MASTER OF DATA SCIENCE (MDS) DEGREE

Program Learning Outcomes for the MDS Degree

Upon completing the MDS degree, students will be able to:

1. Develop a graduate-level understanding of the computational and statistical foundations of Data Science.
2. Through in-depth study, obtain mastery of either one of the core methods of Data Science or one application area of Data Science.
3. Apply Data Science techniques to solve difficult, real world problems, beginning with raw and dirty data, and ending with actionable insights that are effectively communicated to a lay client.

Requirements for the MDS Degree

The MDS degree is a non-thesis master's degree. For general university requirements, please see Non-Thesis Master's Degrees (https://ga.rice.edu/graduate-students/academic-policies-procedures/regulations-procedures-non-thesis-masters-degrees/). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (https://ga.rice.edu/graduate-students/academic-policies-procedures/regulations-procedures-all-degrees/).

Students pursuing the MDS degree must complete:

• A minimum of 10-13 courses (31-35 credit hours), depending on course selection, to satisfy degree requirements.
• A minimum of 31 credit hours of graduate-level study (graduate semester credit hours, coursework at the 500-level or above).
• A minimum of 24 graduate semester credit hours credit hours must be taken at Rice University.
• A minimum of 24 graduate semester credit hours must be taken in standard or traditional courses (with a course type of lecture, seminar, laboratory, lecture/laboratory).
• A minimum residency enrollment of one fall or spring semester of part-time graduate study at Rice University.
• A maximum of 2 courses (6 graduate semester credit hours) from transfer credit. For additional departmental guidelines regarding transfer credit, see the Policies (p. 3) tab.
• The requirements for one area of specialization (see below for areas of specialization). The MDS degree program offers three areas of specialization:
  • Business Analytics (p. 2), or
  • Image Processing (p. 2), or
  • Machine Learning (p. 2).
• A Professional Development (p. 2) requirement.
• A minimum overall GPA of 2.67 or higher in all Rice coursework.
• A minimum program GPA of 2.67 or higher in all Rice coursework that satisfies requirements for the non-thesis master's degree.

The courses listed below satisfy the requirements for this degree program. In certain instances, courses not on this official list may be substituted upon approval of the program's academic advisor, or where applicable, the department or program's Director of Graduate Studies. Course substitutions must be formally applied and entered into Degree Works by the department or program's Official Certifier (https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/). Additionally, these must be approved by the Office of Graduate and Postdoctoral Studies. Students and their academic advisors should identify and clearly document the courses to be taken.

### Area of Specialization 1

Select 1 from the following Areas of Specialization (see Areas of Specialization below):

- Business Analytics
- Image Processing
- Machine Learning

### Professional Development

Select 1 from the following: 0-3
A Professional Development course (see course list below)

A relevant internship 10 weeks to 6 months in length.
Students are responsible for obtaining and selecting an internship that best aligns with their career goals.

Current or past post-baccalaureate relevant work experience of at least 10 weeks.

Capstone

DSCI 535 / COMP 549
APPLIED MACHINE LEARNING AND DATA SCIENCE PROJECTS

Total Credit Hours 31-35

Footnotes and Additional Information

1 Students admitted into either program (online or on-campus) will be allowed to take up to 9 credit hours in the other modality (on-campus or online) with permission from the program advisors.

Areas of Specialization

Students must complete a minimum of 3 courses (minimum of 9 credit hours) from one Area of Specialization.

Area of Specialization: Business Analytics

Code Title Credit Hours
BUSI 711 DATA-DRIVEN MARKETING I 1
BUSI 712 DATA-DRIVEN MARKETING II 1
BUSI 721 DATA-DRIVEN FINANCE I
BUSI 722 DATA-DRIVEN FINANCE II 2
BUSI 731 FOUNDATIONS OF OPERATIONS MANAGEMENT
BUSI 732 QUANTITATIVE OPERATIONS 3
INDE 545 PRESCRIPTIVE ANALYTICS
INDE 546 COMPUTATIONAL PRESCRIPTIVE ANALYTICS
INDE 547 OPTIMIZATION METHODS IN FINANCE
STAT 649 QUANTITATIVE FINANCIAL RISK MANAGEMENT
STAT 682 QUANTITATIVE FINANCIAL ANALYTICS

Total Credit Hours 9

Footnotes and Additional Information

1 The course BUSI 711 can only be counted towards the Area of Specialization: Business Analytics if the course BUSI 712 is also counted towards the Area of Specialization: Business Analytics.

2 The course BUSI 721 can only be counted towards the Area of Specialization: Business Analytics if the course BUSI 722 is also counted towards the Area of Specialization: Business Analytics.

3 The course BUSI 731 can only be counted towards the Area of Specialization: Business Analytics if the course BUSI 732 is also counted towards the Area of Specialization: Business Analytics.

Area of Specialization: Image Processing

Code Title Credit Hours
RCEL 501 ENGINEERING MANAGEMENT & LEADERSHIP THEORY AND APPLICATION
RCEL 502 ENGINEERING PROJECT MANAGEMENT

Professional Development

In order to fulfill the Professional Development requirement, students must select up to 1 course (up to 3 credit hours) from the following:

• Complete a relevant internship 10 weeks to 6 months in length.
• Complete current or past post-baccalaureate relevant work experience of at least 10 weeks.

RCEL 505  ENGINEERING ECONOMICS FOR LEADERS

Policies for the MDS Degree

Department of Computer Science Graduate Program Handbook

The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, the department of Computer Science publishes a graduate program handbook, which can be found here: https://gradhandbooks.rice.edu/2023_24/Computer_Science_Masters_Handbook.pdf

Financial Aid

No financial aid is available from Rice University or the Computer Science Department for students in the MDS degree program.

Transfer Credit

For Rice University’s policy regarding transfer credit, see Transfer Credit (https://ga.rice.edu/graduate-students/academic-policies-procedures/regulations-procedures-all-degrees/#transfer). Some departments and programs have additional restrictions on transfer credit. Students are encouraged to meet with their academic program's advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines

Students pursuing the MDS degree should be aware of the following departmental transfer credit guidelines:

- No more than 2 courses (6 credit hours) of credit from another U.S. or international universities of similar standing as Rice may apply towards the degree. Transfer coursework must be comparable in content and depth to the corresponding course at Rice, and must not have counted toward another degree.
- Request for transfer credit will be considered by the Computer Science Graduate Committee Chair, and the instructor of the equivalent Rice course.

Additional Information

For additional information, please see the Graduate Programs website at https://www.cs.rice.edu/academics/graduate-programs (https://www.cs.rice.edu/academics/graduate-programs/) or contact the department at gradapp@rice.edu.

Opportunities for the MDS Degree

Fifth-Year Master’s Degree Option for Rice Undergraduate Students

In certain situations and with some terminal master’s degree programs, Rice students have an option to pursue a master’s degree by adding an additional fifth year to their four years of undergraduate studies. Advanced Rice undergraduate students in good academic standing typically apply to the master’s degree program during their junior or senior year. Upon acceptance, depending on course load, financial aid status, and other variables, they may then start taking some required courses of the master’s degree program. A plan of study will need to be approved by the student's undergraduate major advisor and the master’s degree program director.
