, prizes, and internships/practica that may be relevant to this minor.

Department Chair
hperkins@rice.edu

Health Sciences is a major offered by the Kinesiology (KINE) Department. The goal of the health sciences major is to provide students...
with a fundamental background in health promotion and disease prevention. This background will enable them to understand the role that health promotion plays in society and the mechanisms that affect public and community health, while also considering the complexities of maintaining an optimal level of personal health. The health sciences major is viewed as an excellent option for undergraduate students who are preparing to enter graduate school in public health, health promotion, and health education, as well as other health-related graduate or professional programs, such as medicine or dentistry.

**Emergency Med Studies/Practice (EMSP)**

**EMSP 238 - SPECIAL TOPICS**

- **Short Title:** SPECIAL TOPICS
- **Department:** Kinesiology
- **Grade Mode:** Standard Letter
- **Course Type:** Internship/Practicum, Laboratory, Lecture, Seminar, Independent Study
- **Credit Hours:** 1-4
- **Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
- **Course Level:** Undergraduate Lower-Level
- **Description:** Topics and credit hours vary each semester. Contact department for current semester’s topic(s). Repeatable for Credit.

**EMSP 281 - EMT-B: INTRODUCTION TO EMERGENCY CARE**

- **Short Title:** EMT-B INTRO TO EMERGENCY CARE
- **Department:** Kinesiology
- **Grade Mode:** Standard Letter
- **Course Type:** Laboratory, Lecture
- **Credit Hours:** 3
- **Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
- **Course Level:** Undergraduate Lower-Level
- **Description:** This course is a state-sanctioned EMT-B Certification course which includes practical and didactic exploration into pre-hospital care. This class culminates with a national certification to practice pre-hospital care on the EMT-B level. This course will discuss anatomy, body systems, and the biochemical basis of emergency intervention in addition to practical application of EMT-B skills. Formerly HEAL 308 and BIOS 281 and NSCI 281. Instructor Permission Required.

**EMSP 282 - ADVANCED EMT**

- **Short Title:** ADVANCED EMT
- **Department:** Kinesiology
- **Grade Mode:** Standard Letter
- **Course Type:** Lecture/Laboratory
- **Credit Hours:** 3
- **Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
- **Course Level:** Undergraduate Lower-Level
- **Description:** Continuation of EMSP 281, Emergency Care. Formerly BIOS 282, HEAL 310, and NSCI 282. Instructor Permission Required.
EMSP 375 - EMS INCHARGE LEADERSHIP COURSE
Short Title: EMS INCHARGE LEADERSHIP COURSE
Department: Kinesiology
Grade Mode: Standard Letter
Course Type: Independent Study
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Students preparing to hold leadership positions in EMS will expand their competency in emergency services, including emergency management and incident response, in addition to improving patient care and leadership skills. Participants will achieve certification in national emergency services courses, and will work as a team to manage a major event. Formerly UNIV 275. Instructor Permission Required.

EMSP 477 - SPECIAL TOPICS
Short Title: SPECIAL TOPICS
Department: Kinesiology
Grade Mode: Standard Letter
Course Type: Seminar, Lecture, Laboratory, Internship/Practicum
Credit Hours: 1-4
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Topics and credit hours vary each semester. Contact department for current semester's topic(s). Repeatable for Credit.

EMSP 491 - EMERGENCY MEDICAL SERVICES RESEARCH COURSE
Short Title: EMS RESEARCH COURSE
Department: Kinesiology
Grade Mode: Standard Letter
Course Type: Research
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: EMSP 491 is an independent program of study for students interested in research in prehospital medicine. All students will complete a research project under the supervision of a physician faculty member from Baylor College of Medicine. Projects may vary based on each student's interest and faculty projects. Formerly NSCI 491. Instructor Permission Required. Repeatable for Credit.

EMSP 492 - EMERGENCY MEDICAL SERVICES RESEARCH COURSE
Short Title: EMS RESEARCH COURSE
Department: Kinesiology
Grade Mode: Standard Letter
Course Type: Research
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: EMSP 492 is an independent program of study for students interested in research in prehospital medicine. All students will complete a research project under the supervision of a physician faculty member from Baylor College of Medicine. Projects may vary based on each student's interest and faculty projects. Formerly NSCI 492. Instructor Permission Required. Repeatable for Credit.

EMSP 499 - EMT TEACHING PRACTICUM
Short Title: EMT TEACHING PRACTICUM
Department: Kinesiology
Grade Mode: Standard Letter
Course Type: Internship/Practicum
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course is open to an undergraduate student who serves as an instructor for the Emergency Medical Technician course. As an instructor, he/she would need to participate in course planning, course assignments, and student evaluation. They would also be expected to present course material through preparing and delivering lectures, presentations, and practical skills instructions. Grade would be assigned based on student self-evaluation, class evaluation, and primary instructor assessment. Formerly NSCI 289. Instructor Permission Required. Repeatable for Credit.

Health Sciences (HEAL)

HEAL 103 - NUTRITION
Short Title: NUTRITION
Department: Kinesiology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Concepts underlying the science of nutrition: food composition, calories and needs for energy, special nutrients, and nutritional deficiencies.

HEAL 119 - INTRODUCTION TO HEALTH AND WELLNESS
Short Title: INTRO TO HEALTH & WELLNESS
Department: Kinesiology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment limited to students with a class of Freshman. Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Designed to help students develop a greater understanding and appreciation of health and well being, as it relates to themselves and others around them, and for students to apply health and wellness knowledge in their personal life to improve their health.
HEAL 132 - MEDICAL TERMINOLOGY
Short Title: MEDICAL TERMINOLOGY
Department: Kinesiology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.

Description: This course introduces the student interested in medical and health professions to a large vocabulary of medical language which develops skills in understanding and remembering new words. It describes word origins, basic terms in anatomy and terms pertaining to each body system as well as pharmacology and medical equipment, and many frequently used medical terms, abbreviations and symbols.

HEAL 208 - CHEMICAL ALTERATIONS OF BEHAVIOR
Short Title: CHEM ALTERATIONS OF BEHAVIOR
Department: Kinesiology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.

Description: Examination of social, cultural psychological, physiological causes and effects of drug use and abuse. Individual, family, and community factors related to prevention and treatment will be addressed.

HEAL 212 - CONSUMER HEALTH AND THE MEDIA
Short Title: CONSUMER HEALTH AND THE MEDIA
Department: Kinesiology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.

Description: Study of factual information and guidelines that enable consumers to act intelligently in selecting health products and services, with emphasis on the economic aspects of health.

HEAL 222 - PRINCIPLES OF PUBLIC AND COMMUNITY HEALTH
Short Title: PRIN PUBLIC&COMMHEALTH
Department: Kinesiology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment limited to students with a class of Freshman or Sophomore. Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.

Description: Principles of Public & Community Health examines aspects of the community that relate to health including health issues within community subgroups; identification and analysis of community health programs; organizational patterns and functions of voluntary and governmental health agencies and coordination of community health programs.

HEAL 228 - SPECIALTOPICS
Short Title: SPECIAL TOPICS
Department: Kinesiology
Grade Mode: Standard Letter
Course Type: Internship/Practicum, Laboratory, Lecture, Seminar, Independent Study
Credit Hours: 1-4
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.

Description: Topics and credit hours vary each semester. Contact department for current semester’s topic(s). Repeatable for Credit.

HEAL 306 - HUMAN SEXUALITY
Short Title: HUMAN SEXUALITY
Department: Kinesiology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.

Description: Designed to explore the physiological, psychological, and sociological parameters of human sexuality, while providing accurate information and helping students develop healthy attitudes toward sexuality. Cross-list: SWGS 306.

HEAL 313 - FOUNDATIONS OF HEALTH PROMOTION AND EDUCATION
Short Title: FOUNDATIONS HEALTH PROMO&EDUC
Department: Kinesiology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to students with a major in Health Sciences. Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.

Description: Designed to introduce students to the discipline of health education and the practice of health promotion. The course explores critical issues in the field of health promotion, accountability and professional preparation, professional ethics, credentialing and the changing technology in the field. Intended for Health Sciences majors only.

HEAL 350 - UNDERSTANDING CANCER
Short Title: UNDERSTANDING CANCER
Department: Kinesiology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.

Description: Examination of cancer from a biological, psychological and sociological perspective with emphasis on cancer epidemiology, prevention, and early detection.
HEAL 360 - VIOLENCE IN AMERICA: A PUBLIC HEALTH PERSPECTIVE  
Short Title: VIOLENCE IN AMERICA  
Department: Kinesiology  
Grade Mode: Standard Letter  
Course Type: Seminar  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Description: This course presents an overview of issues concerning violence using a public health perspective. Information will be presented and discussed concerning several domains pertinent to violence, including family violence, intimate partner violence, community violence, and workplace harassment.

HEAL 375 - THE BUILT ENVIRONMENT AND PUBLIC HEALTH  
Short Title: ENVIRONMENT AND PUBLIC HEALTH  
Department: Kinesiology  
Grade Mode: Standard Letter  
Course Type: Seminar  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Description: This interdisciplinary course reviews topics involved in characterizing the built environment and its impact on health. The course encompasses economic, environmental, & social factor such as (a) community design; (b) public space governance, planning & management; (c) broader functions such as accessibility to healthy food & jobs. Solutions to improve population health must include environmental & other determinants of health.

HEAL 379 - INTERNSHIP IN HEALTH SCIENCES  
Short Title: INTERNSHIP IN HEALTH SCIENCES  
Department: Kinesiology  
Grade Mode: Standard Letter  
Course Type: Internship/Practicum  
Credit Hours: 1-3  
Restrictions: Enrollment limited to students with a class of Junior or Senior. Enrollment is limited to students with a major in Health Sciences.  
Course Level: Undergraduate Upper-Level  
Description: Internship experience for upper-level Health Sciences majors. Department Permission Required. Repeatable for Credit.

HEAL 380 - DISPARITIES IN HEALTH IN AMERICA  
Short Title: DISPARITIES IN HEALTH IN AMER  
Department: Kinesiology  
Grade Mode: Standard Letter  
Course Type: Lecture  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Description: This course explores social, behavioral, and medical determinants (e.g., race and ethnicity, socioeconomic status, and sexual orientation) that influence health and health disparities within populations, as well as strategies to reduce and eliminate those disparities. The course incorporates perspectives from various disciplines, including public health, psychology, and medicine. Graduate/Undergraduate Equivalency: HEAL 580. Mutually Exclusive: Cannot register for HEAL 380 if student has credit for HEAL 580.

HEAL 407 - EPIDEMIOLOGY  
Short Title: EPIDEMIOLOGY  
Department: Kinesiology  
Grade Mode: Standard Letter  
Course Type: Lecture  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Description: Study of communicable, noncommunicable, and behavioral diseases with emphasis on the disease process and basic epidemiologic methods. Graduate/Undergraduate Equivalency: HEAL 507. Mutually Exclusive: Cannot register for HEAL 407 if student has credit for HEAL 507.

HEAL 412 - HEALTH CARE DELIVERY & POLICY IN THE UNITED STATES  
Short Title: HEALTH CARE DELIVERY & POLICY  
Department: Kinesiology  
Grade Mode: Standard Letter  
Course Type: Lecture  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Description: An in-depth look our current health delivery system intended to introduce students to the historic development, organization and delivery of health care; the health care delivery system; current payment and reimbursement systems; health insurance options; the functions of health care providers; and organizational patterns of health care facilities. Recommended Prerequisite(s): HEAL 222

HEAL 422 - THEORIES AND MODELS OF HEALTH BEHAVIOR  
Short Title: THEORY&MODELS HLTH BEHAVIOR  
Department: Kinesiology  
Grade Mode: Standard Letter  
Course Type: Seminar  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Prerequisite(s): HEAL 222  
Description: Theories & Models of Health Behavior is designed for the student interested in public and community health or health psychology. This course examines the current theories and models of health behavior and their application to the field of health promotion/health education. Graduate/Undergraduate Equivalency: HEAL 522. Mutually Exclusive: Cannot register for HEAL 422 if student has credit for HEAL 522.
HEAL 460 - PLANNING AND EVALUATION OF HEALTH PROMOTION AND EDUCATION
Short Title: PLAN/EVAL: HEALTH PROGRAMS
Department: Kinesiology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment limited to students with a class of Junior or Senior. Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): KINE 319 and KINE 440
Description: This class introduces mental health, substance use, and recovery from a public health perspective. Social, biological, and behavioral science approaches to addressing mental health challenges are examined. Course work includes readings and lectures and an experiential learning activity to provide a real-world perspective on substance use and mental health. Spring 2021 Topic: Introduction to Public Mental Health Repeatable for Credit.

HEAL 477 - SPECIAL TOPICS
Short Title: SPECIAL TOPICS
Department: Kinesiology
Grade Mode: Standard Letter
Course Type: Internship/Practicum, Seminar, Lecture, Laboratory
Credit Hours: 1-4
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Topics and credit hours vary each semester. Contact department for current semester’s topic(s). Repeatable for Credit.

HEAL 499 - TEACHING PRACTICUM IN HEALTH SCIENCES
Short Title: TEACH PRACTICUM HEALTH SCIENCE
Department: Kinesiology
Grade Mode: Standard Letter
Course Type: Internship/Practicum
Credit Hours: 1-3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Students will assist in conducting a course in which they have previously excelled. The student will learn techniques in course management, instruction, and evaluation. Department Permission Required. Recommended prerequisite(s): Junior or Senior standing, declared major in Health Sciences, and at least an “A-” in the course serving as the practicum. Repeatable for Credit.

HEAL 498 - SPECIAL TOPICS IN HEALTH SCIENCES
Short Title: SPECIAL TOPICS
Department: Kinesiology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This class introduces mental health, substance use, and recovery from a public health perspective. Social, biological, and behavioral science approaches to addressing mental health challenges are examined. Course work includes readings and lectures and an experiential learning activity to provide a real-world perspective on substance use and mental health. Spring 2021 Topic: Introduction to Public Mental Health Repeatable for Credit.

HEAL 495 - INDEPENDENT RESEARCH IN HEALTH SCIENCES
Short Title: INDEPENDENT RESEARCH
Department: Kinesiology
Grade Mode: Standard Letter
Course Type: Research
Credit Hours: 1-3
Restrictions: Enrollment limited to students with a class of Junior or Senior. Enrollment is limited to students with a major in Health Sciences. Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): KINE 319 and KINE 440
Description: To provide the student with an opportunity to participate in a research project under the supervision of a Rice Kinesiology faculty member and/or an external researcher. Department Permission Required. Repeatable for Credit.
Course URL: kinesiology.rice.edu (http://kinesiology.rice.edu)

HEAL 522 - THEORIES AND MODELS OF HEALTH BEHAVIOR
Short Title: THEORY&MODELS HLTH BEHAVIOR
Department: Kinesiology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Theories & Models of Health Behavior is designed for the student interested in public and community health or health psychology. This course examines the current theories and models of health behavior and their application to the field of health promotion/health education. Graduate level students only. Instructor Permission Required. Graduate/Undergraduate Equivalency: HEAL 422. Mutually Exclusive: Cannot register for HEAL 522 if student has credit for HEAL 422.
HEAL 560 - PLANNING AND EVALUATION OF HEALTH PROMOTION AND EDUCATION  
**Short Title:** PLAN/EVAL: HEALTH PROGRAMS  
**Department:** Kinesiology  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** Planning & Evaluation of Health Promotion provides the student with the technical skills for planning and evaluation of health promotion, health education, and disease prevention programs including collection and analysis of both qualitative and quantitative data. Graduate level students only. Instructor Permission Required. Graduate/Undergraduate Equivalency: HEAL 460. Mutually Exclusive: Cannot register for HEAL 560 if student has credit for HEAL 460.

HEAL 580 - DISPARITIES IN HEALTH IN AMERICA  
**Short Title:** DISPARITIES IN HEALTH IN AMER  
**Department:** Kinesiology  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** This course explores social, behavioral, and medical determinants (e.g., race and ethnicity, socioeconomic status, and sexual orientation) that influence health and health disparities within populations, as well as strategies to reduce and eliminate those disparities. The course incorporates perspectives from various disciplines, including public health, psychology, and medicine. Graduate level students only. Instructor Permission Required. Graduate/Undergraduate Equivalency: HEAL 380. Mutually Exclusive: Cannot register for HEAL 580 if student has credit for HEAL 380.

HEAL 677 - SPECIAL TOPICS  
**Short Title:** SPECIAL TOPICS  
**Department:** Kinesiology  
**Grade Mode:** Standard Letter  
**Course Type:** Internship/Practicum, Laboratory, Lecture, Seminar, Independent Study  
**Credit Hours:** 1-4  
**Restrictions:** Enrollment is limited to Graduate or Visiting Graduate level students.  
**Course Level:** Graduate  
**Description:** Topics and credit hours vary each semester. Contact department for current semester's topic(s). Repeatable for Credit.

Kinesiology (KINE)  
KINE 120 - SCIENTIFIC FOUNDATIONS OF KINESIOLOGY  
**Short Title:** FOUNDATIONS OF KINESIOLOGY  
**Department:** Kinesiology  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
**Course Level:** Undergraduate Lower-Level  
**Description:** An introduction to studies in the areas of human movement: anatomy and physiology, exercise physiology, biomechanics, motor learning and control, and psychological aspects of sport and exercise.

KINE 238 - SPECIAL TOPICS  
**Short Title:** SPECIAL TOPICS  
**Department:** Kinesiology  
**Grade Mode:** Standard Letter  
**Course Type:** Internship/Practicum, Laboratory, Lecture, Seminar, Independent Study  
**Credit Hours:** 1-4  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
**Course Level:** Undergraduate Lower-Level  
**Description:** Topics and credit hours vary each semester. Contact department for current semester's topic(s). Repeatable for Credit.

KINE 300 - HUMAN ANATOMY WITH LAB  
**Short Title:** HUMAN ANATOMY WITH LAB  
**Department:** Kinesiology  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture/Laboratory  
**Credit Hours:** 4  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
**Course Level:** Undergraduate Upper-Level  
**Description:** An introduction to normal human anatomy structure and function. All major body systems will be examined in both lecture and laboratory format using a variety of physical and virtual models.

KINE 301 - HUMAN PHYSIOLOGY  
**Short Title:** HUMAN PHYSIOLOGY  
**Department:** Kinesiology  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Distribution Group:** Distribution Group III  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
**Course Level:** Undergraduate Upper-Level  
**Description:** This course will address the fundamental principles of human physiology at the cell, tissue, organ, organ system, and organism levels. Emphasis will be placed on mechanisms of function and homeostasis as achieved through the coordinated function of homeostatic control systems.

KINE 302 - BIOMECHANICS  
**Short Title:** BIOMECHANICS  
**Department:** Kinesiology  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
**Course Level:** Undergraduate Upper-Level  
**Prerequisite(s):** KINE 300  
**Description:** An introduction to the discipline of mechanics as it applies to biological systems. Primary emphasis is placed on humans and other vertebrate species. Topics covered include the kinematics and kinetics of movement, material and functional properties of musculoskeletal tissues and the integration of musculoskeletal function from molecules and cells to whole animals. Recommended prerequisite(s): KINE 321.

</table>
KINE 403 - SPORT NUTRITION
Short Title: SPORTS NUTRITION
Department: Kinesiology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): KINE 311
Description: This course will address current scientific knowledge about common macronutrients, micronutrients, and supplements, and how they may enhance athletic performance. The course will also focus on the role of nutritional timing, volume, and periodization to achieve practical results in endurance, strength, power and speed. Recommended Prerequisite(s): KINE 321.

KINE 410 - CASE STUDIES IN HUMAN PERFORMANCE
Short Title: CASE STUDIES HUMAN PERFORMANCE
Department: Kinesiology
Grade Mode: Standard Letter
Course Type: Research
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: An advanced, multidisciplinary consideration of how humans perform. Class work will center around problem solving using a case study methodology.

KINE 412 - MOTOR CONTROL
Short Title: MOTOR CONTROL
Department: Kinesiology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): KINE 311
Description: Exploration of the neurophysiological, behavioral, and biomechanical aspects of human movement and development.

KINE 415 - PSYCHOLOGICAL ASPECTS OF SPORTS INJURY & REHABILITATION
Short Title: PSYCHOLOGY OF SPORT INJURY
Department: Kinesiology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course examines the psychological factors involved in sport-related injuries and the rehabilitation process. Topics include personal and situational factors influencing injury and recovery, adherence to rehabilitation programs, social support, returning to play after injury, and the application of psychological interventions to optimize the recovery process. Recommended Prerequisite(s): KINE 310

KINE 419 - MOVEMENT DISORDERS
Short Title: MOVEMENT DISORDERS
Department: Kinesiology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): KINE 300 and KINE 301 and KINE 311
Description: This course offers an in-depth look into selected developmental, degenerative, and hyperkinetic movement disorders resulting in abnormal muscle tone and/or motor control. Multiple aspects of each disorder (presentation, treatment, and progression) will be considered through a variety of sources.

KINE 421 - ADVANCED TOPICS IN EXERCISE PHYSIOLOGY AND PREVENTIVE MEDICINE
Short Title: ADV TOPICS IN EX PHYS & MED
Department: Kinesiology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): KINE 321 and KINE 323
Description: This course is a seminar style course that examines acute and chronic effects of exercise stimuli on physiological adaptation as relevant to health, disease and human performance. Topics will vary depending on current issues in exercise physiology. Examples include metabolism, fatigue, diabetes, genetics, muscular dystrophy, orthopedics, cancer and cardiovascular disease. The course is intended for those with a background in biology and/or physiology and interest in exercise and health.

KINE 430 - SPORTS INJURY: EVALUATION, MANAGEMENT, AND TREATMENT
Short Title: SPORTS INJURY
Department: Kinesiology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): KINE 300
Description: Upper level course designed to provide students with practical application of basic science knowledge obtained in lower level courses within the department of Kinesiology. The course will address the management of common sports injuries from time of injury to return to play. At the end of the course, students will have a comprehensive understanding of athletic injuries and their management.
KINE 440 - RESEARCH METHODS
Short Title: RESEARCH METHODS
Department: Kinesiology
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): KINE 319 and KINE 440
Description: Designed to introduce students to research methods, statistical techniques, and topics appropriate for experimental research.

KINE 477 - SPECIAL TOPICS
Short Title: SPECIAL TOPICS
Department: Kinesiology
Grade Mode: Standard Letter
Course Type: Laboratory, Internship/Practicum, Lecture, Seminar, Lecture/Laboratory
Credit Hours: 1-4
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Topics and credit hours may vary each semester. Contact department for current semester's topic(s). Repeatable for Credit.

KINE 490 - SEMINAR IN SPORTS MEDICINE
Short Title: SEMINAR IN SPORTS MEDICINE
Department: Kinesiology
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Considers issues related to athletic injury including mechanisms, assessment, management, and rehabilitation.

KINE 495 - INDEPENDENT RESEARCH IN SPORTS MEDICINE & EXERCISE PHYSIOLOGY
Short Title: INDEPENDENT RESEARCH
Department: Kinesiology
Grade Mode: Standard Letter
Course Type: Research
Credit Hours: 1-3
Restrictions: Enrollment limited to students with a class of Junior or Senior. Enrollment is limited to students with a major in Sports Medicine & Exercise Phy. Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): KINE 319 and KINE 440
Description: To provide the student with an opportunity to participate in a research project under the supervision of a Rice Kinesiology faculty member and/or an external researcher. Department Permission Required. Recommended Prerequisite(s): KINE 319 and KINE 440. Repeatable for Credit.

KINE 498 - SPECIAL TOPICS IN SPORTS MEDICINE
Short Title: SPECIAL TOPICS IN SPORTS MED
Department: Kinesiology
Grade Mode: Standard Letter
Course Type: Laboratory
Credit Hour: 1
Restrictions: Enrollment is limited to students with a major in Kinesiology or Sports Medicine & Exercise Phy. Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): KINE 301
Description: This course provides a laboratory experience designed to demonstrate and apply concepts from human physiology. Students will collect, analyze, and report data on various physiological variables. Key concepts and application include homeostasis, isolated and integrated functions of body systems, and response to exercise. Spring 2021 Topic: Human Physiology Lab. Instructor Permission Required. Repeatable for Credit.

KINE 499 - TEACHING PRACTICUM IN SPORTS MEDICINE & EXERCISE PHYSIOLOGY
Short Title: TEACHING PRACTICUM
Department: Kinesiology
Grade Mode: Standard Letter
Course Type: Internship/Practicum
Credit Hours: 1-3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Students will assist in conducting a course in which they have previously excelled. The student will learn techniques in course management, instruction, and evaluation. Department Permission Required. Recommended prerequisite(s): Junior or Senior standing, declared major in Sports Medicine & Exercise Physiology, and at least an *A-" in the course serving as the practicum. Repeatable for Credit.

Descriptions and Codes Legend
Note: Internally, the university uses the following descriptions, codes, and abbreviations for this academic program. The following is a quick reference:

Bachelor of Arts (BA) Degree with a Major in Health Sciences

Program Learning Outcomes for the BA Degree with a Major in Health Sciences

Upon completing the BA degree with a major in Health Sciences, students will be able to:

1. Understand the functions of health promotion, health education, and public health on human health and disease prevention. They will demonstrate fundamental knowledge of epidemiology, statistics, and theories and models of health behavior.
2. Explain the role of socioeconomic, behavioral, biological, environmental, and other factors on human health, including personal health and public and community health.
3. Read, select, and interpret important information from health sciences literature. They will be able to identify and understand appropriate methodologies in public health research studies.
4. Collaborate with other professionals, staff, and communities in the planning, implementation, and evaluation of health promotion programs. They will be able to administer and manage health promotion programs, serve as a health education resource person, and communicate and advocate for health and health education.
5. Promote public health education and promotion within the framework of legal, ethical, moral, and professional standards.
6. Demonstrate an ability to work in a collaborative environment and deliver public health information effectively through written, oral, and media-based formats.

Requirements for the BA Degree with a Major in Health Sciences

For general university requirements, see Graduation Requirements (p. 29). Students pursuing the BA degree with a major in Health Sciences must complete:

- A minimum of 14 courses (42 credit hours) to satisfy major requirements.
- A minimum of 120 credit hours to satisfy degree requirements.
- A minimum of 5 courses (15 credit hours) taken at the 300-level or above.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor, or where applicable, the department’s Director of Undergraduate Studies. (Course substitutions must be formally applied and entered into Degree Works by the major’s Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/).) Students and their academic advisors should identify and clearly document the courses to be taken.

Elective Requirements
Select 8 elective courses (see course list below)  
Additional Credit Hours: 42

Footnotes and Additional Information

* Note: University Graduation Requirements include 31 credit hours, comprised of Distribution Requirements (Groups I, II, and III), FWIS, and LPAP coursework. In some instances, courses satisfying major requirements may additionally meet distribution requirements. Additional Credit Hours: 47

University Graduation Requirements (p. 29)

Total Credit Hours: 120

Course List to Satisfy Requirements

Elective Requirements
To fulfill the elective requirements for the Major in Health Sciences, students must complete a total of 8 elective courses (minimum of 24 credit hours) from the course list below. This list of electives is drawn from course offerings that are both within the Department of Kinesiology and, at present, more than 20 courses from other academic departments at Rice. In keeping with the university’s interest in an interdisciplinary approach to undergraduate education, this allows students to choose a broad range of studies within the field of health sciences.
health-related courses from within the schools of natural sciences, social sciences, and humanities.

Transfer Credit

For Rice University's policy regarding transfer credit, see Transfer Credit (p. 37). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of transfer credit advisors on their website: [https://oaa.rice.edu](https://oaa.rice.edu). Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines

Students pursuing the major in Health Sciences should be aware of the following departmental transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

Additional Information

For additional information, please see the Department of Kinesiology website: [https://kinesiology.rice.edu/](https://kinesiology.rice.edu/)

Academic Honors

The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (p. 51) (*summa cum laude*, *magna cum laude*, and *cum laude*) and Distinction in Research and Creative Work (p. 51). Some departments have department-specific Honors awards or designations.

Unique Program: Rice-UTSPH Public Health Scholars

Rice undergraduate students interested in pursuing a Master of Public Health (MPH) degree at the University of Texas Health Science Center at Houston (UTHealth School of Public Health (UTSPH)) may apply to the Rice-UT Public Health Scholars Program. This unique coordinated program enables accepted Rice students to earn credit towards their Rice undergraduate degree (BA or BS with any major), and to accelerate in the completion of their UTSPH Master of Public Health degree to within one year after completing their Rice undergraduate degree. For more information on the Rice-UTSPH Public Health Scholars Program, please see the program’s website: [https://dou.rice.edu/student-resources/public-health-scholars-program](https://dou.rice.edu/student-resources/public-health-scholars-program).

Additional Information

For additional information, please see the Department of Kinesiology website: [https://kinesiology.rice.edu/](https://kinesiology.rice.edu/)

W. Caleb McDaniel
Department Chair
The study of history informs students about the many worlds of the past from which our diverse community has come. It provides analytical tools with which to understand the present in terms of the past, and it helps create a knowledgeable citizenry that can confront the challenges of the future with confidence and historical insight. History is at the heart of the Humanities, which provide the core of a liberal arts education.

The department of History at Rice offers a diverse and exciting range of undergraduate electives that encourage engagement with the past as a way to understand the present and that foster appreciation of past societies for their own sake as important elements of the human experience. Our undergraduate major emphasizes critical skills in communication, writing, and especially research skills, and our department funds travel to archives and libraries as students prepare senior seminar papers and honors theses. The History major is flexible and offers an International Concentration that recognizes study abroad experience and research competency in languages other than English. The Honors Program offers highly motivated students the chance to engage deeply with historical research and writing. Additionally, the department offers an undergraduate minor for students who wish to master a core body of basic knowledge in historical narrative, methodologies and thought.

The graduate program, which trains a limited number of carefully selected students, offers these fields: U.S. History, including U.S. and the World topics; Atlantic World history; Latin American history; and the history of the Middle East. These areas are supplemented by an interconnected range of supporting courses and fields, including early modern and modern colonial history, African history, Asian history, European history, world history, gender history, transnational history, economic history, and the history of empires. PhD students may concurrently pursue one of the graduate certificates offered at Rice, such as those offered through the Center for the Study of Women, Gender, and Sexuality, or the Center for Critical and Cultural Theory.

Through graduate reciprocal agreements with the Universidade Estadual de Campinas (UNICAMP) and the Instituto Mora, the department offers highly qualified graduate students the opportunity to earn a second PhD at a top-ranked university in Brazil or Mexico. Students in the dual degree program study in Brazil or Mexico, and write theses that are co-supervised by faculty at Rice, and either UNICAMP, or Mora.

Bachelor's Programs
- Bachelor of Arts (BA) Degree with a Major in History (p. 1149)
  - and a Major Concentration in History: International Concentration (p. 1155)

Minor
- Minor in History (p. 1164)

Master's Program
- Master of Arts (MA) Degree in the field of History*

Doctoral Programs
- Doctor of Philosophy (PhD) Degree in the field of History (p. 1161)

Coordinated Programs
- Doctor of Philosophy (PhD) Degree in the field of History with Instituto Mora, in Mexico (Dual Degree) (p. 1163)
- Doctor of Philosophy (PhD) Degree in the field of History with Universidade Estadual de Campinas (UNICAMP), in Brazil (Dual Degree) (p. 1163)

* Although students are not normally admitted to a Master of Arts (MA) degree program, graduate students may earn the MA as they work towards the PhD.

**History (HIST)**

**HIST 101 - MODERN EUROPE, 1500-1789**  
Short Title: MODERN EUROPE, 1500-1789  
Department: History  
Grade Mode: Standard Letter  
Course Type: Lecture  
Distribution Group: Distribution Group I  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Description: Course provides an introduction to European history from 1500 to the French Revolution, tracing Europe's rise to world dominance via capitalism, the nation-state, science and technology, and a secular world view. It asks how conditions in the rest of the world allowed European imperialism and colonialism to triumph. Mutually Exclusive: Cannot register for HIST 101 if student has credit for HIST 325.

**HIST 102 - MODERN EUROPE, 1789-PRESENT**  
Short Title: MODERN EUROPE, 1789-PRESENT  
Department: History  
Grade Mode: Standard Letter  
Course Type: Lecture  
Distribution Group: Distribution Group I  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Description: Course provides an introduction to European history between the French Revolution and the collapse of the Soviet system in 1989-1990. The course examines industrialization, the development of the nation-state, World War One, fascism and communism, World War Two, European integration, decolonization and the Velvet Revolutions of 1989. Mutually Exclusive: Cannot register for HIST 102 if student has credit for HIST 326.

**HIST 103 - AP/OTH CREDIT IN EUROPEAN HISTORY I**  
Short Title: AP/OTH CREDIT-EUROPEAN HISTORY  
Department: History  
Grade Mode: Transfer Courses  
Course Type: Transfer  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Description: This course provides credit for students who have successfully completed approved examinations, such as Advanced Placement exams. This credit counts toward the total credit hours required for graduation.

**HIST 104 - AP/OTH CREDIT IN UNITED STATES HISTORY I**  
Short Title: AP/OTH CREDIT U.S. HISTORY  
Department: History  
Grade Mode: Transfer Courses  
Course Type: Transfer  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Description: This course provides credit for students who have successfully completed approved examinations, such as Advanced Placement exams. This credit counts toward the total credit hours required for graduation.

