Opportunities for the MAT Degree, for Current Rice Undergraduates

Fifth-Year Master’s Degree Option for Rice Undergraduate Students

Rice students have an option to pursue the Master of Arts in Teaching (MAT) degree by adding an additional fifth year to their four undergraduate years of studies.

Advanced Rice undergraduate students in good academic standing may apply to the MAT degree program during their sophomore year. Upon acceptance, depending on course load, financial aid status, and other variables, they may then start taking some required courses of the master’s degree program during their junior year. A plan of study will need to be approved by the student’s undergraduate advisor and the MAT program director.

As part of this option and opportunity, Rice undergraduate students:

- must complete the requirements for a bachelor’s degree (a minimum of 120 credit hours) and the master’s degree (an additional 36 credit hours) independently of each other (i.e. no course may be counted toward the fulfillment of both degrees).
- must complete at least 24 credit hours in the selected teaching area.
- should be aware there could be financial aid implications if the conversion of undergraduate coursework to that of graduate level reduces their earned undergraduate credit for any semester below that of full-time status (12 credit hours).
- more information on this Undergraduate - Graduate Concurrent Enrollment opportunity, including specific information on the registration process can be found here (ga.rice.edu/undergraduate-students/academic-opportunities/undergraduate-graduate-concurrent-enrollment).

Requirements for Visiting Post-Baccalaureate (VPB) Certification

A non-degree (Visiting Post-Baccalaureate) plan leading to secondary teacher certification or principal certification is available for those who have earned a BA and/or MA degree, but do not choose to pursue a Rice University graduate degree. Candidates complete all requirements for state of Texas secondary teacher certification or principal certification, including professional education courses. Interested students should contact the Education Program.
