Program Director

kostherr@rice.edu

Medical Humanities is an interdisciplinary field that examines medicine through humanistic disciplines such as history, ethics, religion, literature, cultural anthropology, media studies, and the visual and dramatic arts. Students in the minor will learn about medical systems and practices using methodologies such as close reading, cultural comparison, historical contextualization, creative expression, and critical thinking. The field is committed to interpretive and qualitative work that explores the human dimensions of experiences of health and illness, for doctors and for patients.

The Medical Humanities minor is housed in the Humanities Research Center (ga.rice.edu/programs-study/departments-programs/humanities/humanities-research-center).

Minor

- Minor in Medical Humanities (ga.rice.edu/programs-study/departments-programs/humanities/medical-humanities/medical-humanities-minor)

Medical Humanities does not currently offer an academic program at the graduate level.