**HIST 105 - AP/OTH CREDIT IN WORLD HISTORY**  
Short Title: AP/OTH CREDIT IN WORLD HISTORY  
Department: History  
Grade Mode: Transfer Courses  
Course Type: Transfer  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Description: This course provides credit for students who have successfully completed approved examinations, such as Advanced Placement exams. This credit counts toward the total credit hours required for graduation.

**HIST 106 - WORLD HISTORY SINCE 1492**  
Short Title: WORLD HISTORY SINCE 1492  
Department: History  
Grade Mode: Standard Letter  
Course Type: Lecture  
Distribution Group: Distribution Group I  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Description: Class will explore the last 500 years of world history. The focus will be four long-term processes that have shaped the world today: struggles between Europeans and colonized peoples; forms of producing and exchanging goods; formation and spread of the modern state; and the development of 'bourgeois' ways of living.
HIST 111 - RED, WHITE AND BLACK IN EARLY AMERICA CREATING RACIAL IDENTITIES IN THE ERA OF THE AMERICAN REVOLUTION
Short Title: RED, WHITE, & BLACK EARLY AMER
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: This class analyzes the way peoples of African, American and European descent in North America came to think of themselves as members of different racial groups from about 1750 to 1820. The class will include a mixture of lectures and discussion.

HIST 112 - THE ARAB-ISRAELI CONFLICT
Short Title: ARAB-ISRAELI CONFLICT
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: This course explores the history and politics of what is known as the Arab-Israeli conflict as it has developed from WWI to the present. Themes covered are nationalism, colonialism, and orientalism, as they relate to the question of Palestine and the U.S. hegemony in the region.

HIST 116 - AP/OTH CREDIT AFRICA/MIDDLE EAST HISTORY
Short Title: AP/OTH AFRICA/MIDDLE EAST HIST
Department: History
Grade Mode: Transfer Courses
Course Type: Transfer
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: This course provides credit for students who have successfully completed approved examinations, such as Advanced Placement exams or International Baccalaureate exams/diploma. This credit counts toward the total credit hours required for graduation.

HIST 117 - EARLY AMERICA
Short Title: EARLY AMERICA
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Survey of North America from 1500 to the conclusion of the Mexican War.

HIST 118 - THE UNITED STATES, 1848 TO THE PRESENT
Short Title: UNITED STATES 1848-PRESENT
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: A continuation of HIST 117 (though 117 is not a prerequisite) surveying the social, political, cultural, and economic history of the United States from the end of the Mexican War to the present.

HIST 119 - AP/OTH CREDIT ASIA/OCEANIA HISTORY
Short Title: AP/OTH ASIA/OCEANIA HISTORY
Department: History
Grade Mode: Transfer Courses
Course Type: Transfer
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: This course provides credit for students who have successfully completed approved examinations, such as Advanced Placement exams or International Baccalaureate exams/diploma. This credit counts toward the total credit hours required for graduation.

HIST 120 - MEDIEVAL CIVILIZATIONS
Short Title: MEDIEVAL CIVILIZATIONS
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Focusing on the period between 300-1500 CE, the course will survey political institutions, society, and culture in medieval European, Byzantine, and Islamic civilizations. Topics include Christianization of Europe, the rise of Islam, the Crusades, scholastic theology, persecution of heretics, bubonic plague, and the rise of centralized monarchies. Cross-list: MDEM 120.

HIST 176 - MEXICO: AN INTRODUCTION
Short Title: MEXICO: AN INTRODUCTION
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Class will explore the last 600 years of Mexican history. The focus will be four long-term processes that have shaped Mexico today: pre-Columbian civilizations, the arrival of Spaniards and colonization; the post 1810 independence national period, and the Post Revolutionary period.
HIST 186 - HISTORICAL SURVEY OF JEWISH CIVILIZATION FROM ITS ORIGINS TO THE PRESENT
Short Title: HISTORICAL SURVEY JEWISH CIV.
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Jewish civilization spans over 3,000 years and virtually the entire planet. Throughout their history as a minority amid majority cultures, Jews have adapted enough to preserve their heritage but not so much that they disappear. This course studies Jewish religion, ethnicity, politics and culture and impact on world history. Counts towards Jewish Studies Minor core requirement.

HIST 188 - THE ATLANTIC WORLD: ORIGINS TO THE AGE OF REVOLUTION
Short Title: THE ATLANTIC WORLD
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Survey of social, political, economic, and intellectual ligatures that bound the particular histories of Africa, Europe, and the Americas one to the other, until by the late 18th century the Atlantic basin constituted a world unto itself. Mutually Exclusive: Cannot register for HIST 188 if student has credit for HIST 388.

HIST 190 - OCEANS IN WORLD HISTORY
Short Title: OCEANS IN WORLD HISTORY
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Course presents maritime history through the social construction of the sea. It analyses the historical significance of islands and archipelagos. Also explores themes including technology, mapping, disease, communication and law. Maritime law includes an interrogation of piracy, not only historically, but in the present (and future).

HIST 200 - ANCIENT EMPIRES: ORIGINS OF WESTERN CIVILIZATIONS
Short Title: ANCIENT EMPIRES
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Course explores development of imperial systems from the Bronze Age to Roman Empire with attention to subject peoples’ participation in multi-ethnic states. Aspects of art, law, economics, religion, and literature of the Hittites, Assyrians, Hebrews, Persians, Greeks, and Romans examined with consideration given to strengths and weaknesses of contributions to the modern world.

HIST 201 - JUDAISM OF JESUS AND HILLEL
Short Title: JUDAISM OF JESUS AND HILLEL
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: This course examines the history and literature of Judaism during the Second Temple period, which produced such religious leaders as Jesus and Hillel. Topics include: Jewish sectarianism, scribes and the growth of Scripture, temple worship and the first synagogues, diaspora religion, Jesus and the birth of Christianity, and the origin of Rabbinic Judaism. Counts for the Minor in Jewish Studies. Cross-list: RELI 203.

HIST 202 - IMMIGRATION IN 20TH AND 21ST CENTURY UNITED STATES SOCIETY
Short Title: IMMIGRATION IN THE USA
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: This course examines how immigration policies and attitudes have developed during the 20th and 21st centuries. It provides a historical context that allows one to better understand the root of contemporary immigration discourse. Additionally, it considers how immigrants shape and have been shaped by American society.
HIST 204 - THE IDEA OF AFRICA
Short Title: THE IDEA OF AFRICA
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Traces Western perceptions of Africa as a geographic, political and racial entity, from ancient times to the present day through a variety of media, including ancient texts, travelogues, maps, slave narratives, novels, films, museum exhibits in Houston, and journalists' reports. Mutually Exclusive: Cannot register for HIST 204 if student has credit for FSEM 155/HIST 155.

HIST 205 - MEDIEVAL MEDITERRANEAN WORLD
Short Title: MEDIEVAL MEDITERRANEAN WORLD
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Course examines the political, institutional, military, and cultural development of the societies that successively dominated the "Middle Sea" from AD 500-1500 in Europe and the Islamic World. It highlights the Mediterranean legacy of commercial, cultural, and religious exchange and coexistence, as well as its history of confrontation and warfare. Cross-list: MDEM 205.

HIST 207 - SPATIAL HISTORY AND HISTORICAL GIS
Short Title: SPATIAL HISTORY HISTORICAL GIS
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: This course introduces students to the emerging methodologies that combine geographic information systems (GIS) with historical thinking. Students will study and evaluate the benefits and limitations of key works in historical GIS, become familiar with basic principles of cartographic design, and learn technical skills to create their own HGIS project.

HIST 208 - RACE AND MEDICINE IN AMERICAN HISTORY
Short Title: RACE AND MEDICINE IN AMERICA
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: This course explores how medical theories have supported racial inequalities in American history from the beginning of European settlement until today. It traces the emergence of the concept of race, its effect on the development of modern medicine, and medicine’s continuing reliance on race as a category of analysis.

HIST 209 - AMERICAN URBAN HISTORY, 1609 TO TODAY
Short Title: AMERICAN URBAN HISTORY
Department: History
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: This course surveys American urban history from colonial times to the present day. Students will study how American cities formed and altered the shape of the nation. Topic areas include urban politics, city planning the built environment, and racial and ethnic diversity.

HIST 210 - REMEMBERING PAINFUL PASTS: THE PRACTICE OF MEMORY AND PUBLIC HISTORY
Short Title: REMEMBERING PAINFUL PASTS
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: This course introduces students to history studies and the practice of public history. Particular attention is paid to the role of power and ideology in shaping both dominant and minority memories and commemorations of slavery, the Civil War, labor exploitation, and the Civil Rights Movement. Students will learn to construct digital exhibits that collect, interpret and present historical memory.
HIST 211 - MEDIEVAL VIOLENCE
Short Title: MEDIEVAL VIOLENCE
Department: History
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Discussion course looks at private and large-scale warfare during the European Middle Ages. It considers how violence was legitimized and carried out, and examines attitudes towards violence and its effects on society. Topics include theoretical approaches to violence, crusading, chivalry, Truce of God, rituals of violence, military technologies, and cinematic portrayals of medieval warfare. Cross-list: MDEM 210.

HIST 212 - CONTEMPORARY CHINA
Short Title: CONTEMPORARY CHINA
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Survey of 40 year period (post socialism) 1976-2016 known as “China’s Rise.” Focus on social, political, intellectual, economic change and China's globalization.

HIST 213 - THE MIDDLE EAST FROM THE AGE OF MUHAMMAD TO THE ARAB SPRING
Short Title: AGE OF MUHAMMAD TO ARAB SPRING
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Lecture-discussion. Course surveys history of the Middle East from the Age of Muhammad to the Arab spring. No background needed. Includes political institutions; impact of migrations; development of cultural traditions; communal structures; economics, society, and environment; colonialisms; emergence of nation-states; revolutions; changing religious discourses; contemporary debates.

HIST 215 - BLACKS IN THE AMERICAS
Short Title: BLACKS IN THE AMERICAS
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Comparative survey of black people in the Americas from the late 15th century to the present examines the Atlantic slave trade, the movement toward slave emancipation in various countries, and 19th century black self-help efforts. Course also concentrates on economic and social conditions for blacks in the 20th and 21st centuries. Equivalency: HIST 315. Mutually Exclusive: Cannot register for HIST 215 if student has credit for HIST 315.

HIST 216 - BLACK LIFE IN THE NINETEENTH-CENTURY UNITED STATES
Short Title: BLACK LIFE IN THE 19TH C. U.S.
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: This course traces the lives of people of African descent in America before and after the Civil War, an event which transformed enslaved people from property to citizens and forced the country to determine the place of these new citizens in American society.

HIST 217 - HISTORY: THE WORKSHOP
Short Title: HISTORY: THE WORKSHOP
Department: History
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: This course introduces students to the craft of history; formulating a question for inquiry, finding and analyzing primary sources, critiquing secondary source, and constructing an argument in support of a thesis. Recommended for History Majors and open to all majors.

HIST 218 - HISTORY THROUGH FILM IN EAST AND NORTHEAST ASIA
Short Title: EAST/NORTHEAST ASIA FILM HIST
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
HIST 219 - GENGHIS KHAN AND THE EMPIRE OF THE MONGOLS
Short Title: MONGOL EMPIRE
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: The 13th century semi-nomadic tribes of Central Asia, led by Genghis (Chingis) Khan, created the largest contiguous land empire in World history, reaching from Korea to Hungary. This class examines the conditions of their rise and military success, the global impact of their conquests, and their political and cultural legacy.

HIST 220 - MEXICO: 1910 TO PRESENT
Short Title: MEXICO: 1910 TO PRESENT
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Survey course from the outbreak of the 1910 Revolution to the Present. The class will focus on the impact of the Revolution in the Building of Mexican Society, culture, politics, economic and relationship to the world, with a specific focus on Latin America and the U.S.

HIST 221 - UNITED STATES AND LATIN AMERICAN RELATIONS
Short Title: US - LATIN AMERICAN RELATIONS
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: This course examines the history of U.S.-Latin American relations since the early 1800s. It is organized chronologically but addresses political, economic, social, and cultural themes. The class considers both reasons for specific outcomes of U.S. - Latin American relations and their implications for the peoples most affected by them.

HIST 222 - HISTORY OF EARLY AFRICA
Short Title: HISTORY OF EARLY AFRICA
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Introduces students to the history of Africa from the rise of humankind to the period of the transatlantic slave trade.

HIST 223 - HISTORY OF MODERN AFRICA
Short Title: HISTORY OF MODERN AFRICA
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Introduces students to the history of Africa from the abolition of the transatlantic slave trade to the Arab Spring.

HIST 225 - EUROPE SINCE 1945
Short Title: EUROPE SINCE 1945
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Survey of the history of Europe from the end of World War II to 1989. The course focuses on the impact of the war on European societies as well as on decolonization, European unification, economic reconstruction, immigration, and the rise and fall of communism in Eastern Europe.

HIST 226 - COLONIAL SPANISH AMERICA
Short Title: COLONIAL SPANISH AMERICA
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Survey of Latin American History, from 1492 to the 1820's, including the European background and the major New World indigenous civilizations. The course will examine the pre-Columbian societies, the impact of conquest and colonization, colonial political economy, slave systems and indigenous peasants and the collapse of Iberian colonialism.

HIST 227 - LATIN AMERICAN CULTURAL TRADITIONS
Short Title: LATIN AM CULTURAL TRADITIONS
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: A synthetic overview of the emergence of Latin American culture and society beginning with the 16th century encounters and continuing through independence in the 19th century. Discovery, conquest, slavery, family life, religious beliefs, and urban and rural communities are explored through chronicles, visual images, music, and maps.
HIST 228 - MODERN LATIN AMERICA
Short Title: MODERN LATIN AMERICA
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Course introduces the student to the history of contemporary Latin America. For the most part political events will provide the periodic framework of the course, but we shall also consider major economic, social and cultural developments to understand the complex social formations that comprise contemporary Latin American societies. Graduate/Undergraduate Equivalency: HIST 508.

HIST 229 - HISTORY OF SOUTH AFRICA
Short Title: HISTORY OF SOUTH AFRICA
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level

Short Title: SPORTS, EMPIRE AND NATION
Department: History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: This course examines the history of the world since the 19th century through the lens of sports and athletics. It investigates who/why sport emerged as social activity and became entrenched in the modern world and what this historical development can tell us about political, social, economic and cultural change. Effective May 15, 2019, this course does not carry D1 credit.

HIST 233 - HISTORY OF MODERN SCIENCE
Short Title: HISTORY OF MODERN SCIENCE
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Main issues in the history of modern science from the Ancient Greeks to the present. Topics include: the Scientific Revolution, Newtonianism in the 18th century, Darwinism and evolution, the relativity and quantum revolutions in physics in the early 20th century, and recent developments in the life sciences like molecular biology.

HIST 236 - STATE, SOCIETY, AND THE ECONOMY IN THE MODERN MIDDLE EAST
Short Title: MIDDLE EAST:SOCIETY/STATE/ECON
Department: History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Arab societies are often studied through the lens of cultural, religious, tribal, or kinship relations, with little attention to the role of the state and the economy. This course will examine the intersection of politics, social movements, and economics in the building of nation-states from the collapse of the Ottoman Empire and up to the Arab uprisings.

HIST 238 - SPECIAL TOPICS
Short Title: SPECIAL TOPICS
Department: History
Grade Mode: Standard Letter
Course Type: Internship/Practicum, Laboratory, Lecture, Lecture/Laboratory, Seminar, Independent Study
Credit Hours: 1-4
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Topics and credit hours vary each semester. Contact department for current semester's topic(s). Repeatable for Credit.

HIST 239 - NATIVE AMERICAN HISTORY: FROM EUROPEAN CONTACT TO THE ERA OF REMOVAL
Short Title: NATIVE AMERICAN HISTORY
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: This course will cover the history of Native Americans from the time of European arrival in the Americas until the era of removal.
HIST 240 - ANCIENT CHINESE THOUGHT
Short Title: ANCIENT CHINESE THOUGHT
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: The Golden Age of Chinese thought established positions on the human person, human ethical practices, social hierarchy, relations of divinity and sociability that have formed the intellectual basis for regular reinvention for millennia. This course examines the “100 Schools of Thought,” origins and canonization.

HIST 241 - U.S. WOMEN’S HISTORY I: COLONIAL BEGINNINGS TO THE CIVIL WAR
Short Title: U.S. WOMEN’S HISTORY, I
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Survey of American women's history examines the lives of elite, working, black, Indian, and white women, and traces changes in women's legal, political, and economic status from the mid-17th century through the Civil War. Topics include slavery, suffrage, sexuality, and feminism. Cross-list: SWGS 234.

HIST 242 - U.S. WOMEN’S HISTORY II: CIVIL WAR TO THE PRESENT
Short Title: U.S. WOMEN’S HISTORY, II
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Survey of American women's history examines the lives of black, Asian American, Chicana, native American, and white women, and traces changes in women's legal, political, and economic status from the Civil War to the present. Topics include suffrage, anti-lynching, welfare, birth control, and the modern civil rights and feminist movements. Cross-list: SWGS 235.

HIST 244 - MUSEUMS IN WORLD HISTORY
Short Title: MUSEUMS IN WORLD HISTORY
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Examining museums in global history gives critical insight into their present role in society. Museums were sites of identity at local, regional, national, imperial and global levels. The collection and display of objects allowed communities, states, and empires to use cultural heritage, history, and science to interpret the past.

HIST 245 - AMERICAN CIVIL WAR ERA
Short Title: AMERICAN CIVIL WAR ERA
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Survey of the Civil War era from 1848 to 1876. Topics include the causes of the war, the mobilization of Northern and Southern armies; race, slavery and emancipation; Reconstruction; the Civil War in contemporary popular culture and memory; and the global dimensions of the war and its aftermath.

HIST 251 - CONTINUITIES AND CHANGES IN BRAZILIAN HISTORY
Short Title: BRAZIL: CONTINUITY & CHANGE
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: An exploration of themes essential to understanding modern Brazil, such as the origins of a multi-racial society, the transition from monoculture to industry; authoritarian and democratic trends, the emergence of a uniquely Brazilian culture, and the conflicts - environmental, political, and economic - over the development of the Amazon. Cross-list: LASR 251.

HIST 256 - EUROPEAN POLITICS AND SOCIETY, 1890-1945
Short Title: EUR POLITICS&SOCIETY,1890-1945
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Examination of European history in the age of total war. Includes imperialism and the development of the welfare state, institutional responses to the demands of total warfare, the crisis of liberal constitutionalism, the Russian Revolution, and the rise of fascism.
HIST 259 - US IN THE 1960s AND 70s
Short Title: US IN THE 1960s AND 70s
Department: History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: An exploration of the cultural, political, and social trends that shaped the 1960s and 70s, with attention to American culture and public policy.

HIST 266 - SLAVERY AND THE FOUNDING FATHERS
Short Title: SLAVERY & THE FOUNDING FATHERS
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Course will explore the Founding Fathers' attitudes towards slavery, towards slavery, and towards racial difference, beginning with interpretations of the Founders as a group, and moving to case studies of individual founders. Students will write a paper about the engagement with slavery of one person from the founding generation.

HIST 268 - MODERN SLAVERY AND HUMAN TRAFFICKING
Short Title: MODERN SLAVERY AND TRAFFICKING
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Slavery has re-emerged as a global issue in the 21st century. This course explores various forms of slavery and slave trades globally from the 19th century to the present, examining the emergence of contemporary human trafficking.

HIST 271 - HISTORY OF SOUTH ASIA
Short Title: HISTORY OF SOUTH ASIA
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Introduction to the history of the cultural, religious, economic and political systems of South Asia, beginning with the development of world religious systems such as Hinduism and Buddhism, indigenous state-building, the rise of Islamic power, emergent European colonialism, and subsequent resistance movements which resulted in South Asian independence in mid-20th century.

HIST 275 - MODERN MIDDLE EAST
Short Title: MODERN MIDDLE EAST
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: This course is an introduction to the history of the Modern Middle East: the Arab countries of the Levant and North Africa, as well as Turkey, Iran, and Israel. It covers the main events that shaped the region from the final years of the Ottoman empire, to the creation of the nation-states by Western colonialism, to the struggles for independence and decolonization. The course tackles some of the following themes: reform and modernization in the Ottoman Empire; World War One and its impact on the Middle East; the emergence of a new world order, and modern states and their political systems since World War I; and the transformation of Middle Eastern societies during this same period under the impact of colonialism, independence, regional wars, and oil. It also sheds light on particular social and cultural phenomena: the role of women in society; changing notions of gender roles; class formation and relations; and cultural expressions through art, literature and new modes and spaces of sociability. Graduate/Undergraduate Equivalency: HIST 542.

HIST 278 - MODERN ARAB HISTORY
Short Title: MODERN ARAB HISTORY
Department: History
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Survey of the history and culture of the Arab world from World War I to the present. Topics include nationalism, colonialism, modern secular and Islamist politics and the "Arab Spring." Equivalency: HIST 378. Mutually Exclusive: Cannot register for HIST 278 if student has credit for HIST 378.

HIST 281 - GOLDEN AGE OF ISLAM
Short Title: GOLDEN AGE OF ISLAM
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Introduction to the Islamic World from the 8th century to the 13th century. Topics include conquests and classical Islamic states, Arabization, Jewish and Christian communities, impact of Turkic peoples, and the Ottoman Empire, with emphasis on social, cultural, artistic, and scientific trends that shaped the region's history. Cross-list: MDEM 281.
### HIST 291 - 20TH CENTURY AMERICAN PRESIDENTS
**Short Title:** 20TH C. AMERICAN PRESIDENTS  
**Department:** History  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
**Course Level:** Undergraduate Lower-Level  
**Description:** Course will study the American presidency and the evolving use of executive power from Theodore Roosevelt to Bill Clinton. It will analyze how presidents develop foreign and domestic policy, relate to congress and their cabinets, and lead the nation in wartime.

### HIST 295 - THE AMERICAN SOUTH
**Short Title:** THE AMERICAN SOUTH  
**Department:** History  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Distribution Group:** Distribution Group I  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
**Course Level:** Undergraduate Lower-Level  
**Description:** Survey of the American South from development of Native American cultures to present. Topics include slavery and plantation economy; emergence of southern distinctiveness; Civil War and Reconstruction; political reform and the civil rights movement; rise of the Sunbelt, southern religion, music, and literature; and the future of southern regionalism. Equivalency: HIST 395. Mutually Exclusive: Cannot register for HIST 295 if student has credit for HIST 395.

### HIST 300 - INDEPENDENT STUDY
**Short Title:** INDEPENDENT STUDY  
**Department:** History  
**Grade Mode:** Standard Letter  
**Course Type:** Independent Study  
**Credit Hours:** 1-4  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
**Course Level:** Undergraduate Upper-Level  
**Description:** Independent study under the supervision of a history faculty member. Hours are variable. Instructor Permission Required. Repeatable for Credit.

### HIST 301 - FIGHTING THE ATLANTIC SLAVE TRADE
**Short Title:** FIGHTING THE SLAVE TRADE  
**Department:** History  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Distribution Group:** Distribution Group I  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
**Course Level:** Undergraduate Upper-Level  
**Description:** Provides students with a deeper understanding of the history of African slavery in the Americas by allowing them to step in the shoes of late-eighteenth century abolitionists and fight the Atlantic slave trade.

### HIST 303 - OTTOMANS, SAFAVIDS, AND MUGHALS: ISLAMIC EMPIRES OF THE EARLY MODERN WORLD
**Short Title:** ISLAMIC EMPIRES  
**Department:** History  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Course Level:** Undergraduate Lower-Level  
**Description:** This class explores the cultural, religious, economic and political values and institutions of the premodern states of the Ottomans, Safavids, and Mughals. Sharing a common Central Asian Turco-Mongol Muslim inheritance, each developed distinctive methods for rule over diverse subject populations, while retaining their common aesthetic, political and social values.

### HIST 305 - READING HISTORIES OF WORK
**Short Title:** READING HISTORIES OF WORK  
**Department:** History  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Distribution Group:** Distribution Group I  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
**Course Level:** Undergraduate Upper-Level  
**Description:** History of Work in the modern world is about earning a living, identity, creativity, and much more. This course emphasizes discussion and writing about a common set of assigned readings. We read Adam Smith, Karl Marx, and other classic texts on work as well as important recent monographs on the experiences and meanings of work. The authors and settings of our readings are mostly European, but also extend to the Americas and other colonial and postcolonial societies since 1492. This class is useful for students majoring in pre-law, pre-HUM grad, or interested in economics or social theory. HIST 445 Writing Histories of Work is complementary to this course, but one does not require the other. While this course emphasizes longer, complex assigned texts and analysis, HIST 445 has fewer common readings and emphasizes individual research projects on student-chosen topics. The assignments for these two courses do not overlap.

### HIST 307 - IMPERIAL ROME FROM CAESAR TO DIOCLETIAN
**Short Title:** IMPERIAL ROME  
**Department:** History  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
**Course Level:** Undergraduate Upper-Level  
**Description:** Examination of how Rome acquired, maintained, and understood her empire. Includes the development of a political, social, and ideological system reaching from Scotland to Mesopotamia during the three centuries of Rome's greatest power.
HIST 308 - THE WORLD OF LATE ANTIQUITY
Short Title: THE WORLD OF LATE ANTIQUITY
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Study of the social, religious, and political history of the Roman world from Diocletian to the rise of Islam, with emphasis on the breaking of the unity of the Mediterranean world and the emergence of early medieval societies in the east and west. Cross-list: MDEM 308.

HIST 309 - CHINESE INTELLECTUAL HISTORY
Short Title: CHINESE INTELLECTUAL HISTORY
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Framework and categories of modern Chinese intellectual history and its major traditions of thought in early modern and modern period.

HIST 310 - THE BODY IN GLOBAL HISTORIES OF MEDICINE
Short Title: BODY IN GLOBAL HIST OF MED
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This class surveys the body, health, and healing in ancient, medieval, modern and modern periods. It compares regional and transnational practices to learn about how physicians, laypeople, women, and men understood and recovered from illnesses. This course moves chronologically and thematically to cover different bodily processes.

HIST 311 - SEX, GENDER, AND FAMILY IN EUROPE, 1300-1700
Short Title: SEX & GEN IN EUROPE, 1300-1700
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: What did it mean to be child, woman, or man in Europe between 1300 and 1700? This course explores the experiences of nuns, soldiers, courtesans, sodomites, apprentices, witches, and slaves. It examines the construction of sexual identity in a period of dramatic change and increasing entanglement with non-Christian cultures.

HIST 312 - ENVIRONMENT, MEDICINE AND PUBLIC HEALTH IN LATIN AMERICA
Short Title: ENVIRONMENT & HEALTH IN LAT AM
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: The environment, medicine, diseases, public health, demography, and nutrition in Latin America in historical perspective. It delves on classic works on the history of human societies. It will also use historical studies from particular disciplines such as biology, demography, medicine, nutrition, anthropology, and economic concentrating around disease, medicine and public health.

HIST 314 - HISTORY OF ARTIFICIAL INTELLIGENCE
Short Title: HISTORY OF AI
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course covers the history of artificial intelligence from three perspectives: its technical development, the philosophy behind it, and its impact on society. Mutually Exclusive: Cannot register for HIST 314 if student has credit for HIST 214.

HIST 315 - BLACKS IN THE AMERICAS
Short Title: BLACKS IN THE AMERICAS
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Enriched version of HIST 215. Students may not receive credit for both HIST 215 and 315. Equivalency: HIST 215. Mutually Exclusive: Cannot register for HIST 315 if student has credit for HIST 215.

HIST 316 - JEWS AND CHRISTIANS IN THE MEDIEVAL ISLAMIC WORLD
Short Title: JEWS CHRISTIANS MEDIEVAL ISLAM
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Lecture discussion. Course focuses on Jewish and Christian communities in the medieval Islamic world. Topics include legal status of non-Muslims, social life, economic life, distinctive developments in religious thought in Islamic context, dynamics among communities, shared culture through the medium of Arabic, distinctive features in comparison with medieval Europe.
HIST 318 - DIGITAL HISTORY METHODS
Short Title: DIGITAL HISTORY METHODS
Department: History
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Explores the use of computers and new media to conduct historical research and communicate its results. While working on their own digital projects, students will consider questions like: How should history be written in the age of Google? How will historians deal with primary sources like tweets and blogs?

HIST 320 - IMPERIAL GARDENS: A CULTURAL COMPARISON
Short Title: IMPERIAL GARDENS
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Course will examine the design and development of gardens (primarily those of the Islamic world - Al Andalus, the Middle East, Persia, Central and South Asia) and their use as political and religious metaphors, havens for meditation, stages of imperial performance and ritual, sites of social interaction, and affirmations of power and legitimacy.

HIST 321 - US ENVIRONMENTAL HISTORY
Short Title: US ENVIRONMENTAL HISTORY
Department: History
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: An introduction to the interaction between humans and the natural environment in the present United States from the colonial era to recent environmentalism. The course will center on discussion and writing; readings will include primary sources as well as secondary analysis.

HIST 323 - HISTORY OF ATLANTIC AFRICA
Short Title: ATLANTIC AFRICA
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Provides students with a deeper understanding of the history of Atlantic Africa by researching key topics based on primary and secondary sources.

HIST 324 - CONFLICT AND COEXISTENCE IN MEDIEVAL SPAIN
Short Title: COEXISTENCE IN MEDIEVAL SPAIN
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Course explores the history of the Iberian Peninsula from late Antiquity to the early 16th century, focusing on coexistence and conflict between medieval Spain's three religious communities - Christians, Jews, and Muslims. Cross-list: MDEM 324.

HIST 327 - MEDIEVAL BORDERLANDS
Short Title: MEDIEVAL BORDERLANDS
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Courses examines the military, political, social and cultural developments on the European frontiers between 500-1500 AD. Topics include colonization and conquest, crusades and Spanish Reconquista, piracy, slavery, encounters with native peoples, spread of Christianity, medieval colonial regimes, map-making and cultural exchanges. Cross-list: MDEM 327.

HIST 328 - POVERTY AND SOCIAL JUSTICE IN LATIN AMERICA
Short Title: POVERTY & SOCIAL JUSTICE
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Course surveys the economic, political, social, environmental and geographic origins of poverty and inequality in Latin American countries since independence. It compares welfare policies to promote social justices across these nations and examines their different outcomes in historical perspective.

HIST 329 - STREETS AND URBAN LIFE: PARIS TO ISTANBUL
Short Title: STREETS AND URBAN LIFE
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Exploration of the street as a focus of urban life in 18th and 19th century. We will look at ways streets functioned as spaces of livelihood, sociability, and transgression in cities such as London, Paris, Istanbul, Amsterdam and Cairo. Cross-list: ARCH 329, HART 329.
HIST 330 - ATLANTIC SLAVE TRADE AND THE ORIGINS OF AFRO-AMERICAN LEGAL HISTORY
Short Title: SLAVE TRADE & AFRO-AMERICA
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This survey of American legal history begins with the Emancipation Proclamation and ends near the present. Legal themes covered are related to major political, economic, and social developments that have shaped the U.S. since 1863: the civil war’s outcome and abolition of slavery; the organization of an industrial economy; U.S. ascendancy in the world; and the social movements of the late nineteenth and twentieth centuries.

HIST 332 - AMERICAN LEGAL HISTORY, 1863 TO THE PRESENT
Short Title: AMERICAN LEGAL HISTORY
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This survey of American legal history begins with the Emancipation Proclamation and ends near the present. Legal themes covered are related to major political, economic, and social developments that have shaped the U.S. since 1863: the civil war’s outcome and abolition of slavery; the organization of an industrial economy; U.S. ascendancy in the world; and the social movements of the late nineteenth and twentieth centuries.

HIST 337 - LATIN AMERICAN PERSPECTIVES
Short Title: LATIN AMERICAN PERSPECTIVES
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Through an analysis of sea charts, maps, paintings, and city and town plans this course traces the changes in Latin American peoples, landscapes, and settlements from the time of contact (1492) to independence in the early 19th century. Attention will be given to European, Indigenous, and emerging "Latin American" perspectives.

HIST 338 - 19TH CENTURY WOMEN'S NARRATIVES
Short Title: 19TH C. WOMEN'S NARRATIVES
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course examines the experiences of women in the United States during the nineteenth century through first-hand accounts and scholarly readings. Students will ready a variety of materials to explore the social and legal status of women and consider the impact of race on women's lives. Cross-list: SWGS 338.

HIST 340 - HISTORY OF FEMINISM
Short Title: HISTORY OF FEMINISM
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Explores feminism as political thought and social movement in various times and places. Readings will include classic as well as non-canonical texts. We will consider the historical contexts of feminist action, and examine controversies over and within feminisms. Cross-list: SWGS 345.
**HIST 342 - MODERN CHINA**  
**Short Title:** MODERN CHINA  
**Department:** History  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Distribution Group:** Distribution Group I  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting undergraduate level students.  
**Course Level:** Undergraduate Upper-Level  
**Description:** A survey of Chinese history from c. 1800 to the present, focusing on the related themes of imperialism, nationalism, modernization and revolution.

**HIST 343 - HISTORY OF AFRICA IN THE MUSEUM**  
**Short Title:** AFRICA IN THE MUSEUM  
**Department:** History  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Distribution Group:** Distribution Group I  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting undergraduate level students.  
**Course Level:** Undergraduate Upper-Level  
**Description:** Provides students with an opportunity to examine the history of Africa in modern museums through readings, discussions, and analyses of exhibits.

