

BACHELOR OF ARTS (BA) DEGREE WITH A MAJOR IN BIOSCIENCES AND A MAJOR CONCENTRATION IN ECOLOGY AND EVOLUTIONARY BIOLOGY

Program Learning Outcomes for the BA Degree with a Major in Biosciences and a Major Concentration in Ecology and Evolutionary Biology

Upon completing the BA degree with a major in Biosciences and a major concentration in Ecology and Evolutionary Biology, students will be able to:

1. Demonstrate a broad knowledge of core concepts in biology.
2. Demonstrate an advanced understanding of ecology and evolutionary biology.
3. Demonstrate the ability to access scientific literature in the biological sciences and to use critical thinking skills to evaluate primary and secondary sources of biological research.
4. Demonstrate the ability to apply the process of science, including designing experiments and/or building mathematical models, and collecting, analyzing, and interpreting data.
5. Demonstrate effective oral, written, and visual communication skills, including communicating science to diverse audiences.

Requirements for the BA Degree with a Major in Biosciences and a Major Concentration in Ecology and Evolutionary Biology

For general university requirements, see [Graduation Requirements \(https://ga.rice.edu/undergraduate-students/academic-policies-procedures/graduation-requirements/\)](https://ga.rice.edu/undergraduate-students/academic-policies-procedures/graduation-requirements/). Students pursuing the BA degree with a major in Biosciences and a major concentration in Ecology and Evolutionary Biology must complete:

- A minimum of 60 credit hours to satisfy major requirements.
- A minimum of 120 credit hours to satisfy degree requirements.
- A minimum of 31 credit hours taken at the 300-level or above.
- Core courses common to all major concentrations.
- The requirements for the major concentration in Ecology and Evolutionary Biology. When students declare the major (<https://ga.rice.edu/undergraduate-students/academic-opportunities/majors-minors-certificates/#text>) in Biosciences, students must additionally identify and declare one of the four major concentrations, either in:
 - [Biochemistry \(https://ga.rice.edu/programs-study/departments-programs/natural-sciences/biosciences/biochemistry-ba/#requirementstext\)](https://ga.rice.edu/programs-study/departments-programs/natural-sciences/biosciences/biochemistry-ba/#requirementstext), **or**
 - [Cell Biology and Genetics \(https://ga.rice.edu/programs-study/departments-programs/natural-](https://ga.rice.edu/programs-study/departments-programs/natural-sciences/biosciences/cell-biology-and-genetics-ba/#requirementstext)

[sciences/biosciences/cell-biology-and-genetics-ba/#requirementstext](https://ga.rice.edu/programs-study/departments-programs/natural-sciences/biosciences/cell-biology-and-genetics-ba/#requirementstext)), **or**

- [Ecology and Evolutionary Biology \(p. 1\)](#), **or**
- [Integrative Biology \(https://ga.rice.edu/programs-study/departments-programs/natural-sciences/biosciences/integrative-biology-ba/#requirementstext\)](https://ga.rice.edu/programs-study/departments-programs/natural-sciences/biosciences/integrative-biology-ba/#requirementstext).

Because of the common core requirements, it is possible for students to change their major concentration at any time, even after initially declaring the major. To do so, please contact the [Office of the Registrar \(registrar@rice.edu\)](mailto:registrar@rice.edu).

The BA degree emphasizes broad foundational knowledge of biology with in depth exposure to the subfield of ecology and evolutionary biology. Biosciences majors are strongly encouraged to pursue their research interests through independent research experiences. The BA degree program offers greater flexibility than the BS due to fewer required independent research courses as detailed below.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major's academic advisor, or where applicable, the department's Director of Undergraduate Studies. (Course substitutions must be formally applied and entered into Degree Works by the major's [Official Certifier \(https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/\)](https://registrar.rice.edu/facstaff/degreeworks/officialcertifier/).) Students and their academic advisors should identify and clearly document the courses to be taken.

