Cinema and Media Studies is an interdisciplinary program that focuses on the history, analysis, and theorization of film and other technologically driven visual media, including television, video art, the Internet, and expanded cinema.

Broader survey courses introduce students to the history of moving images and to the fundamentals of cinematic and media analysis, while advanced seminars focus on particular movements, concepts, and themes across specific periods and geographic areas.

The Cinema and Media Studies minor is housed in the Art History department.