**HIST 344 - EUROPEAN REFORMATIONS**  
**Short Title:** EUROPEAN REFORMATIONS  
**Department:** History  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Distribution Group:** Distribution Group I  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting undergraduate level students.  
**Course Level:** Undergraduate Upper-Level  
**Description:** In the 16th century Europe's house divided. This juncture in the history of Christianity had extraordinary consequences for the modern world. The course traces the impact of Protestant and Catholic reform movements on politics, society and culture and on Europe's engagements with the rest of the world.

**HIST 346 - COMPUTER TECHNOLOGY AND SOCIETY**  
**Short Title:** COMPUTERS AND SOCIETY  
**Department:** History  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Distribution Group:** Distribution Group I  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting undergraduate level students.  
**Course Level:** Undergraduate Upper-Level  
**Description:** This course traces the development of computer technology from its theoretical origins in the nineteenth century; to the growth of digital technology; the emergence of personal computing; up to computers of today, in order to understand the place of computer technology in people's lives and how they shape each other.

**HIST 347 - BLACK AMERICA: FROM NADIR THROUGH THE GREAT DEPRESSION**  
**Short Title:** BLACK AMERICA: THE NADIR  
**Department:** History  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting undergraduate level students.  
**Course Level:** Undergraduate Upper-Level  
**Description:** This course examines the changing nature of black society, culture, and politics in the United States from the census of 1890 through the attack on Pearl Harbor.

**HIST 350 - AMERICA, 1900-1940**  
**Short Title:** AMERICA SINCE 1945  
**Department:** History  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Distribution Group:** Distribution Group I  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting undergraduate level students.  
**Course Level:** Undergraduate Upper-Level  
**Description:** Survey of major economic, social, and political developments in the United States from 1900 to 1940.

**HIST 351 - AMERICA SINCE 1945**  
**Short Title:** AMERICA SINCE 1945  
**Department:** History  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Distribution Group:** Distribution Group I  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting undergraduate level students.  
**Course Level:** Undergraduate Upper-Level  
**Description:** Survey of major economic, social and political developments in the United States since 1945.

**HIST 352 - HISTORY OF THE COLD WAR**  
**Short Title:** HISTORY OF THE COLD WAR  
**Department:** History  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting undergraduate level students.  
**Course Level:** Undergraduate Upper-Level  
**Description:** Course will cover Russo-American relations from the end of World War II to the collapse of the Soviet Union in 1989, profiling the major policymakers and world leaders and exploring not only the diplomatic and military operations but also the cultural landscape of the Cold War.
HIST 353 - HISTORY OF SENSATION
Short Title: HISTORY OF SENSATION
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This class offers a deep history of sensation. It opens a window into how scientists, philosophers, medical practitioners, and neurophysiologists developed theories of touching, tasting, smelling, hearing, and seeing. Students will learn about the history of using animal models to inform human sensation, as well as the medical consequences of sensations that failed to fit neat categories of sensing.

HIST 355 - FROM DEMOCRACY TO DICTATORSHIP: GERMAN HISTORY, 1890-1945
Short Title: GERMAN HISTORY, 1890-1945
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: From 1890-1945, Germans experienced dramatic changes in their political environment. This lecture class will examine these changes, taking into account not only political history, but also attempts to come to terms with the challenges posed by organized capitalism, the rise and fall of socialism, the development of an interventionist state, cultural critique, and political culture, the Nazi social revolution, and the Holocaust. Taught in English. Cross-list: GERM 345.

HIST 356 - AFTER NAZISM: GERMAN HISTORY, 1945 - PRESENT
Short Title: GERMAN HISTORY, 1945 - PRESENT
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Course examines German politics and societies under Allied administration, West and East Germany 1949-1989, and the Federal Republic since 1990. Topics include democracy, post-1945 responses to Nazism; political economies; challenges of the “new social movements;” and national identity in context of European unification and global migration.

HIST 357 - JEWS AND CHRISTIANS IN MEDIEVAL EUROPE
Short Title: JEWS & CHRISTIANS-MEDIEVAL EUR
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Course will focus on Jewish-Christian coexistence in medieval Europe. Will examine the Jews’ legal status in Christendom, their communal life, economic activities, intellectual achievements, while also focusing on the complex dynamics of Jewish-Christian interaction, and the shifting patterns of persecution and acceptance. Cross-list: MDEM 357.

HIST 358 - HUMANITARIANISM FROM THE 19TH CENTURY TO THE PRESENT
Short Title: HUMANITARIANISM FROM 19TH C.
Department: History
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course surveys the history of humanitarian sentiment and practices in the West form the 19th Century to the present. It is conceived as a critical investigation of the humanitarian movement and practices in the West form the 19th Century to the present. HIST 359 - THE UNITED STATES IN THE TWENTIETH CENTURY WORLD
Short Title: U.S. IN THE 20TH CENTURY WORLD
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Overview of the United States interactions with the wider world in the 20th century. Impact of international affairs on the evolution of U.S. Domestic institutions, changing ideas about the United States’ role in the world as articulated and practiced by key public figures, private-sector activists, intellectuals, and citizens at large.
HIST 361 - HISTORY OF PREMODERN BRITAIN: TUDORS AND STUARTS, 1485 - 1707
Short Title: TUDORS AND STUARTS, 1485-1707
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Tudor and Stuart monarchs were some of the most intriguing characters to walk on the world’s stage. This course will explore the foundational political and religious changes which occurred in their reigns, from the victory of Henry VII at Bosworth to the union of Great Britain in 1707.

HIST 365 - WORLD ECONOMIC HISTORY
Short Title: WORLD ECONOMIC HISTORY
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): (ECON 100 or ECON 201 or ECON 211) and (ECON 200 or ECON 301 or ECON 370) and (ECON 203 or ECON 303 or ECON 375)
Description: Study and analysis of world economy focusing on the economic expansion of Western countries between the 14th and 21st centuries. Emphasis on contextual changes in economy, geography, history, society, culture, religion and politics in determining economic leadership of certain economies, such as Italy, Portugal, Spain, the United Kingdom, Belgium, the Netherlands, France, Germany, Sweden, the United States and Japan. Cross-list: ECON 365. Mutually Exclusive: Cannot register for HIST 365 if student has credit for HIST 235/HUMA 235.

HIST 366 - RIO DE JANEIRO: A SOCIAL AND ARCHITECTURAL HISTORY
Short Title: RIO DE JANEIRO
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: The development of Rio de Janeiro from a colonial capital to an Olympic host with emphasis on the peoples of the city and evolution of the urban panorama. Cross-list: ARCH 366.

HIST 370 - EUROPEAN INTELLECTUAL HISTORY: BACON TO HEGEL
Short Title: EUROPEAN INTELLECTUAL HISTORY
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Survey of major thinkers and intellectual movements from the scientific revolution to the French Revolution. Includes the use of primary and secondary sources to establish the main contours of philosophical, political, and cultural expression and to relate them to their historical context.

HIST 371 - HISTORY OF MODERN FRANCE
Short Title: HISTORY OF MODERN FRANCE
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Study of transformations in French society, culture, and politics from the French Revolution to the end of the 20th century. Taught in English.

HIST 372 - IMMIGRATION AND THE STATE: 19TH & 20TH CENTURY
Short Title: IMMIGRATION AND THE STATE
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: How did modern states organize and regulate immigration in the modern era? Lecture course explores the comparative history of labor migration and forced displacement from the point of view of state policies in the United States and Western Europe from 1800 to the present.

HIST 373 - SOCIAL AND POLITICAL THOUGHT IN 19TH CENTURY EUROPE
Short Title: 19TH C SOC/POLITICAL THOUGHT
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Social and political thinkers of the 19th century confronted revolutionary change in both politics and society: the demand for democracy as well as the challenges associated with industrial capitalism. Course combines lectures with discussion of original sources, including Smith, Mill, Marx, Proudhon, Wollstonecraft, and Weber.
HIST 374 - JEWISH HISTORY, 1500-1948
Short Title: JEWISH HISTORY, 1500-1948
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: History of the Jews' expulsion from Spain to the establishment of the state of Israel. Life in western and eastern Europe as well as in Islamic countries, seen from the perspective of settlement, assimilation, and the particularities of the Jewish historical experience.

HIST 375 - EUROPEAN ROMANTICISM, 1750-1850
Short Title: EUROPEAN ROMANTICISM 1750-1850
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Investigation of the emergence, triumph, and defeat of romanticism as a major cultural force in European history, with emphasis on national and epochal diversity within Romanticism in Britain, Germany, and France. Includes Rousseau, Goethe, Schiller, Schlegel, Schelling, Wordsworth, Coleridge, Byron, Stendhal, Hugo, and Baudelaire, as well as music and art.

HIST 378 - MODERN ARAB HISTORY
Short Title: MODERN ARAB HISTORY
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: The region by examining societies and empires shaped by intercontinental commerce and the expansion of empire, Arab empires, and the Muslim world. Course explores various forms of recording and interpreting events, drawing from ancient Mesopotamia, Israel, and the Greco-Roman world - the cultures in which modern ideas of history began. Cross-list: RELI 385.

HIST 379 - INDIAN OCEAN WORLD HISTORY
Short Title: INDIAN OCEAN WORLD HISTORY
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Survey of the history and culture of the Arab world from World War I to the present. Topics include colonialism and nationalism, modern secular and Islamist politics and the "Arab Spring." Equivalency: HIST 278. Mutually Exclusive: Cannot register for HIST 378 if student has credit for HIST 278.

HIST 381 - GOD, TIME AND HISTORY
Short Title: GOD, TIME AND HISTORY
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: How is the passage of time given meaning, and what role - if any - is assigned to divinity in shaping the direction of events? Course explores various forms of recording and interpreting events, drawing from ancient Mesopotamia, Israel, and the Greco-Roman world - the cultures in which modern ideas of history began. Cross-list: RELI 385.

HIST 384 - MODERN GIRL AND ASIA IN THE WORLD
Short Title: MOD GIRL & ASIA IN THE WORLD
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Using the textbook "The Modern Girl Around the World," this course examines the phenomenon of the so-called modern girl in Asia and the world, 1890-1949. Topics include: modernity, consumer culture, sexuality, and liberation. Cross-list: ASIA 328, SWGS 384.

HIST 387 - THE UNITED STATES IN THE WORLD: AGE OF EMPIRE AND REVOLUTION
Short Title: U.S. IN THE WORLD: 1750-1900
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course provides an overview of the United States' interactions with the world from the revolutionary period to the Spanish-American war. Impact of international affairs on the evolution of U.S. domestic institutions, changing ideas about America's role in the world by key political figures, private-sector activists, intellectuals, and citizens at large.

HIST 389 - INDIAN OCEAN WORLD HISTORY
Short Title: INDIAN OCEAN WORLD HISTORY
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: The Indian Ocean World presents an enormously varied arena of cultural exchange and interaction spanning coastal regions of Africa, the Middle East, South and Southeast Asia and Australia. Course introduces the region by examining societies and empires shaped by voyages of exploration, religious pilgrimages, trading diasporas and forced migration. Cross-list: ASIA 389.

HIST 390 - JOURNAL PUBLISHING WORKSHOP
Short Title: JOURNAL PUBLISHING WORKSHOP
Department: History
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Seminar
Credit Hours: 2
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Participants will explore scholarly communication through hands-on-work running the university's new undergraduate history journal, talking with editors, and discussing readings. Tasks include preparing to publish the journal's annual issues, refining the workflow, issuing a call for papers, and promoting the journal. Repeatable for Credit.
HIST 392 - PRE-MODERN POLITICAL THOUGHT FROM CICERO TO LOCKE
Short Title: PRE-MOD POLITICAL THOUGHT
Department: History
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Examining major texts from Cicero's De Officiis (CCE 44) to Locke's Two Treatises (1689 CE) shows how significant political questions emerged from specific historical contexts and developed over time. Writing intensive. Students will have weekly meetings in groups of three at an agreed-upon time (inclusive of the regular class meeting time).

HIST 395 - THE AMERICAN SOUTH
Short Title: THE AMERICAN SOUTH
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: An enriched version of HIST 295. Equivalency: HIST 295. Mutually Exclusive: Cannot register for HIST 395 if student has credit for HIST 295.

HIST 401 - THE AGE OF ATTILA THE HUN
Short Title: THE AGE OF ATTILA THE HUN
Department: History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course examines the fifth century A.D. in Western Europe, when the Roman Empire ended and new kingdoms were established from Britain to North Africa. The "barbarian invasions" and Attila and the Huns will be considered. Research seminar format. Open to juniors and seniors. Open to others only with permission of instructor. (Please note that class rank is determined by year of matriculation, not credits.)

HIST 402 - CHINESE WOMEN THROUGH TIME
Short Title: CHINESE WOMEN THROUGH TIME
Department: History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This discussion- and research-based course uses history, biography, law, fiction and film to examine the experiences and images of Chinese women from the late imperial time to the present. Topics include foot-binding, matriarchy, social constructs such as the Tiger Mom and the submissive Asian woman, crime, art etc. Students will write a final paper based on primary sources, and there will be one mid-term project involving a collaborative online experience. Open to juniors and seniors. Open to others only with permission of instructor. (Please note that class rank is determined by year of matriculation, not credits.)

HIST 403 - ADVANCED RESEARCH SEMINAR
Short Title: ADVANCED RESEARCH SEMINAR
Department: History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Restricted to students admitted to History Honors Program. Seminar is designed to advance students from preliminary research to development of a formal prospectus for the honors thesis and a first draft of one section. Open to juniors and seniors. Open to others only with permission of instructor. (Please note that class rank is determined by year of matriculation, not credits.) Instructor Permission Required.

HIST 404 - HISTORY HONORS THESIS
Short Title: HISTORY HONORS THESIS
Department: History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): HIST 403
Description: Restricted to students admitted to History Honors Program. Seminar is designed to advance students from prospectus to draft and final version of the honors thesis. Prerequisite: HIST 403 and approval of Director of Undergraduate Studies. Open to juniors and seniors. Open to others only with permission of instructor. (Please note that class rank is determined by year of matriculation, not credits.) Instructor Permission Required.
HIST 405 - DEMOCRACY AND CAPITALISM: THE HISTORICAL DEBATE FROM MARX TO TRUMP
Short Title: DEMOCRACY AND CAPITALISM
Department: History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Does mass democracy presume freedom of private property, free labor, and market relations as fundamental rights of the individual? Or does the market mean capital's domination over individuals, negating democracy? Does democratic "freedom" involve restraining capitalism? Or does capitalism involve limiting democracy through undemocratic institutions like rights and central banks?

HIST 406 - WORKERS' REVOLUTIONS, SUBALTERN SOLIDARITIES, AND THE MAKING OF EMANCIPATORY POLITICS
Short Title: THE GLOBAL LEFT
Department: History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Seminar examines the origins of the political left and its global manifestations in the 20th century. Focusing especially on the global south, the seminar explores the ways marginalized groups interpreted and applied leftist politics to build international solidarities against capitalism but also imperialism, fascism, and patriarchy.

HIST 407 - THE RISE AND FALL OF SLAVERY IN THE ATLANTIC WORLD, 1791-1888
Short Title: SLAVERY IN THE ATLANTIC
Department: History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Examines the expansion and eradication of slavery in the Atlantic world during the 19th century. Special emphasis given to history of enslaved resistance, slaveholders, and abolitionists. Considers the influence of slavery on the cultural, economic, and political developments of Atlantic societies from the Haitian Revolution (1791) to Brazilian abolition (1888).

HIST 408 - THE JAPANESE EMPIRE
Short Title: THE JAPANESE EMPIRE
Department: History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: A history of Japanese imperialism starting in the mid-19th century and ending in the 1990s and the end of the "bubble economy." Economic, political, intellectual history.

HIST 409 - MUSLIMS, JEWS, CHRISTIANS, HERETICS, AND PAGANS IN THE AGE OF THE CRUSADES
Short Title: CHRISTIAN HOLY WARS, 1095-1492
Department: History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course examines the crusading movement between the proclamation of the First Crusade in 1095 and the fall of Muslim Granada in 1492. It focuses on the wars against Muslims in the Middle East and Iberia, Baltic crusades against pagans, wars against Christian heretics in Europe, and political crusades.

HIST 410 - EMPIRE AND INTERNATIONAL LAW
Short Title: EMPIRE AND INTERNATIONAL LAW
Department: History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course explores the relationship between international law and empire, from about 1500 to 1914. In a period of expanding Western domination, international law formed, serving partly as a critical as well as apologetic discourse for Western imperialism. The seminar examines key primary sources and recent scholarship concerning this topic.

HIST 411 - A HISTORY OF TRAVEL: FROM MEDIEVAL PILGRIMAGE TO THE HIPPIE TRAIL
Short Title: HISTORY OF TRAVEL
Department: History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: The development of travel and travel narratives from the early medieval period through the 20th century, identifying why people travel and how those motives change over time. Examining spiritual journeys; fear and desire; the foreign gaze (east looking west); fictitious and vicarious travelling; geography/ethnography; antiquarianism; the gendered path; divine landscapes and the search for the authentic.
HIST 414 - WORLD WAR ONE IN EUROPE: ORIGINS, SOCIAL EFFECTS, POLITICAL CONSEQUENCES
Short Title: WWI IN EUROPE
Department: History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: The First World War transformed Europe and the world. This seminar examines the debates over the origins of the war; the effects of the war itself on European societies and economies; and the political outcomes of the war, on international relations as well as on domestic politics.

HIST 416 - SEMINAR IN CONTEMPORARY AFRICAN AMERICAN HISTORY
Short Title: CONTEMP AF-AMER HISTORY
Department: History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: An examination of the exigencies of African American life from the Reagan era to the age of Obama. A reading- and writing-intensive seminar focusing on selected issues in black culture, politics, and community in the United States since the climax of the civil rights movement. Open to juniors and seniors. Open to others only with permission of instructor. (Please note that class rank is determined by year of matriculation, not credits.)

HIST 418 - HOW HISTORIANS THINK
Short Title: HOW HISTORIANS THINK
Department: History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: The course will familiarize students with how historians think about research, problem setting, problem solving, innovation, historical problems and histories outside the nation state. Students read one book or its equivalent each week and write a 20-page research paper on the relation of primary and secondary sources.

HIST 420 - MEXICAN HISTORY
Short Title: MEXICAN HISTORY
Department: History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course is an advanced undergraduate seminar examining the history of Mexico from Independence to the Present. It addresses topics including the war of Independence (1810-1821), civil wars and foreign invasions in the nineteenth and twentieth centuries, as well as social, cultural religious, political and economic transformations. Graduate/Undergraduate Equivalency: HIST 500. Mutually Exclusive: Cannot register for HIST 420 if student has credit for HIST 500.

HIST 421 - RACE, EDUCATION AND SOCIETY IN THE URBAN SOUTH
Short Title: RACE, EDUCATION & SOCIETY
Department: History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: An examination of urban life and education since the decision in Brown v. Board. Seminar focuses on the Brown cases, the development of the post war city in the context of American race relations, the course of court-ordered desegregation, and the impact of recent reforms on urban schools and neighborhoods. Open to juniors and seniors. Open to others only with permission of instructor. (Please note that class rank is determined by year of matriculation, not credits.) Graduate/Undergraduate Equivalency: HIST 521. Mutually Exclusive: Cannot register for HIST 421 if student has credit for HIST 521.

HIST 423 - AMERICAN RADICALS AND REFORMERS
Short Title: AMERICAN RADICALS & REFORMERS
Department: History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Seminar on radicals and reformers in American history. Readings vary and will focus on a selected group of reformers, such as abolitionists, labor radicals, socialists, feminists, pacifists, Progressives, environmentalists, or health reformers. Students may conduct original research for a thesis-driven paper related to course themes. Open to juniors and seniors. Open to others only with permission of instructor. (Please note that class rank is determined by year of matriculation, not credits.)

</table>
HIST 434 - ISLAM AND THE WEST
Short Title: ISLAM AND THE WEST
Department: History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Seminar explores issues of contact and exploration between Western and Islamic worlds, from the Crusades to the modern era. Investigations will explore how identities are formed and reshaped through interaction with other cultures and how traditions are "invented" by relationships between civilization and despotism, freedom and tyranny, religious tolerance and holy war. Open to juniors and seniors. Open to others only with permission of instructor. (Please note that class rank is determined by year of matriculation, not credits.)

HIST 436 - AMERICA IN THE MIDDLE EAST
Short Title: AMERICA IN THE MIDDLE EAST
Department: History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Seminar explores evolution of American involvement in the Middle East from missionary origins in the early 19th century to superpower hegemony in the 20th. Puts into perspective central issues such as the U.S. role in the Arab-Israeli conflict, the question of terrorism, and the U.S. invasion/occupation of Iraq in 2003. Open to juniors and seniors. Open to others only with permission of instructor. (Please note that class rank is determined by year of matriculation, not credits.)

HIST 443 - MULTICULTURAL EUROPE, 1400-1700
Short Title: MULTICULTURAL EUROPE, 1400-1700
Department: History
Grade Mode: Standard Letter
Course Type: Seminar
Distribution Group: Distribution Group I
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: The art of Europe was never the product of a single culture working in isolation. This seminar will explore the multicultural aspects of medieval and early modern Europe by focusing on the visual culture of groups who defined themselves or are today defined by nationality, race, or religion. Open to juniors and seniors. Open to others only with permission of instructor. (Please note that class rank is determined by year of matriculation, not credits.) Cross-list: HART 435, MDEM 435.

HIST 445 - WRITING HISTORIES OF WORK
Short Title: WRITING HISTORIES OF WORK
Department: History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Work in the modern world is about earning a living, identity, creativity, morality, and much more. This course emphasizes full-length research papers related to experiences, struggles, and meanings of work. The arguments and conclusions of these papers will be based on sources from the time under investigation, and will show the student's grasp of the relevant scholarly literature. Assigned readings for all students mostly concern the modern European past; students can choose any setting worldwide since 1492 for their research paper. This class is useful for students considering law school or graduate study in history. HIST 305 Reading Histories of Work is complementary to this course, but one does not require the other. This course has fewer common assigned readings than HIST 305, in order to make space for project-specific reading and writing; students will periodically present sources and drafts to the class. The assignments for HIST 445 and HIST 305 do not overlap. Open to juniors and seniors. Open to others only with permission of instructor. (Please note that class rank is determined by year of matriculation, not credits.)

HIST 448 - WESTERN EUROPEAN WELFARE STATE, 1880-1980: ORIGINS, CONSOLIDATIONS, CRISIS
Short Title: WEST EUROPEAN WELFARE STATES
Department: History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This upper level seminar looks at why and how the welfare states came into being, how they were affected by the World Wars and dictatorship, postwar expansion, and the effects of the 1970s stagflation and oil crises. Focus on Germany, Britain, and France. Open to juniors and seniors. Open to others only with permission of instructor. (Please note that class rank is determined by year of matriculation, not credits.)
HIST 449 - LAW IN THE DIGITAL WORLD  
Short Title: LAW IN THE DIGITAL WORLD  
Department: History  
Grade Mode: Standard Letter  
Course Type: Seminar  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Description: This seminar examines U.S. legal issues concerning digital technologies, over the past two centuries. We will cover five legal topics: privacy, security, intellectual property, corporate regulations, and crime/vice. Students will produce original research that analyzes the relationship between law and the digital world we have constructed.

HIST 455 - THE HISTORY OF HUMAN RIGHTS 
Short Title: THE HISTORY OF HUMAN RIGHTS 
Department: History 
Grade Mode: Standard Letter 
Course Type: Seminar 
Credit Hours: 3 
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students. 
Course Level: Undergraduate Upper-Level 
Description: What are human rights, and what does it mean to call them "universal"? How do rights across borders, such as those needed by refugees, fit with rights within borders that citizens use to exercise sovereignty? How do new (or previously unrecognized) rights emerge, such as rights for sexual minorities? And how can we write histories of ideas that are claimed to be timeless? This advanced history seminar draws on multiple disciplines, especially anthropology and law, to answer these and other questions. Students undertake independent research on an issue of their choosing. This class is important for students considering law school or graduate study in history. Open to juniors and seniors. Open to others only with permission of instructor. (Please note that class rank is determined by year of matriculation, not credits.)

HIST 457 - FOUR MODERN REVOLUTIONS: 1776, 1789, 1917, 1989  
Short Title: FOUR MODERN REVOLUTIONS  
Department: History  
Grade Mode: Standard Letter  
Course Type: Seminar  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Description: Seminar brings together four leading examples of modern revolution in the western world: the American Revolution, the French Revolution of 1789, the Russian Revolution of October 1917, and the Eastern European revolutions of 1989. Topics include: revolutionary subjects, reactionaries, terror, law, and constitutions. Open to juniors and seniors. Open to others only with permission of instructor. (Please note that class rank is determined by year of matriculation, not credits.)

HIST 459 - NAZISM AND THE HOLOCAUST 
Short Title: NAZISM AND THE HOLOCAUST 
Department: History 
Grade Mode: Standard Letter 
Course Type: Seminar 
Credit Hours: 3 
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students. 
Course Level: Undergraduate Upper-Level 
Description: Seminar uses sources from the time and historians' interpretations to analyze Nazism and the Holocaust, especially pre-war racial policy, economic policy, labor, the war experience; and the phases and legacies of the Holocaust.

HIST 461 - THE SECOND WORLD WAR: A POLITICAL HISTORY 
Short Title: WW II: A POLITICAL HISTORY 
Department: History 
Grade Mode: Standard Letter 
Course Type: Seminar 
Credit Hours: 3 
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students. 
Course Level: Undergraduate Upper-Level 
Description: World War Two was not just a military conflict, but also a violent political and social struggle. Seminar explores the main ideologies and political blueprints devised during the war in the United States, Western and Eastern Europe. Open to juniors and seniors. Open to others only with permission of instructor. (Please note that class rank is determined by year of matriculation, not credits.)

HIST 464 - U.S. FOREIGN POLICY IN THE ERA OF THE COLD WAR 
Short Title: COLD WAR U.S. FOREIGN POLICY 
Department: History 
Grade Mode: Standard Letter 
Course Type: Seminar 
Credit Hours: 3 
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students. 
Course Level: Undergraduate Upper-Level 
Description: Seminar on American foreign policy during the Cold War. Readings and research.

HIST 477 - SPECIAL TOPICS 
Short Title: SPECIAL TOPICS 
Department: History 
Grade Mode: Standard Letter 
Course Type: Internship/Practicum, Laboratory, Lecture, Seminar, Lecture/Laboratory 
Credit Hours: 1-4 
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students. 
Course Level: Undergraduate Upper-Level 
Description: Topics and credit hours may vary each semester. Contact department for current semester's topic(s). Repeatable for Credit.

2021-2022 General Announcements PDF Generated 09/22/21
HIST 502 - EARLY AMERICA AND THE WORLD THAT MADE IT, 1450 - 1820
Short Title: EARLY AMERICA AND THE WORLD
Department: History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: A reading seminar in the history of Early America (1450-1820) with an emphasis on its multifarious interactions with the wider world. Seminar participants will read books that have inaugurated key developments in the field of Early American history.

HIST 503 - HISTORY OF NORTH AMERICAN CAPITALISM
Short Title: NORTH AMERICAN CAPITALISM
Department: History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This reading seminar is an introduction for graduate students to scholarship on the burgeoning field of the history of capitalism. The course centers largely in the U.S. but also considers developments across the world while noting capitalist formations elsewhere in North America from ca. 1500 to the near present.

HIST 504 - COLONIALISM, RACISM, AND RESISTANCE
Short Title: COLONIALISM AND RACISM
Department: History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This seminar examines histories of colonialism and racism and resistance to them across Asia, Africa, and America: both as articulated by historical protagonists and by scholars.

HIST 505 - THE ATLANTIC SLAVE TRADE
Short Title: THE ATLANTIC SLAVE TRADE
Department: History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This research seminar studies four centuries of transatlantic slave voyages in comparative perspective and complements existing literature on the Atlantic economy. Primary sources will be drawn from the quantitative data of www.slavevoyages.org. Students will be able to focus on particular regions on both sides of the Atlantic.

HIST 506 - COLONIAL TO REPUBLICAN BRAZIL
Short Title: COLONIAL TO REPUBLICAN BRAZIL
Department: History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course traces the history of Brazil from colony to republic. Topics to be covered include: encounters, Jesuit missions, Indian and African slavery, plantation society, the court in Rio de Janeiro, and change and continuities in the 19th century.

HIST 508 - MODERN LATIN AMERICA
Short Title: MODERN LATIN AMERICA
Department: History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Graduate reading seminar on Latin America from the early nineteenth century to present through reading classic and current most relevant scholarship. Political events will provide the periodic framework of the course but it will delve on major economic, social and cultural developments to understand the complex social formations that comprise contemporary Latin American societies. Graduate/Undergraduate Equivalency: HIST 228.

HIST 509 - DIRECTED READINGS
Short Title: DIRECTED READINGS
Department: History
Grade Mode: Standard Letter
Course Type: Independent Study
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Graduate level independent readings course. Topics vary. Repeatable for Credit.

HIST 510 - DIRECTED READINGS
Short Title: DIRECTED READINGS
Department: History
Grade Mode: Standard Letter
Course Type: Independent Study
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Graduate level independent reading course. Topics vary. Repeatable for Credit.
HIST 512 - READINGS IN BORDERLANDS, CITIZENSHIP, AND IMMIGRATION HISTORY
Short Title: BORDERLANDS & IMMIGRATION
Department: History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This reading seminar is an introduction for graduate students to the historiography that constitutes the fields of U.S.-Mexico borderlands history. The seminar covers the period from the early colonial period to the near present. Special attention is given to historical questions that have been posed in the related but separate fields of American immigration history, including the significance and conceptualization of U.S. citizenship.

HIST 521 - RACE, EDUCATION AND SOCIETY IN THE URBAN SOUTH
Short Title: RACE, EDUCATION & SOCIETY
Department: History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: An examination of urban life and education since the decision in Brown v. Board. Seminar focuses on the Brown cases, the development of the post war city in the context of American race relations, the course of court-ordered desegregation, and the impact of recent reforms on urban schools and neighborhoods Graduate/Undergraduate Equivalency: HIST 421. Mutually Exclusive: Cannot register for HIST 521 if student has credit for HIST 421.

HIST 535 - RICE, SLAVERY, & SEGREGATION
Short Title: RICE, SLAVERY, & SEGREGATION
Department: History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Students in this course will work with the Task Force on Slavery, Segregation and Racial Injustice, perform original research on the history of Rice University, and situate that research within a broader national & international context of academic & public history work on universities and racism.

HIST 536 - AMERICA AND THE WORLD
Short Title: AMERICA & THE WORLD
Department: History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: In this graduate seminar, we will examine U.S. history in a global context, focusing particularly on imperialism and empire-building. Students are encouraged to think broadly about empire and imperial relationships of which the United States constitute an integral part, looking at domination in economic and cultural forms in addition to political subjugation, formal colonialism and military interventions/dominations.

HIST 539 - ORIGINS OF AFRO AMERICA
Short Title: ORIGINS OF AFRO AMERICA
Department: History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Graduate research seminar focused on the articulation of black society, culture, and labor in the Americas from the 15th century to the early 19th century.

HIST 542 - HISTORIOGRAPHY OF THE MODERN MIDDLE EAST
Short Title: MODERN MIDDLE EAST
Department: History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 4
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Graduate seminar will explore the relationship between religion, race, and difference in the modern world. Using both American and non-American cases, the course will explore how and why unequal multi-religious and multi-racial societies - from the United States to the Middle East and South Asia - have elaborated and adapted to modern ideas of secular citizenship and multiculturalism.

HIST 558 - RELIGION, RACE, AND DIFFERENCE IN A GLOBAL PERSPECTIVE
Short Title: RELIGION, RACE, & DIFFERENCE
Department: History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Graduate seminar will explore the relationship between religion, race, and difference in the modern world. Using both American and non-American cases, the course will explore how and why unequal multi-religious and multi-racial societies - from the United States to the Middle East and South Asia - have elaborated and adapted to modern ideas of secular citizenship and multiculturalism.

HIST 563 - RACE AND SLAVERY IN THE EARLY ATLANTIC
Short Title: EARLY ATLANTIC RACE & SLAVERY
Department: History
Grade Mode: Standard Letter
Course Type: Research
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Graduate research seminar designed to help students formulate, research, and produce an initial draft of what will hopefully become a publishable scholarly article dealing with race or slavery in the Atlantic World.
HIST 565 - THE ATLANTIC WORLD
Short Title: THE ATLANTIC WORLD
Department: History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Graduate reading seminar provides an introduction to the historiography of the Atlantic World, especially Africa and the British Atlantic during the 17th and 18th centuries with comparison to France and French Caribbean and to Iberia and Spanish and Luso-America. Thematic topics will include commercial networks, political/imperial/legal structures, and slavery.

HIST 566 - NORTH AMERICA, 1500-1800
Short Title: NORTH AMERICA, 1500-1800
Department: History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Graduate reading seminar provides overview of historical literature pertaining to British North America and the Atlantic World from 1500 to 1800. Related topics in Spanish and French North America also considered.

HIST 570 - U.S. ENVIRONMENTAL HISTORY
Short Title: U.S. ENVIRONMENTAL HISTORY
Department: History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Graduate reading seminar on the Spanish and Portuguese colonies in the Americas. Topics covered include: the Iberian heritage, encounters and conquests, historical demography, the colonial economy, slavery, family life, religion, and the coming of independence.

