MINOR IN FINANCIAL COMPUTATION AND MODELING

Program Learning Outcomes for the Minor in Financial Computation and Modeling

Upon completing the minor in Financial Computation and Modeling, students will be able to:

1. Demonstrate knowledge of statistical, mathematical, and computational techniques and methods and how to choose and apply appropriate methods to questions or problems in the field of finance.
2. Understand the basic concepts of Economic Theory and how they apply to financial markets as well as how financial markets impact global economies.
3. Demonstrate an understanding of basic financial databases and the ability to use technologies, like R and Excel, to model and solve financial problems.
4. Understand core quantitative modeling concepts and demonstrate key skills necessary for working in the field of finance and investing.
5. Demonstrate the ability to understand, interpret, and critically evaluate empirical financial studies and investment strategies.

Requirements for the Minor in Financial Computation and Modeling

Students pursuing the minor in Financial Computation and Modeling must complete:

- A minimum of 6 courses (19-20 credit hours, depending on course selection) to satisfy minor requirements.
- A minimum of 5 courses (16 credit hours) taken at the 300-level or above.

The courses listed below satisfy the requirements for this minor. In certain instances, courses not on this official list may be substituted upon approval of the minor's academic advisor, or where applicable, the Program Director. (Course substitutions must be formally applied and entered into Degree Works by the minor's Official Certifier (https://registrar.rice.edu/facstaff/dregeworks/officialcertifier). Students and their academic advisors should identify and clearly document the courses to be taken.

Minor Requirements

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
</table>
| Core Requirements
  ECON 100   PRINCIPLES OF ECONOMICS       | 3            |
  STAT 310 / ECON 307   PROBABILITY AND STATISTICS | 3-4          |
  or STAT 315   PROBABILITY AND STATISTICS FOR DATA SCIENCE | 4            |
  ECON 310 / STAT 376   ECONOMETRICS | 4            |
  or STAT 410   LINEAR REGRESSION | 4            |

Elective Requirements

Select 3 courses from the following 4 groups:

Group I
- ECON 418   ECONOMIC FORECASTING
  or STAT 421   APPLIED TIME SERIES AND FORECASTING

Group II
- ECON 449   PRINCIPLES OF FINANCIAL ENGINEERING
  or STAT 449   QUANTITATIVE FINANCIAL RISK MANAGEMENT

Group III
- ECON 443   FINANCIAL ECONOMICS
- STAT 486   MARKET MODELS

Group IV
- BUSI 343   FINANCIAL MANAGEMENT
  or ECON 343   CORPORATE FINANCE
  or ECON 355   FINANCIAL MARKETS
  or ECON 422   INTERNATIONAL ECONOMICS AND FINANCE
  or ECON 455   MONEY AND BANKING
  or STAT 482   QUANTITATIVE FINANCIAL ANALYTICS

Total Credit Hours 19-20

Footnotes and Additional Information

1 A maximum of 1 course (3 credit hours) can be taken from each group to satisfy Elective Requirements.

Policies for the Minor in Financial Computation and Modeling

Program Restrictions and Exclusions

Students pursuing the minor in Financial Computation and Modeling should be aware of the following program restriction:

- As noted in Majors, Minors, and Certificates (ga.rice.edu/undergraduate-students/academic-opportunities/majors-minors-certificates), i.) students may declare a minor only after they have first declared a major, and ii.) students may not major and minor in the same subject.

Transfer Credit

For Rice University’s policy regarding transfer credit, see Transfer Credit (ga.rice.edu/undergraduate-students/academic-policies-procedures/transfer-credit). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of transfer credit advisors on their website: https://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Program Transfer Credit Guidelines

Students pursuing the minor in Financial Computation and Modeling should be aware of the following program-specific transfer credit guidelines:

- As noted in Majors, Minors, and Certificates (ga.rice.edu/undergraduate-students/academic-opportunities/majors-minors-certificates), i.) students may declare a minor only after they have first declared a major, and ii.) students may not major and minor in the same subject.
• Request for transfer credit will be considered by the program director (and/or the program's official transfer credit advisor) on an individual case-by-case basis.

Additional Information
For additional information, please see the Resources (Undergraduate) page on the Center for Computational Finance and Economic Systems website:
https://www.cofes-rice.org/academic-programs/undergraduate/.

Opportunities for the Minor in Financial Computation and Modeling

Academic Honors
The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (ga.rice.edu/undergraduate-students/honors-distinctions/university) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (ga.rice.edu/undergraduate-students/honors-distinctions/university). Some departments have department-specific Honors awards or designations.

Finance Seminar
Students pursuing the FCAM minor have the opportunity to participate in STAT 499 Computational Finance Seminar for 1 credit hour. Students are also encouraged to take part in the annual Eubank Conference on Real World Markets and join the student computational finance club.

Additional Information
For additional information, please see the Resources (Undergraduate) page on the Center for Computational Finance and Economic Systems website:
