**MINOR IN PHYSICS**

Program Learning Outcomes for the Minor in Physics

Upon completing the minor in Physics, students will be able to:

1. Acquire and demonstrate a solid foundation of knowledge in physics. This includes: basic mechanics, basic electromagnetism, Maxwell's equations in differential form, waves, interference and diffraction, special relativity, the Schroedinger equation, and the wave formulation of quantum mechanics.
2. Acquire and demonstrate knowledge in a number of advanced physics topics of their choosing.

Requirements for the Minor in Physics

Students pursuing the minor in Physics must complete:

- A minimum of 35 credit hours to satisfy minor requirements.
- A minimum of 26 credit hours to satisfy the Core Requirements.
- A minimum of 9 additional credit hours from departmental (PHYS) course offerings at the 300-level or above.

The courses listed below satisfy the requirements for this minor. In certain instances, courses not on this official list may be substituted upon approval of the minor's academic advisor, or where applicable, the Program Director. (Course substitutions must be formally applied upon approval of the minor's academic advisor, or where applicable, the Program Director (and/or the program's official transfer credit advisor) on an individual case-by-case basis. Requests for transfer credit will be considered by the program director (and/or the program's official transfer credit advisor) on an individual case-by-case basis.

</table>

### Elective Requirements

Select a minimum of 3 courses from departmental (PHYS) course offerings at the 300-level or above.

Total Credit Hours: 35

### Policies for the Minor in Physics

#### Program Restrictions and Exclusions

Students pursuing the minor in Physics should be aware of the following program restrictions:

- As noted in Majors, Minors, and Certificates ([https://ga.rice.edu/undergraduate-students/academic-opportunities/majors-minors-certificates/](https://ga.rice.edu/undergraduate-students/academic-opportunities/majors-minors-certificates/)), i.) students may declare their intent to pursue a minor only after they have first declared a major, and ii.) students may not major and minor in the same subject.
- Students pursuing the major in Astronomy may not declare the minor in Physics.
- Students pursuing the major in Astrophysics may not declare the minor in Physics.

#### Transfer Credit

For Rice University's policy regarding transfer credit, see Transfer Credit ([https://ga.rice.edu/undergraduate-students/academic-policies-procedures/transfer-credit/](https://ga.rice.edu/undergraduate-students/academic-policies-procedures/transfer-credit/)). Some departments and programs have additional restrictions on transfer credit. The Office of Academic Advising maintains the university's official list of transfer credit advisors on their website: [https://oaa.rice.edu](https://oaa.rice.edu). Students are encouraged to meet with their academic program's transfer credit advisor when considering transfer credit possibilities.

#### Departmental Transfer Credit Guidelines

Students pursuing the minor in Physics should be aware of the following departmental transfer credit guidelines:

- Requests for transfer credit will be considered by the program director (and/or the program's official transfer credit advisor) on an individual case-by-case basis.

### Additional Information

For additional information, please see the Physics and Astronomy website: [https://physics.rice.edu/](https://physics.rice.edu/)

### Opportunities for the Minor in Physics

#### Academic Honors

The university recognizes academic excellence achieved over an undergraduate’s academic history at Rice. For information on university honors, please see [Latin Honors](https://ga.rice.edu/undergraduate-students/honors-distinctions/latinn honors) and [Distinction in Research and Creative Work](https://ga.rice.edu/undergraduate-students/honors-distinctions/distinction-in-research-and-creative-work). Some departments have department-specific Honors awards or designations.