HIST 571 - THE HISTORIOGRAPHY OF NATIONALISM, PLURALISM AND POLITICAL BELONGING.
Short Title: HISTORIOGRAPHY OF NATIONALISM
Department: History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 4
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This seminar will explore the historiography of pluralism and political belonging and its relationship to various national formations, including the United States. It will read major figures such a W.E.B. Du Bois alongside exemplary figures from the colonial and postcolonial worlds to explore how claims to national belonging are made through the construction of historical narratives.

HIST 574 - SLAVERY AND SLAVING IN AFRICA
Short Title: SLAVERY AND SLAVING IN AFRICA
Department: History
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 4
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course introduces graduate students to the key debates, scholars, and historiography relating to slavery and slaving in African history. Students will also gain basic familiarity with the narrative of slaving in Africa as well as introductions to topics in slavery studies like gender, commodities, and identity.

HIST 575 - INTRODUCTION TO DOCTORAL STUDIES
Short Title: INTRO DOCTORAL STUDIES
Department: History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Introduction to a range of methodological and theoretical approaches to historical research, as well as to important current debates about the nature of historical investigation and interpretation.

HIST 576 - PEDAGOGY SEMINAR
Short Title: PEDAGOGY SEMINAR
Department: History
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: For ABD students who intend to teach. Required for those who intend to teach for the department.

HIST 578 - PROSPECTUS SEMINAR
Short Title: PROSPECTUS SEMINAR
Department: History
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Seminar on prospectus and grant-writing for third-year graduate students. Required for students in the third year.

HIST 579 - COLONIAL LATIN AMERICA
Short Title: COLONIAL LATIN AMERICA
Department: History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 4
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Graduate reading seminar on the Spanish and Portuguese colonies in the Americas. Topics covered include: the Iberian heritage, encounters and conquests, historical demography, the colonial economy, slavery, family life, religion, and the coming of independence.

HIST 602 - MASTER'S THESIS RESEARCH
Short Title: MASTER'S THESIS RESEARCH
Department: History
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Research
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Continuation of HIST 601. Must complete both HIST 601 and 602 to receive credit.

HIST 603 - AMERICA IN THE MIDDLE EAST
Short Title: AMERICA IN THE MIDDLE EAST
Department: History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Graduate seminar examining the encounter between the United States and Middle Eastern societies since the nineteenth century. Graduate students will complete all UG requirements in as well as an additional 15 page essay to be submitted with the project prospectus. Final papers must be at least 25 pages and incorporate non-English research as appropriate. Graduate/Undergraduate Equivalency: HIST 436. Mutually Exclusive: Cannot register for HIST 603 if student has credit for HIST 436.

HIST 604 - ECONOMIC HISTORY
Short Title: ECONOMIC HISTORY
Department: History
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Advanced graduate seminar examining world economic history and the history of political economy from 1500 to the present.

HIST 677 - SPECIAL TOPICS
Short Title: SPECIAL TOPICS
Department: History
Grade Mode: Standard Letter
Course Type: Internship/Practicum, Laboratory, Lecture, Seminar, Independent Study, Lecture/Laboratory
Credit Hours: 1-4
Restrictions: Enrollment is limited to Graduate or Visiting Graduate level students.
Course Level: Graduate
Description: Topics and credit hours vary each semester. Contact department for current semester’s topic(s). Repeatable for Credit.

HIST 700 - THIRD-YEAR RESEARCH
Short Title: THIRD-YEAR RESEARCH
Department: History
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Research
Credit Hours: 4-12
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Appropriate for third-year graduate students who are working on their prospectus and have not yet taken their general exam. Repeatable for Credit.

HIST 800 - PH.D. RESEARCH
Short Title: PH.D. RESEARCH
Department: History
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Research
Credit Hours: 9-12
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Research for doctoral dissertation. Repeatable for Credit.

Bachelor of Arts (BA) Degree with a Major in History

Program Learning Outcomes for the BA Degree with a Major in History

Upon completing the BA degree with a major in History, students will be able to:

2021-2022 General Announcements PDF Generated 09/22/21
1. Identify and connect the ways that people, ideas, and technologies have circulated across the range of geographic regions and historical periods.

2. Apply historical questions to concrete cases and demonstrate analytical skills through the use of historical evidence, rigorous logic, and persuasive argument.

3. Exhibit a solid understanding of historical methodologies and research skills, including the careful and creative use of primary and secondary sources that are read critically and weighed carefully as historical evidence.

4. Demonstrate an awareness of the scholarly literature on a given research topic and identify the position of their research within that literature.

5. Exhibit mastery in writing persuasive and analytical prose following the conventions of the discipline.

Requirements for the BA Degree with a Major in History

For general university requirements, see Graduation Requirements (p. 29). Students pursuing the BA degree with a major in History must complete:

- A minimum of 10 courses (30 credit hours) to satisfy major requirements.
- A minimum of 120 credit hours to satisfy degree requirements.
- A minimum of 6 courses (18 credit hours) taken at the 300-level or above.
- A maximum of 4 courses (12 credit hours) from study abroad or transfer credit. For additional departmental guidelines regarding transfer credit, see the Policies tab.
- A minimum of 2 courses (6 credit hours) from departmental course offerings of 400-level seminars.

Some foreign language proficiency is desirable and the department highly recommends that students contemplating graduate work in history study at least one foreign language in some depth.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major's academic advisor, or where applicable, the department's Director of Undergraduate Studies. (Course substitutions must be formally applied and entered into Degree Works by the major's Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/).) Students and their academic advisors should identify and clearly document the courses to be taken.

### Policies for the BA Degree with a Major in History

#### Program Restrictions and Exclusions

Students pursuing the major in History should be aware of the following program restriction:

- As noted in Majors, Minors, and Certificates (p. 17), students may not major and minor in the same subject.

#### Transfer Credit

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 37). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: [https://oaa.rice.edu](https://oaa.rice.edu). Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

#### Departmental Transfer Credit Guidelines

Students pursuing the major in History should be aware of the following departmental transfer credit guidelines:

- No more than 4 courses (12 credit hours) of transfer credit from U.S. or international universities of similar standing as Rice may apply towards the major.
- Requests for transfer credit will be considered by the departmental Director of Undergraduate Studies (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.
- Courses taken at another university, including online courses, must be equivalent in required reading, writing, research and testing, as well as classroom hours, of a Rice history course. Regarding subject matter, however, there does not have to be an equivalent course in the Rice history course offerings, unless the student requires distribution credit.
• Rice students planning to study at a foreign university must also obtain pre-approval from the Rice Study Abroad Office.
• AP, IB or A-level credit (and the corresponding Rice transfer credit) may not be used to satisfy any requirements for the history major (even though a student may be able to use the articulated credit hours toward general university requirements).

Distribution Credit Information
The determination of distribution credit eligibility is done initially as part of the new course creation process (https://registrar.rice.edu/facstaff/courseprocess/). Additionally, as part of an annual roll call (https://registrar.rice.edu/facstaff/distribution_credit/) coordinated each Spring by the Office of the Registrar, course distribution credit eligibility is routinely reviewed and reaffirmed by the Dean's Offices of each of the academic schools.

Faculty and leadership in the academic schools are responsible for ensuring that the courses identified as distribution-credit-eligible meet the criteria as set in the General Announcements (p. 29). Students are responsible for ensuring that they meet graduation requirements (p. 29) by completing coursework designated as distribution-credit-eligible at the time of course registration.

Distribution courses from History (HIST) are generally 100- and 200-level introductory courses that do not presuppose work in History or the Humanities.

Additional Information
For additional information, please see the History website: https://history.rice.edu/.

Opportunities for the BA Degree with a Major in History

Academic Honors
The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 51) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 51). Some departments have department-specific Honors awards or designations.

Departmental Honors Program in History
Qualified undergraduates may enroll for 6 semester credit hours of directed honors research and writing, completing an honors thesis in their senior year (these 6 credit hours are in addition to the 30 hours required for the major). Accepted students enroll in HIST 403 for 3 credit hours in the Fall of their senior year and in HIST 404 for 3 credit hours in the Spring of their senior year. Application to the program is required. For current procedures, see the department website (http://history.rice.edu/). Financial assistance is available to conduct related research during the summer between the junior and senior year for all students accepted into the Honors Program.

Research Assistantships
The Department of History offers several paid Research Assistantships to give undergraduate students the opportunity to work closely with a faculty member and exercise their historical research skills.

Ira and Patricia Gruber Fund for Undergraduate Research
This fund supports, among other things, independent research projects carried out by history majors under the supervision of department faculty. Typical forms of support include reimbursements or advances for travel to an archive to do research or to a conference to present a paper.

Charles Garside, Jr. Prize in History
Awarded to a "distinguished student of history to honor the memory of Charles Garside, Jr.," a member of the Rice faculty from 1966-1987. The prize offers the winners time to broaden and deepen their education through travel and reflection.

Additional Information
For additional information, please see the History website: https://history.rice.edu/.

See https://humanities.rice.edu/student-life (https://humanities.rice.edu/student-life/) for tables of fellowships, prizes, and internships/practica that may be relevant to this major.

Bachelor of Arts (BA) Degree with a Major in History and a Major Concentration in History: International Concentration

Program Learning Outcomes for the BA Degree with a Major in History and an International Major Concentration
Upon completing the BA degree with a major in History, students will be able to:

1. Identify and connect the ways that people, ideas, and technologies have circulated across the range of geographic regions and historical periods.
2. Apply historical questions to concrete cases and demonstrate analytical skills through the use of historical evidence, rigorous logic, and persuasive argument.
3. Exhibit a solid understanding of historical methodologies and research skills, including the careful and creative use of primary and secondary sources that are read critically and weighed carefully as historical evidence.
4. Demonstrate an awareness of the scholarly literature on a given research topic and identify the position of their research within that literature.
5. Exhibit mastery in writing persuasive and analytical prose following the conventions of the discipline.

Additionally, upon completing the BA degree with a major in History and a major concentration in History: International Concentration, students will be able to:

1. Experience a different language and culture in situ.
2. Demonstrate the ability to use a second language for research.
Requirements for the BA Degree with a Major in History

For general university requirements, see Graduation Requirements (p. 29). Students pursuing the BA degree with a major in History must complete:

- A minimum of 10 courses (30 credit hours) to satisfy major requirements.
- A minimum of 120 credit hours to satisfy degree requirements.
- A minimum of 6 courses (18 credit hours) taken at the 300-level or above.
- A maximum of 4 courses (12 credit hours) from study abroad or transfer credit. For additional departmental guidelines regarding transfer credit, see the Policies tab.
- A minimum of 2 courses (6 credit hours) from departmental course offerings of 400-level seminars.

In addition to the degree requirements, students following the major concentration in History: International Concentration will be required to:

- Complete a significant study abroad experience (such as those recommended by Rice’s Office of International Programs).
- Demonstrate research competency in a language other than English.
- Students may demonstrate language competency in two ways. Students who pass a departmental language exam will be certified as having met the language requirement. Students who complete a history honors thesis or a 400-level seminar paper that draws on a significant number of non-English secondary or primary sources will also be certified as having met the stipulation.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor, or where applicable, the department's Director of Undergraduate Studies. (Course substitutions may be formally and entered into Degree Works by the major’s Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/).) Students and their academic advisors should identify and clearly document the courses to be taken.

**Total Credit Hours Required for the Major in History**

- 30 Additional Credit Hours to Complete Degree Requirements
- 59 University Graduation Requirements (p. 29)

**Total Credit Hours**

- 120

**Footnotes and Additional Information**

- **Note:** University Graduation Requirements include 31 credit hours, comprised of Distribution Requirements (Groups I, II, and III), FWIS, and LPAP coursework. In some instances, courses satisfying major requirements may additionally meet distribution requirements. Additional Credit Hours to Complete Degree Requirements include general electives, coursework completed as upper-level, residency (hours taken at Rice), and/or any other additional academic program requirements.

1. Any departmental (HIST) course offerings between HIST 400 and HIST 499, with the exception of HIST 403 and HIST 404, will fulfill the Seminar Requirement.

2. AP credit for history (HIST 103, HIST 105, HIST 107), HIST 403, and HIST 404, do not fulfill History major requirements as Electives or as Seminar. Additionally, students may take HIST 390 only once to fulfill History major requirements.

**Core Requirements**

Select at least 1 course (3 credit hours) from at least 4 of the 5 following fields. Of the 10 required courses to satisfy the History major requirements, a minimum of 6 courses total (18 credit hours) must be completed at the 300-level or above.

Policies for the BA Degree with a Major in History and an International Major Concentration

Program Restrictions and Exclusions

Students pursuing the major in History should be aware of the following program restriction:

- As noted in Majors, Minors, and Certificates (p. 17), students may not major and minor in the same subject.

Transfer Credit

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 37). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines

Students pursuing the major in History should be aware of the following departmental transfer credit guidelines:

- No more than 4 courses (12 credit hours) of transfer credit from U.S. or international universities of similar standing as Rice may apply towards the major.
- Requests for transfer credit will be considered by the departmental Director of Undergraduate Studies (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.
- Courses taken at another university, including online courses, must be equivalent in required reading, writing, research and testing, as well as classroom hours, of a Rice history course. Regarding subject matter, however, there does not have to be an equivalent course in the Rice history course offerings, unless the student requires distribution credit.
- Rice students planning to study at a foreign university must also obtain pre-approval from the Rice Study Abroad Office.
- AP, IB or A-level credit (and the corresponding Rice transfer credit) may not be used to satisfy any requirements for the history major (even though a student may be able to use the articulated credit hours toward general university requirements).
Distribution Credit Information

The determination of distribution credit eligibility is done initially as part of the new course creation process (https://Registrar.rice.edu/FacStaff/CourseProcess/). Additionally, as part of an annual roll call (https://Registrar.rice.edu/FacStaff/Distribution_Credit/) coordinated each Spring by the Office of the Registrar, course distribution credit eligibility is routinely reviewed and reaffirmed by the Dean's Offices of each of the academic schools.

Faculty and leadership in the academic schools are responsible for ensuring that the courses identified as distribution-credit-eligible meet the criteria as set in the General Announcements (p. 29). Students are responsible for ensuring that they meet graduation requirements (p. 29) by completing coursework designated as distribution-credit-eligible at the time of course registration.

Distribution courses from History (HIST) are generally 100- and 200-level introductory courses that do not presuppose work in History or the Humanities.

Additional Information

For additional information, please see the History website: https://history.rice.edu/.

Opportunities for the BA Degree with a Major in History and an International Major Concentration

Academic Honors

The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 51) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 51). Some departments have department-specific Honors awards or designations.

Departmental Honors Program in History

Qualified undergraduates may enroll for 6 semester credit hours of directed honors research and writing, completing an honors thesis in their senior year (these 6 credit hours are in addition to the 30 hours required for the major). Accepted students enroll in HIST 403 for 3 credit hours in the Fall of their senior year and in HIST 404 for 3 credit hours in the Spring of their senior year. Application to the program is required. For current procedures, see the department website (http://history.rice.edu/). Financial assistance is available to conduct related research during the summer between the junior and senior year for all students accepted into the Honors Program.

Research Assistantships

The Department of History offers several paid Research Assistantships to give undergraduate students the opportunity to work closely with a faculty member and exercise their historical research skills.

Ira and Patricia Gruber Fund for Undergraduate Research

This fund supports, among other things, independent research projects carried out by history majors under the supervision of department faculty. Typical forms of support include reimbursements or advances for travel to an archive to do research or to a conference to present a paper.

Charles Garside, Jr. Prize in History

Awarded to a "distinguished student of history to honor the memory of Charles Garside, Jr.," a member of the Rice faculty from 1966-1987. The prize offers the winners time to broaden and deepen their education through travel and reflection.

Additional Information

For additional information, please see the History website: https://history.rice.edu/.

See https://humanities.rice.edu/student-life (https://humanities.rice.edu/stUDENT-LIFE/) for tables of fellowships, prizes, and internships/practica that may be relevant to this major.

Doctor of Philosophy (PhD) Degree in the field of History

Program Learning Outcomes for the MA and PhD Degrees in the field of History

Upon completing the MA and PhD degrees in the field of History, students will be able to:

1. Develop analytic skills in critical thinking and writing that are of value both inside and outside the academy.
2. Conduct original research that makes a contribution to the field.
3. Be equipped to enter the historical profession as academics who can teach, present work to peers, and communicate effectively with the public.
4. Acquire expertise in their major field of historical inquiry and learn the skills necessary to write historical monographs.

Requirements for the MA and PhD Degrees in the field of History

MA Degree Program

The MA degree is a non-thesis master's degree. For general university requirements, please see Non-Thesis Master's Degrees (p. 75). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 60). Students are not normally admitted into the Master of Arts (MA) degree program, but the department of History offers the MA degree to those PhD students who have achieved doctoral candidacy and are in the process of completing the doctorate, or to qualified PhD students who leave the program before completing the doctorate. Students pursuing the MA degree in the field of History must complete the degree in one of the following three ways:

1. completion of one year of coursework (18 credit hours) and a thesis written and defended in an oral examination during the second year, or
2. completion of two years of coursework (36 credit hours), normally including at least two seminar research papers, or
3. for students continuing to the PhD, completion of all requirements for PhD candidacy, including written and oral examinations.

Requirements for the PhD Degree in the field of History

PhD Degree Program

For general university requirements, please see Doctoral Degrees (p. 72). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 60). Doctoral candidates must prepare themselves in three fields of history: two in their major area of specialization, and a third in an area not included in the first two fields. Students who wish to pursue a third field in an area outside the department should petition the graduate committee by the end of their second semester.

The requirements for completing the degree will be administered as flexibly as possible within the bounds of general university requirements (p. 57). These requirements state that the PhD degree will be awarded after successful completion of at least 90 semester hours of advanced study and an original investigation reported in an approved thesis. The student may apply for formal admission to candidacy for the PhD degree after passing the qualifying exam.

Students pursuing the PhD degree in the field of History must:

- Prepare themselves thoroughly in three examination fields.
- Take 8 graduate seminars, including HIST 575.
- Pass an examination in the principal language of research and in one additional language. If the principal language of research is English, candidates must pass an examination in one other language.
- Perform satisfactorily on written and oral examinations.
- Complete a thesis presenting the results of original research.
- Defend the thesis in a public oral examination.

Policies for the PhD Degree in the field of History

Department of History Graduate Program Handbook

The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, the Department of History publishes a graduate program handbook, which can be found here: https://gradhandbooks.rice.edu/2021_22/History_Graduate_Handbook.pdf

Admission

The Rice University graduate program in history is primarily a PhD program. Students who have a BA in history (or its equivalent) are eligible to apply to the PhD program. Although many successful candidates to the PhD program have an MA or other advanced degree, advanced study is not a requirement for admission. Graduate study is offered in these fields: U.S. history, including U.S. and the World topics; Atlantic World history; Latin American history; and the history of the Middle East. These areas are supplemented by an interconnected range of supporting courses and fields, including early modern and modern colonial history, African history, Asian history, European history, world history, gender history, transnational history, economic history, and the history of empires. Further information is available at the department website (http://history.rice.edu/). For general university requirements, see Graduate Degrees (p. 57).

Financial Support

The department awards graduate tuition waivers and fellowship stipends, within the limits of available funds, to qualified PhD candidates with demonstrated ability. All graduate students in the history department are expected to participate in the professional activities of the department as part of their training. These include, but are not limited to, assisting with the Journal of Southern History or serving as research assistants or teaching assistants for department members. As far as possible, these assignments are kept consistent with the areas of interests of the students.

Transfer Credit

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 70). Some departments and programs have additional restrictions on transfer credit. Students are encouraged to meet with their academic program’s advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines

Students pursuing the PhD degree in the field of History should be aware of the following departmental transfer credit guidelines:

- Requests for transfer credit will be considered by the program director on an individual case-by-case basis.

Additional Information

For additional information, please see the History website: https://history.rice.edu/.

Opportunities for the PhD Degree in the field of History

Information regarding resources and opportunities for the Department of History graduate students, including conference and research travel support, as well as additional funding, can be found on the History website: https://history.rice.edu/.

Teaching Opportunities

Avenues for teaching experience at Rice for graduate students include:

The Program in Writing and Communication (PWC (http://pwc.rice.edu/)) hires a number of graduate students each semester for instructor and teaching assistant positions (http://pwc.rice.edu/graduate-students-postdocs-2/) for the University’s First-Year Writing Intensive Seminars (FWIS).

The Center for Academic and Professional Communication (CAPC (https://pwc.rice.edu/center-academic-and-professional-communication/)) hires student consultants enthusiastic about working with Rice students to improve communication skills. The annual job notice is posted in late March and training is provided to successful applicants.
A competitive, sixth-year fellowship serving as the Boles Editing Fellow for the Journal of Southern History is also available.

**Additional Information**

For additional information, please see the History website: [https://history.rice.edu/](https://history.rice.edu/).

See [https://humanities.rice.edu/student-life](https://humanities.rice.edu/student-life/) for tables of fellowships, prizes, and internships/practica that may be relevant to this degree.

## Dual Doctor of Philosophy (PhD) Degree in the field of History, with Instituto Mora, in Mexico

### Program Learning Outcomes for the Dual PhD Degree in the field of History, with Instituto Mora, in Mexico

Upon completing the Dual PhD program in the field of History with Instituto Mora, students will be able to:

1. Write and present orally at the level expected for PhD students at Instituto Mora and Rice.
2. Be widely read in historical literature relevant to their research topic in English and Spanish.
3. Work in archives and libraries in the United States and Mexico.
4. Do original research in relevant primary sources in both languages.
5. Understand two distinct academic traditions and learn from both.

### Requirements for the Dual PhD Degree in the field of History, with Instituto Mora, in Mexico

For general university requirements, please see Doctoral Degrees (p. 72). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 60).

*Rice will award the PhD Degree in the field of History to Instituto Mora students who have successfully completed the following requirements:*

1. Passed their comprehensive examinations and been admitted to candidacy at Instituto Mora.
2. Completed 6 graduate level courses at Rice, of which one must be HIST 575, one must be a History Graduate Research seminar, and one must be a History Graduate Reading seminar.
3. Written a thesis in the language of their home institution and a summary in English that is equivalent in style, scholarship and length to an academic journal article.
4. Successfully presented the thesis, and the summary, in English, to a faculty panel at Rice.
5. Successfully defended the thesis at Instituto Mora.

*The Instituto Mora will award the Doctorado en Historia Moderna y Contemporánea to Rice students who have successfully completed the following requirements:*

1. Passed their comprehensive examinations and been admitted to candidacy at Rice.
2. Completed 8 graduate-level courses at Mora, of which must include Teoría de la Historia; Seminarios de tesis I and II; 2 courses chosen from any of these categories: Teoría Antropológica, Teoría Social, Teoría del Derecho, or Teoría Económica, and 3 additional graduate seminars.
3. Written a thesis in the language of their home institution and a summary in Spanish that is equivalent in style, scholarship and length to an academic journal article.
4. Successfully defended the doctoral thesis at Rice.

## Dual Doctor of Philosophy (PhD) Degree in the field of History, with Universidade Estadual de Campinas (UNICAMP), in Brazil

### Program Learning Outcomes for the Dual PhD Degree in the field of History, with Universidade Estadual de Campinas (UNICAMP), in Brazil

Upon completing the Dual PhD program in the field of History with the Universidade Estadual de Campinas (UNICAMP), students will be able to:
1. Demonstrate oral and written fluency at the graduate level in the two target languages.
2. Demonstrate knowledge of the historiography on their research topic(s) in the two target languages.
3. Demonstrate the ability to work with archives and libraries abroad; and demonstrate the ability to do research in the primary sources in the two target languages.
4. Demonstrate the ability to work with two advisors showing an understanding of two distinct academic communities.

Requirements for the Dual PhD Degree in the field of History, with Universidade Estadual de Campinas (UNICAMP), in Brazil

For general university requirements, please see Doctoral Degrees (p. 72). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 60).

Rice will award a PhD degree in the field of History to UNICAMP students who have successfully completed the following requirements:

1. Passed their comprehensive examinations and been admitted to candidacy at UNICAMP.
2. Completed 6 graduate-level courses at Rice, which one must be HIST 575, one must be a History research seminar, and one must be a History reading seminar. Students must be enrolled in at least 9 credit hours per semester while at Rice University.
3. Written a thesis in the language of their home institution and a summary in English that is equivalent in style, scholarship, and length to an academic journal article.
4. Successfully presented the thesis and the summary in English to a faculty panel at Rice.
5. Successfully defended the thesis at UNICAMP.

UNICAMP will award the Doutor em História to Rice students who have successfully completed the following requirements:

1. Passed their comprehensive examinations and been admitted to candidacy at UNICAMP.
2. Completed 2 semesters of coursework at UNICAMP, including all required courses for UNICAMP PhD students in History.
3. Written a thesis in the language of their home institution and a summary in Portuguese, that is equivalent in style, scholarship, and length to an academic journal article.
4. Successfully presented the thesis, and the summary, in Portuguese, to a faculty panel at UNICAMP.
5. Successfully defended the thesis at Rice.

See [https://humanities.rice.edu/student-life](https://humanities.rice.edu/student-life) for tables of fellowships, prizes, and internships/practica that may be relevant to this degree.

Minor in History

Program Learning Outcomes for the Minor in History

Upon completing the minor in History, students will be able to:

1. Identify and connect the ways that people, ideas, and technologies have circulated across a range of geographic regions and historical periods.
2. Apply historical questions to concrete cases and demonstrate analytical skills through the use of historical evidence.
3. Exhibit a solid understanding of historical methodologies, including the careful and creative use of primary and secondary sources that are read critically and weighed carefully as historical evidence.

Requirements for the Minor in History

Students pursuing the minor in History must complete:

- A minimum of 6 courses (18 credit hours) to satisfy minor requirements.
- A minimum of 3 course (9 credit hours) taken at the 300-level or above.
- A maximum of 2 courses (6 credit hours) from study abroad or transfer credit. For additional departmental guidelines regarding transfer credit, see the Policies (p. 1169) tab.

The courses listed below satisfy the requirements for this minor. In certain instances, courses not on this official list may be substituted upon approval of the minor’s academic advisor, or where applicable, the Program Director. (Course substitutions must be formally applied and entered into Degree Works by the minor’s Official Certifier (https://...
Students and their academic advisors should identify and clearly document the courses to be taken.

## Summary

</tbody>
</table>

**Total Credit Hours Required for the Minor in History**

## Minor Requirements

### Core Requirements

Select at least 1 course from at least 3 of the 5 following fields (see course lists below):

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

### Elective Requirements

Select 3 elective courses from departmental (HIST) course offerings at the 300-level and above.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**Total Credit Hours**

18

## Footnotes and Additional Information

1 AP credit for history (HIST 103, HIST 105, HIST 107), and History courses HIST 403 and HIST 404, do not fulfill History minor requirements. Additionally, students may take HIST 390 only once to fulfill History minor requirements.

## Courses Lists to Satisfy Requirements

Select at least 1 course (3 credit hours) from at least 3 of the 5 following fields. Of the 6 required courses to satisfy the History minor requirements, a minimum of 3 courses total (9 credit hours) must be completed at the 300-level or above.

Policies for the Minor in History
Program Restrictions and Exclusions
Students pursuing the minor in History should be aware of the following program restriction:

- As noted in Majors, Minors, and Certificates (p. 17), i.) students may declare their intent to pursue a minor only after they have first declared a major, and ii.) students may not major and minor in the same subject.

Transfer Credit
For Rice University's policy regarding transfer credit, see Transfer Credit (p. 37). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines
Students pursuing the minor in History should be aware of the following departmental transfer credit guidelines:

- No more than 2 courses (6 credit hours) of transfer credit from U.S. or international universities of similar standing as Rice may apply towards the minor.
- Requests for transfer credit will be considered by the departmental Director of Undergraduate Studies (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.
- Courses taken at another university, including online courses, must be equivalent in required reading, writing, research and testing, as well as classroom hours, of a Rice history course. Regarding subject matter, however, there does not have to be an equivalent course in the Rice history course offerings, unless the student requires distribution credit.

- Rice students planning to study at a foreign university must also obtain pre-approval from the Rice Study Abroad Office.
- Transfer credit coursework received via the articulation of AP, IB or A-level credit will not be considered towards minor requirements.

Distribution Credit Information
The determination of distribution credit eligibility is done initially as part of the new course creation process (https://registrar.rice.edu/facstaff/courseprocess/). Additionally, as part of an annual roll call (https://registrar.rice.edu/facstaff/distribution_credit/) coordinated each Spring by the Office of the Registrar, course distribution credit eligibility is routinely reviewed and reaffirmed by the Dean's Offices of each of the academic schools.

Faculty and leadership in the academic schools are responsible for ensuring that the courses identified as distribution-credit-eligible meet the criteria as set in the General Announcements (p. 29). Students are responsible for ensuring that they meet graduation requirements (p. 29) by completing coursework designated as distribution-credit-eligible at the time of course registration.

Additional Information
For additional information, please see the History website: https://history.rice.edu (https://history.rice.edu/)

Opportunities for the Minor in History

Academic Honors
The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (p. 51) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (p. 51). Some departments have department-specific Honors awards or designations.

Research Assistantships
The Department of History offers several paid Research Assistantships to give undergraduate students the opportunity to work closely with a faculty member and exercise their historical research skills.

Ira and Patricia Gruber Fund for Undergraduate Research
This fund supports, among other things, independent research projects carried out by history majors and minors under the supervision of department faculty. Typical forms of support include reimbursements or advances for travel to an archive to do research or to a conference to present a paper.

Additional Information
For additional information, please see the History website: https://history.rice.edu

Human-Computer Interaction and Human Factors

Contact Information
Psychological Sciences
https://psychology.rice.edu/
464 Sewall Hall
The Rice University Department of Psychological Sciences offers the Master of Human-Computer Interaction and Human Factors degree, which examines the scientific consideration of people in the design of products, services, and systems.

Human Factors is responsible for ensuring that systems meet the needs and expectations of the user, and more importantly, conform to the capabilities and limitations of those users. Human Factors can increase the ability of users to use effectively complex systems and enhance the safety of those systems. Human Factors focuses much of its efforts to the study of complex human-machine interfaces such as automobile controls, aircraft cockpits, medical devices, and many others.

Human-Computer Interaction is the subarea within Human Factors particularly concerned with computer systems. Human-Computer Interaction and Human Factors is particularly concerned with issues of usability, that is, how the design of technological systems impacts how efficiently and effectively people can use those systems.

Human-Computer Interaction and Human Factors does not currently offer an academic program at the undergraduate level.

**Master’s Program**
- Master of Human-Computer Interaction and Human Factors (MHCIHF) Degree (p. 1190)

**Chair, Department of Psychological Sciences**
Eduardo Salas

**Professors**
- Michael D. Byrne
- Patricia DeLucia
- Eduardo Salas

**Associate Professor**
Philip T. Kortum

To view the list of official course offerings, please see Rice’s Course Catalog (https://courses.rice.edu/admweb/ISWKSCAT.cat?p_action=cata)
To view the most recent semester’s course schedule, please see Rice’s Course Schedule (https://courses.rice.edu/admweb/ISWKSCAT.cat)
PSYC 203 - INTRODUCTION TO COGNITIVE PSYCHOLOGY
Short Title: INTRO TO COGNITIVE PSYCHOLOGY
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: An introduction to topics in cognitive psychology, including perception, attention, language, memory, and decision making. Required for psychology majors.

PSYC 231 - INDUSTRIAL AND ORGANIZATIONAL PSYCHOLOGY
Short Title: INDUS & ORGANIZATIONAL PSYC
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Prerequisite(s): PSYC 101
Description: An overview of the principles, techniques, and theories of psychology applied in the industrial setting.

PSYC 238 - SPECIAL TOPICS
Short Title: SPECIAL TOPICS
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Internship/Practicum, Laboratory, Lecture, Seminar, Independent Study
Credit Hours: 1-4
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Topics and credit hours may vary each semester. Contact department for current semester's topic(s). Repeatable for Credit.

PSYC 260 - UNDERGRADUATE PROFESSIONAL ISSUES IN PSYCHOLOGY
Short Title: UNDERGRAD PROF ISSUES IN PSYC
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hour: 1
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: This seminar will provide students interested in psychology with an opportunity to explore psychology as a major and a career. Through guest lecturers, group discussions, and class projects, students will learn about diverse fields and potential career paths in psychology. Instructor Permission Required.

PSYC 308 - MEMORY
Short Title: MEMORY
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): PSYC 203
Description: Critical review of traditional and contemporary approaches to the study of remembering and forgetting. Graduate/Undergraduate Equivalency: PSYC 524.

PSYC 309 - PSYCHOLOGY OF LANGUAGE
Short Title: PSYCHOLOGY OF LANGUAGE
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): PSYC 203
Description: Study of human and other animal communication. Includes the structure of human language, word meaning and semantic memory, psychological studies of syntax, bilingualism, language and thought, and language errors and disorders. Cross-list: LING 309.

PSYC 310 - PSYCHOLOGY OF AGING
Short Title: PSYCHOLOGY OF AGING
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): PSYC 202 or PSYC 203
Description: This course focuses on the psychology of aging through a biological, cognitive, and socio-emotional framework. Topics to be covered include how mental capacities change over time, especially memory processing, differences between normal and pathological aging, neurobiological changes with age, dementias such as Alzheimer's disease, and individual differences in aging. There will be an emphasis on discussion of recent literature and developing research ideas in the field of psychology of aging.
PSYC 315 - INTRODUCTION TO SEMANTICS
Short Title: INTRODUCTION TO SEMANTICS
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Introduction to basic approaches to the study of meaning in linguistics and related fields. Includes the cognitive representation of meaning, lexical categorization, conceptual structures, metaphor/metonymy, meaning change, pragmatic inference, and the relation of language and mind. Cross-list: LING 315. Recommended Prerequisite(s): LING 200 or ANTH 200.