Summary

Code	Title	Credit Hours
Total Credit Hours Required for the Major in Biosciences and a Major Concentration in Ecology and Evolutionary Biology		Minimum of 60
Total Credit Hours Required for the BA Degree with a Major in Biosciences and a Major Concentration in Ecology and Evolutionary Biology		120

Degree Requirements

Code	Title	Credit Hours
Core Requirements		
Non-Biology Courses		
CHEM 121	GENERAL CHEMISTRY I ¹	3
or CHEM 111	AP/OTH CREDIT IN GENERAL CHEMISTRY I	
CHEM 123	GENERAL CHEMISTRY LABORATORY I ¹	1
or CHEM 113	AP/OTH CREDIT IN GENERAL CHEMISTRY LAB I	
MATH 101	SINGLE VARIABLE CALCULUS I	3
or MATH 105	AP/OTH CREDIT IN CALCULUS I	
MATH 102	SINGLE VARIABLE CALCULUS II	3
or MATH 106	AP/OTH CREDIT IN CALCULUS II	
PHYS 125	GENERAL PHYSICS (WITH LAB) ²	4
STAT 305	INTRODUCTION TO STATISTICS FOR BIOSCIENCES ³	4
or STAT 315 / DSCI 301	PROBABILITY AND STATISTICS FOR DATA SCIENCE	
Core Lecture Courses		
BIOS 201	INTRODUCTORY BIOLOGY I	3
BIOS 202	INTRODUCTORY BIOLOGY II	3

Elective Lecture Course
 Select 1 elective course from lecture courses offered by the
 Wiess School of Natural Sciences or the George R. Brown School
 of Engineering at the 200-level or above ⁴ 3

Code	Title	Credit Hours
------	-------	--------------

Major Concentration in Ecology and Evolutionary Biology

Core Requirements

Lecture Courses

BIOS 312	ADVANCED COMMUNICATION IN THE BIOLOGICAL SCIENCES	2
BIOS 332	ECOLOGY	3
BIOS 334	EVOLUTION	3
BIOS 338	ANALYSIS AND VISUALIZATION OF BIOLOGICAL DATA	3

Elective Lecture Courses in Ecology and Evolutionary Biology

Select 3 courses from the following: 9

BIOS 321	ANIMAL BEHAVIOR	
BIOS 326	INSECT BIOLOGY	
BIOS 329	ANIMAL DIVERSITY	
BIOS 336	PLANT DIVERSITY	
BIOS 373	CORAL REEF ECOSYSTEMS	
BIOS 391	TRANSFER CREDIT IN ECOLOGY AND EVOLUTIONARY BIOLOGY	
BIOS 423	CONSERVATION BIOLOGY	
BIOS 431	BIOLOGY OF INFECTIOUS DISEASES	

Elective Lecture Courses in Biochemistry and Cell Biology

Select 2 courses from the following (or select 2 additional
 courses (6 credit hours) from the Elective Lecture Courses in
 Ecology and Evolutionary Biology, see course list above) 6

BIOE 464	EXTRACELLULAR MATRIX	
BIOS 300	PARADIGMS IN BIOCHEMISTRY AND CELL BIOLOGY	
BIOS 301	BIOCHEMISTRY I	
BIOS 302	BIOCHEMISTRY II	
BIOS 340	INTEGRATIVE ANIMAL PHYSIOLOGY	
BIOS 341	CELL BIOLOGY	
BIOS 344	MOLECULAR BIOLOGY AND GENETICS	
BIOS 352	PHYSICAL CHEMISTRY FOR THE BIOSCIENCES	
BIOS 368	CONCEIVING AND MISCONCEIVING THE MONSTROUS IN FICTION AND IN ART, IN MEDICINE AND IN BIOSCIENCE	
BIOS 372	IMMUNOLOGY	
BIOS 385	FUNDAMENTALS OF CELLULAR AND MOLECULAR NEUROSCIENCE	
BIOS 390	TRANSFER CREDIT IN BIOCHEMISTRY AND CELL BIOLOGY	
BIOS 410	STEM CELL BIOLOGY	
BIOS 424	MICROBIOLOGY AND BIOTECHNOLOGY	
BIOS 425	PLANT MOLECULAR GENETICS AND DEVELOPMENT	

