DOCTOR OF PHILOSOPHY (PHD) DEGREE IN THE FIELD OF STATISTICS

Program Learning Outcomes for the MA and PhD Degrees in the field of Statistics

Upon completing the MA and PhD degrees in the field of Statistics, students will be able to:

1. Master fundamental theory in probability and statistics.
2. Become familiar with a broad range of statistical methods for applications.
4. Develop effective communication skills as a professional statistician.
5. Develop the skills to do independent research.

Requirements for the MA and PhD Degrees in the field of Statistics

MA Degree Program

The MA degree is a non-thesis master’s degree. For general university requirements, please see Non-Thesis Master's Degrees (https://ga.rice.edu/graduate-students/academic-policies-procedures/regulations-procedures-non-thesis-masters-degrees/). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (https://ga.rice.edu/graduate-students/academic-policies-procedures/regulations-procedures-all-degrees/). Students awarded the MA degree in the field of Statistics should be aware that:

- The MA degree in the field of Statistics requires 30 credit hours of approved coursework as well as one of the following:
  a. the completion of an original thesis and defense in a public oral examination; or
  b. satisfactory performance on the PhD comprehensive examinations, and the completion of a major project.
- A candidacy MA degree is awarded to statistics PhD students through option (2) where the major project corresponds to the doctoral thesis proposal.
- An MA degree is available to PhD students in the Departments of Economics or Political Science through option (1) where the original doctoral thesis and defense is related to the MA in the field of statistics.
- The MA degree awarded in the field of statistics is a non-thesis master’s degree.

Requirements for the PhD Degree in the field of Statistics

PhD Degree Program

For general university requirements, please see Doctoral Degrees (https://ga.rice.edu/graduate-students/academic-policies-procedures/regulations-procedures-doctoral-degrees/). For additional requirements, regulations, and procedures for all graduate programs, please see All Graduate Students (https://ga.rice.edu/graduate-students/academic-policies-procedures/regulations-procedures-all-degrees/). Students pursuing the PhD degree in the field of Statistics must complete:

- A minimum of 90 credit hours of approved coursework beyond the bachelor's degree and a minimum of 60 hours beyond a master's degree.
- A satisfactory performance on a required qualifying examination and an original thesis with a public oral defense.

All Statistics graduate students are assigned a limited amount of teaching and other departmental service as part of their graduate education. The assignment usually entails approximately 10 hours per week, averaged over the semester. Students completing the PhD degree in 4 years will be assigned no more than 4 semesters of service.

Policies for the PhD Degree in the field of Statistics

Department of Statistics Graduate Program Handbook

The General Announcements (GA) is the official Rice curriculum. As an additional resource for students, the department of Statistics publishes a graduate program handbook, which can be found here: https://gradhandbooks.rice.edu/2021_22/Statistics_Graduate_Handbook.pdf

Admission

Preparation for PhD Program: All applicants are required to take the Graduate Record Exam (GRE), and the quantitative, verbal, and analytical tests. Financial support is available for well-qualified doctoral students.

Transfer Credit

For Rice University's policy regarding transfer credit, see Transfer Credit (https://ga.rice.edu/graduate-students/academic-policies-procedures/regulations-procedures-all-degrees/#transfer). Some departments and programs have additional restrictions on transfer credit. Students are encouraged to meet with their academic program's advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines

Students pursuing the PhD degree in the field of Statistics should be aware of the following departmental transfer credit guidelines:

- Requests for transfer credit will be considered by the program director on an individual case-by-case basis.
Additional Information
For additional information, please see the Statistics website: https://statistics.rice.edu/

Opportunities for the PhD Degree in the field of Statistics

Additional Master’s Degrees Options
Students pursuing the PhD degree in the field of Statistics, or in the field of Economics, have the opportunity to also earn a Master of Arts (MA) degree in either the fields of Statistics or Economics, respectively. For additional information, see the Opportunities (https://ga.rice.edu/programs-study/departments-programs/social-sciences/economics/economics-phd/#opportunitiestext) tab on the Economics page.

Additionally, students pursuing the PhD degree in the field of Political Science have the opportunity to also earn a Master of Arts (MA) degree in the field of Statistics. For additional information, see the Opportunities (https://ga.rice.edu/programs-study/departments-programs/social-sciences/political-science/political-science-phd/#opportunitiestext) tab on the Political Science page.