PSYC 321 - DEVELOPMENTAL PSYCHOLOGY
Short Title: DEVELOPMENTAL PSYCHOLOGY
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): PSYC 202 or PSYC 203
Description: Study of behavioral changes with age in both human and nonhuman species. Recommended Prerequisite(s): PSYC 202 and PSYC 203.

PSYC 325 - LANGUAGE ACQUISITION
Short Title: LANGUAGE ACQUISITION
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): PSYC 202 or PSYC 203
Description: The aim of this course is to explore language development closely through a variety of theories and research findings. Students will become familiar with different theories concerning language development, and develop an understanding of relevant issues, theoretical positions and relevant methodologies in language development using critical thinking skills. Cross-list: LING 325.

PSYC 329 - PSYCHOLOGICAL TESTING
Short Title: PSYCHOLOGICAL TESTING
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): PSYC 339 or SOSC 302
Description: Offers a detailed examination of psychological test development and analysis. Topics include an exploration of different forms of psychological tests (e.g. intelligence, attitudes, personality, clinical), reliability and validity of tests, and practical issues in testing such as test bias (e.g. gender differences).

PSYC 330 - PERSONALITY THEORY AND RESEARCH
Short Title: PERSONALITY THEORY & RESEARCH
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): PSYC 340
Description: Examination of those aspects of personality emphasized by major theorists past and present.

PSYC 331 - PSYCHOLOGY OF GENDER
Short Title: PSYCHOLOGY OF GENDER
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Overview of research and theory on gender in psychology. Cross-list: SWGS 331.

PSYC 332 - ABNORMAL BEHAVIOR
Short Title: ABNORMAL BEHAVIOR
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): PSYC 202 or PSYC 203
Description: Study of the diagnosis and treatment of mental disorders.
PSYC 333 - MULTICULTURAL PSYCHOLOGY  
Short Title: MULTICULTURAL PSYCHOLOGY  
Department: Psychological Sciences  
Grade Mode: Standard Letter  
Course Type: Lecture  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Prerequisite(s): PSYC 101  
Description: This seminar examines psychological research and theories that address important issues in the lives of diverse individuals. Readings, discussions, and films will be used to explore the acculturation process; stereotyping, prejudice, discrimination and racism; racial/ethnic identity development; and multicultural competence. Students are required to participate in a service learning project. Recommended Prerequisite(s): PSYC 202 and PSYC 321.

PSYC 339 - STATISTICAL METHODS-PSYCHOLOGY  
Short Title: STATISTICAL METHODS-PSYCHOLOGY  
Department: Psychological Sciences  
Grade Mode: Standard Letter  
Course Type: Lecture/Laboratory  
Credit Hours: 4  
Restrictions: Enrollment is limited to students with a major in Cognitive Sciences or Psychology. Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Prerequisite(s): PSYC 101 or PSYC 203  
Description: Introduction to quantitative and computer methods applicable to the analysis of experimental and correlational data. Required for psychology majors. Psychology and Cognitive Science Majors only or Permission of Instructor(s).

PSYC 340 - RESEARCH METHODS - PSYCHOLOGY  
Short Title: RESEARCH METHODS - PSYCHOLOGY  
Department: Psychological Sciences  
Grade Mode: Standard Letter  
Course Type: Lecture  
Credit Hours: 4  
Restrictions: Enrollment is limited to students with a major in Cognitive Sciences or Psychology. Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Prerequisite(s): PSYC 101 and (PSYC 339 or SOSC 302)  
Description: A continuation of PSYC 339/SOSC 302, with emphasis on individual student experiments and the writing of research reports. Required for psychology majors. Psychology and Cognitive Science Majors only or Permission of Instructor(s).

PSYC 342 - COMPUTER APPLICATIONS IN PSYCHOLOGY  
Short Title: COMPUTER APPLICATIONS IN PSYCHOLOGY  
Department: Psychological Sciences  
Grade Mode: Standard Letter  
Course Type: Seminar  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Prerequisite(s): PSYC 203  
Description: The use of computers in psychological research and in usability engineering. The emphasis will be on dynamic HTML and JavaScript. Topics will include designing and running web-based psychology experiments and the use of web-based video. Graduate/Undergraduate Equivalency: PSYC 504. Mutually Exclusive: Cannot register for PSYC 342 if student has credit for PSYC 504.

PSYC 345 - HEALTH PSYCHOLOGY  
Short Title: HEALTH PSYCHOLOGY  
Department: Psychological Sciences  
Grade Mode: Standard Letter  
Course Type: Lecture  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Prerequisite(s): PSYC 101 and PSYC 202 and PSYC 340  
Description: Contemporary theory and research in health psychology, including topics such as health behaviors, stress and coping, pain and its management, heart disease, psychoneuroimmunology, chronic illness, and dying. Recommended Prerequisite(s): PSYC 332 and PSYC 340.

PSYC 346 - STRESS AND HEALTH ACROSS THE LIFESPAN  
Short Title: STRESS/HEALTH ACROSS LIFESPAN  
Department: Psychological Sciences  
Grade Mode: Standard Letter  
Course Type: Lecture  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Prerequisite(s): PSYC 101 and PSYC 202 and PSYC 203  
Description: Contemporary theory and research in health psychology, including topics such as health behaviors, stress and coping, pain and its management, heart disease, psychoneuroimmunology, chronic illness, and dying. Recommended Prerequisite(s): PSYC 332 and PSYC 340.
PSYC 351 - PSYCHOLOGY OF PERCEPTION
Short Title: PERCEPTION
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): PSYC 101 and PSYC 203
Description: An introductory survey of sensation and perception, both human and animal. Covers all sensory systems but focuses on vision and audition. Includes the philosophy of perception; measurement and methods; neuroanatomy of visual and auditory systems; computational models of vision, motion, depth, and color; illusions and perceptual organization; and perceptual development. Graduate/Undergraduate Equivalency. PSYC 521.

PSYC 353 - PSYCHOLOGY OF EMOTION AND MOTIVATION
Short Title: PSYC OF EMOTION & MOTIVATION
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): PSYC 101 and PSYC 202
Description: Study of motives and emotions as causes of human behavior; includes biological motives, aggression, emotions and emotional expression, and individual differences in motivation. Recommended Prerequisite(s): PSYC 203.

PSYC 354 - INTRODUCTION TO SOCIAL AND AFFECTIVE NEUROSCIENCE
Short Title: INTRO TO SOC/AFFECTIVE NEURO
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): PSYC 202
Description: This course will give students hands-on training in the research methods of social cognitive and affective neuroscience. Students will learn about the theoretical underpinnings of these allied fields; acquire, preprocess, and analyze human functional neuroimaging data (i.e., using fMRI); and interpret and write-up results. PSYC 354 or PSYC 362 may be taken concurrently.

PSYC 362 - COGNITIVE NEUROSCIENCE: EXPLORING THE LIVING BRAIN
Short Title: COGNITIVE NEUROSCIENCE
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): PSYC 203
Description: Survey of theory and research on how mental processes are carried out by the human brain, with an emphasis on relating measures of brain activity to cognitive functioning, methods surveyed included electro physiological recording techniques, functional imaging techniques and methods that involve lesioning or disrupting neural activity. Cross-list: NEUR 362.

PSYC 364 - COGNITIVE NEUROSCIENCE LAB
Short Title: COGNITIVE NEUROSCIENCE LAB
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Laboratory
Credit Hour: 1
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): PSYC 362 (may be taken concurrently) or NEUR 362 (may be taken concurrently)
Description: This course will give students hands-on training in the research methods of social cognitive and affective neuroscience. Students will learn about the theoretical underpinnings of these allied fields; acquire, preprocess, and analyze human functional neuroimaging data (i.e., using fMRI); and interpret and write-up results. PSYC 354 or PSYC 362 may be taken concurrently.
PSYC 370 - INTRODUCTION TO HUMAN FACTORS AND ERGONOMICS
Short Title: INTRO TO HUMAN FACTORS & ERGO
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): PSYC 203 and (PSYC 390 or LING 309 or LING 200 or ANTH 200) and (PSYC 362 or NEUR 362 or NEUR 380 or BIOE 380 or PSYC 380 or BIOC 380)
Description: Application of principles of psychology and human performance to the design of modern systems.

PSYC 375 - NEUROPSYCHOLOGY OF LANGUAGE AND MEMORY
Short Title: NEUROPSYCH OF LANGUAGE/MEMORY
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): PSYC 203 and (PSYC 390 or LING 309 or LING 200 or ANTH 200) and (PSYC 362 or NEUR 362 or NEUR 380 or BIOE 380 or PSYC 380 or BIOL 380)
Description: An introduction to the neural basis of language and memory, covering patient-based and neuroimaging approaches. Topics include the neural basis of speech perception, language comprehension, language production, short-term memory, working memory, semantic and episodic memory, and domain-specific memory (e.g., verbal, spatial, and emotional memory).

PSYC 380 - FUNDAMENTAL NEUROSCIENCE SYSTEMS
Short Title: NEUROSYSTEMS
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course will provide a broad overview of the brain’s neural systems that subserve perception, learning, and behavior. The course will be highly integrative with thematic content including functional organization of the nervous system, neural encoding and decoding, sensory systems, motor systems, and high-level concept processing. Cross-list: NEUR 380. Graduate/Undergraduate Equivalency: PSYC 584. Recommended Prerequisite(s): PSYC 101. Mutually Exclusive: Cannot register for PSYC 380 if student has credit for PSYC 584.

PSYC 385 - MEDITATION AND MINDFULNESS
Short Title: MEDITATION
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): PSYC 101 and PSYC 203
Description: This course provides an introduction to meditation and mindfulness practices, including various forms of meditation, guided meditation, mindfulness exercises, and the application of these practices in daily life. It aims to promote a deeper understanding of the mind-body relationship and its potential benefits for well-being, stress reduction, and personal growth. Cross-list: NEUR 380.

PSYC 409 - METHODS IN HUMAN-COMPUTER INTERACTION
Short Title: METHODS HUMAN-COMP INTERACTION
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): PSYC 101 and PSYC 203
Description: Introduction to methods for developing and testing user interfaces to computer systems. The focus is on web-based applications. Graduate/Undergraduate Equivalency: PSYC 609. Recommended Prerequisite(s): PSYC 370. Mutually Exclusive: Cannot register for PSYC 409 if student has credit for PSYC 609.

PSYC 411 - HISTORY OF PSYCHOLOGY
Short Title: HISTORY OF PSYCHOLOGY
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): PSYC 101 and PSYC 203
Description: Survey of evolution of psychological theory from the Greeks to the present. Includes development of scientific approaches to the study of human thought and behavior. Graduate/Undergraduate Equivalency: PSYC 511. Mutually Exclusive: Cannot register for PSYC 411 if student has credit for PSYC 511.

PSYC 420 - ELECTION SYSTEMS, TECHNOLOGIES, AND ADMINISTRATION
Short Title: ELECTION SYSTEMS
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): PSYC 101 and PSYC 203
Description: This multidisciplinary course will consider how elections are conducted to enhance participation, to accurately measure the will of the electorate, and to be sufficiently rigorous to convince all parties that the results are legitimate. This course will consider the design and evaluation of election technologies, ranging from voter registration through the polling booth and vote tabulation. This course will consider three questions: how do individual voters interact with the voting technology, how are voting technologies engineered to be accurate and secure, and how do the social aspects of voting fulfill democratic goals for elections? A central requirement for this course will be group research projects, many operating in our community, built around the November election.
Cross-list: COMP 435, POLI 420.
PSYC 430 - COMPUTATIONAL MODELING OF COGNITIVE PROCESSES
Short Title: COMP MODELING OF COG PROCESSES
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: A survey of computational approaches to modeling cognitive processes. The emphasis will be on recent production system models, but other approaches will also be covered. The course will involve evaluation of existing models and hands-on experience in modeling. Graduate/Undergraduate Equivalency: PSYC 543. Recommended Prerequisite(s): PSYC 203 and COMP 200 (or equivalent). Mutually Exclusive: Cannot register for PSYC 430 if student has credit for PSYC 543.

PSYC 431 - ADVANCED INDUSTRIAL/ORGANIZATIONAL PSYCHOLOGY SEMINAR
Short Title: ADVANCED I/O PSYCHOLOGY
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): PSYC 231
Description: An emphasis on reading original published research. Topics covered include personnel selection, training, motivation, job attitudes, and groups. Instructor Permission Required. Mutually Exclusive: Cannot register for PSYC 431 if student has credit for PSYC 530.

PSYC 432 - BRAIN AND BEHAVIOR
Short Title: BRAIN AND BEHAVIOR
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): PSYC 101 and PSYC 203 and PSYC 362
Description: An in-depth examination of the neural basis of higher mental functions in humans, including perception, attention, memory, motor skill, and language. Claims and controversies in cognitive neuroscience will be discussed. Recommended Prerequisite(s): PSYC 339 and PSYC 340.

PSYC 435 - POLLUTION AND PSYCHOLOGICAL DEVELOPMENT
Short Title: POLLUTION & PSYCHOLOGICAL DEV
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: In this course, we will consider research on the effects of various pollutants and toxic substances on the cognitive, social, and emotional development of children. Expert guest speakers will contribute to the course as well. Recommended Prerequisite(s): PSYC 339 and PSYC 340.

PSYC 436 - ADVANCED ORGANIZATIONAL PSYCHOLOGY
Short Title: ADVANCED ORGANIZATIONAL PSYC
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): PSYC 231 and PSYC 431
Description: Contemporary theory and research in organizational psychology, including topics such as motivation, leadership, job satisfaction, occupational stress, social cognition in work organizations, and group processes. Graduate/Undergraduate Equivalency: PSYC 636. Mutually Exclusive: Cannot register for PSYC 436 if student has credit for PSYC 636.

PSYC 438 - GROUP DYNAMICS
Short Title: GROUP DYNAMICS
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course examines current psychological theory and literature concerning intra- and inter-group phenomena within organizational contexts. This course will cover topics such as the unique methodological challenges of studying group-level phenomena; individual-, group-, and organizational-level inputs; group processes; and the assessment of group-level outcomes. Graduate/Undergraduate Equivalency: PSYC 551. Recommended Prerequisite(s): PSYC 339 and PSYC 340 and should be majoring in Psychology or Business. Mutually Exclusive: Cannot register for PSYC 438 if student has credit for PSYC 551.

PSYC 439 - ADVANCED STATISTICAL METHODS FOR PSYCHOLOGY UNDERGRADUATES
Short Title: ADV STATISTICAL METHODS-PSYC
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): PSYC 339 or SOSC 302
Description: This course is intended as a second course in statistics for psychology and the social sciences. It builds on PSYC 339/SOSC 302. Advanced factorial ANOVA designs, mixed between- and within-subject designs, and multiple regression will be covered. This course is primarily for advanced psychology undergraduates contemplating enrollment in graduate school.
PSYC 440 - RESEARCH SEMINAR: INDUSTRIAL/ORGANIZATIONAL PSYCHOLOGY
Short Title: RESEARCH IN I/O PSYCHOLOGY
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): PSYC 231
Description: An examination of selected topics in industrial/organizational psychology, focusing on published and ongoing research by contemporary scholars. Topics will vary. Instructor Permission Required.

PSYC 441 - HUMAN-COMPUTER INTERACTION
Short Title: HUMAN-COMPUTER INTERACTION
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): PSYC 101 and PSYC 203
Description: Study of the design and evaluation of interactive computing systems for human use and the major phenomena surrounding them. Mutually Exclusive: Cannot register for PSYC 441 if student has credit for PSYC 341/PSYC 541.

PSYC 445 - ADVANCED SEMINAR IN CLINICAL PSYCHOLOGY
Short Title: ADV SEM IN CLINICAL PSYCHOLOGY
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): PSYC 310 and (PSYC 339 or SOSC 302 or STAT 280 or STAT 300 or STAT 310 or STAT 315 or DSCI 301 or ECON 307)
Description: Study of the higher mental processes. Includes problem solving, judgment, decision making, and reasoning. Graduate/Undergraduate Equivalency: PSYC 527. Mutually Exclusive: Cannot register for PSYC 461 if student has credit for PSYC 360/PSYC 527.

PSYC 442 - EMOTION REGULATION
Short Title: EMOTION REGULATION
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Review of contemporary psychology research on emotion regulation, including conceptual foundations, neurobiological bases, individual differences, involvement in psychopathology, and links to translational research approaches relevant to health psychology. Graduate/Undergraduate Equivalency: PSYC 552. Mutually Exclusive: Cannot register for PSYC 452 if student has credit for PSYC 552.

PSYC 444 - ADVANCED SEMINAR IN HEALTH PSYCHOLOGY
Short Title: ADV SEM IN HEALTH PSYCHOLOGY
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment limited to students with a class of Junior or Senior. Enrollment is limited to students with a major in Psychology. Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): PSYC 202 and PSYC 332 and (PSYC 339 or SOSC 302) and PSYC 340
Description: Consideration of research on psychological factors and health, with special consideration to the role of health beliefs in people's practice and nonpractice of health, illness, and sick-role behaviors. Topics will vary. Repeatable for credit with Permission of Department.

PSYC 447 - RESEARCH SEMINAR: PSYCHOLOGICAL SCIENCES
Short Title: RESEARCH PSYCHOLOGICAL SCIENCES
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): PSYC 203 and (PSYC 339 or SOSC 302 or STAT 280 or STAT 300 or STAT 310 or STAT 315 or DSCI 301 or ECON 307)
Description: Advanced coverage of human computer interfaces that are not necessarily graphical in nature. The course covers haptic, gesture, locomotion, auditory, voice olfactory, taste interfaces. Impoverished GUIs (small screen) are investigated, as are interactive voice response systems and complex interfaces that are multi-model. Graduate/Undergraduate Equivalency: PSYC 662. Recommended Prerequisite(s): PSYC 370. Mutually Exclusive: Cannot register for PSYC 462 if student has credit for PSYC 662.
### PSYC 463 - MEDICAL HUMAN FACTORS
**Short Title:** MEDICAL HUMAN FACTORS  
**Department:** Psychological Sciences  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
**Course Level:** Undergraduate Upper-Level  
**Description:** Advanced coverage of the human factors that are specific to medical systems. Topics include medical decision making and diagnosis errors, surgical human factors, medical robots, surgical simulators, and general medical equipment design. Macro-ergonomics of hospital systems, electronic medical records and computerized physician order entry systems are also covered. Graduate/Undergraduate Equivalency: PSYC 663. Recommended Prerequisite(s): PSYC 370. Mutually Exclusive: Cannot register for PSYC 463 if student has credit for PSYC 663.

### PSYC 464 - USABILITY ASSESSMENT
**Short Title:** USABILITY ASSESSMENT  
**Department:** Psychological Sciences  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
**Course Level:** Undergraduate Upper-Level  
**Description:** This course covers all of the aspects of specifying, planning, executing, and reporting usability assessments on products, services and systems. Formative and summative assessments are covered, as are “discount” usability methods. This course is project based, with students performing usability assessments as part of an engineering team that is developing products for deployment. Graduate/Undergraduate Equivalency: PSYC 664. Recommended Prerequisite(s): PSYC 370. Mutually Exclusive: Cannot register for PSYC 464 if student has credit for PSYC 664.

### PSYC 465 - OLFACTORY PERCEPTION
**Short Title:** OLFACTORY PERCEPTION  
**Department:** Psychological Sciences  
**Grade Mode:** Standard Letter  
**Course Type:** Seminar  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
**Course Level:** Undergraduate Upper-Level  
**Prerequisite(s):** PSYC 101  
**Description:** Overview of theories and research related to olfaction. Special topics include olfactory memory, the effect of emotion and cognition on olfaction, olfaction as a channel of communication, sensory integration, and ERP and fMRI studies on olfaction and its relationship with other sensory systems. Graduate/Undergraduate Equivalency: PSYC 565. Mutually Exclusive: Cannot register for PSYC 465 if student has credit for PSYC 565.

### PSYC 470 - ENGINEERING PSYCHOLOGY
**Short Title:** ENGINEERING PSYCHOLOGY  
**Department:** Psychological Sciences  
**Grade Mode:** Standard Letter  
**Course Type:** Seminar  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
**Course Level:** Undergraduate Upper-Level  
**Prerequisite(s):** PSYC 370  
**Description:** This is an advanced human factors course aimed at students who have taken a basic course in human factors or human-computer interaction and are looking for greater depth. Graduate/Undergraduate Equivalency: PSYC 540. Mutually Exclusive: Cannot register for PSYC 470 if student has credit for PSYC 540.

### PSYC 475 - STEREOTYPING AND PREJUDICE
**Short Title:** STEREOTYPING AND PREJUDICE  
**Department:** Psychological Sciences  
**Grade Mode:** Standard Letter  
**Course Type:** Seminar  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
**Course Level:** Undergraduate Upper-Level  
**Prerequisite(s):** PSYC 202  
**Description:** Consideration of modern research on stereotypes of, prejudice against, and discrimination toward racial, gender, and stigmatized groups. Recommended Prerequisite(s): PSYC 203 and 340.

### PSYC 477 - SPECIAL TOPICS
**Short Title:** SPECIAL TOPICS  
**Department:** Psychological Sciences  
**Grade Mode:** Standard Letter  
**Course Type:** Internship/Practicum, Laboratory, Lecture, Seminar, Lecture/Laboratory  
**Credit Hours:** 1-4  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
**Course Level:** Undergraduate Upper-Level  
**Description:** Topics and credit hours may vary each semester. Contact department for current semester’s topic(s). Repeatable for Credit.

### PSYC 480 - ADVANCED TOPICS
**Short Title:** ADVANCED TOPICS  
**Department:** Psychological Sciences  
**Grade Mode:** Standard Letter  
**Course Type:** Seminar  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
**Course Level:** Undergraduate Upper-Level  
**Prerequisite(s):** PSYC 101 and (PSYC 202 (may be taken concurrently) or PSYC 203)  
**Description:** Topics will vary. Please see individual instructor for prerequisite requirements. Repeatable for different topics. Repeatable for Credit.
PSYC 485 - UNDERGRADUATE SUPERVISED RESEARCH
Short Title: UG SUPERVISED RESEARCH
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Research
Credit Hours: 1-6
Restrictions: Enrollment is limited to students with a major in Cognitive Sciences or Psychology. Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Supervised empirical research. Research paper required. Sponsorship by faculty member required. Instructor Permission Required. Recommended Prerequisite(s): PSYC 339, PSYC 340. Repeatable for Credit.

PSYC 487 - FUNCTIONAL HUMAN NEUROANATOMY
Short Title: FUNCTIONAL NEUROANATOMY
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): PSYC 203
Description: Anatomy and function of major structures and circuits of the human central nervous system in health and disease. Gross structure and function of the human brain, spinal cord, and cranial nerves are emphasized. Students will gain both an appreciation of the brain’s three-dimensional architecture and a thorough understanding of the functions of major brain systems. Additionally, there is a focus on how sensory signals are processed from a succession of lower centers on up through successive cortical regions. Materials include human brain samples as well as images of human brain sections, 3-D models and animations, as well as CT, PET and MRI images. Instructor Permission Required. Graduate/Undergraduate Equivalency: PSYC 587. Mutually Exclusive: Cannot register for PSYC 487 if student has credit for PSYC 587.

PSYC 488 - SUPERVISED READING
Short Title: SUPERVISED READING
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Independent Study
Credit Hours: 1-6
Restrictions: Enrollment is limited to students with a major in Cognitive Sciences or Psychology. Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Supervised reading of books and empirical papers on a topic of mutual interest to students and faculty. Term paper required. Sponsorship by faculty member required. Instructor Permission Required. Recommended Prerequisite(s): PSYC 339 and PSYC 340. Repeatable for Credit.

PSYC 495 - SUMMER INTERNSHIP
Short Title: SUMMER INTERNSHIP
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Internship/Practicum
Credit Hours: 3
Restrictions: Enrollment is limited to students with a major in Psychology. Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Provides enrollment for various department summer internships. Instructor Permission Required. Repeatable for Credit.

PSYC 499 - HONORS THESIS
Short Title: HONORS THESIS
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Independent Study
Credit Hours: 1-6
Restrictions: Enrollment is limited to students with a major in Human-Comp Inter & Humn Factrs or Psychology. Enrollment is limited to Graduate level students.
Course Level: Graduate Level
Prerequisite(s): (PSYC 339 or SOSC 302) and PSYC 340
Description: Sponsorship by faculty member required. Students must apply for the Honors Program. Instructor Permission Required. Repeatable for Credit.

PSYC 502 - ADVANCED PSYCHOLOGICAL STATISTICS I
Short Title: ADVANCED PSYC STATISTICS I
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 4
Restrictions: Enrollment is limited to students with a major in Human-Comp Inter & Humn Factrs or Psychology. Enrollment is limited to Graduate level students.
Course Level: Graduate Level
Description: Introduction to inferential statistics, with emphasis on analysis of variance. Students who do not meet registration requirements as Graduate and Psychology or MHCIF (Master in Human-Computer Interaction and Human Factors) Majors must receive instructor permission to register. Cross-list: STAT 509.

PSYC 503 - ADVANCED PSYCHOLOGICAL STATISTICS II
Short Title: ADVANCED PSYC STATISTICS II
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): PSYC 502 or STAT 509
Description: A continuation of PSYC 502, focusing on multiple regression. Other multivariate techniques and distribution-free statistics are also covered. Cross-list: STAT 510.
PSYC 504 - COMPUTER APPLICATIONS IN PSYCHOLOGY
Short Title: COMPUTER APPLICATIONS IN PSYCHOLOGY
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: The use of computers in psychological research and in usability engineering. The emphasis will be on dynamic HTML and JavaScript. Topics will include designing and running web-based psychology experiments and the use of web-based video. Graduate/Undergraduate Equivalency: PSYC 342. Mutually Exclusive: Cannot register for PSYC 504 if student has credit for PSYC 342.

PSYC 507 - RESEARCH METHODS
Short Title: RESEARCH METHODS
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Graduate-level treatment of a wide range of laboratory and field research methodologies.

PSYC 511 - HISTORY AND SYSTEMS OF PSYCHOLOGY
Short Title: HISTORY & SYSTEMS OF PSYCHOLOGY
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Survey of the evolution of psychological theory from the Greeks to the present. Includes development of scientific approaches to the study of human thought and behavior. Graduate/Undergraduate Equivalency: PSYC 411. Mutually Exclusive: Cannot register for PSYC 511 if student has credit for PSYC 411.

PSYC 520 - FOUNDATIONS OF COGNITIVE PSYCHOLOGY
Short Title: FOUNDATIONS OF COGNITIVE PSYCHOLOGY
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: An introduction to the basic topics in cognitive psychology, including perception, memory, psycholinguistics, concept formation, problem solving, and decision making.

PSYC 521 - PSYCHOLOGY OF PERCEPTION
Short Title: PSYCHOLOGY OF PERCEPTION
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: An introductory survey of sensation and perception, both human and animal. Covers all sensory systems but focuses on vision and audition. Includes the philosophy of perception; measurement and methods; neuroanatomy of visual and auditory systems; computational models of vision, motion, depth, and color; illusions and perceptual organization; and perceptual development. Graduate/Undergraduate Equivalency: PSYC 351.

PSYC 522 - INFORMATION PROCESSING AND ATTENTION
Short Title: INFO PROCESSING & ATTENTION
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: An exploration of topics in attention, including information overload, selective attention, response conflict, and automatic/unconscious and controlled/conscious processes. The neural mechanisms underlying these processes will also be discussed.

PSYC 524 - MEMORY
Short Title: MEMORY
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Overview of issues and research in remembering and forgetting. Graduate/Undergraduate Equivalency: PSYC 308.

PSYC 525 - PSYCHOLINGUISTICS
Short Title: PSYCHOLINGUISTICS
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Study of the psychology of language. Includes the study of speech production, reading, syntax, meaning, bilingualism, language and thought, and language errors and disorders.

PSYC 527 - REASONING, DECISION MAKING, PROBLEM SOLVING
Short Title: REASONING, DECISION MAKING, PROB SOLVING
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: The study of higher mental processes. Includes problem solving, judgment, decision making, and reasoning. Graduate/Undergraduate Equivalency: PSYC 461. Mutually Exclusive: Cannot register for PSYC 527 if student has credit for PSYC 461.
PSYC 529 - COGNITIVE RESEARCH SEMINAR
Short Title: COGNITIVE RESEARCH SEMINAR
Department: Psychological Sciences
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Seminar
Credit Hours: 1-3
Restrictions: Enrollment is limited to students with a major in Psychology. Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: A weekly student-staff seminar on current and recent research about mental phenomena. Repeatable for Credit.

PSYC 530 - FOUNDATIONS OF I-O PSYCHOLOGY
Short Title: FOUNDATIONS OF I-O PSYCHOLOGY
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Graduate-level introduction to the study of human behavior in the work setting. Mutually Exclusive: Cannot register for PSYC 530 if student has credit for PSYC 431.

PSYC 531 - HF/HCI RESEARCH SEMINAR
Short Title: HF/HCI RESEARCH SEMINAR
Department: Psychological Sciences
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Seminar
Credit Hours: 1-3
Restrictions: Enrollment is limited to students with a major in Human-Comp Inter & Humn Factrs or Psychology. Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: A weekly student-staff seminar on various human factors and human-computer interaction topics. Repeatable for Credit.

PSYC 532 - HEALTH RESEARCH SEMINAR
Short Title: HEALTH RESEARCH SEMINAR
Department: Psychological Sciences
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Seminar
Credit Hours: 1-3
Restrictions: Enrollment is limited to students with a major in Psychology. Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: A weekly student-staff seminar on current and recent health and emotion-related research. Repeatable for Credit.

PSYC 533 - I-O PSYCHOLOGY RESEARCH SEMINAR
Short Title: I-O PSYCHOLOGY RESEARCH SEM
Department: Psychological Sciences
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Seminar
Credit Hours: 1-3
Restrictions: Enrollment is limited to students with a major in Psychology. Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: A weekly student-staff seminar on various industrial-organizational psychology topics. Repeatable for Credit.

PSYC 535 - HUMAN FACTORS/ERGONOMICS
Short Title: HUMAN FACTORS/ERGONOMICS
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Broad overview of the science and profession of human factors/ergonomics. Emphasis is on discussion of literature and presentations of recommendations to applied problems.

PSYC 536 - I-O PSYCHOLOGY RESEARCH SEMINAR
Short Title: I-O PSYCHOLOGY RESEARCH SEM
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: A weekly student-staff seminar on current and recent research about mental phenomena. Repeatable for Credit.

PSYC 540 - FOUNDATIONS OF ENGINEERING PSYCHOLOGY
Short Title: ENGINEERING PSYCHOLOGY
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This is an advanced human factors course aimed at students who have taken a basic course in human factors or human-computer interaction and are looking for greater depth. Graduate/Undergraduate Equivalency: PSYC 470. Mutually Exclusive: Cannot register for PSYC 540 if student has credit for PSYC 470.

PSYC 541 - HUMAN-COMPUTER INTERACTION
Short Title: HUMAN-COMPUTER INTERACTION
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Study of the design and evaluation of interactive computing systems for human use and the major phenomena surrounding them. Mutually Exclusive: Cannot register for PSYC 541 if student has credit for PSYC 341/PSYC 441.

PSYC 543 - COMPUTATIONAL MODELING OF COGNITIVE PROCESSES
Short Title: COMP MODELING OF COG PROCESSES
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: A survey of computational approaches to modeling cognitive processes. The emphasis will be on recent production system models, but other approaches will also be covered. The course will involve evaluation of existing models and hands-on experience in modeling. Graduate/Undergraduate Equivalency: PSYC 430. Mutually Exclusive: Cannot register for PSYC 543 if student has credit for PSYC 430.
PSYC 546 - PSYCHONEUROIMMUNOLOGY
Short Title: PSYCHONEUROIMMUNOLOGY
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to students with a major in Psychology. Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Psychoneuroimmunology research

PSYC 547 - FOUNDATIONS OF HEALTH PSYCHOLOGY
Short Title: FOUNDATIONS-HEALTH PSYCHOLOGY
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to students with a major in Psychology. Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Foundations of Health Psychology research

PSYC 548 - INTERVENTIONS
Short Title: INTERVENTIONS
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course will prepare students to conduct high-impact research across the translational continuum in the social, psychobiological, and behavioral sciences. In this course, students will gain a thorough grounding in the conduct of randomized controlled trials (RCTs) and develop competence in the planning, design, and execution of clinical trials involving behavioral interventions. After taking this course, students will be able to plan and conduct longitudinal observational studies and clinical trials that have the potential to change practice guidelines, health care policies, and third-party coverage for health-related outcomes. The first two weeks of the course will cover causal inference in experimental and observational studies and address various implications of counterfactual thinking. The remainder of the course will provide training in planning, designing, and conducting translational research with a focus on randomized controlled trials of health-related behavioral interventions. Each student will develop and write a research grant proposal that will serve as the course “Final.” Recommended Prerequisite(s): This course has no specific course prerequisites. It is designed to be most useful to students with knowledge of basic (i.e., undergraduate level statistics and research methods) that are pertinent to the social, behavioral, and biomedical sciences.
Course URL: canvas.rice.edu/courses/33575 (http://canvas.rice.edu/courses/33575/)

PSYC 549 - PSYCHOPATHOLOGY, DEVELOPMENT, & AGING
Short Title: PSYCHOPATHOLOGY,DEVELOPMENT, AGING
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course will take a developmental approach to understand psychopathology and aging. We will seek to evaluate the factors contributing to psychopathology that emerge across the lifespan. We will adopt a biopsychosocial model to address the roots of normal and abnormal adult development, & aging. This course will begin with an overview of the field; we will then work toward a sophisticated understanding anxiety disorders, aging & cognitive disorders, mood disorders, factitious and dissociative disorders, and personality disorders. Although we will cover nosological models of psychopathology, we will primarily focus on etiology.

