BACHELOR OF ARTS (BA) DEGREE WITH A MAJOR IN ENVIRONMENTAL SCIENCE AND A MAJOR CONCENTRATION IN EARTH SCIENCE

Program Learning Outcomes for the BA Degree with a Major in Environmental Science

Upon completing the BA degree with a major in Environmental Science, students will be able to:

1. Demonstrate foundational knowledge in the natural sciences that is fundamental to the Environmental Sciences. This understanding should be adequate to support the incorporation of environmental science knowledge into the study and practice of a field other than environmental science.
2. Integrate knowledge of natural and applied sciences to understand complex natural systems and cycles.
3. Synthesize knowledge from natural sciences and engineering and understand how it applies to the study of the environment.
4. Understand environmental issues from a scientific perspective and be able to solve issues using a variety of interdisciplinary perspectives (e.g., social sciences, economics, humanities, and/or architecture).

Requirements for the BA Degree with a Major in Environmental Science

For general university requirements, see Graduation Requirements (ga.rice.edu/undergraduate-students/academic-policies-procedures/graduation-requirements). Students pursuing the BA degree with a major in Environmental Science must complete:

- A minimum of 22-24 courses (a minimum of 62-64 credit hours) depending on course selection to satisfy major requirements.
- A minimum of 122-124 credit hours to satisfy degree requirements.
- A minimum of 60 credit hours outside of major requirements.
- A minimum of 4-6 courses (a minimum of 12-18 credit hours, depending on declared major concentration) taken at the 300-level or above.
- The requirements of a major concentration. When students declare the major (ga.rice.edu/undergraduate-students/academic-opportunities/majors-minors-certificates/#text) in Environmental Science, students must additionally identify and declare one of two major concentrations, either in:
  - Earth Science (p. 3), or

Because of the common core requirements, it is possible for students to change their major concentration at any time, even after initially declaring the major. To do so, please contact the Office of the Registrar (registrar@rice.edu).

Environmental science is an interdisciplinary major that addresses environmental issues in the context of what we know about earth, ecology, and society. In addition to its science core, the major also seeks to provide students with some appreciation of social, cultural, and policy dimensions of environmental issues.

The courses listed below satisfy the requirements for this major. In certain instances, courses not on this official list may be substituted upon approval of the major’s academic advisor (or official certifier). Students and their academic advisors should identify and clearly document the courses to be taken.

Bachelor of Arts (BA) Degree with a Major in Environmental Science and a Major Concentration in Earth Science

**Field Experience**

*Select 1-2 courses from the following:*

- **EBIO 306** Independent Research for Ecology & Evolutionary Biology Undergraduates
- **EBIO 316** Lab Module in Ecology
- **EBIO 317** Lab Module in Behavior
- **EBIO 320** Ecology and Conservation of Brazilian Wetlands Laboratory
- **EBIO 324** Conservation Biology Lab
- **EBIO 327** Biological Diversity
- **EBIO 330** Insect Biology Lab
- **EBIO 337** Field Bird Biology Lab
- **ENST 379 / EBIO 379** Lab Module in Aquatic Ecology with SCUBA
- **ESCI 103** Field Trips for the Earth
- **ESCI 334** Geological Techniques
- **ESCI 380 / FOTO 390** Visualizing Nature
- **ESCI 390** Geology Field Camp
- **ESCI 391** Earth Science Field Experience
- **FWIS 187** Exploring the Science and History of Houston’s Bayous

**Major Concentration**

*Select 1 from the following Major Concentrations (see below for Major Concentration requirements):*

- **Earth Science**
- **Ecology and Evolutionary Biology**

**Advanced Electives**

*Select 1 from the following:*

- **ANTH 348** Anthropologies of Nature
- **ANTH 381** Medical Anthropology
- **ENST 302 / SOCI 304** Environmental Issues: Rice into the Future
- **ENST 332 / ANTH 332** The Social Life of Clean Energy
- **ENST 367 / SOCI 367** Environmental Sociology
- **ENST 437 / ECON 437** Energy Economics
- **ENST 480 / ECON 480** Environmental and Energy Economics
- **POLI 331** Environmental Politics and Policy
- **POLI 332** Urban Politics
- **POLI 362** Comparative Urban Politics and Policy
- **SOCI 313** Demography
- **SOCI 423** Sociology of Food

**Humanities and Architecture**

*Select 1 from the following:*

- **ENGL 358** Consumption and Consumerism
- **ENGL 367 / SWGS 367** Literature and Culture of the US-Mexico Borderlands
- **ENST 202 / HUMA 202** Culture, Energy, and the Environment: An Introduction to Energy Humanities
- **ENST 313 / ARCH 313** Sustainable Design
- **ENST 322 / ARCH 322** Case Studies in Sustainability: The Regenerative Repositioning of New or Existing Rice Campus BU
- **ENST 368 / ENGL 368** Literature and the Environment
- **ENGL 459** Topics in Literature and Ecology
- **ESCI 334** Geological Techniques
- **ESCI 376 / HIST 376** Natural Disasters in Literature and Ecology
- **HIST 425** 20th Century American Conservation Movement