BIOS 442	MOLECULES, MEMORY AND MODEL ANIMALS: METHODS IN BEHAVIORAL NEUROSCIENCE	
BIOS 443	DEVELOPMENTAL NEUROBIOLOGY	
BIOS 447	EXPERIMENTAL BIOLOGY AND THE FUTURE OF MEDICINE	
BIOS 449	ADVANCED CELL AND MOLECULAR NEUROSCIENCE	
BIOS 450	VIRUSES AND INFECTIOUS DISEASES	
BIOS 460	CANCER BIOLOGY	
BIOS 470	COMPUTATION WITH BIOLOGICAL DATA	
BIOS 481	MOLECULAR BIOPHYSICS I	
BIOS 482	STRUCTURAL BIOLOGY	
NEUR 380 / PSYC 380	FUNDAMENTAL NEUROSCIENCE SYSTEMS	

Core Laboratory Course

BIOS 213	INTRODUCTORY LAB IN ECOLOGY & EVOLUTION	2
----------	---	---

Elective Laboratory Courses in Ecology and Evolutionary Biology

Select 2 courses from the following: 2-4

BIOS 310	INDEPENDENT RESEARCH FOR BIOSCIENCES UNDERGRADUATES ⁵	
BIOS 316	LAB MODULE IN ECOLOGY	
BIOS 317	LAB MODULE IN BEHAVIOR	
BIOS 319	TROPICAL FIELD BIOLOGY	
BIOS 320	ECOLOGY AND CONSERVATION OF BRAZILIAN WETLANDS LABORATORY	
BIOS 322	CONSERVATION BIOLOGY LAB	
BIOS 327	BIOLOGICAL DIVERSITY	
BIOS 330	INSECT BIOLOGY LAB	
BIOS 337	FIELD BIRD BIOLOGY LAB	
BIOS 339	PLANT DIVERSITY LAB	
BIOS 393	LABORATORY TRANSFER CREDIT IN BIOSCIENCES	

Elective Laboratory Course in Biochemistry and Cell Biology

Select 1 course from the following: 1-2

BIOS 211	INTERMEDIATE EXPERIMENTAL BIOSCIENCES	
----------	---------------------------------------	--

1 additional course (1-2 credit hours) from the Elective Laboratory Courses in Ecology and Evolutionary Biology (see course list above)

Capstone Requirement ⁶

Select 1 course from the following: 3

BIOS 423	CONSERVATION BIOLOGY	
BIOS 431	BIOLOGY OF INFECTIOUS DISEASES	

Total Credit Hours Required for the Major in Biosciences and Major Concentration in Ecology and Evolutionary Biology of 60

Additional Credit Hours to Complete Degree Requirements * 29

University Graduation Requirements (<https://ga.rice.edu/undergraduate-students/academic-policies-procedures/graduation-requirements/>) * 31

Total Credit Hours 120

Footnotes and Additional Information

* **Note:** [University Graduation Requirements](#) include 31 credit hours, comprised of Distribution Requirements (Groups I, II, and III), FWIS, and LPAP coursework. In some instances, courses satisfying major requirements may additionally meet distribution requirements. [Additional Credit Hours to Complete Degree Requirements](#) include general electives, coursework completed as upper-level, residency (hours taken at Rice), and/or any other additional academic program requirements.

¹ CHEM 151 may be substituted for CHEM 121 or CHEM 111; CHEM 153 may be substituted for CHEM 123 or CHEM 113.

² PHYS 101 **and** PHYS 103 **or** PHYS 111 may be substituted for PHYS 125.

³ STAT 280 may be substituted for STAT 305.