PSYC 550 - FOUNDATIONS OF SOCIAL PSYCHOLOGY
Short Title: FOUNDATIONS OF SOCIAL PSYC
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Review of theories of social psychology with an emphasis on current empirical research.

PSYC 551 - GROUP DYNAMICS
Short Title: GROUP DYNAMICS
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): PSYC 530
Description: This course examines current psychological theory and literature concerning intra- and inter-group phenomena within organizational contexts. This course will cover topics such as the unique methodological challenges of studying group-level phenomena; individual-, group-, and organizational-level inputs; group processes; and the assessment of group-level outcomes. Graduate/Undergraduate Equivalency: PSYC 438. Mutually Exclusive: Cannot register for PSYC 551 if student has credit for PSYC 438.

PSYC 552 - EMOTION REGULATION
Short Title: EMOTION REGULATION
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to students with a major in Psychology. Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Review of contemporary psychology research on emotion regulation, including conceptual foundations, neurobiological bases, individual differences, involvement in psychopathology, and links to translational research approaches relevant to health psychology. Graduate/Undergraduate Equivalency: PSYC 452. Mutually Exclusive: Cannot register for PSYC 552 if student has credit for PSYC 452.
PSYC 560 - PSYCHOLOGY PRESENTATIONS
Short Title: PSYCHOLOGY PRESENTATIONS
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Internship/Practicum
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Practicum on oral psychology presentation.

PSYC 561 - TEACHING IN PSYCHOLOGY
Short Title: TEACHING IN PSYCHOLOGY
Department: Psychological Sciences
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Internship/Practicum
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Assistance in the teaching of undergraduate and occasionally graduate courses in psychology. Repeatable for Credit.

PSYC 563 - COGNITIVE PSYCHOLOGY INTERNSHIP
Short Title: COGNITIVE PSYCS INTERNSHIP
Department: Psychological Sciences
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Internship/Practicum
Credit Hours: 1-9
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Supervised internship in cognitive psychology. Instructor Permission Required. Repeatable for Credit.

PSYC 564 - COGNITIVE NEUROSCIENCE LAB
Short Title: COGNITIVE NEUROSCIENCE LAB
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Laboratory
Credit Hour: 1
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: The objective is to equip the students of PSYC/NEUR 362 the tools on how to apply cognitive neuroscience techniques to health or clinical topics and to investigate sensorimotor and cognitive measures in a human model. Cross-list: NEUR 564. Graduate/Undergraduate Equivalency. PSYC 364. Mutually Exclusive: Cannot register for PSYC 564 if student has credit for PSYC 364.

PSYC 565 - HUMAN OLFACTION
Short Title: HUMAN OLFACITION
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Overview of theories and research related to olfaction. Special topics include olfactory memory, the effect of emotion and cognition on olfaction, olfaction as a channel of communication, sensory integration, and ERP and fMRI studies on olfaction and its relationship with other sensory systems. Graduate/Undergraduate Equivalency: PSYC 465. Mutually Exclusive: Cannot register for PSYC 565 if student has credit for PSYC 465.

PSYC 571 - FIRST-YEAR PROJECT
Short Title: FIRSTYEAR PROJECT
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Research
Credit Hours: 3
Restrictions: Enrollment is limited to students with a major in Psychology. Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Individual research project undertaken in the first year of the graduate program. Repeatable for Credit.

PSYC 572 - SECOND-YEAR PROJECT
Short Title: SECOND-YEAR PROJECT
Department: Psychological Sciences
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Research
Credit Hours: 3
Restrictions: Enrollment is limited to students with a major in Psychology. Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Individual research project undertaken during the second year of the graduate program. Repeatable for Credit.

PSYC 573 - NON-THESIS GRADUATE RESEARCH
Short Title: NON-THESIS GRADUATE RESEARCH
Department: Psychological Sciences
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Research
Credit Hours: 1-15
Restrictions: Enrollment is limited to students with a major in Psychology. Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Individual research prior to achieving candidacy. Repeatable for Credit.

PSYC 574 - INTRODUCTION TO COGNITIVE NEUROSCIENCE
Short Title: INTRO COGNITIVE NEUROSCIENCE
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: An introductory graduate-level overview of cognitive neuroscience. The course will cover basics in history, neuroanatomy, methods of cognitive neuroscience, sensation and perception, control of action, learning and memory, emotion, language, attention, drugs and cognition, impulsivity, cognitive control, social cognition, and neurobiology of disease. This course is usually taught at the Texas Medical Center. Instructor Permission Required. Cross-list: NEUR 508.
PSYC 575 - ADVANCED COGNITIVE NEUROSCIENCE: ATTENTION AND PERCEPTION
Short Title: ATTENTION AND PERCEPTION
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Overview of neuropsychological and cognitive neuroscience approaches to higher mental functions including sensation and perception, attention, motor control, and neuroplasticity. Other topics include basic neuroanatomy, experimental and clinical investigative methods, and the historical and philosophical context of contemporary neuroscience. Cross-list: NEUR 501.
Course URL: www.ruf.rice.edu/~neurosci

PSYC 576 - ADVANCED COGNITIVE NEUROSCIENCE: HIGHER MENTAL FUNCTIONS
Short Title: HIGHER MENTAL FUNCTIONS
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Overview of neuropsychological and neuroimaging approaches to higher mental functions, including language, memory, executive functions, reasoning, and numerical processing. Cross-list: NEUR 502.
Course URL: www.ruf.rice.edu/~neurosci

PSYC 577 - INTRODUCTION TO FUNCTIONAL NEUROANATOMY
Short Title: FUNCTIONAL NEUROANATOMY
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 2-3
Restrictions: Enrollment is limited to students with a major in Psychology. Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Anatomy and function of components of the nervous system with an emphasis on the central nervous system. Usually taught at the Texas Medical Center. Instructor Permission Required.

PSYC 578 - COGNITIVE NEUROPSYCHOLOGY: THEORIES AND METHODS
Short Title: COGNEURO: THEORIES AND METHODS
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course explores different approaches in the field of Cognitive Neuropsychology. Topics include single-case studies, case series, voxel-lesion symptom mapping and computational neuropsychology. We will discuss how to do research with each of these techniques, how to draw inferences from neuropsychological data and critiques of the methodology.

PSYC 580 - DEVELOPMENTAL COGNITIVE NEUROSCIENCE
Short Title: DEVELOPMENTAL COG NEUROSCIENCE
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Seminar focusing on the neural/biological bases of both normal and abnormal human development through a survey of recent research in developmental cognitive neuroscience. Topics include perceptual, motive, cognitive, and language development as well as experimental research methods for studying the developing brain.

PSYC 581 - VISION SCIENCE
Short Title: VISION SCIENCE
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Advanced graduate seminar in the psychology of vision, covering the neural, psychophysical, and phenomenological approaches to visual perception.

PSYC 582 - EARLY SENSORY, PERCEPTUAL AND ATTENTIONAL DEVELOPMENT
Short Title: EARLY SENSORY PERCEPTION
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This is a survey course for graduate students interested in the development of sensory systems, perception, and attention. There will be original empirical and theoretical readings from the literature on the development of these functions primarily during infancy. Neurobiological underpinnings for these functions will be debated and discussed.

PSYC 583 - THEORY, CONTENT, AND EXECUTION IN COGNITIVE NEUROSCIENCE
Short Title: COGNEURO THEORY/CONTENT/EXECUT
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 2
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: The particular combination of issues in cognitive neuroscience in any one course will vary depending on the background and needs of the students registered for that course and the nature of the important articles in journals covering these areas. Instructor Permission Required. Repeatable for Credit.
PSYC 584 - FUNDAMENTAL NEUROSCIENCE SYSTEMS
Short Title: NEUROSYSTEMS
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course will provide a broad overview of the brain’s neural systems that subserve perception, learning, and behavior. This course will be highly integrative with thematic content including functional organization of the nervous system, neural encoding and decoding, sensory systems, motor systems, and high-level concept processing. Graduate/Undergraduate Equivalency: PSYC 380. Mutually Exclusive: Cannot register for PSYC 584 if student has credit for PSYC 380.

PSYC 585 - FUNCTIONAL MAGNETIC RESONANCE IMAGING LABORATORY
Short Title: FMRI LABORATORY
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Laboratory course that provides comprehensive introduction to the practical aspects of planning conducting and analyzing Blood Oxygen Dependent Functional Magnetic Resonance Imaging (BOLD fMRI) data. BOLD fMRI is a methodology that allows non-invasive measurements of the neural processing underlying human perception/cognition. Course taught at Baylor College of Medicine for Advanced fMRI.

PSYC 586 - SOCIAL AND AFFECTIVE NEUROSCIENCE
Short Title: SOCIAL AND AFFECTIVE NEURO
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to students with a major in Psychology. Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Review of the field of social and affective neuroscience, including conceptual foundations and methodology. Review and discussion of contemporary research on the neurobiological supporting social cognition and emotion in both healthy and affectively-disordered populations.

PSYC 587 - FUNCTIONAL HUMAN NEUROANATOMY
Short Title: FUNCTIONAL NEUROANATOMY
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Anatomy and function of major structures and circuits of the human central nervous system in health and disease. Gross structure and function of the human brain, spinal cord, and cranial nerves are emphasized. Students will gain both an appreciation of the brain’s three-dimensional architecture and a thorough understanding of the functions of major brain systems. Additionally, there is a focus on how sensory signals are processed from a succession of lower centers on up through successive cortical regions. Materials include human brain samples as well as images of human brain sections, 3-D models and animations, as well as CT, PET and MRI images. Graduate/Undergraduate Equivalency: PSYC 487. Mutually Exclusive: Cannot register for PSYC 587 if student has credit for PSYC 487.

PSYC 590 - ADVANCED TOPICS IN NEUROSCIENCE
Short Title: ADVANCED TOPICS - NEUROSCIENCE
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Topics will vary. Repeatable for Credit.

PSYC 595 - HUMAN-COMPUTER INTERACTION AND HUMAN FACTORS PROFESSIONAL MASTER'S INTERNSHIP
Short Title: HCI&HF PROF MASTERS INTERNSHIP
Department: Psychological Sciences
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Internship/Practicum
Credit Hour: 1
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): PSYC 503
Description: Supervised internship in Human-Computer Interaction and Human Factors Professional Master's Program. Instructor Permission Required.

PSYC 600 - HCI & HF PROFESSIONAL MASTER'S CAPSTONE PROJECT
Short Title: HCI&HF PROF MASTER'S CAPSTONE
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Research
Credit Hours: 6
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): PSYC 503
Description: This course allows students to integrate all of the knowledge they have gained in their HCI/HF professional master’s coursework in the form of a capstone project in the area of human-computer interaction and human factors. The capstone may be either research focused or application focused. Department Permission Required.
PSYC 601 - MULTIVARIATE STATISTICS
Short Title: MULTIVARIATE STATISTICS
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course provides an overview of a wide range of concepts and skills for conducting data analysis on multivariate data sets encountered in psychology. Issues involve preparing the data set, selecting and conducting the appropriate analysis, interpreting the output from statistical programs, and presenting complex analyses and results in a clear manner.

PSYC 602 - PSYCHOMETRICS
Short Title: PSYCHOMETRICS
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Test theory, including reliability, validity, item response theory, and generalizability theory. In addition, the course offers hands-on experience with analysis software and discussion of practical issues such as test bias, item writing, and scale construction.

PSYC 609 - METHODS IN HUMAN-COMPUTER INTERACTION
Short Title: METHODS HUMAN-COMP INTERACTION
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Introduction to methods for developing and testing user interfaces to computer systems. The focus is on web-based applications. Graduate/Undergraduate Equivalency: PSYC 409. Mutually Exclusive: Cannot register for PSYC 609 if student has credit for PSYC 409.

PSYC 620 - ADVANCED TOPICS IN COGNITIVE PSYCHOLOGY
Short Title: ADV TOPICS - COGNITIVE PSYC
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Topics will vary. Repeatable for Credit.

PSYC 621 - TOPICS IN MEMORY
Short Title: TOPICS IN MEMORY
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Topics will vary. Repeatable for Credit.

PSYC 622 - TOPICS IN PSYCHOLINGUISTICS
Short Title: TOPICS IN PSYCHOLINGUISTICS
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Topics will vary. Repeatable for Credit.

PSYC 624 - SOCIAL/ORGANIZATIONAL PSYCHOLOGY RESEARCH SEMINAR
Short Title: SOCIAL/ORG PSYC RESEARCH SEM
Department: Psychological Sciences
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Seminar
Credit Hours: 1-3
Restrictions: Enrollment is limited to students with a major in Psychology. Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Weekly seminar to discuss recent research in social/organizational psychology. Repeatable for Credit.

PSYC 625 - COGNITIVE NEUROSCIENCE RESEARCH SEMINAR
Short Title: COGNEURO RESEARCH SEM
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 1-3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Weekly seminar to discuss recent research in cognitive neuroscience. Instructor Permission Required. Repeatable for Credit.

PSYC 626 - HUMAN FACTORS/HUMAN-COMPUTER INTERACTION RESEARCH SEMINAR
Short Title: HF/HCI RESEARCH SEMINAR
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 1-3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Weekly seminar to discuss recent research in human factors/human-computer interaction. Instructor Permission Required. Repeatable for Credit.

PSYC 627 - INDUSTRIAL/ORGANIZATIONAL PSYCHOLOGY RESEARCH SEMINAR
Short Title: I/O PSYC RESEARCH SEMINAR
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 1-3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Weekly seminar to discuss recent research in industrial/organizational psychology. Instructor Permission Required. Repeatable for Credit.
PSYC 628 - MEMORY RESEARCH SEMINAR
Short Title: MEMORY RESEARCH SEMINAR
Department: Psychological Sciences
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Seminar
Credit Hour: 1
Restrictions: Enrollment is limited to students with a major in Psychology. Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Weekly seminar to discuss recent research in human memory. Repeatable for Credit.

PSYC 629 - PSYCHOLINGUISTICS RESEARCH SEMINAR
Short Title: PSYCHOLINGUISTICS SEMINAR
Department: Psychological Sciences
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Seminar
Credit Hour: 1
Restrictions: Enrollment is limited to students with a major in Psychology. Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Weekly seminar to discuss recent research in psycholinguistics. Repeatable for Credit.

PSYC 630 - ADVANCED TOPICS IN I/O
Short Title: ADVANCED TOPICS IN I/O
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): PSYC 530
Description: Topics will vary. Repeatable for different topics. Repeatable for Credit.

PSYC 631 - FOUNDATIONS OF INDIVIDUAL DIFFERENCES
Short Title: INDIVIDUAL DIFFERENCES
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Applied psychologists attempt to build theoretical and empirical models that effectively explain how variation in individual differences (e.g., cognitive ability, personality, motivation, interests) relates to variation in practically relevant outcomes (e.g., training effectiveness, job performance, response to clinical treatment). This course covers major theoretical and methodological approaches to this end.

PSYC 632 - LEADERSHIP
Short Title: LEADERSHIP
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Examination of the major psychological approaches to the study of leadership. Emphasis is on theory and practice in formal organizations.

PSYC 633 - ORGANIZATIONAL PSYCHOLOGY
Short Title: ORGANIZATIONAL PSYCHOLOGY
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): PSYC 530
Description: Contemporary theory and research in organizational psychology, including topics such as motivation, leadership, job satisfaction, occupational stress, social cognition in work organizations, and group processes. Graduate/Undergraduate Equivalency: PSYC 436. Mutually Exclusive: Cannot register for PSYC 636 if student has credit for PSYC 436.

PSYC 634 - PERSONNEL PSYCHOLOGY
Short Title: PERSONNEL PSYCHOLOGY
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): PSYC 530
Description: Examination of the theory, research, and applications in personnel selection, including job analysis, job performance, evaluation of performance, validation of selection methods, and training.

PSYC 635 - MULTILEVEL MODELING IN PSYCHOLOGICAL RESEARCH
Short Title: MULTILEVEL MODELING
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Psychological data often have a nested structure (e.g., students within classrooms, time points within individuals). Multilevel modeling of such data yields results that are more appropriate and interpretable than traditional statistical methods. Students will gain both practical and conceptional knowledge of this popular methodology.

PSYC 636 - ORGANIZATIONAL PSYCHOLOGY
Short Title: ORGANIZATIONAL PSYCHOLOGY
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): PSYC 530
Description: Contemporary theory and research in organizational psychology, including topics such as motivation, leadership, job satisfaction, occupational stress, social cognition in work organizations, and group processes. Graduate/Undergraduate Equivalency: PSYC 436. Mutually Exclusive: Cannot register for PSYC 636 if student has credit for PSYC 436.

PSYC 637 - META-ANALYSIS IN PSYCHOLOGICAL RESEARCH
Short Title: META-ANALYSIS
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to students with a major in Psychology. Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): PSYC 530
Description: Meta-analysis is a popular tool for statistically aggregating effects across related psychological studies. Course topics traverse a wide range of issues, including developing and using a coding sheet, fixed- vs. random-effects models, analysis moderator effects, correcting for statistical artifacts, dealing with dependent outcomes and outliers, and detecting publication bias.
PSYC 638 - STRUCTURAL EQUATION MODELING
Short Title: STRUCTURAL EQUATION MODELING
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Structural equation modeling attempts to provide improved estimates of construct-level relationships. It also allows for complex hypothesis testing (e.g., mediation between groups, longitudinal) to find an appropriate balance between model parsimony and model fit. This course introduces students to basic concepts and applications of this popular research method.

PSYC 639 - INDUSTRIAL/ORGANIZATIONAL PSYCHOLOGY INTERNSHIP
Short Title: I/O PSYCHOLOGY INTERNSHIP
Department: Psychological Sciences
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Internship/Practicum
Credit Hours: 1-9
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Supervised internship in organizational and/or personnel psychology. Instructor Permission Required. Repeatable for Credit.

PSYC 640 - TOPICS IN HUMAN-COMPUTER INTERACTION
Short Title: TOPICS IN HCI
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Topics will vary. Repeatable for Credit.

PSYC 641 - SPECIAL TOPICS IN HUMAN-COMPUTER INTERACTION
Short Title: SPECIAL TOPICS IN HCI
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 1-6
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Topics will vary. Repeatable for Credit.

PSYC 649 - HUMAN FACTORS/HUMAN-COMPUTER INTERACTION INTERNSHIP
Short Title: HF/HCI PSYC INTERNSHIP
Department: Psychological Sciences
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Internship/Practicum
Credit Hours: 1-9
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Supervised internship in engineering psychology. Instructor Permission Required. Repeatable for Credit.

PSYC 651 - TOPICS IN SOCIAL PSYCHOLOGY
Short Title: TOPICS IN SOCIAL PSYCHOLOGY
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Topics will vary. Repeatable for Credit.

PSYC 660 - PROFESSIONAL ISSUES
Short Title: PROFESSIONAL ISSUES
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Discussion of selected topics on professional matters. Includes grant writing, licensing, and ethics in psychology.

PSYC 662 - NON-TRADITIONAL INTERFACES
Short Title: NON-TRADITIONAL INTERFACES
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Advanced coverage of human computer interfaces that are not necessarily graphical in nature. The course covers haptic, gesture, locomotion, auditory, voice olfactory, taste interfaces. Impoverished GUIs (small screen) are investigated, as are interactive voice response systems and complex interfaces that are multi-model. Graduate/Undergraduate Equivalency: PSYC 462. Recommended Prerequisite(s): PSYC 370. Mutually Exclusive: Cannot register for PSYC 662 if student has credit for PSYC 462.

PSYC 663 - MEDICAL HUMAN FACTORS
Short Title: MEDICAL HUMAN FACTORS
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Advanced coverage of the human factors that are specific to medical systems. Topics include medical decision making and diagnosis errors, surgical human factors, medical robots, surgical simulators, and general medical equipment design. Macro-ergonomics of hospital systems, electronic medical records and computerized physician order entry systems are also covered. Graduate/Undergraduate Equivalency: PSYC 463. Recommended Prerequisite(s): PSYC 370. Mutually Exclusive: Cannot register for PSYC 663 if student has credit for PSYC 463.
PSYC 664 - USABILITY ASSESSMENT
Short Title: USABILITY ASSESSMENT
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course covers all of the aspects of specifying, planning, executing, and reporting usability assessments on products, services and systems. Formative and summative assessments are covered, as are "discount" usability methods. This course is project based, with students performing usability assessments as part of an engineering team that is developing products for deployment. Graduate/Undergraduate Equivalency: PSYC 464. Recommended Prerequisite(s): PSYC 370. Mutually Exclusive: Cannot register for PSYC 664 if student has credit for PSYC 464.

PSYC 665 - SEMINAR IN GENES AND COGNITION
Short Title: SEMINAR IN GENES AND COGNITION
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This seminar will consist of reading and discussing papers on molecular genetic studies of various cognitive functions broadly construed. This will include studies of genes and attention, genes and working memory, and genes and executive function. Will also include readings on genes and disordered cognition (e.g., ADHD, Alzheimer's).

PSYC 671 - METHODS IN COGNITIVE NEUROSCIENCE
Short Title: METHODS COGNITIVE NEUROSCIENCE
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Explores issues in functional neuroimaging and provides hands-on experience with experimental design, data acquisition, and analysis. Examines hemodynamic (PET, FMR), electrophysiologic (EEG, MEG), and other (e.g. neural stimulation, event-related optical) methods of measuring functional activation in the human brain related to cognitive operations. This course is usually offered at the University of Texas Medical School.

PSYC 677 - SPECIAL TOPICS
Short Title: SPECIAL TOPICS
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Internship/Practicum, Laboratory, Lecture, Seminar, Independent Study
Credit Hours: 1-4
Restrictions: Enrollment is limited to Graduate or Visiting Graduate level students.
Course Level: Graduate
Description: Topics and credit hours vary each semester. Contact department for current semester's topic(s). Repeatable for Credit.

PSYC 681 - PERCEPTUAL ORGANIZATION
Short Title: PERCEPTUAL ORGANIZATION
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): PSYC 581
Description: Advanced graduate course. Perceptual organization, primarily in human vision but in other senses too. We examine theoretical issues underlying perceptual organization; principal phenomena; methods used to reveal perception of structure; neural basis of perception organization; theories of perceptual organization; and remaining problems in the field.

PSYC 699 - GRADUATE CAPSTONE EXPERIENCE IN I-O PSYCHOLOGY
Short Title: CAPSTONE EXPERIENCE IN I-O
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Internship/Practicum
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course is required for the MA in IO Psychology. It is a multi-semester, hands-on applied experience that can take the form of either an internship, an applied research experience, or a portfolio of work that reflects the integration of I-O science and practice. Instructor Permission Required. Repeatable for Credit.

PSYC 700 - THESIS RESEARCH
Short Title: THESIS RESEARCH
Department: Psychological Sciences
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Research
Credit Hours: 1-15
Restrictions: Enrollment is limited to students with a major in Psychology. Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Research for the master's thesis. Repeatable for Credit.

PSYC 800 - DISSERTATION RESEARCH
Short Title: DISSERTATION RESEARCH
Department: Psychological Sciences
Grade Mode: Satisfactory/Unsatisfactory
Course Type: Research
Credit Hours: 1-15
Restrictions: Enrollment is limited to students with a major in Psychology. Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Research for the doctoral dissertation. Repeatable for Credit.

Description and Code Legend
Note: Internally, the university uses the following descriptions, codes, and abbreviations for this academic program. The following is a quick reference:

Course Catalog/Schedule

Master of Human-Computer Interaction and Human Factors (MHCIHF) Degree

Program Learning Outcomes for the MHCIHF Degree
Upon completing the MHCIHF degree, students will be able to:

1. Have a clear understanding of the fundamental concepts in human factors and engineering psychology.
2. Have a clear understanding of human cognitive functions and limitations, and how those impact the design of systems.
3. Specify the design of an engineering human computer system so that it supports human capabilities.
4. Analyze critically and evaluate one’s own findings and those of others.
5. Communicate effectively ideas, methodologies, analyses, and interpretations of the research topic.

Requirements for the MHCIHF Degree
The MHCIHF degree is a non-thesis master’s degree. For general university requirements, please see Non-Thesis Master’s Degrees (p. 75). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 60). Students pursuing the MHCIHF degree must complete:

• A minimum of 11 courses (39 credit hours) to satisfy degree requirements.
• A minimum of 39 credit hours of graduate-level study (graduate semester credit hours, coursework at the 500-level or above).
• A minimum of 24 graduate semester credit hours must be taken at Rice University.
• A minimum of 24 graduate semester credit hours must be taken in standard or traditional courses (with a course type of lecture, seminar, laboratory, lecture/laboratory).
• A minimum residency enrollment of one fall or spring semester of full-time graduate study at Rice University.
• A maximum of 2 courses (6 graduate semester credit hours) from transfer credit. For additional program guidelines regarding transfer credit, see the Policies (p. 1191) tab.
• An internship. All students in the Master’s program are required to intern in the summer between their two years of study.

The courses listed below satisfy the requirements for this degree program. In certain instances, courses not on this official list may be substituted upon approval of the program’s academic advisor, or where applicable, the department or program’s Director of Graduate Studies. Course substitutions must be formally applied and entered into Degree Works by the department or program’s Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/). Additionally, these must be approved by the Office of Graduate and Postdoctoral Studies. Students and their academic advisors should identify and clearly document the courses to be taken.

PSYC 527 REASONING, DECISION MAKING, PROBLEM SOLVING
PSYC 530 FOUNDATIONS OF I-O PSYCHOLOGY
PSYC 535 HUMAN FACTORS/ERGONOMICS
PSYC 543 COMPUTATIONAL MODELING OF COGNITIVE PROCESSES
PSYC 581 VISION SCIENCE
PSYC 601 MULTIVARIATE STATISTICS
PSYC 602 PSYCHOMETRICS
PSYC 630 ADVANCED TOPICS IN I/O
PSYC 634 PERSONNEL PSYCHOLOGY
PSYC 640 TOPICS IN HUMAN-COMPUTER INTERACTION
PSYC 662 NON-TRADITIONAL INTERFACES
PSYC 663 MEDICAL HUMAN FACTORS
PSYC 664 USABILITY ASSESSMENT

Capstone Requirement
PSYC 600 HCI & HF PROFESSIONAL MASTER’S CAPSTONE PROJECT 2

Total Credit Hours 39

Footnotes and Additional Information
1 All students in the Master’s program are required to intern in the summer between their two years of study. That internship is reflected in the student’s course of study as PSYC 595, and students should register for that summer course. Faculty in the HCI and HF area have relationships with multiple local and national companies and government labs that would be suitable. Students sponsored by their employer may return to that company for the summer internship, provided that the work was classified as human factors-related.

2 The capstone requirement, PSYC 600, is to be a project course, supervised jointly by all the HCI and HF faculty, and should be taken in the second semester of the second year.

Proposed Plan-of-Study
The following plan-of-study represents the lockstep five-semester sequence in which students pursuing the MHCIHF degree complete the required coursework.

Department of Psychological Sciences Graduate Program Handbook
The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, the department of Psychological Sciences, the home department for the Human-Computer Interaction and Human Factors program, publishes a graduate program handbook, which can be found here: https://gradhandbooks.rice.edu/2021_22/Psychology_MHCIHF_Graduate_Handbook.pdf

Admission
Admission to graduate study in Human-Computer Interaction and Human Factors is open to qualified students holding a BS or a BA degree in a quantitative field from an accredited institution. The MHCIHF degree governing committee will evaluate the previous academic record and credentials of each applicant individually, and will make all admissions decisions.

Financial Aid
No financial aid is available from Rice University or the Psychological Sciences Department for students in the MHCIHF degree program.
Program Transfer Credit Guidelines

Students pursuing the MHCIHF degree should be aware of the following program-specific transfer credit guidelines:

- No more than 2 courses (6 credit hours) of transfer credit from U.S. or international universities of similar standing as Rice may apply towards the degree. Transferred courses must be comparable in content and depth to the corresponding course at Rice, and must not have counted toward another degree.
- Requests for transfer credit will be considered by the program director on an individual case-by-case basis.

eylem.tekin@rice.edu

The Master of Industrial Engineering degree is a graduate degree program administered by the George R. Brown School of Engineering, with the participation of the Rice University Departments of Mechanical Engineering and Statistics, and the Rice Center for Operations Research.

The program is designed to explore modern industrial systems, which arise in fields such as manufacturing, services, supply chain management, energy, transportation and healthcare. Analyzing and optimizing their performance is very challenging; for example, the number of ways that Federal Express can route its vehicles vastly exceeds the number of atoms in the universe. These analyses are crucial; their financial impact typically exceeds the profit margins in many industries, such as transportation and retailing.

To meet these challenges, the Master of Industrial Engineering degree emphasizes improving the quality and reliability of complex systems. It provides students with a deep set of analytical and engineering skills to make data-driven decision needed in every major economic sector. Graduates will help industry, governments, and non-profits improve efficiency in changing and uncertain environments.

Industrial Engineering does not currently offer an academic program at the undergraduate level.

Master's Program

- Master of Industrial Engineering (MIE) Degree (p. 1195)

Coordinated Program

- Master of Industrial Engineering (MIE) Degree / Master of Business Administration (MBA) Degree (p. 1197)

Directors

Andrew J. Schaefer
Eylem Tekin

Professors

Michael D. Byrne, Psychological Sciences
Patricia DeLucia, Psychological Sciences
Fathi Ghorbel, Mechanical Engineering
Illya V. Hicks, Computational & Applied Mathematics
C. Fred Higgs III, Mechanical Engineering
Marcia K. O’Malley, Mechanical Engineering
Amit Pazgal, Business
Eduardo Salas, Psychological Sciences
Andrew J. Schaefer, Computational & Applied Mathematics
Laura Schaefer, Mechanical Engineering
Pol D. Spanos, Mechanical Engineering
Richard A. Tapia, Computational & Applied Mathematics
Yin Zhang, Computational & Applied Mathematics

Associate Professors

Leonardo Dueñas-Osorio, Civil and Environmental Engineering
Philip A. Ernst, Statistics
Philip T. Kortum, Psychological Sciences

Assistant Professors

Matthew Brake, Mechanical Engineering
Pedram Hassanzadeh, Mechanical Engineering
Joseph Huchette, Computational and Applied Mathematics
Santiago Segarra, Electrical and Computer Engineering

Professor in the Practice

John Dobelman, Statistics

Lecturer

Eylem Tekin, Industrial Engineering

Industrial Engineering (INDE)

INDE 501 - FUNDAMENTALS OF INDUSTRIAL ENGINEERING
Short Title: FUND INDUSTRIAL ENGINEERING
Department: Industrial Engineering
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Introduction to fundamental tools in industrial engineering. Topics include productivity analysis, material handling, logistics, design of experiments, quality control, location theory, warehouse design, supply chain management and scheduling. Instructor Permission Required.

INDE 509 - INTRODUCTION TO HUMAN FACTORS ENGINEERING
Short Title: INTRO TO HUMAN FACTORS ENG
Department: Industrial Engineering
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): INDE 501
Description: Analysis and design of engineering systems considering human characteristics and limitations. Design of control, displays, tools, workstations and groups. Human factors research methods. Instructor Permission Required.

INDE 511 - GRAPH ALGORITHMS
Short Title: GRAPH ALGORITHMS
Department: Industrial Engineering
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): INDE 501
Description: Graph Algorithms in Operations Research. Topics include: spanning trees, graph search algorithms, shortest path problems, worst case time complexity analysis, computational complexity, dominating set problems, vertex and edge cover problems, python implementations, and other problems in graph optimization. Instructor Permission Required. Recommended Prerequisite(s): INDE 545 or CAAM 378

INDE 543 - MANUFACTURING PROCESSES AND SYSTEMS
Short Title: MANUFACTURING PROC AND SYS
Department: Industrial Engineering
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): INDE 501
Description: Fundamentals of manufacturing processes and systems. Topics include machining, casting, 2D printing, material flow, capacities, bottlenecks, and just-in-time systems. Simulation and optimization of various manufacturing systems. Trade-offs among various processes. Instructor Permission Required.

INDE 545 - PRESCRIPTIVE ANALYTICS
Short Title: PRESCRIPTIVE ANALYTICS
Department: Industrial Engineering
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: A survey of methods for combining mathematical models and large data sets to produce optimal decisions. Topics include decision analysis, dynamic programs, mathematical programs and various heuristics. Instructor Permission Required.

INDE 546 - COMPUTATIONAL PRESCRIPTIVE ANALYTICS
Short Title: COMP PRESCRIPTIVE ANALYTICS
Department: Industrial Engineering
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): INDE 545
Description: A continuation of INDE 545 that focuses on computational approaches to prescriptive analytics. Topics include decomposition approaches to large-scale optimization, modeling languages, decision analysis and discrete-event simulation software. Emphasis will be placed on using relevant software on practical problems. Instructor Permission Required.

