The professional master’s degree in Subsurface Geoscience is designed for students who wish to become proficient in applying geological knowledge and geophysical methods to finding and developing reserves of oil and natural gas.

The MSSG degree program offers three areas of specialization:

- **Energy Data Management**: prepares students to understand exploration and production as a data-driven business, to become data enabled geoscientists to match demands in the energy industry, or
- **Geology**: prepares students to be explorationists, with strong skills in using seismic and other geophysical methods along with geological principles to find oil and natural gas, or
- **Geophysics**: prepares students to become technical experts in aspects of exploration seismology.

The MS in Subsurface Geoscience (MSSG) degree is part of the professional science master’s (PSM) program at Rice housed in the Wiess School of Natural Sciences. These master’s degrees are designed for students seeking to gain further scientific core expertise coupled with enhanced management and communication skills. They instill a level of scholastic proficiency that exceeds that of the bachelor’s level, and create the cross-functional aptitudes needed in modern industry. This program will allow students to move more easily into management careers in consulting or research and development, design, and/or marketing within the business of their interest.

A coordinated MBA/MSSG degree is offered in conjunction with the Jesse H. Jones Graduate School of Business.

Subsurface Geoscience does not currently offer an academic program at the undergraduate level.

### Master’s Program
- Master of Science in Subsurface Geoscience (MSSG) Degree  
  (ga.rice.edu/programs-study/departments-programs/natural-sciences/subsurface-geoscience/subsurface-geoscience-mssg)

### Coordinated Program
- Master of Science in Subsurface Geoscience (MSSG) Degree / Master of Business Administration (MBA) Degree  
  (ga.rice.edu/programs-study/departments-programs/natural-sciences/subsurface-geoscience/business-administration-mba-subsurface-geoscience-mssg)

### Director
André W. Droxler

### Professors
- Gerald R. Dickens
- Alan Levander
- Julia Morgan
- Fenglin Niu
- Colin A. Zelt

### Associate Professors
- Helge Gonornerman

### Assistant Professors
- Melodie E. French
- Jeff Nittouer

### Adjunct Faculty
- Kenneth Abdullah
- Vitor Abreu
- Kevin Biddle
- Gary Gray
- Mitch Harris
- Jeffrey Nunn
- Malcom Ross
- Kurt Rudolph

### Description and Code Legend
Note: Internally the university uses the following descriptions, codes, and abbreviations for this academic program. The following is a quick reference:

#### Course Catalog/Schedule
- Course offerings/subject codes: Courses from various subjects may apply toward the graduate degree.

#### Program Description and Code
- Earth, Environmental, and Planetary Sciences: EEPS

#### Graduate Degree Description and Code
- Master of Science in Subsurface Geoscience degree: MSSG

#### Graduate Degree Program Description and Code
- Degree Program in Subsurface Geoscience: SGEO