⁴ Students must select 1 elective course (3 credit hours) from courses offered by the Wiess School of Natural Sciences or the George R. Brown School of Engineering at the 200-level or above, designated as a lecture course. Courses offered by the Wiess School of Natural Sciences or the George R. Brown School of Engineering include the following subject codes: ASTR, BIOE, BIOS, CAAM, CEVE, CHBE, CHEM, COMP, DSCI, EEPS, ELEC, ENGI, GLHT, HEAL, KINE, MATH, MECH, MSNE, NEUR, NSCI, PHYS, RCEL, and STAT.

⁵ BIOS 310 must be taken for at least 3 credit hours to fulfill an Elective Laboratory Requirement. BIOS 310 can only fulfill Elective Laboratory Requirements once for the BA.

⁶ The Capstone Requirement is **in addition** to the other lecture course requirements. The same course may not be used to satisfy more than one requirement for this major and/or major concentration.

Policies for the BA Degree with a Major in Biosciences and a Major Concentration in Ecology and Evolutionary Biology

Advising

Rice University policies are governed primarily by the General Announcements; students are encouraged to look there first for academic policies. Advising information specific to the Department of BioSciences can be found at the department website by clicking on the tab for *Undergraduate Program*: <https://biosciences.rice.edu/>.

Program Restrictions and Exclusions

Students pursuing the BA Degree with a Major in Biosciences and a Major Concentration in Ecology and Evolutionary Biology should be aware of the following program restrictions:

- As noted in [Majors, Minors, and Certificates](https://ga.rice.edu/undergraduate-students/academic-opportunities/majors-minors-certificates/) (<https://ga.rice.edu/undergraduate-students/academic-opportunities/majors-minors-certificates/>), under *Declaring Majors, Minors and Certificates*, students may not obtain both a BA and a BS in the same major. Students pursuing the BA Degree with a Major in Biosciences and a Major Concentration in Ecology and Evolutionary Biology may not additionally pursue the BS Degree with a Major in Biosciences.
- Students pursuing the major in Biosciences may pursue only one major concentration within the major.
- Students pursuing the major in Biosciences and a major concentration in Ecology and Evolutionary Biology may not additionally declare the minor in Ecology and Evolutionary Biology.

Transfer Credit

For Rice University's policy regarding transfer credit, see [Transfer Credit](https://ga.rice.edu/undergraduate-students/academic-policies-procedures/transfer-credit/) (<https://ga.rice.edu/undergraduate-students/academic-policies-procedures/transfer-credit/>). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of transfer credit advisors on their website: <https://oaa.rice.edu>. Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

Departmental Transfer Credit Guidelines

Students pursuing the major in Biosciences should be aware of the following departmental transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program's official transfer credit advisor) on an individual case-by-case basis.

Additional Information

For additional information, please see the BioSciences website: <https://biosciences.rice.edu/>

Opportunities for the BA Degree with a Major in Biosciences and a Major Concentration in Ecology and Evolutionary Biology

Academic Honors

The university recognizes academic excellence achieved over an undergraduate's academic history at Rice. For information on university honors, please see [Latin Honors](https://ga.rice.edu/undergraduate-students/honors-distinctions/university/) (<https://ga.rice.edu/undergraduate-students/honors-distinctions/university/>) (*summa cum laude*, *magna cum laude*, and *cum laude*) and [Distinction in Research and Creative Work](https://ga.rice.edu/undergraduate-students/honors-distinctions/university/) (<https://ga.rice.edu/undergraduate-students/honors-distinctions/university/>). Some departments have department-specific Honors awards or designations.

Departmental Honors

Instructions on applying for the Distinction in Research and Creative Work award from the Department of BioSciences can be found at the department website, by clicking on the link for *Undergraduate Program*, at: <https://biosciences.rice.edu/>.

Research in the BioSciences

Research is highly encouraged for all biosciences majors, and there are many opportunities for independent research at Rice. Information about research for credit and research internships specific to the Department of BioSciences can be found at the department website, by clicking on the link for *Research*, at: <https://biosciences.rice.edu/>.

Additional Information

For additional information, please see the BioSciences website: <https://biosciences.rice.edu/>