INDE 561 - SUPPLY CHAIN MANAGEMENT
Short Title: SUPPLY CHAIN MANAGEMENT
Department: Industrial Engineering
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): INDE 545
Description: Supply chain management is the integrated management of the flow of materials, products, services, and cash from the suppliers all the way to the customers and from the customers back to the suppliers. Due to the complex nature of today's supply chains, effective management of these flows is a challenging task. This course aims to familiarize students with the concepts and models that are useful in designing and managing effective and efficient supply chains. Topics include facility location and distribution models, forecasting, sales & operations planning, supply chain coordination, inventory management, transportation, supplier selection, pricing & revenue management, and sustainability in supply chains. Instructor Permission Required. Graduate/Undergraduate Equivalency: CAAM 421. Mutually Exclusive: Cannot register for INDE 561 if student has credit for CAAM 421.
INDE 562 - INTRODUCTION TO CONTINUOUS OPTIMIZATION
Short Title: INTRO TO CONTINUOUS OPT
Department: Industrial Engineering
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: An introduction to the formulation of unconstrained and constrained optimization models, and their numerical implementations to problems in science and engineering. Emphasis on Newton-type and interior-point methodologies. Instructor Permission Required. Recommended Prerequisite(s): INDE 545 or CAAM 378

INDE 567 - STOCHASTIC PROCESSES AND SIMULATION
Short Title: STOCH PROCESSES & SIMULATION
Department: Industrial Engineering
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: An introduction to the formulation of unconstrained and constrained optimization models, and their numerical implementations to problems in science and engineering. Emphasis on Newton-type and interior-point methodologies. Instructor Permission Required. Recommended Prerequisite(s): INDE 545 or CAAM 378

INDE 567 - DISCRETE-EVENT SIMULATION
Short Title: DISCRETE-EVENT SIMULATION
Department: Industrial Engineering
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): (STAT 518 and STAT 519) or INDE 571
Description: Simulation of discrete-event dynamic systems. Topics include introduction to simulation models; modeling with Simio, a comprehensive simulation package with animation capabilities; statistical aspects such as input and output analysis, random variate generation, variance reduction techniques; optimization via simulation. Students who have taken CAAM 485 should consult their advisor before attempting to register for INDE 573. Department Permission Required. Graduate/Undergraduate Equivalency: CAAM 485.

INDE 567 - DATA SCIENCE AND MACHINE LEARNING
Short Title: DATA SCI & MACHINE LEARNING
Department: Industrial Engineering
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Fundamentals of data science and machine learning. Topics include introduction to scikit-learn, Keras and tensorflow2, linear and logistic regression, clustering, support vector machines, random forest trees, neural networks, deep learning, natural language processing. Instructor Permission Required. Recommended Prerequisite(s): Three semesters of calculus recommended. A background in some programming language would be extremely useful.

INDE 597 - TOPICS IN INDUSTRIAL ENGINEERING CAPSTONE EXPERIENCE
Short Title: MIE CAPSTONE EXPERIENCE
Department: Industrial Engineering
Grade Mode: Standard Letter
Course Type: Research
Credit Hour: 1
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: MIE students are required to write a field report related to one of the required core courses in the curriculum. Students should coordinate this with the INDE 590 instructor/capstone director, prepare a report relevant to the course material, and present it in class. Instructor Permission Required. Recommended Prerequisite(s): INDE 501 and INDE 545 and INDE 571. Repeatable for Credit.

INDE 573 - DISCRETE-EVENT SIMULATION
Short Title: DISCRETE-EVENT SIMULATION
Department: Industrial Engineering
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): (STAT 518 and STAT 519) or INDE 571
Description: Simulation of discrete-event dynamic systems. Topics include introduction to simulation models; modeling with Simio, a comprehensive simulation package with animation capabilities; statistical aspects such as input and output analysis, random variate generation, variance reduction techniques; optimization via simulation. Students who have taken CAAM 485 should consult their advisor before attempting to register for INDE 573. Department Permission Required. Graduate/Undergraduate Equivalency: CAAM 485.

INDE 577 - DATA SCIENCE AND MACHINE LEARNING
Short Title: DATA SCI & MACHINE LEARNING
Department: Industrial Engineering
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Fundamentals of data science and machine learning. Topics include introduction to scikit-learn, Keras and tensorflow2, linear and logistic regression, clustering, support vector machines, random forest trees, neural networks, deep learning, natural language processing. Instructor Permission Required. Recommended Prerequisite(s): Three semesters of calculus recommended. A background in some programming language would be extremely useful.

INDE 590 - MASTER'S IN INDUSTRIAL ENGINEERING CAPSTONE EXPERIENCE
Short Title: MIE CAPSTONE EXPERIENCE
Department: Industrial Engineering
Grade Mode: Standard Letter
Course Type: Research
Credit Hour: 1
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: MIE students are required to write a field report related to one of the required core courses in the curriculum. Students should coordinate this with the INDE 590 instructor/capstone director, prepare a report relevant to the course material, and present it in class. Instructor Permission Required. Recommended Prerequisite(s): INDE 501 and INDE 545 and INDE 571. Repeatable for Credit.

INDE 567 - DATA SCIENCE AND MACHINE LEARNING
Short Title: DATA SCI & MACHINE LEARNING
Department: Industrial Engineering
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Fundamentals of data science and machine learning. Topics include introduction to scikit-learn, Keras and tensorflow2, linear and logistic regression, clustering, support vector machines, random forest trees, neural networks, deep learning, natural language processing. Instructor Permission Required. Recommended Prerequisite(s): Three semesters of calculus recommended. A background in some programming language would be extremely useful.

INDE 590 - MASTER'S IN INDUSTRIAL ENGINEERING CAPSTONE EXPERIENCE
Short Title: MIE CAPSTONE EXPERIENCE
Department: Industrial Engineering
Grade Mode: Standard Letter
Course Type: Research
Credit Hour: 1
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: MIE students are required to write a field report related to one of the required core courses in the curriculum. Students should coordinate this with the INDE 590 instructor/capstone director, prepare a report relevant to the course material, and present it in class. Instructor Permission Required. Recommended Prerequisite(s): INDE 501 and INDE 545 and INDE 571. Repeatable for Credit.
INDE 677 - SPECIAL TOPICS
Short Title: SPECIAL TOPICS
Department: Industrial Engineering
Grade Mode: Standard Letter
Course Type: Internship/Practicum, Laboratory, Lecture, Seminar, Independent Study
Credit Hours: 1-4
Restrictions: Enrollment is limited to Graduate or Visiting Graduate level students.
Course Level: Graduate
Description: Topics and credit hours vary each semester. Contact department for current semester's topic(s). Repeatable for Credit.

Description and Code Legend
Note: Internally, the university uses the following descriptions, codes, and abbreviations for this academic program. The following is a quick reference:

Course Catalog/Schedule

Program Description and Code
- Industrial Engineering: INDE

Graduate Degree Description and Code
- Master of Industrial Engineering: MIE

Graduate Degree Program Description and Code
- Degree Program in Industrial Engineering: INDE

CIP Code and Description
- INDE Major/Program: CIP Code/Title: 14.3701 - Operations Research

Classification of Instructional Programs (CIP) 2020 Codes and Descriptions from the National Center for Education Statistics: https://nces.ed.gov/ipeds/cipcode/

Master of Industrial Engineering (MIE) Degree
Program Learning Outcomes for the MIE Degree

Upon completing the MIE degree, students will be able to:

1. Build physical and mathematical models of complex systems that arise in real-world situations.
2. Understand the flow of material from manufacturing to warehouses to customers through physical or mathematical models.
3. Produce data-driven and implementable solutions that improve the efficiency of real-world systems.
4. Communicate the solutions and insights generated by the models to a non-technical audience.

Requirements for the MIE Degree

The MIE degree is a non-thesis master's degree. For general university requirements, please see Non-Thesis Master's Degrees (p. 75). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 60). Students pursuing the MIE degree must complete:

- A minimum of 11 courses (31 credit hours) to satisfy degree requirements.
- A minimum of 31 credit hours of graduate-level study (graduate semester credit hours, coursework at the 500-level or above).
- A minimum of 9 courses (25 graduate semester credit hours), including the capstone course (INDE 590), must be taken at Rice University.
- A minimum of 24 graduate semester credit hours must be taken in standard or traditional courses (with a course type of lecture, seminar, laboratory, lecture/laboratory).
- A minimum residency enrollment of one fall or spring semester of full-time graduate study at Rice University.
- A maximum of 2 courses (6 graduate semester credit hours) from transfer credit. For additional program guidelines regarding transfer credit, see the Policies (p. 1196) tab.
- A capstone course (INDE 590), which includes a company-provided or research project related to the core requirements in the curriculum.\footnote{Classification of Instructional Programs (CIP) 2020 Codes and Descriptions from the National Center for Education Statistics: https://nces.ed.gov/ipeds/cipcode/}
- A minimum overall GPA of 2.67 or higher in all Rice coursework.
- A minimum program GPA of 3.00 or higher in all Rice coursework that satisfies requirements for the non-thesis master's degree.

The Master of Industrial Engineering (MIE) is a non-thesis master’s degree intended for students who have completed a 4-year bachelor's program in engineering, or related field, and wish to join the workforce as practicing professionals, or continue on for further study. It offers preparation in advanced engineering topics in order to enhance an engineer's technical qualifications and increases competitiveness in the job market. The MIE degree program is open to students who have shown academic excellence in their undergraduate studies.

The courses listed below satisfy the requirements for this degree program. In certain instances, courses not on this official list may be substituted upon approval of the program's academic advisor, or where applicable, the department or program's Director of Graduate Studies. Course substitutions must be formally applied and entered into Degree Works by the department or program's Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/). Additionally, these must be approved by the Office of Graduate and Postdoctoral Studies. Students and their academic advisors should identify and clearly document the courses to be taken.

Footnotes and Additional Information

1. MIE students are required to complete a capstone course (INDE 590), which includes a project related to the core requirements in the curriculum. With the approval of the course instructor, the student must prepare a final report for the project, and present it in class. Topics must be approved no later than the end of the fourth week of the semester.

2. Students must take at least 1 of the following courses as a Core Requirement: INDE 509, MECH 503, or PSYC 535. A student may take an additional course from INDE 509, MECH 503, or PSYC 535 (in addition to the Core Requirement) to fulfill degree program requirements as a Technical Elective. Students may take either INDE 509 or PSYC 535, but not both, to fulfill degree program requirements.

3. The George R. Brown School of Engineering offers courses in the following subject codes: BIOE, CAAM, CEVE, CHBE, COMP, DSCI, ELEC, ENGI, GLHT, INDE, MECH, MSNE, RCEL, SSPB, and STAT.

Proposed Plan-of-Study

The following plan-of-study represents a lockstep three-semester sequence in which students pursuing the MIE degree complete the required coursework.

Footnotes and Additional Information

1. The George R. Brown School of Engineering offers courses in the following subject codes: BIOE, CAAM, CEVE, CHBE, COMP, DSCI, ELEC, ENGI, GLHT, INDE, MECH, MSNE, RCEL, SSPB, and STAT.

2. Students must take at least 1 of the following courses as a Core Requirement: INDE 509, MECH 503, or PSYC 535. A student may take an additional course from INDE 509, MECH 503, or PSYC 535 (in addition to the Core Requirement) to fulfill degree program requirements as a Technical Elective. Students may take either INDE 509 or PSYC 535, but not both, to fulfill degree program requirements.

Policies for the MIE Degree

Industrial Engineering Graduate Program Handbook

The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, Industrial Engineering publishes a graduate program handbook, which can be found here: https://gradhandbooks.rice.edu/2021_22/Industrial_Engineering_Graduate_Handbook.pdf

Admission

Admission to graduate study in Industrial Engineering is open to qualified students holding a BS or a BA degree in a quantitative field from an accredited institution. The MIE degree governing committee will evaluate the previous academic record and credentials of each applicant individually, and will make all admissions decisions.

Financial Aid

No financial aid is available from Rice University or the Industrial Engineering program for students in the MIE degree program.

Transfer Credit

For Rice University’s policy regarding transfer credit, see Transfer Credit (p. 70). Some departments and programs have additional restrictions on transfer credit. Students are encouraged to meet with their academic program’s advisor when considering transfer credit possibilities.
Program Transfer Credit Guidelines

Students pursuing the MIE degree should be aware of the following program-specific transfer credit guidelines:

• No more than 2 courses (6 credit hours) of transfer credit from another U.S. or international universities of similar standing as Rice may apply towards the degree. Transferred courses must be comparable in content and depth to the corresponding course at Rice, and must not have counted toward another degree.
• Requests for transfer credit will be considered by the Industrial Engineering Graduate Committee Chair, and the instructor of the equivalent Rice course.

Additional Information

For additional information, please see the Industrial Engineering website: https://engrprofmasters.rice.edu.

 Opportunities for the MIE Degree

Fifth-Year Master’s Degree Option for Rice Undergraduate Students

In certain situations and with some terminal master’s degree programs, Rice students have an option to pursue a master’s degree by adding an additional fifth year to their four years of undergraduate studies.

Advanced Rice undergraduate students in good academic standing typically apply to the master’s degree program during their junior or senior year. Upon acceptance, depending on course load, financial aid status, and other variables, they may then start taking some required courses of the master’s degree program. A plan of study will need to be approved by the student’s undergraduate major advisor and the master’s degree program director.

As part of this option and opportunity, Rice undergraduate students:

• must complete the requirements for a bachelor’s degree and the master’s degree independently of each other (i.e. no course may be counted toward the fulfillment of both degrees).
• should be aware there could be financial aid implications if the conversion of undergraduate coursework to that of graduate level reduces their earned undergraduate credit for any semester below that of full-time status (12 credit hours).
• more information on this Undergraduate · Graduate Concurrent Enrollment opportunity, including specific information on the registration process can be found here (p. 20).

Rice undergraduate students completing studies in science and engineering may have the option to pursue the Master of Industrial Engineering (MIE) degree. For additional information, students should contact their undergraduate major advisor and the MIE program director.

Additional Information

For additional information, please see the Industrial Engineering website: https://engrprofmasters.rice.edu.

Master of Industrial Engineering (MIE) Degree / Master of Business Administration (MBA) Degree

Program Learning Outcomes for the MIE Degree

Upon completing the MIE degree, students will be able to:

1. Build physical and mathematical models of complex systems that arise in real-world situations.
2. Understand the flow of material from manufacturing to warehouses to customers through physical or mathematical models.
3. Produce data-driven and implementable solutions that improve the efficiency of real-world systems.
4. Communicate the solutions and insights generated by the models to a non-technical audience.

Program Learning Outcomes for the MBA Degree

Upon completing the MBA degree, students will be able to:

1. Demonstrate an understanding and application of the foundational frameworks and tools of all business disciplines, including accounting, finance, marketing, organizational behavior, and strategic management.
2. Develop, evaluate, and implement complex business strategies and operational solutions holistically, integrating management principles across the functional areas.
3. Function effectively in a team setting both as a leader and a contributor.

Requirements for the MIE/MBA Coordinated Degrees Program

Students may earn a coordinated MBA degree and a non-thesis Master of Engineering degree from the George R. Brown School of Engineering in the following fields:

• Chemical Engineering (MChE)
• Computational and Applied Mathematics (MCAAM)
• Computer Science (MCS)
• Industrial Engineering (MIE)
• Materials Science and Nanoengineering (MMSNE)
• Mechanical Engineering (MME)
• Statistics (MStat)

For the coordinated MBA/Master of Engineering degrees, students must complete:

• A minimum of 69 credit hours in approved coursework*, including:
  • A minimum of 30 credit hours of graduate-level study (coursework at the 500-level or above) to satisfy the Master of Engineering degree requirements
  • A minimum of 24 credit hours in the corresponding engineering discipline
  • A minimum of 6 credit hours in elective requirements*

• A minimum of 45 credit hours of graduate-level study (coursework at the 500-level or above) to satisfy the MBA degree requirements
• A minimum of 45 credit hours of business coursework
• All MBA core requirements, the global field experience, custom core requirements, and coordinated elective requirements

*Note: A maximum of 6 credit hours of the Master of Engineering degree elective requirements may be selected from business course offerings (MGMP, MGMT, or MICO) and used to fulfill the requirements for both the MBA and the Master of Engineering degrees.

Students plan their course schedules in consultation with the George R. Brown School of Engineering department in which they are enrolled and with the Jones Graduate School of Business Registrar Department. Coordinated degrees candidates can fulfill requirements for both degrees within 2 academic years.

For general university requirements, see Graduate Degrees (p. 57). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (p. 60). Candidates in the MBA/Master of Engineering coordinated degrees program must complete all requirements as listed for both degrees, and must apply and be accepted in both degree programs.

The courses listed below satisfy the requirements for this degree program. In certain instances, courses not on this official list may be substituted upon approval of the program’s academic advisor, or where applicable, the department or program’s Director of Graduate Studies. Course substitutions must be formally applied and entered into Degree Works by the department or program’s Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/). Additionally, these must be approved by the Office of Graduate and Postdoctoral Studies. Students and their academic advisors should identify and clearly document the courses to be taken.

For additional information on these two degrees:  
1. Please see the Industrial Engineering website: https://engrprofmasters.rice.edu/  
2. Please see the Jones Graduate School of Business website: https://business.rice.edu/

Coordinated MBA Degree Requirements
Students in the coordinated MBA/Master of Engineering degrees program or in the coordinated MBA/Master of Science degree from the Professional Science Master’s (PSM) degrees program must complete the Core Requirements, Global Field Experience, and Custom Core Requirements of the Full-time MBA degree program (p. 490) and the Coordinated MBA Elective Requirements below.

### Footnotes and Additional Information

1. To fulfill the remaining requirements for the coordinated MBA degree program, students must complete an additional 11.25-14.25 credit hours from departmental (MGMP, MGMT, or MICO) course offerings at the 500-level or above to reach 45 total credit hours. (MGMT 703, MGMT 704, and MGMT 705 are not accepted as electives.) The second year of the program is dedicated entirely to MBA elective coursework. Although the Jones Graduate School of Business offers a variety of courses for students to take as electives, students may wish to take courses from other departments at Rice University. MBA electives are offered on the daytime schedule, the evening schedule, and the weekend schedule.

### Policies for the MIE/MBA Coordinated Degrees Program

**Additional Information**

For additional information on these two degrees:

1. Please see the Industrial Engineering website: https://engrprofmasters.rice.edu/
2. Please see the Jones Graduate School of Business website: https://business.rice.edu/

### Opportunities for the MIE/MBA Coordinated Degrees Program

**Additional Information**

For additional information on these two degrees:

2. Please see the Jones Graduate School of Business website: https://business.rice.edu/

### Industrial-Organizational Psychology

**Contact Information**

Psychological Sciences
The Department of Psychological Sciences offers the Master of Industrial-Organizational Psychology degree, which examines the scientific consideration of people in the design of products, services, and systems. Industrial-Organizational (I-O) Psychology is the scientific consideration of a wide range of psychological factors critical to the workplace: e.g., the nature and necessity of technical, interpersonal, and self-management skills; how people work and within diverse and dynamic work environments; improving training in an aging workforce with greater technological demands; managing a diverse range of people and projects successfully and safely; and dealing with disruptive changes that inevitably face jobs and organizational cultures, ranging from mergers and acquisitions, to AI and automation.

Industrial-Organizational Psychology does not currently offer an academic program at the undergraduate level.

**Master's Program**

- Master of Industrial-Organizational Psychology (MIOP) Degree

**Chair, Department of Psychological Sciences**

Eduardo Salas

**Professors**

Margaret E. Beier
Patricia DeLucia
Michelle "Mikki" R. Hebl
Eden King
Frederick L. Oswald
Eduardo Salas

**Associate Professor**

Christopher P. Fagundes

For Rice University degree-granting programs:

To view the most recent semester's course schedule, please see Rice's Course Schedule (https://courses.rice.edu/admweb/ISWKSCAT.cat)
PSYC 203 - INTRODUCTION TO COGNITIVE PSYCHOLOGY
Short Title: INTRO TO COGNITIVE PSYCHOLOGY
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: An introduction to topics in cognitive psychology, including perception, attention, language, memory, and decision making. Required for psychology majors.

PSYC 231 - INDUSTRIAL AND ORGANIZATIONAL PSYCHOLOGY
Short Title: INDUS & ORGANIZATIONAL PSYC
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Prerequisite(s): PSYC 101
Description: An overview of the principles, techniques, and theories of psychology applied in the industrial setting.

PSYC 238 - SPECIAL TOPICS
Short Title: SPECIAL TOPICS
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Internship/Practicum, Laboratory, Lecture, Seminar, Independent Study
Credit Hours: 1-4
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: Topics and credit hours may vary each semester. Contact department for current semester's topic(s). Repeatable for Credit.

PSYC 260 - UNDERGRADUATE PROFESSIONAL ISSUES IN PSYCHOLOGY
Short Title: UNDERGRAD PROF ISSUES IN PSYC
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hour: 1
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Lower-Level
Description: This seminar will provide students interested in psychology with an opportunity to explore psychology as a major and a career. Through guest lecturers, group discussions, and class projects, students will learn about diverse fields and potential career paths in psychology. Instructor Permission Required.

PSYC 308 - MEMORY
Short Title: MEMORY
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): PSYC 203
Description: Critical review of traditional and contemporary approaches to the study of remembering and forgetting. Graduate/Undergraduate Equivalency: PSYC 524.

PSYC 309 - PSYCHOLOGY OF LANGUAGE
Short Title: PSYCHOLOGY OF LANGUAGE
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): PSYC 203
Description: Study of human and other animal communication. Includes the structure of human language, word meaning and semantic memory, psychological studies of syntax, bilingualism, language and thought, and language errors and disorders. Cross-list: LING 309.

PSYC 310 - PSYCHOLOGY OF AGING
Short Title: PSYCHOLOGY OF AGING
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): PSYC 202 or PSYC 203
Description: This course focuses on the psychology of aging through a biological, cognitive, and socio-emotional framework. Topics to be covered include how mental capacities change over time, especially memory processing, differences between normal and pathological aging, neurobiological changes with age, dementias such as Alzheimer's disease, and individual differences in aging. There will be an emphasis on discussion of recent literature and developing research ideas in the field of psychology of aging.
PSYC 315 - INTRODUCTION TO SEMANTICS
Short Title: INTRODUCTION TO SEMANTICS
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Introduction to basic approaches to the study of meaning in linguistics and related fields. Includes the cognitive representation of meaning, lexical categorization, conceptual structures, metaphor/metonymy, meaning change, pragmatic inference, and the relation of language and mind. Cross-list: LING 315. Recommended Prerequisite(s): LING 200 or ANTH 200.

PSYC 321 - DEVELOPMENTAL PSYCHOLOGY
Short Title: DEVELOPMENTAL PSYCHOLOGY
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): PSYC 202 or PSYC 203
Description: Study of behavioral changes with age in both human and nonhuman species. Recommended Prerequisite(s): PSYC 202 and PSYC 203.

PSYC 325 - LANGUAGE ACQUISITION
Short Title: LANGUAGE ACQUISITION
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): PSYC 202 or PSYC 203
Description: The aim of this course is to explore language development closely through a variety of theories and research findings. Students will become familiar with different theories concerning language development, and develop an understanding of relevant issues, theoretical positions and relevant methodologies in language development using critical thinking skills. Cross-list: LING 325.

PSYC 329 - PSYCHOLOGICAL TESTING
Short Title: PSYCHOLOGICAL TESTING
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): PSYC 339 or SOSC 302
Description: Offers a detailed examination of psychological test development and analysis. Topics include an exploration of different forms of psychological tests (e.g. intelligence, attitudes, personality, clinical), reliability and validity of tests, and practical issues in testing such as test bias (e.g. gender differences).

PSYC 330 - PERSONALITY THEORY AND RESEARCH
Short Title: PERSONALITY THEORY & RESEARCH
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): PSYC 340
Description: Examination of those aspects of personality emphasized by major theorists past and present.

PSYC 331 - PSYCHOLOGY OF GENDER
Short Title: PSYCHOLOGY OF GENDER
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Overview of research and theory on gender in psychology. Cross-list: SWGS 331.

PSYC 332 - ABNORMAL BEHAVIOR
Short Title: ABNORMAL BEHAVIOR
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture
Distribution Group: Distribution Group II
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): PSYC 202 or PSYC 203
Description: Study of the diagnosis and treatment of mental disorders.
PSYC 333 - MULTICULTURAL PSYCHOLOGY  
Short Title: MULTICULTURAL PSYCHOLOGY  
Department: Psychological Sciences  
Grade Mode: Standard Letter  
Course Type: Lecture  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Prerequisite(s): PSYC 101  
Description: This seminar examines psychological research and theories that address important issues in the lives of diverse individuals. Readings, discussions, and films will be used to explore the acculturation process; stereotyping, prejudice, discrimination and racism; racial/ethnic identity development; and multicultural competence. Students are required to participate in a service learning project. Recommended Prerequisite(s): PSYC 202 and PSYC 321.

PSYC 339 - STATISTICAL METHODS-PSYCHOLOGY  
Short Title: STATISTICAL METHODS-PSYCHOLOGY  
Department: Psychological Sciences  
Grade Mode: Standard Letter  
Course Type: Lecture/Laboratory  
Credit Hours: 4  
Restrictions: Enrollment is limited to students with a major in Cognitive Sciences or Psychology. Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Prerequisite(s): PSYC 101 or PSYC 203  
Description: Introduction to quantitative and computer methods applicable to the analysis of experimental and correlational data. Required for psychology majors. Psychology and Cognitive Science Majors only or Permission of Instructor(s).

PSYC 340 - RESEARCH METHODS - PSYCHOLOGY  
Short Title: RESEARCH METHODS - PSYCHOLOGY  
Department: Psychological Sciences  
Grade Mode: Standard Letter  
Course Type: Lecture  
Credit Hours: 4  
Restrictions: Enrollment is limited to students with a major in Cognitive Sciences or Psychology. Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Prerequisite(s): PSYC 101 and (PSYC 339 or SOSC 302)  
Description: A continuation of PSYC 339/SOSC 302, with emphasis on individual student experiments and the writing of research reports. Required for psychology majors. Psychology and Cognitive Science Majors only or Permission of Instructor(s).

PSYC 342 - COMPUTER APPLICATIONS IN PSYCHOLOGY  
Short Title: COMPUTER APPLICATIONS IN PSYCHOLOGY  
Department: Psychological Sciences  
Grade Mode: Standard Letter  
Course Type: Seminar  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Prerequisite(s): PSYC 203  
Description: The use of computers in psychological research and in usability engineering. The emphasis will be on dynamic HTML and JavaScript. Topics will include designing and running web-based psychology experiments and the use of web-based video. Graduate/Undergraduate Equivalency: PSYC 504. Mutually Exclusive: Cannot register for PSYC 342 if student has credit for PSYC 504.

PSYC 345 - HEALTH PSYCHOLOGY  
Short Title: HEALTH PSYCHOLOGY  
Department: Psychological Sciences  
Grade Mode: Standard Letter  
Distribution Group: Distribution Group II  
Course Type: Lecture  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Prerequisite(s): PSYC 101 and PSYC 202 and PSYC 203  
Description: Contemporary theory and research in health psychology, including topics such as health behaviors, stress and coping, pain and its management, heart disease, psychoneuroimmunology, chronic illness, and dying. Recommended Prerequisite(s): PSYC 332 and PSYC 340.

PSYC 346 - STRESS AND HEALTH ACROSS THE LIFESPAN  
Short Title: STRESS/HEALTH ACROSS LIFESPAN  
Department: Psychological Sciences  
Grade Mode: Standard Letter  
Course Type: Lecture  
Credit Hours: 3  
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
Course Level: Undergraduate Upper-Level  
Description: This is an introductory course on psychobiological processes in animals and humans as they pertain to the development of stress responses and disease. In this course, we will review models of stress as well as the physiological processes implicated in bodily diseases. We will also review behavioral, psychological and pharmacological variables involved in stress processes. Recommended Prerequisite(s): PSYC 345
PSYC 351 - PSYCHOLOGY OF PERCEPTION  
**Short Title:** PERCEPTION  
**Department:** Psychological Sciences  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Distribution Group:** Distribution Group II  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
**Course Level:** Undergraduate Upper-Level  
**Prerequisite(s):** PSYC 101 and PSYC 203  
**Description:** An introductory survey of sensation and perception, both human and animal. Covers all sensory systems but focuses on vision and audition. Includes the philosophy of perception; measurement and methods; neuroanatomy of visual and auditory systems; computational models of vision, motion, depth, and color; illusions and perceptual organization; and perceptual development. Graduate/Undergraduate Equivalency: PSYC 521.

PSYC 353 - PSYCHOLOGY OF EMOTION AND MOTIVATION  
**Short Title:** PSYCHOLOGY OF EMOTION & MOTIVATION  
**Department:** Psychological Sciences  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Distribution Group:** Distribution Group II  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
**Course Level:** Undergraduate Upper-Level  
**Prerequisite(s):** PSYC 101 and PSYC 202  
**Description:** Study of motives and emotions as causes of human behavior; includes biological motives, aggression, emotions and emotional expression, and individual differences in motivation. Recommended Prerequisite(s): PSYC 203.

PSYC 354 - INTRODUCTION TO SOCIAL AND AFFECTIVE NEUROSCIENCE  
**Short Title:** INTRO TO SOC/AFFECTIVE NEURO  
**Department:** Psychological Sciences  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
**Course Level:** Undergraduate Upper-Level  
**Prerequisite(s):** PSYC 202  
**Description:** Overview of social and affective neuroscience research, including examination of the neurobiological mechanisms supporting social cognition; inter-personal processes; emotion and motivation; and emotion regulation. These topics will be examined in both healthy and affectively-disordered populations, with links made to the fields of health psychology and clinical neuroscience.

PSYC 362 - COGNITIVE NEUROSCIENCE: EXPLORING THE LIVING BRAIN  
**Short Title:** COGNITIVE NEUROSCIENCE  
**Department:** Psychological Sciences  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Distribution Group:** Distribution Group II  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
**Course Level:** Undergraduate Upper-Level  
**Prerequisite(s):** PSYC 203  
**Description:** Survey of theory and research on how mental processes are carried out by the human brain, with an emphasis on relating measures of brain activity to cognitive functioning, methods surveyed included electro physiological recording techniques, functional imaging techniques and methods that involve lessoning or disrupting neural activity. Cross-list: NEUR 362.

PSYC 364 - COGNITIVE NEUROSCIENCE LAB  
**Short Title:** COGNITIVE NEUROSCIENCE LAB  
**Department:** Psychological Sciences  
**Grade Mode:** Standard Letter  
**Course Type:** Laboratory  
**Credit Hour:** 1  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
**Course Level:** Undergraduate Upper-Level  
**Prerequisite(s):** PSYC 362 (may be taken concurrently) or NEUR 362 (may be taken concurrently)  
**Description:** The objective is to equip the students of PSYC/NEUR 362 the tools on how to apply cognitive neuroscience techniques to health or clinical topics and to investigate sensorimotor and cognitive measures in a human model. The prerequisite may be taken the same semester as this class. Instructor Permission Required. Cross-list: NEUR 364. Graduate/Undergraduate Equivalency: PSYC 564. Mutually Exclusive: Cannot register for PSYC 364 if student has credit for PSYC 564.

PSYC 366 - METHODS IN SOCIAL COGNITIVE AND AFFECTIVE NEUROSCIENCE  
**Short Title:** METHODS IN SOC COG AFF NEURO  
**Department:** Psychological Sciences  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture/Laboratory  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
**Course Level:** Undergraduate Upper-Level  
**Prerequisite(s):** (PSYC 202 or PSYC 203) and (PSYC 354 (may be taken concurrently) or PSYC 362 (may be taken concurrently))  
**Description:** This course will give students hands-on training in the research methods of social cognitive and affective neuroscience. Students will learn about the theoretical underpinnings of these allied fields; acquire, preprocess, and analyze human functional neuroimaging data (i.e. using fMRI); and interpret and write-up results. PSYC 354 or PSYC 362 may be taken concurrently.
PSYC 370 - INTRODUCTION TO HUMAN FACTORS AND ERGONOMICS  
**Short Title:** INTRO TO HUMAN FACTORS & ERGO  
**Department:** Psychological Sciences  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Distribution Group:** Distribution Group II  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
**Course Level:** Undergraduate Upper-Level  
**Prerequisite(s):** PSYC 203 and PSYC 320  
**Description:** Application of principles of psychology and human performance to the design of modern systems.

PSYC 375 - NEUROPSYCHOLOGY OF LANGUAGE AND MEMORY  
**Short Title:** NEUROPSYCH OF LANGUAGE/MEMORY  
**Department:** Psychological Sciences  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Distribution Group:** Distribution Group II  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
**Course Level:** Undergraduate Upper-Level  
**Prerequisite(s):** PSYC 203 and (PSYC 309 or LING 309 or LING 200 or ANTH 200) and (PSYC 362 or NEUR 362 or NEUR 380 or BIOE 380 or PSYC 380 or BIOL 380)  
**Description:** An introduction to the neural basis of language and memory, covering patient-based and neuroimaging approaches. Topics include the neural basis of speech perception, language comprehension, language production, short-term memory, working memory, semantic and episodic memory, and domain-specific memory (e.g., verbal, spatial, and emotional memory).