**Natural Sciences and Engineering**

*Select 1 from the following:*

- **CEVE 302 / ENGI 302** Sustainable Design
- **CEVE 308** Introduction to Air Pollution Control
- **CEVE 310** Principles of Environmental Engineering
- **CEVE 401** Chemistry for Environmental Engineering and Science Lab
- **CEVE 404** Atmospheric Particulate Matter
- **CEVE 411** Atmospheric Processes
- **CEVE 412** Hydrology and Water Resources Engineering
- **CEVE 420** Environmental Remediation Restoration
- **CEVE 434** Fate and Transport of Contaminants in the Environment
- **CEVE 484 / STAT 484** Environmental Risk Assessment & Human Health
- **CHEM 211** Organic Chemistry I & CHEM 213 and Organic Chemistry Discussion
- **ENST 307 / CEVE 307 / ESCI 307** Energy and the Environment
- **ENST 406 / CEVE 406** Introduction to Environmental Law
- **PHYS 101** Mechanics (with Lab) & PHYS 103 and Mechanics Discussion
- **PHYS 102** Electricity & Magnetism (with Lab) & PHYS 104 and Electricity and Magnetism Discussion

**Total Credit Hours Required for the Major in Environmental Science**

Footnotes and Additional Information

1. Includes coursework completed as distribution credit, FWIS, LPAP, upper-level, residency (hours taken at Rice), 60 hours outside of the major (if applicable), and any additional academic program requirements. The "hours outside of the major" requirement may include all of the above university requirements.

2. CHEM 121 and CHEM 123 can be satisfied by completing CHEM 151 and CHEM 153. Similarly, CHEM 122 and CHEM 124 can be satisfied by completing CHEM 152 and CHEM 154.

3. The core courses acquaint students with a range of environmental topics encountered by scientists, engineers, managers, and policy makers. Core courses stress the components of the global environment and their interactions, culminating with a tropical seminar that integrates across the field.

4. Students may also petition to complete alternative courses to be applied toward the Advanced Electives requirement.

Major Concentration: Earth Science

Students must complete a total of 3 courses (minimum of 9 credit hours) as listed below to satisfy the requirements for the major concentration in Earth Science.

<table>

Footnotes and Additional Information

1. Note that the course not completed in the Core Requirements list for the major concentration in Earth Science may be completed to apply towards the major’s Elective Requirements.

Policies for the BA Degree with a Major in Environmental Science and a Major Concentration in Earth Science

Transfer Credit

For Rice University’s policy regarding transfer credit, see Transfer Credit (ga.rice.edu/undergraduate-students/academic-policies-procedures/transfer-credit). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university’s official list of transfer credit advisors on their website: http://oaa.rice.edu. Students are encouraged to meet with their academic program’s transfer credit advisor when considering transfer credit possibilities.

Program Transfer Credit Guidelines

Students pursuing the major in Environmental Science should be aware of the following program transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program’s official transfer credit advisor) on an individual case-by-case basis.

For additional information, please see the Department of Earth, Environmental, and Planetary Sciences website, and specifically the Environmental Science major page, at: http://earthscience.rice.edu/academics/undergraduate-program/

Opportunities for the BA Degree with a Major in Environmental Science and a Major Concentration in Earth Science

Academic Honors

The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see Latin Honors (ga.rice.edu/undergraduate-students/honors-distinctions/university) (summa cum laude, magna cum laude, and cum laude) and Distinction in Research and Creative Work (ga.rice.edu/undergraduate-students/honors-distinctions/university). Some departments have department-specific Honors awards or designations.

Independent Research

Students are encouraged to undertake independent research on environmentally related topics as part of their degree programs, in cooperation with one or more faculty. Course options for independent research, repeatable for credit, include: EBIO 403, EBIO 404, and ESCI 481.
Students also can enroll in senior honors thesis programs within their major concentrations, or by arrangement with other departments, and/or through the Rice Undergraduate Scholars Program. Students completing a thesis will also be eligible for the Distinction in Research and Creative Work, a university honor. Details for each program can be found here:

- **EBIO Honors Research**
  [link](https://biosciences.rice.edu/Content.aspx?id=2147484071)

- **ESCI Senior Honors Thesis**
  [link](http://earthscience.rice.edu/academics/undergraduate-program/honors-thesis)

- **Rice Undergraduate Scholars Program**
  [link](https://ccl.rice.edu/students/learn/undergraduate-research/rice-undergraduate-scholars-program-rusp/)

For additional information, please see the Department of Earth, Environmental, and Planetary Sciences website, and specifically the Environmental Science major page, at: [link](http://earthscience.rice.edu/academics/undergraduate-program/)
