MINOR IN BIOCHEMISTRY AND CELL BIOLOGY

Program Learning Outcomes for the Minor in Biochemistry and Cell Biology
Upon completing the minor in Biochemistry and Cell Biology, students will be able to:

1. Demonstrate knowledge of biology with particular emphasis on biochemistry and cell biology.
2. Demonstrate effective oral and written communication skills, including the ability to interpret and communicate the results of biological research.
3. Demonstrate the critical thinking and analysis skills necessary to evaluate published and proposed research in the biological sciences.

Requirements for the Minor in Biochemistry and Cell Biology
Students pursuing the minor in Biochemistry and Cell Biology must complete:

- A minimum of 18 courses (44 credit hours) to satisfy minor requirements.

The minor in Biochemistry and Cell Biology is intended for those with an interest in the life sciences but who may be majoring in other areas. This minor incorporates many of the life science core courses required for the health professions.

The courses listed below satisfy the requirements for this minor. In certain instances, courses not on this official list may be substituted upon approval of the minor’s academic advisor (or official certifier). Students and their academic advisors should identify and clearly document the courses to be taken.

Required Courses

- MATH 101 SINGLE VARIABLE CALCULUS I 3
- MATH 102 SINGLE VARIABLE CALCULUS II 3
- PHYS 125 GENERAL PHYSICS (WITH LAB) 4
- PHYS 126 GENERAL PHYSICS II (WITH LAB) 4
- CHEM 121 GENERAL CHEMISTRY I 4
  & CHEM 123 and GENERAL CHEMISTRY LABORATORY I 4
- CHEM 122 GENERAL CHEMISTRY II 4
  & CHEM 124 and GENERAL CHEMISTRY LABORATORY II 4
- CHEM 211 ORGANIC CHEMISTRY I and ORGANIC CHEMISTRY DISCUSSION II 3
  & CHEM 214 and ORGANIC CHEM DISCUSSION II 3
- CHEM 215 ORGANIC CHEMISTRY LAB 2
- BIOC 201 INTRODUCTORY BIOLOGY 3
- BIOC 301 BIOCHEMISTRY I 3
- BIOC 341 CELL BIOLOGY 3

Select 1 from the following BIOC lab courses:

BIOC 211 INTERMEDIATE EXPERIMENTAL BIOSCIENCES 2

BIOC 305 INVESTIGATIVE BIOCHEMISTRY 3

Select 1 lecture course from departmental course offerings (BIOC) at the 300-level or above. ²

Total Credit Hours 44

Footnotes and Additional Information

1 Permissible Substitutions: MATH 111 and MATH 112 may be substituted for MATH 101; CHEM 151 and CHEM 153 may be substituted for CHEM 121 and CHEM 123; CHEM 152 and CHEM 154 may be substituted for CHEM 122 and CHEM 124; CHEM 320 may be substituted for CHEM 212; CHEM 365 may be substituted for PHYS 101 and PHYS 103 or PHYS 111 may be substituted for PHYS 105; PHYS 102 and PHYS 104 or PHYS 112 may be substituted for PHYS 126.

2 Lecture courses are noted in Rice’s Course Catalog with a course type of "lecture". These courses do not include courses listed with a course type of "lecture/laboratory".

Policies for the Minor in Biochemistry and Cell Biology

Advising
Rice University policies are governed primarily by the General Announcements; students are encouraged to look there first for academic policies. Advising information specific to the Department of BioSciences can be found at the department website by clicking on the tab for Undergraduate Studies: http://biosciences.rice.edu/.

Program Restrictions and Exclusions
Students pursuing the minor in Biochemistry and Cell Biology should be aware of the following program restrictions:

- As noted in Majors, Minors, and Certificates (ga.rice.edu/undergraduate-students/academic-opportunities/majors-minors-certificates), i.) students may declare their intent to pursue a minor only after they have first declared a major, and ii.) students may not major and minor in the same subject.
- Students pursuing the major in Biological Sciences may not declare the minor in Biochemistry and Cell Biology.

Transfer Credit
For Rice University’s policy regarding transfer credit, see Transfer Credit (ga.rice.edu/undergraduate-students/academic-policies-procedures/transfer-credit). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: http://oaa.rice.edu. Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.
Departmental Transfer Credit Guidelines

Students pursuing the minor in Biochemistry and Cell Biology should be aware of the following departmental transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program's official transfer credit advisor) on an individual case-by-case basis.

For additional information, please see the BioSciences website: http://biosciences.rice.edu/.

Opportunities for the Minor in Biochemistry and Cell Biology

Academic Honors

The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see Latin Honors (ga.rice.edu/undergraduate-students/honors-distinctions/university) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (ga.rice.edu/undergraduate-students/honors-distinctions/university). Some departments have department-specific Honors awards or designations.

Research in the BioSciences

Research is highly encouraged for all biosciences majors, and there are many opportunities for independent research at Rice. Information about research for credit and research internships specific to the Department of BioSciences can be found at the department website, by clicking on the link for Undergraduate Studies, at: http://biosciences.rice.edu/.

For additional information, please see the BioSciences website: http://biosciences.rice.edu/.