PSYC 380 - FUNDAMENTAL NEUROSCIENCE SYSTEMS  
**Short Title:** NEUROSYSTEMS  
**Department:** Psychological Sciences  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
**Course Level:** Undergraduate Upper-Level  
**Description:** This course will provide a broad overview of the brain's neural systems that subserve perception, learning, and behavior. The course will be highly integrative with thematic content including functional organization of the nervous system, neural encoding and decoding, sensory systems, motor systems, and high-level concept processing. Cross-list: NEUR 380. Graduate/Undergraduate Equivalency: PSYC 584. Recommended Prerequisite(s): PSYC 101. Mutually Exclusive: Cannot register for PSYC 380 if student has credit for PSYC 584.

PSYC 385 - NEUROSYSTEMS  
**Short Title:** NEUROSYSTEMS  
**Department:** Psychological Sciences  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Distribution Group:** Distribution Group II  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
**Course Level:** Undergraduate Upper-Level  
**Prerequisite(s):** PSYC 101 and PSYC 203  
**Description:** Introduction to methods for developing and testing user interfaces to computer systems. The focus is on web-based applications. Graduate/Undergraduate Equivalency: PSYC 609. Recommended Prerequisite(s): PSYC 370. Mutually Exclusive: Cannot register for PSYC 409 if student has credit for PSYC 609.

PSYC 409 - METHODS IN HUMAN-COMPUTER INTERACTION  
**Short Title:** METHODS HUMAN-COMP INTERACTION  
**Department:** Psychological Sciences  
**Grade Mode:** Seminar  
**Course Type:** Seminar  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
**Course Level:** Undergraduate Upper-Level  
**Prerequisite(s):** PSYC 101 and PSYC 203  
**Description:** An introduction to the neural basis of language and memory, covering patient-based and neuroimaging approaches. Topics include the neural basis of speech perception, language comprehension, language production, short-term memory, working memory, semantic and episodic memory, and domain-specific memory (e.g., verbal, spatial, and emotional memory).

PSYC 411 - HISTORY OF PSYCHOLOGY  
**Short Title:** HISTORY OF PSYCHOLOGY  
**Department:** Psychological Sciences  
**Grade Mode:** Seminar  
**Course Type:** Seminar  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
**Course Level:** Undergraduate Upper-Level  
**Prerequisite(s):** PSYC 203 and PSYC 320  
**Description:** Survey of evolution of psychological theory from the Greeks to the present. Includes development of scientific approaches to the study of human thought and behavior. Graduate/Undergraduate Equivalency: PSYC 511. Mutually Exclusive: Cannot register for PSYC 411 if student has credit for PSYC 511.

PSYC 420 - ELECTION SYSTEMS, TECHNOLOGIES, AND ADMINISTRATION  
**Short Title:** ELECTION SYSTEMS  
**Department:** Psychological Sciences  
**Grade Mode:** Seminar  
**Course Type:** Seminar  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.  
**Course Level:** Undergraduate Upper-Level  
**Prerequisite(s):** POLI 395  
**Description:** This multidisciplinary course will consider how elections are conducted to enhance participation, to accurately measure the will of the electorate, and to be sufficiently rigorous to convince all parties that the results are legitimate. This course will consider the design and evaluation of election technologies, ranging from voter registration through the polling booth and vote tabulation. This course will consider three questions: how do individual voters interact with the voting technology, how are voting technologies engineered to be accurate and secure, and how do the social aspects of voting fulfill democratic goals for elections? A central requirement for this course will be group research projects, many operating in our community, built around the November election. Cross-list: COMP 435, POLI 420.
PSYC 430 - COMPUTATIONAL MODELING OF COGNITIVE PROCESSES
Short Title: COMP MODELING OF COG PROCESSES
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: A survey of computational approaches to modeling cognitive processes. The emphasis will be on recent production system models, but other approaches will also be covered. The course will involve evaluation of existing models and hands-on experience in modeling. Graduate/Undergraduate Equivalency: PSYC 543. Recommended Prerequisite(s): PSYC 203 and COMP 200 (or equivalent). Mutually Exclusive: Cannot register for PSYC 430 if student has credit for PSYC 543.

PSYC 431 - ADVANCED INDUSTRIAL/ORGANIZATIONAL PSYCHOLOGY SEMINAR
Short Title: ADVANCED I/O PSYCHOLOGY
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): PSYC 231
Description: An emphasis on reading original published research. Topics covered include personnel selection, training, motivation, job attitudes, and groups. Instructor Permission Required. Mutually Exclusive: Cannot register for PSYC 431 if student has credit for PSYC 530.

PSYC 432 - BRAIN AND BEHAVIOR
Short Title: BRAIN AND BEHAVIOR
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): PSYC 101 and PSYC 203 and PSYC 362
Description: An in-depth examination of the neural basis of higher mental functions in humans, including perception, attention, memory, motor skill, and language. Claims and controversies in cognitive neuroscience will be discussed. Recommended Prerequisite(s): PSYC 339 and PSYC 340.

PSYC 435 - POLLUTION AND PSYCHOLOGICAL DEVELOPMENT
Short Title: POLLUTION & PSYCHOLOGICAL DEV
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: In this course, we will consider research on the effects of various pollutants and toxic substances on the cognitive, social, and emotional development of children. Expert guest speakers will contribute to the course as well. Recommended Prerequisite(s): PSYC 339 and PSYC 340.

PSYC 436 - ADVANCED ORGANIZATIONAL PSYCHOLOGY
Short Title: ADVANCED ORGANIZATIONAL PSYC
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): PSYC 231 and PSYC 431
Description: Contemporary theory and research in organizational psychology, including topics such as motivation, leadership, job satisfaction, occupational stress, social cognition in work organizations, and group processes. Graduate/Undergraduate Equivalency: PSYC 636. Mutually Exclusive: Cannot register for PSYC 436 if student has credit for PSYC 636.

PSYC 438 - GROUP DYNAMICS
Short Title: GROUP DYNAMICS
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course examines current psychological theory and literature concerning intra- and inter-group phenomena within organizational contexts. This course will cover topics such as the unique methodological challenges of studying group-level phenomena; individual-, group-, and organizational-level inputs; group processes; and the assessment of group-level outcomes. Graduate/Undergraduate Equivalency: PSYC 551. Recommended Prerequisite(s): PSYC 339 and PSYC 340 and should be majoring in Psychology or Business. Mutually Exclusive: Cannot register for PSYC 438 if student has credit for PSYC 551.

PSYC 439 - ADVANCED STATISTICAL METHODS FOR PSYCHOLOGY UNDERGRADUATES
Short Title: ADV STATISTICAL METHODS-PSYC
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): PSYC 339 or SOSC 302
Description: This course is intended as a second course in statistics for psychology and the social sciences. It builds on PSYC 339/SOSC 302. Advanced factorial ANOVA designs, mixed between- and within-subject designs, and multiple regression will be covered. This course is primarily for advanced psychology undergraduates contemplating enrollment in graduate school.
PSYC 440 - RESEARCH SEMINAR: INDUSTRIAL/ORGANIZATIONAL PSYCHOLOGY
Short Title: RESEARCH IN I/O PSYCHOLOGY
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): PSYC 231
Description: An examination of selected topics in industrial/organizational psychology, focusing on published and ongoing research by contemporary scholars. Topics will vary. Instructor Permission Required.

PSYC 441 - HUMAN-COMPUTER INTERACTION
Short Title: HUMAN-COMPUTER INTERACTION
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): PSYC 101 and PSYC 203
Description: Study of the design and evaluation of interactive computing systems for human use and the major phenomena surrounding them. Mutually Exclusive: Cannot register for PSYC 441 if student has credit for PSYC 341/PSYC 541.

PSYC 445 - ADVANCED SEMINAR IN HEALTH PSYCHOLOGY
Short Title: ADV SEM IN HEALTH PSYCHOLOGY
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment limited to students with a class of Junior or Senior. Enrollment is limited to students with a major in Psychology. Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): PSYC 202 and PSYC 332 and (PSYC 339 or SOSC 302) and PSYC 340
Description: Consideration of research on psychological factors and health, with special consideration to the role of health beliefs in people's practice and nonpractice of health, illness, and sick-role behaviors. Topics will vary. Repeatable for credit with Permission of Department.

PSYC 452 - EMOTION REGULATION
Short Title: EMOTION REGULATION
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Review of contemporary psychology research on emotion regulation, including conceptual foundations, neurobiological bases, individual differences, involvement in psychopathology, and links to translational research approaches relevant to health psychology. Graduate/Undergraduate Equivalency: PSYC 552. Mutually Exclusive: Cannot register for PSYC 452 if student has credit for PSYC 552.

PSYC 455 - ADVANCED SEMINAR IN CLINICAL PSYCHOLOGY
Short Title: ADV SEM IN CLINICAL PSYCHOLOGY
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): PSYC 101 and (PSYC 202 or PSYC 203)
Description: Topics will vary. Repeatable for credit with Permission of Department.

PSYC 461 - REASONING, DECISION MAKING, PROBLEM SOLVING
Short Title: DECISION MAKING/PROB SOLVING
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): PSYC 203 and (PSYC 339 or SOSC 302 or STAT 280 or STAT 300 or STAT 305 or STAT 310 or STAT 315 or DSCI 301 or ECON 307)
Description: Study of the higher mental processes. Includes problem solving, judgment, decision making, and reasoning. Graduate/Undergraduate Equivalency: PSYC 527. Mutually Exclusive: Cannot register for PSYC 461 if student has credit for PSYC 360/PSYC 527.

PSYC 462 - NON-TRADITIONAL INTERFACES
Short Title: NON-TRADITIONAL INTERFACES
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Advanced coverage of human computer interfaces that are not necessarily graphical in nature. The course covers haptic, gesture, locomotion, auditory, voice olfactory, taste interfaces. Impoverished GUIs (small screen) are investigated, as are interactive voice response systems and complex interfaces that are multi-model. Graduate/Undergraduate Equivalency: PSYC 662. Recommended Prerequisite(s): PSYC 370. Mutually Exclusive: Cannot register for PSYC 462 if student has credit for PSYC 662.
PSYC 463 - MEDICAL HUMAN FACTORS
Short Title: MEDICAL HUMAN FACTORS
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Advanced coverage of the human factors that are specific to medical systems. Topics include medical decision making and diagnosis errors, surgical human factors, medical robots, surgical simulators, and general medical equipment design. Macro-ergonomics of hospital systems, electronic medical records and computerized physician order entry systems are also covered. Graduate/Undergraduate Equivalency: PSYC 663. Recommended Prerequisite(s): PSYC 370. Mutually Exclusive: Cannot register for PSYC 463 if student has credit for PSYC 663.

PSYC 464 - USABILITY ASSESSMENT
Short Title: USABILITY ASSESSMENT
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: This course covers all of the aspects of specifying, planning, executing, and reporting usability assessments on products, services and systems. Formative and summative assessments are covered, as are "discount" usability methods. This course is project based, with students performing usability assessments as part of an engineering team that is developing products for deployment. Graduate/Undergraduate Equivalency: PSYC 664. Recommended Prerequisite(s): PSYC 370. Mutually Exclusive: Cannot register for PSYC 464 if student has credit for PSYC 664.

PSYC 465 - OLFATORY PERCEPTION
Short Title: OLFATORY PERCEPTION
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): PSYC 101
Description: Overview of theories and research related to olfaction. Special topics include olfactory memory, the effect of emotion and cognition on olfaction, olfaction as a channel of communication, sensory integration, and ERP and fMRI studies on olfaction and its relationship with other sensory systems. Graduate/Undergraduate Equivalency: PSYC 565. Mutually Exclusive: Cannot register for PSYC 465 if student has credit for PSYC 565.

PSYC 470 - ENGINEERING PSYCHOLOGY
Short Title: ENGINEERING PSYCHOLOGY
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): PSYC 370
Description: This is an advanced human factors course aimed at students who have taken a basic course in human factors or human-computer interaction and are looking for greater depth. Graduate/Undergraduate Equivalency: PSYC 540. Mutually Exclusive: Cannot register for PSYC 470 if student has credit for PSYC 540.

PSYC 475 - STEREOTYPING AND PREJUDICE
Short Title: STEREOTYPING AND PREJUDICE
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): PSYC 202
Description: Consideration of modern research on stereotypes of, prejudice against, and discrimination toward racial, gender, and stigmatized groups. Recommended Prerequisite(s): PSYC 203 and 340.

PSYC 477 - SPECIAL TOPICS
Short Title: SPECIAL TOPICS
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Internship/Practicum, Laboratory, Lecture, Seminar, Lecture/Laboratory
Credit Hours: 1-4
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Topics and credit hours may vary each semester. Contact department for current semester’s topic(s). Repeatable for Credit.

PSYC 480 - ADVANCED TOPICS
Short Title: ADVANCED TOPICS
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): PSYC 101 and (PSYC 202 (may be taken concurrently) or PSYC 203)
Description: Topics will vary. Please see individual instructor for prerequisite requirements. Repeatable for different topics. Repeatable for Credit.
PSYC 485 - UNDERGRADUATE SUPERVISED RESEARCH
Short Title: UG SUPERVISED RESEARCH
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Research
Credit Hours: 1-6
Restrictions: Enrollment is limited to students with a major in Cognitive Sciences or Psychology. Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Supervised empirical research. Research paper required. Sponsorship by faculty member required. Instructor Permission Required. Recommended Prerequisite(s): PSYC 339, PSYC 340. Repeatable for Credit.

PSYC 487 - FUNCTIONAL HUMAN NEUROANATOMY
Short Title: FUNCTIONAL NEUROANATOMY
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 3
Restrictions: Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): PSYC 203
Description: Anatomy and function of major structures and circuits of the human central nervous system in health and disease. Gross structure and function of the human brain, spinal cord, and cranial nerves are emphasized. Students will gain both an appreciation of the brain’s three-dimensional architecture and a thorough understanding of the functions of major brain systems. Additionally, there is a focus on how sensory signals are processed from a succession of lower centers on up through successive cortical regions. Materials include human brain samples as well as images of human brain sections, 3-D models and animations, as well as CT, PET and MRI images. Instructor Permission Required. Graduate/Undergraduate Equivalency: PSYC 587. Mutually Exclusive: Cannot register for PSYC 487 if student has credit for PSYC 587.

PSYC 488 - SUPERVISED READING
Short Title: SUPERVISED READING
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Independent Study
Credit Hours: 1-6
Restrictions: Enrollment is limited to students with a major in Cognitive Sciences or Psychology. Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Supervised reading of books and empirical papers on a topic of mutual interest to students and faculty. Term paper required. Sponsorship by faculty member required. Instructor Permission Required. Recommended Prerequisite(s): PSYC 339 and PSYC 340. Repeatable for Credit.

PSYC 495 - SUMMER INTERNSHIP
Short Title: SUMMER INTERNSHIP
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Internship/Practicum
Credit Hours: 3
Restrictions: Enrollment is limited to students with a major in Psychology. Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Description: Provides enrollment for various department summer internships. Instructor Permission Required. Repeatable for Credit.

PSYC 499 - HONORS THESIS
Short Title: HONORS THESIS
Department: Psychological Sciences
Grade Mode: Independent Study
Credit Hours: 1-6
Restrictions: Enrollment is limited to students with a major in Psychology. Enrollment is limited to Undergraduate, Undergraduate Professional or Visiting Undergraduate level students.
Course Level: Undergraduate Upper-Level
Prerequisite(s): (PSYC 339 or SOSC 302) and PSYC 340
Description: Sponsorship by faculty member required. Students must apply for the Honors Program. Instructor Permission Required. Repeatable for Credit.

PSYC 502 - ADVANCED PSYCHOLOGICAL STATISTICS I
Short Title: ADVANCED PSYC STATISTICS I
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 4
Restrictions: Enrollment is limited to students with a major in Human-Comp Inter & Humn Factrs or Psychology. Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Introduction to inferential statistics, with emphasis on analysis of variance. Students who do not meet registration requirements as Graduate and Psychology or MHCIHF (Master in Human-Computer Interaction and Human Factors) Majors must receive instructor permission to register. Cross-list: STAT 509.

PSYC 503 - ADVANCED PSYCHOLOGICAL STATISTICS II
Short Title: ADVANCED PSYC STATISTICS II
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): PSYC 502 or STAT 509
Description: A continuation of PSYC 502, focusing on multiple regression. Other multivariate techniques and distribution-free statistics are also covered. Cross-list: STAT 510.
PSYC 504 - COMPUTER APPLICATIONS IN PSYCHOLOGY  
**Short Title:** COMPUTER APPLICATIONS IN PSYC  
**Department:** Psychological Sciences  
**Grade Mode:** Standard Letter  
**Course Type:** Seminar  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** The use of computers in psychological research and in usability engineering. The emphasis will be on dynamic HTML and JavaScript. Topics will include designing and running web-based psychology experiments and the use of web-based video. Graduate/Undergraduate Equivalency: PSYC 342. Mutually Exclusive: Cannot register for PSYC 504 if student has credit for PSYC 342.

PSYC 507 - RESEARCH METHODS  
**Short Title:** RESEARCH METHODS  
**Department:** Psychological Sciences  
**Grade Mode:** Standard Letter  
**Course Type:** Seminar  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** Graduate-level treatment of a wide range of laboratory and field research methodologies.

PSYC 511 - HISTORY AND SYSTEMS OF PSYCHOLOGY  
**Short Title:** HISTORY & SYSTEMS OF PSYC  
**Department:** Psychological Sciences  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** Survey of the evolution of psychological theory from the Greeks to the present. Includes development of scientific approaches to the study of human thought and behavior. Graduate/Undergraduate Equivalency: PSYC 411. Mutually Exclusive: Cannot register for PSYC 511 if student has credit for PSYC 411.

PSYC 520 - FOUNDATIONS OF COGNITIVE PSYCHOLOGY  
**Short Title:** FOUNDATIONS OF COGNITIVE PSYC  
**Department:** Psychological Sciences  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** An introduction to the basic topics in cognitive psychology, including perception, memory, psycholinguistics, concept formation, problem solving, and decision making.

PSYC 521 - PSYCHOLOGY OF PERCEPTION  
**Short Title:** PERCEPTION  
**Department:** Psychological Sciences  
**Grade Mode:** Standard Letter  
**Course Type:** Seminar  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** An introductory survey of sensation and perception, both human and animal. Covers all sensory systems but focuses on vision and audition. Includes the philosophy of perception; measurement and methods; neuroanatomy of visual and auditory systems; computational models of vision, motion, depth, and color; illusions and perceptual organization; and perceptual development. Graduate/Undergraduate Equivalency: PSYC 351.

PSYC 522 - INFORMATION PROCESSING AND ATTENTION  
**Short Title:** INFO PROCESSING & ATTENTION  
**Department:** Psychological Sciences  
**Grade Mode:** Standard Letter  
**Course Type:** Seminar  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** An exploration of topics in attention, including information overload, selective attention, response conflict, and automatic/unconscious and controlled/conscious processes. The neural mechanisms underlying these processes will also be discussed.

PSYC 524 - MEMORY  
**Short Title:** MEMORY  
**Department:** Psychological Sciences  
**Grade Mode:** Standard Letter  
**Course Type:** Seminar  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** Overview of issues and research in remembering and forgetting. Graduate/Undergraduate Equivalency: PSYC 308.

PSYC 525 - PSYCHOLINGUISTICS  
**Short Title:** PSYCHOLINGUISTICS  
**Department:** Psychological Sciences  
**Grade Mode:** Standard Letter  
**Course Type:** Lecture  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** Study of the psychology of language. Includes the study of speech production, reading, syntax, meaning, bilingualism, language and thought, and language errors and disorders.

PSYC 527 - REASONING, DECISION MAKING, PROBLEM SOLVING  
**Short Title:** DECISION MAKING/PROB SOLVING  
**Department:** Psychological Sciences  
**Grade Mode:** Standard Letter  
**Course Type:** Seminar  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** The study of higher mental processes. Includes problem solving, judgment, decision making, and reasoning. Graduate/Undergraduate Equivalency: PSYC 461. Mutually Exclusive: Cannot register for PSYC 527 if student has credit for PSYC 461.
PSYC 529 - COGNITIVE RESEARCH SEMINAR  
**Short Title:** COGNITIVE RESEARCH SEMINAR  
**Department:** Psychological Sciences  
**Grade Mode:** Satisfactory/Unsatisfactory  
**Course Type:** Seminar  
**Credit Hours:** 1-3  
**Restrictions:** Enrollment is limited to students with a major in Psychology. Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** A weekly student-staff seminar on current and recent research about mental phenomena. Repeatable for Credit.

PSYC 530 - FOUNDATIONS OF I-O PSYCHOLOGY  
**Short Title:** FOUNDATIONS OF I-O PSYCHOLOGY  
**Department:** Psychological Sciences  
**Grade Mode:** Standard Letter  
**Course Type:** Seminar  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** Graduate-level introduction to the study of human behavior in the work setting. Mutually Exclusive: Cannot register for PSYC 530 if student has credit for PSYC 431.

PSYC 531 - HF/HCI RESEARCH SEMINAR  
**Short Title:** HF/HCI RESEARCH SEMINAR  
**Department:** Psychological Sciences  
**Grade Mode:** Satisfactory/Unsatisfactory  
**Course Type:** Seminar  
**Credit Hours:** 1-3  
**Restrictions:** Enrollment is limited to students with a major in Human-Comp Inter & Humn Fctrs or Psychology. Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** A weekly student-staff seminar on various human factors and human-computer interaction topics. Repeatable for Credit.

PSYC 532 - HEALTH RESEARCH SEMINAR  
**Short Title:** HEALTH RESEARCH SEMINAR  
**Department:** Psychological Sciences  
**Grade Mode:** Satisfactory/Unsatisfactory  
**Course Type:** Seminar  
**Credit Hours:** 1-3  
**Restrictions:** Enrollment is limited to students with a major in Psychology. Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** A weekly student-staff seminar on current and recent health and emotion-related research. Repeatable for Credit.

PSYC 533 - I-O PSYCHOLOGY RESEARCH SEMINAR  
**Short Title:** I-O PSYCHOLOGY RESEARCH SEM  
**Department:** Psychological Sciences  
**Grade Mode:** Satisfactory/Unsatisfactory  
**Course Type:** Seminar  
**Credit Hours:** 1-3  
**Restrictions:** Enrollment is limited to students with a major in Psychology. Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** A weekly student-staff seminar on various industrial-organizational psychology topics. Repeatable for Credit.

PSYC 535 - HUMAN FACTORS/ERGONOMICS  
**Short Title:** HUMAN FACTORS/ERGONOMICS  
**Department:** Psychological Sciences  
**Grade Mode:** Standard Letter  
**Course Type:** Seminar  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** A survey of computational approaches to modeling cognitive processes. The emphasis will be on recent production system models, but other approaches will also be covered. The course will involve evaluation of existing models and hands-on experience in modeling. Graduate/Undergraduate Equivalency: PSYC 430. Mutually Exclusive: Cannot register for PSYC 543 if student has credit for PSYC 430.
PSYC 546 - PSYCHONEUROIMMUNOLOGY
Short Title: PSYCHONEUROIMMUNOLOGY
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to students with a major in Psychology. Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Psychoneuroimmunology research

PSYC 547 - FOUNDATIONS OF HEALTH PSYCHOLOGY
Short Title: FOUNDATIONS-HEALTH PSYCHOLOGY
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to students with a major in Psychology. Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Foundations of Health Psychology research

PSYC 548 - INTERVENTIONS
Short Title: INTERVENTIONS
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course will prepare students to conduct high-impact research across the translational continuum in the social, psychobiological, and behavioral sciences. In this course, students will gain a thorough grounding in the conduct of randomized controlled trials (RCTs) and develop competence in the planning, design, and execution of clinical trials involving behavioral interventions. After taking this course, students will be able to plan and conduct longitudinal observational studies and clinical trials that have the potential to change practice guidelines, health care policies, and third-party coverage for health-related outcomes. The first two weeks of the course will cover causal inference in experimental and observational studies and address various implications of counterfactual thinking. The remainder of the course will provide training in planning, designing, and conducting translational research with a focus on randomized controlled trials of health-related behavioral interventions. Each student will develop and write a research grant proposal that will serve as the course "Final." Recommended Prerequisite(s): This course has no specific course prerequisites. It is designed to be most useful to students with knowledge of basic (i.e., undergraduate level statistics and research methods) that are pertinent to the social, behavioral, and biomedical sciences.
Course URL: canvas.rice.edu/courses/33575 (http://canvas.rice.edu/courses/33575/)

PSYC 549 - PSYCHOPATHOLOGY, DEVELOPMENT, & AGING
Short Title: PSYCHOPATHOLOGY, DEVELOPMENT, & AGING
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course will take a developmental approach to understand psychopathology and aging. We will seek to evaluate the factors contributing to psychopathology that emerge across the lifespan. We will adopt a biopsychosocial model to address the roots of normal and abnormal adult development, & aging. This course will begin with an overview of the field; we will then work toward a sophisticated understanding anxiety disorders, aging & cognitive disorders, mood disorders, factitious and dissociative disorders, and personality disorders. Although we will cover nosological models of psychopathology, we will primarily focus on etiology.

PSYC 550 - FOUNDATIONS OF SOCIAL PSYCHOLOGY
Short Title: FOUNDATIONS OF SOCIAL PSYC
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Review of theories of social psychology with an emphasis on current empirical research.

PSYC 551 - GROUP DYNAMICS
Short Title: GROUP DYNAMICS
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Prerequisite(s): PSYC 530
Description: This course examines current psychological theory and literature concerning intra- and inter-group phenomena within organizational contexts. This course will cover topics such as the unique methodological challenges of studying group-level phenomena; individual-, group-, and organizational-level inputs; group processes; and the assessment of group-level outcomes. Graduate/Undergraduate Equivalency: PSYC 438. Mutually Exclusive: Cannot register for PSYC 551 if student has credit for PSYC 438.

PSYC 552 - EMOTION REGULATION
Short Title: EMOTION REGULATION
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to students with a major in Psychology. Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Review of contemporary psychology research on emotion regulation, including conceptual foundations, neurobiological bases, individual differences, involvement in psychopathology, and links to translational research approaches relevant to health psychology. Graduate/Undergraduate Equivalency: PSYC 452. Mutually Exclusive: Cannot register for PSYC 552 if student has credit for PSYC 452.
PSYC 560 - PSYCHOLOGY PRESENTATIONS  
**Short Title:** PSYCHOLOGY PRESENTATIONS  
**Department:** Psychological Sciences  
**Grade Mode:** Standard Letter  
**Course Type:** Internship/Practicum  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** Practicum on oral psychology presentation.

PSYC 561 - TEACHING IN PSYCHOLOGY  
**Short Title:** TEACHING IN PSYCHOLOGY  
**Department:** Psychological Sciences  
**Grade Mode:** Satisfactory/Unsatisfactory  
**Course Type:** Internship/Practicum  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** Assistance in the teaching of undergraduate and occasionally graduate courses in psychology. Repeatable for Credit.

PSYC 563 - COGNITIVE PSYCHOLOGY INTERNSHIP  
**Short Title:** COGNITIVE PSY INTERNSHIP  
**Department:** Psychological Sciences  
**Grade Mode:** Satisfactory/Unsatisfactory  
**Course Type:** Internship/Practicum  
**Credit Hours:** 1-9  
**Restrictions:** Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** Supervised internship in cognitive psychology. Instructor Permission Required. Repeatable for Credit.

PSYC 564 - COGNITIVE NEUROSCIENCE LAB  
**Short Title:** COGNITIVE NEUR LAB  
**Department:** Psychological Sciences  
**Grade Mode:** Standard Letter  
**Course Type:** Laboratory  
**Credit Hour:** 1  
**Restrictions:** Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** The objective is to equip the students of PSYC/NEUR 362 the tools on how to apply cognitive neuroscience techniques to health or clinical topics and to investigate sensorimotor and cognitive measures in a human model. Cross-list: NEUR 564. Graduate/Undergraduate Equivalency. PSYC 364. Mutually Exclusive: Cannot register for PSYC 564 if student has credit for PSYC 364.

PSYC 565 - HUMAN OLFACTION  
**Short Title:** HUMAN OLFACTION  
**Department:** Psychological Sciences  
**Grade Mode:** Standard Letter  
**Course Type:** Seminar  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** Overview of theories and research related to olfaction. Special topics include olfactory memory, the effect of emotion and cognition on olfaction, olfaction as a channel of communication, sensory integration, and ERP and fMRI studies on olfaction and its relationship with other sensory systems. Graduate/Undergraduate Equivalency: PSYC 465. Mutually Exclusive: Cannot register for PSYC 565 if student has credit for PSYC 465.

PSYC 571 - FIRST-YEAR PROJECT  
**Short Title:** FIRSTYEAR PROJECT  
**Department:** Psychological Sciences  
**Grade Mode:** Standard Letter  
**Course Type:** Research  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to students with a major in Psychology. Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** Individual research project undertaken in the first year of the graduate program. Repeatable for Credit.

PSYC 572 - SECOND-YEAR PROJECT  
**Short Title:** SECOND-YEAR PROJECT  
**Department:** Psychological Sciences  
**Grade Mode:** Satisfactory/Unsatisfactory  
**Course Type:** Research  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to students with a major in Psychology. Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** Individual research project undertaken during the second year of the graduate program. Repeatable for Credit.

PSYC 573 - NON-THESIS GRADUATE RESEARCH  
**Short Title:** NON-THESIS GRAD RESEARCH  
**Department:** Psychological Sciences  
**Grade Mode:** Satisfactory/Unsatisfactory  
**Course Type:** Research  
**Credit Hours:** 1-15  
**Restrictions:** Enrollment is limited to students with a major in Psychology. Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** Individual research prior to achieving candidacy. Repeatable for Credit.

PSYC 574 - INTRODUCTION TO COGNITIVE NEUROSCIENCE  
**Short Title:** INTRO COGNITIVE NEUROSCIENCE  
**Department:** Psychological Sciences  
**Grade Mode:** Standard Letter  
**Course Type:** Seminar  
**Credit Hours:** 3  
**Restrictions:** Enrollment is limited to Graduate level students.  
**Course Level:** Graduate  
**Description:** An introductory graduate-level overview of cognitive neuroscience. The course will cover basics in history, neuroanatomy, methods of cognitive neuroscience, sensation and perception, control of action, learning and memory, emotion, language, attention, drugs and cognition, impulsivity, cognitive control, social cognition, and neurobiology of disease. This course is usually taught at the Texas Medical Center. Instructor Permission Required. Cross-list: NEUR 508.
PSYC 575 - ADVANCED COGNITIVE NEUROSCIENCE: ATTENTION AND PERCEPTION
Short Title: ATTENTION AND PERCEPTION
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Overview of neuropsychological and cognitive neuroscience approaches to higher mental functions including sensation and perception, attention, motor control, and neuroplasticity. Other topics include basic neuroanatomy, experimental and clinical investigative methods, and the historical and philosophical context of contemporary neuroscience. Cross-list: NEUR 501.
Course URL: www.ruf.rice.edu/~neurosci (http://www.ruf.rice.edu/~neurosci/)

PSYC 576 - ADVANCED COGNITIVE NEUROSCIENCE: HIGHER MENTAL FUNCTIONS
Short Title: HIGHER MENTAL FUNCTIONS
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Overview of neuropsychological and neuroimaging approaches to higher mental functions, including language, memory, executive functions, reasoning, and numerical processing. Cross-list: NEUR 502.
Course URL: www.ruf.rice.edu/~neurosci (http://www.ruf.rice.edu/~neurosci/)

PSYC 577 - INTRODUCTION TO FUNCTIONAL NEUROANATOMY
Short Title: FUNCTIONAL NEUROANATOMY
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Lecture/Laboratory
Credit Hours: 2-3
Restrictions: Enrollment is limited to students with a major in Psychology. Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Anatomy and function of components of the nervous system with an emphasis on the central nervous system. Usually taught at the Texas Medical Center. Instructor Permission Required.

PSYC 578 - COGNITIVE NEUROPSYCHOLOGY: THEORIES AND METHODS
Short Title: COGNEURO: THEORIES AND METHODS
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This course explores different approaches in the field of Cognitive Neuropsychology. Topics include single-case studies, case series, voxel-lesion symptom mapping and computational neuropsychology. We will discuss how to do research with each of these techniques, how to draw inferences from neuropsychological data and critiques of the methodology.

PSYC 580 - DEVELOPMENTAL COGNITIVE NEUROSCIENCE
Short Title: DEVELOPMENTAL COGNEURO
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Seminar focusing on the neural/biological bases of both normal and abnormal human development through a survey of recent research in developmental cognitive neuroscience. Topics include perceptual, motive, cognitive, and language development as well as experimental research methods for studying the developing brain.

PSYC 581 - VISION SCIENCE
Short Title: VISION SCIENCE
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: Advanced graduate seminar in the psychology of vision, covering the neural, psychophysical, and phenomenological approaches to visual perception.

PSYC 582 - EARLY SENSORY, PERCEPTUAL AND ATTENTIONAL DEVELOPMENT
Short Title: EARLY SENSORY PERCEPTION
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 3
Restrictions: Enrollment is limited to Graduate level students.
Course Level: Graduate
Description: This is a survey course for graduate students interested in the development of sensory systems, perception, and attention. There will be original empirical and theoretical readings from the literature on the development of these functions primarily during infancy. Neurobiological underpinnings for these functions will be debated and discussed.

PSYC 583 - THEORY, CONTENT, AND EXECUTION IN COGNITIVE NEUROSCIENCE
Short Title: COGNEURO THEORY/CONTENT/EXECUT
Department: Psychological Sciences
Grade Mode: Standard Letter
Course Type: Seminar
Credit Hours: 2
